# The Glencoe Transcript.

GLENCOE, ONTARIO, CANADA, THURSDAY, MAY 15, 1924

Whole No. 2730

PRINTING THAT PLEASES  
The Transcript Press handles every  
line of Job Printing and will meet  
all competitors.

## BLACKSMITHING

Having leased the blacksmith shop of Isaac McCracken, north Main street, the same is now open for business in general blacksmithing and woodwork. Expert horse-shoeing a specialty. Your patronage is respectfully solicited.—W. J. SIDDALL

## IMPLEMENTS FOR SALE

Two cream separators, good shape; 2 two-horse corn cultivators; wagon, nearly new; hay loader; side rake; 3 mowers; dump rake; 2 binders; corn blinder. Good terms.—D. M. McKellar.

## FOR SALE

Three-burner coal oil stove with oven; also sewing machine.—D. C. McKenzie, Route 3, Glencoe.

## INCUBATOR FOR SALE

Large incubator for sale, or will trade.—J. Parke.

## PLANTS FOR SALE

Plants for sale — tomatoes, early and late cabbage, cauliflower and peppers; flowers—asters, salvia and verbena.—W. R. Sutherland, phone 81.

## RANGE FOR SALE

McClary's Pandora range, with six holes, water front, reservoir, warming closet and back; all in first-class shape; burns coal or wood; wonderful baker. Apply J. Weaver.

## PLANTS FOR SALE

An extra large stock of plants at the Dutton hot-house this season; all in good condition and ready for planting by May 20.—W. F. Kendall, prop.

## NOTICE

Parties wishing to gain entrance to dumping ground must secure key from Wm. McKellar or the townsman.

## CARD OF THANKS

The family of Mrs. James Walker wish to express their sincere thanks to their friends and neighbors for their kindness to them in their recent bereavement.

## FOR SALE

1 Chester sow and 7 pigs 6 weeks old; few bushels good apples.—H. B. Clananah.

## BOAR FOR SERVICE

Chester White 25084, sired by the 1,000 lb. sire Royal Prince, imported, 21795.—F. M. Siddall.

## MUSICAL INSTRUCTION

Am organizing a music class of beginners from 5 years of age up, using kindergarten method of class groups. Terms reasonable. For further particulars enquire Miss Margaret Morrison, Glencoe; phone 1111.

## HOUSE TO RENT

Nine-room house, hard and soft water, electric lights and fixtures, stable, henhouse and new wire run. Apply to Mrs. Ida M. Young, Glencoe.

## FOR SALE

Chevrolet car, good as new, run 2,427 miles. — M. Everitt, Route 3, Newbury.

## FOR SALE

Three yearling steers and 3 yearling heifers.—Crawford Allan, Route 3, Glencoe.

## FARM FOR SALE

200 acres; first-class farm and buildings. Will divide to suit purchaser—100 acres with buildings. Possession till October.—E. V. Thorncroft, Route 4, Appin.

## PAINTER AND PAPER-HANGER

For prompt service and satisfaction get J. A. Blackmore, Route 1, Walkers; phone Melbourne.

## FARM FOR SALE

Fifty acres at Woodgreen, on Longwoods Road, Mossa; well improved, with all necessary buildings. Apply to S. Whitfield, Route 1, Glencoe.

**MOSA FARM LOAN ASSOCIATION**  
will meet at Glencoe Wednesday, May 14; Monday, June 9; Monday, September 15; Monday, October 6. For information, long and short term loans, apply to President, Joseph Walker; Vice-President, R. Walker; Secretary-Treasurer, C. C. McNaughton; Directors—Charles Webster, F. J. James, D. A. Mitchell, A. Gardiner and R. H. Murray.

**FARM LOANS**  
Apply to V. T. FOLEY, 83 King Street, West, Chatham. Phone 180.

**GLENCOE LODGE, No. 133**, meets every Tuesday evening at eight o'clock sharp in the lodge room, opposite Royal Bank building, Main street. All brethren of the Order cordially invited to attend.—Russell Quick, N. G.; A. B. Sinclair, R. S.

## TOWNSHIP OF MOSA

### Court of Revision

Notice is hereby given that the first sitting of the Court of Revision for revising the Assessment Roll of the Township of Mosa for the year 1924 will be held in the Town Hall, Village of Glencoe, on Monday, May 26th, at 10 o'clock a.m.  
C. C. McNAUGHTON,  
Clerk, Township of Mosa.

## TENDERS

The undersigned will receive tenders up to May 16 for the janitor work of Burns' church, Mosa. Work to commence at once.—D. C. McTavish, Walkers, Secretary.

## EKFRID FARM LOAN ASSOCIATION

will meet at Appin March 4, April 15, June 10, August 5, October 7 and November 11. For information, long and short term loans, apply to President R. D. Coad, Vice-president D. F. Eddie, Secretary-treasurer Duncan McAlpine, Directors A. T. Irwin, Dan McDonald, Martin Johnston, James McKel, R. A. Finn.

## POULTRY WANTED

Call us at the McAlpine garage or McKellar House, Glencoe, and state name and phone number if you want our truck to call. We also buy all kinds of junk. Good prices.

## Sam Boom - Glencoe P. O.

### STRAYED

Strayed into the premises of the undersigned on or about the 1st of May, three calves. Owner may have the same by proving property and paying for this ad.—Archie Graham.

## Chick Prices Reduced

Better hatches enables me to quote very low price on chicks from my pens of heavy laying pure bred White Leghorns. All males pedigreed. Inspection invited. Write or phone for particulars and folder.—E. Brown, Route 2, Alvinston. Also custom hatching, eggs and pullets.

## WANTED

Cattle for grass, by the head.—Joe Reath, north half lot 15, con. 2, Ekfrid. Apply to Duncan Johnson, Appin.

## WANTED

New born calves; beef breed.—Arthur Ash, Route 4, Glencoe.

## FIELD CROP COMPETITION

The Mosa & Ekfrid Agricultural Society will conduct the regular field crop competition in Dent corn, and will also conduct a special field crop competition with O.A.C. No. 72 oats, which is known as the combined field and threshed grain competition. Prizes will be awarded on the basis of combined score on crop in field and threshed grain. Four kinds of corn to be competed for—Wisconsin No. 7, Bailey, White Cap Dent and Golden Boley.  
Entries for oats must be made with the secretary not later than May 26, 1924, and for corn not later than June 15, 1924.  
R. W. McKellar, Secretary.

## \*WEAVING

Better get your Rag Rugs, Carpets etc., before the spring rush. Rugs for sale.—Mrs. M. M. Bulman, R. R. 5, Bothwell.

## VILLAGE OF NEWBURY

### Court of Revision

Notice is hereby given that a Court of Revision for hearing and determining appeals against the Assessment Roll of the Village of Newbury for 1924 will be held in the Town Hall, Newbury, on Monday, the 26th day of May, 1924, at 7.30 p.m., of which all persons interested are required to take notice and be governed accordingly.  
ANNIE LAURIE TUCKER, Clerk.

## TOWNSHIP OF EKFRID

### Court of Revision

Notice is hereby given that the first sitting of the Court of Revision for the hearing of appeals or complaints against the assessment roll for the Township of Ekfrid for the year 1924 will be held in the Town Hall, Appin, on Thursday, the 22nd day of May, 1924, at the hour of ten o'clock forenoon. All persons interested take notice.  
A. P. McDOUGALD,  
Township Clerk.  
Ekfrid, May 12, 1924.

## VILLAGE OF GLENCOE

### Court of Revision

Notice is hereby given that a Court of Revision for hearing and determining appeals against the Assessment Roll of the Village of Glencoe for 1924 will be held in the Town Hall, Glencoe, on Monday, the 26th day of May, 1924, at the hour of eight o'clock p.m., of which all persons interested are required to take notice and be governed accordingly.  
CHAS. GEORGE, Municipal Clerk.  
Send in the local news, and send it in early.

## DISTRICT AND GENERAL

A joint picnic of the U. F. O. and Grangers of Elgin and Middlesex will be held at Pond Mills on June 3rd. Bears in the Bruce peninsula are playing havoc with the flocks of sheep and lambs.  
London Methodist Conference will be held at Windsor this year, opening Thursday, June 5th, and concluding Tuesday, June 10th.  
The price of gasoline at Strathroy has been hovering around 25 cents per gallon for the past few weeks as a result of a war between local dealers.

Sugar refiners made a further reduction in prices at Montreal last week by 10 cents per 100 pounds, and prices are now \$2.10 per 100 pounds below the figures of a year ago.  
A Swedish chemical engineer makes a thick fog with a two-foot machine which spreads smoke blays, fields over orchards, gardens and parks, to prevent damage by frost.

Thamesville council have decided to enforce the curfew bell in that village. The bell will be rung at 9 o'clock, after which all children under sixteen years of age must be off the streets.  
Six men resident in the vicinity of Bothwell appeared in police court there on charges of failing to have their 1924 auto markers. They were released on suspended sentence upon payment of costs.

The death of four cows on the farm of Lorne Kitching, on the 12th line of East Zorra, within three days, has caused somewhat of a sensation in the district, inasmuch as it has been found that the cause of death was ptomaine poisoning. Dr. S. B. Atkinson, of Embro, is of the opinion that the poisoning resulted from drinking the water in the river. Poison was being placed in the river in the form of refuse, he said.  
A lady carrying a little dog in her arms was riding in a bus that went along Park Lane, London. All the way up she worried the conductor to know whether they had come to No. —, mentioning a house nearly at the top. When they reached the number the conductor stopped the bus, thinking the lady wished to alight there. Instead of doing this, however, she went to the door of the bus, and, holding up the dog, said: "Look, Fido, that's where your mother was born!"

Figures compiled by the Dominion Bureau of Statistics show a slight decrease in the number of divorces granted in Canada in 1923. Whereas in 1922, 544 divorces were granted in the Dominion, the second largest number on record, the figures for 1923 show a decrease of 39, of 7.2 per cent., to 505. The slight decrease in divorces granted in 1923 from the previous year, followed by the more marked decline during 1923, may indicate that the wave of divorce due to the war has passed its crest.

## Is next door to each customer

A clever manufacturer in a small town found he often lost repeat orders from distant customers because he had no one on the ground to get them. So he supplied each of these good customers with a card reading:—  
The H. W. Marks Co. of Deepdale is authorized to telephone orders to The Blank Mfg. Co., Springfield, and deduct the cost of the message from our next invoice. Call Springfield 156. Our telephone service is organized to give you as good service as if we were next door to your office.  
(Signed) John L. Black.  
He says it works fine. Try it.

Every Bell Telephone is a Long Distance Station.

## DEATH OF MRS. MacKINNON

Mrs. Grace MacKinnon passed away at the residence of Duncan Graham, third concession, Ekfrid, on Saturday, May 10th, aged 70 years.

The late Mrs. MacKinnon was well known and highly esteemed in the community, where she had spent practically all her life, and was particularly active in church and benevolent work, being for many years a consistent member of the Presbyterian church. She was a daughter of the late Donald Graham, who for years was a prominent farmer in South Ekfrid and afterwards a citizen of Glencoe where he was a member of the municipal council for four years and subsequently reeve.  
The funeral service was conducted by Rev. D. G. Paton, minister of the Glencoe Presbyterian church, at the home of her cousin, Duncan Graham, Ekfrid, on Monday afternoon, and interment was made in Oakland cemetery.

## WOMEN'S INSTITUTE

Summer meetings of the West Middlesex Women's Institute will be held at Strathroy, Tuesday, May 20; Napier, Wednesday, May 21; Kerwood, Thursday, May 22; Delaware, Tuesday, May 27; Appin, Wednesday, May 28; Newbury, Thursday, May 29; Wardsville, Friday, May 30.

The special speaker for these meetings will be Mrs. M. L. Woelard, of Toronto, who is a specialist in canning of fruit and vegetables. Her exhibits have been much admired throughout Ontario and Great Britain. She has been a member of the demonstration lecture staff in sewing and her practical knowledge in various lines of women's work gives a fund of valuable information for the Institutes she visits. Her subjects are as follows: "The Principles of Good Dressing"; "Sewing, Fitting and Drafting—Making a Model"; "Art of Needle Work, Its Meaning and History"; "Selected Methods in Canning Fruit and Vegetables"; "How the Community Can Make the Fall Fair a Success"; "A Trip Through England, Scotland and Other Countries."

## WEST MIDDLESEX BASEBALL LEAGUE SCHEDULE, 1924

May 14—Ilderton at Appin.  
May 16—Fernihill at Melbourne.  
May 17—Strathroy at Delaware.  
May 19—Appin at Fernihill.  
May 19—Melbourne at Delaware.  
May 19—Ilderton at Strathroy.  
May 23—Strathroy at Appin.  
May 23—Melbourne at Fernihill.  
May 27—Ilderton at Melbourne.  
May 27—Appin at Delaware.  
May 27—Fernihill at Strathroy.  
May 31—Fernihill at Ilderton.  
May 31—Delaware at Melbourne.  
June 2—Melbourne at Appin.  
June 2—Delaware at Fernihill.  
June 2—Strathroy at Ilderton.  
June 6—Appin at Melbourne.  
June 6—Ilderton at Delaware.  
June 7—Strathroy at Fernihill.  
June 10—Strathroy at Melbourne.  
June 13—Delaware at Appin.  
June 14—Melbourne at Ilderton.  
June 16—Fernihill at Appin.  
June 17—Delaware at Strathroy.  
June 20—Appin at Ilderton.  
June 21—Fernihill at Delaware.  
June 24—Melbourne at Strathroy.  
June 28—Ilderton at Fernihill.  
July 5—Delaware at Ilderton.  
League secretary, Edgar Weid, Delaware; president, H. Galbraith, Appin.

The Attorney-General has given instructions that the digest of the new Pharmacy Act is to be printed and forwarded to all druggists in the province in preparation for the time when the new measure comes into force. The main provision of the new law is that it provides that all druggists must take out a license from the Ontario License Board before they can store, handle or sell alcohol or liquor. Under the new legislation the penalties are very much heavier. Violation of the measure will subject the offender to a fine of \$2,000, with or without imprisonment. In the case of incorporated companies the maximum penalty of \$2,000 becomes the minimum, or may be made as much as possible at the discretion of the magistrate.

An interesting dispute between the County of Middlesex and the Township of Delaware has arisen as a sequel to the failure of the Home Bank. The county in error overpaid the township to the extent of \$800 last year on account of school grants. The error was not discovered by either party until after the failure of the bank, which carried the money with it. Now the township maintains that the money, though banked to the credit of the township, actually got there through the error of the county, and the township is refusing to make restitution. The county now proposes to adjust its loss by deducting \$800 from the township grant this year.

## VICTORIA DAY IN GLENCOE

Business Men Are Observing the Holiday on Monday, May 26th

A canvass of the business men of Glencoe has been made with the result that the majority of them are in favor of observing Victoria Day on Monday, May 26th—instead of on Saturday, which is always the principal business day of the week. The public are therefore advised that Glencoe business places will be open as usual on Saturday, May 24th, and closed all day Monday, May 26th.

## ACTION OVER AUTO COLLISION

At the division court in Glencoe last week one of the cases heard was that of D. M. Martin, of London, against Joseph Simpson, of Mosa township, for a claim of \$82 damages alleged to have been sustained by plaintiff's car in a collision with the car of defendant. Judgment was given for \$50 and costs. The collision occurred on the hill west of Strathroy one day last winter, and was due to the extremely bad condition of the highway. Defendant, though not acknowledging full liability, had offered to settle for the damage done, but considered the claim of plaintiff excessive, and that \$15 would have been ample compensation.

## REVENUE OF POST OFFICES

Following is from the statement of the Postmaster General of Canada, showing the revenue of the different post offices in this district:—Thamesville, \$5023.42; Alvinston, \$3935.93; Blenheim, \$8766.98; Bothwell, \$4066.32; Dresden, \$6664.22; Duart, \$259.84; Florence, \$1628.11; Glencoe, \$5668.29; Highgate, \$2359.48; Kent Bridge, \$597.56; Newbury, \$1641.15; Northwood, \$1016.77; Rodney, \$4305.25; Tupperville, \$944.78; Wardsville, \$1171.20.

## BURNS' CHURCH W. M. S.

The W. M. S. of Burns' church, Mosa, met in the church on May 7th. Mrs. D. W. Munro and Mrs. Robertson led in the devotional exercises. Mrs. John Strachan, of Glencoe, was present and gave an interesting and instructive discourse on the work of the W. M. S. in the foreign and home fields. She also extended an invitation to attend the district convention to be held at Tait's Corners on June 10th, at which Mrs. Gault, of Formosa, will speak.

## FAREWELLED IN ADELAIDE

Strathroy Age-Dispatch:—On Monday evening of last week a farewell party was held at the home of Mr. and Mrs. Herman A. Clark, Adelaide. About ninety friends and neighbors gathered to spend a social evening with them before their departure to Glencoe, where Mr. Clark has purchased a creamery. The following address was read to Mr. and Mrs. Clark and family:—On learning of your intended departure from our midst, we, your friends and neighbors, take this opportunity of spending a social evening with you. For more than five years you have tolled with us. By your honesty and through the production of a very high grade of butter, you have made a name for yourself and for the Adelaide creamery. We are sorry to lose you and your family. Those smiling little faces will be missed by everyone. But our loss will be somebody else's gain. As a slight token of our esteem, we would ask you to accept this clock and purse. We hope that they may be of use to you and a remembrance of friends in Adelaide.

