This is the somewhat startling announcement made this morning by the Morning Post which says that this communication will be established through the Marconi station which will be erected at North Peterson near Bridgewater.

At first the station will be used purely for experimental work but officials who are cognizant with all the details of recent departments are confident that development of commercial telephones between these countries will be rapid and that the regular interchange of voices across the Atlantic is now only a matter of months. It is predicted that by next fall Canada will be able to speak directly to Australia.

REMEDY SOUGHT

Will Cost £38,000 To Prevent Further Ravages Of Ocean

Canadian Press Despatch. LONDON, April 18.—For many years the greatest anxiety has existed on many parts of the east coast of England, owing to the increasing erosion of the coast line. The matter formed the subject of enquiry for a royal commission, whose finding, however, up to the present do not seem to have much effect upon the advance of the waves.

PROTECTION SOUGHT

ENGLAND TRIES TO ARRIVE AT BASIS FOR PACT

Initiative Is Left In Hands of Russian Leaders

LOAN IS PROBLEM

Question of Cash Advance Hangs on Promise Of Soviet To Behave

By HERBERT BAILEY. British United Press. LONDON, April 18.—Negotiations have begun this week with the object of strengthening the tie of relationship between the British and Soviet governments.

The Baldwin government has recognized from the very first that as soon as public indignation against the Soviet government, aroused by the Zinovieff letter, was subsided, the time was bound to come when the whole question of the relations between Britain and Soviet Russia would have to be reviewed. The authorities went to work very quietly and during the last few weeks there have been several unofficial feelers put out tentatively to see if some arrangement could not be reached or at least if some basis of agreement could not be decided upon.

RECOGNITION QUESTION

The question which the British sought to discover in these preliminary talks was whether or not the Russian government was prepared to give those guarantees which are necessary for the granting of full recognition of Moscow by Britain.

British has throughout these negotiations adopted the attitude that the proposals must emanate from Russia and that the initiative rests with the Soviet leaders. This was quite clearly intimated by Rakovskiy, the Russian minister in London, when he called at the Foreign Office to see if the first definite step in the negotiations could not be reached.

The Soviet, however, have, from the beginning, taken the same stand they adopted when the negotiations were under way with Ramsay MacDonald, namely, that a loan by Britain for the rehabilitation of Russia was a sine qua non of any agreement.

REFUSES LOAN

The Baldwin government has intimated quite clearly that it has no intention of making any such conditional loan and refuses to alter this stand one iota. On the other hand while the government is not itself prepared to offer its official signature on any preliminary note for Russia they have intimated to Rakovskiy that if Soviet Russia can induce the London financiers to advance them any money, such a loan will have paternal blessing of the government on condition that Britain receives guarantees of Russia's good behavior.

GRANT ADJUDGED TO BE NOT GUILTY

Freed of Manslaughter in Connection With the Death of Charles Mitchell.

RICHBURTO, N.B., April 17.—A verdict of "not guilty" was given this afternoon in the case of William Grant charged with manslaughter in the killing of Charles Mitchell, and Judge Byrne expressed concurrence with the jury's finding, which had been given after one hour's deliberation.

The trial was the first manslaughter case that has come before Judge Byrne since his elevation to the bench. The court room was thronged at all the sessions and there were many women present today.

E. R. MacDonald, counsel for the prisoner, made a powerful plea on his behalf in a two-hour address to the jury. He said that Grant had made every effort to avoid Mitchell and had been justified in shooting to protect his own life.

## BOTH ARE WILLING.

It appears that consideration of the railway situation in Canada has already led to some discussion between President E. W. Beatty of the C. P. R. and Sir Henry Thornton, looking to measures of co-operation, in the hope of avoiding costly and unnecessary duplication of services.

In a Montreal despatch of yesterday the President of the C. P. R. was quoted as saying that his company is entirely agreeable "to any fair rearrangement of the country's railway services which will tend to reduce economic duplication of the services where such exists." The train services of the C. P. R., Mr. Beatty went on to say, have been changed but slightly since the close of the war, but under present-day conditions of traffic, the volume having diminished, his company is anxious to do its part fully in working out the situation in a manner that will best serve the interests of Canada as a whole. He said that, having this end in view, "certain definite proposals" are already under discussion between Sir Henry Thornton and himself, and he hopes these will have satisfactory results.

Sir Henry Thornton briefly confirms the statement of Mr. Beatty, and expresses the hope that the outcome will be satisfactory. He intimates that the proposals now under consideration came from him.

These statements from the heads of the two great railway systems are both important and significant. Obviously consideration of the definite proposals to which Mr. Beatty refers might well result in agreements leading to most important economies. Progress in this matter is much to be desired. Without sacrificing the legitimate interests or prospects of either system, and likewise without depriving the public of any essential services, it surely is not only desirable but practicable to save a great deal of money for both railways, and ultimately for the public, by avoiding duplication and by refraining from any form of expensive rivalry not justified by the actual transportation requirements of the country.

## RACES IN CANADA.

Dean Inge, who is coming to Canada, is one of the Londoners who have joined the Morning Post in expressing the fear that races other than those of British stock are becoming too numerous in this country. In both Toronto and Montreal newspapers are expressing the hope that while he is in Canada he will delve into the census figures.

It is pointed out for his benefit and that of those who share his views that the English-speaking population of the Dominion has increased rather than declined relatively since 1901, while others have gained less rapidly. This is due largely to the fact that the English-speaking element has been augmented very largely by immigration. The statement sometimes made, that foreign-born immigrants are over-running Canada and crowding out the natives, particularly in the Western Provinces, is proved unfounded by the census figures of 1921. In 1911 the foreign-born population amounted to 10.4 per cent. of the whole, and in 1921 it had fallen to 10.1.

