

CANADIAN INDUSTRIES EXHIBITION

Reveals This Country as a Worthy Bidder for World Trade—London Surprised and Pleased.

KEYNOTE OF GOODS SHOWN IS QUALITY

Especial Praise Given to Her Maple Products and Chocolates.

By LYDIA KINGSMILL COMMANDER
London, July 6.—To England Canada has meant many things—snow and winter sports, forest and maple leaves, farm produce and paper pulp. In the bitter days of the War she meant much more. Then it was men, and money, and munitions, loyalty and service and sacrifice.

Today she comes forward in a new role. For the first time in her history she boldly claims a place, a big place, as a manufacturing country and seeks her full share of the trade of the world.

Announcement of her new position is made by the holding of the Canadian Industries Exhibition, now open at Agricultural Hall. This is a sort of commercial coming-out party for a most attractive and promising debutante.

The Exhibition is comparatively small and many lines are quite unrepresented, but the goods shown all respond to the key note—quality. Every exhibitor, without exception, has shown not on cheapness but on quality. The fact alone promises much for the stability of Canada's hold on the British market. England is sick of cheapness—it suggests Germany. Today she wants quality goods and is willing to pay the price.

In some lines Canada is capturing markets formerly supplied almost exclusively by Germany. She has developed a big new chemical industry which is represented at the Exhibition by several firms. Acetic acid necessary in extracting rubber from the sap of the tree, medicinal drugs such as aspirin and phenacetin, formaldehyde, and in fact the whole synthetic family, are on view. Fur machinery, tractors—said to be the mothers of tanks—steel castings and screws and nuts and all sorts of things interesting to men—not forgetting safety razors—are there in abundance.

But the exhibits that charm the women are of a different type. To begin with there are models of the most fascinating little bungalow with their roofs suspended above them on one peep inside and see all the rooms and the closets and all the handy hooks and shelves. Then there is furniture—sleek, big, cozy armchairs, wide, sleepable beds, and dining tables and desks. Also there is wall-paper in artistic designs with lovely names. "The Garden of Allah" is all ferns and palms, with little peeps of minarets and towers here and there. "Tokyo" has bridges and pagodas and cherry blossoms, and "The Summer Idyl" looks as nice as it sounds.

There are pianos and gramophones for the drawing room; but more important for convenience, there are all sorts of domestic labor-savers—washing machines, vacuum cleaners, dustless mops, brushes, brooms and electric servants galore.

In the quality of her chocolates, Canada can fearlessly challenge comparison with the world. Her maple products are, of course, beyond compare, as they should be in the land of the maple leaf. But, in addition her chocolates are unsurpassable. Nothing more perfect could be made than some of the chocolates now being shown at the Exhibition. If Canadian manufacturers will maintain the purity of their maple products and the quality of their chocolates, they may go triumphantly forward, until, like Alexander, they are compelled to weep that there are no more worlds to conquer.

The Exhibition, like the young country it represents, holds great promise for the future. Canadians know how to exhibit—the Toronto Fair is world-famous; therefore one feels that this Exhibition in London is only a good beginning. Preparations for the next one should be begun now. With a long pull and a strong pull and a pull all together Canadian manufacturers can put the maple leaf large on the map of the world's trade.

GENERAL LUCAS TO BE PAROLED BY SINN FEINERS

London, July 5.—Sinn Fein has decided to parole General Lucas, kidnapped recently, in order that he might visit his wife and new born son, according to a Dublin despatch to the Manchester Guardian today. Lucas' parole will be on condition that he returns within a specified time and does not participate in politics.

DOMINION FRANCHISE ACT NOW IN FORCE

Will Be the One Governing Bye-Election to Be Held in East Elgin—Repeals Act of 1919.

Ottawa, July 5.—(By Canadian Press)—That the Dominion Franchise Act was given every attention by members of the Commons and Senate when it was being put through the various stages during the session just prorogued, is evident from the fact that an inspection of the act which became law, together with the same act as it was introduced, shows more than four hundred and fifty changes and amendments made by the members of either house in considering the measure. These are in addition to scores of other typographical and clerical errors which have been corrected at various times by the officials who will administer the new law.

The Dominion Franchise Act 1920 is now in effect, and whenever the bye-election is held in East Elgin, for which writs are expected to be issued shortly, this act will be the one governing that election. It repeals the bye-elections act 1919 as well as the War-Time Election Act and other measures.

CANADA TO HAVE LATEST TYPE CRUISER

Much Satisfaction in Gov't Circles Over Announcement That Imperial Gov't Is to Present Modern Ships.

(Canada to Have) (pppphwc)
Ottawa, Ont., July 5.—(By Canadian Press)—Much satisfaction is felt in government circles over a cablegram received by Hon. C. C. Balfour, minister of naval service, to the effect that the cruiser to be presented by the Imperial Government to Canada, will be an oil-burner of the latest type.

THE USUAL WAY IN SOUTH STATES

Negro Easily Taken From Officers and Lynched to a Tree Yesterday.

Enterprise, Miss., July 5.—James Spencer, a negro postal clerk, who seriously stabbed Otto Parker, a white postal clerk on the New Orleans and North Eastern mail car Friday, was taken from the officers who were taking him to Quantan for trial today and lynched.

COMMERCE BOARD COMES TO LIFE

Ottawa, July 5.—The Board of Commerce will continue to function as formerly and investigations into any alleged profiteering will be continued, said Captain William White, K. C., newly appointed Chief Commissioner, this morning.

DEMOCRATS HOPELESSLY DEADLOCKED

Thirty-Six Ballots Taken and No Choice for a Presidential Nominee Made

McADOO AND COX TWO LEADERS

Seesawing Back and Forth With Neither One Securing Any Appreciable Gain.

San Francisco, Cal., July 5.—The Democratic national convention took fourteen ballots on its first session today, and, failing to find a nominee, took a recess at 4.58 o'clock until 8.30 o'clock this evening.

When the afternoon balloting was in the closing stage, the Palmer boom was taking an upward excursion—in fact the first it has enjoyed since it took the slip in the 12th ballot last week.

The McAdoo votes had taken the leading place from the Cox votes, and the Cox column had finally regained some of its strength. When the session ended the three principal contenders were probably closer together than they had been for a long time and, if it meant anything, it meant that the deadlock was a little tighter.

Many Joy Rides.

The McAdoo people tried to explain the Palmer rise by saying it was really an excursion to carry the Attorney General as far as he could go. They declared the Cox people had done the same thing and failed to put their man over. When the Palmer and Cox boom had both been given a "joy ride," to use the language of the McAdoo managers, it was the plan of the McAdoo people to begin a new drive for the president's son-in-law.

Hogg and prospects that the convention might nominate today went aglimmering soon after it got down to business. It was apparent that the lines were going to hold.

Palmer Stronger.

Palmer, starting out at 256, fell as low as 144 in the second, and by the 36th had gotten back to 238. Cox was at his lowest with 134 in the first ballot. His high-water mark was 468 in the 19th. By the 36th he had sagged down to 371.

McAdoo, starting out with a lead, was 266 in the first ballot; Cox soon took the first place, however, but by the 32nd ballot McAdoo was not only back in first place, but had struck a high-water mark for him of 421-1-2. In the 36th he was at 399.

REFUSE DEMANDS OF PLUMBERS

Masters Will Not Accede to Requests of Plumbers Affiliated With International.

Montreal, July 5.—An unanimous decision not to accede to the demands of the plumbers affiliated with the International Organization was reached today at a meeting of the Master Plumbers' Association of Montreal.

BRITISH GOVT KEEPS SILENCE

Has Nothing to Say Regarding Canada's Ambassador to States.

London, July 5.—(By Canadian Associated Press.)—In the House of Commons, today, Colonel Amery, Under-Secretary for the Colonies, gave Mr. Percy Hurd no further information when questioned as to a Canadian Minister at Washington and the West Indian Conference at Ottawa. Colonel Amery said he understood that the Canadian Government had voted the salary of a Minister at Washington, but he was unaware that any further steps had been taken. In regard to the West Indian Conference, he said it had been decided to postpone any public announcement until August 4, in order to give the West Indian Governments time to consider the report of their delegates to Ottawa, although he believed the agreement arrived at would prove completely satisfactory.

EIGHT PERSONS KILLED, TWELVE SERIOUSLY INJURED

MILITARY PATROL FIRE UPON ARMED CYCLISTS

Dublin, July 5.—A military patrol fired upon a party of armed cyclists between Thurles and Sherrill today, killing one cyclist and wounding another. When the patrol saw the party the cyclists fled to the woods.

NOW PICKING SIR THOS. WHITE AS NEW LEADER

Yesterday Brought But Little Change in Maze of Prophecy and Speculation Surrounding New Premier

MEIGHEN FAVORED BY COMMONERS

Believed That Interests Outside of Parliament Are Using Their Influence Against Meighen.

Ottawa, July 5.—"Watchful waiting" sums up the situation in regard to Sir Robert Borden's successor. Today brought little change in the maze of prophecy and speculation with which the capital is being bewildered, except that many are now claiming that the Premier's mantle is to fall upon Sir Thomas White. Sir Thomas has all along insisted that he would not accept the leadership under any circumstances, and that he would not permit his friends to put his name forward. As a result a number of Commons and Senators, who were formerly strong White supporters, united to Mr. Meighen. It is now stated, however, the ex-Finance Minister was merely awaiting a stronger summons than had yet been given him, and that if Sir Robert Borden issues an invitation Sir Thomas will answer the call.

Commoners Back Meighen.

All this, of course, is the purest surmise. Mr. Meighen, if one is to judge from the way Senators and Commons talk—and for the moment it is the only way by which one can judge—received the great preponderance of parliamentary support, and, therefore, it is but reasonable to assume that, unless Sir Robert Borden bases his decision upon advice considered more potent than the opinion of the parliamentary party, the Minister of the interior will be the new leader.

As to what extent advice of powers outside of Parliament has been given, there is no means of knowing. But it is a practical certainty that if it came from certain quarters in Toronto and Montreal, it was hostile to Mr. Meighen. The Minister of Interior has never been popular with what is known as the "big interests." One well-known captain of finance recently described him as a "dangerous socialist," and it is believed that certain railway interests have never forgiven him for his prominent connection with the Government's policy of railway nationalization.

As to whether a decision will be reached and an announcement made on Wednesday.

SIR ROBERT THE MAN OF THE HOUR

London Daily Telegraph Sees a Wider Sphere of Usefulness Opening Before Him.

London, July 5.—(By Canadian Associated Press.)—The Daily Telegraph, in an editorial, foresees important effects of Sir Robert Borden's retirement upon Canadian internal politics, including the dissolution of the Unionist combination and the creation of a new party, but it also suggests that now an even wider sphere of usefulness may lie open to him in bearing the leading part in framing up a new scheme of empire government, the temporary and elastic form of which owes so much to his inception and influence.

AVLONA CAPTURE STRONGLY DENIED

Italian Embassy Claims City is Held by Italian Troops.

Washington, July 5.—Reports from Usak via Belgrade that Albanian insurgents had captured Avlona were denied in an official despatch received by the Italian Embassy today from Rome. The message said the city was strongly held by Italian troops.

NOVEL EXPERIENCE FOR 17 YEAR OLD

Had His Life Saved Twice from Drowning in One Week.

Montreal, July 5.—Joseph Lavelle, 17 years of age, of Sunnyside Cottage, Ilerville, Que., had the novel experience of having his life saved twice in one week. While he was bathing in the river last Thursday afternoon, he got beyond his depth and had it not been for Henri D'Orsonnes, a neighbor, he would have been drowned. Later, while sitting in the stern of a canoe, he fell out and was rescued by members of the St. John's Yacht Club.

