ment of th

McGill University, Montreal.

The Thirty Ninth Session of this University, being the Nineteenth under the amended charter, will commence in the Autumn of 1871.

By Virtue of the Royal Charter, granted in 1821 and amended in 1852, the Governors, Principal and Fellows of McGill College, constitute the Corporation of the University; and, under the statutes framed by the Board of Governors with approval of the Visitor, have the power of granting degrees in all the Arts and Faculties, in McGill College, and in Colleges, affiliated thereto.

The Statutes and Regulations of the University have been framed on the most liberal principles, with the view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. In its religious character the University is Protestant, but not denominational; and while all possible attention will be given to the character and conduct of students, no interference with their peculiar religious views will be sanctioned.

I. MCGILL COLLEGE.

THE FACULTY OF ARTS.—The complete course of study for the Degree of B. A. extends over four Sessions, of eight months each; and includes Classics and Mathematics, Experimental Physics, English Literature, Logic, Mental and Moral Science, Natural Science, and one Modern Language, or Hebrew; all of which subjects are imperative in the first three years of the Course; but in the fourth year options are allowed in favour of the Honour Courses in Classics, Mathematics, Mental and Moral Science, Natural Science, and English Literature. Certain exemptions are also allowed to Professional Students. There are also Special and Partial courses, and facilities are afforded for the practice of Meteorological observations.

THE FACULTY OF MEDICINE.—The complete course of study in Medicine extends over four Sessions, of six months each, and leads to the degree of M. D., C. M.

THE FACULTY OF LAW.—The complete course in Law extends over three Sessions of six months each, and leads to the degrees of B. C. L. and D. C. L.

[Details of the above courses of study, with the fees and the dates of commencement of the classes, will be found in subsequent pages.]

II. AFFILIATED COLLEGES.

Students of these Colleges are matriculated in the University, and may pursue their course of study wholly in the Affiliated College, or in part therein and in part in McGill College, and may come up to the University Examinations on the same terms with the Students of McGill College.

MORRIN COLLEGE, Quebec.—Is affiliated in so far as regards degrees in Arts and Law. The ordinary Course in Arts includes Classics, Mathematics, English Literature, Mental and Moral Philosophy and Logic. There are Honour Courses in Classics and in Mental and Moral Philosophy.

[Detailed information may be obtained from Rev. John Cook, D.D., Principal.]

ST. FRANCIS COLLEGE, Richmond, P. Q.—Is affiliated in so far as regards degrees in Arts.

[Detailed information may be obtained from J. H. Graham, LL.D., Principal.]

III. AFFILIATED THEOLOGICAL COLLEGES.

Affiliated Theological Colleges have the right of obtaining for their Students the advantage, in whole or in part, of the course of study in Arts, with such facilities in regard to exemptions as may be agreed on.

THE CONGREGATIONAL COLLEGE OF BRITISH NORTH AMERICA, Montreal.

THE PRESBYTERIAN COLLEGE OF MONTREAL, in connection with the Canada Presbyterian Church.

IV. AFFILIATED SCHOOLS.

THE MCGILL NORMAL SCHOOL provides the training requisite for Teachers of Elementary and Model Schools and Academies. Teachers trained in this School are entitled to Provincial diplomas.

THE MODEL SCHOOLS OF THE MCGILL NORMAL SCHOOL are Elementary Schools, divided into a Boys' Department, Girls' Department, and Primary School. Teachers in training in the Normal School are employed in these Schools, under the supervision of the Head Master and Mistress.

[Further information respecting these Schools will be found in subsequent pages, and in the special announcement of the Normal School.]

BENEFACTORS OF

McGill University, Montreal,

I. ORIGINAL ENDOWMENT, 1811.

THE HONOURABLE JAMES MCGILL, by his last Will and Testament, under date 8th January, 1811, bequeathed the Estate of Burnside, situated near the City of Montreal, and containing forty-seven acres of land, with the Manor House and Buildings thereon erected, and also the sum of ten thousand pounds in money, unto the "Royal Institution for the Advancement of Learning," constituted by Act of Parliament in the Forty-first Year of the Reign of His Majesty King George the Third, to erect and establish a University or College for the purpose of Education, and the advancement of learning in the Province of Lower Canada, with a competent number of Professors and Teachers to render such Establishment effectual and beneficial for the purposes intended, requiring that one of the Colleges to be comprised in the said University, should be named and perpetually be known and distinguished by the appellation of "McGill College."

The value of the above mentioned property was estimated at the date of the bequest at £30,000

II. SUBSCRIPTIONS TO ENDOWMENT FUND, 1856.

At a meeting called by a number of the influential citizens of Montreal, and held at the Merchants' Exchange, 6th December, 1856, for the purpose of taking into consideration the financial condition of the University of McGill College, the following Resolution was adopted:—

"That an effort ought to be made for increasing the endowment of McGill College, in such a manner as to extend its usefulness, and to place it for the future upon an independent and permanent footing."

Whereupon in pursuance of the above Resolution, the following donations were enrolled for Special or General objects connected with the University,—The Royal Institution granting Scholarships in perpetuity according to the value of the donations.

III. WILLIAM MOLSON HALL.

In 1861 the "William Molson Hall," being the west wing of the McGill College Buildings, with the Museum Rooms, and the Chemical Laboratory and Class Rooms, was erected through the munificent Donation of the founder whose name it bears.

IV. ENDOWMENTS OF MEDALS.

In 1860 the sum of £200 presented to the College by H. R. H. the Prince of Wales, was applied to the foundation of a Gold Medal, to be called the "Prince of Wales Gold Medal."

In 1854 the "Anne Molson Gold Medal," was founded by Mrs. John Molson, of Belmont Hall, Montreal, for an Honour Course in Mathematics and Physical Science.

In the same year the "Shakespeare Gold Medal," for an Honour Course, to comprise and include the works of Shakespeare and the Literature of England from his time to the time of Addison, both inclusive, and such other accessory subjects as the Corporation may from time to time appoint,—was founded by citizens of Montreal, on occasion of the three hundredth anniversary of the birth of Shakespeare.

In the same year the "Logan Gold Medal," for an Honour Course in Geology and Natural Science, was founded by Sir William Edmund Logan, LL.D., F.R.S., F.G.S., &c.

In 1865 the "Elizabeth Torrance Gold Medal," was founded by John Torrance, Esq., of St. Antoine Hall, Montreal, in memory of the late Mrs. John Torrance, for the best student in the graduating class in law, and more especially for the highest proficiency in Roman Law.

In the same year, the "Holmes Gold Medal," was founded by the Medical Faculty, as a memorial of the late Andrew Holmes, Esquire, M.D., LL.D., late Dean of the Faculty of Medicine, to be given to the best student in the graduating class in Medicine, who shall undergo a special examination in all the branches, whether Primary or Final.

V. EXHIBITIONS AND SCHOLARSHIPS IN ARTS.

The "Jane Redpath Exhibition" \$100 annually, was founded in 1868 by Mrs. Redpath of Terrace Bank, Montreal and endowed with the sum of \$1667. The Governors' Scholarship of \$100 to \$120 annually was founded by subscription of members of the Board of Governors in 1869.

The next Session of this Faculty will commence on September 15th, 1871, and will extend to April 30th, 1872.

§ I. MATRICULATION AND ADMISSION.

Candidates for Matriculation as Undergraduates, are required to present themselves to the Dean of the Faculty, on the 15th of September, for examination; they may, however, enter after the commencement of the Session, if, on examination, found qualified to join the classes.

The subjects of examination for entrance into the First Year, are Classics, Mathematics, and English.

In Classics.—Latin Grammar, Greek Grammar, and one easy Latin and one easy Greek author. The authors recommended are Cæsar; Sallust; Virgil (*Æneid*, B. I.); Xenophon (*Anabasis*, B. I.); Homer (*Iliad*, B. I.).

In Mathematics.—Arithmetic; Algebra, to Simple Equations, inclusive; Euclid's Elements, Books, I., II., III.

In English.—Writing from Dictation.

Candidates may be admitted to the standing of students of the Second Year, provided that they pass the Sessional Examination of the First Year, or an examination in the following subjects, at the beginning of the Second Year:—

In Classics.

Greek.—Homer, Book VI; Xenophon, *Anabasis*, Book I; Grammar and Prose Composition.

Latin.—Virgil, *Æneid*, Book VI.; Cicero, Orations against Catiline; Grammar and Prose Composition.

In Mathematics.

Euclid.—Books I., II., III., IV., VI., with Defs. of Book V. (omitting propositions 27, 28, 29 of Book VI.).

Algebra.—To end of Quadratic Equations (Colenso's Alg.).

Trigonometry.—Galbraith & Haughton's Trigonometry, Chaps. 1, 2, 3, 4, 6, to beginning of numerical solution of plane triangles.

Arithmetic.—Ordinary Rules.—Proportion, Interest, Discount, &c., Vulgar and Decimal Fractions, Square Root.

In English Literature.—English Grammar and Composition.

In French or German.—Grammar and easy Translation.

[Candidates who are unable to pass the entrance Examination of the Second Year in Modern Languages, may be allowed to enter, but will be required to take additional lectures in one Modern Language in the Second Year, or to take the subject in both the Second and Third Years.]

Students of other Universities may be admitted, on the production of certificates, to a like standing in this University, after examination by the Faculty.

Candidates for Matriculation as Partial Students, taking three or more Courses of Lectures, or as Students in any Special Course, will be examined in the subjects necessary thereto, as may from time to time be determined by the Faculty.

Persons desirous of taking one or two Courses of Lectures as Occasional Students, may apply to the Dean for entry in his Register, and may procure from the Secretary tickets for the Lectures they desire to attend.

Every Student is expected to present, on his entrance, a written intimation from his parent or guardian, of the name of the minister of religion, under whose care and instruction it is desired that the Student shall be placed, who will thereupon be invited to place himself in communication with the Faculty on the subject. Failing such intimation from the parent or guardian, the Faculty will endeavour to establish such relations.

§ II. SCHOLARSHIPS AND EXHIBITIONS.

EXHIBITIONS AND UNDERGRADUATE SCHOLARSHIPS.

1. A Scholarship is tenable for *two* years. An Exhibition for *one* year.

SCHOLARSHIPS.

2. Scholarships are open for competition to Students who have passed the University Intermediate Examination, provided that not more than three Sessions have elapsed since their Matriculation, and also to candidates who have obtained what the Faculty may deem equivalent standing in some other University.

3. Scholarships are divided into two classes, (1) *Science* Scholarships; (2) *Classical and Modern Language* Scholarships.