In 1921 the total number of people in Canada who were born elsewhere was 1,955,738, but of these more than half were born in the United Kingdom or in some other part of the Empire. Actually 45.52 per cent. were born in non-British countries, and of these a great proportion came from the United States. For a short time during the war arriving immigrants of foreign birth outnumbered the British, but the general rule has been otherwise. During the war years immigration was greatly reduced, and naturally we received practically no additions from British countries. During those years there were 75,093 immigrants, and of these more than half came from the United States.

There were in 1921, 1,065,454 immigrants of British birth in Canada, and 459,577 of them were living in Ontario. British Columbia had 169,752, and Manitoba 113,114. Saskatchewan has the greatest population of foreign birth, the number at the time of the last census being 199,222. Ontario has received practically more than any of the other provinces, practically a third of the whole. Saskatchewan, Alberta and Quebec following in that order. Toronto has not only absorbed more immigrants than any other Canadian city, but has received by far the highest number of those of British birth.

The Canadian-born plus the newcomers from the United Kingdom make up a very great majority of Canada's population, and of those born outside the Empire the Americans make up a considerable proportion. Throughout the West to-day there is a strong call for immigrants. The people of that region look back enviously to the period before the war when in a single year Canada received half a million settlers. They want a more careful selection, of course, but they feel that immigration on a great scale would go a great way toward increased production and would assist wonderfully in meeting the problems of taxation and transportation.

## UP AGAIN, CAILLAUX.

An astonishing career is that of Joseph Caillaux, who is to be Minister of Finance in France's new Cabinet, for only a few years ago, during the war, he was deprived of his civil rights and practically convicted of treason. He was charged, rightly or wrongly, with being a "defeatist," and millions of his countrymen held him in execration.

This man, who is credited with financial ability of the highest order, was France's Minister of Finance from 1905 until 1911, when he became Premier and served for a short time in that capacity. He held the financial post under Clemenceau, but they became bitter enemies during the war and it was supposed that Caillaux was forever discredited. He served in the army for a time at the outbreak of hostilities, and was assigned to the financial inspection department of the army. Soon afterwards his activities fell under suspicion and he went to South America. He was then accused of conspiring against the interests of France and favoring peace terms which would have been ruinous to his country. He returned subsequently to Paris and was suspected of being involved with Bolo Pasha. The editor of the Paris Journal, Figaro, was among those accusing him of treasonable communication with the enemy, and during the agitation which followed, and at a time when disclosures were threatened, Madame Caillaux shot the editor, whom she accused of trying to ruin her husband. The lady was duly acquitted.

Caillaux, then a member of the Chamber of Deputies, was deprived of his parliamentary immunity in December, 1917, and in the following January he was arrested and placed on trial before the Senate. After a great deal of delay, lasting until March, 1920, he was actually found guilty of commerce with the enemy, and sentenced to imprisonment for three years, five years' banishment, and loss of political rights for ten years. After the Herriot administration gained office an amnesty law was passed and Caillaux was included among those to whom it applied. His return to Paris was marked by a demonstration on the part of his friends and some disorder on the part of his opponents. Since that time he has been increasingly active, and a short time ago he made an address which attracted wide attention, dealing with the French debt and professing to have evolved a plan whereby the country could meet its obligations.

It is strange enough that this man should find a high position in the new Cabinet at a time when Foch is warning France against the militarist designs of Germany, the country with which Caillaux not many years ago was accused of having treasonable communication.

## Wonder Spots of The Empire

Sydney Harbor, Australia  
 (Copyright)  
 To the Australian it would be difficult to cite an object that would stir more national pride than the mention of Sydney Harbor. Its marvelous formation puts it in the front rank of shipping shelters of the world. A space one mile in width opens out upon the expanding Pacific, and forms the only entrance to the harbor. Behind that entrance there is safety for the combined tonnage of the world, and a vast amount to spare. On the official maps the harbor is designated as Port Jackson, but to the popular mind it is always Sydney Harbor.

Sydney is located on the southern shore of the bay, a position which allows for dockage space all along the entire eastern aspect of the commercial section, as well as the northern face of the city. It is in the extreme north of the city where the Circular Quay is located. Here the great liners from Europe, China, and Japan make their moorings. Canadian ships are located on one of the docks facing the eastern waterfront, a collection of docks exceeding four thousand feet of wharf frontage and known as Darling Harbor.

Many of the docks are fitted with stationary and traveling cranes, refrigerating machinery and immense sheds for the storage of corn and wool. Within the last few years the refrigerating system has been extended in such a manner that thousands of frozen mutton and rabbit carcasses can be held for long periods without deterioration. The total length of wharves and quays belonging to the port exceeds twenty-three miles.

Port Jackson is remarkably free from islands, there being but seven small ones in the large area of the harbor. On one of these, Cockatoo Island, the government maintain large dry docks. On the mainland, just to the east of the city, there are five large floating dry docks for the repair and adjustment of damaged ships.

## WHEN?

(Ottawa Citizen)  
 Speculation continues rife as to whether or not there will be an election this year. On that point there is every reason to believe that the conclusion will not be reached until the end of the session. Reports that it has been decided that the government will take the plunge in October and even specifying the probable date are known to be utterly devoid of fact.

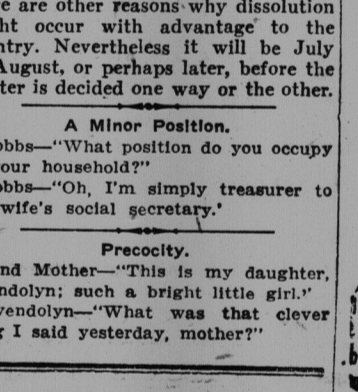

There is reason to believe that the cabinet is of two opinions on the question. Some of them want an election in the fall, others in their own mind next year, others again are non-committal. The divided opinion extends also to the members, but not unreasonably most of them are disposed to oppose an appeal to the country unless it becomes a constitutional necessity. There is a disposition against dropping the substance to grasp for the shadow.

