TURKISH BLACK SALVE.

UNDER THE PATROSAGE OF THE HONORABLE

THIS SALVE, prepared from the original Re-ceipt, procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these real. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The contracted limits of an advertise ment necessarily precludes entering into any adequate detail of its merits, but, for the information of the public, it is intended to publish, from time to time, such statements of cures as have or may occur. It has been used for the following complaints with the most complete success :- Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows, Scalds from Steamboat explosions, or other causes, Burns, Fever Sores, Scrofulous Sores, Sore Nipples, Carbancles, Scald Head, Gun-shot Wounds, Bruises, Boils, Frostbites, Wens, Chilblains, Ulcerated and Common Sore Throats, and Bonions. If used in time. it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, NEW WORKS AND NEW EDITIONS, Paint in the Back, Rheumatism, Gout, Pains in the Liver, Spine, Heart and Hip, Rushing of Blood

We have no doubt but that they will realize a handsome sum. We have received from Mr. W. Morris, of this

city, a lithographic copy of his brother's (Mr. A. Morris) painting of "Jacques Cartier's first interview with the Indians in 1635." It is a very creditable production, and as a historical subject, must recommend itself to every Canadian. We have received the number of "The Bulleti of the American Art Union" for October. It con-

tains an account of the proceedings of the Associa-tion, and two good engravings—one from Cezzis' celebrated painting "Manhood," and the other a sporting subject. The Convention have adopted a resolution providing for a triennial meeting of the Trustees of the Theological Seminary at the same time with the Convention.

The Bishop of Quebec returned to that city on Saturdey last, from a visit, first to Bishops College, Lensoxville, where he met the Bishop of Montreal, and their Lordships both attended a meeting of the College Corporation, and, secondly, a visit to Montreal, where both took part in the proceedings of the Incorporated Church Society.

EXCITEMENT AT DETROIT.—The excitement on the subject of furtive slaves consistes to rage at De roit. The just is still guarded by malitary companies. At Sandwich, in Canada, opesite Detroit, there are, at the least calculation, three handred negroes, who lately crossed the siver. The house of an Irishman, who into met of the negroe furties and patch was stacked on the 12th, and gains and patch was stacked on the 12th, and gains and patch was stacked on the 12th, and gains and patch was allowed by both the assailant and those maile, and some broad whee. A large meeting has been held by the friends of fuedom at which the Mayor presided.—Speeches were made by Hen. S. Binghese, Mayor, and Mesare Joy and Emmont. Some persons anticipate trouble when the negro is out jue in now awaiting his papers. A sub-cription has been traced stiffment to purchase his liberty, should be be sent back.

He thought it. This did not satisfy Wickersham. He thought it. This did not satisfy Wickersham. "He thought it. This did not satisfy Wickersham." INGENIOUS MODE TO AID A PRISONER'S ES-Accordingly the book was taken to a hookbinder, who pronounced that nothing was concealed about it. This did not satisfy Wickersham. He thought from the thickness of the covers that the book contained nomething which was to assist Baker in making his escape. After reaching home he commenced cutting up the covers of the book, and two small saws about eight inches in length, such as machinists use in sawing iron, were brought to view. None but a workman could have concealed these saws in the cover of a book; none but a sugacious rogue could have suggested the plan, and none but a vigilant jailer could have detected it.—Springfield (II.) Journal.

MURDER BY A LUNATEC. -About eight o'clock MURDER BY A LUNATSC.—About eight o'clock last night, the neighborh od of the Fire Points was thrown into a state of great commotion by the doings of a lunatic, named Peter Hewland. It appears that this person, who is a colored man, was louged, on a charge of issaulty, in the City Hospital, from which he made his escape, a cer days since, to the colored boarding house of John Williams, is the rear of No.187 Leonard street. Here he had an altercation with a boarder, which provokables to such an extent that he procured a knie. ne sau an apercation with a boarder, which provokas him to such an extent that he procured a knife,

work and we are confident that it will prove a morintereating one.

Several persons, in attempting to go up s'airs, were felled by a bed post in the hands of the function of that it was at last found necessary to send for a detachment of police to secure him. As it was at time.

