"The production of a highly cultivated mind.
"We have read several works on Eccleiastes, and well remember the pleasure with which years ago we perused the Royal Preacher," but for fine criticism, comprehensiveness of thought, striking illustration and unostentations, yet eloquent and foreible style, The Wissom OF THE King, we think, surpasses them all."
—St. Croix Courier, March 6, 1871. "The volume is not an unworthy companion of Dr. Buchanan on the same book."—The Homilist (London), April 1971.

"A series of charming Essays. . . . Each "A series of charming Essays. . . . Each chapter branches out into innumerable topics of a sesondary and collateral nature, giving to the work a boundless diversity enriched with stores of ethical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the noblest lessons for practical guidence. Our author's style is remarkable for its free, uncon strained flow, almost coll'quial at times, but invariably signalized by elegance, force, adaptation to the subject, and not seldom by originality of thought in combination with terseness and beauty of expression. . There is about it a freshness, as well as a fulness of practical teaching, rarely to be met with in ordinary Biblical commentaries."—Londonderry Standard, Feb. 15, 1871.

"This is a bright, breezy book, both interest ing and instructive. We can most conscientiously commend this book generally, as one of the most sprightly, attractive and instructive works of its kind that he fallen under our observation."—Boston Evening Traveller, May

Head Quarters, March 1st, 1871.

"The writer is evidently well acquainted with the literature of his subject, and that acquaint necessary the second of the second of the second of the second of reading or learning, but there is everywhere the gleaming forth of light which cannot be hid. The style is simple, intelligible, graceful. It shows at once that Mr. Bennet is a man of literary culture, who can express his thoughts with scholarly chasteness and good taste. We could not open a page without meeting some thought vigorously expressed. The work is eminently fresh and readable."—Pres Witness, Halfage.

Halifax.

"He reveals in the treatment of his themes strong common sense, a firm grasp of though, a logical acumen and a cleer insight into human character. Even when dealing with trite ideas he imparts to them a novelty and interest by which they are lifted into an importance the scarcely deserve. The style throughout is lucid pure, compact, forcible,—and it is his own—the garb of his own thinking. We have met in our perusal of the book with numerous paragraph of finished and brilliant rhetoric—fine specimens of pulpit oratory. He is never tame not irresome. We have not found one slin shod sentence in the volume."—Christian Visitor (Baptist) March 6th, 1871. 200 PRIME FACTORY CHEESE.

"We were not prepared to find him writing in such a finished style and issuing such a volume as' the result of certain preparations made for an evening lecture to his congregation." If all his nulpit performances are equal to these, his people have reason to rejoice in the Providence which guided his steps to them."—Evangelical Witness, May 1st 1871. Evangelical Witness, May 1st 1871.

"This is a remarkably thoughtful, solid book Mr. Beanet is evidently at home in Metaphysics and Ethies, and he is a shrewd observer of human nature in its ordinary manifestations; consequently he ranges over the lessons of the Preacher with a power of illustration which shews his mastery of the subject. The style is close and direct, and yet so lucid, that any reader may understand every sentence in the volume.

The limit with the door in the capacitions of this treatise of observation and Jewish wisdom "—The Presbyterian (Philadelphia), May 20, 1871.

Jewish wisdom "—The Presbyterian (Philadesphia), May 20, 1871.

"The lessons to be learned are drawn with a master's hand, and are expressed with a combined force and beauty that we have rarely seen surpassed in the production of any author. The ordinary reader will find noth ng that is above his comprehension, and yet it would be difficult to find a common place thought or form of expression. A combination of these requisites we deem the highest merit a writer can possess.
"We will be much disappointed if the book do not command a wide circulation. Wherever a sound literature is felt to be a deside atum, The Wisdom of the King has but to be known to be prized as a work that the world will not willingly let die."—Saint John Tetegraph and Journal.

"Each chapter is so well done, so lucid, yet concise in its exposition, that it is sometimes d fficult to determine which is the best and most interesting.—Stewart's Quarterly, St. John. A Sensation at Sand Cove. It is not often that anything occ disturb the nicely balanced temperaments of the leading citizens of the Sand Cove district, but that something of the kind has at last happened, is only too true. The other day the School Trustees of the Cove received the following communication, the reading of which, we are told, "caused considerable excitement at the Board ":-_ Feb. 5, 1872.

Trustees of Superior School Sandy Cove GENTLEMAN .-Having learned that you are looking for a Teacher I would hereby do you the favour of letting you know where you can find one hoping you will return the complement by sending for the subscriber I have taught

PERFECTLY SOBER.—An acquaintane of mine, a gentleman of festive disposition, is slightly given to being out late, and drinking deep. One night he came home to his wife in a decidedly elevated condition, much more so than any man should, especially when going into the presence of his wife. This he comprehended, and as it was rather late, and the house perfectly quiet, he conceived the idea of pulling off his boots in the hall, and going up to his wife's chamber so quietly as not to awaken her, in which case, provided he was successful, she would not suspect his condition. The light was turned down low, and his wife was apparently asleep. He began to undress, and by the greatest care he got along pretty well. At length he believed himself ready, and putting out the light, he attempted to creep softly into bed. He wakened his wife, and she spoke;

"Is that you, John?" "Yes, love, coming to bed." "Are you sober to-night, John?" "Perfectly sober, my love." "You are, ch?" Well, John, hadn't you beiter take off your hat?"