The facts are that no one is in position to say whether or not there will be an election this year, because it depends upon certain contingencies as to whom outside the horoscope is obscure. If the Liberals retain the government of three provinces where provincial elections are impending, and if the crops are good and if business picks up, the chances will all be propitious for an election. If, on these lines, adversity is encountered the influence will be the other way. Just what will happen in these respects one man's guess at the present time is as good as another's, or as good as that of the government itself.

However, the chances ought to favor an election. It is customary to have one every four years; cabinet reconstruction is essential and it rarely occurs until an eye of an election; seven or eight senatorial jobs are vacant and they are all being kept warm in the event members of parliament, and besides there are other reasons why dissolution might occur with advantage to the country. Nevertheless it will be July or August, or perhaps later, before the matter is decided one way or the other.

Everybody has seen this woman. Her number is legion—the neat little widow who goes out to sew. Sometimes her children grow up a help and a comfort to her. In many cases she is away from them so much, their training suffers. It is a common tragedy in the families of the uninsured.

No man yet recorded ever thought his wife would come to that—to going out to sew—to eking out a livelihood for herself and her children by her needle. But many, indeed, have blinded themselves to the risk they ran and the possibility their wives might have to face. You—would you have your wife go out to sew?

Think now. Are you carrying adequate insurance? Talk to our nearest agent. He will give you sincere counsel. Or write to this office for the Mutual Book.

The Mutual Life of Canada is the original pioneer Mutual life insurance company of Canada. It is one of the institutions of Canada, with a clear record of steady growth and increasing success extending over half a century. It was founded 1869 to give its policyholders the benefits of life insurance at the lowest possible cost commensurate with absolute security. The Mutual Book tells all about the various Mutual policies. Write for it to-day.

GIVES CLUB TALK ON FEEBLE-MINDED

Dr. Mabel Hanington Talks on Public Mental and Provincial Institution.

An impressive and instructive lecture was given yesterday by Dr. Mabel Hanington before the University Women's Club on the subject of the feeble-minded.

INSTITUTION POSSIBLE. Dr. Hanington's experience as a medical inspector of the schools has brought the question of mental deficiency compellingly to her attention.

She considers it a basis of all great social evils, delinquency and crime. To prove her contention she cited examples of mental defectives who have come under her observation in the city and of what they were costing the city.

She expressed her confidence that as soon as intelligent public opinion was behind the move, the government would be ready to proceed with a provincial institution for the feeble-minded in which the inmates could be not only protected, but become happy and self-sustaining, and thus the problem could be very largely met in the province.

Dr. Hanington also touched on the work of Dr. Parks at the immigration centre in determining the mental capacity of the immigrants and emphasized the necessity of refusing admittance into Canada of all subnormal persons.

The nearer normal a defective is, on that account, the greater the menace to the community, Dr. Hanington said.

At this meeting the University Women's Club decided to become a corporate member of the League of Nations Society of Canada in Saint John.

The club were the guests of Mrs. D. V. White, who served tea informally at the close.

Deaths

Robert McAndrews Mrs. E. McAndrews received word yesterday of the death of his brother, Robert, which occurred in Chicago, this week. Robert McAndrews was formerly engaged in the grocery business and his store was located at the head of King street before the great fire of 1877. His place of business was destroyed at the time of the big fire and after the fire he went to Denver, Col., where he was located for some time. Later he removed to Chicago which has been his home for years.

In the old days he was prominent in sports in Saint John and played on the famous "Athletes" ball team. He is survived by his wife, two sons and two daughters in Chicago, two brothers, F. A. McAndrews, of this city, and Charles, of Lynn, Mass., and two sisters, Mrs. Alfred Heans, of Saint John, and Mrs. John Jenkins, of Reading, Mass. The funeral took place in Chicago on Thursday.

Mrs. E. Blanche Rainnie, R. N. Heartfelt regret is being expressed in Hampton at the death of Mrs. E. Blanche Rainnie, widow of William J. Rainnie. She was a daughter of Mrs. Jane Beard, and the late J.

Walter Beard of Saint John, and is survived by her mother, and two sisters, Mrs. Harry P. Knight of Edmonton, Alberta, and Miss Pauline Beard, at home. Mr. Rainnie died some years ago, and it was after his early death that Mrs. Rainnie, still a young woman, took up nursing, in which she excelled, winning high praise for her efficiency, and loving respect for her kindliness. Her quiet deeds of helpfulness have left a fragrant memory among her large acquaintanceship, as well as among her many relatives and friends. The funeral service will be held in St. Mary's church, Hampton, on Monday, the service to be conducted by Rev. Walter P. Dunham, rector, after which the body will be brought to Saint John for interment in Fernhill in the family lot.

Robert G. Flewelling. The death of Robert G. Flewelling at his home in Hampton last evening, removed within the year, the second of the sons of the late Guilford Flewelling and has left only one male survivor of that branch of the family, Edward Flewelling of Hampton, who was with his brother when he died. Mr. Flewelling had been very ill with pneumonia, but was thought to be recovering, when acute heart trouble came, causing his sudden death. He was with the G. and G. Flewelling Manufacturing Company, practically all his life, and was in charge of the mill office. After the death of his father, he became manager and carried on the manufacturing successfully until the entire property was disposed of to Randolph & Baker a few years ago. Since then Mr. Flewelling and his wife, who was Miss Louise Dixon of Hampton, lived in their pretty home at Hampton. Although not prominent in public matters, Mr. Flewelling took an active part in the affairs of the Baptist church at Hampton and was keenly interested in all movements for the betterment and beautification of the community. Three daughters survive—Miss Grace Flewelling, a photographic artist in New York; Mrs. Joseph Howard of Boston and Miss Kathleen Flewelling at home, and three sisters, Mrs. John MacKinnon of Toronto, Mrs. Benjamin Glover and Miss Besie Flewelling of Esteban, Sask. The funeral will be held in Hampton, with burial in the family lot.

