SPECIAL MEETING OF TOWN COUNCIL

Meeting Held to Hear Report of W. W. White who was the Representative of the town before Public Utilities Board.

A special meeting of the Hartland Town Council was held in the Town Hall on Monday evening to discuss the report of Alderman Warren White who was the official representative of the town before the Public Utilities Board at their meeting in St. John. Aldermen W. B. Nixon, H. R. Hatfield and W. W. White answered the roll. The Mayor was in the chair. The mayor stated the object of the meeting. Alderman White was sent to St. John to present against the rates for electric current as charged to the consumer by the Hartland Electric Company.

Mr. White in reviewing events since his appointment last Monday stated that he had made a slight investigation Tuesday and found that the company was making no money and on the contrary they were losing. With this fact before him he was not in a position to attack the rates of the Hartland Electric Co. but he and Mr. Rutledge, who was the representative from Woodstock on the same mission decided that it was better to confine their attack on rates of the intermediate company. For the Carleton Electric and The Hartland Electric were not making more money than was just and right. They both made speeches before the board and asked questions which brought several things to view. When the Hartland Electric asked for a schedule of rates, the Utilities Board gave them the present rating and based that rate on a certain estimated sale of electricity. The Hartland Electric Co. has not sold one-third the electricity that rate was based upon. Then again their expenses were high considering the volume of business they were doing. They could not be asked to do business at a loss and they were losing money at the present time.

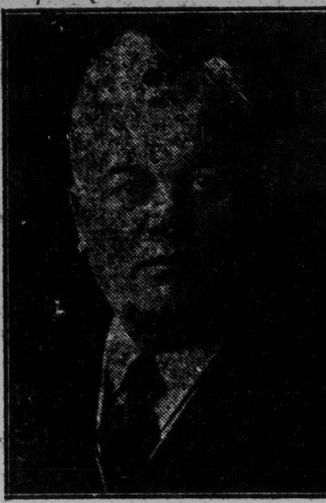

The Hartland Electric Company buys power from the Carleton Electric who in turn buy from the Gould Electric Co. at Bridgewater. The Gould Electric Co. buy from the M. & N. Brunswick who generate power in New Brunswick. The rate paid by the Gould Co. to the Maine & New Brunswick is 1 1/2 cents per K. W. H. straight. The Maine & N. B. were producing this power for 1 1/2 ct. per K. W. H. At the end of the year these two companies pooled their profits for they were essentially one and the same company. The situation was beyond the control of the Public Utilities Board as they could not regulate rates in Maine and the Carleton Electric and the Hartland and Woodstock Companies bought from the Gould Company, the Carleton Electric buying direct and the other companies buying from them. This made the rate to the Carleton Electric 1 1/2 ct. per K. W. H. for power and 3c for light. Thus the N. B. Companies were paying the profits of the producing company and the Maine distributing company when the power was generated in this province.

The representatives of the Hartland Electric at the meeting asked for a \$10.00 transformer rental and this together with the decision of the Board rates will be made known when the Public Utilities Board make their report on April 22. Moved by W. B. Nixon, seconded by H. R. Hatfield that the report be accepted and placed on file. Carried.

H. H. Hatfield as chairman of the Committee to call for tenders for the various town offices opened the tenders and read them to the council. These were laid on the table to be taken up at the next regular meeting. The next item on the docket was a discussion of the advisability of placing a new roof on the reservoir. The present roof is in bad condition and the shingles are all rotten. The sooner it is fixed the better.

Considerable discussion as to the kind of roofing that would be best to use and an estimate was given as to the probable cost of putting the roof in good condition. W. W. White moved that the roofing discussion be postponed for the present. Seconded by W. B. Nixon. Carried. Council then adjourned.

The ice in the St. John River finished its run yesterday after several starts and the river now is clear.

TO COMPLETE FUGSLEY'S WORK

Hon. Arthur B. Copp, Secretary of State, with the officials of his department, will, it is understood, carry on the work which was being done by the late Hon. Wm. Fuglesley, of investigating claims of Canadians against Germany for damages to or loss of property, as a result of the war.

W. C. T. U. ACTIVITIES

The members of the W. C. T. U. met in the Town Hall on Wednesday afternoon, March 25, and held a quilting 'bee'. About twenty ladies were present and five new members were added to the Society. Two quilts and a comfortable were made, and blocks for another quilt were sewn, all to be donated to the Home for Orphaned Children, St. John. Supper was served by the efficient committee and was enjoyed by all.

The W. C. T. U. is also engaged in various other good works, beside the active interest taken in temperance work. The sick are visited, and gifts of fruit, and flowers are sent by the Superintendent of the work for the sick, thus bringing cheer and comfort to those who are shut in.

Literature of various kinds is distributed around the town and copies of the law wherein the sale of tobacco to boys under a certain age is forbidden, are posted in prominent places.

The W. C. T. U. stands for purity and temperance in all things and may the blessing of the Heavenly Father be upon the band of noble women who are following in the path marked out by their devoted leader, Miss Frances Willard.

