### CHRISTMAS TURKEYS ARE ABUNDANT AND CHEAPER

Wholesalers and Produce Men Predict Lower Prices For Holiday Commodities.

"TURKEYS ARE THE MAIN ISSUE"

The Turkey: My, but this publicity is disconcerting. It looks as tho the home-made Christmas dinner this year will cost less than it did last. That is, the real old-fashioned but still popular Christmas dinner with Turkey and plum pudding.

But people who have been in the habit of sitting down to a roast beef festival and who propose to repeat the practice this year will have to pay a price a little in advance of last year's.

Beef is up and will stay up. Turkeys are down and it is believed they will stay down.

Cranberries are three dollars a barrel cheaper than they were a year ago. Raisins and currants are slightly cheaper; flour is cheaper; butter is about the same; nuts and fruits the same, and eggs are dearer.

Cheaper Turkeys. Turkeys, tho, are the main issue. Prominent wholesale produce men were interviewed by The World at the market and they predict a plentiful supply of good birds at 16c to 18c wholesale, whereas last season they sold from 20c to 24c, and even as high as 28c.

People must not be frightened by the high prices that maintained for Thanksgiving turkeys. There is a reason for that and it is the same reason that is going to make gobblers easy to get hold of for Christmas.

Last year, it will be recalled, turkeys and geese were dirt cheap for Thanksgiving and dear as radium for Christmas. It always follows, explained a produce man, that the next season is the reverse. The farmers, when they saw how much bigger their birds would have been (profitably) if they had continued to drive them to water till the big Xmas feast came off last year, decided that they would not get caught like that again, and they wouldn't sell in October this year at any money. The Christmas market will be quieted. A comparison of prices between now and the same time last year, as shown by the files of a market tenant, would appear to bear this out. In November, 1908, turkeys brought 20c to 24c. Now they are selling at 16c to 18c and down as low as 12c.

A large retail firm also shows that on Nov. 15 this year it bought turkeys at 12c and geese at 12c to 15c. Last year the price paid was 2c more per pound for each.

But what of meat? The same retail firm says that in its Montreal stores the average cost of fresh meats, beef, veal, lamb and pork, is 2c a hundred higher this year than last. In its Toronto stores it is 3c a hundred higher, and in its Ontario stores, Oshawa, Kingston, Brantford, Woodstock, St. Thomas and Collingwood, it is 5c higher. The firm is making 1 per cent less on its turnover to the consumer than a year ago.

The wholesalers have been paying from 2c to 4c a pound more all season than they paid for beef last Christmas. Hogs were bought at \$1.10 and \$1.15 per cwt. in November last. Now they cost \$1.05, live weight. In December last pork was plentiful at 30c. Incidentally it might be well to note that beef at the highest mark in Chicago this week that has been reached in 27 years.

So we'll have to overlook the roast beef's head proposition for our Yuletide feast. Plain turkey or roast goose will be the bill of fare.

And if the housewife wants further advice as to when to start making her puddings and fruit cakes, she can do it now. Flour is down from \$8 to \$5.50 per barrel, for the best, \$5.40 to \$5.10 for second "patent" and \$5.20 to \$4.90 for third, or strong bakers'.

### JURISPRUDENCE OF EMPIRE

Judicial Committee Greatest Force Making for Solidity.

The Honorable Judge Denton spoke on "The Jurisprudence of the Empire" to the Empire Club yesterday. Dr. J. H. Clouse, the new president, occupying the chair for the first time.

It was not of the science of law in the abstract, but of the different systems of law in the empire that the speaker wished to speak. It had always been the aim of Britain to continue as far as possible the customs of the people who came under the control of the empire. The Romans insisted in imposing their own code on all conquered peoples. Napoleon spread his code throughout his empire. The British policy, therefore, a new one, was to let Britain had gone too far and been too generous with her conquered subjects, but the verdict of history was different.

Canada, with the exception of Quebec, was under British common law. Quebec came into the British empire before the time of Napoleon, so that the law there was based on old French custom.

The supreme court of the whole empire was the judicial committee of the privy council. Judge Denton described the rise and development of this committee as finally established in 1833. There were usually eight or ten law lords upon it, admittedly the greatest legal minds in England. There must always be at least four of these lords sitting in the dingy court in Whitehall.

A story was told of a tribe in Central India, who were found offering incense to an unknown god, whose name, on enquiry, was found to be "The Judicial Committee of the Privy Council."

No one watching the proceedings of the committee could come to any other conclusion than conviction of the grandeur and greatness of the British Empire.

Those who would do away with the judicial committee should recognize its political significance. In considering the objects urged against it, his honor submitted that it was of the greatest advantage to have the best and strongest judicial minds to be found in the world deciding the legal disputes of Canada. The weight of authority was the final deciding factor, and the men of the judicial committee were necessarily of higher standing than could be found anywhere in the colonies at all.

If any time were left after thinking of Indian navies, imperial federation, possible invasions, and other like matters, he hoped some attention would be given to the silent forces making for the solidity of the empire, of which the judicial committee was one of the greatest.

### PROTEST AGAINST FOUNDRY

Ward Seven Deputation Told That Nothing Can Be Done. In protest against the city allowing a casting foundry to be established in their midst, a deputation of residents of ward seven appeared before the fire and light committee yesterday. As the building is about finished, the city solicitor advised that nothing could be done. The building bylaws provide that a foundry may be erected anywhere in the city with the consent of the city council. The city architect's department granted a permit under the bylaw, and the building had been proceeded with without protest. The committee, however, agreed that the deputation had a serious grievance, and they were advised by Chairman Ald. Church to seek an injunction. Meanwhile the committee will visit the district. The foundry is on Mellock-avenue. City Architect McCallum asked that his staff of inspectors be increased, in order that better attention can be given to the erection of hoardings, signs, etc. The matter was left over.