VERY SUCCESSFUL. McKenna division, Ladies' Auxiliary of the Brotherhood of Railway Locomotive Engineers, has received satisfactory reports of the "Get Together" dance, held this week in the Immigration Sheds. The committee from the auxiliary received hearty thanks from a meeting Tuesday evening. Mrs. Charles Parice, president, was in the chair.

MONCTON People Objects to His Statements Regarding the Delegation to Ottawa.

MONCTON, April 17.—The Moncton Board of Trade members who formed part of the recent Maritime delegation to Ottawa on Maritime questions, have taken much objection to a statement reported as being made by Attorney-General Rand in the local Legislature on Wednesday in which he said the delegation made itself ridiculous. "They didn't know what they went after, and didn't know when they got there what they wanted."

CARE FOR MORE CHILDREN. J. Herbert Crockett, potentate of Luxor Temple, Mystic Shrine, was notified yesterday that three more children from New Brunswick could be cared for in the Shriners' Hospital, Montreal and arrangements are being made to send them to the institution next week. It was said that good progress was being made by the children now undergoing treatment at the hospital.

Baby's resties night might be avoided. Scalded skin and other skin troubles are common causes of restlessness, and often could be avoided by careful bathing with Baby's Own Soap. Its fragrant lather cleanses and heals Baby's skin, and prepares for restful sleep.

## F. M. SCLANDERS IS HONORED AT BORDER CITIES

Check Presented to New Official of Saint John Trade Board

SERVICES REVIEWED BY FORD VICE-CHIEF

Work in Building Up Ontario Industrial Centre Is Lauded.

WINDSOR, Ont., April 17.—F. Maclure Sclanders, the new Chamber of Commerce commissioner for Saint John, had farewell to the Border Cities yesterday afternoon, when he was given a luncheon in the offices of the Ford Motor Company of Canada, Limited, and which was attended by members of the manufacturers' division of the Border Cities Chamber of Commerce. W. R. Campbell, vice-president and treasurer of the company, presided and the leading local manufacturers attended.

Mr. Campbell voiced regret at the departure of Mr. Sclanders from the Border Cities. He cited figures showing how the Border Cities had grown during the seven years Mr. Sclanders had served them so faithfully and well as commissioner of the Border Chamber of Commerce.

**POPULATION JUMPS**  
The Border Cities had grown from

41,000 when Mr. Sclanders came, to a present population of 80,000. The bank clearings and customs receipts had increased by millions of dollars, while the number of industries had also increased.

Mr. Sclanders, as the figures showed, had certainly developed business, helped them to solve their problems successfully, and given the Border Cities publicity of the finest standard. He was going to new territory in

which the speaker was sure Mr. Sclanders would find great scope for using his excellent ability, which had done so much to benefit the Border municipalities in so many ways.

As chairman of the manufacturers' section of the Chamber of Commerce, Mr. Campbell, deeply regretted that Mr. Sclanders was leaving and he was sure that he expressed the sentiments of the whole chamber and the Border Cities when he said that his

departure would be felt keenly everywhere in the district.

### SERVICES VALUED

The Chamber of Commerce deeply appreciated his services during his term of office and as a token of their respect and appreciation of his fine work Mr. Campbell presented to Mr. Sclanders a check subscribed to by those present.

Several ex-presidents of the Cham-

ber of Commerce endorsed Mr. Campbell's remarks and wished Mr. Sclanders every success in his new field.

In reply, Saint John's new Commissioner said his stay in the Border Cities was always pleasant. He had had the close and hearty co-operation of earnest men. He knew that there was much work ahead of him, but he felt that it was his duty to do what he could. He declared that the work done in the Border Cities was due not so much to himself, but to the combined

efforts of the men who were members of the chamber. He thanked them for the gift. He was not going to a strange area, for Saint John was the first place he saw in Canada when he came from South Africa 20 years ago. He had learned to like the place and the hospitable people there. Since that time his holidays had always been spent in the neighborhood of the place to which he was now going.

## 25% More Power in New Jewett Motor

THE Jewett Motor improved. It seemed impossible. For few motors of any type or size have equalled Jewett's amazing past performance.

Records on hill and track, established 3 years ago by the first great Jewett Motor, still stand—unchallenged by any car.

But even this remarkable performance was not enough. Months of research and testing have now produced this new—greater

Jewett Motor. A motor so smooth—so quiet—so vibrationless at all speeds that you will scarcely hear it. Yet with power that seems limitless, 25% more than the old Jewett without increasing the size.

Study this motor! Ask the Paige-Jewett dealer to show you these remarkable improvements. Then take the wheel of a new Jewett and make your own test. Five minutes will prove all we say. (54-3)

Cup Custard

1/2 cup St. Charles Milk, 1/2 cup water, 1 egg beaten, 2 tablespoons sugar, 1/2 teaspoon salt, nutmeg and vanilla. Dissolve St. Charles milk with the water and bring to scolding point. Add sugar and salt in beaten egg. Pour over (then gradually) scalded milk, flavor to taste. Pour in custard cups. Place in deep pan and pour boiling water around until it nearly reaches top of cups. Bake in moderate oven about twenty minutes.