FORMER ST. JOHN BOY DROWNED

Halifax, N. S., July 5.—Harold, the 14 year old son of the late Lachlan Larsen, of St. John, for many years first officer of the steamer Prince Rupert, was drowned at Annapolis this afternoon. In company with several other boys, he was swimming in the dike near the electric light plant when he was seized with cramps and sank. When the body was recovered life was extinct.

CHANGE TREATY OR TAKE COUNTRY IS GERMAN STAND

Fiats Will Try Old Bluff at the Coming Spa Conference With Hope of Disrupting Allies.

PLAN STIFF FIGHT FOR UPPER SILESIA

Will Ask for Army of 200,000 and Big Reduction in Amount of Indemnity Payable.

Copyright, 1920, by Public Ledger Co. Geneva, July 5.—The German delegates to the Spa conference will be instructed to insist on important territorial, financial and military modifications of the Peace Treaty and, in case of refusal to invite the Allies to occupy and administer Germany themselves—such is the plan adopted at a meeting of the new cabinet in Berlin, according to information received here in diplomatic quarters to be credited. It is the old German bluff over again that was tried after the armistice and again last year before the ratification of the Versailles treaty. If the Allies remain firm and united, there need be no fear that Germany will carry out her threats.

The principal modifications the German statesmen decided to demand are:

- 1st. Upper Silesia to remain German as its loss would involve a catastrophic coal shortage definitely frustrating Germany's economic reconstruction on which her ability to fulfill her financial obligations to the Allies depends.
- 2nd. The strength of the Reichswehr to be left at 200,000 as a further reduction would infallibly precipitate a Spartan outbreak and the triumph of belatedism.
- 3rd. Assessment of Germany's total war indemnities at an amount not exceeding sixty billion marks gold (\$12,000,000,000).

As regards the strength of the army and the payment of indemnities, the Germans know that the first can always be camouflaged and the second eluded and they themselves are prepared to satisfy the demands of the Allies on these points after some show of resistance. But loss of Upper Silesia the new Berlin government is determined to prevent at all costs and it has authorized its representatives at Spa to declare that if this rich coal country be awarded to Poland by prebelle or otherwise, it must decline all further responsibility for the fulfillment of Germany's economic obligations and that it is up to the Allies to come and govern Germany and get what they can out of the country.

The German hope is that, of course, this invitation to the Allies to extend their military occupation in Germany will sow further seeds of discord between England and France.

All reports received here from Berlin demonstrate that this recrudescence of German resistance has been stimulated by the Republican platform adopted at Chicago which the Germans construe as absolute repudiation of the treaty and league by the party whose nominee they expect to be next President of the United States.

COLLEAGUES HAVE BEEN FAITHFUL

Sir Robert Borden Gives the Lie to Statements Challenging Loyalty of Cabinet.

Ottawa, Ont., July 5.—(Canadian Press)—The attention of Sir Robert Borden has been directed to certain statements in the press which allege, or imply, that certain of his colleagues have not been loyal to him during the past few years. The Prime Minister desires to assure, most emphatically, that all such reflections upon any of his colleagues are absolutely without foundation. From first to last every one of his colleagues have been thoroughly loyal to the Prime Minister on every occasion in every way. He feels himself under a deep debt of gratitude to each of them.

DEMOCRATS DENOUNCED ON IRISH QUESTION

The Irish Cause in States Injured By the Acts of De Valera and Walsh—No Issue in Election.

New York, July 5.—(By Canadian Press.)—Eamonn De Valera, "President of the Irish Republic," plans to spend a large part of the money secured by the sale of "Irish Republic" bonds in the United States in conducting propaganda, according to a special despatch from San Francisco printed this morning by the World. The despatch says:

"Eamonn de Valera, 'President of the Irish Republic,' in a formal statement, announces his purpose of conducting a campaign of education with the end of forcing recognition of the Irish Republic. With the statement was issued another by Frank P. Walsh, chief of De Valera's American staff, denouncing the Democratic Convention for its refusal to adopt the De Valera plank. The conservative wing, representing the National officers of the friends of Irish Freedom, are keeping their hands off the fight and allowing 'De Valera all the rope he may require to hang himself.' The chief concern is the damage, they declare, the De Valera-Walsh programme will work to the same cause and to trample in this country."

According to the World, the Irish question will not be a factor in the United States election campaign. It is frankly admitted, the paper says, that it will be a difficult job to split the Irish together, because of the split in the ranks of the leaders and the readiness which has been expressed regarding the expenditure of the Irish money. It has been claimed that the Irish voters will back a third party, and the general view is that William Randolph Hearst is banking on this supposition in his efforts to put himself forward as a candidate. Interviews with prominent Irishmen, published by the World, indicate, however, that this is very unlikely. The views expressed by Francis X. Melloy, a local Irish leader, who is quoted as saying: "The third party stuff is a lot of noise. The question is a dead one in this election, and that's the honest way to put it."

SIR ROBERT'S PLACE IS AT WASHINGTON

So Thinks the New York Sunday Evening Telegram Who Admires the Canadian Statesman.

New York, July 5.—(By Canadian Press)—Commenting on the retirement of Sir Robert Borden, the Sunday Evening Telegram, in an editorial, says:

"The Borden administration will probably be best remembered because of the greatest innovation of all, through which Canada will be represented directly at Washington and matters concerning the two friendly neighbors will be settled without the intervention of the British ambassador.

"If Sir Robert Borden were to become the first minister to Washington it would give the office distinction from the beginning. He has every requirement for the place, including the essential one of sympathy with Americans and American institutions."

BRITAIN DOESN'T FORGET FRIENDS

Washington, July 5.—Great Britain does not forget those who prove themselves its friends in the hour of need, Sir Auckland Geddes, British Ambassador to the United States, told General Pershing today, in presenting him a jewelled sword as a gift of the City of London. The presentation was made at the British Embassy.

General Pershing accepted the sword "in the name of the United States, who, with the men of Great Britain and the other Allies, combined the courage and skill they brought new victory to our race, and to all those who seek justice and liberty for mankind."

PHILA. LONGSHOREMEN'S STRIKE SETTLED MONDAY

Philadelphia, Pa., July 5.—The longshoremen's strike was settled today by a decisive vote of the men, who have been out more than a month. Nearly 4,000 men voted on the question. They agreed to return to work at the old scale of eighty cents an hour, \$1.20 for overtime, and \$1.60 for Sundays and holidays.

GERMANS SIT IN CONFERENCE WITH PREMIERS

What is Expected to be Greatest of International Events Formally Opened at Spa.

DISCUSSIONS TO BEGIN TODAY

Disarmament, Reparation, Coal Supply, Trial of Germans Accused of Atrocities Topics.

Spa, July 5.—(By The Associated Press)—There was a brief meeting today of the Allied and German delegates who, during the next few days, will discuss matters relating to the peace treaty.

The session was held in the drawing room of the Villa Frainse, and the German delegates, Chancellor Fechenbach, Dr. Walter Simons, the foreign minister, and Herr Wirth, minister of finance, were seated at the left end of the long horseshoe table, next to the Japanese.

There was no introduction or shaking of hands.

Formally Opened.

The president of the conference, M. De La Croix, the Belgian premier, arose and immediately opened what is considered to be the greatest international event since the armistice by announcing the order of business, which included disarmament, reparations, coal supply, the trial of Germans accused of atrocities, and the situation at Danzig.

M. De La Croix inquired of Herr Fechenbach if he desired to make any observations. The chancellor speaking in German, which was translated by an official interpreter, said:

"I desire to say in behalf of the German government and of the German people that we have come here to take part loyally in the discussion of how the treaty of peace can be executed."

Mr. Lloyd George, as senior premier, thereupon expressed the gratification of the Allied delegates, and Herr Fechenbach continued:

"I note that the military questions are to be first discussed. We were informed of this last evening when I tried to telephone the German Minister of War, but reached him too late for him to leave until today. He will arrive, I think, by tomorrow afternoon."

Premiers De La Croix, Lloyd George and Millerand then conferred and agreed to postpone the discussions until tomorrow, at an hour to be fixed later.

"I should like to have Dr. Heinz, minister of justice, here when we take up the question of trials," said Herr Fechenbach.

The three premiers again conferred privately. A few minutes later M. De La Croix announced that the Lord Chancellor of England and the French Minister of Justice would also attend on Thursday for participation in the discussions. The conference recessed until called together by M. De La Croix tomorrow. The proceedings today lasted just 45 minutes.

Dr. Simons remarked afterwards that the atmosphere of the conference was cool, but correct. He believed that a good deal could be accomplished. Premiers Lloyd George and Millerand expressed themselves as satisfied with the formal beginning.

Berlin, July 5.—The memorandum dealing with Germany's ability to pay the indemnities demanded by the Allies, which the government handed to the peace conference recently to be used as a basis for the discussion of the question at Spa, sets forth that Germany's national wealth before the war was 220,000,000,000 gold marks, whereas her wealth now is not more than 100,000,000,000 gold marks, from which foreign debts of from 8,000,000,000 to 10,000,000,000 marks must be deducted.

The memorandum declares that Germany's economic recovery cannot be brought about until she recovers financially, and it maintains that the present peace treaty jeopardizes her financial recovery.

ARRESTED FOR TELLING TRUTH TO BOLSHEVISTS

American Engineer Who Made Survey of Industrial Conditions in Russia Found Them Disorganized.

REPORTED FACTS TO SOVIET GOVERNMENT

Who Did Not Like the Report and Had Him Put in Jail—His Whereabouts a Mystery

London, July 5.—(A. P.)—Royal C. Keely, an American engineer, recently arrested by Bolshevik authorities as he was about to leave Russia, where he had executed an industrial commission for the Soviet government, incurred the displeasure of the Soviets because he "told the truth, plain and unvarnished," Nicolas Isnard, chairman of the all-Russian Central Council of Trade and Industry, said upon his arrival here. Isnard fled from Russia, where he declared, "the misery and dislocation of life is complete."

The fate of the American has not been learned. According to Isnard, Keely went to Russia in September, 1919, at the invitation of the Bolshevik government, and as an expert on technical and industrial organization was asked to make a complete report to the Soviet government "on ways and means to save the Russian industrial situation."

"On his arrival in Russia, Keely was received with great honors and exceptional facilities were afforded him to travel all over the country," Isnard said. "He visited the industrial concerns of Petrograd and Moscow, traveled to the great textile centre of Ivanovo-Vosnesensk, and to the coal mines of the Donetz, and completed his trip by a tour in the Urals."

"Upon his return to Moscow in January, 1920, Keely was lodged in the commissariat of foreign affairs, in the famous palace where other distinguished visitors later found a sumptuous welcome and the Kremlin intimated its desire for his report. Here the American committed his first and greatest mistake. In his report he told the Soviets the truth, plain and unvarnished. The plot of his report can be resumed as follows:

Shamrock IV Had Short Spins

Sandy Hook, N. J., July 5.—The Shamrock IV, challenger to the America's cup, had a short spin off Sandy Hook today in a brisk westerly breeze with Mrs. W. P. Burton, wife of the yacht's skipper, at the wheel for a time. The cup defender Resolute "holidays" at the City Island Yacht Basin, while workmen fitted a new suit of sails. The two racers will be viewed together for the time Thursday when they will be officially measured at Brooklyn.

