BRITISH STATESMEN OPEN NATION-WIDE CAMPAIGN FOR LEAGUE OF NATIONS

Lloyd George Sends Message to Meeting, in Which He Says Allied Governments Are Pledged to Ideals—Letter From King George.

London, Oct. 12.—A nation wide campaign in favor of the league of nations opened this afternoon under the presidency of Sir Horace B. Marshall, lord mayor of London, at the Mansion House. For the occasion the league of nations called together many of the leading British statesmen, including Herbert H. Asquith, lord Robert Cecil, John H. Clynes, former food controller, Earl Curzon of Kedleston, Andrew Bonar Law, lord Privy Seal and Sir Donald MacLean, national Liberal member of parliament. In addition all the foreign ambassadors and diplomats and men prominent in various walks of civil life—church men, laborites, industrialists, scientists and lawyers were present. Premier Venizelos, of Greece, Mr. Asquith, John Clynes and lord Robert Cecil were among the principal speakers.

David Lloyd George, the British prime minister, sent a message to the meeting, saying: "Civilization cannot longer afford to squander its time and treasure on the destruction of its own handiwork. The allied governments are pledged to the league's noble ideals. I appeal to my fellow countrymen to support international order and goodwill."

King George sent the following letter to lord Robert Cecil: "We have won the war. That is a great achievement, but it is not enough. We fought to gain a lasting peace, and it is our supreme duty to take every measure to secure it. For that nothing is more essential than a strong and enduring league of nations. Every day makes this clearer. The covenant of Paris is a good foundation. The league is the strength of the structure to build upon. This must depend on the earnestness and sincerity of popular support. Millions of British men and women, painfully conscious of the ruin and suffering caused by the brutal havoc of war, stand ready to help if only they are shown the way. In the knowledge of what already has been done, appalled by the difficulties which lie before us and a determination to overcome them—these we must spare no efforts to secure."

"I commend this cause to all citizens of the empire, so that with the help of all other men of good will, a curtain be drawn and a sure defense of peace, to the glory of God and the lasting fame of our age and our country, may be established."

The reading of the King's letter was greeted with cheering.

Mr. Asquith declared that the military and naval armaments of nations were being continued out of all proportion to the actual requirements for the preservation of order, and he hoped the members of the league would fulfill their pledges under the covenant purely as a duty.

Mr. Asquith added that with the people alone lay the initiative and ultimate responsibility. The alternatives before them were to release into the world old and new hostilities, or the provision of a definite way for the free spirit of mankind.

BEATTY TO CHANGE NAVAL POLICY

Believes Warship of Future Will Be Oil-Driven Submersible Battle Cruiser.

London, Oct. 13.—The political correspondent of The Evening News says there probably will be a great change in Great Britain's naval policy with the advent of Vice-Admiral Sir David Beatty as first sea lord in succession to Vice-Admiral Sir Rosslyn Wemyss, who resigned last week.

HANDLEY-PAGE PLANE VISITS NEW YORK

Circles Woolworth Building, Flies to Edison Home, and Then "Does" Fifth Avenue.

Mineola, N. Y., Oct. 12.—Completing its trip from Parboro, N.S., to Mineola, N. Y., by landing here today after a short "hop" from Greenport, where it had been forced to descend for lack of fuel, the great Handley Page bomber Atlantic, piloted by the veteran British aviator, Vice-Admiral Mark Kerr, immediately took off again to visit New York and Thomas A. Edison's home in New Jersey.

Carrying ten persons, the machine headed straight for New York, where it circled three times around the Woolworth building and then crossed the Hudson. At West Orange, N. J., Dr. M. R. Hutchinson, a passenger, and former associate of Mr. Edison, dropped a note, which read: "Salutations from the air from the greatest inventor in the world."

On its return the machine passed over Hell Gate at an altitude of 3,000 feet and then "did" Fifth avenue. Major Maurice Connelly of the American Flying Club.

EAGLE BOATS TO HUNT MISSING BALLOONISTS

Washington, Oct. 13.—Two eagle boats stationed on the great lakes have been ordered by the navy department to proceed to Tobermory, Ont., to search for Capt. Harold Damman, army aviator, and his aide, who were being missing for several days. Their balloon was found in Lake Huron some days ago, after they had started in a recent endurance race from St. Louis.

Officers of the eagle boats have been instructed to search carefully Lake Huron and send parties ashore on various islands in the hope of finding the missing aviators. The action was taken in response to a request from C. B. Damman of St. Louis, Mo., brother of Capt. Damman.

The former crown prince in exile on the island of Wieringen taking his eldest son, the former Prince William of Prussia, out for a ride on his motorcycle. The former crown prince and his son are the only members of the royal family who are still in the world. The prince is seated on the motorcycle and is almost entirely hidden by his father.

PROVINCE-WIDE NOMINATIONS FOR ONTARIO LEGISLATURE

Only Four Acclamations—In Other Ridings Meetings Pass Off Pretty Well as Expected.

Nominations for the Ontario legislature took place yesterday in the various constituencies. Reports indicated that the expected was generally the rule, there being no surprises. Four members were declared elected by acclamation, they being Hon. H. J. Cody, minister of education, in Northeast Toronto; W. D. Black, Conservative sitting member for Addington; Briz Gen. A. E. Ross, in Kingston, and J. R. Cook of North Hastings. All are Conservatives. A new feature, and one which will give the election a decided air of uncertainty, is the invasion of the field by the United Farmers of Ontario, who have 70 candidates in the field. The labor candidates are also unusually strong. Several of these have affiliated with the U.F.O. Very few have come out as straight soldier candidates, but many returned men are found among the candidates of all parties. In several constituencies there are five or more aspirants for legislative honors. Reports of nomination meetings and a list of the candidates officially up for election will be found on pages 4, 5 and 6.

