## CZAR'S ARMIES HAVE CROSSED THE SERETH RIVER AND CAPTURED THREE MORE TOWNS

### ONE AUSTRIAN ARMY HAS BEEN CUT IN TWO AND NOW IN PRECIPITATE RETREAT BEFORE THE RUSSIANS

Gen. Pflanzer, Austrian Commander, Paying Penalty for Delay in Leaving Czernowitz — Half His Army in Retreat Along Roumanian Frontier and Remainder Making for the Carpathian Mountains — Three Russian Armies Converging on Line of Advance with Lemberg as Objective.

**Austrian Line on Northern Flank of Gen. Brusiloff's Front Stiffened by Arrival of Large German Reinforcements.**

London, June 20.—Russian semi-official reports that the Austrian General Pflanzer's army has been cut in two and is precipitate retreat soon to be borne out by the Russian official statement that the Russians have occupied three towns on the Sereth river, and the admission in the Austrian communication that Russian troops have crossed the Sereth.

**German Reinforcements.**  
Petrograd, June 20, via London.—On the northern flank of General Brusiloff's front the Austrian resistance, considerably stiffened by the arrival of a large number of German reinforcements, has succeeded in checking the Russian drive between Lutsk and Kovel, which directed against Vladimir-Volynski, aims at destroying the Austrian communications between Lemberg and Lemberg. But in spite of the violence of the Austro-German counter-attacks, one of which broke through the Russian lines, the latest reports are to the effect that the Russians have again resumed progress in this sector, after taking the usual toll of prisoners.

On the southern flank the Austrians have been unable to check, even momentarily, the Russian advance toward Kolomea and toward the final Dniester fortification of Halich. General Pflanzer, the Austrian commander, apparently is paying the penalty for having too long delayed his retreat from Czernowitz, and his army, now cut in two, is reported to be in precipitate flight, one part along the Roumanian frontier and the other into the Carpathians.

Turning from Czernowitz, Gen. Letchitsky's forces are pressing their flank attack further north and have reached a point on the Zlota Lipa, some miles to the north-west of Czernowitz. Russian military critics consider it unlikely that the Austrians will be able to hold the Zlota Lipa line, but will be forced back upon Halich.

The separate Russian movements are now showing strongly centralized tendencies. There are three converging lines of advance, the common objective of which is Lemberg. The first of these lines is approaching Vladimir-Volynski, the second Brody, the third Halich. The capture of any one of these towns would place the Galician capital in a position of grave danger.

The total number of prisoners taken by the Russians is now estimated at 170,000.

**Three More Towns Taken.**

Petrograd, June 20, via London.—The occupation by Russian troops of the towns of Zadova, Streginetz and Gliboka, on the River Sereth, was announced by the war office today.

The text of the statement follows: "Western front: On several sectors of the front occupied by the armies under Gen. Brusiloff the enemy continued to make desperate counter-attacks.

"The enemy offensive begun in the vicinity of the village of Voronchne, northeast of Kiselin, seven versts north of the Lutsk-Vladimir-Volynski road, supported by German troops, recently transported thither, has broken down under our fire.

"According to reports just received our troops, after a counter-attack in the region of the village of Rogovitchi, southeast of the village of Lokatchi, fifteen officers, 1,200 men and eight machine guns.

"On the extreme left of our front the enemy is retreating in disorder. We are energetically pursuing him.

"In this decisive action the clever handling of a Russian rifle battalion, which took the enemy by both flank and front, is particularly mentioned. This battalion, forming part of a crack rifle regiment, not only put the enemy to flight, but recaptured the three guns whose loss was announced in

## MURRAY GOVERNMENT SUSTAINED IN NOVA SCOTIA

Well Equipped with "Sinews of War" and Using Sectarian Appeal Returned to Power but Unable to Change Relative Numerical Standing in Legislature in Spite of Despicable Tactics Employed.

Special to The Standard.

Halifax, N. S., June 20.—The Nova Scotia provincial elections have resulted in the Murray Government being sustained, the parties standing twenty-nine Liberals to fourteen Conservatives. In the house, after the elections five years ago, the vote stood twenty-seven Liberals to eleven Conservatives, by-elections changing this to twenty-four Liberals and fourteen Conservatives. There will be five members more in the house elected today compared with that of five years ago and the Conservatives stand numerically just where they were when the house was dissolved, the Liberals taking the extra five seats, making their number twenty-nine.

It is remarkable that the counties which had been partially "redeemed" by the Conservatives in which the opposition had captured three members, now return fully to the Liberal column. These are Digby, Antigonish and Victoria. The Conservatives also lost members previously in their column in Lunenburg, Annapolis and Yarmouth counties.

**Opposition Gains in Cape Breton.**

One outstanding feature of the election is the defeat of C. E. Tanner and his two colleagues in Pictou. Another is the gain made by the Conservatives in Cape Breton Island, where the opposition elects one in Inverness and two in Richmond.

Cape Breton county has four members under the redistribution and here the parties elected two each. The only loss to the Conservatives in the Cape Breton division of the province is in Victoria, where Premier Murray's colleague is elected as well as himself. The victory of the Conservatives in Richmond is significant.

In Halifax, which returns five members, there was a particularly close fight, and the result is that the Liberals elected four and the Conservatives one, Hector McInnes, K. C. being the successful opposition member. The Conservatives expected to be able to defeat the government, but the forces against them were too strong. The war helped the government because it so absorbs public attention that the people did not seem to realize the minor evils of bad provincial administration as they would otherwise have done. The greater issues in Europe kept them from thinking of the political situation at yesterday's communication. Moreover the battalion took 300 prisoners and three machine guns.

"Further reports of the fighting in the region north of Gadomitchi, on the Stry and west of the village of Koki, show that we, on the 17th, captured 96 officers, 2,137 men and seven machine guns. In the region of Okhotnikovo, east of Saray, we captured a German aeroplane, with pilot and observer. In the region of Gatorovics and Vinarvitchiki, north of Bucacar, on the Strya, the enemy is offering stubborn resistance.

**Enemy in Retreat.**

"On our extreme left wing the enemy is retreating in disorder. We are pursuing, and have occupied the towns of Zadova, Streginetz and Gliboka, on the Sereth line.

"On the Divin front we bombarded enemy positions. On the night of the 19th, in the region north of Spisla and east of Lake Vischnevakovo, the enemy attempted to approach our trenches, but was repulsed by our fire.

"Caucasus front: In the direction of Bagdad, in the region of Serpou, we

home which otherwise they would have determined more seriously to seek to change.

**Government Party Uses Sectarian Appeal.**

The government party was well supplied with the "sinews of war" which they used to advantage. They exploited an alleged Orange circular where they thought it would have a effect in turning Catholic votes from Conservatives to Liberal candidates. An army of road and other officials stuck to the Liberal party and helped to return the candidates of the Murray administration. The liquor interests were so fully in favor of the Liberals because of the prohibition legislation enacted last session and which was championed by the Conservative opposition and the Liberal prohibitionists supported the government almost to a man.

**Result By Counties.**

The results by counties follow: Annapolis—Daniels and Elliott, Liberals. Antigonish—Chisholm and Trotter, Liberals. Cape Breton—Cameron, Liberal; Douglas, Butts, Ferguson, Conservatives. Colchester—Stanfield and Kennedy, Conservatives. Cumberland—Ralston and Carter, Liberals; Morrison, Conservative. Digby—Comeau and Warner, Liberals. Guysboro—Tory and Ellis, Liberal, Conservative. Halifax—Baud, Finn, Faulkner and Connolly, Liberals; McInnes, Conservative. Inverness—Bourinot, Liberal; I. Gallant, Conservative. Kings—Wickwire, Liberal; Kinman, Conservative. Lunenburg—Kinley, Liberal; Macgregor, Conservative. Pictou—MacGregor, Graham and McKay, Liberals. Queens—Smith, Liberal; Hall, Conservative. Richmond—LeBlanc and MacDonald, Conservative. Shelburne—Irwin and Nickerson, Liberals. Victoria—Premier Murray and Morrison, Liberals. Yarmouth—Armstrong and D'Estremont, Liberals.

repulsed infantry and cavalry attacks with great losses to the enemy.

"A supplementary headquarters report describes an action which followed an engagement on the 10th, when the enemy, driven from organized positions near Olma, southeast of Zalye Soszyky, began a precipitate retreat in the direction of Zastava. Our infantry, encouraged by the success obtained, and without a moment's rest, continued the pursuit of the Austrians, preventing them from securing intermediary positions previously prepared.

"Under these circumstances one of our regiments advanced to Zastava with a battery of horse artillery. The commander of this division, perceiving parties of the enemy passing in disorder through Zastava, while an enemy battery also was fleeing by the main road, and that this battery would inevitably escape, as no cavalry was available, decided to send his gun teams in pursuit. Sixty mounted men, led by their officers and the commander of the battery, Colonel Shirinkine, dashed into the town and forty horse-

## Kaiser Gone to Verdun Front

Operations Yesterday Along British and French Lines Confined Chiefly to Mining and Artillery Work.

London, June 21.—The German Emperor has left Berlin for the Verdun front, according to a Copenhagen despatch to the Daily Mail.

**Pardons English Prisoner.**

Amsterdam, via London June 21.—The Frankfurter Zeitung says that the German Emperor has pardoned William Lonsdale, an English prisoner of war, who recently was sentenced to death by court martial, the sentence being later commuted to fifteen years imprisonment.

Lonsdale was condemned by court martial for an attack on a guard at the Doherty prison camp. The American ambassador to Germany and the American minister at The Hague used their good offices in behalf of Lonsdale.

**On English Front.**

London, June 20.—The British official communication issued this evening says: "The principal feature of the last twenty-four hours has been mining activity, combined with some bombardments by both sides. In the Loos sector we exploded two and the enemy one mine. Our mines are believed to have been fired with good effect against a hostile gallery, where work was in progress at the time. The hostile mine destroyed a short length of our trenches but we have occupied the crater.

"Last night in the same sector our troops surprised and bombed a large hostile tunnel party, inflicting numerous casualties.

"There has also been some artillery and trench mortar activity about Angres and Vimy. Otherwise the day passed quietly."

**German Statement.**

Berlin, June 20.—The official statement says: "Western front: The position in general is unchanged.

"Between the Kovel-Lutsk railroad and the Turia river our troops, at various points, broke down the enemy's resistance, which was especially stubborn near Kiselin. Our troops are fighting their way forward. Attacks by the enemy south of the Turia were repulsed. The Russians did not continue their advance in the direction of Corochov.

"The position of the forces of Gen. Von Bothmer is unchanged.

"Balkan front: The enemy dropped bombs, without causing damage, on villages behind our front."

**French Report.**

Paris, June 20.—The war office communication issued this evening says: "There has been no important event worthy of mention on the entire front, with the exception of rather lively ar-

## NOTHING COULD WITHSTAND THE RUSSIAN FIRE

So Murderous that Advance Positions of Enemy at Czernowitz Soon Became Graveyard.

## AUSTRIA SADDENED BY LOSS OF CAPITAL.

Scenes of Terror as Russian Shells Lighted Sky and Left Death and Devastation Where they Fell.

Vienna, June 20, via Berlin to London.—Austria takes the third evacuation of Czernowitz with great sadness, but with absolute quiet and confidence that the loss of the capital of Bukovina is only temporary. Military critics point out that in view of the overwhelming Russian forces a continued defense of Czernowitz would merely have spelled the city's destruction, and unite in praising the decision of the military authorities to evacuate it.

"They declare that the Russian occupation is of minimum military importance, and a merely local advantage of a temporary nature. The vanguard of the fugitives from Czernowitz has now begun to struggle into Vienna, after a week-long journey in which they were constantly delayed to allow of the passage of train-loads of Russian and Austrian wounded. The fugitives describe the ferocity of the Russian attack, and the devastation caused by it, and also the final scenes in Czernowitz, from which all but about 100 persons had fled. According to these accounts the Russian drum fire was so terrible that nothing could be done in the advanced positions. Wire entanglements and trenches were obliterated.

The inhabitants of Czernowitz first realized that the situation was serious when the Austrian staff retired upon the city from their advanced posts, and swarms of country people, with their possessions in packs or wagons, and driving their livestock, came fleeing southward through the city. The scene of awfulness increased at night, when the sky was red with the flare from bursting shells or illuminated by searchlights. The general exodus from Czernowitz by the civilians began at six o'clock, June 11, and continued uninterruptedly all day, trainload after trainload of the populace departing as fast as the coaches could be filled. The fugitives included the faculty and students of Czernowitz University, the latter of whom for six weeks had pursued their studies with shells punctuating their recitations and the noise of aeroplanes drowning the lectures. A large majority of the fugitives have gone only a short distance into the hinterland, there to await the anticipated re-taking of Czernowitz.

The city was evacuated by the Austrians the night of June 15, after an irresistible Russian attack had destroyed the bridgehead, rendering further defense of the city all but impossible.

"The Belgian communication: "There have been artillery fighting and attacks with bombs in the region of Steenstraete. Calm prevails on the rest of the front."

**Air Attack on Russian Warships.**

Berlin, June 20.—By wireless to Bayville—A German air attack on Russian destroyers in the Gulf of Riga is reported in an admiralty statement, under date of June 19, as follows: "A German naval aeroplane of Frunburg, in Riga Bay, bombarded two Russian destroyers attaining a hit on one."