## THE WILL TO SAFETY

In a thoughtful address delivered before the recent Safety Convention in Toronto, Dr. H. J. Cody used a phrase that will linger in the minds of those who heard him. That phrase was "the will to safety." We have all heard of "the will to power" and Dr. Cody's desire was to persuade both management and men to think safety and achieve it.  
The reports received so far in 1924 by the Workmen's Compensation Board indicate that 18,710 accidents have been reported during the first four months of the year and that the total compensation awarded by the Board in the same period has been \$2,071,058.60. This is a very large sum and, with the constant desire of everyone in the country to reduce costs, appears to offer a legitimate point of attack in the effort to reduce unnecessary expenses. The safety movement is largely educational in its methods and it, by intensive work in our industries, the will to safety can be developed, there will be fewer accidents.

A Chicago woman is making a collection of cook books. She has already accumulated over a thousand and may have to provide an annex for the pie and pickle sections.

## GLENCOE HORSE SHOW

Preparing For This Annual Event on Wednesday, June 11

The annual horse show and race meet under the auspices of the Mosa & Ekfrid Agricultural Association will be held this year on Wednesday, June 11, at the Agricultural Park.  
The races will be a 2.15 trot or pace, 2.25 trot or pace and 2.50 trot or pace, with purses of \$300 in each case.

The horse show includes good cash prizes, to be divided first, second and third, for carriage and roadster, single and double; high stepper, saddle horse and lady drivers. Entry blanks and further information may be had on application to the secretary, R. W. McKellar, Route 2, Glencoe.

## METHODIST ANNUAL MEETING

At the annual meeting of the congregation of the Glencoe Methodist church held last Wednesday evening very encouraging reports were read from every organization within the church. The Women's Missionary Society, including the Mission Circle of young ladies and the Mission Band of juniors, raised nearly \$500, while the Ladies' Aid raised over that amount. The Sunday School and Young People's League also did splendidly. Possibly, however, that which caused the greatest rejoicing was the prospect of closing the financial year for the official board clear of all indebtedness. The church is well organized and looking forward to another happy year of work well done. After hearing the reports the ladies served lunch.

The members of the official board for the ensuing year are as follows: Stewards—R. C. Twiss (recording), J. N. Currie (envelope), Hugh McCutcheon, Dr. Mumford, W. H. Reycraft, Thos. Stinson, C. H. Phipps; society representatives—C. O. Smith, B. F. Clarke, Thos. Henderson, George McCallum, Richard Reyecraft, George Precious, John Hayter; district visitors—Alfred Quick, Mrs. Wm. McCutcheon, Mrs. Bert Gould, Mrs. Jas. Treastain, Alex. Pole, Thos. Jones, G. W. Sutton, Harold Bechill, Alfred Squire, J. W. Smith, David Reeves, Dan Treastain, Norman McCutcheon; Sunday School superintendent, C. G. Yorke; president of Young People's League, Milton Reyecraft; president of W. M. S., Mrs. Yorke; president of Mission Circle, Lila Traver; superintendent of Mission Band, Mrs. Reeves; president of Ladies' Aid, Mrs. J. W. Smith.

## SANILAC PIONEER DEAD

Andrew Phillips, one of the early pioneers of Sanilac county, Michigan, died at his home on the Forrester road early Wednesday morning, April 23rd, aged 84 years. He had been in failing health for the last few years but was only confined to his bed for a short time before his death. Mr. Phillips was born in Ekfrid township, Ontario, and came to Forrester when 20 years of age. He leaves a wife, one son and four daughters to mourn the loss of a loving husband and father. He is also survived by one brother, William, of Port Huron.  
The funeral, held from the Custer M. E. church, was one of the largest ever known here, many friends coming from far and near to pay their last respects to one who was well and favorably known. The floral offerings were numerous and beautiful. Burial was in the Downingtown cemetery and service was conducted by Rev. Mr. Burcham, of Sandusky.—Decker's Recorder.

## SCHOOL REPORTS

S. S. No. 3, Metcalfe  
IV.—Christine Winter 79.7 (honors), Fred Denning 56.4, Jean Goldrick 39.1.  
III.—Lloyd Anthony 56.6, Annamoe Winter 45.6, Cecil Winter 44.6, Edwin Winter 39.1.  
II.—Kenneth Bowly 65.6, Donald Nevin 55.8, Edith Mitchell 52, Doris Anthony 52, Clarence Winter 50.8, Evan Goldrick 49, Harold Goldrick 46.2.  
Edna L. Poole, Teacher.  
U. S. S. No. 4, Aldborough  
Jr. IV.—Emerteen Simpson 77.  
Sr. III.—Fern Simpson 79, Donald Simpson 76, Frances Simpson 73, Elliot Woods 73, Gerald Dymock 63.  
Jr. III.—Helen Simpson 71.  
Sr. II.—Margaret Tait 66, Jim Tait 63, Catherine Simpson 60, Doris Godley 60, Douglas Simpson 60.  
I.—Bandeens Dobson.  
Primer.—John Aldred, Jack Dymock.  
N. Campbell, Teacher.

While attempting to climb up the side of a stoneboat which was left standing against the fence on the farm of E. Spence, near Cramlin, Margaret Snell, aged three years, pulled it over on her, killing her instantly.

# RED ROSE

For particular people—  
Roasted and packed same  
day in airtight cans

Address communications to Agonomist, 73 Adelaide St. West, Toronto

## SUMMER SPRAYING AND DUSTING

It is rank foolishness to plant potatoes unless you are prepared to spray them. The potato disease is a fungus, the minute spores of which float about unseen in the atmosphere during the late spring and summer. These spores alight wherever they can, but whether or not they happen to rest on the potato foliage they can develop only under particular conditions, warmth and moisture each being an essential factor.

The potato plant is the congenial host of these spores, and when they reach the leaves or stems they lie inert until the required conditions prevail, when they immediately develop slender threads which enter the tissues of leaf and stem, and as soon as this happens the fungus has installed itself in a fortified position.

What is necessary is that before the spores have an opportunity to secure themselves, the whole surface of leaf and stem should be covered with a chemical film against which the fungus cannot battle. Therefore, in order to make sure of success, the potato plants must be sprayed several times throughout the season.

In addition to disease there are a number of insects ready to prey upon the potato unless they are held in check. These insects are all of the chewing or eating kind, and we can fight both disease and insects by using a combination mixture, such as lead arsenate and Bordeaux. Spraying first when the plants are six inches high, and continuing at regular intervals of two weeks, we can check disease, also potato bugs and flea beetles.

The commercial grower prepares his own Bordeaux-arsenate mixture at home, but where only a limited quantity is necessary for the home gardener, there are reliable pastes on the market.

## SAFEGUARDING THE ONION CROP

On some soils and in certain seasons the onion crop may come through safely, but on the other hand the plants are liable to be attacked by the onion fly, or if they escape that scourge, a visit from thrip is always to be feared.

To prevent the fly from damaging the crop, mix one cupful of kerosene in a pail of sand and strew it along the young plants, or spray with kerosene emulsion.

The emulsion is prepared by mixing three pints of kerosene and half a pound of soft soap—or whale-oil soap—with one gallon of boiling water, mixing thoroughly by churning with a hand pump, and adding seven gallons of warm water when the onions are young, and six gallons when they are forming bulbs.

The spray should be applied in the form of a dense mist, repeating at intervals of two or three days, and always after heavy rains.

Another method is to dust the plants with lime and flowers of sulphur, mixing one part of the latter in six parts of lime.

Onion thrip may be present among the plants for some time before its presence is discovered. The thrip is such a small microscopic insect, but in spite of lack of size it can ruin the crop if not checked. The spray used may be either kerosene emulsion or nicotine. Once a week is not too often to spray.

Tomatoes are subject to certain diseases such as blight, represented by the sudden wilting of the plants. Any plant affected in this manner should be dug up and burned. Bordeaux mixture will help to keep the disease in check. Fruit rot as it appears on the blossom end of the tomato fruit is a bacterial disease; sometimes all the fruit on the plant will be affected. To prevent the above and other troubles, it is advisable to spray the plants with Bordeaux just after they are planted, and two more applications thereafter at intervals of ten days.

## A DOUBLE-BARRELED WEAPON

Cucumbers and melons are subject to the wilt disease. Troubled quite extensively at one time with the wilt disease, we now have practically eliminated the disease by regular spraying with Bordeaux. Start with a Bordeaux-arsenate spray as soon as the vines begin to run, repeating at regular ten-day intervals, and it will take care of both insect pests and disease. Aphids are to be feared when they find lodgment on the melon vines, for as they work on the underside of the leaves they are difficult to get after.

ISSUE No. 20—24.

## POULTRY.

We all agree that green feed for the layers is essential in winter, but I'm afraid we quite forget it is equally necessary in summer. And there comes a time in late summer when vegetation is not so green and plentiful.

Maintaining a crop of green feed all during the summer and early fall not only aids the birds by furnishing them with a constant supply to eat, but it helps to keep from contamination the ground upon which the chickens are running.

Where birds are allowed the run of the farm this problem is not so keen as where they are confined. The birds will get a sufficient supply all summer where there is some damp portion of the farm. There comes a time, however, when the growth becomes woody and not available. This is where the following suggestions for a permanent supply of green feed will fit in.

If possible, some permanent sod should be provided. Alfalfa or clover, especially the former, is desirable. Where it is not possible to maintain such a permanent sod other arrangements may be made. Green feed may be provided by putting in a succession of crops.

To allow the birds to run outside and at the same time provide green feed it is necessary to have a double yarding system. Under such a system one yard is growing a green crop while the birds are feeding in the other; when the green crop is entirely consumed the other should be ready to take its place, and so on.

The following rotation may be used in sections where, in general, the growing season is not very long.

Yard A—April 1, oats and peas; June 1, birds feeding; Aug. 1, soy beans; Oct. 1, birds feeding.

Yard B—April 1, birds feeding on fall-planted crop; June 1, buckwheat; Aug. 1, birds feeding; Oct. 1, wheat and rye.

These dates may vary two weeks either way, depending upon weather conditions and climate, and the crops may vary some with the locality. The main idea is to get something in that will make a fair growth and will supply green feed for the birds. The crops need only be three or four inches high—just so the birds can get some green feed.

Another purpose that green feed serves is the supplying of vitamins, necessary alike to old birds and young.

The question of green feed in the summertime brings up another, namely, the cultivation of the land to rid it of worms.

Whenever these pests pop up it is a good plan to keep the birds confined to the houses, closing them up according to the recommended methods and removing and burning the litter at frequent intervals, at the same time plowing up the land on which the birds are to run later and liming it at the rate of two tons of lime to the acre. The longer the birds can be kept off the land the better, but in the meantime a crop of some sort can be grown on it.

If green feed can be supplied all during the summer to keep the birds in shape and if plowing and liming can be done occasionally to keep the land in shape, good results ought to follow.

Remember this about growing green crops. They keep the birds in good health; they help to maintain egg production; they supply vitamins to the birds; they maintain proper sanitary conditions by keeping the soil from being contaminated.

"A few more flowers strewn on the pathway of life."

When a man feels the reprehension of a friend seconded in his own heart, he is easily heated into resentment.

## Handy Built-In Ironing-Board

BY WALTER ANDREWS.

"Every time I want to iron," said my wife one day, "I have to dig the ironing-board out of the closet, put one end on the sink and the other on a chair-back, and then get the electric iron from a drawer that sticks when I try to open it. Next I get a chair, balance myself on it, reach up to the electric-light bulb, unscrew it, screw in the iron attachment, step down and put the chair away. After the ironing is done I have to go through the same unhandy performance in reverse order. Isn't there some way to make things more convenient?"

I put down my newspaper and tried to fix my mind on the tragedy, for such it evidently was—to her. And tragedies in the home give a fellow an uncomfortable feeling that prevents a calm enjoyment of the daily news. Besides, I like to see the little wife happy and singing.

"I'll think it over," I remarked hopefully. Whereupon she looked so comforted that I was intrigued into adding: "And I'll fix things handier for you."

But the more I thought of it the more hopeless I felt. What did I, a mere man, know about the innermost ethics of well-behaved ironing-boards? All of a sudden I remembered a bungalow owned by one of my friends who was always bragging about his wonderful built-in conveniences. Perhaps he might give me a hint. So I dropped over to his house one night,

## Pruning the Orchard.

Dealing mainly with the renovation of neglected orchards, the Dominion Horticulturist, in Bulletin No. 79, gives a few general principles that apply to the younger and more vigorous orchards. In pruning, the operator must bear in mind that each tree is in itself a proposition, and that each variety has some general characteristic which must be considered.

To prune the King in the same manner as one would prune the Wagener is to court disaster. Pruning wood growth heavily in the spring would induce such a heavy wood growth that matters would be worse than before, while in the case of the Wagener, not being such a vigorous grower, rather heavy pruning in the spring might be advantageous. To a certain extent it is true that in pruning it is desirable to cut out all branches that grow in towards the centre and also all branches that interfere with each other, but if this principle were rigorously followed in the case of the King, there would be little left to bear fruit.

The whole matter is a case of judgment and personal experience. It is quite possible to over-do pruning, and it is a good idea to prune no more than you have to. The orchard having once been put in good shape, the removal annually of dead wood and diseased wood, with now and then a healthy branch that is inclined to the obdurate, will suffice. The bulletin quoted is available on application to the Publications Branch of the Dominion Department of Agriculture, Ottawa.

## Potato Inspection and Certification.

Arrangements have been made for the continuation of potato inspection and certification during the coming season, and forms of application have already been forwarded to all potato growers whose fields were inspected last year. These forms are returnable up to July 1st, so that there is still ample time for any other growers who may desire to submit their fields for inspection to write for a form and secure any particulars they may desire in respect to the work.

(postage free) should be addressed to the Dominion Botanist, Central Experimental Farm, Ottawa, who will see that every attention is paid to requests for forms and additional information. He will arrange for the carrying out of inspections at the appropriate time during the season.

Two field inspections will be made, the first as near as possible to the blossoming period, and the second one three to four weeks later.

The standard for the field inspection will be the same as that applied last year, and any fields, as the result of the two inspections, found to measure up to this standard, will be considered eligible for certification, subject to an inspection of the tubers after harvest and the grading out of any which may appear undesirable for seed purposes.

Watch for Clogged Oil Holes.

The connecting-rod bearing had burned out and a new one was installed. This burned out almost immediately and though the crank shaft appeared all right a careful examination was made. The shaft was one of the well drilled kind through which the oil is fed under pressure to the bearings by a pump. The hole leading to the bearing causing the trouble was tested by forcing oil under pressure through it. It was found to be clogged with metal from the burned-out bearings. Careful cleaning of this oil hole put a stop to further trouble.

Therefore, in replacing burned-out bearings it is a good plan first to test the oil holes by at least forcing air through them, as it is an easy matter for the melted metal to run in and clog them, causing further trouble.

## Mother's prescription

JOHNNY is taking a prescription. His careful mother—the family health doctor—ordered it. Her daily ounce of prevention—Lifebuoy Soap—works wonders in combating disease.

Every day your children touch dirty objects and cover themselves with germ-laden dirt. Give them Lifebuoy—the health soap.

## Lifebuoy protects

The rich creamy lather of Lifebuoy carries a wonderful health element deep down into every pore. The skin is completely purified, and cleansed—delightfully stimulated.

## LIFEBUOY HEALTH SOAP

More than Soap—a Health Habit

The odour vanishes after use, but the protection remains.

LEVER BROTHERS LIMITED, TORONTO

## Comparative Yields from High and Low Testing Milk in Cheesemaking.

Investigations carried out by the Dairy Department and the Chemistry Department of the O. A. College with low and high testing milk used in the manufacture of cheese gave results that are interesting to cheese factory patrons. The low testing milk contained 12.01 per cent. solids and 3.41 per cent. fat. The high testing milk contained 12.29 per cent. solids and 3.62 per cent. fat—not very much difference between the two samples. The yield of cheese per 1,000 lbs. of milk was 89.85 pounds from the low testing lots, and 95.84 from the higher testing lots, or nearly six pounds of cheese more per thousand pounds of milk for a very small increase in the percentage of fat and total solids. This is further evidence of the injustice of paying for milk on the basis of weight only and not considering the fat and solids content of milk when dividing money among patrons of cheese factories.

## Export of Live Stock and Products.

Exports of cattle from Toronto in March were 3,836 compared with 5,382 in the corresponding month of last year. The cattle export from Canada to the United States in March this year totalled 7,596 compared with 6,356 last year, and to Great Britain 11,386 compared with 11,373. Calf exports to the United States were 2,381 compared with 1,810 and

for the quarter this year 4,168 compared with 3,067 last year. Beef exports to the United States in the first three months of this year were 1,650, 100 lbs. compared with 892,500 lbs. last year, and to Great Britain 1,414, 100 lbs. compared with 3,645,100 lbs. Bacon exports to Britain were 26, 404,000 lbs. compared with 27,074,000 lbs., and to the United States, 118,500 lbs. compared with 48,000 lbs. Pork exports to Great Britain amounted to 1,277,600 lbs., compared with 1,202,000 lbs., and to the United States 351,000 lbs., compared with 248,900 lbs. Mutton exports to the United States were 2,400 lbs., compared with 700 lbs.

