Majority of Council Back Up Mayor Fisher On The Hydro Contract Matter

FLEEING SULTAN RAPPED AT BY TURKISH PRESS

"No Such Contemptible Act in History of the Country."

New Sultan Says He "Will Approve All Decisions of Angora Assembly"—Fugitive Ruler Has Arrived at Malta.

Constantinople, Nov. 20.—Sultan Mohammed, precipitate flight from Constantinople has unleashed the wrath and contempt of the Turkish press.

The Sultan's departure is simply the flight of a traitor who already has fallen from power and had become simply an ordinary personage.

The Sultan's flight is a common police incident; his titles belong to the tragic past.

The New York Times comments: "In the whole Turkish history there has been no such contemptible act as the Sultan's abandonment of the seat of the Caliphate for the protection of a foreign government."

London, Nov. 20.—A Reuter dispatch from Constantinople says the allied high commissioners, after receiving assurances from Hafez Pasha, that he personally would see to it that the newspapers refrained from publishing anything which might work against the safety of the allied troops and public order, unanimously decided on Nov. 19.

Malta, Nov. 20.—The British dreadnought Mahomet with Sultan Mohammed VI on board arrived here this morning.

Fredericton, N. B., Nov. 20.—J. H. Frost, supposed to have originally belonged to Nova Scotia and whose correct name is believed to be Allan H. McManis, is being held by the local police for the chief of police of Truro, N. S., in connection with the alleged forgery of a check drawn against the firm of G. and G. Fiewelling of Hampton, N. B., for \$88, which was said to have been passed at Fraser's dry goods store in payment for \$67 worth of clothing purchased.

The man walked into the police station here last evening and gave himself up. A long distance telephone call to the chief of police at Truro brought the information that a man answering to the same general description was wanted in connection with an alleged forgery and that a warrant was held against the man.

COMMISSIONERS THORNTON AND FRINK OPPOSE ADOPTION AT VERY FIRST CLAUSE

Former Invites Recall—Motion to Delay Contract Consideration Until Mayor's Offer to Buy Out Power Co., Is Voted Down—Call for Plans and Specifications for Distribution System Decided on by Motion.

Progress in the consideration of the proposed contract for the delivery of hydro electric power to the city, was temporarily blocked this morning by Commissioners Thornton and Frink when the matter came before a committee meeting of the Common Council.

A motion made by Commissioner Frink that consideration of the contract be delayed until a reply had been received from the offer to the Power Company was defeated, Mr. Thornton being the only supporter of Dr. Frink. This was followed by a motion calling for the obtaining of plans and specifications for a distribution system, which Premier Foster explained were already on hand in the Power Commission's office.

Consideration of the first clause of the first section had only been touched upon before the meeting adjourned at one o'clock. The council will meet again this afternoon.

The Mayor read a letter from the United Organizations protesting against the removal of Clause 12 from the contract. The letter is referred to elsewhere in this issue.

Mayor Fisher also read a letter from R. P. & V. F. Starr, urging the necessity of dealing with the hydro electric bodies were formed in Somerset County. There is a strong feeling of resentment in Somersetville and the rural communities.

Those who have been ordered at the opening session are Raymond Schneider, Council member who was murdered, and the choir singer who is now in the local jail awaiting trial on a charge of perjury, in connection with an alleged forgery.

It was decided to take up the contract by section.

Discussing Section I, Clause A, Commissioner Frink asked what the city intended doing with the 10,000,000 worth hours. He said there had been no discussion on this point so far.

THE NEAR EAST CONFERENCE IS OPENING TODAY

Britain, France, and Italy Agree on Main Questions.

Turkish Threat of Force if the Allies Do Not Give What They Demand—Greece's Unhappy Position—"Cocktail Queen" Secured.

(Canadian Press) Lausanne, Nov. 20.—Switzerland again is host for a gathering of diplomats who come to discuss one of the most important problems before the world at the present time, the problem of Turkey and the Near East.

THE GRAND JURY TAKES UP NEW JERSEY MURDER

Fifty-two Witnesses Relative to Slaying of Minister and Woman.

Somerville, N. J., Nov. 20.—The Somerville county grand jury convened at 10 a. m. today to receive evidence in the Halls-Mills murder case.

The opening day will be consumed chiefly with laying the ground-work for the more sensational phases that are expected to follow.

Most of the neutral European states, perceiving the importance of the Balkan situation, have asked permission to attend the meetings.

The Turkish of the conference finds extreme nationalist exaltation prevailing in Turkey.

Unhappy Greece, defeated and almost bankrupt, stands out as the pathetic figure of the conference and the great Grecian leader, Venizelos has a heavy and probably thankless task.

There is indignation in Turkish circles, of a report said to have been printed in London newspapers declaring that the Kemalists had sent two assassins to Lausanne to kill Venizelos.

Lausanne, Nov. 20.—The British High Commissioner at Constantinople, Sir Horace Rumbold, and Lady Rumbold, arrived here Saturday.

He is successful in his mission and this afternoon the queen of cocktail mixers left Geneva with him by the air route, to prepare for her new duties.

The hotels of Lausanne, which have known hard times for several years, are making great preparations for today's party.

Another much discussed question, solution of which was asked for today, is the leadership of the Labor party.

British Parliament Opens Session; A Rush For The Seats

(Canadian Press Cable) London, Nov. 20.—A parliament in which Ireland, with the exception of part of Ulster, is not represented, and in which the Labor party appears as the chief contender for 245 of the 600 seats, opened at 2 o'clock this afternoon.

The proceedings started with the usual formalities. The Clerk of the House presented to the Clerk of the House a book containing a list of the members' names, after which a message was received requesting the immediate attendance of the members in the House of Lords where they were instructed that their first duty was the election of the Speaker.

The parliament that opened today is the smallest since the union with Ireland in 1801. The session just concluded was the thirty-first Parliament of the United Kingdom of Great Britain and Ireland, but Ireland, with the exception of a part of Ulster, is no longer represented in the imperial legislature.

The question as to which party will be recognized as constituting the official opposition remained the one of paramount interest as parliament assembled.

The Daily Herald, Labor's official paper, which may be assumed to know the intentions of the leaders of that party, says today:—"If the Speaker should not immediately concede the Labor party's clear title to the position of official opposition by calling upon its leader to speak first in the initial debate, then the Labor party should immediately walk out of the House in a body."

The situation is complicated by the possibility which, however, is still no more than a possibility, of a re-union of the Asquithian and Georgian Liberals into a single party.

Another much discussed question, solution of which was asked for today, is the leadership of the Labor party.

According to some stories in circulation, there is a conflict between the "intellectual" branches of the party, John R. Clynes, chairman of the Labor party, although universally liked and respected, is regarded in some quarters as insufficiently expert in parliamentary procedure and debate to steer that party to best advantage in the immediate future.

Swearing in of new members will probably occupy Tuesday and Wednesday.

Forecast: Rain or Sleet. Maritime—Moderate to fresh east and southeast winds, overcast with occasional light rain or sleet today and Tuesday.

Gulf and North Shore—Northeast winds, with light snow. Cold with light snowfalls today and Tuesday.

New England—Partly cloudy and colder tonight. Tuesday, fair and colder, strong westerly winds.

REPRISALS IF CHILDERS IS PUT TO DEATH

Dublin Suffers From Acute Attack of Nerves

Three Killed in Explosion Where Ambuscade Seemingly Was Planned—De Valera Issues Message on Case of Erskine Childers.