The subjects of Examination for each, are as follows:—

(1) *Science Scholarships.*

Differential and Integral Calculus; Analytic Geometry; Plane and Spherical Trigonometry, Higher Algebra and Theory of Equations; Pure Mathematics, as in Ordinary Course; Botany; Chemistry; Logic.

EXHIBITIONS.

4. Exhibitions are assigned to the First and Second Years.

First Year Exhibitions are open for Competition to Candidates for entrance into the First Year.

Second Year Exhibitions are open for Competition to Students who have passed the First Year Sessional Examination, provided that not more than two Sessions have elapsed since their Matriculation; and also to Candidates for entrance into the Second Year.

The subjects of Examination are as follows:—

First Year Exhibitions:—Classics, Mathematics, and English.

Second Year Exhibitions:—Classics, Mathematics, English Language, Chemistry, French.

5. The First and Second Year Exhibition Examination will, for Candidates who have not previously entered the University, be regarded as Matriculation Examinations.

6. No Student can hold more than one Exhibition or Scholarship at the same time: but four of the First Year Exhibitioners will be granted exemption from the sessional fees throughout their College Course under Presentation Scholarships from the Governor General. (See page 11 of Calendar.)

7. If in any one College Year there be not a sufficient number of Candidates showing absolute merit, any one or more of the Exhibitions or Scholarships offered for competition may be transferred to more deserving Candidates in another Year.

8. A successful Candidate must, in order to retain his Scholarship or Exhibition, proceed regularly with his College course, to the satisfaction of the Faculty.

9. The Annual income of the Scholarships or Exhibitions will be paid in four instalments, viz; in October, December, February and April.

10. The Examinations will be held at the beginning of every Session.

Sixteen have been placed by the Governors at the disposal of His Excellency the Governor General. Candidates must pass the usual Matriculation Examination.

By command of His Excellency four of these Exemptions will be offered for competition in the First Year Exhibition Examination of the ensuing session.

Eight Exemptions from fees may be granted by the Board of Governors, from time to time, to the most successful Students who may present themselves as candidates. By order of the Board one of these is given annually to the *Dux* of the High School, or of any other Academy, or High School sending up in one year three or more candidates competent to pass creditably the Matriculation Examination.

In the event of any Academy or High School in the Province of Quebec offering for competition among its pupils an Annual Bursary in the Faculty of Arts, of not less than \$80, the Governors will add the amount of the fees of tuition thereto.

An Exemption from fees may be given annually to any teacher holding the Model School or Academy Diploma of the McGill Normal School, recommended by the Principal and Professors of the School, and passing creditably the Matriculation Examination in Arts.

§ III. COURSE OF STUDY.

ORDINARY COURSE FOR THE DEGREE OF B. A.

First Year.—Classics; French or German; English Language and Literature; Pure Mathematics; History; Elementary Chemistry.

Second Year.—Classics; French or German; Logic; Pure Mathematics; Botany.

Third Year.—Classics; Rhetoric; Mental and Moral Philosophy; Mixed Mathematics; Experimental Physics; Zoology.

Fourth Year.—Classics; English Literature; Mental and Moral Philosophy; Mixed Mathematics; Experimental Physics; Mineralogy and Geology.

Undergraduates are required to study either French or German for two years, (viz., in the First and Second Years) taking the same language in each year. Any Student failing to pass the Examination at the end of the Second Year, will be required to pass a Supplemental Examination, or to take an additional Session in the Language in which he has failed. In addition to the obligatory, there are other Lectures, attendance on which is optional.

The Lectures in Modern Languages will be so arranged that Students competent and desirous to take in the same years the Lectures in French and in German, may do so.

Students who intend to join any Theological school, on giving written notice to that effect at the beginning of the First Year, may take Hebrew instead of French or German.

The Faculty may permit any student to take Spanish instead of French or German.

Undergraduates are arranged according to their standing, as Students of the First, Second, Third, and Fourth Years; and are required to attend all the Courses of Lectures appointed for their several years under the regulations as to attendance and conduct stated in § VII. The only exceptions are those in favour of Honour and Professional Students stated below.

HONOUR COURSES.

At the examination for the Degree, B. A., Honours are given in the following subjects, for which special Honour Courses are provided:— (For details see under § X.)

1. *Classics.*
2. *Mathematics.*
3. *Logic and Mental and Moral Philosophy.*
4. *English Language, Literature and History.*
5. *Natural Science.*

Students taking B. A. Honours in any of the above Courses may omit two of the ordinary subjects in the Degree Examination, under the conditions stated in § IV. 4.

In Mathematics and Physics, Honours are also given in the First, Second, and Third Years, and in Classics in the Third Year.

§ IV. EXAMINATIONS.

COLLEGE EXAMINATIONS.

There are two Examinations in each year; one at Christmas, and the other at the end of the Session. In both of these, Students will be arranged according to their answering, as 1st Class, 2nd Class, and 3rd Class.

Students who fail in any subject in the Christmas Examination, are required to pass a Supplemental Examination in that subject before admission to the Sessional Examination.

Students who fail in one subject in the Sessional Examination, are required to pass a Supplemental Examination in that subject. Should they fail in this, they will be required in the following Session to take the Lectures and pass the Examination in the subject in which they have failed, in addition to those of the ordinary Course, or to pass the Examination alone without attending Lectures, at the discretion of the Faculty.

Failure in two or more subjects at the Sessional Examination involves the loss of the Session. The Faculty may permit the Student to recover his standing by passing a Supplemental Examination at the beginning of the ensuing Session. For the purposes of this regulation, Classics and Mathematics are each regarded as two subjects.

The time for the Supplemental Examinations will be fixed by the Faculty; and such Examination will not be granted at any other time, except by special permission of the Faculty, and on payment of a fee of \$5.

UNIVERSITY EXAMINATIONS.

I. FOR THE DEGREE OF B. A.

There are three University Examinations:—the *Matriculation*, at Entrance; the *Intermediate*, at the end of the Second Year; and the *Final*, at the end of the Fourth Year.

1. The subjects of the Matriculation Examination are stated in Section I.

2. In the Intermediate Examination, the subjects are Classics and Pure Mathematics, Logic, and the English language, with one other Modern language, or Botany. Theological Students are allowed to take Hebrew instead of a Modern language. The subjects for the Examination of 1872, are as follows:—

Classics.—Greek.—Isocrates.—Panegyricus.
Latin.—Horace.—Satires, Book I.
Latin Prose Composition.

Mathematics.—Arithmetic.
Euclid, Books I., II., III., IV., VI., and defs. of Book V.

Algebra to Quadratic Equations, inclusive.
Trigonometry, including use of Logarithms.

Logic.—Thomson's outlines of the Laws of Thought.

English.—Spalding's History of English Literature.
An English Essay.

With one of the following :—

1. *Botany and Vegetable Physiology*.—Structural and Systematic Botany, as in Gray's Text-book, omitting the Descriptions of the Orders.
2. *French*.—Molière, Misanthrope; Racine, Britannicus, Athalie, Phèdre; Boileau, Art Poétique; History of the French Literature of 17th and 18th centuries; Translation into French.
3. *German*.—Schmidt's German Guide. Adler's Reader. Translation into German.
4. *Hebrew*.—Grammar to the end of the Irregular Verbs. Translation from the Book of Genesis. Exercises,—Hebrew into English, and English into Hebrew.

3. For the Final Examination six subjects are appointed; namely, (1) Classics, (2) Mixed Mathematics, (3) Mental and Moral Philosophy (4) Natural Science, (5) Experimental Physics, (6) One Modern Language and Literature (or Hebrew), with History.

Every Candidate must pass in four of these, namely, Classics and Mixed Mathematics, which are obligatory, and any two of the remaining subjects at his option. The subjects for 1872, are as follows :—

1. *Classics*.—Greek.—Sophocles.—The Electra.
Thucydides.—Book I.
Latin.—Tacitus.—The Germania and Agricola.
Juvenal.—Satires, VIII. and X.

Exemptions for Candidates for B. A. Honours.

4. Candidates for B. A. Honours who at the Third Year Sessional Examination, have been placed in the 1st or 2nd Class in any two of the six subjects appointed for the Final Examination, are entitled to the following privileges :—

(1) They may claim to have the Third Year Examination, in these two subjects, regarded as a B. A. Examination in the same. (This amounts to exemption at the ordinary B. A. Examination from two of the subjects required. § IV. 3.)

(2) They are required to attend the Ordinary Lectures of the Fourth Year in two subjects. These must be the subjects in which they are to pass the ordinary B. A. Examination, if Lectures are delivered in them ; if not, the choice is left to the candidate.

No Student shall be entitled to the above privileges, unless his attendance on Lectures in the Fourth Year, and progress in the subject in which he is a Candidate for Honours, shall be satisfactory to the Professor, nor unless he shall have obtained a Certificate of creditable answering in the Honour Examinations.

II. FOR THE DEGREE OF M. A.

Bachelors of Arts, of at least three years' standing, are entitled to the degree of Master of Arts, after such examination and exercises as may be prescribed by the Corporation. The exercise at present appointed is the preparation of a Thesis on any literary, scientific, or professional subject to be selected by the candidate, and approved by the Faculty. The Thesis to be submitted to the Faculty and reported on to the Corporation.

§ V. SPECIAL PROVISIONS FOR PROFESSIONAL STUDENTS.

I. LAW AND MEDICAL STUDENTS.

Students of the Third and Fourth Years matriculated in the Faculties of Law or Medicine of this University, are entitled to the following exemptions :—

In the Third Year they may omit the Lectures and Examinations in any one of the following subjects :—Zoology, Experimental Physics, or Rhetoric.

In the Lectures of the Fourth Year, they may omit Greek ; and also Geology or Experimental Physics. At the Christmas Examination of the Fourth Year, they may omit Astronomy and Optics.

In the Ordinary B. A. Examination, they may, in Classics pass in Latin alone ; and in Mixed Mathematics, in Mechanics and Hydrostatics alone.

To be allowed these privileges in either year, they must give notice at the commencement of the Session to the Dean of the Faculty, of their intention to claim exemptions as Professional Students, and must produce at the end of the Session, certificates of attendance on a full course of Professional Lectures during the year for which the exemptions are claimed.

II. STUDENTS OF AFFILIATED THEOLOGICAL COLLEGES.

Such Students, whether entered as Matriculated or Occasional, are subject to the regulations of the Faculty of Arts in the same manner as other students.

The Faculty will make formal reports to the Governing body of the Theological College, to which any such Student may belong, as to:—[1] his conduct and attendance on the classes of the Faculty; and [2] his standing in the several examinations; such reports to be furnished after the Christmas and Sessional Examinations, severally, if called for.