A thirty mile triangular race between Shamrock IV, and the 23 meter Shamrock was called off at the last minute and the larger boat was taken out to give her picked crew more sail practice. The men went through their manoeuvres with much skill and precision. When Mrs. Horton took the wheel, she guided the cup challenger like a veteran skipper.

The Resolute probably will have a workout on Long Island Sound tomorrow before proceeding to her new headquarters at Sandy Hook, a short distance from her rival.

HEALTH BUREAU IN PALESTINE USEFUL

Has Done Wonders in Bettering Conditions Among Inhabitants of That Country.

(The Associated Press.) London, July 4.—Nathan Straus, of New York, told the International Zionist Conference here today that the Straus health bureau in Palestine had supplied a need that had been ignored for hundreds of years by a "criminally indifferent government," and that it had become a "stronghold in the life of the Holy Land." The bureau was established by Mr. Straus in 1912.

The only problem which took precedence over the health question was the feeding of the hungry, for which he said he established a free soup kitchen in Jerusalem which, up to now, has been feeding 700 to 1,000 persons daily. Members of committees returning from Palestine, he said, had told him that his soup kitchen was "the brightest spot in the Holy city."

The health bureau, Mr. Straus said, was established to improve health conditions generally, and particularly to eradicate malaria and trachoma, the two diseases which were endemic there. It was intended to serve all inhabitants of Palestine irrespective of race, color or creed, and since the Jews number less than one-sixth of the total population, its work had accrued largely to the benefit of non-Jews.

Mr. Straus reviewed the fight conducted against malaria by the Health Bureau in and around Jerusalem in 1916 and 1917, which he said "nipped the cholera epidemic in the bud." Clinics were opened in five districts and injections of anti-malaria lymph were given to all comers, while school children were inoculated by nurses sent by the Health Bureau into districts. In all 30,750 persons were given preventive injections against cholera. Typhus lymph also was prepared and administered.

More than 38,000 persons were examined to ascertain if they were affected with malaria and where the reaction was positive, quinine was given free of cost. The water in cisterns used for drinking purposes was examined and a museum of hygiene was established.

In combating trachoma, Mr. Straus said, the Health Bureau treated 44,874 cases, and an attempt was made to examine the eyes of all children who could be reached so as to identify that disease, which was prevalent in Palestine. A hospital for eye diseases was opened, and the campaign was extended into the towns and colonies outside of Jerusalem, nurses being sent to various places. Aid was also given to refugees when the Jewish population was expelled from Jaffa. Mr. Straus said that the Health

HAVING FINE TIME ON AIRPLANE TRIP

New York to Omaha in Electrically Heated Aeroplane—Some Extracts from the Log.

Chicago, July 5.—(A. P.)—Taking a nap above the clouds in an electrically heated airplane at an altitude of 6,800 feet while travelling between Albany and Buffalo was one of the incidents recorded in the log of a party which recently arrived here from New York on their way to Omaha to attend a wedding. They made a journey in an all-steel monoplane.

Luncheon, with a full complement of silver and tableware, after dinner cigars for the male passengers and special music for the ladies, were some of the features of the new plane.

The machine covered more than 600 miles on the trip from New York to Chicago, going up into Canada to avoid a storm over southern Lake Erie. The actual running time for the trip was 8 hours and 54 minutes.

Some of the entries in the log are: 2:46 p. m.—Left ground at Long Island flying field. 2:54 p. m.—Crossing the Sound. 3:20 p. m.—Just passed over Peekskill.

4:23 p. m.—Landed at Albany, 178 miles by road from starting point. Time, 1 hour and 8 minutes. After an overnight stop the journey was resumed.

10:15 a. m.—Left Albany. 10:38 p. m.—Have reached 6,800 feet, above the clouds. Weather cool outside, but electrically heated cabin is warm. Passengers wear straw hats and summer clothes.

11:15 a. m.—Mr. — (the owner) has retired for a nap. 12 noon—Mr. — called for lunch. Says he enjoyed sleep.

12:15 p. m.—Two hours out from Albany. We have passed Geneva at a height of 5,000 feet. 1:30 p. m.—Circling over Buffalo at 3,500 feet. Very smoky below. 1:50 p. m.—Found the field and landed.

5 p. m.—Left Buffalo for Chicago. 6:00 p. m.—Crossed into Canada to avoid storm. In the States everything appears to be laid out in squares. The fields are square and the woods are square. On this side of the line the woods wander all over the landscape like the vein in a loaf.

8:54 p. m.—City below, with a river circling through it. Must be Battle Creek. 9:56 p. m.—No, it is South Bend, Ind. The sun just fell across the gilded spire of Notre Dame. The river is the St. Joe.

9:10 p. m.—Out over the southern end of Lake Michigan. 9:12 p. m.—Passed Michigan City. 9:25 p. m.—Ten miles out in lake, opposite Gary. Altitude 6,500 feet. Can see the town plainly. 9:30 p. m.—Circling over Chicago business district. Speed 130 miles per hour.

10:25 p. m.—Have located field. Two fares set off below. Height 6,500 feet. 9:38 p. m.—Landed.

CORCORAN DEFEATED FLYNN

Lawrence, Mass., July 5.—Tommy (Kibby) Corcoran, this city, successfully defended his title to the New England welterweight championship tonight when he won the decision over "Paddy" Flynn, Everett, in a 12 round bout. Flynn was badly beaten but stayed the full time.

Bureau had proved its efficacy and that he hoped its services would increase and become greater in the rehabilitation of the Holy Land, a blessing to the people irrespective of race, color or religion.

HAS COMMENCED TRAINING AGAIN
Reports that Eugene Brossseau had decided to abandon boxing as a result of the sprain of paralytic which recently afflicted his left arm, have been set at rest, for Brossseau, it is learned, has very quietly resumed light training with a view to appearing in the ring again in about a month's time.
While training early in the spring for a meeting with Battling Levinsky, Brossseau's arm went wrong, in addition to which he contracted a severe case of grippe. He discontinued work for a time, but after a long restup feels that he is right again, and believes that he will be ready to box in a month's time.

All-Weather Tires are All-Wheel Tires

Goodyear Service Plan Provides a Bonus of Mileage Greater than any Discount in Price You could Hope to Secure

The development of the All-Weather Tread is in keeping with Goodyear policy — to conserve tires; to get for motorists greater mileage and so lower cost-per-mile; to disregard price, if the cost-per-mile is lowered.

The All-Weather Tread is tough and long-wearing, adding extra miles. It resists punctures and cuts which so frequently neglected, let in water and sand to rot the fabric. This tread combats skidding which wears down the tread and weakens the tire carcass.

Its adaptability for all-wheel use aids further in tire saving. No tire change you may make spoils the balanced appearance of your car. This permits balanced wear on all tires.

This tread is one factor in the Goodyear Conservation Plan. This plan embraces many other Goodyear Tire Savers which prevent or cure tire injuries, and definite, personal help from Goodyear Service Station Dealers in securing a lower tire cost-per-mile.

Because of steadily increased quality with the mileage making service of Goodyear Service Station Dealers (which means lower cost-per-mile) Goodyear Tires have become the largest selling brand in the world. This gives a final tire-cost below that of any tire which sacrifices quality or service to achieve a lower price or "special discount."

Grand Circuit Season Opens

Opened at North Randall Yesterday — Programme of Seven Events Took Seven Hours to Finish.

Cleveland, July 6.—The 1920 grand circuit harness horse racing season was opened at North Randall track today before the largest crowd that ever attended a meeting here with a programme of seven events that took seven hours to finish.

The feature event on the card was the Edwards stake, 2:08 class pacing, divided into two divisions, each worth \$3,000. Red Lancelot, driven by Charles Valentia, Columbus, Ohio, won the first division, and John Henry driven by Tommy Murphy, Poughkeepsie, N. Y., won the 2nd division. The best time in each division was 2:03 1/4, which equaled the track record for the stake.

Valentia was awarded the Edwards Cup because Red Lancelot won in straight heats and in the fastest average time.

Symbol S. Forest, driven by Murphy in the first division, finished second to Red Lancelot and Edna Early.

The judges fined Murphy \$300 for haying back with the gelding in the third heat.

Roy Gratias, winner of the 2:04 pace, and Red Lancelot were the only winning favorites.

Benny Leonard Retains Title

Benton Harbor, Mich., July 5.—Benny Leonard, lightweight champion of the world, knocked out Charlie White, Chicago, in the ninth round of their scheduled ten round championship fight before a capacity crowd this afternoon. White carried the fighting to the champion for seven rounds and half knocking and pushing the New Yorker through the ropes in the fifth round.

The Chicagoan who had never been knocked out before, was floored five times in the ninth round and was counted out while lying on his face. A series of right and left hooks to the chin finished the challenger.

The men met at catch weights. Leonard scaled 137 1/2 and White 134 at 11 o'clock this morning. Several thousand women were in the crowd.

There was a riot when the fight ended and the spectators scrambled over the seats and into the ring, breaking down the press section and injuring several ringleaders. None of them, however, were seriously hurt.

Round One—Both danced around the ring a minute before Leonard hooked two light lefts to White's head. White kept backing away while Leonard tried to feint him out for an opening.

White landed the first solid blow in the second round, but Leonard put a light left to White's mouth and the Chicagoan clinched. The round was exceedingly tame, neither boxer landing a half dozen punches each.

Round Two—Leonard danced around the slow moving Chicagoan and landed two lefts to the stomach. White missed a left hook and fell into a clinch. White cracked the champion's ribs with a left hook. Leonard shot two lefts to White's face. Leonard edged with a left and White missed a left hook to the chin. White put a left hook to the champion's stomach as the round ended. There were hisses from the crowd as the fighters went to their corners.

Round Three—Leonard met White in the center of the ring and shot a left to the body. White fought back driving Leonard into a neutral corner. Leonard was not damaged in the exchange and put three lefts to the Chicagoan's head without a return. Leonard swung a solid right to White's jaw.

Round Four—Leonard landed on White's neck with a right hook and White missed a right swing. The Chicagoan rushed Leonard to the ropes but was unable to land. White led with his left and Leonard shook him with a right hand smash on the chin.

Round Five—Leonard shot a left jab to White's nose and the Chicagoan hooked him with a right hander to the chin. White drove Leonard to the ropes landing four right jolts to the champion's chin. Leonard protested to the referee that White was holding.

White half pushed and half knocked Leonard through the ropes for a count of four. When Leonard got back into the ring the Chicagoan fought furiously and had the better of the exchange.

Round Six—They swung and fell into a clinch. Leonard jabbed with his left and danced away from White's right. Leonard swung right and left to the Chicagoan's chin. Leonard missed a right hander and White cracked the champion on the jaw with a right and left.

Round Seven—White made Leonard's head snap with a left to the nose and the champion retaliated with a solid left to the body. White knocked Leonard into the ropes and Leonard returned with a hard blow to the body. The champion missed a right upper cut on the breakaway. Leonard put a left hook to White's body.

Round Eight—White hooked a left to the stomach and had Leonard backing away. Leonard crashed over a right to White's head and cracked him on the ribs with a right. White slammed Leonard on the ribs with a right and drew blood from the nose with a right hook.

Round Nine—After a little exchange Leonard landed a right hander on the chin and White dropped to his hands and knees. White did not wait for the full count and as he struggled to his feet, Leonard flew at him dropping him again. White rose slowly at eight and Leonard drove him through the ropes for the third knockdown. As White climbed back into the ring Leonard crashed over a right for the fourth fall. He was counted out after he went down for the fifth time.