**BRITISH LABOR M. P.'S MAKE COMPARISONS**  
 Conditions in Britain Are Improving, They Say - Death of George Strand.

HAMILTON, Nov. 18.—(Special.)—Three of the delegates attending the A. F. of L. convention in Toronto, addressed a meeting this evening in Association Hall. Allan Studholme, M. L. A., president, J. B. Leonard, treasurer of the A. F. of L., denounced the resolutions of Gompers, Mitchell and Morrison, declaring that they had denied the right of trial by jury. Capitalism, he said, was stronger to-day than any aristocracy had ever been, and combines threatened the rights of the people more than kings and nobles. The labor unions had done more for the morale of the human race than the churches.

A. G. Gill, M.P., Bolton, England, a Labor M.P., said that it was strange to see the delegates who had come to Canada from England, who knew the benefits of government ownership, should, when they came to Canada, speak of private ownership of utilities. He said that in England, the workingman of Canada should have a compensation act which would entitle them to compensation for injuries without contributory negligence. It struck him as peculiar that in Canada the workingman would help elect to parliament men with whom they quarreled, also about their own interests.

**Conditions Improving.**  
 J. Clynne, Manchester, another Labor M.P., attacked the house of lords. He had noticed paragraphs in newspapers representing the condition of the working classes in England as terrible. As a matter of fact, conditions were improving rather than growing worse, and there were evidences of a return of prosperity. Speaking of Lord Northcliffe, he had purchased his way into the house of lords by making large monetary contributions to the fund of the Conservative party. This man had said that all the boy-scouts during the past four years had shown a majority in favor of tariff reform, when the truth of the matter was exactly the reverse. The tariff reform was the last insult of the wealthy to poverty. The trouble was that the rate of wages was so small that the workers could not live on their existing wages, and when thrown out of work had nothing with which to support themselves. The idle wealthy class was much more harmful than the idle poor.

John Anson Hubbard, 428 North Ferguson-avenue, a machinist employed at the Otis-Fensom Elevator Company's works, has disappeared, and his wife is making anxious inquiries for him. About three months ago he married his third wife, Mrs. Smith, who kept a grocery store at the corner of Mary and Robert streets. Both had families, and this caused trouble, which was about settled by their agreement to part with their children, when Hamburg disappeared.

**Supports a Cash Payment.**  
 Major William Hendrie, in discussing the naval defence scheme, said: "The idea of a money payment to Great Britain, but it should not be handed out as a dole or charity, such as we would give to a poor man, but as a contribution to Great Britain, for the benefit of the British empire. A fair way to arrive at what the contribution should be might be along the lines of paying a fixed rate per ton on the sea-borne freight leaving Canadian ports. There should be two rates, (a) in peace, (b) in war. The idea of paying a fixed rate in peace times would be on the same principle as marine insurance on sea-borne traffic, and it naturally follows that when the risk is increased by means of a war, in which Great Britain might be involved, the rate should be increased as would be the case with marine insurance. It involves Europe or any part of this continent."

**Hoodlums for Mayor.**  
 Speaking to the conservatives of wards 2 and 6, John Hodolles told them that since the government had staked its very existence on the success of the project to give the people cheap power, and since the ratepayers of Hamilton had voted three times in favor of signing the whole contract, it was not only their duty as loyal Conservatives, but as servants of the people, to give the people what they wanted.

MERGERS AND THE TARIFF

Now that the Dominion Government has taken under consideration the recent merger of various cement companies and the question whether it has resulted in an undue advancement of prices, the moment is opportune to call attention to the general position of combinations and the scope permitted them under the Canadian tariff.

By reducing or suspending specific schedules of the tariff, an easy and effective remedy is provided against attempts on the part of manufacturing monopolies or combinations to extract higher than fair competitive prices from the public consumer.

The idea of a tariff commission was first mooted in Germany. Its own board after six years' labor framed the protective system now in force which has yielded such remarkable industrial results.

defeated or impeded to accomplish the desired end.

To the World's mind the time has arrived for the constitution of a permanent tariff commission of qualified experts and to confer upon it ample power to carry on a continuous investigation into industrial conditions in Canada and into foreign industries and tariffs.

handle the intricate questions involved in tariffs and prices than either a legislature or a court of law. If a Canadian commission were appointed with the powers we have briefly indicated, it should also have power to reduce or even suspend specific import duties in cases where there has been improper enhancement of price due to the formation of manufacturing monopolies or the existence of agreements eliminating the honest competition among home manufacturers or middlemen which the public largely relies upon for the currency of reasonable prices.

BLOOR STREET VIADUCT.

An important question has been raised by The Evening Telegram in connection with the proposed construction of the Bloor-street viaduct.

The vacant land that is to have its value trebled and quadrupled by the construction of the Bloor-street viaduct should mainly pay for that great work. Payment should be made, not as a local improvement, but in the simple process of expropriating the land at its value before the viaduct is built and selling it afterwards at the increased value which will be created by the construction of the viaduct.

land. The vacant land that the Bloor-street viaduct is to boom should be bought by the city and sold in such a way as to make the land benefited pay most of the cost of augmenting its own value.

Unfortunately the city has not the power of expropriation necessary to carry out this admirable policy. While such powers are being obtained, whether in a general way, or with special reference to the property affected by the viaduct, there need be no delay about submitting the plan now before the city council to the people.

THE COMING ART EXHIBITION.

Within the last few years Toronto has developed to a remarkable degree the qualities of a metropolitan city. There is a wonderful change in its external characteristics and even more in the nature of its outlook. The city is realizing more and more that it must grow in every department of its life, social and artistic equally with industrial and commercial.

