William Adam, Esq.	William Leslie, Esq.
Alexander Clivas, Esq.	Benjamin Moir, Esq.
Robert Fletcher, Esq.	James Sim, Esq.

General Manager—William Chalmers.

Secretary—H. A. Smith.

### FIRE DEPARTMENT.

Insurance against Fire is granted on every description of Property, on the most favorable conditions.

### LIFE DEPARTMENT.

The Company grants Insurance on Lives in Newfoundland at the European rates of Premium.

Medical Examiner—Charles Crowdy, Esq., M.D.

Besides the Ample Funds of the "Northern," Insurers have the additional security afforded by a large and influential body of Proprietors, whose liability is unlimited. In this particular, the security afforded by the "Northern" exceeds that of most other British Insurance Companies, the great majority of whom limit the liability of their shareholders to the amount of the Subscribed Capital.

Prospectuses and all information can be had at the Office of the Agency.

RAYMOND'S  
**SEWING MACHINES.**

THE RAYMOND is one of the most perfect simple, durable, efficient and reliable Double-Thread, Lock Stitch

**FAMILY SEWING MACHINES**  
 EVER INVENTED.

Simplicity has been attained in a remarkable degree, there being only *four working parts* in connection with the Machine; and each part is so admirably adjusted, as to render it impossible, with fair play, for the most inexperienced to do it any injury.

RAYMOND'S  
 Improved Family Sewing Machine,

Is recommended for the following reasons :

One of the strongest and simplest Machines made.

The best and most perfectly finished, its movements being speedy and light, and so easy that a child can work it.

It makes the genuine Lock-Stitch, perfectly fair upon both sides. No springing or bending of the Needle in changing from coarse to fine, or *visa versa*, thereby avoiding dropped or missed stitches.

No friction or wearing of the Shuttle

No soiling or oiling of the Thread.

It is capable of sewing the finest and coarsest work with the same comparative ease, and is specially adapted to all kinds of Family Sewing.

Raymond's No. 2 Sewing Machine,

FOR TAILORS AND SHOEMAKERS,

is very much larger, and stronger than the Family Machine, and capable of doing very heavy Tailoring or Shoemakers' work. For Shoemakers, it uses the Leather-pointed Needles, which makes a hole similar to the Shoemaker's Awl.

Raymond's Family Sewing Machine

is specially recommended for the use of Families that cannot afford to purchase a Lock-stitch Machine. For the use of Dress Makers it is invaluable, and one of them should be in the hands of each seamstress in the country.

JUPITER, the largest and brightest of the Planets, will be on our Meridian at forty minutes past nine o'clock, January the first, and will rise and pass our Meridian about four minutes earlier every day, till August the fourth, when it will rise, pass our Meridian and set with the SUN; then it will pass our Meridian four minutes earlier every day to the end of the year.

The Planets of the Solar System are 29 in number. Of them 11 are *primary*, and 18 *secondary*, or Moons. Of these Moons, our EARTH has one, *Jupiter* four, *Saturn* seven, and *Uranus* six. Of the primary planets, two are called *inferior*, viz., *Mercury* and *Venus*, because they are nearer the *Sun* than the *Earth*; and others are called *superior*, because farther from the *Sun* than the *Earth*.

	Distance from the Sun.	Magnitude—diameters in miles.	Len. of year.
Mercury,	37 millions of miles	3,140	3 months.
Venus,	68 millions of miles	7,700	7½ do
Earth,	95 millions of miles	7,912	1 year
Mars,	142 millions of miles	4,200	2 do
Jupiter,	485 millions of miles	89,000	12 do
Saturn,	890 millions of miles	79,000	29 do
Uranus,	1800 millions of miles	35,000	84 do

The *Solar year* is the time which the sun takes in passing over the twelve signs of the *Zodiac*, which is 365 days, 5h. 48m. 48s. The *Civil year* is 365 days 6 hours, or rather 365 days for three years in succession, and every fourth year 366 days.—The *Sidereal year* is 365 days, 6h. 6m. 18.5s. The *Anomalistic year* is 365 days, 6h. 14m. The *Lunar astronomical year* is 354 days, 8h. 48.6m. or 12 lunations. The *anomalistic year* is an advance of the orbit as part of the solar system in space, and its excess over the *Sidereal* or *Tropical year*, is the stellar measure of the annual advance of the whole system.

