WATFORD, ONT., JANUARY 3, 1879.

Watford

GHOST STORIES UNVEILED.

"A few years ago I removed into a new aud larger house with a young family. Some nights affer my removal I was awa-kened in the middle of the night by a dis-tinct knocking at my belroom door. I called out; "Who's there?" There was no reply; but after an interval of a few

just as if a person outside in the lobby had struck sharply and replatedly with his

had struck sharpiy and repeated, with his knuckles on the door. I sprang repil ly from bed on its being repeated, and rushed to the bedroom door and opened it, deter-mined to catch the knocker. But there was no one outside; and no one coull have

through the skylight window. I am not and never was spirit-stricken or supersti-tious but I will confess my sensations now became trying; my heart b gai to throb, and I returned to bed with ears

door. I the same result as before; and again with the same result as before; and again the knocking, three or four distinct taps; the knocking, three or four distinct taps; ""Well, how is he?" with the same result as before ; and again | ened to keep you so late this evening ?"

saw the knuckle-bone of a leg of lamb, about the size of a very small walnut, jerk-ed-repeatedly a sinst the skirting that lay alongside the door. The skirting was thin-mer than the sounding-board of a piano; and it was the sudden tapping of the little bone against the sounding-board that pro-duced the repeatel knocking. But how was the tapping produced? By a mouse that had found its way along the hollow erace behind the waincot. It had b red a hoi in the very lowest part of the wain cort erry nearly on a level with the floor.

ush bit of sinew which is attached to the ad of the bone—popularly known in mat-a as the Gentleman's Bone—and was tryng by jerking it backwards to bring the ng by jerking it backwards to bring the pone itself through; and each jerk gave a blow gains: the thin sounding-board, and each blow gave out the sound or mysterious knock. Had I not discovered this, no rea knock is the the sound or mysterious is the the sound or mysterious is the the the sound or mysterious is the sound or mysteri

soning could have convinced me that I difference on the to make enquiries and to had not heard knocks at my bedroom door; search all the registers for the certificate of and is the ard knocks at my bedroom door; and I should in all probability have attri-buted them to what is termed supernatural his birth.

agency.

"My next experience was if possible more puzzling. In the neighbourhood of Dublin, on the rocky sea-coast of Dalkey, there are several castles supposed to have been erected by the Danes for the protection been erected by the Danes for the protection of their traders. They are still in fair pre-servation, and have dwelling-houses of modern construction built against them. One of these old castles stands on the very of them; he had grown up in our service

WHOLE NO. 205.

Concerning the bracelet oath, Sir Henry Ellis hus observed that Aragin Jonas, in his work on Iceland, describes a bracelet of twenty ounces weight, which was kept upon the altar, and, being sprinkled with the blood of victims, was touched by those who ter, Monsieur," he added, when I tell you that I am of gentle birth, and formerly enjoved an annual income of 25,000 : circumstances have reduced this sum to 500 livres, and I am obliged to live according to my means. My books afford me an agreeable ocsupation ; upation; the neighbourhood of the river uits me, and on that account I have hired this room. I rise early, pass my mornings in realing, and dine at 12 on *besuf a la mode*, which is excellent in this part of the town; I then take my exercise on the quay, con-verse with two or three friends I am accustomed to meet there, and am perfectly contented with my lot.' M. Herault, admiring the good sense of this discourse, re-lated what he had heard to the Cardinal, (Fleury,) who was equally impressed by it. "But," said the latter, "if this man were to fall ill, his income would not be sufficient for that he may his wants; tell him from me count in the future on a pension of 300 livres from the King." The Lieutenant, enchant-el at being the bearer of such a message, at rnce communicated the offer to the impover-

We had complete comf reable tea for our poor fare at dinner. a row of fishermen's cottages, principally in- "ours" and "my." habited by men who eurn their livelihood as confidence in him, and in return took an indwelling-house attached to terest in all that concerned him and his pilots. The dwelling house attached to terest in all that concerned min and his this old castle I with my family occupied family; hence his coming to us with this in the summer, for health's sake and to enjoy boating, of which I was fond. I they. Although it seemed too strange to be enjoy boating, of which I was fond. I observed some time after taking up my resi-dence in it, and no matter at what time I retired to bed—anl I generally sat up one or two hours after the other members of my family had retired—the servant from the kitchen story selected the same moment for their denarture. This unceasing regularity became at the least; so we came to the conclusion that insisted on browner the least; so we came to the conclusion that is unceasing regularity became at the least; so we came to the conclusion that is a justice of

last annoying, and I insisted on knowing the cause. The information given to me was that the old custle and house were hauntel, and that for no inducement would the ser.

and that for no inducement would the ser-vants remain after I had ascended from the in Australia; and for this end we wrote to discuss with only the most necessary funiture, yet clean and comfortable: the woman, slowly vants remain after 1 had ascended from the parlour. I had now reason for thinking there was some ground for the fears. The pautry farticularly, and the rast of the honse with it, were walked over by foot-steps at night. These were plainly heard; and there was added an additional aggrava-isided there. ided there. We next thought we had better see and her adopted son. An unlikely place in which to find the heir to a hundred thousand and there was added an additional aggrava- sided there.

and there was added an additional aggrava-taon; for, not content with this, the 'super-natural' visitor began to do mischief, and generally in the grey of the morning made free with catables and pots of jam on the shelves, occasionally breaking a glass or plate 1 To add to the mystery, through the generations stil continued, and at length the terror of each night's visitation became greater and greater, and various stories be-gan to be circulated, one being that the visigreater and greater, and various stores the gan to be circulated, one being that the visi-tant was the spirit of a nu condemned to suffer the pangs of hunger for some trans-gression. This was supported by the cir-cumstance of the old castle and grounds day?" the provided and alive to everything. I have a some vears before occupied as day?" the provided and alive to everything. I have a some vears before occupied as day?" the provided and alive to everything. I have a some vears before occupied as day?"

having been some years before occupied as a convent. The only opening into the pan-try was through a ventilator in the roof, very which are addicining one of the lofty "Are you no better ?" "No ma'am. I be poorly." "No ma'am. I be poorly." high up, and adjoining one of the lofty "No ma'am. I don't hope ever to be be walls of the old castle. Through this no hu-ter; but I must bide my time patiently. man being could obtain an entrance but it How is Davis ma'am ?'

was entered by a monkey, who came to it in this way. One of the pilot boats was taking "He is very well, thank you." "I have heard him speak of ye so often, "He is very well, thank you. off a pilot to a ship, to relieve the one on ladies; he says you are all so kind to him, duty, when the monkey, sick I suppose of the sea, and determined not to lose the op-"O well, he is good and faithful to us to us, the sea, and determined not to lose the op. [5] "O well, he is good and faithful to us, portunity jumped into the boat, and on mearing the shore, jumped out again, and sought the nearest shelter, which happoned to be near the old castle. The ship was from the West Indies, laden with sugar. The monkey, though missed from the home-ward-bound, was unnoticed by the pilot crew, a d finding his way from the castle to the ventilator of the adjoining dwelling choose is the ventilator of the adjoining dwelling choose

the ventilator of the adjoining dwelling-honse pantry, sought to allay his hunger there when all was quiet at night. By day the creature lay hidden in the old castle ; and it "O yes. There was Henry. Then there

THE CHURCH OF ENGLAND TEMPERANCE SOCIETY.

Last week we notified our readers that this society was shortly to be es: ttulished in the Diocese of Huron ; the Bishop having for some months past felt the importance of taking this step. What is the work of this Society, and what are its objects ? is often asked : we purpose very briefly to auswer these questions.

Who that knows old London, Can doubt that the besetting sin of that mighty city-the city of great wealth, of terrible poverty, the city of some o the most noble men and women of the earth, and yet the city where the most depraved of mankind may be found-is drunkenness, Magistrates, lawyers, legislators, judges, ministers, have all raised the same ery -- "drunkenness is England's besetting sin."

Various methods were tried to stem the tide, with varying success. In 1862, the Caurch of England began to realize the awful effic s produced by excessive dinking, and a society was set on foot having for its object the recovery of the intemperate through the agency of Par ochial Total Abstinence Societies. It was not until the year 1873, however, that the seal, as it were, of the Church, was fully set to the work and the magnitude of the gigantic evil fully realized. Then the Society on its present basis was lannehed on its career, Her Most Gracious Majesty the Queen beity by brave men and women, who ing its Patton, the Archbishops of Canterbury and York, Presiden s, His Royal Highness Prince Leopold, the Lord Bishop of London and twenty six other Home Bishops, besides six Colo uial Bishops and many of England's most prominent clergy and laity, being Vice Presidents. The basis of the so

ciety is UNION and CO OPERATION, on perfectly equal terms, between those who use and those who abstain from mankind. intoxicating drinks, in endeavoring to promote its objects. Those objects are :- I. The promotion of tempernotoriety. The wonderful inventions ance. 11. The reformation of the in-

temperate. III. The removal- of the causes which lead to intemperance. In the limited space at our disposal, it is atterly impossible to give our readers anything like a succint account of the

THE DEPARTED YEAR. The year eighteen hundred and seventy eight of the Christian Era is now numbered with the past It has been in many respects a very notable year throughout the world, not by reason alone of events transpired, but because they are the precursons of others vet to come, whose result no man can truly

foretell. The attempt made by Russia to abrogate the conditions of the peace conference concerning her inroads into Turkey, and the final victory through he splendid states manship of these kings of statesmen, Earl Beaconsfield

and Lord Salisbury, over the grasping selfishness of the Czar of all the Russias foreshadows the near approach of the day when there shall be universal peace throughout all the world. The opening that every article from his establishof the campaign against the Afghans by Brittish troops, the watchful eye kept upon England's movements by Russia. her quondam friend but now dangerous rival, indicates that ere the days of peace shall come there will be a terrible struggle for the possession of the Indian Empire by these, the two most powerful nations of the world. The reveal ment, now undoubted, of the resources the secret is revealed. It is-sand of the vast continent of Africa and the almost certainty that before another substance which bears the same intrin decade of years has past, civilization sic value to pure spices, thus greatly may have penetrated the darkest parts reducing cost and enabling him to sell of this vast territory, opening up to the below competition.

QUESTION AND ANSWER

A. —What is the good and what is the bad? What is the perfectly true?
What is the end you live for, my lad? And what, may I ask, are you?
Unproven, I fear, is your heaven above, Life is but labour and sorrow; hen why should we hope, and why should the perfect of the should be hope.

And why should we care for the morrow?

B. —There may be a fight worth fighting, my friend, Though victory there be none;
And though no haven be ours at it.e end,
Bill we may steer straight on.
And though nothing be gool, and nothing be do.
And nothing be true to the letter,
Yet a good may things are worse, my lad,
And one or two things are better.

FEMALE GHOULS.

Arrest of Body-Snatchers in Cincinnatl-A Visit to Their Dens-Frightful Con-fession of a Female Stiff-Gatherer who you don't believe it, but the coffins we due Robbed Harrison's Grave.

(Prom the Cincinnsti Commercial, Dec. 6.) There was developed at the Third street fation-house, yesterday, a remarkable fea-control to anything." "How much did they pay you for the there of that horrible trade, the robbing of bodies?"

terre of that horrible trade, the robbing of graves. The officers some time ago gained a clue which directed them to the headquar-ters of four or five professional body-snatch-ers, and eince that time a close wa'ch has been kept of the place, which resulted early yesterday morning in the apprehension of two usen as they returned home with the slime of a corpse still upointhem. This led to the searching of the place, and drawing from a woman of as strange a recital as was

to the searching of the place, and drawing from a woman of as strange a recital as was ever recorded. The den is situated on Karl alley, which rais from Third to Fourth streets, about emehundred feet west of Mill street. Peo-ple living n ar the place have told for some the dim light at two of her 'own children as'eep in the bed near where she stood. It was a mother's look, and something of a morher's feeling had prompted the list re-mark. She has had five children, three of

never worked any in the summer time, and I wasn't going to let Charley work any then. The night they got Harriso.'s stiff he came again Said he had done first rate, and showed us a hundred dollars he had just got [Probably some of it from the sale of young Devin's body. — Rep.]. He said he was going to do the best job of all that night, and Charley wou'd be sor y if he didn't go along. I told him there was no use of talking, and he went off. He had just bought a lot of a'cohol and carbol'e acid to inject the stiffs with. The next night I heard about that Harrison business. I just knew in a minute who did it. It was that man who came here and the digger." "Have you ever seen him since!"

(From the London Times.)

B ought to tril on the 4th of November 'at, Eugene T Kint de Roodenleke has, af-ter a month of hearing, been found guilty of 149 distinct ac's of theft, and sentenced to

"No, I ve never seen or heard of him since that night. I reckon he knew better than to stay round here long after that." "We, Charley and I," con'inued the woman, "never stole respec'able folks. We always went to the infirmary burying ground or some such place. Maybe

The Belgium Bank Thief. Eugene T'Kints Extraordinary Financial Operations-Trial and Conviction of the Most Audacious Bank Swindler of the Age -Culpable Neglect of the Directors 15 Years in Prison. (From the London Times.) to rich Americans. But he did not get the opportunity of reaching the Usitel States, for he was caught at Queenstown, and after spending some time in the M'ddlesex House of Dotention, he was sent back to Brussels. The retribution is now come. Fifteen years' solitary confinement is a severe sentence, but it is not too hard.

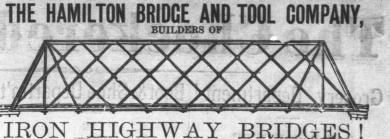

The Cold Shoulder. (From the Saturday Review.)

About twenty years ago he went into the Park of Belgium as a supernumerary clerk. Gradually he rose until he became the head of the department which is charged with the management of the securities committed to the bank. Although he had no private fortune, he was soon one of the largest and nost intrepid speculators on the Bourse. He employed no fewer than twenty-five agents to conduct his grantic operations in Brussels and Paris. Within five years one to the value of 462,328,715 francs. A other to the value of 107,753,509 to the agents came to about \$7,500. These to the value of average of average of 107,753,009 bought for him to the extent of 107,753,009 fraces, and sold to the amount of 107,297,-19 choice lies between a dead cut and the cold shoulder. The readiness and portabil-ity of this last weapon renders its use but oo common, and it is rarely that any social extension takes place without some very the spectrum takes place without some very 972 frances. The commission of one of the agents cause to about \$7,500. These transactions did credit to the audacity of a bank clerk with a salary of £168 a year. But his success was not equal to his bold ness. He was, in tuth, the most un'ucky of

VOL. IV.--NO 50.

A Mutiny at Sea.

We had not been long at s:a when an event occurred of con iderable importance-no less, indeed, that an attempt by the convicts to sziz, the ship. It is imposs b'e to say what these desperate characters might have done had it not been our good fortune to have timel, warning. When near Trinidad an anonymous letter was drop-ped through the cabin skylight. It was alused to the capt in, and gave notice of the nded risin r. The cont nts were at once intended risin intended risin. The cont nts were at once communicated to the Surgeon-Superinten-ent, M. Ternan and to Lieut. Goodgate, 48th Regiment, commanding the troops; and it was also necessary to inf r a the offi-cers of the watch. because in these vessels a few of the convicts were all well to assist the crew. But beyond this no notice was openly taken of the mattr. T. ewa ming proved true; for at one o'clock in the mora-ing the convicts in the watch let go the

ing the convicts in the wath let go the topsail sheets, halyards, and other ropes of importance, by which the ship was thrown into confusion; and, sinu ta cously, the prison doors were burst, and the sentries in the fore and main hatch ways seized, whilst ambers of convicts app - red on deck. The situation would now have been desperate had it not been for the timely and excellent precaution taken by the captain. The whole of the officers had taken their stand

on the quarter-deck, and, armed, with pis-tols, threatenel to shoo: the first man who should dare to place his foot upon it. Their admirable preparation and coolness entirely frustrated the plan of the rising; for the conrustrated the plan of the rising; for the con-victs, disheartened, hud no remedy but to return to their p ison, and so all danger was at an end. The letter had pointed out the ring-leaders by name; and these, five in number, were, as if on board a man-of-war, seized and punished. The chief of them was comparatively an old man, fifty-five years of age or thereabouts; nor was this the first occasion of his transportation. Also, as night be expected, the man who wrote the litter did n t escape uspicion or the wrath of his disapp inted fe lows. They seized upen him, and, though luckily rescued in for the remainder of the voyage. It may be well here to say that the unfortunate fellow had been a lieutenant in the Royal Navy, who, through a debauched life, had been led to commit the size for the life. to commit the offence for which he was transported; and it is p'ea ing to know that his good conduct on this occasion enabled the Surgeon-Superintendent to recommend him to the authorities, through who a he obtained a good situation.

An Acre of Silver.

A solid acre of silver is something that recalls the old tales of the Arabian Nights -yet such a thing has an actual existence on this continent, as witness the Rocky Mountain Tourist, which says ;-One of the most remarkable mines in California Gulch most remarkable mose in California (Filch in the distance ; due host in interesting the rate in the first in thickness, the ore grance of many flowers, the sweet incense of nature ! My heart under these external from which yiel is from 240 to 270 ounces of silver to the ton, and lies like a coal bank

Love hailed a little maid, Romping throngh the meadow; Heedless in the sun she played, Scornful of the shadow. "Come with me," whi-pered he; Listen, sweet, to love and reaso: "By and by," she mo-ked reply, "Love's not in season." Years went-years came, Light mixed with shadow; Love met the maid again

LOVE'S SEASON

Dreaming through the me idow; "Not so coy," urged the boy, "List in time to iove and reason," "By ano by," she mused reply, "Love's still in seas m."

Years went-years came, Light changed to shadow; Love saw the maid again Wait ng in the meadow, "Pass no more, my dream is o'er, I can listan pow to reason - " "Keep thee coy," waispered the boy, "Love's quit; ont of s ason."

THE SECRET DRAWER.

A STORY OF KENT.

IN THREE CHAPTERS,-CHAPTER I.

With wallet suspendel from my shoulder, Garden of England; and where can you flue more charming landscapes than those pour-trayed, a: you wander through its green lanes or flower-deckel woods, where look ing. I shall now go to get the landlady or her daughter to arrange for some supper for the daughter to arrange for some supper for ing. I shall now go to get the landlady or her daughter to arrange for some supper for ing. I shall now go to get the landlady or her daughter to arrange for some supper for ing. I shall now go to get the landlady or her daughter to arrange for some supper for ing. I shall now go to get the landlady or her daughter to arrange for some supper for ing. I shall now go to get the landlady or her daughter to arrange for some supper for ing. I shall now will allow me?" Lanes or flower-deckel woods-where look upon more homelike scenery than that pre-sented by its villages nestingin quiet vales, surroun led perchanes by hop-gurdens or cherry an lapple orchards, as far as the eye can range? One such picture is recallel to my memory as a prelude to the occurrence of the little story which follows.

of the little story which foilows. My ramblings had taken me to within a mile of the red-tiled village of Gondhurst, if I would join him in dissecting a roast duck and a pigeon-pie, he should be happy to have my company. Gladly did I avail me at supper was declinel; he said he had of his disapp inted fe lows. They seized upen him, and, though luckily rescued in time, he had to be kept apart from the rest for the remainder of the voyago. It may be well here to say that the unfortunate fellow who, through a debauched life, had been led

> while the gool landlady was talking. Influences seems to beat with pleased awe at the silent homage of Nature to its Maker. influences seems to beat with pleased awe at the silent homage of Nature to its Maker.

20,000 square teet in an acre, and the acre of ore, being three feet in thickness, makes 130,680 cubic feet, which, with twelve cubic foet, makes 10,000 tons, worth \$250 per ton, or the enormous value in the aggregate of \$2,700,000. The Crescent is another mine worked like a coal bed, the one lying horizontally in the large roon that has been opened, the roof being held up by heavy speaking, turned round, facing me: "I do not like to appear discourteous, sir; but I do not even know your name, and to share iny watch, I heard the sound of wheels ad-vancing towards me. The evening was growing dark, so my annoyance vanished at what I deemed would prove the coming of a friend in need to direct the way. I be-to not even know your name, and to share my"---I felt my face crimsoning, not with any sense of shame, but from the reflection that I had not volunteered so simple a piece of at what I deemed would prove the coming of a friend in need to direct the way. I be-gan to whistle an air to announce my pre-sence. A dog-cart with one occupant came in sight, and as it drew near I hailed: "Can you tell me how far I am from the read lead. you tell me how far I am from the road lead-ing to Bradingdean ?" "This is my name sir." I said, handing card. "This road leads to Crawley, from "Mr. John Fowler," he read aloud, "So-"This road leads to Crawley, from whence I should think Bradingdean is three miles; or altogether you would have to walk six or seven miles. You shoule have taken a turning more to the right than this,

 1 would have to wark You shoule have o the right than this, s after leaving Gond-dark evening ! No ingdean and six o
 as their glance tell upon me. Is to possi-ble that you are the son of my old school-ble that you are the son of my old school-fellow, Simon Fowler of Lincoln's Inn?" "I am his only son," I replied. Mr. Preston advanced towards me, and grasping me by his hand, expressed his plca-sure at the reacontre.

 from the last cross-roads after leaving Gondhurst. Here was a treat on a dark evening! No bed ordered at Bradingdean, and six o seven miles to walk before I could reach sure at the rencontre. "There will be no difficulty about Mr. the place, when probably the inn would be closed 1 I rapidly told the traveller that I was on having the small bed in my room. ---What do babies, and some have the mark of them." To preserve a good joke—Put it in an al-manac, or rent if out by the year to circus clowns and negro minstrels. In this way specimens have been kept from fifteen to twenty years. A SWEET TOOTH.—Mamma (suddenly): A SWEET TOOTH.—Mamma (suddenly): A SWEET TOOTH.—Mamma (suddenly): dog cart had descended and had lighted a "Oh ! Oh ! Oh!" Jack : "What's the mat-ter, mummy?" Mamma : "I've jammed my little finger in the door of this wretehed "Humph !" he grunted in a tone of apparent satisfaction.

WHOLE NO. 206.

The Building of Ironclads.

nforts of Life at Larnaca-A Bath One of the most complex problems with anuity have to deal which science and ing which science and ingenuity have to deal at the present day is the construction and equipment of a ship of war. It is all the more so because the experience of recent warfare has thrown little or no light upon many of the conditions which are involved A correspondent of the London Daily writes from Larnaca, Cyprus : English in the subject, and because we are compara-tively in the dark as to the effect which will be produced by existing weapons in a naval battle. The rivalry between guns and armour-plates continues; as the guns get larger the plates become thicker, but the advantage lies with the weapon. The 100-ton gan of the Italians has pierced through the twenty-two inches of iron with which their ships are to be sheathed, and guns still more powerful are in contemplation. There are not wanting thoughtful men who consider that the time has come to abandon the costly and weighty armour which en-cumbers the sides of our ships, and can be so easily pierced : but this step has not yet been taken, and the armour still incre thickness, though its application has been modified. The qualities necessary for a fighting ship are many and diverse, and i we discuss them one by one, we shall more exactly see the difficulties which beset the ship-builder and the engineer; but these separate qualities are so interdependent that they cannot be easily dissociated, nor is it easy to assign the relative values which they bear one to another-indeed, as to this there is a considerable difference of opinion. For instance, speed is one of the chief requirements of a war-ship, since without it she can neither follow up and bring to account an unwilling antagonist, nor avoid a battle if over-matched; yet, when in presence of a foe of equal strength, it beco of less importance than handiness. Again, a high rate of speed involves large engine and boiler space, and, consequently, a prohis room, he finds one of the women intently He ex portionate restriction in the coal stowage plains that it is water that he wants, and other words, the ability to keep at sea. several of them go off together to bring it. It sppears that he forgot to fasten the door as he went back to his bath, for in come two So, also, the offensive power of a ship is en-hanced by a certain height of gun-platform, but beyond a proper limit the stability may of the women without any warning, one be compromised; while, on the other hand, the great weight which has to be carried tends to prevent that limit being attained. bearing a tiny cup of coffee. No amount of argument can get rid of them for some min-utes, but finally the coffee is deposited on a The speed of a ship lies in her boiler power chair-there is no table-and once more our the engines are but the means of giving ef fect to that power. And in order to curtail as far as possible the necessarily large space taken up by the boilers, they are now made for a pressure of steam ten times as great as that used twenty-five years ago. The neces-sity of guarding from injury the motive power, and the terrible effects which would esult from the escape of such high-pressure steam, render it imperative that all parts of the machinery should be as far as po out of the reach of projectiles.

