ports ready to convey the troops where they are most needed." THE RUSSIAN POSITION.

LONDON, Aug. 9. This morning's newspapers look upon the Russian situation more favorably than they have for several days. The Times declares that while proposal was said to have involved a he position of certain portions of the Russian forces still remains critical, here is every reason to believe that he excellent order with which their ithdrawal has been executed, thus ar, will be maintained, until all have eached the new line of defence. Lite additional news has reached Londent in that city, describing the retiring Russian troops, says: There was no feeling of hopelessness, although disappointment was written on every face. The long Russian re-treat, culminating in the fall of Warsaw, has touched the lethargic tem-perament of the Russian nation, and to-day the war has the support of the entire Russian people. There is not the slightest suggestion anywhere of without a decision.

Five Mexican bandits, one a Mexican woman. were killed fighting yesterday at Norias, 68 miles north of here. For an hour fifteen Americans eight of them United States cavalry men, stood off the attacks of sixty Mexicans. Five Americans wounded, three of the latter soldiers. Fifteen Americans were saved from death, just as their ammunition gave out, by the arrival of seventeen Texas Rangers.

THE LONDON BUDGET.

LONDON, Aug. 9. While the Austro-German armies made fresh progress to-day in their campaign against the Russians, the mperative in order to escape from ported a fierce artillery engagement in which British and French forces captured trenches in Hooge along a front of 1,200 yards.

The occupation of Praga, reported by Berlin, brings to a dramatic climax the first phase of the drive to the Polish capital and the region of Eastern Poland, of which Warsaw is the dominating country. Praga is essentially a part of the capital with great railway stations and roads runing to Petrograd and Moscow. 'Few details have been received the Grand Duke Nicholas's final stand at Praga, but indications are that the withdrawal of the Russians became meprative in order to escape from the German lines gradually drawing together in the rear. The German lines spread along the river Narew on the north and the Vistula on the south, contracting gradually as the armies in the north and those in the

south approach each other. A strip of territory across which the Rusians may withdraw to safer positions now is hardly more than thirty miles. This enveloping movement immediately to the east of Warsaw, Berlin reports, is steadily hammering at the great Russian fortresses of Koyno and Lomz, the chief significance of

grad. Novgie is the only place west of Warsaw in which the Russian garrison remains and its fall seems im

The attitude of the Poles towards the new German regime is arousing deep interest as the occupation of Warsaw has united for the first time the three branches of Poles, heretofore divided among Russia, Germany and Austria. Under the Russian regime, Poland has been the hotbed of disorder and it remains to be seen whether the control of this territory will be as difficult a problem for Germany as it has been for Russia. An official report from Berlin characterized the operations around Hooge as a battle, but Sir John French's later report shows them to have been another trench fight, preceded by severe artillery exchanges and resulting in the recapture by the British of nearly a mile of trenches previously taken by the Germans. This served to divert public attention temporarily from the magnitude of

the German sweep in the Eastern field, but operations west still lack general significance. The commander of another British submarine, whose name has not yet een disclosed, was reported to-day have distinguished himself by sinking the Turkish battleship Kheys-ed-den Barbarossa.

A Petrograd official communication was issued to-night that a German fleet, nine battleships, twelve cruisers with a large number of torpedo boat lestroyers persistently attacked the entrance to the Gulf of Riga, Sunday, but were everywhere repulsed. A cruiser and two torpedo boat destroyly 17th, columns from the South took ers were damaged.

DESTITUTE REFUGEES.

PETROGRAD, Aug. 9. Refugees from Courland continue o pour into Riga by thousands. The elds outside the town are filled with erds of cattle, and droves of horses have been rescued from German invaders from the Province. Constant listress exists among the refugees. but as far as possible huts and tents have been provided for them. Throngs are nevertheless sleeping in the woods. There is a great shortage of oread, consequent on the removal of the machinery from the mills.

NEITHER CONFIRMED OR DENIED LONDON, Aug. 10.

The British Government has re-ceived no official report of Germany's ny the report, but hold that if true, the proposal would probably be in such tentative form it would not be incumbent upon Russia to formally ommunicate it to the Allies.