BARACA CLASS HOLD MEETING

Victoria Marks New Steamer's Arrival by Dinner to Pioneer of Coast Shipping

Group of Canadian Pacific Officials photographed on board the S.S. Princess Kathleen at Victoria, B.C.—Left to right, top row: W. H. Snell, general passenger agent, Vancouver; Charles Murphy, general manager western lines, Winnipeg; Captain R. W. McMurray, who brought the Kathleen from her home on the Clyde to her home port at Victoria; J. J. Scully, general manager, eastern lines, and Captain C. D. Nesbitt, marine superintendent B.C. Coast Services.—Seated: Captain J. W. Troup, manager of the company's B.C. Coast Services; Grant Hall, vice-president of the Canadian Pacific Railway, Montreal; and O. H. Temple, chief of motive power, Montreal. Above, Princess Kathleen in action, and the Canadian Pacific Marine Terminal Building, Victoria, B.C., a handsome new building which does not detract from the beauty of the water front.

The arrival of the new Canadian Pacific coastal steamer "Princess Kathleen" at Victoria, B.C., at the end of her lengthy trip from the Clyde, Scotland, where she was built, was made a public event by the residents of that city. Crowds met the ship when she steamed into the harbor, and the occasion was marked by a civic dinner to Captain J. W. Troup, manager of the Canadian Pacific British Columbia Coast Service, which was attended by two hundred citizens. The Mayor and aldermen of the city were present, as well as representatives of the Provincial Government. The company was represented by Vice-President Grant Hall, J. J. Scully, general manager eastern lines, and C. H. Temple, chief of motive power and equipment, who crossed Canada from Montreal to be present, and Charles Murphy, general manager western lines, Winnipeg. As a recognition of his many years' effort in contributing to the upbuilding of Victoria, Captain Troup was presented with a massive silver tray suitably engraved.

In returning thanks, Captain Troup told the history of the company's coastal steamship service since 1901, when he had taken over its management. At that time it represented an investment of about \$250,000, whereas, he said, it now amounted to well over seven million dollars, while its expenditures in Victoria for equipment and supplies amounted to \$43,000 monthly and Victoria's share of the monthly payroll was \$65,000. He told of the building up of the fleet, ship by ship, as growing trade warranted. Captain Troup concluded by remarking that the officers and men of the Canadian Pacific were

partners with Victoria and other Canadian cities in building up the tourist traffic and general trade of Canada, and that the future of the country could be assured by co-operation with the company in its national work.

Mr. Grant Hall, who represented President E. W. Beatty, told of the company's history and of its building as a national institution at the time of Confederation when it contracted to build the line and operate it in perpetuity. He told of the steady improvement of the property by the expenditure of many millions until it represented an investment of considerably over a billion dollars, and he referred to the company's reputation for efficiency and courtesy of its officials that has gone round the world. "The Canadian Pacific," he said, "is the largest contributor to the finances of the nation through taxation, and we expect to be judged and patronized on justification given in service."

Mayor J. C. Tondray, speaking in behalf of the city of Victoria, acknowledged the work done by Captain Troup and the company for Victoria and the Pacific Coast generally, while C. P. W. Schwengers, president of the Chamber of Commerce, in presenting the silver plate to Captain Troup, paid a tribute to the vision and determination of the men who had founded the Canadian Pacific. Dr. MacLean, Provincial Minister of Finance, spoke on behalf of the Government and referred to the company's war record which, he said, was one of the brilliant illustrations of the readiness of the company to co-operate for the public good.

The music and singing, both choir and congregational at the Presbyterian Church services is being much commented upon these days for the quality it shows, this is due to Choir Leader Wm. McElroy who seldom fails to have a solo, quartette, or duet for the evening service. The young people are showing a commendable interest in the music and singing of the church.

The shopwindows of Joseph Moscovitz this week are being commented upon by all the passers by. These windows were trimmed by David Moscovitz just back from Montreal and are in perfect taste. The goods on display are only a part of the Moscovitz spring stock, whose announcement appears in this week's paper. The windows are a temptation to go inside, and once inside you are bound to buy for the quality of the goods and the reasonable prices is a combination almost irresistible.

There is a feeling of optimism in the stores this week, business on the whole has been brisk, and everybody feels that when the snow goes then prosperity will arrive.

LETTERS TO THE EDITOR

Hartland, N. B., March 28, 1925.
The Editor Carleton Observer,
Hartland, N. B.

We have read with much interest letters from the Editor, the Farmers' Guide, also from T. W. Caldwell, M. P., in your issue of March 25th.

The Farmers' Guide is evidently working on statements taken from the reports issued by J. C. Manzer, Havana, Cuba, which statements we contend are misleading. We only wish that this investigation of the alleged combine was public and Mr. Manzer could be summoned here to give evidence, but as Mr. Manzer is in a foreign country, he can make any statement that he likes and cannot be brought into Canada to be investigated. Mr. Manzer who at one time was in our employ, is now selling potatoes in Havana, Cuba, for the McCain Produce Co. of East Florenceville. If Mr. Manzer was able to sell potatoes for the McCain group at anything like the prices mentioned in the Farmers' Guide, it would put the McCain shippers in a position to pay a great deal more money than they were paying and if he did not sell for the McCain shippers at the prices mentioned in The Farmer's Guide, he was certainly lax in his duty towards his shippers, who were paying for his services, in not securing the top prices warranted by the market in Cuba. So it works out that either the McCain shippers are making an exorbitant profit or Mr. Manzer was very inefficient in his selling methods. We find that the McCain shippers have been paying practically the same prices that we have throughout the season, and we believe that they have paid every cent that the market would stand, at all times, and have given the growers, with whom they did business a square deal and that Mr. Manzer in quoting the figures attributed to him, is guilty of gross misrepresentation, as we believe the prices mentioned were jobbing prices, and included duty, cartage, clearance and the jobber's profit and had no connection whatever with cif prices which are the prices at which the shippers sell.

