Newcastle, N. B.

## Good clothing as an investment

BRINGS WORTH - WHILE RETURNS

Men who are successful in the affairs of the world, realize that much depends upon good appearance. They know that first impressions count for a good deal. Well dressed men generally have the advantage.

Alert men, men with the future in mind, are finding that A. D. Farrah & Co's clothing—clothing with the "College Brand" label and other Farrah standard—is actually a good investment in appearance, bringing them good dividends.

Style, fit, fabric, tailoring, and workmanship are all attended to with the most exacting care. There are suits with the snap of youth and regular models for the matured man.

**\$15.00 to \$50.00**

## Boys' Suits

That are made by a specialist who devotes all of his time to making boys' clothing exclusively. They are suits that boys like because they are comfortable, because they fit well, wear well. Mothers like them on account of particularly good quality, on account of the new smart models specially designed for boys.

Sizes from 27 to 35.

**\$6.00 to \$15.00**

## Straw Hats

Men have liked Farrah Straw Hats because they have given in generous measure all that a man could demand of a hat. The new sailor styles have good medium crown with deep band and narrow brim. Sailors in fine and coarse sennits from **\$2.75 to \$6.00.**

### MILLET STEWART ARRESTED FOR ROSS MURDER

Word was received in Chatham about midnight Tuesday night that James Ross of Tabusintac, had been shot dead and it is suspected that the motive of the crime is revenge for buying and taking possession of a property at Neguac recently sold at auction for recovery of a mortgage due Mr. White a neighbor. The occupant named La Tulpe lost in a civil case against White and to pay an award of \$600 had to give a mortgage on his property. As no payments were made White foreclosed and the property was sold at auction, being bought by Mr. Ross.

Tuesday Mr. Ross with Constable Adam Dickson of Chatham and Mr. White went to the premises and the La Tulpes were evicted with little friction and Ross agreed to let the man have his potatoes and garden but not his oats. The others went away and Ross was to stay the night in the house, alone. At midnight the chief of police was called by phone and told that Ross had been found shot just outside the house. He was about 50 years of age and leaves a wife and several children.

Wednesday morning, the Chief, Sheriff Cassidy, Coroner Benson and Dr. Duffy left for the scene of the tragedy.

As a result of the evidence given at the inquest into the death by shooting of James Ross of Tabusintac at the Tulippe farm Neguac Tuesday evening, which was held Thursday at the home of Alex Leblanc or White, at Neguac, a prominent resident of that place, Millet Stewart a man about 50 years of age, with a wife and family of five children, was ordered by the jury to be placed under arrest charged with the killing of the dead man. Chief of Police Coughlan of Chatham who went down river with the Sheriff and Dr. Loggie at once arrested Stewart at his home not far from the scene of the murder, and was conveyed by the Sheriff and Chief by auto to Newcastle county jail late Thursday afternoon where he now lies awaiting the action of law.

Coroner M. S. Benson of Chatham conducted the inquest and the principal witness in the case was Miss Torrie Tulippe, a daughter of the evicted farmer, and domestic at Millet Stewart's house. She directly charged Stewart with the killing and while as yet her word is not supported by any other person known to have been in the vicinity at the time the crime was committed, a great deal of corroboratory and confirmatory evidence was contributed by three men, Sam Savoy, Fred Allain and Anthony Savoy and by two of her brothers, Fred and Joe Tulippe.

The evidence boiled down to a consecutive tale tells of a feud of long standing between the two men, and when Ross bid in the Tulippe farm at the auction sale following the foreclosing of the mortgage for \$600 by Leblanc or White, he secured at a fairly low price of \$175 a piece of property the possession of which by him rankled in the mind of Stewart as Ross would be close to where Stewart's fish factory and fishing gear were established, and the unnatural rivalry between two big strong men, one of Tabusintac, six miles away was thus further incensed.

On the day the eviction took place he wanted to interfere, but his wife pleaded with him to keep away and he went to the woods across the road.

### ST. ANDREW'S CHURCH PICNIC

A day answering to the best, in weather. A spot, ideal for a picnic. Open walks, shaded by stately trees. A view of the beautiful Miramichi glistening in the sunlight, its rippling waves, dancing hither and thither, sparkling as if diamond crested. All this, at Fletts Beach, where the Sunday School Scholars, teachers, friends, and Pastor, of St. Andrew's Church, in goodly number gathered to spend the day, last Wednesday, near St. Mark's Nelson.

How they enjoyed themselves. Merry laughter rang out. Half a dozen swings took their dizzy flight, venturesome spirits swaying to their fullest bounds, while others gently passed to and fro, as if only moved by a zephyr breeze. Races and prizes took a prominent place, races for the tots; races for boys and girls of tender years; races for those of larger growth for the young men and women; for the married and the single, and how they competed, and struggled to reach the goal.

An ample dinner and tea served upon the grounds, satisfied the appetite. There was a bountiful supply of good things for the table, in the shape of meats, and cakes, of almost every sort, not forgetting a good cup of tea, as a necessary accompaniment.

Old and young were there, all the way from the baby in arms, to white haired grandmothers and grandmothers, some older than the "three score and ten". What memories the scene called to life, and what stories were told of "the days when we were young." Everything passed off with joy and satisfaction.

The busiest and happiest on the grounds was the pastor himself, as from start to finish he became the servant of all. To see the boys crowd him, and have their sport, spoke more than words of the bond of affection between "the shepherd" and his flock. The ladies attended to the duties of the day with zeal and satisfaction. At the close ringing cheers greeted a vote of thanks to all, who had in any way contributed to make the day a success. After cheers were given for the Pastor, the Rev. W. J. Bate, homeward bound" was the cry, and merry "good nights."

### BY-ELECTION IN NORTH'D BEFORE NEXT SESSION

Fredericton, Aug. 2—A bye-election to fill the vacancy in the representation of Northumberland County in the provincial legislature, caused by the death of J. Vanderbeck, who died soon after the last session of the House of Assembly, will, the Gleaner says today, probably be held during the autumn.

Premier Foster, when asked this morning, said it would be held before another session of the legislature but did not vouchsafe anything more definite. The fact that Oct. 1st, has been named as the date given by Hydro Electric Commission to have Hydro power from the Nepisiquit Falls brought into Newcastle, the Gleaner says, is regarded as significant in connection with arrangements for the bye-election.

**HARVEST EXCURSION**  
A number of local men left for the west on the first Harvest Excursion train which went through on Thursday

### NEWCASTLE TO HAVE HYDRO CURRENT OCT. 1

Hon. E. A. Smith of Shediac, chairman of the New Brunswick Power Commission announced that electric current from the development at Grand Falls, Gloucester County, would be delivered at Newcastle by October 1st. Work on the transmission line is progressing steadily. The right of way for the transmission line will soon be cleared and the erection of the line will begin at once. The Bathurst Company has the contract for clearing right of way and erecting poles from the Falls to Bartibogue. Buckley & Wedden has the contract from Bartibogue to Newcastle parallel to the line of the C. N. R. The total distance is some thirty-six miles.

### CHATHAM PRIEST ADDRESSES THE HIBERNIANS

Halifax, N. S. Aug. 2—Urging the continuance and increase in the college and school scholarships founded by the Ancient Order of Hibernians, in Nova Scotia and New Brunswick, Rt. Rev. Monsignor O'Keefe of Chatham (N. B.) addressed the convention of that society here tonight on the "Moral Aspects of the Order's Scholarships." Monsignor O'Keefe said he was delighted to be able to inform the meeting, attended by ninety-seven out-of-town delegates and about two hundred women members of the auxiliary, that the scholarship funds were in excellent condition.

Today's session of the convention, in point of members and enthusiasm, were the most successful in the history of the organization.

Following a parade and celebration of high mass at St. Mary's Cathedral in the morning the delegates convened at the Technical College, where they met again for a brief session in the evening. Later there was a band concert at St. Mary's on the North West Arm.

