Steel Workers and Employers Engage in Great Struggle

Organized Labor Undertakes A Test of Relative Strength

Many Thousands of Men Quit Work, But Many Mills Still Are Running—Neither Side Yet Sure of Results But Both Issue Optimistic Statements; British Iron Workers Also Out

Pittsburg, Sept. 22—The struggle between organized labor and the employers in the steel industry was in full swing today. In the Pittsburg and nearby districts many thousands of men obeyed the order of their leaders and failed to report when the whistles blew for the day shifts to go to work.

Dawn found mill guards, borough and city police the mounted Pennsylvania state police, volunteer guards, deputy sheriffs, detectives and other guardians of the law on duty for any emergency.

Full protection, as far as could be made, was given to men who determined to go to work, the streets and roads leading to the mills in every steel community in the Monongahela, Allegheny and Ohio valleys being patrolled by armed guards.

State police had their first clash with crowds on Sunday afternoon, in North Clairton, and near McKees Port, where they broke up mass meetings at the request of local police officials.

Chicago, Sept. 22—Numbers of workers in plants of the United States Steel Corporation at Gary, South Chicago, Joliet and Indian Harbor, all in the Chicago district, at midnight joined the nationwide strike of steel workers called for this morning, but early today neither union representatives nor officials of the company were prepared to give exact figures as to the number of employees who had left their work.

It was admitted by company officials that others would fail to report for work at 8 o'clock, the hour for changing shifts.

The number of steel workers employed in the Chicago district is estimated at 90,000, and representatives of the unions today held no previous claims that at least eighty-five per cent of those workers would strike.

Late in July there was an examination before the court of evidence tending to show that Senator Humbert, who was acquitted in May of a charge of having dealings with the enemy, had tried to corrupt officials in the matter of contracts in the United States.

Sum of \$50 Disappeared From Pockets of J. O'Neill While He Was Bathing in Y. M. C. I.

In the police court this morning a case against Gregory Machias and Alexander Nicholas, who are charged with stealing \$50 from J. O'Neill, Gilbert's Lane, in the Y. M. C. I. building last Friday afternoon, was resumed.

J. O'Neill, the complainant, told of going to the Bank of Montreal branch at the corner of Union and Sydney streets and cashing a militia check for \$70. He then went to a store in Union street and purchased some articles, giving a \$10 bill to pay for them, and getting his change back and putting it in his left hand pocket.

Cleveland, Ohio, Sept. 22—Union leaders claimed that at least 15,000 steel workers were on strike this morning and that plants of some of the independent mills were closed.

Youngstown, Ohio, Sept. 22—Early reports from the various steel mill centers at 8 o'clock this morning indicated that the men had obeyed the strike order.

CARSON'S ANSWER TO STATEMENT BY THE PRESIDENT

Discusses Statement On The Irish Situation

Protests That Article 11 of The League of Nations Gives Naturalized Citizens No Right to Interfere in Affairs of Their Former Country

London, Sept. 20—(By the Associated Press)—President Wilson's attitude regarding the self-determination of Ireland has attracted the attention of Sir Edward Carson, the Ulster leader, who in a statement to the Associated Press today declared:—

As one anxious to see the League of Nations founded, to protect the world against the horrors of war, I do not desire to raise difficulties or anticipate decisions on questions which might arise in the gradual development of the sound system of jurisprudence under the covenant.

"Indeed, I find it difficult to understand from the answer given what statement of facts with relation to Ireland the president contemplated, which entitles any of the contracting parties to raise this question under section II of the covenant dealing with peace safeguards."

"I would like, however, in the interests of the success of the league, to point out that nothing would more likely lead to its failure than interference by any of the great contracting parties with the evolution of government in the realms of the others.

ENTERS A PROTEST

If President Wilson means to suggest that, because there is a population of Irish descent or Irish origin in the United States who sympathize with the claims of the Irish nationalists, this fact threatens to disturb the peaceful relations of the good understanding between the United States and the United Kingdom, and that therefore the case arises under section II of the covenant, I must with great respect enter a protest.

"There would be no end to interference founded on such a plan, which really means that citizens who have adopted a new country carry with them the right to interfere in the affairs of the country of their origin.

"It is not necessary to point out how disastrous the result would be, but there are too many obvious criticisms to be made by anyone who desires to make the League of Nations a failure from the start.