## I Begin Culling Early.

Does it pay to cull chickens? It certainly pays me. I cull mine for the first time when they start feathering out. All that feather out quickly across the back, with all feathers lying down smooth in the wings, with good shape of head and body, I mark for breeders. The rest I sell at nine weeks of age for broilers. This saves feed and work, gives me more room and more profit. Then what I have saved I watch closely. Whenever I see any that are not developing properly, I cull them out at once. In fact, I cull the year around. Thus I keep fewer chickens and yet get more eggs at less cost of feed. Too many folks keep all the pullets, whether they lay much or not.—L. H.

Once more, speak clearly, if you speak at all; carve every word before you let it fall.—Holmes.

## CHEVROLET

Brings your friends close to you

THE isolation and loneliness of the farm have gone. Friends miles apart are now neighbors. Cities once the mecca for holidays and market days only, are now only a few minutes away.

On the other hand, the country places, the beauty spots of nature and the friends in the country are now within easy reach of the city folk.

And in bringing this service to Canadians, Chevrolet has gone beyond any other car built. Chevrolet offers quality, dependability comfort and full equipment at a price unapproached by any other quality car in the world.

Moreover by its low prices and easy payment plan, Chevrolet has further enlarged the group of those who can afford to own this fine quality car, and bring to them the enjoyments of motoring to a still greater degree.

Before you buy a car at any price, see Chevrolet. Examine its fine quality thoroughly. Ask for a demonstration.

## THE CHILDREN'S HOUR

LIVE AT THE FRONT.

Where do you live and work, my boy, in the kitchen back in the rear? So far away, when the door-bell rings, So busy you cannot hear?

Some visitors ring but once, you know, And then pass on their way; If you want them as friends to remain with you,

You must let them in to-day. Oh live in the very front of your house,

Where the slightest knock you'll hear; Welcome all noble thoughts and desires, The moment that they appear.

By H. O. Spelman.

JACKIE RABBIT AND SAMMIE SQUIRREL ARE ALMOST LATE TO SCHOOL.

Just how it happened I don't know, but one morning Jackie Rabbit left home for school a little later than usual. It might have been because he overslept, or broke his shoestring, or perhaps both. But, as he ran out of the door with his books under his arm, he felt quite sure he was going to be late for school.

At the gate he remembered that he hadn't kissed his mother, so he ran back. At the gate the second time he remembered that he had no handkerchief, and so had to run back for one, then started for school as fast as he could go.

But he had lost so much time going back to kiss his mother and to get his handkerchief that he felt more sure than ever he was going to be late for school.

When he had gone quite a way, he met Sammie Squirrel waiting for him.

"We'll be late for school," said Jackie. "Oh, Sammie, why didn't you go without me? I was late for I forgot to kiss mother and forgot my handkerchief, and I'll be late for school and so'll you. Oh, why didn't you go on without me?"

"Couldn't think of it, Jackie," said Sammie. "If you are late for school, I'll be late for school, too. But perhaps either of us won't be late. Come along, come along." And off they ran side by side as fast as they could go.

Just as they were nearing the schoolhouse, the last bell was ringing, and how they did run. If they could only get inside the door before the last ding-dong, they would not be late.

They reached the schoolyard and the bell was still ringing. Jackie was lagging a little behind, for he was getting out of breath. But just as Sammie Squirrel put his foot on the doorstep the last ding-dong sounded. Jackie was coming a few paces behind.

"Grab my tail," said Sammie, and Jackie did. Sammie jerked him into the door just as the last ding-dong sounded.

Neither of them were late for school, but very much out of breath.

## Commercial Buttermilk.

In the Dairy Department of the Ontario Agricultural College during the past season a few lots of commercial buttermilk were made by using either pasteurized skim-milk or the buttermilk from churnings of pasteurized sweet cream, not ripened before churning.

To the milk was added 20 per cent. water, 5 per cent. culture and one-half ounce of salt per one hundred pounds of milk. This was allowed to stand until the next morning when it was nicely coagulated. The coagulated milk was then poured into the churn and churned for about twenty minutes. This made a buttermilk that was in good condition, had good flavor, was smooth, and did not separate. After churning one lot for fifteen minutes a small amount of cream was added. The churning was then continued and in nine minutes the cream had churned into fine butter granules which gave it the appearance of "old-fashioned" buttermilk, and was well liked.

## Examination of Specimens.

In service to the man on the land, the Bacteriology Department of the Ontario Agricultural College examined and reported on a total of 207 morbid specimens, including samples from poultry, cattle, swine, man, horses, bees, plants and trees.

A total of 62 samples of farm well water were examined, of which 46 were condemned for pollution.

Samples of milk, bread, ensilage, soil, sewage and other materials were examined for favorable or unfavorable conditions induced by micro-organisms.

This service to the man on the land is not fully appreciated. Only 62 samples of well water were sent in from over thirty-nine provinces and of these 46 were so polluted as to be unfit for domestic use. This indicates a condition that the Ontario Agricultural College would be glad to assist in relieving. The College is here for service. Use it. It is yours.

## Sweet Clover.

The Dairy Department of the Ontario Agricultural College made four lots of butter during July when the cows were pasturing on sweet clover. The butter was scored when fresh and again after holding in storage, but none of it had a flavor that could be attributed to sweet clover. These results are similar to those obtained in 1922.

## ONLY A BUTTON!

Something clinked on the floor of the cur and half a dozen people stooped down to find that which was lost. All except the loser.

"Please don't worry about finding it," she said apologetically. "It was only a button."

Whereupon the searchers straightened their backs, in full agreement that a button was a thing not worth looking for.

This is a common attitude, for most people are apt to regard buttons as insignificant items, sometimes useful, but otherwise uninteresting. Which is as wrong as can be, for the evolution of a button is full of unexpected parcels, and a button factory, prosaic though it may sound, has romance in every corner of it.

The geography of a button alone commands attention, for the materials used for the making of these everyday articles come from all parts of the earth, and travellers are constantly journeying into strange countries in order that supplies may not fall short.

In Western Australia there are the great pearl fisheries where mother-of-pearl, one of the basic materials for buttons, is found. The opalescent shells are graded and sorted before being packed into sacks and crates for export and there have been times when little pearls, which have evaded the lynx eyes of the "fishers," have been found in the shells when these packages have been unpacked in London factories.

Buttons from Nuts, Apples, and Milk. Vegetable ivory, another leading material from which buttons are made, is collected chiefly in South America and Africa. From the former comes the corozo nut, the commonest sort of vegetable ivory, while Africa grows a strange apple, which in due course hardens to the hardness of ivory. Thousands of these nuts and apples are converted into buttons every year.

Compressed caseln, that is, dried milk treated with acid and subjected to high hydraulic pressure, is being used extensively for button-making today, though a quarter of a century ago this substance was unknown. Some of these "milk buttons" are very beautiful.

The processes of button-making are more complicated than one might guess. A button manufacturer with a turn for statistics lately proved that over a thousand different things happened before a certain button could be put on the market.

Button-making is largely a woman's job, and hundreds of different sorts of buttons are made in a single factory, styles changing with every season and being well ahead of time. The buttons for December, 1924, for instance, are manufactured in early spring. To simplify counting buttons, a computing scale is used—a single button in the small scale being equivalent to a gross of buttons in the main scale.

## Music Was Created for the Children.

Music is not merely a privilege to be enjoyed by those children whose parents may happen to be in a position to pay for their training and for the necessary instrument. Music is the child's birthright. Music was created for him, for it was here when he arrived. Music was in the world before the coming of man. It was here in the singing birds. In the rustling of the leaves, in the whispings of the wind, and in the running streams.

Only two per cent. of the children are tone deaf, of the other ninety-eight per cent. have some musical capacity in varying degrees naturally, but they all have it. Some will take more readily to mathematics than others, who again may become more efficient in literature, in history, or in languages.

But because all children have not the same capacity in these subjects there is no reason for keeping a knowledge of these and other subjects from them.

The parent is anxious that the child shall have some musical instruction, not necessarily with the idea of making a professional of the child, but for the rounding out of his character and for all the mental and physical advantages that musical instruction provides.

## Listening for a Metal.

Old legends tell of men who had the power to look down into the earth and see where gold and silver lay hidden. We cannot do this yet, but some thing almost as wonderful is now possible: we can listen and hear the veins of precious metal.

Two Swedish engineers, Mr. Hans Lundberg and Mr. Harry Natharst, have invented an electrical instrument which will locate metallic ores under the ground and indicate their presence by making a sound that can be heard.

The prospector carries the instrument over the ground he is prospecting, and, with telephone receivers fixed on his head, listens. When the instrument passes over a vein a sound is heard, and the prospector knows that what he seeks is somewhere beneath his feet.

In England, a thermometer is being used to fish for hake, a fish said to regulate its movements by the temperature of the water.

Women and princess must trust somebody.

Sighs are the natural language of the heart.

## GRATEFUL PARENTS POUR OUT THANKS TO TANLAC

### Five in One Family Are Helped—Mother and Father Give Details.

The value of Tanlac as a family medicine and tonic is again very forcefully demonstrated. This time in the home of Mr. and Mrs. Joseph E. Kaake, 2436 Kirby Ave. West, Detroit, Mich., where father and mother and every member of the family have been benefited by the wholesome and helpful ingredients of the famous preparation.

Recently, in speaking for herself and children, Mrs. Kaake said: "For more than a year our three little ones—John, age 6; Elwyn, 4; and Margaret, 2,—had been so peaked and lifeless that we were seriously worried about them. Their stomachs were upset, appetites poor, the color had left their cheeks, their nights were restless, and during the day they would just mope around, taking no interest in play or anything else.

"They began to eat and sleep better almost from the first dose of Tanlac, and have picked up now until you couldn't find three healthier or more active children in all Detroit. They eat ravenously, the color of health has returned to their cheeks, and they

just want to be on the go all the time. I have also taken Tanlac to build me up, and it never seems to fail."

"As to my personal experience with Tanlac," said Mr. Kaake, "I simply can't express in words the great help it gave me. About a year ago I was a victim of boils, actually having fifty-one on me, and was so played out that I couldn't do a bit of work for weeks. My suffering was almost unbearable. I cared little for food, suffered with severe headaches and stomach pains, and got so weak and nervous that I felt discouraged.

"Tanlac corrected my stomach disorders, woke up my appetite, cleansed my blood and toned up my system so that the boils went away, and nothing of the kind has bothered me since. I have gained 25 lbs. in weight, sleep and feel like a brand new man. We have given Tanlac a fair trial and found it wonderful, and if anyone doubts our statement they can write personally. We wouldn't think of being without Tanlac."

Tanlac is for sale by all good drug stores. Accept no substitute. Over 40 Million bottles sold.

Tanlac Vegetable Pills, for constipation, made and recommended by the manufacturers of TANLAC.

### Lions and Leopards Ravage North Rhodesia Farms.

Farmhouses in the bush bordering on the northern Rhodesian frontier have recently been in a state of siege owing to the activities of lions. The animals have come out of the jungle in daylight and attacked the farm animals, carrying off some of them.

In some cases the natives working on the farms have been attacked, and several have been killed. The lions are often joined by leopards and have appeared in such numbers that the settlers are forced to go about only in large groups and to keep a constant guard over their families and stock.

The wife of a railroad employee reports a thrilling adventure in this connection. Mrs. McLean left her home at Garuise on a bicycle to visit neighbors. Reaching a river she found two large lions on the bank. She was so startled that she could not retreat and prepared to fight for her life, but at the first shot the animals ran. She then proceeded and shortly came across a big leopard eating an ox. The leopard also made a hasty getaway, but followed Mrs. McLean for some time.

Arriving at the farm she found it had been attacked for several weeks by the animals and many cattle had been lost. Next day she was escorted back to her home by a neighbor and ten natives, who, on leaving Mrs. McLean, found they had been tracked all the way by lions. Mrs. McLean's escape was probably due to the fact that the animals had eaten their fill of oxen.

### A SPLENDID LAXATIVE FOR THE BABY

Mothers should constantly be on guard to keep baby's bowels working freely and his stomach sweet, for nine-tenths of the ailments from which little ones suffer are caused by derangements of the stomach and bowels. Baby's Own Tablets are a splendid laxative for the baby. They are mild but thorough; contain neither opiates nor narcotics, and are absolutely guaranteed to be safe and efficient for either the newborn babe or the growing child. By their action on the bowels and stomach they drive out constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### How Civilized Are You?

It is easy to answer. The finest representatives of civilization are by no means found among the so-called cultivated and educated classes. Civilization depends upon what we call progress for less than many think. Here's the heart of the matter:

**Santa Fe Xcursions**

very low round-trip fares to  
**California-Arizona**  
**Colorado-New Mexico**  
and your **National Parks**

## A Poem You Ought to Know.

"In the Spring."  
The chief literary figure of the Victorian age was Lord Tennyson, Poet Laureate. The following passage from "Locksley Hall" represents the poet at his best:—

In the Spring a fuller crimson comes upon the robin's breast;  
In the Spring the wanton lapwing gets himself another crest;  
In the Spring a livelier iris changes on the burnished dove;  
In the Spring a young man's fancy lightly turns to thoughts of love.

Then her cheek was pale and thinner than should be for one so young,  
And her eyes on all my motions with a mute observance hung.  
And I said, "My cousin Amy, speak, and speak the truth to me.  
Trust me, cousin, all the current of my being sets to thee."

On her pallid cheek and forehead came a color and a light,  
As I have seen the rosy red flushing in the northern light.  
And she turned—her bosom shaken with a sudden storm of sighs—  
All the spirit deeply dawning in the dark of hazel eyes—

Saying, "I have hid my feelings, fearing they should do me wrong";  
Saying, "Do not love me, cousin"; weeping, "I have loved thee long."

Love took up the glass of Time, and turned it in his glowing hands;  
Every moment, lightly shaken, ran itself in golden sands.

Love took up the harp of Life, and smote on all the cords with might;  
Smote the chord of Self, that trembling, passed in music out of sight.

## GIRLHOOD DANGERS

### Can Be Avoided by Keeping the Blood Rich and Pure.

The anaemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-door exercise and not enough rest and sleep. It comes on gradually, beginning with languor, indisposition to exertion and a feeling of fatigue. Later comes paleness of the face and headachings. In the majority of cases constipation is present, and the complexion takes on a greenish-yellow pallor. The treatment is quite easy and simple. Dr. Williams' Pink Pills are just the tonic to remedy this wretched state of health. They act directly upon the blood, and as it becomes rich and pure strength and activity returns, the glow of health comes to the cheeks, and soon the troubles will disappear. It comes on health follow. Miss Pearl Parks, R.R. No. 1, Reabro, Ont., has proved the value of this medicine, and her statement will point the way to health to all other weak girls. She says:—"I was very ill with anaemia. I could not sleep at night, my appetite was poor, my face and lips were very pale and my eyes dull. I got so weak that I could not go upstairs without resting. I took dizzy and fainting spells, had no ambition whatever, and did not care to go about. I was in this condition for nearly a year. I had treatment from two doctors; but I did not regain my strength, so my mother, who was very uneasy about me, decided I should try Dr. Williams' Pink Pills. After using the pills for a while I felt somewhat better, and continued taking them until I had used about a dozen boxes, when I was again well and strong. I can strongly recommend Dr. Williams' Pink Pills for the treatment of any suffering from anaemia."

You can get these Pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Willie's Wisdom.**  
Willie was fishing.  
"Willie!"  
It was his mother's voice, but he was sheltered from the house by trees, and she could not possibly see him.  
So Willie went on fishing.  
"Willie!"  
Still Willie went on fishing.  
"Willie!"  
Willie began re-baiting his hook. He had just secured the worm when his friend, Bert, approached.  
"Don't you hear your mother calling you?" said Bert. "That's three times she's shouted. Aren't you going in?"  
"No," responded Willie, imperturbably.  
"Won't she whip you?" asked his friend.  
"No," repeated Willie, disdainfully. "She ain't going to whip nobody. She's got company; so when I go in she'll just say, 'The poor little fellow's been so deaf since he had the measles.'"

The safe way to send money by mail is by Dominion Express Money Order.

A foreigner just beginning to speak English recently desired a helping of boiled tongue, so he said to the man next to him: "Will you please be so kind as to pass me the language?"

Watches are sometimes very seriously affected by the magnetism of their wearers. In most cases those who have this effect are dark complexioned.

Ask for Minard's and take no other.

## STORIES OF WELL-KNOWN PEOPLE

### MacDonald's Magic Hat.

"Mr. Ramsay MacDonald's magic top hat will live in story as one of the most potent pieces of headgear ever created—it has sent up the prices of stocks and shares," says the Daily Express.

"Prices began to rise on Tuesday as soon as the fact became known that the new prime minister had donned a top hat when he was summoned to Buckingham Palace.

"They continued to rise on Wednesday and Thursday, and yesterday they were higher than at any time during the week."

### The Parson and the Pig.

Famous as the author of "Onward, Christian Soldiers," the late Rev. S. Baring-Gould told a quaint story of an old Cornish woman who was worried about the health of her favorite pig, and asked him to say a prayer over it. He suggested that it might be as well if she brought a "vet" to the animal, but she had such faith that he went to the pigsty and thus addressed the porker:

"O pig, if thou livest thou livest; but O pig, if thou diest thou diest."

The animal got well and strong, and the old lady believed that it was the parson who cured it!

### Interpreting Her.

A delightful story, reminiscent possibly of his own school days, was told recently by General Sir Ian Hamilton. It concerned a lady who drove up to the entrance of the football field of a certain big public school.