### HON. R. W. WIGMORE TO VISIT NORTH SHORE

Chatham Commercial: It is learned from a reliable source that Hon. R. W. Wigmore, of St. John, Minister for New Brunswick in the Meighen Government, intends visiting the North Shore during the month of August. It is expected he will visit the larger Miramichi centres during his tour, when matters pertaining to the County of Northumberland will be considered.

### Cholera Infantum

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. Concerning them Mrs. Fred Rose, of South Bay, Ont., says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

(Continued on page 8)

### MAY REVERT TO CROWN

From present indications it would appear that the Crown is to be enriched to the extent of about \$2,000 from the estate of Alex. Carlson, a swede, who died in May, 1919. Although considerable advertising has been done and much correspondence passed, all efforts to locate heirs have failed. The accounts in the estate were passed in the Probate Court before Judge McInerney, of St. John. The probate value is in the vicinity of \$2,000. Dr. E. A. Baxter is administrator and W. M. Ryan proctor. Carlson was formerly a laborer in the mines in Queens County. So far as is known this is the first case of this kind in St. John in a great many years, as there is usually someone who can prove right to share in an heir.

### Many Mentioned For The Senate

Street rumor indicates a lively political scramble for the senate vacancy created by the death of Senator Domville. Among names mentioned as aspiring to the honor are General H. H. MacLean, M. P.; S. E. Elkin, M. P.; J. L. Peck, M. P. P. for Albert George B. Jones, M. P. P. for Kings, who went to Ottawa on Monday; Hon. James Murray, former provincial premier; John Palmer, Fredericton; Thomas Bell, St. John, and F. B. Black, Sackville. There are also rumors that friends of Lieut. Governor Pugsley and of Hon. Dr. Baxter are advancing their names for consideration. As the northern section of the province is practically unrepresented in the senate today it is assumed that there will be demand from there. There are suggestions that Hon. Mr. Wigmore may regard the vacancy as a desirable release from the cares, troubles and anxieties of the more strenuous if more exciting field of political activity.

### YOUR HOLIDAY

Need not be spoiled by the tortures of sunburn if you have a box of Zam-Buk on hand. This herbal balm is extraordinarily soothing and healing. It quickly ends the burning sensation, draws out the soreness and prevents blistering. Zam-Buk is equally good for mosquito and insect bites, blisters, cuts and all skin injuries. An immediate application of this balm will save you much unnecessary suffering and inconvenience. Being antiseptic, Zam-Buk prevents any possibility of festering or blood-poisoning. Don't forget, therefore, when packing for your vacation, to include a box or two of Zam-Buk. For any kind of sore or skin disease you will find Zam-Buk equally good. All dealers. 50c. box, 3 for \$1.25.

### BEAVER FLOUR

MAKES BETTER BAKINGS

THE reason why BEAVER FLOUR makes such light, flaky pastry, and such excellent bread, is—it is a blended flour.

BEAVER FLOUR is a combination of the world-famed Ontario Winter Wheat scientifically blended with enough Western Hard Wheat to give it strength—the resulting product is flour unsurpassed for high quality and richness of flavor.

Try BEAVER FLOUR and note the marked improvement in your bakings.

Sold at your grocer's.

The T. H. TAYLOR CO. Limited, CHATHAM, ONT.

### HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON  
P. O. Box 123, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since.

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

JOHN E. GUILDERSON, Contractor and Mason.  
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

### MILL SAW BILLS

We have just printed a large quantity of Mill Saw Bills, and can supply them to the different mills either singly or in quantities.

### RUN MADE ON BOSTON FIVE CENT SAVINGS BANK

Boston, Aug. 2.—More than \$2,000,000 was withdrawn by depositors from the Boston Five Cent Savings Bank during a run which began last Friday and which appeared to have ended today according to Joseph Holmes, treasurer of the institution. A line of five hundred persons who were on hand earlier in the day had been paid and there were no depositors waiting when the bank closed at the usual hour.

Mr. Holmes said he anticipated some calls for money from out-of-town depositors during the next few days, but he looked for virtually normal conditions from now on. Deposits had shown an increase each day, he said.

Inability to determine responsibility for the run, in which thousands of people withdrew their savings was announced by officials who said evidence produced at a conference at the State House clearly indicated that it was the result of a well laid plan.

### Disastrous Fire At Richibucto

The most disastrous fire in New Brunswick since the big Campbellton fire of 1910, occurred in Richibucto in the early morning hours of Tuesday, when, as a result of two conflagrations practically a third of the town was wiped out. In all 38 buildings were razed to the ground, including the mainstay establishments of the town, the big freezers and storage plants, as well as the general stores of R. O'Leary and the Messrs. A. & R. Loggie. The financial losses all told will amount well up to half a million.

The first fire was discovered shortly after midnight in the barn in rear of residence of Peter Bernard, Hurly Lane. The flames spread quickly to the nearby house of Geo. O'Leary. Both residences and barns were destroyed.

The second fire broke out, about 4 o'clock in the morning and raged until almost noon. During this period besides the loss of homes, other damage was done as a result of which over 200 men are now out of employment, and the town of Richibucto is without electric lights.

It is thought the origin of the fire was the work of an incendiary. Several buildings which had been on fire early in the night, but in which the fire had been quenched, showed signs of having been treated with kerosene oil, large oil stains still remaining on the walls. At one place on the ground underneath where a fire had started a number of burnt matches were found.

Most of the residences destroyed carried insurance, as well as business houses.

The town fire brigade fought all night and in spite of their inadequate equipment they were successful in keeping the blaze to a well defined path. Their equipment consisted of a handpump fire engine and about 150 feet of hose.

At the time of the fire a heavy gale was blowing.

The whole loss is estimated to be in the vicinity of between \$4,000,000 and 5,000,000.

It was stated on the scene that during the progress of the fire there was considerable looting, the stock of the licensed vendor coming in for distribution. However, there were many drunks in evidence towards the latter stages of the fire and throughout Wednesday.

By noon Wednesday the fires had died down to the burning embers. Even yet, however, there is still some danger to the remaining portion of the town in case the wind should change.

Residence of R. O'Leary Saved  
The beautiful residence of Mr. R. O'Leary, which flanked the path of the devastating flames was saved, but not before a gallant fight had been put up by the fire department and volunteers assisted by the men from Mr. O'Leary's mill. The whole side of the residence next to the fire was literally covered with wet blankets.

No Loss of Human Life  
A miraculous fact is that there was no loss of human life although the fire raged through several hours of darkness.

It was said that two horses in one of the barns perished.

There were many visitors at the scene of the fire yesterday, including several cars from Moncton.

Statement of Losses  
A list of the losers, and insurance carried is as follows.

Richard O'Leary, freezer, barn store and office and warehouse, loss \$200,000, partially covered by insurance.

A. & R. Loggie Company's freezer, store, barn and lobster factory, loss between \$100,000 and \$150,000 partially covered by insurance.

Bernard Doucet, house, store and

barn, loss \$20,000, insurance \$3,500.  
Mrs. Z. Leger, Union Hotel, two barns and residence, loss \$6,000 insurance, \$3,000.

Arthur Maillet, residence, garage and barn; loss \$10,000, insurance \$2,500.

A. J. Woods, hotel and barns, loss \$7,000, fully covered.

Nicholas Muzzerall, hardware store loss \$3,000, insurance \$1000.

R. D. O'Leary, house and barn loss \$4,000; no insurance.

Mrs. Edward Bernard, loss \$500, insurance not known.

Fred Hannah, flour and feed store loss \$2,000, insurance not known.

J. B. Richard, blacksmith shop; loss \$500 insurance not known.

George O'Leary, residence and barn loss \$2,000, insurance \$1300.

Peter Bernard, house and barn, loss \$2,000.

Michael Long residence, loss \$800 covered by insurance.

In addition to the above many barns and out buildings were consumed by the fire.

It is estimated in all that 38 buildings were destroyed.

Water Supply  
The old fashioned hand pump fire engine was brought into commission and both men and women shared up in their efforts to raise more water. The water was pumped from the Richibucto River.

But with such a fire under headway and a gale blowing the hose could not have been very useful.