Matriculated Students are allowed no exemptions in the course for the degree of B. A., till they have passed the Intermediate Examination, but they may take Hebrew in the First and Second Years, instead of Modern languages.

In the Third and Fourth Years they are allowed exemptions from the following subjects:—

In the Third Year they may omit Astronomy and Optics, Experimental Physics, and Rhetoric.

In the Fourth Year they may omit Experimental Physics and English Literature.

Certificates of attendance on the full course of lectures in the Theological College, during the year for which the exemptions are claimed, must be produced by Students who avail themselves of these exemptions, before presenting themselves for Examination.

[No Student will be allowed in the same session both Professional and Honour exemptions.]

§ VI. MEDALS, HONOURS, PRIZES AND CLASSING.

1. GOLD MEDALS will be awarded in the B. A. Honour Examinations, to Students taking the highest Honours of the First Rank in the subjects stated below, and who shall have passed creditably the Ordinary Examinations for the degree of B. A.

The *Chapman Gold Medal*, for the Classical Languages and Literature.

The *Prince of Wales Gold Medal*, for Logic and Mental and Moral Philosophy.

The *Anne Molson Gold Medal*, for Mathematics and Natural Philosophy.

The *Shakspeare Gold Medal*, for the English Language, Literature and History.

For details, see announcements of the several subjects below.

2. HONOURS, of First or Second Rank, will be awarded to those Matriculated Students who have successfully passed the Examinations in any Honour Course established by the Faculty, and have also passed creditably the ordinary Examinations in all the subjects proper to their year.

3. CERTIFICATES of High General Standing will be granted to those Matriculated Students, who are placed in the First Class in the aggregate of the studies proper to their year.

4. PRIZES OR CERTIFICATES, to those Matriculated Students who may have distinguished themselves in the studies of a particular class, and have attended all the other classes proper to their year.

Students taking B. A. Honours will be placed at the Head of the Degree list: and Students who pass the Ordinary Degree Examinations will be arranged as 1st Class, 2nd Class, or 3rd Class, according to their answering.

5. THE STEWART PRIZE of \$20, established by the Rev. Colin C. Stewart, M. A., is open to all Undergraduates, and also to Graduates of this or any other University studying Theology in any College affiliated to this University.

1. The prize will not be given for less than a thorough examination in Hebrew Grammar passed in the First Class, in reading and translating the Pentateuch and such poetic portions of the Scripture as may be determined.

2. In case competitors should fail to attain the above standard, the prize will be withheld and a prize of Forty Dollars will be offered in the following year for the same.

[Course for the present year:—Hebrew Grammar (Gesenius); Translation and analysis of the first ten chapters of Genesis; the Prophet Habakkuk (the whole book); and the first five Psalms.]

3. There will be two Examinations of three hours each, one in Grammar, and the other in Translation and Analysis.

6. The names of those who have taken Honours, Certificates, or Prizes, will be published, in the order of merit; and with mention, in the case of Students of the first and Second Years of the Schools in which their preliminary education has been received.

§ VII. ATTENDANCE AND CONDUCT.

All Students shall be subject to the following regulations for attendance and conduct:—

1. A Class-book shall be kept by each Professor and Lecturer, in which the presence or absence of Students shall be carefully noted; and the said Class-Book shall be submitted to the Faculty at all their ordinary Meetings during the Session.

2. Professors shall note the attendance immediately on the commence-

ment of their Lectures, and shall omit the names of Students entering thereafter, unless satisfactory reasons are assigned. Absence or tardiness, without sufficient excuse, or inattention or disorder in the Class-room, if persisted in after admonition by the Professor, shall be reported to the Dean of Faculty, who may reprimand the student, or refer to the Faculty, as he may think proper. He may also suspend from classes until the next meeting of the Faculty.

3. The number of times of absence, from necessity or duty, that shall disqualify for the keeping of a Session, shall in each case be determined by the Faculty.

4. While in the College, or going to and from it, Students are expected to conduct themselves in the same orderly manner as in the Class-rooms. Any Professor observing improper conduct in the College building or grounds, may admonish the student, and if necessary report him to the Dean.

5. Every student is required to attend regularly the religious services of the denomination to which he belongs, and to maintain without, as well as within the walls of the College a good moral character.

6. When Students are brought before the Faculty under the above rules, the Faculty may reprimand, report to parents or guardians, disqualify from competing for prizes and honours, suspend from Classes, or report to the Corporation for expulsion.

7. Any Student injuring the furniture or building, will be required to repair the same at his own expense, and will in addition, be subject to such other penalty as the Faculty may see fit to inflict.

8. All cases of discipline involving the interests of more than one Faculty, or of the University in general, shall be immediately reported to the Principal, or in his absence, to the Vice-Principal.

§ VIII. LIBRARY AND MUSEUM.

1. The books in the Library consist of two divisions:—1st, those which may be lent: 2nd, those designated by the general term "Books of Reference," which may not, under any circumstances, be removed from the Library.

2. Students may borrow books from the Library, on depositing the sum of four dollars with the Librarian, and signing a receipt for the books: such deposit to be returned to the Student on his returning the books uninjured.

3. Students may borrow not more than three volumes at one time, except on special recommendation of a Professor, and must return them within two weeks, on penalty of a fine of one shilling for the first week of detention, and two shillings and six-pence for each subsequent week.

6. Students may read in the Library at such hours as may be determined by the Faculty.

7. Professors and Lecturers may borrow any books required by them for their duties in the College, not exceeding ten volumes at any one time. Books so borrowed must be returned at or before the end of each Session.

8. Graduates in any of the Faculties, on making a deposit of four dollars, are entitled to the use of the Library, subject to the same rules and conditions as students, but they are not required to pay the Annual Library Fee.

9. Members of the McGill College Book Club are, by a regulation of Corporation, entitled to the use of the Library on the same conditions as Graduates.

10. Persons not connected with the College may consult books in the Library, on obtaining an order from any of the Governors, or from the Principal, the Dean of Faculty or any of the Professors; and donors of books or money to the amount of Fifty Dollars, may at any time consult books on application to the Librarian.

11. The Library will be open from 10 a.m. to 4 p.m., daily, except Saturdays, during the Session, and in the months of May and June. On Saturday it will be open from 1 to 4 p.m.

12. No one is allowed to enter the alcoves or to take down books from the shelves, except the Governors, Members of Corporation, Professors, the Librarian and his assistants, or those whom any of the above may accompany personally.

13. A person desiring to read or to borrow a book, which he has ascertained from the Catalogue to be in the Library, will fill up one of the blank forms provided for Readers and Borrowers respectively, and hand it to the Librarian, who will thereupon procure him the book.

14. Readers must return the books they have obtained to the Librarian before leaving the Library.

15. No conversation that can disturb Readers is permitted in the Library.

16. The times and conditions of study in the Museum will be arranged by the Professor of Natural History.

§ IX. FEES AND RESIDENCE.

The course for the Intermediate University Examination consists of the Mathematics for the first two years, except Conic Sections and Solid Geometry.

MATHEMATICAL PHYSICS AND ASTRONOMY.—(*Third Year*)—Galbraith and Haughton's Mechanics (omitting chap. 5 of Statics,) Hydrostatics, Optics and Astronomy.

At the Ordinary Examinations, answers to questions in Mechanics, on the Chapters on Friction, Collision of Bodies and Projectiles, will be taken into account only in determining the relative positions of those whose other answers shall entitle them to be placed in the First Class.

EXPERIMENTAL PHYSICS.—(*Third and Fourth Years*)—1.—*Light.*—Theories.—Reflection.—Refraction.—Dispersion.—Interference and Diffraction.—Double Refraction.—Polarisation. 2.—*Heat.*—Dilatation of Solids, Liquids and Gases.—Specific and latent Heat.—Radiation and Conduction.—Mechanical Theory of Heat. 3.—*Electricity.*—Static and Dynamical; including Electro-Magnetism—Magneto-Electricity.—Thermo-Electricity.—Diamagnetism.—Electric Measurements.—Practical Applications to Telegraphy, &c. 4.—*Magnetism.* 5.—*Acoustics.*—Theory of Undulations.—Production and Propagation of Sound.—Vibrations of Rods and Plates.—Vibrations of Fluids.—Musical Sounds. Text-Books—Ganot's Treatise translated by Atkinson, and Tyndal on Heat. This Course extends over two years.

The Subjects for the Session 1871-72 are Light and Heat.

The Lectures in Mathematical and Experimental Physics will be illustrated by Apparatus.

8. NATURAL HISTORY.

Professor, J. W. DAWSON, LL.D., F.R.S., F.G.S.

I. CHEMISTRY.—(First Year.)

An Elementary Course of Inorganic Chemistry, accompanied by Experiments.

Text-Book—Roscoe's Lessons in Elementary Chemistry.

II. BOTANY.—(Second Year.)

(1) *Histology, Morphology and Physiology of the Plant*, or description of its elementary tissues and organs, and investigation of its functions of nutrition and reproduction.
(2) *Systematic and Descriptive Botany*, with special notices of the Flora of Canada, and instructions for collecting and determining Plants, and for the use of the Microscope.

(3) *Geographical Botany*,

Text-Book—Gray's Structural and Systematic Botany.

A Prize of \$20, will be given for the best collection of Plants, and the greatest proficiency in their determination. The prize collections or duplicates of them to remain in the College Museum. Candidates must be Students in Botany of the previous session.

III. ZOOLOGY AND COMPARATIVE PHYSIOLOGY. (Third Year.)

(1) *General Zoology*, including the Elements of the Histology, and Comparative Anatomy and Physiology of Animals, with the Principles of Classification and the division of the Animal Kingdom into Provinces or Sub-kingdoms.

(2) *Descriptive Zoology*, including the characters of the Classes and Orders of the Animal Kingdom, illustrated by typical examples, and as far as possible by Canadian species.

Text-Book—Dawson's Hand-book of Zoology, with books of reference.

A Prize of about \$10 will be given for the best named collection of Canadian Fossils, Insects, or Marine Invertebrates: conditions as stated above under Botany.*

IV. MINERALOGY AND GEOLOGY. (Fourth Year.)

(1) *Mineralogy.*—Chemical and Physical characters of Minerals, including Crystallography, the methods of determining species, and Descriptive Mineralogy; with special reference to those species most important to Geology, or useful in the Arts.

*From the Surplus income of the Logan Medal Fund.

(2) *Physical Geology*.—Composition of Rocks and their structure on the small scale. Origin of Rocks, considered as Aqueous, Igneous, or Metamorphic. Arrangement of Rocks on the large scale; stratification, elevation and disturbances, denudation.