Since 1897 there has been in existence "The Art Museum of Toronto," incorporated for the purpose of promoting the cultivation and advancement of fine and applied arts, by means of buildings devoted to them, exhibitions, acquisition of works of art, education of art students and generally of encouraging and promoting art interests in the Province of Ontario.

The incorporators were a small group of prominent citizens, including some artists previously and still associated with the Guild of Civic Art, and in response to their appeal about \$40,000 was promptly subscribed. This was followed by a private intimation from Professor and Mrs. Goldwin Smith that their beautiful and valuable residence, "The Grange," with its park, would be bequeathed to the society as public trustees. This intimation made it necessary to proceed with the erection of an art gallery, and as no building suitable for temporary occupation has been available, the museum remained inactive, tho it joined with the Ontario Society of Artists in promoting the first loan exhibition of paintings by the Glasgow School of Artists, held in the spring of 1906.

After the recent lamented death of his wife, Professor Goldwin Smith made the gift known to the public and the announcement was received with grateful appreciation by the citizens. As it happened, negotiations had previously been opened between the provisional council of the museum and the public library board, having in view the securing of the picture gallery in the new fireproof library building, for the purpose of holding further loan exhibitions. These resulted favorably, and the collectors of paintings in Toronto responded most generously to the appeal of the committee. This enabled arrangements to be completed for an exhibition of paintings of high artistic and very great pecuniary value, which will be open from Nov. 24 to Dec. 18, and will be a revelation to the city. For this hitherto unequalled opportunity thanks are due the gentlemen who have depleted their walls temporarily for the public advantage, and it is to be hoped that the exhibition will be extensively popular. On the three first Saturdays admission will be free.

THREE PERISH IN FIRE THAT BURNS FARM HOUSE

James Dand, His Wife and Her Mother Cremated in Their Home Near Collingwood.

COLLINGWOOD, Nov. 18.—(Special.)—Mr. and Mrs. Jas. Dand, and Mrs. S. Fowler, mother of the latter, were turned to death while sleeping in their home on a farm, two miles from Collingwood, this morning. The house, a two storey roughcast, was destroyed. The fire seemingly broke out in the second storey and was first seen at 8:20 by a neighbor, John Dalis, who called John Zeigler, and at once ran to the fire. The top of the house was then a mass of flames. The doors and windows were all closed and no person around. They broke in the door, but were forced back by smoke and fire. A window was next broken and they reached the bedroom down stairs, but it had not been occupied. The stairs leading to the other bedrooms were in flames. They started to remove the furniture but the fire compelled them to get out.

A search around the premises showed that no one had entered or left the house, as snow fell heavily Wednesday night and there were no tracks to be seen. After the floors had fallen, the neighbors formed a bucket brigade and then commenced digging among the ruins for the bodies. At 9 o'clock they found bones in the southeast corner, directly below Dand's bedroom. About 4 o'clock the remains of the two women were located.

The deceased were well known in Collingwood and vicinity, having lived here for over twenty years. Dand working as an expert gardener. In the spring he decided to take up farming and purchased the house and lands, and made his home there. About six weeks ago, Dand's large barn, filled with his harvest, was burned to the ground, no insurance being carried. His health had been failing and just lately he sold the place to Geo. Weir, a neighbor, and had his furniture, etc., prepared to remove to town.

Mrs. Fowler had passed her 85th birthday and was quite smart for her age. She leaves a daughter in Mansfield, Missouri. Mr. and Mrs. Dand leave an adopted daughter, Grace, teaching school at Norland. Dand also has relatives in Osprey Township. He was about 65 years of age and his wife 63. The farm is about half a mile from the spot where the Glory Whalen tragedy occurred in 1902.

country which would result in the United States liked upon the treaty as discriminatory.

Question of Patriotism.

Mr. Foster remarked that Mr. Fielding's attitude was something not far removed from "anti-British" and "anti-American." He called the minister a mere poptun. Canada's trade with France amounted to about \$10,000,000.

As the treaty had been held up for two years, it would not hurt to have it held up for two or three months more.

Dope Comes in, Too.

Dr. Chisholm (West Huron) asked if under the proposed treaty, absolute and entire prohibition of alcohol would be brought into this country at reduced rates.

Mr. Fielding thought that there was nothing to justify such a question. He pointed out that the proposed treaty was not a tariff, but a trade agreement.

Mr. Fielding pointed out that the tariff was the same in this case. Dr. Chisholm asked why the minister did not prevent the introduction of alcohol, and the minister replied that he could not do so unless his introduction was prohibited from all other countries also.

Andrew Broder (Dundas) asked if it was not the case that there was provision for a reduction of the duty on wines. This was admitted.

Wait for Britain.

Major Currie, remarking that the farmers of this country would like to see a preference between Great Britain and Canada, declared that the treaty making policy of the government was all wrong. They should have one tariff for all countries.

The resolution was carried and a bill based thereon was given a first reading.

DON'T BE A WELSHER.

Editor World: I have read what Mr. Maclean said at Ottawa and what Prof. McCurdy and Prof. Wrong said on the matter of naval defence.

Mr. Maclean says we are of the empire and must help defend it; these professors say don't let us help to defend it.

As the M.P. for South York said, if we can't put up our share of defence, then let us get out of the empire and give our face.

The Welsher at the race track takes your money and disappears in the crowd when you're running and he has lost and can't pay. To Welsh, therefore, is to take something and give nothing back.

CANADA AND THE NAVY

Further Expression of Views by Ontario Citizens.

Peterboro, Ont., Nov. 18.—(Special.)—Great interest is taken in the naval question here, the general opinion being that Canada should have a navy.

There is a wide diversity of views on the question of sending money to the old country, to be used for defence purposes.