The press extends thanks to Mr. R. O'Leary for courtesies and hospitality extended them.

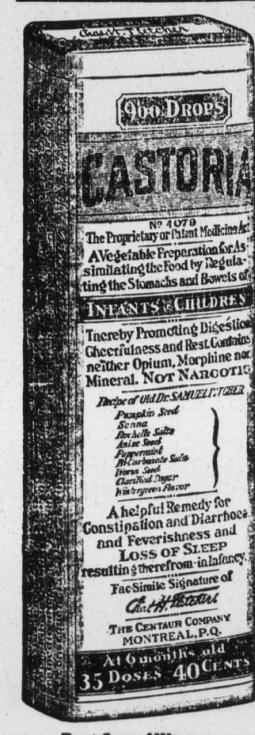

### BETTER THAN AN AVERAGE CROP IN WEST

Winnipeg, Aug. 9.—The west will produce this season a grain crop which will be as good as the average or perhaps slightly better, according to the forecast of the Canadian Pacific Railway crop report issued today. On the whole it is stated, crops are better in the northern parts of the provinces than in the southern districts. The past week has been somewhat more favorable from the weather standpoint, with rains more or less general. Hail has destroyed many good crops yet on the whole the damage from this source is said to have been not abnormal. Red and black rust are reported in many localities, but the damage is not extensive.

### TOO ILL TO GO TO SCHOOL

Mother Tells how Daughter was Made Well by Lydia E. Pinkham's Vegetable Compound

Cobourg, Ont.—"Lydia E. Pinkham's Vegetable Compound was recommended to me for my daughter. She had trouble every month which left her in a weak and nervous condition with weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She has become regular and feels much better since she began taking the Vegetable Compound and attends school regularly. She is gaining steadily and I have no hesitancy in recommending Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine."—Mrs. John Toms, Ball St., Cobourg, Ont.  
Standing all day, or sitting in cramped positions, young girls contract deranged conditions, and develop headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of woman's ills. Every mother who has a daughter suffering from such symptoms should give Lydia E. Pinkham's Vegetable Compound a fair trial.

### Independence on a Fruit Farm

Gathering Raspberries.  
In the heart of the small-fruit country on the north side of the Fraser River in British Columbia, where every landowner has his commercial patch of raspberries, small or large, one of the best examples of what a perfectly developed, well-run fruit farm on a small acreage can be, is the Maple Crest Farm at Hatzic belonging to Mr. A. E. Dann.

Mr. Dann is an Old Country gardener and was brought up on his father's fruit farm of 200 acres in Kent; as the conditions for fruit-growing are much the same in British Columbia as in England, his experience is his greatest asset out here. He believes that there is far more profit in the careful and thorough cultivation of the small patch than in the big patch carelessly looked after.

The soil in this district is naturally rich, well-drained and therefore particularly well-adapted for small fruit but Mr. Dann uses farm-yard manure when possible and plenty of chemical fertilizers as well.

He has an acre in strawberries, the "Magoon" variety, which are best suited to the district, and in a good year realizes \$1,200 on these; half of this must be allowed for expenses of picking, packing, crating, cartage, etc., so that he clears a profit of \$600.

He has over an acre of gooseberries, mostly grown from cuttings which he struck himself, "Pearl" which are the earliest, "Oregon Champion," the main crop and "Jocelyn," the late ones. There are 1,100 bushes in full bearing which average a gross return of \$1 per bush, more than half of which is clear profit.

Gooseberries, of course, are far cheaper to grow than strawberries because like all bush fruit they last for a long term of years without needing renewal.

Mr. Dann has over an acre of raspberries, "Cuthberts" and an unknown variety much grown in the district that surpasses even the "Cuthberts" for earliness and heavy yields. Three tons to the acre is an average crop or 800 crates for which the lowest price is \$4 per crate, so it will be seen that the profits work out much the same as for straws, and rasp-

berries are grown as these are considered better than "Snyder" which are too seedy or "Evergreen" which are too late. They do not bring in such good prices as the other fruits but the crop is heavier, lasts longer and the expenses are less, so that a good \$600 is cleared on these also.

There are about one and a quarter acres of red and black currants, some of the red currant bushes reaching the prodigious size of 9 ft. in diameter and producing over 25 lbs. of fruit. These bring in a gross return of \$700-\$800 per acre.

Mr. Dann has also fifty Bonstock pear trees which invariably yield a good crop and are a variety particularly free from disease. This district has learnt the imperative necessity of co-operation in handling their fruit. The area of production has assumed such vast proportions in the last few years that unless the produce had been handled on business lines nothing short of disaster could have occurred, both for the individual and for this industry in the Province.

Cold storage facilities are absolutely necessary and the expense of this can only be met by every grower joining the exchange in his district. Last year the Hatzic Fruit and Mercantile Exchange shipped six carloads of rasp to Winnipeg and not one crate was spoiled.

A traveller from the East told Mr. Dann that he saw several crates of rasp from the Hatzic district last summer in Fort William and they were all in perfect shape. This year the Exchange expects to ship over 500 cars of fruit and the strawberry yield alone is expected to total from 800-1000 tons. There are about 2,800 acres in British Columbia under small fruit and the value of last year's crop was approximately a million dollars.—H. G. W.

**BUSINESS AS GOOD AS YOU MAKE IT**

That the condition of business today does not warrant drastic curtailment of selling expense, advertising and purchase of needed equipment was the opinion of an official of one of Canada's foremost concerns as handed out yesterday.

This official's words carry weight because his company is in close contact with every line of business in the country.

He believes that the recent stagnation in business is largely the result of a mental attitude and that as soon as business men generally begin to place orders for things needed in their business, they will begin to get more orders for the merchandise they have to sell.

"We are spending our money in newspapers today to advertise our belief in this, and the more who follow this example the better it will be for everybody's business."

**Bound to React**

"When I hear a man say that business is 'bad'—'rotten'—'dead-end'—that things are down and no prospect of getting better in sight—I wonder if that man knows how much it costs him in cold cash to make such statements.

"If a man thinks business conditions are as bad as that and spreads his opinion broadcast, it is bound to react against his own business in particular and to a certain extent on business in general.

"I don't mean that business men should hide their heads in the sand like ostriches or try to juggle the figures on their books to fool themselves, but I mean that in many instances the man does not know whether it is possible to transact more business in his line because he had not tried hard enough.

"We have most of us been so spoiled by the high waves of prosperity in the last two or three years that we have forgotten how we used to work to get orders in the years that we considered normal. We have no right to complain that the public won't buy if we make no real effort to sell and at the same time discourage the public with talk of hard times.

**A Comparison**

"Of course, the boom times have passed and whether they were really good or bad years depend on the net result of business after all the 'boom' has dried up. But looking back over a period of ten to twenty years and comparing the buying power of the average citizen today with the money he had in his pocket or in the bank at any time during that period, who will say that the opportunity to do business today is less than it was five or ten years ago?

"Of course, there are some people out of work but even some of these are good business prospects today. The fact is that most of the people in this country have more money and more prosperity today than they ever had before, and there are enough of them who want to spend it to make good business for all of us if we will make it attractive for them to buy what they need.

"Just to illustrate this point: A friend of mine has about made up his mind to buy a new automobile. He knows what he wants and has the money to pay for it, but he is not yet quite willing to walk into that agent's office and lay down his check. Now if a good salesman for that particular car should get hold of my friend and take him into the office and show some interest in putting that sale across, that car would be sold tomorrow.

**Everyone is Eating**

"Another man says his wife is going to buy a washing machine. He is willing to pay for it but isn't interested enough to shop around and look into the merits of the different makes himself. If somebody would send one of the things up to his house and show his wife how to run it, the chances are ten to one she would

**KILLED IN FRANCE BURIED IN REXTON**

Rexton, N. B., Aug. 2—(Special)—The body of the late Private John Doucette, which has been brought home from France via New York, arrived here on Saturday afternoon, accompanied by Corporal Lawrence Daniels of Helioken (N. J.) and was interred in the Roman Catholic cemetery here with military honors. High mass of requiem was celebrated by Rev. (Capt.) John Gaudet, chaplain of the 65th Battalion.