(3) *Chronological Geology and Palæontology*.—Data for determining the relative ages of formations. Classification according to age. Fauna and Flora of the successive periods. Geology of British America.

Text-Books—Dana's Manuals of Mineralogy and Geology, with Lyell's Elements.

The Lectures in Natural History will be accompanied with demonstrations in the Museum. Students in Natural History are also entitled to tickets of admission to the Museum of the Natural History Society of Montreal.

9. APPLIED CHEMISTRY.

Professor, T. STERRY HUNT, LL.D, F.R.S., &c.

Dr. Hunt will deliver a short Course of Lectures on some selected topics of Technical Chemistry; of which due notice will be given.

10. METEOROLOGY.

Professor, CHARLES SMALLWOOD, M.D., LL.D.

Instruction in Meteorological Observations will be given in the Observatory at hours to suit the convenience of the senior students.

11. ELOCUTION.

MR. JOHN ANDREW, Instructor.

Students are recommended by the Faculty, to avail themselves of the instructions of Mr. Andrew, who will make arrangements for evening classes to meet during the Session.

II. HONOUR COURSES.

1. CLASSICS.

B. A. HONOURS, BEING THE HONOUR COURSE FOR STUDENTS OF THE THIRD AND FOURTH YEARS.

Candidates for B. A. Honours in Classics will be examined in the following subjects :—

I. GREEK.

I.—*Greek Philosophy.*

Plato.—Republic, Books I. & II.

Aristotle.—Nicomachean Ethics, Books I. & II.

II.—*Greek History.*

Herodotus.—Books VIII. & IX.

Thucydides.—Book I.

Xenophon.—Hellenics, Books I. & II.

III.—*Greek Poetry.*

a. *Epic.*—Homer.—Odyssey, Books I., II. & III.
Hesiod.—Works and Days.

b. *Dramatic.*—Æschylus.—Prometheus Vincetus.
Seven against Thebes.

Sophocles.—Antigone.

Euripides.—Hippolytus.

Aristophanes.—The Frogs.

c. *Lyric and Bucolic.*—Pindar.—Olympic Odes.

III. HISTORY OF GREECE AND ROME.

Text-Books :—

1. Grote's History of Greece, Vols. III. to VIII.
2. Arnold's History of Rome.
3. Mommsen's History of Rome.

IV. COMPOSITION.

1. Composition in Greek and Latin prose.
2. General paper on Grammar, History and Antiquities.

The Examination for B. A. Honours will extend over four days, in the morning from 9 to 12, and the afternoon from 2 to 5.

2. LOGIC, MORAL PHILOSOPHY, AND MENTAL PHILOSOPHY.

B. A. HONOUR COURSE.

Third Year.—History of Ancient Ethical Systems.

Fourth Year.—Two courses of Lectures will be given, one in Logic the other in Metaphysics. Subject of the latter.—The Philosophies of Kant and Hamilton.

Candidates for B. A. Honours in the department of Philosophy will be examined on the following works, in addition to the subjects treated in the Lectures.

In Logic.—On the *Novum Organum* of Bacon.

Mill's Logic.
Mansel's *Prolegomena Logica*.
Trendelenburg's Elements.

In Metaphysics.—On Ancient Philosophy, as in Schwegler's *History*.

Plato's *Theætetus* [English].
History of Modern Philosophy.—Schwegler.
Locke's *Essay on the Human Understanding*, Books I, II, IV.
Berkeley's principles of Human Knowledge,
Hamilton's Discussions I. and II. and Appendix to Discussions, I [A]
Hamilton's Notes to Reid, A., B., C., D., and D*
Mill's Examination of Sir W. Hamilton's Philosophy.

In Moral Philosophy.—Grant's *Aristotle*, Vol I pp. 1--336.

Stewart's *Philosophy of the Active and Moral Powers*, Books I., II., III.
Kant's *Metaphysics of Ethics*.

3. ENGLISH LANGUAGE, LITERATURE AND HISTORY.

B. A. HONOUR COURSE.

1. *Language.*

Klipstein's *Anglo-Saxon Grammar*.
Thorpe's *Analecta Anglo-Saxonica*.
Marsh's *Lectures on the English Language*, by Smith.

Craik's Outlines of the History of the English Language.
 Tyrwhitt's Essay on the Language and Versification of Chaucer.
 Trench's Study of Words.
 Trench's English Past and Present.
 Trench's Glossary.

II. Literature.

Required from the Student a general acquaintance with the works of the English Classical authors, and a more minute study of the following portions of English Literature :

Shakespeare's Plays.
 Chaucer--- Canterbury Tales ; The Prologue and the Knight's Tale ; the Flower and the Leaf ; the House of Fame.
 Spenser--- Fairie Queen ; Books I., II.
 Marlowe--- Faustus and Jew of Malta.
 Milton--- Paradise Lost ; Comus ; Lycidas ; L'Allegro.
 Dryden--- Absalom and Achitophel ; Annus Mirabilis ; Dedications to his Translations of Virgil's *Aeneid* and the Satires of Juvenal.
 Pope--- Dunciad ; Essay on Criticism ; Rape of the Lock ; Eloisa and Abelard ; Prefaces to his Translations of Homer's *Iliad* and *Odyssey*.
 Bacon--- Essays.

Required to be read in connection with this part of the Course :---

Craik's History of English Literature.
 Hallam's Literary History of Europe---the parts relating to English Literature
 Johnson's Lives of Milton, Dryden, Addison, Pope.
 Dunlop's History of Fiction.

III. History.

Required a general acquaintance with the History of England to the year 1714, and a more minute knowledge of the Anglo-Saxon period, of the 13th and 14th centuries, and of the period from the accession of Elizabeth to that of George I. The following books are recommended :---

Hume's History of England.
 Godwin's Life and Times of Chaucer.
 Pauli's Life of Alfred the Great.
 Froude's History of England.
 Macaulay's History of England.
 Clarendon's History of the Rebellion.
 Hallam's Constitutional History of England.

4. MATHEMATICS AND PHYSICS.

HONOUR COURSE.

MATHEMATICS.—(*First Year.*) McDowell's Exercises on Modern Geometry, &c.—Wood's Algebra.—Hind's Plane Trigonometry.

MATHEMATICS.—(*Second Year.*)—Todhunter's Theory of Equations.—Hind's Spherical Trigonometry.—Salmon's Analytic Geometry, first thirteen chapters.—Hall's Calculus.—Chapters 1, 2, 3, 4, 6, 7, of Diff. Cal. ; Chapters 1, 2, 3, 4, 5, of Integ. Cal.

MATHEMATICAL PHYSICS.—(*Third Year.*)—Todhunter's Statics, (omitting Chap. 13).—Tait & Steele, Dynamics of a Particle.—Besant's Hydrostatics, Chaps. 1, 2, 3, 5.—Walton's Mechanical and Hydrostatical Problems.—Parkinson's Optics.—Main's Practical and Spherical Astronomy (selected course).

B. A. HONOUR COURSE.

PURE MATHEMATICS.—Hind's Plane and Spherical Trigonometry.—Todhunter's Theory of equations.—Hall's Differential and Integral Calculus.—Boole's Differential Equations (selected course).—Gregory's Examples of the Calculus (omitting the last two Chapters). Salmon's Conic Sections.—Salmon's Geometry of Three Dimensions (selected course).

MECHANICS.—Todhunter's Statics.—Tait & Steele, Dynamics of a Particle.—Routh's Dynamics of a Rigid Body.—Besant's Hydrostatics and Hydrodynamics.—Walton's Mechanical Examples.—Walton's Examples in Hydrostatics

} As in Ordinary Course.

The examination for B. A. Honours will continue for *four* days.

The Examinations for honours in the other years will continue for *two* days.

Engineering Students may be candidates for Honours.

5. NATURAL HISTORY AND GEOLOGY.

B. A. HONOUR COURSE.

Students entering for Honours must have passed creditably the examinations in Elementary Chemistry, Zoology, Botany and Experimental Physics; and should know the elements of Drawing. Students entering for practical purposes will be required only to satisfy the Professor of their fitness for the studies of the class.

Candidates for Honours will be expected to attain such proficiency as to be able to undertake original investigations, in some at least of the subjects of study.

The Lectures will include.—

1. An advanced course in General Geology and Palæontology, in connection with which the Students will be required to read Dana's Geology and Lyell's Student's Elements.

2. Methods of observation and of conducting Geological Surveys. Applications of the science to Mining, Engineering and Agriculture.

3. Canadian Geology, in connection with which the Students will read Logan's Report of the Geological Survey of Canada, and Dawson's Acadian Geology.

4. Practical Palæontology and determination of species; with books of reference from the College Library, and specimens from the Museum.

5. Excursions for Field Work will be undertaken when practicable.

In addition to the above, the Student is required to pass an examination in any one of the following subjects:—

1. The Systematic part of Botany, as in Gray's "Text Book" and "Manual," and specimens illustrative of these books from the Museum.

2. Huxley's Elements of Comparative Anatomy and Dawson's Handbook of Zoology, and specimens illustrative of the latter.

3. Dana's Mineralogy, and specimens illustrative thereof from the Museum.

§ XI. LIBRARY, MUSEUM, APPARATUS AND OBSERVATORY.

I. THE LIBRARY.

The Library of the Faculty of Arts contains nearly 9,000 volumes of standard works, selected with especial reference to the wants of Professors and Students, and open to their use during the Session.

The most important additions recently made to the Library are the "Peter Redpath Historical Collection" consisting of 830 volumes of the more rare and valuable works relating to English History; a collection of 222 volumes in Classical Literature presented by Mr. C. Alexander, and the Library of Dr. John Robson of Warrington, England, presented by him, consisting of 2597 volumes, and 3274 Pamphlets.

(The above statement does not include the Library of the Medical Faculty, which contains upwards of 4,000 volumes.)

II. THE MUSEUM OF NATURAL HISTORY.

1. **ZOOLOGY.** In this department the Museum contains a general collection of type specimens, illustrating the Orders and characteristic Genera of the Animal Kingdom, the whole arranged and labelled in such a manner as to correspond with the College course on the subject. There are also the following special collections:—

The Carpenter Collection of Shells, being the general collection of Dr. Philip P. Carpenter, presented by him to the University, and in process of arrangement in a separate room.

The Carpenter Collection of Mazatlan Shells.

The Couper Collection of 2,400 Canadian Insects.

Collections of Canadian Fresh-water and Land Shells.