ALLEN STABBED IN SIX PLACES

Macedonian in Critical Condition Following Fight Over Cigaretts.

Dimitri Manbroff, aged twenty-seven years, living at 2938 St. Clair avenue, is lying in the General Hospital in a dangerous condition with six knife wounds in his body. Manbroff was fighting with another Macedonian, Keels and Hiron streets at ten o'clock last night, and during the altercation Manbroff was stabbed.

Nauma Gugla, aged 24 years, 478 Indian Grove, is held in custody on a charge of wounding. The police of Keels street station stated last night that the fight was the result of a quarrel over the price of a package of cigarettes.

Manbroff's brother, a clerk in the store of Dimitri Giacomis, 1157 Keels street, is alleged to have sold Gugla cigarettes Sunday at 15 cents a package. Yesterday Gugla purchased a package and was charged 15 cents for it. He refused to pay and struck the clerk. The clerk told his brother, Dimitri Manbroff, and Dimitri set out last night to have revenge for the assault on his brother.

Came to a Clinch. He met Gugla north of the subway on Keels street, and they started to fight with their fists. Gugla was getting the worst of the fight, and when he came to a clinch with his assailant drew a pocket knife. Manbroff was stabbed under both armpits, twice below the ribs, and twice in the back. Manbroff struggled with Gugla until he collapsed on the sidewalk from loss of blood.

Constable Pennington was summoned and had the wounded man removed to the office of Dr. Gardiner, Keels and Annette streets. After rendering first aid, the doctor ordered the removal of the man to the General Hospital. Manbroff's condition is regarded as very serious. At present Gugla is being charged with wounding.

ALLIED WARSHIPS BEATING THE LETTS TO DEFEND RIGA

For Five Days, Incessant German Attacks Have Been Beaten Off in Attempts to Force Duna River—Situation of Lettish Troops in City is Desperate.

Copenhagen, Oct. 13.—The Letts have recrossed the Duna river in the direction of Mitau and occupied the suburbs of Riga on the left bank of the river, according to a telegram to the Lettish press bureau from Wenden, Livonia, 50 miles northeast of Riga.

The despatch adds that the cabinet, the national council and other government officials went to Wenden Friday from Riga but that the co-ness of the higher Lettish military officers partly relieved the situation at Riga, and the premier and minister of justice have returned there.

A military convention has been concluded with Estonia, the effects of which already are to be seen in the assistance of the Estonians at Riga, the despatch says.

Copenhagen, Oct. 13.—Allied cruisers are aiding in the defence of Riga against German attacks which for five days have been incessant and stubborn, according to a communication issued by the Lettish foreign office Sunday. Riga is being bombarded by the enemy. The communication follows: "For five days the Lettish troops before Riga have been engaged in bitter but incessant stubborn German attacks."

The Germans are bombarding the unprotected town of Riga. Cruisers belonging to the allied powers are participating in the defence.

The Germans repeatedly have been repulsed in attempts to force the Duna estuary.

The situation of the Lettish troops in Riga is desperate, according to despatches from Helmsingfors. The German and Russian troops are expected to force the passage of the Duna river, which separates the main body of Colonel Avalloff-Bernhardt's troops from the main portion of Riga at any moment. The old town of Riga and the port have been greatly damaged. It is stated that many civilians have been killed or wounded.

There has been no indication of an advance east of Riga by the German forces, and it seems probable the taking of the city will terminate the offensive for the time being. The loss of 20,000 Lettish troops at Libau was a new development in operations along the Baltic but, with the exception of the reference made to it by Colonel Avalloff-Bernhardt, it is not known as to the success of the movement.

In the meantime, the town of Yamburg, about 75 miles southwest of Petrograd, has been taken by the Russian northwestern army.

Position is Obscure. London, Oct. 13.—As far as latest reports disclose the situation, Lettish troops still hold the eastern part of Riga, on the right bank of the Duna, but there is no news later than Saturday, and the position is obscure. All reports concur in stating that the German Avalloff-Bernhardt's troops have occupied Thorenburg, the western part of the city, and are bombarding positions east of the river. Nothing further has been learned regarding the reinforcements which, it was said, were landed from British ships in a portion of the Baltic coast, according to the aid of the Lettish statement attributed to General Vladimiroff in the despatch to the Mail, implies the belief in Royal circles that the German attacks on Riga was a part of a scheme to advance on Petrograd, which is regarded to have been frustrated by General Yudenitch's push northward.

Rushing Reinforcements. Berlin, Oct. 13.—Important troop movements are occurring in the direction of Riga, according to a telegram received here from Basle. Estonian troops are said to have left Segewold for Riga, thirty miles distant, and Lettish reinforcements and other Estonian detachments are reported to be en route to Libau on board a transport for the purpose of joining Lettish forces which have been landed there from British vessels.

Berlin, Oct. 13.—An official statement is published denying formally the allegation in the Lettish appeal to the entente that German troops in the Baltic provinces have done everything possible to support Bolshevism and have attacked the Letts from the rear. The German twister declares this statement is contrary to the truth and is an abhorrent measure of agitation against Germany.

Germany has not broken the peace, it is declared, but on the contrary, has done everything to enforce the terms of peace in the case of misled German troops in a portion of the Baltic provinces. It is a matter of record, it is declared, that the Baltic troops (Germans) have not been the attackers, but that their return to Germany has been delayed and hindered by hostile acts of the Letts and Estonians.