The funeral music was under the direction of Professor B. E. Johnson, who had also served in France. The pall-bearers were men who had served in the army, namely: La... Daniels, Alphonse Richard, Fred Richard, Fred Forster, Tom Helbert, and John Thompson.

Private Doucette was born in Rexton in 1896 and was killed in the Battle of Vesle, France, August 22, 1918.

**KITCHENER CHAPEL IS PLANNED**

Three of the most famous British architects, Sir Aston Webb, Sir George Bampton and Sir Thomas Brock, have been consulted with regard to the proposed Kitchener Chapel in St. Paul's Cathedral, which is to be a memorial of singular beauty. The Royal Engineers, Lord Kitchener's old corps, are to contribute the altar, the London Rifle Brigade will provide tall silver candlesticks to flank the altar, while the War Nurses' Memorial Committee, with the approval of Queen Alexandra, will give a statue of St. George.

**WOMEN REFUSE TO BE REGULATED**

Representative Paul Burney Johnson of Mississippi, is disillusioned and grieved. Believing that smoking is "worse than whisky" for women, he introduced a bill fining women caught smoking in a public place in the District of Columbia \$25 for the first offence and \$100 a cigarette for each subsequent offence. At the hearing on his bill twenty-five women of assorted ages were present. Exactly one favored it. Mr. Johnson abandoned in the end of Robert Reed sense. Smoking was better for the body and mind of men, all worse for women. He was bound to be injurious to their children. Women and the public health and morals ought to be protected against this curse. The women present, except one, declined to be regulated, protected, saved.

An army colonel's wife, not a smoker, objected on general grounds to such measures of interference with personal freedom and habits. She didn't want to have a lot of busybody men telling her what she should do and what she shouldn't. Somebody was always trying to prescribe how women should wear their hair, the length of their gowns, the cut of their bathing suits, and so on. "You can trust the women to regulate themselves," she said; and the saying contains the pessimism of wisdom on a subject which too many wretched, rash, intruding men are continually and ignorantly meddling with. In the view of many of us the country is "regulated" preposterously already. Man, petty man, mayn't be able to protect himself from miscellaneous protection and restriction, but the superior sex laughs triumphantly at the well-meaning pragmatical sumpsh who try to "regulate" their subtle and indomitable rulers.

**Urges Purchase Of Goods Made In Canada**

Ottawa, Aug. 1—Canada is facing a serious unemployment situation and the rank and file of Canadian people can help in a great measure to alleviate it by buying only goods made in Canada wherever they are available. This point is stressed in a statement made yesterday by Hon. G. D. Robertson, minister of labor.

**WOLF CUBS**

God planted in the small boy a horror of all that is dull and slow and conventional. He made him a creature of restless energy, with an inquisitive, eager mind, a sensitive little heart, and a romantic imagination. Don't oppose God's plan! Work with it—discover it—guide it: That is the Wolf Cub idea.

In 1914, in response to continual demands from boys under 12 years of age for admission to Boy Scout troops, Sir Robert Baden-Powell answered with the plans for the organization of the Wolf Cubs. And in doing so the Great Father of Scouting also met the need for a scheme of recreational education that would teach the small boy those first lessons in loyalty to the right self-control, respect for authority and kindness to others, that are the foundation of good-citizenship.

The programme of the Wolf Cubs, paralleling the plan of Scouting for older boys, has been built up about the natural activities and impulses of the boy of eight to twelve years of age. The small boy likes to play at wolf or bear; barking, growling; pursuing, being pursued. Very well; let him play at wolf and you play at wolf with him. And into the play weave the fundamentals of loyalty (to his Pack), obedience (giving in to the Old Wolf), and self-control (not giving in to himself). In a few words, this is the Wolf Cubs.

Wolf Cub organizations and packs may be formed in a manner similar to the way in which Boy Scout troops are formed. Instead of a Scoutmaster there is a Cubmaster who may be either a man or woman, and instead of a Troop Committee there is a Pack Committee. Further particulars regarding the organization, registration and chartering of Wolf Cub "Packs" and with reference to this most interesting branch of the Boy Scout Movement may be had upon application of the Boy Scouts Association, 24 Ritchie Building, St. John.

## Social and Personal

Miss Margaret Callahan is visiting friends in Tracadie.

Mr. Edward Menzie was in Tracadie last week on business.

Miss Helen Stevens of Campbellton is visiting friends in town.

Mrs. J. E. T. Lindon is a patient in the Miramichi Hospital.

Mr. Chas. Robinson of St. John was a visitor to town last week.

Mr. L. B. McMurdo of Moncton was a visitor to town last week.

Miss Teed of St. John is the guest of Mr. and Mrs. W. H. Teed.

Miss Sadie Ross of Chatham is visiting Miss Sadie Cassidy.

Mr. and Mrs. W. E. Russell were visitors to Blackville on Friday.

Lt. Col. W. C. Good of Woodstock, N. B. spent the week-end in town.

Miss Lou Harley, of Sydney, C. B. is visiting friends in Burnt Church.

Miss Nellie Wallace of Sussex is visiting Mr. and Mrs. Harry Sharpe.

Mrs. J. P. Ryan is the guest of her cousin Mrs. W. Hyler, Brewer Maine.

Miss Alice Wormwood of Saco, Maine is the guest of Miss Ruth Benson.

Messrs. T. C. Creaghan and J. A. Creaghan were visitors to Moncton last week.

Mr. Walter Grace of Fredericton spent the week-end in Chatham and Newcastle.

Miss Lavinia Maher of Chatham was the guest last week of Mr. and Mrs. B. F. Maltby.

Miss Bertha McGowan of Boston Mass. is visiting her mother Mrs. Owen McGowan.

Mr. J. P. Kane of Halifax, N. S. is spending his vacation at his home in Douglastown.

Miss Kathleen Sullivan of Red Bank was the guest last week of Miss Florence McEvoy.

Miss Bella Robinson returned last week from Alton, Mass. and will in future reside in town.

Mrs. G. M. Lake and daughter have returned from a pleasant visit with friends in Campbellton.

Miss Jean Cassidy left last week for Fredericton where she will visit friends for a few weeks.

Mrs. Lorne R. Dawson and daughters have returned from a pleasant trip to Moncton and Hillsboro.

Miss Margaret McGrath left last Saturday for Moncton and St. John to spend her vacation with friends.

Mrs. John Buckley returned last week from Montreal, where she was guest of her sister Mrs. Thos. Foley.

Misses Lyle McCormack and Ethel Allison returned last week from a pleasant vacation spent at Youghall.

Misses Helen Armstrong and Jennie McMaster returned last Tuesday from a pleasant vacation spent in Youghall.

Mr. C. S. O. Crockett, Editor of the Campbellton Tribune was in town last Thursday, en-route to Fredericton.

Mrs. James Stables and family have returned from Youghall after spending a pleasant two week's vacation there.

Miss Clara Bernard left yesterday for St. John where she will spend her vacation with her sister Mrs. Charles Campbell.

Rev. William MacNa'm of Westville, N. S. occupied the pulpit of St. James' Presbyterian Church last Sunday evening.

Misses Emma and Nellie Deland spent the week-end with the former's grand-parents Mr. and Mrs. Jas. Jones of Jones' Crossing.

Mr. and Mrs. P. F. Lawlor, and daughter Ruth, of Eagle River, Wis. are visiting the former's brother Mr. J. R. and Mrs. Lawlor.

Mrs. Harold Russell and family returned last week from Campbellton where they visited Mrs. Russell's mother, Mrs. James Stout.

Capt. John Russell went to Youghall on Wednesday, returning later in the week with Mrs. Russell who spent a pleasant vacation there.

Miss Ferguson, of Richibucto returned to her home by motor last Wednesday, after a pleasant three week's visit with relatives in town.

Mr. Frank Grenley returned to Boston, Mass. on Saturday after spending a week's vacation with his parents Mr. and Mrs. R. H. Grenley.

