A RE the best for the preservation of the sight, and took the medal at the Centennial Exhibition.

The lenses are made of the best ma terial, uniform in density, and of high refractive power, their perfect polish and spheroidal shape adapt them to ease and improve the sight of the wearer.

The eye being the most delicate ergan great care should be exercised in selecting spectacles; it is not enough that the glass be of the right tocus, but the lenses must be perfectly centered and in many cases perfect relief is only given by having each eye fitted separate-ly. To effect this the lenses are made interchangeable, and having an Opto-

meter to measure the sight, a perfect fit is guaranteed. any other kind. A full stock in Steel Rubber, and Gold Frames and prices to suit all

IS A FACT ATTESTED BY THE HICHEST MEDICAL AUTHORITIES IN THE WORLD.

A careful observance of the laws of health, and the systematic and persistent use of **Scott's**. **Emulsion of Cod Liver Oil** with **Hypophosphites of Lime and Soda**. will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form *perfectly palatable*, and acceptable to the most delicate stomach, and we make the unqualified statement that **Scott's Emulsion** is being used with better results and endorsed and prescribed by more physicians for Consumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Scrofula, Anaemia, General Debility and the Wasting Disorders of Children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

About the 25th of last April I got a bottle of your Emulsion and at that time I was so prostrated that no one who saw me thought I could live longer than a few weeks at most. I could retain nothing on my stomach and was literally starving. I commenced the use of the Emulsion in small doses; it was the first thing that would stay on my stomach; I continued its use, gradually increasing the dose; and from that hour I commence mending, and now am able to ride and walk, and am gaining flesh and strength rapidly. I have advised other parties to try it, and some two or three have already tried it. I am sure I shall entirely recover.

In More was simply expressed that as at a timber and the condition. It was a subject for general satisfaction that in the arrangements made last summer for the reception of their distinguished guest so little fraction was observable. Last winter when a resolution was passed in the identical words of the 9th section with regard to the erection of new Parliament Buildings. Mr. Willis allowed it to pass without rasing his voice against it. He hoped as energetic a spirit for public weal would be manifested throughout the session on the part of Mr Willis.

Mr Ryan rose. The speech was a very nice, smooth, politely-worded document, just of such character as might be expected from the Government—very little pith in it. He stated that the Crown Land department was being regularly and extensively defrauded; that a great deal of lumber had been cut this year in Gloucester at least, on the public lands that never paid a cent of stumpage. The pamphlet, he said, was a good thing in its way, but there were many inaccuracies in it that rendered its title void. For instance, it was stated that the grist mill at Milliel was a great convenier ce to the people. The inhabitants of that district and been diligently hunting for that that mill ever since.

The 1st paragraph was then adopted without division.

. SAN FRANCISCO, MARCH 12. Everything is very quiet. Last night number of ordinary meetings of the Workingmen's Ward Club were held, at which the Citizens Protective Union and the arrest of Kearney were severely denounced. It is not learned that Kearney attended any of them. The executive committee is said to have held a meeting, but nothing positive is known of its proceedings. Kearney is to be tried for demagogu