**Mined or Torpedoed.**

Washington, June 20.—Consul-General Skene sent the following cable gram to the state department today: "Five members of the crew of the steamer Sea Connet have just arrived. Have signed affidavits indicating that the ship either was mined or torpedoed. Fragments of the missile are expected today and will be examined by experts."

## SWEEPING MEASURES ADOPTED BY ECONOMIC CONFERENCE OF THE ALLIES AT PARIS

NO FAVORED NATION CLAUSE TO ENEMY POWERS FOR NUMBER OF YEARS AFTER WAR, JOINT ACTION TO PREVENT "DUMPING" AND FAVOR ALLIES DEALING AMONG THEMSELVES AS FAR AS POSSIBLE IN NATURAL RESOURCES.

Paris, June 20, 5 p. m.—The results of the recent economic conference here, in which the allied governments were represented have been made public.

**The Post-Bellum Period.**

The agreement, which was unanimous, shows that sweeping measures have been jointly adopted under three heads, the first embracing the period during the war, the second the transition period, and the third the period after the war. During the war citizens of the allied nations are forbidden all commerce with enemy subjects. All merchandise from enemy countries is likewise forbidden. Commercial houses having enemy connections are sequestered.

Additional restrictions are placed on exports and also on contraband. During the reconstruction period the allies declare their purpose to carry on joint action in restoring industry, agriculture and merchant fleets. All treaties with the enemy being abrogated, the allies agree that favored-nation treatment shall not be accorded to enemy powers during a number of years to be agreed upon by the allies after hostilities cease. They further declare in favor of the allied nations dealing among themselves, as far as possible, in their natural resources.

The allies agree to prevent "dumping" of enemy goods by fixing a period of time during which enemy commerce shall be subject to special rules and prohibitions.

The allies further agree upon joint collaboration, after the war to secure complete independence from enemy countries relative to raw productions and manufactured goods essential to the development of their economic activities. These measures, it is set forth, should also include the independence of the allies in financial, commercial and maritime organization. In executing this resolution they will adopt the "measures most appropriate, according to the nature of the goods and following the principles which govern their economy."

"They will adopt subventions and advances to encourage enterprises and research, scientific and technical. Besides subventions and advances to certain industries, the allies will consider tariff changes and prohibitions, temporary or permanent.

**Mutual Exchange of Goods.**

"The mutual exchange of goods among the allies will be encouraged by rapid transit, reduced freight rates, and common arrangements concerning postal and telegraph communication. Technically trained delegates will meet to frame joint measures for the allies regarding patents and trade marks. They agree to adopt an incidental practice, as far as possible, in the regulation of the inventions, trade marks and copyright of literary and artistic works created in enemy countries during the war.

"The agreement closed with the declaration that the delegates recommend that their governments give immediate effect to the policies, as agreed upon.

## WASHINGTON AWAITS REPLY FROM MEXICO

Next Forty-eight Hours Should Decide Whether it is to be Peace or War—Stern Reprimand Sent to Carranza.

Washington, June 19.—The issue of war or peace with Mexico hung in the balance tonight, awaiting General Carranza's decision as to the course he will pursue. Officials here believed that 48 hours might bring a clear understanding of what the immediate future has in store.

A note signed by Secretary of State Lansing, conveying President Wilson's rejection of the demands for withdrawal of American soldiers from Mexico, accompanied by a specific warning that an attack on the troops "will lead to the gravest consequences," was telegraphed to Mexico City today by Eliso Arredondo, Mexican ambassador-designate. In plain terms it accuses General Carranza of having brought matters to the verge of war by open hostility towards the United States and failure to safeguard even the lives of Americans in Mexico, or on the border, from the lawless elements among his countrymen.

In sternest terms the note repudiates and resents imputations of bad faith and ulterior motives brought against the Washington government in the Mexican communication to which it is a reply. General Carranza is informed, in so many words, that protection of its own borders is the only object sought by the United States, and is told that the object will be pursued, whatever the consequences may be.

## DR. BELLAND IN HOLLAND

Quebec, June 20.—A postal card received from Dr. Belland today says he was freed from Belgium and allowed to enter Holland on the 24th of May to treat his wife in a sanatorium in Holland.

## MANY AT FUNERAL OF Mrs. F. M. HUMPHREY.

Special to The Standard. Hampton, June 20.—The funeral of the late Mrs. F. M. Humphrey was held at three o'clock this afternoon from the family residence here and was largely attended by residents of Hampton and vicinity, as well as by relatives and friends from St. John, Rothesay, Bloomfield and other points. The service was conducted by the Rev. J. F. Rowley, pastor of the Methodist church here of which the deceased lady was a member and in which she had been active and prominent until prevented by her long illness. He was assisted by the Rev. A. H. Crowfoot, rector of the Episcopal church, and the Rev. O. N. Chipman, pastor of the Baptist church, was also present. The choir sang with feeling and with beautiful effect the hymns "Jesus, Lover of My Soul," and "Just As I Am," and the service as a whole was very impressive. There were many beautiful floral tributes, among which may be mentioned offerings from immediate relatives and a large pillow from the ladies of the church. The pallbearers were His Worship Mayor Hayes and Percy Humphrey, of St. John, Geo. M. Wilson, J. E. Angeline, R. H. Smith and E. A. Schofield of Hampton. Interment was in the family burial lot in the cemetery here.

## THE POLICE COURT.

In the police court yesterday James Dougan was fined \$50 or three months jail for being the proprietor of a disorderly house.

George Kingston was fined \$18 or four months jail for being drunk and profane.

In the Fairview court Harry Tremholm was fined \$40 and costs or two months jail for ill-treating a horse.

### Fredericton Boy's Graphic Story of Mounted Rifles Part in Battle of Ypres

#### Frank C. Jewett, Who Was Wounded and is Now in Hospital at Boulogne, Says Mounted Rifles Brigade Suffered Heavy Loss — One Corporal With Piece of 2x4 Scantling Accounted for Four Germans.

One of the first letters from a Fredericton boy, who went through the third battle of Ypres early in June, has been received by Mrs. H. C. Jewett from her son, Private Frank C. Jewett, who was officially reported suffering from shell shock and is now at No. 3 General Hospital at Boulogne. Private Jewett was a member of the 4th Canadian Mounted Rifles, who were holding the first line of trenches when the Germans started their bombardment, and his letter gives a most graphic and thrilling description of the fighting.

According to Private Jewett, his battalion suffered heavily. Of his own escape he states that, after their rifles were gone, together with a friend named Nichols, and a young English officer, he ran over half a mile to cover, with the Germans pouring a veritable hail of bullets at them. The letter is one of the most interesting since the outbreak of the war and gives a vivid description of the battle.

Just a few lines to let you know I am safe. I am in a hospital at Boulogne, suffering from effects of the third battle of Ypres. "I can only thank God that I am still alive. There are only about a dozen of our battalion left. Nichols managed to get out with me. He got shrapnel in the arm. "I started on Friday morning, about 8.30, and the 1st and 4th C. M. R. were holding the first trenches in that part of the line. "Talk about shells! Hundreds of thousands were hurled at us. In fact, all the enemy's guns in the district were turned on the trenches we were holding, and they were ripped to pieces and scattered to the ground. Dead were lying everywhere. "Our dugouts were all blown in, and here and there you could see feet sticking out of the ruins where the men had been buried alive. I don't know how I escaped. I was blown in the arm several times and by 12.30 was

### LT. J. E. MARCH SENDS A SOUVENIR FROM THE FRONT

#### German Hand Grenade Which Failed to Explode Received by Rev. Gordon Dickie.

Rev. Gordon Dickie yesterday received a unique souvenir from his brother-in-law, Lieut. J. Edgar March, of the "Fighting" 24th, in the shape of a German hand grenade. The grenade is a well constructed implement, made by machinery. It is about four inches long, and a couple of inches thick. To it is attached a stick about two feet long. The grenade is quite a story attached to it, according to Lieut. March's account. One night while in the trenches a few weeks ago, when the 24th front line trenches were very close to the enemy's, the soldiers were using hand grenades. The grenade received by Mr. Dickie came flying through the air, struck one of the men under Lieut. March's command on the breast, fell to the bottom of the trench without exploding. The soldiers were greatly surprised, and the escape from being blown to pieces was a miracle. Lieut. March extracted the explosive from the grenade and sent it to Mr. Dickie. It is of recent manufacture for it bears the stamp 27-1-16, meaning that it was constructed on the 27th of last January.

In his letter Lieut. March does not mention the name of the soldier who was struck but his identity is made clear from a letter recently received from Private Gordon Kennedy of the North End, who claims to be the person who the German who threw it neglected to fix the fuse. Lieut. March is now in a French hospital suffering from wounds.

### FUNERALS.

The funeral of Mrs. William Elliott took place at 8.30 o'clock yesterday morning from her late residence, 300 Boulevard de la Cathedrale, where Requiem High Mass was celebrated by Rev. William M. Duke, interment was made at the New Catholic cemetery.

The funeral of Nellie Elizabeth, widow of Frank M. Humphrey, was held at Hampton yesterday afternoon. Funeral services at the house and grave were conducted by Rev. J. F. Rowley and Rev. Mr. Crowfoot. Interment was made in the Hampton cemetery.

### PERSONAL.

Mr. and Mrs. T. B. Flint of Ottawa were in the city yesterday and registered at the Royal.

Harley Love, St. George, was a guest at the Victoria yesterday.

## 2 More St. John Men Among Heroes Who Died for Empire

### MIDNIGHT LIST.

#### INFANTRY.

Killed in Action.  
Walter V. Cook, 26th, N. B. Pioneer John Donnell, Glace Bay, N. S.  
Edmond McLaren, Cablehead, West. P. E. I.  
Geo. W. Page, Mill and Paradise Row, St. John, N. B.  
Previously Reported Killed in Action, Now Wounded.  
Sergeant Fred W. Bagnell, Hazel Grove P. E. I.  
Died of Wounds.  
Roy Moody, St. John, N. B.  
Murdoch Smith, North River Bridge, C. B.  
Missing, Believed Killed.  
Walter L. Hanson, St. Stephen, N. B.  
Wounded.  
Charles Benjamin Buxton, Cape Traverse, P. E. I.  
Alex. C. Grant, Sackville, N. B.  
Another Officer's List.  
Ottawa, June 20.—An additional list of casualties among Canadian officers was issued by General Sir Sam Hughes this morning. The total number of officers who have appeared on the honor roll since June 1st, when the Germans made their drive against the Canadian front, is now over 400. Twenty-four names appear on today's list. The second division is evidently now in the heart of the fighting, as there are considerable casualties reported in the 2nd French-Canadian, 6th Montreal and 26th St. John. There are a number of Vancouver and Western names. The list contains the names of a number of artillery officers. The artillery, it is understood, has been moved up in the Ypres salient. When they were wounded in the front and thus are more readily reached by the German artillery.

The list of officers is as follows: On June 13 or on June 14: Wounded: Captain A. R. McDonald, 3rd Toronto, Ont., on 17th June, killed; Lieut. A. R. Murray, 3rd Brigade, C.F.A.; Wounded: Lieut. J. B. Hipwell, 2nd Brigade, C.F.A.; Major L. R. Lafèche, 2nd, Montreal, Que.; Lieut. J. Broseau, 22nd, Montreal; Capt. H. T. MacKenzie, 24th, Montreal; Capt. Alex. Weaver, 24th, Montreal; Capt. Alexander McMillan, 26th, St. John; Capt. H. W. Scarfield, 26th, St. John; Lieut. J. W. Ward, 26th; Lt. N. C. Savers, 3rd Divisional Pioneer.

On 16th June, wounded, Lt. D. G. P. Forbes, 16th, Vancouver and Winnipeg. Lt. G. E. Gibson, 16th. Capt. M. W. A. MacNaughton, 2nd Brigade, C.F.A. Lt. D. A. Ewan, 24th, Montreal. Lt. J. B. March, 26th, St. John. Lt. W. Anderson, 7th Brigade, C.F.A. Wounded slightly and at duty, Maj. K. C. Bedson, 7th, Vancouver. Capt. G. G. Smith, 7th Vancouver. Lt. E. A. Rand, 7th, Vancouver. Missing—Lt. W. N. McLellan, 16th Vancouver and Winnipeg. Now reported killed—Lt. S. W. Bell, 8th Winnipeg, Man. Wounded and at duty—Lt. J. W. Stagg, 4th Central Ontario. In wire 16th June for Lt. Bearmouth, 2nd Battalion, read 4th O. K. M. Learmouth. Lt. H. MacDonnell, P.P.C.L.I., reported missing in wire for 6th June, now reported killed. (Lieut. J. B. Hipwell is a son of Mr. David Hipwell, this city.

Former U. N. B. Man. Special to The Standard. Fredericton, N. B., June 20.—Lieut. J. B. Hipwell, 2nd Brigade, C. F. A., who appears as wounded on June 17th in list of casualties among Canadian officers published, is "Jack" Hipwell, a former U. N. B. student, whose home is in St. John. His sister, Miss Mary Hipwell of the provincial treasurer's office, did not know that her brother had been wounded until she read his name in the list of officers' casualties this afternoon. She at once wired to Ottawa for further information, but there has not been time yet for a reply to come through.