Ten Thousand At Houlton Races

Houlton, Me., July 5.—Ten thousand assembled at the Houlton Fair grounds today to witness the opening of the Maine and New Brunswick stock ship circuit. The day was not ideal for good racing, but the three events on the race programme proved most interesting. Houlton and Wood stock horses showed class and forced the Massachusetts bunch to take second honors. Frank Power, of Halifax, was the starter and won many friends by his work.

ST. JOHN, N. B., TUESDAY, JULY 6, 1920

THE TORONTO GLOBE AND THE GOVERNMENT.

It would be too much to expect that the Toronto Globe would sound any other than a saring note in connection with the retirement of Sir Robert Borden. At a time when most other Canadian newspapers have been expressing regret that such an event should be necessary, the Globebrates him for not going before. In the course of its diatribe it says: "The spectacle at Ottawa is viewed with 'chagrin by thousands of honorable and self-respecting citizens who 'hitherto have given the administration support. They recognize with 'profound disappointment and disgust that the government of Canada, at a 'time when great problems of national reconstruction and national development await solution, has forfeited the 'confidence of the people and is endeavoring to maintain itself in power 'in defiance of the public will."

The attitude of the Globe for the past year towards the Union Government has been one of the "willing to wound and yet afraid to strike" order. It came out some months ago with a scem denunciation of the Hon. Mackenzie King after his handling New market speech. The time was not ripe for perfidy. The surge of patriotism had not subsided then. Decency demanded delay. It was waiting its chance. Unable to find anything wrong with the main policies of reconstruction, it "damned with faint praise"—commending it editorially, sneering in paragraph.

During the campaign in favor of conscription it pursued a cautious policy. After the full effect of the tornado was seen it showed with the loudest. But there were hours of doubt and gloom in the interval, not lightened by the steady stream of withdrawn subscriptions.

Now it sees, or thinks it sees, a chance to wholly consign the loyal men of both parties, who put their country first and their party last, to perdition, and, true to its mean heredity, it comes out in its natural colors. It demands the immediate resignation of the Union Government, and accompanies its ultimatum with a series of low, designed insults. It presumes to speak for the whole Dominion, and in a series of shrieking paragraphs calls upon the people to immediately assemble in mass-meetings and demand that the Government confess its impotency and at once efface itself. It, in effect, would inaugurate government by mob for the steady and efficient (highly efficient) administration which, thanks to the strong, imperturbable men at the helm, we are now enjoying.

We are very much mistaken if the people of Canada will do anything of the sort. The people of Canada are not to be stampeded at the bidding of an organ which, in its desperate desire to recover ground deservedly lost, will stop at no device, however unscrupulous or unfair. Because the Globe likes to think that the people of Canada are prepared to accept Hon. Mackenzie King, it fatuously assumes that we have forgotten all about the war—its splendor and its sacrifices. It thinks the time is opportune to round up the Nationalists, the U. F. O., the Grain Growers, the labor unions, the Laurier Liberals, the loyal Liberals, and entry into Ottawa. It is mistaken. The people of Canada have their eyes on all these groups, and have no intention of exchanging settled order and wise administration for a rabble of wild theories. They know that Free-trade, or an approach to Free-trade, would bring utter ruin; and here Mr. Fielding backs them up. They know that their very life is bound up in a maintenance of the tariff. It is they who are keeping the Union Government in power; and it is they who intend to keep it at Ottawa till the work is done, despite all the wild utterances of the Globe.

JUSTICE FOR THE MARITIME PROVINCES.

We note that one of the planks in the platform of the new National Liberal-Conservative party provides for the transfer under fair terms and conditions of the remainder of the public domain held by the Dominion to any Province of Canada in which such domain is situated, subject to such reserves as may be deemed advisable in the public interests; and as regards the public domain and all other natural resources outside the Provinces and owned by the Dominion, the adoption of such policies as will result in their use and development to the advantage of Canada as a whole.

The transfer of this public domain and other natural resources is said to be on such terms as may be advisable "in the public interests" and "to the advantage of Canada as a whole." These are not all the considerations that must be taken into account by any means. When any such transfers take place, the rights of the Maritime Provinces in the public domain of Canada, locally situated within the boundaries of some of the western provinces have got to be reckoned

with. When Confederation was brought about, and the Maritime Provinces became part of Canada, they acquired a share of the great north-west territory that was included in the new Dominion as part of the joint assets of the Confederation. When these assets came to be given away, the Maritime Provinces mutually expected to get some compensation for their share in them. All the assets that these provinces possessed at the time of Confederation, they turned over to the new Dominion, and they further helped in other ways to establish Canada on the footing that she stands on today. When the community assets came to be dealt with, they must get their share.

But they will not get very far along the road to getting their demands satisfied unless some vigorous and concerted action is set on foot, and prosecuted with determination. Successful governments at Ottawa have dallied with the question whenever it has been raised, and the western provinces, which will benefit by the distribution of the Dominion public domain, are each of them more or less opposed to the recognition of any claims on the part of the Maritime Provinces for compensation in respect to them. It is necessary, therefore, for these provinces to be ever on the alert, and to continue to agitate until their just and reasonable demands are satisfied.

PROPORTIONAL REPRESENTATION.

The modus operandi of proportional representation and the single transferable vote, the method by which the recent election for the Provincial Legislature was run in the City of Winnipeg, is outlined in a volume called "The Dawn of a New Patriotism," by John D. Hunt, Clerk of the Executive Council of Alberta.

Says Mr. Hunt: "The ideas which have led up to the single transferable vote are of a simple character. Constituencies returning several members are formed. A representative is given to every group of electors which attains a definite proportion of the whole, the proportion depending upon the number of members to be returned. If a candidate receives more votes than are sufficient, that is, if too large a group is formed, the surplus votes are transferred by means of a ballot on which the voter has placed the figure '1' against the name of the candidate of his choice, with the figure '2,' '3,' etc., against the names of other candidates in order of his selection, which figures would instruct the returning officer in event of No. 1 obtaining more votes than were necessary to secure his selection, as to whom the vote was to be transferred.

If, after all surplus votes have been transferred, there still remain more candidates than there are vacancies, the lowest candidate on the poll is eliminated from the contest, or, in other words, the smallest group is disbanded. The transfer of surplus votes and of votes recorded for candidates lowest on the poll are all carried out in accordance with the wishes of the electors as indicated by them on the ballot paper at the time of the poll. The proportionate representation of all the electors is secured. Each party obtains the number of members to which it is entitled. . . . The number of votes necessary to secure the election of a candidate is called a 'quota.' In a single-member constituency it is evident that if a candidate polls more than one-half he must be elected. No other candidate can equal him. The 'quota' in this case, therefore, is one more than one-half. So in a two-member constituency, the 'quota' is one more than one-third, for no more than two candidates can poll so much; in a three-member constituency, one more than one-quarter, and so on. Thus, in general terms, the 'quota' is ascertained by dividing the votes polled by one more than the number of seats to be filled and by adding one to the result.

This method was proposed by Hare in 1857 and was supported by John Stuart Mill as a device for improving the structure and method of government and as likely to help the citizen discharge his duty and privilege of the vote more efficiently. Winnipeg, with its 41 candidates, out of which only 19 can win, according to the secretary of the Proportional Representation Society of Canada, at this moment puts up the severest test that the system has as yet faced. Great hopes, however, are expressed that it will not only survive the ordeal, but will fire to point the way to similar 'tests' throughout the Dominion.

Father of a new-born son wired his wealthy brother: "A handsome boy has come to my house and he claims to be your nephew. We are doing our best to give him a proper welcome." According to the Winnipeg Tribune the brother did not see the point, and wired back: "I have not got a nephew; the young man is an impostor."

Water is a poor drink, but making a wry face at it won't add any special well-known flavor.

IN THE EDITOR'S MAIL.

To the Editor of The Standard: Dear Sir,—I ask a little space to reply to the Rev. Mr. Hutchinson's denunciation of the now celebrated cut which appeared in the press last week as an advertisement of the extreme wing of the Prohibition party, depicting the four little children who, as the headlines told us, were the victims of drink, to which the Rev. Mr. Hutchinson, in a reply to my protest for such gross misrepresentation, was emboldened to add: "These children represent the cause of strong drink in depriving them of food, talent, education, parental love and care." If the Rev. Mr. Hutchinson did not know of the gross misrepresentation which was attempted in the publishing of this cut, he should have acquainted himself with the facts before rushing into print in its defense.

I had a call today from Mr. W. H. Knox, a returned soldier, and father of three of the children depicted in this cut. The fourth child is a stranger to both Mr. and Mrs. Knox. Mr. Knox returned home that he is not a drinking man. He has never been before a magistrate for such an offence nor in all his fighting course at the front, has he been before any superior officer for any misdemeanor. His wife, he informs us, is a temperance woman. Mr. Knox enlisted in 1915 in the 194th Battalion and afterwards joined the famous Princess Pats. Before leaving for France he assigned \$20.00 a month to his wife, the maximum amount allowed for such purpose by the Military, and this he felt, with the patriotic appointment, would help them along life's journey until his return. But he had not reckoned with the profiteer. In 1917 just before the above incident, he had a Paschendale fight a comrade showed him a newspaper clipping stating that his five children had been placed in the Children's Aid Society institution at home. Immediately after the \$20.00 payment to his wife and the Patriotic Allowance for the children ceased and \$22.00 of this monthly amount were turned in to the above institution for the support of the little orphans. These are the cold, blunt facts as un-derly in my mind by the man himself who passed through the carnages of Vimy, Ridge, Arras, Passchendaele, Amiens and Cambrai. Oh God have we lost our reason? Have we not forgotten the men who saved Canada, the Empire and the World from Hell and slavery.

To the instigators of this diabolical plot I cannot refrain from leaving with you the bitterest of curses. To Robert Burns: O, Pope, had I thy satire's darts, To pierce the rascal's hollow hearts, I'd rip their rotten, hollow hearts, And tell aloud Their jugug jugug jugug arts To cheat the crowd. Thanking you, Mr. Editor for the above space I am, Yours truly, A. PIERCE CROCKETT, July 5th, 1920.

What Can It Be! (Kingston Whig) Out of 101 teachers employed in Frontenac County only six are men. It is a mistake to suppose that the high salaries paid are keeping the young men out of the profession.

Blunt. (Toronto Globe) The Lord Mayor of Cork has ordered a tax levy to support the multi-line railwayman. The difference between this device and highway robbery is one of degree only.

Switzerland's Poker Chance. (Regina Post) King Charles, of Austria; King Constantine, of Greece, and King Leopold, of Bavaria, are living in Switzerland. Now, if Switzerland could draw the two Hohenzollerns, it would have three Kings and a couple of Jacks.

The "Loaded" Gun. (Montreal Gazette) To prove that his revolver wasn't loaded a Quebec trigger pointed it at a girl, pulled the trigger and shot her in the abdomen. The soldiers have it that the only safe gun is the loaded one, and certain it is that the criminal lunatics have sent innumerable innocent persons to violent death. The offenders are so many it seems time

to establish the retaliatory practice of striking down, with a club or chair or any other handy weapon, every man who points a firearm at anyone.

WHAT OTHERS SAY

Dear Sir,—I do not often trouble newspapers to publish anything from my pen, but I cannot refrain from commenting upon the criticisms of Rev. Mr. Hutchinson, who I must say, I thought possessed more sense than to write so silly—stupidly silly, in fact—nonsense as that which appears over his signature this morning. He says that a man who has an interest in alcohol as a beverage is not a fit man to judge regarding prohibition, because his liking for liquor would warp his judgment. But the man who does not like liquor is quite the proper person to say it should be available. Did any one ever hear such a thing? To most men it would seem that the man who does not like liquor would be just as much interested in prohibiting its use as the man who does like it would want it available. Thanking you for your space, I am, Yours truly, CONSISTENCY, St. John, July 5.