2. **BOTANY.** The Herbarium consists of the Collection of the late Dr. Holmes, of Montreal, presented by him to the University; and with the additions recently made to it, affording a nearly complete representation of the Flora of Canada. There are also collections of European, Arctic and Alpine Plants, and of specimens of Woods, Fungi, &c.

3. **GEOLOGY AND MINERALOGY.**—The general collection consists of a series of the characteristic Fossils of all the great geological periods, with additional suites of specimens, illustrating in greater detail the formations represented in Canada. There is also an extensive collection of Rock specimens, and collections are being formed representing the principal Mineral Regions of Canada.

The Mineralogical Cabinet consists principally of the "Holmes Collection," containing about 2,000 specimens of Canadian and Foreign Minerals. A large portion of these are displayed in glass cases for the use of students, under the arrangement of Dana's Manual of Mineralogy.

All of the above Collections are used to illustrate the lectures, or are open to the inspection of students, who are also entitled to access to the large and valuable collections of the Natural History Society of Montreal.

III. PHILOSOPHICAL APPARATUS.

The value of the Apparatus is above \$4000. Of this more than two thousand dollars' worth has been lately added by means of a personal subscription amongst some of the Governors. The collection is now very valuable for purposes of illustration in the departments of Mathematical and Experimental Physics. Besides instruments to illustrate Mechanics, [Statics and Dynamics] and Optical instruments, such as Microscopes, a Telescope, Sextant, &c., there is a good collection for Hydrostatics and Pneumatics, another for Heat, and a very full collection for Magnetism and Electricity [Statical and Dynamical] including Electro-magnetism, Magneto-electricity, Diamagnetism, Thermo-electricity, the Measurement of Electric Resistance, &c. The collection for Light, besides apparatus illustrative of the common phenomena of optics, includes the best instruments for exhibiting on a large scale with the aid of the electric light the phenomena of Interference, Diffraction, Polarization and Double Refraction. There is a good collection for Sound.

IV. CHEMICAL LABORATORY.

The Laboratory is furnished with the Apparatus, Specimens and Chemical Reagents necessary to illustrate the class-lectures in Chemistry; and is also fitted up with all the necessary appliances for the work of a class in Practical Chemistry and for Chemical Analysis.

V. METEOROLOGICAL AND MAGNETIC OBSERVATORY.

The Basement of the Building is devoted entirely to the observations on Terrestrial Magnetism.

The Ground Story and Leads are the portion of the Building devoted to Meteorological observations.

The Transit tower is for the purpose of giving time to the City, and to the Ships in the Harbour, and is connected by Electric Telegraph with a "Time Ball" at the wharf. Connection by Electric Telegraph having also been established between the

Observatory and the Government Buildings at Ottawa, mean time is transmitted daily at noon, and made known there by the firing of a Cannon.

The principal Meteorological Instruments are :--Thermometers for determining the Temperature of the Air; Barometers for ascertaining the atmospheric pressure; Psychrometers for the purpose of determining the Elastic force of Aqueous Vapour, the relative Humidity and Dew Point; Instruments for recording the Solar and Terrestrial Radiation; Rain and Snow Gauges for indicating the amount and duration of Rain and Snow; Ozonometer for recording the amount of Ozone.

The direction and velocity of the wind are registered by a modification of Dr. Robinson's Anemometer.

Observations on Storms, Auroras, Haloes and other Natural Phenomena which mark the variation of Climate are duly recorded.

The Instruments in the Basement of the Building are for determining the Magnetic Elements; and consist of, [1] a Declinometer for measuring the Declination or Variation of the Magnet; [2] a unifilar Magnetometer consisting of an apparatus for deflection and vibration, for ascertaining the horizontal Magnetic force; [3] an Inclinator or Dip-needle [No. 30 used in the Magnetic Survey in Great Britain] for showing the Inclination or Dip. From these observations are reduced the absolute values of the Magnetic Elements.

The Observatory is under the supervision of Professor Smallwood, M. D., LL. D., D. C. L.

Matriculation Examiner of the Faculty,—Professor H. ASPINWALL HOWE, A.M. LL.D.

The thirty-ninth Session of the Medical Faculty of McGill University will be opened on Tuesday 3rd October, 1871, with a general Introductory Lecture, at 11 A.M. The regular Lectures will commence on Wednesday the 4th Oct., at the hours specified in the time table, and will be continued during the six months following.

The Faculty have much pleasure in announcing that the Governors of the University have undertaken, at a large expense, the erection of a new and commodious building for the use of the Medical Department. The building is now in progress; and, while its appearance and surroundings will be pleasing to the eye, its position, size and internal arrangements will be such as to conduce to the health, comfort and progress both of Students and teachers.

The class-tickets for the various courses are accepted as qualifying candidates for examination before the Universities and Colleges of Great Britain and Ireland, the Medical Boards of the Army and Navy, and the College of Physicians and Surgeons of Ontario.

To meet the circumstances of General Practitioners in British North America, where there is no division of the profession into Physicians and Surgeons exclusively, the degree awarded upon graduation is that of "Doctor of Medicine and Master of Surgery." This designation is also appropriate, as it agrees with the general nature and character of the previous curriculum demanded of the candidates for this double rank, as is

fully specified hereafter. The degree is received by the College of Physicians and Surgeons of Lower Canada.

To intending students desirous of information upon the best manner of pursuing their studies, the following suggestions are made by the Faculty:—

Exclusively of general education, professional reading for some time previously to matriculation, is advised as a preparation, whereby familiarity with technical terms will be gained, and an insight obtained into the subjects to be brought under notice during lectures.

The student is advised to pass the Matriculation Examination in March, so that his four years of pupilage may expire at the close of a winter session. A certificate of having passed such examination before the examiners appointed by the College of Physicians and Surgeons of Ontario, will be accepted by this University.

While the University regulations permit a student to graduate after three years' attendance upon lectures, provided he furnish proof that he has studied one year in addition with a private practitioner, yet he is recommended to devote four sessions to systematic instruction, as less time is scarcely sufficient for acquiring a fair knowledge of the many subjects which compose the curriculum.

Attention is recommended to be given during the First Session to the primary branches only; during the Second Session an increase is proper, and two of the final courses may be profitably conjoined with such of the primary as are required; while during the remaining period the curriculum is to be completed. Clinical courses should not be taken out during the first Session.

As daily bed-side instruction is essential to the student of medicine, the undergraduate is earnestly advised to spend at least the last two summers in availing himself of the opportunities afforded by the large hospitals—general and lying in—of our city, in which, moreover, dresserships should be obtained.

Enregistration is necessary every Session; it is required upon entrance, or as soon afterwards as possible, and always before any class-tickets are procured. The time fixed for closing the Register is annually on the fifteenth of November.

Class-tickets are payable in advance, and if not taken out within the prescribed period of the current session, will not be granted after its expiration.

A Medical Session or *annus medicus*, consists of enregistration and attendance upon at least two six months courses or one six months and two three months courses.

The ample and varied means which are placed at the disposal of

the student by this University, together with the large hospitals in connection with it, are briefly referred to in the following pages.

COURSES OF LECTURES.

1. **ANATOMY.**—(Prof. Scott). The importance of Anatomy, both descriptive and in its relations to Medicine and Surgery, is duly considered by the Professor, who employs chiefly the fresh subject in the illustration of the lectures, aided, however, by dried preparations, wax models, plaster casts of dissections, plates &c., the full size of life.

The Dissecting Room, which is open from 8 a.m. to 10 p.m.—is large, well ventilated and supplied with every convenience, such as gas, water &c. &c. It is under the direct supervision of the Professor of Anatomy aided by the Demonstrator. The Demonstrator is constantly in attendance during certain hours every day, to direct and instruct students in Practical Anatomy, and the Professor also daily visits the Room to superintend and examine Students engaged in dissection. Abundance of fresh material for dissection will be provided.

2. **CHEMISTRY.**—[Prof. Craik]—Inorganic Chemistry is fully treated; and a large portion of the course is devoted to Organic Chemistry and its relations to Physiology. The branches of Physics bearing upon or connected with Chemistry also engage the attention of the class. For experimental illustration, abundant apparatus is possessed by the Professor, among which may be enumerated, a powerful Air Pump—Oxy-Hydrogen Microscope—Polariscope—extensive series of Crystal Models—Electrical and Galvanic apparatus, Steam-engine, &c., &c.

3. **MATERIA MEDICA.**—[Prof. Wright]—This course is illustrated from a cabinet of Pharmacological objects; by plates of Medicinal Plants (Wagner, Roque, Stevenson and Churchill); by dried specimens; by carefully prepared Microscopical objects, &c., &c., Analytical experiments with the ordinary reagents are also shown; and diagrams with other illustrations, are used.

4. **INSTITUTES OF MEDICINE**—[Prof. Fraser]—This course comprises Histology, Physiology, General Pathology and Therapeutics. The lectures are illustrated by diagrams, plates, and Microscopic preparations of the various tissues, and by Pathological specimens from the Museum.

5. **PRACTICE OF MEDICINE.**—[Prof. Howard]—The extensive series of plates contained in the Library (Lebert, Cruveilhier, Carswell, Hope, Alibert, Willan, Bateman, &c., &c.) will be employed; also Morbid preparations and models of diseased parts.

6. **SURGERY.**—[Prof. Campbell]—Divided into Principles and Prac-

tice, including Surgical Anatomy and Operative Surgery, exhibited on the subject. The various surgical instruments and apparatus exhibited, and their uses and applications explained and practically illustrated.

7. MIDWIFERY.—[Prof. McCallum]—Including diseases of females and infants, illustrated by a series of drawings on a large scale, by humid preparations; by models in wax; by the use of the artificial Pelvis, and by cases in the wards of the Lying-in Hospital.

8. MEDICAL JURISPRUDENCE.—[Prof. Fenwick]—Includes Toxicology. The modes of testing for poisons are exhibited, and post-mortem appearances illustrated by plates. Insanity, Public Hygiene and Medical Police also form part of the course.

9. CLINICAL SURGERY.—[Prof. Fenwick]—The lectures in this course are in illustration of Surgical cases under observation in the Wards of the General Hospital. Bed-side instruction is followed up daily and all operations are performed in the presence of the class. The lectures are illustrated by cases under surgical treatment, by plates, surgical apparatus, morbid specimens, models and the use of the microscope.

10. CLINICAL MEDICINE.—[Prof. Drake]—Taught by lectures and at the bed-side—Physical Diagnosis is taught practically, and each pupil required to take part in it. Examination of the urine, chemical and microscopical, explained and illustrated.

