DOMESTIC SCIENCE TEACHERS RECOMMEND

KLIM

KLIM is pure, separated milk in powder form. Only water of no value is removed. Absolutely no substance is added. To convert KLIM into liquid simply add the correct proportion of water.
KLIM is used by teachers of domestic science, dietitians, and all authorities on pure food. It reduces the cost of cooking—will not sour—does not deteriorate. KLIM is always good—always ready to use, and is indispensable in the home.

HUNDREDS DELIGHTED WITH FINE EXHIBITS AT PURE FOOD SHOW

Second Annual Fair in Winter
Garden Record-Breaker.

AUTOMOBILE SHOW, TOO
Both Will Be Open Every
Afternoon and Evening
All Week.

One of the brightest, prettiest and most attractive exhibitions ever presented to the London public opened last evening in the Princess Winter Garden, the second annual Pure Food Show, under the auspices of the Retail Grocers' Association, this year combined with an automobile show.

The magic words which turned the key in the lock and threw wide the doors of the exhibition for the week, were spoken shortly after 8:15 o'clock by Mayor Stevenson who, referring to the fact that the Pure Food Show is better and bigger than last year, complimented the Retail Grocers' Association on the enterprise shown in planning and carrying out such an exhibition. In connection with the subject of food, an appeal was made for practical interest in greater production and the cultivation of every available foot of ground.

Visitors Welcomed.
President T. Shaw of the association said a few words of welcome to the visitors, expressing his pleasure at the large attendance on opening night, which he regarded as a good augury for the success of the show, so far as patronage is concerned.

Several hundred people passed through the gates during the evening, and it is expected when the merits of the show are generally known there will be difficulty to find room for the crowds.

The evening closed with a dance. Bigger, Better Than Ever.
One glance from the entrance was sufficient to impress that this year's show is leagues in advance of the one of a year ago, so far as general arrangements are concerned and also with regard to number and method of display of exhibits, and the scheme of decoration.

The entire south end has been set apart for the automobile show, where the handsome cars stand at ease in regular gardens of palms.

Somewhere, concealed among these, is the Princess Orchestra, which is scheduled to discourse enlivening programs of music each afternoon and evening during show week. Across a broad, and enlivening upon the dancing floor for a third or so of its space, are the booths which have been stowed from the complete circle around the walls of the immense auditorium.

Hydro Exhibit.
The hydro electric exhibit, containing all manner of devices to delight the heart of the housewife or the girl who attempts light housekeeping in rooms, occupies a generous section to the right of the north central entrance. On the left side, and placed some distance forward, is the imposing exhibit of the Perrin Biscuit Manufacturing Company.

Spring-Time Fete.
While a general scheme of blue and white has been carried out in decoration, this is almost lost sight of in the variety of coloring which lends variety to the individual booths, and so away, some how, blends into a harmonious whole.

Everywhere flowers and greenery have been used in profusion until the Pure Food Show seems a clump of Pampas, a delightful, springtime fete rather than an exhibition with serious educational purposes.

A prominent local florist has secured the space on the west side, which includes a balcony. Beyond is a veritable bower, in which members of the Campbell Becher Chapter, I. O. D. E., are selling flowers for their soldiers' comforts fund. All they have to do is to come and sell and the florist gives them half the proceeds. The light shining through the palms and ferns which bank the balcony gives the effect of a coronet to crown the pretty scene.

See This "Silent Salesman."
Directly opposite is the most fascinating "silent salesman" ever invented, a lattice work summer house, entwined with morning glories and decked with palms and roses. Suspended from the roof with red, white and blue ribbons are the most toothsome-looking loaves of bread, while on a white pedestal in the centre rests an imposing wedding cake, surrounded by triumphs of art in the way of bread moulding, ribbon bedecked. This is the ingenious device of the Neal Baking Company.

Thimulated, marmalades look like liquid gold in jars that are pyramided on counters. Jellies like gems in their richness of coloring and transparency offer temptation to the passersby.

Garlands of Green.
The canopy above all this brightness, interest and beauty, has been formed from garlands of green, amid which twinkle Japanese lanterns, shedding a subdued radiance.

Far down the west side, near the automobile section is to be found one booth which keeps prominently in mind the fact that the possibility of holding such a show in London this year and of so much brightness, so many evidences of commercial prosperity in Canada, is due to the brave men who have fought and still are fighting to preserve Canada from invasion, and to bring to oppressed nations liberty, justice and peace.

Soldiers' Comforts Shower.
The Isabel Hampton Chapter, I. O. D. E., a recently organized chapter of graduate nurses, has fitted up an inviting nook with all manner of goods suitable for the home medicine chest, and also to send to the best fellow in the world overseas. On one side of the booth counter are two boxes to hold donations of comforts and delicacies. Letters from the boys in England and France have been received by the local Red Cross, for the comforts sent them during the winter months.

The flag on the town hall is flying at half-mast for the memory of Wallace Acheson, recently killed in action. According to official word received here, Pte. H. Bradley has been killed in action. He went over with a local detachment. Prior to his enlistment he was a house painter and decorator.

7TH EARL OF SHANNON KILLED.
LONDON, April 24.—Richard Bernard Boyle, seventh Earl of Shannon, has been killed in action. He was a lieutenant of the Royal Fusiliers.

BIGGEST MEAT MARKET WEST OF TORONTO.

Many citizens who have some idea of the growing commercial importance of London will doubtless be surprised to learn this city possesses in Anderson's meat market the largest single meat market between Toronto and Chicago. On a busy day the whole length of the 68-foot counter is frequently crowded with customers. An eye-witness can easily credit the statement that frequently 2,000 orders are filled in a single day.

The fact that buyers come back again and again, and bring along their friends and neighbors, is ample evidence that the meat sold gives entire satisfaction. Extensive improvements are under way in the mammoth shop at the present time which will insure still better service, and the perfection of sanitary conditions. A new refrigeration system is being installed with a capacity for taking care of four carloads of meat.

This means a whole carload of ice to satisfy the hungry maw of the city, the heads of it is a firm to be known that they will be able to keep their meat in as perfect condition the hottest days in summer as they will find the mercury scarcely climbing down when it reaches the bulb in the thermometer in winter.

"Flyproof, dustproof, germproof" is to be the slogan of the big butcher shop hereafter, so far as it is humanly possible to take such care of meat merchandise. Among the new improvements being introduced is a big refrigerated counter of marble, with plate glass front, the meat to be displayed on shelves inside, and kept properly chilled by means of frost pipes. The blocks will be the only place where uncovered meat will be displayed, and this is absolutely essential to facilitate the service when there is a rush of customers.

Anderson's boasts the best delivery service in town, with four deliveries daily by auto to each section of the city, and six on Saturday.

IT BURNS COAL AND GAS AT THE SAME TIME.

"The handsomest stove ever shown in London," is what is claimed for the latest "two-in-one" bargain, a range that actually makes possible the burning of coal or wood and gas simultaneously. Keene Bros. of 125-27 King street are the exhibitors at the pure food show in the Princess Winter Garden all this week, and they have the honor of being the sole agents for Western Ontario, representing the biggest stove firm in the world, the manufacturers of the Universal stoves and furnaces of Chicago.

The "universal" combination range saves space, an important consideration in the days of the small kitchen. It saves money, giving two ranges for the price of one. Everybody is trying to economize in some way in war time. It saves time, temper and exposure to extremes of temperature. Is the kitchen range too low to make preparation of breakfast in a hurry a possibility? Simply turn on the gas. Meanwhile, the kitchen is comfortable from the coal fire that has been in all night.

What about those hot biscuits for tea? Does the oven refuse to hurry up? No need to worry and hurry. A twist of the tap, and a match, and the gas heat is augmenting the coal heat so quickly, the oven will be just right in less time than it takes to think about it. The beauty of it is, the gas and coal never interfere. Gas alone can be used for warm weather and the coal range is always in place to start up a coal fire to take the chill from a raw, damp day.

Durably made, of sanitary blue or black porcelain enamel, with nickel finishings, absolute cleanliness is assured. Gone is the need for the blackening brush and blacklead, for which soap and water proves a welcome substitute. Food cooked in such a range cannot be otherwise than pure.

In addition to the Universal combination range, Keene Bros. are showing the famous Adjuato mattresses, which can be adjusted to fit any bed. Made of layers of white felt, the mattress cannot spread, and a comfortable rest is assured. The excellence of such a mattress must be investigated to be appreciated.

VERITABLE "ENCHANTED PRINCESS" IN THIS BOUQUET.

"Seeing the Image Come to Life" is to be one of the special evening attractions of the Pure Food Show during the remainder of the week. This will be found in a section of the Western Ontario Electric Company's exhibit, which cannot fail to prove a strong drawing-card for this booth, as well as for the whole exhibition.

Like being transported on a magic carpet to some wonderful palace of illusions will at seem to stand gazing at a huge bouquet in a picture frame, and suddenly see emerge from it the head of a charming girl, the flowers gradually fading away as the human features stand out more vividly. The weirdness and novelty will be enhanced by the fact that the "bouquet girls" are well-known young Londoners, Miss Lena Short, Miss Pearl Lewis, Miss Vera Blanchard and Miss Florence Pipe, who have recently made a success as moving picture actresses.

LONDON, CANADA.

Apr. 21, 24, 26

Western Ontario Electric Company has a number of other special attractions for the housewife, the Hughes electric range, for example. Durability, economy and convenience are guaranteed for the famous range. If any part does not measure up to specifications it will be replaced for the purchaser. Arguments offered in favor of the range quoted at the exhibition, without extra charge for connection.

"Easifirst" Purest, Most Economical Shortening.
A spick and span nook in the Pure Food Show which commands the interested attention of the thrifty and progressive housewife is that of Gunns' Limited, where attractive cartons and tins of Gunns' "Easifirst" shortening are displayed against a patriotic background in booth lining of red, white and blue bunting. Here are demonstrated the merits of this pure, economical vegetable product for cooking, frying and shortening, in the most practical way possible by actual experiment. Cakes are baked, doughnuts, fried and other cooking operations performed, meantime the whole process may be watched if time permits and the toothsome dainties tasted as it is taken from the fire, in this case, an electric range. Arguments offered in favor of Easifirst above all other shortenings are first, that it takes the blue ribbon for purity, making 100 per cent. It is a pure, vegetable product, a creamy, snow-white substance that means double economy, because it costs less and goes further than either butter or lard. It can be heated 200 degrees higher than butter can be without smoking. Fish can be fried in Easifirst and the latter carrying any taint of the former, the useful souvenir given away at the booth is an Easifirst cook-book, containing full directions for use of the "better than butter or lard" shortening.

HINDENBURG LINE BARE

Capture of Gavrelle Uncovers
Section of German De-
fence System.

[By Stewart Lyon, Special Correspond-
ent of the Canadian Press.]

Canadian Headquarters in France, via
London, April 23.—At dawn this (Mon-
day) morning, after a vigorous artillery
preparation, an attack was launched
upon that part of the enemy line oppo-
site the northern end of the Canadian
corps. In the centre and on the ex-
treme south the attack was speedily suc-
cessful and our objectives were reached
with relatively small losses. At the
northern end of the line the enemy de-
veloped a tenacious resistance, and the
electric station to the west of Avion.
Here houses had been transformed into
carefully fortified machine gun positions,
which were difficult to deal with.

Our infantry were held back while
heavy artillery turned a concentrated
fire on the electric station and on the
western part of Avion, whence, also, a
galling enfilading fire was directed upon
the troops who in the first rush had
occupied Poisse Seven. House-to-house
fighting was resumed after this bom-
bardment, which greatly weakened the
enemy resistance. The progress made
is important, in that it brings our line
close up to Avion, a suburb of Lens,
to the south.

Hindenburg Line Bared.
The victory by which the British
have captured Gavrelle, in a rapid ad-
vance, uncovers the part of the
Hindenburg line. The winners of little
value the work of construction of wire
entanglements, upon which the Ger-
mans have been busily engaged since
their retreat from Vimy Ridge, ten
days ago.