Spanish Cream

1 1/2 cups St. Charles Milk, diluted with 1 1/2 cups water, 1/2 teaspoon salt, 1/2 cup granulated sugar, 1 egg white, 1/2 cup granulated gelatin. Let gelatin stand in the milk for five minutes, then scald the mixture. Combine egg whites, sugar and salt with the scalded milk, and cook until slightly thickened like a custard. Then stir mixture into egg whites beaten stiff, add vanilla. Turn into individual moulds which have been dipped in cold water and when set, unmould and serve with light cream, or preserved fruit.

Prune Snow

1/2 cup St. Charles Milk, 1/2 cup water, 1 pint well cooled, sifted prunes, 1/2 cup granulated sugar, 1/2 teaspoonful butter, 2 egg whites, 1/2 cupful evaporated milk. Combine the prunes, milk, granulated sugar and butter in a shallow baking dish. Make a meringue with two egg whites and powdered sugar, spread over prunes, place in very slow oven, bake fifteen to twenty minutes, when milk will be absorbed by prunes and the meringue a delicate brown.

## F. M. SCLANDERS IS HONORED AT BORDER CITIES

Check Presented to New Official of Saint John Trade Board

SERVICES REVIEWED BY FORD VICE-CHIEF

Work in Building Up Ontario Industrial Centre Is Lauded.

WINDSOR, Ont., April 17.—F. Maclure Sclanders, the new Chamber of Commerce commissioner for Saint John, had farwell to the Border Cities yesterday afternoon, when he was given a luncheon in the offices of the Ford Motor Company of Canada, Limited, and which was attended by members of the manufacturers' division of the Border Cities Chamber of Commerce. W. R. Campbell, vice-president and treasurer of the company, presided and the leading local manufacturers attended.

POPULATION JUMPS

The Border Cities had grown from

41,000 when Mr. Sclanders came, to a present population of 80,000. The bank clearings and customs receipts had increased by millions of dollars, while the number of industries had also increased.

Mr. Sclanders, as the figures showed, had certainly developed business, helped them to solve their problems successfully, and given the Border Cities publicity of the finest standard.

He was going to new territory

which the speaker was sure Mr. Sclanders would find great scope for using his excellent ability, which had done so much to benefit the Border municipalities in so many ways.

As chairman of the manufacturers' section of the Chamber of Commerce, he, Mr. Campbell, deeply regretted that Mr. Sclanders was leaving and he was sure that he expressed the sentiments of the whole chamber and the Border Cities when he said that his

departure would be felt keenly everywhere in the district.

SERVICES VALUED

The Chamber of Commerce deeply appreciated his services during his term of office and as a token of their respect and appreciation of his fine work Mr. Campbell presented to Mr. Sclanders a check subscribed to by those present.

Several ex-presidents of the Cham-

ber of Commerce endorsed Mr. Campbell's remarks and wished Mr. Sclanders every success in his new field.

In reply, Saint John's new Commissioner said his stay in the Border Cities was always pleasant. He had had the close and hearty co-operation of earnest men. He knew that there was much work ahead of him, but he felt that it was his duty to do what he could. He declared that the work done in the Border Cities was due not so much to himself, but to the combined

efforts of the men who were members of the chamber. He thanked them for the gift. He was not going to a strange area, for Saint John was the first place he saw in Canada when he came from South Africa 20 years ago. He had learned to like the place and the hospitable people there. Since that time his holidays had always been spent in the neighborhood of the place to which he was now going.

## 25% More Power in New Jewett Motor

THE Jewett Motor improved. It seemed impossible. For few motors of any type or size have equalled Jewett's amazing past performance.

Records on hill and track, established 3 years ago by the first great Jewett Motor, still stand—unchallenged by any car.

But even this remarkable performance was not enough. Months of research and testing have now produced this new—greater

Jewett Motor. A motor so smooth—so quiet—so vibrationless at all speeds that you will scarcely hear it. Yet with power that seems limitless. 25% more than the old Jewett without increasing the size.

Study this motor! Ask the Paige-Jewett dealer to show you these remarkable improvements. Then take the wheel of a new Jewett and make your own test. Five minutes will prove all we say.

TROTZKY PLANS RETURN TO POWER

DEPOSED LEADER IS OFFERED NEW APPOINTMENT

Important Post in Soviet Cabinet For Him is Expectation WAS OFFERED JAP AMBASSADORSHIP Opposition of Kamenev and Zinovieff Has Been Overcome.

MOSCOW, April 18.—Leon Trotsky may soon return to political life, it is believed that the deposed War Minister, within a few weeks, will be reappointed to an important post in the Soviet cabinet, probably to the Council of Labor and Defence, the Supreme Economic Council, or the Commissariat of Foreign Trade.

Since his sudden and dramatic dismissal as head of the Red Army last January, there has been a recrudescence of sentiment in Trotsky's favor, within and without the Communist party. M. Stalin, a member of the executive committee, and M. Bykoff, president of the Council of Commissars, who were opposed to drastic action against him, appear to have triumphed over Leo Kamenev and M. Zinovieff.

ATONERS FOR HERESY That there has been a complete reconciliation between Trotsky and the government is evidenced by the fact that as long ago as February 15, Trotsky was offered the ambassadorship to Japan. Since then Trotsky's former colleagues convinced that he had sufficiently "atoned for his political heresy" have been trying to find another place for him in the government.

Meanwhile, Zinovieff, who was violently opposed to Trotsky for a long time, has been silenced by the more moderate figures of the Communist party although it is announced that there is no truth in the frequent reports published abroad that Zinovieff is about to be dismissed from the government councils.

Bank Manager Is Sentenced To Jail

MONTREAL, April 18.—J. A. Boyer, former manager of the St. Anne de Bellevue branch of the Banque d'Hocheville, who staged a fake hold-up in order to cover up his own theft of over \$20,000 from the bank, was sentenced to the time he has already spent in jail by Chief Judge Decarie.