Mr. Caldwell lays great stress on speech made by F. L. Estabrooks, M. L. A., in the local legislature at Fredericton. He also states that Estabrooks is a potato shipper. Now according to Estabrooks' own statement he stood by and let other shippers pay the farmers from 60c to 80c per barrel for potatoes, when he was selling potatoes that netted him \$1.80 per barrel at Sackville. Therefore, Estabrooks should have paid the farmer \$1.50 per barrel and then had 30c per barrel profit which we consider is a good substantial profit in the potato business. He said that he had trouble in getting space, but on taking the matter up with Premier King, arrangements were made whereby Canadian Government Marine boats would stop at Santiago for a three-thousand barrel shipment and this seems to be the market Estabrooks was shipping to and the same market that netted

him \$1.80 per barrel Sackville.

We believe the farmers of Westmorland County and other points in New Brunswick should ask Mr. Estabrooks why he did not take advantage of this space and pay the farmers \$1.50 per barrel for their potatoes instead of standing by and letting the potato shippers rob them as he intimates in his speech.

Mr. Caldwell states new barrels are selling in Nova Scotia for 38c. He must know that there is a heavy freight on empty barrels from Nova Scotia to Carleton County and he must know that when we are paying 50c a bunch for lath, we cannot pay the farmers sufficient amount of money for a barrel of stock, and make empty barrels less than 60c. Mr. Caldwell also states that he is in favor of higher duty on American potatoes entering Canada or duty equal to the amount charged on Canadian potatoes entering the United States. On looking over Hansards, we cannot find where Mr. Caldwell has even brought up this subject in Parliament, although this last few months there have been over 500 cars of potatoes shipped into Canada from the United States, and potatoes are being shipped every day into Canada. The new crop from the Southern States will soon be in the market, selling in competition with our old potatoes.

It would seem that Mr. Caldwell should earn his \$4,000 indemnity by spending his time in pursuit of his parliamentary duties in the interest of his constituents and the country generally and not by harassing reputable business firms with frivolous persecution.

We believe that Mr. Caldwell understands the potato business as he was one time President and Director of a company that handled potatoes and lost in one year for the farmers of this district over \$50,000.00 and there are law suits in the courts over this same transaction now. The shippers along the St. John Valley bought potatoes at the same shipping points and shipped to the same markets as Caldwell's company and made more profits during the same period than they have for the last two years.

Agriculture being the basic industry of our Country ought to be an industry that is always desirable, pleasant and successful operation. Prices on potatoes and other farm produce these last few years have put our farmers in bad condition, and the way out as we see it, if we are ever to get out, is in the co-operation of all farmers, labourers, store-keepers, banks, shippers of produce and our railways.

We need larger markets, better grading of farm produce, as quality is what sells today. We have got to get out of the old way of marketing our potatoes, butter, eggs, etc. You can never get anywhere by trying to down the other fellow. An example of this is going on over in Aroostook County, Maine, at the present time and we believe we also had an example a few years ago along the St. John River Valley. We have got to help one another to pull ourselves out.

If Mr. Caldwell thinks we are making a fortune out of the potato business, we would like to exchange his salary at Ottawa the last few years

Greer's Motor Mumbles

By ERWIN GREER
(President Greer College of Auto Engineering, Chicago.)

MAKING REPAIRS WITH SENSE INSTEAD OF DOLLARS

Out of the bitterness of my own experiences I am prompted to offer my readers who want maximum efficiency from their automobiles, the following advice.

Naturally an automobile operates at least running expense per mile when it is running in high gear with the spark advanced. Sometimes, however, this is not the case. When it is running slowly this condition is costly one. First, because spark is then too early which produces a spark knock. Second, because the power impulses are further apart and the action is therefore less even, power being consumed in overcoming the inertia of the flywheel which is very great and uneven torque.

Many drivers try to stay in high gear and keep the spark lever advanced all the way up the tangent as long as possible in climbing a hill. Under these conditions, when a change has to be made, it is necessary to drop into low gear, whereas second gear would have sufficed with a little more momentum. With the engine laboring, there is a great strain on all parts, and of course, too much gasoline is being wasted in this destructive effort.

Most drivers who do this, think they are economizing on fuel, because they figure their engines are turning over fewer times in a given distance and hence, less gasoline is being passed into the engine and burned. That is not so, many of them will be surprised to learn, for if a change were made into second gear, less gasoline would be consumed.

Have you ever watched the expert driver when his car starts to skid? He doesn't jam down his feet on the brake and accelerator. He simply throttles down the engine quickly and turns his front wheels in the direction the car is skidding. The rear wheels turning so slowly, in nine cases out of ten pull his car out of the skid. Then he picks up again and is gone before you realize he even started to skid.