R. J. Soden agreed with the views of W. F. Maclean, M.P., that Canada should have a navy. "I would, however, Mr. Soden said, 'have it on the same basis as the Canadian militia. We should be able to run our own navy, it should be optional with Canada whether she went to war or not. The Canadian navy should be used for the defence of Canadian shores only."

James Lynch said he could see no necessity for a Canadian navy, when the British navy was so strong. "I would rather have the money spent on other purposes in the development of the country."

F. D. Kerr believed in the advisability of having a Canadian navy. He was opposed, however, to sending any money out of the country.

J. H. Burnham, editor of the Review, "The premier's policy is one of complete independence. Mr. Maclean's is a compromise. Canada wants no navy."

On the other hand, there are citizens like Aid. Maclean of the Imperial Club who are in accord with the Maclean policy of cash contribution.

SENTIMENT DIVIDED.

St. Thomas, Ont., Nov. 18.—(Special.)—Leading men in this city are divided as to what form assistance to the British navy should take, all seem to be in favor of Canada sharing in the imperial position.

The resolution was carried and a bill based thereon was given a first reading.

Mr. Paul Poul, Caecopedia, Que., writes—"About five years ago I gave up all hope of getting better of heart trouble. I would nearly choke, and then my heart would stop beating. I could not lie on my left side, and became so nervous and weak I could not work. A friend told me to try Milburn's Heart and Nerve Pills, and before the first box was taken I was almost well, and the second box completed the cure. I have advised many others to try them, and they have all been cured of the same trouble. I have offered to pay for a box for anybody they do not cure."

Milburn's Heart and Nerve Pills are a specific for all diseases or disorders arising from the heart or nerve system. They make the weak heart strong and the shaky nerves firm by imparting a strengthening and restorative influence to every organ, and tissue of the body and curing palpitation of the heart, dizziness, sleeplessness, anemia, twitching of the muscles, sensation of "pins and needles," general debility, lack of vitality, etc.

Editor World: In striking contrast to the misleading deliverance of Professor J. F. McCurdy's, in your issue of the 12th inst., is the letter of Professor James Gibson Hume, in yesterday's World. It might be said of it:

Minister of Finance Announces the Country's Expenditures for the Next Fiscal Year.

OTTAWA, Nov. 18.—(Special.)—Hon. W. S. Fielding, finance minister, laid on the table of the house of commons this afternoon the main estimates of expenditures for the year which will close March 31, 1911, or in other words, the 1910-11 fiscal period.

The total amount to be voted for Canada's naval service will be \$3,676,000. For the navy proper, the vote will be an even three million dollars, the expenditure to include "the purchase, construction and maintenance of ships, the maintenance and upkeep of dock-yards at Esquimaux and Halifax, and the establishment and maintenance of training schools."

Other items included in the naval vote are \$200,000 for hydrographic surveys, including a survey of the Hudson Bay, \$281,580 for the fisheries protection service, and \$75,920 for the construction of a steamer for surveying the Gulf and River St. Lawrence.

What They Will Spend. Following is a statement of the proposed expenditure under various heads, as proposed and compared with the sums voted for the current fiscal year: 1909-10. 1910-11.

Table with columns: Item, 1909-10, 1910-11. Rows include: Civil government, Administration of justice, Penitentiaries, Arts, agriculture and statistics, Immigration, Militia and defence, Railways and canals, Public works, Mail subsidies, Ocean and river service, Lighthouse service, Fisheries, Indians, Customs.

Toronto appropriations are \$250,000 for harbor improvements, \$50,000 for improvements to public buildings, \$20,000 for additional drill hall accommodation, \$4,000 for custom house improvements, \$15,000 for new entrance to examining warehouse, \$100,000 for new barracks, \$25,000 for new stores building, \$40,000 for addition and alterations to the postoffice.

There is an estimate of \$1,700,000 for the Trent canal, an increase of \$750,000.

The principal increases in the militia vote come under the following heads: Transfer of amount to be voted for ordnance, arms, stores, equipment, etc., from capital account to income \$1,300,000; annual drills, \$312,000; pay allowance, \$200,000, and salaries of civil employees, \$75,000.

The miscellaneous votes include \$15,000 to provide for the expenses of the conservation commission.

Ontario's Share. The following are some of the Ontario estimates: Kingston Penitentiary, \$50,000; Essex, \$10,000; Royal Military College, \$10,000.

Insurance of \$1,500,000 has been applied for on the life of George E. Haslam, forty-nine years old, a cement manufacturer of Kansas City, by two of the companies of which he is the best insured. Insurance may say this is the largest amount in insurance ever sought at one time upon the life of one person.

It is reported that John Kilburn of Owen Sound has sold his interest in the cement merger for a million dollars. Mr. Kilburn has holdings in Owen Sound, and three other cement companies.

SHALL WE BUILD A NAVY?

Editor World: Emphatically no, unless it can be done without interfering with the necessities for the working or poorer classes.

It would be a calamity to attempt to build a navy if it were done for the purpose of building a navy. If, however, the authorities of the country are so found, largely from an income tax, and also from the very large number of investors in stocks.

Gentleman (engaging a valet): You seem honest, and that pleases me. Applicant: Oh, I'm not so stupid as that, sir!

"Mamma," said little Ethel, "papa must be just awfully rich." Why do you think that, my child? "I heard him tell grandma that he was going to buy Manchester and Birmingham [stock] to-day!"

"You say that drink was your downfall," said the kind-hearted prison visitor. "Yes," answered the prisoner. "I met a gentleman who was too intoxicated to take care of his money, and of temptation was too great!"

"Look here, madam," said a testy guest to the landlady of the boarding establishment. "I'm heartily tired of the way this place is conducted! Have you never had a gentleman staying here?"