MR. HUTCHINSON'S CHALLENGE ACCEPTED. St. John, N. B., July 5, 1920. To the Editor of The Standard, St. John, N. B.: Dear Sir,—I have read the challenge of the Rev. Dr. Hutchinson in Monday's issue of The Standard, and note that he proposes to defend the Prohibition question on any public platform in the city. I wish to accept the challenge, prior to July 10th, and in doing so, may I be permitted to state that I am in no way affiliated either directly or indirectly with any person or concern that might influence me to take the stand that I have taken. I just simply wish to take this opportunity of pointing out to the prospective voters the inherent difference between Temperance and Prohibition, which is in the last analysis the crux of the question they are called upon to decide July 10.

Rev. Dr. Hutchinson may choose the time and place, provided the place is public, or at least approachable by the electorate one and all. Yours sincerely, JOHN J. McDONNELL, 84 Princess Street, City

CORINTHIAN LODGE AT DIVINE SERVICE

Over Fifty Masons Marched to Church at Hampton Sunday—Sermon Preached by Rev. C. Gordon Lawrence, Worshipful Grand Chaplain

"Study to show thyself approved unto God, a workman that needeth not to be ashamed," was the text of a sermon delivered by Rev. C. Gordon Lawrence, Very Worshipful Grand Chaplain, to the Corinthian Lodge, A. F. and A. M., Sunday at the Chapel of the Messiah, Hampton Station. Over fifty Masons marched in regalia and many others were present, including visiting brothers from St. John and Sussex.

Masons, said the preacher, in common with all men of good morals and sound judgment value the approval of their fellows and realize that it is only won by faithful service. But they prize most the approval of God and they study to win His approval by serving Him. The work in which they are most interested is entirely constructive. They have nothing to do with the pulling down of reputations, or governments, or religions. The lessons were read by Worshipful Master A. Brittain and Past Master S. H. Frawling, Chaplain of the Corinthian Lodge. A full choir rendered the special hymns in a fitting manner to the delight of a large congregation. The procession was in charge of W. S. Wilkinson, Director of Ceremonies.

Common Council Met In Committee

Decided Yesterday to Recommend the Extension of the West Side Water Service—Other Business Transacted at the Session.

The City Council in committee yesterday morning decided to recommend the extension of the West Side water service and plans and specifications for the work will be prepared at once. Several other matters were also discussed at the session. Commissioner Jones brought in a recommendation that a new 36-inch reinforced concrete main be laid from the end of the new 21-inch pipe, at Manchester's to Spruce Lake, at an estimated cost of \$57,000; that plans be prepared by the city engineer and tenders called for. The recommendation was carried. Commissioner Bullock asked for authority to purchase a section for the air pump on the Governor's lot. It was decided to call for tenders. The estimated cost is \$800 to \$900. Reporting on a claim made by J. B. Dever for \$250 for damage done to an auto belonging to the department, Commissioner Bullock read a letter from the city solicitor which said that after investigating the claim he was of the opinion that the department had no claim against the city. On motion a reply to this effect was ordered sent to Mr. Dever. Mr. Bullock read a letter from H. A. Porter offering \$100 for city lots now leased to T. McAvity and Sons, on which the Vulcan Foundry stands, and \$50 for a lot adjoining. This was recommended to council. Commissioner Frink submitted a report from the road engineer recommending the laying of a bituminous base for the Prince William street paving in place of concrete on account of the shortage of cement. This would reduce the requirements of cement from 1,200 to 580 barrels required for the truck sections. While the foundation would not be rigid it would be more easily repaired than concrete. He moved that the work be carried out. This was carried. Commissioner Frink moved for an order-in-council authorizing him to purchase cement at \$4.15 a barrel and asked for authority to purchase 500 barrels at a price not exceeding \$5 a barrel. This was passed. Commissioner Thornton was authorized to call for tenders for painting No. 4 fire station, City road. An application from the Atlantic Motor Sales Co. to install a gasoline tank on their premises, Portland St., was referred to Commissioner Thornton for report.

WEDDINGS.

Dolan-Hahey. In the Cathedral of the Immaculate Conception yesterday morning at 6.30, Mary Agnes Hahey became the bride of Dr. Raymond John Dolan. The ceremony was performed with nuptial mass by Rev. Raymond McCarthy. The bride and groom were supported by Mr. and Mrs. DeLoe of Moncton. After the ceremony a dainty wedding breakfast was served at the home of Mr. and Mrs. J. W. Boyd, 108 Millidge avenue. Doctor and Mrs. Dolan left on the Halifax train yesterday afternoon for a trip through the Maritime Provinces, followed by the best wishes of a large circle of friends.

Johnston-Cooper. The home of Mr. and Mrs. John Cooper, South Clones, N. B., was the scene of a quiet but pretty wedding, June 30th, when their youngest daughter, Gertrude Frances Elizabeth, became the bride of John Wesley Johnston of the same place. The bride was given away by her father and was gown in blue satin with georgette trimmings and carried a bouquet of white roses and maiden hair fern. The ceremony was performed by the Rev. A. Whiteside, in the presence of immediate relatives and friends. The house was prettily decorated for the occasion. After the ceremony a dainty luncheon was served. Numerous beautiful wedding presents of linen, cut-glass and silver testified to the esteem in which the young people are held.

The name "Bayer" is the trade mark (registered in Canada) of Bayer Manufacture of Mono-nitro-benzene, which is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

LONDON TO BOMBAY THROUGH THE AIR

English and French Companies Cooperating to Establish Such a Line—Open by 1922.

Copyright, 1920, by Cross-Atlantic News Service. by HENRY W. FRANCIS. Paris, July 5.—A regular airplane service from London to Bombay is probable by 1922 as a result of rush orders for planes and airplanes by an English-French company. France is excelling England in the development of civil air service and now air routes for passengers and goods have been opened throughout France. Two of them fly between Lyons and Paris and Nice. A project is being launched this week for a flyer service from Paris to Constantinople via Prague and Bucharest. Two former captains of the French air service are at the head of the first section from Paris to Prague. Already the operation of a line from London to Paris has been established for some time and a British company is developing a line to Constantinople and Bombay. The through trip from London will take 50 hours flying time and changes of machines will be made in Paris, Prague and Constantinople. Regular flights are now made between London and the Riviera.

OBITUARY.

Mrs. Elizabeth A. Barbour. Many today learned with regret of the death of Mrs. Elizabeth A. Barbour, widow of George L. Barbour, which occurred early yesterday morning at her home, 99 Hazen street. Mrs. Barbour had not been in good health for some time, yet was not thought of as being near the end of her life as close to hand. She was a daughter of the late Alexander Thompson of Nashua, N. H., and leaves one son, G. E. Barbour, president of G. E. Barbour Co., Ltd., wholesale grocer, St. John, and Fred T. Barbour, also of the city. Senator F. P. Thompson of Fredericton, is a brother, and Mrs. G. H. Davis, of Dever, Canada, a sister. Mrs. Barbour was a member of Centenary Methodist Church. A woman of marked strength of character, a devoted mother, she will be greatly missed and those bereaved will have the deep sympathy of many friends. The funeral will be on next Wednesday, 2.30 p. m. from her late home, No. 99 Hazen street. Special to The Standard Joseph B. Porter. Moncton, N. B., July 5.—The death of Joseph B. Porter took place at his home in the village on Sunday after a lingering illness, resulting from a stroke of paralysis six weeks ago. Mr. Porter, who was 78 years of age, was one of the oldest residents of Andover and was for a number of years the preventive officer for this section of the Canadian border. He is survived by his widow, one daughter, Miss Grace, at home, and one son, Howard D., of St. John, also one sister, Mrs. Weeks, of Boston, Mass., and two brothers, James E., of Andover, and Robert, of Boston, Mass. The funeral service will be held on Tuesday at his late home and interment will be made at the Bardsville cemetery. Mrs. Charles Hebert. Moncton, N. B., July 5.—Mrs. Alina, wife of Charles Hebert, Inspector of Schools, of Dupuis Corner, Westmorland County, died today after a brief illness. Before her marriage she was Mrs. Alina Legere, member of a family known as County family, and a teacher by profession. She leaves besides her husband, four children, her mother, Mrs. Louis Legere, of Coanage, one sister, Mrs. August Fred, of Ottawa, and two brothers, Fred, at home and Joseph of Moncton. Mabel Blanche Steeves. Moncton, July 5.—Mabel Blanche, daughter of Mr. and Mrs. F. N. Steeves, Church street, died this evening after an operation for appendicitis in the City Hospital. The deceased was a C. N. R. stenographer, and is survived by her parents, four sisters and one brother.

KERCHIEF ADDS TO COSTUME. Once a pocket handkerchief was supposed to be an inconspicuous article. Its very name implied that. When pockets disappeared it was hidden under the edge of the basque—that was in the eighties. When basques went out, handkerchiefs were tucked into sleeves. Later they hid themselves in handbags. Now, however, they are supposed to show and indeed one can miss them, for their lively color makes a spot of brightness in the costume. Four gay, modest, small kerchiefs were noted recently. One has a Jacquard pattern in blue and black on a gray-blue ground. One has a Persian design printed on a reddish tan background. And two have conventional flower printings on a ground of pastel color. These lively handkerchiefs are to be used with the tailored utility suit or the sport suit. When one is formally dressed for afternoon or evening, the correct monochromic chair is precisely white, or exquisitely fine linen and may be embroidered delicately in one corner with very small floral.

Shediac

Shediac, July 1.—The month of June was exceptionally fine and warm and numerous auto parties visited the town and spent the week-end at the seaside, Shediac, Cape, Point du Chevre and Cape Breton. All the summer cottages are gradually becoming occupied and the demand for the same far exceeds the supply. Mrs. W. E. Talbot, Calgary, who is visiting her mother, Mrs. D. S. Harper, was the guest of honor at a most enjoyable function during the week, when Mrs. H. W. Murray at her residence, "Belmont," entertained at six tables for bridge. Pink and white bouquets were the floral decorations. The address to the hostess were Mrs. A. White, who presided over the tea party, while the young ladies assistants were the Misses E. Jardine, B. Harper, B. Lawton, Margaret Murray, and Peggy Livingston. Pretty souvenirs of the score were won by Mrs. D. B. White and Mrs. George A. White. Mrs. Talbot being the recipient of a charming gift prize.

Another very enjoyable card party of the past week, had for its hostess, Mrs. Freese, who at her home, Shediac West End, entertained lady friends at a bridge of six tables. On this pleasant occasion Mrs. M. A. Oulton poured tea, while the young ladies to serve were the Misses Leon Bray and Beatrice Harper. The prizes were very shiny souvenirs and fell to Mrs. A. White, Mrs. Bourque of Moncton and Mrs. D. B. White. Guests to play the game were Mrs. Talbot, Mrs. Jas. McQueen, Mrs. Lawton, Mrs. Webster, Mrs. Weidner, Mrs. Kelly, Mrs. G. A. White, Mrs. M. A. Oulton, Mrs. J. E. Mackinnon, Mrs. P. D. Ross, Mrs. O. M. Macdonald, Mrs. P. D. Ross, Mrs. J. V. Bourque, Mrs. Dr. Bourque, Mrs. E. A. Smith, Mrs. Robert Jones, Miss Jardine, Miss Lawton and Mrs. H. W. Murray. Mr. and Mrs. Frank Deleia, Moncton, are in their cottage at Pleasant St. Miss Jessie Howie left town during the week for her home in Vancouver. While here she was the guest of her sister, Mrs. A. J. Tait and her hostess and other ladies entertained at a number of special events in her honor.