Alighting from her car she called to one of the boys, and said, "Will you tell the Hon. Algernon de Montmorency that his mother, Lady Fitzwater, wishes to see him?"

A moment later the boy was heard shouting, "Stinker, your mother's landed!"

### How He Knew This Ship.

Scotsmen tell stories against one another with gusto, but it has been reserved for no less a personage than the Madquess of Aberdeen to start broad casting them.

Here, for instance, is one, and to an Aberdeen audience, too.

An old pilot at a certain port of entry professed to be able to tell the home port of any incoming vessel within a reasonable distance by what seamen still call "the cut of her jib," meaning thereby her general appearance, and did so.

To test his powers still further, however, an onlooker called his attention to one in the far distance.

The pilot gazed long and earnestly, and eventually pronounced her to be an Aberdeen boat.

He proved to be right, and a chorus of surprised voices inquired how he knew.

"No seagulls following her!" was his terse reply.

### Harbor Lights.

I rarely glimpse from this far hill The sapphire hand they call the sea. For my home broods within the wood And I am held there helplessly.

But I can feel its mighty breath When all the world is wild with wind; And I can hear the voice of it When great ships cry, fog-frightened, blind;

And always in the fine-spun dark Between the leaves I see its eyes; The tireless, gleaming, friendly fires That guide each captain's enterprise.

One steadfast light is poised o'er all; A silver shaft leaps up to it To fix it there—so they believe— For none save seamen's benefit.

Yet though my ship's an empty room, My haven but a visioned thing, That constant star points out a port Where I may find an entering.

—Gardner Weeks Wood.

## CORNS

Lift Off—No Pain!

**FREEZONE**

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

## Smoke OLD CHUM

The Tobacco of Quality

Sealed Package 15¢  
(which keeps the tobacco in its original condition)

also in 1/2 lb. tins

Manufactured by Imperial Tobacco Company of Canada Limited

### Power from the Tides.

The French are to make an important experiment in harnessing the tides, a problem of great importance in view of the dwindling supply of coal.

A long barrage is to be constructed in Finistere, where four groups of turbines will be worked by the flood and ebb tides. The energy thus captured will be used to drive an electrical power station.

An obstinate heart shall be laden with sorrows.  
Do not in an instant what an age cannot recompense.

**ASPIRIN**

Say "Bayer Aspirin"

INSIST! Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 24 years.

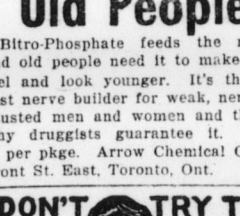

Safe Accept only a Bayer package

which contains proven directions

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monacacetate of Salicylic Acid.

**Old People**  
Biro-Phosphate feeds the nerves and old people need it to make them feel and look younger. It's the one best nerve builder for weak, nerve-exhausted men and women and that is why druggists guarantee it. Price \$1 per pkg. Arrow Chemical Co., 25 Front St. East, Toronto, Ont.

**DON'T TRY THE DO THIS WATCH TEST**

Can You Hear?

Place watch to ear then draw away. You should hear tick at 50 inches. Does a ringing in your ears prevent your proper hearing?

## BACK AGCHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."

—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book, upon "Ailments Peculiar to Women."

## The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—in Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year. Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townsmen. It is a first-class advertising medium. Rates on application. Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc. A. E. Sutherland, Publisher.

Alberta has maintained an average yield of spring wheat of 19 1/2 bushels per acre over a period of twenty-six years, according to a chart prepared by the Department of Agriculture. In addition, winter wheat has averaged over the same period 20.19 bushels; oats, 35.79 bushels; barley, 26.19 bushels; rye, 18.84 bushels and flax, 8.71 bushels.

A feature of the annual banquet and convention of the officials of the Canadian Pacific Railway, which was held at Quebec on March 22nd, was the representation, in the banquet hall, of a full-sized locomotive of the latest type emerging from a tunnel. Built of wood at Angus Shops, Montreal, it was in all respects perfect. At a pre-arranged moment, it emitted steam and smoke, the bell rang and the whistle blew, while the headlight became a moving picture projector.

Indications of a great season in immigration are seen by Canadian Pacific officials in the arrival at St. John, N.B., during the week-end of March 29-30, of 2,441 third-class passengers, aboard the Company's steamers Montcalm and Metagama. The Montcalm had on board 1,584 of these passengers, which constitutes a record for the season.

Out of a total production of 10,730,150 pounds of creamery butter in 1923, Manitoba exported 3,863,264 pounds, valued at \$1,513,369. Shipments were made to Great Britain, New York, Chicago and Montreal. In addition, about 200,000 pounds of butter fat were shipped to the United States.

In a speech to the higher officers of the Canadian Pacific Railway on the occasion of the recent convention at Quebec, Mr. E. W. Beatty, President, pointed out that 50 per cent. of the company's stock is held in Great Britain, 21 per cent. in Canada and 20 per cent. in the United States. It is, therefore, a corporation absolutely controlled within the British Empire and, he added, that control is being appreciably strengthened as the years go on.

Quebec's new goldfield in Rouyn township, north of the Des Quins branch of the Canadian Pacific from Mattawa, is to be made accessible by an aeroplane service to be inaugurated by the Laurentide Air Service Limited, on May 18th. Prospector, tourists and supplies will be able to cross the fifty mile gap between the end of steel and the goldfields, which formerly required two days to cover, in less than an hour in the flying boats to be used in the service.

Save money by renewing your subscription to daily newspapers at The Transcript office.

### PLANT SOME TREES

(By Hazel Knutt)

Plant some trees while there is time. Or else you'll freeze in the winter time.

If by chance you've got a woodlot on the ranch, Don't take a chance and stop and dance.

But plant more trees. When your neighbors' cattle cough and sneeze.

Years lie down in the shelter from the breeze. Listen in with your radio on the breeze.

I've got a woodlot and the bees That flit among the trees; So I'll never starve or freeze, But I'll keep on planting maple trees.

There is love and romance among the trees. Caroline Poplar popped the question to Jack Pine.

With her radio, sending out through her leaves; But Elder Scotch Pine listened in, listened in.

All the Scotch Pine lassies exclaimed, What a sin, what a sin! Jack Pine, listening in, radioed out with a shout:

What is all this fuss about; I intend To find my mate among the pines. Listen in with your radio on the breeze.

I've got a woodlot and the bees That flit among the trees; So I'll never starve or freeze, But I'll plant poplar and pine trees.

### NOTICE TO CREDITORS

In the Estate of Annie Laura Quick, Late of the Township of Mosca in the County of Middlesex, Spinster, Deceased.

Notice is hereby given pursuant to "The Revised Statutes of Ontario, 1914, Chapter 121, Section 56," that all creditors and others having claims against the said Annie Laura Quick, who died on or about the 18th day of January, A.D. 1923, are required to send by post, prepaid or to deliver to the undersigned, solicitors for Edgar Quick, administrator of the estate of the said Annie Laura Quick, deceased, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.

And take notice that after the 14th day of June, A.D. 1924, the said Edgar Quick will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which he shall then have had notice, and that the said Edgar Quick will not be liable for the said assets or any part thereof to any persons of whose claim he shall not then have received notice.

ELLIOTT & MOSS,

Solicitors for the said Administrator. Dated at Glencoe this 13th day of May, A.D. 1924.

## Here and There

The Canadian Pacific steamer Empress of Britain will arrive at Quebec shortly on her first voyage from Liverpool as a cabin-class steamer under her new name Mont-royal. She is the fastest vessel sailing out of Liverpool and is scheduled to run from there to Quebec in six and a half days.

British Columbia's payroll for 1923 was \$150,000,000, according to the annual report of the Workman's Compensation Board. The payroll for 1922 was \$128,592,502, and for 1921, \$130,099,373. Employing firms operating at the end of last year numbered 6,524, an increase of 145 over the previous year.

The 1924 season for the port of Montreal was officially opened on the morning of the 18th of April, when the Government ice-breaker Lady Grey arrived in the harbor. A big season is anticipated, especially by the Canadian Pacific steamships, whose vessels on the St. Lawrence route this year will exceed 197,000 gross tons.

Vancouver this season has beaten Portland, the great wheat port of the Northwest and formerly the great wheat port of the Pacific. Portland included four in its wheat totals, Vancouver did not. According to the P. & O. press the American city has moved over 29,000,000 bushels of wheat to date. Vancouver, in the same period, shipped 36,000,000 bushels, exclusively of a very considerable quantity of flour.

The much-prized Wilder silver medal, the highest award of the American Pomological Society, the oldest horticultural body in North America, has been awarded to the Central Experimental Farm at Ottawa for the sixth time. The medal on this occasion was given for the Lobo apple, one of the many fine varieties of McIntosh Red parentage originated at the Central Farm.

An estimate of \$1,500,000 for fire protection and management of forest reserves has been placed before the Government for approval by the Minister of the Interior. The Minister states that more drastic measures of fire prevention would be taken this year and in this connection the Department of the Interior proposes to utilize the Royal Canadian Air Force for the detection of fires.

An appeal for increased pensions for the originals of the old Royal North-West Mounted Police is now before the Federal Parliament. The present pensions are based on the pay standards of 20 to 30 years ago and are therefore quite inadequate. The appeal claims, and it is asked that they be raised to the same level as those granted members of the present Canadian Mounted Police, on retirement.

"There is not a single geological reason why any of all the world-famous mining camps, such as those of Kirkland Lake, Porcupine and Sudbury, should not be duplicated almost anywhere in the 650,000 square miles of the Quebec Laurentian Plateau, which stretches from the Ottawa and St. Lawrence Rivers to Hudson Strait," according to a statement made by T. C. Denis, Superintendent of Mines of the Province of Quebec, at a recent meeting of the Quebec branch of the Mining Institute of Canada.

Canada is financially sound. On April 14th the investors and savings account holders of the country were offered twelve million dollars worth of Canadian Pacific Railway five per cent bonds and by four o'clock that afternoon the bids had been over-subscribed and the books were closed. Telegraph orders came from all parts of the Dominion, a splendid evidence of the amount of money available for sound investment and the country's confidence in the future of the big railway. Another evidence is seen in the fact that six investors are putting savings into C.P.R. common stock which pays ten per cent on par value of \$100,000. Since 1907, Canadian holdings of this stock have increased from 9.75 per cent to 21 per cent at the present time and holdings in the British Empire total about 76 per cent.

## Rupture Expert Here

Do you suffer from rupture? If so, your big opportunity has now arrived. Mr. Reavley, the noted rupture expert, will be at the McKellar Hotel for one day only, Wednesday, May 21, and will be pleased to give free examination to any sufferer and to demonstrate his famous appliance. This appliance will contract the opening in ten to fifteen days and will cure cases in from three to six months. This appliance is positively demonstrated to you right on your own person without any charge. You do not spend a penny unless you are fully satisfied that it is the right appliance for you. A consultation with Mr. Reavley will cost you nothing. Don't let this opportunity get away from you. Remember the date.

## HATCHING AND REARING

The Best Way of Handling the Young Chick.

Great Variation in Mortality—Hopper Mash—Feeding Chicks With Hens—Weight of Chick—Value of Manure—When to Prune.

(Contributed by Ontario Department of Agriculture, Toronto.)

The use of the incubator and brooder has forced the poultry keeper to study the methods of growing chicks. A mother hen and her brood when allowed to range, can be fed many feeds and the chicks do well simply because the hen and the chicks balance the ration by catching insects and selecting tender green feed and, it may be several other things that we have not observed.

Great Variation in Mortality.

There is a great variation in different broods of chicks reared by the artificial method, and may brood have a high mortality and a very unthrifty appearance. The chicks can be reared easily with reasonable care and attention. The use of a little common sense is essential.

One should remember that, given a brooder, a colony house, and a three hundred thirty chicks, it is the duty of the operator to keep the chicks comfortable, and that every need of the body must be taken to the chicks. The chicks are not clucking when they are cold or hungry or to catch insects. The feed must be taken to the chicks.

At present the Department of Poultry Husbandry at the O.A.C. is conducting a series of experiments, the object being to find a simple, inexpensive method of growing a normal chicken. It may take years to get the answer, but each season we add a little to our knowledge.

Hopper Mash for Chicks.

The mash used at the Poultry Department, O.A.C., in the hoppers, or feed mounds, where the chicks are ranging consists of:

150 pounds of Corn Meal.  
100 pounds of Crushed Oats.  
100 pounds of Shorts.  
100 pounds of Bran.  
50 pounds of Meat Scrap.  
25 pounds of Bone Meal.

The whole grain hopper feed usually consists of fifty per cent. each of wheat and cracked corn. If milk is given to chicks, one-half, if not more, of the meat scraps may be taken from the mash.

The pullets stay on range until ready to lay, which period is when they are about six months of age. It is their preference to roosting in trees to the house we allow them to do so; in fact we rather prefer that they would roost in trees.

Shade, tender green feed, plenty of clean drink, and enough to eat, are essential.

Feeding Chicks With Hens.

Where chicks are being reared with hens, and have access to tender grass or other green feed, a very good feed is raw or cooked Johnny-cake made with an egg in it. Give milk to drink, and have a quart or so of gravel near the coop to supply grit. Move the coop every few days.

When the chicks are a few weeks old gradually change to ordinary feeds.

Raise the chicks on new ground. Keep off the old ground that has had chicks running upon it year after year. Keep the hen free of lice. Dust with sodium fluoride or use a small amount of blue ointment. A piece one-half the size of a kernel of corn, placed on the skin below the vent, will usually kill many of the lice.

Weight of Chicks.

One hundred baby chicks when hatched will usually weigh between seven and eight pounds. When the chicks have reached an age of twelve weeks they should weigh between one hundred and seventy-five and two hundred pounds. For sake of comparison we will take a calf at birth with a weight of eighty pounds. Should the calf make the same rate of gain as the chick, it would at twelve weeks of age weigh a ton. This will help one to understand why broods of chicks vary so much, and will also assist the feeder to appreciate the opportunity at hand to display his skill. W. H. Graham, O.A.C. College, Guelph.

When to Prune.

The dormant season is the logical time for pruning, although when the wood is frozen the work may not be very agreeable to the grower. Where young trees or stone fruits are concerned it is probably advisable to delay the pruning until late winter or early spring, but bearing apple trees can be pruned in zero weather without apparent injury. Pruning is the major orchard operation which can be performed to advantage during the winter months. At that time there are no leaves to interfere with the vision of the pruner, and consequently he is better able to judge which branches should be removed. Furthermore, it is only during the winter that the grower has the time to give to this work.

Value of Manure.

Manure is worth exactly what it will give in net return from the increased crops produced. This amount varies widely depending upon the quality of the soil, the season, and the crop. The value of the manure per ton is increased by uniform spreading, by using a light to medium application of ten to fifteen tons per acre rather than a heavy application, and by applying the manure to root crops, corn, potatoes, and hay rather than to grain crops. Where bad weeds are not present, unrotted manure will prove more economical than rotted.

Paths and roads about the farmstead not only should be as few as possible but should be kept out of sight so far as feasible.

## BIRD'S BOARD

### New Walls, Quickly!

Many thrifty house owners have finished the walls of their cottages and bungalows quickly, economically and durably with Bird's Combination Wall Board. It may also be used to—

1. Divide large rooms.
2. Refinish old walls.
3. Repair leaky ceilings.
4. Cover walls of basements and garages.
5. Make backgrounds for store windows.

Bird's Combination Wall Board has a cream-white finish on one side that does not need painting, and is oak-grained on the other although you may paint it any color you wish.

Combination Wall Board is made by Bird & Son, Limited (Est. 1795), manufacturers of Neponset and Canadian Twin Shingles, Bird's Art Craft Roll Roofing, Paroid Roofing and Neponset Black Building Paper. There's a Bird product for every sort of building.

We are headquarters for Bird's wall board, roofings and building papers.

## For Your Protection

There is an established cash price for all Ford products, which price is fixed by the Ford Motor Company of Canada, Limited.

In co-operation with the Traders Finance Corporation the Ford Motor Company of Canada, Limited has also established a fixed price to be paid if a purchaser wishes to purchase on the deferred payment plan.

The purpose in establishing this definite time price is to protect the buyer against excessive charges.

The charge authorized by the Ford Motor Company of Canada, Limited and charged by the Traders Finance Corporation is absolutely fair to every purchaser who buys Ford products on deferred payments.

This deferred payment plan is a simple business arrangement devised for your convenience—by means of which with a small down payment you may drive your car—paying the balance in small monthly instalments. These rates are as follows:

Down Payment	Monthly Instalments
Touring.....	\$32.66
Touring [Starter]	37.08
Runabout.....	30.09
Runabout [Starter]	35.75
Coupe.....	45.66
Tudor.....	51.84
Fordor.....	60.00
Truck Chassis.....	32.75
Truck Chassis [Starter]	38.08

FIFTH  
of the series dealing with the establishment of the  
BANK OF MONTREAL at representative points in CANADA  
and elsewhere

ONE of the first forward moves of the Bank of Montreal after Confederation, when banks and banking passed under the jurisdiction of the Federal Parliament, was to extend its facilities and stabilizing influence to the Maritime Provinces. The first branch at Halifax was established in 1868. With this extension the Bank marked its 50th anniversary.

Today the Bank has 15 Branches in Nova Scotia and a total of more than 550 Branches throughout Canada and Newfoundland, as well as Branches in the leading financial centres of the world.