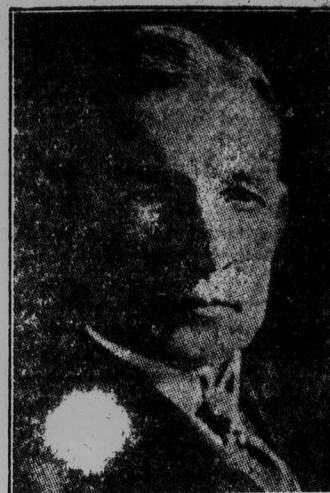

It's a mighty hard thing to do, that of keeping your foot away from the brake when a car starts sliding but it must be done or you'll end up in a bad smash. The car starts swaying, the occupants scream; you lose your head; down goes your foot to lock the brakes, then—crash!

You're afraid of skidding and so am I. The way I overcame it on my car was to go out on a rainy night on a wide, quiet street and slide around until I mastered the art. Such an experience was hard on the tires but was well worth while, because when the expected came, I was prepared.

for our potato profits for the same period. Why were three shippers of the St. John Valley separated out, and named as the alleged combine in Mr. Caldwell's affidavit, instead of taking all of the fifteen or twenty of the N. B. potato shippers that were paying the same price and selling at the same price in Cuba?

Thanking you for the space we remain,

Yours very truly,
HATFIELD & CO., LTD.

OBITUARY

John W. Orser
On Friday at midnight, March 27, there passed away at Cloverdale, one of the very oldest and most respected residents of Carleton Co., John W. Orser, at the advanced age of 85 years, 3 months, and 17 days, after a long illness that was borne with Christian fortitude and patience. He leaves to mourn the loss of a kind loving father and brother, the following: one brother, Charles of Florida; one sister, Mrs. Francis MacLean, of Bristol; two sons, Oakley and Allan of Cloverdale; and five daughters, Miss Georgia of Cloverdale, Mrs. Manzer Day of Jacksonville, Mrs. Rainsford Libby of Mars Hill, Me., Mrs. Herbert H. Hanson of Burt's Corner, and Mrs. Coley Craig of Cloverdale, besides a great number of relatives and friends.

Mr. Orser was a man of sterling qualities and was always active in the welfare of the Christian work, and will be very much missed in the country where he has lived so long. He was one of the very few men of Carleton County who carved his own farm out of the wilderness and continued to live on his farm till the end of his life. The funeral was largely attended, showing the esteem in which he was held by his neighbors. Service by Rev. H. V. Bragdon and Rev. Wellington Shaw. Interment at Union Cemetery of Cloverdale. (Woodstock papers, please copy.)

J. Bernard Bradley

Seldom has a death occurred under more sad circumstances, than at Pioneer on Tuesday, March 24th, at 11 a. m., when J. Bernard Bradley, son of Mr. and Mrs. James Bradley, passed away, aged 28 years, 10 mos., and 6 days, of blood-poisoning, after an illness of about ten days, during which he received the best medical attendance and all that kindly hands could do to alleviate his suffering and effect his recovery, but without avail. The last rites of the church were administered by Rev. Father Hayes. The funeral services were held on Thursday forenoon, March 26th, and were very largely attended. E. A. Savage was conductor and the pall bearers were Dan White, John Rice, Allan McAuley, Roy McAuley, Percy Prior, and John Savage. Interment was made at St. Bonaventure's Church, Williamstown, where Requiem High Mass was sung by Rev. Joseph J. Hayes, who also delivered a eloquent and fitting sermon. A beautiful cross of sweetheart roses and pink carnations with the name Bernard in gilt lettering was contributed by friends and neighbors of the deceased at Pioneer. Mrs. Stanley Savage also gave a cross of flowers and Mrs. Murray McAuley gave cut flowers. The deceased was very highly esteemed by all and the bereaved family have the heartfelt sympathy of the entire community in their sad loss. He leaves to mourn his loss his father and mother, two brothers and a large circle of other relatives. (Carleton Sentinel please copy.)

FACTS ABOUT TEA SERIES—No. 1

Tea as a Beverage

Tea first became known in China nearly 3000 years before Christ. In that country tea was greatly prized, both for its remarkable qualities as a beverage and for the almost religious ceremony attached to the drinking of it. Up to the sixth century, tea was used only for medicinal purposes. Even in the seventeenth century it cost \$25.00 to \$50.00 per pound. All tea caddies were constantly kept under lock and key. Today when even fine quality like "SALADA" costs less than one-third of a cent per cup, it is not surprising that the consumption of tea is increasing tremendously.

AN INTERESTING LETTER FROM
W. B. RIDEOUTTo the Editor Carleton Observer
Hartland, N. B.
Dear Editor:

Thinking that perhaps a few lines concerning my trip to the Pacific Coast might interest many of your subscribers I hereby submit the following which you may publish at your discretion:

Leaving Hartland on February 24th I arrived in Montreal the following morning and had a pleasant day looking around the great commercial metropolis of the Dominion, which, despite winter weather and an abundance of snow, throbs with the life and industry of the Canadian nation's heart.

