The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**PARIS GREEN**

OTTAWA, August 3, 1908.

W. J. GERALD, Esq.,

Deputy Minister of Inland Revenue.

SIR:—I have the honour to hand you a report upon 150 samples of Paris Green, obtained throughout Canada in May of the present year.

With the single exception of No. 34285, purchased in Vancouver, B.C., these samples conform to the Adulteration Act. (Chap. 133, R. S. 1906.)

This article forms the subject of Bulletins 40, 42 and 88, published by this Department; and the following table enables a comparison of results to be made:—

Bulletin.	Year.	Samples Examined.	Genuine.	Doubtful.	Adulterated.	Percentage of adul.
40	1895	72	52	5	15	21.0
42	1895	174	155	3	16	9.0
88	1903	169	162	3	4	2.4
158	1908	150	149	0	1	0.7

It is apparent that a great improvement in the quality of Paris Green, as offered for sale in Canada, has taken place during the last 13 years.

I beg to recommend that this report be printed as Bulletin 158.

I have the honour to be, sir,

Your obedient servant,

A. MCGILL,

*Chief Analyst.*