In a Dissecting-Room. Dissecting-rooms now are not what they

Dissecting-rooms now are not what they were in my younger days; you might almost take a lady into them now, and, save for the unseemly exhibition of "a slovenly, unhand-some corpse" or so, there would be little or nothing to offend her sensibilities. But fifty years ago it was a different matter. Body snatching was still recognised as a de-sirable, if slightly illegitimate, branch of trade; and when the bodies were procured they were treated in an unceremonious fashion which would greatly shock modern ideas of propriety. The dissecting room at SS. Cosmas and Damian were situated on one side of a rather dreary quadrangle; it disguise; but why this fact should invalidate the veracity of a very plain, straightforward, and unimaginative Jewish merchant is not so obvious. It is highly probable that with his commercial objects he combined a curi-osity similar to that of the Chinese traveller Fa-Hian, who early in the seventh century visited India to investigate the condition of his Buddhist co-religionists. We do not, therefore, doubt his geographical accuracy, whenevever he turns aside to make any statement of this nature. As Gibbon instly one side of a rather dreary quadrangle; one side of a rather dreary quadrangle; it was a long low chamber, the upper end of which was rather wider than the rest of the apartment, and contained at its west side the only door of ingress, the room itself run-ning north and south. In this more extend-ed space, were placed certain trestles sup-porting boards, upon which were deposited such bodies as were newly brought in to aid the pursuit of science. At the south end was the general operating table. When I first entered this chamber of horrors, I be-came aware that there had been newly de-term the commercial travell r and the tourist, is so amazingly marked in parts where they have traversed the same ground. So cau-tor the commercial travell r and the tourist, is so amazingly marked in parts where they have traversed the same ground. So caufirst entered this chamber of horrors, I be-came aware that there had been newly de-posited therein five new "subjects" but as my own experiments involved the manipu-lation of one formerly provided, I paid but little attention to their grisly presence. My task began, and for some time was pursued with ever-increasing interest; but in a moment of pause there came a strange sound. as if somebody had gently pushed at have traversed the same ground. So cau-tious, indeed, is Rabbi Benjamin that he

sound, as if somebody had gettly pushed at a creaking door. In the intense stillness which prevailed there was something startl-ling about that noise which made me turn round suddenly, as if there were somebody d round studtenly, as if there were somebody else in the room. Of course there was not; I had the only pass-key, and so knew that the momentary panic was unreasonable, laughed at myself, and fell to my work again. How long I had been dissecting I cannot say, when again that queer creak startled I me, and this time it seemed to come definite-d ly from the north end of the room, where lay the five new bodies, so that I almost in-voluntarily turned my eyes in that direction. Horror of horrors 1 As I looked, the second of the dead men began slowly to rise; from a sitting one, and at last sood upright ! The is sting one, and at last sood upright ! The could see the being's arms swaying with the sexcition of rising, and the general outline of the horrible thing that was bringing the sweat in great beads to my brow—nothing more. It would have seemed to assum-some personality, and I might have aldress; ed it, and so, by the sound of my own voice, have dispelled half the terror. But there it ters tood—vague, white, motionless—a thing to fear affee. Flight was naturally my first instinct, but a moment's reflection showed else in the room. Of course there was not; I had the only pass-key, and so knew that stood-vague, white, motionless-a thing to fear and flee. Flight was naturally my first instinct, but a moment's reflection showed how imposs ble such a course must be. I had locked the door on entering, as directed by Det. B. Det. Store and the sub-store and the whole work all shout yourself. He had no pencil nor pa-per and didn't evince any desire to write in short hand. Oh, no; that is the clumsy way in which beginners work. His skill is not in his finger-tips, but in h's memory.

of fat; and as the process employed pro Then the feet of the corpse falling to the ground actel as a lever to the remainder of the stiffened body, which grajually assumed cludes a temperature sufficient to destro bacteria and their germs, the resultin "butter" is not such a satisfactory articl the position which had so unmanned me, being prevented from falling by the hips, as could be desired. Chemically speeking which rested upon the two boards. which rested upon the two boards. Ireplaced the dead man in his former po-stion, to avoid any suspicion of 'skylark-ing" on my part, and then opened the door, double-locked it, and fled to my own rooms. Next day I told Professor P— what my stitute for butter : but the American manufucturers have failed to take the proper pre cautions, and the result is an exposure which may possibly have some effect upon the sale of "bosch" in this country. The original French patent states that the stomachs of perience had been of a dissecting-room at idnight; he smiled a petrifying smile of tat to be rendered into "butter," but the manght; he smiled a petriving smile of incredulity, suggested pork chops, night-mare, an over-excited imagination, and so forth. So I begged him to go privately in with me, and then showed him how the ap-parent resuscitation occurred; upon which he said, "My certie!" which was a good deal eming as it did firm the through uping temperature employed in the manufacture are insufficient to destroy what are believed to be the possible gerns of disease. Hence, some New York miscroscopists have pub-lished a "warning," and a very instructive controversy is just now going on in Amerideal, coming as it did from that most unim-pressionable of men. But, do you know, I did not seem to care about midnight discan scientific circles. Meantime the British ublic consume "bosch." actions for some time after that. I had such a scare from that first night in a dissecting-Is Your Life Worth 10 Cents. Sickness prevails everywhere, and every

Horrible Crime in France-Murdering a Mother and Ruining her Daughter

Two of the gates of the old city still exist at Nimes, offering some fine marble sculp-tures; but when one has been here and there dish crime came before the Assizes about the old city, and seen all its antiquit-ies, he returns again and again with growng interest to a contemplation of its magnificent amphitheatre. It is slightly elip-itical in form, and smaller than the amphiheatre of Aries, and perhaps inferior to that in purity of style; but its situation makes it, on the whole, more attractive and cheer-ful, and it could once seat twenty five thousand spectators, which is quite an army. Each division of seats—one for the patricians, another for the equitati, or knights, and two upper tiers for the plebeans—had its own vomitorium, or exit, with distinct conidors, and these are all yet in good preservation. So en rmous is the st ength, and so massive is the construction of this edifice that when Charles Martel expelled the Saraceus from it, and filled the corri-dors with wood and tried to burn it down, he was unable to make any perceptible im-pression. The arena is still used for bu'l-fights on fete days. I witnessed a spectacle pression. The days. I witnessed a spectacle fights on fete days. I witnessed a spectacle of this sort in that place which in a remote way served to give me an idea of the grand-ear of a gladatorial day, or a fight with wild hearts in those by-gone times when those the days are in the days and the grand-the days are in the days are were of Spanish breed, and by no means to be despised; if their horns had not been b und in fe't, more than one champion would have lost his life in the arena that afternoon. Be-tween the horas a rosette was firmly bound, and the lucky fellow who could tear it off split the skull. The young girl, with this that may drain from it. The day it is to be eaten pluoge it into boiling water, and keep it boiling for at least two hours; then turn it out of the cloth or mould and serve. CUP PLUM PUDDING.—Take one cup each f raising flour, breadcommbe, and and and the dust that day. Several had their shirts torn off, and received very severe blows in the back, which doubtless earned for them plenty of

suet, one egg, one-half pint of milk, a little candied peel; chop the suet finely; mix it sliced peel; add the well-beaten egg, and add milk enough to make the pudding of the consistency of very thick batter. Put it in-to a buttered disk and has a generation of the the suet of the sue of the suet of the suet of the suet of the sue of the suet of the sue of the sue of the suet of the suet of the sue of the s there was no one to protect her, and Mme. Veanney advised her to hide in a barn. There she remained till midnight, when she was brought to her father's house. Nachin was by no means drunk. The procureur-general questioned him, but he pretended to forget the circumstances, though acknow-ledging his crime. It was shown that the big and backer. Further in the galleries was scarcely less animated. On the shady side of the arenal degram the throng was gathered from every class, that the throng was gathered from the English noblemen to the lowest canaille who could muster a few sous to pay for a back seat. Brilliant costumes and eleging the sentences of the shady is a vertice to the lowest from the English noblemen to the lowest canaille who could muster a few sous to pay for a back seat. Brilliant costumes and eleging the sentences of the shady is a verdict without extennating circumstances, and Na-MINCE FIES WITHOUT MEAT.—FIVE cup-fuls of chopped apples, one cupful of citron, one cupful of currants; add molasses, sugar; a little salt, a teaspoonful of cinnamon, mace, nut-imperial beauty of some of the fair dames of the source of th Vimes collected there in that hour was never surpassed in the brightest days of dy. PLUM CAKE, —Take two pounds of large, fresh raisins, one pound of citron, eight fresh eggs, two cups of powdered sugar, one of butter, four of flour, one of sweet milk, one-half teaspoonful of ground cloves; sift the flour and put in the oven to brown. ancient Rome; and indeed it was Koman blodd that gave to them a fiery and almost fierce splendor, such as may be rivaled but cannot be transcended out of the south of France. There were also present some fine specimens of masculine beauty. The people of Languedoc and Provence, if less inte'lec-tral.looking than those of other parts of ancient Rome; and indeed it was Roman blood that gave to them a fiery and almost The Population on Wheels. Contrivance that Will Walk a Lazy Man Twelve Miles an Hour one-half teaspoonful of ground cloves; grated, half-teaspoonful of ground cloves; sift the flour and put in the oven to brown, as you would coffee; cut the raisins in half and seed them; cut the citron in strips half an inch wide, then slice as thin as possible; bake in a six-quart basin two hours. Icing for it: the whites of four eggs; two cups of for it: the whites of four eggs; two cups of the absinthe, eau-de-vie, and coffee which the absinthe eau-de-vie e corit: the whites of four eggs, two cups of powdered sugar, two tablespoonfuls of corn-starch, the juice of one lemon, one ounce of were industriously circulated by lithe, bare-were industriously circulated by lithe, bare-distant when the whole city will be on headed Ganymedes, who attracted my at-tention by the way in which, water and distant when the whole city will be on wheels, when pedestrians will be skimming CRANBERRY JELLY. —Put one quart of ranberries, which have been carefully pick-ed over, to boil in one pint cold water; an hour without any more effort than is now put forth in perambulating half that disave ready in a bowl one pint of white su-gar; when the cranberries are perfectly soft But the interest and excitement culmintinually thrown up by the Dead Sea attest the presence of vast subterranean layers of fossil vegetable matter, and these signs were not long overlooked by the enterpris-ing men attracted to Suez by the opening of that direction. Recently numerous sound-ings have been made between Jaffa and the Dead Sea, which, so far, have not disclosed any deposits of coal proper, but, on the cother hand, have laid bare inexhansibile light wooden wheels, supplied with an outer rim of tough India rnbber. These wheels are secured to a frame the shape of the foot, which is strapped to the pedal extremities in the usual manner. Unlike roller skates, calls for, this way of cooking them makes beautiful moulds for the table. CURRANT JELY.—Scald the currants and let simmer until quite soft ; then strain (without queezing) through a flannel jelly-bag ; when the juice no longer runs squeeze what is left into a separate vessel, and finish separately, as it does not make as pretty jelly, though it is equally good-tasted. Put rushed together in a perfect bedlam of com-or five minutes, removing any scum that may rise to the top. Have ready in a bowl one pound of white sugar to every pint of juice ; pour the boiling juice over it, stir till it is biece of casting termed the pusher, which is simply used in mounting an elevation or steep incline. No effort of the body is re-quired for their use, as in skates. The tra-veller simply plants one foot before the other In 24 hours it will probably be ready to paste up. This is an easy way to make currant jelly of a very pretty colour and ex-cellent quality. and finds him self whizzed along at a lively rate.

AFTER THE CONCERT. My better self ! my Stradivarius ! we Have done great things to-night : have helped to bear outspread wings the stream of melody Up to hear en's portais—it might enter

will never again attain the relative position it once held. Why did it thus fall away? We must own that its natural advantages wonder, lov'd one, was it thou or I Who pour'd our soul forth on the music's strain? Thon art not living-yet I hear thee sigh. And sing, and sob, like gods more than us men. are few. The country itself, the base of all Dutch operations, was rescued with difficulty from the see, and has been preserved from submergence by immense and unceasing ex-ertions. The Provinces were never so much famous for manufactures as for trade, though the reputation of Dutch sugars, Dutch linen, Dutch paper, and other commo-dities above the excellence of their work.

Since he, Cremona's master, work'd and wrought With more than hunan skill, he surely breath'd Into his sweet creation speech and thought. Bet of the forest, with man's best enwreathed.

But in truth, the Dutch father commo-dities, shows the excellence of their work, But in truth, the Dutch fetched and carried from all lands, insomuch that though the Provinces never produced corn enough for the food of their own people, Dutch ports were the emporia to which all nations could go with a cartially of finding stocks of 'he master breath'd upon thee, with the love That centres in a soul: and lo ! awoke Thy sweet love-song, attaned in heav'n above, And, soaring, thus upon the silence broke.

But, no ! description's vain + we cannot tell The songster's sweetness, nor the sough of whin The Spring-tide wouder, + or the year's sad knell ; Yet sli th's joy and sadness here we find. go with a certainly of finding stocks of grain on sale. How was it that the inhab-

grain on sale. How was it that the inhab-itants of lands so niggardly endowed by na-ture became so affluent? United Provinces was to be seen a nearer ar-proximation to free trade than could be anywhere else observed. Finally, he as-cribes to their republican institutions—by which I understand him to mean the ma-chinery which secured to the people's self-government, and discouraged inequalities in the distribution of wealth within families— their political and their commercial eminence. But a commercial people, having in them "It appears she would not trust me in my excitement at my loss, but thought the se-cret quite sife with Mr. Fowler the solici-tor. Your fither was away two or three days investigting the affair, and upon his return assured me not only that the gentle-man, who was my companion could not have any object whatever in taking the property, as he was not only a member of a meither for But a commercial people, having in them-selves no guarantees of manufacturing su-premacy, and depending for their greatness on the maintenance of their trade as the car-riers of the wor'd, were necessa ily depend-ent on the continued freedom of their If they were prevented from re orthe was not on y a member of a wealthy fa-mily, but had large means at his own dising to shores to which they had been accus-tomed to go, their occupation would be gone, and it would be an im erfect recomposal; he had moreover gone abroad the day after he slept at the *Rose and Crown*. Your father absolutely refused to confide the name to me until two years had elapsed, thinking that some of the notes, whose numpense to them to remember that the country which refused to trade with them suffertry which refused to trade with them suffer-ed also. Our Navigation Act of 1651 was a great blow to the carrying trade of Holland, as far as regarded ourselves and our colonies; and when in the course of the century that followed we acquired the lordship of larger and larger portions of the world, the tr ding spheres of the Dutch were in a correspond-ing docres ourselid. Yot as we have seen bers we were able with difficulty to obtain. wou'd if stolen, be presented for payment; an 1 further, that this interval would be suf-ficient to prove the other idea that the pocket-book had been ab tracted under the nfluence of kleptomania. And so," finished ng degree curtailed. Yet, as we have seen, Mr. Preston, "the matter at present rests. None of the notes has been presented either Adam Smith made no remark on the decline of Dutch commerce; and it was not until of Dutch commerce; and it was not until the Napoleonic wars, when Holland became first a dependency and then a part of France, that the final blow was suffered. Every colony was lost and all external trade was destroyed, and Holland exper enced a every colory of vitality, the more serious betown larger than this, more especially as my coming is always known. I have not follow-ed his advice; but I am very careful as to suspension of vitality, the more serious be-cause it happoned simultaneously with a change in the conditions of the productions the leading commodities of commerce, that must of itself have been very injurious to the Dutch supremay. The Dutch had al-ways been adepts in the art of making air and water perform their work; but the last handwater more have some more more more the who occupies the couch in the room where the robbery takes place.

CHAPTER III. As a description of the room we were to

hundred years have seen more powerful forces harnessed and put to use, and the Dutch had not these forces immediately at Dutch had not these forces immediately as command. In the competition thus created they must in any case have found their sup-riority gradually passing away, and it was their misfortune that the Napo'eonic inter-ruption of their life h-ppened at such a time that when they re-entered the wrld-field of induction that are stablished too occupy for the night was given by Mr. Pres-

not reply when spoken to ; he did not seem

not reply when spoken to; he did not seem deaf over night !' The light enabled me to watch his move-ments. He alvanced towards the large Indian cabinet and opened the door of the little cupboard on the left-hand side. I 1 slipped out of bed to get nearer to him. I His head turned; his eyes were wide open, t looking strangely fixed. Surely Mr. Pres-ton is a somnambulist ! I resolved to is watch his movements, but not to disturb im unlees he approached danger. I had not long to watch. I stood looking over his is shoulder, while with one hand he held the light, and with the other touched a knob correspon lent of the London Daily News writes: "Large as have been the drafts of late upon our scientific credulity, there has hardly been one which makes so heavy a demand on our powers of faith as is involved in the statement that Mr. Nor-man Lockyer has realized the alchemist's dream, the transmutation of metals. Strange, incredible as this may appear, there is suffi-cient evidence of its having been effected to which appeared to be one of the screws of the hings of the door, which was thrown open so as to meet the side of the cabinet. A faint whirring noise ensued : the centre shelf was raised, and the front of a drawer Preston pulled open the drawer. Eagerly I losked into it. and there sure enough lay the long-lost pocket-book, placed there by himshelf was raised, and the front of a drawer advanced in sight. The noise ceased. Mr. Preston pulled open the drawer. Eagerly I looked into it, and there sure enough lay the long-lost pocket-book, placed there by him-self two years ago, the robbery of it be-ing thus attributed to an isnocent man ! lime. The experiment was repeated with other metals with corresponding results. Nickel was thus changed into cobalt, and It was with difficulty I restrained my imtuous desire to awaken the somnambulist, but deemed it better te wait till the morn-ing to disclose my discovery. I saw him calcium into strontium. All these bodies, as is well known, have ever been regarded as

ing to disclose my discovery. I saw nin carefully reclose the drawer, extinguish the eardle, and quietly return to bed, and seeking my own, I slept until late in the morning. Finding that Mr. Preston was not in the room, I rang hestily, and learned that he was waiting for me to join him at the baself of further trial, our entire system of baself of further trial, our entire system of the prior to base the drawer. The further trial our entire system of the prior trial our entire system of breakfast-table. Before going downstairs I trued the secret spring and satisfied mychemistry will require revision. The future possibilities of the discovery it is dificult self that the pocket-book, which still re-mained untouched in the drawer, was Mr. Preston's. I could not retain my story ; and to limit. The great object of the old al-chemist was, of course, to transmute base metals into gold, and so far as our know Preston's. I could not retain my story; and words could not describe the surprise and bewilderment shown in my new friend's countenance when he heard it. He had not the slightest idea that he walked in his sleep; and he had to run up-stairs and him-self learn from me the secret which with senses awake was unknown to him. "Al-but me the neasure" said Line. low me the pleasure," said I, "of pre you with the missing pocket-book !" "of presenting eries before they are turned into commercial facts. I am not, of course, holding out any probability that such will ever be the case

Mrs. Fox was equally astonished at the solution to what had been an unpleasant nystery for nearly two years; but her debut an attitude of mere incredulity is by n means justifiable in the matter. Mr. Lock-yer is one of our best living spectroscopists ght exceeded her astonishment. She then told us that the gentleman who occupied Mr. Preston's room on the night of the disand no man with a reputation such as his would risk the publication of so startling a ppearance was the eldest son of a wealthy fact as he has just announced to the scient tific world without the very surest grounds baronet who was present at the ploughing-match dinner. The son had affianced him-self to a young lady, at that time not ap-proved of by the father. On the day bofore the regiment of which he was a captain was to embark for Ireland, he had obtained leave of absence in order to pay a visit to his finicee. His horse becoming lame through over-riding, had prevented his return that night; and in order to join his regiment in time he had started from the *Rose and Crown* it was a built of the change of one element into another, unless, indeed, our who'e system of specaronet who was present at the ploughinginget; and in order to join its regiment in the ingent of a very awkward dilemma. He has already made a communication to the Paris Academy of Sciences on the subject, and he is abcut to read a paper before our own Royal Society., in which we may hope to learn the re-sults of his later experiments, mude since the paper was read in Paris. For this full

bound Mrs. Fox under promise of secrecy i hence her refusal to acquaint Mr. Preston with his name and whereabouts. I have only to add that this little adven-ture extended to me the friendship of my father's old schoolfellow, and many times when we have been together has the subject of this story been recalled.

The Cow-Fight at Nimes.

An Extraordinary French Diversion.

(From Harper's Magazine.)

ENGLISH PLUM PUDDING.-One and a half pounds muscatel raisins, one and threequarter pounds currants, one pound sultana raisins, two pounds moist sugar, two pounds bread-crumbs, 16 eggs, two pounds finely chopped suet, six ounces mixed conded peel, the rind of two lemons, one ounce of ground nutmeg, one ounce of ground cinna-mon, one half ounce of pounded bitter al-monds, one quarter pint brandy; stone and cut up the raisins, wash and dry the cur-rants, and cut the candied peel into thin slices; mix all the dry ingredients and moisten with the eggs, which should be well beaten into the pudding; stir in the brandy and, when all is thoroughly mixed, butter and flour a stout new pudding-cloth; put in the pudding, tie it down very tightly and closely boil from six to eight hours, and serve with brandy-sauce. Stick some sweet almonds, blanched and cut into strips, in it. This pudding will be sufficient for 12 or 14 persons. This can be cooked a day or two leftore it is wanted for the table in the sufficient of the sufficien before it is wanted for the table, in which case, when the pudding is taken out of the water, hang it up imme liately, and put a plate underneath it to catch all the water that may drain from it. The day it is to be

CUP PLUM PUDDING.—Take one cup each of raisins, flour, bread-crumbs, suet, and su-gar; stone and cut the raisins, wash and dry the currants, chop the sugar, and mix all the above ingredients well together; then add two ounces of cut candied pcel and citron, a little mixed spice. salt, and ginger, say half a teaspoon of each; stir in four well beaten eggs, and milk enough to make the mixture so that the spoon will stand up-right in it; tie it loosely in a cloth or put it in a mould; plunge it into boiling water and boil for three and a half hours. A BAKED PLUM PUDDING.—Take one pound of flour, one-half pound suet, one egg, one-half pint of milk, a little

account of his researches we shall look with no small interest, for, since 100 years ago, Priestly discovered oxygen and founded modern chemistry, there has been, there could be, no discovery made which wou'd have such an effect on modern science as to a buttered dish, and bake in a good oven from one and a quarter to one and a half

A nendush crime came before the Assizes at Doubs, France, a few weeks ago. The accused, named Nachin, was a very power-ful man, and was considered dangerous when under the influence of drink. In the same village was a young girl named Celina Rondot, a blonde of 24, and very prepos-sessing. Nachin took a fancy to the girl, and as the related in her testimony seduced sessing. Nachin took a fancy to the pand, as she related in her testimony, seth and, as she related in her testimoly, secure her—if it can be so called—by threats against her relatives, and by employing force. Everybody in the neighbourhood was afraid of the ruffian. Last September there was a village festival at Fontaine, and there was a village festival at Fontaine, and Celina danced with the young men of the place, but refused to dance with Nachin This enraged the latter to an uncontrollable degree, and, after the dance, he followed the girl to the house of her parents, abusing her the whole way. As she was going in, he seized her by the hand and said: "You'll never die except by my hands." Next morning he came and walked round the house, and in the evening he came back. way served to give me an idea of the grant ear of a gladatorial day, or a fight with wild beasts, in those by-gone times when those vast tiers of marble were thronged with myriads robed in purple and gold. There were about six thousand present on this oc-casion. More, probably, would have at-tended if it had been a regular bull-fight in-stead of a cow-fight which was offered on the bills. But if less exciting, there was nearly as much fun in the spectacle I saw there. It was advertied as a "course libre," which meant that all who chose et ibre area and join in the spect. it. The arms if not as daugerous as buls, orrible scene before her, tried a ruse, and spoke to the murderer as if she had not remarked anything. She told him to wash his hands. "No," said he, "that's only your mother's blood. I have just killed her, and I am about to do the same to you. Before doing so the brute wanted to his passions. He knocked down the girl, kicked her, beat her, and then violated her. In her supplicating for mercy he allowed her to rise. She ran out, but was followed and again knocked down. Again he let her go, and she ran into a wine-store imploring rotection. Nachin followed her and de nanded drink. The wine-seller, named Veanney, and his servant, both ran away and left the girl again alone with the ruffi Again the murderer knocked the girl down, throttled ber, and sat down on her, Finally he left her for dead. Then the brute walked down the village. When the girl recovered

industry they found rivals established too powerful for their competition.

Once the Loveliest Woman in Europe.

Walking in the woods one day, my friend met a pale, elderly lady, in the plainest of black cashmere dresses. Her grey hair, which showed threads of bright chestnut through its silver, was put back plainly under a simple hat of black straw. She was d was evidently suffering ex-rheumatisn. She was accomvery l tremely from rheumatisn. She was accom-panied by another lady a quietly dressed as herself. Do you know who that is ?" ask-ed my triend's compation as they passed, "No," was the answer. "Do you think she is handsome?" "Not at al, nor can I even see any traces of past beauty." Yet that lady was once hailed as the loveliest woman in Europe; it is the Empress Eutremely from rheumatis n. genie. She was living in the quietest possible manner at Eus, and before she left was much henefitted by the waters. But she seems to have relinquished all effort to struggle agrinst the ravages of time, and to have laid stide the false adornments where-with a few years ago she used to disfigure instead of improve herselfher and appearance. Still, it is very sad to imagine this once peerless beauty now changed to a faded, el-derly invalid, deposed from her throne of France. even see any traces of past beauty." Yet that lady was once hailed as the loveliest woman in Europe; it is the Empress Eu-genie. She was living in the quictest possi-ble manner at Ems. and holese she had

Raw-Hide Horse Shoes.

A method of shoeing horses with raw-bide has long been in use on the plains and found has tong been in use on the phases and round so serviceable and convenient that it might doubtless be found useful in many places where there are long periods of hot weather. There are also cases frequently occurring, in which disease of the feet might at least be alleviated by the temporary use of shoes cut from raw hide or properly prepared sole leather. With these, that portion of the foot which needs the most precaution, viz., the crust or walls of the hoof where it meets the sole, will be preserved from contact with the sole, will be preserved from contact with hard or rough surfaces; while the frog, gen-erally too much protected, will reach the ground and become subjected to healthful action. For farm work, upon smooth soils free from stones or gravel, this kind of shoe will be useful during the summer season. A simple strip of raw-nide of sole leather, well filled with hot pine tar to make it hard and waterproof, will be sufficient for generand waterproof, will be sufficient for gener-al use. A more durable shee may be made of two or more thicknesses fastened togewith copper rivets.

fashioned dressing-giass in the window re-cess. There was a fire in the room, it being Mr. Preston's custom to have every precau-exhausted powers. As at home, so in the tion taken against catching cold from unairtion taken against catching cold from unair-ed room or bed-linen. We at once exam-ined all the curiosities in the room, coming finally to the cabinet which contained the Minister rose most frequently at a late hour, usually about 10. He had, however, finally to the cabinet which contained so drawer whose spring was hidden so cleverly by the maker. It was a handsome en to sleep when the norning light was cleverly by the maker. It was a national in the strength of shining through the windows. Frequently shining through the windows. up the Jordan valley and the whole region erth of the Suez canal. In certain continencies this road might become of great military usefulness, but it appears further that the productive resources of the country are considerable, and what is more surprising, that the Dead Sea itself can be turned to commercial account. Chief of these at preent are the stores of natural combustib which that region is noted.