Mists.—A white mist in the evening over a meadow with a river, will be drawn up by the sun next morning, and the day will be bright. Five or six fogs successively drawn up, portend rain. Where the mist which hangs over low lands, draws towards high hills in the morning, and rolls up to the top, it will be fair; but if the mist hangs upon the hills, and drags along the woods, there will be rain.

## FEBRUARY, 1872.

CLOUDS.—Against much rain the clouds increase very fast, especially before thunder. When they are formed like fleeces, but dense in the middle, and bright towards the edge, with the sky bright, they are signs of a frost, with hail, snow or rain. If they form high in the air, in thin white trains, like locks of wool, they portend wind and probably rain. When a general cloudiness covers the sky and small black fragments of clouds

time to the 15th, and of the month.

in the evening, and es, or both. When the green, the rain will be every.

HEAVENLY BODIES.—If there be a haziness in the air which hides the sun's light, and makes the orb appear whitish, or ill defined; or at night, if the moon and stars grow dim, and a ring encircles the former, rain will follow. If the sun's rays appear like Moses' horns, if white at setting, or shorn of its rays, or goes down into a bank of cloud in the horizon, bad

If in changing it follows the course of the sun, it brings fair weather, the contrary, foul. Whistling or howling of the wind a sure sign of rain.

METEORS.—The Aurora Borealis, after warm days, are generally succeeded by cooler air. Shooting stars are supposed to indicate wind.

THE MILKY WAY. Light, which may be seen with the naked eye, forming a broad band across the sky, is supposed to be the remains of a nebula. Our sun is enveloped in it, and it may appear as if it were passing through it.

stratum of starry light covering but a small space in the sky. In the constellation Argo Navis is a vast nebular cluster, in which from 2,000 to 6,000 stars have been revealed by the telescope, besides large nebulous tracts which no telescope has yet resolved into stars. This nebula is seen through the Milky

Way, but is supposed to be a star.

**Tide Table.**

The time of High Water at the following ports, with the rise of the water at Spring and Neap Tides, may be found for the A.M. and P.M. tides for every day of the year 1872.

Capt. KERR, Commander of the Surveying Steamer *Gulnare*, has kindly favored the Compiler with the Tide Tables of the *Globe*, which the Honorable the Lords of the Admiralty of Great Britain have ordered to be published, being corrected up to 1871.

From these Tables the times of High Water at St. John's have been calculated for every day in the year; then to find the time of High Water at any other Port in this Table.

**R U L E .**

Look for the time of High Water at St. John's on the day the time of High Water is required—to this time add or subtract, as directed in the Table, the hours or minutes opposite the Port in which the time of High Water is required to be known.

**EXAMPLE.**

Required, the times of High Water at St. Pierre, Nov. 1, 1872:  
 Time of High Water at St. John's - - 7.51, p.m., 7.34, a.m.  
 Opposite St. Pierre, add - - - - - 1.03, " 1.03, "

Time of High Water at St. Pierre - 8.54 " 8.37 "

PLACES.	St. John's		Rise.

## LIGHT HOUSES.

*Fort Amherst Light at the entrance of St. John's*—A Light was first established at this station in 1813; in 1850 a new House, Lantern and apparatus were erected. The Light burns at an elevation of 114 feet, is produced by a double argand burner placed in a focus of an annual lens of the fourth order, and in favorable weather can be seen 16 nautical miles. When Cape Spear is enveloped in fog a heavy piece of ordnance is also discharged at this Fort every hour during daylight, to assist vessels in making the harbor. It is situated in lat.  $47^{\circ} 33' 54''$  N., and long  $52^{\circ} 40' 18''$  W. John Sheppard, Keeper; Thomas Moore, Assistant.

*Cape Spear Light*—This Light was first exhibited on the 1st September 1835; it is produced by seven argand burners and silvered reflectors burning at an elevation of 264 feet—it revolves, shewing a bright Light, every minute, and in favorable weather can be seen 26 nautical miles. It is situated in  $47^{\circ} 31' 11''$  N. Lat., and  $52^{\circ} 36' 59''$  W. Longitude. James Cantwell, Keeper; Dennis Cantwell, Assistant.