The statement avers that it is the Letts who are assisting Bolshevism in every possible way, including measures to prevent Russian troops reaching the front against the Bolshevists.

Eastern Adventure in Minds of Berlin Military Reactionaries Since First of Year. London, Oct. 13.—A despatch to The Manchester Guardian from Berlin reports that the Russo-German intrigue is of very long standing, an eastern adventure having been in the minds of military reactionaries in Berlin since the beginning of the year. It will be remembered, the despatch states, that the far-reaching possibility of such a measure, almost tempted independent action on the part of German armies in the east at the critical moment of the ratification of the peace treaty in the national assembly at Weimar.

For months, the correspondent in Berlin has been going on in Germany, not only for the part of "iron division" and other German detachments, but also for normally Russian forces. These officers, often stationed only in uniform, are a familiar sight in Berlin and elsewhere in the country. Recruits, largely drawn from South Germany, are continually passing thru by railway. Many of these wear Russian uniforms, but most of them are in the German field with Russian shoulder straps and cockades.

In addition there has been an organization of a militia or landwehr among residents of the Baltic provinces. Youths have been induced to enlist partly by the romance of military adventure and partly by offers of citizenship in the proposed new state and land upon which they may form agricultural colonies. The main argument has been the distress and anxiety awaiting them in Germany if they were demobilized.

Their reluctance to return home is intelligible, the more so because the intense political propaganda by their superiors is directed as much against republican Germany as against Soviet Russia. The independent social newspaper Freiheit persistently declares that this army retreats to East Prussia a monarchist and militarist, and is seriously to be feared.

THANKSGIVING IN THE COUNTRY. When did we have so fine a fall? The leaves only beginning to turn: the maples have some of them taken on a base of red and gold; but the firs, still have green of oak stand out in a dark green foliage. Down at the eastern end of the province the leaves are falling and coloring fast.

If the farmers all up this way have got in good fields of all wheat and the new plants are up with their lovely green blades of the third week from planting. Other fields are still farther ahead. In the Ontario farmer has got in fall wheat under more favorable terms than those of the preceding three years, much more so than of these years in his fall planting.

There is a good chance of the crop yielding thirty-five days or more over the work, the foundation of a splendid planting acreage next spring, for the coming spring wheat and other grain. Let every farmer go to his plowing before everything else.

The dairy farmers are all in good shape, more so than ever for everything in milk and butter and milk cows that they care to sell. And those who are breeding live stock for meat have every encouragement to drive ahead in a big way.

If the farmer didn't eat many a sight to ten dollars yesterday for Thanksgiving, he got a lift to his enterprise and may yet see how much money there is in the poultry and of farming in Ontario.

The farmer is doing so well that he ought to buy freely of the Victory bonds that the new minister of finance, Sir Henry Drayton, is laying before him as a legitimate investment.

LIBERAL CAUCUS ON G.T.R. PURCHASE At Meeting Today May Decide to Attack the Government Agreement. Special to The Toronto World. Ottawa, Oct. 13.—The Liberal members of parliament will caucus tomorrow on the Grand Trunk legislation as the resolution dealing with it cannot come up in the house before Wednesday. They are not disposed to go on record as opposed to public ownership, but they are looking for a position of advantage from which to attack the agreement made by the government.

One proposal is to discontinue the house upon an amendment providing that the award of the arbitrators shall not be binding unless and until the same is ratified by parliament.

Individual opposition members tonight expressed the view that after bringing down all the information available and a general discussion of the merits of the railway proposals in the house, the government should allow parliament to defer final action until the regular session which should be called before the end of January or early in February. They claim that the government early in the past week intimated that the session was practically over and that legislation of such great importance should not be introduced with the intention of putting it thru this session, more particularly as Sir Alfred Smithers must secure the consent of the Grand Trunk board of directors.

It is regarded as unlikely that the government will listen to any suggestion that final action should be deferred until the next session and the Grand Trunk bill will be pressed thru both houses before prorogation.

WILSON'S CONDITION DAILY IMPROVING Physician Has Abandoned Issuing of Usual Formal Nightly Bulletin. Washington, Oct. 13.—President Wilson's condition was described as "about the same" in a bulletin issued tonight by Rear-Admiral Grayson, his personal physician. It was added by Dr. Grayson in an informal conference with newspapermen, that a gradual, though slight, improvement was being noted in the president's condition daily.

President Wilson's condition was described as about the same by Rear-Admiral Grayson, his personal physician, tonight. It was added that a slight improvement was being noticed daily. Because of the gradual but only slight change in the president's condition, Dr. Grayson abandoned the custom followed during the last two weeks of issuing a formal bulletin at 10 o'clock each night.

Lapointe to Start Campaign in Quebec East on Thursday. Ottawa, Ont., Oct. 13.—Ernest Lapointe will start his campaign in P. for Kamarraska in the hands of the speaker of the house on Wednesday and on the following day he will open his campaign as the Liberal candidate in Quebec East for the seat made vacant by the death of Sir Wilfrid Laurier. Armand Lavergne will probably contest the constituency on behalf of the Nationalists. The election is set for the 27th inst., with nominations one week earlier.

BELGIUM'S RATIFICATION IS RECEIVED IN PARIS. Paris, Oct. 13.—The secretary of the peace conference today received a copy of the peace treaty ratified by King Albert of Belgium.

The international agreement regarding aerial navigation was signed this afternoon by the representatives of thirteen states, among them Bolivia, Brazil, Ecuador, Panama, Portugal and Uruguay.