Hitherto the main obstacle to the deve!ment of steam traffic in the Levant has een the total absence of combustible material. Not only Egypt, but the shores of Synia and the Red Sea, are completely strip-ped of wood, and the coal imported from the

West commands a price ranging from \$10 to \$24 a ton. Now the masses of asphalt con-tinually thrown up by the Dead Sea attest any deposits of coal proper, but, on the other hand, have laid bare inexhaustible

beds of lignite. Of itself this store ef lignite is likely to prove an inestimable gain to the industries and commerce of the Levant; but we should add that the juxtaposition of asphalt in great quantities furnishes the elements for a nixture of lignite and asphaltum in the form of bricks, which is equal in heating capacity to the richest bituminous coal, while its cost on the ground is only \$2.50 a ton. It is known that similar bricks, made up of coal dust and bituminous debris from gas

works, are much sought after by French In 24 hours it railways, since, besides their heating power, they greatly facilitate stowage owing to their egular shape. Of course the bitumen of ver Palestine has been known from imm CHOCOLATE CARAMELS, I.-Three pounds norial times, and was used to impart solidwhite or brown sugar (brown preferred), one pound chocolats, one pint milk, one-half pound butter, and vanilla to taste at the ty to the structures of unbaked clay in As-yria and Egypt; but it may be said that pound

An Old Lady's Good Luck. (From the Pall Mall Gazette.)

It is gratifying to hear of one instance good luck in connection with the great ca-lamity which has caused such widespread lamity which has caused such widespread distress in Scotland. A very singular in-stance of this kind is related by a corres-pondent, who writes to us as follows: A. B., an old lady with a fair fortune -£8,000

or £15,000 — had a legacy left her of £2,000. This, after much cogitation, she, following her Free Church clergymen and other religious authorities, invested in the Glasgow Bank, and for some years drew the dividends satisfactorily, Then came the failure, and the old lady was distracted by the thought of future beggary. Her neighbours got their calls, but she (as it seemed, from the

An Enterprising Woman.

A Baltimore gentleman, during a brief so ourn in New York city, called at the resi dence of a well-known dressmaker to exe-cute a commission for his wife. Quite unexpectedly he recognized the lady proprietor of the establishment as one who had been the seamstress of his mother in the country house in his boyhood. She had married from his mother's house a ne'er-do-well, after which the family lost sight of her. With much pride and self satisfaction she inform-ed him that she had left her husband a few years after hermarriage, he never having done anything forher support, and she had taken a situation as seamstress in New York city. The prices paid by her mistress and her young lady daughters for having their dresse made, the eclat attached to "Paris" styles, made, the celat attached to "Paris" styles, gave her an idea, upon which, as soon as she had saved a little money, she acted. She boldly announced herself as a dressmaker, offered to copy their imported dresses, did so satisfactorily, and thus not only gained experience but increased her own emolia-ments. After a time she left her situation and launched out. At the present moment she employs three men cutters, goes to Paris for goods and styles every season, lives in a for goods and styles every season, lives in a house which she owns and for which she paid \$35,000, and drives to her place of bu

AN IMPORTANT SUGGESTION.

The editorial in last weeks paper on the license law, seems to have been very favorably received by our readers Following up the subject, we propose Flouring Mills. The sentiment of the to show the inefficiency of the present law and make a few suggestions look- of sincere regret that such a large bus ing to its amendment.

As at present in force, the law is neither a preventive of excessive drinking, nor does it sufficiently protect the honorable dealer against the injurious effect on his business, produced by violation of the law on the part of a rival, or in the case of a wholesaler who thus secretly competes with the retailer. The fine imposed for the first violation complained of is altogether too low. The law cannot be broken without the knowledge or con. sent of the dealer-even where a proprietor intrusts his bar to an employee it is his business to know that it will be conducted the same as by himself. Should the present law remain operative, the fine for the first offence, proven after a rigid and impartial examination of reliable witnesses, should be at least one hundred dollars, for the second offence two hundred and fifty, and for

the third offence five hundred dollars and imprisonment. As it is, we consider the present law an egregious failure. It forms of course, quite an important feature in the government's receipts, and it is probable the coun try's financial condition might be affected if the plan we now propose was put in force, but no doubt that matter would right itself after a season.

With all respect for those who look forward with eager expectation to the ime when Prohibition shall be an understands too late.

established fact, in spite of our own opinion that it would be an unspeakable blessing, we state as our belief, that this will not occur either in their an almanac cover. own or the lifetime of their children. Future generations may reap the result of their labor in the cause, but the immense financial interests at stake on the side of their opponents will for some time to come over-rule the moral and religious side of the question. THE PEOPLES.

ITALIAN LEGEND. When the fair world from chaos rose complete, And seas and rivers fiashed 'neath afflument li And wild birds caroled their first praises, sweet, And trees and flowers awoke to beauty bright; To four great suggis came the Lord's commands, 'Make four great Peoples for the silent lands.''

First, good St. George the master's mandate hear And shaped, of the pure gold and lead he chose, A Being readter in the deed than word, Firm to its friends, and stubborn to its foes; And, on the strong winds' pinion sweeping forth, He planted England, steadfast in the north.

A glittering bladder, St. Iago took, A fox's heart, a fell wolf's fang within, And so together cark and yenom shook, Flung o'er their ugliness a ticer's skin, Fixed his creation on an olive plain, And, turning from his labour, named it Spain

St. Denis laughed, and caught a sunbeam flying; Boond it in silken knots, and watched it glance In rosy clouds its airy streamers dyeing, And called the valleys where it lighted, France; But he forgot to weight the ray, 'tis said. Nor headed that he stained the ribbons, red.

And great St, Michael took a sister beam, A kiss, a rose, a grape, a silver lyre, A velvet musk, a poniard's evil glean. A thrilling echo from the angelic choir. And bleat them with the glorous gift of Art, A poet's fancy, and a pure child's heart :

Italy ! Italy ! and with a smile, He placed his work 'mid sun and flowers to g But Lucifer had watched him all the while, Fitting a poisoned arrow to his brow, Lest Michael had his evil work defied, And Eden lived again on Tiber side.

The arrow quivared in the rose's heart, And jarred the music on the silver string; And still trankles deep, the Devil's dart, While age on age fresh names the deadly thing " Priestratt" or " Gruelty" or "Superstition," So bearing witness to the old tradition.

AN IMPERIAL PARDON.

BY F. A. S.

During a journey through some parts of Russia a few years ago, we engaged, in pre-ference to the imperial post-chaise, a private conveyance for a considerable distance, the driver being a Jew-generally preferred in the East on account of their sobriety and general trastworthiness. On the road my companion became communicative, and en-tered into philosophic-religious discussion-a topic of frequent occurrence among these bilingual populations. After a somewhat deuultory harangue, he suddenly became si-lent and sad, having just uttered the words: 'Of course ! it was my birthplace, which

was a very old house."

Crown property since 1848."

bilingual populations. After a somewhat desultory harangue, he suddenly became si-lent and sad, having just uttered the words: "If a Chassid goes astray, what does he be-come? A meschumed, i. £., an apostate." "To what class of people do you allude?" I inquired. "Well, it just entered my head, because we have to pass the house of one of them—I mean the 'forced ones." "Forc-edl I thought of a religious sect. "Are they Christians or Jews?" "Neither the one nor the other," was the reply, "but sim-ply forced.'Oh, sir, it is a great misory and a great crime 1 Our children at least will not know anything of it, for new vic-tims do not arise, and on the marriage of these parties reets a curse—they remain sterile 1 But what am I saying? It is ra-ther a blessing—a mercy! Should such a terrible misery be perpetnated? These

ther a blessing—a mercy ! Should such a terrible misery be perpetuated ? These forced people are childless. Well, God "I have never even confront

"I have never even confronted the Rus-

forced people are childless. Well, God knows best. I am a fool, a sinner, to speak about it." No entreaty of mine would in duce my Jewish companion to afford further information concerning this peculiar people. But before the end of our journey I heard unexpectedly more about this unfortunate class of Russian subjects. We travelled westward through the valley of the Dnies-ter, a district but thinly peopled, and rested at an inn on the borders of an exten sive forest:

Amidst the raillery going on in the prin-cipal room of this hostelry between guests of different nationalities, we had not heard the noise of wheels which slowly moved towards the house. It was a very poor conveyance, contaming a small cask and a basket. The Pawlowitch' had not sworn in vain that if containing a small cask and a basket. The Pawlowitch had not sworn in van that if young hostess arose hastily, and, approach-ing the owner, said in a whisper, "What is it you want?" A slight paleness overspread her countenance, and stranger still was the demeanour of my coachman. "Sir, sir!" lived who was suspected of revolutionary her countenance, and stranger still was the demeanour of my coachman. "Sir, sir !" he exclaimed loudy, turning towards me, stretching out his hand as if seeking support or warding off some impending danger. "What is the mater?" I rejoined, greatly surprised; but he merely shock his head, and stared at the new-comer. He was an elderly pessant, attired in the usual garb of the country-people; only at a more close inspection I noticed that he wore a fine white shirt. Of his face I could see but little, it being hidden behind the broad brim of his staw hat. brim of his staw hat.

under the circumstances, be downright mockery. A painful pause ensued, which I broke with the question, if he had worked the ea-graving upon the lid of the box after a pat-tern.

"No, from memory," was his rejoinder. "It it is a peculiar kind of architecture." "It is like all gentlemen's houses in Litas laundress to the barracks at Mohilew as laundress to the barracks at Mohilew ! An aged Jew had been sent to Siberia for having smuggled prohibited books across the frontier. He had been the owner of a printing establishment, and was well ac-

tauen ; only the old tree is very striking. It printing establishment, and was well ac-quainted with the business. 'Could he not be employed in one of the Imperial printing offices; and if possible," urged the aged man, "be permitted to reside in a place where few or no Jews lived ?" He had un-"Has been? Does it exist no longer ?" "It was burnt down seven years ago by the Russians, after they had first ransacked it. They evidently were not aware that they destroyed their own property. It had been confiscated years before, and had been

"And have you yet the outlines of that building so firmly engraved in your me noreligionists would none the less avoid him as an apostate. The young official noted down his request, and made him a police agent at Miaskowka, a small town in the government district of Podolien, almost exclusively inhabited by Jews. Another, a former school master, in the last stages of consumption, begged on his knees to be permitted to die quietly in some country village. "That is certainly a modest request !' observed this worthless youth; and sent him as watter iu hospital. Need I tell how I fared? Be ng misled, like the rest, by the hypocritics

> ost of under-steward at some remote Crown setate, where I might have as little inter-course as possible with my fellow-men. And thus, sir, I became the keeper of the small inn on a much-frequented highway [TO BE CONTINUED.]

> > Cramming in Our Schools.

he minister c ams the two sermons which he is to preach on a Sunday; that the lawyer, too, when he has an important case on at Osgoode Hall, gets hold of his brief and sets to work to cram it, and that twen-ty-four hours after he has delivered it he annot tell one point in it, and that cram-ring in that sense of the word is one of the nost useful faculties a man can possess, that y promoting the habit of "cram" in chool we are forming a good habit. These opinions may be held by a few teachers, but they cannot be held by any one who has given the subject a serious consideration or

oserved closely the effects which over study has on the great majority of students. The comparison drawn between the minister who crams his two sermons for Sundays, or the lawyer who crams his brief for delivery at Osgoode Hal¹, and the children attending our schools, is manifestly unjust. Is there no difference between the matured minds of professional men and the growing intellects are about 60,000 strong; of whom close

"Their faculties are worn out by the strain

Their faculties are worn out by the strain put upon their callow brains, and they are demoralized by worthless childish triumphs before the real work of life begins, Dr. Richardson, the eminen. physiologist of London, repeats Prof. Huxley's protests against subjecting young people to the un-natural strain which preparation for many of the examinations involves. He says, "The present modes of education are not compati-their work thoroughly than troops fresh the examinations involves. He says, "The present modes of education are not compati-ble with healthy life. Young men and wo-men who are presenting themselves for the truth of this, and the French profited by our higher class examinations are correlated by the higher class examinations are crushed by the experience. We threw it away. ntensity of effort."

The Sultan's Seraglio.

Some of the true tales which are told by the author of "Les Femmes en Turquie"-a most interesting book, by the way—are as marvel'ous as any of the Thousand and One-Night series. The mother of Abdul Med-jid, for example, was a maid-of-all-work in the Sultan's Seraglio. It was her business

to warm the baths in the palace. One day the Sultan Mohammed met her as he was going to his bath, and a caprice burst like lightning through his soul. Without cere-mony the servant girl received from him the lofty distinction of Kalifa. It is more than probable that after a four minuter' reflection

"Does your hostelry lie outside the main road." "No, close to the high road. It was at one time the best inn between the Bug and the Dniester. But now carriers do not like to stay at our house." "And why not?" "And why not?" "And why not?" "Attracted by the delicate execution, I in-guired, "And is this your own workman-hip?" "Yes," was his reply. "At the fortrees ?" "At the fo

dustrious man to be set up in the market place. It makes me laugh and cry by turns King Alfonso's Second Choice. o get into one of our money streets and s A Paris letter fr m Mrs. Hooper says : It e anxious men and boys hu-rying up and unoured that Don Francisco d'Assisi down. One would think that business is innoured that Don Francisco d'Asisi, the husband of Queen Isabella, has quitted Paris to proceed to Matri i, the mission be-ing to negotiate the preliminaries of a mar-riage between King Alfonso and his cous n, the Princess Christine of Montpensier, the e'dest sister of the late Queen Mercedes, and the your consister of the Courtese do money were partners, but they are really enemies to each other. The most successful men of business are the least hurried. What would not men give, if they could get rid of this perpetual hurry and drive, this gallop-ing to the end of a journey only to mount a fresh steed and gallop onto the next stage, the clatter of the horse's hoofs an accompaniand the younger sister of the Comtessed e Paris. She is very different in appearance from the young King's dimpled, gir ish bride, being tall, this and angular, with a nent to all their thoughts. There is certainly something ignominious in the con-fession which people are constantly making, that they have no time to do this or that pointed nose of portentous dimensions. But she is very graceful and elegant in carriage and ad lress, and is suid to be 'accomplished and intelligent, with far more force of charneedful thing, and that they shall breathe more freely if they can once clear their desk, or finish this job, or wipe out this obacter than was possessed by poor, pretty little Mercedes. I am told that the Spini-ards are extremely anxious that their King should marry a lady of intellect and end-ture. They would much have preferred an alliance with the Princess Beatrice, all of Oncor Victoric darphters being remark ligation. One comes to feel that Time has been borrowed from, and that one's notes been borrowed from, and that one's notes are perpetually maturing, while one makes a vain effort to cancel them by giving fresh notes. We turn round in a helpless sort of fashion and breathe the age we live in with its whizzing locomotives and its clicking telegraphs, as if the punctuality of railway trains and the instantanceusuress of desaliance with the Frincess Beatrice, all of Queen Victoria's daughters being remark-able for their intelligence and accomplish-ments, but that, of course is out of the question, the royal marriage laws of Eng-land forbidding any member of the royal family to marry a Catholic, under penalty of forfitting for themselves and their de and the instantaneousness of des patches were not the very friends and serof forfeiting for themselves and their de scendants all claims to the English throne.

MODS BEFORE PURCHASING SISEWRERE.

dating no farther back than the days of Boucicault and Fechter. Splendid scenery and gorgeous dresses for the legitimate drama were introduced by John Kemble, which would have driven some people out of their mind. He would not, he writes, encounter the radeness of a certain lawyer to save all his property; but he adds: "I have chastised him in my Latin poetry now and developed to the utmost extent by Mac-ready and Kean ; but it was reserved for the in the press." Such a mode of chastisement seems to have been as completely satisfac-tory to Landor as it doubtless was to the present decade to lavish the same attenti and expenses upon the petite drama. Half a century ago the property maker manufac-tured the stage furnitare, the stage books, His quarrels do not alienate us for it is evident that they did not proceed the candclabra, curtains, cloths, pictures, &c., out of papier-mache and tinsel; and the drawing-room or library of a gentleman's from any malignant passion. If his temper was ungovernable, his passions were not was ungovernable, his passions we odious, or, in any low sense, selfish.

The Princess Alice and Her Home.

the Kemble time a green baize, a couple of chairs and a table, sufficed for all furnish-ing pur oses, whether for an inn or a pal-Princess Alice was, perhaps savs the London Truth, the most popular of the Queen' daughters, and the sorrow for her untimely ace. In these days of "theatrical upholstery," we can scarce y realize the shabbiness of the stage of the lest century. There were a few handsome suits for the principal actors, but death is genuine and heartfelt. Regretted as the princesses in England, she will be still more regr. tt.d in D.rmstadt. Her influmore regretted in Darmstaat. Her innu-ence was felt, not only in the court, but handsome suits for the principal actors, but handsome suits for the principal actors, but brogue,— among all classes, high and low. The Darm-stadt rs were proud of her. Her kindness the less important ones were frequently dressed in costumes that had done service then his memory failed him, and her subjects not for fifty years, until they were worn thread? had become proverbial, and her subjects not only respected her as their grand duchess, but loved her as a woman, the model of all womanly virtues. When in the nursery at Windsor she used to say that she would be a geeen; but princesses propose, and love mappearance at Covent Garden as "The Fine old suit of clothes, with a black velvet is and broad, gold flowers as dingy as

The stories are endless of the shifts and swindles to which country managers, at their wits' end, have had to resort to attract a sluggish public. How great singers have been advertised that never heard of such an in Rome. In the past three years there were in all the city only seventeen on a engagement, and even forged telegrams read to an expectant audience, to account for their non-appearance. How prizes have been distributed on benefit nights-to peotime. month. ple who gave them back again. How audi ences, the victims of some false announce ment, have been left waiting patiently for

the performance to commence, while the manager was on his way to another town with their money in his pocket. But there is a great sameness about such stories, and one or two are a specimen of all.

No veteran smoker would enjoy smoking in the dark, because to smoke properly one must have a light.

I remember reading in the *Triones*, while Horace Greeley was editor, that one pound of cracked Southern corn, boiled nine hours, adding water and stirring occasionally, to when has developed and is the schedule of the

and experience on this subject might benefit some who are sorely pinched, and be of benein science and in mechanism will tend even-tually to the good of mankind and the glory of the Creator of all things.

MISCELLANEOUS ITEMS.

LIMA went into mourning for eight days or Don Manuel Pardo, late President of Pe-

years a gradual decrease in the property of the rites of the Established Church, while at the same time the proportion of civil marriages is had a bit in their mouths.

marriages submitted Church, while at the same time the proportion of civil marriages is steadily increasing. Word comes from Rome that a bill will soon be brought in to the the civil marriage obligatory before the the civil marriage obligatory before

stead of leaving it, as now, to the option of the persons concerned. The old superstition against Tuesdays and Fridays as unlucky days for marriages is religiously adhered to in Rome. In the past three years there

oining town said that many persons failed to get into the hall. It subsequently trans-pired that they made no attempt to.

Mr. GLADSTONE'S daughter is so familiar with his library that when he desires a reference, she instantly fetches the book needed, and points to the passage required.

It is said that the volcano of Cotopaxi renchlemsee a royal chateau, on the plan of that of Versailles. The building is to be fif-of ashes and smoke issuing from it can be that of versailles. The building is to be fit-teen years in the course of construction, and to cost \$9.000,000.

forty-one who were successful.

Percentage New Pupils

On motion of Mr. Hall, seconded by Mr.

THE social assembly in Fawcett's Hall, interest in our work, should stimulate both Watford, on Friday evening last, was a teachers and trustees. For my part I engreat success, about thirty-five couple being ter upon the new year with the rese lage even more so than it has been in the pains were spared by those who had the past year, and I trust that all who have anything to do with the institution will do the same, and carry it out.

WONT DENIS

A YOUNG WOMAN

I beg leave to call your attention to the fact that the rooms are imperfectly heated. The week before the close of school it was very difficult to get on with our work. More attention will have to be paid to getting the rooms thoroughly heated in the mornings, or the pupils health will be endangered

Our monthly report forms for the pupils are exhausted, and if it is your pleasure we would like a fresh supply.

Respectfully submitted THOS. WHITE, To the Board of P.S. Trustees Principal.

Watford. bod. FIRE ! FIRE ! FIRE !

The First Visit of the Fire Fiend to Alvinston.

Dr. Allan Crawford, his Family, and Mrs Perrin Stevens the Victims.

HER INFANT BUT TWELVE HOURS OLD. SHE WALKS THROUGH THE COLD NIGHT TO A PLACE OF SAFETY.

The house owned by Mrs. Perrin Stevens and occupied by Dr. Allan Crawford, was totally destroyed by fire on Sunday morning last, about 2 o'clock. Mrs. Crawford had been delivered of a child at two o'clock the afternoon previous. At two o'clock, Isaac Patterson, Mrs. Crawford's brother," was awakened by a smell of smoke, which suddenly became dense and nearly suffocated him. Springing from his bed, he found the flames, which had originated about the chimney in the kitchen, had reached the main portion of the house and were making rapid progress. Rousing the family below he gave the alarm, and in a short time a number of neighbors turned out to assist. Dr. Crawford when suddenly awakened, first thought of his wife and the infant child sleeping in her arms. For a moment he lost his presence of mind as many a man would do under such trying circumstances. Recovering himself, he took up a bed and carried it into the next house, intending to carry his wife there afterwards. On his way back, he was astonished to meet her walking and carrying the infant; she having partly dressed herself before venturing out. She was afterwards carried to Duncan McCallum's house on the opposite side of the street. The lady's friends will be pleas-

ed to hear she is doing as well as could be expected. Among those entitled to special mention for bravery and heroism on this occasion are Dan. Ferguson, Capt. Mc-Henry Pavey, Dougal Leitch, William Fitzpatrick, Archie McCallum, Duncan McCallum, Jim McPherson, Fred. Benner, and boarders at the Revere

House and others whose names we could not learn. Miss Jane McGill.

A YOUNG WOMAN'S DESCRIPTION OF A TURKISH BATH.

s any of your wandering paths er led you to the Tarkish Baths? sy'rs the finest of all things, never doubt it ; s alt down, and TB tell you about it.

First of all, you are shown to a cell; there you proceed to take off -well; You may retain your hairp ns and rings, But you must remove all your other things. Then, you wrap yourself in a sheet. And fold it around you from head to itet; (And you'd better take one of your own, if you chance to be large and pretty well grown, for you'll find, and your modesty twill harrow, That those provided are rather narrow.)

Then you follow a girl, in solemn procession, Like a white-robed nun going to confession; And she lays you out on a marble slab, And you feel like a lobster, or maybe a crab.

The bornds of truth overstoped hot. The bornds of truth overstoped hot. Pretty soon you begin to melt. Ane you wonder how Shadrack and Mesheck felt. Then you're put in a room that's hotter still, And the perspiration begins to flow, And the perspiration begins to flow, And you think of poor Abed-nego. There you lie and think of your sins--And all you're heard it will do for skins--Thil your very eyeballs begin to botn--Them the pretty girl comes and says it's your turn. And the stretched out, as if you were dead, On to s any, slippery marble bod. With a ruboer pillow under your head, You are spisshed, and soaped, and scoured, and rub bed. In fact, most comprehensively scrubbed--And last, somewhat to your donsternation, Are played on by hose, like a confidgration,

Then, tucked away in a clean white nest, You can go to sleep, or can lie and rest; And everything in the whole arena Is as clean as it is at home-or cleaner; And when at last you dress for the street, You feel so supple, and nice, and nest, And even your temper has grown so sweet. You feel no longer cold or hunger-And you look at least to be ten years younger, And ba you fat as a scal or thin as a lath, For ever you'll bless the Turkish Bath.

AN IMPERIAL PARDON.

yours is a happy privilege to realize the dream of a purely socialistic marriage. dream of a purely scalard at the formation of a purely scalard at the property scalard at the scalard provided at the scalard Make, then, your selection without delay ;

The problem of the problem stit." Ah. Capt. Thornton, are you sure is solved to be an estile or correction. because of correction, because of correction, because of correction, because of the young lady you now late the observed. '' any prospect of misfortune, until a single 'continued the official — "' to from here and be actively signed in Venice, asking for the head bleed with the unfortune of the young lady you now claims, that generative and be actively signed in Venice, asking for the head bleed with the unfortune of the young lady you now claims, that generatively signed in Venice, asking for the head bleed with the unfortune of the young lady you now claims, that the observed is solved with the unfortune of the young lady you now claims, that the observed is solved with the unfortune of the young lady you now claims, that is election that caused her fainting. For you here is waiting an adequast recover of hore really ble the your and the single distributed with the unfortune of the young lady you now claims, that is election that caused her fainting. For you have and be forced, in the solved with the unfortune of the young lady you now claims, that is election that caused her fainting. For you here is waiting an adequast recover of your real in the solved with the unfortune of the young lady you now claims, that is solved in plane at the young girls to ruin, in whose soul every gener dial force in the infamous has who had habitually decoy. They was a strateging the own who had habitually decoy. They was a strateging the the world of the strate of the solution of the solution. They were at the young girls to ruin, in whose soul every gener claim in the long bidden in faint were to the solution of the solution of the solution of the solution. They were that world the strate you well.' Shi you will not be private and the adviced the trate you well.' Shi you will not be private and the adviced the the solution the solution of the solution of the solution of the solution of the world. They were that world the strate you well.

been an entertaining spectacle to notice the behaviour of this ill-assorted people at that hour. Even the barefaced monster on his was a lean, ugly, dark-complexioned wo the old gentleman."" "And, believe me,' said Helen, 'I did it only to keep it for you, the rightful heir, whose wildness had temporarily provoked hour.

hour. Even the basefaced monster of hold in which is draged using the strayed a feverish excitement is he would suddenly jump from his chair, and many symptical fables to describe the details, being not altogether unsubsed at this fragers. I am hardly able to describe the details, being not altogether unsubsed at this fragers. I am hardly able to describe the details, being not altogether unsubsed at this dreadful hour. The monument sympt set is one anguestionably does, a glance was exhanged between the two discrete the details, being not altogether the details, being not altogether unsubsed at first in two distinct groups, and for the first few more ugly. 'A woman who can suffer is allowed at first in two ments after the official amouncement, or a glance was exhanged between the two during the threshold of the first few more ugly by an occasional deep sigh, or a nervous movement. The minutes passing ed, certainly not many, but they seemed to it altogether of a mervous movement. The minutes passing ed, certainly not many, but they seemed to the second which we effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not without a least for the effected the exchange : not with

young and delicate creature. I learnt after-wards that she was an orphan child, born of a dissolute woman in a penal settlement. A coarse fellow with cunning eyes bent over her, endeavouring to raise her from the ground. I suddenly pounaed upon the fel-low, struck him a heavy blow, and carried the unconscious woman away as if a mere child. I determined to defend her to the last. But no rescue was attempted, though

apark of womanhood had long been extin-guished. And these people were called upon to marry; and one hour was granted them in which to become acquainted and assorted 1 Sir, you will not perhaps com-prehend my emotion in relating this shock-ing business! "I consider it the most shocking and at the same time the most curious outrage which has ever been committed." The fused his countenance, and his agitation was great. The young hostess appeared perfect-iy stunned, whilst Reb Russan, the coach-man, beath is head in evident continued in a calmer mood. "I't must certainly have been an entertaining specacele to notice the behaviour of this ill-assorted people at that

newever, until he brought her home—a young lady. "Then, while I was in India, the poor old man fell suddenly ill, and ou his dying bed persuaded his young ward to marry him, just in order to inherit his vast estate, which he had refused to that as a learner. "I days of Nabupalassar and Artaxerxes in the form of baked clay; but they are to be seen at the British Museum. The Arabs and Jews from whom they were obtained have kept the secret so well that the place in which they were discovered is not yet known

the old gentleman.""