In a letter received here yesterday from Gunner Wm. H. McKenzie, who left here as member of 23rd Battery, he stated that he had been slightly wounded with shrapnel in the leg, but had recovered after a short lay off. When he was wounded in the front with an artillery unit for some months past and is one of two sons of Mr. and Mrs. Johnston McKenzie, in Khar. His brother, Bombardier Ralph McKenzie, is with the 36th Battery in England.

Ignore the fact that Germany was also fighting the British and the French. He had heard of it and read about it in the newspapers, but had never thought of it himself. "Have you seen the Kaiser?" I asked. "No," he said, "we never see him. We know he is in the trenches, but we don't get to see him. He has fought well. We all have, and that is why we have won the war. The Russians are not strong enough for us. But they have killed many Germans too."

I asked him if he was glad that the war would soon be over, and he said: "Yes. We shall be home soon; the Kaiser will return to Berlin. But the Belgians don't like us. I shall not come back here. The Belgians don't like us. I shall not come back to Belgium."

A shrill ring of the telephone bell caused the entry to rush to the front house, and we heard him talking excitedly. When he came out he had resumed his stern look, and ordered us to move on as if he had never seen us before, and he held his rifle ready. When we had left the kitchen he retired he threw down his rifle and began to smoke his cigar.

unclean hands. He is an adept in this dirty work, and he certainly spares no trouble to discover things of ridiculous small importance to the German Empire—safe conversation, chamber maids' gossip and cabdriver's confidences. Where he falls so completely and abjectly is in his attempt at bringing about a sort of friendly feeling among Hollanders in favour of Germany. He is running two Dutch papers with that sole object in view, which people only read because they are literally forced on an unwilling public.

It is also owing to the activities of von Papan that Holland is flooded with pro-German literature, essays on Kultur, justifications of the Belgian murders, appeals to the Dutch to do their share in Germany's conquest of the world, and glowing advertising of the German army and navy. This bombastic output can be found and bought in every bookshop in Holland, even in the remotest villages. It can be bought, but as a matter of fact it is not. The object of this kind of propaganda is far too obvious.

Quite recently the German spy system turned its activities to more "active" propaganda, and summoned Professor Max Reinhardt and his company of the Deutsches Theater of Berlin to these shores. The lyrical company of Herr von Reinhold was also sent for, and they played before all German houses. Tickets were offered to Hollanders for nothing every street car in Amsterdam. The offer was turned down, in spite of the well-known talent of the actors. The Dutch have far too good a memory to be taken in by tricks of this kind. They know Germany's designs. They know how many fine Dutch ships were sent to the bottom by German submarines. They know how often German aircraft fly over Dutch territory, always "by mistake." And above all they know what would be their lot in case Germany won this war.

Germany's honest words cannot make the Dutch forget the frebrand speeches delivered all over Germany in the early months of the war, immediately after the fall of Antwerp, when even a personage like King Ludwig of Bavaria challenged Holland to give up the mouth of the Rhine—that "All-German" river, he said—to become of Dutch independence if Belgium were to be annexed and England forced into an inconclusive and German peace. Above all, apart from these post-war hypotheses, the Dutch know how anxious the Germans are to get a footing in Holland's fine harbours—Flushing, Rotterdam, Ymuiden.

He started in great style. He brought much money from Berlin, and many "ideas." The money is gone, the "ideas" have faded away, and all that is left of the whole scheme is its ridicule and its all-round ineptitude. The Dutch, like the Americans, will not be bullied, either by Germany or by any German. They resent von Papan's extravagant and to a certain extent, criminal fabrication of a "British invasion" scare, not so much because it caused uneasiness all over the country, but because the mere spreading of such lies is an open insult to Dutch intelligence and patriotism. That von Papan did not leave the country after his falsehood was exploded is comprehensible only to few people here; but the mere spreading of that "news" almost cost their jobs to von Papan's official henchmen, Herr von Kuhlmann, the German Minister at The Hague, and Herr von Humboldt, the Consul-General in Amsterdam.

Abject Failure. In spite of this check, von Papan is still in Holland, where he has centralized the espionage work in his own hands.

### GERMAN PLOTS IN HOLLAND

#### Dutch Patriots and Von Papan's "Dirty Work"—Futile Intrigues.

Amsterdam, June 17.—Complete failure has attended the activities of Captain von Papan in Holland, and it is generally admitted that the German General Staff, who despatched him here after his sensational expulsion from Washington, with a mission of "general spying," will soon recall him. Von Papan is not only squandering good German money which could be used to better advantage elsewhere, but he wholly undermines the Dutch sympathy for the Entente. What is known of his dealing even in quarters in sympathy with "Kultur" shows that he is handling his numerous business affairs with a truly German ignorance of conditions and character in the Netherlands.

He started in great style. He brought much money from Berlin, and many "ideas." The money is gone, the "ideas" have faded away, and all that is left of the whole scheme is its ridicule and its all-round ineptitude. The Dutch, like the Americans, will not be bullied, either by Germany or by any German. They resent von Papan's extravagant and to a certain extent, criminal fabrication of a "British invasion" scare, not so much because it caused uneasiness all over the country, but because the mere spreading of such lies is an open insult to Dutch intelligence and patriotism. That von Papan did not leave the country after his falsehood was exploded is comprehensible only to few people here; but the mere spreading of that "news" almost cost their jobs to von Papan's official henchmen, Herr von Kuhlmann, the German Minister at The Hague, and Herr von Humboldt, the Consul-General in Amsterdam.

Abject Failure. In spite of this check, von Papan is still in Holland, where he has centralized the espionage work in his own hands.

Amsterdam, June 20.—The policy of "a ship for a ship" was advocated at the meeting of the London Chamber of Commerce today, when it was advocated that despite the provisions of international law, enemy steamers in the possession of the allies should be held as hostages for damage to our shipping, thus offsetting any advantage otherwise accruing to the enemy. The proposal was referred to a committee. Arrangements were made for a reception to the Canadian trade commissioners on the return of members from France, and for a conference between them and the Canadian section of the chamber.

### Debt Britain Owes Kitchener

Manifold Armies Defeated World Over — Did Not to Eye With Late War Confidence in K. of K. Was

London, June 20.—Field Marshal Viscount Kitchener, in the House of Lords, has spoken of the great debt in the death of the war secretary.

Referring to the time when he was in forces on the continent, Field Marshal Kitchener never had spared any effort to supply all his manifold difficulties in providing men and material of the magnitude of the demands, but Earl Kitchener, with characteristic determination which Britain owed to Earl Kitchener, he the manifold armies which were defending of the world. He continued:

"It would be idle to pretend that in those days eyes were eye with the late field of opinion as occurred in no way interfered did it ever shake my confidence in Kitchener to meet the heavy demands I had to make."

"Many noble lords can speak with much authority as a cabinet minister. Personally, in my mind as the great and glorious soldier

### FRENCH STEAMER SUNK, NINE OF HER CREW MISSING

Last Reported from Rouen to Lisbon — Not Known Whether Torpedoed or Hit Mine.

New York, June 20.—A Havre dispatch to the New York Journal says: "The French steamer St. Jacques has been sunk, whether by mine or torpedo is not known. Nine of her crew are missing."

### To Put On Flesh And Increase Weight

Most people eat from four to six pounds of good solid food daily, and yet they do not increase in weight one ounce, while on the other hand many of the plump chunky folks eat very lightly and keep gaining all the time. It isn't Nature's way at all. Most thin people stay thin because their powers of assimilation are defective. They absorb just enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay there in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something that, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition it is well to recommend eating a Sargol tablet with every meal. Sargol is not, as some believe a patented drug, but is simply a careful combination of six of the most effective and powerful assimilative and flesh building elements known to chemistry. It is absolutely harmless, yet has been wonderfully effective and its single tablet eaten with each meal often, according to reports of users, has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.

If you find a druggist who is unable to supply you send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antonio St., Montreal, and a complete ten day treatment will be sent you postpaid, in plain wrapper.

### Wonderful Bilious Remedy

Actually Prevents Attacks

There are two great causes of biliousness—they are constipation and defective liver action.

When Dr. Hamilton's Pills are taken, they do not only correct constipation, but act upon the liver as well.

Quite unlike ordinary medicines which purge and give temporary relief, Dr. Hamilton's Pills remove the conditions which cause biliousness, and thus permanent cures are effected. No person who occasionally suffers from the headache, bad stomach or bilious complaint, get a 25c. box to day.

# VISCOUNT FRENCH EULOGIZES LATE WAR CHIEF

### Debt Britain Owes Kitchener is Expressed in Manifold Armies Defending British Interests World Over — Did Not Always See Eye to Eye With Late War Chief, But His Confidence in K. of K. Was Unshaken.

London, June 20.—Field Marshal Viscount French, commander of the armies in the United Kingdom, eulogized his former chief, Field Marshal Earl Kitchener, in the House of Lords today after the Marquis of Lansdowne had spoken of the great loss the country had suffered in the death of the war secretary.

Referring to the time when he was in command of the British forces on the continent, Field Marshal French said Earl Kitchener never had spared any effort to supply all his demands. There had been many difficulties in providing men and material, in view of the unexpected magnitude of the demands, but Earl Kitchener had faced these problems with characteristic determination and endurance. The debt which Britain owed to Earl Kitchener, he continued, was expressed in the manifold armies which were defending British interests in all parts of the world. He continued:

"It would be idle to pretend that in the past two years I have always been eye to eye with the late field marshal, but such diversion of opinion as occurred in no way interfered with national interests, nor did it ever shake my confidence in Kitchener's will, power and ability to meet the heavy demands I had to make.

"Many noble lords can speak with much greater authority of Kitchener as a cabinet minister. Personally, I prefer to keep him always in my mind as the great and glorious soldier which I knew him to be."

## TERMS OF 'FIELD TAX DISCOUNT' LOAN ARE VERY SATISFACTORY

### Ancient Colony Ready to Fall in Line, After War, With Any Policy for Solidifying Empire Trade and Defence.

London, June 20. (Montreal Gazette Cable)—Referring to his success in placing \$5,000,000 of Newfoundland three year five per cent. gold notes in New York before sailing for this side, Sir Edward Morris, premier of the ancient colony, said that the terms were very satisfactory, as the legislature had authorized the payment of 5 1/2 per cent. interest.

Regarding Newfoundland's attitude toward post-war problems, Sir Edward declared that the colony would be ready to fall in line with any general policy for the unification and solidifying of the empire from the standpoint of trade and defence. During his stay of several weeks on this side, Sir Edward will visit the Scotch contingent on the western front, as well as the one in training in Scotland. Newfoundland is making a special effort to raise more men for the naval reserve, in order to replace some of the losses in the Jutland fight. The premier expressed pride at the fact that Newfoundland for the past quarter of a century had contributed voluntarily to imperial defence by training naval reservists, the vote for this purpose in the legislature invariably being unanimous.

The loan just raised will be applied partly to repaying advances made by Britain, covering the island colony's war expenses, and partly to the completion of the government's railway programme.

## SIR RYDER HAGGARD TO ARRIVE THIS MONTH IN CANADA

### To Find Out What Facilities for Land Settlement Can be Placed at the Disposal of British Soldiers.

Ottawa, June 20.—Sir Ryder Haggard, who has been touring the British dominions with a view to ascertaining the facilities for land settlement which can be placed at the disposal of British soldiers at the conclusion of the war, is expected to arrive at Vancouver on June 29 from Australia and New Zealand.

Sir Ryder's visit to Canada is for the purpose of consulting the Dominion Government with a view to possible participation in an empire-wide scheme for land settlement of soldiers.

E. H. Scammell, secretary of the military hospitals commission, has gone to Vancouver to meet him. He will be joined by one of the members of the economic and development commission.

## Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All counterfeits, imitations and "just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

### What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## HAMPTON MAN KILLED ON THE FIELD OF HONOR

### Word Received of Death in Action of Freeman McManus—Sister Killed by Train Only Short Time Ago

Hampton, June 20.—Word has just been received that Freeman McManus, son of Alexander McManus, the well known railway man, has been killed in action. While a number of Hampton homes have been saddened by similar news there will be a special sympathy with the parents of this young man on account of previous sudden bereavements. A few years ago a daughter was drowned while riding on a submarine was responsible, although marine authorities at Yarmouth had expressed the belief, from an examination of portions of metal found in the hull of the vessel, that a torpedo did the damage. Captain Butcher, commander of the Sea Connet, which was bound from Archangel for London, with timber, is remaining at Yarmouth in an effort to save the steamer. Although she is resting on a sandy bottom he has little hope of being successful in the attempt to save her. The portions of metal recovered from the Sea Connet will be brought here tomorrow and turned over to

## NOT CERTAIN AMERICAN SHIP TORPEDOED

### Piece of Metal Found in Hull to be Turned Over to Consul-General, Who Will Hold Inquiry.

London, June 20.—The officers and crew of the American steamer Sea Connet, which went ashore on the Scoby Sands, Sunday, after having been damaged by an exterior explosion, reported at the American consulate here today. They reaffirmed that the steamer sustained her damage as the result of an explosion from without, but were unable to say whether a mine or a submarine was responsible, although marine authorities at Yarmouth had expressed the belief, from an examination of portions of metal found in the hull of the vessel, that a torpedo did the damage. Captain Butcher, commander of the Sea Connet, which was bound from Archangel for London, with timber, is remaining at Yarmouth in an effort to save the steamer. Although she is resting on a sandy bottom he has little hope of being successful in the attempt to save her. The portions of metal recovered from the Sea Connet will be brought here tomorrow and turned over to

### A Surplus of 3,700 for Whom There Places in Various U

Special to The Standard. Ottawa, June 20.—There is a surplus of 3,700 duty officers, for whom there are 600 places in the various units for overseas service. Some 3,000 of them are in and artillery officers. About 500 alities have occurred amongst of in the recent heavy fighting at front and as this is more than any plus of Canadian officers in Eng, now a certain number of the plus here will be absorbed.

