Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée
- Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- Cover title missing/
Le titre de couverture manque
- Coloured maps/
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- Bound with other material/
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments:/
Commentaires supplémentaires:

- Coloured pages/
Pages de couleur
- Pages damaged/
Pages endommagées
- Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- Pages detached/
Pages détachées
- Showthrough/
Transparence
- Quality of print varies/
Qualité inégale de l'impression
- Includes supplementary material/
Comprend du matériel supplémentaire
- Only edition available/
Seule édition disponible
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	12X	14X	16X	18X	20X	22X	24X	26X	28X	30X	32X
			✓								

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

NOTE.—When the Sun is slow, Equation to be added to Apparent Time.—
When the Sun is fast, Equation to be subtracted from Apparent Time.

ECLIPSES OF 1858.

This year there will be two Eclipses of the Sun, and two of the Moon.

I.—A Partial Eclipse of the Moon, February 27th. Eclipse begins at 4h. 20m. ends 6h. 33m. P. M.—As the Moon will not rise until about 5h. 56m., only the ending of this Eclipse will be visible.

II.—An Annular Eclipse of the Sun, March 15th. Eclipse begins at 5h. 58m. morning. ends 9h. 55m. morning. Central eclipse at 8h. 0m.—This will be a very important Eclipse throughout the whole of England. The Eclipse will be but partial here.

III.—A Partial Eclipse of the Moon, August 24th, invisible here.
IV.—A Total Eclipse of the Sun, September 7th, invisible here.

MORNING AND EVENING STARS OF 1858.

The Planet *Venus* (♀) will be *Morning Star* until March 1st, then *Evening Star* until Dec. 14th; then *Morning Star*. — *Mars* (♂) will be *Morning Star* until May 16th; then *Evening Star* the rest of the year. — *Jupiter* (♃) will be *Evening Star* until May 20th; then *Morning Star* until Dec. 8th; then *Evening Star*. — *Saturn* (♄) will be *Morning Star* until Jan. 15th; then *Evening Star* until July 25th; then *Morning Star* the rest of the year.

LIGHT HOUSES.

Board of Commissioners for the several Light Houses in the Bay of Fundy.—Robert W. Crookshank, John Ward, Isaac Woodward, John Wilson, Lieut. Charles Hare, R. N., and John James Robin- R. N., Esquires.

Isaac Woodward, Esquire, Surveyor of those Light Houses in the Bay of Fundy belonging to New Brunswick, and also of those belonging to Nova Scotia which are partly supported by this Province.

Cape Sable Seal Island Light.—The first Light in approaching the Bay of Fundy, is on the South Point of the Seal Island. This is a plain white Light, elevated about 80 feet above high water mark, and may be seen in approaching the Island from any point of the compass. A very dangerous rock, under water, but upon which the sea always breaks, called *Blonde Rock*, lies about $\frac{3}{4}$ miles S. by W. by compass, from the Light House. Between this rock and the Island, there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

Brier Island Light.—In advancing up the Bay, the next Light is situated on Brier Island, about half a mile N. E. from the N. W. point thereof. A plain white light.

Digby Gut Light.—The next light on the coast of Nova Scotia is placed on the west side of Digby Gut—from Brier Island North Eastward. The coast is very bold and not indented; the Light is therefore chiefly intended as a guide into Digby Basin.—A white Light.

Gannet Rock Light.—This Light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands off Machias, a distance of about twenty miles. It is a flash light—white—twenty seconds dark and forty light in each minute. The Light House is painted in stripes, vertical, black and white.

Bearings and Distances by Compass from the Gannet Rock Light House. This Light bears from the Light house on Brier Island, N. N. W. $\frac{1}{2}$ W. 22 miles.

From the Gannet Rock to the Old Proprietor E. distance 7 miles.

From the Gannet Rock to the Black Rock, off White Head Island, about N. E. $\frac{1}{2}$ E. 7 miles.

From the Gannet Rock to the South West Head of Grand Manan, S. S. W. N. W. 6 $\frac{1}{2}$ miles.

From the Gannet Rock to the Northernmost of the Murr Ledges, N. W. $\frac{1}{4}$ N. 2 $\frac{1}{2}$ miles.

To the Southernmost of ditto, called Saint Mary's Ledge, W. S. W.

2 miles.

From the Gannet Rock to Machias Seal Island, W and by N. $\frac{1}{2}$ N.

2 miles.

Note.—Between the Northernmost and Southernmost of the Murr Ledges, there is a range of dangerous rocks and shoals, many of them always above water, and which extends Westward from the Light House about four miles; from this range, farther Westward, about six miles from the Gannet Light, lies a dangerous breaker called the Ball. This may be avoided by keeping three remarkable headlands near the S. W. end of Grand Manan, open.

From Brier Island Light to the Old Proprietor, N. and by W. $\frac{1}{2}$ W. 18 $\frac{1}{2}$ miles

The Blonde Rock from the Southernmost point of the Cape Sable, Seal Islands S. and by W. 3 $\frac{1}{2}$ miles distant.

Machias Seal Island Lights.—There are two fixed *white* lights upon the Machias Seal Islands, elevated about forty-five feet above high water, and near from each other E. S. E. and W. N. W. distant about 200 feet, by which circumstance of two Light Houses at the same station, they will be immediately distinguished from all other lights upon the coast, (British or American) Both the Buildings are painted white. The following are the bearings from them, viz:

To the Southernmost Murr Ledge, (St. Mary's) E. S. E. easterly.

" Gannet Rock Light E. by S. $\frac{1}{4}$ S. 13 miles.

" Southern Head of Grand Manan, E. by N. $\frac{1}{2}$ N.

" Northern Head of Grand Manan, N. E. $\frac{1}{4}$ E.

" N. E. Rock, distant 2 miles, N. E. by N.

" Little River Head, N. by W.

" Libby Island Light House, (American,) N. W. by W.

Vessels standing to the Northward, between these Lights and the Gannet Rock, should tack or haul off the moment they bring these Lights in one, as they will not then be more than three fourths of a mile from the Murr Ledges, if more than five miles to the East of the lights.

It is recommended that the Ship's Compasses should be well compared and adjusted (particularly in new ships), before they leave Partridge Island, as serious errors have frequently occurred from want of attention on this point; and as the variation in the Bay of Fundy is seventeen degrees Westerly, or (1 $\frac{1}{2}$ points) it will be found by the latest published Admiralty Charts, that the course from Partridge Island down the Bay (South Channel) between the Old Proprietor and N. W. Ledge, is S. W. $\frac{1}{4}$ S., but the course to be steered must depend on the direction of the wind on leaving Partridge Island.]

Head Harbour Light.—Next in order after passing Grand Manan and the plain white Light, (American) on West Quoddy Point, is Head Harbour Light. This is placed on the North East extremity of Campo Bello, and is a guide to vessels entering the main Channel to West Isles, Moose Island, and the inner Bay of Passamaquoddy; it enables vessels also at all times to enter Head Harbour—it is a fixed *white* light. The building is painted White, with a red cross on it.

Point Le Preau Lights.—Upon this projecting head land two lights are placed, one above the other, in the same house, and distant 28 feet—Both lights can be seen from every point of the compass, where they may be useful—both are fixed and *white*. The Light House is painted red and white, in stripes of five feet broad each, horizontally.

Partridge Island Light.—This light at the entrance of the River and Harbour of Saint John, having been established upwards of forty years, requires no particular notice, further than that it is a fixed *white* light, and that the Light House is red and white, in vertical stripes.

Beacon Light.—Within Partridge Island, and upon a Spit or bar which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. Upon this Tower a light is established, which is eminently useful to the coasting trade of Saint John, and to all other vessels having pilots on board, as it enables them to enter the harbour at all hours of the night. A fixed *white* light. The House is white and black, in stripes vertically.

Quaco.—A revolving *white* light is placed on a small rock off Quaco Head, showing twice full and twice dark in a minute. This light can be seen from any quarter where a vessel can approach. The Light House is painted white and red in horizontal stripes.

Cape Enrage Light.—On the point of that name, in Westmorland, nearly opposite Apple River Harbour, N. S. A plain *white* light. The House is painted white, and is about 120 feet above tide mark.

West Quiddy Light.—This is an American Light, and is placed on the West side of the entrance into the Saint Croix by Lubec and Eastport.