In reply to the question as to his attitude toward self-determination for Ireland, President Wilson said that his position was expressed in article II of the covenant under which it is declared that any member nation can call attention of the league to any circumstance whatever affecting international relations which threaten to disturb international peace or the good understanding between nations.

In his written answer, the president said: "My position on the subject of self-determination for Ireland is expressed in article II of the covenant in which I may say I was particularly interested, because it seemed to me necessary that a forum should be created to which all peoples could bring any matter which was likely to affect the peace and freedom of the world."

physical attraction there was in the marriage soon passes, and in the absence of any deeper and nobler feeling the men now flock to the divorce court to get release from their yows. Another and equally potent motive to get divorced, in Hungary, as elsewhere on the Continent, marriage is rather a commercial transaction than a romance. Even the beautiful woman, who is poor, forced the doors to matrimony closed, and men married mainly, not because they loved women, but because they wanted their money. A dowry was the one thing essential for marriage, and an assured private income on the part of the wife was the safest guarantee of the husband's unflinching loyalty and devotion. The introduction of communism and the confiscation of all private property caused the foundations of most of such "Mammon marriages" to collapse. It is not surprising, therefore, that the women of Hungary are most violently opposed to the new marriage and divorce law. The ideal aimed at by the Communist framers of the law may be high and theoretically sound, but in this dominion, as elsewhere in the movement, no account of men's frailty is taken. That vast change in the spirit which must precede greater social revolutions is still a long way off.

PRINCE REVIEWS
MEN FROM SIBERIA

Revelstoke, B. C., Sept. 21—En route on Saturday from Field to Revelstoke, the Prince of Wales inspected five hundred imperial soldiers, members of the Middlesex Regiment, under Col. P. T. Browne, who were on their way from Siberia. The men had alighted from their train at the little mountain station of Twin Butte, and they cheered the prince with great vigor, after he had passed down the line. The military men arrived at Vancouver this morning and are sailing for home from Montreal. After the royal train reached Revelstoke, where the prince received a warm welcome, the Dominion Park on Mount Revelstoke was officially opened by him and a bronze tablet erected on a large rock was unveiled with appropriate ceremonies. The prince lifted the Union Jack which covered it. In the evening the prince left for Vancouver. Thousands of people gave him a royal send-off at the station.

BEWARE OF TENDER,
INFLAMED GUMS

Pyorrhea, with a premature loss of teeth, is almost inevitable if you do not properly care for your gums. Here is the explanation: As you age, the body tissues naturally relax. You see this tissue loosening in the neck. It goes on in your gums, too. As you grow older, your gums shrink below the normal gum line. Through lack of care they become spongy and inflamed. Then you have Pyorrhea (Riggs' Disease). Pour out of five people over forty have Pyorrhea. Many undergo a costly, and often a painful, operation. Don't let a tender gum spot develop. These tender spots breed disease germs which enter the system through tiny openings—inflicting the joints or tonsils—or causing other ailments. Immediately get Forhan's, which positively prevents Pyorrhea if used in time and used consistently. Forhan's tones the gums and hardens them. They in turn keep the teeth healthy. Brush your teeth with Forhan's. It cleans them scientifically—keeps them white and clean. If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 38c and 60c tubes. All Druggists. —FORHAN'S, LTD., Montreal.

IN THE CHURCHES

Bishop Schofield of Vancouver delivered an impressive sermon on the forward movement of the Anglican church before a large congregation in the Mission church last evening. During the course of his remarks he said that the miserable stipend paid to the clergy were a shame to the church and their message of love was shouted to deaf ears. This forward movement, his lordship said, called for a new consecration of the rank and file of the church as well as the conversion of those without her fold.

In St. David's church last evening Rev. Mr. Farquhar, who is supplying in the absence of Rev. J. A. MacKeigan, gave an interesting address, dealing with experiences while serving as chaplain with the British forces in Siberia. Mr. MacKeigan is reported to be improving in health and will likely return to the city this week.

In Knox church at both services yesterday the speaker was Rev. Captain Thomas Harrison, formerly chaplain with the 5th Canadian Artillery in France. In the evening his sermon was based on the text "I have glorified Thee on earth; I have finished the work which Thou gavest me to do." His sermons proved of much interest. Captain Harrison is rooming at 40 Horsfield street, where he will be pleased to meet old friends.