As far as the great bulk of the plus in Canada is concerned, however they will be at the summer camps and will get some practical experience in drilling and handling men. There may also be a plan to have them go to the front as non-commissioned officers and receive their promotions to the rank of Lieutenant as openings occur.

Consul-General Skimmer, who is making an investigation into the sinking of the steamer. According to the sailors the pieces of the metal are heavy and brassy.

## There is more or less work

Every furnace demands some attention. But there is no reason why the twice-a-day job should be anything but pleasant. And to save a little time and a little bother every day means a lot in the course of the winter.

The Sunshine is a furnace any one can look after without spoiling either clothes or temper

The door is large enough for the biggest coal shovel. The grates are strong and turn easily. The ash-pan catches all the ashes without the need of shovelling. The water-pan is located so that it can be filled quickly. Ash-dust cannot escape when the Sunshine is being shaken down. None of that light dust floats about the house or the basement. The damper and the check draft can be regulated from upstairs—and perfectly too. The close-fitting doors and dampers, hold the fire for hours without waste.

### McClary's Sunshine Furnace

Do you know how little it will cost you to enjoy the comforts of a fine Heating System in your home? Send the coupon for a copy of our booklet "Sunshine." And if you wish to have prices of installing a Sunshine Furnace, let our Heating Engineer send you the information. Tell him the kind of a house you have and the number of rooms; give him a rough ground plan of the upstairs and downstairs and he will show you how to plan your heat distribution so as to get the most out of it. There is no charge for the service; it is free whether you buy a Sunshine Furnace or not.

Kindly send me with your best distribution so as to my part—

- Your booklet is no charge for the service; it is free whether you buy a Sunshine Furnace or not.
- Also forms for filling out, so that your heating engineers can tell me how to order and install a system that will properly heat my home.

TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

### WHY?

Frank B. Carvell, Member of Parliament for the County of Carleton, N. B., and George W. Kyte, Member of Parliament for the County of Richmond, N. S., have made serious allegations against a responsible minister of the Canadian Government and responsible Canadian officials.

These allegations and comments upon them by the men named and the Liberal press have had the effect of defaming Canada and of arousing throughout the world a contempt and prejudice against this country.

Free and full investigation of the allegations made by Carvell and Kyte has shown there was no corruption or dishonesty on the part of the Minister of the Canadian Government or the Canadian officials referred to.

Why should Frank B. Carvell, Member of Parliament for the County of Carleton, N. B., and George W. Kyte, Member of Parliament for the County of Richmond, N. S., be permitted to remain in Canadian public life?

### CONSCRIPTION IN CANADA.

The Standard would be long sorry to believe that one of the newspapers now engaged in what is evidently an organized campaign to force the Dominion Government to incept a policy of conscription, is actuated by other than the highest patriotic motives. Certainly, in a matter so serious as the securing of men for the Empire's armies, no question of politics should be permitted to exercise the slightest influence. Conscription should be adopted only after the voluntary system has shown to have wholly failed. In this it is but fair to assume that the authorities at Ottawa are, at least, keeping as close an eye on conditions as the editor of any newspaper in the country, even though it be the esteemed Telegraph. Therefore is it not well to leave the matter to the Government? Why try to force Sir Robert Borden's hand?

It is quite evident that those who loudly urge immediate conscription are as yet hardly sure of their ground. Do they honestly believe that the time for such measures has already arrived? Do they realize that it is quite one thing to raise an army and another to equip and arm it? Do they know that all of Britain's great army of five million men has not yet been put in the field? And yet Britain's facility for arming, training and equipping troops is far superior to Canada's.

The gentlemen who so freely criticize the Government in connection with war measures should remember that Canada has never been a military nation and that the problems of this war are entirely new to her and to her rulers. Britain has always maintained an armed strength, comparatively small in numbers but most efficiently armed and equipped. Canada's previous experience in this line has been confined to arming and equipping a voluntary militia which engaged in active training for but a few weeks of each year.

Yet in less than two years under voluntary enlistment this country raised and equipped a force of 335,000 men, and the number is being daily added to. This is equal to practically half the strength of the British army at the outbreak of war. Not a bad showing for a non-military country utterly unused to war.

The Standard does not presume to say that conscription is not just. On the contrary it is unquestionably the fairest method of military service. Under it there is no ground upon which the slacker can be excused and it takes alike from all classes of the community. By the voluntary system the army secures the services of the best and bravest men, consequently the voluntary army is the more desirable as it possesses a native courage and patriotism obviously not to be found in the ranks of the conscripts.

Canada has already done some remarkable things in this war and though recruiting now is slack yet there is no reason to believe that we have come to the end of our volunteers. Conscription, may, eventually, become necessary, but it would occasion very general regret, for if Canada can pass through this war and do her full duty without forcing any man to

don the khaki it will admittedly be a far better showing in the end.

More complete organization of the work of recruiting and the selection of new methods may be necessary, but it will continue to be the opinion of Canadians quite as loyal and as earnest as those now advocating conscription that the premature adoption of compulsion in filling our armies would be an unmerited disgrace.

### IN NOVA SCOTIA.

The result of the elections in Nova Scotia yesterday was admittedly a surprise even to the most ardent supporters of the Murray Government. It was generally expected that the opposition party would make substantial gains and might even overthrow a ministry known to be well entrenched, with an abundant campaign fund and with no outstanding issue before the people, save that of general incompetence. As it is, the opposition will have one less seat in the new house than in the old.

The keenest regret will be felt over the defeat of Opposition Leader C. E. Tanner, who was rejected in his own county. Mr. Tanner was a public man Nova Scotia can ill afford to lose, and it is to be hoped another seat will be found for him.

The campaign was bitterly contested in all seats. The government party was lavish with its use of money and other "persuasive" not generally countenanced. It is also stated that despicable and unfair canvasses were used in constituencies where it was hoped they might have an effect. Possibly the greatest factor in influencing the opinion that the government might be defeated was the result of the bye-elections held since the last general election. Those had shown a growing opposition strength and had led to the belief that the party headed by Mr. Tanner would occupy the treasury benches after yesterday's contest. Apparently, however, these isolated contests were not true indications of the trend of opinion throughout the province, a fact from which New Brunswick Liberals, in view of the recent happenings in Westmorland county, can take very little comfort.

### "THE PORT OF ST. JOHN."

In connection with the discussion of the site for the new Government grain elevator the following from the editorial columns of last evening's Frederickian Gleaner is of interest as illustrating an outside opinion. The Gleaner says:

The political partisans of St. John are again busy endeavoring to make all the trouble possible, this time over the site of the proposed million-bushel grain elevator, the appropriation for which the Hon. J. D. Hazen secured through Parliament at its recent session. A few months ago the local partisans were setting up that the interests of the port of St. John were being neglected. They could not see the old-fashioned, inadequate old elevator being rebuilt, and that was enough for them for a political agitation. It transpires that, while they were complaining of inactivity and indifference on the part of the Federal authorities, Mr. Hazen and the experts in the Railway Department had already developed the biggest and broadest plans for terminal facilities ever developed in Canada, and were awaiting the appropriation of Parliament to start activity at the practical work. The progress thus made in national development was very encouraging to all who are interested in Canada keeping ahead of the times and preparing itself to keep up with the requirements. As a western paper said: "The East is certainly arranging to do its part well in the development of the business of this great country." And now these partisans would, if they could have their way, spoil all that has been so well done merely because of their strange belief that it will be to their political advantage to create as wide a difference of opinion as possible, and this notwithstanding the fact that in the prosperity of the City of St. John and the Port of St. John is best promoted in the plans already so well worked out. They insist, for instance, that the elevator be built at a site that does not commend itself to transportation experts who are interested in plans of development at St. John much more comprehensive than the mere building of an elevator, and the partisans ask the Common Council of the city to interfere in their behalf. It is true

that these partisans do not reflect the intelligent opinion of the people of St. John. Nevertheless their action creates an outside view or influence very unfavorable to the city, and at a time when St. John should have the good will and support of the business interests of other provinces and of the people of other parts of this province. It is not to be assumed that the money of the people of Canada is to be spent to meet or satisfy a mere local whim in St. John or in any other community. The expenditure must serve a national purpose. The plans for terminal facilities at the port of St. John are big and comprehensive, involving the expenditure of many millions of dollars when the work is completed; and this has been accomplished through the influence of the Hon. J. D. Hazen, who has ever held and ever directed his energies to the end that St. John should become an essential port in the larger transportation schemes, and adequately developed as such. It is rapidly becoming a great port, its largely increasing business of each succeeding year having much exceeded the expectations of the most sanguine optimists. It is destined to be a much greater port, but the experts and the men of knowledge of their business are not to be interfered with in their national work by men not familiar with the intricacies of the problems involved, and who are rarely, if ever, genuinely interested in the public welfare.

### Letters to the Editor

#### "THE COUNCIL AND THE ELEVATOR."

To the Editor of The St. John Standard.

Sir,—In an editorial in today's Standard you refer to myself as expressing an opinion that the old Mill street site could be used for the new structure, (the elevator). Please allow me to correct this as I am not in favor of building on the old site east of Mill street. West of Mill street, however, there may be a site which would on the whole be preferable to the Water street site, and neither Mr. Gutelius nor Mr. Brown has given to the members of the Council full and satisfactory reasons for the condemning of that location.

My position is that, without further information about the Long Wharf location for the elevator, I am unable to approve of the Water street site.

I would like to add that a suggestion made to Mr. Gutelius to place the elevator at Courtenay Bay and to complete the roadway some of the docks there brought from him only an expression of disapproval of the Courtenay Bay undertaking, although it has been sanctioned by two governments and the work on same is well advanced.

Yours respectfully,  
G. FRED. FISHER.  
June 20th.

### Early Rising

By John Godfrey Saxe (1818-1877).

"God bless the man who first invented sleep."  
So Saicho Panza said, and so say I. And bless him, also, that he didn't keep His great discovery to himself, nor To make it—as the lucky fellow might—A close monopoly by patent-right.

Yes—bless the man who first invented sleep (I really can't avoid the iteration): But blast the man, with curses loud and deep, Whatever the rascal's name or age or station, Who first invented and went round advising That artificial cut-off—early rising!

"Rise with the lark, and with the lark to bed," Observes some solemn sentimental owl; Maxims like these are very cheaply said, But ere you make yourself a fool or fowl, Pray just enquire about his rise and fall, And whether larks have any bed at all.

The time for honest folks to be a-bed is in the morning, if I reason right. And he who cannot keep his precious head Upon his pillow till it's fairly light, And so enjoy his forty morning winks, Is up to knavery, or else—he drinks.

Thomson, who sung about the "seasons," said It was a glorious thing to rise in season. But then he said it—lying—in his bed. At ten o'clock a. m.—the very reason He wrote so charmingly. The simple fact is His preaching wasn't sanctioned by his practice.

'Tis beautiful to leave the world a while For the soft visions of the gent's night, And free at last, from mortal care or worry, To live as only in the angel's reign. In sleep's sweet realm, so cozily shut in, Where, at the worst, we only dream of sin.

So let us sleep and give the Maker praise; I like the lad who, when his father thought To clip his morning nap by hackneyed phrase Of vagrant worm by early congealer caught, Cried: "Served him right; it's not at all surprising, That the worm was punished, sir, for early rising."

### Little Benny's Note Book

Reddy Merly was leaning against the lamp post playing his mouth organ which he can play very soon on it he wants to, and I see, why don't you try putting in the papers that you will give mouth organ lessons, maybe you could make a lot of money, Reddy.

I mita get a lot of aners and it wood be to much work, sed Reddy. I'd like to see how much wood you charge to teach me, I sed. With he sed he wood teach me for 2 sents a lesst, and I sed, All rite, I'll make my farther give me 2 sents a week for mouth organ lessons, how long will it take me to lern.

That depends, sed Reddy, maybe you'll lern in 2 lessons and maybe it will take you 5 years.

And while we was eating supper I sed, Pop, do you want me to be a musician.

I'de chaster, sed Pop, dident you stop taking piano lessons because it was to much work.

I no, but this is diffrent, I sed. That's what the man remarked wen he found himself in jale for living beyond his ipenses, sed Pop.

Sum fello sed he will teach me to play for 2 sents a lesst, I sed. That sounds reasonable, sed Pop.

Yes sir, and I told him I'd ask you to give me 2 sents a week to take lessons with, I sed.

Lessins on wat, any partickler insterment? sed Pop.

Yes sir, the mouth organ, I sed. Waitir, waitir, sed Pop. And he drank a half a glass full, and then he sed, Look heer, Ludwig Paderbrook, do you see this gleaming dime?

Yes sir, I sed, and pop sed, Well, it's all yours if you cross your hart and solemnly sware to forever renounce the lure of the mouth organ.

Wich I did, and he gave me the dime, and after supper wen Reddy Merly asked me if I was going to take lessons, I told him no. Wich Im not.