Cape Forchu Light.—On Cape Forchu, on the western side of the entrance to Yarmouth (Nova-Scotia), in lat. 43, 39, N. long, 66, 8, W. It exhibits a plain revolving light—visible one minute and a quarter, and invisible half a minute. The building is painted white, and is elevated 135 feet above the level of the sea.

Latitude, Longitude, and Variation of the Compass, at the following Light Stations in the Bay of Fundy, belonging to New Brunswick:

The Buoy is anchored in 7½ fathoms, low water, spring tides. The Bell is 19 feet above the water.

SIGNALS.

Displayed at Partridge Island, on the approach of Vessels to the Harbour of Saint John.

- One ball close, for one square-rigged Vessel.
- One ball half hoisted for two ditto.
- Two Balls close, for three Vessels
- Two Balls separated, for four ditto
- A Pendant of any colour, for five ditto
- A ditto under a Ball, for six ditto
- A ditto over a Ball half hoisted, for seven ditto
- A ditto under two Balls close, for eight ditto

A ditto between two Balls separate, for nine ditto
 A Flag of any colour, for ten or more ditto
 The above are displayed at the East or West yard arm, according to the direction in which the Vessels are at first observed, and as soon as they are can be distinguished, descriptive Colours will be hoisted at the mast head, in the following order:
 A Union Jack for a Flag Ship, with or without a squadron.
 " with a Red Pendant over, for a two-decker
 " with a Blue Pendant over, for a Frigate
 " with a white ditto, for a small armed vessel
 A blue Pendant for a Merchant Ship
 A red ditto, for a Merchant Brig
 A white and blue ditto, for a Foreign Vessel
 A white ditto, [without a ball,] for a Topsail Schooner or Sloop.
 A blue Flag pierced white, for a steamboat from Saint Andrews or Eastport.
 A Red Flag pierced white, for a Steamboat from Digby
 A Red Flag with a white square, for a Steamboat from Boston
 A Ball at the mast head, Vessel is on Shore or in distress

RATES OF PILOTAGE,

Established by a Law or Ordinance of the Common Council of the City of Saint John—passed 3d August, 1848.

Five Shillings per foot, for bringing any Ship or Vessel into the Harbour of Saint John, and mooring her into a safe place or berth, or securing her alongside of one of the Wharves; and Five Shillings per foot for removing and taking any Ship or Vessel out of the Harbour.

In cases where Pilots shall be detained on board of Vessels, under and by Virtue of the Quarantine or Health Laws of the Province, they shall be entitled to demand and receive from Masters of such Vessels, the sum of Ten Shillings per day, for every day of such detention, in addition to the allowance aforesaid.

Coasting Vessels, going from one part of the Bay of Fundy to another, British Steam Boats, or British Vessels drawing under six feet of water, are not compelled to take pilots; when employed, they are to be paid according to the rate above mentioned.

For removing Vessels from any mooring ground to any Wharf, or from one Wharf to another Wharf, and seeing them properly moored or secured, the following rates: For Vessels not exceeding One Hundred Tons, Seven Shillings and Sixpence; for Vessels over One Hundred, and not exceeding Two Hundred Tons, Ten Shillings; for Vessels over Two Hundred and not exceeding Three Hundred Tons, Fifteen Shillings; and for all Vessels over Three Hundred Tons, the sum of Twenty Shillings.

First Distance.—From Patridge Island to Musquash Cove Head, bearing North West, Five Shillings per foot.

Second Distance.—From Musquash Head to Point LePreau, bearing North West, Six Shillings and Threepence per foot.

Third Distance.—From Point LePreau to North Head of Grand Manan, bearing North West—of North Channel, bearing South East, Seven Shillings and Sixpence per foot.

Fourth Distance.—From the North Head of Grand Manan—or North Channel as aforesaid—to Machias Sea Island, bearing South, or Brier Island bearing South South East, Eight Shillings and Ninepence per foot.

Fifth Distance.—Any where outside the aforesaid distance, Ten Shillings per foot.

HARBOUR MASTER'S FEES.

On Vessels of 30 Tons and under 50, 2s. 6d.; Vessels of 50 Tons and under 75, 3s. 9d.; 75 and under 100 tons, 5s.; 100 and under 150 tons, 6s. 3d.; 150 and under 200 tons, 7s. 6d.; 200 and under 300 tons, 10s.; 300 and under 400 tons, 12s. 6d.; 400 tons and upwards, 15s.; Decked Vessels, under 100 tons, owned and registered at Saint John, and all British Vessels under that tonnage trading within the Bay of Fundy, or arriving from Ports to the Northward of Cape Cod, or the Westward of Cape Canso, or from any Port in Nova Scotia, to pay annually as follows: Under 30 tons, 3s. 9d.; over 30 and under 50 tons, 5s.; over 50 and under 75 tons, 6s.; over 75 and under 80 tons, 10s.

RATES OF WHARFAGE, established by Act 5-Vict. cap. 49, in the City of Saint John and Parish of Portland.—For every decked vessel, or wood boat, of the burthen of 40 tons and under 1s. 6d. per day; above 40 tons, and under 50, 1s. 9d.; above 50, and under 60, 2s.; above 60, and under 70, 2s. 3d.; above 70, and under 80, 2s. 6d.; above 80, and under 90, 2s. 9d.; above 90, and under 100, 3s.; above 100, and under 120, 3s. 6d.; above 120, and under 150, 4s.; above 150, and under 180, 4s. 6d.; above 180, and under 200, 5s.; above 200, and under 220, 5s. 6d.; above 220, and under 240, 6s.; above 240, and under 260, 6s. 6d.; above 260 and under 280, 7s.; above 280, and under 300, 7s. 6d.; above 300, and under 320, 8s.; above 320, and under 340, 8s. 6d.; above 340, and under 360, 9s.; above 360, and under 380, 9s. 6d.; above 380, and under 400, 10s.; above 400, and under 450, 11s. 3d.; above 450, and under 500, 12s. 6d.; and 1s. 3d. for every additional 50 tons.

RATES OF SLIPPAGE AT THE CORPORATION SLIPS.

All Decked Vessels, same rates as for Wharfage; Wood Boats, and other Boats, or undecked Vessels, having standing Masts, and all Scows, and not lying at the wharves on either side of Slips, to pay the following rates:

Every Woodboat of sufficient burthen to carry,	10 Cords of Wood, or under,	1s. 6d.
ditto ditto	upwards of 10 Cords, and not more than 15,	2s. 6d.
ditto ditto	upwards of 15 Cords, and not more than 20,	3s. 9d.
ditto ditto	upwards of 20 Cords,	5s.

The above to be paid each trip, and if any such Vessel remains over six days, an additional duty to be paid of from 2s. 6d. to 5s. daily, according to the burthen. Other Boats and Vessels without decks, and having fixed or standing masts, and all Scows, to pay 1s. 6d. each trip and 1s. 6d. additional per day, if suffered to remain over three days.

RATES OF FERRIAGE ACROSS THE HARBOUR OF SAINT JOHN.—Foot passenger, 2d.; Child under twelve years, 1d.; Horse, 3d.; Ox, or other large animal, 3d.; Elephant or Camel, 1s. 3d.; m-

gle Waggon, not loaded, 2d.; single waggon with horse and one man, 6d.; single waggon, with horse, load and man, 7d.; double waggon, not loaded, 7d.; double waggon, with horses and man, 9d.; double waggon, with horses, load and man, 1s. 3d.; barrel, 1d.; bag containing two bushels, 1d.; firkin, keg, or box of the same size, 1d.; cask of lime, 2d.; pipe, hogshead, or puncheon, whether in waggon, cart, sled, or other vehicle or not, except containing molasses, vinegar, rice, or sugar 9d.; every cwt. of iron, steel, or copper, whether in waggon, cart, or other vehicle or not, 1d.—Carts, sleds, drays and carriages, same as waggons.

RATE OF TOLLS FOR CROSSING THE SAINT JOHN BRIDGE.—For every foot passenger, (excepting children under five years of age,) 1d.; horse, mare, gelding, mule, ass, ox, cow, or other large animal, 3d. each; elephant or camel, 1s. 3d.; carriage, sleigh, waggon, cart, sled or other vehicle drawn by one horse or beast of draught, with one person, with or without a load, 6d.; horse or beast of draught, more than one, with a carriage or other vehicle, 3d. each; sheep, calf, hog, or goat, 1-2.