(Canadian Press Cable) Dublin, Nov. 20.—Dublin is suffering an acute attack of the nerves partly owing to the news of the execution of Erskine Childers, convicted of carrying arms, and executed, and partly through the horror of an explosion at Inchicore, and other happenings.

One incident yesterday testified to the state of tension. When a letter loaded with Free State soldiers passed slowly through a crowd holding a meeting of protesting connection with the proposed strike of Mary MacSwiney and her sister, many in the crowd hoisted and shouted abusive epithets. One shot was fired by some one in the crowd and the soldiers replied with a volley in the air, which provoked a panic. This was followed by machine gun fire and three civilians are reported to have been wounded.

Annie MacSwiney is maintaining her vigil outside Mount Joy prison, where Mary MacSwiney has been fasting since Nov. 19.

Four men were killed by the explosion at Inchicore; not died in hospital and three were sent out.

Just prior to the explosion at Inchicore, which occurred on Saturday night, a party of men was carrying a heavy article from a field beside the Naas Road. The explosion was like a rocket, seven in all, was accompanied by a great burst of light. People living in nearby houses were generally shocked by the violence of the detonation.

The dead men were so badly mutilated that identification was impossible. Fire arms and ammunition were found beside a wall near the scene of the explosion, and the bodies of the victims were preparing an ambulance.

Childers' Case. Belfast, Nov. 20.—The charge against Erskine Childers, whose trial before the military tribunal in Dublin was begun on Friday, is that he had an automatic pistol in his possession when he was arrested, according to information telegraphed here from Dublin.

An account of the proceedings as received here, states that after the opening address by Patrick Lynch, senior counsel for the defence, a statement of objection to the evidence was made by the prosecution.

The counsel for the defence withdrew from the proceedings, the account adds, and following their withdrawal the trial was continued and had not been concluded when the day session of the court adjourned.

Dublin, Nov. 20.—Eamon De Valera in a message to the people of Ireland yesterday, asserted that the government had given orders for the execution of Erskine Childers, and declared that such a crime would make the men and women of the race hang their heads in shame.

"If this order is carried out," he continued, "not all the blood that flows as a consequence will expiate our national guilt. We shall be called a nation of slaves and the slaves of slaves and we shall not be left with an answer."

Dublin, Nov. 20.—The Irish Times today says a writ has been issued from the chancery office on behalf of Erskine Childers, with a view to quashing the proceedings of the military court which tried him on the charge of illegally possessing arms.

Dublin, Nov. 20.—A crowd of women and girls marched last evening from Mount Joy prison, in which Mary MacSwiney is maintaining a hunger strike, to the palace of the Archbishop of Dublin.

Arriving at the residence the procession found the outer gates closed, but ingress was made to the grounds by other entrances, and soon a considerable number of women were sitting on the doorsteps of the Archbishop's residence, while others were scattered in groups about the premises.

The deputation had a brief interview with the archbishop. The subject of their conference is understood to have referred to Miss MacSwiney's hunger strike. After the interview the demonstrators left cheering.

Ku Klux Rule in Louisiana, and President Harding to Be Asked to Take Over Administration.

Washington, Nov. 20.—The Washington Post prints under a Baton Rouge date, a despatch to the effect that Louisiana is under the rule of the Ku Klux Klan, and that Governor John M. Parker, accompanied by the attorney-general of the state, is on his way to Washington to ask President Harding to take over the administration of the law in Louisiana as the state government is unable to function.

CABIN FOLK ARE PUT ASHORE AT GROSSE ISLE

Passengers on the Montclare Well Looked After by C. P. R.—Case of Infection Found.

Quebec, Que., Nov. 20.—The Canadian Pacific 1640-ton steamer, Montclare, Capt. R. C. Latta, which left Liverpool for Quebec and Montreal on November 18, with 221 cabin and 622 steerage passengers, arrived at Quebec at 11:15 o'clock on Sunday morning.

When the cabin passengers were put ashore at Grosse Isle they found the building for their reception without proper equipment to take care of 220 cabin passengers.

The attention of Captain Latta, who ordered the necessary bedding transported to the shore, as well as food for the marooned passengers. He also put ashore the ship's cooks, steward and nursing staff. The cabin passengers, including many prominent Canadians, were most expressive in their commendations of Captain Latta and his officers.

Among the cabin passengers held at Grosse Isle are Miss L. G. Owen, F. R. G. S., on a world tour on behalf of the British and Foreign Bible Society, and Miss M. H. C. Leigh of Halifax.

Of 492 passengers in the third class 200 more than 100 were going to the United States. They were mostly British bound for the west.

WOMEN ON JURY IN BREACH CASE

First Time in Supreme Court in Canada—One Objects to Kissing Bible.

Red Deer, Alta., Nov. 20.—Women were empaneled on a jury case in the Supreme Court here last week for the first time in the history of Canada.

A recent amendment to the jury act of Alberta allows women to sit on a jury in a case where a woman is concerned.

The case before Justice McCarthy was a breach of promise case between Clive, Alta.—Staub vs. Larkin.

When the jurors were being sworn in one of the women objected to kissing the court Bible. She was allowed to affirm her oath. The jury returned a verdict awarding the plaintiff \$4,000 damages.

FIRE AT THE COAL PIERS IN LOUISBURG

W.C.T.U. LAYS

BLAME ON U.S. WETS, NOT ALIENS

Field Worker Declares the Violations of Prohibitory Laws Can't All be Charged to Foreigners.

Less danger results from violation of the prohibition law by the foreign-born population than by Americans themselves, declared Miss Charlotte Patten, field worker for the Eastern Province in Philadelphia.

"I am not nearly as much alarmed about the foreigner breaking the law," said Miss Patten, "as I am about the American himself. I am more concerned about the great run trust that is bringing in contraband liquors in ships, airplanes and automobiles."

"Every W. C. T. U. member should adopt a foreign home, and starting with the children and the mother should inculcate the principles of Americanism with the teaching of the English language."

Mrs. Culla J. Vayhinger, of Indiana, director of the department of citizenship, urged Americanization work.

"We believe in the right of good in race on earth and good will to men."

Mrs. Laura P. Miller, of New York, director of the Department of Women in Industry, explained the industrial creed of the W. C. T. U. as follows: "We believe in an eight-hour day, in courts of conciliation and arbitration in justice as opposed to greed of good in race on earth and good will to men."

"Prohibition" Un-American. Edward W. Bok, of Philadelphia, urged discontinuance of the word "prohibition" as an un-American word.

"It is an un-American word," he said, "and it should be the object of the W. C. T. U. to fight the liquor interest."

"We know that any nation is better off without alcohol, and you are always as to depend upon the common sense of the American people."

He said he believed the organization would serve its best purpose if it would use more constructive material in the press.

Talcott Williams, of the Columbia University School of Journalism, and Mrs. Ida Clyde Clarke, editor of the "Special Review," spoke on publicity.

Mrs. Mina C. Van Winkle, director of the Women's Bureau of the Metropolitan Police of Washington, D. C., condemned ship-pocketing.

Grand opening on Wednesday morning at 9 o'clock with an entirely new stock. See further particulars in Thursday's papers.—L. L. Sharpe & Sons, Jewelers.

SUBS DAUGHTER FOR \$50,000 FOR INJURIES IN AUTO CRASH. New York, Nov. 20.—Mrs. Luella Gears, widow, formerly of the Sherman Square Hotel, but now of 822 West Seventy-second street, is seeking \$50,000 damages from her daughter, Mrs. Luella Chandler of Douglaston, formerly an actress, for injuries received in an automobile accident at Woodside on June 8, 1922.