Mr. and Mrs. J. A. Macdonald and family of Amherst, motored to town during the week. Mrs. Risteen and son Donald of Moncton, are guests of her parents, Dr. and Mrs. Weddell at the Methodist parsonage. Among a number of recent motorists to Shediac recently were Mr. and Mrs. H. S. Bell of Moncton, The Marguerite of Shediac, Shediac friends are glad to know she is gradually coming back to health. Mr. and Mrs. George Harris and family of Moncton, are at their summer home, "Lingering," near Shediac. Mr. and Mrs. W. A. McWilliam, Moncton, have taken a cottage on the Shediac Shore. Mrs. Kantley and Miss Kantley are among recent summer people at Point du Chevre. Mrs. Frank Smith and Miss B. Harper visited in Moncton on Wednesday. Mrs. H. W. Murray and son, Mr. Reginald Murray motored to Sussex during the week and were guests of Dr. and Mrs. G. N. Poirer. The many friends of Senator Poirer are glad to know he is recovering from his critical illness. Mrs. Macdonald spent some time spent with her daughter, Mrs. W. A. Flowers, is at present with relatives in Nova Scotia. Miss Jean Sands, Moncton, was a recent guest of Mrs. Margaret Evans. Mr. and Mrs. W. Oatler late of Moncton, have taken up their residence on the property they formerly occupied on the Dorchester Road. Mr. and Mrs. E. S. Williams are on a holiday trip to Montreal. Mr. and Mrs. James McQueen and family were recent motorists to Point du Chevre. Miss Jessie Macdonald of Moncton, is spending her vacation at her old home in town. Mrs. J. W. Livingston, who lately underwent operation in the Hospital at Moncton, has sufficiently improved to return home and her friends hope to know of her recovery in the near future. Mr. Raymond Leger of the Leger Drug Co., Moncton, was home during the week. Mr. Leger's health is improving since his treatment in the Royal Victoria Hospital, Montreal. Miss E. Melanson has arrived home.

Mr. J. O. B. Saunders (The Englishman), and Mr. Chintaman (Leader, Alhambra). Newfoundland—Sir Patrick McGrath (St. John's Evening Herald), the Hon. Alex. W. Over Two Hours of Solid Amusement

"Biff, Bing, Bang" as Given by the Dumbells at Imperial Last Night Exceeded All Expectations. "Biff! Bing! Bang!" as given by the Dumbells last night at the Imperial theatre was two hours and a half of solid amusement, enjoyment and entertainment. Those who had seen overseas the concert party of sixteen with their record of not only 500 performances at the front but with an average of sixteen months with their units in France had prepared us for something extra good, but many of those who formed the large audience of Sussex, are in their cottage at Cape Braie.

Mrs. W. E. Talbot and Mrs. H. B. Steeves were guests during the week of their aunt, Mrs. H. S. Bell, Moncton. Mrs. L. N. Bourque, Moncton, has been the guest lately of Mrs. J. V. Bourque, Miss St. Etienne, Miss E. Jardine visited Moncton, during the week. What seemed to strike most people was the evident enjoyment of the performers themselves. It would be impossible not to join in the fun, their enthusiasm is so infectious. Every number went with a snap and a zest which made it at once a success, and each performer is an artist in his own line. It is impossible to select the cleverest vaudeville act among so many, and the costumes are gorgeous. The "ladies" of the party are really beautiful, and their gowns are the latest word in fashion. Graceful in every movement they give a wonderful entertainment. With a setting of velvet curtains and a convincing company they put before their audience, the front line trench, the Orient, a hospital, a drawing room, a theatre, a church and numerous other places. One wants to write about the singing but must not omit the dancing, and certainly the side splitting finale. "The Duchess Entertains" was one continuous scream and funny incident, amusing by play and clever impersonations follow each other in rapid succession. The sketch shows what happens when a cluster of wounded back at Blythe are being given an afternoon's pleasure by Her Grace, Padernose, Sir Johnston, Forbes-Robertson and Nazimova had been engaged to do the entertaining, but in each case it is an understudy who turns up. The wounded have a grand time, and the spectators were simply limp with laughter. W. Filson's fine singing and the golden deed of Wilkinson and Tennant stand out among the more serious numbers. A few local hits added.

HE COULDN'T SLEEP A WINK, SAYS MEISNER

"For Four Years Every Joint in My Body Seemed to Ache With Rheumatism, But Thanks to Tanlac I Am Now Entirely Well," He States.

"When you have read my story I think you will admit that very few people have suffered more with rheumatism than I have, but I want to tell the public that thanks to Tanlac I haven't an ache or a pain in my body now, and as well as I ever was in my life," says Lemuel Meisner of 84 Atlantic St., Halifax, N. S., in a recent communication.

"For four years I was so bad off that every joint in my body seemed to ache, and when I tried to raise my arms to put on my coat the pain would actually make me cry out. I couldn't bend over without suffering tortures, and if I stayed in one position very long I got so stiff that it was agony to move. My feet became so swollen that I could hardly get my shoes on and I ached all over with throbbing pains that seemed to go right through me. Many a night I never got a wink of sleep and I came to dread the bed because I feared that sooner or later I should have to stay there altogether. It seemed beyond the power of any medicine to help my case, and I worried so about my condition that I nearly went out of my mind."

"I had heard a lot about Tanlac but never dreamt that it would be good for rheumatism until one day I read the statement of a Halifax man telling how Tanlac relieved him and so I decided to try it. Well, sir, I've taken my bottles in all, and I want to tell you that I am completely relieved of my rheumatism. I haven't an ache or a pain anywhere and the swelling has all gone out of my feet. All my worries are over, for I am not only able to work, but am full of life and energy, and I sleep like a log every night. All the credit is due to Tanlac for my wonderful recovery and I cannot say enough in praise of it."

Tanlac is sold in St. John by Ross Drug Co., and F. W. Munro under the personal direction of a special Tanlac representative.—Advt.

NO POLITICAL SIGNIFICANCE IN TRADING

Russian Agent Says Effort to Buy Goods in Canada is Straight Business Transaction.

NO PROPAGANDA TO BE UNDERTAKEN

Offers to Pay for Goods With Gold—Not Worrying About Bond Holders.

New York, July 5.—(By Canadian Press)—The establishment of trade relations between Canada and Soviet Russia would have no political significance and would not render the Dominion open to propaganda work by Soviet agents, Ludwig C. A. K. Martens, head of the Russian-Soviet Government Bureau here, declared to The Canadian Press in the course of an interview in which he reviewed his efforts to purchase goods from Canadian manufacturers.

Martens denied that agents of the Russian Soviets had carried on propaganda in Canada in the past and said they had no intention or desire of doing so in the future.

The Russian agent appears very sanguine regarding his prospects for securing in Canada a lot of the material which is so badly needed by the Soviets. He bases his hopes upon the report of the two special envoys, Santeri Nuorveta and Captain O. S. Beyer, who were sent to the Dominion recently to conduct preliminary negotiations with representatives of Canadian manufacturers, and upon the contract which he signed last week with Beyer, Sloan and Company, Manufacturers' Agents, of Montreal, for several million dollars' worth of foodstuffs and machinery. He believes the Canadian government's declaration that there are no restrictions upon export to Russia from the Dominion opened the way for the acceptance of the Soviet government's orders by the Canadian firms, and that the initial contract will be carried out and will be followed by a number of others in the near future.

Asked whether any of the Canadian manufacturers who had discussed trade possibilities with the Soviet agents while they were in Canada had made stipulation regarding the honoring of obligations of the previous Russian government, Martens said that that question had not entered into the discussions.

"That is a political question," he said, "and something that will have to be decided later on. When the Soviet government has peace it will doubtless be willing to discuss the question of those bonds. While it may not admit that it is under obligation to do so, the Soviet government may accept this liability as a matter of expediency. However that is a matter about which I cannot speak with authority, and, as I say, it has not entered into our discussions with Canada firms. So far as our negotiations in Canada go it is a straight matter of business; we want certain goods and are willing to pay for them—that is all there is to it."

Will Pay in Gold.

"How do you propose to make payment?" he was asked.

"In gold. The gold is ready to be shipped out of Russia to establish credits. If the Canadian firms desire it this gold will be deposited in Canadian banks—sufficient gold to establish credit covering the total amount of the contracts."

The question of the rightful ownership of this gold was one which Martens refused to discuss.

In this connection the question has been raised as to whether the proposed plan for the establishment of credits by the Soviet government will really afford a guarantee of payment of goods to Russia. American business interests, who are keenly interested in the steps which have been taken by Canadian firms toward trading with Russia and have studied the question of international finance involved, declare there is a possibility that the gold may be held up by bondholders who have claims for loans made to the former Russian government.

English papers just received contain reports of what may come to be regarded as a test case on this point.

According to these reports, 17,000,000 ounces' worth of gold bars were

between Canada and Russia, Martens was asked whether any guarantees granted his agents in the Dominion for the purpose of conducting trade negotiations would not be used to carry on political propaganda. He declared that it was unnecessary for him to give any such assurances.

"We have no desire whatever to carry on propaganda in Canada," he said. "We are interested in Canada only as a possible source of supplies. The Russian Soviet government has enough to occupy its attention without bothering about the political affairs of Canada or attempting to change its system of government."

"If there has been any radical propaganda carried on in Canada in the past," he declared, "it was certainly without the assistance or even the knowledge of the Soviet government of Russia. They have no political agents in Canada and have no wish to interfere in any way with Canada's affairs."

Asked whether the Russian Soviet government would be considered by him as recognition by Canada of that government, he replied:

"Certainly the carrying on of trade would imply recognition of the Soviet government."

Later one of his assistants qualified Martens' statement by declaring that the Soviet agent's statement meant that entering into trade contracts by Canadian firms would be considered recognition of the Soviets in the political sense, or endorsement in Russia, but merely recognition that the Soviets "exist" and were a factor in international trade.

Martens has been in the United States four years. Previous to the Russian revolution he represented a large Russian steel corporation here. Shortly after the Soviets obtained the upper hand in Russia he was appointed their chief agent in the United States. The Soviet government bureau here is situated in a suite of offices in a large office building on West 40th St. It is well furnished and evidently is maintained on an up-to-date business basis. There are private offices for Martens and his chief assistants, a general office in which half a dozen clerks are at work, switchboard, filing system, and other details which are found in the ordinary commercial establishment.

THE PROHIBITION OUTLOOK.

(Continued from World.)

It seems to be the general impression that the prohibitive result in a majority for Prohibition and the sale of light wine and beer. The present restrictions on the sale of strong waters would, in such case, remain in force, and light wines and beer would be sold under Government regulations and restrictions for beverage purposes. This would not necessarily mean the prohibition of restaurant diners also. As the law is now the man who waits a glass of ale with his meals has to import it direct from another province.