RATES AT THE PUBLIC WEIGHING MACHINES—Every load not exceeding One Thousand Pounds Weight, One Shilling; and One Penny for every additional Hundred Weight; payable, half by the seller, and half by the purchaser.

HACKNEY COACH FARES.—For conveying one passenger from any public stand to any part of the City, or from any one part of the City to any other part thereof, 1s.; and for every passenger exceeding one, 6d. additional; and if any driver of any Carriage or other vehicle, shall be detained at any place by any passenger, or shall make any agreement for carrying any passengers by the hour, he shall be entitled to ask, and receive the following rates, viz:—For any time not exceeding half an hour, 1s. 3d.; and in that proportion for every half hour that such Carriage, or other vehicle shall be detained or employed: Provided always, that in case any driver shall be required to cross the Ferry to Carleton, he shall, in addition to the foregoing fares, be entitled to demand and receive the ferrage for himself, his carriage and horses, both going and returning.

PUBLIC PORTERS AND HAND CART MEN—For loading, carrying, and housing any goods, or any other article on any Hand Cart, from the Market Slip in King's and Queen's Wards, or from any other place within the limits of the first district, to any other place within the said several Five districts, the rates of prices are as follow:—For the first district 3d.; second district 3½d.; third district 4d.; fourth district 4½d.; fifth district 5d.

MARKET TOLLS.—Beef, per quarter, 2d.; Calf, Sheep, Hog, Goat, Lamb, Kid, or Sheat 2d.; Tub, Pail, or Jar of Butter, 1½d.; Firkin, 3d.; every 10 lbs. of Roll Butter, 1d.; Cheese, 1d.; load of Potatoes under 15 bushels, 3d.; ditto over 15 bushels, 6d.; load of Oysters in shell or tub, 6d.; Turkey, Goose, or dozen of Pigeons, 1d.; pair of Ducks, Fowls or Partridges, 1d.; bag of Flour, Meal, Oats, Peas, or Beans, 1d.; Ham or Shoulder, 1d.; Eggs, per 10 dozen, 1d.; and all other articles in like proportion.

FISH MARKET DUES.—For every Salmon, 1½d.; Codfish, Pollack, Bass, or Shad, each 1d.; Halibut, not exceeding 20 lbs. 1d.; exceeding 20 lbs., and for every 20 lbs., 1d.; every Lobster, 1d.; dozen of Haddock, 1½d.; every 100 of Gaspereaux, Alewives, Herrings, or other small fish, 1½d.

TIME FOR GOING THROUGH THE FALLS.—(near Saint John.)—The Falls are level or still water at about three and a half hours on the flood, and about two and a half on the ebb, so that they are passable four times in twenty four hours, about ten or fifteen minutes each time. No other rule can be given, as much depends on the floods in the River Saint John, and the time of high water or full sea, which is often hastened by high winds, and in proportion to the height of them.

Blest opening of another year!
 Thy cheerful sounds dispel the fear
 That presses down my soul;
 When launching on an unknown sea,
 That skirts a near eternity,
 I see the billows roll,
 How long my joys may ebb; my woe—
 How high its rising tide may flow,
 I leave to Thy command:
 This, this shall silence all my fears,
 In bliss or grief, in smiles or tears,
 My times are in Thy hand.

FEBRUARY.

The trees have lost their verdure fair,
 Their branches, no more green,
 Are waving to the winter breeze,
 Where song-birds oft were seen!
 The morn comes not with early dew,
 The day no sun doth bring;
 But cheer thy heart sweet modest flower,
 We'll all come out in Spring!
 Then music shall awake the grove,
 And joy shall light the glen,
 And all the band of buried flowers
 Shall blossom forth again!
 The earth is now a wilderness,
 And darkness reigns as king,
 But cheer thy heart sweet modest flower,
 We'll all come out in Spring!

Oh! 'tis pleasant to look to the coming spring,
 While the winter winds are blowing;
 When the flowers shall bud, and the sweet birds sing,
 On the bough into beauty growing,
 When the snow-drop, pretty nua-like flower,
 And the violet dainty fairy,
 Like a maiden coy, in her wintry bower,
 And the primrose sweet and chary,
 Above the withered leaves shall show—
 Oh! then is the time through the woods to go.

APRIL.

Not yet, frail flower! thy charms unclose;
 Too soon thou ventur'st forth again;
 For April has its Winter-rain,
 And tempest-clouds, and nipping snows.
 Too quickly thou uprear'st thy head;
 The northern wind may reach thee still,
 And injure—nay, forever kill
 The charming white and lovely red.
 And thou perchance too late will sigh,
 That at the first approach of Spring
 Thou mad'st thy bud unfold its wing,
 And show its blush to every eye.

All things are new—the buds, the leaves,
 That gild the elm tree's nodding crest,
 And even the nest beneath the leaves,
 There are no birds in last year's nest.
 All things rejoice in youth and love,
 The fullness of their first delight,
 And learn from the Heavens above
 The melting tenderness of night.
 Maiden that readest this simple rhyme,
 Enjoy thy youth it will not stay,
 Enjoy the fragrance of thy prime.
 For it is not always May!

We pass out from the city's feverish hum
 To find refreshment in the silent woods,
 And Nature which is beautiful and dumb,
 Like a cool sleep upon the pulses broods.
 Yet, even there, a restless thought will steal
 To teach the indolent heart it still must feel.
 Strange, that the audible stillness of the noon,
 The waters tripping with their silver feet,
 The turning to the light of leaves in June,
 And the light whisper as their edges meet—
 Strange that they fill not with their tranquil tone
 The spirit walking in their midst alone.

At length the sun doth hasten to repose,
 And all the vault of heaven is streak'd with light;
 In flamy gold the ruddy welkin glows,
 And for the noonday heat our pains doth quite,
 For all is calm, serene, and passing bright.
 Favonius gentle skims along the grove,
 And sheds sweet odours from his pennons light:
 The little bat in giddy orbs doth rove,
 And loud the screechowl shrieks to rouse her blue-eyed love.
 Menalca came to take the evening gale,
 And won each damsel with his piteous tale.

We gather them in—the bright green leaves,
 With our scythes and rakes to-day,
 And the mow grows big, as the pitcher heaves
 His lifts in the sweltering hay.
 O ho! a field! for the mower's scythe,
 Hath a ring as of destiny,
 Sweeping the earth of its burden lithe,
 As it sings in wrathful glee.
 We gather them in—the nodding plumes
 Of the yellow and bended grain,
 And the flash of our sickles' light illumines
 Our march o'er the vanquished plain.

SEPTEMBER.

[1858.]

Anon we come with the steed-drawn car—
 The cunning of modern laws,
 And the acres stoop to its clanging jar,
 As it reeks its hungry jaws.
 We gather them in—the mellow fruits
 From the shrub, the vine, and tree,
 With their russet, and golden, and purple suits,
 To garnish our treasury,
 And each hath a juicy treasure stored
 All aneath its tinted rind,
 To cheer our guests at the social board,
 When we leave our cares behind.

Borne by the restless winds along,
 Where the sorrowful woodland grieves,
 Hither and thither a fitful throng,
 Merrily dance the autumn leaves,
 Upward they mount to the murky sky,
 Downward they plunge to the earth below ;
 Now in a giddy whirl they fly,
 Now in a madcap chase they go.
 Tinkling gaily their feet advance
 Over the graves in thoughtless glee ;
 And the music to which they dance—
 Hark ! 'tis a dirge's melody !

NOVEMBER.

[1858.]

Onward merrily still they go
 Through the wood and over the wave,
 Till they find in the wintry snow,
 Chilly and dark their lonely grave.
 Borne by the tempter's power along,
 Whils kind Heaven in pity grieves,
 Giddily pass the human throng,
 Thoughtlessly as the autumn leaves.
 Upward they mount in fancies high,
 Downward they plunge in pleasures low;
 Now in the passions' whirl they fly,
 Now in Ambition's chase they go.

The Spring is all deceit and show,
 Like the bright morning of our youth;
 The Autumn, with its look of woe,
 Tells but the melancholy truth.
 Where are the morning dreams of life?
 Youth's Spring-time buds, the flowers, where
 Ask of yon withered form, yet rise.
 With hope, tho' worn by woe and care.
 The flowers of Life thus fast shall fade,
 And wintry Age as soon steal on;
 Our sunshine change to gloom and shade,
 An instant seen, then ever gone.