A Bank where Small Accounts are Welcome

Store and Elevator, Main St., Glencoe  
**J. D. McKellar, Manager**

Postmaster Currie has received permission from the Post Office Department to close the post office on Wednesday afternoons, along with other business places, during the summer months. The office will close at 12 o'clock, and open at 6 o'clock to receive and dispatch the evening mail.

Dutton dramatic club were unable to give their play "Her Gloves" in Glencoe on Friday evening as announced, owing to heavy rains which interfered with their arrangements. The play will be given on Tuesday evening, May 20, and will be under the auspices of the Junior I.O.D.E. of Glencoe.

Rev. R. J. Murphy and Mrs. Murphy and their son and daughter, Victor and Magdalen, of Wardsville, are sailing today from Quebec on the S. S. Montaurier to spend several months abroad. They will visit Mrs. Murphy's parents, Mr. and Mrs. Wm. Giffith, in County Armagh, Ireland, and also tour England and Scotland before returning to Canada.

Correspondents are again requested to send their news budgets in early. It is difficult at all times and frequently impossible, to handle extensive news budgets received Tuesday nights. If the event you are reporting occurs on or between Thursday and Saturday, send it in Saturday night. Then, if necessary, send in a supplementary budget. News sent in early helps us to get out a better paper.

At a recent meeting of the Young People's League of the Glencoe Methodist church, the following officers were elected for the ensuing year:—Honorary president, Rev. A. S. Whitehall; president, Milton Reycraft; vice-presidents—Marjorie McLarty, Stanley McCutcheon, Lila Traver, Ella Samson, Mrs. Whitehall, Edna Precious; secretary, Margaret Smith; treasurer, Pearl Parish; organist, Pearlie George.

One of the best investments a store keeper or householder can make at this time of year is a freshening coat of paint. A bright shop front attracts trade just as much as a shabby front tends to drive it away. Furthermore you are setting an example to your neighbor that he and others will follow, thereby adding to the bright and attractive appearance of our town. We are glad to see several shop fronts in Glencoe now in course of improvement in this manner.

An interesting meeting of the Presbyterian Guild was held on Monday evening. Miss Margaret Morrison, convener of the missionary committee, occupied the chair. Rev. Mr. Paton gave an inspiring talk on the history of missions. Musical numbers consisted of a vocal solo by Miss Olga Wray and a piano solo by Miss Elma King. It was decided to close the Guild meetings for the season next Monday night. A social committee will have charge of the meeting for that evening and a good attendance is hoped for.

Members of Appleton Methodist League visited Glencoe League on Monday evening and presented a well rendered program. Vocal solos were given by Miss Brownlee and Olive Black, vocal trio by Mr. Gast and two daughters, reading by Mrs. Parr, topic on "Goodness" by Marion Macfie and topic on "Duties" by Ella Switzer, all of which were greatly enjoyed by the large number of members present. The latter part of the evening's entertainment was in charge of the Glencoe League. A social time was spent and lunch was served at the close.

At Edmonton a few evenings ago the Rev. N. D. and Mrs. Keith, formerly of Glencoe, received a surprise when a party of about twenty friends arrived at their home to bid the former farewell on the eve of his departure for Montreal. As an expression of appreciation Mr. Keith was presented with a leather club bag, while Mrs. Keith was given a leather travelling case. The evening was a happy one, characterised with a spirit of warm appreciation of Mr. Keith, who takes with him into his new sphere the good wishes of many friends in the West.

Mother's Day was observed in the Methodist and Presbyterian churches last Sunday morning, both churches being attractively decorated with flowers for the occasion. The ordinance of baptism was administered to four infants in the Methodist church and to two infants in the Presbyterian church, and appropriate discourses were given by the ministers. In the Methodist church special music was given by the regular choir. In the Presbyterian church the choir was composed of twenty-five young ladies, who rendered suitable selections. Miss King sang a pleasing solo, "Where the Sweetest Flowers Grow."

Call at Scott's Shoe Store before buying elsewhere, and see our prices for cash.

Rug, five-piece parlor suite, kitchen range (coal or wood), 2 outside doors, 2 window frames and sashes, back stairs, 200 ft. picture moulding, gothic window, electric fixture.—P. J. Morrison.

The indications of worms are restlessness, grinding of teeth, picking of the nose, extreme peevishness, often convulsions. Under such conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and the return of the attack will not be likely.

THY KEEPER.—The Lord is thy keeper: the Lord is thy shade upon thy right hand.—Psalm 121: 5.

**Born**  
McCALLUM.—On Wednesday, May 14, 1924, to Mr. and Mrs. John McCallum, Glencoe, a son.

**In Memoriam**  
WATERWORTH.—In loving memory of David Waterworth, who departed this life three years ago today—May 15, 1921.

Three years have passed since that sad day  
God called the one we loved away.  
Forget him—no we never will,  
As years roll on we love him still.

—Wife and Family.

#### TOWN AND VICINITY

Several cases of measles are reported in the community.

Newbury Oddfellows are observing the 105th anniversary of the Order on Sunday next.

The Anglican churches of Glencoe, Wardsville and Newbury are to be placed under one charge.

The annual convention of the Canadian Weekly Newspapers Association will be held in Toronto on June 5, 6 and 7.

R. W. Oxley is in the hospital at London and is making good recovery after a critical operation for an ailment of the throat.

Keep off the boulevards and retain the respect of the property-owners whose grass plots you are disposed to injure, if not destroy.

The Bishop of Huron, Dr. Williams, of London, will hold a confirmation service in St. John's church on Monday, May 19th, at 8 o'clock.

Does it pay to advertise? A twenty-five cent "for sale" notice published in The Transcript last week brought seventeen applicants.

The Canadian National Railways unloaded two cars of garden soil in their yards here on Tuesday in preparation for making flower beds.

Gordon Dickson, manager of the Royal Bank, has moved into the house on Main St. south which has been occupied by Mrs. Robert Clananahan.

The recent heavy rains have delayed seeding operations. Some of the farmers have completed their spring work, but a large number are far behind schedule.

W. H. Reycraft has been appointed by the quarterly board of the Glencoe Methodist church to attend the annual district meeting at Ridgeway on May 20th and 21st, and also the Conference to be held in Windsor in June.

Mrs. Robert Clananahan is now occupying her former residence on the corner of Symes and Elizabeth's streets, having moved there this week. Mrs. E. Marshall, of London, is making an extended visit with Mrs. Clananahan.

Professor Howard Gordon's high schools orchestra still retains the championship and medal won last year at the Ontario Musical Festival in Toronto, as none of the competing orchestras in its class this year secured the required percentage of marks to win out.

#### WHY DOCTORS ADVISE TONIC IN SPRING!

This is the season when your liver becomes sluggish and bowels clogged up with poisonous wastes. Many suffer from sour stomach, biliousness, constipation, sick headaches, pains in the back and sides.

Cleanse and tone your liver with Dr. Thacher's Liver & Blood Syrup. Put your stomach in condition, brace up system and have healthier blood. Notice quick difference in way you eat, sleep and feel. Satisfaction or no cost.

Dr. Thacher's is sold and recommended by P. E. Lumley in Glencoe and by leading druggists in every city and town.

#### PERSONAL AND SOCIAL

—Mrs. H. Smith, of London, spent Sunday with her aunt, Mrs. Mary McRae.

—C. E. Davidson spent a couple of days this week with his mother, Mrs. John Davidson, of Detroit.

—Mr. and Mrs. John Hick attended the funeral of his nephew, Harry Hick, of Sarnia, on Tuesday.

—Rev. Wm. Williams and A. J. Wright are representing St. John's church at the Synod in London this week.

—Mrs. J. L. Tomlinson and daughter Leah have returned from Toronto after visiting Mrs. Tomlinson's niece, Mrs. Cantwell, who is ill.

—Mr. and Mrs. Robert Casement and little Miss Gladys Salmon, of Windsor, spent the week-end with Mrs. Casement's parents, Mr. and Mrs. G. W. Sutton.

—Mr. and Mrs. James Cook and Miss Grace McIntyre, who have been spending a few days with friends at McGregor and Port Huron, Michigan, have returned home.

#### Here and There

Commencing April 15th, the Canadian Pacific Railway, having in mind the expressed wishes of the majority of its patrons, has decided to revert to the custom of permitting no smoking in observation cars of its transcontinental trains.

The production of steel ingots and castings in Canada during the month of February amounted to 70,953 tons, an advance of 72 per cent over the 41,369 tons produced in January. The increase was almost wholly accounted for by the rise in the quantity of open-hearth basic steel ingots made for the use of producers.

Canadian farm products exported to the United States during February totalled \$2,410,208, an increase of \$961,579 over February last year, according to a report published by the Bureau of Statistics. Wheat exports to the United States were valued at \$1,014,714 in February, as against \$25,157 in February of the previous year.

Under the agreement with the Imperial Government under the Empire Settlement Act, Canada, spent \$29,657 in assisted passages for some 2,653 British immigrants in the fiscal year just closed. In the past four years from the Dominion Government has spent nearly \$1,500,000 in promoting immigration from Great Britain to Canada.

By arrangements made by Hon. George Headley, Minister of Agriculture, a trial shipment of cows and stags will be made in the near future to Japan for the purpose of testing out the possibilities of a market for Alberta's livestock in that country. It is also the purpose of the department to send with the shipment a qualified investigator who will look into the potentialities of a market for all Albertan farm products.

For the first time in the past two or three years the Saskatchewan Co-operative Creameries Limited is shipping butter in carload lots direct to the cities of the United States. A carload shipment was recently made from Saskatoon to Philadelphia. Two carloads were also shipped to Chicago, where they realized good prices. Each car contained between 25,000 and 30,000 pounds of Saskatchewan butter.

Speaking at Quebec recently, E. W. Beatty, President of the Canadian Pacific Railway, summarized the magnitude of the operations of the Company. It has 15,000 miles of railway in Canada and controls 5,102 miles in the United States. It owns and operates telegraph and express systems, 18 hotels, 16 bungalow camps and rest houses, and has in commission on the Atlantic and Pacific, Canadian lakes and the British Columbia coast, 81 ships aggregating approximately 460,000 gross tons. Its personnel varies in numbers with business conditions from 65,000 to 100,000 employees in all branches of the service.

What must constitute a record in the rapid handling of an important consignment from the Orient was established recently by the Canadian Pacific Railway when shipping a quantity of silk from Yokohama to New York. The consignment, which was the largest forwarded from Asia since the recent slump in the silk market, left Yokohama on March 22nd on the Canadian Pacific steamer "Empress of Asia." Specially stowed for prompt discharge on arrival at Vancouver, the shipment was so rapidly transferred to the waiting train that only 13½ minutes per car lapsed between the docking of the ship and the departure of the fast freight and delivery was made at New York at midnight April 4th, the through time from Yokohama to New York being but 13 days, 8 hours and 13 minutes, calendar time.

When a man builds a new house all his neighbors are architects.

All men may be free and equal, but you notice there is universal astonishment when a rich man is sent to jail.

One reason why the pioneers were hardy was because they had to tough it out instead of taking something for it.

The death occurred in Chatham on May 3 of Mrs. Elizabeth Dillon, in her 85th year. The late Mrs. Dillon was a native of Ireland. She lived in Canada eighty years, forty of which were spent in Bothwell.

Depositors of the Home Bank will not relish the prospect for the next dividend. G. T. Clarkson, the liquidator, when asked when the next dividend would be paid, said: "It will be two years." They were paid 25 cents on the dollar some time ago.

Ontario is going to get pointers from Denmark's system of rural education, which has been eminently successful in keeping boys on the farm. Both Ontario's minister of education and chief director of education are going to Denmark. Hon. Mr. Martin leaves on May 28; Dr. F. W. Merchant sails in September. The Ontario government is much concerned about the city-ward movement of the young generation in the province, and hopes to bring in some revision of the Educational Act in the near future which will improve conditions and popularize education in the urban communities. According to Dr. Merchant, there is to be a wider extension of Ontario schools, offering facilities to all. Second, there is to be a modification of the present system to meet the needs of the people who are on the farm and intend to stay on the farm.

Many mothers can testify to the virtue of Miller's Worm Expeller, because they know from experience how useful it is.

#### THE CHIC SPRING STYLES

The Ideal Car for Personal Transportation

THE professional man, the salesman who carries samples, the contractor, the business man, the ladies who drive—in fact, anyone who requires the means for personal transportation, will favor this new 4-passenger Master Four Coupe.

The rugged efficiency of the McLaughlin-Buick Master Four valve-in-head motor and chassis insures a day in and day out service. The gasoline mileage is very high. Upkeep is extremely low, yet in appearance and performance this car is typically McLaughlin-Buick. Four-Wheel Brakes assure safety, prevent skidding, provide quicker negotiation of congested traffic.

A short turning radius facilitates easy parking. Although ideally suited for personal transportation, the car has ample room for four. Space for small parcels and for luggage is provided by a compartment immediately behind the driver and a larger compartment in the rear of the body.

RICKRACK BRAID.

Women are funny folks. All of them have an inborn pride in their homes. Most of them want pretty things for their houses. Yet often they seem afraid to trust to their own judgment and sense of beauty by pressing into service, especially for everyday use, the simple things that are at hand and that would make the home attractive.

Take rickrack braid, for instance. Who would ever think that rickrack braid had an artistic and even very lovely soul? Who would think it could rise to an occasion?

Recently a little rickrack sleuthing brought to light some uses of adversity that were just too sweet for anything.

One woman with a troop of small children and an ardent desire for dainty beds in the daytime, but who could not afford the handsome things she wanted, just bought a lot of heavy plain white Indian Head cotton and plenty of heavy two-inch rickrack braid. She joined nine-inch strips of the cotton with braid and put a double row around the edge as a finish. When she got through she had plenty of counterpanes and pillow shams of real beauty. Yet they were so stout and practical they could be tubbed every week, if need be, without breaking anybody's back or pocketbook. For the sake of variety she used pink and blue rickrack with the white cloth in some of the rooms, though I thought the plain white ones the handsomest and much the most practical. The dresser scarfs she made to match were real triumphs.

Another woman made a wonderful set of dining-room curtains by whipping two rows of inch-wide rickrack together and using that as insertion in sheer marquisette. The edge was a double row of rickrack sewed on like any flat lace edge. They were lovely when ironed out flat.

This same woman also gave real tone to her kitchen, which she had painted buff, by putting up little overdrapes and valances of small-checked yellow-and-white gingham, edged with narrow black rickrack braid. You can't imagine what a difference that one little rich touch of black made in a room that might otherwise have looked a bit lilliputian.

Another woman who loved a spick, pretty table all the time used rickrack and Indian Head for her more ordinary tablecloth and luncheon squares. She used linen-finish cotton and both wide and narrow braid. Some she divided into squares, putting rickrack between the squares and around the edges. Some she left plain in the centre and put several rows of narrow rickrack around the narrow hem.

She even made dolly sets, showing an amazing ingenuity in contriving various ways to achieve a really handsome effect with the simple materials. On some of these she called in the aid of her crochet hook, using the rickrack as a basis for little crocheted motifs to be inserted and to make glorified edges and insertions by a few simple stitches. A particularly attractive luncheon cloth she made was of white with three circles grouped together in each corner, of pink, blue and lavender gingham. One circle was higher than the others and they overlapped. Around these she put narrow rickrack braid, held in place by a long, heavy black stitch in every rickrack and. It was lovely.

### COMPANY MANNERS.

I have tried the following plan with great success in training my children not to monopolize the conversation at the table when there is company: Before the guests arrive I say something like this to them: "Mr. and Mrs. Jones are coming to dinner. We want them to enjoy themselves so much they will come again, don't we?" "To-morrow I am going to ask each of you to tell me the most interesting

## "When Hearts Command"

By ELIZABETH YORK MILLER

"When hearts command,  
From minds the eager counsellors depart."

### CHAPTER XVII.—(Cont'd.)

Ardeyne hoped that the vast relief he experienced did not show in his face. He had been wondering and worrying over the possible construction Carrie Egan might put upon his sudden appearance in the company of Hugo Smarle. Principally—if not wholly—he had worried on Alice's account. But it seemed that Mrs. Egan assumed there to be no great secret. She was merely annoyed because he hadn't chosen to take her into his confidence, not dreaming that he was quite as surprised and discomfited as she by the unexpected appearance of Hugo.

"I simply feel that I must put the world between Smarle and myself," she went on. "The impertinence of him daring to speak to me! But, of course, he's mad. If anybody knows that, you ought to. Aren't you taking a risk in marrying the daughter? Or don't you believe in heredity?"

"To a certain extent I believe in it, of course," Ardeyne replied reluctantly. "He could not discuss poor Alice with a stranger."

"Phil!" the woman's voice held an earnest note that gave it an unusual quality. "Phil—don't marry her. I'm not saying this because I'm fond of you in—in the way I'm afraid I am fond. It's for your own good. Phil, dear, heredity's a dreadful thing when you don't least expect it and in ways you'd never dream of. You thought I was faithless to you that time—that I deliberately flouted you for Jack. Well, it wasn't true. I cared for you too much, and I was beginning to forget a terrible lesson that I ought to have learned only too well. Don't marry that girl, Phil. Surely she must have a little common sense. She must know that she ought never to marry anybody. A convent is the only place for her—is she isn't strong enough to live in the world without tempting innocent men?"

"Innocent men!" Ardeyne laughed harshly. "I mean what I say. Yes—innocent men. Why, Phil, you of all people ought to know that some of us poor human beings are born guilty. The taint is of the blood. Born in the very shadow of guilt. Your Alice Carney is one of them."