I had been in Montreal on another occasion but was more impressed this time than before with the busy hum, the congested traffic, and the many signs of commercial expansion in Canada's greatest city. One cannot but be impressed with the growth of the city, with its enormous industries, its great stores, its magnificent churches and its renowned institutions of learning, charity and manufacture.

Travelling three nights and two days through the provinces of Quebec and Ontario, and through the states of Michigan and Minnesota, brought me to the next stop of my journey at the Twin Cities of St. Paul and Minneapolis where I had the pleasure of a four days' visit with my brother Frank who is an officer (Captain) in the United States army and who now holds the important office of Post Chaplain at the large military garrison of Fort Snelling, a beautiful reservation on the Mississippi River,

mid-way between the above named cities, about 4 or 5 miles from each. The Canadian cities and villages en route across the continent gives one the impression of a country of contented, yet hard-working people. And conversation with fellow-passengers deepens the impression that while there is an evidence of hard times everywhere, yet there are hopeful signs of a speedy recovery from the depression of the past few years, if the people retain their present attitude of industry, frugality and thrift. Canadian farmers are not the only ones to experience the depression of high taxes, low prices and inadequate markets. I found exactly the same condition of affairs in the mid-western states of Michigan, Minnesota and North Dakota.

My four days in the Twin Cities gave me opportunity of observing conditions of life in one of the greatest industrial and commercial centers in the great northwest. I was greatly impressed with the sight of the Washburn-Crosby Flour Mills, Gold Medal, ("eventually, why not now?") the greatest flour mills in the world; the great Minnesota Freight Transfer Depot with 18 miles of railroad track and sheds where all the freight of the northwest is handled, assorted and forwarded; the new St. Paul Ford Plant just being completed at a cost of some ten million dollars which it is said will employ some 10,000 men commencing about next May; the inter-city boulevard, with 12 miles of factories, wholesale establishments, automobile assembly station plants; and last but not least, the great Minnesota University with upwards of 10,000 students in all its departments of arts, science, law, medicine, etc., and with its new football stadium, costing over \$2,000,000.00 with a seating capacity of 65,000 persons. The State Capitol at St. Paul is one of the finest in America.

I was really amazed with the great work that brother Frank is doing as an army Chaplain; he is a man among men. During the three days that I was with him, including Sunday, he delivered addresses at the following places:

(1) Sunday morning at the garrison Guard House (military prison) to over 75 prisoners and guards. He was assisted in this early morning service by a group of about 20 young people from one of the missionary training schools of the city.

(2) Sunday morning worship at which soldiers and members of the 1,500 troops and 250 families were in attendance. This was as fine a religious service as one could expect to find even in any city church.

(3) On Monday an address to a

group of 40 recruits who had just entered the service in which he advised them of the necessity of becoming good, faithful, dependable soldiers and warning them of the temptations, snares and pitfalls which cause the downfall of so many young men who get into trouble.

(4) On Monday he also addressed a large body of ladies from the Guild of Catholic Women of St. Paul from the same platform with one of the most distinguished Catholic priests in Minnesota. His address on the subject of patriotism and civic responsibilities was most heartily received.

(5) At a noon day luncheon of some 250 business and professional men on Tuesday he spoke upon the subject of patriotic and religious work in the army. I sat between him and the Mayor of St. Paul at this luncheon. Mayor Nelson also gave a most forceful address; but Frank's address in no manner took second place to that of the City's chief executive, and was just as heartily received. If the people of Hartland and of his native county really knew of his great work for mankind—I say it with all modesty—they might be justly proud of the fact that Carleton County had given him to such a service. He is now in the midst of a campaign of raising the sum of \$75,000.00 for the erection of a new non-sectarian church at the military garrison which will likely be one of the finest churches in the entire U. S. army. Many people have a very erroneous conception of the conditions of living at an army post, just as I did before my visit. Few persons in Carleton County have as comfortable homes and none have better than the U. S. Government provides for its army officers. Frank has a ten-room brick house in the center of the garrison, with large, fully furnished rooms and two baths. It is heated with steam and lighted throughout with the most modern electric lights. An army orderly attends furnaces and assists Mrs. Rideout for two hours a day in the work of the house. Frank is librarian, mail officer, morale officer, and in charge of the night school for prisoners, with competent enlisted assistants in all of these various departments. The average N. B. miner's round of duties is humble indeed in comparison to the place which he occupies among the more than 2000 members of that large military garrison.

My trip of three days and three nights over prairies and through the snow-capped mountain ranges was all very interesting. Leaving Calgary one spends an entire day in the vast mountain area. Passing first the Three Sisters and coming to that beautiful summer resort of Banff where the C. P. R. has one of its most gorgeous hotels in Canada and on along the tumbling waters of the Bow River, until at last one reaches The Great Divide where the Yoho valley stretches out before the eye like a garden of the Gods. The engineering feat at Mt. Stephen where the C. P. R. has constructed the Spiral Tunnels and at Mount Sir Donald where the route has been shortened by a distance of many miles by means of the Connaught Tunnel, is a proposition to challenge the human imagination.