According to the testimony given by Mrs. Gear at the trial before Justice Joseph Appin in the Queens Supreme Court, Mrs. Chandler was driving her mother to her home. The automobile, in avoiding a collision with a delivery truck overturned, and Mrs. Gear received several fractures and was confined to the hospital for some time.

Mrs. Gear testified that her daughter was driving fast, and just before the accident she had cautioned her to drive more slowly.

A resolution was unanimously carried approving the principle of Federal aid to highways, and he entirely endorsed the efforts of the executive of the association to have a further grant of \$20,000,000 to assist the provinces in.

Start for Homeland. Their fund reaches its required proportions with the sale of this year's crops. They sold their farm, too, at a good profit, and took a passage to the Aquilina. All the way from South Dakota to New York they came, speaking little English, and the twisted sort of way quite unintelligible to Broadway.

With four big bags they arrived at their big bags on Monday. They found their way to the subway and took their four big bags with them.

A guard in a few words of crisp English demanded to know what they meant by their four big bags. Gallo and his wife said "yes" and "no," several times, but without making much progress. It became borne in upon the man's consciousness that there was some objection to his presence on the train.

Calling to his wife in their native tongue, the little farmer grabbed three of the bags and stepped off the train. He closed before the bewildered woman could follow him. The last he saw of her was as she was being pressed against the dirty glass of the door, and her wrinkled hands against the steel frame. The train thundered away.

Collapses at Station. A Broadway man with a kind heart found the woman wandering aimlessly about Times Square Monday night.

She was unable to explain her great trouble to him, unwilling to trust a stranger in this great, strange city, where there seemed to be no one person in the millions who hurried backward and forward who could speak understandingly with her.

Start for Homeland. Their fund reaches its required proportions with the sale of this year's crops. They sold their farm, too, at a good profit, and took a passage to the Aquilina. All the way from South Dakota to New York they came, speaking little English, and the twisted sort of way quite unintelligible to Broadway.

With four big bags they arrived at their big bags on Monday. They found their way to the subway and took their four big bags with them.

A guard in a few words of crisp English demanded to know what they meant by their four big bags. Gallo and his wife said "yes" and "no," several times, but without making much progress. It became borne in upon the man's consciousness that there was some objection to his presence on the train.

Calling to his wife in their native tongue, the little farmer grabbed three of the bags and stepped off the train. He closed before the bewildered woman could follow him. The last he saw of her was as she was being pressed against the dirty glass of the door, and her wrinkled hands against the steel frame. The train thundered away.

Collapses at Station. A Broadway man with a kind heart found the woman wandering aimlessly about Times Square Monday night.

She was unable to explain her great trouble to him, unwilling to trust a stranger in this great, strange city, where there seemed to be no one person in the millions who hurried backward and forward who could speak understandingly with her.

COTTON BRAIDS. UNSETTLED GOODS. New York, Nov. 20.—Trade in unfinished or gray cotton goods last week was almost halted by the sharp break in raw cotton. Although many firms held firm to old quotations there was a slight offering of goods at concessions by some of the speculative houses. These offerings included some of the standard 64-80, 88-12-inch print cloths, which were offered at 97-8 cents a yard, against a mill price for spot goods of 10 cents a yard.

Austrian Finances. London, Nov. 20.—The Austrian government, says a despatch to the Exchange Telegraph from Vienna, in agreement with the League of Nations, has decided to discontinue the issuance of the Austro-Hungarian Bank of uncovered bank notes. The practice will cease beginning today.

Quebec may be increased from \$40 a year to \$500 for those who travel afoot and to \$1,000 for those who travel with horse and rig. They may be required to take out a license for each judicial district in which they wish to do business, and may have to have a photograph on their license so they can easily be identified.

A delegation of members of the Retail Merchants' Association of Quebec called upon Hon. Jacob Nicol, the Provincial Treasurer, and presented a number of suggestions for amendments to the liquor law, and also asked that the increase in peddlers' licenses be applied as stated.

The delegation had a long list of other suggestions, among them being the following: That grocers be allowed to open their stores for the sale of beer at 8 a.m.; permission to order beer by telephone, and a reduction of the grocers' license from \$200 to \$100.

As regards the sale of liquor in hotels, the delegation asked that the sale of wine and beer be allowed during the hours the hotel remains open, that such hours be from 8 a.m. until 11 p.m., that the sale of beer and wine be allowed in hotel rooms, and that the license be reduced from \$200 to \$50.

DEBATE SERIES OPENED. The first of a series of debates was held in St. Peter's Y. M. C. A. yesterday, the subject of which was "Resolved that India is more benighted than British Empire than Canada."

The affirmative, which was upheld by John Rolston and Percy Howard, received the judges' decision although the arguments on behalf of Canada were ably presented by Bartholomew McIntyre.

and Leo Gormley. The subject matter proved very interesting and the points brought out were both numerous and ably presented. The judges were E. R. Hansen (chairman), Alfred L. Dever and Louis Martin. At the conclusion of the debate a vote of thanks was tendered the members of the debating teams and the judges by the chairman, William Shea.

Hon. R. J. Ritchie delivered an interesting lecture on his trip to Europe last night in St. Patrick's hall, under the auspices of the Y. M. C. A. Mr. Ritchie described his travels while on the continent and brought before the minds of his audience the beautiful scenery which he saw while traveling through Italy with his wife and children, which he visited were Rome, Paris, Naples, London and Dublin, and while in London he was the guest of Sir Henry Grafton, Esquire. A vote of thanks, moved by Charles Owens and seconded by Edmund Fitzgerald, was tendered the speaker by the chairman, Edward Owens.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

NOISES IN RECEIVING SETS.

The ordinary crystal detector type of radio receiver is not subject to conditions which produce local noises in the telephone receivers as is the case with the popular regenerative type of receiver...

In receiving systems employing multi-stage amplifiers especially those of the resistance coupled type it is very essential that great care be exercised in the arrangement of the apparatus, connections to the filament battery, and other parts of the circuit common to each stage...

Local noises of the kind described where the circuit is set into oscillations due to the capacity of the hand placed near the adjusting knobs may be eliminated by shielding the receiver panel and exercising care in the construction of the set so that portions of the circuit near the adjusting knobs are as near ground potential as possible.

RECENT DEATHS

Samuel Craig. After a short illness, the death of Samuel Craig occurred yesterday at the General Public Hospital, in the sixty-sixth year of his age.

These were the words typewritten on a statement of campaign expenses filed with the Clerk of the House of Representatives by Representative William J. Graham of Aledo, Ill. Under the law, a candidate must make no promises to further his election, nor must he spend above a certain amount. In his statement Representative Graham declared he had spent nothing.

G. E. Williams. The death of George E. Williams, formerly general secretary of the Y. M. C. A. in this city when that institution was in its first building in Charlotte street, occurred last night at his home, 347 Northcote street, Montreal, following an illness of more than a year.

The funeral of John Abbott took place yesterday afternoon at 2:30 o'clock from his late residence, 87 Britain street, to the St. John Baptist church, where the service was conducted by Rev. J. J. McDermott. The funeral was largely attended and relatives acted as pall bearers. The interment was in the New Catholic cemetery.