In exercising leniency, Chief Judge Decarie said that he was satisfied that Boyer was not a criminal at heart; that he had committed his action in a moment of panicky rashness; that he repented most sincerely and that every cent of the stolen money had been restored to the bank.

Has Four Wives

That's the number of wives the young Maharajah of Jodhpur, 20, who is the second richest prince in India, took to England along with 100 servants.

By Sir Henry Thornton and E. W. Beatty, respective presidents of the two organizations. "The Canadian Pacific Railway is entirely agreeable to any fair rearrangement of the country's railway services, which will tend to reduce economic duplication of services where such exists. Though the train services of this company have been only slightly changed since war time, we are, under existing lessened traffic conditions, anxious to do our full part in working out the situation in a manner which will best serve the interests of Canada as a whole and with that end in view, certain definite proposals are under discussion between Sir Henry Thornton and myself, which I hope will have satisfactory results."

TOOK LONG TIME

Twenty-five years ago Richard Harvey gave a Forth Worth (Tex.) photographer \$5 to take a picture of his wife, Sarah Jane Harvey. But Mrs. Harvey refused to sit for a picture. "I don't care for those things," she said. The other day the photographer told her son-in-law of the bargain and he coaxed Mrs. Harvey into the studio. "Oh pshaw! I should have worn my new dress," she said.

Continued from Page 5.

by obtaining the Ministry of Finance, will experience an even greater thrill than that which has come to her husband, when she presides over the forthcoming reception at the official home of the new minister.

At Marmes, the Caillaux country seat, Mme. Caillaux is impatiently awaiting word from her husband to come to Paris to resume the place in society forfeited when she killed Gaston Calmette, editor of Le Figaro, in 1914. If any vestige of her once powerful position as the wife of a former premier remained to her after that affair and the trial which followed, it was shorn by her husband's arrest during the war and subsequent conviction for trafficking with the enemy. The Senate's amnesty bill reinstated Caillaux as a citizen, but the prestige of a ministerial position is needed to return her to the good graces of society.

**ACQUITTED OF MURDER.**  
Frenchmen usually are inclined to champion a woman slayer who invokes outraged honor as a defense, but France turned against Mme. Caillaux. She was acquitted of murder, but she narrowly escaped popular punishment under the lynch law when she was dispatched near the Verdun front during the war. This was after the suspicions of France had been directed to Caillaux.

After Caillaux had been tried, convicted and finally released after serving his sentence, Mme. Caillaux accompanied throughout France, sharing the ostracism and misfortunes of Nationalistic hostility. Except for a couple of furtive visits on the occasions of radical banquets, Mme. Caillaux has not been in Paris since she left in shame after her husband's conviction.

## for Strength and Health

Thousands Have Used This RED BLOOD Food

If you feel weak, sickly, nervous and run-down, what you need is not merely stimulating medicines and drugs, but something that will put more iron into your blood to make it rich and healthy. This is the only health food that does this.

For Nuxated Iron is a wonderful new combination of iron, like the iron in your own blood. It is entirely different from ordinary iron medicines—does not figure the teeth or disturb the stomach. Furthermore it is so highly concentrated that one dose is equal to eating one-half quart of spinach or eating five oranges. Take Nuxated Iron for just two weeks and you'll be astonished at how much stronger and better you feel. Money back if not delighted. At all good druggists.

## FIRE PREVENTION

Appeal to People to Exercise Care Will Commence Tomorrow and Last a Week.

Forest Fire Prevention Week, which will be vigorously programmed across Canada beginning tomorrow is another annual effort to inculcate ideas and lessons in the minds of everybody, young and old, that will operate to reduce to a minimum the daily loss of \$8,000 in cash to the nation brought about by an average of 20 fires per day throughout the entire 365. New Brunswick is joining in the campaign with unprecedented vigor. In Saint John the opening appeal will be made from pulpits on Sunday.

**WIDE PROGRAMME.**  
Rev. James Dunlop is to address the Daughters of the Empire Provincial convention at Fredericton on the subject of the week; High School boys in Saint John will speak between theatre programmes and moving pictures, slides, and other media will be used to drive home the vital truth concerning the preservation of our forest heritage from fire.

It is doubtful if ever a more comprehensive campaign was inaugurated throughout the Dominion of Canada. There will be formal proclamations, even from the vice-roy himself and much good is expected to result.

### MAKES PLEA FOR GET-TOGETHER FOR MARITIMES

A. M. Belding Addresses  
Meeting of Retail Mer-  
chants Here

DAVID MAGEE IS  
NEW PRESIDENT

Question of Changing Half-  
Holiday Is To Be  
Taken Up.

With an eloquent plea that the greatest business minds of the Maritime Provinces get together and work out a program of what the Maritimes wanted from the rest of Canada to ensure the proper enjoyment of the fruits of Confederation, A. M. Belding, who recently toured Ontario and the West of Canada as a representative of The Telegraph-Journal and Times-Star in the interests of the Maritime Provinces, told the Retail Merchants' Association, at its annual meeting, his ideas of what was needed here.

The meeting elected officers for the ensuing year and discussed several matters of interest to the members. It was announced that the association had been responsible for the killing of the proposed act to take away the privilege of "capias" from the merchants. A greater interest and more widespread attendance was asked.

TO DISCUSS HOLIDAY.  
The matter of the Saturday half holiday in summer was on the order

of business and, after some suggestions that another day in the week should be made the one for half-holidays, it was decided to hold a special meeting to discuss the question. H. Mont Jones presided.