Dr. Clifford and Mrs. Fish and son and daughter of Melrose, Mass. motored to Newcastle last week to visit relatives and friends on the Miramichi.

Mrs. W. B. Ormsbee and son Billy, who have been visiting the former's mother, Mrs. Robt. MacMurray returned to their home in Penacook, N. H. last week.

Mrs. William Ferguson and daughters, Ethelwynne and Marjorie left on Saturday for Tidnish, N. S. where they will spend the month of August at the seashore.

Miss Margaret Lawlor, of Ottawa returned on Monday to spend a vacation with her parents Mr. and Mrs. J. R. Lawlor. She is accompanied by her friend Miss Smith.

Mrs. Norman Renfrew and two children, who have been visiting for the past two months with the former's parents Mr. and Mrs. Adam Hill of Cassilis have returned to their home in Lawrence, Mass.

Mr. Graham Jardine of Vancouver B. C. who has been transferred to the Charlottetown branch of the Royal Bank of Canada, has recently undergone an operation for apendicitis, in consequence of which his arrival here to visit relatives and friends, en-route to the Island, has been indefinitely postponed.

### BANK CHANGES

Sackville Post: Mr. Putnam, manager of the Royal Bank at Newcastle, N. B. and Mrs. Putnam were in Sackville Thursday renewing old acquaintances. Mr. Putnam was formerly manager in Sackville. It is understood he is to return here as manager to succeed Mr. McKenzie, who many Sackville people regret to learn, is about to retire from the service.

## WE CAN'T PRAISE TANLAC TOO MUCH

Halifax Man Says It Has Entirely Relieved His Wife Of Indigestion.

"Tanlac restored my wife's health after she had suffered for ten years, and we cannot say too much in praise of it," said John Bensang, of 33 John St. Halifax, N. S.

"Her main trouble," he continued, "was indigestion. Her appetite was very poor and much of the time she could not retain anything she ate. Gas formed on her stomach so bad she could hardly get her breath and caused sharp pains around her heart which kept her in misery for hours. Nearly every day she had dull headaches, she was very nervous and restless and would roll and toss for hours at night and wake up in the morning as tired as when she went to bed. She lost weight and went down in health continually.

"She has taken six bottles of Tanlac now and her health is completely restored. Her appetite is splendid and her food seems to agree with her perfectly. She is gaining in weight steadily and feels so much stronger that she does her housework with ease. Her nerves are calm and steady and she sleeps well at night and is so much improved that her friends are constantly speaking of how much better she looks."

## OBITUARY

FRANK RUSSELL

On Thursday, July 28, Frank Russell, of Chatham Head passed away, after a short illness, aged 65 years. Mr. Russell was a well known and respected resident and had been in the employ of the Fraser Company for many years. He leaves a wife, three sons and two daughters.

MRS. HARRY HOUSTON

Mrs. Harry Houston died unexpectedly at three o'clock Sunday afternoon July 17th at her home in Fairview, B. C. Although Mrs. Houston had been ailing for some time past her death came as a surprise to her relatives and large circle of friends.

Born in Newcastle N. B. in September, 1879 Mrs. Houston came to Nelson about 20 years ago and soon afterwards married Harry Houston.

She leaves besides her husband, four children, Rae, William, Jack and Amelia, also her father and mother, Mr. and Mrs. Charles Maltby, who reside in Nelson, B. C.; a brother, Hiram Maltby, at MacLeod, Alta. and a sister, Mrs. Frank Graham, at Coleman, Alta.

### NOTE

Deceased served her time in the Advocate Office under the late W. C. Anslow and was fore-woman in the Office when she left for the west with her mother and brother to join her father in Nelson, B. C.

REV. DR. WYLLIE

LEAVES FOR CALIFORNIA

Rev. Dr. Wyllie who has been the energetic pastor of St. Andrew's Church for the past five years several his connection with that congregation last week and on Sunday preached his last sermon as pastor of St. Andrew's. Early in the week Dr. Wyllie will start with his family on his long journey overland to San Diego, where he has accepted a call, and will stop en route at Toronto, Salt Lake City and other points.

Both Dr. and Mrs. Wyllie will be much missed from Chatham where they have made many firm friends and have been foremost workers in every good cause.

### ALL SEVEN BALL PLAYERS FREED BY THE JURY

Chicago, Aug. 2.—The seven former Chicago White Sox baseball players and two others on trial for alleged conspiracy to defraud the public through throwing of the 1919 world series games were found not guilty by a jury tonight.

The verdict was reached after two hours and forty-seven minutes of deliberation, but was not returned until forty minutes later, Judge Hugo M. Friend being out of court when the decision was reached.

The defendants were: Buck Weaver, third baseman; Oscar Felsch, outfielder; Charles Risberg, shortstop; Arnold ("Chick") Gandii, first baseman; Claude Williams and Eddie Cicotte, pitchers; Joe Jackson, outfielder—all former White Sox players—and Carl Zork, of St. Louis, and David Zelcer, of Des Moines.

Announcement of the verdict was greeted by cheers from the several hundred persons who remained in court for the final decision and shouts of "hooray for the clean-sox."

Judge Friend congratulated the jury saying he thought it a just verdict.

Eddie Cicotte was the first of the defendants to reach the jurors. He grabbed William Barrett by both hands, shouting his thanks.

Joe Jackson, Claude Williams and the others were close behind, and the jurors lifted them on to their shoulders, while flashlight photographs were taken.

Bailiffs vainly pounded for order and, finally noticing Judge Friend's smiles, joined in the whistling and cheering. Hats sailed high in the air, papers were thrown around and the court room was the scene of the wildest confusion in any recent Cook county criminal case.

As the jurors filed out of the room they were slapped on the back and shouted congratulatory words by the spectators.

### RUSSIA AFTER LOAN FROM FRANCE

Russia considers it will be possible soon to realize a loan in France, Leonid Krassin, Soviet trade representative, said in an interview with the Rosta News Agency. He said he had already received several offers of credit abroad.

Krassin said the crop failure in Russia had compelled alterations in the project of buying abroad and that at present the main attention was being devoted to buying foodstuffs and seed grain. He said the first locomotives, ordered abroad, would arrive this month.

#### MILL SAW BILLS

We have just printed a large quantity of Mill Saw Bills and can supply them to the different mills either singly or in quantities.

THE ADVOCATE

### HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations.

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

### ENRICO CARUSO FAMOUS TENOR DEAD AT NAPLES

London, August.—Trico Caruso underwent an operation Sunday, says an Exchange Telegraph despatch from Rome today, quoting a Naples message. Caruso was said to be extremely weak yesterday afternoon, the weakness of his heart necessitating injection of camphor every two hours.

The final operation was for an abscess between the liver and the diaphragm, which caused acute peritonitis. Caruso's wife and his brother were at his bedside. The tenor was until a week ago on the way to recovery from a long illness which began in New York last winter early in the operatic season, when suddenly he had an unexpected relapse and was removed from Sorrento to Naples.

He arrived at Naples Sunday night, adds the message, and the specialists who were called in decided to operate immediately.

### "Cold in the Head"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System, thus reducing the inflammation and restoring normal conditions.

All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

#### NEW SYSTEM

To have baggage examined by the customs officials before arrival at the port, and checked to its inland destination, is one of the most highly appreciated features of service on the Canadian Pacific Express liners arriving at Quebec. By putting customs officials and a staff of baggage-checkers on board of the Empress ships at Father Point the C. P. R. overcomes the long and sometimes tedious delay otherwise experienced, and by the time that the ship docks at Quebec the special trains in readiness there to convey passengers to their inland destinations, are through this service able to proceed immediately.