John Owens, William O. Smith, William H. Scovil, John M. Robinson, and John Doherty, Esquires; S. D. Berton, Sec'y. and Treasurer.

EMIGRANT DEPARTMENT.

ST. JOHN.—Moses H. Perley, Esquire, Her Majesty's Emigration Officer; Thos. M'Avity, Esq., Assistant do. _____, Esquire, Acting Emigration Officer at Saint Andrews. The Deputy Treasurers at the other Ports of the Province act as Emigration Officers.

CONSULS AND AGENTS.

James W. Wolhaupter, Esquire, French Vice Consular Agent at Miramichi.

W. B. S. Moore, Esquire, United States Consul General for the British Colonies; Collins Whittaker, Esquire, United States Consul at the Port of Saint John and dependencies; *United States Consular Agents*—Thomas Jones Esquire, Saint Andrews; Francis Hibbard, St. George; James Porter, St. Stephens; William J. Frazer, Esquire, Miramichi; Charles S. Theal, Esquire, Shediac; Andrew Barbarie, Esquire, Dalhousie.

Edward Allison, Esquire, Portuguese Consul General for New Brunswick,

A. C. O. Treatowsky, Esquire, Prussian Consul in New Brunswick.

COUNSELLORS AND ATTORNIERS PRACTISING IN THE PROVINCE

Fredericton.—Hon. John A. Street, Daniel L. Robinson, William End, George J. Dibblee, William Hazen Needham, Geo. F. H. Minchin, Charles Fisher, George Botsford, Francis A. H. Straton, John C. Allen, George N. Segee, James P. Wetmore, James F. Berton, Edward H. Wilmot, Edward W. Miller, Bernard C. Friel, Henry B. Robinson, John J. Fraser, Edward B. Fisher, John L. Marsh, Jr., and James Taylor, Jr., Esquires.

Saint John.—Hon. William B. Kinnear, Robert F. Hazen, William Wright, Peter Stubbs, Horatio Nelson H. Lugin, John. M. Robinson, Moses H. Perley, Hon. Robert L. Hazen, John Johnston, James W. Boyd, Wm. Jack, Duncan Robertson, David S. Kerr, Hon. John H. Gray, James W. Peters, Robertson Bayard, Wm. R. M. Burtis, Edw. B. Peters, Chas. Duff, Jas. A. Harding, Gustavus R. Jarvis, James J. Kaye, Andrew R. Wetmore, George F. Rouse, William M. Howe, Chas. Doherty, Humphrey T. Gilbert, B. Boyd Kinnear, John G. Campbell, Charles A. Hartt, Nelson DeVeber, Richard Sands Armstrong, Charles Watters, George Blatch, Ward Chipman Drury, W. H. Hatheway, Henry W. Frith, Wm. Hutchinson, Benjamin L. Peters, Charles W. Stockton, Geo. G. Gilbert, Junior, John Simonds, Samuel R. Thomson, Frederick C. Frith, Robert B. Street, Benjamin G. Gray, Lewis J. Almon, Charles W. Weldon, Alexander Ballentine, Hurd Peters, William P. Dole, Beverley Robinson, Junior, Thomas T. Hanford, W. H. Tuck, Wm. W. Street, and Wm. Wedderburn, Esquires.

Saint Andrews.—Samuel H. Whitlock, Jas. W. Chandler, Richard M. Andrews, George Dixon Street, Wellington Hatch and Alexander Thompson Paul, Esquires.

Miramichi.—Thomas H. Peters, George Kerr, Edward Williston, John M. Johnson, Allan A. Davidson, Samuel Thomson, William Wilkinson, and James Fraser, Esquires.

Dorchester.—Hon. Edward B. Chandler (*Queen's Counsel*), T. S. Sayre, Robert K. Gilbert, A. L. Palmer, Albert J. Smith, Chas. J. Sayre, and Joseph L. Moore, Esquires.

Sackville.—Christopher Milner, Junior, Esquire.

Bend of Petitcodiac.—Bliss Botsford, Jas. Steadman, and Edw. B. Chandler, Junior, Esquires.

Bay Verte.—Thomas C. Chapman, Esquire.

Hopewell.—S. G. Morse, M. B. Palmer, and T. B. Moore, Esqs.

Bathurst.—T. DesBrisay, and D. G. Maclauchlan, Esquires.

Dulhousie.—Andrew Barberie, and Charles Simonds, Jr. Esqs.

Campbelltown.—Chipman Botsford, and Jas. S. Morse, Esquires.

St. Stephens.—George Stilman Hill, Stephen R. Hitchings, T. B. Abbott, George Thomson, James G. Stevens, George S. Grimmer, and George Frederick Hill, Esquires.

Richibucto.—Hon. John W. Weldon, James A. James, Robert Hutchinson, and Thomas W. Bliss, Esquires.

Saint George.—Wm. B. Chandler, and W. Cameron, Esquires.

Gagetown.—T. R. Wetmore, and Samuel H. Gilbert, Esquires.

Kingston.—Edward B. Smith, Esquire.

Hampton.—George Otty, and Norval Hallett, Esquires.

Canning (Queen's County). James R. Curry, Esquire.

Sussex Vale.—Theophilus D. McElmen, Esquire.

Woodstock.—A. K. Smedes Wetmore, A. Nelson Garden, David Lewis Dibblee, Lewis Peter Fisher, George Connell, Edwin J. Jacob, A. M., and John C. Winslow, Esquires.

Grand Falls.—Wm. T. Wilmot, Andrew W. Rainesford, and W. M. Maclauchlan, Esquires.

Oromocto.—George J. Bliss, Esquire.

Burton.—William J. Gilbert, Esquire.

PROVINCIAL MILITIA.

STAFF.

His Excellency Hon. JOHN HENRY THOMAS MANNERS SUTTON,
Commander in Chief.

Lieutenant Colonel R. Hayne (*N. B. Regiment of Artillery*), Adjutant
General—20th May, 1851.

Capt. Geo. F. H. Minchin, Deputy Adjutant General—July, 1856.

Lieut. Colonel John Allen, Quarter Master General—4th May, 1839.

Lieutenant Colonel Charles Drury, Deputy Quarter Master General,
18th June, 1847.

Lieutenant Colonel Hayne (*N. B. Regiment of Artillery*), Provincial
Aid-de-Camp—11th April, 1848.

Lieutenant Colonel Charles Drury (*Saint John City Light Infantry*),
Provincial Aid-de-Camp—11th April, 1848.

Captain Beverley A. Robinson, (*York Light Dragoons*), Provincial
Aid-de-Camp. July, 1856.

Major the Honorable Lemuel Allen Wilmot, Judge Advocate Gene-
ral—6th August, 1834.

STAFF OF THE ARMY.

SERVING IN THE PROVINCE OF NEW BRUNSWICK, UNDER
Major General His Excellency Sir John Gaspard LeMARCHANT,
Commanding Her Majesty's Troops in Nova Scotia, New Brun-
swick, Prince Edward Island, and their Dependencies.

Lieut. Colonel Lloyd, 76th Regiment, Commanding Her Majesty's
Troops in New Brunswick.

Garrisons.—Saint John, Lieut. Col. Gardner, 76th Regiment, Com-
manding; Town Major, Lieut. Jones, (H. P. 97th Regt.) Frederic-
tion, Lieut. Colonel Lloyd, 76th Regiment, Commandant; Lieut.
James C. Clarke, 76th Regiment, Town Adjutant.

Chaplains.—Fredericton, Rev. Mr. Coster; St. John, Rev. —
—; Saint Andrews, Rev. Jerome Alley, D. D.

Commissariat Department.—Saint John, E. J. McMahon, Esquire,
Assistant Commissary General; Mr. Prissick, First Clerk; U. C.
Poultney, Commissariat Issuer; Henry Marshall, Office Keeper.
Fredericton, — Turnbull, Deputy Assistant Commissariat General;
— Smith, Treasury Clerk; Serjt. Fisk, Commissariat Issuer.