The election of officers resulted as follows: Honorary president, H. Mont Jones; president, David Magee; first vice-president, H. W. Rising; second vice-president, W. J. Magee; secretary, J. H. Marr; treasurer, Harry Magnusson; advisory board, J. H. Vaughan, A. V. Wright, F. A. Dykeman, A. N. McLean, M. E. Grass, A. O. Skinner, C. H. Smythe, H. H. Scovil, F. S. Thomas, Henry C. Page, E. L. Rising, LeBaron Wilson, H. D. Everett, H. C. Brown, J. P. McPherson, F. W. Daniel, A. E. Everett, M. O'Leary, S. C. Webb, G. W. Tapley, S. E. Fisher, Clarence Emerson and Charles Waston.

#### URGES NATIONAL OUTLOOK.

The matter of a scheme to bring goods from Montreal co-operatively by freight instead of express and to save a large amount in this way was discussed and it was decided that a committee should be appointed to look into the possibilities of the situation.

Mr. Belding was called upon to speak after the election of officers had been concluded. He asked his listeners to forget they were merchants and to

look for the prosperity of the country as a whole. Their own prosperity would follow as a matter of course.

SAY MARITIMES WORST OFF.

Canada was facing some difficult problems, he declared, and not only the Maritime Provinces but the other sections as well were having troubles. He had been depressed on his return by the great seriousness of the situation to be faced by the country.

Sectionalism prevailed on all hands

and everywhere the young people are drifting to the United States. The Maritime Provinces were acknowledged to have the worst of the bargain and to be facing the most serious problems.

The west always had the hope of a good crop and good grain prices. The central part, with its great manufacturing sections, would experience good times as a result of those in the west. The Maritimes alone had no great hopes to build on a good crop and

great industries to benefit from such a crop. They were handicapped also by the great drawing power of the west for immigration.

#### ADVOCATES PROGRAM.

He had found the people of the rest of the Dominion sympathetic to the cause of the Maritimes and had been asked just what the east would ask to offset the disadvantages under which it labored. These questions he was unable to answer and he, therefore, appealed to the business men of this part of the country to formulate a program of what was needed from the other parts of Canada.

He believed that a new economic policy that would assist the Maritimes without injuring the rest of the Dominion was the only thing that would bring to the country as a whole the proper measure of prosperity. This was a colossal task and would require the strenuous efforts of the best thinkers of the day.

#### CALLS THEM OSTRICHES.

He spoke of the men who persistently shouted that there was nothing wrong in Canada, that the country had no great problems and that the present depression was merely the result of the war, calling them "ostriches who hid their heads in the sand."

The only way to overcome the difficulties on every hand was to face the fact that they were there and to then devise means of combatting them. They could not hope to solve the problem by declaring that it did not exist.

He ended with a plea to get together and do their share in the work of finding a solution to the difficulties. A great national spirit was the most needed thing, he declared.

A vote of thanks to the speaker was moved by A. E. Everett.

Byron Virge, song writer of Bridgewater, N. S., sang a song of his own composition.

IT is an accepted fact that the new Overland Six is the most brilliant engineering achievement of the year. A new delight to the eye! A new thrill to drive! A joy to ride in! A revelation in six cylinder economy—today the most talked about car in Canada.

People say it far outclasses any other car in its price field... in charm of design... in beauty of finish. People are actually thrilled with its acceleration on hills and with its flashing response in traffic. The new Overland Six outclasses other cars in all of these things because of its advanced engineering.

You should see the New Overland Six—and don't deny yourself a good ride. Then judge how precisely Willys-Overland has sensed and gratified the ideal of those who seek style and distinction without extravagance.

FINANCIAL STRONG TONE IS DISPLAYED IN WALL ST. TODAY

Industrial Specialties Are Principally Affected by Buying Order Rush... LITTLE INTEREST AT MONTREAL OPENING... Only Outstanding Feature is Strength of Some Market Leaders.

NEW YORK, April 18.—Stock prices displayed a strong tone at the opening of today's market. Buying orders were distributed over a broad list, but were particularly effective among the industrial specialties.

MONTREAL, April 18.—With the exception of strength in some of the leaders, principally in Winnipeg Halls and Consolidated Smelters, little of interest was to be noted at the opening of today's stock market.

NEW YORK MARKET, NEW YORK, April 18. Stocks to 12 noon. High Low Noon... Atlantic Sugar Com High Low Noon... Montreal Power... National Breweries...

Morning Stock Letter NEW YORK, April 18.—The market came back stronger yesterday after a slight falling movement in the morning. It steadily suggests still higher prices, and it is thought that dips of stock prices will be bought.

Brokers' Opinions NEW YORK, April 18.—Tobey and Kirk.—"Think of the market as a better shape than talked, despite some price reactions, the one ought to find some good buying with strength to show later."

AUCTIONS AUCTION WENTWORTH STREET BRICK BUILDING I am instructed to sell at Chubb's Corner, Saturday, April 20th, at 12 o'clock noon, the 3 story brick building, 108 Wentworth street. Electric, modern plumbing, furnace heated, 9 rooms, ground rent only \$14.00 per year. This property will be sold cheap. Payment terms can be arranged.

HOUSEHOLD FURNITURE AT RESIDENCE BY AUCTION I am instructed to sell at residence, No. 68 Wright street, on Tuesday morning, April 21st, commencing at 10 o'clock, the contents of flat consisting of Silver Moon No. 12, Villa Model range, carpet squares and linoleum, beds, springs, mattresses, dressing cases and ornaments, dining table, sideboard and chairs, secretary, sofa, morris chair, hat tree, sewing machine, dishes, bedding and a large assortment of other household effects.