JUNE "CANADIAN BOY" A TREASURE TROVE

"Adrift in the Arctic Seas" by the eminent explorer, Sir T. Sterker, heads the contents list of excellent articles etc., in the June issue of "Canadian Boy," the official organ of the Boy Scouts Association. A letter conveying a special message to the Boy Scout Commissioners, written by Sir Robert Baden Powell, is another reason why the current number of this bright All-Canadian magazine even surpasses the average high standard set for it. Besides containing exclusive news concerning the activities of the Movement in Canada there are true records in brief of some Boy Scout V. C.'s and the Scouts of our Overseas Empire; the latter written by Sir George le Hunte, G. C. M. G. Thrilling stories, pen and ink sketches, interesting photographs and a record number of displayed advertisements all contribute towards making this issue of "Canadian Boy" a treasure trove for any normal boy.

MONTREAL MARKET BECOMES ACTIVE

Trading Showed a Better Distribution, Seven Issues Being Active.

Montreal, July 6.—Trading showed better distribution today on the local stock exchange, seven issues being active. Among these Sugar and Spanish River preferred were prominently strong with Laurentide, Bethlehem and Breweries fractionally higher and Spanish common showing a slight decline.

Brompton opened at overnight gain of a point and moved up to 144 1/2, closing at 145, up three points. Sugar common touched a new high at 82, declined to 81 1/2, and closed at 81 1/2, a net gain of two quarter points. The preferred was among the strongest stocks of the day, racing new high at 134 and holding the five point gain. The only other stock to rise in the market was the 100 points at 136, and Shaw-Walker, which recovered the 10 point loss at the weekend and added five more at a new high of 111.

Spanish River preferred equalled a new high record price at 114 1/2, which 2 1/2 points of the advance was retained at 114 1/2.

Other strong issues were Textile up 1 at 133; Quebec Rwy. up two at 29; Power, which gained one point at 83; Steamship up one at 76; and Ontario Steel which gained a point at 78, a new high.

Total trading: Listed, 26,265; bonds \$52,000; vouchers, 71.

TRADING ACTIVE ON MONTREAL

Number of Stocks, Notably Spanish and Brompton Sold up to New High Records.

(F. B. McCURDY & CO.)
Montreal, July 6.—The local market had quite an interesting session today, trading being active and a number of stocks advancing to new high levels. The Spanish issues were prominent, the pfd. selling up to the new high record price of 116, and the common advancing to 106 1/2. Brompton opened firm at 143 and rose to 144 1/2, a new high record price. Abitibi, Wagonways and Laurentide were all moderately active, but no changes of importance were recorded.

Brazilian was the feature of the Public Utilities group, advancing to 44 1/2. Power was moderately active and firm, and Quebec Railway displayed a somewhat stronger tendency at around 29.

The Iron and Steel issues were in moderate demand.

Sugar was one of the strongest stocks on the list.

Breweries was the most active stock and the price was very erratic. There are no new developments in connection with this stock.

RUMORS OF ANOTHER MERGER

Montreal, July 6.—While the activities in National Breweries and Frontenac have resulted in many reports of a possible merger, there are still a number of interests who do not think there is any likelihood of this occurring. Many of the Frontenac interests consider that it would be much more in the interests of their company to keep on developing along independent lines rather than to have its interests merged with the larger consolidation. Some of the larger shareholders are said to be opposed to such a plan. On the other hand there are others who always consider a deal is a deal and their comment is that there is no telling what may happen during the next few months.

NOT AFRAID OF BOYCOTT MEASURE

Benson Says Shipping Board Will Carry Out New Law in All Its Details—Threats of Diversion "Futile and Idle."

Washington, July 5.—Admiral W. S. Benson, chairman of the shipping board today characterized as "futile and idle" threats of foreign shipping interests to divert business from American ports if the shipping board enforced the action of the new merchant marine act which gives preference to American ships and import rates to American shipping.

Admiral Benson said that the new shipping law will be carried out in all its details and any attempt of foreign shipping interests to divert business either on the Pacific or Atlantic coasts will find the shipping board prepared to allocate American ships to move the freight.

The admiral's statement was called forth by reports that foreign carriers, particularly on the Pacific coast, are conducting propaganda mainly in protest against section number 28 of the new shipping act. This section permits a preferential rate over railroads within the United States on merchandise moving in export and import in American vessels and provides that whenever the shipping board is of the opinion that adequate shipping facilities are not afforded by American documented vessels the section may be suspended in which case the preferential rate also may apply in connection with foreign carriers.

"As the section is to be used," said Admiral Benson, "only where there is ample American tonnage to handle the export and import commerce, we cannot conceive how any one who has studied the law can assume the shipping board would make general application of the section. Nothing can more surely bring about the enforcement of this section, however, than adoption by foreign carriers of their threat to divert business from American ports.

"The United States is in earnest to place within the ownership of American citizens the control of at least a part of its traffic in import and export. If it should by any possible means be held that the departments of the Government lack such authority to permit them to protect American interests additional authority will be asked for. Foreign carriers and those in the United States interested more in foreign than in American institutions will do well to let sleeping dogs lie."

Admiral Benson called attention to the fact that foreign interests apparently overlooked the power placed in the hands of the interstate commerce commission by the new railroad act, which gives the commission authority in "emergency" to direct traffic or established an embargo against movements of freight. The commission also has authority to establish minimum rates on any commodity moving subject to the interstate commerce act within the United States.

A Word for the Pagans.
(London Daily Express)
To the great blind Homer, brooding on a decked promontory over the blue Aegean, it must come as a thing of exquisite and profound satisfaction that the Rev. Gilmour Neil of Portsmouth considers that 80 per cent of the sinful inhabitants of that town are so bad that they are "not even decent pagans." The poets who wrote of wine and laughter, the rosy fingers of the dawn, dryads and satyrs and leering Pan, and long strange stories of fighting are become so used in their limbo to hearing themselves classed with jet greengrocers who wickedly

HINTS FOR FARMERS

The presence of male birds in the flock during the summer months has a decidedly detrimental effect upon the quality of eggs and poultry producers lose many thousands of dollars annually through the presence of partially incubated and bad eggs in the produce they market. Reports are now being received from all parts of the country of the number of partially incubated eggs appearing in current receipts. Producers do not realize that it is unnecessary for a fertile egg to be placed under a broody hen to cause the germ to grow; a temperature of 76 degrees is sufficient to start incubation. If the heat is constant the development of the chick will continue, but if it ceases or is intermittent, partially incubated eggs and the egg becomes bad. Such eggs have no place or value in shipments, and should they get to the consumer the consumptive demand immediately falls off.

The male bird is not essential in egg production, his usefulness is over when the supply of fertile eggs for the season has been secured. The hens will lay just as many eggs when the male bird has been removed and the eggs will be more suitable for consumption, packing or storing. Further, there is a distinct financial gain to the producer who markets infertile eggs, because the best trade in many cities offers a premium of from one to five cents a dozen for infertile eggs.

Then there is the question of feed. It costs money to feed poultry, and with feed at its present value, the consumption of feed by males kept for no particular purpose is a serious economic waste. The reason for this is that the best prices for live and dressed fowl prevail in the spring and early summer. During the summer the price declines, and by the early fall when many producers decide to market their male birds, a lower price than prevailed in the spring has to be accepted; the producer thus losing the amount per pound the market has declined, plus the value of the feed consumed by the bird for the bad and partially incubated eggs that have been marketed.

Farmers and others selling eggs for market should, therefore, need no urging to kill off, dispose of, or at least remove the male birds from the flock after the breeding season.

One Poems of The Isle of Man

"Study for Picture" by Orpen Not An Agreeable Picture — London Art World Has Interesting Collection — Some Paintings Not in Good Taste.

By Mark Zangwill.
London, July 1.—The Isle of Man, famous for its cats without tails and its Hall Caine, has a series of some very charming scenery, and the Hampstead Art Gallery, which has made a distinct place for itself in the London Art World, is showing under the title of "One Poems" a series of "Manx" landscapes in oil, water-color, and pastels, by that delightful poet painter, William Hogarth, himself a resident of the happy Isle.

There are many lovely and exquisite things among these "One Poems" — they are veritable tone poems, with never a false note to mar the harmonious and exceptionally delicate perception. He views Nature through a rare poetic temperament, tender and wise, steeped with that gentle melancholy which, as Longfellow expresses it, "resembles sorrow only in the mist resembles the rain."

Yes, Hogarth's poems are not always in a minor key. He has his joyous moods too, in which he reveals his brightness and color of Nature; in golden fields and glorious blue seas, and lovely green growing things. But he loves best the dim, mysterious twilight, the subtlety of night, the quiet purity of dawn. His feeling is for solemn trees under waning or rising moons; lonely vistas, accentuated by the solitary hind, red-cutter or ploughman; the brown hills and the wreath of the Carragh or the fern, which are a nature of the north of the Isle of Man.

Hogarth's color is always beautiful, and his technique highly accomplished in all three media. He is undoubtedly an artist of distinct personality, and this exhibition will enhance his reputation and recommend him still further to the connoisseur.

At the Elder Gallery.

An interesting collection of drawings, sketches, and studies has been brought together at the Elder Gallery. They range from the slightest sketch, the roughest impression, to the most careful drawing. Conder, Steer, Sickert, Stott, Hraboson, John, Stevens, Goodwin, and Orpen are among the famous artists represented. A feature is rather made of Conder's lithographs and designs for fans. These designs are generally composed of ladies, robed and unclothed, and are entirely doing nothing in particular. Conder was famous for his fans, though his work is not always convincing to the critical eye. His was a limited talent. The best thing in the gallery is by Albert Goodwin, that most imaginative of painters. It is a poetic impression of St. John's Cathedral at dusk, a thing rare beauty, a very clear, strong, and individualized, but an entirely agreeable drawing by Sir William Orpen, R. A., is described as "Study for a French novel. It represents a man and a woman, seated, engaged in a wappy conversation, to judge by facial expression. The man of Parisian artist type is in evening dress, but his companion is not even in night dress. It is only the lady's hair that is elaborately dressed; the rest of her, save for an expensive necklace, is just a well-developed beauty and a man and a woman, seated, engaged in a wappy conversation, to judge by facial expression. THE WEATHER

Toronto, July 5.—The weather has been fair and a little warmer today from the Great Lakes to the Maritime Provinces, while in Saskatchewan and Alberta, it has been cooler with showers in some sections.

Police Court Cases Yesterday

Five Young Men Held on Suspicion of Breaking Into Bell's Drug Store and Stealing Five Cases of Whiskey

A charge of breaking and entering the drug store of George K. Bell, 237 Charlotte street, and stealing five cases of "Andrew Usher Scotch Whisky" was preferred against Louis and William Doyle, William Alexander, George Haynes and Edward McGarrigle in the police court yesterday.

Mr. Bell, the first witness stated that he had locked his store Saturday evening and when called to the premises at two o'clock Monday morning found everything in all appearance as he had left them. On examination five cases of whiskey that had been stored in the cellar were found to be missing.

The cases were valued at \$38 and were similar to those produced in court. Mr. Bell said he knew all the boys and that he did not wish to make any charge against them. Detective Saunders stated that he had received a telephone message early Monday morning stating that some boys had carried a companion, under the influence of liquor, to the Consumers Coal Co's wharf. Police-man Killen and witness after some searching saw four of the defendants, the two Doyle boys, Alexander and George Haynes standing at the end of a box car. The boys walked up Charlotte street to St. James, then two of the boys walked towards Bell's store, went down Charlotte street and entered an alley a few doors below the door.

A few moments later the others crossed the street and entered the alley. Officer Killen and witness went to the rear of the building and on entering the yard heard the boys going over a fence. Officer Saunders detailed the arrest of the prisoners, a visit to the Bell store, and a visit to a rowboat where the missing whiskey was found. Further hearing postponed until Tuesday.