11. BOTANY AND ZOOLOGY.—[Prof. Dawson]—In addition to the above classes, Students are required to attend one course of Botany and Zoology, on which subjects separate Lectures are delivered to Medical Students. Medical Students will also have access to the Lectures in Zoology in the Faculty of Arts, and to the Natural History Museum of the University, and the Museum of the Natural History Society of Montreal. (For details see announcement of the Faculty of Arts.)

Prizes will be awarded at the end of each Session, to Students in Botany of the class of the previous Session, for the best *Named Collections* illustrative of the Flora of Canada. The collections, or duplicates of them to remain in the College Museum.

12. PRACTICAL CHEMISTRY.—[Dr. Girdwood.]—Thorough instruction is given in the different departments of Practical Chemistry, under the personal supervision of the Lecturer; and the course includes blow-pipe manipulations, qualitative and quantitative analysis; toxicological investigation, &c., &c.

SUMMER COURSE OF CLINICAL INSTRUCTION.

In order that Medical Students may avail themselves of the unusual opportunities for the practical study of disease afforded by the Hospitals of this city, the special course of Clinical instruction during the Summer

months begun last year, will be continued, and all Matriculated Students will be permitted to attend it without charge. This course will commence on the 4th July, and terminate on the 23rd Sept., and will consist of a daily out-door clinic conducted on alternate days, during the first six weeks by Professors Howard and McCallum, and during the last six by Professors Fenwick and Drake. (Professors Howard and Fenwick—Mondays, Wednesdays and Fridays; Professors McCallum and Drake—Tuesday, Thursdays and Saturdays.) In addition to the above, daily bed-side instruction will be given during the same months, in the wards of the General Hospital by the attending Physicians, Professors Wright and McCallum.

The above course of Clinical instruction does not form a necessary part of the curriculum, but has been established to allow the student facilities for acquiring practical knowledge of disease, when his time is not otherwise occupied in attendance upon lectures.

COURSE OF LECTURES UPON HYGIENE.

A course of twelve lectures upon Hygiene and Public Health will be delivered this summer by George Ross, A.M., M.D. They will be begun during the first week in July, and as it is hoped that they may prove of much value to Medical Students, all who may have the opportunity of attending are recommended to do so.

LIBRARY AND MUSEUM.

The Library contains upwards of 4,000 volumes, including the most useful books of reference, as well as the most elementary: the works of the older authors as well the most recent. It is open to the Students without charge, under necessary regulations for the care of the books. The Museum contains a large number of preparations, chiefly Pathological; also, wax and papier-maché models.

HOSPITALS.

The Montreal General Hospital affords ample means for the instruction of Students in Clinical Medicine and Surgery. The daily number of beds occupied by patients averages from 130 to 140, and during epidemic visitations has reached a much higher number. In addition to the Hospital proper, which is devoted to Medical and Surgical cases, there is a detached Hospital in which the several forms of Fever may be studied. The Governors are about erecting an hospital for children contiguous to

the Reid Wing of the present building, so that the students will have an opportunity of becoming familiar with nearly all the diseases of suffering humanity, and with the peculiarities imparted to them by infancy, adolescence, maturity and declining age.

The large number of out-door patients that are treated in the Hospital, averaging from sixty to seventy daily—supply illustrations of most of the diseases of infants and children, of very many of the eye and skin, and of those chronic and ill-defined ailments which, as they do not require admission to the wards of an hospital, would not otherwise come under the observation of the student, although, on account of their variety and frequency, of great importance to the Physician.

The shipping contributes a great many examples of accidents and surgical cases.

The fee for a six months' ticket is Six Dollars ; for perpetual, Sixteen Dollars.

The Operating Room [used also for a lecture room] is so constructed as to suit the convenience of the students in obtaining a good view of the operations.

An abstract of the Hospital report for last year is appended to this circular.

The University Lying-in Hospital is under the direction of the Professor of Midwifery. Students who have already attended one course of his lectures, are furnished with cases in rotation ; and they are advised to attend this Institution as much as possible during the Summer, when as there are as many patients and not so many pupils as in the winter, a larger proportion of cases falls to the share of each. Moreover, in this way more attention can be given to their duties during the winter. The fee for a Six months' ticket is Five Dollars.

PAST SESSION.

The total number of Students in the past Session was 150, (an increase of 10 over the preceding Session). Of these there were from the Province of Ontario 78 ; from the Province of Quebec 61 ; Nova Scotia 4 ; New Brunswick 1 ; Newfoundland 2 ; Prince Edward Island 2 ; United States 2.

The number of Students who passed their Primary Examination, which includes Anatomy, Chemistry, Materia Medica, Institutes of Medicine, and Botany or Zoology, was 26 ; alphabetically arranged as follows :—

EXTRACTS FROM THE REGULATIONS.

§ 1. *Courses of Lectures, Fees, &c.*

1st. Each Professor shall deliver at least five Lectures during the week except in the classes of Clinical Medicine and Clinical Surgery, in which only two Lectures shall be required; and in that of Medical Jurisprudence, if extended through six months, in which case three Lectures a week will suffice.

2nd. Each Lecture shall be of one hour's duration.

3rd. Every Professor shall occasionally examine his class upon the subjects treated of in his preceding Lectures; and every such examination shall be considered a Lecture.

4th. A roll of the names of the Students attending each class shall be called from time to time.

5th. All tickets which have not a Certificate of attendance attached, shall be rejected when presented as testimonials previous to examination, unless the omission shall be satisfactorily accounted for.

6th. The Fee for each class shall be \$12, with the following exceptions; for that of Medical Jurisprudence, \$10; for those of Clinical Medicine and Clinical Surgery, \$6 each; for Botany and Zoology, \$5; Practical Anatomy \$5. The class-fees are payable in advance.

7th. Any Student, after having paid the Fees, and attended two courses of any class, shall be entitled to a perpetual ticket for that class.

8th. The courses of all the Classes, except those of Clinical Medicine, Clinical Surgery and Medical Jurisprudence, shall be of six months' duration; the classes of Clinical Medicine and of Clinical Surgery, of three months' duration; and Medical Jurisprudence, three months, in which case Five Lectures a week shall be given; or of six months, in which case only three Lectures a week shall be required.

9th. The courses shall commence on the first Tuesday in October, and with the exception of a vacation at Christmas, shall continue to the end of March.

10th. The Matriculation Examination shall be that recommended by the Council for Medical Education and Registration of Great Britain. Examinations, in conformity therewith, will be held the first Saturday in October and the last Saturday in March of each year. Applications may be made to the Registrar of Faculty till the evening of the previous day. The requirements of the standard for matriculation are:—"Compulsory—English Language, including grammar and composition; "Arithmetic, including vulgar and decimal fractions; Algebra, including simple equations; Geometry, first two books of Euclid; Latin translation and grammar: and one "of the following optional subjects;—Greek, French, German, Natural Philosophy, "including mechanics, hydrostatics, and pneumatics,"

Graduates in Arts of recognized Universities are not required to submit to the Matriculation Examination, and a certificate of having passed this examination before the College of Physicians and Surgeons of Ontario will be accepted by this University.

§ 2. *Qualifications and Studies of Students and Candidates for the Medical Degree.*

1. All Students desirous of attending the Medical Lectures, shall at the commencement of each Session, enrol their names and residences in the Register of the Medical Faculty, and procure from the Registrar a ticket of Enregistration for which each Student shall pay a fee of \$2.

2. The said Register shall be closed on the 15th day of November, in each year, and no tickets obtained from any of the Professors shall be received without previous enregistration.

3. No one shall be admitted to the Degree of Doctor of Medicine and Master of Surgery, who shall not either:—1st, have attended Lectures for a period of at least four sessions in this University, or some other University, College, or School of Medicine, approved of by this University; or 2ndly, have studied Medicine during at least four years and during that time have attended Lectures for a period of at least three Sessions, either in this University, or some other University, College, or School of Medicine, approved of by this University.

4. Candidates for the final Examination shall furnish Testimonials of attendance on the following branches of Medical Education, viz:—

6th. He must also give proof by ticket of having attended for at least six months the practice of the University or other Lying-in Hospital approved of by this University, and of having attended at least six cases of accouchement.

7th. No one shall be permitted to become a Candidate for examination who shall not have attended at least One Session of this University, and during that Session one full Course of all the branches included in its curriculum.

8th. Courses of less length than the above will only be received for the time over which they have extended.

9th. Every Candidate for the Degree must on or before the Fifteenth of February present to the Dean of the Medical Faculty testimonials of his qualifications, entitling him to an examination, and also a Thesis or Inaugural Dissertation, written by himself, on some subject connected with Medical or Surgical Science, in the Latin, English, or French Language. He must at the same time deliver to the Dean of the Faculty the following Certificate :—

MONTREAL, ——— 18—

I the undersigned, being desirous of obtaining the Degree of Doctor of Medicine and Master of Surgery, do hereby declare that I have attained the age of twenty-one years, or (if the case be otherwise,) that I shall have attained the age of twenty-one years before the next graduation day, and that I am not (or, shall not be at that time) under articles as a pupil or apprentice to any Physician, Surgeon, or Apothecary. [Signed,] A.B.

10th. The trials to be undergone by the candidate shall be :—

[1] The private examination of his Thesis as evidence both of Medical and general acquirement, followed [if approved] by its public defence.

[2] A general examination on all the branches of Medical and Surgical Science, oral, and by written papers.

[3] The Clinical Professors shall conduct the examinations of members of their classes at the bedside, submitting to them cases for diagnosis and treatment in the wards of the Hospital; they shall also in estimating the standing of members of their classes, and the number of marks to be awarded, take into account the regularity of their attendance and the diligence and care they evince in reporting cases.

These examinations will be divided into Primary and Final, the former comprehending Anatomy, Chemistry, Materia Medica, Institutes of Medicine, and Botany or Zoology; the latter Practice of Medicine, Surgery, Midwifery, and Medical Jurisprudence. It will be optional with the student to present himself for the Primary Examination at the end of the Third Session, or the Third Year.

11. The following Oath or affirmation, will be exacted from the Candidate before receiving his Degree.

Dean of the Faculty,—HON. J. J. C. ABBOTT, Q.C., D. C. L.

The Classes in Law will commence on Tuesday the Third of October, 1871, and will extend to March 30th, 1872.

With the view of suiting the convenience of the students, the Board of Governors have procured commodious Lecture Rooms for the Faculty in a central part of the city.

The several courses of Lectures in the Faculty of Law comprise every branch of Legal Study.