*Cape Bonavista Light*—Situated in lat.  $48^{\circ} 41' 56''$  N., long.  $53^{\circ} 5' 20''$  W.; is a revolving Light, showing alternately every 90 seconds a white and red Light. It is produced by 16 argand burners and reflectors, burns at an elevation above the sea of 160 feet, and in favorable weather can be seen 18 nautical miles. By keeping this Light open with Cape Largent, it will carry you clear of the Flower Rocks; first exhibited 11th September, 1843. Nicholas White, Keeper; Matthew White, Assistant.

*Cape Pine Light*—This tower is of iron, built by the Imperial Government in 1849-50, and first put in requisition on the 1st January, 1851. It is a fixed white Light, has 12 argand burners and reflectors—elevated above the level of the sea 314 feet—situated in lat.  $46^{\circ} 37' 4''$  N., and in long.  $53^{\circ} 31' 45''$  W. In

a favorable state of the atmosphere it can be seen 26 nautical miles. George Hewitt, Keeper; Thomas Doran, Assistant.

*Harbor Grace Beach Beacon and Light*—First exhibited 11th September 1850; stands on the Point of Beach at the entrance of Harbor Grace. Sailing into Harbor Grace with a fair or leading wind, bring the Beach Beacon to bear W. or W. by S. and by keeping the Light or Building a little on the starboard bow it will bring you clear of the Bar, on which at low water there is not more than 8 feet of water. It is situated in lat.  $47^{\circ} 41' 28''$  N., and in long.  $53^{\circ} 12' 33''$  W.; elevation above the sea level 40 feet; in clear weather it may be seen at a distance of 11 nautical miles. George Brown, Keeper.

*Green Island Light at the entrance of Catalina Harbor Trinity Bay*—Situated in lat.  $48^{\circ} 30' 16''$  N., Long.  $53^{\circ} 2' 40''$  W. This is a fixed white Light, burns at an elevation of 92 feet above high water, and in favorable weather will be seen from E.N.E., seaward, to S.W., 15 nautical miles. Vessels bound Northward by keeping this Light open with the North Head of Catalina until Bonavista Light opens with Cape LeJean, will give the Flower Rocks an ample birth—or when coming from the Northward and bound for Catalina, by giving the N. Head a moderate birth, you will clear the Brandies Rocks by steering for Green Island Light. It was first exhibited in 1856. Henry Roper, Keeper; Peter Woods, Assistant.

*Cape Race Light*.—Exhibits a Revolving white Light, from sunset to sunrise. The light will be visible to seaward from N. E. by E., round by the S. E. and S. to W. The Light is elevated 180 feet above the mean water level of the sea, and may be seen in clear weather 19 nautical miles from a ship's deck. The tower is striped red and white vertically. It stands close to the old Beacon, which has been cut down. The Light house is in lat.  $46^{\circ} 39' 30''$  N., long.  $53^{\circ} 4' 30''$  W., and was first exhibited in 1856. Michael J. Halley, Keeper; George Simms, Assistant.

*Dodding Head, Great Burin Island Light*—This Light was put in requisition on the 3rd August, 1858, and is exhibited every night from sunset to sunrise. It is revolving, catoptric of the second order, producing a brilliant White Light every minute, with intermediate flashes, at intervals of twenty seconds, burning at an elevation of 430 feet above the level of the sea, and in favorable weather can be seen 29 miles—situated in  $47^{\circ} 0' 26''$  North Latitude,  $55^{\circ} 8' 43''$  West Longitude. Aust Sheppard, Acting Keeper; John Churchill, Assistant.

*Offer Wadham Island Light*—Was first exhibited on the 4th October 1858, and is lighted every night from sunset to sunrise. The Light is a steady, fixed lens-light, burning on a circular Brick Tower, 100 feet above the level of the sea, and can be seen in a favorable state of the atmosphere 15 nautical miles. Situated in Longitude  $49^{\circ} 36' 0''$  North—Longitude  $53^{\circ} 45' 0''$  West. Charles Prowse, Keeper; Henry Waterman, Assistant.