The funeral of John R. Richards took place from his late residence, 254 Charlotte street, w. e., yesterday afternoon at 3:30 o'clock. The service was conducted by Rev. C. R. Freeman, assisted by Rev. W. A. Robbins and Rev. Isaac Brindley. The interment was in Cedar Hill cemetery.

LOVE DROVE HIM TO SEEK DEATH

The Tragic Romance of a Man Forty-nine Years Old—Loved a Dancer.

New York, Nov. 19.—William Logan, a theatrical booking agent, forty-nine years old, shot himself for love of Gracilata Palma, a dancer of Spanish extraction, twenty-two years old, who is appearing at the Hippodrome. The bullet lodged just above his heart and may cause his death. He is at Bellevue Hospital, a prisoner, charged with violation of the Sullivan law.

The tragic romance of the middle-aged booking agent, Andalusian in intensity, centered about Sixth avenue and Forty-second street. Logan's agency, in which his sister is a partner, is on the fourth floor of 17 West Forty-second street. Around the corner on Sixth avenue is the Hippodrome, where Miss Palma dances.

They met last year and the captivation of Logan to the charms of the dancer was immediate and complete. Until a few months ago his attentions met with intoxicating success. He was Gracilata's cavalier on every occasion. His flowers scented her dressing room. His jewels flashed upon her slender fingers.

Neither has told what happened some two months ago, but it was then that Gracilata returned the jewelry and told Logan he also might take back his love. He took back his gifts under protest, but found it impossible to obey the other command. He kept up his attentions.

Affairs began to approach a crisis a few days ago. The situation was so obvious that when P. Toner McVeey, house manager of the Hippodrome, got a tip that Logan was going to attend a matinee and drink poison or shoot himself when Gracilata appeared, he took it seriously, forbade the dancer to go upon the stage and called for a detective.

Detective Fitzgerald, sent from the West Forty-seventh Street Police Station, was unable to find Logan at the show. At McVeey's solicitation he went to the booking agency after the show with Gracilata to have a talk with Logan.

They had the talk. Gracilata was obdurate. She said that Logan must stop bothering her. "I'll never bother you again," replied Logan.

The detective and the dancer departed before they had reached the elevator. Logan came hurrying after them. "Let's shake hands for the last time and say goodbye," he said, almost cheerfully to Gracilata. "You won't see me again."

She gave him her hand and stepped onto the elevator. Before it had reached the next floor they heard the shot. They hastened back and found Logan lying in the corridor where they had left him, a bullet hole in his coat.

ILLINOIS TRIBUNAL REFUSES A 80-DAY Stay to Millionaire Chicago Communist and His Four Associates.

Chicago, Nov. 20.—William Bros Lloyd, millionaire communist, and four associates must go to prison in a few days by order of the State Supreme Court, to serve sentences of one to five years for violating the anti-sedition law. They will be locked up Monday, it is believed.

Charles W. Vall, clerk of the court, mailed a mandate for the imprisonment of Lloyd and his colleagues following Chief Justice Thompson's refusal to grant a thirty-day stay.

Illinois Tribunal Refuses a 80-DAY Stay to Millionaire Chicago Communist and His Four Associates.

Chicago, Nov. 20.—William Bros Lloyd, millionaire communist, and four associates must go to prison in a few days by order of the State Supreme Court, to serve sentences of one to five years for violating the anti-sedition law. They will be locked up Monday, it is believed.

Charles W. Vall, clerk of the court, mailed a mandate for the imprisonment of Lloyd and his colleagues following Chief Justice Thompson's refusal to grant a thirty-day stay.

Since the five men have furnished sufficient bonds, they will be given a day or two in which to adjust their affairs, it is believed. The week-end may cause another brief delay, but unless evasion is attempted all the men should be in Joliet Monday.

Pardon to be sought, Report. A report circulated among attorneys that Lloyd and his co-defendants would seek a pardon as soon as they reach the penitentiary. The report is said to be based on the dissenting opinion of Supreme Justice Carter, who held the law under which the convicted were obtained to be unconstitutional, and on the fact the men were convicted under wartime legislation and are therefore political prisoners.

William S. Forrest, attorney for Lloyd, pleaded. In a letter to Governor Greenback, made public here last night, Mr. Newberry said he had been impelled to retire voluntarily because of the defeat of his Republican colleague, Senator Townsend, in the election of November 7.

The resignation brings to an end a fight which already has made political history and which it appeared would result in the defeat of the Republican colleague, Senator Townsend, in the election of November 7.

BODIES OF THREE BROTHERS FOUND

Regina, Nov. 20.—The dead bodies of Steve, John and Nick Dutesszyn, aged seven, nine and eleven years, sons of John Dutesszyn, were found in a slough a few miles east of Verigin, Sask., on Friday by neighbors who had been searching for the children since they were reported missing on the day before. It is presumed the boys were playing on a thin crust of ice that covered the slough when it gave way and they were drowned.

AMATEUR CAN MASTER MAGIC ART OF STEERING

Radio Currents Operate Magnets Which Control Ship's Apparatus.

(Montreal Gazette.) Any wireless amateur can become a master of the magic art of wireless or radio-control if he wishes. Unless a very rich man he will not be able to practice it on the grand scale, he will never be in a position to swing ships about by crooking his finger nor fly pilotless aeroplanes. But he may acquire quite skill to provide hours of instructive entertainment for himself and his friends by controlling miniature objects. Incidentally, too, he will open for himself the gate which leads to a fascinating bypath of scientific knowledge.

As used in the navy for large scale experiments radio control is achieved by means of very short wave lengths. In working it instruments of great precision are necessary, and these must be adjusted to the thousandth part of a hair's breadth or the required electrical mechanical effect cannot be obtained. The thing won't work.

Simply stated, the system consists in wireless currents which are generated at the control station (that may be either on board ship or on shore) being transmitted wirelessly to the object being controlled. There they are received by valves and made to operate magnets. Of the latter a series is installed in the ship—if it is a ship that is under control. Each magnet has a particular job to do. One puts the rudder to port, another turns it to starboard, and so on through the whole range of actions incidental to running the ship.

Each magnet does its special job and that job alone—and it works only when current is directed upon it. Communication is made or broken instantly. If the operator at the control station wants a given number of degrees of starboard helm put on the controlled vessel, he energizes the magnet installed for the purpose of starboarding the helm and cuts it out again immediately the helm is in the position required. Instantaneous response to the signals from the control station is an essential feature of radio control.

Although he may be twenty miles away from her, the man who handles a ship by this system occupies exactly the same position in relation to navigating her as he would if he were captain giving his orders from her bridge. In the latter case he tells various sailors what he wishes them to do. But by control, instead of giving verbal orders to mechanical appliances, and they do exactly what he wants them.

Theoretically, the use of different wave lengths for operating different control instruments is satisfactory. In practice there are objections to it on the grounds of multiplicity of plant. The better method is to operate the relay switches, which do whatever is required aboard the controlled vessel by impulses or punches. One wireless punch sets a specific switch on whatever action two punches start up another—and so on through the whole gamut of activities that are subject to the will of the men at the control station.

As secrecy is no consideration to the amateur, he need not bother about getting short waves connected. All his controlling can be done by ordinary wave lengths, but he must be prepared to use his brains and give time to experimenting if he wished to add radio control to his knowledge.

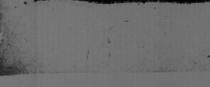

FACE BLOWN AWAY EXAMINING BLAST Elderly Milton, Ont., Citizen Killed While at Work in Brickyard.