We understand that Mr. Heavy B. Immissible for more thats one person logo up s airs at a time, there was considerable danger stending at a time, there was considerable danger stending at a time, there was considerable danger stending this cannot be supported by the province of all the missiles within his reach. As it was at time, there was considerable danger stending to a time for a spent in end avouring to a time him, he was at last struck down by a club in the hands of one of the police, and taken into controlly. Besides the man found murdered in the room, another named frank Rapper, also coloced, is not expected to survive his neutrals. A colored woman, named Rebecca Eutler, is in a very dangerous size. Several other persons are cut and otherwise injured.

Mr. Cowling, of Trinity College, inc Tory can
didate for Cambridge, in Parliament. Usual the
papers says he resembles, in character, the ideal
described somewhere by Punch;

If Turker had delivered the refregees to me; I should have besped favors upon them, as d hour resonant of the reconciled the Poles with Russia. Now they have other hepes, and I must continue to treat hier as a conquired nation, which will not increase sheir effection. In the duties of the great end which I had proposed to myser.

It appears to have on vinced himself that the Preside. I of the French Republic, notwithstanding all the anxiety he shows to be on a good footing with Russia, is soo much a and up with England, and especially with Load Palmerston, whom he always speaks of as a dangerous politicion, to be on sincere good terms with him. These three matters give much more one-siness to the Russian cab net than it is if are of Germany i and it is on this account that people is this country begin to wish for the restoration of legitimacy in France, and the re-establishment of the kingdom of Po and as it existed in 1830, or, in other words, the pure and simple re-

General Haynau.

The Vienna correspondent of the Times, under date September 18, writes as follows: As I supposed that General Haynau's account of what took place at Barclay's, would not prove unacceptable. I have taken advantage of his presence here, to learn the particulars from his own lips. He had been about three-quinters of an hour in the brewhouse before the attack was made upon him, and he distinctly says that the originators of the outrege were, as far as he could judge from their clothing, draymen, but hat they were certainly subsequently aided and abetted by some individuals whom he recognized as clerks. The General does not seem to have submitted with lambitike patience to the indignities offered him, for he states time him with amana is to repeated contact with some hard substance, which lines a reason for believing was the skull of a drayman. The truth of the whipping business, is as follows:

Madame de Maderspach, a lady in affluent circumstances, having dressed up a figure like the Emperor, committed it to the hands of her people, who first subjected it to all possible indignities, and then interred it with many ridicinous ceremor les. As your correspondent of the 12th, "A Loudoner," rightly states, a cavalry captain, who commanded a detachment in the resistions. and then interred it with many ridicalous ceremories. As your correspondent of the 12th,
"A Londoner," rightly states, a cavalry captain,
who commanded a detachment in the neighborbood, took upon himself to sentence the fady to
twenty-five blows with a rod, which pusishment
was inflicted. Generat Hays au, who was commander-in-chief at the time, was some 30 German
miles (about 140 English) distant when the circumstance occurred.—He never saw Madame de
Maderspach until he had been some time in Pesth,
when she called on him and implored him to liberate her eldest son, who had been pressed into the
army. I have the Feldseumeister's anthority rate her eldest son, who had been pressed into the army. I have the Feldzeugmeister's authority for stating that her request was instantly granted. The impression produced upon me by Hay-au's remarks is that he is more astonished than indignant that 200 or 300 Englishmen should have assulted him. General Haynau dined, yestenday, with Prince Schwartzenburg, and all the officers in gargison here have been to pay their respects to him.

ME EDICINE'S containing Molasses or LaquoVM vice the the boasted Sursaparities, require narry large bottles to produce the nightest change in health. The Forest Wine is altogether a different article. It co takes no Syraps to give it consistency, but acquires the excellent flavor and powerful medicinal qualities from the vegetable plaints of which it is composed. The Forest Wine combines the virtues of the WILD CHEFERY. DANDELION, YEL

SAVED FROM DEATH!!

Ten ony of Ma. NATHAM MATISHWA. a highly respect ble and usualthy citizen of Nescurk, N. J. Da. G. W. Halsart—I believe jour Forest wine and Fills have been the means of saving my life. When I commenced taking them, I had at the point of death, with Dropsy, Piles, and Asthema. My Physicians had given me over as past cure, and my family had lost all hope of my recovery. While in this deadful attuation, your forcest Wine and Fills were procured for me, and before I had finished the first bottle of the Wine, and box of Fills, I experienced great rehef; my hody-and limbs, which were greatly as offen, became sensibly reduced. Hopes of my recovery began now to revive, and after continuing the use of year medicines for about a month, he Files and Asthmas were completely cured. The Dropay, with which my life was placed in such great dange, we's also mearly gone. I have continued the use of your expellent Medicines until the presunt lime, and I now thoy as perfect he lith as ever I did in my life, although I am mute than sixty years of age. I ascrabe my recovery entirely to the use of your expellent Medicines. Several of my neighbors have also used them with similar success in obstinate compaints, and I can cheerfully recommend them to the public.