*Baccalieu Island Light*—This light is exhibited every night from the going away of daylight in the evening to the return

of daylight in the morning. The Northern end of the island is 52° 47' 50" N. and 53° 45' 00" W. dwelling a square of white with the red

The light is a fixed white Light, situated 443 feet above the level of the sea, in weather 30 nautical miles. The state of the atmosphere 26 nautical miles. The island bears N.N.W. from the Island than 8 nautical miles. Ryan Keeper; John

*Cape St. Mary's Light*—First exhibited 27th July 1860, and is a fixed white light, situated 443 feet above the level of the sea, in weather 30 nautical miles. The state of the atmosphere 26 nautical miles. The island bears N.N.W. from the Island than 8 nautical miles. Ryan Keeper; John

*St. John's*—Two lights, one fixed and one revolving, situated on the narrow neck of the island. The fixed light is situated 180 feet above the level of the sea, and is visible in clear weather 19 nautical miles. The revolving light is situated 180 feet above the level of the sea, and is visible in clear weather 19 nautical miles. The lights are situated in long. 53° 45' 00" W. and lat. 46° 39' 30" N. Sparrow, Keeper;

*Brunet Island Light*—First exhibited 27th July 1860, and is a fixed white light, situated 443 feet above the level of the sea, in weather 30 nautical miles. The state of the atmosphere 26 nautical miles. The island bears N.N.W. from the Island than 8 nautical miles. Ryan Keeper; John

*Harbor Grace Light*—First exhibited 11th September 1850, and is a fixed white light, situated 40 feet above the level of the sea, in clear weather it may be seen at a distance of 11 nautical miles. George Brown, Keeper.

t can be seen 26 nautical miles Doran, Assistant.

*Light*—First exhibited 11th of Beach at the entrance of Grace with a fair of a to bear W. or W. by S. a little on the starboard, on which at low water. It is situated in lat. W.; elevation above the water may be seen at a distance Keeper.

*Light of Catalina Harbor* 16° N., Long. 53° 2' 40" W. an elevation of 92 feet weather will be seen from 11 miles. Vessels bound with the North Head with Cape LeJean, with or when coming from a, by giving the N. Head Brandies Rocks by steers; first exhibited in 1855 Assistant.

*Light*—Two red Lights, from visible to seaward from S. to W. The Light level of the sea, nautical miles from a ship white vertically. It stands cut down. The Light 3° 4' 30" W., and was first Keeper; George Simms

*Light*—This Light was 1858, and is exhibited. It is revolving, casting a brilliant White Light, at intervals of twenty feet above the level be seen 29 miles—situated West Longitude. Assistant.

first exhibited on the light from sunset to sunrise, burning on a circle of the sea, and can sphere 15 nautical miles—Longitude 53° 43' W. Waterman, Assistant. is exhibited every night to evening to the return

of daylight in the morning. The Light House is situated on the Northern end of the Island—Latitude 48° 8' 51" North, Longitude 52° 47' 50" West—the tower is of brick, the keeper's dwelling a square building detached from the tower, painted white with the roof red.

The light is a catoptric first class Holophotal revolving white Light, showing a flash every twenty seconds. It is elevated 443 feet above high water, and can be seen in clear weather 30 nautical miles, and a lesser distance according to the state of the atmosphere. When the Southern end of the Island bears N.N.E., the Light will not be visible when nearer the Island than 8 miles. It was first exhibited in 1858. James Ryan Keeper; John Ryan, Assistant.

*Cape St. Mary's Light*—Was put in requisition on the 20th September, 1860; it is a revolving catoptric Light of the first order, producing alternately every minute a brilliant red and a white light, burning at an elevation of 300 feet above the level of the sea, and will be seen in a favorable state of the atmosphere 26 nautical miles from a vessel's deck; situated in 46° 49' 30" N. lat., 54° 11' 34" W. long. The tower is of brick, and on each side of which stands the dwellings of the Keeper and Assistant, the sides of which are painted white, roofs red. John Rielly, Keeper; William J. Collins, Assistant.