Ardeyne shivered. What she said was true enough, according to his own stern code. She lifted her arms in a hopeless little gesture, flashed her smile at him, then waving an adieu, ran lightly down the steps to the car.

"Good-bye, Phil! Whatever happens, I wish you the best of luck. I shall be back in London again some time in June. Look me up if it occurs to you."

Ardeyne, his hat in hand, followed. "Good-bye, Carrie—and thank you very much. I'm sure you mean well by your advice," he said soberly. "But you don't intend to take it! Oh, I scarcely expected that. She leaned out to reward the hopes of the concierge."

"Good-bye, Phil." The car started with a furious roar. Mrs. Egan, at the wheel, waved a hand; Ardeyne waved his hat, the concierge smirked and the manager bowed. In the loud note of the Klaxon horn as the silver car disappeared around the sharp bend.

Ardeyne turned back to see Alice standing in the doorway, a strange-looking Alice, her white cheeks painted with round red splashes. His conscience stabbed him fiercely. What had she heard?

"Alice, my dear, have you finished at last?"

"Yes—they will send the trunks down to the villa. Is Mrs. Egan leaving Borthgeryn?"

"Yes, she is," he replied. "You didn't care very much for her, did you, dear?"

"(Oh, what had Alice heard?) "Not a great deal. The car came close to him. It seemed almost as though he heard the swift beat of her unhappy heart. "I wanted to like her, Phil," she counted. But I was—I was jealous of her. I'm glad she's gone. There! It's out. I can't help being glad."

"My dear little girl!" he patted her hand, and was glad himself, that it was no worse than this. She was jealous. Such a rare admission for a woman to make to her lover. Perhaps it flattered him a little, but he felt most tender towards her, most loyal protective as she smiled into her pitifully anxious face.

"And munsey doesn't like her either," Alice went on, furiously and ashamed. "Is' 'zuw A. I c'd. I'm ashamed. 'It's something to do with Uncle John, I suppose. Do you think she really owns that money, or is it only his—sort of fancy?"

"His fancy, I daresay," Ardeyne replied hurriedly. "Come on—shall we go for a little walk by ourselves?"

"Yes, you do. You told her that you were sure she meant well by her advice. You thanked her for it. And she said she scarcely expected you to take it. I am awfully sorry, Philip, but I heard."

"My dear child—"

"Oh, please don't call me a child! Had it something to do with me? Philip, I want to know."

Ardeyne drew a long breath and expelled it with a lie. "I haven't the faintest idea what you are talking about," he said. "Then I shall ask munsey. I'll have it out of her. There's some mystery about—about us, and I mean to find out what it is."

Ardeyne walked in utter confusion. Was this the right moment in which to tell her?

### CHAPTER XVIII.

Of course he did not tell her. When it came right up to it he had not the courage. He thought of other women to whom he had broken cruel news, women whose lives a few words from him had laid as waste as the desert, and he wondered now how he could have done it. He thought of them with a tinge of remorse, those pallid ghosts of memory which still haunted his beautifully furnished consulting-room in Harley Street.

"Yes, Mrs. X, I'm afraid there's no doubt. These symptoms in your son are inherited. . . . No, Mrs. X, I'm afraid he will not get any better. For the present we—my colleagues and I—advise rest and quiet in the country. Should engage a male nurse if I were you. If you like I will find you a thoroughly dependable young man."

Poor Mrs. X, sitting very straight, very white faced on the edge of her chair, would nod and gulp at this point, perhaps, then a little later, when the door had closed behind her the doctor would tell his assistant to ring up such and such an establishment to arrange for a mental nurse for young Mr. . . . and for the moment the incident was closed.

This was but a general example of what made up Philip Ardeyne's ordinary life. Incident after incident, essentially the same, always with heart-break for somebody. Until now he had never regarded the possibility of himself having any relation to himself or affecting his own happiness. He had always been the impersonal though perfunctorily sympathetic physician. His real sympathies had been in the past.

"Good-bye, Phil! Whatever happens, I wish you the best of luck. I shall be back in London again some time in June. Look me up if it occurs to you."

Ardeyne, his hat in hand, followed. "Good-bye, Carrie—and thank you very much. I'm sure you mean well by your advice," he said soberly. "But you don't intend to take it! Oh, I scarcely expected that. She leaned out to reward the hopes of the concierge."

"Good-bye, Phil." The car started with a furious roar. Mrs. Egan, at the wheel, waved a hand; Ardeyne waved his hat, the concierge smirked and the manager bowed. In the loud note of the Klaxon horn as the silver car disappeared around the sharp bend.

Ardeyne turned back to see Alice standing in the doorway, a strange-looking Alice, her white cheeks painted with round red splashes. His conscience stabbed him fiercely. What had she heard?

"Alice, my dear, have you finished at last?"

"Yes—they will send the trunks down to the villa. Is Mrs. Egan leaving Borthgeryn?"

"Yes, she is," he replied. "You didn't care very much for her, did you, dear?"

"(Oh, what had Alice heard?) "Not a great deal. The car came close to him. It seemed almost as though he heard the swift beat of her unhappy heart. "I wanted to like her, Phil," she counted. But I was—I was jealous of her. I'm glad she's gone. There! It's out. I can't help being glad."

"My dear little girl!" he patted her hand, and was glad himself, that it was no worse than this. She was jealous. Such a rare admission for a woman to make to her lover. Perhaps it flattered him a little, but he felt most tender towards her, most loyal protective as she smiled into her pitifully anxious face.

"And munsey doesn't like her either," Alice went on, furiously and ashamed. "Is' 'zuw A. I c'd. I'm ashamed. 'It's something to do with Uncle John, I suppose. Do you think she really owns that money, or is it only his—sort of fancy?"

"His fancy, I daresay," Ardeyne replied hurriedly. "Come on—shall we go for a little walk by ourselves?"

"Yes, I'd love to. Philip, is there anything about Uncle John that strikes you as 'queer'? I mean unpleasantly queer?"

often many escapes; they were the rule rather than the exception. Ardeyne felt that she was safe enough. But her children—his and hers? For them, he could not predict, and therefore there ought never to be any children.

He evaded her direct questions, but clumsily, so that an unpleasant impression was confirmed, and she believed he had been discussing her with Mrs. Egan, and that there was a mystery connected with "Uncle John" which Philip knew about and was in a conspiracy to keep from her.

(To be continued.)

One of the axioms that are not true is "No one can perform the impossible." We can tell just what strain an iron bar can stand, and we can gauge precisely the force of steam; but when we come to the human being we find a paradox—a creature that does the impossible.—Frank Crane.

JAMES SMART PLANT, BROCKVILLE, ONT.

Training the Child to Appreciate Music.

The playing of an instrument is the most complex form of musical expression, much more so than singing. For this reason teachers of music realize that singing should come before playing, and musical training before either.

The playing of the child or of the amateur must indeed always differ from that of the professional in the degree of facility, and in the force and delicacy of interpretation, but the training of both should aim at imparting the same kind of ability, the ability that is to hear the effect to be attained mentally before any attempt is made at performance. At least three months preliminary training is necessary to develop this faculty in the child.

The rhythmic training is easily given during this period, which will enable the child to recognize time values and time figures, and most important of all, to hear the phrases in music played by the teacher, music which must be of the most simple kind. This work can be made very pleasant and interesting, and is of immense value. It must be accompanied by ear training, which should be connected as soon and as rhythmically as possible, with the ideas of the phrases and of the keynote as a point of rest or home context. The ability to recognize and name the chords in a simple piece is of great assistance in sight reading, memorization, and transposition, which last should become a habit at an early age.

Knew the Word.

The ex-soldier had secured a position in a garage and was whistling away at his work when his employer entered.

"Hey, you, look here!" stormed the latter. "You've put a low tension magnet in that car when this order calls for a high tension one. You don't know anything about tension."

"Oh, don't!" retorted the former private. "That's all I heard for two years."

## Ideals for a Working Day.

I give you the prayer of Clarence Poe, which might be called: Ideals for a Working Day:

O Thou Eternal God, Master of All Good Workmen, for this new day with its new tasks and its new opportunities for faithful effort, I thank Thee.

With the fled past and the uncertain future, I can now do nothing; to-day alone Thou givest me to shape and mould, while yet I can, into an epitome of that complete life to which I aspire. Worthy and noble therefore, O God, make my ideals for this day.

Not great tasks, but tasks greatly done make Thou my first high aim, teaching me that it is better to till a garden skillfully than to rule a kingdom wretchedly, and that the approval of one's own conscience is rather to be chosen than the plaudits of the multitude.

Diligent in business let me be, falling below the best that is in me in no task, large or small, that I undertake. And making sure of this, let no seeming failure shake my courage or rattle my spirit. Any evil that can be remedied, let me remedy, losing no time in worrying; any evil that cannot be remedied let me not make doubly evil by unmanly repining.

Nor let me sacrifice, O Lord, in any toilsome quest of wealth or power. Thy greater glories—near at hand. Whether or not the beauty of mansions be mine, let me look gratefully on the beauties of Nature—fruitful lands and restless seas and starry heavens. Whether or not ease and luxury be within each, let me know the physical pleasure of vigorous health and of honest toil and wholesome play.

And however removed from any measure of fame or distinction, let me rejoice that for me is the common happiness that comes through love and friendship, and for me the spiritual delight of striving, even in our clumsy and blundering fashion, toward the ideal that Thou givest us to dream of. So may I this day, working strenuously and yet with cheerfulness and serenity, make a record a little more worthy than yesterday's and—

"Earn for myself the evening rest, And an increase of good for man."

Amen.

## A Cure for Snoring Discovered in Paris.

Snoring can be suppressed, not only painlessly, but with benefit to those whose musical slumbers sometimes cause insomnia in others. Dr. George Gautier, who has for twenty-seven years been studying the human respiratory system, has concluded that in a large proportion of people, particularly city dwellers, says a Paris correspondent, the air passages from the nose to the throat are so small that they materially reduce the supply of fresh air to the lungs, thereby actually shortening life in some cases, and in many others retarding both physical and mental development. Dr. Gautier has therefore perfected a method by which these air passages may be painlessly enlarged. This is achieved by passing from the nostrils to the throat a succession of probes of gradually increasing dimensions.

The result, the doctor claims, is not only comparative freedom from such minor annoyances as colds in the head but better protection from the microbes of disease and a more efficient cleansing of the blood stream. Deafness, headaches, asthma, and snoring are among the maladies which have already yielded to treatment, of which the doctor computes about 70 per cent. of the population of Paris are in need.

## Training the Child to Appreciate Music.

The playing of an instrument is the most complex form of musical expression, much more so than singing. For this reason teachers of music realize that singing should come before playing, and musical training before either.

The playing of the child or of the amateur must indeed always differ from that of the professional in the degree of facility, and in the force and delicacy of interpretation, but the training of both should aim at imparting the same kind of ability, the ability that is to hear the effect to be attained mentally before any attempt is made at performance. At least three months preliminary training is necessary to develop this faculty in the child.

The rhythmic training is easily given during this period, which will enable the child to recognize time values and time figures, and most important of all, to hear the phrases in music played by the teacher, music which must be of the most simple kind. This work can be made very pleasant and interesting, and is of immense value. It must be accompanied by ear training, which should be connected as soon and as rhythmically as possible, with the ideas of the phrases and of the keynote as a point of rest or home context. The ability to recognize and name the chords in a simple piece is of great assistance in sight reading, memorization, and transposition, which last should become a habit at an early age.

Knew the Word.

The ex-soldier had secured a position in a garage and was whistling away at his work when his employer entered.

"Hey, you, look here!" stormed the latter. "You've put a low tension magnet in that car when this order calls for a high tension one. You don't know anything about tension."

"Oh, don't!" retorted the former private. "That's all I heard for two years."

## LARGE WAVE MOVES ABOUT EARTH AND AFFECTS SURFACE, SAYS BRITISH SCIENTIST

A despatch from Glasgow says:—Old Mother Earth has a permanent wave. She has had it all along, but it was noticed only recently by a mere mortal, Ludovic MacLellan Mann.

Mr. Mann, who is a member of the Royal Anthropological Institute, the Pre-historic Society of East Anglia, and other scientific societies, told about his discovery in an address made on Thursday night before the members of learned societies in Glasgow.

There is a large wave, in slow motion, within the body of the earth, said Mr. Mann. It moves around the planet once every 8,800 years, causing a slight motion in the position of the axis and the poles and giving rise to changes in climate. The discovery was made by him in comparing many ancient with modern astronomical observations.

The wave causes the terrestrial crust to pulsate, which accounts for raised and sunken land surfaces. The velocity, direction and amplitude of the wave has been ascertained. Thus the ages in years of all ancient land surfaces and of prehistoric periods can be determined.

Knowledge of the 8,800-year mutation, Mr. Mann said, had enabled him to read astronomical registers found in most parts of Europe and America, sculptured on rock surfaces. The same key had been successfully applied to solve the mysteries of the Stonehenge, the celebrated prehistoric monument in Salisbury Plain, England, which is shown to be a cal-

endric monument which registered astronomical events occurring in a period of twelve years, which is the cycle of time in which the sun and moon nodes recur in the same relative positions.

### Soviet Army Placed on Efficient Basis

A despatch from Paris says:—A report has reached Paris that representatives of the Russian Red Cross have placed large orders in Berlin for supplies and material for field hospitals and first aid applications.

This report, which comes from a well-informed source, says that on April 1 representatives of the Soviet Red Cross—MM. Nemirovsky, Brodsky and Krotoff—visited the Chancellery of the German Red Cross in Berlin and asked that an estimate be submitted, for delivery on May 15, of material for the establishment of 60 field hospitals and 2,000,000 packets of first aid supplies.

The German Red Cross submitted its estimates to the Russian representatives, and it is understood an agreement has been made for delivery at Stettin on May 15. This report, in conjunction with news incidents and the alleged gathering of troops on the Bessarabian frontier for inspection by Trotsky and Kameneff, has given rise to grave suspicion of Russia's intentions with regard to Bessarabia.

No, they're not sounding "cook-house." The occasion for the big noise was the official opening of the British Empire Exposition by King George at Wembley on April 23. A fanfare of trumpets followed the King's speech.

### PREMIERS OF ALLIES TO HOLD CONFERENCE

#### Poincare Agrees to Meet With MacDonald After French Elections.

A despatch from Paris says:—It is learned on usually reliable authority that Premier Poincare has agreed to go to England on May 20 to discuss the political situation of France and Great Britain in relation to recent events with Prime Minister MacDonald. The interview was arranged at a meeting between the British Ambassador, Lord Crewe, and the Director of Political Affairs, Peretti de la Rocca, who is acting in Poincare's place at the Quai d'Orsay during the Premier's absence in his home constituency.

The Premier was consulted by telephone. The meeting between the two Premiers has been arranged to take place at Chequers, because, due to the meeting of Parliament, MacDonald is unable to leave England.

The French Premier will not take with him anybody but Camerlynck, the interpreter of Supreme Council meetings. The meeting will be secret and unofficial, and it is felt that under these conditions the two heads of Government will be able to do much to prepare the way for smoothing out the differences between the two countries.

### Majestic Establishes New Record of 618 Miles in Day

On Board S.S. Majestic, May 11.—The Majestic has established a new record for a westbound day's run of the vessel. Between noon Saturday and noon to-day the liner covered 618 miles, beating the former record, held by the Leviathan, by one mile.

The Majestic's own best previous performance was 611 miles.

The Majestic, originally the Bismarck, was turned over to Great Britain by Germany, in 1922, and completed her maiden voyage on May 10 of that year. She left Southampton Wednesday, and is due in New York Tuesday, with 817 passengers.

A beetle, thousands of years old, was found perfectly preserved among the wrappings of an Egyptian mummy.

### POINCARÉ MAJORITY SUFFERS IN ELECTIONS

#### Leaders of Moderate Left Increase Following but Doubtful if They Can Imperil Government.

Paris, May 12.—The returns at 2 o'clock this morning in yesterday's French Parliamentary elections indicate large gains by the Moderate Left chiefs, Briand, Herriot and Painlevé. It has been expected that the bloc of the Left parties would increase its representation in the Chamber, but it appears that it has done better than was expected. The incomplete figures justify assuming that they have already wrested 20 seats from the National bloc, of which Poincaré is the chief.

The City of Paris gave a majority to the Nationalists, but outside the Capital the radical Socialists and associated parties made heavy inroads in the majority of the old Chamber, which was generally considered to be about 80.

Owing to the complicated system of counting in French elections, complete returns are not yet in, and it will be late this afternoon before a definite idea can be had of the results.

The indications are against the gains the Communists expected. The Reds are strongest in the large cities, and the Paris returns make it appear that they will add few, if any, members to their group of 13 in the expiring Chamber of Deputies.

### Irish Saint Gets Credit for Discovering America

According to legend, it was not Columbus who first discovered America, but the Irish saint, Brendan the Navigator.

The exploit of the saint is commemorated in a beautiful stained glass window, which is on view at the British Empire Exhibition at Wembley. It is the work of two Irish women artists and will be the only example of stained glass work by women to be exhibited.

The saint holds in his right hand an oar and in his left a chalice. Around his head is a nimbus, while about his feet flow green waves.

He that would heal a wound must find it.

Huge crowds cheered lustily as the King and Queen arrived at the Wembley stadium to open the British Empire Exposition. Their majesties appeared in full state, drawn in the royal coach and four.