Is Your Life Worth 10 Cents.

Sickness prevails everywhere, and every-ody complains of some disease during their fe. When sick, the object is to get well ; enamoured of Mme. Farmaschetti, ne an-noyed her to such a degree that her hus-band beat him and drove him from his house. Several days after Parmaschetti started at midnight, with a boat-load of garden pro-duce, for Venice. His wife was soon life. balad beat hut. Tetaldo had entred by the

return of Farmar-sought Tetaldo, and found him. Parmar-schetti plunged a pitchfork three times into his breast, and held him pinned, while his brothers broke his arms and legs with and iron bar. Parmarschetti intended then to burn him, but a brother proposed that he should be floated upon the Adriatic, that the birds and fishes might eat him alive.

never suffer from a misfit. 109 Yonge St.

Toronto. A TRUBM.—Constant grinding at the mill of life, perpetual loss of vital force, will drag the strongest man to the dust; it is manifest, therefore, that the system must be kept supplied with a due amount of oxydizable phosphorus. The pleasantest and most palatable way in which it cun be introduced into the system is by the use of Vicrosita Hypopilorisms, which is the greatest brain, bleod, and nerve food in the world. For sale by all declers.

such a comprehensive grant, districts will be opened that have not hitherto been search-ed, and we shall hear of fresh discoveries at doesn't it become a terrapin the moment it

touches the earth? The special sale of Farniture at greatly reduce prices, now going or at the warerooms of the Oshaw Cabinet Compary, No. 97 Yonge St., Toronto, is a bona fide one. The whole stock is offered at a heavy discount, to make ro nm for new styles daily arriving from the factory at Oshawa. Their new Parlour and Bed-room Suites are very attractive, and prices are lower than ever. Their stock is complete, and can-not be surpassed.

MILLBRIDGE P.O., TUDOR, ONT

MILLERIDGE P.O., TUDOR, ONT MESSRS MILBURN, ENTLEY & PEARBON, -SIRS, I feel it my duty to inform you that last spring I lost my hearing with one ear, and this fall I lost the hearing of the other also, so that I was afraid I would never be able to hear again. I tried evrrything to bring back my hearing I could think of, but found it all in vain. At last I made up my mind to try some of the YELLOW OIL, so I rubbod a little on the outside of my ears two or here times a day, ard every night and morning. I wetsome wool with the oil and k.pt It in my ears, and in one week's time I could hear as well as I ever could, but still rub on the oil when the wea-ther is cold, and I keep wool also in my ears. I write this to you to let your Excove the yaule of your

The Wattord Guide.

JAMES C. TYE, EDITOR AND PROPRIETOR

WATFORD ONT., January 31, 1879.

also.

OUR BIRTHDAY.

To day the GUIDE begins its Fifth year of existence. It is an event of proves that the writer was a close obwhich our readers will take some in- great advantage to the world at large if terest, especially those, who from the the command was always heeded. first week of publication, now more than four years ago, have been on our subscription list,

During the four years, which, while Canada returns for December, show passing, seemed so long, but now appear the deposits during the month to be as but a summer day as we look back \$157,840, and the withdrawals, \$110,upon them, there have been many 300. changes in our circle of readers, yet withal a steady increase, and the circulation acquired, has proved of great benefit to those who wisely place their business before the public through these columns, During the last campaign, the GUIDE proved true to its principles, rascals. and as a thorough Conservative organ labored earnestly for the cause of that party. The happy result all know. In the year upon which it just enters, the same policy will be carried out, and while politics will not be allowed to usurp other interest, a reasonable amount of space will be devoted thereto. It has always been our aim to make the GUIDE a good local paper. Local news, mirrors the prosperity and condition of the town in which a newspaper is published, from the local column, readers at a distance gain information and form their opinions of the pro- seems to have become quite common, reading, while in cities, towns, and gress of the community, both social and and in many large cities people flock business. This year we propose to to see a man or woman striding rapidmake our local page more than usually ly over a saw dust track in a monotoninteresting, and will spare no pains to gather up and publish all home hap-sport, pedestrianism is not so injurious and clubs it is sent at the following rates :-penings. In this, we can be greatly as some, and any damage incurred aided by our Freaders, many of whom thereby is visited upon the pedestrian appear to think it an intrusion on their who may easily injure his constitution part if they call at the office of this pa- by efforts to out do the record of some per to give any items of news. To such former walkist. we say, you are greatly mistaken. When a visitor leaves a local with us we feel both gratified and satisfied.

Gratified that he takes so much interest in our publication, and satisfied that our locals will be of additional interest to our readers. Please remember that an invation to act as local reporter is hereby tendered to all our readers. It is needless to say much concerning our advertising columns. They contain the business cards of nearly all our promisix weeks, Gemmy. nent dealers and business men in this

section of country, who have reaped the benefit, by a large and renumerative death, being pierced by a meteor while 3 o'clock on the 8th Feb. All applica-

cordance with our own estimate of the proprieties of life. 'The sensitiveness with which we once guarded our own actions, becomes callonsed, as foolishly will be its course of free lectures on agnoting the idiosyncrasies of others, we riculture, by W. F. Clarke, of Linden reflect upon their failings until we bank, Guelph' late editor of the Canado clothe our own in a thick cloud of self Farmer. Those lectures already delivered by Mr, Clarke have been met with admiration, forgetting that others see the greatest approval everywhere. The us through the large end of a spy-glass, lectures will be reported in the Witness whose value as an agriculture paper has within the past few months, been great:

Mind your own business, is an apos: ly enhanced. tolic injunction which may seem rather The Witness is devoted to temper non apostolically blunt and harsh, but ance, being the principal organ of that cause in Canada, and to all other saniwhich we feel somewhat proud, and in server of character. It would be of tary and moral reforms, as well as to the furtherance of Evangelical religion, Another special feature of the Witness during 1879, will be the attention paid

to its engravings, which are already numerous and important. Portraits of **EDITORIAL NOTES.** the prominent men throughout the THE Post Office Saving's Bank of world will be given, and the paper will much interest and value, as well as selections from the hnmerous art of the

day. The fullest attention will be paid to SECRET Service Officers in the States, news, so that the Witness may retain its present reputation as a newspaper. The household and general literary have succeeded in breaking up the most dangerous gang of counterfeiters ever departments of the Witness have always known to operate there. Over half a been a prominent feature of the paper million of counterfeit money was and they will be continued on the same traced direct to the work of these plan as heretofore, giving to the ladies much valuable information about every thing necessary to make the househol WE call the attention of our readers

bright, pleasant, and prosperous. The price of the different editions of and especially clergymen, to the local the Witness is as follows, per year post referring to the neglect of the law paid ---compelling the registration of births Daily Witness. \$3.00, circulation 14

who is a No. 1 Architect, which enables him to furnish first-class plaus and specifications to any who con-

We would only call the at tention of those not yet appearing in the GUIDE, to the many advantages presented by our large list of subscrib; ers, the majority of whom are those of wealth and prosperity and whose pa: tronage is desirable.

Finally we will say, the GUIDE enters upon its Fifth year, with very encouraging prospects in the future. It has had at times many dark days and much adversity to contend against, but now is entering upon brighter seasons when our ambition may be realized, and the GUIDE ranked among the best and most successful Journals in the Dominion.

CONSISTENCY.

"Consistency, thou art a jewel,

wrote Immortal Shakespeare the prince In Hamilton a few days ago, a little of writers. This statement is proven correct by the personal experience of all observant men or women. Looking at 'a very sad death. She was ailing from be collected by the new firm of Bole. ourselves individually, or noting the a billious attack and medicine had been and Stickle, who will also pay all lia: prescribed for her by the family phyconduct of others-a far pleasanter ocsician. The childs mother went out in cupation-we find inconsistency in daily the evening to dine at her father's leav life to be the rule, consistency the exing the little girl in care of an old ception. The man whose life is consistent, strictly in accordance with his family nurse. During the evening J. MENERY. conscienteous convictions of right and the nurse administered a teaduty, is a man for whom search would spoonful of carbolic acid, mistaking it have to be made with an electric light, for the proper medicine, in some exinstead of a lantern, by the light of traordinary manner, and within half an hour the poor little child expired in which a certain cynical philosopher is said to have prospected in vain to find frightful agony. The grief of the an honest man.

Why men's actions are so inconsistent with their convictions of what is proper and just, may be traced to a variety of causes In the majority of cases religious bodies, toward denominations it is owing to a weak will power, often differing from them in creed or minor combined with a keen appreciation of belief. the advantages' gained by conducting spite have been objected to by the more one's self in a morally upright straight. liberal minded members of the minisforward manner, but which he fails to try. At a Baptist Conference held in achieve because of inert power of the New York City last week the Roman mental organization.

In many cases the circumstances in which one finds himself placed and over which it seems he can exert no control : or the, to him apparent necessity, of the Roman Catholic Church ; if they exercising that hypocritical shrewdness called policy, which leads him to say for it, not to blindly denounce it. and do that which he himself disap From the spirit displayed by some of proves, but does for some real or imaginary advantage to be gained by the deception, proves another cause,

pertain proves another cause, Perhaps next to weak will power, is the indifference with which we observe pur daily failures to act strictly in ac-

sleeping, is without a known parallel in history. In reading of the discovery of large meteoric stones it has often occurred to us that it was wonderful no person was ever injured by them. though if they fell from heaven very frequently the number of coroner's jurys rendering a verdict of "death from meteoric visitation " might be as frequent as death by murder.

2ND TUESDAY IN FEB. 1879 Evasion of the Sunday law in the At the hour of 10 o'clock a. m., for the pur-City of New York, will be undertaken pose of receiving the annual report, and elec-ting officers for the ensuing year. All mem-bers are particularly requested to attend as no voting by proxy is allowed, and officers must be elected by members present. in the summer season by running a boat expressly fitted up for a small variety theatre. A bar and eating room will be on the boat, and the

amount of debauchery which will DISOLUTION OF PARTNERSHIP therein be exhibited will doubtless be enough to convince respectable people

there that a thoroughly enforced Sunday law is a good thing.

some humb e friends who did not cast her off; but for all that selfish and cowardly off; but for all that selfish and cowardly fellow knew, she might have been dead, or worse, lying ill and starving with his child on straw in a garret. Her feeling toward him seemed to be that of mild contempt, because he had lacked the maniness to face the con-sequences of his own conduct. She made no claim upon him whatever. From what I saw and heard I c. me to the conclusion that an unma ried mother is not in general treated unma ried moiner is not in general treated so cruelly by her friends among the lower classes in England as in corresponding oir-cumstances she is with us. As I made a slight contribution to the confort of the little one, she be ged me to go home with her and "see the little kid," with regred to whose protings she gray me year confident as: be the little kid, with regra to whose pretines she gave me very confident as-surances. But although it was stipu ated on her part that my proposed visit was to be one of domiciliary inspection merely, to this invitation I did not seriously inc inc. We invitation I did not seriously inc ine. We went out into the glaring, gas-lit, bustling Strand. She shook hands with me in a hearty way, and with no profusion of thanks from her we parted. I turned after I had walked a few steps, and saw her standing still amid the hurrying throng, looking earnestly after me. I nodded to her, went on my way, and saw her no more. earnestly after me. I nodded to on my way, and saw her no more.

Algiers.

The capital of Algeria has often been comsomething. But no; she even followed me to the very door of the house where I was going, thrusting the flowers almost in my face, and saying, "Only sixpence, sir; please buy one;" but she did not beg. I remained ob-durate in vain, until the door opened, and then I took has reserve and ant comparison is an extremely apt one. It has, indeed, a less extensive sea-front than its I talian rival, and lacks the gloomy grandeur of Vesuvius, with all its terrible associations. But the town itself is the same marvellous

Another mystery! He answered, "Besi-ness of my own, my dear,"—and went into the office. SEPTEMBER 12TH.—Is my miserable son-in-law's house under a curse! The yellow-haired woman in the open carriage drove my to the door at half-past ten o'clock the morning, in a state of distraction. Felicia and I saw her from the d a ving-room bail on-the daving-room jushed downstairs and out into the sures. A Parrot's Piety From the Baltimore News.

Capt. James Etchberger vouches for the following bird story: About thirty years ago, when in Honduras, in command of the bark *Eldorado*, his wife, then accompanying him, was presented with a parrot, a spright. y bird and a fluent discourser in the Span-sh language. The bird was brought to this city, where, after being domiciled in the household, of the captain's family, it soon ere, after being domic acquired a knowledge of the English tongue. The next-door neighbour of the captain was a garrulous woman-an incessant scoldor ever quarreling with some one or some-

thing. Polly, being allowed full liberty, was pleased to take an airing on the yard fence, and in a short time had learned to mimic the scolding neighbour to perfection, and finally became aggressive. Polly not unfrequently rued her impertinence by being knocked off rued her impertinence by bein the fence with a broomstick. This brought forth a torrent of abuse from her injured feelings upon the head of her assailant. Finally the bird's language became so abusive that the captain was obliged to send it away, and Polly was transferred to a good Christian family in the country, where in the course of time she reformed and became to some extent a bird of edifying piety.

Some time ago, while she was sunnin herself in the garden, a large hawk swoope down and bore the distressed parrot off as a prize. Her recent religious training came to er assistance, as at the top of her shricked. "O. Lord. save me! O. Lord. ave me !" The hawk became so terrified at the unexpected cry, that he dropped his intended dinner and soared away in the dis-

nce. Polly still survives her attempted abduc-

JAMES C. TYE, EDITOR AND PROPRIETOR

WATFORD ONT., February 7, 1879. CHURCH OF ENGLAND TEM.

PEBANCE SOCIETY.

In a recent article we gave our readers a brief account of the origin of this Society, its objects, and the way in which they are accomplished. We cannot do better now, perhaps, than quote the words of Prebendary Grier, in answer to the question, "What is the Church of England Temperance Society's object ?" It is : "The Church. of England in action against one particular Vice !" And now the Church obedient to the bugle call of the Primate ; we on this side of the Atlantic, oo, in response to the echo of those tstrains that are wafted to us across the mighty waters, go forth to battle against this great curse. Trumpettongned these words appeal, not only to the Clergy, to whom they were orig inally'addressed, but to every man and woman who really wishes to leave the world better than he or she found it. They appeal alike to abstainers and non-abstainers :-- " There is one dreadful evil overspreading the whole land, which makes havoe of our working men-the evil of intemperance. Unless you make DISTINCT AND POSITIVE efforts against it, you will be neglecting an evil which is destroying domestic life among the working classes, eating out the very heart of society, and perhaps doing greater injury than any other cause that could be named in this age." Of equal import, again, are the weighty words of 'the Archbishop of York :- " Temperance is the Crown of Manhood and by it, and BY IT ALONE

can the people follow Christ." Feeling the matter thus strongly, no wonder that these men should lend the sanction of their names and high posi-

tions to this Society by becoming its Presidents, nor that four of Britains Royal Household being total abstain-

ers, Her Majesty the Queen should in a New Jersey jail on a charge of become its Patron, and have given \$25, counterfeiting. .000 within the last year to the Tem perance cause.

I believe more has been done by that society, ly the most strenuous efforts have been made to recover it and arrest the DISOLUTION OF PARTNERSHIP within the few years that it has been established, to stem the tide of intoxicathieves, but its whereabouts is still a mystery, which may never be revealed, tion and to save our poor perishing brethren, than has been done by all or not for many years to come.

other agencies combined during the last thirty years.

It would, we think, if we had space, be interesting to give our readers quotations from the utterances of eminent men of all professions, and of different denominations, as to the work of the Parent Society : but before we conclude we wish to say a word or two about its work in our land, and the necessity for it. But a short time

since thirteen deaths from liquor drink. ing occurred in ONE DAY throughout Canada : i. e., 13 a dav, 91 a week, 4.745 a year; nearly 1 for every 1,000 of our population. It is a fact, too. that in almost every city in this land more money is spent in strong drink than upon bread. The writer of this article was recently informed by a scripture reader in Toronto that the misery and distress produced through excessive drinking in that city would hardly be credited by those who do not

go in and out amongst the people. It has been computed that at least \$50,- knife and forcibly commenced opera-000,000 is yearly lost to Canada tions. Neighbors fortunately prethrough strong drink !

matter for wonderment that we find intentions in full. This happened in dle of February. For terms &c. apply such men as the present Bishop of Ailsa Craig, the Indian was drunk and Montreal (the late Dean Bond), the forcing an 'entrance into Angus Mc-Bishop of Huron, Canon Baldwin, and Rury's house, commenced to smash very many others, working earnestly things generally. SUNKEN TREASURES BY BATARD TATLOR.

nessy waves of ife subside, ootbad ocean sleeps in glassy rest, rged, beyond of storm or t de, ares gathered in is groedy breast.

s them gleaming beautiful as when ewhile they floated, convoys of my fate; barks of lovely women, noble meu, il emiled with hope, and stored with love's freight

The sunken treasures of my heart as well Look up to me as perfect as at dawn; My golden pulac: heares beneath the swell To meet my touch, and is again withdrawn.

The swalt the recognitions, the quick ties, Whence the heart knows its kin wherever cast; and there the partings when the wistful eyes Caress each other, as they look their last.

There lie the summer eves, delicious eves, The soft green walleys drenched with light divine, The lisping murmures of the chestnut leaves, The hand that lay, the eyes that looked in mine.

I see them all, but stretch my arms in vain; No deep ses plummet reaches where they rest; No cunning diver shall descend the main And bring a single jewel from its breast.

The Recent Great French Duel.

BY MARK TWAIN.

Much as the modern French duel is ridi-Much as the modern French duel is ridi-ouled by certain smart people, it is in real-ity one of the most dangerous institutions of the day. Since it is always fought in the open air, the combatants are nearly sure to catch cold. M. Paul de Cassagnac, the most inveterate of the French duelists, has suffered so often in this way that he is at last a confirmed invelid: and the best phylast a confirmed invalid; and the best phy-sician in Paris has expressed the opinion that if he goes on dueling for fifteen or twenty years more, —unless he forms a habit of fighting in a comfortsble room where damps and draughts cannot intrude,—he will arguitable indexee hig hig. This will eventually endanger his life. This ought to moderate the talk of those people " "Thirty-five yards." who are so stubborn in maintaining that the French duel is the most health-giving of recreations because of the open-air exercise it affords. And it ought also to moderate that f olish talk about French duelists and social st hated monarchs being the only peo-

be who are immortal. But it is time to get at my subject. As soon as I heard of the late fiery outbreak be-tween M. Gambetta and M. Fourtou in the tention, why should he palter with small details? But mark you one thing: in my fa'l the wor'd shall see how the chivalry of tween M. Gambetta and M. Fourtou in the French Assembly, I knew that trouble must follow. I knew it because a long personal friendship with M. Gambetta had revealed to me the desperate and implacable nature of the man. Vast as are his physical pro-porti ns, I know that the thirst for revenge would remetate to the remetast frontiers of rould penetrate to the remotest frontiers cl would take."

Trance meets death."

After a long silence he asked,-

"Dawn, to-morrow."

He now sank into a sort of stupor of re

his person. I did not wait for him to call on me, but I went at once to him. As I expected, I found the brave fellow steeped in a pro-found French calm. I say French calm, be-cause French calmness and English calm-ness have points of difference. He was mov-ing swiftly back and forth among the debris of his formiture now not then staving flection, which lasted some minutes ; after which he broke silence with,--He seemed greatly surprised, and immedi-ately said,— "Insanity! I never heard of such a thing. Nobody is abroad at such an hour." "That is the reason I named it. Do you ing swiftly back and forth among the debris of his furniture, now and then staying chance fragments of it across the room with his foot; grinding a constant grist of curses through his set teeth; and halting every lit-tle while to d-posit another handful of hair on the pile which he had been building of it on the table. mean to say you want an audience ?" "It is no time to bandy words. I am astonished that M. Fourtou should ever have

He threw his arms around my neck, bent agreed to so strange an innovation. Go at once and require a later hour." me over his stomach to his breast, ki-sed me on both cheeks, hurged me four or five times, and then placed me in his own arm-I ran down stairs, threw open the front door, and almost plunged into the arms of M. Fourtou's second. He said, -As soon as I had got well again, we

began business at once. I said I supposed he would wish me to act as his second, and he said, "Of course." I said I must be allowed to act under a French "I have the honour to say that my prin-cipal strenuously objects to the hour chosen, and begs that you will consent to change it to half-past nine."

pose two or three will be enough ?" struck me :-'I die for my God, for my country, for "Two is the customary number for each freedom of speech, for progress, and the uni-versal brotherhood of man !" party. I refer to 'chief' surgeons ; but considering the exalted positions occupied I objected that this would require too by our clients, it will be well and decorous that each of us appoint several consulting surgeons, from among the highest in the profession. These will come in their own private carriages. Have you engaged a lingering a death ; it was a good speech for a cousumptive, but not suited to the exigen-cies of the field of h nour. We wrangled over a good many ante-mortem outbursts, but I finally got him to cut his obita y down to this, which he copied in'o his mem-orandum book, purposing to get it by heart: "Bless my stupidity, I never thought of it ! I will attend to it right away. I must

is the weapon?" "This !' and I displayed that silver-mounted thing. He caught but one glimpse of it, then swooned ponderously to the floor. When he came to, he said mounfully,-

"The unnatural calm to which I have in a broken voice. Be unnatural caim to which I have subjected myself has told upon my nerves. But away with weakness! I will confront my fate like a man and a Frenchman." He rose to his feet, and assumed an atti-tude which for sublimity has never been ap-Alas, it is not death I dread, but mu

tilation."

I heartened him once more, and with such I heartened him once more, and with such tude which for sublimity has never been ap-proached by man, and has seldom been sur-passed by statues. Then he said in his dep "Beho'd, I am calm, I am ready; reveal to me the-distance." I heartened him to presently said, "Let the tragedy begin. Stand at my back; do not desert me in this solemn hour, my friend." I gave him to point his pistol toward the spot where I judged his adversary to be stand-ing, and cutomed him to listen well and to the the distance.

"Thirty-five yards." "Chirty-five yards,— "Thirty-five yards,—without a rest? But why ask? Since murder was that man's in-tartion why should ha melter with small. "Chirty-five yards,—without a rest? But "Chirty-five yards,—without a rest?" "Chirty-five yards,—without a rest? But "Chirty-five yards,—without a rest?" "Chirty-five yards,—without a rest?"

"One,-two,-three,-fire !" Two little sounds like spit ! spit ! broke

upon my ear, and in the same in-tant I was crushed to the earth under a mountain of desh. Buried as I was, I was still able to catch a faint accent from above to the Was nothing sad about that man's catch a faint accent from above, to this ef- to be re-chosen. "I DIE THAT FRANCE MAY LIVE."