A fortnight's renewal of the mission given a year ago was commenced yesterday in St. Peter's church, North End, by Rev. Father Sholley, Coghlan and McElrath, the last a former young man of that parish. This week's services are exclusively for the women, while next week will be for men only. The services yesterday drew very large crowds.

Rev. J. J. McCaskill, who served as major with the Montreal Highlanders in France in the chaplain's services, was heartily welcomed yesterday at St. Andrew's church, where he preached an eloquent sermon, taking the text "For He loveth our nation and built us a synagogue." Major McCaskill was formerly pastor of St. Matthew's church, Douglas avenue, but went overseas as chaplain of the 78th Highlanders, Montreal. While in the old country he was engaged for some time in "stumping" Wales and Scotland on missions for the British government.

Rev. Capt. W. F. Parker returned to Sussex on Wednesday after some time in Toronto, where he is undergoing treatment for wounds received at Etaples. While serving in a base hospital there he was wounded during an air raid. He is still lame but is recovering.

Because his wife testified her husband used his auto for joy-rides with other women, Warner Simpson, Milwaukee, was told by the court to sell the car and make up. He did.

WELCOMED HOME

Some thirty men for discharge in this district arrived in the city last evening aboard the S. S. Regina, landing at Halifax. They were heartily greeted at the depot, quite a crowd being assembled, and a brief speech of welcome and appreciation was made by R. E. Armstrong, secretary of the board of trade, who as a member of the citizens' committee was among those awaiting their return. Others with him were Miss Skinner, A. O. Skinner, S. Herbert Mayes, and Charles Robinson, secretary N. B. returned soldiers' commission. The men were taken to the armory in a large military motor. They represented many different units and varying lengths of overseas service.

Among the soldiers returning home yesterday was Private Harold Sheehan, the last of four brothers to return from overseas, sons of Cornelius Sheehan, who is employed with the Crowley Trunk Company here. When only fifteen years of age young Sheehan enlisted with the 11th Battalion, giving an older age and passing the doctors' test. GREAT IMPROVEMENT IN WESTFIELD ROAD

Splendid New Steel Bridge Over Milligan's Brook Practically Complete—Sharp Turns Being Blasted Out Bodily. Motorists who use the Westfield road frequently note approvingly the work which the provincial department of public works is carrying on upon the road and bridges practically all the way

from the city to Westfield. The largest piece of work is the erection of the new steel bridge at Milligan's Brook, on the city side of Hillendale. The structure is almost ready for use. All that remains to be done is the completion of the approaches and the building of the railing leading up to the bridge. The floor of this bridge is almost thirty feet above tide water and will cut off a depression almost to that extent in the road as it is at present. This is a fine piece of work and those viewing it are enthusiastic in their comments in the fact that the road will be straightened and graded up at this point.

Practically all the way from Ketepec to Acamad just above South Bay the road is being widened, by skirting out the bushes at the side, and ploughing up at the sides of the road the material being used to round up the centre. On the lower part of this stretch a serious effort is being made to blast out some sharp turns and at one place, particularly, just this side of Acamad an immense quantity of rock has been taken out and is being used further on to take out a depression and straighten out a bend in the road. Coming towards South Bay for a distance of nearly a mile splendid work has already been done improving the road with a road machine and large quantities of gravel. This work has made great progress during September, and the Westfield road is being largely used for driving and when the work of straightening and grading is completed it will prove one of the most popular driveways out of St. John.

When you see a young man sitting in the parlor with the ugliest four-year boy that ever frightened himself, jerking his necktie out of place, ruffling his shirt front, pulling his hair, kicking his shins, feeling in all his pockets for coppers, while the unresisting victim smiles all the time like the cover of a comic paper, you may safely say that the howling boy has a sister who is in a room not 20 feet away and that the young man doesn't go there just for the fun of playing with her brother.

over that left. I disagree with the experts who claim that first body punch hurt Willard. It was the left to the chin that licked him. He did not recover until after the fight, and then it was too late, of course.
"Jess is a great fighter, and has a great fight left in his system. I would like to get him to start again if Dempsey will give him a match. Tex Rickard told me that he would promote it."