During the last two days the enemy
have been putting shells into Vimy
and Petit Vimy, and this morning, in
the back area, they experimented with
what is believed to be a new form of
poison gas. Eight bombs, bursting high
in the air, threw out at first a ruddy
glow, then a bright orange vapor which
rapidly changed to a heavy gray cloud
that drifted before the wind. No ill-
effect, however, was observed in the
district in which these bombs burst.

CANADIAN WAR RECORDS CHRONICLE PROCESS OF TURNING ENEMY ABOUT.

LONDON, April 23.—The following
communiqué has been issued by the
Canadian war records office.

Since April 9, the historic day on
which the Canadian corps captured
Vimy Ridge, the front of our army has
held, the full advantages of the first
day's victory have been realized. Pro-
gress has been made and our line has
been advanced along the whole front
to an average depth of 1,000 yards,
mainly as a result of skillful patrol fight-
ing.

Much hard work has been entailed
in the consolidation of the recaptured
positions. The very trying weather
has imposed a severe task upon our
troops. The roads are our chief prob-
lem, and if any further proof of the
unparalleled triumph of our artillery
is needed it can be found by an in-
spection of the work which has been
done along the enemy's lines.

Conditions Favored Defenders.
On April 10 the Canadians again at-
tacked the northern slopes of the
ridge. The position was one of great
strength, embracing the southwestern
outskirts of Gavrelle, La Boile, and
a most intricate system of craters
and trenches surrounding Hill 145. The
conditions were all in favor of the
defenders as continuous shelling and
heavy rain had turned the ground into
a quagmire.

Desperate fighting had taken place
throughout the whole of the preceding
day and night, and though we had
made good progress the enemy still re-
tained a footing in this stronghold.
The attack was entirely successful
and completed the capture of our final
objectives along the whole front of
7,000 yards.

During the latter part of the after-
noon large bodies of Germans were
seen in the open and it became evident
that the enemy was in a position to
counter-attack against the left flank
of our new position. The attempt, how-
ever, was completely repulsed by our
artillery, which, taking full advantage
of the excellent facilities for observa-
tion of the Douai plain from our new
position, bombarded the enemy and
inflicted heavy casualties.

Enemy's Position Exposed.
On April 9 there were no serious in-
fantry engagements. Our patrols were
active throughout the day pushing for-
ward along the whole front and gain-
ing ground at practically no cost. Those
batteries which the enemy had been
able to withdraw were very active, but
many of their positions were now ex-
posed to direct observation and suffer-
ed severely at the hands of our own
gunners.

It had now been decided to enlarge
the scope of operations to include the
"Pimple," a commanding position of
great strength, on the extreme north of
the Vimy Ridge, similar in many re-
spects to Hill 145. The attack was car-
ried out at 5 a.m. on April 12, in the
midst of a snowstorm and over most
difficult ground in a manner beyond
all praise. In this attack the enemy
suffered very heavily, leaving many
dead on the battlefield, and in addition
we took over 200 prisoners, together
with numerous machine guns and trench
mortars. The blow was a severe
one for the enemy as it gained for us
the whole ridge from the Souchez to
the Scarpe and shattered the enemy's
last hopes of being able to regain the
lost ground by a counter-attack from
the northeast.

Full Fruits of Victory.
The full fruits of our victory took
shape and form from the 12th. It was
clear that the enemy's new line at the
foot of the eastern slopes of the ridge
would soon become untenable. Our
observers had reported fires and ex-
plosions in towns behind the enemy's
lines and there were indications that
a retreat was imminent. This was
soon confirmed by our scouts who acted
throughout with admirable skill and
determination. Patrols were pushed
forward all along the line. In many
places the enemy had succeeded in
leaving under cover of darkness. In
others small rearguards were encoun-
tered and overcome.

By nightfall our line had been ex-
tended to beyond the Vimy-Arras rail-
way and the villages of Willerval, Par-
bus, Vimy, Petit Vimy, La Chaudière,
Givonchy, were in our possession.
Our captures had increased to over 4,000
prisoners, more than 40 guns and a
large quantity of machine guns, trench
mortars and material of all kinds.

LAMBETH. April 23.—William Meek
of St. Thomas was the guest of Mr.
and Mrs. Charles Ead on Sunday.
Miss Theda Walker spent the week-
end at the home of Mr. Dawson Byron.
Miss Helen Fraser has gone to De-
troit, where she will train for nursing.
The Misses Eva and Emma Martin of
London visited their brother Frank on
Sunday.
Miss Alice Mills of London was a
visitor with her sister, Mrs. Fraser, on
Sunday.
The Misses Gladys and May Vander-
made of South London were the guests
of Mrs. G. H. Routledge on Sunday.
The village boys are being placed on
farms at a rapid rate.

BELGIUM NEAR STARVATION.
NEW YORK, April 23.—The American
Committee for Relief in Belgium made
public tonight a cablegram received by
Emile Francqui, acting chairman of
the Belgian National Committee, in
which the situation in Belgium was de-
scribed as "very grave."

McCOIG ENDEAVORS TO GET DUTY CUT OFF FARM TRACTORS

Government Defeated Motion
by 48 to 28.

MAY BE REINTRODUCTION

Argument Used That "Preach-
ing" Production Is Not
Sufficient.

[Special to The Advertiser.]

OTTAWA, April 23.—The Government
does not want gasoline plowing. Today
it voted down a resolution by Archie
McCoig, M.P., providing for the free
admission of agricultural tractors. This
was turned down, but before this he
asked for free admission of seed beans,
a proposal which Sir Thomas White
promised to investigate before he deliv-
ered his budget.

For farm tractors Mr. McCoig declar-
ed there was a great demand for them
in Ontario.
The Ontario Government had pur-
chased ten tractors and the Toronto
Board of Trade five more from the
United States, as they were not made
in Canada. They should be allowed to
enter free so farmers might be able to
purchase them.

Broad Resolution.
Sir Thomas White remarked that the
proposition was broad, as it took in every
character of farm tractor. Ditching ma-
chines had been made free for the Gov-
ernment because they were not manu-
factured in Canada, but tractor engines
were made in this country in Toronto
and Montreal. If the duty were taken
off tractor engines, regardless of manu-
facture in this country, they would
have to take the duty of all raw ma-
terials. The British Government had
bought for the use of their farmers 2,
000 tractor plows which were all being
made in the United States.

First Pardee added that the Ontario
Government's machines were being
brought from the United States.
The finance minister said that if the
resolution was amended so as to apply
only to light tractors, he would con-
sider it.

Oliver Wilcox, North Essex, said in
the town of Essex in his county a new
industry was manufacturing farm tractors
for light farm work.

E. W. Nesbitt, North Oxford, said
that Ontario was suffering from the
lack of farm labor and it would be of
advantage if the 25 per cent duty
was removed from tractors.
K. M. Turritt said in the west tractor
engines were being used in the house-
holds. Some of them were capable of
doing the work of nine horses. They
were not being manufactured in Can-
ada at the present time.

F. P. Pardee said they should not
preach production and refuse to help
with it. If the Government was
honest in its profession of more pro-
duction it should give every assistance
possible to a war measure to increase
the production. If the revenue was
going to be depleted by the removal
of this duty, then excess war profits
might be taxed to replace this loss of
revenue.

Mr. McCoig closed the debate and
Mr. Graham asked if an opportunity
would be given to discuss an amend-
ment, which would only ask that the
duty be removed from the light
tractors. Sir Thomas White replied
that this and any other cognate ques-
tion should be discussed upon the
budget, which was the proper place
to discuss it. A division was then taken
and the resolution was defeated by a
vote of 48 to 28.

Hon. George P. Graham then gave
notice that on the motion to go into
supply the resolution as Mr. McCoig
had offered to amend it would prob-
ably be reintroduced.

CANADIAN NORTHERN SOUND PROPOSITION, GOVERNMENT LEARNS

New York Experts Say It Will
Beat Competitors.

[Special to The Advertiser.]

OTTAWA, April 23.—The Government
has received a report upon the Canadian
Northern railway. John W. Eaton,
president of the United States and
Canada Company of New York, and
Edward E. Loomis, president of the
Lehigh Valley Railway Company, and
general manager of the Delaware and Lacka-
wanna Railway, have submitted a report
which they say they have been assisted by
Coville & Coipits, consulting en-
gineers.

The Canadian Northern has opened
its projects to the examination
of New York is taken as evidence that
the future financial aid for Cana-
dian business projects will come from
the United States. The report is in-
teresting to the Canadian Govern-
ment and people just now, the
American authorities state that
they have had the Canadian Northern
under examination for a year.

Can Be a Success.
The report says that with a program
of improvement carried out, the Cana-
dian Northern can be made a great suc-
cess. The plans proposed are a mini-
mum to be carried out in three years
at a net cash outlay of \$4,000,000, and
a maximum plan, which would require
five years and \$8,000,000. The Ameri-
cans say the Canadian Northern re-
quires considerable improvements. Its
present position is described as simi-
lar to that of the Canadian Pacific
and the Northern Pacific, just after
these lines had been built to the Pa-
cific Ocean, but rather better, as other
railways have established the Canadian
west as a great agricultural field, have
installed a population, built cities and
ocean ports.

Wise Investments.
The investigators approve expendi-
tures made. They say: "The capital
now invested in the property appears
to have been secured economically and
expended wisely; the interest rate on
the fixed capital has averaged only 3.93
per cent. In our judgment the road
could not be duplicated for anything
like the present cost. For the future it
is stated that the system is in urgent
need of more rolling stock and motive
power; that it needs more and larger
repair and construction shops; that
there must be a branch line constructed
to the Niagara frontier, and car ferries
put upon Lake Ontario to enable the
Canadian Northern to link the field
of American business, as well as the
steel and coal centres to the south; that
there must be enlarged terminals and
the extension of branch lines; and that
there are needed considerable improve-
ments and the betterment of a mil-
cellaneous character. All of these things
are provided for in the three and five
year programs recommended. The state-
ment is made that "proper rehabilitation
of the existing property can be ac-
complished out of net income. If pro-
vision be made for such portion of the
interest charges that may be unearned
over the next three years."

A Sound Proposition.
The report says that "While the pro-
positional period of the Canadian
Northern Railway System has not en-
tirely passed, we are unanimously
of the opinion, after many months' con-
sideration of the subject, that the pro-
ject as a whole is sound, and that its
soundness can be demonstrated at this
time." They say there can be no
question as to the ability of the Cana-
dian Northern to meet competition, as
the railway is well located and well
built; its transcontinental main line
grades over practically its entire route
are the most favorable in existence,
and under a normally developed traf-
fic it would be able to compete suc-
cessfully with the transcontinental main
line of the United States.

It is commented that the system is
an extensive one, with 11,106 miles of
operating line, and 1,144 miles of
under construction; that, although com-

ONE CENT SALE

Rexall Drug Store **Rexall Drug Store**

The Plan
You pay the regular price for One Article and then we give you another of the Same Article for **One Cent**

THURSDAY, FRIDAY, SATURDAY
APRIL 26 APRIL 27 APRIL 28

Example
Buy one bottle Rexall Wine of Cod Liver Extract at the regular price of \$1.00 and we will give you another bottle for **One Cent** or 2 for \$1.01

This ONE CENT SALE Plan was originated by the United Drug Company for the Rexall Drug Stores. They are the largest manufacturers and buyers of Toilets, Remedies, and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full sized packages, or articles, in your hands, giving you an opportunity to judge the real value of these goods, the cost of which they charge to advertising. We will only be permitted to run this sale occasionally. So take advantage of this opportunity. We can not afford to charge or deliver goods during this sale. So please don't ask us to do it.

WE ARE HERE TO SERVE YOU

only last season as a trans-continental system, it carried 152,000,000 bushels of grain from the prairies to Port Arthur. As to character of the main line, "the transcontinental main line is well located and well built; as to grades and alignments, it is superior to its competitors, having been built to provide large traffic from grain, livestock, timber, pulp, with the exception of short stretches of momentum grades.