# Why Shoes Are Going to be Dearer

Daily we are in receipt of letters of which the following is a sample: "We beg to advise you that after this date all prices on our lines of footwear are withdrawn and new prices will prevail. The scarcity and abnormally high prices of raw materials combined with the shortage of labor compels us to take this action. The tanners and producers of leather and raw materials that enter into the construction of shoes will not accept orders ahead. Conditions brought about by the present European crisis makes the buying of leather in advance an impossibility. Henceforward we can only accept orders with the understanding that the prices prevailing at time of shipment will be the prices charged for them." Now while our old prices prevail should be a good time to anticipate your footwear requirements.

## INTERESTING CONTESTS

Every Kiddie Between Six and Fifteen May Enter  
**PRIZES: WATER COLOR BOX, BRACELET, MECCANO SET AND BOOKS.**

### Riddles Contest

You all enjoy asking each other riddles. Here are some you might try:  
To the girl or boy who succeeds in finding the best solutions to the greatest number of the riddles, I shall award either a beautiful Bracelet or a Meccano Set, as the case may be. The sender of the next best will receive a splendid Story Book.  
Write out your solutions clearly, and send in all entries so that they reach this office not later than June 28th, accompanied by the usual coupon correctly filled in and addressed to:

UNCLE DICK,  
THE STANDARD,  
ST. JOHN, N. B.

In the event of a tie, the meanness of writing will be taken into consideration, and Uncle Dick's decision is final.

- Here are the riddles:
1. What key is the hardest to turn?
  2. Why is a rich cake like the sea?
  3. Why doesn't a joke last as long as a church bell?
  4. Why do haversacks resemble handbags?
  5. Why are you better looking than a carpenter?
  6. What makes an elephant's head different from every other head?
  7. What is the difference between a frightened child and a shipwrecked sailor?
  8. Why are blacksmiths more discontented than other workmen?
  9. What timber should be used for castles in the air?
  10. What is the difference between a photographer and the measles?

### Word-Making Contest

As we have not had a word making contest for some time I am letting you have one this week. Out of the letters in the word "Kitchen" make as many words as you can, only using the letters in the word, such as "kitchen," not "kitchens," as there is no letter "s." To the boy or girl sending in the longest list, not later than June 21 I shall award a beautiful Box of Colors, the sender of the next in order of merit receiving a splendid story book.  
At the end of each list state how many words you have, enclose the usual coupon, filled in and address to:

UNCLE DICK,  
THE STANDARD,  
ST. JOHN, N. B.

whose decision must be considered as final.

# COLLEGES END SUCCESSFUL YEAR

## St. Joseph's University, Rothesay Boys' School and Windsor, N. S. Institutions Held Closing Exercises -- Large Attendances and Reports Tell of a Year of Progress -- All Well Represented on Empire's Far-Flung Field of Battle.

St. Joseph's, N. B., June 20.—In the presence of a large number of old students and friends of the university the graduation exercises in connection with the 52nd convocation were carried out this morning in Lefebvre Hall. His Lordship Bishop Le Blanc presided. The degree of Bachelor of Arts was conferred on eight young men, one of whom, Lieut. Alme Leger, is now in khaki training for overseas service. The degree of Bachelor of Literature was conferred on eight students. The graduates were:

- B. A. Charles J. Carroll, Silver Falls, N. B.
- J. Sinal Chasse, St. Hilaire, N. B.
- Joseph F. Clarke, New York, N. Y., U. S. A.
- Edward L. Gallagher, Hampton, N. B.
- Alme A. Leger (Lieutenant in the 165th), Cacama, N. B.
- Carroll A. Mathieu, Farmington, Me., U. S. A.
- C. Joseph Mellday, St. John, N. B.
- Jean Baptiste Nowlan, Ste. Marie, N. B.

Sprott's Writing Diplomas: Paul Levasseur, Kesongami, P. Q. J. Arsene Fortier, St. Henri de Levis, P. Q. Evariste Leger, St. Antoine, N. B. Jean Arsenault, St. Jean L'Evange, Ile St. P. Q. The English valedictorian was Chas. Carroll, of Silver Falls, N. B., who delivered the following valedictory:

**The Valedictory.**  
The years of our college courses over and today we are come together to bid farewell to our Alma Mater, and to the companions of our student days. We are glad to think that a kindly Providence has so disposed events that Commencement Day might be in the month of June. By her magic touch, June, crimson-clad and blushing, parts the blue-veined clouds and flashes the rose-light of the sun over the land, flowers of brightest hue and exquisite perfume adorn the fields; all nature indeed decked in her richest attire shares our happiness and proffers a pleasant welcome into a new life.

We stand today on the threshold of two worlds—we leave behind us the years of boyhood, no a memory—we pass from the life of school to the school of life. Hence graduating day is one of the important milestones on life's highway, and much of our success or failure in the after years may be attributed to this day. Whilst here we have been repeatedly warned about our future dangers and obstacles, and since in a short time we will be as it were our own pilots, it seems appropriate to know the hidden rocks that we may steer clear of Scylla and Charybdis. A graduate's ambition is to attain to the culmination of his ideal and the loftiness of aim depends on whether he considers it a serious undertaking or a capricious fancy. Unfortunately as experience testifies, on the road to success we seem to tread more upon thorns than upon roses, and so we find evil everywhere; in the individual because of the propensity of his nature; in the liberal profession whose units are individuals. Evil is defined as the privation of good. But the graduate flushed with his first success—the receiving of his degree—feels that he now dwells on high intellectual altitudes, forgetting that the diploma is only "a stepping stone to higher things." Moreover, if not contained within bounds, freedom from the discipline necessary to proper study is liable to abuse. Thus in the individual we must guard against two obstacles to success—a want of self-knowledge and of self-control. Certainly all graduates who go astray do not fall precipitately over the cliff, but slip down gradually. We do not realize what a mighty power for good or evil the force of habit is; how an act and yet reap a habit; how a habit and yet reap a character; how a character and yet reap a destiny. Habit forges its chains so imperceptibly that when once we realize the duty of severing the links are too strong to be broken.

**The Chains of Profession.**  
Witness the graduate an instant longer in his choosing a profession beset with its many dangers and evils. Perhaps he has an attraction for law; in order to recall its name and origin law is the divine will made known to rational creatures, imposing on them the obligation of doing certain things and avoiding others under pain of punishment; in the middle ages law and religion were correlative ideas; the court was called "the sanctuary of justice" and its officials "the priest-hood of the magistracy." But in these days the press informs us of the most disheartening tales of speculation, fraud and even forgery committed by men whose profession entitles them to the rank of gentlemen but whose deeds prove them to be worse than the felons they defend or bring to justice. Is it not a terrible arraignment of so noble a calling to hear it said that some courts seem to be organized in order that lawyers might absorb the fortunes of their clients during the ruinous fees levied on the wretched contestants? That so called leaders have betrayed the sacred trust to some vulgar men, its nobility and usefulness rival that of the teacher. Yet the hand that should cure our ills and heal our wounds often debases itself. Nowadays it is not uncommon to hear of surgeons who for the sake of experiment will not hesitate to advocate and practice human vivisection as if man were a mere thing instead of a person endowed with a precious soul. The idea that crime is due not to the consent of the will to sin, but to some disorder of the brain finds many supporters among the medicals; and a criminal that should be given swift justice is placed on the operating table in the hope that science will do the impossible—supply for the grace of God.

**Journalism is another vocation that appeals to an ever-increasing number of graduates; in this department more than in any other, there are many abuses especially in the professionally anti-social press. Notice the glaring headlines for the greater part you will find but tempting invitations to devour the latest sensation be it murder, divorce, theft or graft. Everything is detailed with an extreme realism which is repulsive to the ordinary and youthful readers. Truth from the real journalistic point of view is the conformity of thought to the reality, which requires a full apprehension of the nature of the subject in the first instance and in the second its conveyance to the reader through the printed word. Yet there are some editors who trifle with the truth and publisher who suit their words to the tastes of the moment. We are thereby led to be deceived. Consider the large number of so called "respectable journals," the brilliant, scandalous and sensational yellow sheets, everyone a menace; consider the untold harm wrought by falsehood and scandal, and you have a slight idea of the dangers lurking around the editor's chair.**

**Knowledge Rather For Good or Evil.**  
Fortunate, however, are we, who have received a Catholic education, so education makes the mind beautiful and the beautiful is the spice, the glory and the splendor of life." Our teachers realize that knowledge is power for the good of the individual and society; when steadiad by it will thoroughly consolidated in virtue and morality. Now morality is from God, and therefore in our colleges education and religion are ever inseparable. Character is formed by repeated acts of the will and unfolds good or bad according to the nature of those acts. One of the best means to acquire concentration of the will for good is to have some ideal, some high aim in view to be always contemplated, even though it shined never be realized. Our ideals should be hung so high that the joy of pursuing induces effort to grasp; the increasing effort being in itself better than actual possession of the thing for which we strive. Though we have limitations they have never been strictly defined. Nature does not curb our pride by telling us that such exist but piques our curiosity by concealing their exact whereabouts. She tells us of high percentages gained and gives us our talents to trade with them.

The catholic graduate will bring a love of his ideal into his profession. The lawyer will strive to uphold justice and bring the guilty to punishment; he should never take an unjust case nor prolong a lawful one for pecuniary motives. A scrupulous regard for truth and justice are passport to success and honor. The physician of the physician is centered on the supposition that there is no such thing as a soul, distinct from and superior to the body. If at death all things every man lives on forever in joy. The soul unsatisfied by the surgeon's knife lives on forever in joy misery. If doctors could understand the value of a soul or even of a

body the practices that disgrace the medical profession would soon cease. As regard the journalist, let him follow the inspiring example of those whose motives are a love of truth and a spirit of devotion. Rev. Father President and members of the Faculty; our sentiments today towards you are those of praise and gratitude—praise for your untiring zeal in our behalf, in behalf of students and for the general progress of the college—gratitude, because the college has been a second home to us, and it is hard to part with the friends we made while here. You are both priest and teacher and we trust that on this account your reward will be doubly great. We have received from your hands much that is not bought or sold and in payment we will strive to follow faithfully your paternal counsels; if we do this your labor and sacrifice will not be in vain.

**Fellow students:**  
There is a word of grief the sound of broken tears.  
There is a word beguiled with bright tears,  
The saddest word fond lips have ever spoken.  
A little word that breaks the chain of years  
Its utterance must ever bring emotion.  
The memories it crystals cannot die;  
"Tis known on every land, on every ocean  
"Tis called—Good-bye."

**Classmates:**  
With the swiftness of angel-wings our college days have flown. In the past there may have been days of sadness anxiety and labor, but just at the right moment a Hand reached from beyond the skies, threw back the clouds and revealed their silver lining. The future is wisely hidden from us, we know not what it will bring, so let us be ready to grasp the opportunities as they come or else make them. Make new friends but do not forget old ones. "The test of true manhood," says Emerson, "is the ability to make and keep friends." Upward, onward, follow the Gleam shall be our motto. I only echo your sentiments. I hope my best wishes when I recall those verses of a certain poet: "I would be true for there are those who care, I would be strong for there is much to suffer, I would be brave for there is much to dare, I would be friend of all, the foe, the friendless, I would be giving and receiving a gift, I would be humble for I know my weakness, I would look up and smile and laugh and lift."

**Classmates, farewell.**  
Prizes and honors were awarded as announced in yesterday's Standard. His Lordship Bishop Le Blanc delivered an inspiring address to the graduates and Rev. B. Locaville gave his annual report which showed the university has just completed one of the most successful years in its history, the enrollment for the year averaging over three hundred. St. Joseph's, like the other colleges in the province, is doing its bit for the Empire and on the Empire's far flung battle field the sons of St. Joseph's are nobly fighting for the cause of freedom.

### AT WINDSOR, N. S.

The closing exercises of King's College school were held on Monday afternoon. G. G. Gilbert, Bathurst, N. B., won honorable mention in his subject. Following is the list of prize winners:  
The Governor-General's Medal, for Manhood, Gentleness and Learning—W. R. Townshend.  
The W. T. Whitehead Cup for best all round boy in the school, scholarship, sports, conduct and popularity—N. V. Churchill.  
The Haslam Cup for best gymnast—M. Dand, New Glasgow.  
The Nelson shield for best section in Cadet Corps—No. 1 Section, Coleraine Churchhill.  
Signalling Medal, by Captain de Carteret—W. Fairbanks.  
The tennis trophy—N. W. Churchill.  
Second tennis trophy—B. Smith, Halifax.  
Handicap prizes—J. Crockett, New Glasgow; L. Wentzell, Dartmouth.  
Fundamental prize, for least number of "lates" in the year, by Mr. R. Curry—L. Wentzell.  
The closing exercises of Edgell Church School for Girls took place yesterday morning, when a fine programme was creditably performed. K. Holly, St. John, took part in a quartette on the piano, and Helen Richardson, Fredericton, gave a piano solo.  
Language prizes: For VB, Gold Star, Jean Weeks, Brooklyn, N. S.; Book Prize, Katherine Dennis, Amherst, N. S. Form IV, Silver Star, Catherine Coll, Halifax. Form IVB, Silver Star, Jessie Lightwood, Clarendon, Texas; Book Prize, Geraldine Phipps, Amherst. Form IIIA, Book Prize, I. Hope Musgrave, Halifax; 2, Louise Prescott, Woodstock, N. B.; 3, Isabel Harris, Providence, R. I. Form IIIC, Book Prize, Phyllis Stevens,

### Chatham, N. B. Form II, Book Prize.

Phoebe Prowse, St. John's, Nfld.

