Contributions are asked for the ransom of this captive of the legal bandits, but the matter should not stop short of the repeal of the bandit law. "The war in Abyssinia" appears to have de generated into a public debate in which the Italians have the advantage of furnishing the eports to the press of the world. The London Advertiser belittles the growth and prosperity of Toronto as due to the an-nexation of her suburbs. But these suburbs are nothing else than the overflows of Toronto's marvellous prosperity under the N.P. Had Toronto not so rapidly outgrown and overcrowded her original limits these suburbs would be waste places still, and there would not have been either cause or opportunity for their annexation. Blue ruin organs must look elsewhere for evidences of Canada's decay. The pretence that cities and towns can pros per as they are prospering in this country while the farmers are being impoverished is an impudent fiction.