Large Productive Areas.
The line is found by the New York experts, who are reporting to the money interests, to have been so laid out that it taps productive areas which can be counted upon to provide large traffic from grain, livestock, timber, pulp, minerals, manufactured products, as well as in passengers. They show the need for motive power and rolling stock by stating that the Canadian Pacific, Northern Pacific and Great Northern railways have a locomotive for each 5.30 miles of line, while the Canadian Northern has only one locomotive for each 12.36 miles of line; that where the three older western roads have 6.38 freight cars per mile of line, the Canadian Northern has only 3.09 freight cars per mile.

Financial Needs.
As to financial needs, the report says that there are \$58,000,000 of temporary loans and short-term notes to be funded. The completion of the three-year program would bring the fixed capital liability of the system to \$162,000,000, and to \$486,000,000 under the five-year program. Capital invested at the end of the three-year plan would be \$521,000,000, and on the five-year plan, \$554,000,000. The estimate that the gross revenue on the completion of the three-year plan would be \$67,744,000, and on the completion of the five-year plan it would be \$80,320,000. The three-year program of improvements made would enable the road on a paying basis, while the five-year program carried out would enable the road to meet all operating expenses, taxes and interest charges, and still have a profit for the first year after five of \$4,615,000.

TRUTH ABOUT FREE WHEAT.

ADDRESSING THE Montreal Conservative Club on Saturday, Lieut.-Col. Hugh Clark, M.P., made one of those candid admissions which politicians are so liable to let slip in unguarded moments, and which frequently, they would be so glad to recall, speaking on the free wheat subject, and being careful not to praise the Government's action too much, or condemn it too severely, he said, according to the following statement, according to reports in Conservative papers:

"He was not arguing that the action of the Government would not have a good effect. It would help with the lower grades of wheat. THE GREAT-EST ADVANTAGE WAS THAT IT MEETS THE DEMAND OF THE GRAIN GROWERS OF THE WEST, WHOSE CORDIAL GOOD-WILL AND CO-OPERATION WERE OF SUCH IMMENSE ADVANTAGE."

Here is the reason for the Government's "war-time measure," as the Conservative press calls it, although "election time-measure" would be infinitely more correct. It was not that those who so bitterly opposed this reciprocal trade in and since 1911 had become less prejudiced or open to conviction, but they saw in continued refusal to adopt the Liberal policy a certainty of downfall when the country spoke again; it was not, as their leaders said, that conditions now made it more advisable than in 1911, but that they were afraid for the life of their party if they refused.

The outstanding facts are: That the Conservative Government is ready to try to keep itself in power by adopting a policy which it has steadily declared meant ruin for the Dominion, and to bribe the western grain growers in a way which is legal, if decidedly immoral, to support the party. If its expressed beliefs as to the dire results of granting free trade in wheat with the United States were its true convictions, then it has deliberately sold the country for party politics.

SPELLING REFORM PROGRESS.

LAST YEAR when the London Daily Mail published the translation of a certain article that had appeared in the Kölnische Zeitung, it probably did more for the reform of English spelling than a year's propaganda of the British Simplified Spelling Society. The writer of the article sought to prove to his fellow-countrymen that the Germans would establish their superiority over the British in future competition if not in the present struggle, one of the important reasons being that as compared with German youth the British are handicapped by two years of their school life wasted on their antiquated spelling and tables of weights and measures—time which the Germans can devote to intrinsically valuable matter. The British people were already awakening to the slowness of their schools in the matter of scientific education, and it was the force of this discovery that led the Government to appoint the educational reconstruction committee.

The spelling society lost no time in laying before this committee the case for the improvement of English spelling. Under the active direction of such leaders as Viscount Bryce, Sir Frederick Pollock, Bishop Wellesley, H. G. Wells, Prof. Gilbert Murray, and others, a plea originally intended to be laid before the British premier, was submitted to the committee. It was supported by the names of one or more professors from every university in Great Britain. The overseas dominions were well represented. A list of over a hundred influential names from Canada included the signatures of Chancellors Sir William Meredith and the late Sir Sandford Fleming, University Presidents Murray and Braithwaite, Vice-Principals Watson and Queen's, and Moyses of McGill, Supt. Mackay of Nova Scotia, and ex-Premier Scott of Saskatchewan, Judge Chauveau and Dean Mathieu of Laval Law School, and many other university professors, principals and teachers of normal schools, colleges and high schools.

The plea quoted the unanimous resolution of the Imperial education conference that "the simplification of English spelling is a matter of urgent importance in all parts of the Empire," and Lord Bryce's declaration that such simplification would in a generation make English "the language of commerce all over the East, with enormous benefit to trade." It was argued further, that a consistent, rational spelling would save at least a year in the education time of our children; that it would promote purer and more uniform pronunciation; and that it would greatly lessen the difficulty of teaching reading to defective English-speaking children as well as to our fellow-subjects of alien races.

There is an increasing desire to study the English language in nearly all foreign countries. Its commercial value, richness of literature and simplicity of grammar explain its popularity with teachers of languages. This well-deserved popularity would be greatly enhanced if the spelling were reformed so

as to make spelling a help, instead of a hindrance, as it is now, to the acquisition of English. If the time ever comes when our spelling is completely reformed, a child will be able to learn to read and spell in a week. Under present conditions it would take a long line of figures to write the number of dollars and cents which is spent in teaching spelling in the English-speaking parts of the world.

It was hardly expected that any official action would be taken in Britain before the war closed; the reformers, however, have the gratification of knowing that the national board has authorized experimentation with simplified spelling in a number of the elementary schools.

In the United States the efforts of reform have been promoted mostly in the colleges and newspapers. In the United States and Canada there were at the beginning of this year 338 universities and collegiate institutions, with an aggregate body of 255,000 students, and a total of 469 newspapers and periodicals with a combined circulation of 16,000,000 using at least the first list of simplifications recommended by the American simplified spelling board.

"WORTHLESS" WOUNDED. IN A STATEMENT issued by the British admiralty, the following passages appear:

"During the recent fighting on the western front a very large number of wounded German prisoners have fallen into our hands. These wounded officers and men have to be transported to England for treatment. The same means that our wounded are brought over, and practically all the ships transporting wounded are bound to carry a proportion of German wounded. These will naturally share with the British wounded equal risks from attacks by German submarines."

"Whether the policy of the German Government is likely to be detected from its abominable course by the knowledge that it can only be carried at the expense of their own wounded remains to be seen."

It certainly "remains to be seen," but there is the slightest chance that any such consideration will influence the monsters who order the sinking of hospital ships? British authorities are quite incapable of getting the German point of view; they look upon their wounded men as dear comrades, worthy of every attention and safeguard, and fail to see how the Huns can think otherwise. But the Prussian views are different, and decency, humanity and gratitude do not enter into them.

These wounded Germans, taken prisoners by the British, and on their way to the little isle, are no longer of military use to Germany. Even if they recover from their wounds, there is little possibility of their getting back to their homeland to carry arms again. They cannot assist in stemming the Allied tide, so why should they be considered? "Efficiency" answers that there is no reason for such weakness; that if by torpedoing a hospital ship less can be caused Britain, no mauling sentiment about the Germans on board her should be allowed to interfere. The nation which will chain men to their guns and send the bodies of its dead heroes to a rendering plant in order that they may supply fats for the living, will never shudder at slaying its own wounded.

Britishers exult over the bravery of their sailors who saved from drowning 152 wounded Germans on board the Lanfranc after a U-boat had sunk her; in Berlin the act, if it is allowed to become known, will probably elicit the remark, "What fools!"

EDITORIAL NOTES.

Isn't it about time for some news of a revolution in Turkey?

Never was the saying truer: "Uneasy lies the head that wears a crown."

Maude inflicted defeat on a Turkish force, "which now practically ceases to exist." Delicate way of putting it.

Perhaps those German shells which failed to explode at Vimy were the first-fruits of the munition workers' strikes.

Sweden cries for trade agreement with Britain! Fear of Germany is disappearing, as her neighbors witness Allied victories.

How does the nation like Lieut.-Col. Hugh Clark's division of the people of Canada now at home, "stay-at-homes, who are indifferent or of alien nationality?"

Five German destroyers whipped, at least two sunk, and the others put to flight, by two British patrol boats. This shows what would happen if the "rats" would only come out of Kiel.

Emperor Karl's prayer for peace, i. e., for victory over the forces of liberty, no doubt had a connection with the contemporaneous move of the Hun Socialists to catch the Russians. The prayer was that God would work the Russians to the purposes of Hunland.

NEWSPAPER ADVERTISING BEATS OUT MAGAZINES AS NATIONAL MEDIUM.

NEW YORK, April 23.—The newspaper as a national advertising medium in the United States and Canada made "remarkable progress" during the last two years, according to the fourth annual report of the bureau of advertising of the American Newspaper Publishers' Association, made public here tonight. The annual convention of the association convenes in this city tomorrow.

"Newspapers gained \$20,000,000 in advertising during 1916 over the preceding year, and magazines \$9,000,000, figured compiled by the bureau show. During the first three months of this year there was a further increase of sixteen per cent over the corresponding period in 1916."

The committee recommends the adoption of a plan to bring about agreements between publishers in every city "putting up the bars" against free publicity.

"Community agreements of this sort seem advisable," the report continues, "inasmuch as the individual newspaper that refuses free publicity while its neighbors accept it is often made to suffer for its stand in the competition for business. This is particularly true of automobiles and moving picture advertising."

The Advertiser's Hint for City Gardeners.

Information As to Preparation, Planting and Care of Plants That May Be Grown in Backyards.

PLANNING A GARDEN.

For those who are still unable to plan their own garden the accompanying plan has been suggested. It is for a plot of about 20 by 40 feet and allows for a great variety of vegetables. It is astonishing what can be grown on a very small plot of ground and the fact that some backyards are "too small" is no excuse. A small plot of ground is an inspiration to find out just how much food can be produced in a limited space.

Amateur gardeners are continually in doubt as to when to plant what to plant, when. It is a good plan to watch nature. New grass will not come until the soil has commenced to warm up. Willow trees will not start out into bud until spring is really here. When nature has begun to warm up the soil and the dampness can be removed so that it can be easily worked, then is the time to plant. But not everything. There is a great difference in the nature of vegetables. Some are what is known as cold climate vegetables and they should be planted early in the spring, but others generally classed as southern crops will not stand the slight frosts of spring and must not be put in the ground until June. Sandy soil is ready for planting much sooner than clay.

Lettuce, onions, parsley, hardy peas, early potatoes, spinach, radishes, salad, carrots and turnips can hardly be put in too soon. Cabbage and cauliflower plants may also be put in fairly early. Such vegetables as corn and beans can go in during May, but tomatoes, pumpkins, melons, cucumbers, peppers, etc., are better left until the first week in June. After this time the danger of frost is past.

THE FIRST WITH THE HOE.

sounded on the porch, and Dick Arnold stood before her.

"I didn't win," he said simply, "but I think my level best."

"I know," she answered, "I was watching you."

"That was the hardest of all—to lose on the eighteenth green when I knew you were watching."

Something in his voice caused the girl's eyes to soften.

"Does mere golf match count so much, Dick?" she asked.

"This one counted a good deal to me."

He looked at her curiously, his eyes puzzled.

"Didn't you tell me if I won today you would promise to marry me?"

"Yes, but what does that matter?"

"I didn't win, and I suppose the promise is all over."

"Why, Dick? The girl's eyes shone like twin stars in the gathering twilight."

"Did I say that if you didn't win I would refuse to marry you?"

"No, you didn't say that. Something in her face caused his own face to red with sudden happiness. "Do you mean to say you will marry me, anyhow?"

The girl nodded.

"You've shown me today if you try hard you can do things," she answered.

A slight breeze ruffled the brown hair of her hair, releasing them from the bondage of a small straw hat. Dick Arnold gazed wistfully across the rolling greens. The man studied her silently.

The girl's eyes were turned to the hair, releasing them from the bondage of a small straw hat. Dick Arnold gazed wistfully across the rolling greens. The man studied her silently.