*St. John's*—Two red Lights are exhibited every night from sunset until sunrise, intended as leading marks for vessels entering the narrows. The lower Light on the roof of the Custom House—the other 400 yards in the rear, on a white post, within a few yards of the N. E. angle of the Congregational Church, and 180 feet above the level of the sea. These Lights will be readily distinguished from any other Lights in the town; and keeping them in a line bearing N. W.  $\frac{1}{4}$  W., will lead in the largest vessel clear of all danger. To serve as leading marks also during the day, the pediment of the Custom House has been painted white; this is to be kept in line with the upper lantern, also painted white. Exhibited 1st September, 1863.

*Brunet Island Light, Mercer's Head, Fortune Bay*—First exhibited 27th June, 1865. It is a powerful, flashing white Light, and attains its greatest brilliancy every ten seconds.—It burns at an elevation of 408 feet above the level of the sea, and in clear weather may be seen at a distance of 35 miles, and be visible in every direction from North round East and South, to W.N.W. Mercer's Head is a bold headland, and situated in long. 55° 59' 30" W., and lat. 47° 16' N. Martin Sparrow, Keeper; James Gaulton, Assistant.

*Harbor Grace Island Light*—The fixed Light for many years past exhibited at Harbor Grace Island, in Conception Bay, was discontinued on the 1st December, 1869. The Light at that station is now revolving, showing in every direction two white flashes, followed by one red flash. The interval between each flash in attaining its greatest brilliancy will be 30 seconds. This Light, in a favorable state of the atmosphere,

will be seen 25 nautical miles. It is situated in lat.  $47^{\circ} 42' 45''$  N., and long.  $53^{\circ} 8' 15''$ . Austin Oke, Keeper; Patrick Holman, Assistant.

*Ferryland Head Light*—First exhibited on the 1st October 1871. From sunset to sunrise a steady white Light, of the 3rd order, burning on a brick tower 200 feet above the level of the sea, visible in favorable weather 16 nautical miles. Ferryland Head Light is situated in lat.  $47^{\circ} 00' 58''$  N., and long.  $52^{\circ} 51' 07''$  W. The tower is of red brick; the keepers dwelling, detached from the tower, is painted white and the roof red. Michael Kearney, Keeper; Thomas Costello, Assistant.

*Gallantry Head, Island of St. Peter's*—The Fixed Light on Gallantry Head, (Island of St. Peter's), since the 10th August 1862, has been replaced by a Flash Light, with intervals of twenty seconds, and by one red flash after two white flashes situated in lat.  $46^{\circ} 45' 30''$  N., long.  $58^{\circ} 27' 0''$  W.; elevation above high water, 64 metres. Distance at which the Light is visible, 18 miles. The Light is hidden at the Northward by the high land of St. Peter's.

*Light at the South Entrance of St. Peter's*—Since 1st October, 1862, the entrance of the harbor of St. Peter's, called South Channel, has been marked by two small fixed Lights, one of which is a white Light illuminating three fourths of the horizon, and placed on the Battery—and the other a red Light on the plain at the north of the town. The white Light has an elevation of 11 metres, and is visible 6 miles. The red Light is elevated 19 metres, visible 3 miles distance. The line connecting these two Lights indicates the Middle Channel.

The position of the red Light has also been so determined that as soon as it is seen on the left of Cape Eagle, vessels coming from Columbiar in beating into the N.E. entrance will have nothing to fear from the shoals of Cape Rouge.

J. T. Nevill, General Inspector of Light Houses.

*Light Dues*—One shilling per ton on all vessels entering any port or harbor of the Colony, except coasting, sealing, or fishing vessels; but not to be levied more than once in any one year.—Sealing and coasting vessels—Sixpence per ton on registered vessels of 40 tons and upwards; Fifteen shillings per annum on all vessels less than 40 tons.

The 19th of Victoria, Cap. 5, Sec. 5, enacts—"That no greater sum than £25 sterling shall be in any year levied for Light Dues on any steamer or vessel entering any port of this Colony and no Steamer plying between Europe and any port of North America, and entering any port of this Colony as a Port of Call shall be liable to pay any Light Dues or other port charges except pilotage.

Routes marked thus \* are fortnightly during summer, and monthly during Winter months.

Newspapers posted in this country, when addressed to any place in the Dominion of Canada, F. E. Island, Bermuda, the United States or elsewhere, must be prepaid, by Mail, otherwise they cannot be forwarded. Foreign Newspapers re-posted for transmission to outports are charged one cent each, prepaid by stamp; unpaid 2 cents.