I said that this remark seemed to lack relevancy ; but he said relevancy was a matter of no consequence in last words .- what wanted was thrill. now they were crude affairs. A hearse,-

you wanted was thrill. The next thing in order was the choice of we pons. My principal said he was not feeling we'l, and wou d leave that and the other details of the proposed meeting to me. Therefore I wrote the following note and carr.ed it to M. Fourtou's friend :-

blunder, so he hastened to explain it away. Then he added that he and his principal would enjoy axes, and indeed prefer them, but such weapons were barred by the French formed M. Noir.

code, and so I must change my proposal. I walked the floor, turning the thing over in my mind, and finally it occurred to me that Gatling guns at fifteen paces would be a likely way to get a verdict on the field of honour. So I framed this idea into a pro-matition make a display."

and it filled me with bitterness when this man went obserly away to submit the last proposition to his principal. He came back presently, and said his principal was charmed at the idea of brick-tats at three quarters of a mile, but must decline on account of the danger to disin-terested parties passing between. Then I said,— "Well, I am at the end of my string now. Perhaps yow would be good enough to sug-gest a weapon? Perhaps you have even had one in your mind all the time?" and their cases of instruments; then eight protestic cases of instruments; then eight protestic containing consulting sur-gents; then a hack containing the coroner; then the two hearses; then a carriage con-taining the two undertakers; then a train of assistants and mutes on foot; and after these came plodding through the fog a long itizens generally. It was a noble turn-out, and would have made a fine display if we had had thinner weather. There was no conversation. I spoke is weapon? Perhaps you have even had

"Well, I am at the end of my string now. Perhaps you would be good enough to sug-gest a weapon? Perhaps you have even had one in your mind all the time?" His countenance brightened, and he said the theories of it, for he always referred to his note-book and muttered absently, "I

His countenance brightened, and he said with alscrity,— "Oh, without doubt, monsieur !" So he fall to hunting in his pockets,— mocket after pocket, and he had plentyfor thim,—muttering all the while, "Now, what could I have done with them?" At last he was notes for the fine of the thirty-five yards, and then drew lots for choice of position. This then the was but an ornamental eleventory, for all choices were alike in such westered. These preliminaries being ended. I went to be pistols. They were single-barreled and sliver mounted, and very dainty and pretty. I was not alle to spestfor endicon, it allently hung one of the on on my watch-ahain, and returned the other. My com-panion in erime nov unrolled a postsge-stamp

cle, and deposited at the hospital. The cross of the Legion of Honour has been conferred upon me. However, few

No one can say just when violins were in vented, but it is certain that, though the escape that distinction. Such is the true version of the most memprinciple of this instrument-strings set iu vibration upon a sounding board-was known in the earliest times, the world still orable private conflict of the age. My reovery is still doubtful, but there are hopes. I am able to dictate, but there is no know-ing when I shall be able to write. I have went on harping and drumming, playing o pipes, tabors, lutes, dulcimers and other in no complaints to make against any one. 1 acted for myself, and I can stand the conse-

The Standard of Beauty.

(From Harper's Baz vr.)

In spite of all the arbitrary laws of heruty, formed on fixed equators, in every uarter of the globe and in every phase of there seems to be a different ideal of The Circassian races, who take the Greek type as their model, with its slow and delicate curves, its perfect lines and slender elegance, have certainly something in their eye very different from the African races, who want bulging and bountiful flesh, and mouths enlarged and enriched till they cover the countenance with their bone and golden ornaments.

While the Greeks preferred the straight line for the nose, broken on'y by the swell of the nostril, the Persian thought there was of the nostril, the Persian thought there was no beanty without a nose like a hawk's bill, and the African and Polynesi n preferred one slit down its whole length and perforated with trinkets, Sir Joshua Reynolds declared that the line of the nose to be beautiful must be straight, and Sir Charles Bell that the nostrils are vehicles of emo tional expression; but other anthorities differ, and while the French poets of today find nothing nore charming than the nez retrousse, King Solomon long ago ex-pressed his idea of what a fine nose should

storekeeper buys and sells, as many do by same scales it is just as much disadevery community do absolutely nothing vantage to him as to his customers. to support their local paper, and yet Notwithstanding all this, there was at reap the benefit-in dollars and cents the time the law was passed in 1872. -every day, of the editor's work. creating a special department of weights A man will say, "Advertising does no" and measures for the Dominicn, a hue and cry raised from one end of the men on the road and get my customers country to the other. The administraby going after them, " and yet the fact tion was accused of passing a law to s that the town in which he does busgive sinecures to pets, from the fees of iness would be unknown, the railroad which they could line their pockets over which his goods are shipped would with startling rapidity. The amount of business to le done was greatly under estimated by the Government and the fees which were intended to merely cover the cast of the department were set at what proved to be too high a rate. In 1875 the fees were cut down nearly one half and they have lately been further reduced nearly seventyfive per cent. Thus when the second inspection of a scale cost one dollar, the cost is now but twenty-five cents and weights in proportion. Cost of adjusting varies from ten cents to three or more dollars, according to size of scale and amount of work done, but the cha ges are reasonable enough in all cases.

Considering that the purchasing public are if anything, more interested in men's labors, by reaping the benefits of the correctness of scales, weights and the newspaper without contributing a measures, than the seller is, it has been i cent to its support ; and yet they would be terribly shocked if they should be suggested by Mr. Brunell, head of the Weights and Measures Department charged with stealing wood from their neighbors. But the principle is just that the expenses of the department be borne by the public and no direct the same, the only difference being that charge be made gwners of scales. If in one case the law can reach them, and this is done, and it is more than likely it will, the last objection will be done away with, and the absurd, yet unpleahis fuel or his chickens. sant charge made against an inspector that he draws a salary and pockets the EDITORIAL NOTES. fees also, will be heard no more. ALVINSTON AND BROOKE ITEMS.

CHEAP LANDS IN BROOKE TOWNSHIP .-Alex. Lucas has for sale, at prices ranging from \$10 to \$14 per acre, over 2000 acres bcated as follows : In 3rd concession 400 acres, 600 in 7th, 200 in 8th, 600 in 9th and 300 in 10th conession. It is well worth while to call upon him if you propose locating in this township, or buy land for a rise.

Owing to some misunderstanding as to the mointments made by the Grand Lodge. Rev. J. N. Elliot was billed for Petrolia on Monday, and was compelled to indefinitely postpone his lecture here.

THE RESULT-The letter forwarded to Post Master General Langevin, concerning irregularity in carriage of mails, has resulted in instructions being given for the St Clair Branch train to wait thirty minutes over time at St Thomas for mails from the East. REV. Rural Dean Fletcher will conduct divine service on Sunday next, February 16th in St. James' Church, Brooke : St. to the President of the L. P. A., Hon. A Vi- Mary's Napier ; and St. John's, Alvinston. The Holy Communion will be administered at the close of each service.

> THE "Friendly Gathering" of the conregation of St. John's Church, held at the Incumbents house last Tuesday week, was an extremely pleasant one. After partaking of many good things, the company spent the vening in listening to music, singing and readings ; various games were also heartily entered into. The visitors dispersed at a late hour, after joining together in singing the Doxology. On Wednesday evening, the members of the choir assembled at the Parsonage, and spent a few pleasant hours together.

Orange County Meeting,

Watford, Feb. 4th, 1879. The annual meeting of the East Lambton County Lodge was held here to-day as laid down in constitution.

At one o'clock p.m. the Lodge was called to order, by the County Master Bro Richard Karr, assuming the chair, and Bro. Carscadden, County Chaplain, offered up prayer, when the Lodge was opened in the Royal Arch degree. All the private Lodges in the County were well represented, the following being the number of delegates sent from each : No. 505, Watford, 5; No. 516, Warwack, 5 ; No. 536, Plympton, 6 ; No. 626 Wanstead, 4 ; No. 746, Brooke, 4 ; No. 819, Bosanquet, 3; No. 830, Forest, 3; No. 911, Arkona, 4; No. 998, Thedford, 3; and No. 1029, Union 6, there were also a number of

The Empire of Discontent.

A Russian Nihilist's Bold Picture of the "Holy Czardom."

Wicked Oppression and Corruption Hustening the Day of the Romanoff's Fall-The Cruel Policy that Originated in a Shot Fired at the Czar Alexander by a Crazy Boy-The Inquisition of the Nineteenth Century.

That the present state of Russia is most deplorable is a plain fact, which is beyond doubt and discussion. The Russian press itself freely admits it. "Russia has become an empire of the discontented !" exclaimed the celebrated Katkoff in his ?? zette, shortly after the war, and this expression has been echoed by the whole public opinion in Russia, and given a theme to all our personal interests seems to have taken hold of the whole nation." Still more vio-lent in its expressions is the Novoye Vremja (New Time), the leading St. Petersburg pa-What a time we are living in exclaims. " Every day brings new disclo sures ; on all sides we are surrounded with rascals who have long ago lost all sense of their moral debasement. In this pestifer ous atmosphere honest hearts lose their energy, gradually sunk lower and lower, or hed in fruitless attempts to shake off the curse lying upon us." Such is the picture of utter demoralization drawn by the Russian press. Muzzled as it is by a barbarous censorship, it can certainly not be suspected of exaggeration. If we add to this picture financial exhaustion and utter impoverishment of the labouring classes, caused by an exorbitant and disproportion ate taxation, we shall convey to the reader a fair idea of the terrible crisis through which Russia is now passing, and exclude the suspicion of of attempting to

those of nature defield and adored. Not only to the people, however, but to the Czars themselves has their power become a curse. Feeling the awful responsibility weighing on them, they naturally sought

army, teachers in public schools, interary CZars, before the feat and only origin of all men, and such like—all of whom were any-thing but loyal subjects of the Czar, and therefore al *personæ ingratissimæ* in the eyes of the St. Hermandad. At the same time, in consequence of some family ties and tra-ditions, I was intimately acquainted with is far from being hopeless. It would be so The public schools were man-aged on a thorough military plan. Learn-ing by heart was the chief occupation, and all sciences were "arranged" specially for Russia, so as not to give the slightest possible occasion for liberal theories or ligious skepticism. In ancient history, for instance, the Roman republic was entrely estimated. From the kings the pupils had to skip over to the emperors, and the in-termediate period was done away with the instances : "After Tarquinius the Roman people became unruly and revolted against the leagel authorities. A time of hiege and the atta awful blue uniform of the gendermes, is distorted in all possible ways, so as con-ceal all that could have been interpreted un-favourably for some of the Czars. It seems carcely credible, and yet it is but the conceal its importance. Is this state of affirs hopeles? Is it the agony of the Russian nation? Has the latter played out its part in history, and is this the beginning of an utter decomposi-tion? There is every reason to believe that such is not the case, The nation itself is safe and sound—the czardom alone, that its whole train, is rotting off and falling to pieces. What the world is now witnessing ing to express my opinions on socialism, the government would be happy to give me oc-cusion for meditating further on the subject in the quiet tewn of Belozersk, and then let forth to consider myself under the strictest ware representing a lesson imported by learned been undermined by this spirit of discon-tent, and it is now little more than a sham warpon in the hands of the Czar. He hum-it may co-thim. One day a supe annua ed will be an under the strictest warpon in the hands of the Czar. He hum-it may co-thim. One day a supe annua ed will be an under the strictest warpon in the hands of the Czar. He hum-it may co-thim. One day a supe annua ed will be an under the strictest warpon in the hands of the Czar. He hum-it may co-thim. One day a supe annua ed will be an under the strictest forth to consider myseit under the screte police. On com-ing home, I found to my utter amazement, on my writing-table an envelope adorned with the Shouvaloffs' crest and cat-of-arms, and containing an invitation to a

reat ball which was to take place the next lay in the same building which I had left a ew moments before a suspected "Nihi-tensibly serving. day in the same building which I had let a overthrow of that same to the same to the same building which I had let a few moments before a suspected "Nihi-list" and revolutionist! In such petty de-tails of tact and urbanity Shouvaloff was al-considerable amount of probability that the same to have a master.

Russian czardom will soon sink beneath the weight of its own decrepitude and of the suburbs. Here a little contratemps awa ted gerous for the development of the nation than even the tyrasing of a madman like officially recognized principles in politics, and gradually invaded all the spheres of

public life. A generation of knaves sud-denly sprang up, invading all the branches of the Governmeat service, of the financial and economical institutions. The brothers and other relatives of the Czar were fore.

the constant index out of a loss, which is the set of t other hand, the hussian people have to pay informing verse just to keep his hand in, as it dearly for the luxury of possessing a well educated Romanoff; among the studies which Constantine has pursued with the himself once told me gravely that he was most complete success, the science of bri-bery stands paramount. He has managed to discount his influence as President of the Council of State in the most profitable man-have cut out a career for him-elf, even if he have cut out a career for him-elf, even if he have ben hom heir to a ducal correct. Council of State in the most profitable manner. Every new railway, manufacturing, bad not been born heir to a ducal coron-t. The banking company, which applies to the bad not been born heir to a ducal coron-t. Government for incorporation, has to pay confict and it have at that time inclined toward philo in Herbert Spencer's writin.s. He was for through half-a-dozen agents, and sub-agents, a handsome tribute. Also the ac-to the map a ship-building firm ment of dukes also. This was before his mariage, about eighteen m nths after had left Cambridge and had been on a tour to the tropics, and back through America. He published an ac-munt of this voyage.

Inis remark, however, does not imply that stupid and badly educated Grand Dukes prove less expensive to the country than elever ones. A recent example has proved the contrary; that of the flowed that he had b en sent round the work in to our people. It works has a final that his instruction and that of o hers, and not for his amusem nt or anybody elses. I thages, Asthma, severe Coughs, Croup and thages, Asthma, Severe Coughs, Croup a Duke Nicholas Nicolajevitch, the com-mander-in-chief of the Russian army asked him whether he had attended a debate in any of the American Legislatures during the last Bulgarian campaign. The general opinion about that man in Russia "Yes," he answered, solemoly, as u-ul, "Their politicians speak more fluently than the English, but they have nothing but commonplaces to utt r. In point of thought is a source of a common supervised and the voice of communication of the supervised and the voice of communications of the supervised and the voice of communications of the supervised and the voice of common supervised and the voice of fore the war was that he was a thoroughly inorant, stupid, but honest and brave sol-lier. Recent events have proved, however, their debates are much below what I used to hear at the Cambridge Union." that if the former part of this judgment is correct, the same can not be said of its lat-ter part. The fact is now generally known At Eton Lord Lorue was a ready noted for his seriousness of demeanoar. He did not board at any tutor's or dames, but lodged with his brother, Lord Archib Id cents. Russia that the Grand Duke Nicholas the brother of the Czar, the Generalissimo

The Garrote.

The cable dispatches say Monrasi suffered death by the garrote, but many in this coun-try do not know how the Span sh method of execution is conducted. To those the fol-lowing description will be of interest :

An execution by the garrote, although ac-credited with being mercifully painless, is certainly awful to behold. The place of certainly awful to behold. The place of execution im Madrid is accessible to the public, and the occasion is of equal interest with a day at the buil ring. Everything connected with this ceremony of d ath is viewed with morbid horior by the Spani-ards because of ancient Oriental projudices of pollution. All actually employed in the concentration are accounted infamous and lose or polution. All actually employed in the operation are accounted infamous and lose their caste and purity of blood. Even the gloomy scaffold on which the culprit is strangled is usually erceted in the night and by unseen hands. It rises from the earth like a fungus work of dukness. Execution by hanging was gracion to ablighed by like a fungus work of dukness. Execution by hanging was graciouly abolished by Ferdinand VII. It is critarily more in ac-cordance with the semi Oriental natures of the Spanish people, which leads them to tenderly respect the bowstring. All that Cervantes, from his sad experience, pictured a prison to be, it is to day; all that he said of the morbid loss of his countrymen for of the morbid love of his countrymen for the horror or the ludicrous is equally true now. The crowd that assemb es just b word the line of gendarmes go to see how the criminal will conduct himself. They sympathize with him if he displays bravado or courage, and they despise him on the least symptom of unmailiness. At the fatal hour the culprit appears, usually clad in a coarse, yellow baizs gown—the colour in which the Spanish school of painters robe the special object of their contempt, Judas Iscariot. The scaffold having been mounted, the culprit is placed on a rude seat. His back leans against a strong, upright post, to which an iron collar is attached, inclosing his neck, and so contrived as to be drawn home by turning a powerful screw behind the post. The arms and legs of the culprit are tightly bound. When all is ready, the executioner takes the lever of the screw in erful muscular effort, and, at the mement of dow-sill, looked out. The sun, swathed in

He gathered shin'ng silver-weed; He stole the heather from the bee Amid the grass the minutes pas-, And twilight lingers on the loe.

IL-TO A GIRL

Thou art so very sweet and fair, With such a heaven in thine eyes, It almost seems an overcare To ask thee to be good or wise :

As if a litt'e bird were blam'd Because its song unthinking flows; As if a rose should be asiam'd Of being nothing but a rose.

Alas! why have we souls at all? Why has each life a higher goal? May not a thing as pure and small As thou art—be excused a soul?

If there were only birds and flowers, How beautiful the world will be ! Or could we spend our happy hours, And live like them, how blest were we ?

Alas ! but life is but a breath. And every breath with danger rife, And every breath leads on to death, And after death—the real life!"

BY JULIAN HAWTHORNE.

CHAPTER III. - (CONTINUED)

"Father, do you think it would be safe ?" pyramid-like in the centre of the room ; lifther volunteer an observation. Yes and nay is the sum of her speech to most of the in-habitants of this planet." 'She is certainly not talkatfve," said I, disguising the pleasure I felt at discovering

that I had found favour in her sight, "You see very little company, I believe ?" that I had found lavour in not approximately through a telescope or and got see very little company, I believe?" "Well, I don't see men much, and they find little encouragement in seeking me," returned my uncle, taking a draught of bur-gundy, and fixing his dark eyes on me. "We do not sympathise with their aims, a the observatory and the arrangement, on the observatory and the arrangement, "We do not sympathise with their aims, the observatory and the arrangement, observatory and the arrangement, "we than with ours. The latest vagary of the King of Bavaria would make a good foundation for a ghost story. Not satisfied with his usual guests, he ordered a grand dinner to be prepared for fourteen persons, and invited to the feast Louis XIV, and his court. Louis 11, himself sat at the head of the table, and the place of honor was supposed to be occupied by the Grand Monarque, the other places being re-served for the twelve courtiers of his reign who were the most renowned for their wit. Thus the Bavarian King dined in solitary Thus the Bavarian King unlet in solvery grandeur; for I need not say that the ghostly guests were conspicuous by their absence, ed with many wonderful virtues. When the repast was over he went to the riding school, and having carefully calculated past. Once he rebuked a deaf guest who in how many miles there were between Hohenschwangah and Innspruck, he rode round and round the school until he had accomplished the distance which separates the one place from the other. He, moreover, stopped twice, once to breakfast and an-

son, who came out and drove off the enemy. The Senate voted him a silver collar with riches. Of all the brilliant gems extracted the inscription upon it, "The saviour and deliverer of Corinth," and a monument was "The saviour and from the soil of this richly endowed island, deliverer of corint, and a monument was more apply any was more apply a super-erected to the dogs on the spot where they fell, with the names of all of them sculp tured upon the stones. In those times, war cloudless azure of the heavens over the Imdogs were armed with spiked collars, and sometimes with coats of mail. Hounds were used in armies until a com-the blue flower. Then, as now, the hya-

paratively recent period. The Earl of Es-sex, Queen Elizabeth's favourite, had 800 sex, Que n Elizabeth's favourite, had 800 of them during his campaiga in Ireland. They were frequently employed on the Scottish border to catch thieves, marauders, murderers, and cattle stealers, and Robert Branched a fine one which his grown. Lord Scottish border to catch thieves, managed and the route of all engraved sapphres is murderers, and cattle stealers, and Robert Bruce had a fine one which his enemy, Lord the great signet of the Emperor Constantine, When the of Lorne, stole from him, and used to trava and betray his former master. Bruce escaped by the well-known device of cross-ing a stream and breaking the seent. Is this King Mad? Is this King of Bavaria

contract with linen, linen was rendered in-combustible. They were supposed to cool the internal fires of the passions, and from this notion came the custom of setting a sapphire in the espiscopal ring of office and the habit of persons vowed to perpetual chastity selecting it as their favourite jewel. It was believed that this gem was extreme-ly sensitive to all moral influences, and that f worn by a wicked person, or by one given to impure thoughts and evil prac

A PROVIDENCE youngster, fond of visiting museums, of a speculative turn of mind, and very affectionate, startled his mother the other day by remarking that if she died he would stuff her so that he could sit in her Would still her so that he could still he defended, "When I die if I don't go where you are, I'll come back and die over again."

THE opera, "Chimes of Normandy," is making a great success in Australia

WATFORD ONT. February 21, 1879.

A REFORMERS EXPERIENCE.

Rev. Henry Ward Beecher used to preach that there was nothing intrinsically wrong in popular games; that it only needed the introduction and encouragement of the better class of the better class of people, to rid them will be to bring to them as allies other Mr. Marshall, that the Vice-President, of anything unclean that attached to native tribes, who joining with the Manager, and Secretary, be a commit

ZULULAND.

The terrible reverse experienced by the Brittish troops invading Zululand. South Africa, is almost the first information the majority of people have had of the existence of such a formidable opponent to Brittish rule in that region

of the world. The mere announcement a week o

so ago, that the Zulus having ignored the ultimatum of the Brittish government, a force of fifteen thousand men commanded by General Chelmsford had ed. Carried. been sent against them, was read with comparitive indifference by the general public. The idea that any number of halt civillized savages could overcome the thorough discipline! of a well drilled body of troops, was never for one moment entertained. But now comes the intelligence that a force of Zulus, twenty thousand strong, had annihila annual meeting. Carried. ted a column of troops, consisting of a portion of the Twenty Fourth regiment, a battery of artillery, and six hundred native troops, notwithstandservices. Carried. ing the fact that the wictory cost them over five thousand men, the Zulus also captured a convoy of one hundred and two wagons, one thousand oxen, two cannon, four hundred shot and shell, one thousand rifles, two hundred and Dallas, President ; Geo. Dewar, Vicefifty thousand rounds of ammunition,

HOUSE CONFLAGRATED - The dwelling house occupied by Robert Perrin, lot 11, Brd concession, Brooke, was totally destroyed by fire, at sunset, Saturday 15th inst. The furniture was saved. Owing to the want of a ladder nothing could be done to check the fire, which originated from a defective chim-

ALEX. McLEAN, of Mosa, the well known agent of Elliott's foundry, London, and Craig's, of Strathroy, is looking for a site on which to build a foundry and machine shop in A vinston. We hope he will be successful, as we believe any man with Mr. Mc-Lean's reputation for strict business principles and large experience, cannot fail to make such an enterprise a credit to the township of Brooke.

THE Trustees of the Methodist Church of Canada have let the contract for the erection of their church to Mr. J. McWaters, of Watford, for the amount of \$618. The pulpit and seating are to be let by a separate contract. The building is to be 30 x 42. The outside walls are to be 14 feet

FIRM SWEET BUTTER OF A RIGI COLDUR, produced at al measons of the year by using the English throne. His dreadful defeat, in 1746, or the field of Culloden, seemed to put an end to all his hopes of ruling England, and the pretender changed his title of Prince of Wales to that of Count of Albany. USEFUL RECIPES MY DARLING. The Ravages of the Plague. Royal Family of Afghanistan. MILLERIDOS P.O., TUDOR, ONE MILLENDOR P.O., TCDOR, OX MENSIES MILLURN, BENTREY & PLARON, -SURS, 2 it my duty to inform you that last spring I lost hearing with one car, and this fail I lost the hear of the other also, so that I was afraid I would ne be able to hear again. I tried everything to be back my hearing I could think of, but found it al vain. At last I made up my mind to try some of YELLOW OR, so I rubbed a little on the outside of cars two or ithree times a day, ard every fight e morning. I wet some wook with the oil and kept I my eary, and in one week's time I could beer as w What Mankind Suffered in the 14th Cep-tury - The Planetary Movements of 1881. BT TREODORS RABITS. SALT FISH -Salt fish should be put Past and Present Rulers of the Trouble in deep plate, with just water enough to cover it, the night before you intend to cook it; it should not be boiled one instant, for boil-ing renders it hard; it should lie in scald-When thou shalt lie, my darling, low In the dark grave, where they hide thes Then down to thes I will surely go, and nextle in beside thes JERSEY BUTTER POWDEL Country. Prince of Wales to that of Count of Albany. Still he caused the counters to maintain the splendour of a queen, and it was the custom of her followers to address her with the royal title of majesty. He was more than twice as old as the Counters, and his politi-eal disappointments made him sour, morose, and, worse than all, a misetable drunkard. They were hving in Italy. England was, of course, barred to them, and France found it convenient to exclude them from her bor-der. So in Florence they found a refuge. If we glance at the history of the fright-ful devastations that have marked the visits of the plague to the earth, mankind has reason to tremble before the dread spectre whose appearance the Russians evoked on their pleasure trip to Constantinople, and which now threatens all Europa. Plague epidemics are recorded of almost every cea-tury. In the first wear of the Pelononnesian (From the London Times.) Price 25 cents per packet. For sale by Druggistand Storekeepers. HUGH MILLER & CO., Toronto. Few ruling families have produced such a ing hot water for two or three hours ; the less water that is used, and the more fish is Wildly I'll kiss and clasp thee there, Pale, cold, and silent lying ; Shout, shudder, weep, in dumb despair. Beside my dead love dying. series of notable characters as the present dynasty in Kabul, and if we throw back our glance to a slightly more remote period, and include in our retrospect the great and first Duran, Ahmed Khan, of the Sudosye morning. I wet some wool with the on and acre as well my ears, and in one week's time I could hear as well as I ever could, but still rub on the old when the wea-ther is cold, and I keep wool also in my ears. A Westminster Play.

(From The Theatre.) As Big-Ben chimes 7.30 Mr. Dan God-frey's band strikes up behind the scenes; the captain of the school, in court dres», leads the head master's wife into the theatre her husband looking as dignified as possible walks in to the exhilarating strains of "See walks in to the exhibit and strains of "See the conquering hero comes;" the Dean, with his sharp features lighted up by a pleasant smile, may be seen in the place of honour in the stalls. Then come the distinguished persons who have been bidden to the intel-lectual feast, a number of old Westminsters bringing up the rear. Everything is ready the master touches a hand-bell as a signal for the music to stop, and the captain of the Queen's scholars comes before the green cur-tain and delivers a prologue in Latin iam-bics. The names of the old Westminsters

.

bics. The names of the old Westminsters who have died since the last performance are gracefully referred to in this effusion, which is written by t e head master. The performance is then proceeded with. The play is Terence's "Phormio," the plot of which is derived from Apollodorus. It soon becomes evident that the difficulties involved in the representation of a Latin play by English youths will be fairly overcome. The delivery of the Roman dramatist's lines is never less than respectable, often effec-tive. The actors may not be at their ease in the ancient Greek costume, but where is the company of amateurs that would? Then, although the "coaches" have more regard for tradition than for new ideas, some of the impersonations are marked by original thought, and the unity and smoothness of by no means inconsiderable share of the ours of the evening. The epilogue, which is written in Litin elegiacs by one of the masters or an old Westminster, is inthem speak of old quarrels and scrapes and pleasures on the very scene of their occur-rence. Inside the theatre the scene is not

Along the Shore. Sail on, sail on, ye vessels great and small, Cut the proud waves, and track the waters o'er, Find paths and ports, while we along the shore Shall wateh your course till distance sink you all, And make of mast and prow and pictured sail And make of mast and prow and pictured a A waufshed wision or a speck in space; So haply shall ye greet some other race, If but Septentrion push you with his gale, Or fond Favonius prosperous breezes blow, Your fate is bound-bound to the inconstan Durs to the land, and wait; the calmer flow Ours to the land, and waits the camer now of Time, that brings us all unto one port, Where, sticly anchored, sea, and shore shall sleep No more of fortune or of fate the sport. -Harper's Magazine

THE NEW ENDYMION.