J. A. Barry appeared for the Doyle boys and James B. Dever for the McGarrigle boy. Richard Caples was charged with supplying liquor to John J. Fitzgerald and the case was postponed to today. William Guthrie, was fined \$5 or two months for being drunk and \$200 or six months for having liquor in his possession other than his private dwelling.

Eleven men charged with drunkenness pleaded guilty and were remanded.

Objects To Action Of "Vets" Meeting

Norman McLeod, President of G. W. V. A., Says That Resolution Passed Last Night Was Put to Meeting Without Notice Being Given and Was Not Fair.

Norman McLeod, President of the Great War Veterans' Association, informed The Standard last night that although he was not present at the association meeting it had been called for the purpose of transacting routine business, without notice being given of any special subject on which an expression of opinion would be asked.

He further said that the resolution in favor of light wines and beers was carried by a vote of 21 for and 11 against, and that six others of those present did not vote at all. He said that the amendment was that no expression be given on the subject, but this amendment was lost. Mr. McLeod further informed The Standard that he did not think that the action of the meeting was fair, and did not represent the feelings of the entire association and that it was not a representative meeting, owing to the small attendance.

THE POPULATION OF ST. JOHN INCREASED

St. John City Directory is Published, Containing 21,435 Names, Showing Population to be 64,305—Increase of 1,305 Over Last Year.

The St. John City Directory for 1920-21, published by the McAlpine Directory Company and printed by J. & A. McMillan, made its appearance yesterday and gives eight hundred and eleven pages of reliable information. There are over ten thousand corrections in this edition. The volume contains 21,435 names and this shows the population (based upon the usual method of directory publishers of multiplying by three) to be 64,305, or an increase over last year of 1,305. It is looked on as a small increase for a city the size of St. John, but it is owing to the lack of desirable dwelling houses or flats, a matter that has become very serious and is the cause of driving a great many away who would like to make this their place of residence.

ST. PETERS ON TOUR. The St. Peter's baseball team leave this afternoon on a trip, playing in Moncton this evening, Amherst on Wednesday, Truro on Thursday and in Halifax on Friday and Saturday. They will return home on the Ocean Limited next Sunday evening. Thirteen players will make the trip and Thos. McGovern will go along as manager. Hanson, Chestnut and Regan will do the twirling with Regan carrying third when he is not in the box.

NON-SUPPORT. Arthur Colman was arrested last night on a warrant charging him with non-support.

Rotarians Had Enjoyable Day

Members of Rotary Club Held An Outing on the Grounds of F. A. Dykeman at Ononette Yesterday.

The members of the Rotary Club held an outing yesterday on the grounds of F. A. Dykeman, at Ononette, instead of their regular luncheon at Bond's. It was expected that about sixty members would be in attendance, but owing to the inclement weather that prevailed only about twenty-five were present. It was raining when the party reached Ononette, and the special programme of sports that had been arranged had to be abandoned.

As soon as the weather cleared, the party went down to the beach, where games and races were held, as well as a tug of war between two teams. At the conclusion of the sports, the party sat partook of supper, which had been prepared by the efficient "Eats" committee, composed of John Bond, A. E. Everett and Dr. A. H. Merrill. It was intended to hold a business meeting at which the reports of the delegates to the International Convention at Atlantic City would be read. However, on account of the small number present, the reading of the reports was deferred until next Monday's meeting. In the evening the party enjoyed a sing-song on the veranda, after which all went home, voting it a very enjoyable day.

Scribes and Pharisees As Prohibitionists

"What Almighty Has Not Done, Not Wise for Man to Attempt" Says Joseph Howe of the Prohibition Movement of His Day.

"Does the Prohibition age produce men of more solid worth, of greater brain power and moral influence than those which we had half a century ago?" Will a drastic law such as the New Brunswick Prohibition law really produce more or less crime? Rusklin says:

"Crime, small and great, can only be truly stayed by education—not the education of the intellect only, which is on some men wasted, and for the other mischievous; but education of the heart which is alike good and necessary for all." The views of Joseph Howe, the great Nova Scotian on the prohibition movement of his day are most interesting just now. He said:

"I admit in all their extent the evils of intemperance. I admire the self-devotion and earnestness with which large bodies of men have endeavored to eradicate those evils. I approve the efforts made by the temperance societies and wish them success, so long as they seek to reform by persuasion, by argument and by example. When they attempt impossibilities, when they seek to coerce the people into temperance, I conscientiously believe that they will fail; I believe that all the good they have done will be perilled by a resort to harshness and coercion."

"The Deity has not prohibited the use of wine. On the contrary, He has given the grape to man with innumerable other bounties. Our Saviour has not prohibited the use of wine. He set with those who drank it, and by a miracle replenished their cups at the marriage feast. The apostles have not forbidden the use of wine. Its use was denounced in the Koran by the pagan Mahomet, but was not, so far as I can perceive; in the Bible. What then, the Almighty has not done or attempted, what He could have done with so much ease, yet has refrained from doing, I think it not wise for man to attempt."

"How beautiful is water! (The temperance man's own element) Yet how dangerous. The rain which fertilizes the fields, sweeps away with its excess bridges, mills and human habitations. If not drained off, it sours the land and breeds pestilence in cities. The fire that warms our hearts, that clears our woodlands, that emits out metals, that drives our steamers and locomotives, is not less dangerous. Would he deny to man the use of these elements because the casualties by fire and flood are most disastrous? Would he forbid their use, because people are burned in cities, drowned in rivers, because a boiler bursts at sea, or an engine sometimes runs off the track, or kills hundreds by the violence of a collision? William the Conqueror, it is true, once denied to the people of England fire and light after the curfew tolled; but the abhorrence in which the act was held would not encourage anybody to follow his example."

"The world has come down to the present period from the most remote antiquity with the wine-cup in its hand. David, the man after God's own heart, drank wine. Solomon the wisest of monarchs and of human beings, drank wine. Our Saviour not only drank it, but commanded Christians to drink it 'in remembrance of Him.' In strong contrast with our Divine Redeemer's life and practice, we hear of the Scribe and the Pharisees who drank it not—who reviled our Saviour as a 'wine bibber' and the companion of publicans and sinners—who would have voted for the Maine Liquor Law as unanimously as they cried: 'Crucify him.'—Adv't.

G. W. V. A. Regular Monthly Meeting

Heated Discussion Last Night When Resolution Favoring Light Wine and Beers Was Passed—Rev. Canon Kuhring Objected Strongly.

The regular monthly meeting of the Great War Veterans' Association was held in their rooms Wellington Row last night and in the absence of the President, Norman McLeod, the chair was occupied by Paul Phipps. After the regular routine business had been transacted Comrade W. C. Pink presented the following resolution:

"Whereas there was placed on the Statute Books of this Province a law prohibiting the sale of intoxicating liquors, said law being enacted while the large majority of those who volunteered for active service overseas were actually on such service; and Whereas this association rejoices in the abolition of the open bar and in the banishment of 'hard' if were actually on such service; and Whereas, soldiers, while on active service were given by the military authorities rations of beer, which did not, in any degree prove injurious; and Whereas the taking away of beer or light wines from the people is absolutely contrary to the spirit of British justice and against the principles for which we fought overseas; therefore Resolved that this branch of the Great War Veterans' Association go on record as being in favor of the sale of light wines and beer as beverages, and urge upon all its members and friends to vote for that question on the tenth instant."

On the motion being duly seconded there was considerable discussion which is said by some of the members to have been rather heated. Rev. Canon Kuhring objected to the motion going through and stated that unless the motion was rescinded he would resign from the Association and would use his personal influence to keep young men from joining the Association. Comrade Pink took exception to Mr. Kuhring's remarks, and others present spoke both for and against the resolution.

An amendment was put that the matter be left over. The amendment was lost and the original was carried by a vote of 24 to 11. After the regular meeting the executive met and the building committee received the six months' final statement from the auditor.

Thirty Thousand Deliberate Murders

In the United States Last Year Although the Penalty Was Death—Prohibitory Law Inflicts Costs Only \$200—Leading Anglican Clergymen Endorsed Prohibition Yesterday, and Are Against Light Wines and Beers.

In view of the above murder record in the United States and the comparative punishment between that offence and breaking the Prohibitory Law, the criticism of certain parties that the New Brunswick Prohibition Act has not accomplished its maximum good in three years in the face of many difficulties does not seem to represent that sound judgment that it would be well for voters to accept literally. Such representatives of the Anglican church as Rev. R. A. Armstrong, Rev. G. A. Kuhring and Rev. R. T. McKim, and doubtless well capable of advising their parishioners and the soldier vote along safe channels, and their opinions, as expressed in yesterday's papers, are more than well worth reading, every one being enthusiastically in favor of Prohibition and against light wines and beers.

The ranks of the anti-prohibitionists will doubtless dwindle very rapidly this week, as the electorate gives the great question involved July 10th the careful consideration which it deserves.—Adv't.

AROUND THE CITY

EXPECTED THIS MORNING. The R. M. S. P. Caraquez from Bermuda and the West Indus is expected to dock at Pettungville wharf at 3.30 this morning.

LEFT FOR WOODSTOCK. W. M. Ryan left last evening for Woodstock where he will conduct the probe into the alleged abuse of authority by one of the Carleton County liquor inspectors.

CIVIL SERVICE EXAMS. Wm. M. McLean, former inspector of schools, will conduct the civil service examinations which will be commenced in the Centennial School building this morning.

CHARGED WITH STEALING. Wilfred Graham and Fred Mahaney were arrested by Sergeant Detective Powers and Detective Biddiscombe yesterday afternoon on suspicion of stealing a storage battery valued at \$20 the property of Edward Sicketts.

A SPECIAL MEETING. A special meeting of the Buildings Committee of the St. John School Board was held last evening with Trustee Michael Coll in the chair. The question of securing next winter's supply of coal was discussed but no definite decision was arrived at.

SUBURBANITES LATE. The suburban train from Hampton, due in the city at 7.45, was unable to make her regular trip yesterday morning, having blown out a cylinder head. Some of the suburbanites made the trip into town by auto and others waited until Sussex train, which came in at 10.15.

RECALLED TO ENGLAND. Col. W. Grant Morden, M. P., has written H. R. McMillan, secretary of the Commercial Club expressing regret at his inability to address the club at the great time as he is compelled to leave this week for England. Col. Morden expects to return to Canada in two or three months and promised then to come to St. John.

FIRE DEPARTMENT. Three members of the local fire department were discharged within the last week for infringement of rules, so Commissioner Thornton announced yesterday morning. The men were from No. 3 hook and ladder station, and one from No. 3 engine house. Only one appointment has been made, that of George App, who goes to No. 3 hook and ladder.

PLENTY OF FISH. The harbor fishermen state that there is abundance of sardine herring in the harbor, but there is no market for the fish with the result that the little ones are not being captured. The reason given is that there is a scarcity of tin at the factories. A fisherman stated yesterday that if there was a market and he could obtain fifteen dollars per horsepower for the fish that with the present run he could make a small fortune in a short time, but then his fishermen's luck.

MIXUP IN TIMES. The time as registered by the clock at the Union Depot was rather out of joint last evening. The clock inside the Depot showed that it was 3.30 o'clock by Atlantic Standard or 22 time. A perfect reliable wrist watch—as far as wrist watches go—said it was 9.30 daylight time but the clock in the tower had adopted a neutral attitude and indicated 3 o'clock, thereby increasing the confusion that already exists around the Depot in regard to times.