"Yes," answered the landlady (grazing at him searchingly). "Are you a gentleman?" Guest: "Of course I am." Landlady: "Then I never have!"

Two little girls were engaged in an animated discussion as to the merits of their respective homes. "Well, anyway," said one little maiden, in a triumphant tone, "you may have more bedrooms than we have, but we have enough for our porridge every single morning."

"Pooh!" said the other. "That's nothing! We own a Jersey cow, and we get a whole cowful of cream twice every day!"

ZAM-BUK IN FAVOR OF

ZAM-BUK

Zam-Buk wins favor wherever tried! The Magistrate whose words are quoted below tried it thoroughly and now tells the result. If you suffer from any skin disease or injury mark well his words!

The Pavilion, Gold Fields, B.C.

After a very fair trial I have proved Zam-Buk eminently satisfactory. It cured me of a skin rash of five years standing which no doctor had been able to do any good for. I do certainly encourage any person to keep Zam-Buk in their homes. It truly does more than you claim for it. Yours very truly,

ROBERT PERRY, Justice of Peace for B.C.

Chronic Sore Quite Healed.

Mrs. M. A. Harris of 63 Chestnut St., St. Thomas, Ont., says—"My husband had a running sore on his ankle for about two months. Zam-Buk showed satisfactory results from the first application (although other salves had failed), cleaning and healing the open wound. We have also found Zam-Buk unequalled for Cuts, Burns, Sores, etc., and have found confidence in recommending it to others.

1. Attorney-General v. Devlin (to be continued.)

2. Galusha v. G. T. Railway.

3. Metropolitan T. & S. Bank v. Osborne.

4. Sprag, re estate of.

5. Bruce Mines, Limited, v. Bruce Mines.

Non-Jury Assizes.

Peremptory list for non-jury assizes, at city hall at 10.30 a.m., Friday, Nov. 19, 1909.

144 Waddington v. Humberstone.

146 Grossman v. Granddillo.

147 Smyth v. Hiett.

Master's Chambers.

Before Cartwright, K.C. Master.

Humphrey v. N. Davy, for defendant, on motion for particulars of par. 4 of statement of claim before plaintiff.

Plaintiff, contra. Judgment: If the statements in question are merely historical, they may be allowed to stand, seeing that they cannot be a bar to the case. But the plaintiff must then undertake not to give evidence on them at the trial nor ask questions on them.

Examination of a witness, on motion for discovery. If this is not acceded to, then particulars of the times and places should be given by the plaintiff.

Particulars of the persons. The plaintiff should elect in a week as to which course she will take. Costs of the motion will be in the case.

C. P. Railway v. City of Port Arthur.

G. A. Walker, for plaintiffs, on motion to strike out counter claim of defendants. F. A. Plowright, for defendants, contra. Judgment: Plaintiffs sue for \$50,000 damages for injuries alleged to be caused by the bursting of certain dams and reservoirs constructed by defendants, and by their having interfered with the natural flow of the waters of the River and its contributory area.

Defendants say that such injuries result from plaintiffs' own acts and counter claim for "many hundreds of thousands of dollars" in breaches by plaintiffs of agreement with them and for a reconveyance of water lots conveyed by them to plaintiffs, &c. Plaintiffs move to strike out paragraphs 6-12 of their counter claim as improper. A review of the cases satisfies me that all but the paragraph should be struck out. The order will follow the form given at end of the judgment in Central Bank v. Osborne, 12 P.R. 10. This will apply to protect the defendants in case the plaintiff recover judgment in this action, while the action against the defendants, if any is taken, is still in progress. Costs of motion in the case.

Marshall v. Todd—D. Urquhart, for defendant, on motion for judgment amended statement of claim and reply as being unauthorized by the order of 22nd September, allowing Kelly to change his position and also to embarras and improperly joining separate causes of action. W. N. Ferguson, K.C. for plaintiff, contra. Judgment: There is sufficient unity in the matters complained of to justify their being joined in the same action. The case has been many times tried and a large amount is involved, therefore seems best to refer the motion to the trial judge, if defendants desire to press it, by whom the whole matter can be best dealt with.

Colonial Development Co. v. Mitchell—Lyle (Bike & Co.), for defendants, moved on consent for order of return of commission until 7th December prox. Order made.

Robinson v. Donald—J. A. Macintosh, for plaintiff, moved for an order shortening time for appearance to ten days and giving leave under C. R. 14 to serve writ on seat of defendant. Order made.

Jackson v. Saks—Strachan (W. A. McMaster), for plaintiff, moved for an order of return of commission until 7th December prox. Order made.

Fisher v. Ophir-Cobalt Mining Co. and Usher—F. Aylesworth, for defendant, moved for order requiring plaintiff to elect against which defendant he will proceed, or to strike out paragraph 5 of endorsement of writ. G. F. Flaxler, for plaintiff, contra. Motion enlarged until after delivery of statement of claim.

Standard Bank v. Klinefelter—H. S. White, for plaintiff, moved to postpone trial until after 5th December, and until after trial of cognate action of Thomas v. Standard Bank coming on at sittings at St. Thomas on 6th December. G. H. Kilmer, K.C., for plaintiff, contra. Motion referred to trial judge.

Johnston v. Occidental Syndicate, Limited—Glyn Oeler, for plaintiff, moved for speedy judgment on a judgment recovered in York Territory. H. W. Mickie, for defendant, contra. Enlarged until 17th Jan. next, to allow proof of prior action still pending in England and for cross examination of plaintiff so to do, defendants undertaking not to alienate any of their assets in meantime.

Hamilton v. Columbus Cobalt Co.—Rooney (Clark, M.P., & Co.), for defendant, moved on consent for order dismissing action without costs. Order made.

Judges' Chambers.

Before Falconbridge, C.J.