BY JULIAN HAWTHORNE.

VI. -CONCLUDED.

"Why not? is one more wonderful than the other?" she returned, with a faint smile. "But you must not expect me to tell you all my secrets at once, Cousin Will. Think of me as an enchantress for to-night.

thought, and the unity and smoothness of the performance as a whole show that the scholars intrusted with small parts are not less industriously looked after by the mas-ters than the others. G ta and Phormio are in competent hands, but representatives of Demipho, Phedria, and Sophrona take a by no means iccompiderable abare of the legends associated with it; the weird music that still trembled through it; and above all the spectacle of that potent instrument even now moving in harmony with the march of the universe;--these things alone might have stimulated the emotions of one of firmer nerves and sturdier health than mine. the masters or an old Westminster, is in-tended to be a humorous skit npon events and follies of the day, and for some years past has been published *in extenso* by the *Times*. It is delivered by the actors in the comedy, now attired in evening dress. Finally, in accordance with the time-hon-oured custom, the prompters come before the curtain and pass a college cap to the old Westminsters, who fill it with moncy. Out Westminsters, who fill it with moncy. Out of the sum thus collected the cost of the performance is paid, the residue being di-vided among the actors. Between the acts of the most animated kind. No scoper of the most animated kind. No scoper but, rather, all that was inexplicable and supernatural. I was in love with mystery, has the curtain fallen than the "young old Westminsters" jump up and push their way out. Some may be found renewing old to believe in them and do homage to them. As for Diana, familiar from childhood with the scene and the proceedings, her mood was of composed and deep-seated en-mood was of composed and deep-seated en-suspecting my overstrained and homage to them. As for Diana, familiar from childhood with the scene and the proceedings, her mood was of composed and deep-seated en-suspecting my overstrained and almost by-sterio pight : nay, I myself was as yet un-aware of the degree of my prostration. I watched my cousin walking hither and them speak of old quarrels and scrapes and pleasures on the very scene of their occur-rence. Inside the theatre the scene is not the to endure inactive suspense, I asked whee-

sun shone only in mockery, and which was cast adrift upon the universe as an appalling warning, and symbol of the doom of sin. not familiar with his genius as embodied in clay and bronze. If I could be the author of his "Deer and Panther" or "Bison and Wolves," which had the place of honour at the Paris Salon this year, I would willingly forego the renown of a better story than ever expect to write.-From Temple Bar.

Macaulay's Love for Children.

(From Harper's Magazine.)

It is one thing to be fond of children

quicksands. They were royal tombs, and nothing more. We need not draw any idea of astronomical use from their facing the cardinal points, whereas the Chaldean Pyramids pointed to them, nor, in the case of the Great Pyramid from the curious circum-stance that at the time of its building the stance that at the time of its building the entrance passage pointed to the then pole star, a Draconis, nor from the excellent 11 tferm for astronomical observations on its summit, nor from its chief measures be-ing in exact Egyptian cubits without frac-tions. There may have been religious rea-sons for the orientation of this and other Egyptian pyramids, but it is quite obvious It at a deviation of direction would have ing of these geometrically, shaped tuildings. It was no use to point a passage to the pole-iten of the structure, after the King's sepulstar, as it had to be closed at the comple-tion of the structure, after the King's sepul-ture. The platform did not exist when the ture. thre. The platform did not exist when the casing of the monument was complete to its apex. The most famous buildings of anti-quity were constructed of full measures the measures been shops and gin palaces are so numerous been shops and gin palaces are so numerous been shops and gin palaces are so numerous without fractions, in all their chief dimenwithout fractions, in all their chief dimen-sions. What, perhaps, originated in the difficulty of observing due proportions when fractions were allowed became a mat-ter of religion. The Pyramids, then, were tor of religion. The ryramids, then, were tombs of Kings. Each had its name. The Great Pyramid was called "the Splendid;" the second pyramid, strangely enough, "the Great;" the third pyramid, "the Superior." Each must have been the chief object of a King's reign. Begun at or per-Superior." Each must have been the chief object of a King's reign. Begun at, or per-haps in some cases before his accession, it was built on a plan which allowed constant addition and speedy completion. Thus the pyramids are the measures of the reigns of those who built them, and happily in many cases we know from the tombs around who For a start not easily forgive my friend Mr. Edward Kemeys, the animal-sculptor, for depriving me of the right of claiming undivided credit for this story. He suggested the subject himself is the same in the pyramids and in the smaller the mode in which the principles are carried out is different. These hest details. As told by him, they seemed to best details. As told by him, they seemed to hest details and powered. If is any fault, I should regret that Mr. Kemeys had not treated the subject himself, were I hest details as embodied in ot familiar with his genius as embodied in ot familiar with his genius as embodied in ot familiar with his genius as embodied in the seemed hest details. As told by the details details are carried out as sepulchral chamber details details details are details principles are carried out is different. These smaller tombs consist of a quadrangular mass of masonry, like an oblong truncated pyramid, having a pit entered from above descending to a sepulchral chamber cut in rock beneath; and within is also a chapel entered from an external door, and a secret chamber to contain statues of the deceased. The pyramid, processed the processed as a population of 1,170,000. These and other statistics for only 101,000. These and other statistics for any 101,000. These and other statistics for any 101,000. These and other statistics The pyramids represent the purely sepul-chral part of these structures, In front of the entrance of each was a chapel, to which it is still computed, however, that at least 1,000 new churches and chapels are required The form of the pyramids is probably trace-able to the natural shapes of the desert in the metropolis. mountains. All Egyptian architecture is characterized by the same sloping lines as these mountains, varying like them from the

ing Cross nearly 700 square miles. It num-bers within these boundaries over 4,000,000 inhabitants. It contains more country-born to offer themselves with a strange facility, like false lights that lead a traveller into the persons than the counties of Devon and Gloucester combined, or 37 per cent. of its entire population. Every four minutes a birth takes place in the metropolis, and every six minutes a death. Within the circle already named there are added to the population 205 persons every day, and 75,000 annually. London has 7,000 miles of day, and that their frontages, if placed side by side, would stretch from Charing Cross to Chichester, a distance of 62 miles. If all the dwellings in London could thus have their frontages placed side by side they would exurnished led to the "Metropolis Churches und." established in 1836, which has been

A Great Farmer Dead.

Michael L. Sullivant was, not long ago, Illipois farmer." He these mountains, varying like them from the sharp inclination of the pyramids to the very slight slope of the built tombs, and, it may be added, of all the great massive gateways be added, of all the great massive gateways

The Pyramids. (From the Contemporary Review.)

From the computations of authorities, it appears that London (with all its suburbs) covers within the 15 miles' radius of Char-The age of the pyramids is doubtful. The object for which they were built is certain. There is no need here to examine curious speculations to which their measures have, like the numbers of Manetho's list, seemed

going up there to fix that pipe without ex-amining it?" he gasped. "Why, I am going to look at it when I get there," said the new man. "Merciful heavens;" ejaculated his em-ployer, catching hold of the desk to sup-port himself. "Can it be possible that you can do a job at one visit? Don't you know no pride in your business? Why, you'd ruin the entire community in less than a And the speaker burst into tears. As soon as he grew calmer he explained to the new man that he should first visit the house, make a thorough examination of the building, get the lay of the streets, find the location of the nearest hydrant, go up on the roof of the house and then return thoughtfully to the shop for his tools, keep-ing an accurate record of the time.

The Library.

If I were to begin life now, and lay anew the foundations of a library, it should be it, he had not ced the strange effect of moon largely a coorapaprical one-interary por light upon it; and as he was there is traits, memoirs, and correspondence. There is no way in which so much anecdole, wit, telescope, it occurred to him to try and sparkling tiuth can be acquired, and periment. And this was the result !

tage from some of those old alchemists who used to carry on their experiments in this kept silence. Presently she sa "You will not look, then?" ently she saidtower hundreds of years ago; and my fa-ther thinks it had been handed down to

A Great Den of Snakes.

Thousands of Reptiles Routed from their Winter Quarters and Killed.

(From the Atchison Patriot.) In the extension of the Central Branch road from Beloit to Cawker City, Kansas, the line passes through the town of Glen Elder. A short distance from Glen Elder, on the Sol on River, is a steep and rocky bluff, about fifty-five feet high, a large portion of which was blasted away to make room for the road bed. A few days ago a blast of nitro-glycerine large as a barrel. They were of different va-rieties, rattlesnakes predominating, with ra-cers, adders, garters, &c. When first routed covered up in the dump by earth and stone. Every blast since the first batch appeared has brought another huge bundle of reptiles, Every hour a moving, writhing lump comes reling down the hills, only to separate at it of the stretch between Brunnen and Fluilen has just been adjudged to a French firm, Reveillac & Bardal, of Tarbes, who have ag-reed to take payment to the extent of 900,000 frames in the second-class debenthe foot, and those that escape the laborer's pick and shovel crawl off to get covered up

n the dump. Thousands of snakes have been unearthed and killed. Not one case of snake bite has yet occurred, notwithstanding that it is many times almost impossible to avoid stepping on the serpents. Most of the makes are as large round as a man's wrist and about three or three and a half feet long. Farmers say that this is the regular winter way they can be turned from their course is

GARIBALDI has written a litter to the effect that if the present King renders Italy pre-perous, he will deserve the gratitude of all Italians, including the Republicans. The latter pretend that the old man has sold out in his dotage.

the states.

Besides the big tunnel there are 12 others the shortest of which, Warren, is 1,106 yards long, while the longest, the Olberg, reaches 2,027 yards. The total length of reaches 2,027 yards. The total length of these 12 tunnels is very nearly 10 miles-15,278 metres. Then there are five tunnels between 220 and 550, and 25 between 110 and 220 yards, making in all 52 subsidiary tunnels, of an aggregate length of 16 miles. Between Immensee and Goschenen there will be 33 tunnels; between Airolo and Giubiasco, 17. The highest part of the line above sea-level is the big tunnel. 3.307 feet the lowest, a point between Cadenazzo and Mag-adino, 675 feet. The line will be carried over 64 bridges and viaducts, the longest o

which, that of Cadenazzo, in Tessin, will consist of five arches, each having a span of 55 vards. The total length of the Gothard line caps and giant powder tore off a large part of the bluff, and down the declivity came writh-ing and rolling a bunch of snakes almost as In the first instance the line, for the greater part of its length, will be single, but the tun nels and permanent way are to be so arranged that additional rails can be laid down so cers, adders, garters, cc. When her be a soon as the financial success of the enterprise from their warm bed they were active and dangerous, but the severe cold soon made them comparatively harmless, and they were them comparatively harmless, and they were the fenge of road with out much trouble, or covered up in the dump by earth and stone.

Cunning Dogs. An English terrier one day kept plucking the dress of the servant and of the mistress. At last they followed him, and he exposed the cat nader the bed devouring a beefsteak. The cat had been an enemy of his. A ter-rier was deprived of his soft resting place in den of these venomous creatures, and that during the autumn snakes are seen headed in the direction of the bluffs, and the only in one corner. The second dog, thinking a rat was there, rushed to the corner, leaving the chair empty. The other dog, having succeeded in his ruse, sprang back and took possessing of his accuration and along the dot

NEWSPAPER DECISIONS.

1. Any person or persons who takes a paper regularly from a Post Office, whether directed in his name or an. other's, or whether he has subscribed or not, is responsible for payment.

2. If a person orders his paper discontinued, he must pay all arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken from the office or not.

3. The Courts have decided that refasing to take newspapers or perio licals from the Post Office, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

WATFORD ONT. February 28, 1879.

ADVERTISING SCHEMES.

Last week this village was invaded by advertising canvassers ; and quite a number of the business men here, they perhaps not being of very large experi: ence as advertisers, were induced to give their business cards for insertion therein. We do not know the sum paid out for these two catch:penny projects, but we are very sure it was money thrown away so far as the value recieved, is concerned. One of the schemes was a large chart of ad; vertisements, painted in most aston: ishing colours, so far as proper con. trast is concerned, and hung in the Post Office, which every individual from three to four hundred vessels rass in this vicinity is supposed to visit daily. at stated intervals, presumably stand:

ing to read the business cards thereon. The affair hung there two days ere we noticed it, and then our attention was drawn to it by one of the advertisers who stood lost in admiration as he gazed upon his name painted Detroit Evening News states that the in glaring "yaller" accompanied by wholesale trade of that city has receiv: the announcement that 'if you want ed a wonderful impetus within the last to buy goods for nothing and give a three weeks on that account, and that slow note for them; come and see me the Windsor ferry boats are loaded on and I will accommodate you'. We every trip with teams conveying goods warrant that every one who visits the to Windsor etc. The same paper also post office hereafter will read his adver; says that the delay in making up a new tisement. Thanks to this notice.

The other ' dodge ' is a gilt picture been unable to harmonize the conflictframe surrounding a beautiful chromo ing interests, and that our Minister of done in printers ink, representing cards Finance is having a time similar to of such business houses as were inveigh-ded into the scheme. We may remark monkey and the parrot. In the morning of that day in Nicara: concerning this latter " invaluable advertising medium (?)" that the sweet spoken canvasser proposed to put one in each hotel but having made his col-

FRESH AND NEW.

GEORGE H.

D. McTavish & Son, Watford, Are now manufacturing Plows at prices to suit the times. Having decided to

dispense with ped llers they have determined to give the benefit to those or-dering at the shop at greatly reduced prices.

SEE PRICE LIST : Soil Plows, iron frame, steel mould and landside socket point, \$30.00 ; ex-

ra sock and coulter, \$4.00. General purpose Plow iron beam and bandles, cast landside, steel mould. ox coulter hole, \$23.00.

Iron beam, wood handles, cast landside, steel mould, box coulter hole, \$19.00. Iron beam, wood handles, cast landside, steel mould, shackle fastening for conlter \$17.00. The above moulds are all of the Scotch Gray Pattern.

Stubble Plow, cast landside, steel mould, iron beam, wood handle. Barroan pattern of mould. \$17.00. This plow cannot be surpassed for stubble work The wood handled Plows have iron bracing between handles.

We have secured the sole use of the McCarthy mould, and we would draw the attention of those wanting to get plows suitable for plowing match work to call and examine before purchasing elsewhere, as this mould has been pronounced by competent judges to be the best sod mould in the Province.

All Plows made of good material, superior workmanship and warranted to give satisfaction or money refunded. A discount of seven per cent. allowed to parties ordering four or more Plows at one time.

Plows of all kinds repaired at reasonable charges. All orders addressed to the undersigned will receive prompt attention.

D. MCTAVISH & SON, WATFORD, ONT. Feb. 21st, 1879.-2m.

The Council then adjourned sine die. We have this week to cut the minites short, not having room for a lengthened report on account of other Monuments, GOLDEN discovery. A nugget of gold

eighing twenty three ounces, and valued at four hundred and twelve dolars, was recently found in Brittish Columbia. 'Tis time some new gold KNIGHTS of Maccabees, a new mutual benifit order, originated in Canada lately, has already gained a footing in Michigan. The object of the order is to provide an endowment fund for wid-

taria, is because the Goverment has DECEMBER the sixteenth, eighteen undred and seventy nine, will be sadly remembered by the friends of James Clark, a native of Halifax established a sugar plantation some

lections he decided to put up but one.

public, well and good ; but we do say cilfors, also James Gage, who had been gentlemen, that if you knew as much about the respective advantages of the resigned, who signed the declaration various advertising mediums as does the writer, you would not thus throw nway your money on every plausibly presented scheme, gotten up by men who are too lazy to do legitimate work and who nine times in ten are deadbeating it through the world imposing on the credulousness of kind hearted and easily flattered business men.

The writer was once in a business requiring considerable advertising to bring it into notice, and invested a large sum of money for that purpose both in such advertising schemes as the above, and in newspapers; not one order was ever received from the cards inserted in the former, but advertisements in the newspapers brought insufficient to handsomely reinburse him for the outlay ; and we do not hesitate to say that this has been the experience \$7., and Simeon Annett providing a of every advertiser. We know from polling place for No 2, \$4. Thomas experience that the local newspaper is the only proper medium, that more benefit is recieved therefiom, and that Toronto, and express charges, \$20.24. if any undertaking is worthy of undivided support and patronage, it is your own home paper.-Alvinston News.

For harvest weed and tare The manna dropping from God's hand. Rebukes my painful care. Your pleasure is but pain This life is but a shadow.

Mr. Auld, Division Master of East Lamb-Your sorrow still remain, Such pleasure and such glory. As that to us a thousand years.

I plow no more a desert land,

Doth seem as vesterday. Weep not for him who so lately was here In the joy of health, and beauty of youth, Weep not for him though the rising tear Will start when we think of the bitter truth That the angel of death snatched our loved one away.

And left us naught but the cold cold chay. Cold now and pale is the face of the dead. And the hands are folded as if in prayer, But the bright sunny smile from the lips has The breath of life is no longer there. Iffed. For death has severed the golden ckain. And the Spirit has fled to Heaven again. Weep not for him, tho's new made grave, Shows us the place where they laid him to rest.

For he trusted in Christ who is strong to save And died in the faith and hope of the blest. And the body, tho' laid in the silent tomb, Shall arise, and in Heaven immortal bloom. So truth, love and mercy, in triumph descend

And nature all glowing in Edex's first bloom, On the cold cheek of death smiles and roses are blending.

And beauty immortal awakes from the tomb. -----

Watford Institutions.

Ladies, gents, of nobby Watford, The pretentious little town, Much I tried to find a reading, Which I could do rather brown. But I found the task a hard one, Books I searched them o'er and o'er, And I found that this was LENGTHY, And that that might prove a bore. So with knitted brows I pondered. Nearly gone in dark despair ; When the muse's rustling pinion, Seemed to fan the troubled air. And a thuill of untold pleasure. Set my spirit all aglow : 'Yes I'll give them what they never Heard since Adam showelled snow.

And with this grand resolution, Quick I seized the poet's pen, While the muses carried almost, Me beyond all mortal ken. Then a vision spread before me, Which to you I must unfold ; Such mysterious, novel fancies, E'en Dean Swift has never told. 'Twas a grand long panorama, With strange scenes of mystic hue, Watford institutions pictured,

O so vivid ! O so true. First came by the Watford Coun-il, With the Colonel lean and tall : Messrs. Cook, Bole, and stout Dixie, With McLaren, shadowing all.

Those goods souls who gave them birth. Three cheers for our noble firemen. For ex-captain Humpidge too, For the School Board and the Council Now good friends a kind adieu. ----

CARD OF THANKS.

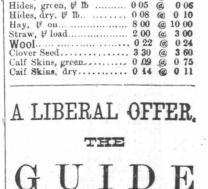

To the Fditor of the Guide.

I desire through the columns of the GUIDE to return my sincere thanks to those who kindly acted in my behalf by their efforts to obtain for me the appointment of Municipal Clerk. Although their efforts have been fruitless, I feel highly honored by the good feeling shown towards me, more particularly as such kindness was unasked and unlooked for, and regret that I cannot do more at present than tender them my thanks, and I trust that any difference existing between the ratepayers and the Council in the matter may be forgotten, and that former peace and good will may continue.

JOHN REID.

revealed

for months. "Interesting" experiment on a delicately formed little bitch; left side of the brain extracted; wire pincers on the hind feet. Doleful whining, the little ani-mal began to howl pitcously. Soon after-ward foamed at the mouth. The same dog operated upon again (date given.) Soon after became blind; died of inflamma-tion of the brain. The dissected brain resembled a "lately-hoed potato-field." In a former letter I referred to an editor-ial in the Chicago Times on the subject of

ial in the Chicago Times on the subject of "Vivisection." The article is rather an ex-

The Dreadful Lengths to Which Vivisec-tion is Carried in Europe-Description of Some of the Experiments of the Barbarians of Science-A New Hell Invented by Surgical Innovators-Their Laboratories Infernal Slaughter Pens-Denial that the Human Kind is Benefitted by the Awful Practics. London, Jan. 24.—These are days when

Goltz refers to the altogether unsatisfactory results of all the cruel experiments, and at the famous meeting of scientists at Bel LONDON, Jan. 24.—These are days when there is little mystery overhanging any sub-ject or profession into which the unscientific cannot penetrate, and it may be said, also, that these are days when the priests of science. If the cruel experiments in or cance and religion are not reverenced with the absolute confidence and blind creduity—if they have not the ring of the true metal—as once they were when the press was limited, and knowledge was less diffused and thought was less individual. There are some subjects upon which war, not parley, must be made, and the public must be appealed to and educated, and the force of its enlightenment brought to bear upon such wares of "science" as sanction barbarous cruelty for its "advancement." Cruelty in the pursuit of science is an uner."

and for this purpose they have tied two ani A NEW HELL invented by dcctors and physiologists for animals. And the public are beginning to think if there may not be need of improve-ment in physiological research. They are led to expansion the pretonging of the sector of the blood, ment in physiological research. They are led to expansion the pretonging of these when you have an exist in monstrosities. What ad Only the ture of millions of intelligent animals, even if one human pang should be alleviated

animals. And the public are beginning to think if there may not be need of improve-ment in physiological research. They are led to examine the pretensions of those who assume the language of dictation, and to ask what he has really done in aid of a more improved science; and they question if the man who pursues this mode of research is just the one to administer to a delicate and suffering patient. And this mode of re-search is represented by its advocates as as high, so indispensable a mode of study as to be a necessity, the abandonment of which will be a relapse into barbarism. Many persons imagine that must be true which they have not the power to examine. A celebrated quack, who had invented a medi-cine by the sale of which he had become rich, was asked by a medical man who had known him in early life hew had manged only to tell the people something that corm-mon sense shows to be impossible, and you have the secret at once." It will scarcely be said in another decade arise.

other means. The number of distinguished men who have again recently signed a protest and memorial on the subject proves that a strong feeling pervades the profession as to the scandal of the present state of things. Only of late years has the practice arisen to its present enormity in England. Those medical scientists who dislike it themselves have been led from a vague undefined belief that it may be necessary to science to defined it, or rather not to raise a very lond voice against it. But there is a sudden change of view from a closer examination of the sub-ject, and from the broad publicity that is now given to experiments and results it is ject, and from the broad publicity that is now given to experiments and results it is tound that the character of the whole medi-tate an essential difference. Anyone, not deeds of the class of vivisectors. And it is the newspapers and public opinion that have brought about this result. Vivisectors have been called "Nature's worshippers," seeking to know the order of nature. It is yet found that the duties of humanity te above the pretensions of scientific exper-iment.

death would be a benefit to the animals, which had recovered their consciousness, and were covered with most painful burns. Some of the experimenters have tried to which had recovered their consciousness, and were covered with most painful burns. This makes of it a religious question from

New Form of Electric Lamp.

(From Scribner's)

EXe

1

4

P.P.

Among the many new appliances for creat-ing the electric are between the ends of car-bon rods may be observed one or two of some interest. One of these employs two carbons standing erect in hinged brackets, or holders, so arranged that when unsupported the car-bons fall together and rest one against the other in the form of an inverted V. In the centre, between the carbons, is an upright rod centre, between the carbons, is an upright rod made of some refractory material like kao-lin. This is supported at the base by a horizontal lever, the shorter arm of which makes the armature of an electro-magnet. When the apparatus is at rest the weight of the up ight rod causes it to fall, lifting the armature from the magnet and permitting the carbon rods to touch each other. On passing a current through the lamp the mag-net is excited and the armature is pulled down and thus pushing the rod upwards be-tween the carbons au i thrusting them spart. This separates them sufficiently to cause the electric affect to spring up between them. the kaolin rod melts away in the heat as fast as kaolin rod melts away in the heat as fast as the carbons are consumed and the light is maintained somewhat on the principle of the familiar electric candle. If the current decreases in strength the armature of the magnet is released and the rod falls, per-mitting the carbons to come together again and re-establish the light. Another form of lamp employs two carbons, one standing up-right and the second supported by a lever leaning against it. One arm of the lever forms the armature of an electro-magnet, and in action the second carbon is alternately in action the second carbon is alternately permitted to fall against the upright carbon and then pulled away by the action of a spring somewhat after the manner of a "chattering" electric bell. This vibration of the carbons mitted to fall against the upright carbon is so rapid that, to the eye, the quivering light is practically continuous, and appears to be steady. Another form of vibrating lamp has two carbons placed one over the other in a vertical line, the lower carbon resting on a lever that forms the armature of a magnet. Still another form of lamp,

of a magnet. Still another form of taning, and one said to be more successful in general practice than either of these, employs four carbons, two placed in the form of the letter A and two inverted like V, the four making the X. The light is maintained at the june the X. The light i the A. The light is maintained at the wights in cups connected by cords with weights that keep them adjusted to each other and in the best position for maintaining the light. An electro-magnet is also used with this lamp. The advantages found in this lamp are steadiness in the light and ease of adjustment, as a carbon can be replaced number of children had been born; so in lamp. lamp.

Come, let us gander o'er the green, Come, set us gainer o er tue green, Pluck noess for our hair; The clouds are gone, the sun shines out, And oh! the day is fair. The birds are garbing on the spray, And bees all softly bum Amid the flowers fresh from the showers, And, see! a rainbow's come!