### Special Prizes.

King's College, 1916.  
Senior Examination.  
Class I: Jean Weeks—Distinguished in Scripture and French, History and French.  
Class II: Katherine Dennis—Distinguished in Scripture, History and French.  
Mildred Lavers.  
The lady principal, Miss Geaz Smith, presented her report, in which she said the year had been in many respects a successful one.  
A drill by the pupils of the school, under the direction of Miss Wallace, was one of the features of the closing exercises, and elicited much favorable comment on the way in which it was carried out.

### AT ROTHESAY

The closing exercises at Rothesay Collegiate School yesterday were of more than usual interest as they marked the completion of twenty-five years of successful work on the part of this splendid institution of learning. There was a very large attendance of relatives and friends of the school as well as a number of "old boys." His Lordship Bishop Richardson preached. The headmaster, Rev. W. R. Hibbard reviewed the year's work in a very interesting report. He paid a tribute to the founders of the school and said that the results achieved had amply justified their belief that such a school was necessary. Successful and prosperous one. Their hearts had been saddened by the death and disablement of some of the "old boys" at the front, but they had rejoiced as well at the response which

had been made by graduates from the school to the Empire's call. At the present time he knew of over ninety former pupils of the school who were with the colors. Some of them had won honors on the field and he named Major F. C. Magee and Major Malcolm McAvity, who had won the D. S. O., and Sgt. Bruce Ritchie, who had won the D. C. M. He made feeling reference to the following who had given their lives for the cause: Major Ralph Markham, Capt. Norman Mungul, Lieut. Charles Lawson, Lieut. George Oty and Percy Baker.

Each year brings its inevitable changes, not only in the personnel of the pupils, but in that of the staff besides. This year the Rev. Percy Coutthurst left us just after Easter to join the 116th Battalion. We have since learned with pleasure that he has been appointed a chaplain at Valcartier. His place was temporarily filled by Mr. Murray McC. B. Baird, B. A., who was recently appointed the Rhodes Scholar by the University of New Brunswick.  
Mr. H. Y. Haines is resigning his position on the staff in order to enlist with one of the battalions now forming. We hope, however, that Mr. Haines will come back to us after the war.  
Mr. H. D. Caswell, B. A., a graduate of the University of Bishop's College, Lennoxville, and Mr. Walter Murray, who has had considerable experience in teaching, and who is well known in Rothesay, have been appointed to positions on the staff.  
It will be a cause of regret to the present members of the school, as well as to many who have left, to learn that Miss P. St. J. Beard has resigned her position as matron. Her successor will be Miss Adelaide Sewell of Quebec. Miss Sewell is a graduate of the Toronto General Hospital Training School for Nurses and had wide and varied experience in institutional work.  
The prize list was as follows:

1st—Scholarship prize, gold medal, Rankine.  
2nd—Scholarship prize, silver medal, Edgworth.  
Mr. A. C. Skelton, prizes for best average in examinations—1st, Edgworth; 2nd, Rankine.  
**Form Prizes.**  
Fifth Form—Best average in Christmas and Easter examinations. Windsor, Burchill.  
Fourth Form—General proficiency prizes: 1st, Rankine; 2nd, Miles; 3rd, Coster.  
Bishop's prize for Divinity—Rankine.  
Headmaster's prize for mathematics—Holly.  
Mr. Cooper's prize for Latin and French—Rankine.  
Form 2-A—General proficiency prize—1st, Edgworth; 2nd, Best; 3rd, Carson.  
Bishop's prize for Divinity—Best. Deaneary of St. John prize for mathematics—Edgworth.  
Form 3-B—General proficiency prizes—1st, Short; 2nd, Gregory; 3rd, MacRae.  
Deaneary of Kingston prize for Divinity—Gorham.  
Form 2—General proficiency prizes—1st, Skelton; 2nd, Irwin; 3rd, Fitz-Randolph.  
Deaneary of Chatham prize for Divinity—Edgworth.  
Form 1—General proficiency prizes—1st, J. Starr; 2nd, (Miss Daniel's prize), H. Turnbull.

# LATE NEWS AND VIEWS FROM SPORTING WORLD

## IT'S THE YOUNG PITCHERS WHO ARE HOLDING UP THE MAJOR LEAGUE CLUBS

Of Course, Walter Johnson is Going at Usual Gait, but Majority of Veterans Haven't Come Through Yet.

The first month of the 1916 championship race in the American League has been notable particularly for the success of young pitchers and the failure of veterans who had been counted upon to do most of the winning for their respective clubs.

The Cleveland and New York clubs, two of the three leaders for the Johnson pennant, have held up this spring by young pitchers. Guy Morton of course must not be overlooked, as he is more than performing up to the expectations of fans and dopsters.

In a few instances the veterans are holding their own, but the number of failures among the star boxmen exceeds the number of successes. Walter Johnson of course is out in front with a half dozen victories to his credit, but it was always a bit unfair to other pitchers to bring them into comparison with the Washington speedster.

The White Sox furnish two instances of the veteran pitcher failing to do the expected. Joe Benz has not won a game this season and Jim Scott has only one victory to his credit.

The Cleveland and New York clubs, two of the three leaders for the Johnson pennant, have held up this spring by young pitchers. Guy Morton of course must not be overlooked, as he is more than performing up to the expectations of fans and dopsters.

Another pitcher from whom much was expected and little has arrived, is George Foster, of the Red Sox. Foster was the most talked of pitcher in the country last fall after his great work in the world's series, but for the first month of the present campaign he had a record of one victory against four defeats.

### STATE LEAGUE IS THROUGH.

Harrisburg, June 19.—Leo Groom, New York city, financial backer of the Pennsylvania State League, today notified William R. Douglas, of this city, president of the league, that all teams are to disband and players given their release.

### WHEN TOM ALLEN AND MCCOOLE FOUGHT

#### Review of World's Championship Fought Forty-seven Years Ago.

Here is a description from an old St. Louis paper of the concluding scene of a world's championship heavyweight battle fought on an island in the Mississippi between Tom Allen, an Englishman, and Mike McCool, a big Irishman.

"The McCool party then cut the ropes, and the excited mob covered the fighting grounds. Clubs were wielded promiscuously, while the referee was besieged by enraged men, armed with murderous weapons, who savagely and threateningly demanded a decision in favor of the poor, bleeding, almost powerless man of humanity who had been a chopping block for Allen.

This contest was staged forty-seven years ago, June 15, 1869, and it was fairly typical of the disgraceful prize fights of that period. Although McCool and Allen were matched for the

## PLAYS GOLF FOR HEALTH, HE'S PICKED FOR TITLE

Phil Carter, Whose Father Took Him to Links to Keep Him in Open, Expected to Land Several Championships This Year.

Phil Carter is a tall, twenty-year-old youth who took up golf in search of lost health. His advancement on the links has been so rapid that the name of Carter is now ranked with the best means of keeping his son outdoors.

From this time on victories in various tournaments were frequent occurrences for young Mr. Carter. When he was seventeen Philip captured the interscholastic championship three consecutive years.

Teacher and pupil often spent many hours on the Boston links. It was Anderson's careful coaching that developed the youngster so rapidly. Carter, when only fourteen years old, first attracted attention when he defeated John M. Ward, one of the stars of the Garden City club, in a tournament at the National Links.

Those who love to pass judgment on golfing form find very little that's wrong with young Carter's way of playing his shots. Long and true off the tee he plays his irons like a professional and with a habit of playing many of his shots with a hook.

## BASEBALL IN THE BIG LEAGUES

### NATIONAL LEAGUE.

New York and Boston Break Even. New York, June 20.—New York and Boston broke even today on the season's first National League double-header in this city, the Giants winning the first game, 4 to 2, and the Braves taking the second, one to nothing. The score:

- First game—
  - Boston . . . . . 100003001—2 7 1
  - New York . . . . . 20010002—4 9 2
- Batteries: Tyler and Gowdy; Anderson and Rariden.
- Second game—
  - Boston . . . . . 000001000—1 6 1
  - New York . . . . . 00000000—0 7 1

### INTERNATIONAL LEAGUE.

Toronto 5; Newark 1. Newark, June 20.—Toronto beat Newark today 5 to 1. The score:

- Toronto . . . . . 100000121—5 11 2
- Newark . . . . . 000000010—1 6 3

### AMERICAN LEAGUE.

Washington 2, Philadelphia 1. Philadelphia, June 20.—Bush held Washington to three singles in eight innings today, but his wildness proved costly, and the visitors defeated Philadelphia, 2 to 1. The score:

- Washington . . . . . 10100000—2 7 1
- Philadelphia . . . . . 00000001—1 5 1

### Batteries—Gallia and Henry; Bush, Nabors and Schang.

### New York 4, Boston 1.

Boston, June 20.—The Yankees won the opening game of the series today, hitting Leonard freely for the early innings. The world's champions would have been shut out but for a long home-run drive over the left field fence in the seventh by Walker. The score:

- New York . . . . . 110110000—4 8 1
- Boston . . . . . 00000100—1 4 1

### Chicago 4, St. Louis 2.

St. Louis, June 20.—Chicago won the first game of the series with St. Louis here today, 4 to 2. The score:

- Chicago . . . . . 000003010—4 9 0
- St. Louis . . . . . 001000001—2 6 1

### Buffalo 7; Richmond 2.

Richmond, June 20.—Buffalo beat Richmond today 7 to 2. The score:

- Buffalo . . . . . 04020010—7 11 1
- Richmond . . . . . 000000011—2 6 6

As a match player Carter is probably the equal of Jerry Travers, and they don't come any better than the former four times amateur champion.

Those who love to pass judgment on golfing form find very little that's wrong with young Carter's way of playing his shots. Long and true off the tee he plays his irons like a professional and with a habit of playing many of his shots with a hook.

### DOMINION STEEL ANNUAL MEETING

Nothing Unusual Developed—Sir Wm. Van Horne's Place Unfilled.

### REPORT FOR THE YEAR IS ADOPTED

Pres. Workman Says Prospects are for Fair Market for Export Steel for Some Time to Come.

### Special to The Standard.

Montreal, June 20.—The annual meeting of the shareholders of the Dominion Steel Corporation and its constituent companies held today developed into a routine affair, and all the business was concluded in twenty minutes.

In moving the adoption of the report, Mark Workman, president, who presided, pointed out that at the beginning of the year just closed the country had recently passed through a period of widespread depression.

"As regards the possibilities of business for the future, it is very difficult to make any prophecy, and I am very reluctant to do so," he said.

"However, the number of enquiries for export steel before us at present would seem to indicate that a fair market may be expected for some time to come. It would also seem that there should be a very urgent domestic need for all our products.

The vacancy on the executive board which has existed since the death of Sir William Van Horne, vice-president a year ago, remained unfilled at the conclusion of today's meeting, the only change announced being the addition of George Caverhill to the executive committee.

President Workman said that the company was sold up to the end of the year. With respect to the progress of the industries and their present condition, the president remarked that since taking his present office he had made every effort to ascertain the condition of the properties owned by the company.

With respect to the steel property, however, certain improvements were desirable and these would be gone ahead with as fast as possible. It would become necessary to remodel two of the blast furnaces and orders had been given to go ahead with this work immediately.

Both the president and vice-president, McLister, commented upon the advantages following upon the consolidation of the management of the two companies as announced some time ago in the appointment of Mr. McDougall.

NEWS AND COMMENT FROM THE FINANCIAL WORLD

DOMINION STEEL ANNUAL MEETING Nothing Unusual Developed - Sir Wm. Van Horne's Place Unfilled. REPORT FOR THE YEAR IS ADOPTED

Pres. Workman Says Prospects are for Fair Market for Export Steel for Some Time to Come.

Special to The Standard. Montreal, June 20.-The annual meeting of the shareholders of the Dominion Steel Corporation and its constituent companies held today developed into a routine affair, and the business was concluded in twenty minutes. The only question during the meeting was put by the Hon. Esmer McSwaney, who inquired regarding the prospects for the coming year, and to which question Mr. Workman, the president replied briefly that the output was sold practically to the end of the year.

In moving the adoption of the report, Mark Workman, president, who presided, pointed out that at the beginning of the year just closed the country had recently passed through a period of widespread depression. "As regards the possibilities of business for the future, it is very difficult to make any prophecy, and I am very reluctant to do so."

However, the number of enquiries for export steel before us at present would seem to indicate that a fair market may be expected for some time to come. It would also seem that there should be a very urgent domestic need for all our products. This demand may come either immediately after the war, or should the war continue for any length of time it may be expected in the near future.

The vacancy on the executive board which has existed since the death of Sir William Van Horne, vice-president, a year ago, remained unfilled at the conclusion of today's meeting, the only change announced being the addition of George Caverhill to the executive committee.

President Workman said that the company was sold up to the end of the year.

With respect to the progress of the industries and their present condition, the president remarked that since taking his present office he had made every effort to ascertain the condition of the properties owned by the company. He found the coal property equal to any property on the continent.

With respect to the steel property, however, certain improvements were desirable and these would be gone ahead with as fast as possible. It would become necessary to remodel two of the blast furnaces and orders had been given to go ahead with this work immediately. Other improvements would be carried out without delay. Fortunately the company was in a position to go ahead with this work because of the excellent business and liberal profits of the past year.