Milton, Ont., Nov. 20—George Sheppard, aged sixty-five years, met with a fatal accident at the Milton Pressed Brick works last Wednesday. It is reported that he and John Storer, whose duty it was to blast the clay in the pit, had prepared two charges of dynamite ready to set off. When all was ready the electric battery was turned on, but only one charge exploded.

After five minutes had elapsed Mr. Sheppard went to see why the second charge had not gone off, when, for some unknown reason, the charge suddenly exploded, blowing part of Mr. Sheppard's face away and shattering his right arm in a frightful manner. The accident took place at four o'clock and the injured man died an hour later without regaining consciousness. The body was taken to C. R. Turner's undertaking parlors where an inquest was opened.

MILLIONAIRE TO PRISON AS SPY William Bross Lloyd Violated the Illinois Espionage Law.

Chicago, Nov. 20—William Bross Lloyd, millionaire radical, must go to prison for violation of the state espionage law, unless Governor Small grants executive clemency. Four associates also must go to prison within a few days, by order of the Illinois Supreme Court, to serve sentences of one to five years for violation of the state anti-syndicalism law. They will be locked up by Monday, it is believed.

Charles W. Vall, clerk of the Supreme Court, mailed a mandate for the imprisonment of Lloyd and his colleagues to Chicago following Chief Justice Thompson's refusal to grant a 30-day stay.

Since the five men have furnished sufficient bonds, a day or two will be given them in which to adjust their affairs, but unless evasion is attempted, all the men should be in Joliet Monday. The action of the State Court followed closely the refusal of Justice Sutherland, of the United States Supreme Court, to take action in Lloyd's favor, and the denial of a request that all the justices of the Supreme Court be permitted to review his case.

W. S. Forest and William Cummins, attorneys representing the five defendants, tonight expressed the hope that their clients would have a week to arrange their affairs before beginning their terms at Joliet. Special emphasis was placed on a plea for time on the grounds that "a man who has a \$1,800,000 estate should be permitted at least the delay allotted manslaughter defendants in arranging his affairs."

William S. Forest, attorney for Lloyd, pleaded with Chief Justice Thompson at midnight for 30 days of grace. "My client must make arrangements for the management of his \$1,800,000 estate," the lawyer argued. "No man going to prison ought to have that much money," the judge remarked, as he refused the stay.

The chief justice's action affects also eleven Communists sentenced to a year each in jail, and two were fined. The Appeals have delayed execution of the sentences until now.

The Illinois authorities do not know where all the condemned men are, Lloyd Heath, special prosecutor, said today. They did not attempt to keep in touch with them.

Fredericton, Nov. 19—Rev. R. H. H. Bulteel, curate at Christ Church Cathedral in this city, preached his farewell sermon today. He will leave with his wife on Wednesday for Dorchester, Mass., where he has accepted a charge at All Saints' church. Saturday night he was presented with a purse by the Tuxis Boys' Club of the cathedral, in which he has been greatly interested. There also were presentations from the A. Y. P. A., the sidesmen of the cathedral, the Women's Auxiliary and by the congregations at New Maryland and Minto.

Rev. Mr. Bulteel has been in Fredericton three years and a half, taking the curacy here after leaving the chaplain service of the C. E. F. The departure of himself and wife is regretted by a large circle of friends.

For cooking, just add water

CARNATION MILK is much richer than whole milk because part of the water has been taken away by evaporation. For cooking, therefore, add an equal part of water to the Carnation you use and you will have milk of normal richness. If you want thinner milk, all you have to do is increase the amount of water. Use Carnation just as it comes from the container, or slightly diluted, for creaming coffee, fruits and cereals. Buy Carnation Milk regularly from your grocer. It is economical, convenient and absolutely pure. Send today for the Carnation Cook Book. Try this recipe.

CREAM WHITE SAUCE (For creaming vegetables) 2 tablespoonfuls flour, 1/3 cup Carnation Milk, 2 tablespoonfuls butter or substitute, 1/4 teaspoonful salt, 2/3 cup water. Melt butter or butter substitute, add flour and stir until thoroughly mixed. Add the milk diluted with the water and cook about five minutes or until mixture thickens, then add seasonings. This recipe makes one cup. All vegetables may be creamed. The vegetables should be cooked by either boiling or steaming. After cooking with salt, drain and add cream sauce.

COAL FACT FINDERS WONT PROSECUTE LAW VIOLATORS. G. O. Smith Tells Boston Women Aim of Commission.

Boston, Nov. 20.—There will be no prosecutions for any violations of law that may be found by the Federal fact-finding commission on coal, in the opinion of George O. Smith, a member of the commission.

Addressing the women's city club he said that his conception of the task set for the commission was to find out what the law is, not to prosecute the guilty.

"The law may grant to this body almost inquisitorial powers," the speaker continued, "but the purpose of learning where mistakes have been made in the past is primarily to help in charting a safe course for the future. Violations of economic or even statute laws are not to be sought with any punitive purpose in mind, only for the location of the offenders."

He said that the commission is not to be confused with the Federal fact-finding commission on coal, which is now being organized by the Federal government.

MANUFACTURERS AND RETAILERS

The Former Opening Retail Stores and Latter Adopt Co-operative Buying.

New York, Nov. 20.—Contentions between manufacturers and retailers leading to two interesting developments that have taken on a rapid pace within the recent past and threaten to assume more important proportions in the future.

In the wearing apparel lines there are a number of projects now under consideration for the opening of retail stores by manufacturers.

The other development is a move among retailers for more co-operative buying, and in one case, that of the local clothing and furnishes, to either establish their own producing plants or form a syndicate that would license producers to make up clothing to a specified standard to be sold under the individual retailer's own brand.

Urge Council To Retain Resale Clause in Contract

United Organizations Call on Commissioners to Carry Out Mandate of People—Resolution Passed.

A special meeting of the executive members of the United Organizations was held on Saturday, Nov. 18, for the purpose of discussing the attempt that is being made by friends of the Power Com.

At this point two or three of the members of the executive suggested that any commissioner who would so flatly oppose the will of the people be immediately recalled, but the chairman of the organizations, and a resolution was unanimously passed calling on the Mayor and commissioners to oppose the attempt.

In calling the meeting to order, the chairman said that the hydro force might well feel proud of the success that had been their on Nov. 18, when G. Fred Fisher, the hydro candidate, was elected as Mayor by an overwhelming majority.

All that is necessary for the citizens to do is to elect Mr. Willet, so that they shall receive the full benefits of the Musquash development, and with municipal distribution of the power for electricity will be reduced far below any that the Power Company could hope to supply.

BASEBALL MAN WRITES OF MOOSE HUNTING TRIPS

Pittsburg Post's Story of a Visit to Nova Scotia Woods

Tent Life Among Hills and Lakes Enjoyed by Writers Who Tell of the Ball Contests—A Word for Joe Page and Colonel Ham.

(By Edward F. Ballinger in Pittsburg Post.) Much has been written concerning the moose and his habits, and, furthermore, many hunters from the West and Pennsylvania district have visited the haunts of this big beast and brought home horns, heads and trophies as mute testimony of their marksmanship.

Five baseball writers made this excursion into the wilds of Canada, and while some of them have had years of experience in the game of running down newspaper stories and making box scores at major league contests, not one of the quietest knew anything more than hearsay about Mr. Moose.

Given Short Notice. It is not unusual for a newspaper man to be rushed away on the first train to some wreck, accident or murder scene hundreds of miles distant.