AUSTRALIA FACES DEFICIT FOR YEAR

Melbourne, Australia, Oct. 13.—In the federal house of representatives today, Mr. Forster, minister without portfolio, in introducing the budget said that the total revenue for 1918-19 was \$44,075,000. The expenditure was over \$45,000,000. The total war expenditure has nearly \$311,500,000, of which \$45,000,000 was paid out of revenue. The estimated deficit for 1919-20 is \$1,320,000.

The public debt of the Commonwealth and states amount to nearly \$708,000,000.

Mr. Forster announced there would be new taxation, but old age and invalid pensions would be increased from 12 1/2 to 15 weekly.

The government's shipping program provides for twenty steamers of 6,000 tons, of which three have been launched and four vessels of three thousand tons, all of which are being built. The Australian government, he said, has contracted to have five steamers of 12,000 tons constructed in England. The net earnings of the Commonwealth line amounted to \$3,500,000.

COL. KELLY EVANS IS FOR LIBERTY

Soldier-Conservative Upholds His Tenets to Enthusiastic Audience.

A well-attended and enthusiastic meeting in the interests of Lieut.-Col. Kelly Evans, Independent Conservative candidate for seat 5, North-west Toronto, was held in the hall of the Danforth club, last evening. J. K. Code occupied the chair and the candidate in his opening remarks dwelt at some length on the referendum.

There is a trait in the human race, said the candidate, "that has come down thru all the ages, and that is persecution. We read of the persecution of the Jews in the early Christian era and persecutions in England, and the New England laws. These persecutions were carried out in the name of religion. Wherever persecution has taken place the persecuted have triumphed. The early Christians in the Catacombs were spread over half the globe. Where are now all the ghoulish prohibitive laws of olden times? They are swept away," said the speaker.

Quoted Bishop. The same words appeared in the Sunday paper, and now in the year 1919 history repeats itself and a wave of prohibition sweeps across the whole continent.

The clergy used their pulpits as secular rostrums and advised the people in the way they should vote. It is a singular fact that Monday is election day and on the Sunday preceding the clerical gentlemen will issue their thunder from the pulpit. The secular authority should not be taken over by the clergy.

The law at the present time is being treated as a joke and bitterness and hostility is being engendered among the people. Liquor is coming in from Montreal and the law is being evaded, both in Canada and the United States.

Lieut.-Col. Kelly Evans provoked much amusement among the audience when he described the method adopted in the west in the manufacture of ardent spirits. The common tea kettle, porcelain-lined, is largely used and the quantities are being shipped to western points. Concluding his remarks on the liquor question, the speaker said: "I am not in favor of prohibition, but I am in favor of reasonable liberties for the people."

Regarding Fisheries. Regarding fisheries of the province the speaker said the matter has been neglected in almost every session of both the Liberal and Conservative parties. Royal commissions have sat and reported, but never real serious conditions in England were being gradually brought toward normal and that the opportunity presented by the present session should be taken to allow between growers and manufacturers to be of great benefit.

Regarding the Cotton Industry. Mr. J. H. Herbert Dixon of Manchester, head of the British delegation, declared in an address in response to welcome that the cotton industry in England was being gradually brought toward normal and that the opportunity presented by the present session should be taken to allow between growers and manufacturers to be of great benefit.

FOUR CANDIDATES IN S. WENTWORTH

In North Riding There Are Two—U.F.O. Against Dr. Raspberry—Labor Fusion.

Hamilton, Ont., Oct. 13.—Four candidates will face the provincial election in the North Riding of the province. In the South Riding, the following were nominated today: South Wentworth: J. T. H. Regan, Liberal-Conservative; Dr. B. E. Thompson, Salusset, Liberal; Wilson A. Crockett, Barton, Independent Labor Party; and Frank Campbell Biggs, U. F. O. and Labor, Beverley.

The nominations for South Wentworth were held at Lee's Hall, Mount Hamilton, Joseph Harrington, returning officer, presiding. J. Ham Regan said that it was the fifth time he had appeared before the electorate of South Wentworth and in giving an account of his stewardship he could say that the Heaton government had been a splendid record, one of its monuments being Hydro power.

Speaking for Dr. Thompson, Daniel Regan said the large number of candidates was only one indication of the dissatisfaction with the Heaton government.

Figures regarding the composition of the government showing its personnel to comprise lawyers, bankers, merchants and manufacturers, were given by Candidate Crockett. Farmers and labor had received but little consideration he claimed.

The credit for Hydro power was due to Sir Adam Beck and not to Sir William Heaton, he asserted.

Payment of gratuities to soldiers from war indemnities and surplus profits was one of the planks of Candidate Crockett's platform. The nominations were held at Lee's Hall, Mount Hamilton, Joseph Harrington, returning officer, presiding.

Lodge Todmorden, Sons of England, held a well-attended social and eulogic party in Plymter's Hall, Danforth avenue, last evening. The program was headed by the "white rose" degree was conferred at a recent visit on St. George lodge, No. 21, when seven candidates were initiated.

Several important land sales on the Vaughan road heights and Eglinton avenue took place Thanksgiving Day when several "put-out" parties motored to the heights.

Some parcels of land in the residential section also changed hands at good prices. The land on which the Presbyterian Church stands will not be sold, the grade methods of construction being the offer of a downtown.

Edwin Lowe, of Earlscourt, employed in the Robert Simpson Co.'s wall-paper department, was taken sick while at work yesterday, and was unconscious for several days. He has now been removed to St. Michael's Hospital for special treatment.