STRENGTH FOR YOUNG MOTHERS
How Lydia E. Pinkham's Vegetable Compound Restores Health and Strength.
Lansing, Mich.—"After the birth of my child I was not able to stand on my feet. I was so weak I could not get up. I suffered such pains in my back I could not work or hardly take care of my baby. One of my neighbors recommended Lydia E. Pinkham's Vegetable Compound. I took it and used Lydia E. Pinkham's Sanative Wash, and I got better right away and was soon a new woman and could work hard, and I can recommend these remedies to other young mothers who are weak and ailing as I was."—Mrs. Ora O. Bowers, 621 S. Hosmer Street, Lansing, Mich.
Women who are in Mrs. Bowers' condition should not continue to suffer from weakness and pain—but profit from her experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.
For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience is at your service.

WILLARD MAY AGAIN FACE JACK DEMPSEY
Richard Trying to Induce Ex-Champion to Tackle His Successor
New York, Sept. 22.—There are two men who are anxious to have Jess Willard again enter the ring and make attempts to wrest the title from his conqueror, Jack Dempsey. One of them is Ray Archer, Willard's business manager, and the other is Tex Rickard, who promoted the Toledo battle. Tex believes they will draw again, and contends that Willard can do much better the next time, and declares he is willing to dig up a spot and talk business if Jess and Jack will consent.
Tex has not much hope of inducing Willard to go through a severe training grind again and take the short end of the purse just to get even with Jess who he is ready and anxious to start the ball rolling if the fighters give him the word.
They argue that Willard was too confident, took reckless chances, and was licked by a punch he took because he did not think he could get even. Now that he knows better, they say, Jess would fight carefully, as he always did before, and perhaps do things to Jack after the latter tries to accomplish what he did at Toledo, when "Jess was holding his chin out for him."

SEPTEMBER BRIDES

Boles-Coleman. A wedding of much interest to a large circle of friends was solemnized in the Douglas avenue Christian church on Saturday afternoon at 3 o'clock.

Referring to the wire fence which the C. P. R. have erected in Protection street, Mr. Thornton said it was a hindrance to the passage of fire apparatus. He suggested the commissioner of public works might remedy the complaint that the roadbed was high and the gutter shallow. He moved that the C. P. R. be requested to remove the fence in question.

The mayor said that the latter matter was now to be taken up by the Board of Commerce and they were to meet here.

A letter was received from Engineers & Contractors, Ltd., protesting against a charge of \$50 for a delay in the contract for putting in the pile bracing at the ferry slip.

Mr. Bullock said that the builders had been delayed by the building of the grand stand for the children at Reed's Point at the actual cost of labor and he moved that this amount be refunded.

Mr. Bullock brought up the matter of widening the ferry floats. He said at times the traffic coming off the boat endangered the safety of the passengers coming off the boat.

The engineer said that \$4,000 would have to be spent on the floats propping up the braces on which the floats rest. Another \$4,000 would be necessary to widen the pathway.

The mayor read a letter protesting against the expense saying that the danger could be removed by holding the teams until the passengers got on or off the boat.

Mr. Bullock said this would interfere with the general schedule of the boat. He said the steady increase and the correspondent's suggestion would cause a half hour schedule to be adopted to the inconvenience of the public.

Mr. Jones said that as the ferry was costing so much at the present time this expense should be held over at least until next year.

PLAN TO WIDEN FERRY FLOATS IS DEFEATED

Opposed on Account of Expense - Contract For Repairing West Side Trestle Awarded - Rumor of Higher Street Car Fares Reaches City Commissioner

The opposition of Commissioners Jones and Thomson defeated the proposal of Commissioner Bullock for a bond issue amounting to \$4,000 to provide for the widening of the approaches to the ferry floats at the committee meeting of the common council this morning.

Mr. Thornton said he heard a rumor regarding the N. B. Power Co. trestle at Rodney wharf to the effect that it was not safe.

Mr. Thornton said there was a depression in the sidewalk that might be repaired.

Mr. Bullock suggested a sewer to remedy the difficulty. The matter was laid over for further consideration.

Referring to the application of the N. B. Telephone Co. about to be presented to the Public Utilities Commission to increase their rates, Mr. Fisher said that he had an application from the telephone company to grant permission to put up several guy wires.

The mayor said that the latter matter was now to be taken up by the Board of Commerce and they were to meet here.