ALLIES PROGRESS IN THE WEST. LONDON, Aug. 10.

French, Commander in Chief of the British forces in France, reports that the lost trenches at Hooge, east of Ypres in Belgium, have been retaken by British troops and that they have advanced on a front of 200 yards. Field Marshal French says, since my tion of August 1st, artillery on both sides have been active northeast of Ypres, and these exchanges have left the advantages with us. This morning, after a successful artillery bombardment which the French on our left co-operated with effectively, we attacked the trenches at Hooge, captured by the enemy July 30th. These were all retaken, and following up this success we made further progress north and west of Hooge in ex-tending our front trenches captured for 1,200 yards. During this fighting our artillery shelled a German train at Langemarck, five miles northeast of Ypres, derailing five trucks. Cap-tures reported amounted to three of-

The postponed garden party in aid of the Prohibition Campaign Fund took place yesterday afternoon at the residence of Mr. and Mrs. Joseph Pippy, Freshwater Road. The party was under the auspices of the Women's Christian Temperance and was largely attended. The grounds were tastefully decorated with bunting and colors and mottoes of the Union were prominently shown. Delicious teas, ices and candies were served during the afternoon and a number of choice gramaphone selections added to the enjoyment of the entertainment. The proceeds amounted to about \$40. To Mr. and Mrs. Pippy congratulation is due for the success of the party, and the ladies in charge are deeply appreciative of the valuable assistance given by Mrs. Pippy.

A Voice From Away North.

Editor Evening Telegram.

Dear Sir,—Please allow me space in your columns to say a word regarding Government officials on the coast of Labrador. We have a subcollector and tide-waiter at Cartwright; also, the same number of gentry at Rigolet. The Hudson Bay Co.'s stores at Cartwright has had to pay duty this year on a small packpay duty this year on a small package or two of stationery; and at Rigolet the collector there has collected duty on a few tins of gasoline. Now, Mr. Editor, the H. B. Co. are having no bonded goods come to either Cart-wright or Rigolet this year, and I can tell you the duties on bonded goods at Cartwright and Rigolet out-side the H. B. Co. are small indeed; so small, in fact, that any school boy past the fourth reader could collect them, and fix the accounts. Now let me ask Sir E. P. Morris one question. Does he call it economy to have four strong, able-bodied men in these two places, getting a good wage at the expense of the Government and doing absolutely nothing to earn it? If he calls that economy, then my ideas of economy do not agree with his. When a poor, destitute widow, or worn-out poor, destitute widow, or worn-out sherman on this coast applies to the Relieving Officer for a paltry twenty dollars a year, they are more often than not sent empty away. Wouldn't it be a brighter jewel in the crown of the present Government (if it has a crown) to give the salary of these Relieving Officer for a paltry twenty crown) to give the salary of these four able-bodied men to some of the widows and old worn-out fishermen of this coast, and to send these for said able bodied men away, and let them do something to earn their daily bread as other and better men are doing? If the Government has lots of money to spend, why not spend it profitably? I hear they (the Government) have breached their next ernment) have broached their nest egg already. It's my belief they'll want a whole nest full of eggs, if they go on at the rate they have been Don't talk economy, Sir Edward and colleagues, unless yo practice it.

The Temps publishes a summary o he diplomatic situation between States and Germany and concludes the article with these words: Whatever be the desire of the United States to avoid conflict, certain rupture will follow any new exploits of German submarines, threatening the lives of American citizens. Although Germans pretend America cannot war on a great nation without the greatest prejudice to herself, the probable rmness of attitude of the Governent of the United States will be sufficient to impose prudence upon Gernans, who without daring to sink American vessels Germans probably

SUNK BY ITALIAN SUBMARINE. CONSTANTINOPLE, To-day. The Turkish battleship Kheyred Din Barbaross, 9,900 tons displacement, formerly the German warship Kur-furst Friederich, was sunk by an Italian submarine of the Entente Powers, according to an official announce ment issued to-day by the Turkish Government. The majority of officers and men composing the crew of the pattleship were saved. The official statement telling of the loss of the Barbarosa which was sunk yesterday norning says however regrettable itelf it does not affect us excessively, except it places the strength of our ips compared with the enemy at the ratio of one to ten. GERMAN FLEET ATTACK ON GULF OF RIGA.