Alluding to the quality of the steel they turned out, he had satisfied himself that this was in every way excellent. He regarded this as of great importance to the shareholders.

Both the president and vice-president, McMaster, commented upon the advantages following upon the consolidation of the management of the two companies as announced some time ago in the appointment of Mr. McDougall.

The directors of the past year were re-elected.

OUTSIDE INFLUENCE LESS A FACTOR ON MONTREAL STREET Changes on Whole Were Moderate and General Tone Considerably Better Than Previous Day.

Special to The Standard. Montreal, June 20.-While dealings in the local stock market were dull today the market gave indications of the opening of offering some resistance to further weakness along the lines of that experienced during the past few days, but more particularly yesterday when the Mexican situation became acute and Wall Street felt the pressure of bear attacks.

In the afternoon the tone of the market was firmer, prices equal to or better than those prevailing at the close of the morning session.

CLOSING LETTER OF N.Y. MARKET BY E. & C. RANDOLPH

(McDOUGALL & COWANS.) New York, June 20.-The market was dull during the greater part of the afternoon session and prices showed no tendency to move above the best levels established in the morning. The dullness became accentuated in the late trading and the market had the appearance of having advanced all that conditions at this time would allow. There was no public interest and the professionals are waiting for further developments in the Mexican situation before changing or taking a new position in the market.

Reading was again the most active issue in the market. At the directors' meeting of the Jersey Central Railroad, the usual extra dividend of 2 per cent was declared, but instead of coming from the profits of the Lehigh and Wilkesbarre Coal Co., it came from the road's own earnings. Appeal of the government's case to divorce this coal property is now pending, and it is from this property through the Jersey Central that a motion is expected to come to Reading stockholders before a great while. With the accumulation of Readings still going on, however, it was not to be expected today.

Both the president and vice-president, McMaster, commented upon the advantages following upon the consolidation of the management of the two companies as announced some time ago in the appointment of Mr. McDougall.

The directors of the past year were re-elected.

SOME RECOVERIES ON WALL ST. CHANGE Trading Element Showed Less Concern Over Mexican Situation. DEALINGS BROADER BUT TOTAL SMALLER

War Shares Higher for a Time but Proved Susceptible to Realizing - Bonds Under Pressure.

New York, June 20.-Stocks made general, though not complete, recoveries today from their heaviness of the preceding session. The trading element seemed less concerned about affairs in Mexico, and prices were actually at their best immediately after publication of the state department's note to the Mexican government.

Dealers in exchange accepted the strength of francs and the heaviness of sterling showed a slight recession and another installment of gold from Canada brought the total receipts of that metal from the Dominion up to slightly over \$65,000,000. Evidently this gold is being deposited in local bank vaults, instead of being directed to the use of the federal reserve, as was recently the case.

CHICAGO GRAIN AND PRODUCE PRICES

(McDOUGALL & COWANS.) Chicago, June 20.-Wheat-No. 2, red, 1.02 3/4 to 1.03; No. 3, red, 99 to 1.01; No. 2, hard, 1.02 1/2 to 1.03; No. 3, hard, 99 to 1.01 1/2.

A CANADIAN GASOLINE CORP'N IS ORGANIZED Syndicate Headed by H. T. Bush, Sir Donald Mann and Senator Curry Formed with Capitalization of \$3,000,000.

Special to The Standard. Montreal, June 20.-A syndicate headed by H. T. Bush, president of the Standard Oil Co., Sir Donald Mann and Senator Curry, it is announced has been formed to organize the Canadian Gasoline Corporation. The new company will have a capitalization of \$3,000,000 and will control the greatest rights in Canada.

It is understood that the directors of the Weyburn Pulp and Paper Company are considering the erection of a sulphite mill to be operated in conjunction with the plant of the company at Three Rivers.

NEWS LETTER FROM MONTREAL EXCHANGE

Montreal, June 20.-There was nothing to the market today. Wall Street was a little bit stronger, but did not hold its advance. The local market had not much change. There was a little liquidation by the tired holders. Steel of Canada was weaker on their labor trouble in Hamilton not being settled. We hear that the Canadian banks are to advance another \$75,000,000 to the government, which is to be spent in Canada on munitions.

# A Column Which Is Supposed To Be Of Interest To Women

## Herein are Related Facts and Fancies Concerning the Activities of Individuals and Organizations, the Home, Fashions and Other Matters.

**MARGUERITE'S WEEKLY CHAT ON PREPAREDNESS**

This seems to be the word of the day just as strenuous was some years ago. What I am wondering is, when all this time of strife is over, will we go back to the careless days again, or have we made plans now that will bear fruit in the future. For instance what about your little daughter? Will you bring her up with just a few accomplishments added to her ordinary education, or will you give her a business course so that she may take care of wealth if it should be her's or earn her own living if necessary?

Many women today regret bitterly that in peaceful days they did not study some one thing that would enable them now to fill a place in the world of workers, where so many are needed. Mothers need not send their girls to Domestic Science School, (excellent as they are). There are hundreds of books on the subject, which mother and daughter can study together and there is the home kitchen to experiment in and the family always ready to criticize one's work. (Don't I know it! Home truths, they are called that kind of criticism but it is good for one.) Plenty of nursing courses are offered and if there is no need to take up professionally, there is always the call for social service and a nurse or a teacher can find plenty to do for the little ones of any city.

It is all very well to expect a girl just to be a homemaker, but often there comes a time when the home is broken up, and she has to stand upon her own feet. See to it, parents, that she is prepared to stand firmly and step out for herself.

**Y. W. P. A.**

A meeting of the Young Women's Patriotic Society will be held in the Ladies' Aid Society rooms on Thursday evening at 8.15. The executive meeting was held on Tuesday afternoon at which Miss Grimmer presided and plans were made for the Thursday meeting and other business discussed.

The ladies of St. David's church held on Sunday the last of a series of meetings which have given pleasure to a large number of women. I am glad to tell you that the people were so glad you will be interested in hearing about it.

All this winter and spring every Sunday and Thursday evening the ladies of St. David's have been "at home" in the school house to the soldiers stationed in St. John. Every soldier has been welcomed, entertained and made to feel that he was among friends. The average number of soldiers there have been 200 soldiers present. Supper has been served twice a week. On Sundays hymns were sung, the men choosing their own favorites. Thursday evenings games were played, music provided as well as the bountiful supply of cake and sandwiches offered. Some of the thoughtful ladies brought thimbles and darning yarn and did some mending for the boys. Many friendships were formed and the letters received from the men, after they left St. John, showed how appreciative they were of the kindness they had met and the good times they had enjoyed at St. David's.

"We wish we had some of the good coffee we used to get at St. David's. We will never forget our St. John friends and how good they were to us at St. David's," and many other tributes of gratitude have been received from men of the 52nd, 68th and other units which have been here. This has been a work faithfully carried on through all these months and has been a great pleasure to the workers. It may have far-reaching effects for goodness and kindness which stay still—still their influence will be felt far off.

**St. John Woman Leads Class.**

The Chicago Weekly Review of June 9 tells of the success of a St. John woman in the following paragraph:

Mrs. M. D. R. Campbell, 11254 Irving avenue, was a member of the class of law students graduated by the Chicago Kent College of Law on June 1st. Mrs. Campbell was one of four women in a class of 133 graduates. She was one of the leaders of the class and received honorable mention for her thesis. The degree of Bachelor of Laws was conferred upon her.

Mrs. Campbell is a daughter of the Henry Rowley of this city, and was a pupil in the Victoria school.

**FOR THE LADY OF THE CAR.**

Summer furs are to be as popular this year as they were last, but they are appearing in different models. The pelts are smaller and the deer, mink, marten and seal are being used more than the white fox. The capes are made of the short-haired furs, ermine, mole seal and seal are being used more and more. A number of the fur collarettes, made like the collar and lapels of a coat are edged with pleated chiffon and have chiffon ties.

Panama sport hats are appearing with wide, flat trimming of prettily striped Jersey cloth, the trimming being buttoned with tiny silk buttons on the left side of the crown. In the center of the crown there is a button, the color of the Jersey cloth. The pinwheel hat is another newcomer. The hat is made of felt, with stripes radiating from the center of the crown to the edge of the brim. A narrow stitched band around the crown is the only trimming. The hats come, the stripes in any color desired, for wear with the blazer striped sweaters.

Vell novelties are not as frequently found as formerly, but a few new styles appear from time to time. The various chignons with pointed dots, the size of a quarter, chain veil is worn with striped silk borders, awning striped chiffons, washable marquisettes in solid colors and chiffons with spider net make-up are popular. An occasional raincoat shaded veil is worn with the white crown hat caps.

Painted hats are rapidly creeping into sport hat fashions and have the advantage of staying in place and not needing to be brushed carefully. One black cane straw is painted with sprays of golden-rod around the crown and is faced with yellow chiffon. Another of ten peanut straw is decorated with corn flowers and faced with blue crepe to match. Still another is of white hemp straw with black silhouette figures around the crown.

One popular wrap of navy blue serge is water proofed. The coat has a semi-fitted waist and an applied pleated front and back. The coat has a half crepe lined with navy blue satin to match the chin chin collar and buttoned cuffs. Square navy blue metal buttons are used down the front of the coat and on the sleeves.

Pongee is used in a smart semi-fitted cape with coat sleeves. An upper cape hip length, is arranged to button at either side to form half sleeves. The coat is lined with gaily striped satin. There is a loose military pocket at either side of the front.

Bonestelles Quit Buffalo.

"The Passing of the Third Floor Back," presented by the Bonestelle company, at the Star, June 5-10, was most creditable and worthy, says the Dramatic Mirror. The Week June 12 was the final week of the Bonestelle company's engagement at the Star, the company going from here to Detroit for the rest of the summer. "My Lady's Dress" was given last week.

**FORCED TO LEAVE SCHOOL, HAD ST. VITUS' DANCE**

**Astonishing Cure of This Nervous Trouble Effected by Use of Dr. Chase's Nerve Food.**

Here is a case where life-long gratitude will be felt for Dr. Chase's Nerve Food. As a school girl and in later life Dr. Chase's Nerve Food came to the rescue when the nerves gave out. Now a healthy, robust woman happily gives the credit to this great food cure for restoring her to health and strength.

Miss Sadie M. White, 38 Waterloo street, Fredericton, N. B., writes:—

"When ten years of age a friend of mine had St. Vitus' Dance and she had to leave school and go under a doctor's care. Instead of benefiting by the treatment she appeared to get worse. Her tonsils and tongue became so swollen that she could scarcely take any nourishment. For two weeks she was in this way and then took convulsions and nearly choked to death. She was ordered to the hospital, but soon got worse again. I recommended Dr. Chase's Nerve Food to her and she used nine boxes, steadily growing better. Three years later a severe fright brought on the nervous trouble again, and she suffered everything a human being could endure. Her mother bought a dozen boxes of the Nerve Food, and this treatment she was fully restored. I wish you could see her now, a strong, healthy, robust woman with two lovely babies. She still uses the Nerve Food when she feels out of sorts, but has had no return of the old nervous trouble."

For weak, puffy, nervous children there is nothing like Dr. Chase's Nerve Food to enrich the blood, restore the starved nerves and start them on the way to health. When they fail to get proper nourishment from the food they eat, this food presents the necessary ingredients in condensed, and easily assimilated form, and strength and vigor is restored. 50 cents a box, 6 for \$2.50, all dealers, or Edmondson, Bates & Company, Limited, Toronto.

**LETTERS RECEIVED BY UNCLE DICK FROM HIS BOYS AND GIRLS**

**"Knee Deep in June."**

One of James Whitcomb Riley's pretty poems is entitled "Knee Deep in June," and in it he eloquently extols the beauty and the glory of the mid-month of the year. But when old Jupiter Pluvius takes charge of the weather and runs it as he has been doing for some days, it is ankle deep in mud in June, and if he keeps at it with the persistence he has been showing recently a whole lot of people will have to swim out before the month is over.

A certain amount of rain is all right, but too much of it causes discomfort, inconvenience, financial loss and all-round grouchingness. For weeks there is planning for a June day in the woods and with a basket of good things to eat, the members of the family be-take themselves thither. But before the day is half over down comes a rain that soaks clothing and grub, and there is nothing to do but hike homeward in utter disgust. Tickets are purchased for an outdoor festival, money and time are expended on smart "duds" suitable to the occasion, there is a great gathering to see and to hear the entertainers, and right in the midst of the festivities old J. Pluvius turns on the hose, and everything is off.

The women of the church devote time and money to the holding of a lawn fête for the benefit of the hospital, or for some other good cause; pies and cakes are baked or begged, several bushels of berries are bought, numerous gallons of ice cream are contracted for, the eventual evening arrives, and before half the expenses have been met there is a watery down-pour that puts the "kibosh" on all proceedings.

Beauties in vain their pretty eyes may roll,  
Charms strike the sight but merit wins the soul.  
—Alexander Pope.

**TODAY'S LITTLE JOKE.**

A humorist who was having his shoes shined at a railway station, asked the boy at his feet if his father were a boot-black also.

"No," replied the bootblack, "my father is a farmer."

"Ah," said the humorist, "he believes in making hay while the sun shines!"

**CHARLOTTE'S CHOICE.**

By Estelle I. Fox, Member of Child's Corner.