The Educational Officers of the Faculty have felt that the Law of this Province, though in many of its details purely local, retains as its leading characteristics, the noble and imposing features of the Civil Law, and that the principles established in the Roman Jurisprudence, still form the groundwork of many of its departments. The Lectures, therefore, though prepared with especial reference to the Law of Quebec, have been, as far as consistent with their primary object, divested of any purely sectional character, and are made to inculcate such comprehensive principles, as form, to a great extent, the basis of every system of jurisprudence.

It is considered that this system will afford to students of the Laws of Quebec, a better foundation for their subsequent studies, and tend to give them a more extended and comprehensive grasp of legal subjects, than a course of instruction conducted solely with reference to local law; while it is hoped, in view of the increased importance which the study of Roman Law is everywhere assuming, that the advantages offered, and the mode of education adopted by this Faculty, will open to it an extensive field of usefulness.

The promulgation of the Civil Code of Lower Canada marks an important epoch in the history of the laws of the now Province of Quebec.

It is the intention of the Professors, so far as practicable, to explain to

the Students, the more important articles of this Code (2615 in number) in the complete course of study as indicated below.

The promulgation of the Codes of Civil Procedure, marks another important epoch in the history of our laws. Attention will be specially drawn to its provisions in this course.

The enactment of these Codes of law, it is believed, will lighten much the labours of professors and students, who need no longer view the study of the profession as a vast and ill-digested whole, wanting coherency and certainty. On the contrary, the study of the texts will afford a good stand-point from which the subtle questions of jurisprudence will be the most easily and satisfactorily discussed and finally settled.

The Faculty congratulate the students that their entry into a noble but arduous profession will be much facilitated by the conspicuous land-marks planted by the new Codes; and while intense study and application will still be demanded from the true lover of his vocation, the future of the young juriconsult of the Province of Quebec may be regarded as opening under the happiest auspices.

The complete course of study in this Faculty extends over three years; but it may be shortened to two years, when the student matriculates in the third year of his indentures.

EXTRACTS FROM THE REGULATIONS.

1. Any person desirous of becoming a Matriculated Student, shall apply to the Dean of the Faculty for examination, and for entry in the Register of Matriculations, and shall procure tickets of Matriculation and of admission to the Lectures for each Session of the Course.

2. Candidates for Matriculation shall be examined in at least one Latin Classic and in English or French, the standard being such as be determined by regulation of the Faculty, approved by the Corporation.

3. Students in law shall be known as of the First, Second, and Third Years, and shall be so graded by the Faculty. In each year, Students shall take the studies fixed for that year, and those only, unless by special permission of the Faculty.

4. The register of Matriculation shall be closed on the 15th November in each year, and return thereof shall be immediately made by the Dean to the Registrar of the University. Candidates applying thereafter may be admitted on a special examination to be determined by the Faculty, and if admitted, their names shall be returned in a supplementary list to the Registrar.

5. Persons desirous of entering as Occasional Students, shall apply to the Dean of the Faculty for admission as such Students, and shall obtain a ticket, or tickets, for the classes they desire to attend.

6. Students who have attended Collegiate courses of study in other Universities for a number of terms or sessions, may be admitted on the production of certificates to a like standing in this University, after examination by the Faculty.

7. All Students shall be subject to the following regulations for attendance and conduct :—

(1) A Class book shall be kept by each Professor and Lecturer, in which the presence or absence of Students shall be carefully noted; and the said Class-books shall be submitted to the Faculty at all the ordinary meetings during the Session.

(2) Punctual attendance on all the classes proper to his year, is required of each student. Professors will note the attendance immediately on the commencement of their lectures, and will omit the names of Students entering thereafter, unless satisfactory reasons are assigned. attention or disorder in the Class room, if persisted in after admonition by the Professor, will be reported to the Dean of the Faculty, who may reprimand the student or report to the Faculty, as he may decide. While in the College building, or going to or from it students are expected to conduct themselves in the same orderly manner as in the Class-rooms. Any Professor observing improper conduct in the Class-rooms, or elsewhere in the building, will admonish the student, and, if necessary, report him to the Dean.

(3) When students are reported to the Faculty under the above rules, the Faculty may reprimand, report to parents or guardians, disqualify from competing for prizes or honours, suspend from classes, or report to the Corporation for expulsion.

(4) Any Student injuring the furniture or building, will be required to repair the same at his own expense, and will, in addition, be subject to such penalty as the Faculty may see fit to inflict.

(5) The number of times of absence, from necessity or duty, that shall disqualify for the keeping of a Session, shall in each case be determined by the Faculty.

(6) All cases of discipline involving the interests of more than one Faculty, or of the University generally, shall be reported to the Principal, or, in his absence, to the Vice-Principal.

8. At the end of every Session there shall be a general examination of all the Classes, under the Superintendence of the Professors, and of such other Examiners as may be appointed by the Corporation, which examination shall be conducted, as far as possible, by means of written or printed questions, answered by the students in writing, in the presence of the Examiners. The result shall be reported as early as possible to the Faculty, which shall decide the standing of the Students accordingly.

9. Each Professor shall deliver one Lecture in each week, to the Students of each year, and each Lecture shall be of one hour's duration; but the Professors and Lecturers shall have the right from time to time to substitute an examination for any of such Lectures.

10. No Student shall be considered as having kept a Session in this Faculty, unless he shall have regularly attended at least three courses of Lectures, one of which courses shall be on the Civil Law; nor unless at the end of such Session he shall have passed the Sessional Examination to the satisfaction of the Faculty.

11. The Faculty shall have the power, upon special and sufficient cause shown, to grant a dispensation to any Student from attendance on any particular Course or Courses of Lectures, but no distinction shall, in consequence, be made between the Examinations of such Students, and those of the Students regularly attending Lectures.

12. The Final Examination for the Degree of B. C. L. shall be conducted in the same manner as the ordinary Sessional Examinations; but the preparation of a Thesis in Latin, French, or English, upon some subject previously approved by the Dean of the Faculty, shall form an essential part of every such Final Examination.

13. The Elizabeth Torrance Gold Medal, in the Faculty of Law, shall be awarded to the Student who being of the Graduating Class and having passed the Final Examination, shall have prepared a Thesis of sufficient merit in the estimation of the Faculty to entitle him to compete, and who shall take the highest marks in a special Examination for the Medal, which Examination shall in all cases include the subject of Roman Law.

The exercises required under the 3rd Art. of the 7th Chapter of the Statutes of this University, to entitle the Student to receive the Degree of B. C. L. in this Faculty shall consist of Attendance upon Lectures and submission to Examinations as hereinbefore prescribed; and no distinction in respect thereof shall be made between Students applying for their Degrees, whether their attendance upon Lectures shall have been for two or three years.

15. The Fees exigible in this Faculty shall be as follows :—

Matriculation Fee.....	\$ 2 00
Sessional Fee by Ordinary Students.....	15 00
Sessional Fee by Occasional or Partial Students, for each course	5 00
Graduation Fee, including Diploma.....	5 00

All of which Fees shall be paid in advance. But Students already on the Books of the University shall not be required to pay any Matriculation Fee; and Students simultaneously attending lectures in the Faculty of Arts shall be received upon such terms as shall be fixed by that Faculty.

Applications for admission may be made to the Dean of the Faculty, or to the Secretary of the College.

Department of Practical Science.

(IN THE FACULTY OF ARTS.)

Geology and Palaeontology.—J. W. DAWSON, LL.D., F. R. S., Professor.
English Language.—VEN. ARCHDEACON LEACH, LL.D., Professor.
Meteorology.—CHARLES SMALLWOOD, M.D., LL.D., Professor.
German.—C. F. MARKGRAF, M.A., Professor.
Mathematics and Natural Philosophy.—ALEXANDER JOHNSON, LL.D., Professor.
French.—P. J. DAREY, M.A., Professor.
Metallurgy.—T. STERRY HUNT, LL.D., F.R.S., Professor.
Engineering and Surveying.— Professor.
Practical Chemistry.—GILBERT P. GIRDWOOD, M.D., Lecturer.
Assaying and Mining.—BERNARD I. HARRINGTON, B.A., Lecturer.

The advantages offered in this department may be stated as follows. Students may enter on passing an examination in Mathematics and English, and may proceed to take a three years' course in Practical Science. In the Junior year the studies will be the same for all, and will include Mathematics, Chemistry, English, French and German, Drawing and the use of measuring instruments. Students who have already acquired the training given in the Junior year, may enter in the Middle year. In the Middle and Senior years the students may distribute themselves over three courses of study—one leading to Civil Engineering and Surveying, another to Mining and Mining Engineering, another to Practical Chemistry and Assaying. In each of these, beside the special subjects, there will be studies in Mathematics, Physical Science, Natural Science, and Modern Languages; and appropriate Degrees will be given on examination at the termination of the several courses. In addition to this, students who enter on the Ordinary Matriculation Examination in Arts, and who pursue the full course for two years and pass the Intermediate Examinations, may obtain exemptions enabling them to take one of the courses in Practical Science, while proceeding to the Degree of B. A. Partial or Occasional Students who desire instruction for a short time in some particular branch of study, will also be admitted.

It is hoped that these varied and eminently practical educational facilities will be taken advantage of by large classes of students. The fees have been fixed at a very moderate rate in comparison with similar schools abroad.

The following are the courses of study arranged for the next Session, commencing September 15, 1871:—

Hydraulic Engineering; with Mathematics, Physics, Natural Science and Modern Languages.

The course will extend over three years, and will lead to the degree of Graduate in Civil Engineering.

2. MINING, ENGINEERING AND ASSAYING.

Including Drawing, Surveying, and Engineering in part, with practical Geology, Mining, Mineralogy and Assaying; and similar studies in Mathematics, Physics, Natural Science and Modern Languages with those in the course of Engineering. This course will extend over three years, and will lead to the Degree of Graduate in Mining, Engineering and Assaying

3. PRACTICAL CHEMISTRY AND ASSAYING.

Students desirous to take this course, may substitute in the Middle Year Practical Chemistry for Engineering, and in the second year, an advanced course of Mineral Analysis and Assaying.

Students taking either of the above courses, may receive instruction in Meteorological and Magnetical observations from Dr. Smallwood, in the College Observatory.

Exemptions will be provided to enable Undergraduates in Arts to take the classes in the above courses, along with the studies of the two last years in Arts.

The subjects for Matriculation in the First Year will be :

In Mathematics.—Arithmetic; Algebra, to Simple Equations inclusive; Euclid's Elements, Books, I., II., III.

In English.—Writing from Dictation.

Students may enter in the Middle Year of the course, if competent to pass an examination in the following subjects, in addition to the English mentioned above :—

In Mathematics.

Euclid.—Books I., II., III., IV., VI., with Defs. of Book V. (omitting propositions 27, 28, 29, of Book VI).