It is a matter also to cause reflection when one thinks of the little stream coming down from the mountain side dividing on the watershed, part flowing east and on to Hudson Bay through the Bow River, while the other part flows west becoming at last the mighty Columbia River and emptying its turbulent waters into the Pacific Ocean down west of Portland, Oregon. Otherwise, the trip was without incident excepting for the pleasant acquaintances with fellow-passengers along the way. Everybody seemed to be cordial and friendly and ready to discuss local and national topics of interest. I fell into conversation with many persons who were making short trips and some who had scarcely ever been more than 100 or 200 miles from their own homes in a life time. One learns much in making such a trip as this. The residents of every province and of every state have their own peculiar problems of production, transportation and marketing their goods. New Brunswick is not the worst country in the world. The people have their cares and anxieties but they are not without their rewards. It may be that I shall be very willing to return to the old farm in a year or so after having seen how other people live and after having heard about their many problems.

Vancouver is a great and growing city. It has grown tremendously since I was here for a couple of months six years ago. As a trans-Pacific exporting city it holds no second place as I learned on my trip on the splendid Chicago-Pacific Express of the famous Soo Line, on which I made this last part of my long journey. From Vancouver, where I am now visiting my sister Della (Mrs. Murry R. Cliff) whose husband is a wholesale lumber dealer, I go over to Wellington, Vancouver Island, where I will remain for perhaps a few months. My sister Mina, (Mrs. Owen B. Manuel) lives there, and her husband, for whom I expect to work for a while at least, is part owner and foreman in a large lumber and milling concern.

If this letter proves of any particular interest to your many readers, I may find time at some future date to send you a few lines more.

Very Sincerely
WILMOT B. RIDEOUT.

OUR POLYGLOT POPULATION

According to estimates of the Dominion Bureau of Statistics, the present population of Canada is 9,226,740—which is an increase of 438,257 since the last census was taken in 1921. These are classified as:

Canadian 6,832,747
British 1,065,454
Foreign 890,282

The figures covering the origin of people in the Dominion, with the exception of some of the smaller elements, are given as follows:

British 4,869,908
French 2,452,751
German 294,636
Hebrew 126,196
Indian 110,814
Russian 100,064
Ukrainian 106,721
Dutch 117,506
Austrian 107,671
Norwegian 68,856
Italian 66,762
Swedish 61,503
Polish 53,403
Finnish 21,494
Danish 21,124
Icelandic 15,876
Hungarian 13,181
Rumanian 13,470
Swiss 12,837
Greek 5,740
Chinese 39,587
Japanese 15,868
Negro 18,291
Syrian 8,282

The classification given according to the chief religions of the country is as follows:

Roman Catholics 3,389,636
Presbyterians 1,409,407
Anglicans 1,407,994
Methodists 1,159,458
Baptists 421,731

WHAT WM. PEACOCK, ASST. SECY. TREAS. POTATO ASSOCIATION OF AMERICA SAYS

THE ECONOMY OF PLANTING CERTIFIED SEED POTATOES
Good seed potatoes produce larger yields, tubers usually more uniform in size and shape, and the demand for such stock is better and consequently brings higher prices than that raised from common seed. It never pays to plant poor seed for such is always dear at any price.

Why plant from 12 to 15 acres of potatoes with ordinary seed if the same number of bushels of a better quality can be grown on 10 acres with certified seed? The writer can refer to authentic reports to justify the above statement.

It has been learned through crop surveys and farm cost accounting methods that approximately 100 hours of man labor and the same number of hours of horse labor are required to produce an acre of potatoes. Furthermore, horse labor means the use of equipment, and planting, spraying and harvesting machinery are expensive; also, it takes more seed and fertilizer to grow from 12 to 15 acres than 10 acres of potatoes. With these facts in mind it should not be difficult to figure whether it is more economical to plant certified or common seed potatoes.

Seed potatoes as well as commercial stock of the 1924 crop have been selling at low prices. Potato growers who have been planting ordinary seed, or who have had good seed which has become diseased, or who wish to grow a larger yield of potatoes per acre and of a better quality, should take advantage of the opportunity to buy seed at the present prices. Growers who live in a region favorable for good seed production and who can not financially buy enough seed for their 1925 commercial stock, should purchase enough certified seed for foundation stock even though they do not wish to produce certified seed for sale, and not wait till the last moment because the supply may be exhausted at that time.

ONTARIO WOMAN REGAINS HEALTH

Wants Other Women to Know About Lydia E. Pinkham's Vegetable Compound

Mount Forest, Ont.—"Before I took Lydia E. Pinkham's Vegetable Compound I felt weak and miserable, and had pains all through me. I was living in Ailsa Craig at the time, and one day a friend came in and told me her experience of using the Vegetable Compound and advised me to take a bottle, which I finally did. I began to get stronger and those pains left me. I am glad I found out about this medicine as I think there is none equal to it for women who have troubles of this kind. I cannot praise the Vegetable Compound too highly for the good it has done me. Whenever I know of a woman suffering I am glad to tell her of it."—Mrs. Wm. Ridsdale, R.R. No. 1, Mount Forest, Ontario.

Women throughout the Dominion are finding health in Lydia E. Pinkham's Vegetable Compound.

Natural drugs are used in its preparation—just roots and herbs—and it can be taken in safety even by a nursing mother. For sale by all druggists.