SALE AT RESIDENCE We have been instructed to sell the well kept household furniture of Mrs. Holmes, 179 Britannia street, on FRIDAY NEXT, 21st APRIL, at 10 o'clock, which includes a MARTIN GRME PIANO (practically new) CHESTERFIELD 3 PIECE SUITE IN TAPESTRY; also McCarty Range with hot water fittings, Quebec and Tidy Heaters, heavy Brass Beds, Oak Dining and other Chairs, Oak Dresser, etc., etc. JOHN BURGOYNE, Auctioneer. Main 51.

Lightly with railroad merger reports, but we do not anticipate a serious bull campaign here. The market remains quite neglected, which is logical in view of the news from the industry and we would advise against taking any position in them, until developments are better defined.

Current Events NEW YORK, April 18.—Southern Pacific orders 72 coaches from Pullman, 7 baggage cars from American Car and Foundry, 10 from Standard Steel Car and 10 from Bethlehem Steel shipbuilding.

Shipping PORT OF SAINT JOHN, Arrived. Friday, April 17. Stmr. Brandon, 4185, McCombe, Hamburg.

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchen, St. George, Ont., writes—"After having a severe attack of pneumonia I was left in a weak and run down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about MILBURN'S HEART AND NERVE PILLS so decided to try them.

GRANT PRICE FOR SCHOOL INCREASED NO TRACE OF STOMACH TROUBLE FOR SEVEN YEARS

Item of \$5,500 For Cost of Temperature Control System Was Omitted. At a specially called meeting of the Board of School Trustees last night the award of the contract for the vocational school was revised in order to include \$5,500 for heating control which had been omitted through misunderstanding. The full tender of J. A. Grant & Co., Ltd., was accepted at \$92,000.

TO SET ASIDE PLOT. On Dr. Curran's suggestion it was decided to have a wire fence run from the trustees' building to the annex and then to the wing of the High School building in the rear and to set aside this enclosed portion as a ground for the girls. The plot will be seeded this spring.

Dr. L. M. Curran presided at the meeting. Others present were Trustees Mrs. E. R. Taylor, W. S. Palmer, H. Coby Smith, Horace A. Porter, Allan J. McIntyre, Thomas Nagle, G. Herbert Green, E. R. W. Ingraham and F. Nell Brodie, architect. A. Gordon Leavitt, secretary, and S. A. Worrell, acting superintendent. Mr. Porter explained that when the contract for the erection of the vocational school was about to be signed it developed there had been some misunderstanding of the wording of the tender and the figure quoted had not covered the temperature control system for which \$5,500 had been asked. With this additional amount the whole tender of J. A. Grant & Co., Ltd. was accepted. The next lowest tender was that of H. O. Clark and it totalled \$915 less.

Mr. Porter moved the firm's tender more than the accepted tender.

IT IS CERTAINLY a master move on the part of the executive of the Saint John Skating Association to get in on the ground floor for staging of the world's skating meet next winter.

A DEFINITE announcement that Moosepath Park is available for racing this year will be welcome news to turf racing enthusiasts.

THE FAME OF the Saint John boys, Willie and Frankie Logan, International intermediate and Junior skating champions, is apparently spreading over the entire continent.

SAINT JOHN should be well represented in the big bowling classic at Eastport next week.

THE NEW YORK YANKEES are getting away to a poor start and according to some of the leading baseball critics in the States they will have to change their tactics or lose out in the pennant race.

HISTORIC RACE COURSE CHANGES HANDS IN DEAL

Moosepath Park Sale Is Completed, It Is Announced

The sale of Moosepath Park, a famous horse-racing centre for 54 years, was consummated yesterday afternoon, and the deed of the property changed hands.

The present site of Moosepath Park was acquired by the Moosepath Park Driving Association in 1871. The members comprised Bella R. Lawrence, Thomas Parlow, George A. Barbour, James Christie and Joseph B. Hann.

The park takes in 17 acres of land, and is situated at Coldbrook, on the Junction of Robbsey avenue and Golden Road.

**As Hiram Sees It**  
"I see," said Mr. Hiram Hornbeam to The Times reporter, "that Premier Veno says he's going to stay with us for a spell longer. Well, sir—me an' Peter don't always hit it off when we get talkin' about the Government an' what it orto do—but I like the feller. He says what he thinks most of the time—an' then agin I got to pat him on the back. They ain't nothin' namby-pamby about him—an' he does it just some sice into the game when it begins to drag. If he'll just keep the Settlement in mind for this year's road, work I'll be much obliged—yes, sir."

### WORK WILL NOW GO ON AT QUEBEC

Summer Port.

The Red Cross Nursery at Sand Point was closed today after a most successful season, after passengers arriving on the Canadian Pacific steamship Montreal were cared for. Miss Y. A. Tremaine, R. N., is in charge of the department and is assisted by Miss Olga Martinoff. They will proceed to Quebec this evening to open the nursery for the summer travel.

**Cared For 4,000**  
During the season 33 Canadian Pacific passenger liners came to this port. From these steamers the local nursery cared for 2,220 children, 299 infants and 1,401 women. They also gave 88 treatments to passengers who were suffering from sickness and injuries. In addition to looking after the children and supplying them with milk and biscuits, the mothers are given opportunity to rest after their long voyage. Several families were also supplied with food for journeys across Canada, and friends were notified by telegram of their departure and approximate time of arrival at their destinations. Health literature and welcome cards were also distributed. The nursery was opened in December.

**A Large Number**  
Miss Tremaine's yearly report shows that 29,722 infants, children and women were cared for at the Quebec, Halifax and Saint John Nurseries during the year.

In addition to Mrs. Rowan other active workers at the Red Cross Nursery during the season were: Miss MacLean, who was in charge of the post office, Miss Munro, Miss Vincent and other members of the Red Cross Society. Social workers at the port also rendered valuable assistance.