PETROGRAD, To-day. The official explanation of the attack of the German fleet on Riga, given out last night, follows: The Gulf of Riga would allow the Germans to give powerful aid to their army, now occupying the western coast of the Gulf. With the object of penetrating the Gulf, the fleet appeared on Sunday off Dieben Channel, which is the only practicable way for large ships to enter. The enemy made ree attacks with the object of breaking the mine barrier protected our fleet. Our seaplanes and warships co-operated to repel the enemy. The Germans did not succeed in passing our defences. Three of his ships were damaged by mines near Dieben. one of our ships was lost.

RUSSIAN ARMY SAFE.

LONDON, To-Day. Cabling from Petrograd, the correspondent of the Daily Telegraph says: the views held in the higher military quarters here are well founded, any danger which may have existed for the Russian Vistula army is now past. The troops are now taking up the new positions allotted to them arrived, of fearful havoc wrought in the ranks of the Germans by the Russian artillery at Kovno. Prisoners taken in battle state that lately their army has been suffering from Jacobs and Capt. Nichols of H. M. Customs were called by Furlong, K.C., for plaintiff, and Capt. Worrall of the s.s. Germany will renew her efforts of a separate peace to Russia, according to the Daily Mail, but the proposal will meet the same fate as others already made. The Mail says that the Russians, obviously from self interest and apart from her pledges to the Allies, will compel her to reject the offer. German influence has been the

Schooner Sinks:

Crew Safe. A message from Channel to Mr. H

M. LeMessurier, Assistant Collector, received to-day, states that the schr. Izetts, owned and commanded by George Lillington, of Isle au Morts, and bound to Burnt Island from North Sydney with a cargo of coal, sank about 20 miles off Channel Head last evening, the crew escaping in their dory. The Izetta had been leaking badly all the way from North Sydney, and the pumps had to be kept going all the time to keep her free. Suddenly they became choked presumably by the slack coal and the vessel sank, the crew barely es-caping with their lives. After the vessel went down the captain and crew headed for land in their dory, and all landed safely at McDougall's Gulch, which is about 7 miles east of

Despite the learned Doctor's opinions upon educational and other questions I beg to take issue with him upon this point and argue the proportion should be reversed or greatly modified. I would ask what rould be the consequences of an apprentice in the trades or handicrafts levoting three-fourths of his time to sports and one-fourth to training for his trade. It would be the nonsense of absurdity to think you could have a of absurdity to think you could have a skilled tradesman or handicraftsman. Lawyers, doctors, clergymen and artisans need special and long-drawn out training for their business and the same is true of the teacher but in a far greater degree as he has to train the most important of all things the human mind. N) Terms and No Retreat

There are special reasons in the

German mind why we should be morrally and mentally shamed and disonored beyond any other peoplewhy we should be degraded till those who survivt may scarcely dare to look each other in the face. Be perfeetly sure, therefore, that if Germany is victorious every refinement of outrage which is within the compass of the German imagination will be inflicted on us in every aspect of our lives. Over and above this, no pledge we can offer, no guarantee we can give, will be accepted by Germany as binding. She has broken her own nost solemn oaths, pledges, and obligations, and by the very fact of her that of immediate superior force, less than a mile outside Malborghetto backed by her illimitable cruelty. So, is in its death agony. Thus before you see, there are no terms possible. long we shall see communications cut where a soul can escape from the mination of this enemy of mankind. here has been childish talk that the Western hemisphere would offer a refuge from oppression. Put that thought from your mind. If the Allies were defeated. Germany would not need to send a single battleship over the Atlantic. She would issue an order and it would be obeyed. Civilization would be bankrupt and the Western world would be taken Cormany the Receiver. So, you see, with it and my Eczema began to imthere is no retreat possible. There prove at once.