A PAGE OF GENERAL INTEREST TO WOMEN READERS

GILLETT'S LYE

London Advertiser COOK-BOOK

Recipes Supplied by Cynthia Grey's Readers.

Amber.

Apple Marmalade—Peel and core apples and cut them into small pieces, drop them into a basin of cold water to keep color; lift them out and weigh; turn them quickly into a deep

dish, cover with equal weight of sugar; to each three pounds of fruit add 2 oranges, sliced; let them stand for three days. Put skins and cores into preserving pan, cover with water and boil for 30 minutes; strain and set aside till wanted. Strain syrup from apples into preserving pan, add juice from skins; boil for ten minutes; add apples; boil from 20 to 45 minutes, till they look transparent. Put in jars and cover for use.

Cynthia Grey's Mail-Box

Advises Fresh Butter.

Dear Miss Grey—I saw where a mother wanted a cure for her child's sore arm. If she made butter from the first three milkings of a fresh cow, the butter is the best she can use, as this cured a running sore of long standing.

Did you receive a copy of "The Tea-Party" for me? HILPPFUL.
Ans.—No, the recitation re the "Tea-Party" was never received.

Ladies' Colleges.
Dear Miss Grey.—Please tell me the names and addresses of several ladies' colleges in Ontario, and also to whom to write at each college for information. Thanking you in advance, I am, yours truly, HILPPFUL.

Ans.—Speaking at random, there are: Ladies' College, Whitby; Alma College, St. Thomas; Haverhill, Toronto; and St. Margaret's, Toronto. In each case address your inquiry to the "Lady Principal."

Collect Bugs, Too.
"Pollage" sends her address for "Wood Violet," claiming fellowship with her as a collector of insects. Will the latter send address and stamp for "Pollage's" address, if she wishes to write?

See a Directory.
Dear Miss Grey.—Just a note this morning as this is the first time I have called and feel a little timid. Please give me the names of the art stores in London.

How do you cook artichokes?
What will take white spots off mahogany?
May I call again, when I can bring some help. FLIPP.

Ans.—This against the rules, "Flipp," to give names of business firms in our columns, but all you have to do is go to the library or a drug store, or the Advertiser business office and ask to see a city directory. Under classified heading you will find the names you seek.

2. I wish some one familiar with artichokes would tell us how to cook them, and if there are different kinds. Any help will be appreciated.

3. Try rubbing with a damp rag dipped into baking soda, or sometimes a little sweet oil rubbed on with a soft cloth helps.

See do. "Flipp."

Courage at Last.
Dear Miss Grey.—Here comes one more to join your circle. I have enjoyed reading the letters of the Pages very much, but never could get up courage to write. Now, Miss Grey, I would like if you would send me the address of one or two lonely soldiers as soon as you can. Must close. "Hazel Eyes."

I call again? HAZEL EYES.
2. S.—Please criticize my writing.

Ans.—One or two names have been sent you, "Hazel." Your writing is a bit large, but very legible. Since we've made you so welcome, you'll have courage to come again, surely.

"Donning the Jeans."
Dear Miss Grey—I am sending the enclosed poem, hoping it is the one which was asked for by "Maid in the Mist," also a bit of verse for someone. I think it is very pretty. Would you please answer the following:

1. Do you think hats with chin straps for young girls are nice, and are they going to be popular?

2. Is there any sense in those "anti-less prayer chains" which are being circulated around, or is it all nonsense? Where do you suppose it originated?

3. I would like very much to get a butterfly crocheted pattern for an underwaist. (I knit for the soldiers, too.)

4. Do I write very badly?

I do hope this stupid discussion, city vs. country, is over with. I have no place like home, be it in city or country. How many girls are going to "don the jeans" this summer? I ask for one. Someone said country boys don't care.

Advertiser Patterns

A SPLENDID MODEL FOR SLENDER FIGURES.

1998—Dress for Misses and Small Women.

This model has a collar in two outlines, so if one does not care for the broad effect the narrow outline may be especially pleasing. The dress has a fitted body lining, to which the skirt is gathered. The outer waist may be finished separately, or tacked over the lining. The sleeve is close fitting below the elbow, and has a smart, shaped cuff. The pattern is cut in three sizes: 16, 18 and 20 years. It requires 6½ yards of 36-inch material for an 18-year size. The skirt measures about 2½ yards at the foot.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

ADVERTISER PATTERN DEPT.

Please send above-mentioned pattern, as per directions given below:

Name

Town

Province

Age (if child's or miss's) pattern

Measurements: Bust..... Waist.....

Caution: Be careful to enclose the above illustration, and send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss's or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns reach you in less than one week from date of application.

list. Come and see. "Fearsome Fanny," I certainly would not think anyone much of a friend if they told me to "throw myself" at the boys. They are sadly wrong, whoever they are, to give such advice. Now, I must be off before Miss Grey chases me out with a flea in my ear.

1941 HIGHLAND GIRL.

Ans.—As you will see by my note elsewhere, yours was one of the several letters mislaid by me at the time of their receipt. I am sincerely sorry that such a delay has occurred. Your enclosed poem, "The Lilacs," is very beautiful, and I'm printing it some day soon.

1. They are jaunty on some girls, but I do not think the style is as popular this year as last.

2. There has been a little discussion of the subject in our column already, and the general opinion (which includes my own), is that it is best to wear these letters. The idea savors of superstitious days gone by; just how it originated, I cannot say.

3. Referred to crocheters.

4. No—very "goodly," in fact.

True Patriotism.

Dear Miss Grey.—With regard to soldiers and civilians and how to treat them, as I read in your column, I believe in doing what is upright, true and honest toward both, giving them their places. I do not hold some of the doings of some who claim to be patriotic, and this is an instance that is done in a church here giving the slacker the same honor on the honor roll as the soldiers who are serving for our country in France at this time. What we want is true patriotism. AN ALVINSTON READER.

Result of Desk-Cleaning.

Miss Grey regrets very much indeed that during a siege of "desk-cleaning" several letters (from "Somebody's Darling," "134th Highland Girl," and "April Showers," respectively) were mislaid and only came to light again yesterday. To each writer, Miss Grey says "I'm sorry."

"Ardelia"—Yours was a dear, friendly letter. I enjoyed every word of it. The "mother's praise" did not bore me a little bit. As for the gude mon, tell him that the hair might do, but the eyes most certainly have to be brown! And, my, but that bouquet was sweet! I gobbled it right up, or down—I don't know which.

Being Useful.

Dear Miss Grey.—I noticed in last Monday's paper where "Happy Girl" was asking for the words of Little Teddy, so I thought I might as well make myself useful. I haven't written to your page before, but am a steady reader. I will sign myself, BLONDEY.

Ans.—Now you've made your initial visit, "Blondie," don't stay away. We'll welcome you any time.

To Renew Kitchen.

Dear Miss Grey—I wonder if you would help me out? My kitchen is painted green all over, woodwork and walls both, and it looks awfully dark.

DAILY BIBLE QUESTION CLUB

By Rev. T. S. Linacott, D.D.

All Right studies for this week constitute the International Sunday School Lesson for next Sunday. Read the Bible story on which this study is based, as you ponder the following questions:

"Jesus Welcomed as King," John, xii, 12-26.

Golden Text—"Blessed is he that cometh in the name of the Lord, even the King of Israel," John, xii, 13.

4. Verses 12-13.—Would you say that this great, heroic deed of Jesus was spontaneous, or carefully organized, as such occasions are today, and if the latter, who did it? (This is one of the questions which may be answered in writing by members of the club.)

5. Suppose it should be so, that the organizers of this public reception had arranged the program with Jesus in advance, what effect would that have upon the religious and historic significance of Jesus' entry into Jerusalem?

6. Verses 14-15.—What do the palm tree branches which they carried, and Jesus riding upon an ass's colt, symbolize?

ADAMS California Fruit CHEWING GUM WITH THE FRUITY FLAVOR

RUTH ROLAND says: Ripe, red cherries and Adams California Fruit Gum I think are equally delicious. I love them both.

CANADIAN CHEWING GUM CO. LIMITED

I want it painted over again, what you suggest to look nice and clean? Also could you tell me what is a married woman's rights if she thinks her room is dirty and need painting or papering? Has her husband a right to stop her when we own the house, all but a few dollars? Also can the man sell the house without the wife's permission? I remain, APRIL SHOWERS.

Ans.—If you have been housecleaning, perhaps you'll understand and forgive me for having mislaid your letter during a desk "upheaval." I certainly regret the delay in replying. For your kitchen a light grey or a buff shade would look wholesome and yet not show soil very readily. A husband cannot sell the house without first obtaining the wife's consent, and her signature must be on the papers, but just how much authority he has in regard to renovating the house, I cannot say.

When Cakes Stick.

Dear Miss Grey.—Song enclosed for me the words of "The Dying Nun," "Three Leaves of Shamrock," "Blue Bell" and "Bachelor's Hall." It goes something like this: "Bachelor's Hall, what a queer looking place it is. Now to the ladies who bake, and the cakes will stick. Grease well, then flour well and evenly all over the bottom. And, lo, behold the splendid results!" YOUNG MOTHER NO. 1.

Ans.—The first two song requests I can publish, so watch for them in our song column. Others referred. Thanks for the song. It was especially good of you considering the "nerves." And, really, I should never have suspected them from the writing.

WHEN RUN DOWN

Hood's Sarsaparilla, the Reliable Tonic Medicine, Builds Up.

The reason why you feel so tired all the time at this season is that your blood is impure and impoverished. It is old, stale, and lacks vitality. Hood's Sarsaparilla gives life to the whole body, perfects digestion and enables all the organs to perform their functions as they should.

Get Hood's Sarsaparilla from any druggist. It will make you feel better, look better, eat and sleep better. It is the old reliable, tried-and-true, all-the-year-round blood purifier and enricher, tonic and appetizer. It revitalizes the blood, and is especially useful in building up the debilitated and run-down.

Hood's Sarsaparilla is helping thousands at this time of year. Let it help you. Get a bottle today and begin taking it at once. Be sure to get Hood's. Nothing else acts like it.

Dear Miss Cynthia Grey—I am enclosing the apple marmalade recipe, with oranges in it, which a correspondent asked for some time ago. It is one of "A Daughter of Athol's" good reliable recipes and is well worth keeping. I was much pleased to see she has come back to us, and hope she will not keep silent so long again. I made, and we ate and enjoyed, the pudding sauce and soft spice cakes. More power to your elbow. Dear "Daughter," Can anyone tell me how to make a Devonshire "chudleigh"?

Best wishes for the column, and many thanks for help received. AMBER.
Ans.—Hope "Daughter" sends you nice appreciation of her recipes and that she will be encouraged to come again soon.
See the apple marmalade recipe under Cook-Book heading.

To Make It Stick.

Dear Miss Grey.—We have taken The Advertiser for a number of years and always enjoy reading your page. I should be very much obliged if some of your members would tell me how to make blacking stay on stove and also give a brilliant polish. Yours truly, PRIMROSE II.

Ans.—Housewife-readers whose black stoves are a source of envy by all their friends, won't you tell "Primrose II" and me how you do it.

SUMMER DANCE MUSIC.

Be prepared this summer for impromptu dances by having a few real good Victor dance records on hand. There is no music to equal Victrola music for dancing. Ye Olde Firm of Heintzman & Co., Ltd., 242 Dundas street, have a wide range of Victrola dance records which they would like you to hear.

ALGONQUIN PARK.

A delightful spot to recuperate lost energy; 2,000 feet above the sea. Pure and bracing air. Good hotels and good fishing. Highland Inn opens May 7. Free illustrated literature on request to C. E. Horning, Union Station, Toronto.

650-yw

"Isn't it a dandy, mother?"

"Yes, dear, it is very handsome. And I'm so glad it's a McClary's—they're so enduringly satisfactory. I would never use anything else."