All correspondence addressed to the United Kingdom, United States, Canada, New Brunswick, Nova Scotia and Prince Edward's Island must be prepaid, or it cannot be forwarded.

#### INLAND POSTAGE.

For letters—Under  $\frac{1}{2}$  oz. - - - - - 3 cents.

Under 1 oz. - - - - - 6 cents.

3 cents for every additional  $\frac{1}{2}$  oz., prepaid by stamps

For book packets, pamphlets, magazines and periodicals, not exceeding three pounds in weight, transmitted by post within the Island are charged 5 cents for every quarter pound of their weight. The Pillar Letter Boxes are cleared at 9 a.m., and 2 p.m., for town delivery, every day, (Sundays excepted) and also, two hours before closing the mail by the Halifax Steamer. Newspapers dropped in the Pillar Letter Boxes will not be delivered.

#### PARCEL POST.

Parcels closed at the ends and sides may be posted at any Post Office in Newfoundland for conveyance to any other Post Office (not Way Office) in the Island, at a rate of Postage subject to the following conditions:—

1—No letter or letters shall be concealed.

2—The parcel shall not contain any explosive substance, glass, liquid or other matter, likely to injure the ordinary contents of the mail, under penalty of the forfeiture of the parcel.

3—The weight of the parcel shall not exceed 3 lbs., nor the size exceed one foot in length or breadth, or six inches in thickness.

4—Parcels must be prepaid at the following rates:—

Under  $\frac{1}{4}$  lb. - - - - - 5 cents.

Over  $\frac{1}{4}$  lb. and not exceeding  $\frac{1}{2}$  lb. - 10 cents.

Over  $\frac{1}{2}$  lb. and not exceeding  $\frac{3}{4}$  lb. - 15 cents.

And so on, adding 5 cents for every  $\frac{1}{4}$  lb., or fraction thereof.

5—The parcel may be registered on payment of a fee of five cents in addition to the postage.

6—If the name and address of the sender be written on the parcel, it will, if delivery should fail from any cause, be returned unopened to the sender on payment of an additional rate of 20 cents for the return conveyance.

7—The parcel should have the words "by Parcel Post," plainly written over the address. It should be well and strongly put up, and be legibly addressed to the Post Office address of the intended receiver, including the name of the dis-

trict in which the Post Office is situated. The following is an example of the mode of address recommended:—

Bolivia, Chili, Ecuador, Peru, Salvador, West Coast of South America, 48 cents per  $\frac{1}{2}$  oz.

Per Packet, via Halifax.—Halifax City, Bermuda, West Indies and United States, when posted in St. John's, 10 cents, and at Outports, 13 cents. Dominion of Canada, (except Halifax) and Prince Edward Island, 13 cents per  $\frac{1}{2}$  oz.

#### *Rule of Rating Letters by British Packet.*

For the United Kingdom, West Indies, Dominion of Canada, P. E. Island, and United States, under  $\frac{1}{2}$  oz. one rate; under 1 oz. two rates; under 1 $\frac{1}{2}$  oz. three rates, and so on adding one rate for every  $\frac{1}{2}$  oz.

Letters posted in Newfoundland for delivery at any place within the Island, are charged 3 cents for every  $\frac{1}{2}$  oz., if prepaid, and 6 cents unpaid.

By the Act 28 Vic., Chap. 2, all letters sent from this Colony, and all local letters deposited in any Post Office in the Colony for delivery or transmission within it, shall be prepaid by Stamps, or otherwise such letters shall be chargeable with double postage to the receiver.

Parties desirous of vending Newfoundland postage stamps, will be allowed a commission of five per cent. Stamps, in all cases, to be paid for in advance.

#### REGISTRATION.

Any Letters found to contain Coin, as well as any having the word "Registered" written upon them, which may be posted

in Newfoundland, will be forwarded charged with a double registration fee.

## MONEY ORDER BRANCH.

Thomas S. Dwyer, Superintendent.

Office hours from 9 a.m., to 4 p.m.

Money Orders are now interchanged with the United Kingdom, Dominion of Canada, and P. E. Island, at the following rates of Commission.