INTERNATIONAL WATERWAYS COMMISSION HELD MEETING AT VAN BUREN WEDNESDAY

Opposition Failed to Appear—Grand Falls Hydro Scheme Advocated by All—Hearing Adjourns For Time While U. S. Officials Prepare Case.

Van Buren, Maine, March 25—The meeting of the International Waterways Commission with representatives of various towns and other interested parties regarding the application of the New Brunswick Electric Power Commission for permission to dam the Saint John River for its hydro electric power development project at Grand Falls was adjourned this afternoon until a date which will be announced at the semi-annual meeting of the commission in Washington April 7.

G. H. Harkworth of Washington, representing the United States secretary of State, asked for a delay of 90 days in order that the American authorities could prepare their case and thoroughly survey the land likely to be affected. Delays were also asked by Attorney-General Raymond Felows, of Maine, and H. J. Hart of the Bangor and Aroostook Railway.

INFORMATION RELATIVE TO U. S. IMMIGRATION LAWS

Because of the wide-spread misunderstanding among Canadians, both in the United States and Canada regarding the present United States Immigration Laws relating to Canada, the Canadian Club of Boston, through its president, A. M. Johnson, has issued the following statement in an endeavor to make the essential points of the law as clear as possible.

The privilege granted to Canadians under the United States Immigration Laws of 1917 whereby Canadians have been permitted to come to the United States on a visit for a period of six months without the payment of head tax, is continued under the present United States Immigration Act, which became effective July 1, 1924.

Unfortunately this privilege has been taken advantage of. The law has been violated—often times—unwittingly, sometimes deliberately—by a large number of persons in that they agreed to return to Canada within six months but did not do so.

It is apparent that such persons do not realize the penalties they must inevitably incur for violating this temporary stay privilege. Under the present laws persons who come to the United States under this six months' temporary stay privilege, paying neither head tax nor visa are liable to severe penalties. They are as follows:

(1) After the expiration of their six months' stay they are liable to arrest and deportation to Canada and persons so deported are prohibited from re-entering the United States for one year.

(2) The head tax of \$8 and visa of \$10 cannot be paid in the United States, but such persons must return to Canada and appear before the United States consul of the district in which they reside and obtain a visa. They must also pay a head tax at the recognized point of exit in Canada. In the Maritime Provinces there are three: Yarmouth, Nova Scotia; Halifax, Nova Scotia and St. John, New Brunswick.

(3) No person may become a citizen of the United States or take out first papers who in entering the United States, has not complied with the United States Immigration Laws. If this has not been done one must return to Canada, pay the visa and head tax and thus legally re-enter the United States before making application for citizenship.

When persons are not absolutely sure of returning to Canada within the six months' period, it is strongly advisable to obtain visa and pay the head tax before leaving Canada. This will save a possible trip back to Canada.

Further it cannot be over-emphasized that the temporary stay privilege is a special concession to Canadians, which is not enjoyed by the people of any other country. That its continuance may not be endangered the laws covering it should be honestly complied with. Canada also enjoys another unusual concession in that its citizens are not placed under a quota. Were the continued violation of present laws to bring about a quota upon Canada, such as now exists with all other countries, it would be indeed very unfortunate. Only a limited number of Canadians would then be permitted to enter the United States each year. This might tend to impair the cordial intercourse between the two great countries.

Because of the number of times which the Canadian Club of Boston is called upon for information on this important question affecting so many of our own people, the Club feels that there is need for great publicity on this matter. It seeks in a friendly way to help Canadians, whose reputation for complying with the law is firmly established, and also the United States Immigration authorities who are anxious to have the fundamental features of this Law generally understood. To this end a special Immigration Committee has been appointed. All of its efforts conform with the vital purpose of this club which lies in promoting "friendly relations, based upon mutual understanding between all English-speaking peoples."

BATH

Bath, N. B., March 30—H. W. Craik, bridge inspector for Carleton County, reports that most of the local bridges will be repaired soon, beginning with the Bristol Bridge, which will be refloored this week. Last week on the South Branch of the Miramichi, an old bridge was torn down and rebuilt in one day. The millman was allowed to cross on the old bridge in the morning, and came back later in the day on the new one. This is a record. Some workmen!

Mrs. Newcomb Parker, after suffering for some weeks with internal troubles, went through an operation on Sunday. This was performed by Dr. McIntosh, assisted by Dr. Somerville. Operation successful, and Mrs. Parker at last report is doing as well as might be expected under the circumstances.

On Saturday the Junior class of the Baptist Sunday School met at the home of the Misses Winifred and Dora Barker and had a good time. William Gee is laid off work on account of blood poisoning in his hand, which occasioned severe pain.

The ice, which was very thin, went out quietly on Sunday and now we have no doubt that spring is really here at last.

Several more from this district have crossed the boundary in search of employment. Lynn Fulton has gone to accept a position in Mass.

Great commotion around the square on Saturday evening and some damage done to buildings, but towards the Sabbath it quieted down.

Mrs. Commis is visiting Mrs. John Commis who is improving. The same is said of Herbert Hay who had a severe attack of pneumonia. It is hoped that his constitution will enable him to recover soon. Mrs. Mary Secord is better and moving around once more.

Rev. G. A. Giberson conducted service Sunday morning at Methodist Church.