Joe Page is known in Pittsburg and every other place in which professional baseball is played. He is a resident of the Eastern Canada League and has organized numerous successful minor circuits.

Two years ago, the thought struck Page that it might be pleasing to his newspaper friends in the United States if a trip into Canada could be arranged as a sort of prize for some of the boys who cover the world's series.

Accordingly, last winter at their annual December meeting, the baseball writers were officially invited to select four of their members each fall to go along as special guests of the Canadian Pacific.

At Digby, the hunters entered automobiles and, with their rifles, started on a trail like a hawk. He drove the hunters about thirty miles farther into the interior. After reaching the end of a narrow automobile road through dense woodlands, the nimrod was led along a lonely path to the edge of an inlet where a motor boat was in waiting.

The five-chug over this big inland body of water was beset with some difficulties, as a strong breeze rendered the going quite rough, and not one of the voyagers escaped a vigorous splashing when the large whitecaps became frolicsome.

hang, of the Cleveland "News," but illness compelled him to decline and Irving Vaughan of the Chicago "Tribune" was asked to take his place.

The annual session of the scribes was held in the midst of the world's series and those who were honored with the order to travel to Nova Scotia had mighty short notice.

"Shooting the bull" is an everyday pastime for average sport writers but when it came to blasing away at the real bull moose, these babies were free to confess that they didn't "know the ropes."

Acting upon the advice of Hains, all hands procured rifles, warm wearing apparel and a supply of coffee. Powerful guns got the preference, but my own was a 30-06 Winchester purchased from my friend Hans Wagner.

their clothing on, even wearing caps and boots to bed. A roaring fire of hemlock logs served to keep their toes at a comfortable temperature.

At break of day the guides escorted the city chaps into the brush. Some got glimpses of moose, but most of these were cows and calves, which are protected by the game laws.

Footprints also told that Bruin had been roaming over the hills that same morning, but this bird is seldom seen to the naked eye. The black bear of Nova Scotia never comes to mingle with mankind.

Harlow promptly "laid out" the corpse and attended to the "bleeding." Later several other members of the party were taken to the scene and Chesterfield photographed the first moose killed by a newspaper scribe.

Moulding Says It Is His Family Medicine

"Tanlac has done my wife and myself so much good that we have made it our family medicine," says Frederick Moulding, 2313 14th street, Southwest, Calgary, Alberta.

"As for myself, I had been feeling just about half sick for some time. My appetite was very poor, nothing tasted right, and what I did eat seemed to do me little good.

"Two or three years ago my wife was troubled somewhat the same way. She had no appetite, was all run down and very nervous.

Liver Trouble Pains in Stomach

Most of the misery and ill-health that humanity is burdened with arise from disorders of the liver, stomach or bowels.

If you are feeling out of sorts, have pains in the stomach, especially after eating, sour stomach, bilious spells, sick or bilious headaches, heartburn, water brash, etc., you should take a few doses of Milburn's Laxa-Liver Pills.

Mr. T. C. Hallman, Highgate, Ont., writes: "I have had liver trouble and pains in the stomach for a long time. I started to use your Milburn's Laxa-Liver Pills and in a short time I noticed they were helping me."

INCOME TAX MADE NATION OF LIARS. Professor Bullock of Harvard University Assails Methods.

Boston, Nov. 20.—Methods used to collect the Federal income tax have made the American people a nation of liars, Professor Charles J. Bullock of Harvard University said in an address at the New England tax conference here.

He asserted that the morale of the people had been lowered through efforts of Federal authorities to collect taxes on a 100 per cent efficiency basis, declaring that the income levy might be regarded as a "gentleman's tax," and voicing the opinion that the people resent any attitude on the part of the Government which casts doubt on their honesty.

Albert B. Fales, director of the division of local taxation in the Massachusetts Department of Corporations and Taxation, asserted that valuations placed on buildings of all kinds in Massachusetts have increased 100 per cent since 1918. He said that in no State in the country did local assessors approximate more closely the fair cash value of property than in Massachusetts.

ROBBERS BIND TWO, GET \$12,000 LOOT. Hoboken Jeweler and Clerk Left Helpless in Store—Bandits Padlock Door and Escape.

New York, Nov. 20.—During the busiest time of the day, three men walked into the jewelry store of Louis Kramer at 614 Washington street Hoboken, and gagged Kramer and his clerk, stole merchandise valued at \$12,000 and disappeared after padlocking the front door to prevent investigation.

According to the story Kramer told the police, he was standing behind the counter about 11 o'clock in the morning when the three men entered. Two spoke to the jeweler's only assistant, Orlan Salley, a 17-year-old boy. The other man came directly up to the proprietor, and said he wanted an alarm clock.

As Kramer reached up for a clock he felt something poke him in the back. "Keep your hands up and don't make a noise," he heard the man say. Then, said Kramer, the robber forced him to go into a little office in the back of the building. A few minutes later another of the criminals had forced Salley there, and the jeweler and his clerk were bound and gagged.

After the robbery was over, the boy rolled to the front door and battered it with his feet. Persons outside heard the noise, and called the police, who broke down the padlocked door and released Kramer and his assistant. Kramer told the police that he had

FATHER CAN NOW LACE HIS BOOTS

Mary Sweet, a Resident of Halifax, Says Everyone Should Know About Drecto.

Gave Her Father Prompt Relief From Rheumatism and Stomach Trouble. There is not a remedy on the market today having such a reputation as Drecto for its power to overcome rheumatism, stomach, bowel, kidney and bladder trouble.

Mary Sweet, 12 Yukon St., Halifax, N. S., writes: "For a long time my father has suffered from rheumatism. Every joint and muscle in his body ached. His feet would swell so badly it was impossible for him to get his boots on."

He has only taken one bottle as yet, but he fully intends to complete the treatment, as the results are wonderful and we have noticed a big improvement in him. We would not hesitate to recommend Drecto to anyone, as we are thankful for what it has done for him in so short a time."

Go today to Ross Drug Co., St. John, and ask for Mr. Ranson, the Drecto Expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly if he believes Drecto will benefit you. Drecto is also sold in other cities as follows:

Moncton—Geo. O. Spencer. Charlottetown—E. A. Foster. Summerside—Gallant Drug Co., Ltd. St. Stephen—Clark's Drug Store. Woodstock—Newham & Slipp. Fredericton—Dibble's Drug Store. Chatham—McKenzie's. Bathurst—W. F. Pegg.

Our portrait is of Mr. MICHAEL T. ROONEY, of 66, Grandville Avenue, Long Eaton, England, who writes: "Some years ago whilst touring Ireland with 'Sanger's Royal Cream,' I contracted some kind of an irritable skin complaint which seemed to follow different treatments in the way of ointments and lotions, all of which utterly failed to give me the slightest relief. Recently at Long Eaton where I am engaged as Advertising Manager of The Picturehouse, the conductor there begged me to try Clarke's Blood Mixture, and to my relief, however, he, knowing its curative powers from experience, made me a present of a bottle, which I began to take. Recognizing a slight improvement in my skin, I got another bottle and continued the treatment until I had used four bottles, and now my skin is perfectly healthy again."

Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Blisters, Pimples, Eruptions, Rheumatism, etc., should realize that lotions and ointments can but give temporary relief—to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities. Clarke's why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

Free of all dealers—get that you get. Clarke's Blood Mixture. "Everybody's Blood Purifier."

BOWLING.