### ANCIENT ELM HELD HISTORIC DOCUMENT

#### Gardeners Discover in Cavity Account of Service at Which Champlain Was Present.

A despatch from Montreal says:—While pruning an elm tree in the grounds of the Sisters of Mercy at Sault-aux-Recollets recently, two gardeners discovered in a cavity of the tree an earthen jar in which was a document covered with indecipherable writing. It was handed to a chemist, who treated the paper and brought out the writing, which was found to be an account of the first Mass celebrated on the Island of Montreal, in the year 1615.

The words were as follows: "In the presence of Father Jamay and of Champlain, a Mass of actions of grace at which were present seven Frenchmen, twelve Cri children, six Algonquins, chanted and spoken by Father Le Caron, Recollet Father Charles Lavoisier (or Lavoisin), Bodjarka, Jean Lebeuf."

Here follow four other lines which are indecipherable, and which probably contained names of witnesses. It also appears that Jean Lebeuf was the writer of the manuscript.

In Abbe Lavenderie's "History of Canada" the following account is given of this Mass: "Champlain was forced to come down the river from Quebec to arrange details to be carried out during his absence. He again met at Riviere des Prairies Father Le Caron, who chanted a solemn Mass on the 23rd or 24th June, 1615, in the presence of a large number of savages."

The elm in which the discovery was made is computed to be 349 years old. Its diameter a few feet from the ground is about five feet, and its height, about 125 feet.

### Canadian Auto Exports Continue to Show Gain

Automobile exports from Canada continue to show a steady increase, the total of freight automobiles exported in February being valued at \$271,369, as against \$162,587 in the same month last year, while for the twelve months ended February the exports totaled \$5,100,806, as against \$1,224,786 in the previous twelve months. Passenger automobiles exported in February this year were valued at \$1,663,612, as against \$2,964,345 in the same month last year, while for the year ended February the exports amounted to \$27,392,879, as against \$24,109,321 in the previous twelve months.

### Epidemic of Cholera Spreading in India

A despatch from Allahabad says:—There have already been 10,000 deaths from cholera in Bihar this year and the epidemic is spreading. In Champaran, the most affected district, there were 1,000 deaths last week. Darbhanga, Muzaffarpur and Shahabad and Saran are also greatly affected, and the disease has recently become epidemic in Patna and Gaya.

"Painting spots on dominoes," one of Britain's most curious trades, is paid for at the rate of 168 spots of white enamel for 1½d.

The recent arrival in Quebec of the largest liner on the Canadian Trans-Atlantic route, marked the commencement of the usual spring influx of passengers to Canada from the Old Country. The photo shows the passengers getting their "land-legs."

### UNITED STATES NAVY HOLDS SECOND PLACE

#### Fair Comparison With Great Britain and Japan Indicated by 5-4-3.

Washington, May 11.—Admission that a fair comparison of the present fighting strength in ships of Great Britain, the United States and Japan would appear to be 5-4-3, with the United States navy in second place, is made by Theodore Roosevelt, Assistant Secretary of the Navy in a report to Chairman Butler of the House Naval Affairs Committee.

The opinion that the United States navy this has fallen below an equal ratio strength with Great Britain as provided in the 5-3 formula adopted under the naval limitation treaty, was expressed by Mr. Roosevelt in a report commenting, at Chairman Butler's request, on a recent article in the New York Times by W. B. Shearer, naval expert. The assertion in the article that the ratio of naval strength between the three powers is 5-3-1, with the United States navy in last position, was declared by the assistant secretary to be "greatly exaggerated."

Mr. Roosevelt qualified his view as to the present relative strength of the three navies by observing that "it is difficult to state our exact strength due to the varying ratios in the different types."

The 5-4-3 ratio, which he believes to be a fair comparison of the present strength, Mr. Roosevelt said, "does not take into consideration strategically located and well equipped naval bases which add greatly to the sea power of a nation, nor does it take into consideration the relative strength of the various merchant marines."

### "London Bridge is Falling Down"

London, May 11.—A serious congestion of London traffic will be caused by the sudden decision to close the Waterloo Bridge at midnight to-night as unsafe. This bridge was built a century ago and is architecturally one of the finest in London.

Brigadier-General Charles G. Dawes Who so skillfully handled the German reparations problem, is shown on his return to the United States. His report has received universal commendation.

### "The Evil That Men Do Lives After Them"

Paris, May 11.—The High Court of Paris has decided that the widow of a soldier shot under court-martial order for abandoning his post under enemy fire, cannot benefit from a life insurance policy, although the latter comprises a clause stipulating payment under war risks. A lower court gave the widow her claim, but the company appealed and the former decision was reversed. The Judge said he deplored the sad position of the family, but as the death was the result of a criminal act it could not be assimilated under ordinary war risks.

Miss Gwendolyn Lazier, of Belleville, is shown leaving for her trip on horseback to Washington to invite the president of the U.S.A. to attend the celebration of the 140th anniversary of the settlement of Upper Canada.

### The Week's Markets

TORONTO.  
Man. wheat—No. 1 North, \$1.10; No. 3 North, \$1.03 1/2.  
Man. oats—No. 3 CW, 42c; No. 1, 40 1/2c.  
Man. barley—Nominal.  
All the above c.i.f., bay ports.  
Ont. barley—65 to 70c.  
Am. corn—No. 2 yellow, 95c.  
Ont. Rye—74 to 78c.  
Peas—No. 2, \$1.46 to \$1.50.  
Milfeed—Del. Montreal, freight, bags included: Bran, per ton, \$25; shorts, per ton, \$27; middlings, \$33; good feed flour, \$1.90.  
Ont. wheat—No. 2 white, 99c to \$1.02, outside.  
Ontario No. 2 white oats—89 to 41c.  
Ont. corn—Nominal.  
Ont. flour—Ninety per cent. pat., in jute bags, Montreal, prompt shipment, \$4.60; Toronto basis, \$4.60; bulk seaboard, \$4.25.  
Man. flour—1st pats. in jute sacks, \$6 per bbl.; 2nd pats., \$5.60.  
Hay—Extra No. 2 Timothy, per ton, track, Toronto, \$14.50; No. 2, \$14.50; No. 3, \$12 to \$14; mixed, \$10 to \$12; lower grades, \$10 to \$12.  
Straw—Carlots, per ton, \$9.50.  
Cheese—New, large, 16 1/2 to 17c; twins, 17 to 18c; triplets, 18 to 19c; Stiltons, 20c. Old, large, 22 to 23c; twins, 23 to 24c; triplets, 24 to 25c.  
Butter—Finest creamery prints, 35 to 34c; No. 1 creamery, 32 to 33c; No. 2, 29 to 31c; dairy, 28 to 30c.  
Eggs—Extras, fresh, in cartons, 30 to 31c; extra, loose, 28c; firsts, 26c; seconds, 23 to 24c.  
Live poultry—Chickens, 3 to 4 lbs., 25c; hens, over 5 lbs., 26c; do, 4 to 5 lbs., 24c; do, 3 to 4 lbs., 15c; spring chickens, 4 lbs. and over, 25c; roosters, 18c; ducklings, over 5 lbs., 26c; do, 4 to 5 lbs., 24c.  
Dressed poultry—Chickens, 3 to 4 lbs., 30c; hens, over 5 lbs., 28c; do, 3 to 4 lbs., 18c; spring chickens, 4 lbs. and over, 32c; roosters, 22c.  
Beans—Can., hand-picked, lb., 6 1/4c; primes, 5c.  
Maple products—Syrup, per imperial gal., \$2.50; per 5-gal. tin, \$2.40 per gal.; maple sugar, lb., 25 to 26c.  
Honey—60-lb. tins, 11 to 11 1/4c per lb.; 10-lb. tins, 11 to 12c; 5-lb. tins, 11 1/2 to 12c; 2 1/2-lb. tins, 12 1/2 to 13c; comb honey, per doz., No. 1, \$3.75 to \$4; No. 2, \$3.25 to \$3.50.  
Smoked meats—Hams, med., 23 to 24c; cooked hams, 34 to 36c; smoked rolls, 17 to 18c; cottage rolls, 18 to 20c; breakfast bacon, 21 to 25c; special brand breakfast bacon, 28 to 30c; backs, boned, 28 to 35c.  
Cured meats—Long clear bacon, 50 to 70 lbs., \$18.50; 70 to 90 lbs., \$13.90 lbs. and up, \$17; lightweight rolls, in barrels, \$37; heavyweight rolls, \$32.  
Lard—Pure tierces, 14 1/2 to 15 1/4c; tubs, 15 to 15 1/2c; pails, 15 1/2 to 16c; prints, 18 to 18 1/2c; shortening, tierces, 14 to 14 1/2c; tubs, 14 1/2 to 15c; pails, 15 to 15 1/2c; prints, 16 1/2 to 17c.  
Heavy steers, choice, \$8 to \$8.50; butcher steers, choice, \$7 to \$7.75; do, good, \$6.25 to \$6.75; do, med., \$5.25 to \$6.25; do, com., \$4.50 to \$5; butcher heifers, choice, \$7 to \$7.50; do, med., \$5 to \$5.75; do, com., \$4.50 to \$4.75; butcher cows, choice, \$5.25 to \$6.25; do, med., \$3.50 to \$4.50; butcher bulls, \$4.50 to \$5.50; bolognas, \$2.50 to \$3.50; canners and cutters, \$1.50 to \$2; feeding steers, choice, \$6 to \$6.75; do, fair, \$4 to \$5; milkers, springers, choice, \$7.50 to \$9.00; stockers, choice, \$4.55 to \$5.25; do, fair, \$3.75 to \$4.20; calves, choice, \$9 to \$10; do, med., \$7 to \$7.50; do, com., \$4.50 to \$5.00; lambs, choice ewes, \$15.50 to \$16; do, bucks, \$13 to \$13.50; do, culls, \$8 to \$9; spring lambs, each, \$8 to \$15; sheep, light ewes, \$8 to \$9.50; do, culls, \$5 to \$5.50; hogs, fed and watered, \$7.75; to \$8; do, f.o.b., \$7.25 to \$7.50; do, country points, \$7 to \$7.25; do, off cars (long haul), \$8.15 to \$8.40; do, select, \$8.50 to \$8.80.

MONTREAL.  
Oats, Can. West. No. 2, 51 to 52c; do, No. 3, 49 to 50c; extra No. 1 feed, 48 to 48 1/2c; No. 2 local white, 44 to 45c.  
Flour, Man. spring wheat pats., 1st, \$6.10; 2nds, \$5.60; do, strong specials, \$6.40; winter pats., choice, \$5.55 to \$5.65. Rolled oats, bag 90 lbs., \$2.80. Bran, \$24.25. Shorts, \$26.25. Middlings, \$32.25. Hay, No. 2, per ton, car lots, \$16.  
Cheese, finest Westerns, 14 1/2c; finest Easterns, 13 1/2c. Butter, No. 1, pasteurized, 29 1/2c; No. 1 creamery, 28c; 2nds, 28c. Eggs, fresh, specials, 32 to 35c; fresh, extras, 29 to 30c; fresh firsts, 26 to 27c. Potatoes, per bag, car lots, \$1.40 to \$1.45.  
Good heavy steers, \$7; fairly good calves, \$5.25; do, com. and med., \$4 to \$4.75; butcher hogs, \$8 to \$8.25; selects, \$8.75; sows, \$5.50.

### SHIPS MENACED BY ICE IN LAKE SUPERIOR

#### Twenty Freighters Are Still Blocked in Floes With Northwest Gale.

A despatch from Duluth says:—Eight freighters and two passenger ships had made port here through the upper Lake Superior ice jam on Friday, but there was no material lessening in the blockade.

With a northwest gale raging unabated, vessel agents hold no immediate hope for a break-up in the blockade, which now directly affects 53 lake freighters.

Abatement of the northwest gale released the pressure on the ice jam, and three tugs were trying on Friday to assist the approximately twenty freighters scattered along the six-mile front of the blockade.

The Huronic suffered no damage, nor was she ever in any immediate danger from the heavy pressure imposed by the thick floes, said her skipper, Captain A. M. Wright.

With the exception of the men passengers and members of the crew, who were short of tobacco, no one was seriously inconvenienced.

There is nothing that more effectively calms the mind than reaching a decision.

Nothing in heaven is so good that we might not have it here. The earth is the home of God as truly as it is the home of man. Heaven means a higher condition of mankind. There is no heaven until we rise out of folly, selfishness, and sensuality; no heaven so long as money stands for more than man, so long as any are willing to be rich by keeping others poor.—Charles G. Ames.

### BRITAIN TO AGREE TO DUBLIN ACTION

#### Appointment of Free State Minister at Washington Likely to be Sanctioned.

A despatch from London says:—Within a very short time the British Government is expected to notify the State Department it has no objection to appointment of an Irish Free State representative at Washington.

Whether or not Prof. Timothy Smiddy will be given the post is a matter which concerns only the United States and the Free State. However, he is most mentioned. Final decision regarding any envoy is not yet reached and conversations between the British and Irish Governments probably will continue a few days longer.

One question for debate is the position of the King. Under the constitution it is only by acting upon the advice of the British Government, who can authorize any British subject to sign treaties. However, the Free State is not inclined to admit such authority, however nominal it may be.

The situation is further complicated by the fact that the last Imperial Conference, at which the Free State was represented, adopted a resolution empowering any British Dominion to negotiate with foreign powers in matters affecting only that Dominion and no other part of the Empire. This question, it is said, is on the point of being settled in its application to Ireland's case.

It is also understood the Free State representative will have the title and rank of Minister, and not of the higher rank of Ambassador.

### England's Oldest Bank to be Absorbed by Rival

Child & Co., the oldest private bank in England and perhaps in the world, is to be absorbed by Glyn, Mills & Co., in accordance with the will of the eighth Earl of Jersey, senior partner, who died December 31st, says a London despatch.

Child's bank was founded about the year 1560, has occupied the site of its present offices in Fleet Street ever since, and is full of historic associations. Oliver Cromwell, Samuel Pepys, Horace Walpole, the poet, Dryden, Charles II. and his famous chamberlain, Nell Gwyn, were among those who had accounts at the bank, which is identical with "Tollson's" in Dickens's "Tale of Two Cities."

The connection with the bank of the Earls of Jersey can be traced to two romantic elopements. The tenth Earl of Westmoreland, who died in 1841, ran away with the daughter of the banker Child, the couple being married at Gretna Green. Their daughter similarly eloped with the young Earl of Jersey, and the Jerseys ever since have been partners in the banking business.

The latest balance sheet of Child & Co. showed deposits of £3,000,000. Combined with Glyn's, they will exceed £30,000,000.

### Natural Resources Bulletin.

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

Ontario boasts of her gold and silver mines, of her nickel, copper and cobalt, but it is not generally known that the Lacey mica mine near Kingston is the world's greatest amethyst mine and the largest producer. The mine is now owned and operated by the General Electric Co., who use the output in the manufacture of electrical equipment. The property has been opened up to over 185 feet in depth, and pockets have been found 25 feet in width which were almost a solid mass of mica crystals.

The mica from this mine is light as air in color, and is transparent, so that defects, flaws or inclusions may be easily detected. It is quite pliable, and can be bent into various shapes without cracking.

### Bank of England Aids Relief Work in Greece

A despatch from London says:—The Bank of England has agreed to grant a loan of a million pounds through the League of Nations for refugees relief work in Greece. Henry Morgenthau, of New York, who is in charge of operations in Greece, announced.

This loan makes a total of two million pounds available for the relief work in Greece, which Mr. Morgenthau says will be sufficient to carry on the relief work until November, when he hopes it will be possible to obtain a permanent League of Nations international loan sufficient to continue the care of the Greek refugees. Mr. Morgenthau, who has been for six months chairman of the League Committee to take charge of this work, came to London last week for the purpose of raising the loan just granted.

The women of Sumatra wear wedding earrings instead of wedding rings. These are large silver buttons like trinkets which must be kept as evidence until the first child is born, or for five years if there is no child, and then abandoned. The mother carries her baby astride her hips. It is held there by a scarf across her shoulders.

### NEWBURY

Fred Jeffery, of Detroit, visited his mother last week.

Mrs. George Harcourt and daughter Audrey arrived home last week from London where they spent the winter. Miss Jessie Gray, of Detroit, and brother Andrew, of London, spent the week-end with their mother.

Emo Randall moved to Bothwell this week and Edgar Rillet is moving into the vacated house.

Mother's Day was observed in the church services Sunday. In the morning in Christ church Rev. R. J. Murphy, B.A., took for his text the fifth commandment, and preached a good sermon to young people. In Knox church in the afternoon Rev. H. Bolingbroke gave a fine sermon, the children taking part in a special form of service. In both churches were beautiful bouquets of flowers. In the evening the missionary committee showed moving pictures of work in China. The orchestra provided the music.

James Marshall, of Detroit, formerly of the Bank of Montreal staff, called on friends in town Sunday.

Messrs. Hurdle and Logan are operating the sawmill again.

The appearance of the village is being greatly improved by fresh paint. Miss Graydon's and D. Stalker's residences and A. Holman's store look fine and several others are to be done.

### WARDSVILLE

Jack Douglas, of Windsor, spent Sunday with his mother here.

Lefroy Weer, of St. Thomas, spent the week-end at his home here.

Mr. and Mrs. Luchten and family, of Windsor, moved to Wardsville last week where they intend making their home.

Mrs. W. H. Parnall is spending some time in Leamington with her sister who is seriously ill.