Military Store Department.—Saint John, W. H. Tapp, Esq., Mil-
itary Storekeeper; Mr. Huyghue, First Clerk; James Emison, Store-
houseman; Frederick Harrison, Armourer; William Smith, Office
Keeper.

Barrack Department.—Saint John, George Priestley, Esquire, Bar-
rack Master; James Sage, Barrack Sergeant; Fredericton, John E.
Woolforde, Esquire, Barrack Master; John Edwards, Barrack Ser-
geant. Saint Andrews, A. White, Barrack Sergeant.

Royal Engineer Department.—Saint John, Captain Freeth, Com-
manding; Edward Lloyd, Clerk; Mr. Grant, Clerk of Works; Mr.
Wright, Foreman of Works.

Medical Department.—Saint John, Assistant Surgeon Fraser, 76th
Regiment; Staff Assistant Surgeon Semple; Mr. Lonsdali, Par-
veyor's Clerk.

Board of Respective Officers.—Saint John, Capt. Freeth, R. E.; Mr.
Tapp, Military Storekeeper; Capt. F. Carey, R. A.

OFFICERS OF CORPS SERVING IN THE PROVINCE.

Royal Artillery.—Saint John, Capt. F. Carey, Commanding; Lieut.
R. B. Webster.

76th Regiment, Fredericton.—Lieut. Colonel Clark, Commanding;
Lieut. James C. Clarke, Town Adjutant.

76th Regiment, Saint John.—Lieut. Col. Gardner, Commandant;
Capts. T. Fydd, T. W. Cator, H. H. Lacy, J. F. Bland; Lieutenants
C. E. O'Connor, C. T. Caldicott, E. W. F. Acton, J. A. Palliser,
G. E. Cocrane, J. B. Sawyer, and D. T. Arnoldi.

AGRICULTURAL.

RURAL LIFE.—The occupations and pleasures of rural life have ever been the themes upon which poets and writers of exuberant imaginations have delighted to dwell, but that there is something more substantial even than in the brilliant and fanciful pictures drawn by these individuals, and that their prototypes have real existence in nature, witness the expressions of pleasure with which the feeble, emaciated, and enervated resident of the city, tearing himself from the murky atmosphere, the noisome smells, and the putrid exhalations of its pent up streets, leaving behind him its excitements, its dissipation, and artificial life, after a long interval finds himself in the diversified scenery of a beautiful and romantic country. His seeing, his hearing, his smelling, his tasting, his touch, all find employment. Every sense is gratified; his whole system, mental and corporeal, seems inspired with new vigor. We cannot add a more forcible illustration of the healthful and agreeable influence of rural pursuits, than by introducing some remarks of an ancient writer, who enters upon the subject with the feelings of one whose whole soul is evidently enlisted in what he describes:

“Moreover, it (husbandry) furnishes us with beautiful flowers and other excellent materials for the ornament and decoration of the temples and altars, affording the richest gayety and most fragrant odors. What science is more agreeable to a studious man; for he finds in it every thing he can have occasion for. Where can we abide with greater pleasure in summer, than near rivers, lakes, springs, woods, groves and fields, where gentle breezes fan the air? Where may a man treat his guests more agreeably, or make more triumphant banquets? What place do servants delight in more? Or, what other is more agreeable to his wife? Where do children covet more to be? or where are friends better received, or better satisfied? There is no science in our mind, more delightful than this, if a man has a convenient substance to put him to work; nor any business more healthful or profitable to a man if he have skill and industry.”

AGRICULTURAL CHEMISTRY.—I feel and know, that merely to know a thing is not enough to secure that we do it, and that only a new generation is fitted to promote the real progress of science. After a few decades, matters will be otherwise. The old, deep rooted errors, always act as obstacles, which are stronger and more powerful than a new truth. That which a man seeks, he can ultimately find only on one road, and that the true one; and if he obstinately follows another path, which must be a wrong one, how can he hope to reach the goal? Let the able and excellent teachers of agricultural chemistry keep up the courage necessary to ultimate success. For man, in reference to mental food, is exactly like a plant; as the plant must receive its food, not concentrated, but infinitely diluted with water if it is to thrive—so it is with the mind of man. An abstract truth only acts upon the senses and feelings when it is presented to them properly diluted, turned on

every side, and inside out, dressed, adorned, painted, and finally it resembles the germinating seed of a tree which the wind or a bird has carried into a cleft of a rock. There lies in it, as in the seed, a wonderful organic force, which gradually conquers all obstacles, as the roots of the seed when it has become a tree can cleave or raise the heaviest rock, and, as the old proverb says, "all without noise;" for that which grows makes no noise.

ON TRANSPLANTING TREES.—The proper season for transplanting varies with different cultivators. Many prefer autumn planting, and the reason they give for their preference is this: when trees are planted in autumn, they say the ground becomes better settled about the roots of the tree, and they are then enabled to throw out fibres in the spring. I greatly prefer spring planting for nearly all varieties of trees, for this reason: if planted in the fall, very soon after setting out, the trees have the heavy fall rains, which renders the loose earth around the tree a perfect mortar, and the wind then blows the tree to and fro, making a circle or halo around the tree externally about three inches from the trunk, all around, which freezes hard at night, and presents in the morning a rocky wall around the tree, and as the hole is about six inches larger than the collar of the tree, it chafes off the bark around at the collar, and unless some manure is placed by it, the frost will extend down around the tree and freeze the small roots. The season for planting on the banks of the Hudson, varies from the first of November to the first of December for autumn planting, and from the first of April to the fifteenth of May for spring planting. I, for many reasons, do all my planting in the spring, except for apple trees, and as they are so very hardy, autumn planting will answer full as well, or perhaps better for that tree.

The following brief rules may be some guide to those who have not had any experience in setting out trees:—1st. Never plant a tree unless the ground has been well pulverized. To plant trees in holes as many persons do, is almost fatal to their growth. 2d. Deep planting is a great error in this country, and more trees die from this than any other cause. They may thrive for a year or two, but soon die, and apparently without any cause. The fibrous or surface roots should not be more than an inch and a half or two inches below the surface of the ground. 3d. Commence planting by taking out the earth to a foot or more in depth, and of a sufficient width to admit all the roots without crowding, bending or breaking them. If the soil is poor, compost, well decayed, rotten manure, wood ashes, or a little lime, (if the tree planted is apple or pear) may be thrown advantageously into the bottom of the hole below the roots. Then fill in among the roots with earth well mixed with fine compost manure, using the hand to scatter it well among the smallest fibres, and do not leave any large holes under the tree to act as miniature cisterns. 4th. Before planting, prune all the roots that have been injured in removal with a sharp knife, but do not cut them off with a dull spade, as many do; shorten such roots as are too long, and take out those that are too much crowded; avoid injuring or cutting any of the small fibres.

WORK SHOPS AND STORMY DAYS.—Every farmer who has boys should provide them a work-shop. It may be a building erected on purpose, or else partitioned off from the carriage-house, corn-house, or other out-building. Let it be neatly made, and not unpleasantly situated, for it should be attractive and not repulsive to those for whom it is intended. It should be tight, and furnished with a small stove, so as to be comfortable in the winter. It should be provided with a work-bench and vice, a shaving horse for using the drawing-knife, and perhaps a small foot-lathe. The two latter are convenient but not essential. The tools should be two or three planes, augers of different sizes, a few chisels, a brace bit, drawing-knife, saw and hammer. A small part of these will answer, and others may be added; the cost of the tools varying from five to twenty-five dollars.

Such a work-shop will afford several important advantages. The greatest is the assistance it will render the cause of *practical education*. The best inheritance any man can leave his children, is, not wealth to support them, but *the ability to help and take care of themselves*.

THE SOURCE OF FAT IN ANIMALS.—During the course of the past year, experiments have been made in France to prove that the fat of animals exceeded the quantity which could be referred to the food they were supplied with. The chief experiment was made on ducks. Some were fed on rice, a substance which contains only a few parts of fat in the thousand. Others were fed on rice with a certain amount of butter added. At the end of the experiment, the first were as lean as when first placed upon the diet; the latter, in a few days, became positively balls of fat. Other experiments were made on pigs. It was found, as the result of several trials, that there was more fat produced than was contained in the food on which they were fed, and that pigs fed six months on potatoes yielded no more fat than was contained in the food they consumed. Food which, given alone, has not the properties of fattening, when mixed with a fatty matter acquires the property to an astonishing degree; and fattening articles of food, which do not contain much fat, always abound with its chemical constituents, the principal of which is azote, and from whence the fat acquired is certainly derived.