Thanksgiving Day was duly observed in the Earlscourt district, all sports indulged in by the young element. Earlscourt gardens received a clean up by their owners preparatory to the winter season. Dances were given at the Belmont Hall, the veterans' band furnishing the music.

Under the auspices of the Men's Club of St. Clair Methodist Church, Sir Adam Beck will give an address in this church this evening. He will review the work of the Hydro system in Ontario. Rev. Dr. Louis Barber, pastor, will preside.

Through the east end yesterday Thanksgiving Day was observed as a crowded Russell Theatre audience. Bands and music were present during the evening. The program was headed by the "white rose" degree was conferred at a recent visit on St. George lodge, No. 21, when seven candidates were initiated.

WOODBRIDGE FAIR BEATS RECORD

Twenty-seven Thousand People Atten Best Show in Years.

Woodbridge, Oct. 13.—Twenty-seven thousand people from all over the county attended the local fair today. Ideal weather, an unusually large number of entries in live stock classes, and the most exciting trotting race put on at any fair in the province all helped to make the event a record in the history of the Agricultural Society. Even the midway was thoroughly enjoyed and well patronized by town and country visitors alike.

Keen competition obtained in every class of live stock and the strongest sheep exhibit on record, 250 entries, was a feature of the ring. Woodbridge Citizens' Band entertained the crowd with music selections during the intervals in the program before the grandstand.

The named race, for which money was paid in prizes, resulted as follows in all three heats: 1. Ferguson's Jimmy B.; 2. Harvey's Baronet; 3. Overland's Jack Canuck.

Several important land sales on the Vaughan road heights and Eglinton avenue took place Thanksgiving Day when several "put-out" parties motored to the heights.

Edwin Lowe, of Earlscourt, employed in the Robert Simpson Co.'s wall-paper department, was taken sick while at work yesterday, and was unconscious for several days. He has now been removed to St. Michael's Hospital for special treatment.

Thanksgiving Day was duly observed in the Earlscourt district, all sports indulged in by the young element. Earlscourt gardens received a clean up by their owners preparatory to the winter season. Dances were given at the Belmont Hall, the veterans' band furnishing the music.

Under the auspices of the Men's Club of St. Clair Methodist Church, Sir Adam Beck will give an address in this church this evening. He will review the work of the Hydro system in Ontario. Rev. Dr. Louis Barber, pastor, will preside.

Through the east end yesterday Thanksgiving Day was observed as a crowded Russell Theatre audience. Bands and music were present during the evening. The program was headed by the "white rose" degree was conferred at a recent visit on St. George lodge, No. 21, when seven candidates were initiated.

LABOR'S PLATFORM

To Back Hydro—J. A. McFarlane and J. Dixon Also in West Hamilton Field.

Hamilton, Ont., Oct. 13.—Nominations for West Hamilton, in the court house today, were featured by Walter R. Rollo's clear-cut definition of labor's platform. Rollo also drew attention to the nomination to stand behind the Hydro radicals and public ownership of the Hydro system. Rollo said that the minimum wage for unskilled workers, mothers' and soldiers' pension, and the unemployed, were the four main planks of the labor platform.

The nominations were called at twelve o'clock by Hedy Smiler, returning officer for the west riding, and the following candidates were nominated: John A. McFarlane, Controller; J. Dixon, Controller; J. H. Glover, Controller; Wm. Clarke, Controller; George C. Hall, Controller; Arthur H. Hall, Controller; Harry Harford, Controller; Arthur Needham, Controller; M. M. Fitzgerald, Controller; and J. J. O'Leary, Controller.

Following the nominations, each candidate made a statement. Mr. McFarlane said that the Hydro radicals were the only ones who had a plan for the Hydro system. He said that the Hydro system was a public utility and should be owned by the people.

NEAREST HAMILTON

Halcrow and Landers Furnish Fireworks—Capt. Fitzgerald Also a Contender.

Hamilton, Ont., Oct. 13.—Controller George C. Hall, L.P.P. candidate, and Lieut. Sam Landers, Independent Labor-Soldier candidate, were the only party nominees at the East Hamilton nomination held in the court house here at noon today, but if the applause could be taken as a guide, the chairman endorsed labor representative carried off the honors by a considerable majority as he outlined the platform of the labor party. Lieut. Landers was greeted with a cheer, but it grew into an ovation when he said that the labor party should be provided to every person who is able and willing to work.

With M. M. Fitzgerald, returning officer for West Hamilton, presiding, the following were nominated: Lieut. Sam Landers, Controller; George C. Hall, Controller; Wm. Clarke, Controller; Arthur H. Hall, Controller; Harry Harford, Controller; Arthur Needham, Controller; M. M. Fitzgerald, Controller; and J. J. O'Leary, Controller.

WE WILL NOT OPPOSE ARMENIAN REGIME. Turkish Nationalists Have Decided to Permit Present Government to Continue.

Sivas, Asiatic Turkey, Sept. 30.—The untimely death of Major-General Halcrow, which the Associated Press correspondent accompanied, arrived at Sivas a fortnight's trip along the railroad, 1,100 miles from Constantinople to Sivas. The trip was made by a motor car on the Bagdad railway, and an automobile ride of 250 miles north east thru Kurdistan and Armenia, stopping at Darbekt, Malatia and Sivas. The trip was marked by no hostile attitude on the part of the bandits and cordial receptions were awarded the mission all along the route.