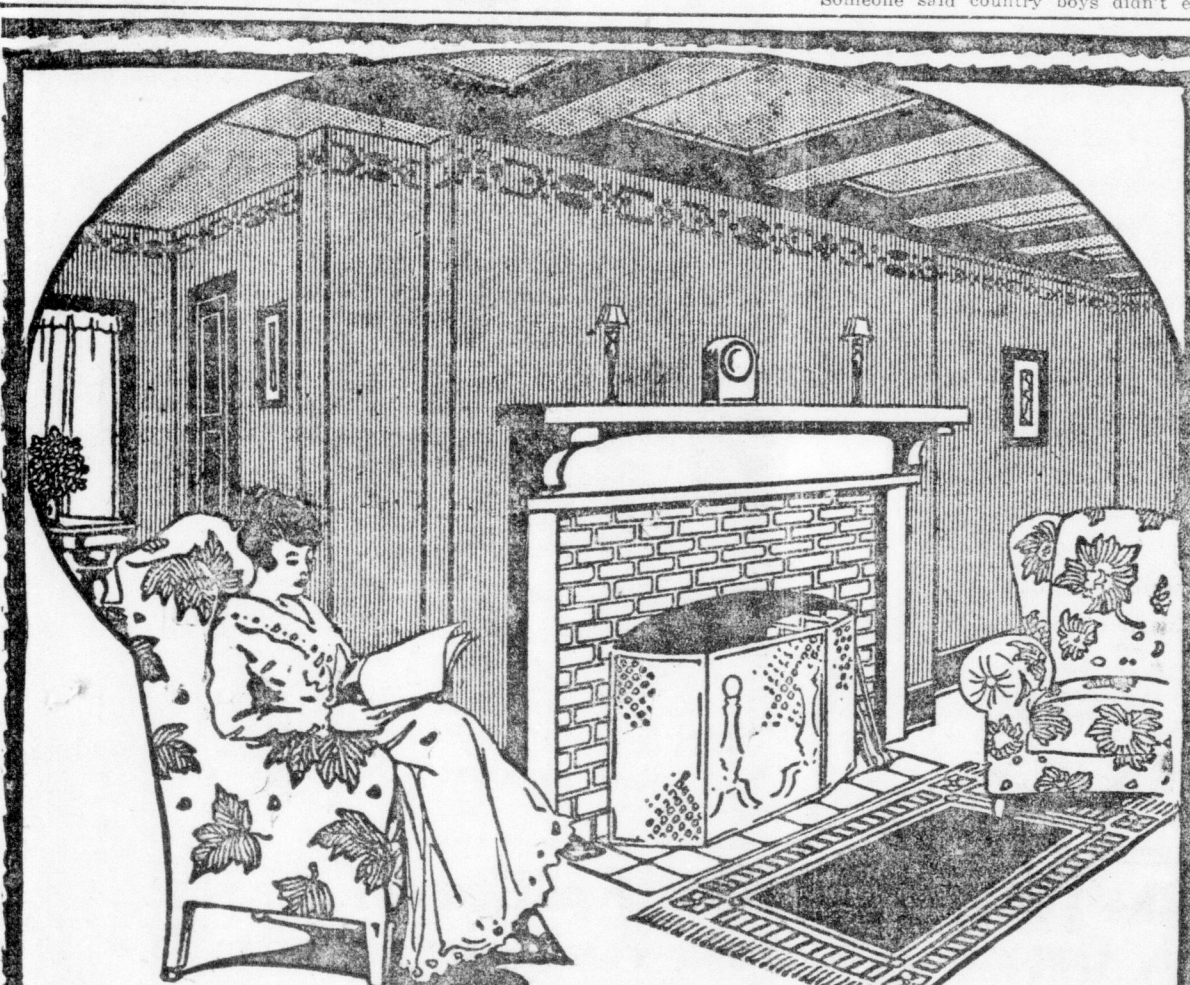

Time-tried experience is the powerful argument that equips the new home with McClary's Gas Range.

All sizes and styles. Up to the minute with every modern improvement. Burn either manufactured or natural gas.

McClary's Gas Ranges

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary, Saskatoon, Edmonton

For sale by Gas Appliance, 213 Dundas street; J. A. Brownlee, 385 Talbot street.

Make Home More Cheerful

Walls that are dark and dreary are made light and cheery with Lowe Brothers

Mellotone

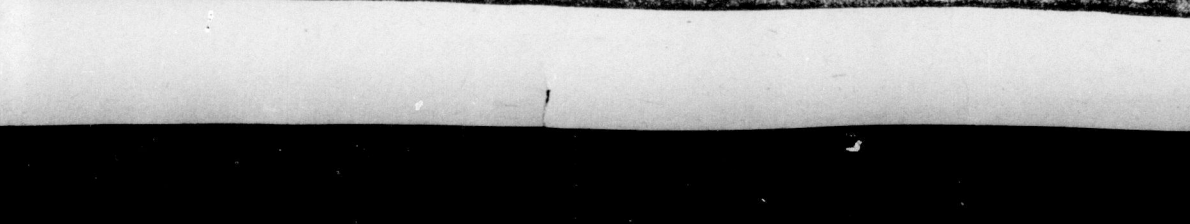

The colors rival the rainbow tints in softness and beauty, and do not fade. They soften the light and make rooms ideal for reading and sewing.

Mellotoned walls can be washed with soap and water when soiled. Each washing makes the finish look bright and fresh. This sanitary quality appeals to careful housekeepers.

Before you do your decorating come in and let us show you the Mellotone tints.

MUTT AND JEFF.—Jeff May Be a Bum Shooter, But He's Some Pitcher.

DODGERS WIN AT LAST; PHILIES THE VICTIMS

Mathewson's Reds Are Still Climbing Up.

CUBS THE STEPPING STONE

Cooper Pitches Air-Tight Ball and Shuts Out Huggins's Cards.

PHILADELPHIA, April 23.—Brooklyn won today's game in the seventh inning by punching two singles and a sacrifice, with the muf of a fly ball by Cravath, the score being 3 to 1. Oeschger and Mayer outpitched Cadore, who was saved on two occasions when a batsman fanned and a runner was doubled up trying to steal second.

REDS FATTEN AVERAGES AT 3 PITCHERS' EXPENSE

CINCINNATI, April 23.—Cincinnati won a slugfest match from Chicago today, 10 to 4, and annexed the second game of the series. Cuto made a home run with two men on bases in the sixth inning.

COOPER & COMPANY IN FORM AT ST. LOUIS

ST. LOUIS, April 23.—Cooper allowed but three hits today, and Pittsburgh shut St. Louis out, 2 to 0.

TOUGH ON SNOWY BAKER

Australia, according to information recently received, has levied a tax of 17 cents on every dollar taken in at boxing shows.

IT PAYS TO BUY THE BEST

DIADEM BICYCLES

MCGILL ATHLETE KILLED

TORONTO, April 23.—Another good athlete has been killed in action, in the person of Flight Lieutenant Donald Masson of Ottawa, who was prominent in hockey and football at McGill. He captained the McGill hockey team for one season when they made a great showing in the intercollegiate Union, and was also a brilliant football backfield player. Lieutenant Masson was also one of Ottawa's leading swimmers and divers, winning many honors at the championships held under the auspices of the Britannia and Ottawa clubs. He was the fourth young Ottawa member of the flying corps to lose his life recently. Lieutenant Don Brophy, Lieutenant Edward Bourne and Lieutenant Leggo having given up their lives within the past few months.

IRISH PATSY CLINE AND MCGOVERN DRAW

PHILADELPHIA, April 23.—Irish Patsy Cline, the New York lightweight, and Terry McGovern of Philadelphia, fought six rounds here tonight to a draw. The bout was fast throughout. Both men fought furiously, but neither scored a knockdown. Cline weighed 132 pounds and McGovern 135.

BIG BATTING RALLY STAGED BY YANKEES

World Champions Go Down to 13—9 Defeat.

PIPP HITS HOME - RUN

Mack's Elephants Come Back in Ninth and Beat Senators.

BOSTON, April 23.—New York's batsmen fell upon Foster, Boston's relief pitcher, in the ninth today, scoring three runs, to win by a score of 13 to 9. Shor had weakened in the seventh and eighth innings, after holding the visitors to three hits in the first six sessions. One of these was a home run by Pipp into the right field stand. Culp was erratic and was poorly supported.

WASHINGTON GETS BUT THREE HITS OFF BUSH

WASHINGTON, April 23.—After having taken the lead in the eighth inning, by punching two singles and a sacrifice, Washington was defeated here today by Philadelphia, as a result of errors, by a score of 4 to 3. Bush allowed only three hits and struck out seven men.

TAVISTOCK BOWLING CLUB

STRATFORD, April 23.—The Tavistock Bowling Club at its annual meeting elected the following officers: Honorary members, E. Nesbit, N. W. Rowell, Dr. Steele and Dr. Krug; president, E. A. Bennett; vice-president, Hugh Holson; secretary, Charles Kaufman; treasurer, H. H. Road.

A. BENEDICT LEADS FIVE-PIN TOURNAMENT

Fourteen Entries Roll Good Scores on Opening Night.

Fivepins were king-pins among local bowlers last night, when the single tournament got away to a good start. A. Benedict rolled the highest score, with 297. Had he not fallen down with a bump in the second game, his score would have been phenomenal.

LES DARCY TO FIGHT LEN ROWLANDS FIRST

Pair Will Meet at Memphis on Seventh of Next Month.

Memphis, Tenn., April 24.—Les Darcy, Australian pugilist, who has enlisted in the United States Army Reserve Aviation Corps, will meet Len Rowlands of Milwaukee in an 8-round bout here on May 7. Mayor Ashcroft of Memphis recently made Darcy's enlistment a condition for the granting permission for him to fight here.

GUISO MAKES GOOD

Louis Guisto, a swarthy Italian playing first base for Cleveland, is the newest idol of Ohio's metropolis. If Louis continues clouting the ball the way he has been doing and continues fielding his position in his present style, you can add his photograph to the gallery of major league stars. Louis is poison for the Tigers and three of their dead-end players this year can be laid principally to Louis' ability to hit in a pinch.

WHERE IS THE MOTHER

with a child who is rundown, has pale cheeks or thin blood, who will not give that child the very thing it needs to start it growing and keep it going? For over forty years the concentrated liquid-food in Scott's Emulsion has been changing thinness to plumpness—changing poor blood to rich blood. There is nothing better for growing children—whether they are weak or well—than Scott's Emulsion, but see that you get the genuine Scott's.

JIM COFFEY BESTS BIG CARL MORRIS

Dublin Giant Outfights His Opponent in Seven of Ten Rounds.

NEW YORK, April 23.—Jim Coffey, the Dublin giant, outfought Carl Morris of Oklahoma in a ten-round bout here tonight. Coffey had the better of seven rounds, while Morris placed the fifth, sixth and seventh rounds to his credit.

HOME-RUN TO BLAME FOR TORONTO DEFEAT

Eibel of Richmond, With Two Ahead, Hits for Four Bases.

RICHMOND, April 23.—A home run by Eibel with two men on the bases in the eighth inning today enabled Richmond to defeat Toronto, 9 to 8. Four home runs featured the game.

IRISH HORSES LOOK GOOD TO WOODBINE FOLLOWERS

TORONTO, April 23.—The rain of the past few days has somewhat spoiled the going at the Woodbine, and the worst of the horses has been confined to galloping. Providing the weather and track conditions are favorable, some smart moves at short distances should be witnessed this week. Quite a throng of spectators visited the track yesterday and viewed the horses with much interest. The Irish horses were a centre of attraction, and the 3-year-old colts, from Cross, had many admirers. His name is hardly as popular in these times as Shamrock, Maple Leaf or Heather would be, still he is a product of the "old sod." Never Fear, the good steeplechaser, also made a host of friends. He is a powerfully-built big horse, and appears capable of carrying almost any kind of weight.

SMITH KNOCKS OUT AHEARN

NEW ORLEANS, La., April 23.—Jeff Smith, middleweight of New York, knocked out Young Ahearn of Albany, N.Y., in the fifth round of their scheduled twenty-round fight here tonight. Both claimed the American middleweight championship.

ROCHESTER TAKES ONE OUT OF FOUR

BALTIMORE, April 23.—After dropping three in a row to Baltimore, Rochester beat the home team today, 2 to 1. Schuchat was always master of the situation.