### The Baseball Curve

The use of "curves" in baseball pitching is now so general that it is regarded as entirely commonplace. But once the use of a "curve" was a special attraction, and something of a rarity. The Boston Herald tells an interesting story of how John B. Staunfield, a noted New York lawyer, who died recently, first proved the curved ball. He graduated from Amherst College in 1875, and was pitcher for the college nine. One of the professors had asserted that a sphere hurled into space could not curve on a horizontal plane without violating the laws of physics. But that afternoon Staunfield proved that he could curve a ball, and the professor acknowledged his "mistake." The few fans then were amazed at the use of trick balls, but by and by came the spit ball, and "jumpers," and now a pitcher who could not obtain a dozen variations of curve would be regarded as a tyro. The "in" and "out" were mixed in with the "drop" and "upshoot." It seems a wonder that throwers of balls did not suspect earlier that curves are possible, because a baseball thrown a fair distance with a natural side or overhand swing of the arm will tend to curve anyway. The twist the ball gets as it leaves the hand usually produces a natural inward tangent. The pitcher of today is required to throw a big variety of curves, doubling up the more complex. The greatest art in pitching now is so to mix the shoots that the batter cannot tell which is coming until after the break has occurred, and it is too late to alter the batting stroke.

### ORGANIZE A TROOP OF SCOUTS IN YOUR COMMUNITY

If there are no Scouts or Cubs in your vicinity there should be, and the situation offers you a splendid opportunity to do the Community a Good Turn.

The first thing to do is to write to Provincial Headquarters for Scout literature and advice. Headquarters may be able to send a representative to help you organize a Troop or Pack. If, for any reason, you cannot arrange for some one from the Provincial office to visit your locality, do what you can by correspondence and, in the meantime, note carefully the following points of general policy.

(a) Troops or Packs may be organized in connection with churches, schools, clubs or other recognized institutions or organizations or even by a group of citizens who are over 21 years of age and are British subjects.

(b) Each Troop or Pack should have a Troop or Pack Committee, not less than three in number, the members of which are adult British subjects as stated above. Such Committees should be selected from the membership of and appointed by the organization or institution with which the Troop or Pack is to be connected.

(c) The Committee will have certain duties and responsibilities, as for example:

To supervise and encourage the Troop or Pack with the least possible amount of interference with its independence and initiative.

To see that the Troop or Pack works in co-operation with other boys' work or organizations in the vicinity.

To assist the Scoutmaster or Cubmaster in finding instructors in special subjects.

To assist the Scoutmaster or Cubmaster in obtaining a room for headquarters purposes.

To be responsible for Troop or Pack property.

To consider and determine the amount of financial assistance, if any, that should be given the Troop for purposes of equipment, etc.

(d) Application for a Charter should be made to Provincial Headquarters.

(e) Where several Troops or Packs are to be formed in one town a Local Association may be necessary.

### Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 25c a box at all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

### Western Farmers Building Silos

It is to be anticipated that before many years have elapsed almost every farm in the Canadian prairie provinces will have its silo. The growth of the dairy industry would naturally bring this condition about in course of time, but the movement is being expedited by the success farmers are having in growing sunflowers. Small fields of from three to thirty acres have been planted in various parts of the three prairie provinces of Canada. The yields are proving more satisfactory than the farmers generally dared to hope, and each acre yields on an average from fifteen to thirty tons of ensilage.

Many farmers have erected silos on their farms during the summer to take care of this crop, but most of them have under-estimated their requirements and will have more crop than they can put in their silos. Sunflower silage is due for a more extensive trial this winter than it has had before. The results in previous years have been very satisfactory but only comparatively few farmers have grown the crop for silage previous to this year. If in its more extensive use the crop proves to be as satisfactory as it has already proved in the few cases where it has been tried, it is safe to say that in a few years the farm without a silo will be an exception in Western Canada.

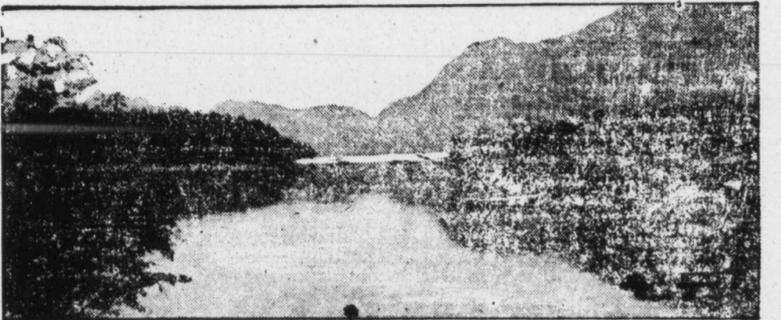

Since last year's results have become known, considerable interest has been shown in silos and ensilage in Western Canada and several hundred silos have been erected during the past summer. Typical of this movement is the Cardston district in Southern Alberta, where eight silos have been erected this year and where about fifty acres of sunflowers were planted. The crop has proved

so successful that it is predicted that one hundred silos will be built in the district next year and more than a thousand acres of sunflowers planted. Similar plans are being made in other parts of Western Canada, and the already rapidly growing dairy industry promises to grow much faster with the general acceptance of the sunflower as a silage crop. Other evidence of the value of sun-

flowers as a forage crop will be the big gain in finished steers. Many of the larger livestock raisers are growing sunflowers and erecting silos for this purpose. Thus will be considerably increased the finishing areas of Canada, which, hitherto, have been somewhat restricted, compared with the large feeding areas throughout the country, and the livestock industry in the West will be placed on a sound basis.

### Canada's Farthest West

Clayquot Sound, one of the delightful spots of the West Coast, Vancouver Island.

It seems hardly possible in these days of quick and easy travel, of competitive transportation, that there should be a coast on Vancouver Island, with a seaboard of over 450 miles that is practically unexplored. And this in a temperate country between the latitude of 45 deg. and 55 deg.!

The Canadian Pacific is the only line to send boats to ply up and down this coast and they only call at the different ports every ten days or so. Otherwise these pioneer settlers have no connection with the outside world unless it be at the end of the Alberni Canal which is so far the only point where the island railway meets the west coast.

The west coast is more temperate than the east; the average temperature for January last year up Quatsino Sound was 36 deg. Fahr. for August and 58 deg. Fahr. for January.

The two industries that keep the west coast alive at all are fishing and logging, and all the big salmon-canning companies of British Columbia have stations here. The first port of call is Port Renfrew, at the mouth of the San Juan River, and here the Defiance Packing Co. of Vancouver put up 2,000 cases of salmon a day in the season. Then up coast, past the Carmanah Light, Clooose, a great city with a population of about sixty whites and forty Indians, where the Nitinat Cannery turned out over 55,000 cases in 1917.

Away back inland from these ports towers the great line of mountains that stretch the whole length of the island, and just here form the watershed of those three wide rivers, the San Juan, the Sarita and the Nitinat. There are those who say—but whisper it low—that a band of elk, known to few and seen by fewer, still have their range on the slopes of this watershed, and yet another band in the far northern east corner of the island between the head of Kyquot Sound and the south-east arm of Quatsino, round about the headwaters of the Nimp-

kish. Fortunately, however, they are protected for some years to come.

At Banfield, there is the Dominion Government Life Saving Station and the Imperial Government Cable Station; it is the landing point for cables from Australia and New Zealand, the nearest forwarding point being Fanning Island, 4,500 miles away. A staff of thirty-five officials here.

Uchuckleit is a bigger settlement, about one hundred whites and seventy-five Orientals and Indians. Here the Wallace Fisheries have a large plant with two lines of machinery for canning salmon and two for herrings so that they can turn out in all about 4,000 cases a day.

Away up the Alberni Canal, some twenty miles inland lies Port Alberni, a town which has long since cried "Ichabod" and gone to sleep. Here the Cross-island railway has its terminus for the present, although the extension to Sproat Lake and Great Central Lake will soon be ready.

Out into Barclay Sound again, through the islands of the "Broken Group" to Sechart, Toquart and so to Ucluelet, where the Wallace Fisheries buy a lot of their fish. A happy little settlement here with several well-established homesteads, that it has taken half a life-time to clear, and all the more loved for that.

It is here that a certain Scotchman has a garden renowned as being the first—if not still the only—rhododendron nursery in the North-American Continent. Years before the war he sent to Berlin for seeds, and then sat back to wait the seven years it takes for a rhododendron seed to come to flower-bearing age. Since then he has crossed and intercrossed until the resulting nursery is worth many thousands of dollars.