The swollen brooks go babbling by, And glisten in the sun ! The leafy trees are all a stir, The merry squirrels run. So, Mary, put your sonnet on, And the it under your chin, And ite us away to the beanwood gay, Where bumbles the roaring inn.

A Misprinted Pastoral

The gentle snceze shall fan your brow And has your golden curls, And ev'ry bird will "Yelcome !" sing To the dearest of all girls. And should the silly heppyr fail To kiss that rosy cheek, I'll wiser prove, and buss my love, And fondest words I'll squeak.

So, gentle Mary, come with me Across the grass and clover ; The soit dove boos unto her niste, The rain is gone and over. With roses let us swine our brows, And banish cares that wrinkle. Thil dayight dies along the skier, Aud spars begin to winkle.

time. One of the earliest and precious laws of the island was the law against trespass. It was held in great reverence, and was re-garded as the palladium of the people's liber-ties. About thirty years ago an important case came before the courts under this law in this wise : a chicken belonging to Eliza beth Young (aged, at that time, fifty-eight, a daughter of John Mills, one of the mutineers of the Bounty) trespassed upon the grounds of Thursday October Christian (aged twenty-

and the point of the product of the multineers of the mul

A doubtful acquisition indeed? Captain Ormsby, in the American ship Hornet, touched at Pitcairn's nearly four months atter the admiral's visit, and from the facts which he gathered there we now know all The time was tipe for this man's next Italy. Are you better than they? and

about that American. Let us put these move, He began, cautiously at first, to The time was tipe for this man's next move. He began, cautiously at first, to poison the public mind against England. He took the chief citizens aside, one by one, and conversed with them on this topic. about that American. Let us put these facts, together, in historical form. The American's name was Butterworth Stavely. As soon as he had become well acquainted with all the people, —and this took but a few days, of course, —he began to ingratiate himself with them by all the arts he could command. He became accordingly popular He took the chief citizens aside, one by one, and conversed with them on this topic. Presently he grew bolder, and spoke out. He said the nation owed it to itself, to its honour, to its great traditions, to rise in its might and throw off "this galling English yoke." command. He became exceedingly popular, and much looked up to; for one of the first things he did was to forsake his worldly

Watford

But the simple islanders answered, ways of life, and throw all his energies into religion. He was always reading his Bible, "We had not noticed that it galled. How does it gall? England sends a ship once in three or four years to give us soap and cloor praying, or singing hymne, or asking bles-ings. In prayer, no one had such "liberty" as he, no one could pray so long or so well.

or praying, or singing nymns, or asking bles-ings. In prayer, no one had such "liberty" as he no one could pray so long or so well. At last, when he considered the time to be ripe, he began secretly to sow the seeds of discontent among the people. It was his alwes have felt and spoken in all the ages! deliberate purpose, from the beginning, to subvert the government, but of course he kept that to himself for a time. He used different arts with different individuals. He awakened dissatisfaction in one quarter by calling attention to the shortness of the Sunday services; he argued that there should Interest area and a statisfaction in one quarter by thing is a statisfaction in one quarter by bendage to a foreign and hateful sovereign and hateful sove

The rain is going and stabilished themselves and pages all doorly more and less minor that is and page to a fore in the state of the state hing which was sure to happen sooner or ater happened now. Some of the chief itizens went to the magistrate by night, and said : "We can endure this hated tyranny no proceeded amid a sumen and ominous silence. As the emperor withdrew with the troops, he said : "I will teach you who is master here." Several persons shouted, "Down with unification !" They were at once ar-rested and torn from the arms of their weep-ing friands by the saldier. and said :

How can we cast it off ? onger.

"By a coup d'etat." "How ?" "A coup d'etat. It is like this: Everything is got ready, and at the appointed mo ment I, as the official head of the nation, thing is got ready, and at the appointed inte-ment I, as the official head of the nation, publicly and solemnly proclaim its inde-pendence, and absolve it from allegiance to any and all other powers whatsoever." "That sounds simple and easy. We can

do that right away. Then what will be the next thing to do?" "Seize all the defenses and public properties of all kinds, establish martial law. put the army and navy on a war footing, and proclaim the empire !" This fine programme dazzled these inno-ents. They said :

This is grand, -this is splendid ; but said :

A Haunted Actress. (From the Theatre.)

In 1744, soon after her debut in Paris, lippolyte Clairon made the acquaintance f M. de S.—. a merchant's son. He was Italy. Are you better than they? and haven't you unification?"-did not satisfy ippolyte Clairon made the acqu M. de S----, a merchant's son. them. They said : "People can't eat unification, and "People can't eat unification, and of M. de S.—, a merchant's son. He was about thirty years of age, of good appear-ance, and olever at penning sonnets to her eyebrows. Before long he became desper-ately enamoured of her, and was aupposed by the gossips of the *foyer* to have inspired her with a warmer feeling than friendship. But as time want on the acteors found it we are

Guide.

But as time went on the actress found necessary to stop the acquaintance. Her "Look at Germany ; look at Italy. It is lover was of a gloomy and misanthropic turn, and wished her to fly with him from the world to some wild and deserted spot. the same there. Such is unification, and there's no other way to get it, -- no other way to keep it after you've got it," said the This interesting project was not destined to be realized. Clairon loved her art, revelled in the applause she drew down, and

But the gramblers only rep'ied, "We can't stand the taxes, we can't stand them." Now right on top of this the cabinet re-ported a national debt amounting to up wards of forty-five dollars, —half a do'lar to every individual in the nation. And they proposed to fund something. They had heard that this was always done in such emergencies. They proposed duties on ex-ports; also on imports. And they wanted

had neard that this was always done in such emergencies. They proposed duties on ex-ports; also on imports. And they wanted to issue bonds; also paper money, redeen-able in yams and cabbages in fifty years. They said the pay of the army and of the navy and of the whole governmental ma-obing mes far in success and unlaws some time was entertaining an Intendant des Fi-nances and other friends at supper, was advised not to go, as her presence would em-bitter rather than solace his last moments. This advice she took, and soon after he had

ing friends by the soldiery.

But in the meantime, as any prophet might have foreseen, a Social Democrat had been developed. As the emperor stepped into the gilded imperial wheelbarrow at the church oor, the social democrat stabled at him fteen or sixteen times with a harpoon, but fortunately with such a peculiarly social democratic unprecision of aim as to do no

lamage. That very night the convulsion came. The nation rose as one man, -though forty-nine of the revolutionists were of the other sex. (The infantry threw down their pitch-forks; the artillery cast aside their cocoanuts; the navy revolted; the emperor was seized, and bound hand and foot in his palace. He was very much depressed. He

The Reigning House in Egypt. The Strong Character of its Founder. Mehemet Ali, and of the Present Vice-

(From the London Times

WHOLE NO. 214.

(From the London Times.) ALEXANDRIA, Jan, 18.—This day sixteen years ago Said Pasha died somewhat sud-denly; his nephew, Ismail, the present Viceroy and Khedive, ascended the throne of Egypt, and all loyal Egyptians have now come to Cairo to congratulate his Highness on the anniversary. This modern Macedo-nian dynasty seems as firmly planted on the banks of the Nile as was the ancient line of the Ptolemies. The hereditary succession banks of the Nile as was the ancient line of the Ptolemies. The hereditary succession is secured, the internal administration of the country is dependent of the Porte, tri-bute is almost the only proof of dependen-cy, and foreign attack is impossible as long as the present protection of England and France is extended to Egypt. Yet ninety years ago the grandfather of Ismail Pasha was a tobacco dealer at the little town of Cavala in Albania : and if the

little town of Cavala, in Albania ; and if the first Napoleon had not stretched his conquering arms across the Mediterranean, Mehe-met Ali would never have joined a volunthe French in teer corps raised to resist the French in Egypt, and his grandson would not now be yul-ing at Cairo. The history of the family is one of the strangest in the century. The grandfather was born to be a ruler of men. received her apparently harsh reply the un-fortunate man died. For the next eighteen months or two years, according to her own account, the actress was subjected to a supernatural persecution. M. de Sto a supernatural persecution. M. de S-died as the clocks were striking eleven, and as soon as the sound had ceased a long un-earthly cry rang through the room in which Clairon was entertaining her friends. The guests were lost in astonishment and ter-ror; the actress, recognizing in the cry the voice of her lover, very naturally fainted. "Really, Mdlle.," said the Intendant, with ghastly humour, as she recovered, "the gentleman who has the honour to possess your affections should be told that his sig-nals are much too loud." But, as ovents

The cry was frequently repeated at the acsame success. He cleaned out old canals, made new ones, introduced the cultivation tress's window at the same hour. The po-lice kept watch both outside and inside, but could discover nothing. Nor was the power of the perturbed spirit confined to the ac-tice to make Egypt a manufacturing counlice kept watch both outside and inside, but could discover nothing. Nor was the power of the perturbed spirit confined to the ac-tress's house. One night, as she was tak-ing leave at her door of a president who had escorted her home, the frightful cry rang out between them. At another time, while riding with her in a coach from the Rue Saint Honore, Pierre Roselli—a hand-some, high-spirited young actor, who could "rage like Cethegus or like Cassius die," declared that unless she invoked the ghost and received a reply there and then he would not believe a word of her story. The acnot believe a word of her story. The ac-tress did as she was asked; the cry was He insisted on the existence of mineral

tress did as she was asked; the ory was again heard, and when the coach arrived at its destination the two players were found in a swoon! The form of the persecu-tion was then slightly varied. Instead of the cry, she heard the report of a gun at her window. The houses in the street were placed under surveillance, but to no purpose. On one occasion she was invited to a little nocturnal fête at Mdlle. Dumesnil's, and at fiacre with her femme de chambre. Her way was through the Boulevards, then but in seven months: 300.000 men were taken 1 "This is grand,—this is splendid; but will not England resist?"
"I freed you from a grinding tyranny; I "if freed you grow a nation among nations; I gave you a strong, compact, centralized govern- ""What you need, my friends, is unification. Look at Germany; look at Italy. They are unified. Unification is the thing: It makes living dear. That constitutes progress. We must have a standing army, and an amy. Taxes follow, as a matter of course. All these things summed up make grandeur, what more can you want? Very well,—only the emine confirm these hongs."

CUT NAILS Pillow, Hersey & Co.

NAIL MANUFACTURERS. MONTREAL.

spectfully announce to all Dealers, as well as Consumers of Cat Nails, that they have pur-chased the SOLE RIGHT for the otfully and

Dominion of Canada, to use COYNE'S PATENT

AUTOMATIC NAIL PICKER

All Cut Nails manufactured by us from this forward will therefore be selected, and each Key entirely free from DUST, SCALE, SLIVERS, and HEADLESS NAILS, thereby ensuring to the CONSUMER at least 5 to 5 POUNDS MORE of perfect Nails to the Key than those made by other makers in Ganada. By the old system of packing walls (sill practised by all other Nail Manufacturers in the Dominion and until lately by American Manufacturers, who have seen the abso-lute necessity of using the Coyne Picker to sus-tain the reputation of their nails, and now use that device only, every Key is filled with the whole pro-duction of the Nail Machine, and averages to each Key 3 to 5 Pounds of Dust, Scales, Slivers, and Head-less Nails. It must then be clear to Consumers that they are made to pay for just that qu unity of worth-less scrap, whereas 'by purchasing Nails selected by Coyne's Automatic Picker, there is a clear saving of from 12 to 15 cents per Key. —We invite all to test the result for themselves by picking over a keg of our make and that of a 19 other maker. Every Key of Nails made by us will bear a *GREBN O LABEL*, and in order to secure the ad-vantages named, see that every Key is label.

"Selected by Coyne's Patent Automatic Picker."

Always ask for Coune's Machine Ricked Nails.

WATFORD, ONT., MARCH 14, 1879.

Modjeska's Pug Dog.

C

American actresses and their managers, in these days of red-hot competition, devise in-genious plans to secure free advertising. Now you read an innocent-looking para-graph announcing that Miss So-and-so has broken the bridge of her nose; or that she carries a tracondities tooth in her pocket as carries a crocodile's tooth in her pocket as an amulet; or that the travels with two servants, four birds, six cats, with a monkey thrown in by way of a comic touch ; or that she has narrowly escaped drowning; or has lost ten thousand pounds' worth of dia-monds; or has tried to commit suicide in the actress's name before the public in as sensational a manner as possible. Clara Mor-ris, who is really a clever woman, has per-petual paragraphs floating in regard to the state of her health; and Miss Kate Claxton is the point of countless jests, in which her name has been associated with fires and con-flaration.

flagration. Madame Modjeska, who is announced as a Madame Modjeska, who is a "star" in Madame Modjeska, who is announced as a Polish Countess, and who is a "star" in the United States, a little while ago, when performing out West, purchased a pug dog. Her manager saw in this trifling, everyday occurrence matter for a pleasant puff. He waited on one of the leiding citizens of Louisville, and induced him to make a for-mal presentation of the dog to Madame. An elaborate red and gold collar was purchased and when the dog was invested with his or-nate equipment, the "leiding citizen" came upon the stage at the end of the play, and in a flowing speech presented the black-muzzled camine to Madame, who expressed deep thanks in a few choice phrases of brodeep thanks in a few choice phrases of broken English, and then gracefully withdrew. clasping puggy to her palpitating breast kissing him effusively as she retired. The indefatigable manager took care that the re-porters were present to chronicle these ouching incidents, and for a week after intouching incidents, and for a week after in-genious little articles floated up and down the Western Press, in which the spirited liberality of the "leading citizen" afore-said, the magnificent pug, and Madame Modjeska's shining talents were curiously mixed up. The dog has paid himself ten times over

But he was not to be a soure of perpetual joy to his fair mistress. He usually accom-panied her to the theatre, a servant holding him well in leash. One night, in Philadelhim weil in leash. One night, in Philadel-phia, when Madame was acting in "Adri-enne Lecouvreur," during the last act, when she is writhing under the baleful influence of the poisoned bouquet, by some mischance Puggy slipped his noose and walked gravely on to the stage, and, recognizing his mis-tress, reared himself comically upon his haunches and watched the thrilling scene. In vain the people at the wings endeavoured to coax him off. He seemed to be interested in Adrienne's emotional and startling atti-tudes. In vain the actress scowled at him. Not comprehending the nature of her ex-Not comprehending the nature of her ex-travagant gestures, he rushed about the stage in the maddest manner, whining and howling alternately. To say the audience shrieked with laughter is hardly to convey an idea of the anguement afforded by the unexpected intruder. Of course the great scene of the play was simply demoliahed. Modjeska fied in dismay; her maid, terror-trictions at the avery of the audience wahed stricken at the roars of the audience, rushed upon the stage, and, in endeavouring to seize his pug-ship, caught her foot in the carpet and fell sprawling, with her head in the and fell sprawling, with her head in the flowers that the actress had a few moments before flung to the ground. The curtain de scended in double-quick time ; the sound

WHO IS TOUR INTENDED

A perfect woman nobly planned, To warn, to comfort, and command And yet a spirit still and bright, With something of an augel's light.

best not to move him when he saw him first. Now, though the fever had left him, he was still on board; and though Horner spoke of him to Raymond a little before we parted company with the Dart, Tom would not risk delay by transferring

Tom would not risk delay by transferring him. "The fellow will get all right here as soon as in the brig, Horner, and when he's storng enough to walk we can drop. him ashore." A few weeks after our first variing from A few weeks after our first parting from

the Dart we were standing along the coast before a gentle breeze, with all sail set and a business-like air about us, as if we were the Spaniard we pretended to be, with half

before a genue breace, with an and see all a business-like air about us, as if we were the Spaniard we pretended to be, with har the British fleet on the look-out for us. Raymond, of course, had taken full advan-tage of the screw, and our gun was now be-low, our men hidden, and we should have passed unmolested though the land had been full of batteries, instead of, as it was, a low, flattish plain, destitute either of de-plain was broken up by a little river that the sea at a spot where there were some trocks and a tage or two. It was a very hot day, and under the rocks and trees the shad was cool and grateful, as two shep-herd lake agenared to find it, for they lay

snace was cool and grateful, as two snep-herd lads appeared to find it, for they lay on their backs apparently asleep, and un-mindful of their charge, if they had any. We could tell they were shepherds from their dress and from the dogs that lay

the index is and from the dogs that lay not so much to escape as to prolong the schooner unmangeable, and as the fri-beside them; but though we swept the chase for a time, was to put the schooner unmangeable, and as the fri-belds about with our glasses, we could see before the wind, and so run through between the more distant pursuer on our starno cattle.

"What's that under the bank there, sir, just beside that bent tree?" asked Horner, whose quick eye had caught some movement for with the last glimmer of light we could thing on the land caught my eye as being for with the ast glummer if not we could see the late comer shift her course so as to cut us off in this attempt. Very soon it was pitch dark an ngly-looking night, with the sea still running high, though the wind had gone down a good deal. With our night-glasses we could at the bank of the river, where, in one of it bends, the river for a little ran nearly paral

el to the sea. Very soon it was pitch dark an ngly, Kaymond, "look in there; that's old Sancho looking night, with the sea still running Panza's cottage; the little bay below the high, though the wind had gone down s good deal. With our night-glasses we could could easily run the Wasp ashore on even easily make out the sails of the three fri-in this breeze. Far better, since we must gates, dimly white in the darkness, and their lights busily geing aloft signalling to one another. We still held our our own And then old Sancho will gladly get a boat well with our first pursues, but it second It was difficult, for the trees, to make out whether it was not a low branch waving but soon we saw som e cattle, in ones an wes, climb out of the stream, and begin to graze among the trees. "Fresh beef !" rose almost simultaneous

ly to our lips. A few quick orders, and a boat was lowered, manned, and rapidly well with our first pursuers, but it seemed to us all only an affair of minutes. Sud. "Never mind that just now, Charlie,"

pulling twards the mouth of the river Raymond knew better than let the men take firearms with them, to bring down a possible garrison from among the woods that bounded the plain to the north, not two

miles away. Two or three boarding pikes would do the purpose, and alarm nobody till the schooner was far away.

to us all only an affair of minutes. Sud-denly Raymond gave a quick order to furl all sail, to take in every stitch as fast as possible. In a moment our few and close-ly reefed sails were furled, and the Wasp lay almost motionless on the water. As 1 came back to the quarterdeck from my sta-tion forward, I heard Raymond say,— "Now, Horner, hoist away that cask; steady, my lads, steady. Don't show the light till it's over the side;" and then a to block a perfect rain of shot was poured to block a perfect rain of shot was pour perfect rain of shot was poured to block a perfect rain of shot was pour perfect rain of shot So quickly and quietly did the boat make steady, my lads, steady. Don't show the light till it's over the side ;" and then a for the shore, that we would have sur-prised both keepers and herd if it had heavily-ballasted cask was lowered over the side with a light, and floating away before the wind, while the Wasp, with a hand'snot been for the dogs. When we were in the river, two or three boat's lengths from the cattle chewing the cud lazly in

breadth of canvas set forward, was beating to windward, back again to the land, nearly the shallow water under the shade, the faithful dogs saw us, and at once gave the on the reverse course to what we had been alarm. The two brave cow-herds at once fled

sailing. "If they don't make out the decoy for the distant woods, followed by the most of the cattle, who, startled from their half-an-hour, Charlie, we are all right," said Raymond, after we had carefully gone over quiet enjoyment by the din of dogs and men, bounded along in all directions, tail in the ship to see for ourselves that not a gleam of light was to be seen on board to show air, and adding to the row their loud bel

where we were. All eyes were intently fixed on the friowing. They had hardly set off when our crew gates. In a very short time we had got to windward of the weathermost one, and even at the worst we were in a much fired with the exciting progress of a chase dashed out of the boat, through the shal ow water, and away, brandishing each better position than when we lowered the cask, whose light we could still see man a pike, laughing and cheering, as they made the best of their way after the

we perceive when a cloud of smoke in a suf-ficiently concentrated state falls to the ground. This organic volatilized matter, which is recognized by its peculiar odour, is noccous, and, in fact, it is clear that mole-te cules which have been subject to a certain temperature cannot possibly contain pesti-other hand, if is argued that the said odour is by no means agreeable, and, moreover, gives the painful impression that some par-ticles of the body have seeaned from the Is by no means agreeable, and, moreover, gives the painful impression that some par-ticles of the body have escaped from the crematorium without being perfectly oxi-dized and without being transformed into the body have escaped from the bins and brought in a perfect condition to St. John's, where it was exhibited for several rematorium without being transformed into lized and without being transformed into those vapours which mix with the atmos-phere. The thought of an escape of imper-fectly decomposed cadaverous molecules has the same mental effect as though during the oremation a part of the ashes of the body had been lost, when, as a matleft. While forward busily getting the wreck

cover. In the interior of the chimney a

very familiar. "I say, Tom," I whispered hurriedly to Raymond, "look in there; that's old Sancho ing through the coke, become entirely puri-fied, and the organic matters which had recalm which reigns within the crematory while the rite of cremation is proceeding. object, a perfect rain of shot was poured into us from all three. Lucky for us, the waves were so high, or we should have been blown out of the water long before our keel touched the ground on Sancho's bay. As it was, the Wasp took the sand a perfect wreck, so much so that Horner could not take her to the place he wanted, and had to ground har a good bit further and had to ground her a-good bit further out than was at all desirable.

It was necessary, therefore, to find some its presence should not cause annoyance er pain. The refinedy was not difficult to dis-tar back and the shorter is the state of the source of revenue. The body of this specimen was 10 feet in length, the tentacles 30 feet, and the shorter arms 11 feet. The ten arms shad on them not less than 2,000 suckers.

That specimen is now eclipsed by two 2d of last November a fisherman named tied, and the organic matters which had re-sisted the first combustion succumb to the second. At the boundaries between the tirnace and the crematory chamber it has always been found necessary to erect a wall, separating completely the one part from the other. It is necessary, in short, that the furrace should be a closed, roomy chamber, and, one the other hand, that the same and perfectly free. It is necessary same and perfectly free. It is necessary that nothing should intervene to disturb the foam, and from a funnel behind the head it spouted streams of water, which was occawhile the rite of cremation is proceeding. As the products of combustion have to invelope the corpse from head to foot, so the communication between the crematory for a time they looked on in silent horror at chamber and the chimney for the vent of the contortions of the huge monster. It the smoke is necessarily opened in the cham- was a devil fish, which had been driven by ber itself, at the end opposite to that which communicates with the furnace. It was found much better to open such communica-tion in the bottom of the crematory chamber where there is the symbol. The symbol is t rather than in the ceiling, because, in the gan of locomotion. It draws in the water, latter case, the products of combustion drawn upward are for the most part condensed in that empty space where the body does not rounding medium drives it backward with and had to ground her a-good bit interest out than was at all desirable. The men in irons had been released, and they, as well as the crew, had kicked off shoes and made ready for the swim through the surf that must be taken before we could make land. We had not a boat that could swim; but a few spars lashed together, and towed by three good swimmers who had easily got on shore, soon landed all the erew. Raymond had got a bad splinter wound in the left arm, and though I strongly urged

fierce'y intermixed, was heard behind the their heads off as they wended their way to the corridors, and thence into the street.

The chair was taken by Capt. Lane who in a few appropriate and well connected re marks stated the object of the demonstration viz: to do honor to an esteemed officer and citizen, who had decided to take his depart-

TO FRED A. HUMPIDGE, ESQ

Respected Sir.—We, on behalf of Defiance Fire Company and the citizens of Watford, desire to embrace the opportunity afforded on this occasion to convey to you an expreson of our appreciation of your faithful and son of our appreciation of your mainting and devoted labors, untiring zeal and active co-operation. in the discharge of the different official positions held by you in our Fire Company. The general public feel that they sustain a loss as a citizen and a practical mechanic, by your removal from our midst. We bespeak for you in your new home in Dutton the same confidence that we have reposed in you while here. Wishing you and your family long life, happiness and prosperity, we remain yours respectfully.

M. D. O'Brien, M. S. Campbell, Commitee James Menery, John Lovell, The toast of the evening "Our Guest," was presented by Mr. A. Jamieson, the Vice-Chairman, in a few well chosen sentences, referring particularly to Mr. Humpidge, as a highly esteemed member of Havelock Lodge . F. & A. M., and the fact that the Masonic fraternity, who had proposed humoring him with a similiar expression to that offered on the present occasion, had laid aside all selfishness and fell in with the Fire Company to assist in doing honor to their departing brother. Mr. Humpidge acknowledged the toast in a very earnest and feeling speech. Song, "Drink and be Merry," Messrs. Jos. Williams and Paul Cameron. At this point in the proceedings, the Captain called upon the Secretary to take his feet. and quite unexpectedly to that gentleman, and case, with the following address ; To M.S, CAMPBELL, ESQ., SECRETARY D.F.Co. Dear Sir .- I have much pleasure in pre-

preciation in which you are held, as a man and a fireman, and as an acknowledgement of your zeal and ability in the discharge of the onerous duties as Secretary, for ou company for the past four years. Be assur-ed of our confidence, and we hope that you will continue as heretofore, our worthy se H. LANE. Captain.

Mr. Campbell, though quite surprised with the unexpected honor, made a very suitable reply. A number of toasts followed but space will not permit us to report. The Brass Band were present and added

COMPLIMENTARY SUPPER. | feeling reply, referring to the progress of A complimentary supper was tendered on their midst, mentioning the large and handsome Church, the very comfortable Manse which had been erected since he came to Watford. The congregation had increased in membership about one half, and the Sabbath attendance had nearly doubled. All this he pointed to as marks of outward prosperity, and though eternity alone would reveal the spiritual good done, yet he trusted that his labors had not been in vain. He thanked them kindly for the expression of

regard for Mrs. Abraham, and though he knew not where their next field of labor would be, they both would hold in affectionate remembrance the many tokens of kind. ness they had received from their friends in Watford. In a few days they would be without a minister, and he would be without a home, but he hoped they would after he was gone look lightly upon what they may have thought as his faults, assuring them that in such it was more an error of judgment than of the heart. Commending them to

To REV. JOHN ABRAHAM; PRESRYTERIAN MINISTER, WATFORD, ONT.