LEFTY MCGUIRE WINS FIRST GAME WITH GREYS

PROVIDENCE, April 23.—"Lefty" McGuire made his debut as a pitcher with the Greys today, and had no trouble taking the Bisons into camp, 11 to 4. The visiting pitchers were pounded hard. Brainard made two triples and a double. Score: R. H. E. Providence, 10 0 0 0 2 1 2 0—3 7 2. Engle, Crews and J. Onslow, Casey; McGuire and Mayer.

GOOD CATCHER BADLY NEEDED BY TORONTO

TORONTO, April 23.—The first week of the International League season has done much to show the managers the weaknesses of their teams. Larry Lajoie has not had a chance to get a good look at the material he has in hand, owing to the many injuries to players. The addition of Whitman to the outfield will help to strengthen that department, and if a good catcher can be secured, the team might worry along on the pitchers already secured. Baltimore is off to a good start, but they'll need all their games when they hit the road. Newark also has shown more signs of life. Rochester has done the best of the road teams, but have fallen down badly at Baltimore. The Bisons broke into the lead column on Sunday by the skin of their teeth.

How the Weatherman Slants Today's Games

National League.

FAMOUS CATCHER IS BURIED AT GUELPH

F. C. Snyder Played in London Before Debut as Big Leaguer.

GUELPH, April 23.—The remains of Frank Cooney Snyder, who died in Toronto on Saturday, were interred in the Union Cemetery here this afternoon beside those of his wife, who predeceased him several years ago. The news of his death was received with profound regret, as he was a general favorite here. He had been in poor health for several years.

Mr. Snyder was not a Guelph boy, but was born in Toronto about 16 years ago. He first came into prominence as a baseball player in this city back in 1895 and 1896, when he was a member of the old Maple Leafs, when such men as Bradford, Congalton, Cockman, McElroy, O'Connor and other well-known men were at their best.

Played for London.

He went from Guelph to London, and after playing part of a season there, joined the Toronto team in the Eastern League. His work there was of such a high class that he was sold to Washington, which city was then in the big league. From there he went in 1899 to Reading, Pa., but he did not remain there long, as his throwing arm went wrong, and he was forced to quit the game, going back to Toronto, where he has lived ever since.

He was, when in his prime, one of the greatest catchers the game ever knew. He was not only a fine receiver, but also an excellent hitter, while his throwing was marvellous. He is credited with making the longest hit ever made at the Island grounds in Toronto.

JIM THORPE GOES TO REDS

Purchase Price of Famous Indian Not Announced.

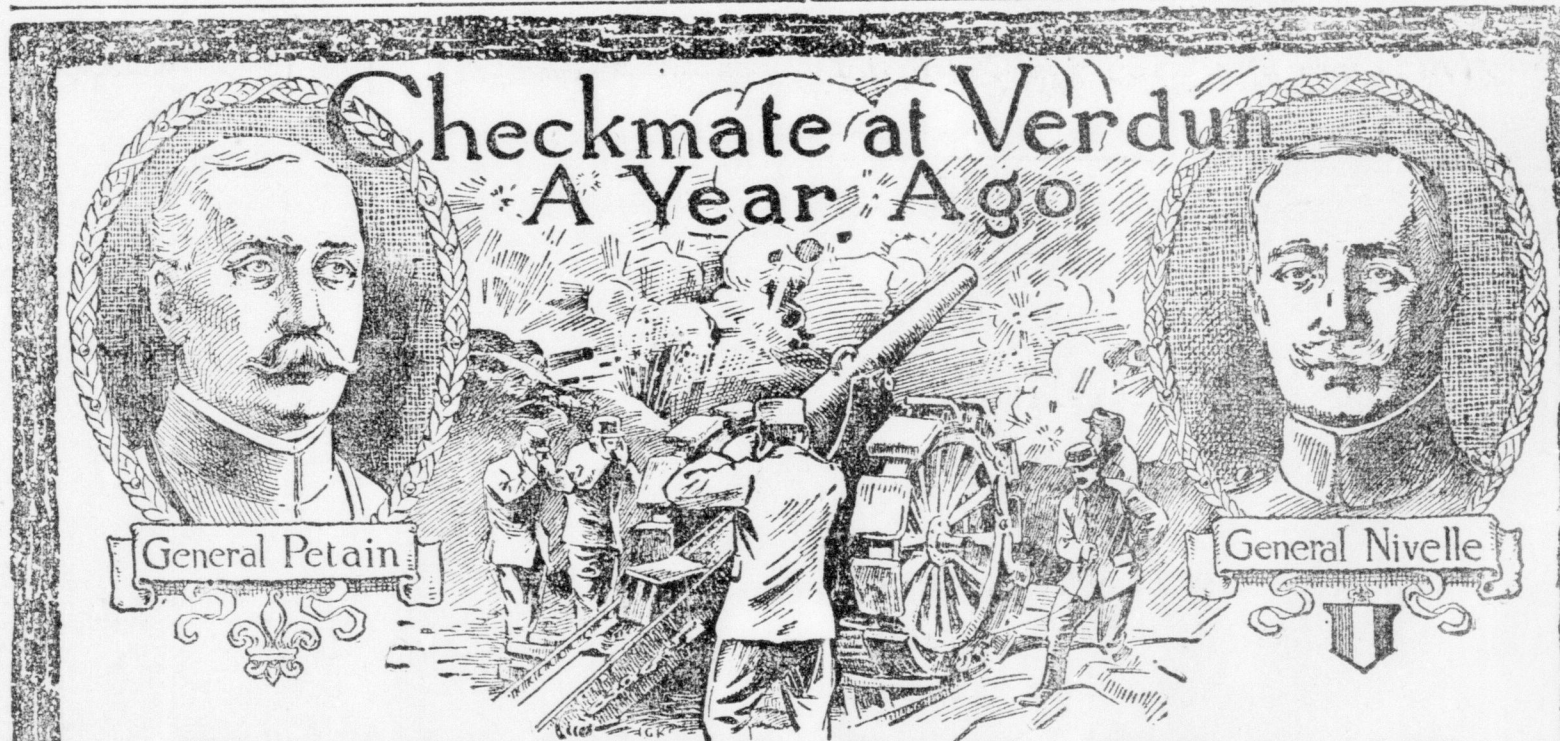

CINCINNATI, April 23.—Manager Mathewson of the Cincinnati Nationals announced today that he had obtained the services of Jim Thorpe of the New York Yankees. The deal involved a straight sale, but the price was not announced.

YOU get four "GRAND MASTER" Cigars for 25c.—they are equal to most 2-for-25c. Cigars.

Now made in 2 shapes, "Blunts" and "Perfectos", of uniform quality: cool, bland, smooth, with all the "nuttness" that one expects in a fine Havana.

Try one next time.

P.S. Have you Smoked a "Noblemen" Cigar lately?

600,000 HUNS FAIL TO WIN VERDUN GOAL

(Press Despatch, Apr. 24, 1916)

On the grim slopes of Le Mort Homme and Douaumont, a year ago this month, Generals Nivelle and Petain broke Germany's offensive power and decisively turned back the tide of victory. French readiness, mobility and speed—typified in their wonderful "seventy-fives"—proved that in spite of disadvantages the Hunnish hordes could be conquered.

In the humbler but yet important sphere of personal comfort, our fighting men have been well and truly served by the same qualities of readiness, mobility and speed—embodied in the Gillette Safety Razor. They have proved that under all the disadvantages of life in billets and trenches, a clean, refreshing shave is always ready for the lucky owner of a Gillette. All he needs is soap, water, and five minutes to spare.

Returned soldiers are eloquent in their appreciation of the Gillette Safety Razor on active service. If your boy Overseas hasn't one (or you yourself, either) you cannot spend Five Dollars better than in making good the need! Why not send him a Gillette, or get one for yourself, to-day?

"Life Insurance and How to Buy It"

Address Given Before the Ford Literary Club, at Ford City, Friday Evening, 20th Inst., by T. B. PARKINSON, London, Past Honorary President, Life Underwriters' Association of Canada.

It is a real pleasure for me tonight to be with you as a member of the executive of the L. U. A. C., and, as past Honorary President of that organization, to tell you in a few words the objects and aims of our association, and then for a short time speak to you on "Life Insurance and How to Buy It."

During the troublous times of the investigation of life insurance companies, both in the United States and Canada, a real need for organization among the field men presented itself. The seed once dropped, quickly developed, and eleven years ago the L. U. A. C. was organized, taking for its motto: "To advance the best interests of true life insurance."

The small plant of 1908 is now a giant tree, spreading itself from ocean to ocean. In almost every city in Canada we have a local association; these are banded together into a Dominion Association, and united we are doing a work that, previous to the inception of our organization, it was impossible to do. A code of ethics has been established; twisting and rebating is being abolished, and all companies recognize the improvement made in conditions.

We are trying to inculcate into the lives of our members the principle that the time has arrived when the insuring public should expect and receive as much practical advice about life insurance from them as it now gets from a doctor, lawyer or dentist, when their offices are visited for professional service.

The representative of life insurance company has a threefold duty to perform in the rendering of service. First, a duty to his client; second, to his company; and third, to himself. But in the truest sense, only one, and that the recognition and practice of the law of mutual benefit. This is the spirit in which I wish to talk to you tonight.

LIFE INSURANCE AND HOW TO BUY IT.

In order to fully understand the modern life insurance problem, it will be to our advantage to look back over the past forty years. It will be interesting to note the changes made in the amount of insurance written, in the amount of premiums collected, and in the amount distributed to policyholders or their heirs.

It will also be of special advantage to note the changes made in the security given by the companies, through changes made in the insurance laws, and also some radical changes made in insurance policies through both competition and legislative enactment.

Referring to the changes made for the better protection of policyholders, we note that in the early days almost any reserve basis was used; 4½ per cent being the most common. Today all companies working under a Dominion charter are required to set aside the reserve on a 3½ per cent basis, which means about Eight Dollars extra on each One Hundred Dollars paid in premiums.

Not only has the insurance law passed by the Dominion Government changed the reserve, but it has changed the policy conditions, so that every company doing business in Canada today is compelled to place in their life insurance contracts; cash and loan values extended, and paid-up insurance values, beginning at the end of the third year.

A better understanding of the evolution of life insurance and of some of the old Tontine policies will be reached if we spend a moment or two in explaining that contract.

The word Tontine is a term derived from the name of Lorenzo Tonti, a Neapolitan, who settled in Paris in Cardinal Mazarin's time, and proposed in 1663 to raise a sum of \$125,000,000 for the relief of the national exchequer by means of a financial association, of which the great prize should ultimately accrue to the longest liver. There were to be shares of \$1,500. The subscribers were to be divided into ten classes, according to age; and for each class a fixed sum was annually to be divided equally among members of the class. In this way while each member should get fair interest from the first on his capital, the profit falling to the survivors would increase as years went on, and the last survivor would receive the whole of the interest due to the class he belonged to.

Mazarin and Tonti were both Italians, and regarded in Paris with suspicion, and, in spite of the Cardinal's support, the scheme fell through. In 1689-1692, Louis XIV., sorely in need of money, reverted to the plan of the Italian adventurer, and raised a sum of \$70,000,000 by a Tontine of forty years' duration. The sole survivor was in 1728 drawing an annuity of \$267,500 on his original share of \$1,500. The lottery of annuities—or compound of lottery and annuity—was frequently had recourse to in France in the eighteenth century, with Government sanction.

The Tontine principle was first introduced into life insurance policies in the United States by the Equitable Life of New York in 1868 and discontinued about 1872. This policy was issued in 1881 in Canada by the North American Life, and this Company commenced to issue the Semi-Tontine in 1883. Shephard Homans, was the Actuary for both of these Companies.

The Tontine policies partook of the Tontine principle to the fullest extent. Each person who bought one, either on the 10, 15 or year plan, had to continue to the end of the period in order to share in the benefits, and any policyholder who failed to pay a premium on the day it was due, forfeited every dollar he had paid.