Tatham v. Atkinson—F. J. McCarthy, for defendant, moved for prohibition to 8th division court of Bruce, G. H. Kilmer, K.C., for plaintiff, contra. Judgment (v.v.): The defendant moves for a writ of prohibition to the 8th division court of the County of Bruce, in an action claiming \$64. The defendant filed a dispute note and a demand for a trial by jury. At the trial the plaintiff challenged the panel as not being drawn from the proper municipality and the trial was postponed. The plaintiff then made application under sec. 116 of the act for judgment. The defendant contended that his demand for a jury stops this method of obtaining judgment. It is clear that in general where a jury notice has been given, the judge is bound to give judgment, but must try the action by a jury where there is something to try. Here it was held that no defence is shown. I am of opinion that such notice is only effective where the defendant intends to dispute and has some right to dispute the judgment. Section 116 was added by the legislature in 1888, and under the rule of construction of statutes that a general enactment is governed by particular one (see Pratt v. Golly—26 Beav—61) I am of opinion that sec. 116 governs the notice here and that the judge had the right to do what he has done. Motion for prohibition discharged with costs.

Re Thos. G. Hill, Infancy—D. Guthrie, K.C., for applicant, moved for an order for payment out of court of certain moneys for maintenance. F. W. Harcourt, K.C., for infant, order granted. Amounts to be paid out with priority of official guardian.

Before Britton, J.

The King v. Secco Luigi—J. Haverson, K.C., for defendant, on motion to quash conviction for selling liquor without a license. J. L. Cartwright, K.C., for the prosecutor. Judgment: In this case the evidence leads to the conclusion that there was a fair trial, and that any longer delay would not have assisted the defendant. Upon all the evidence and upon the full consideration of all that took place upon the application for the adjournment, I cannot say that defendant did not have a fair trial within the meaning of the authorities, so I will dismiss the motion, but without costs.

The King v. Lorenzo—J. Haverson, K.C., for defendant, on motion to quash conviction for selling liquor without a license. J. L. Cartwright, K.C., for the crown. Judgment: At the trial before the magistrate, the defendant appeared, pleaded not guilty, and asked an adjournment, which was refused. It is reasonable if a person pleads not guilty before a magistrate and requires time for his defence, and to produce his evidence, that he should get it. A defendant should be duly summoned and heard. The magistrate, in refusing to adjourn, acted improperly. The conviction should be quashed. No costs.

Before Latchford, J.

Re Ontario Marble Quarries—Eric Armour, for A. Riddell, petitioner, on a winding up order, moved to stay proceedings, and to restore to the petitioner former status, discharging liquidator and cancelling bond. No one contra. Order made.

Single Court.

Before Falconbridge, C.J.

Hoskey v. Quinn—J. M. Ferguson, for defendant, on appeal from master's report, stated that parties had arranged an enlargement for a week subject to approval of court. Enlarged one week accordingly.

S. S. No. 1 Sturgeon Falls v. Corporation of Sturgeon Falls—J. A. Patterson, K.C., for plaintiffs, on motion to continue injunction, asked enlargement for purpose of verifying or otherwise the statement of defendant in question herein had been paid over prior to the granting of the injunction, as if it had been paid in full. It is necessary to change frame of action. G. H. Kilmer, K.C., for defendants. Enlarged for two weeks. Affidavit as to payment to be put in by plaintiffs, &c. Plaintiffs move to strike out paragraphs 6-12 of their counter claim as improper. A review of the cases satisfies me that all but the paragraph should be struck out. The order will follow the form given at end of the judgment in Central Bank v. Osborne, 12 P.R. 10. This will apply to protect the defendants in case the plaintiff recover judgment in this action, while the action against the defendants, if any is taken, is still in progress. Costs of motion in the case.

to recover. Cavalier v. Pope, 2 K. E. 757 (1906), A. C. 428, followed in Cameron v. Young (1908) A. C. 176, is conclusive against the plaintiff's right to recover. The plaintiff is a stranger to the covenant. Nothing I have said has any application to a party whose house falling upon his neighbors, or upon a passer by, owing to want of repair, where the person injured is not the owner, but stands on his own rights, and his relation to the offending or negligent proprietor is not constituted by the action, but under all the circumstances the dismissal will be without costs.

**ST. JOSEPH H. S. PRIZE DAY**

Archbishop McEvay Lays Stress on Religious Foundation.

The 25th annual distribution of prizes at St. Joseph's R. C. High School, took place yesterday afternoon. The gathering was presided over by His Grace Archbishop McEvay, who in a brief speech said that although many people thought that a commercial education was really all that was needed in these days, they were greatly mistaken. It was of no value unless a good religious foundation was laid. In closing he expressed a wish that some of the pupils would enter the different orders of the church.

Monaghan McCann, chairman of the separate school board, regretted the congested condition of the schools, but he hoped to have things improved before long.

The prize list:

Special prize for Christian doctrine, presented by His Grace Archbishop McEvay, awarded to Miss Helen Gray.

Special prize for English, mathematics and commercial work, presented by His Grace Archbishop McEvay, awarded to the Misses Florence Bruner, Mary O'Rourke and Nellie Hartnett.

Gold medal for obtaining normal entrance certificate, presented by the Rev. Mr. McCann, awarded to Miss Mary Fahey.

Gold watch, for obtaining normal entrance certificate, presented by Mr. J. J. Seitz, awarded to Miss Mary McGraw.

Silver medals, awarded for general proficiency in form 1, obtained by the Misses Mary Mehan and Ethel Chauhan.

Special prizes presented by the community of St. Joseph, for ladylike deportment, awarded to the Misses Mary Casey, Georgina Bissonette and Madeline Burns.

Special prizes for superiority in commercial work, awarded to the Misses Mary Casey, Georgina Bissonette and Madeline Burns.