BY TELEGRAPH. British and Foreign. (To the St. John Associated Press.) London, Feb. 13. An attempt was made to day to bring the ALABAMA CLAIMS BEFORE THE LORDS, but Earl Granville said that discussion the present juncture was undesirable. Several Lords regretted that Parliament was the only place where the Treaty could not be mentioned Granville replied that if a motion was it would be LAID BEFORE THE HOUSE. The motion was accordingly made and adopted. The Prince is at Osborne with the Queen and Royal Family: he goes out daily. February 27th is declared A PUBLIC HOLIDAY throughout the British dominions. Small pox is pronounced epidemic at Elinburgh. THE POPE will soon send an encyclical letter on public instruction and its relations to the church and state. The Assembly elections in the depart ment of Eure, France, were disorderly there were NUMEROUS CONFLICTS between parties. Loss by burning Rothsay Hotel, Toron to, Ont., \$25,000; insurance \$13,000. [Is there a Rothsay Hotel in Toronto?— (Special Telegram to the Daily Tribune WASHINGTON, Feb. 13. The President sent to the Senate a copy of the UNITED STATES STATEMENT of the case before the Geneva Tribunal. It has been published. The documents from the Secretaries of relative to instructions to U.S. officials, were the same as sent to the House on 20th The naval appropriation bill was debated in committee of the whole. FREE TEA AND COFFEE BILL would have been reported to the House had it rot been for Mr. Mercu 's persister t refusal to permit the statement with which Dawes desired to preface it, This statement would have been accompanied by a motion to recommit the bill, the committee preferring if possible to Democrats and revenue reformers would like to involve the House. Had the free tea and coffee bill heen re ported, a swarm of amendments would have surrounded it, and the ENTIRE TARIFF QUESTION would have been opened. Judge Mercur appeared oblivious to this danger, and insisted that the straight and simple bill or nothing at all should be presented. So the matter goes over, and it is altogether doubtful what the committee will do. Moderate members of the committee do not interpret the instructions of the House as requiring them to report a bill torthwith, and the independents wish to include free tea and coffee in the general tariff bill, which is now revising. To relieve these articles they say will DISTURB THE WHOLE SCHEME. The committee is so evenly balanced that its decision is altogether uncertain, but the chances are in favor of the recommital of the bill, as they desire. Committee decided to day to reduce the TAX ON CHEWING TOBACCO from thirty-two to twenty-four cents per present figures, sixteen cents. This change it is estimated would effect a reduction of about \$4,000,000 upon present consumption of tobacco; but it is also expected that increased consumption and more rigid collection of the taxes will ensue, so that collections from tobacco will reach within a million dollars of the present amount. COLUMBUS, OHIO, Feb. 13. GOLD 7-30 LOAN. profitable and secure Investment.

THE vorthern Pacific Railroad Componyoffers to the public an investment security which combines the ready negotiability, the convenience, and the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least wice the amount loaned. Traffic. As officially reported, the gross earn ngs of the present Pacific Railroad (Union and Central) for 1871, the second year of through usiness. (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65

Seventeen Millions and a Quarier. Or this, so per cent, is from Local business, and, it is stated, fully 55 per cent, or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a divid nd of more than 91/2 per cent. or its total cost. With its great and unquestioned advantages in distance, grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business fro e outset, with a large increase for the future. The Value of Land Grants. The average price The Value of Long Grants. The agerage price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few excep-\$13.98, and the lowest \$3.07. With lew exception, the average selling price has steadily increased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield more than \$161,000 per mile of road—more than these times the nessible cost of construction and

three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3 07), they will produce more than \$70, grant (\$3 04), they will produce more than \$105,000 per mile. These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of Northern Pacific Reilroad Bonds. Construction. The road is now completed acress Minnesota, (255 miles); work is progressing westward through Dakota, and 65 miles are sing westward inrough Darkots, and co-lines are under construction on the Pacific coast. In-cluding purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. Contracts are let for the

construction of 635 miles more, to be finished before the close of 1872.

The 7.30 Gold Bonds. The first mortgage The 7-30 Gold Bonds. The first mortgage bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually praftable investment, and which now stand among the solid and favorite securities of the country, have the fullowing leading features;

1. They are arguent form United States tax: 1. They are exempt from United States tax: the Principal and Interest are payable in gold—the principal in 30 years, and the interest semi-annually at the rate of 73.10 per cent. per annum. Denominations, from \$100 to \$0,000. Present selling price—par and accraed interest in United States currency at pres nt rate of gold (109) these bonds yield 8 per cent gold interest.

2. The bends are a first and only Mertgage 1. They are exempt from United States tax:

2. The bends are a first and only Mertgage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each mile of track,
3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a

for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondhold rs. (Messrs, Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the process. STONEHENGE'S BRITISH RURAL

No public moneys will be received by Districts which fail to establish Schools under the Act. It will be observed that the amount of Provincial and County moneys to be expended in any District in aid of Schools will depend almost exclusively upon local exertion or the direct efforts under by the people of the several Districts in maintaining their own Schools. The sum to be received by the Teacher from the Province is definite, but the exact amount that will be received by the Trustees from the County Fund on account of the average attendance of pupils, cannot be known at the time of the School meeting. The meeting should, therefore, be careful in voting its estimates to authorize a sum amply sufficient to enable the Trustees to meet the liabilities of the School year. Any balance remaining in the hands of the Trustees, is, of course, the carried to the credit of the next School year, while any deficit arising from an authorized expenditure may be carried forward and provided for in the estimates of the following year.

The first discurrence of the County Fund will be apportioned on the School attendance made between January 15th and April 30th, inclusive.