Algebra.—To end of Quadratic Equations (Colenso's Alg.)

Trigonometry.—Galbraith & Haughton's Trigonometry, Chaps. 1, 2, 3, 4, 6, to beginning of numerical solution of plane triangles.

Arithmetic.—Ordinary Rules.—Proportion, Interest, Discount, &c., Vulgar and Decimal Fractions, Square Root.

Further details will be made known by special advertisement.

Fees.—For the course of Engineering, Mining Engineering, or Chemistry and Assaying, \$25.

Sessional Fee for the other classes, \$20.

For the Library \$2.

Matriculation Fee [in the first year only] \$4.—

Graduation Fee.—\$10.

The Fifteenth Session of the school will commence on the First of September, 1871, and will terminate on the first of July, 1872.

The complete course of Study extends over three years, and the Students are graded as follows:—

1. *Elementary School Class*.—Studying for the Elementary School Diploma.

2. *Model School Class*:—Studying for the Model School Diploma.

3. *Academy Class*.—Studying for the Academy Diploma.

1. *Conditions of Admission and of obtaining Diplomas.*

Candidates for admission into the Elementary School Class, will be required to pass an examination in Reading, Writing, the Elements of Grammar, Arithmetic and Geography; and to produce the certificate and sign the application referred to in Articles 1 and 2 of the Regulations, Page 80. Admission into each of the higher classes requires a knowledge of the subjects of the previous one.

Each Student must produce a certificate of good moral character from the clergyman or minister of religion under whose charge he has last been, and also testimony that he has attained the age of sixteen years. He will also be required to sign a pledge that he purposes to teach for three years in some public school in Lower Canada.

There will be a Semi-sessional Examination at Christmas, which all Students are required to pass, in order to continue in the classes.

At the close of the first year of study, students may apply for examination for diplomas giving the right to teach in Elementary Schools; and after two years' study, or if found qualified at the close of the first year, they will, on examination, be entitled to diplomas as teachers of Model Schools.

Students having passed the examination in the Model School Class, or having advanced to the requisite knowledge, may go on to the Academy Class, and, on examination, may obtain the Academy Diploma.

2. *Privileges of Students.*

On complying with the above conditions, all students will be recognized as *Teachers in Training*; and as such will be entitled to free tuition with the use of text books, and to bursaries in aid of their board, not exceeding \$36.00 per annum in the case of those in the two first Classes, or \$80.00 in the case of those in the Academy Class, should they be successful in obtaining the diploma at the final examination. A portion of this allowance will be advanced to such students as are not resident in Montreal, on their passing the semi sessional examination at Christmas.

Under the regulations subjoined, and with the view of extending the

benefits of the school to all parts of the country, those who reside at a distance of more than ninety miles from the city of Montreal, will also be entitled to a small allowance for travelling expenses proportionate to the distance.

Students resident in Montreal may share in the bursary fund, on producing certificates from their ministers or clergymen that such aid is absolutely necessary to their continuing in attendance at the school.

In addition to religious instruction of a general Protestant character by the Professors, arrangements will be made for special religious instruction by ministers representing the several denominations with which the students may be connected.

No boarding-house is attached to the institution, but every care will be taken to insure the comfort and good conduct of the students, in private boarding-houses approved by the Principal. Board can be obtained at from \$9 to \$12 per month.

The Prince of Wales Medal and Prize will be given to the Student taking the highest place in the Model School Class, provided that such Student shall attain to the standard fixed by the Regulations of the Council of Public Instruction for this Medal.

All the preceding regulations and privileges apply to female as well as to male students.

Persons holding the degree of B. A. or M. A. of any University in the Province of Quebec, may receive the Academy Diploma, on passing an examination in the art of teaching, and in such other subjects necessary to the Academy Diploma, as may not have been included in their University examination.

EXTRACTS FROM THE REGULATIONS.

Special Regulations for admission of Pupil-teachers.

Article First.—Any person desirous of being admitted as a pupil-teacher must apply to the Principal of the Normal School, who, on his producing an extract from the Register of Baptisms, or other evidence, showing that he is fully sixteen years of age, with the certificate of character and conduct required by the 16th article of the General Rules and Regulations, approved by His Excellency the Governor General in Council, on the 22nd December, 1856, shall examine the candidate.

If upon his examination it is found that the candidate can read and write sufficiently well, knows the rudiments of Grammar in his mother tongue, Arithmetic as far as the rule of three inclusively, and has some knowledge of Geography, the Principal shall grant him a certificate.

Article Second.—The candidate having thus obtained the certificate of the Principal, shall then, (in the presence of two witnesses, who, with the Principal, shall countersign the same,) sign any application in writing for admission, containing the declaration required by the 23rd general regulation. This shall be forwarded to the Superintendent of the School, together with all the certificates and other documents required, and if the whole be found correct, the Superintendent shall cause the name of the candidate to be inscribed in the Register, and notice thereof shall be given to the Principal.

Article Third.—The pupil-teachers shall state the place of their residence; and those who cannot reside with their parents, will be permitted to live in boarding-houses, but in such only as shall be specially approved of. No boarding-houses having permission to board male pupil-teachers, will be permitted to receive female pupil-teachers as boarders, and *vice versa*.

Article Fourth.—Every pupil-teacher on passing the examination, will be allowed a sum not exceeding £9. to assist in paying his board.*

Article Fifth.—Every pupil residing at a distance of more than ninety miles from the city of Montreal, shall be entitled to receive an allowance for travelling expenses, proportionate to the distance, but not to exceed two pounds ten shillings *per annum*.

Article Sixth.—The total amount of allowances paid to pupil-teachers under the foregoing articles shall not exceed £333, 6s. 8d. currency, yearly—that being the sum granted for this object; and when the whole of this amount is appropriated, such pupil-teachers as may apply for admission shall not be entitled to any portion thereof, until vacancies shall occur.

Special Regulations for Government and Discipline.

Article First.—Pupil-teachers guilty of drunkenness, of frequenting taverns, of entering disorderly houses or gambling houses, of keeping company with disorderly persons, or of committing any act of immorality or insubordination, shall be expelled.

Article Second.—There shall be no intercourse between the male and female pupil-teachers while in the School, or when going to, or returning from it. Teachers of one sex are strictly prohibited from visiting those of the other.

Article Third.—They are on no account to be absent from their lodgings after half-past nine o'clock in the evening.

Article Fourth.—They will be allowed to attend such lectures and public meetings only as may be considered by the Principal conducive to their moral and mental improvement.

Article Fifth.—Proprietors of boarding-houses authorized by the Principal shall report to him any infraction of the rules, with which they have become acquainted.

Article Sixth.—The Professors shall have the power of excluding from the lectures for a time, any student who may be inattentive to his studies or guilty of any minor infraction of the regulations,

Article Seventh.—Pupil-teachers will be required to state with what religious denomination they are connected; and a list of the Students connected with each denomination shall be furnished to one of the Ministers of such denomination resident in Montreal, with a request that he will meet weekly with that portion of the pupil-teachers, or otherwise provide for their religious instruction.

Every Thursday afternoon after four o'clock will be assigned for this purpose.

Article Eighth.—In addition to punctual attendance at the weekly religious instruction, each student will be required to attend public worship at his own church, at least every Sunday.

Intending students may obtain all necessary information on application to the Principal or either of the Professors.

* The High School has been transferred by the Governors of the University to the Commissioners of Schools, by whose request this Announcement is inserted in the Calendar.

The Protestant Board of School Commissioners for the City of Montreal in assuming charge of the High School, desire to render this Institution more efficient than it has been in the past, more available for parents of moderate means, and therefore more popular. They would, in a word, make the High School worthy of the intelligence and growth of the Community in whose interest it has been founded.

The School consists of three Departments:—a Preparatory Department, a Commercial Department, and a Classical Department. Each of these Departments is under the charge of a Head Master, and a staff of efficient Assistants.

THE PREPARATORY DEPARTMENT.

The work of this Department is carried on in a separate School House, adjacent to Burnside Hall. It is under the charge of Sampson Paul Robins, M.A., as Head Master, who will be assisted by thoroughly trained Mistrèsses. Boys will be admitted at the early age of six; and the course in the Department will run over three years. The French language, during the whole period of the Preparatory Course, will receive an equal share of attention with English, and during the last year the rudiments of Latin will be taught. By this means the Head Master will be in a position to suggest to the parents of each boy when leaving the Preparatory Department in which of the two remaining Departments, whether the Classical or the Commercial, he had better pursue his studies. The advantages of this arrangement will commend themselves to the judgment and approval of parents and guardians. In this Department the younger boys will be entirely separated from the bigger boys of the High School, they will be under female influence, and will be prepared by early familiarity with the French tongue, to pursue the study of it afterwards with ease.

THE COMMERCIAL DEPARTMENT.

Will be under the charge, as Head Master, of David Rodger, M. A., who has proved himself for a long period in Montreal an able and successful teacher. He will be assisted by other competent Masters. Pupils in this Department will be carried on to the highest standard possible of Arithmetic, Writing, Book-keeping and Mathematics; French, German, and Natural Science will also be embraced in the curriculum; so that upon leaving the High School, that is if permitted to take the full Commercial Course, they will be competent to enter upon and to discharge the duties of assistants in Merchants' Offices, without additional preparation and study.

THE CLASSICAL DEPARTMENT.

Will be presided over by Henry Aspinwall Howe, LL.D., of whose qualities as a teacher of youth, the Commissioners need not speak. Dr.

Howe will be assisted by Classical masters of proved capacity and skill, and in this department, youths will, as heretofore, be conducted to such advanced studies in Classics, Mathematics, and Modern Languages, as shall fit them to enter any one of the Universities of Canada or of Great Britain.

The Commissioners have resolved upon the following scale of Fees, payable in all cases in advance:—

PREPARATORY DEPARTMENT.

Infant and First Form \$6 per term, \$24 per annum. Second and Third Forms \$7.50 per term, \$30 per annum.

CLASSICAL AND COMMERCIAL DEPARTMENTS.

A Uniform charge of \$10.00 per term, \$40.00 per annum.

The School Terms, as heretofore, will be as follows:—

Autumn Term	- - -	1st September to 15th November.
Winter Term	- - -	16th November to 31st January.
Spring Term	- - -	1st February to 15th April.
Summer Term	- - -	16th April to 30th June.

A Drilling Fee of \$2.00 per annum will be exacted from each pupil, except in the Infant Form.

Details as to the courses of study in the several Departments of the School are given in its special Prospectus, which may be obtained on application to the Secretary of the High School Committee at Burnside Hall.