Mrs. (Dr.) McPherson, of Duart, is visiting her sister, Mrs. C. Morrison. Mr. and Mrs. O. Shaw, of Chatham, called on friends in the village on Sunday.

Miss Belle Blott spent the week-end with her parents here.

Mrs. C. Sheppard and Ethel Moore have returned from Detroit where they spent the winter.

Mr. and Mrs. A. Linden and Florence have moved from their farm to the village for the summer.

Albert Sturt and Mr. and Mrs. Nevins, of Teeswater, and Mrs. McCoy, of Wingham, called on Mrs. T. H. Weer on Thursday on their way to Leamington.

Mother's Day was observed in the various churches of the village on Sunday. In the Anglican church special music was given and Rev. Mr. Murphy gave a very appropriate sermon. In the Presbyterian church a unique feature was the mothers' choir, with a splendid address by Rev. Mr. Bolingbroke. Rev. Mr. Bridgette gave a good address in the Methodist church, and the Sunday School took part in the service.

Miss Jean Randless, of Detroit, called on friends here Sunday.

Notice.—Monuments, in Scotch and Canadian granites; inscriptions engraved at your cemetery a specialty.—Wardsville Granite & Marble Works; Chas. Minna, proprietor.

### NORTH EKFRID

Ivan Chisholm is very ill with the mumps.

Mr. Musgrave and son Herb, motored to Toronto and other points east and spent a few days last week.

George Laughton and family, of London, spent a few days last week calling on friends in this vicinity.

Wm. Pierce had the misfortune to lose a valuable horse. It got caught in the harness and harrows and broke its leg.

Emerson Ramey is home after spending a few weeks in Windsor.

Mother's Day and Children's Day was observed in the Presbyterian church Sunday afternoon. There was a large attendance. The choir was composed of mothers and Mrs. Henry Roemmel, sr., was the alto singer. Mr. and Mrs. Gordon Mills, of London, were the guests of Mr. and Mrs. Charles Mills Sunday.

The Girls' Mission Band met this week at the home of Miss Lizzie Down.

The Ladies' Aid met at the home of Mrs. Robert Pierce on Thursday afternoon of last week. Owing to the day being stormy the attendance was not as large as usual.

Will Nichols, of Windsor, spent the week-end with friends here.

Mrs. Gordon Roemmel, of Windsor, is the guest of Mrs. Charles Roemmel.

**Ready-made Medicine.**—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Eclectic Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

### MODEL CENTRE

A meeting of the Heartbreakers will be held on Friday evening, May 16th, at the home of Chester Thornicroft. All members are requested to be present.

Miss Eva Campbell is home after spending several months in Detroit.

Wm. Eddie and family left for their new home in London last week.

Bryden Glasgow has purchased the farm of James Harvey.

Rev. Frank Brown, of Toronto, visited this week at Chester Thornicroft's.

### STRATHBURN

Will Siddall has rented Isaac McCracken's blacksmith shop in Glencoe.

The Simpson brothers intend remodeling their barns this summer. Lorenzo Siddall has improved the looks of his farm by a new fence.

### CAIRO

Mrs. Isaac Misner and daughter Norma, of Orford, are spending the week with the former's mother, Mrs. Curran.

Mr. and Mrs. Herb. Elson spent Sunday with Mr. and Mrs. Brown, at Inwood.

Miss Maggie Coleman and Jim spent Wednesday in Chatham.

Dr. Burdon, of London, spent Sunday with his sister, Mrs. Geo. Prangley.

Glad to say that Myrtle Annett, who is ill in the Chatham hospital, is improving.

Mr. and Mrs. John Armstrong left on Wednesday for Detroit, where he has secured a position.

Mr. and Mrs. Alex. Armstrong and Jean spent Sunday with his sister, Mrs. Dan Macaulay.

Miss Ollie Prangley, of Toronto, is visiting at her home here.

### CASHMERE

Clarence Armstrong, of Windsor spent Sunday with friends here.

Mrs. B. F. Jeffery, of Newbury, was the guest of her daughter, Mrs. Calvin Sitter, on Sunday.

Wed. Dark and Calvin Sitter were Cairo visitors on Thursday.

Elmer Knowler, of Bothwell, spent Sunday with his uncle, Wed. Dark.

Mother's Day was observed in this church on Sunday. Mr. Bridgette, the pastor, gave an interesting and helpful sermon on "Motherhood."

The church was nicely decorated and the choir rendered special music. The Ladies' Aid met in the church on Wednesday last, and have decided to have a lawn social on the church grounds the latter part of May and to have a bazaar in connection with it.

Mr. and Mrs. Earle Linden and son Murray, of Aldborough, spent Sunday with their parents, Mr. and Mrs. Henry Saylor.

### DAVISVILLE

Mrs. Wm. McRae and family, of Glencoe, spent Sunday with her parents, Mr. and Mrs. Joseph Armstrong. Mr. and Mrs. Alex. King and family spent Sunday at Dan McNaughton's.

Mrs. Upton, of Strathroy, spent a week with Mrs. Jim McIntyre.

Jack Brennan, of Detroit, spent a couple of days with his parents, Mr. and Mrs. Jim Brennan.

Jack Blackhall has returned home from Detroit and has taken a position at the oil well with Mr. Willet.

### RIVERSIDE

Owing to Rev. G. W. Oliver preaching anniversary services at Cook's church, Caradoc, on Sunday, Rev. W. G. Rose, of Delaware, conducted the service in the Presbyterian church here.

Mr. and Mrs. Malcolm McGugan and Miss Brunkard, of Melbourne, spent Sunday with Mr. and Mrs. Donald McGugan.

Glad to hear that Miss Annie Johnson, of London, who has been ill with the measles at her home here, is recovering.

Miss K. Urquhart is visiting Mr. and Mrs. William Graham.

Several from here attended anniversary services at Cook's church on Sunday.

Mother's Day was observed in the church here on May 11th, with quite a large attendance. The pastor, Rev. G. W. Oliver, was in charge, and special music was rendered by a ladies' choir. The church was prettily decorated with flowers.

Mina, little daughter of Mr. and Mrs. Duncan Campbell, of London, is with her grandparents, Mr. and Mrs. Henry Mullins.

Mr. and Mrs. John McAlpine spent Sunday with Mr. and Mrs. G. Andrews.

Charles Alexander and Miss Jessie Alexander were guests at the home of Mrs. N. Mullins on Sunday.

## CASTORIA

For Infants and Children

In Use For Over 30 Years

Always bears the Signature of *Dr. J. C. Fletcher*

Shingle, belles, shingle, belles, Shingle white you may, Can't you hear those shears snip, belles?

The shingle's come to stay, Shingle, belles, shingle, belles, The barber has his day;

The shingle is in favor, belles, And the woman has to pay!

### MELBOURNE

The annual meeting of the Ladies' Aid of the Methodist church was held in the Sunday School room and was well attended. The yearly report was given, showing the best year in the history of the society, which was organized forty years ago. Much credit for the successful year is due to the enthusiastic president, Mrs. Gilbert McLean. The following officers were elected for the coming year:—President, Mrs. Gilbert McLean; 1st vice-president, Mrs. Ed. Galbraith; secretary, Miss Robinson; treasurer, Miss Cornelle; floral committee—Mrs. Geo. Richards, Mrs. Geo. Sponenburg; visiting committee—Mrs. J. Scott, Mrs. Geo. Beattie, Mrs. Ed. Galbraith, Mrs. Geo. Sponenburg; decorating committee—Laura Collier, Blanche Hardy, Phyllis Bees.

Mrs. Auld, sr., is very ill. Mrs. Smilie, of Inwood, and Mrs. Hansford and Miss Velma Hansford, of Leamington, are the guests of Mr. and Mrs. Howard Hansford.

John Auld has sold his farm on No. 4 sideroad, Ekfrid, to Hugh Fletcher. Mr. Auld and family will move to Inwood where they have purchased a smaller place.

Mrs. Kennedy, of London, is the guest of her sister, Mrs. John Lee. Miss Annie McDougald is in Toronto, the guest of her sister, Mrs. Drinkwater.

Miss Maxwell, sister of Mrs. John Little, has recently arrived from England and will make her home with Mrs. George Bees.

Mother's Day was observed here on Sunday in the Methodist Sunday School. Mrs. Edmond Richards acted as superintendent and Mrs. Wm. Lewis as secretary. Teachers—Mrs. M. R. Brown, Mrs. George Richards, Mrs. Norman Meek, Mrs. Ted Hagerty, Mrs. George Beattie. Rev. W. W. Shoup spoke on "Mothers" at the morning service in the church, and special music was given by the choir assisted by Mrs. Archie Stevenson.

Mrs. B. F. Jeffery, of Newbury, was the guest of her daughter, Mrs. Calvin Sitter, on Sunday.

Wed. Dark and Calvin Sitter were Cairo visitors on Thursday.

Elmer Knowler, of Bothwell, spent Sunday with his uncle, Wed. Dark.

Mother's Day was observed in this church on Sunday. Mr. Bridgette, the pastor, gave an interesting and helpful sermon on "Motherhood."

The church was nicely decorated and the choir rendered special music. The Ladies' Aid met in the church on Wednesday last, and have decided to have a lawn social on the church grounds the latter part of May and to have a bazaar in connection with it.

Mr. and Mrs. Earle Linden and son Murray, of Aldborough, spent Sunday with their parents, Mr. and Mrs. Henry Saylor.

Clarence Armstrong, of Windsor spent Sunday with friends here.

Mrs. B. F. Jeffery, of Newbury, was the guest of her daughter, Mrs. Calvin Sitter, on Sunday.

Wed. Dark and Calvin Sitter were Cairo visitors on Thursday.

Elmer Knowler, of Bothwell, spent Sunday with his uncle, Wed. Dark.

Mr. and Mrs. Earle Linden and son Murray, of Aldborough, spent Sunday with their parents, Mr. and Mrs. Henry Saylor.

### APPIN

The annual meeting of the Ladies' Aid of the Appin Methodist church was held at the home of Mrs. Wilfred Laughton recently. Despite bad weather there was a large attendance. The yearly reports were presented and proved to be very interesting, and the members were highly gratified with the success of the year's work. The pastor, Rev. M. C. Parr, presided during the election, which resulted as follows:—Honorary president, Mrs. James Macle; president, Mrs. L. H. Payne; 1st vice-president, Mrs. T. H. Brownlee; chaplain, Mrs. Frank Pole; assistant chaplain, Mrs. Dan McDonald; financial secretary, Mrs. J. Lotan; secretary-treasurer, Miss Helen Macle; floral committee, Mrs. Jones and Mrs. Watterworth. Following election of officers, work for the ensuing year was discussed, and it was decided to hold a bazaar in the fall. Light refreshments were served by the hostesses, Mrs. W. and Mrs. Ed. Laughton, at the conclusion of the meeting.

Mother's Day was fittingly observed in the Methodist church here on Sunday. The Sunday School in the morning was taken charge of entirely by the mothers and girls. At the close of the lesson period all the mothers were requested to sit together and a splendid appropriate program was given, after which all mothers were presented with a bouquet of flowers tied with white ribbon. In the evening large congregations listened to a fine sermon by the pastor on "Motherhood as a Vocation." The church was beautifully decorated with flowers, and special music by the choir was much appreciated. Next Sunday will be observed as Father's Day.

An invitation from the Glencoe League to the Appin League was accepted last Monday, when over 30 young people motored to Glencoe and put on a program at the League there. After the program the young people of the Glencoe League entertained the visitors to a social time and lunch was served.

Rev. M. C. Parr is in Aymer conducting the funeral of an old friend, Mrs. Chisholm.

### CAIRO

M. D. Smith left for Windsor on Saturday.

John A. Armstrong and wife moved to Windsor during the week.

Alex. Armstrong, wife and daughter Jean visited in Newbury over Sunday.

Mr. and Mrs. Alex. Munroe were Saturday visitors at the home of Mr. and Mrs. W. H. McKeown.

Send in your news items every week. This is your newspaper.

### CRINAN

Miss Mary Thompson has returned to Chatham after spending a couple of weeks at her former home here.

The regular meeting of the W. M. S. was held on Wednesday last, when a report of the convention at Hamilton was given by Mrs. Carr.

Mother's Day was observed in Argyle church Sunday very appropriately by the baptism of children. The following infants were baptised:—Duncan Keith, son of Mr. and Mrs. Bruce McPherson; James Thomas, son of Mr. and Mrs. Robert Watson; St. Claire, son of Mr. and Mrs. James Dymock; Duncan, son of Mr. and Mrs. Mac, McAlpine.

We are sorry to hear that Miss Helen Cook is not improving as well as might be expected from her recent attack of appendicitis.

Mrs. Jack Matheson is in St. Thomas visiting her sister, Mrs. Evans, who is ill.

The regular meeting of the Y.P.S. was held Sunday last. Interesting papers were given by Miss Josephine Carmichael and James McPherson. A solo was rendered by Miss Marion McEachern.

Mr. and Mrs. Baidson and family, of Swansea, South Wales, who have been visiting at the home of J. A. Matheson, intend moving to West Lorne in the near future. Mr. Baidson has purchased one of Mr. Merritt's homes.

Mr. and Mrs. Robert Dobson and Jack Dobson visited Sunday at the home of Wm. Dobson.

Mrs. Dan Dymock is spending a few days visiting at her former home near Muirkirk.

Born to Mr. and Mrs. Patterson (nee Kate McGill), a son, the sacrament of the Lord's Supper will be dispensed in Argyle church next Sunday. Preparatory services will be conducted Thursday afternoon by Rev. Mr. Robertson and Friday evening by Rev. Mr. Carr.

Mrs. Murray Campbell spent the past week visiting her mother, Mrs. Isaac Simpson.

A number from here attended the dance at Bennett's Corner on Friday.

Strangled with Asthma is the only expression that seems to convey what is suffered from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

### KILMARTIN

Miss Mae Moore is visiting relatives in Walkerville and Detroit.

Dan W. Leitch is spending a week with his daughter, Mrs. Gough, of Detroit.

Quite a number from here attended the golden jubilee services of Guthrie Presbyterian church at Alvinston on Sunday, and also the tea meeting on Tuesday evening.

Miss Flora MacLachlan is visiting friends in Detroit.

Thos. Williams spent the week-end with his son in Detroit.

A couple of families of Belgians moved into the McGregor house last week.

Miss Corinne Howe spent the week-end in Alvinston.

Inspector Sexton of Strathroy, visited S. S. No. 17 school on Thursday last.

An Oil of Merit.—Dr. Thomas' Eclectic Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

### EKFRID STATION

Mother's Day was well observed in the Sunday School here.

Mr. and Mrs. Richard Eaton spent Sunday with friends in Dunwich.

Miss Vera Beale is visiting in London.

Mildred Beales is recovering after an attack of measles.

Miss Ella Lilly is visiting with Mrs. Alvin Lilly.

The regular meeting of the Eureka Community Club was held at the home of Mrs. D. J. McLean Thursday afternoon, May 8, and in spite of the inclement weather there was a fair attendance of ladies. The president was in the chair and conducted the usual routine business. Many excellent suggestions were given on "The necessity of having a hobby," by Mrs. R. P. Eaton. The variety of fancywork, as demonstrated by Mrs. D. A. Campbell, was beautiful. Miss Carrie McLean gave a recitation entitled "The Cow," and the humorous reading by Mrs. W. P. Cornell occasioned a hearty laugh. All took a great interest in the demonstration of the school books, under the supervision of Mrs. D. J. McLean. The subjects discussed by the ladies were "Teaching agriculture in the schools," "Recent O.E.A. convention in Toronto," "Consolidation of schools," and "Home work." The roll call was responded to by giving your special hobby. On Thursday, June 6, the ladies will meet at the home of Mrs. Wm. Kirkwood.

Perhaps they may yet find a certain missing \$15,000 cheque in King Tut's tomb.—Toronto Telegram.

## Wants to Be Serious

Ben Turpin, famous comedian, inset, and the Ste. Anne Basilica now in course of erection.

YES! Ben Turpin is permanently cross-eyed, though his feet are not the monstrosities they appear when made up for the screen. Quebecers who discovered this when he and Mrs. Turpin stayed at the Chateau Frontenac recently were also surprised to find them a most retiring, modest, quietly dressed and devoted couple, quite unlike the movie people one imagines.

The manner in which Mr. Turpin has risen supremely over the handicap of those famous eyes is an example of the courageous turning of an impediment to good account. "I love serious acting," said Mr. Turpin when interviewed on the Canadian Pacific en route to Montreal, "and long to play tragic roles, but, of course, I haven't the looks. So I do the next best thing—I make people laugh. Moreover, it's a pretty hard job being funny all the time. Often I feel more like crying. But I've got to make 'em laugh or my head will be chopped off."

Ben is an American of old stock but Mrs. Turpin is a French Canadian. Hence this was not by any means the first visit of the comedian and his wife to Quebec, but the trip on this recent occasion was somewhat in the nature of a pilgrimage from Los Angeles to the Shrine of Ste. Anne de Beaupre.

Ste. Anne de Beaupre will again this year, be the Mecca of thousands of pilgrimages. The new Basilica, work on which is being hurried as much as possible will not be ready for occupation for some two or three years yet, but the little wooden church which, since fire destroyed the old Basilica, has housed the shrine, is serving a useful purpose and this summer will no doubt see many sticks and crutches added to the pile within its doors.

**Fletcher's CASTORIA**

MOTHER! Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared to relieve Infants in arms and Children all ages of