Reverend Sir, --- We the members of your Reverend Sir, --We the members of your Bible Class and your friends learning that you are leaving us, take this opportunity of \$590 in full for loss, and the President grant showing our appreciation for you as a man and a minister, and beg of you to accept the small token of our regard and respect for you. Wherever your future lot may be cast may the given fall group and your fam. Wherever your future let may be cast may the giver of all good give you and your fam-ily health, happiness and prosperty, and all of us meet in that home above where parting is no more. "

This address which was beautifully engrossed was signed by about 64 members of the Bible Class.

To this address the Bay Mr Abraham made a very suitable reply, stating that this was not the first token of respect and appreciation that he had received from the young of the congregation, and expressed the great pleasure and personal benefit he himself had enjoyed in endeavoring to direct their minds to the great subject of life. After a sumptuous repast provided by the ladies of the congregation, and vocal and instrumental music, the Company broke up

about eleven o'clock, all plessed and delight ed with the evenings entertainment.

Ailsa Craig vs. Watford.

A shooting match took place at Ailsa Craig on Tuesday last, the 11th inst., between the Watford Club and the Club of presented him with a magnificent gold pen that place, which resulted in a victory for the Watfordites. The following is the

Vanderdeoken's Dream. BY PERCY FITZGERALD.

At last, repose i all still. Tet in mine ear Sounds the deep roar of waters, and my brain Serins with th' starmal motion. Do I live? And is the awful whirl-the weary beat At length at rest? Shut out the hideous days When my wrung eyes strained o'er the la

prairie, And longed-for night brought me no welcome dark

And longed-for night brought me no welcome d ness! For then the solemn sentinels, patrolling, Lit up the waste, flashing their ghastiy fosm. At times the misty folds were litted. Then Bayealed the tender shore-solt light and colour Men and maidens flitting: to faint chimings From the turnet in the red-tiled roof: And as my racked heart yearned at the sight-Longing-panting for this sweet delight, Down roll the linky folds: my switel masters Rosred in their fury, "Onward, on for ever! Joy at thy lips: but never shalt thou taste." And I was whited away, shricking to Heavin, "O mercy, give me pause! One moment's rest! Take me from this torture ! Give me Death!" This my rack, most exquisite and devilish. So with some wretched soul, when she he loved Lies still before him: his strained eyelids Wrung with long watchings, drooping till he sleeps Then does the sweet lost one come to him, smillar ; Greeting with her old joy, as though just returned And he waits forth with her, through calm greet have

lanes, Wondering, yet filled with soft delight-In tender summer's light, full of sweet sa tender summer's light, full of sweet sadness ten, of a sudden, she is snatched away whop, of a solution, she is shatched away— And waking with a cry, and arms outstretched, Bleak daws has chilled him back into his grief. This my tortres—Vultures of despair Chained at my heart—the minutes long as days, The days, as years—the years— When will it end ?

But now 'tis pust ! My prison lies beyond, And here is Life açain ? Sweet Earth, fond ma Bage on, ye baffied monsters ! I am Free ! Now do I mock your bolss and watery bonds. Alas, I rave ! Tis but reprieve- brief furioug! Is there not one white soul to ransom mine? See ! us yon clustered houses, on the hill-The dawn just lifting up her child blue mantlo-I kn w my covert. There my quarry sleeps; Dreams of her rustle, who at village dance Whi-pered his love into her oral est. The Fowier comet. 'I've pereted even The Fowler comes. I've marked you, innocent ! One week hence-Poor child ! I know not mercy. And women traffic with men's hearts-She'll fin me Steel and rock Let both be lost together ! But to the work.

O ! long sweet evening, at the cottage door, By bending stream, or near the spreading tree; All in a goiden glow, and tender caim— Eternal twilight—here I find my rest. The sense-se exquisite ! that all is done ! O gentle eyes, transparent to my soul; I gaze upon the loving heart within, That wearied out the Venzeance with its sighs. O ! too indulgent Heaven ! ever pitying— That sends the gracious rain, forgiving all— Whispering all is paid—the score wiped out ! The paning crowd, shall fret and battle for t crown—

This poor scarred heart is healed. Here in or My life shall melt away !

What chilling touch Curdles my soul! My eyes was darkening-I sink-and shiver. And a clanging Bell Swings in my brain-that tolls the awful end i 'Save me!" I gasp. Despair! Then clut

"Save me!" I gasp. Despair! Then clutch thin plank That drifts beside me. "Give, give your life!" Your yows, your ost I. Redeem me-quick ! I die." Answered her loving eyes, all joyful, "Only that!" Then to my tale of Sin; my hurried words Burst from their gates - a hideous maddened crowd. That fung defarics to the Highest Heaven, And on that fatal night gave bond to Satan That till the Judyment Day-"Accursed!" she shrieked, And shricking, fied.

And, shrieking, fled.

All on a card, and lost! She shrank from me. This tainted, leprous thing I call my soul pierced through the tinsel. The draught was at ury lip, and anatched from me Her heart, a tailen leaf beneath my feet To tread upan. She's saved, and I --am lost! Despair! The moments, tramping on to midnight, Drag me with them. Of the end -the End ! Hark to their murnutings as they fret, impatient. They are at hand-Just as the doomed one Sees through the prison gates flung open-sudden, The blood-red scaffold, and the awful waste Of upiurned greedy faces-walling him-I dare not look; yonder the hideous thing, My prison through the long, long night, The blood-red sail, wafting a chill of death. The blood-red sail, waiting a chill of death. The moments slip from me, whipped by furies into wild callop. Oh, the End! the knd! What shall I do? No, no! Not yet, not yet; Some spacel—show pl'y—Oh, turn back the hours They heed not my wild prayers—As well the wrst That's caught and tangled in the whirling engine May pray its cruel teeth to spare him. See, The air is thickening: they close in upon me; Foul phinons flap upon my cheek—I hear Their forked tongues hiss in my ear "Too late!" The dismal chine, wailed out by kindly angels In yon barread Heaven never to be mine ! In yon barred Heaven never to be mine ! The each, she ar, the gale, the wave—"Too late ! The fatal cry. They come for me! I am lost ! I feel the icy mail upon my heart ! O! Mercy !

Eyes May be Avoided.

(From the London Times.)

from the East." Princes, ladies, and cour-tiers were alike enthusiastic. Like a boy with a new toy, they were filled with delight over some newly-discovered fragment of an old Greek or Latin author. Now the lately-invented art of printing came intorequisition. Paper had been made from rags since about the year 1300, and, with these new facilities M. Javel, in a recent lecture, tries to answer the question, Why is reading a spe cially fatiguing exercise ? and also suggests some remedies for this fatigue. First, M. Javel says reading requires an absolutely permanent application of the eyesight, ra-sulting in a permanent tension of the orsuiting in a permanent tension of the of-gan, which may be measured by the amount of fatigue or by the production of perma-nent myopy; secondly, books are printed in black on a white ground. The eye is thus in presence of the most absolute conthe year 1300, and, with these new facilities copies of the classic authors were rapidly multiplied, and came into the possession of those who had never dared to hope to own trast which can be imagined. The third one. Aldus Manutius set up a printingpeculiarity lies in the arrangement of the characters in horizontal lines, over which tion after edition of those splendid classics, called, after him, the Aldine editions, wh ch run our eves.

If we maintain during reading a perfect immobility of the book and the head, the are to this day the delight and envy of all lovers of rare and costly books. It was not printed lines are applied successively to the same parts of the retina, while the inter-spaces, more bright, also effect certain relong before the results of this revival ot learning were plainly to be seen. New ways of thinking had come into fashion; a gions of the retina, always the same. Ther must result from this a fatigue analogous t more correct and refined taste had begun to prevail, and thus was effected a complete prevail, and thus was effected a complete revolution in the arts of painting, sculpture, and architecture. The new learning was called the "Humanities," and those who cultivated it were called "Humanists;" and rightly, too; for the new learning worked a reform in morals, and so a refinement of manners. The Greek studies of the Hu-numities of the Piblo that which we experience when we make experiments in "accidental images," and physicists will admit that there is nothing ore disastrous for the sight than the pro longed contemplation of these images Lastly, and most important of all, in M Javel's estimation, is the continual varia tion of the distance of the eye from the point of fixation on the book. A simple calculation demonstrates that the accom dation of the eye to the page undergoes : distinct variation in proportion as the eye passes from the beginning each line, and that this ing to the end o the greater in proportion to the nearness of the book to the eye and the length of the

As to the rules which M. Javel inculcates in order that the injurious effects of reading may be avoided, with reference to the permanent application of the eyes, he

Double Bliss and Long Life.

the permanent application of the eyes, he counsels to avoid excess, to take notes in reading, to stop in order to reflect, or even to roll a cigarette; but not to go on read-ing for hours on end without stopping. As to the contrast between the white of Dr. Bertillon has been making extensive researches in French statistics, and one of the conclusions to which he has come is, that double bliss has a great advantage over <text><text><text><text><text><text><text><text><text><text> the paper and the black characters, various

rightly, too; for the new learning worked a reform in morals, and so a refinement of manners. The Greek studies of the Hu-manista led to the translation of the Bible into many of the modern languages, and a purer and more enlightened Christianity was the result. And so on this movement, the Renaissance, went on. New ideas of re-ligion, new ideas of politics, and of govern-ment came into being, and prepared the support work that is best, and sweetest, and noblest; all that is worth most having in the life of the present day we owe to it—the "new birth" that came in the fliteenth century. that explosive material, and the idea occur-red to me to put under that explosive mix-ture sulphur. I did that, and published it in my next lecture, and showed it. There was a young man in the room whose father ly wrote to his father about it, and shortly

THE ADVENTURES OF

THE WASP. The Fight for the Cave.

With great difficulty the men had ma our house of refuge. Apparently there was nothing outside that roused his suspicion; indeed, it was evident from his whole proceeding that he did not think we were in the cave. He had pointed

fell in Portugal to the depth of twenty-three feet on a level. In 1754 and 1755 the winters were very severe and cold. In England the strongest ale, exposed to the air in a glass, was covered with ice one-eighth of an inch thick. In 1776 the Danube bore ice five feet deep below Vienna. Vast numbers of the feat thered and funny tripe periphed.

he parted the trailing plants that shrould the mouth and peered in. It took his eye a second or two to get accustomed to the change of light, and that instant was long anauch for our bactman's outlass to ge grash would most effectually baffle any attempt to From 1800 to 1812 also, the winters were take us till night again fell, and we could enough for our boatsman's cutlass to go crash through his ribs and cleave his heart in two.

get off in a fishing-boat. When the muskets and pistols were wiped out, dried, and loaded, Raymond divided the ten men for whom there were firearms into a vanguard and a rearguard. Two of these men had got pretty severe contusions from splinters during the firgate's fire, but Listening Dogs. Dogs can understand what is said, even though they cannot speak, just as people can frequently understand what is said in foreigh language without being able to speak it. A man said in the hearing of an old. May have him killed; he is too old." The dog ran away and pays records the speak of the spe

"Can you recollect anything Sancho said about the proper passage, Charlie?" asked Tom anxionsly for the third or fourth time, when retreat appeared likely to be our only chance, and it was necessary to choose one or other of the alleys into which the cave divided as we advanced into it. It was use-less track any particular adventure, We wrong. Looking round towards us, he ordered the small arm men to advance a little

nearer, keeping themselves as closely as pos-sible behind the barricade of rocks we had hastily rolled across the breadth of the cave. hastily rolled across the breadth of the cave. Peering through a chink of this beside Tom, I saw at the top of the pathway a Spanish officer in close confabulation with a man that looked like a goatherd. He was pointing divided as we advanced into it. It was use-less to rack our recollections, though; the honest fisherman had only said that one and in ten days from the time we parted cut to the soldier the cave, and apparently telling him how likely it was we should seek shelter there. "If that fellow tells him of the exit San-cho spoke of, we are trapped again, Charlie," whispered Tom. "He hasn't said a word about it yet, I'm sure, as the Don won't be-lieve we have crossed the rayine - but if

about it yet, I'm surc, as the Don won't be-lieve we have crossed the ravine; but if they attack us, that fellow must be shot at all hazards. By Jove, here he comes !" con-tinued Tom, as the goatherd left the officer, across this that the second barricade

Raymond cautiously withdraw the men from the outer defence, and when we were and proceeded to descend the pathway. Detection of course now was certain. The peasant would at once discover the rocky The peasant would at once discover the rocky breastwork; but if not, and if he ventured unside, he would of course see us. Raymond whispered a word or two to Horner, at which that worthy laid down the muske he was carrying, and grasped his outlass. For a second or two inside the cave there reign-ed a silence unbroken even by the sound of a breath. Outside was the scrambling sound of the goatherd descending, till, with a bound, he stood on the broadish platform of level ground that lay before the month of our bouse of refuge. behind the inner line we had a needed breathing space. The Spanish fire continued unabated far a while ; but few of

After bathing and biading up the wounds of those hit, Raymond, leaving Horner in charge of the men, asked me to explore the passige with him. It was very dark, and we dared not use any light, so we staggered along in silence over the rough, reck-strewn floor of the passage in a state of great anxiety, for it might not be the right passage, and if not, we were caught like rats in a

trap. The broad part of the cave we could not hold and we were forced to choose some one of the channels. This was the likeliest; but when we had tradged cn, with bleeding shins, and many a scrape and tumble, along the channel of the little stream, and still not a glimmer of daylight appeared ahead, we began to despair and had serious thoughts of turning back and trying another of the passages; but, as we hesitated, a dull boom-ing sound, multiplied and re-echoed by the

chambers in the tunnel, came along the pas-sage to us, and we knew that the Dons had found out our retreat and were attacking the

cond breastwork. "Come on, Charlie, let's reach the end of this one at any rate, and then get back to the men," and again we groped our way along, probing the path with a light pole, and pushing on as fast as the obstacles in the way would allow. A rock, larger than usual, lying on the path, has forced us to step aside into the

NEWSPAPER DECISIONS.

1. Aby person or persons who takes a maper regularly from a Post Office, whether directed in his name or another's, or whether to has subscribed or mot, is responsible for payment.

2. If a person orders his paper dis continued, he must hay all arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken from the office or not.

3. The Courts have decided that re fusing to take newspapers or periodicals from the Post Office, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

JAMES C. TYE, EDITOR AND PROPRIETOR WATFORD ONT. MARCH 21st, 1879.

THE WIMBLETON TEAM.

The annual meeting of the Dominion of Canada Rifle association was held at Ottawa on the 6th instant, the chair His Excellency the Governor General patron of the association, was present and the proceedings were interesting to all the friends of the volunteers and bleton team. The annual report states that the Government grant amounts to \$7000 and the total receipts from all sources, from 21st January 1878 to 21st January 1879, are \$12,381,36, and the expenditure \$11,124.31. The competitors who had made the highest scores in the trials in 1878 comprise 12 from Ontario, 3 from Quebec, 2 from Nova Scotia, and 2 from New Brunswick. Twenty new Snider rifles, for the Wim. pleton Tesm, have been ordered from Glasgow. The Governor-General, in response to a vote of thanks passed for his presence at the meeting, made a very happy reply, in which he made the fol. lowing suggestion :

" I believe the whole secret of success. ful team-shooting is, that those menu. bers who take part in such contests should have plenty of opportunities of shooting together before they come to the post, and I hope I may yenture, in my capacity as a new member, humbly to offer a suggestion, that those gentlemen you select to represent Canada in the great contest this year will take care before they leave these shores to be able, as the Germans say, to 'swing together,' so that each one may know how to coach the next one who shoots after him "

The first half of March has not presented a very lamb-like aspect, although thaws have prevailed, making the roads in a horrid condition, and teaming of heavy loads an impossibility, for thunder and lightning, accompanied with showers several days in succession have set the "weather-wise" ponde-ing as to the results that they harbinger-some ventuating to predict an early spring; and others, taking their cue from Mr. Yennor, that the latter part of the month will be a specimen of the weather prevailing in the Arctic circle, consequently that the Spring will be late . cold and wet, and the land in a poor condition for spring seeding. Whatever is-is right, is the best motto for the farmers under such circumstances for, late or early, they have good reason to hope for compensating infinences during the course of the succeeding summer, to reward their industry and confidence in an overrilling Providence, with a bountiful harvest,

" But the question of questions just now to the Ontario farmer, which touches him in the most sensitive part, his ports of the old world, both in regard to fluctuations in prices and amounts of stocks on hand at the principal cen. tres, and have come to the conclusion that the prospects are in favor of a mod. grate rise for a short period, or at least fill the markets are agein glutted. We base this opinion on the unusual facta that all the Continental nations are heavy purchasers of grain since the first of January of this year ; that the mov. ing of the Russian surplus is hampered with quarantine regulations on the fronties, and may be stopped altogether should the plague increase in virulence with the warm days of Spring. We do ing the Lelance of last Mur's crop.

Harvest Queen Front View.

Some of the Reasons why the Harvest Queen is the Best Machine to Buy.

Jst, It has the largest drive wheel of any Single Reaper now | themselves, to compare the Harvest Queen with all other reapers of 2 id. It has the largest, lightest, str ngest, and best shaped

table, supported by a patent truss rad, which you cannot get on any other Machine in the market. 3rd. It has the best Johnston five arm rake, which lays a better

ard. It has the best joinstoin not an take, which hays a better sheaf than any four arm rake made.
4th. It is the best protected from sand, dust and dirt, I challenge comparison with any Machine in the market, no matter whose make it is, on this very essential improvement.
5th. It can be set to cut as low as any Machine, and can be

raised higher to travel ou the road or go over very rough ground

the above mentioned points, as the success and durability of any Ma chine undoubtedly depends upon the advantages herein enumerated. 8th. It has more strokes of the Knife to each revolution of the Driving wheel than any other Single Reaper made; and SEVEN Strokes more to each Revolution of the Driving wheel than any other

In connection with the above Reaper I also make the

now offered to the p

than any other Machine, 6th. It has the firmest, strongest, and most durable device for Which is acknowledged on all hands to be one of the best Mowers

Harvest Queen Reaper made outside of Strathroy. The increased motion of the Knife renders the Reaper capable of cutting where other Reapers will choke down.

Orders for school, and n iscellaneous Pooks Periodicals, Music, St tionery etc., filled promptly and forward d per post, without aztra charge, by Ewer's book store, Watford

IMPORTANT CHANGE .- Mr. D. Watt, anounces that he is going to give up the Credit Business, and that on and after April 1st, 1879, he will sell only for CASH, or ing is the score : Trade at market prices.

REFORM CONVENTION .--- The Reform Convention held in Watford on Tuesday last, resulted, after a number of ballots had been taken, in the nomination of Mr. P. Graham

By A five minutes glance at our subscrip. tion books we can tell who are the truly good men in and around Watford.

BADLY SOLD .- Last Sunday evening one f our swells asked a young lady of Watford if he could have the extreme pleasure of es. corting her to church, she accepted and they went. At the close of the services as they emerged from the church another young man offered the young lady his arm, she clinched next week. and left young man No. 1 to sad reflections and he was as mad as a March hare.

FIRE !- Last week Mr. Angus McLachlin, Brooke, had his barns burned. He had a cow die of murrain in his shed, and to disinfect the premises he had old leather burned in the shed, but got to big a fire and had the buildings burned together with two fat porkers. In attempting to stay the fire he had the whole side of his head burned. His neighbors across the river swam over and rendered such assistance that his large frame buildings were saved, although they had caught fire. The loss will not be over \$100, as the buildings destroyed were old, but one the less useful.

Obituary .- It is with deep feelings of regret that we have to announce the death of Sarah, beloved wife of U. M. Stanley M. D. and daughter of Leander Harvey, M. D., of this place, which sad event took place on Monday, the 17th inst,, after a very short illness. Her loss will be deeply felt throughout the entire community, as she was highly esteemed by all who had the pleasure of her acquaintance, as was evinced by the large course of people who followed her remains to their last resting place, Presbyterian burying ground, 4th line, on Wednesday last-Elder D. Oliphant, of London, preached a

very impressive funeral sermon, in the Presbyterian church. The bereaved husband and relatives have the heartfelt spmpathy

of all.

THE BUTTER TRADE To the Editor of the GUIDE.

Dear Sir.-As the butter season approach es, would it not be advisable for the merchants in the several Villages of this County to arrange a meeting at an early date, to take into consideration the demoralized state of the Butter trade, which has been ruling for the past few years, and to devise some

practicable scheme, whereby the standard quality of butter would be raised so as not to cause the heavy losses at present sustained by dealers as this is a very important question, and one that bears heavily on most o

beneficial to both buyer and seller.

Yours truly, ONE INTERESTED

Watford vs. Ailsa Craig.

The return match between the Ailsa Craig nd Watford Gun Clubs took place at Watord, on Wednesday the 19th inst., which esulted in a bad defeat for the Watfordites, who failed to retain the triumph which they our Dominion to-day, and thus sound 1 achieved at the first match, but we hope ature is neglected, while morality r they will do better next time. The follow- grades in the same ratio.

SHERMAN & CO., Marshall, Mich.

Gage, "storaded by M -WA will be INDESSART BRIA BAZARTA being dissignation with the extent of A dream of interlinking hands, of feet Tircless to spin the unseen fairy woof Of the antangling walts. Bright syebeams meet, Gay laughter cohoes from the valited roof, Warm pertimes rise; the soft unflickering glow Of branching ignes, rich stuffs, the dazzling soow Of branching ignes, rich stuffs, the dazzling soow Of neaching intervention of the sourt into the strain Of realizes rowing, vibrates and sobs One fundamental chord of constant pain. The pulse best of the poet's heart that throbs, So years, though all the dismoning waves rejoice, The troubled ass's disconsolate, deep voice.

Chopin

Num6. Euroberais

The serapt source is a source of the seraid set of the seraid set of the series of the

othn By law :

A voice was needed, sweet and frue and flue, As the sid spirit of the evening breeze, Throbbing with human passion, yet divine As the wild bird's untufored melodies. A voice for him 'neath twilight heavens dim, Who mourneth for his dead, while round him fall The wan and moiseléss leaves. A voice for him Who eees the first green sprout, who hears the call

call Of the first robin on the first spring day, A voice for all whom fate hath set apart. Who, still milsprized, must perish by the way, Longing with love, for that they lack the art Of their own soul's expression. For all these Sing the unspoken hope, the vague, sad revertes. IV.

worth.

Then nature shaped a poet's heart-a lyre. From out whose chords the lightest breeze that blows Drew trembling music, wakening sweet desire. How shalt she cherah him? Behold ! she throws This precious, fragile treasure in the whirl of secthing passions ; he is scourged and stung. Must dive in storm-watt sets; if but one pearl Of art or beauty, therefrom may be writing No pure-browed pensive nymph his Muse shall be ; An amizon of thought, with sovereign eyes, Whose kiss was poison, man-brained, worldly-wise, wise, Inspired that elfin, delicate harmony, Rich gain for us ! But with him is it well, The poet, who must sound earth, heaven, and

hell!

Zululand.

The Zulu Army-The Zulu Kraals-Where do the Arms Come From-The Reverse of the 24th Foot.

Turning to the force it was known the

iberal and willing benefactor. If she be even a tolerably good wife, he does her a Zulu King could put into the field, we learn that it was estimated at between 40,000 grievous wrong when he assigns her the place of a beneficiary. He has no right to be her patron, even though he be a very munificent one. Her work and her care for that it was estimated at between 40,000 and 50,000 men; in fact, it is composed of the entire nation capable of bearing arms. Every youth on attaining the age of 15 is drafted into a regiment, and after a year's service permanently posted to a military traal, of which there are 12 in the country. his interests at home have a positive money value of very considerable amount, as any one may see upon reflection, and this fact deserves recognition, at the least. Count her personal expenses as mere wages for work done and skill brought to bear in There are 33 regiments in the Zulu army, reach having its own distinguishing dress and ornaments. The organization of all is household management, and in very few cases is the wife overpaid. Estimate her They are divided into right and left wings, each commanded by a wing offi-cer, and subdivided again into 8 or 10 money-value by what she might earn in other walks of life, if she had devoted her companies, each of which has a captain and three subalterns. Of the 33 regiments, 18 are composed of married, 15 of unmar-The former shave their heads, which are then bound round with a band made of the skin of some beast-leopard or otter predominate; they carry white o substitute hirelings for her in the par shields. The unmarried regiments wear their hair naturally, and carry black shields. bour, in the dining-room, in the nursery, at the sewing-machine, and it will be evident that hers is the cheapest while it is the most Drill, in our sense of the word, is unknown faithful labour in the market. We know that this is a homely treatmen in the Zulu army, but they perform a few Their discipline, however, is more severe. When on cervice, falling out of the ranks for such a topic, but it is a wholesome one for all that, and the lesson is one which can not be too soon or too thoroughly learned.

as punishable with death, which, indeed, seems inflicted for the most trivial offences. No person possessed of any ordinary amount of self-respect is ever truly happy as a de-pendent upon anybody's bounty, and we All officers have their proper duties, and the men obey them without hesitation. The system of commissariat and transport

The Institute is fitted up in the most complete and practical manner, with all the fixtures of a regular Telegraph Office on a large scale. 'Messages of every description, train news, as d numker reports are daily of cattie. The Zulus invariably attack in a crescent formation, enveloping the flanks of their enemy on whom they pour a cease-less finallade directly he is surrounded; when within 200 or 300 yards they, with loud yells, make a rush, and after having expended their assegais, or spears, in the charge, dash in with their short swords. The Zulu army until lately was armed with the avail Comparement of the spike, namely, an iron piune clapt heds, and there they stood a whole houre till their In the second se All does permit a gain, but when he jumped a he gave in again, but when he jumped a of lemon flaovuring, find half a pint of mink; i of lemon flaovuring, find half a pint of mink; i didn't mean to move there, I was mix to a smooth paste, put into well butters. I was the social." band of a faithful wife should recognize \$200 and upwards.