Normal entrance certificates, awarded by the educational department, to the Misses Mary McGraw and Mary Fahey.

Part matriculation in arts, Toronto University, awarded to the Misses Mary O'Rourke, Mary Mulcahy, Muriel Lohr, Florence Bruner, Etta Leamon, Madeline Burns, Nellie Kearns, Cecelia Smyth.

Diplomas in typewriting and shorthand, presented by the Dominion Business College, awarded to the Misses Nellie Hartnett, Nellie Jamieson, Teresa Bolger, Hannah Malcolm, Mary Fitzgerald, Agnes O'Connor, Agnes Downey, Laura Walworth, Florence Holland, Margaret Egan, Mary Stewart, Olive Kelly, Nellie Arkin, Dorothy McGann, Margaret Goodie, Elsie White, Kathleen Flynn.

The North Pole and Moving Pictures. Anthony Flala, who comes to Massey Hall on Nov. 25, possesses the only moving picture ever taken in the polar regions. This will be the first polar picture in Toronto, and is taken from the great demand for seats, the prospects are that Massey Hall will see a record audience.

The plan opens at Massey Hall Nov. 23. This is the opening number of the People's Institute Lyceum course.

**Regulating Railway Rates.** WASHINGTON, Nov. 18.—Cost accounting must be applied to railroad accounts if supervision of rates by public officers is to be intelligent and fair. This was the position taken today by Associate Justice O'Brien, of the supreme court of Minnesota, in addressing the convention of the national association of railway commissioners.

**Must Pay Up or Legislation Will Close.** WASHINGTON, Nov. 18.—The Alcop claim of more than \$1,000,000 against Chile, pending for upwards of 27 years, has assumed a critical stage. Unless a final settlement is made within a few days or the claim referred to the Hague for trial, the United States legislation in Chile will be closed.

**Bay-Richmond Corner Sold.** J. J. Scott, K. C. of Hamilton, has secured the leasehold interests of the northeast corner of Bay and Richmond streets in Toronto, the lot has a frontage of 104 feet on Bay-street by 62 feet on Richmond. The site is owned by the Trustees of Knox Church. The buildings are mostly leased at 21 years, renewable.

**Nitrate Steamer Blows Up.** NEW YORK, Nov. 18.—Cable advices received here to-day tell of the destruction of the Norwegian steamer Elsmarck by fire and explosion in the Harbor of Iquique, Chile. No mention of loss of life is made. The steamer of 390 tons register, was built in England this year. She was loading with nitrate.

**Bank of England Statement.** LONDON, Nov. 18.—The weekly statement of the Bank of England shows the following changes: Total reserve increased \$2,519,000; circulation decreased 278,000; bullion increased \$2,111,661. Other securities decreased \$1,000,000.

**Municipal Debentures.** G. A. Stimson & Co. have recently purchased \$2,000,000 B.C. debentures. These bear interest at the rate of 5 per cent., and mature in 30 years. Fernie has a population of 6000.

**On Wall Street.** E. Perkins & Co. (Beatty & Glassco) received the following: After a period of dullness, stocks became active again in the last half hour and closed higher. The top. Amalgamated Copper led with a net gain of 2-3/4 for the day. Reading was 1-7/8 up and the general list showed a sharp recovery. The market is a time for speculation in making purchases.

Finley Barrell wired J. P. Bickell: We believe that the market will soon

**LONG SIDE POPULAR AND PROFITABLE.**

This was the first real day of speculation that the Toronto stock market has witnessed for months. Sao Paulo, Dominion Steel and Mackay attracted floor traders and outsiders, and the latter are now becoming quite enthusiastic. The germ of price improvement has been a long time in the process of germination, and now the only question is as to the lasting properties of the advance and the extent of the rally. With a wider spread public interest other stocks than those at present in the limelight will be brought to the front. The long side of the market for the time being is the popular and profitable one.

**HERBERT H. BALL.**

**Broader Trading at New York Follows Price Advances**

**Buoyancy the General Trait of Wall Street Thursday—Toronto Market Becomes Active.**

World Office, Thursday Evening, Nov. 18. Speculative securities were much more active to-day with most of this interest centered in Sao Paulo, Dominion Steel, Dominion Coal and Mackay. Each of these stocks advanced except Sao Paulo, which was subjected to profit-taking, and under this selling, the price declined 1-3/4 points from yesterday's high.

Steel common was heavily bought by Montreal, at which point there is still the most bullish kind of a feeling on the security.

The tip to buy Dominion Coal was handed out during the afternoon and this issue strengthened over a point on the incoming speculation.

Mackay was bought on the U. S. telephone and telegraph merger theory and was carried to 85 1/4.

Eliminating the above mentioned issues, the market was quiet and steady. There was almost no speculative buying in any but the active stocks, but on the other hand there were only a few instances in which selling was desired.

The investment side of the market is now neglected for the quicker profit-making speculative issues, and issues conforming to the first named class were quiet.

Immediate future it is thought that the exchange will gradually develop into a broader affair, and that stocks which have been quiescent for a long time will be brought into activity.

**Wall Street Pointers.** Copper stocks in London show strength.

Indications point to winter wheat average 16 cent. larger than a year ago.

New York Air Brake running full time, and doing largest business in its history.

Texas Central shows large decrease in earnings, on account of reduced Texas cotton crop.

Money market working easier here and abroad.

Current quarter will show large gain in United States Steel's unfilled tonnage.

Gold exports and engagements so far this week \$3,900,000, with \$1,000,000 more expected.

The sales of copper for domestic consumption and export between Friday and the following Tuesday, by one of the largest selling agencies amounted to between 50,000,000 and 60,000,000 pounds.