Yeurs, respectfully, N. MATHEWS.

GREAT CUKE OF LIVER COMPLAINT OF TEN YEARS STANDING!

New York, Jan. 9, 1848.

Dr. Halbey — Dr. a Str. — having taken your Forest Wine and Pills to remove a disease of the Liver, from which it have suffered reversly for opwards of ten years; and, having adherest chaely to me directions which accompany the 3d diction, I have recovered my be alth, notwithstanding all who knew me shought my case incumble. Previous to taking the Wine and Pills, 1 had recounse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my trends spoke despairingly of my case, and sted to persuade me from making use of any advertised remedies; hard. I doubt no!, but what here are immired who are dissuaded from taking your excellent Medicines, in consequence o the deception and it efficiency of many advertised remedies put torth by suprincipled men, in darring advertisements. But, what a pity is in that the deception med by others should be the means of dissuading many laboring under disease, from meking uniand being cured by your excellent remedie a liturality speaking, they have sayed my life; when i commenced making use of them, i was in a writched condition, but began to excellent remedie. of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nontrums of the day had startly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their munifest and censible action in purifying the springs and channels of life; and enduing them with renewed tone and vigor, that they were inducted for their name.

their name.

Unlike the host of permissons quackeries which beast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenio, nor any other mineral, in any form whatever. They are entirely composed of astracts from rare and powerful plants, the virtues of which, though long known to several indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant protenders to medical science; and were never before administered in so happily afficacions a combination.

The first operation is to loces from the coan of the stomach and bowels the various impurities and crudities constantly setting round them; and to remove the hardeaded faces which collect in the convolutions of the small intestines. Other medi-

the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardeauch faces which collect in the conventations of the small intestines. Other medicines only partially cleanes these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrheas with its imminent dangers. This fact is well known to all regular anatomists who examine the numan bowels after death; and hence the prejudics of these well-infermed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICIRES is to cleane the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the armary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food conting from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infailible:

DYSPEPSIA, by theroughly cleansing the first and second stomachs, and creating a flow of pure healthy bic, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburg, Heades..., Roetlessness, Ill-temper, Anxiety, Langiuer, and Meleascholy, which are the general symptome of Dyspepsia, will vanish, as a natural consequence of its cure.

Continuous, by eleaning the whole length of the intestiner with a solvent process, and without violence: all violent purgus leave the bowels controlled in such cases, and the thorough solution et all intestinal obstruction in others.

The Live Menicines have been known to care RHEUMATISM permanently in three weeks, and GOUT in hulf that time, by removing local inflammation from the muscles and ligaments of the just.

company and measure of operate more delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Warms, by disledging from the turnings of the bowels the slimy matter to which these treatures address.

Aghma and Consumption, by relieving the air-vessels of the lauge from the muccous which even slight colds will occasion, and which, if not removed, becomes hardened, and preduces these desafted diseases.

Scurry, Ulears, and Invotorate Stree, by the perfect parity which these LIFE MEDICINES give to the blood, and all the humans.

Scurry their alternitive effect upon the fluid that feed the skin, and the morbid state of which becasions all craptive complaints, callew, cloudy, and other diagreeable complexions.

The use of these Files for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin.

COMMON COLDS and INFLUENZA will always be care I by one dues, or by two even in the worst case.

PILES As remedy for this most distressing and obstinitis malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphasic recommendation. It is well known to hundreds in this city, that the former proprietes of these valuable bediences was himself afflicted with this complaint for upwards of ventry-rave years; and that he tried in vain every remedy prescribed within the whole compans of the Raterio Medica. He however at length tried the Medicine which is now effected by the public, and he was cared in a very short time, after his recovery had been presented, by any human means.

REDUCED RATES OF PREMIUM—HALF
CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in Bettish North America, to the ordinary knoppen Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at such lesser lates of Premium than those of one other assurance Company I ensecting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Poicy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