Larger experience, public opinion and legislation, have done away with this class of insurance, which was followed by what is known as the Semi-Tontine policy. The semi-part of it exists in the fact that any person who buys a Deferred or Reserved Dividend policy, and drops out before the completion of the dividend period, forfeits his share of profits earned. Therefore, the only policies issued today that in any way belong to this class, are the with-profit policies on the Deferred Dividend plan.

Life insurance is a stupendous subject; it is as broad as humanity, as high as the dome of blue above us, and as far-reaching in its benefits as time itself.

Let us for a moment look at the figures of 1915, found in the last issue of the blue book. The life insurance companies doing business in Canada, paid out to the insured or their beneficiaries \$36,427,607.57. Who can estimate the amount of good this money will do?

Think of the girls this may save from crime.
Think of the widows whose hearts this will release from care.
Think of the aged whose last days this will make happy and joyous.
And then ask yourself, is there any other profession, any other calling, any other business in the world, that so combines the ideal with the material, as does this beneficent institution of Life Insurance?

The figures we quoted a moment ago, show the wonderful growth, and reflect anew the confidence the insuring public has in Life Insurance, and are a reinforcement of its aims, its achievements and its service.

Life insurance is sold on two systems: The natural premium, known as fraternal, and the scientific premium, which is known as the old-line or level premium.

In the old-line companies, two general plans are recognized: Life and Endowment policies. Both of these plans are sold under a great variety of names, but on close inspection every policy belongs to one or the other class. Then again these policies are sold under two different systems, known as participating and non-participating.

The former you pay a higher premium for the privilege of sharing in the profits earned by the company, and the latter you pay a smaller premium, choosing to keep the difference of the rates in your pocket, and allowing the company to have any further profits that may be earned.

We now come to the part that I believe you are all anxious to know: "How To Buy It." First, let me remind you that there are two things to consider. The security and the contract.

Let me say as regards the first item, security; that the Dominion Government Insurance Department looks after this, and every Company licensed by the insurance department at Ottawa is safe to insure in. Beware of the agent who represents the only safe Company, and who knows the others; all virtues are not monopolized by one name, person or company.

The contract is what will tax your judgment. The right one is the one that best suits your circumstances and needs. Don't buy a seven-passenger Cadillac on a \$1,500 salary, when you can get a Ford for \$450 that will give you good service and not cost you half as much for gasoline. Don't buy it like the Irishman who went into a drug store to buy some pills, and when asked what kind, answered: "Anything will do; they are for the old woman." But you should buy from a representative of an old-line Company, a member of the L. U. A. C., who you know is capable of giving you best service, because he is efficient. Efficient because he knows his business and has taken the pains to study your case.

This is of first importance, not alone in the selection of the policy, but in the filling out of the application for it. The application is a legal document, and done right will avoid future trouble.

This may bring to your mind: "What Company shall I buy from?" There are about forty good companies doing business in Ontario. There is a large variety of automobiles sold in this Province; many of them good, but the one car would not be the best for every man. So in buying life insurance the one Company might not be the best for every man in this audience.

Most Companies have some special plan of insurance, or some feature or condition in their policy contracts, that will be to the advantage of some person. At the present time, the war conditions should be carefully looked into. The total disability provision should be analyzed; the extended insurance feature is important; in fact, anything that appeals to you as best for you, should command your most careful consideration.

What kind shall I buy? I hear someone ask. As mentioned a moment ago. The right one to buy is the one that best suits your circumstances and needs. There are about five popular plans, and while there may be about five hundred varieties, in the last analysis there are only two, Life or Endowment.

Each plan has its place, and is the right policy for some person. I think it will be conceded that the most valuable asset of each person in this audience is his earning power. The only way this can be protected is through Life Insurance. Therefore the necessity for Life Insurance is absolute, although I regret to say not so generally appreciated as it should be.

No man in this room would think of going to bed tonight and leave his buildings uninsured, notwithstanding the fact that the chances may not be more than one in one hundred that the building will ever burn. The reasons for Life Insurance are even greater, because if the man lived and had the benefit of his earning power, he could perhaps replace the building if it did burn, while the chances are just one hundred out of one hundred that he will die; and the value of his earning power to his family and estate, based upon his living out his expectancy, can only be made secure through Life Insurance.

The average man, in buying Life Insurance, wishes to accomplish two things: First, protection to his family and estate in the event of his early death. Second, protection to himself and his family in old age.

Gentlemen, get busy and buy Life Insurance, relieve your mind of worry and assure yourself of a contented mind.

Mortgage

Bonds

For

Safe

Investment

To derive entire satisfaction from the investment of your surplus funds you must be in a position to feel that your money is safely placed and producing as high an income return as is consistent with safety.

We own and offer issues of Mortgage Bonds, available in small as well as in large amounts, and which with assured safety of principal, yield 6 per cent per annum and over.

Our offering list will be sent on request. Inquiries from small investors will receive our most careful attention.

The Duty of Making a Will

Few intelligent men or women question that it is their duty to make a Will. The tendency, however, is to postpone performing this duty. If you die without a well the law arbitrarily provides for the distribution of your property, possibly in such a way as to work hardship to those of your heirs whom you wish most to protect.

A Will carefully prepared by your lawyer, with this Company appointed Executor and Trustee to carry out its provisions, will form the best protection you can give to your heirs and their heritage.

HIS HEART BADLY AFFECTED

"Fruit-a-lives" Soon Relieved This Dangerous Condition

632 Gerrard Street East, Toronto.

"For two years, I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my Heart and I had pains all over my body, so that I could hardly move around. I tried all kinds of medicine, but none of them did me any good. At last, I decided to try 'Fruit-a-lives'. I bought the first box last June, and now I am well, after using only three boxes. I recommend 'Fruit-a-lives' to anyone suffering from Indigestion."

FRED J. CAVEEN.

Fifty cents a box, 6 for \$2.50; trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives, Limited, Ottawa.

50 MEN OF D.A.C. TO LEAVE LONDON FOR MORE TRAINING

No. 3 Section Sends a Fine Draft to the East.

ARE CLEAN CUT SOLDIERS

Call Already Made For Men To Fill Their Places.

Among drafts that are expected to move from this district to an eastern training point this week is that from No. 3 Section, Division Ammunition Column at Queen's Park, Lieut. F. L. Clarke, officer commanding the company, is sending away about 50 of his best-trained men, and much regret is being expressed by the soldier lads at the camp at the departure of the members of the D. A. C. They are a clean-cut lot of boys, and they will be missed greatly from the camp.

The strength of No. 3 Section will be greatly reduced after the departure of the boys, and Lieut. Clarke is anxious to secure a number of good men to bring his unit up to strength. Men who are interested in joining the boys are recommended to get in touch with Lieut. Clarke at Queen's Park.

The draft will be in command of Lieut. F. L. Clarke, and will be composed of the following men:

Sergeant Frederick Stallwood, and Gunners Geo. W. Allison, Harold E. Baxter, Henry W. Beechey, James R. Benfield, Joseph Behnen, Harry Brown, Wm. D. Burley, Wm. I. Campbell, Sydney J. Carter, Robt. J. Charlton, Ernest J. Clements, George F. Cox, Roy P. Cope, Lieut. Chas. L. Cranston, Edward David, Oile C. Downard, Edward P. Edwards, Robt. C. Eastman, James F. Ford, Ernest Francis, Wm. L. Green, Clifford H. Granger, Frank Hamilton, Earl W. H. Harper, Hector N. Haywood, Wm. H. Hushnager, William Hushnager, Walter Johnson, Thos. R. King, Frank S. Kins, Bert Love, John E. Lennox, Chas. W. Lueke, Hans C. Madsen, Arthur W. McFarland, Geo. E. Medcraft, John W. McMillen, Geo. E. McMillen, Frank R. Scott, Konstantina, Sidney Stubbs, Mike Smyrnyala, John J. Walsh, John J. Wilson, Charles J. Zemanaka, George G. Whitefoot, and Fred Zemanaka.

HODGINS NOT GUILTY OF SUGGESTING CRIME

Judge Judd Absolves Lucan Man and Veterinary of Guilt.

Thomas Hodgins of Lucan and Joseph Hodgins, veterinary, 907 Colborne Street, were found not guilty by Judge J. J. Judd today when the notes sent on a charge of having committed a criminal offence.

The information was laid by Michael Hogan, a Bidolph Township cattle buyer, who is awaiting trial at the Justice Building in connection with the case.

Judge Judd in discharging both stated that he considered that the evidence of Hogan was insufficient to warrant a conviction.

Hogan claimed that Thomas and Joseph Hodgins had approached him after it was discovered the notes sent to the former were not genuine and that he (Hogan) would not be prosecuted for forgery. This was contradicted by both defendants, and W. Scandrett, who was present at the time the property deeds were transferred.

SENATOR CORBY DEAD.

Ottawa, April 24.—The death of Senator Corby, in Honolulu, was announced today in a message to his country by F. C. T. O'Hara, deputy minister of trade and commerce.

PERSONAL MENTION

Miss Florence Williams of Toronto is visiting Miss Lillian Finnegan, 45 Blackfriars Street.

F. D. Beatt of Stratford is coming over today for the closing concert of the Woman's Musical Club this evening in the Normal School. While in town he will be the guest of Mr. and Mrs. S. J. Radcliffe, Marley Place.

Financial, Market and Commercial Section

THE LOCAL MARKET

There were no marked changes on today's local market, the attendance being small, as many farmers are busy with seeding. Potatoes were retailing for as much as 40c a peck. Bugs sold at \$4.75, while seed potatoes brought from \$4 to \$5 a bag. As usual, the smaller vegetables were the chief offerings, and radishes and onions bringing 40c to 50c a dozen. Eggs were in good supply of choice, and were sold at 40c to 45c a dozen. Dutch sets sold for 35c a quart, and seed onions for 20c to 25c a bushel. Carrots and parsnips each sold for \$1.50 to \$1.75 a bushel. Apples, which were of poor quality, brought \$1.10 a bushel.

Butter prices were firm, creamery butter for 46c to 47c a pound, and dairy in rolls for 42c to 44c a pound. Crock butter sold for 42c a pound. Eggs were firmer, single dozens selling for 34c and 35c. Cattle lots brought 31c to 32c, and basket lots 32c a dozen. No single strip was offered, but sales are expected to be a good supply toward the end of the week.

The poultry market is quiet, old fowl bringing 20c to 22c a pound, live weight, chickens 24c to 25c a pound. Eggs were firmer, single dozens selling for 34c and 35c. Cattle lots brought 31c to 32c, and basket lots 32c a dozen. No single strip was offered, but sales are expected to be a good supply toward the end of the week.

New train will leave London 11:15 a.m. for Detroit, connecting with train from Toronto and Hamilton.

New train will leave London 2 p.m. for Windsor will leave 5:35 p.m.

New train will arrive London from Detroit 3:55 p.m.

OFFICERS STRUCK OFF

Attached to Casualties Since Units Left Canada.

The following officers have been struck off the strength of casualties, military and naval, and will remain in the Canadian expeditionary force. Since the departure of their units for overseas they have been attached to casualties in this district: Major R. Stewart, Hon. Capt. J. M. Macmillan, and Lieut. B. S. Johnson, R. White, formerly of the 149th Overseas Battalion, and Hon. Capt. R. S. W. Howard, and Lieut. H. S. Russell, F. A. Seeda, G. S. Wright, formerly of the 138th Overseas Battalion.

RUPTURE EXPERT HERE

Seeley, With International Reputation, Called To London.

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will be at the Peacock House and will remain in London Wednesday and Thursday only, April 25 and 26. Mr. Seeley says: "The Peacock House will not only retain any case of rupture perfectly, but contracts the opening in ten days on the average. The instrument used is the only award in England and in Spain, and is the only one without surgery, injections, medical treatments or prescriptions. Mr. Seeley has imported official documents for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section."

P. S.—Every statement in this notice has been verified before the federal and state courts.—F. H. Seeley.

WIRELESS TELEGRAPH MAKING MARVELOUS STRIDES.