Garrison League. Two interesting games were rolled on the armories alleys on Saturday night. In that between the Atlantic Sugar Refineries and the Garrison Sergeant's Mess, the former took all points from the latter boys, Davidson for the losing team having a fine average of 104. The other game was between the Dominion Rubber System and the Maxims, who represent the Machine Gun Brigade. In this game the militia turned the tables and took all four points from the outsiders. Gunner Barry, starting for the winners, had an average of 98 1-3. The game on Monday evening between the Tigers and the C. A. M. C. is postponed as the former are having their annual inspection by the G. O. C. of the district.

Heart-breaking boat race between Yale and Harvard, with cheering thousands. Burning love scenes between Valentino and Wanda Hawley. Shimmering beauty of the Reincarnation Ball given by a Newport millionaire. Kidnapping of Valentino in the midst of his happiness by Hindu assassins. Wooting of Valentino in the Rajah's harem by a pretty dancing girl. The world-famous Indian Durbar, the king of all spectacles. Elaborate Musical Accompaniments. PATHE NEWS—TOPICS OF THE DAY. Senor Valentino's popularity is universal and his directors are very wisely confining his playing to roles best suited to his Latin personality and amorous style of acting. He is splendid in today's picture.

LOCAL NEWS

FIRE THIS MORNING.

An alarm was rung in this morning at 10:45 o'clock from Box 86 for a chimney fire in a house belonging to Mrs. Smith at 95 Queen street. The blaze was quickly extinguished and very little damage was reported.

SUNDAY SHOOTING.

The Times is in receipt of complaints about hunting on Sundays going on back of Glen Falls, Brookville and Torryburn. Yesterday the report of guns in that district is said to have been a regular bombardment and the residents would like to have some action taken.

AND THIS IS NOVEMBER.

A few lads were out on Saturday afternoon for a tramp in the woods in Rockwood Park and while strolling along the shore of the big artificial lake one of the boys, Arthur Lewell of Celebration street, captured a large butterfly which he very carefully carried home as a reminder of the very mild weather at this season of the year. The lads also brought home some bunches of pussy willows and moss wood buds.

DOUGLAS AVENUE CHURCH.

The services in the Douglas avenue Christian church yesterday were well attended. The pastor, Rev. William Phillips of Australia, preached both morning and evening. The morning subject was "The House of God" and in the evening the pastor spoke on "The Jewish Bloodshed." There was special music by the choir and several selections by the McEachern male quartette. Alex. Cuthbert presided at the organ and played a very effective organ prelude.

CONDEMN 61 COWS IN HERDS NEAR MONCTON

Moncton, N. B., Nov. 20.—As the result of tuberculosis test being applied by Dominion Government veterinarians to milk herds in the vicinity of Moncton some sixty-one cows have thus far been condemned and sent to Sussex to be slaughtered. The inspection has been going on for a week. Many more herds in the Moncton district have yet to be examined.

TWO MEN AND TWO WOMEN IN COURT CASE

Evidence in Matter of Early Morning Arrests—Comment by the Magistrate.

Harold Winchester, Henry Mitchell, Rebecca Scott and Gertrude Chittick were charged this morning with vagrancy. All pleaded not guilty. Police man Ganter said that about three o'clock on Sunday morning he had heard loud talking in Hanover street and had gone to see what the trouble was. Two other policemen had been with him. They had met the two women in the case closely followed by two men. He had stopped them and asked them where they were going. The women had made no reply but Winchester had said he was going home. He had said he lived in Brussels street and had replied "Prince Edward street." The Chittick woman had been drinking. He did not know any of the accused.

Police man Downing corroborated the evidence of Police man Ganter. He said the Scott girl had told him that she was coming from her sister's house. Her sister was sick in the hospital and she had been looking after her. Winchester said he had been walking up Hanover street with Mitchell and they had met the girls coming out of the house. As they all lived in the same street they had started to walk along together when they met the police.

Rebecca Scott said she had been up to her sister's house in Charlotte street in Hanover street and kept her there until 2:45 when she would stay no longer. As they came out of the alley by the house they met the two men and walked up the street with them.

The magistrate said he had called Commissioner Thornton's attention to the condition of affairs about the city. It was for the chief of Inspector Caples or someone in authority to take some action.

He told the accused that they were liable to nine months in jail and remanded them.

William Williamson, who pleaded guilty to the theft of a keg of horse-shoes from M. E. Agar, was allowed to go this morning on suspended sentence.

Carl Fisher pleaded guilty this morning to vagrancy. He said he came from Moncton and had been here about a month and a half. He had been living with his brother. Detective Power said he had been called into the house of Fisher's sister in Charlotte street some time ago to quell some trouble he had been making. Fisher was remanded for inquiry.

BUY TUG FOR WINTER WORK HERE

The St. John Dry Dock & Shipbuilding Co., Ltd., have purchased the tug Florence from the George Hall Company, of Montreal. The Florence develops 680 horse power and is about the same size as the Margaret Hackett. It will arrive here in about ten days and will be used for towing in the main harbor during the winter season.

SEEKS NEWS HERE OF A MISSING NEW YORK YOUNG MAN

Lester Jerome Strehan Not Heard From in Four Years—May Go by Name of Sullivan.

LOCAL NEWS

To the Editor of The Times: Sir—I wonder if you would assist me in my efforts to locate my brother, who left home November 18, 1919, and has never been heard from since, by inserting a small news item in your paper, in the hope that he may be in your city or nearby at the present time.

NAME: LESTER JEROME STREHAN.

Age: Was twenty when he left. Will be twenty-four in January. Height: About five feet nine inches. Weight: About 145 lbs. Eyes: Gray. Hair: Light brown, straight. Had a scar on one of his thighs. It is possible that he is going under the name of Sullivan, as that was my mother's name before she married. We do not want him to come home if he would rather stay away; all we do want to know is that he is alive and well. It is very hard on my parents just at this time of the year with Thanksgiving and Christmas coming on, as they are both heart-broken, so anything you may do to help will be greatly appreciated.

Yours very truly, ANNAMAY STREHAN.

770 Falmouth Pl., Bronx, New York, Nov. 14, 1922.

Another One.

Rev. George Scott, agent of the Children's Aid Society, today received from P. J. Ralph, 32 Charter, Oak Place, a check for \$500 reward for news of his son, Grattan, aged fourteen years, missing since September 6, last year. The boy is five feet two inches in height, weighs about 100 pounds, has blue eyes and light hair. The man on the street, the boy's left hand had been injured. He wore a gray-tan suit, striped waist, black stockings, white sneakers, and blue and orange tie cap. It is intimated that he may be found around carnival shows. His father is ill.

WANT C. G. M. M. SHIPS TO CARRY WESTERN CATTLE

Manitoba's Minister of Agriculture, Says Representations to be Made to Ottawa.

Winnipeg, Nov. 20.—Hon. Neil Cameron, Minister of Agriculture, announced Saturday that the Provincial Government intends to make representations to the Dominion Government asking that vessels of the Canadian Merchant Marine be placed in service for the purpose of transporting western cattle to Europe.

"The livestock industry in this province is in a very serious state at the present time," Cameron said, "and something will have to be done immediately to remedy it."

Mr. Cameron said that he had held conferences this week with H. H. Arkell, Dominion livestock commissioner, with regard to the situation and expected that the Dominion Government would return to Ottawa a definite policy of relief will be announced by Hon. W. R. Howarth.