ADVICE TO YOUNG FARMERS.—Allow me to say, to young farmers especially: Let us be studious and inquisitive, as well as laborious; let us be simple and frugal in our habits; avoid useless expenditures; leave fine dresses and fast horses, and showy dwellings to those who really need such things to recommend them. Let us ever remember that for health and substantial wealth, for rare-opportunities, for self-improvement, for long life and real independence, farming is the best business in the world.

BRUISED OATS FOR HORSES.—An individual who has their feeding horses on whole and on bruised oats, states, that a horse fed on bruised oats will look and work as well as one fed on double the same quantity of oats not bruised.

MISCELLANEOUS.

LABOUR THE SOURCE OF PROSPERITY.—You should bear constantly in mind that nine-tenths of us are, from the very nature and necessities of the world, born to gain our livelihoods by the sweat of the brow. What reason have we, then, to presume that our children are not to do the same? If they be, as now and then one will be, endowed with extraordinary powers of mind, those powers may have an opportunity of developing themselves; and if they have not that opportunity, the harm is not very great to us or to them. Nor does it hence follow that the descendants of labourers are always to be labourers. The path upwards is steep and long, to be sure. Industry, care, skill, excellence, in the present parent, lay the foundation of a rise, under more favourable circumstances, for the children. The children of these take another rise, and by and by the descendants of the present labourer become gentlemen. This is the natural progress. It is by attempting to reach the top at a single leap that so much misery is produced in the world; and the propensity to make such an attempt has been cherished and encouraged by the strange projects that we have witnessed of late years, for making the labourers virtuous and happy by giving them what is called education. The education which I speak of consists in bringing children up to labour with steadiness, with care, and with skill; to show them how to do as many useful things as possible; to teach them to do all in the best manner; to set them an example in industry, sobriety, cleanliness and neatness; to make all these habitual to them, so that they never shall be liable to fall into the contrary; to let them always see a good living proceeding from labour, and thus to remove from them the temptations to get at the goods of others by violent or fraudulent means.

HOW RAIN IS FORMED.—To understand the philosophy of this phenomenon, essential to the very existence of plants and animals, a few facts derived from observation and a long train of experiments must be remembered. Were the atmosphere everywhere, at all times, at a uniform temperature, we should never have rain, hail, or snow. The water absorbed by it in evaporation from the sea and the earth's surface would descend in an imperceptible vapour, or cease to be absorbed by the air when it was once fully saturated. The absorbing power of the atmosphere, and consequently its capability to retain humidity, is proportionably greater in warm than in cold air. The air near the surface of the earth is warmer than it is in the region of the clouds. The higher we ascend from the earth the colder we find the atmosphere. Hence the perpetual snow on very high mountains in hottest climates. Now, when from continued evaporation the air is highly saturated with vapor, though it be invisible, if its temperature is suddenly reduced by cold currents descending from above, or rushing from a higher to a lower latitude, its capacity to retain moisture is diminished, clouds are formed, and the result is rain. Air condenses

as it cools, and, like a sponge filled with water and compressed, pours out the water which its diminished capacity cannot hold. How singular, yet how simple, is such an arrangement for watering the earth?

THE MIND THE STANDARD.—A visitor going into a free school in New England during the half-yearly examination, noticed two fine looking boys, one of whom had taken the first prize, and the other the second. "Those are two fine looking fellows," said he to the teacher; "I suppose they belong to the highest class of society." "That is not the way we class our boys," said the teacher, "we follow the old maxim of 'handsome is, that handsome does.' The boy who took the first prize is the son of the man who saws my wood; the boy who took the second is the son of a Vice-President of the United States."

EDUCATION.—Of the two, a thorough collegiate education, with advantages of a European tour, and the being taught to read the Bible by a pious mother and there stop, we have no hesitation in our own mind, in choosing the latter for every child of ours, if we had the option of but one of the two, and would feel an infinitely greater confidence that those children, whether boys or girls, would grow up to be independent, useful, and solid members of society.—*Hull's N. Y. Journal of Health.*

CITY AND COUNTRY SPRING.

COUNTRY.

I bring the flowers—the bright and graceful flowers—
The fresh and fragrant flowers, that scent the morning air.
I've the snowdrop peeping chilly, with the valley's drooping lily,
For the bride to twine a wreath of, to deck her golden hair.

CITY.

And I bring the bonnet—the tasty little bonnet—
The airy, jaunty bonnet, with its streamers long and fair;
And the pretty girls that don it, and the Paris blossoms on it,
Far outlast your fleeting beauties, that would fade if they were there.

COUNTRY.

I bring the birds—the gay and joyous birds—
The proud rejoicing birds, with their carols loud and high;
And they swell their little throats, as they trill in merry notes,
And smooth their plumage down, for a voyage through the sky.

CITY.

My birds are soaring kites—not chicken-eating kites—
But pleasure-giving kites, that our jolly boys let fly;
And I'll bet a silver shilling, if your ladyship is willing,
That their tails are longer far, and their colors full as high.

COUNTRY.

Nay, 'tis I who bring the sports—the children's lively sports—
The noisy, healthful sports, on kind nature's grassy floor;

Rolling hoops and bounding balls, in my vast and roofless halls,
Give far more life and gladness than your pavements ever bore.

CITY.

Is it you who talk of hoops? Surely, I have monstrous hoops—
Yes, vast, encroaching hoops—ladies wearing each a score.
We've had our balls already—it's time now to grow steady;
But wait till Lent is over, and I'll give you one ball more.

COUNTRY.

I bring the leaves—the young and tender leaves—
The green and fluttering leaves, waving through the forest old,
Reviving mother earth, who rejoices at their birth,
And clothing with new verdure, branches stripped by winter
cold.

CITY.

And I bring the dresses—the exquisite spring dresses—
The lovely, perfect dresses, formed in fashion's newest mould;
And they trail along the ground, with a dignity profound,
And still return to dust again, 'mid mortal things enrolled.

TOGETHER.

But we both bring the hearts—the kind and gentle hearts—
The brave and loving hearts, with a faith serene and clear,
That in ever-blooming youth, by the light of trust and truth,
Are constant as the seasons, moving through their earthly sphere.
And the winter cannot chill them, nor summer's parching kill
them,
Nor autumn's faded leaf be of them the type austere;
But, with beauty ever vernal, in a spring of joy eternal,
We shall see them bud and blossom through the soul's un-
changing year.

TO MARY.

Come forth with me this beauteous morn,
And breathe the fragrance of the blossoming May,
Where dew-enamelled flowrets dawn,
With freshened vigor for the unfolding day.

Sweet-nodding violets lift with grace,
The curtained fringe which screens from envious eye,
Their golden and empurpled face,
That to the whispering winds breathes forth a sigh.

List to the carol of yon lark,
That with upspringing joyousness doth soar
To roseate-tinted skies, whose mark
Is left o'er hill and dale and lordly tower.

What melody is there on earth,
Like the clear heaven-born gushings from the heart,
Which in continuous joy spring forth,
And to the world-worn bosom peace impart.

Delightful Nature! may the bliss
Be mine of loitering hand in hand with thee,
Where 'neath thy shades I may dismiss
All thoughts save Heaven and immortality.

A CRUST FOR CORMORANTS.—Doctor Paley happened to be at Cambridge, when Mr. Pitt first made that university a visit after he was prime minister. Some of the heads of houses applied to Dr. Paley to preach in St. Mary's Church; he replied, that he should have no objection to preach, if they did not object to his text. "That," they observed, "must be impossible." But they desired to know the text he would prefer. "I shall preach said he from these pertinent words: 'There is a lad here who has five loaves and two small fishes—but what are they *among so many?*'"

LIGHTNING CONDUCTORS.—There being no dispute about the perfect safety of conductors to life and property, the only questions to be considered are, which are the safest and cheapest? There is no person familiar with the subject who will not say that soft iron rods in one continuous length, projecting to a sufficient height above the highest point of a building, and terminating in a well or cess-pool, or in damp earth, are the best electrical conductors known. Now, instead of erecting a single rod from the centre of the building, and running over the roof, with fancy points and coloured insulators, such as are hawked about and sold at high prices, put up as many as you have chimneys at least, and one at each gable end or high projecting point of every out-building. To do this cheaply, purchase a coil of quarter-inch iron wire, and as many small staples as may be required; saw off as many pieces of bone of proper length and size, with a hole of suitable dimensions for the wire to pass through, and with a ladder and the help of one man, a person of ordinary ingenuity can put up a dozen rods in half a day, at a cost of *one cent a foot*. Who will run the risk of life and property, when perfectly safe conductors can be erected for less than a dollar a piece, including the cost of putting them up?