Out into the open Pacific again, then turning north east through Broken Channel we come to Tofino where the Columbia Fisheries operate and the Clayquot Sound Canning Co. do a big business. Here is

a regular Indian fishing village and through the whole of the long summer the sea for miles around is dotted with the small gasoline boats of the Indian fishing fleet.

In the Clayquot district, 19,000 acres of agricultural land have been surveyed by the government, but so far only 4,000 have been pre-empted. The land is good in patches but the clearing is very heavy and there is much cedar-swamp. It is, the residents say, one of the cheapest places in the world to live in, as nature provides most of the larder.

Trout and Silverchar in the streams and lakes inland, salmon, pilchard, herring, rock-cod, halibut, skil, bass, etc., and every sort of shell-fish on the coast. Geese, grouse, duck, ptarmigan, snipe, quail, sandhill-crane, plover, rail and even swan if you are anything of a shot.

For heavier meat there is always the ubiquitous black-tailed deer, varied by bear-steak; and for trapping, wolf, cougar, wolverine, lynx, coon, beaver, fox, otter, mink and marten.

There are enough wild berry fruits to provide jam all the year round, so all the old-timer buys from the store is his sack of flour, sugar and tea.

Between the Islands Vargas and Meares, past one of the most beautiful stretches of sandy beach on the Pacific Coast (quite unknown). At Clayquot where the Union Fisheries Co. are putting up a good storage plant for a million lb., past Christie's there is a Roman Catholic school for Indian children.

At Ahouat there is another big Indian settlement and it is the custom of the Indians to migrate with their entire families every year to Rivers Inlet on the mainland for the salmon fishing.

They are landed from the ships into their dug-outs with their children, their dogs and all the junk apparatus: threesto, stoves, stove-pipes, old hats, oilcloth, teapots, dried skins and weapons of war.—H. G. W.

## Harvest Excursions Via 'Canadian National'

**30,000 Urgently Needed To Garner In The Bumper Wheat Crop of Canada**

To garner in Canada's bumper crop of golden grain, 30,000 harvesters are needed from Eastern Canada.

From all parts of New Brunswick there will be special fares by special trains on August 4th and August 16th, via Canadian National Railways. The fare from Newcastle to Winnipeg by these trains will be \$22.00.

There will be proportionately low fares from Winnipeg for those returning. The fare to points beyond Winnipeg is one half cent per mile.

Special accommodation will be furnished on these excursion trains. Lunch Counter Cars will be carried, serving meals, and the best type of Convertible (berth) Colonist Cars will form the equipment.

There is fine opportunity for those who wish to visit the west and participate in the harvesting. The rates are extremely moderate, and the accommodation most comfortable.

Particulars regarding these excursions can be secured from all ticket agents of the Canadian National Railways, or by writing F. W. Robertson, General Passenger Agent, Moncton, N. B.

## Clover For Seed Production

It is wise to plan for a supply of red clover seed for next spring without having to buy. This can be done by cutting an acre of strong growing clover about the 20th of June and getting the seed from the second crop. There is a tendency to delay this cutting until the clover has reached its full growth. This may result in the seed which is produced from the second growth not being properly matured before the fall frosts. Failure in getting a good field of seed of good quality is largely due to this fact, hence the desirability of cutting the clover about the third week in June, in the Maritime Provinces.

The yield of seed will be determined largely by the stand of plants and freedom from grasses; an acre of good growth properly matured should give 200 pounds. The second growth should not be cut too early. The heads should be dead and the seed well matured before cutting. If there is much grass in the clover it is well to allow the cut area to remain in swath a day or two until the grass has dried up. It is necessary to rake it into windrows before the clover dries too much or else the ripe heads will be broken off and the seed lost. For the same reason it is wise also to rake it in the morning when not too dry. The windrows should be light, thus saving dragging too far and facilitating drying. It is usually better, under our conditions, to leave in light windrows until fairly dry and then pile carefully in small piles to cure. Just as soon as the crop can be stored without heating, place it under cover. Threshing can be done only with a clover huller. If a huller is not available for threshing there is little advantage in growing the seed, as the common threshing mill will not beat out the seed.

The best seed crop from Alsike clover is obtained from the first crop. This is allowed to ripen thoroughly before harvesting and is handled as stated above. Should the weather be wet at harvesting time, care is necessary to prevent heating and sprouting in the piles. If the seed is matured, the sooner the growth is dried out and placed under cover the better and, if the weather keeps damp for a long period, the only thing to do is to spread the clover thinly to get it dry enough to store.

## OTTAWA MAY GET EXECUTIVE OFFICES

Rival claims of Toronto, Montreal and Winnipeg to the executive offices of the whole government railway system have been put forward, and a decision between them, however, has not yet been made by the government, nor will one be made until the lines are consolidated and the Canadian National Railway Act is proclaimed. Toronto claims the offices because it was the headquarters of the Canadian Northern Railway, and is the great public ownership centre of the Dominion. Montreal points to the fact that it has been the headquarters of the Grand Trunk System as a seaport and a great commercial metropolis. Winnipeg is the gateway of the West, but it is not considered to have the chance of securing the railway office. There is said to be a possibility that the executive staff of the Canadian National, including the Grand Trunk System, may be located in Ottawa, that staff comprising only about 200 persons. Toronto and Montreal and Winnipeg, under this plan, would continue to be the headquarters for their respective sections of the system.

## "The Interprovincial Weed Special"

Of all menaces to agriculture in the prairie provinces, it is unanimously agreed that the loss sustained from weeds far outweighs the loss from any other preventable cause. Realizing this, the decision was reached by the Provincial Governments of Manitoba, Saskatchewan and Alberta, that if the Canadian Pacific Railway would provide the service, a special interprovincial train on weed control would be equipped and sent out. The Railway Company concurred in the plan, and on the morning of 24th January the Special train consisting of two lecture cars, one car for display of implements, another exhibiting rowing weeds, &c., and Tourist Dining Car, opened up at Dominion City, Man., upon a tour of six weeks—two weeks to each province—to conclude in Southern Alberta the first week in March. Any pessimism which may have existed with respect to the success of this mission was soon dispelled. From the outset great interest was experienced in handling the large crowds at each point visited, and on some occasions it was necessary to obtain the use of the local hall in order to accommodate all. This manifestation of interest on part of the farmers greatly encouraged the speakers with the train, who put forth their best efforts and received a splendid response with an assurance of earnest co-operation.

The Weed Exhibit car, as a popular centre of interest to both young and old. Here were paintings and living and pressed plants to illustrate the worst weeds; and with these were companion cards indicating the means of eradication. Many kinds of weed seeds were shown under magnifying glasses, and models of weed seeds enlarged to forty diameters were shown. Soil plots with weeds growing from weed seed planted on the trip, indicated the rapidity with which some typical weeds developed when not promptly attended to. In these plots the type of implements suggested for the eradication of each type of weed appeared. In another section space was devoted to Natural History, featuring certain bugs, the grasshopper and the cutworm, each in various stages, with charts showing the methods of destroying these pests.

(1) The Inter-Provincial Weed Special standing on the siding at Dominion City.  
 (2) School children visiting the Weed Special at Oak Lake.

The second exhibit car contained various types of machinery employed in connection with weed destruction, seed cleaning and cultivation purposes generally. The two Lecture cars, which were used for this purpose only, were adorned with placards bearing upon the weed question. The staff accompanying the train, provided by the Dominion and Provincial Governments, Agricultural Colleges and Schools, included prominent authorities in agricultural matters as obtaining in Western Canada. Through each Province either the Minister of Agriculture or the Deputy Minister directed a programme which varied from day to day to suit the prevailing conditions of the district visited, for instance, a district badly infested with the Russian Thistle may have also suffered from the grasshopper plague of last year—these two matters would be treated by special authorities instructing thoroughly upon the measures to be taken to combat them. Another district had an abundance of couch grass, or mustard, or the cutworm had ravaged the crops—each of these would receive very special attention with definite instructions to those affected. A certain amount of time was taken at each point for the discussion of other agricultural topics, such as winter feeding, growing of corn and sunflowers (much interest was taken in the matter of sunflowers for fodder), clover, alfalfa, and fall rye, also the advantages of having a silo on the farm. The discourses were of such a varied and comprehensive nature that it would be difficult to go into detail, but the writer is satisfied that no other similar train has ever accomplished so much within such a short time. During the six weeks three thousand five hundred miles was covered, seventy-four points visited, and seventy-six meetings held, with an aggregate attendance of fifteen thousand four hundred and eighty people.