Mustapha Kemal Pasha, the nationalist leader who called the congress of delegates, which has broken with the government at Constantinople, said in his interview with the correspondent: "We have just received news of the note of President Wilson to the sultan regarding future attacks on Armenia. The Nationalists regard the business of the Armenian massacre as a regrettable affair, on which time will show the cause. We will oppose any plan of the sultan to organize such a state, suggest abandoning the idea of re-constituting ancient Armenia."

The members of the mission are leaving here for Erzurum, Erivan and Erivan, where they will strike the railroad to Sivas. It is expected that the recommendations of the mission will make it possible to annul the terms of the peace conference on the subject of Armenia. The members of the mission have been accumulating voluminous notes, on various details of the problem.

Apparently the Nationalists do not wish to destroy the Armenian republic, seeking to bring about conferences with its advisers. The Nationalists have apparently made up their minds, in case it is decided to permit the present Armenian government to continue, not to oppose the formation of Armenia of sufficient territory to ensure the formation of a prosperous state, with a port to the Black Sea, instead of being landlocked as the Armenians are on the other hand, lay claim to the territory of Erivan, in the Russian Caucasus to Adana, and the province of Cilicia, and others, recognizing the impossibility of securing the territory to organize such a state, suggest abandoning the idea of re-constituting ancient Armenia.

Feathers Such Smart Trimmings for the Winter Hat

Are represented by so much that is new and chic at the Millinery Trimming Counter, with due stress upon those fashionable favorites, coque feathers and blondine.

FASHION relies to a large degree upon feathers to give the picturesque downward sweeping lines that counter-balance the upward trend of the brim in the modish hat.

And not for many seasons have feathers of all sorts enjoyed such a vogue, a fact that the woman who trims her own hats should "read, mark, learn," for these new feather mounts and bandeaux are so easy of manipulation, and the result is extra ordinarily smart.

Back on the very crest of the fashionable wave come coque feathers, glossy and gleaming, with their iridescent green and black. They have immense chic, arranged after the style of the sketch—like a bersagliere plume, while drooping over the hair at the back, or shooting out from the brim of a Breton sailor, they can be very attractive. Coque mounts are 75c to \$1.75.

Blondine, those soft, narrow, slightly curled feathers of the South American ostrich, strike one of the very new notes of the season. They can be had in mounts very like the coque mounts, at 50c to \$3.50; in pompons at \$1.95; in bow-knot effects at \$2.75, and in big sweeping bandeaux, the ends of which are arranged to droop at the side, at \$4.50.

La Mode has lavished, too, no small measure of affection upon vulture feathers—larger than blondine and charmingly graceful. They can be had in mounts of various shapes and sizes at 95c, \$1.00 and \$1.75.

Vulture bandeaux, extremely smart for small, round hats, in black only, are \$1.95.

Black wings are to be seen in tremendous variety, narrow and wide, short and long, at \$1.75, \$2.00, \$2.25 and \$2.50.

Metallic Brocades From Paris

Magnificent fabrics in wondrous designs, gleaming with gold and silver, and platinum threads, radiating light from their every supple fold.

LIBERALLY, indeed, Paris has poured out the wealth of her imagination and her taste on these materials of dazzling splendor, of entrancing suppleness. The garments of mediaeval queens were no richer, the robes of Eastern potentates no more wonderful, and assuredly they had not half the delicacy of texture. Almost they seem too wonderful to be the work of mortal fingers. They carry one back to the fairy tales of our childhood, to the flower-embroidered robes of gold and silver worn by the fairy princess, to the gown of flower petals and thistle-down, dipped in moonshine and hoarfrost, woven by skillful fays for Queen Titania.

And all this for the adornment of Milady of 1919! Think of the sumptuous cloaks they will make, the resplendent gowns for the dances and dinners, the receptions and functions which promise one of the gayest seasons that has been seen for many a long year. The designs are little less remarkable than the glinting, gleaming richness of the weaves.

Prickly chestnut balls and leaves worked out in navy or brown or green on a gold tinsel ground are artistic and novel as they can be in a charmeuse and tinsel. Large roses and little arum lily leaves brocaded in silver on blue or white and in gold on black charmeuse make another design of distinction beyond the ordinary. Big, flat metallic roses, set in rippling silver waves on a sea of blue, or rose or mandarin charmeuse makes a material of fabulous charm for cloaks.

In such the same beautiful hues, is the new damas-metal warp print—a silk and metal brocade, upon which colorful flowers have been printed—a gorgeous material for luxurious fur-collared evening wraps, or even for linings. Velvet brocaded in a small design or a metallic ground—turquoise on gold or black on gold makes a fabric of regal splendor for either cloaks or dresses.

Like a waterfall seen by moonlight is a platinum and silk brocade, with black or navy ground. Supple as chiffon, it looks almost liquid with the play of light across its gleaming surface. "Eblouissante" (dazzling) is the poetic name that exactly suits a metallic tissue with a satin back, the mandarin cerise, emerald or turquoise of the back gleaming through the metallic front with wonderful effect.

Beautiful things, too, are done with metallic brocades on filmy backgrounds of the ultra modish nion and georgette. Extremely charming, for instance, are feathery sprays of mimosa, and leaves in gold on black, in silver on orchid or emerald. Gorgeous as the material that fashions a mandarin's robe is a multi-colored tinsel brocade printed in color.

Chiffon Velvet Brocades, Both Sumptuous and Supple In designs magnificent as those of the Italian Renaissance, ornate as those of a Florentine damask, they yet have that touch of delicacy that is so fascinatingly modern, for they are woven on filmy grounds of plain or crepe nion, which gives a high relief to a design that acquires a delightful sheen as it falls into a myriad supple folds.