GLUE IN BONES.—Bones contains from 30 to 36 per cent. of earthy matter, chiefly phosphate of lime, and the remainder is gelatine. When bones are digested in muriatic acid, they become transparent and flexible like leather, the earthy matter is dissolved, and after the acid is all carefully washed away, pieces of glue of the same shape as the bones remain, which are soluble in hot water, and adapted to all the purposes of ordinary glue.

A QUEER 'TRIAL OF SPEED.'—A bet was recently made in France between two farmers about the speed of horses and oxen, with the same load and same distance; the distance travelled was 23 kilometres, (about 12 miles,) a four-horse team was put into a wagon loaded with 10,000 lbs. of beet-root pulp. The oxen were two yoke with the same load. The horses beat them only seven minutes, and would themselves have been beaten had they not been the best in the country. Time 2h. 6m.; 3h. 13m.

THE DOCTOR SETTLED.—Dr. Radcliffe had a great objection to paying his bills. A pavier, after long and fruitless attempts to get his accounts settled, caught Dr. R. just getting out of his chariot, at his own door, in Bloomsbury Square, and demanded the liquidation of the debt.

“Why, you rascal,” said the Doctor, “do you pretend to be paid for such a piece of work? Why, you have spoiled my pavement, and then covered it over with earth to hide your bad work.”

“Doctor,” said the pavier, “mine is not the only bad work the earth hides.”

“You dog, you,” said Radcliffe, “are you a wit? You must be poor—come in, and you shall be paid.”

☞ A burial society has been recently commenced in New York, the first printed article of which runs thus:—“That, whereas many persons find it difficult to bury *themselves*.”

☞ A question was raised in one of our Courts whether a blind man can be made liable for a bill at sight. The lawyers are puzzled.

☞ Nature makes us poor only when we want necessaries, but custom gives the name of poverty to superfluities.

MET AT EVERY TURN.—“I say boy, stop that ox.” “I hav’nt got no stopper, sir.” “Well, head him then.” “He’s already headed, sir.” “Confound your impertinence, turn him.” “He’s right side out already, sir.” “Speak to him, you rascal you.” “Good morning, Mr. Ox.”

TO PRESERVE STAIR CARPETS.—Stair Carpets should always have a slip of paper put under them, at and over the edge of every stair, which is the part where they first wear out, in order to lessen the friction of the carpets against the boards beneath. The strips should be within an inch or two as long as the carpet is wide, and about four or five inches in breadth, so as to be a distance from each stair. This simple plan, so easy of execution, will, we know, preserve a stair carpet half as long again as it would last without the strips of paper.

A CURE FOR SORE BACKS OF HORSES.—The best method of curing sore backs, is to dissolve half an ounce of blue vitriol in a pint of water, and daub the injured parts with it four or five times a day.

TO MAKE A SICK HORSE DRINK FREELY.—A horse has a very sweet tooth. When he be unwell and wont drink, mix molasses or coarse brown sugar in the water; he will then drink freely.

TO MAKE COTTAGE PUDDING.—1 pint of flour, 2 teaspoonfuls of cream tartar, 1 teaspoonful soda, 3 teaspoonfuls melted butter, 1 cup of sugar, 1 cup of sweet milk, 1 egg. Mix all together and beat it a little while. Grease a dish, put it in and bake *half an hour*. Turn it out and serve with wine sauce.

DOUGHNUTS.—2 quarts of flour, $\frac{1}{2}$ a tea-cup of butter, 2 cups of sugar, 2 tea-spoonfuls of cream tartar, 1 teaspoonful soda, 2 eggs, and enough sweet milk to mix well.

A NATURAL DENTRIFICE.—The common strawberry is a natural dentrifice, and its juice, without any preparation, dissolves the tartareous incrustations on the teeth, and makes the breath sweet and agreeable.

GREASE SPOTS.—The following method of removing grease and oil spots from silk and other articles, without injury to the colours, is given in the *Journal des Connaissances Usuelles*:—Take the yolk of an egg and put a little of it on the spot, then place over it a piece of white linen, and wet it with boiling water; rub the linen with the hand, and repeat the process three or four times, at each time applying fresh boiling water: the linen is to be then removed, and the part thus treated is to be washed with clean cold water.

CRULLERS.— $\frac{3}{4}$ of a cup of butter, 2 cups sugar, 1 cup sweet milk, 4 eggs, $\frac{1}{4}$ a teaspoonful of soda, a little nutmeg and salt, enough flour to mix well.

CORN CAKE.—1 pint of Indian meal, 1 pint sweet milk, 2 table-spoonfuls of melted butter, 2 eggs, 1 teaspoonful of cream tartar, 1 teaspoonful of soda, and a small handful of sugar.

GINGER SNAPS.—1 cup butter, 1 cup lard, 1 cup sugar, 2 cups molasses, 1 small tablespoonful saleratus, 1 small tablespoonful ginger; they require considerable flour. Roll them out very thin and bake quickly.

SHREWSBURY CAKE.—Sift 1 pound of sugar, some pounded cinnamon, and a nutmeg grated, into 3 pounds of flour. Add a little rose water to 3 eggs well beaten, mix them with the flour, then pour in as much butter melted as will make it a good thickness to roll out.

GINGER CAKE.—Take 3 lbs. of flour, 1 lb. of sugar, 1 lb. of butter rubbed in very fine, 2 ozs. of ginger, a little nutmeg, a pint of molasses, a gill of cream; make them warm together, and bake them in a slack oven.

GINGERBREAD.—Take $1\frac{1}{2}$ lbs. of flour, $\frac{1}{4}$ lb. of sugar, $\frac{1}{4}$ lb. of butter, well rubbed together; 1 oz. of ginger, a few carraway seed, 24 allspice, 12 cloves, a little cinnamon, 1 pint of molasses. Knead well.

PUFF PASTE.—Take $1\frac{1}{4}$ lb. of flour, and 1 lb. of butter; divide the butter into 4 equal parts; mix $\frac{1}{4}$ th part of the butter with $\frac{3}{4}$ ths of the flour; and work the remainder of the flour and butter in.

ELECTION CAKE.—Take 5 lbs. flour, 2 lbs. sugar, $\frac{3}{4}$ lbs. butter, 6 eggs, yeast, 1 pint of milk, and spice as you please.

SUGAR CAKE.—Take 1 lb. flour, $\frac{3}{4}$ lb. sugar, $\frac{1}{4}$ lb. butter, 5 eggs. Mix and drop them on tin, and put sugar sanded on them, just as you put them into the oven, or frost them.

CUP CAKE.—Take 3 cups of sugar, 1 cup of butter, 2 teaspoonfuls of pearlash, 3 eggs, 5 cups of flour; all beaten together with as much spice as you please.

A TABLE
For Foretelling the Weather through all the Lunations of each Year forever.

FORMED BY DR. HERSCHELL, AND REVISED BY DR. ADAM CLARKE.

This table and the accompanying remarks are the result of many years actual observation, the whole being constructed on a due consideration of the attraction of the sun and moon, in their several positions respecting the earth, and will by simple inspection shew the observer what kind of weather will most probably follow the entrance of the moon into any of its quarters, and that so near the truth as to be seldom or never found to fail

If the new moon, the first quarter, the full moon, or the last quarter, happens	IN SUMMER.	IN WINTER.
Between midnight and 2 in the morning,	Fair.	Hard frost unless the wind, s. or w.
2 and 4 morning,	Cold and showery	Snowy and stormy.
4 and 6, "	Rain.	Rain.
6 and 8, "	Wind and Rain.	Stormy.
8 and 10, "	Changeable.	Cold Rain, if the wind be w ; snow if e.
10 and 12, "	Frequent showers.	Cold, and high wind.
At 12 noon. and 2 p. m.	Very rainy.	Snow or rain
Between 2 and 4 p. m	Changeable.	Fair and mild.
4 and 6, evening.	Fair.	Fair.
6 and 8, "	Fair. if wind n. w.	Fair and frosty, if wind is n. or n. e.
	Rainy, if s. or s. w.	Rain or snow, if s. or s. w.
8 and 10, "	Ditto.	Ditto.
10 and midnight,	Fair.	Fair and frosty.