"Charlotte,"

Mrs. Haviland stood at the door and called to her little daughter, who sat reading "Daddy's Girl," on the back porch. But she got no answer.

"Charlotte," she called again.

Charlotte jumped up with a start.

"Oh! yes mother, did you call me?" she said quickly.

"Yes. Come in a minute, I want you," said mother, as she stepped back into the kitchen.

Charlotte frowned.

"I went away and I want to know why mother should call me just at the best part. Well, I suppose I must go."

Charlotte gave one last look at her book. "Yes, I'm coming, mother, in a minute," she called. But she read a page before she stepped into the kitchen.

"It is a very busy this morning," mother explained, "and I want to know which you would rather do for me—wash the dishes or go to the store?"

Charlotte looked very much surprised. Her mother seldom asked her to do any work. "I would rather do either," she said, but she glanced at the big dish-pan on the table.

"It would take me too long to do those," she concluded to herself. "Oh dear! I do want to finish my book. I guess that going to the store is the easiest thing." Aloud she said "I'll go to the store, mother."

Mrs. Haviland ran to her hand-bag, while Charlotte felt rather ashamed. "I chose the easiest task," she admitted to herself.

"Here is the money, dear," said her mother. "I wouldn't have asked you, but I am so busy. I want you to get me a dozen of eggs and two pounds of butter, and—two of sugar. Please don't forget them."

"No mother," said Charlotte, as she ran off.

"And Charlotte," called mother, "go to Chase's for the things."

Charlotte stopped, dismayed.

"Be continued tomorrow."

Dear Uncle Dick—

I am going to write you another letter. I have not wrote you a letter in a long time. I am going to try the Word Making Contest. I like a Word Making Contest, or Jumbled Words. School is going to close a week early this term, and I will have more time to write to you. I have a dialogue and a recitation. You told us to tell you how we liked this week's story. I liked it very much. I guess I will have to stop as my letter is getting long. I will close. Good-bye.

From your loving niece,  
Glady Patterson.

On Visit to Boston.

South Boston, Mass.

Dear Uncle Dick—

I went away and did not tell you anything about my trip. I had a very pleasant trip it was not a bit rough, the weather is not extra good, it rains every day but Monday. I had to take off my coat. It was so warm, but leaving off that part of the subject, are the contests these days very hard. I will soon be able to enter it again. So I will be home on Thursday.

From one of your members of the St. John Standard.

Francis Doody.

**THE FOX \$1,000,000 PICTURE.**

Annette Kellermann, the remarkable star of the Fox \$1,000,000 picture has a repertoire of thrills all her own.

Here is an incomplete inventory of her ten adventurous months spent in Jamaica. She is beaten against a raging coral headland, pulled away from the rock each time by the undertow and hurked back again. And in this episode she is bound knee with her arms entirely useless, by heavy ropes. During the taking of these scenes her waist was cut from the shoulder to back as if she had been beaten with a cat-o-nine-tails. Thrice was she taken unconscious from the water, begging in a half-conscious way, for the moment, not to be sent back into the boiling surf. But each time, her courage undaunted, she voluntarily went back and finished the scene.

In one of the beautiful Gnome City scenes—laid at the foot of a beautiful cascade, that comes crashing down from the mountains—she is stoned and beaten with sticks by several hundred dwarfs who imagine her to be "their enemy."

In another of the water sequence of scenes she swims almost with the speed of a train ahead of a shark, whose fin races along the surface not ten feet behind her.

Later Miss Kellermann is tossed at the order of an insane Sultan into a pool filled with savage alligators. You see the alligators poke their noses to the surfaces, blowing bubbles in the water. You see Annette Kellermann held aloft over the edge of the pool. The huge mouths of the alligators are poked out of the water, wide-open, and then she is dropped into their very teeth—yet escapes, as the film will reveal.

In the most exciting adventure of all the mad Sultan orders the flood-gates of the pool raised and you will see her swept out of the water gate into a roaring rapid down which she plunges for a distance of two and a half miles—still bound tightly about the arms. The swift current pulls her into mid-channel of the rapids and downward she plunges. The ever-present camera follows her down the boiling waters to the edge of a precipitous waterfall and then a camera below the fall picks her up at the brink and follows her on a fifty foot drop into a Niagara-like whirlpool at the bottom of the waterfall.

**CURTAIN FLASHES.**

**DO YOU KNOW**

That a camera has photographed objects six miles away?

That it is almost impossible to photograph the eyes of a cat?

That "The Squaw Man" was the first film to be reviewed by the daily press?

That a mirror screen has been invented which allows of daylight photography?

That Lee Shubert controls eleven New York theatres aside from his film interests?

That E. K. Lincoln of "The Littlest Rebel" memory, who lit with Lubin for a bit has now flown into the World Camp?

That William M. Selig owns what is considered the most complete and valuable collection of cat animals in existence?

That Ruth Roland and Andrew Arbuckle are featured in "A Matrimonial Martyr," the five-part Gold Rooster Play to be released soon?

That they do say that the nightingale which Miss Billie Burke adorns her attack of pneumonia in the present chapter of "Gloria's Romance" cost \$150.

"The Star of India," a forthcoming Centaur picture with Margaret Gibson and William Clifford, contains a number of jungle scenes in which the Bostock animals appear in large numbers. Charles Swickard directed the play. Frederick Montague, D. D. Blake and Fernando Galvez are in the cast.

South Boston, Mass.

Dear Uncle Dick—

I went away and did not tell you anything about my trip. I had a very pleasant trip it was not a bit rough, the weather is not extra good, it rains every day but Monday. I had to take off my coat. It was so warm, but leaving off that part of the subject, are the contests these days very hard. I will soon be able to enter it again. So I will be home on Thursday.

From one of your members of the St. John Standard.

Francis Doody.

**YOUR SPRING HOUSE-CLEANING SHOULD NOT BE CONFINED TO BEATING RUGS AND SCRUBBING FLOORS. CLEAN OUT THE ACCUMULATED "TOXINS" THAT COME FROM HEAVY WINTER FOODS THAT CLOG THE LIVER AND LOWER THE MUSCULAR TONE AND VITALITY OF THE BODY. EAT SHREDDED WHEAT BISCUIT WITH FRESH BERRIES OR OTHER FRUITS AND GREEN VEGETABLES. GET BACK TO NATURE. SHREDDED WHEAT WILL BRING THE BOUNDING BOUQUANTY OF NEW LIFE AND VIGOR. CONTAINS ALL THE GOODNESS OF THE WHOLE WHEAT GRAIN MADE DIGESTIBLE BY STEAM-COOKING, SHREDDING AND BAKING. NOTHING SO STRENGTHENING, HEALTHFUL AND SATISFYING. DELICIOUS FOR ANY MEAL. EASILY PREPARED. MADE IN CANADA.**

**THE FOX \$1,000,000 PICTURE.**

Annette Kellermann, the remarkable star of the Fox \$1,000,000 picture has a repertoire of thrills all her own.

Here is an incomplete inventory of her ten adventurous months spent in Jamaica. She is beaten against a raging coral headland, pulled away from the rock each time by the undertow and hurked back again. And in this episode she is bound knee with her arms entirely useless, by heavy ropes. During the taking of these scenes her waist was cut from the shoulder to back as if she had been beaten with a cat-o-nine-tails. Thrice was she taken unconscious from the water, begging in a half-conscious way, for the moment, not to be sent back into the boiling surf. But each time, her courage undaunted, she voluntarily went back and finished the scene.

In one of the beautiful Gnome City scenes—laid at the foot of a beautiful cascade, that comes crashing down from the mountains—she is stoned and beaten with sticks by several hundred dwarfs who imagine her to be "their enemy."

In another of the water sequence of scenes she swims almost with the speed of a train ahead of a shark, whose fin races along the surface not ten feet behind her.

Later Miss Kellermann is tossed at the order of an insane Sultan into a pool filled with savage alligators. You see the alligators poke their noses to the surfaces, blowing bubbles in the water. You see Annette Kellermann held aloft over the edge of the pool. The huge mouths of the alligators are poked out of the water, wide-open, and then she is dropped into their very teeth—yet escapes, as the film will reveal.

In the most exciting adventure of all the mad Sultan orders the flood-gates of the pool raised and you will see her swept out of the water gate into a roaring rapid down which she plunges for a distance of two and a half miles—still bound tightly about the arms. The swift current pulls her into mid-channel of the rapids and downward she plunges. The ever-present camera follows her down the boiling waters to the edge of a precipitous waterfall and then a camera below the fall picks her up at the brink and follows her on a fifty foot drop into a Niagara-like whirlpool at the bottom of the waterfall.

**CURTAIN FLASHES.**

**DO YOU KNOW**

That a camera has photographed objects six miles away?

That it is almost impossible to photograph the eyes of a cat?

That "The Squaw Man" was the first film to be reviewed by the daily press?

That a mirror screen has been invented which allows of daylight photography?

That Lee Shubert controls eleven New York theatres aside from his film interests?

That E. K. Lincoln of "The Littlest Rebel" memory, who lit with Lubin for a bit has now flown into the World Camp?

That William M. Selig owns what is considered the most complete and valuable collection of cat animals in existence?

That Ruth Roland and Andrew Arbuckle are featured in "A Matrimonial Martyr," the five-part Gold Rooster Play to be released soon?

That they do say that the nightingale which Miss Billie Burke adorns her attack of pneumonia in the present chapter of "Gloria's Romance" cost \$150.

"The Star of India," a forthcoming Centaur picture with Margaret Gibson and William Clifford, contains a number of jungle scenes in which the Bostock animals appear in large numbers. Charles Swickard directed the play. Frederick Montague, D. D. Blake and Fernando Galvez are in the cast.

**"Knee Deep in June."**

One of James Whitcomb Riley's pretty poems is entitled "Knee Deep in June," and in it he eloquently extols the beauty and the glory of the mid-month of the year. But when old Jupiter Pluvius takes charge of the weather and runs it as he has been doing for some days, it is ankle deep in mud in June, and if he keeps at it with the persistence he has been showing recently a whole lot of people will have to swim out before the month is over.

A certain amount of rain is all right, but too much of it causes discomfort, inconvenience, financial loss and all-round grouchingness. For weeks there is planning for a June day in the woods and with a basket of good things to eat, the members of the family be-take themselves thither. But before the day is half over down comes a rain that soaks clothing and grub, and there is nothing to do but hike homeward in utter disgust. Tickets are purchased for an outdoor festival, money and time are expended on smart "duds" suitable to the occasion, there is a great gathering to see and to hear the entertainers, and right in the midst of the festivities old J. Pluvius turns on the hose, and everything is off.

The women of the church devote time and money to the holding of a lawn fête for the benefit of the hospital, or for some other good cause; pies and cakes are baked or begged, several bushels of berries are bought, numerous gallons of ice cream are contracted for, the eventual evening arrives, and before half the expenses have been met there is a watery down-pour that puts the "kibosh" on all proceedings.

Beauties in vain their pretty eyes may roll,  
Charms strike the sight but merit wins the soul.  
—Alexander Pope.

**TODAY'S LITTLE JOKE.**

A humorist who was having his shoes shined at a railway station, asked the boy at his feet if his father were a boot-black also.

"No," replied the bootblack, "my father is a farmer."

"Ah," said the humorist, "he believes in making hay while the sun shines!"

**CHARLOTTE'S CHOICE.**

By Estelle I. Fox, Member of Child's Corner.

"Charlotte,"

Mrs. Haviland stood at the door and called to her little daughter, who sat reading "Daddy's Girl," on the back porch. But she got no answer.

"Charlotte," she called again.

Charlotte jumped up with a start.

"Oh! yes mother, did you call me?" she said quickly.

"Yes. Come in a minute, I want you," said mother, as she stepped back into the kitchen.

Charlotte frowned.

"I went away and I want to know why mother should call me just at the best part. Well, I suppose I must go."

Charlotte gave one last look at her book. "Yes, I'm coming, mother, in a minute," she called. But she read a page before she stepped into the kitchen.

"It is a very busy this morning," mother explained, "and I want to know which you would rather do for me—wash the dishes or go to the store?"

Charlotte looked very much surprised. Her mother seldom asked her to do any work. "I would rather do either," she said, but she glanced at the big dish-pan on the table.

"It would take me too long to do those," she concluded to herself. "Oh dear! I do want to finish my book. I guess that going to the store is the easiest thing." Aloud she said "I'll go to the store, mother."

Mrs. Haviland ran to her hand-bag, while Charlotte felt rather ashamed. "I chose the easiest task," she admitted to herself.

"Here is the money, dear," said her mother. "I wouldn't have asked you, but I am so busy. I want you to get me a dozen of eggs and two pounds of butter, and—two of sugar. Please don't forget them."

"No mother," said Charlotte, as she ran off.

"And Charlotte," called mother, "go to Chase's for the things."

Charlotte stopped, dismayed.

"Be continued tomorrow."

**EXTRACTS FROM THE MAIL BAG.**

Likes the News Stories.

Cody's, N. B.

Dear Uncle Dick—

I am going to write you another letter. I have not wrote you a letter in a long time. I am going to try the Word Making Contest. I like a Word Making Contest, or Jumbled Words. School is going to close a week early this term, and I will have more time to write to you. I have a dialogue and a recitation. You told us to tell you how we liked this week's story. I liked it very much. I guess I will have to stop as my letter is getting long. I will close. Good-bye.

From your loving niece,  
Glady Patterson.