The American Company held their annual meeting Tuesday, April 17. The gross earnings from operations for 1916 amounted to \$362,501.55. The total assets are over eleven and a quarter millions. The company is now operating between United States and Japan, spanning over 5,000 miles.

Mr. and Mrs. John G. Edwards of Jarvis, Ont., wish to announce the engagement of their daughter, Clara May, to Turrell Robert Brown of Detroit, Mich.

Applications for co-operative sale of wool will be accepted until May 15, instead of April 23, as given on application form.

HELP REQUESTED IN SECURING RECRUITS FOR HOME DEFENCE

Clergy and Mayors Asked To Give Assistance

TO FREE OVERSEAS MEN

Service Honorable, and Gives Opportunity To Play the Manly Part.

With a view to enlisting the co-operation of the leading citizens of Western Ontario in raising the four battalions of the Canadian Defence Force in this district, and to informing them of the conditions under which it is to be raised, the following letter is being sent, and from militia headquarters at Wolsely Barracks by Capt. Hindson, chief recruiting officer of the district, to the clergy and the mayors of towns and cities in Western Ontario:

Dear Sir:—I have the honor, by direction, to request that every assistance be given to the raising in this military district of its allotted quota of 4,000 men for the C. D. F. Battalions in each case of 1,000 men, are to be raised by the 7th Regiment of London, 21st Regiment of Windsor, 22nd Regiment of St. Thomas, and 25th Regiment of St. Thomas. The period of engagement, the age limits and the physical standards are the same as for service overseas. The special attestation papers to be signed by each recruit make it quite clear that the force to be raised is solely for home defence. It is hoped that many who enlist in the C. D. F. will afterwards transfer to the C. E. F., but they will not be considered as such.

Enlisted men will train two evenings, and one afternoon a week, and will be paid at the rate of 50 cents for each week. When the unit goes into camp, men will, of course, receive full pay and allowances, which in all cases are but slightly lower than in the case of the C. E. F.

Home Force Essential.

Since the early days of the war, Canada has never been without an armed force of at least 50,000 men ready to be used if required in the protection of Canada and its possessions. There are approximately 50,000 soldiers in Canada today. These men are urgently needed for home defence. In order that this country may not consequently be left defenceless, it is imperative that the C. D. F. be raised at once. Home service in these critical times is an urgent necessity, and it is highly honorable to men who for various reasons are unable to go overseas, it affords a splendid opportunity to play a manly part.

Recruiting for the C. D. F. will not, of course, do away with the necessity of recruiting for the C. E. F. Men are still wanted in great numbers for service overseas.

As a loyal citizen of Canada, occupying a position of leadership and influence, you are called upon to contribute to the utmost in assisting to recruit the authorized military forces of this district.

W. E. HINDSON, Captain, Chief Recruiting Officer, C. D. F., No. 1, WALSLEY BARRACKS, WOLSLEY, Lieutenant-Colonel, Acting A. G. M. D. No. 1.

FINE IN LIQUOR CASE TO BE RETURNED TO DOCTOR

Report Says Other Three Fined May Not Have to Argue Appeals.

The fine of \$100 and costs imposed by Mayor Stevenson and Henry Macklin, J. P., in the case of a city doctor found guilty of a breach of the Ontario Temperance act, and whose conviction was quashed by Mr. Justice Clute, will be returned to the physician today. The money was paid to the police court clerk, under protest, and this morning Clerk and Magistrate McKillop issued an order to the doctor's counsel, A. H. M. Graydon, deputy magistrate, authorizing the return of the money.

In the case of the remaining three doctors, convicted on a similar charge, that of having furnished prescriptions to persons for the purpose of obtaining liquor by evasion, the possibility exists that their cases may not have been even argued. It is hinted that the Ontario License Commission may allow their convictions to be quashed without any opposition, and as the evidence in the three are the same as that of the doctor whose conviction was quashed, it is believed it will be only a matter of formality to quash the three remaining convictions. The fines will then be remitted to these doctors.

YPRES VETERAN LEARNS OF HIS FATHER'S DEATH

Sergt. John D. Elliott, Wounded Three Times, Home on Furlough.

Sergt. John D. Elliott reached the city from England on Monday on his way to return a furlough with his mother, Mrs. John H. Elliott, 1144 Dale, Westminster. It was only after reaching here that he learned of the death of his father, which occurred a few weeks ago.

Sergt. Elliott enlisted as a private in Edmonton immediately upon the first call for volunteers at the outbreak of war. He has been wounded three times, seriously the first time early in the engagement at Ypres two years ago, and again during last August, and again seriously at the Somme in the autumn. It was thought after his last wound that he would not be able to go on active service again, but he has made such a good recovery that he is now returning to France after his furlough.

DR. McCRAE WILL LEAVE RAYS OF LIGHT BEHIND

Likened to a Lamplighter at Anniversary Concert.

The concert held Monday evening to mark the sixth anniversary of the Hamilton Road Presbyterian Church, proved a most enjoyable event and attracted a large audience. The church choir, under the direction of Charles E. Wheeler, Rev. Dr. McCrae, minister of the church performing the duties of chairman in a happy manner.

Warm appreciation was evidenced of solos by Miss Anna Cochran and Miss Shobottom, soloists of St. Andrew's choir, and by Beryl Howcroft, tenor, and Percy King, baritone. Mrs. Charles E. Wheeler delighted the audience with Scotch songs. Two enjoyable readings were given by Miss MacGregor and numbers contributed by a quartet composed of Messrs. Howcroft, Pink, King and Dowling. The speaker of the occasion was Rev. Dr. C. MacGregor, minister of St. Andrew's church, referring to the fact that Dr. McCrae, returning from the active ministry in the near future, said: "While he is giving up the work, he is like the lamp-lighter. He will leave rays of light behind him." At the conclusion of the program, the ladies of the church entertained the artists of the evening at a tempting supper served in the basement.

WAS ANAEMIC FOR OVER A YEAR

Anaemia, or blood turning to water, is caused by the heart becoming diseased, and if the heart becomes diseased it cannot pump the blood as it should. As a result the blood becomes impoverished, and it loses its nourishing qualities. The face becomes pale and thin, and the lips become blue. There is a weakness, tiredness and loss of weight.

When those suffering from thin or watery blood start taking Milburn's Heart and Nerve Pills they can see a change from the outset.

Every dose introduces into the blood those vital elements necessary to make it rich and red. The pale cheeks take on the rosy hue of health, the weight increases, and the whole being thrills with a new life.

Mrs. R. J. Grey, Fredericton, N. B., writes: "When I was a girl working at general house work I overtaxed my strength and became completely run down. For over a year I was very bad with anaemia. A friend told me to try Milburn's Heart and Nerve Pills, so I got a box and when it was done I felt and looked so much better I decided to get six more. When I had taken them I had gained not only in strength, but in flesh and color, and all of all was good health."

Milburn's Heart and Nerve Pills are 50c a box, three boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy, lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—put on a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

COONS FOR THE ZOO

Lone Occupant of Cage Has Companions Now.

Roy Blinn of Brick street has donated a fine pair of coons to the Springbank zoo. William Giles gardener, at the park, and a trusty assistant accompanied the removal last night. This makes a trio for the zoo at the present time and brings the coon battalion up to strength. Two of the animals were stolen last year, and the lonely gentleman who remained was overjoyed last night to welcome two more comrades to the park enclosure.

MOTOR CAR STOLEN FROM LONDON CLUB

T. A. McMahon's Chalmers Roadster Taken by Thieves.

T. A. McMahon's roadster belonging to T. A. McMahon of the firm of McMahon, Granger & Co. was stolen from in front of the London Club shortly after 8 o'clock last evening.

The car was equipped with winter tires, license number being 11292 and car number 61422.

FIRST AMERICAN LOAN TO ALLIED NATIONS WILL GO TO GREAT BRITAIN

WASHINGTON, April 23.—The first American loan to the Allied nations will go to Great Britain. The amount of the loan and other details probably will be made public by Secretary of the Treasury tomorrow. The public, of which \$3,000,000,000 will be loaned to the Allies. Announcement of the loan was made today by the treasury department after a day crowded with conferences between Secretary of the Treasury and American banks and representatives of Great Britain.

HIS ARM PUNCTURED WITH NEEDLE MARKS

Young Londoner Paying Visit Home Lands in Court.

A young Londoner, noted for his rambunctious, charged with vagrancy, was remanded to jail for one week in police court today. Being addicted to the drug habit, his condition will be looked into by the jail physician, who will recommend to the magistrate what will be the best way of disposing of him. In the police station when his coat sleeve was turned up, his arm was shown to be covered with hypodermic needle marks. When searched at the police station last evening he had a physician's pocket case, containing ten different drugs, and two hypodermic needles. The case was marked Dr. E. O. Lawrence, compliments of E. C. Harvey.

HAD BRONCHITIS FOR YEARS

Bronchitis comes from a neglected cold and it, if neglected, will surely turn into pneumonia. The first symptom is a short, painful, dry cough, accompanied with rapid wheezing and a feeling of oppression or tightness through the chest.

The phlegm raised from the bronchial tubes is at first of a light color but as the disease progresses it becomes of a yellowish or greenish color and is very often hard to raise.

Dr. Wood's Norway is just the remedy you require as it loosens the phlegm and heals the lungs and bronchial tubes.

Mrs. Chas. Brean, Amherst, N. S., writes: "I was troubled for years with bronchitis, and could not find any relief. I was especially bad on a damp day. I went to a druggist and asked him for something to stop the constant tickling in my throat. He gave me a bottle of Dr. Wood's Norway Pine Syrup, which I found gave me instant relief. I think it is the best medicine for bronchitis I know of. I now take care that I always have a bottle on hand."

"Dr. Wood's" is the genuine, put up in a yellow wrapper, three pine trees on the trade mark, price 25c and 50c.

Manufactured for the past 25 years by The T. Milburn Co., Limited, Toronto, Ont.

TONY CORTESE EXPIRES SUDDENLY; KNOWN AS LONDON'S FIRST HARPER

Veteran Italian Musician Lies Down for Last Long Rest.

Tony Cortese, one of London's oldest and best-known musicians and London's original Italian harpist, died suddenly at his home at 161 Maple street, this morning.

He arose at his usual hour, apparently in the best of health. He went for a walk and spent an hour or two visiting with some friends. About 11 o'clock he returned and complained of a headache. He told his family that he would lie down for a rest. An hour later, his daughter, Miss Jessie, attempted to rouse him, but it was found that he was dead. Medical aid was summoned, and Rev. Father McKenna was called. However, nothing could be done. The funeral arrangements have not been made as yet.

The death of Mr. Cortese removes one of the oldest musicians in London. Born in Italy about 50 years ago, he came to Canada as a young man, settling in London over 40 years ago. He organized the original London Harpists, the first organization of the kind here. Since that time he has played in every town and city in Western Ontario, the orchestra being recognized as one of the best.

He is survived by three sons—Angelo and Joseph of Memphis, Tenn., and John in Detroit, all of whom have had brilliant careers in music, and by two daughters—Miss Jessie at home and Miss Nellie of Brantford.

I think it is the best medicine for bronchitis I know of. I now take care that I always have a bottle on hand."

"Dr. Wood's" is the genuine, put up in a yellow wrapper, three pine trees on the trade mark, price 25c and 50c.

Manufactured for the past 25 years by The T. Milburn Co., Limited, Toronto, Ont.

MANY OFFICERS UNABLE TO GO WITH BATTALIONS

Company Officers Only Leave With 153rd and 241st.

Owing to the fact that the 153rd Battalion at St. Thomas has not reached full strength of 1,000 men, the officers being sent overseas in the near future as a draft. With the draft will go company officers only, and as a consequence the following officers on the staff will be unable to accompany the men overseas, and have been transferred to Casualties Military District No. 1: Majors R. J. Bennett and F. C. Jennings; Capt. A. M. Berry; Hon. Capt. G. Butler; Lieut. J. B. Fair, C. B. Lark, E. S. Seargeant, J. Young, R. Bryant, G. S. Thompson and D. G. McGregor.