Observations.—1. The nearer the time of the moon's change, first quarter, full and last quarter, are to *midnight*, the fairer will be the weather during the seven days following.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon*, the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

5. The moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, i. e. from four to ten, may be followed by fair weather ; but this is mostly dependent on the *wind*, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of autumn, the whole of winter, and the beginning of spring, yet, in the main, the above observations will apply to those periods also.

7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be in sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

vinces, and Sold at as Low Prices.*

Hats and Caps made to order. Cash and
the highest Prices paid for Furs.

reet,

REMOVED.

GOLDEN BALL MARBLE WORKS,

WATERLOO STREET, SAINT JOHN, N. B.

F. W. CLEAR would respectfully inform the Public generally throughout the Provinces that he has removed his Marble Works from his old stand, at the Golden Ball Corner, to more enlarged premises on *Waterloo Street*, where he is prepared to carry on business on a more extensive scale, in the execution of MONUMENTS, TOMB TABLES, HEAD STONES, CENTRE TABLES, and every description of ORNAMENTAL WORK required in his line of business.

Purchasers would do well to call and examine the style of work and prices before purchasing elsewhere, as the subscriber has fitted up steam-power, by which he is enabled to sell at lower prices than such articles can be obtained in this City, or from the United States. Work and Stock Warranted.

REFERENCES.—Rev. William Armstrong, James Patterson, LL. D., and Rev. S. Robinson.

P. S.—The Golden Ball Marble Works on *Waterloo Street* is only four houses from his late place of business at the Golden Ball Corner.

Gentlemen's FURNISHING GOODS.

Particular attention paid to

CUSTOM WORK.

WARREN'S IMPROVED Fire and Waterproof ROOFING.

The Undersigned is prepared to contract for and put on the above named

ROOFING

AT THE SHORTEST NOTICE.

These Roofs have been in use in some parts of the States thirteen years, and have given perfect satisfaction. Where they have been used longest they are used most. They were introduced into this City little more than a year since, have stood the test of the winter, and proved to be all that they are recommended. The cost is about the same as that of the first quality of shingles. One inch to the foot is all the inclination required. They can be used for drying purposes without injury.

The Undersigned also keeps constantly on hand a quantity of

ROOFING FELT,

Which is far Superior to Tarred Paper

FOR SHEATHING PURPOSES.

☞ For reference or further particulars enquire of

FOR

SEARS' PICTORIAL WORKS,

Throughout the Provinces of

NEW BRUNSWICK AND NOVA SCOTIA.

☞ We feel anxious to introduce our "LARGE TYPE QUARTO PICTORIAL FAMILY BIBLE," with about 1000 Engravings, into New Brunswick and Nova Scotia, and trust you will order at least ONE COPY for your own family use. Hereafter all Books will be forwarded at New York Prices, wholesale and retail, direct from the Store of EDWARD SEARS, Esq., at Saint John, N. B., to whom all orders may be addressed. On the receipt of SIX DOLLARS he will forward one of the Bibles prepaid, or TWO COPIES for ELEVEN DOLLARS, with Subscription Books, Canvassing Circulars, &c, ☞ SUCH A WORK IN ENGLAND WOULD COST ABOUT THREE TIMES THIS SUM.

☞ ALL PERSONS IN WANT OF EMPLOYMENT will at once receive our CATALOGUE OF Books for the New Year, prepaid by forwarding us their address. Particular attention is requested to the liberal offers we make to all persons engaging in the sale of our Large Type Quarto PICTORIAL FAMILY BIBLE, with about ONE THOUSAND ENGRAVINGS. Our Books are sold only by canvassers, and well known to be the most saleable. Address, (post paid),

ROBERT SEARS,
PUBLISHER,
181 William Street, New York.

☞ An Elegant GIFT for a Father to Present to HIS FAMILY!

Price only SIX DOLLARS, well and substantially Bound.

BLE?
r Wife and

The following Work is destined, if we can form any opinion from the Notices of the Press, to have an unprecedented circulation in every section of our wide-spread continent, and to form a distinct era in the sale of our Works. It will no doubt, in a few years become THE FAMILY BIBLE OF THE AMERICAN PEOPLE:—

SEARS' LARGE TYPE QUARTO BIBLE,

FOR FAMILY USE, ENTITLED,

THE PEOPLE'S PICTORIAL DOMESTIC BIBLE;

BEING

The Old and New Testaments,
ACCORDING TO THE AUTHORIZED VERSION,

ILLUSTRATED WITH ABOUT ONE THOUSAND ENGRAVINGS,

REPRESENTING THE

Historical Events, Landscape Scenes, Antiquities, Costumes, Beasts, Birds, Insects, Plants and Trees, Coins, Medals, Inscriptions, from the most authentic Sources;

WITH FIFTY THOUSAND MARGINAL REFERENCES,

TO WHICH ARE ADDED

an ancient Chronology, by Abraham Calovius; a Summary of the whole Scripture; an accurate Copperplate Map of Palestine; a beautiful engraved Family Record, &c. &c.

EACH CHAPTER COMMENCES WITH AN ILLUMINATED LETTER.

The whole printed upon superior paper, and substantially and elegantly bound in the quarto volume of FIFTEEN HUNDRED PAGES.

The Text, together with the Marginal References, is printed from the standard edition of the American Bible Society.

* REGISTER your letters at the Post Office, and your money will come safe. Use the whole sheet when you inclose bills, and have the letter well and securely sealed.

REMEMBER! The Bible is a large volume, and cannot be sent in the mails. If you desire a sample copy, it must be forwarded to the care of some person; and any one who keeps a store near your residence, will cheerfully allow you to have the Bible forwarded to him, if that be your nearest point. *.* Canvassing Circulars furnished gratis with each lot of books.

* This is without doubt the cheapest and best Family Bible in the market. We are now making extensive preparations to have the work issued in the best style, handsomely and neatly bound, with fine paper, large and well printed type, &c. &c., and it is our intention to hold out great inducements for agents to canvass and sell the work.

It is expected the orders for this work will be very large, and in case you should give us your attention to this matter, we would be glad to receive your order at an early day, if possible at least one month, before you would need the Bibles for delivery, to prevent delay and disappointment. We of course keep on hand a large and varied assortment of ILLUSTRATED WORKS, bound in the different styles, and which we offer to you on the most favorable terms. Any further information you may desire relative to this enterprise will be cheerfully given, by addressing (post-paid)

ROBERT SEARS, Publisher,
181 William Street, New York.

ILLUMINATION!!!

Every Public Building, Dwelling House, Mill, Factory, Shop, Store and Office, in this Province, may be Brilliantly Lighted at Little Cost!!!

For Brilliancy and Economy of its Light, that of

PARAFFINE LAMP OIL,

Manufactured by the *New Brunswick Oil Works Company*, is superior to that of coal gas or any other oil or fluid.

➔ *Nine pence* worth of PARAFFINE LAMP OIL will give more light than One Dollar's worth of Fluid. ➔

AT THE SAME COST PARAFFINE LAMP OIL WILL GIVE

7 times more Light than Fluid;

5 " " " " Sperm Oil;

4 " " " " Lard Oil;

3 " " " " Whale Oil;

And twice as much light as Rape Seed Oil.

PARAFFINE LAMP OIL

Gives a Brilliant Light, is free from all danger of explosion, it does not ignite where a lighted match is placed directly in the oil; it does not waste on exposure to the air; and may be consumed in a lamp to the last drop within reach of the wick without depreciation in the quality of the light.

Leading Chemists of London and New York agree that PARAFFINE OIL is destined to supersede all other Oils or Burning Fluids as a source of artificial Illumination, and is the most valuable material for that purpose now known.

LAMPS FOR THIS OIL, —3s. 6d. to 30s. each.

PARAFFINE LAMP OIL, —6s. per Gallon.

➔ Liberal discounts to Wholesale dealers. For Oil and Lamps apply to