Not only elaborately handsome patterns, but simple little sprays of roses and wild geranium are treated in the same way, so that their velvet flowers seem caught against a web of fairy gossamer. The colors are delightful—that sunset pink—like a very deep apricot—which is the sensation of Paris for evening wear, mandarin, orchid, turquoise, emerald, French blue, jade, buff, as well as the darker brown, green and black.

Crepe georgette bossele, on which silk flowers are embossed with much the same effect, is obtainable also in pastel shades. Opulent looking lining silks in seagull and floral designs, with a futurist brilliance of color, are also among these treasures from Paris. Many of these materials are in exclusive gown or cloak lengths, 32, 36 and 40 inches wide, and range from \$7.50 to \$40.00 a yard.

THE T. EATON CO LIMITED

For the Dances and the Parties That Are Coming

Charming Little Evening Frocks That Reflect the Spirit of the Mode, Show the New Bouffancy of Skirt, Yet Are by No Means Expensive.

A FROCK that is simple, but that meets the gaiety of the occasion, is such a desirable addition to one's wardrobe. And the daintily picturesque confections of taffeta and net, which you'll find on the Fourth Floor, answer most delightfully that description.

They have all that the mode enjoins in flounces and tunics of net, and little plain bodices, but except for a flower or two and end of fluttering ribbon, or a hint of silver lace, they are devoid of ornament, and are obtainable in all the pretty pastel shades of blue, green, rose and pink, as well as black and white.

An effective little frock of faint rose taffeta with puffed tunic caught up with a trail of flowers, and flat draped bodice adorned also with flowers and silver ribbon has a charming feature in winged tulle sleeves edged with silver. A similar model can be had in blue. Price, \$35.00.

The new sunset pink—so delightful a color for evenings—is seen in a taffeta dress, the skirt caught up in a big puff on one side with a spray of mauve flowers and ends of lavender velvet ribbon. The interesting color contrast is emphasized also in bands of ribbon over the shoulders edging the white net sleeves and crossed at the back of the girde bodice. Also in pink, and blue. Price, \$40.00.

Panel of silver lace front and back gleaming frostily out from between fluffy white net flounces, and silver lace edging to the gathered net bodice, make a very girlish looking frock. Should you prefer color you may have the same design in pale green or lavender or black. Price, \$45.00.

Apricot taffeta fashions a quaint looking frock—the skirt caught up in picturesque puffs at the sides with little sprays of flowers, and the straight draped decolletage girdled with silver and having little shoulder cap sleeves of white net, silver edged. Price, \$47.50.

A mauve net tunic cut in many points, the edges gleaming with silver, over a tinsel cloth (artificial silk) foundation gives the new movement to a frock with a girde bodice of silver lace and shoulders and apologies for sleeves of mauve net. A wreath of pink roses and catnip encircles the waist. Also in blue and green. Price, \$50.00.

A delightful black dress, net over taffeta, strikes a note of stateliness with its net overskirt held out by a pinked ruching of taffeta and its girde bodice suspended by shoulder straps of old blue ribbon, the ends of which flutter down to the hem at the back. Angel sleeves edged with taffeta ruching are also most distinctive. Price, \$60.00. —Third Floor, James St.

RUSSIA ANGERED BY FAKE RELICS

Remains of Saints, Supposed to Be Non-Decomposable, Found to Be Cardboard.

Kovo, Lithuania, Oct. 12.—The relics of the Russian saints are being opened by the monasteries of soviet Russia, in the presence of large popular assemblies. The people are shown that what they considered to be the non-decomposable remains of their saints are really imitations of human bodies.

The monks, believing them to be non-decomposable relics. Incidentally, the pilgrims contributed money to the church. This was the largest source of income of the Russian church. Relics Stuffed With Cotton. The Bolsheviks decided to expose the real state of the relics. In the church of high dignitaries of the church and of representatives of the people, the first examination took place in Voronezh. Since then the movement has been spreading like wildfire. The relics of St. Mitrofan, in the monastery of his name, were opened and found to be an imitation of a human body stuffed with cotton. The inside of the figure was stuffed so much that the saint had a small head and an enormous body. The Archbishop of Voronezh, who was present at the examination, admitted that "it is, of course, very sad to look at such a thing." Regarding the relics of St. Tikhon Zolensky, the archbishop said: "I especially believed in the relics of St. Tikhon. They stood out with

such clearness from the coffin that one had the perfect impression that in the coffin there was a man who had just been put there. When I received the information from the abbot of the Zolensky monastery of what was really found I was very grieved, because it was the general conviction that the relics of Tikhon were fully preserved. The relics were found to be of cardboard, containing some bones. Deception Arouses People. The effect the disclosures had on the common people was overwhelming. Here is the statement of one Constantine N. Etchelokov, who was present at the opening of the relics of St. Mitrofan: "Until the examination of the relics I, as a believer, remained in the church with my hot oil, in spite of the bitter cold, and felt for in my heart. When the relics were opened and the deception revealed all the faith I had vanished and gave way to a sense of disgust and contempt for this barren deception." In April there was a conference of workers' delegates in Tver. When the business of the meeting was over the question of the relics was taken up.