*Scale for United Kingdom*—Orders up to £2 stg., 1s. stg. from £2, up to £5, 2s.; from £5 up to £7, 3s.; from £7 up to £10, 4s.

*Scale for the Provinces*—Orders up to £5, 1s.; from £5 to £10, 2s.; from £10 to £15, 3s.; and from £15 to £20, 4s. No single order can be granted for more than £20. No halpence to be introduced in the Orders.

Business of Money Order Office closes one hour before closing the Mails by the Halifax Steamer.

## SYSTEM.

1—Money Orders are made out in forms supplied for the use of the money Order Offices.

2—Persons applying for Money Orders are recommended to use printed "Application Forms" printed for that purpose.

3—Place of payment of a Money Order may be changed, in accordance with instructions provided therefor.

4—Alteration of payee's name may be effected, by issue of new order and payment of commission thereon.

5—Applicants for Money Orders are expected to observe due care in the examination of the same, relative to filling and stamping; defect in Orders, when presented for payment, may cause difficulty and delay, for which the paying office is not to be held accountable.

6—Postmasters should be particularly careful to obtain from the person who presents a Money Order, whether the right owner or not, full information as to the Christian name, surname and address, of the party who originally obtained it, unless such party be a firm, when the name of the firm will suffice. *The only exception to this rule is*—When an Order is presented through the Bank, in which case it will suffice that the Order being properly signed, be also crossed with the Banker's name.

7—As, however, after once paying a Money Order, to whomsoever presented, the Office will not be liable to any further claim, the public are strictly cautioned,—

1st—To take all means to prevent the loss of the Money Order.

2nd—To be careful on taking out an Order, to state correctly the Christian as well as the surname of the person in whose favor it is to be drawn.

3rd—To see that Money (whose f

3rd.—To see that the name of the person taking out the Money Order is correctly known to the person in whose favor it is drawn.

8.—Payment of a Money Order must be obtained before the end of the sixth calendar month after that in which it was issued, otherwise a new Order will be necessary, for which a second commission will be charged; and if the order be not paid before the twelfth calendar month after that in which it was issued, all claims to the money will be lost.

Neglect of the foregoing instructions will risk the loss of the money, besides leading to delay and trouble in obtaining payment.

The Money Order Offices, are: General Post Office, St. John's; Post Offices at Bay Bulls, Bonavista, Brigus, Burgeo, Burin, Channel, Carbonear, Ferryland, Fogo, Greenspond, Harbor Breton, Harbor Grace, Placentia, Trepassey, Trinity, Twillingate.

9.—Postmasters should recommend the use of Money Orders for the transmission of money, in preference to such transmission otherwise.

### Suggestions to the Public.

Facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the Public, by careful attention to the following recommendations:—

Post all letters and Newspapers, &c., as early as practicable, especially when sent in large numbers.

When a number of newspapers are addressed to the same office, put them up in one parcel.

When a number of circulars are posted, tie them up in a bundle, with the addresses all in one direction.

Address letters, papers, &c., in a legible and complete manner, always giving the name of the Post Office; and if there be more than one Post Office of that name, the name of the district in which situated. In case of letters going abroad, the name of the country, as well as of the town and city, should be given in full. Letters, for example, intended for London, England, if simply addressed "London," would be forwarded to London, Canada West, and thus be delayed.

See that every letter, newspaper, or other packet sent by post, is securely folded and sealed. Every such packet has to be several times handled; and even when in the mail bag, is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break.

Fasten the covers of newspapers firmly, so as to prevent them from slipping out.

When dropping a letter or newspaper into a letter-box, always see that the packet falls into the box, and does not stick in its passage.

Never seal letters for the East and West Indies and other hot climates, with wax. Such a practice is attended with much inconvenience, and frequently with serious injury, in consequence of the melting of the wax, and the adhesion of the letters to each other. In all such cases use either wafers or gum, and advise your correspondents in the country referred to to do the same.

Never send money or other articles of value through the Post Office, except either by means of a money order or in a registered letter. Carefully secure every letter or packet containing money or value, first with gum and afterwards with good sealing-wax, on which mark the clear impression of a seal.

On posting a registered letter or packet, always obtain a receipt for the same at the office where posted.