The friends of the late Michael Craik very much appreciated the obituary address delivered by Rev. Mr. Vallis of Florenceville.

EVANGELISTIC SERVICES AT THE HARTLAND BAPTIST CHURCH

We regret to announce that Evangelist Harry Taylor will not be able to come to Hartland to conduct evangelistic services as was intimated a few weeks ago. The Church however, will hold a series of such meetings beginning next Sunday night and the pastor of the church will lead the work. The support of every member of the church and congregation is urgently requested in this special undertaking.

Next Sunday the pastor will preach at both services. In the morning the subject will be "Faith and Practice," and in the evening "Watching Christ Die."

Beginning next Sunday the adult department of the Sunday School will take up the study of the Book of Acts. This will be an interesting subject and every man and woman should know the early history of the church. The subject for next Sunday will be The Pentecost Experience in Acts 2. We cordially invite men and women of all creeds to meet with us in these important studies.

East Coldstream, N. B., March 28—Mrs. Clifford Lamont is spending a few days with her parents, Mr. and Mrs. Robert Meap.

Oscar Hatfield took tea with Mr. and Mrs. Roy Cook Sunday evening. Mr. and Mrs. James Greer, Mr. and Mrs. Henry Sewell and Mr. and Mrs. Edmund Greer were dinner guests of Mr. and Mrs. A. C. Lund on Sunday.

Henry Sargefield and family have been busily engaged hauling logs to Smith's mill.

Clarence Greer and Miss Martha McKenzie were visiting at H. M. Foster's on Sunday last.

Our school is progressing nicely under the management of Mrs. A. C. Lund.

Ernest Shaw is night watchman at Smith's mill.

Mr. and Mrs. Benjamin Sewell and little son Clifford were guests of Mr. and Mrs. Edward Sewell last Sunday.

Mr. and Mrs. Manner Meap are cooking at Currie's mill.

We are all glad to know Mr. A. C. Lund has finished hauling his pulp to Peel.

Clarence Swin was calling on his sister, Mrs. Roy Cook last Tuesday. Our knitting circle assembled at Mrs. Benjamin Sewell's last Wednesday afternoon. A large number were present.

Emery Manuel took dinner with his sister, Mrs. Carrie Lund on Tuesday.

Ben Richardson and George Henderson passed through this place one day last week.

A number of friends gathered at A. C. Lund's on Tuesday evening for their usual prayer meeting.

George Ellis has purchased a new horse.

Mrs. Emery Kent was a guest of Mrs. Clifford Lamont at Mt. Pleasant one day last week.

Miss Fernie Ellis took tea with Mrs. Wint. Hatfield on Friday evening.

We are sorry to learn that many of the young folk of this place are leaving for Detroit soon.

We are all glad to see Herb. Ellis home again after a long winter's work at Island Falls, Me.

Lawrence Hatfield is still employed at Currie's mill.

KRAFT CHEESE

AVOID IMITATIONS

History or Legend?

One of the features of the great historical pageant of Devon at Torquay, was the use, in one scene, of the identical set of bowls with which Drake was playing when the Armada came in sight. These bowls are among the treasures of Torquay Museum.

There are people, however, who doubt their authenticity, or rather, the truth of the famous anecdote of Drake and his celebrated game on Plymouth Hoe. There is no contemporary account of the incident, which was described for the first time in Britain in an eighteenth century book. It is mentioned, however, in a Spanish political pamphlet published in 1624.

Quite Likely.

"When I was once in danger from a lion," said the explorer, "I tried sitting down and staring at him, as I had no weapons."

"How did it work?" asked his companion.

"Perfectly. The lion didn't even offer to touch me."

"Strange! How do you account for it?"

"Well, sometimes I've thought it was because I sat on the top branch of a very tall tree."

No Hero After All.

He had risked his life to rescue the fair maid from a watery grave, and, of course, her father was duly grateful.

"Young man," he said, "I can never thank you sufficiently for your heroic act. You incurred an awful risk in saving my only daughter."

"None whatever, sir," replied the amateur hero; "I am already married."

Would Have a Brogue.

The Victim—"And is this real Irish lace?"

The Clerk—"Madam, if that lace could talk it would be with a brogue."

Fresh Fish

When buying fish demand the best. We have it. Nothing but fresh-caught (no cold storage) fish handled.

Fresh Fillets, the new way of putting fresh cod on the market. One of the best dishes among fresh fish. We have them.

By the way, have you seen our price on shortening? Call, I think we can interest you. A choice line of meats always on hand.

B-H

for Achieving Home Beauty

Nothing can be more inspiring than a freshly painted home. Bright and immaculate, it seems to reflect the pure joy of living.

Paint brings beauty but even more than that, it protects and preserves and adds years to the life of valuable property.

B-H English Paint assures painting success. The first brush-dip tells its own story of quality. Absolutely pure and free from grit or lumps, it spreads with silky smoothness, leaving a trail of matchless beauty—that transforms the dull surface.

B-H English Paint

protects and preserves to an unusual degree. It spreads further—effectively—faster for gallon, than any other paint. Its lustrous film is air-tight. The sun cannot blister it. It is tough and unyielding yet elastic enough to expand or contract with the temperature. Therefore its beauty lasts and lasts.