Joseph says: Take on Amalgamated and Anaconda on all fractional recessions, and hold them. Union Pacific will sell ex-dividend within two weeks. This stock is dirt cheap. Buy it. Average long Cotton Oil. Hold Chesapeake & Ohio. Buy St. Louis & Southern common.

Southern Railway should be better. Fuel is likely to do better. Amalgamated should be bought on weak spots. American Car Foundry is well absorbed and may do better later. Foreign investment is seen in Atchison.—Financial Bulletin.

The wire-end of the U. S. Steel Corporation has made arrangements for the construction of new mills near Endicott, Ala., to cost \$3,000,000 and to have a capacity of 400 tons per day.

Some specialties are susceptible of a little further buying, but important leaders with scarcely an exception continue to be well sold by interests disaffected with the monetary situation. Meanwhile, the delay in Copper deal announcement is getting on the nerves of recent buyers of Amalgamated and a sharp selling movement in that stock which might bring about a natural reaction of four or five points, would doubtless be accompanied by successful bearish aggression elsewhere.—Town Topics.

Chas. Head & Co. to R. R. Bongard. There was no special feature to the opening market. Closing was strong at highest prices generally with limited market, the activity being confined to a few issues. We look for higher prices in the copper, but would advise caution at this level.

**U. S. COPPER MERGER.**

NEW YORK, Nov. 18.—Negotiations looking to the consolidation of the large copper companies in the United States are still in progress, and it is stated to-day that the merger would not be completed for several weeks.

According to informed sources, the proposed combine of over a dozen companies of between \$700,000,000 and \$800,000,000, but the exact amount will not be determined until satisfactory bases for the exchange of stock for securities for the merging companies is decided.

It is stated that only five people are acquainted with the proposed merger plan, and they are John D. Ryan, Thomas F. Cole, Daniel Guggenheim, George W. Perkins and W. F. Corey, president of the United States Steel Corporation.

**C.P.R. Dividend and Melons.**

Since 1900 C.P.R. has paid \$45,730,100 dividends on the common stock, \$12,903,150 on the preferred, and has given rights on new stock worth approximately \$42,772,000.

During the nine years the common stock has been increased from \$65,000,000 to \$179,756,000, the preferred from \$26,781,000 to \$52,696,966, and the debenture stock from \$14,277,000 to \$128,339,182, an increase in all kinds of stock totaling \$214,564,715, or 67.5 per cent.

The price of the common has fluctuated from \$4 3/4, the low of 1900, to 201 1/2, the high of 1906, the lowest quotation for rights was 3 in 1902 and the highest 12 1/4 in 1906.

FRIDAY NOV. 19

An Astonishing Sale of Eighteen Thousand Dollars' Worth

Suits, Coats and Skirts for Immediate Consideration

WHEN by the calendar you observe the proximity of winter and rough weather, why let insidious procrastination have its way with you?

Don't delay. Christmas shopping will be upon us soon. Here are splendid Simpson values awaiting you in the Cloak Department to-morrow:

LADIES' WINTER SUITS, \$10.95. Stylish Suits, of splendid quality English worsteds, in black, navy, green or brown tones of stripe effects.

LADIES' \$18.50 COATS FOR \$9.75. A selection of Ladies' Winter Coats, of good quality tweeds, of brown and grey mixtures, fine beaver or broadcloths, brown, fawn or black colors in the lot; made with semi-fitted backs; some have full loose back, trimmed with self-strappings and braids; only 75 cents in the lot.

LADIES' WINTER COATS, \$4.95. Good serviceable Winter Coats, of heavy frize, in black or navy, made 45 inches in length, with double-breasted fronts, strictly tailored throughout, yoke lined with self, trimmed with velvet or braids. Special value Saturday \$4.95.

LADIES' SEPARATE SKIRTS, \$5. Separate Skirts of imported Paumotu, in black, navy, brown or green, made in either full flare or semi-pleated styles, trimmed with buttons or tabs, four distinct styles to select from. Sizes 37 to 43 front lengths. Saturday \$5.00.

Wash Waists—Regular \$3, \$3.50 \$4 and \$4.50, Saturday \$1.48

A COLLECTION of Wash Waists, including fine Lawns, pure Irish Linen and Crepe Waists, made in dainty lingerie styles, with numerous tuckings, fine Val lace insertions and pretty Swiss embroideries, hand embroidered, wide stitched tucks and shirt sleeves.

These Waists are all attractively new designs, but slightly counter mused. Regular marked prices \$3.00, \$3.50, \$4.00 and \$4.50. Your choice Saturday \$1.48

SPECIAL NET WAISTS FOR SATURDAY, \$1.79. 250 Fine Net Waists, two distinctive styles; one is a pretty tucked model, with wide front panel of embroidery lace and pipings of soft silk; the other style has wide tucking to form yoke; dainty Dresden handings on shoulders, and front; new French sleeve, and trimmed with silk buttons, and soutache, white or ecru. Regular \$2.95. Saturday, \$1.79.

Corsets and Brassiers Reduced WE will clear two beautiful models of the fashionable "Royale" Corsets Saturday. Ladies who have worn these corsets know what perfect figure builders they are.

Women's Peerless Underwear BUY all you need of this beautiful underwear we are price-sacrificing Saturday. The only reason for such seemingly reckless reductions is the fact of there being "Vests" only in the lot.

Trimmed Millinery Special 100 Trimmed Hats, for ladies and misses, stylish, exclusive shapes, trimmed with imported feather mounts; every hat is carefully trimmed; our best trimmers have prepared this lot, no two alike; not one hat that is not worth dollars more than this sale price. Saturday, \$5.00.

Charming New Ribbons Silk, Moire, Antique Rich Fancy Ribbons, in new and pretty Persian designs, heavily fringed, and 6 in. wide. 40c and 50c.