The objective of the Provincial Governments and the Canadian Pacific Railway, was to arouse public sentiment to the seriousness of the weed situation, and it is believed that this has been accomplished and the venture thoroughly justified.

## Local and General News.

**BASEBALL**  
The Douglassfield baseball team visited Newcastle on Friday evening and played a four inning game which resulted in a 3-3 tie.

**MILL SAW BILLS**  
We have just printed a large quantity of Mill Saw Bills, and can supply them to the different mills either singly or in quantities.

**PREMIER WENT THROUGH**  
A special C. N. R. train from Halifax, with Premier Meighen on board, en-route to Ottawa, on his return from Great Britain, passed through Newcastle on Sunday.

**ANNUAL PICNICS**  
The Annual Sunday School picnics of the Anglican and Baptist Churches were held last Wednesday. The former held their picnic at Flett's Grove, Nelson, and the latter at Pusville.

**SHAD FISHING SEASON OVER**  
The shad fishing season closed Monday after a successful season. This is the first season in which shad fishing has been permitted in the past four years. It extended from May 16th to July 31st.

**THE RICHIBUCTO FIRE**  
The work of appraising the loss of the local fire insurance companies in connection with the recent fire at Richibucto has been placed in the hands of E. L. Phillips of Halifax, who is there representing Halifax interests in the matter as well.

**BURKMAN WINS**  
Dartmouth, N. S., Aug. 4.—Charles Burkman, transcontinental hiker, won the twenty-five mile walk from Halifax to Dartmouth, part of the celebration of the 171st anniversary of this town's establishment, today. He led Jack Behan, another of the men who recently walked across the continent by 300 yards and Clifford Behan, Jack's companion from Halifax to Vancouver, followed. The course was around Bedford Basin.

**BE INTERESTED**  
The hired man who is interested in his work is not continually looking at his watch for fear he will work after hours fitting the stock for the show or doing odds and ends that help out. Such men are usually well repaid by the employer while the clock men deserves no favor. It pays to have the employers interest at heart.

**FIRE AT REDBANK**  
Mr. Wm. McKibbin's residence at Redbank was completely destroyed by fire last Wednesday evening. A stiff gale of wind was blowing at the time and only through the efforts of neighbors was the blaze kept from spreading. Most of Mr. McKibbin's furniture was saved. It is reported that no insurance was carried.

**PAINT NOW**  
A noticeable feature about town is the number of houses that are being newly painted this year. During the war with abnormally high prices demanded for all painting materials there was very little painting done. Prices this season have fallen away below war prices and householders desiring to make their premises as attractive as possible have been employing painters and using paint on a generous scale. Paint oil a year ago sold at \$3.60 per gallon, while the price today is \$1.20. Lead has dropped from \$25 to 18.25 per hundred pounds and the biggest reduction of all has occurred in turpentine. Within a year the price has tumbled from \$4.30 to \$1.60 a gallon, while ready-mixed paints have undergone an all round decrease of approximately 15 per cent.

**ECZEMA**  
You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c stamp for postage. Get a box; all dealers or Edman, Bates & Co., Limited, Toronto.

**BORN**  
At Miramichi Hospital, July 31st to Mr. and Mrs. Wilfred Reid, a son.

**PREACHED AT STANLEY**  
Principal H. H. Stuart, of Sunny Brae, N. B., who is attending the Vocational School, at Fredericton, spent the week end at his old home in Red Rock and preached for Rev. A. D. McCully in the Methodist Church at Stanley last Sunday evening.

**Millet Stewart Arrested For Ross Murder**

(Continued from page 1)  
At the eviction, Miss Torrie Tulippe, who enraged at her family being turned out went up stairs to where Ross was gathering things to take out, gave him a tongue lashing and then attempted to hit him with a stick. Ross simply picked her up and carried her down stairs and set her out side on the step and then resumed his work. Stewart had been half drunk all day and when on return to the Stewart house the Tulippe girl told of the scenes at the eviction and expressed her indignation. Stewart probably became half crazed through drink and jealousy of the man who had thus secured a footing right at his own door. According to the evidence of Sam Savoy, Fred Allain and Anthony Savoy he tried to get them to go up to the Tulippe farm and make trouble, but they refused to go. "Well, by G—, I will get a crowd" Stewart is said to have exclaimed and he got his express wagon and took Torrie and a lad named John Savoy with him. On the way to the Tulippe farm they met Fred and Joe Tulippe who were bringing their things away from the house after the eviction and carrying them to a brother-in-law's house where they went. The party got them to go back with them to the house. It was now getting dusk, probably about 8.30 or nine in the evening, and as they approached the gates to the Tulippe farm Stewart got out walking along behind. As the party drove by the gate they saw a dark form nearby which they took to be Ross and the two Tulippe men jumped out of the team and ran away. This left but Torrie and Young Savoy in the wagon and they had gone but 40 yards or so along the road when they heard two rifle shots fired, and at this young Savoy overcome with terror also jumped out of the wagon and ran away leaving the woman alone. She stopped the horse at the bridge about 30 yards beyond the point she was at when she heard the shots fired and in a minute or two Stewart came up to the wagon and exclaimed:  
"I shot him"  
She asked: "Shot who?"  
He replied: "It must have been Ross. Yes, I seen him fall. He'll never enjoy the Tulippe farm any way. He fired at me first with his revolver."  
Stewart put the rifle in the wagon and they drove back to his house. At that night he went about in a half drunken state and the next day asked the witness not to tell anything. When driving her later to the inquest he threatened her. He asked what she was going to say and she declared that she would tell the truth and he rejoined "If you do that you will get all that is coming to you."

Stewart was drunk Thursday and the jury decided not to hear him as a witness but to have him arrested. The jury empanelled for the inquest was as follows: John Stymiest, foreman, Dan. Gay, John Gillis; Augustin Robichaud, John Grattan, Robert Buchanan, and Walter McKnight.  
The preliminary hearing of Millet Stewart, charged with the murder of James Ross of Neguac will not take place for a few days yet. Police Magistrate Lawlor said no information

**LAYING SIDEWALK**  
The Public Works Department have a number of men laying a concrete sidewalk on Castle Street between the Town Hall and Mr. Chas. Maroney's store.

**FIVE ARRESTS AT TRURO**  
Five men have been arrested at Truro on suspicion of being implicated in recent robberies, burnings, and outrages in Pictou, and Colchester counties. The men are David Lyons, Munroe Bell, William Parks, John McNutt and Roy Creelman.

Mr. W. W. Cormier, who for the last 41 years, has been a popular jeweler in town, left this morning, to take an important position, with one of the largest business concerns, in his line, in Lewiston, Maine. During his residence here, Mr. Cormier made many friends, and the Advocate joins them, in wishing him every success in his new career.

**Listless, Peevish Girls**

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches, and breathlessness and heart palpitation will confirm that she is anaemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia, and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold upon the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail post-paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

had been laid before him and until he was remanded for hearing by the magistrate who issued a warrant he would be unable to proceed.

Stewart is now in Newcastle jail and is now in a very nervous condition. He was visited by his physician, Dr. John E. Park, Friday morning.

Stewart is one of the best known residents of the county. He is a successful fisherman. He owns a large lobster factory at Neguac. He is a justice of the peace and during the late war was very active in prosecuting under the military service act. He is a married man about forty-five years of age, and has four children. He was a visitor to Newcastle on the day of the tragedy, and has been drinking heavily of late.

In jail he strongly protests his innocence.