NOVEMBER BRIDES

Moore-Macaulay. A quiet but pretty wedding was solemnized in St. Peter's church at 5:30 o'clock this morning when Rev. Father Moran, C. S. S. R., who was celebrant at nuptial mass, united in marriage Miss Eileen Macaulay, daughter of Mr. and Mrs. James Macaulay, and Andrew T. Moore. The wedding march was played by Professor Delleire and at the offertory "Ave Maria" was sung by Cyril Moore, brother of the groom.

The bride, who was attended by her sister, Miss Lucille, looked charming in a gown of champagne tulle and fawn ostrich, with silver trimmings, ermine fur, and a large picture hat trimmed with ostrich and groom left on a honeymoon trip. The bride's maid wore a corsage bouquet. The groom was supported by his brother Joseph.

The wedding breakfast was served at the home of the bride's parents, 460 Douglas avenue, after which the bride and groom left on a honeymoon trip. The bride's going-away suit was of brown velvet, with pink trimmings and a pan velvet hat trimmed with brown and fawn ostrich.

The popularity of the young couple was attested by the large number of gifts received, which included a handsome electric lamp from the staff of Macaulay Bros., where the bride was employed.

Pitt-Caples.

On Thursday at half-past three o'clock, at the home of Mr. and Mrs. Adino Pitt, Reed's Point, Kings County, a very pretty wedding was solemnized when their son, Douglas, was united in the bonds of holy matrimony to Miss Laura Caples of St. John by the Rev. Mr. Henson, Methodist minister of Long Reach. The bride was given in marriage by W. H. Daniels of Kingston, and entered the drawing room to the strains of Mendelssohn's Wedding March, sweetly played by Mrs. W. H. Daniels on the mandolin.

The ceremony was performed under a beautiful arch. The bride was attended by little Miss Alma Daniels as flower girl, carrying a basket of tiny roses. Master James Reed, nephew of the groom, also assisted. The bride looked charming in a gown of fawn colored duvety, with corsage bouquet of bride's roses. After the ceremony about fifty guests adjourned to the dining room, which was artistically decorated for the occasion, and enjoyed a bountiful supper. The presents, which were numerous, consisted of cut glass, linen and silver, and showed the esteem in which the young people are held. The bride's going-away costume was of navy blue tricotine, with hat to correspond. After a short honeymoon trip, Mr. and Mrs. Pitt will reside in Sydney street, St. John. Best wishes are extended to them for their future happiness.

MAJORITY OF COUNCIL BACK UP THE MAYOR

LOCAL NEWS

(Continued from page 1.) Commissioner Frink said there was only one solution of the hydro problem—the acquisition of the property and franchises of the N. B. Power Co. They had submitted proposals for sale and for arbitration which could not be considered, he added.

The Mayor, he said, had declared for making a proposal to the Power Company to purchase at the Supreme Court figures. He said if that proposal had been made when the Mayor assumed office, an answer might have been received this week.

The Power Co., he said must realize that they must move out of the picture. It was clear to him, he said, that the city was going into the electric distribution business. The city should make the proposal to the Power Co., and if they refused the offer the city would then be prepared to go ahead.

The declaration of the people, said the Mayor, was that the city should use the current either by covering the market of the Power Co. or by going into competition with them. As to how the current would be paid for, the Mayor said that the 1.2 cent rate was based on the 10,000,000 k. w. h., minimum. If the city bought out the Power Co., he felt that 16,000,000 would not be sufficient to meet the demands of the city.

In the city, he said the consumption of light power was about 4,100,000 k. w. h., and outside the city was 800,000 k. w. h. The revenue of the company in the vicinity of about \$500,000. Starting the sale at one-half the company's old prices would net \$250,000, and the cost of the 10,000,000 k. w. h., while distributing only 4,900,000 k. w. h.

He felt that even in competition the city could make up any loss suffered after four years. He thought that any loss in the first year could be taken care of by a loan, the interest on which would be taken care of in the same way. He said that a civic commission would be set up to study the matter which it was expected would be decreed later on.

Mr. Frink's Motion

Commissioner Frink moved that further consideration of the contract be deferred until an offer for the purchase of the property and franchises of the Power Co. had been made and a reply received either acknowledging or rejecting that offer, the basis of the offer to be the finding of the Supreme Court.

He said that the question raised by some people as to what the city was to do with the 10,000,000 k.w.h. was a fact admission on their part that power was at Musquash. He thought as soon as the offer to the Power Co. was rejected or accepted, the matter of distribution could then be attended to.

He thought that the N. B. Power Co. could not be put out of business for a few years anyway.

Commissioner Thornton was of the opinion that the matter might have been added to the motion that the city call for tenders for a distribution system.

Commissioner Wigmore said that this would cause further delay and was in line with propaganda of the N. B. Power Co. He thought if the contract was signed it would be a weapon in the hands of the city in dealing with the Power Company. He said the people declared by their votes that they wanted power at cost as soon as possible. He had received letters from several people and firms in the city cautioning him in dealing with the matter. He said he would have pre-arranged the letters more had they made any suggestion as to how the matter might be dealt with.

Commissioner Bullock said it was a matter of competition and the first result of that was the cut in the Power Co. prices. He felt that the city should adopt a stand and stick to it. He felt satisfied that the Power Company would not accept the city's offer and there would be further dickerings. He said if the city was to get into the business on April 1, they should get busy at once.

The Mayor pointed out that delay would be a charge against the cost of light and power to the city. It would increase the time when they could not use the power. He figured the cost at at least \$300 a day unless the city bought out the Power Co.

The Mayor denied that he was reckless in trusting the government. He felt that loss of time furnished an opportunity for the Power Company to take the matter more seriously against the city.

Commissioner Thornton said that there was much talk about the mandate of the people but he felt that the commissioners would be held responsible for any decision made in the matter.

Commissioner Frink said if his motion was voted down he would then move for the calling for tenders for a distribution system.

Regarding the matter of trusting the government, he asked if it was not about time for the government to trust the city.

Commissioner Frink said if the city could not withstand the propaganda of the Power Co., its power must be weak, but he did not think such was the case.

Motion Defeated.

The motion was lost, Commissioners Frink and Thornton voting "Yes" and the Mayor, Commissioners Bullock and Wigmore voting "No."

Commissioner Bullock then moved that plans and specifications be submitted by the Mayor for the erection of a distribution system. Commissioner Thornton seconded the motion.

With the council's permission, Premier Foster said that under the act of the New Brunswick Electric Power Commission was authorized to furnish plans and specifications and estimate of the cost of a distribution system and that information was now on hand in the commission's office. He said the commission could also furnish a prospectus showing the cost to the city of the power for one, two, three or four years, and any other information which the City Council request.

Commissioner Thornton said that the Mayor should take into consideration that the city owned all the poles and wires in the North End of the city. The motion was carried, only the Mayor voting against it. Adjournment was made until this afternoon.

HOME

One of the most sacred of words; a haven of rest and refreshment; a shelter in time of storm; a character mold where future citizenship is shaped and formed.

What can be more important and far-reaching than the influence of the home?

What can be sweeter than the memory of a home worthy of the name? Poor furniture has no place in a good home. Good furniture doesn't necessarily mean the most expensive; it's mostly a matter of taste and judgment.

It should be not only attractive, but solidly made, substantial, harmonious and a true reflection of the character and ideals of the buyer.

In this store, furniture is not merely furniture; it has a deeper meaning. Every piece must play its part in a harmonious whole; must render a genuine service of utility and satisfaction.

Such furniture is always by far the most economical in the truest sense. Let us think and plan with you in the furnishing of your ideal home. It will be a real pleasure.