When letters or papers are delayed or missing, at once communicate the fact to the Postmaster of the division in which is situated the Post Office at which the delay or missing letters were posted. In case of a missing letter enclosing value, state the exact contents, the exact address, and the office at which posted; the name of the person by whom posted, and the name of the person by whom received at the office. In the case of a delayed letter or paper, send the cover or wrapper in an entire state, in order that the place of delay may be ascertained by an examination of the post marks.

Trouble and loss occasionally arise out of the carelessness or dishonesty of parties employed in the Post Office service; yet instances are not wanting in which it has been shown to the satisfaction even of the complainants, that the fault at first attributed to the Post Office, in truth rested in other quarters.—Thefts by private hands, although very difficult of proof, have not unfrequently been brought to light; and it is greatly to be desired that those who suffer loss should, in the first instance, and while the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the lost letters or papers, and lose no time in communicating this information to the Postmaster. Indeed, generally speaking, it is only by careful enquiry into minute details that the offender can be detected, whether he be a servant of a Department or not.

The Post Office is a department which admits of constant improvement and expansion. The public, by sending to the Postmaster General, clear and correct information respecting faulty arrangements, may materially benefit the service. It must be remembered, however, that changes in machinery so extensive and intricate as that of the Post office, must be made cautiously and with much previous consideration.

Time is generally required to carry out any material change in postal arrangements; for even when decided upon, old con-

tracts, requiring of, and tenders of, before t

New Post Office ever it is ascertained can be accommodated collected to the Office is required by the Postmaster General conveniently situated the name of the office neighboring of the Post Office the taverns, and he be served and the other facts which applied for.

tracts, requiring notice of termination, may have to be got rid of, and tenders for new contracts invited by public advertisements, before the decision can take effect.

New Post Offices are established by the Department whenever it is ascertained that a sufficient number of inhabitants can be accommodated, and a sufficient amount of postal revenue collected to warrant such a measure. When a new Post Office is required, a petition should be addressed to the Postmaster General, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the settlement and the district in which it is desired the office should be established; the distance from the neighboring offices; whether at the sight of the proposed Post Office there is a village; the number of mills, stores, taverns, and houses thereat; the extent of the settlement to be served and the probable cost of the mail; together with any other facts which may form any ground for the accommodation applied for.

\*A large emigration, and houses at West end destroyed by fire, some years since, not rebuilt, is the principal cause of decrease in the population of St. John's.

It will be seen that the falling off of the population is much greater in the Western than in the Eastern Division.

†A large migration has taken place, chiefly to Fortune Bay, from Placentia and St. Mary's.

### Appendix.

The following notifications and appointments have been made since the foregoing sheets went to press:—

Jonathan Hickinan, to be a member of the Road Board at New Harbor.

Mr. P. Devereux, to be Consular Agent for the United States of America in Newfoundland.

Alexander Graham, Esq., Member of the House of Assembly for Trinity Bay.

George Vardy, (Hearts.Ease), to be a Justice of the Peace for the Northern District.

Dr. Robert White, to be a member of the Road Board for Trinity, North Side, to Ragged Harbor.

Kyran Maddigan, to be a member of the Road Board at Lamaline, in the room of John Pittman, resigned.

Rev. George Harrington, to be a member of the Road Board, Random Sound, Trinity Bay.

ERRATUM—Vice-Admiral Edward Gennys Fanshawe, and not Vice-Admiral Sir G. G. Wellesley, (as noted on page 71) is Naval Commander-in-Chief of the North American and West India Station.

## CABINET ORGANS.

## Celebrated Mason & Hamlin Cabinet Organs.

*These Instruments have been proved to be the "Best of their Class" Manufactured in any part of the world.*

1st—By universal satisfaction of parties who have purchased and used them.

2nd—By "Seventy-five Gold and Silver Medals," received at important Industrial Exhibitions in America.

3rd—By the First Prize Medal, awarded at the Paris Exposition, 1867.

4th—By the published Testimonials of the most eminent musicians in Europe and America.

5th—By the immense demand from various countries, which a supply, exceeding one hundred per week, cannot keep pace with.

*An Assortment of these Instruments may be seen at 319, WATER STREET. Inspection respectfully solicited.*

H. J. B. WOODS, Agent.