There is a famous monastery near Tver. A motion was made at the conference to examine the relics. Representatives of the church were invited to the debate to present their case. Three priests appeared and argued against the proposal. Vote to Open Relics. There followed a heated discussion. As many as 40 delegates wanted to speak on the subject. Finally the matter came to a vote. All the deputies except four voted in the affirmative. On April 9, there were opened in the presence of the population the relics of St. Vasilii and St. Constantine in the Cathedral of Yaroslavl and the relics of St. Theodor in the Spasski Monastery. They were found to consist of bones, cotton, coal, splinters, etc. On May 18 there took place the examination of St. Michael the Pious and of St. Arsenii, the miracle worker, in Tver. There were present representatives, chosen by the people, for every 300 inhabitants. Priest Denounces Inner Ring. A great sensation was caused by the opening of the relics of St. Alexander-Svirsky, one of the most eminent saints. It caused M. I. Pomin, a priest, to leave the church and address the following letter to the Bishop of Olonetz and Petrozavodsk:

"The relics of Alexander-Svirsky, which were disclosed to be a plain figure of wax, showed the blasphemous exploitation of the common people by a group of selfish persons. You, high priests, could not be ignorant of this, but you carefully hid it from us, the common people, and even encouraged it by your own examples, encouraging it by your own examples of the worship of idols in place of saints, and preaching. You purposely darkened the eyes and the minds of the people, together with the uninitiated monks, who which served as milkers of the people for those who knew the truth, are now placed in the position of a blind man who suddenly has his sight restored by a stroke of the sun. "We to you when the enlightened people rise and move on you in terrific anger, demanding an answer and an account, which you will be unable to give."

MYSTERY MESSAGE FROM U. S. STEAMER

Reports Death of Captain and Mate of Schooner, and Asks for Police Boat.

Boston, Oct. 13.—The death of the captain and the mate of the British schooner Onato, and the abandonment of the vessel at sea, were reported in wireless messages picked up at naval radio stations today. The messages, which came from the American steamer Sarcozie, indicated that the other members of the crew were taken off by the steamer last Thursday, and asked that a police boat meet the Sar-

cozie on her arrival in New York from Rotterdam.

How the captain and mate met death was not disclosed. The request that the police boat be sent to a suggestion that they might have been killed in a mutiny. The messages did not say what caused abandonment of the schooner. The position where the crew was taken off was given at latitude 47.04 north, longitude 28.45 west, or about 300 miles east of St. John's, Nfld.

The Onato, a 105-ton schooner, arrived at Oporto, Portugal, on Aug. 25, from Burni. It is supposed that she was returning to a Newfoundland port.

PARKDALE CONTEST WILL BE LIVELY

Col. W. H. Price and Dr. John Hunter Only Two Nominated for Riding.

The nomination in Parkdale riding started as calmly as a summer shower, but ended in a fair size whirlwind. The unique spectacle of one candidate butting his opponent was speaking, produced a lively background to the proceedings.

Only two candidates were nominated, Col. W. H. Price, a former member, and Dr. John Hunter, who is running as a prohibitionist, pure and simple.

Dr. Hunter said he pledged his word to his Maker and the people of Toronto to carry out his prohibition platform. For five years he has been in every temperance campaign.

A gentleman asked Dr. Hunter how he would reconcile his attempt made from the platform on which he was standing, that he endorsed Hartley Dewar as his leader.

Dr. Hunter replied that he had no objection to a Liberal being elected, but he would not support a Liberal who would not support a prohibitionist.

Dr. Hunter said he was not a prohibitionist, but he was a temperance man. He said he was not a prohibitionist, but he was a temperance man.

Liveliness and enthusiastic reception for candidates with a good deal of heckling and interruption of speakers marked the meeting in the hall, corner Davenport road and Queen street, at which candidates for the coming provincial election addressed a school-sized audience yesterday afternoon.

CONTEST DEWART

N. WATERLOO HAS SIX CANDIDATES

Independent, Liberal, Conservative, Socialist, U.F.O. and Labor in Running.

Special to The Toronto World. Kitchener, Oct. 13.—All was peace and good humor among the six candidates who were nominated here this afternoon for the North Waterloo seat.

Beyond the fact that the speeches covered every phase of political opinion, there was nothing of a startling nature developed at the nomination meeting, which was held in the court house and presided over by Charles Frolich, returning officer.

The following were nominated: C. H. Mills, Conservative; Gavin Barbour, U.F.O.; Nicholas A. Ross, Independent Liberal; George Haemel, Independent Liberal; James M. Reid, Socialist; Walter Snider, Liberal.

The U.F.O. man and the Independent Labor man were disposed to play a little into each other's hands, and to regret that they were opposing each other in the contest.

When the contest was over, the Independent Liberal man went so far as to say that voters who could not see their way to support him might naturally give their votes for the U.F.O. man.

CONTEST DEWART

FOUNDED 1850. A morning newspaper published every day in the year by The Toronto Newspaper Company of Toronto, Limited.

The Nominations.

Machine politics are one of the evils of democracy that it is exceedingly difficult to combat, and when a party or a government begins to rely on the machine instead of the people for victory there is almost no end to the devices by which it is sought to nullify the popular verdict.

A petty affair developed in the double-barreled nominations in Southeast Toronto seats, when Messrs. Schofield and Wallace were put up in both A and B seats, and had not declared themselves at the time of writing.

The southeast seats display the weakness of the government as well as any in the province. At the last election the nomination of the Conservative convention was as good as a certificate for the seat.

In Riverview the nomination meeting was clearly and warmly for John Vick, the Labor candidate. It is a four-cornered fight, and were the voting on a proper system there could be no doubt of Mr. Vick's election.

The contest in Parkdale between Col. Price and Dr. Hunter is an unequal one and Col. Price's election is conceded. He gained some credit by rumors of his independence of the government machine a month ago, but his acceptance of a government appointment encouraged Dr. Hunter to make a protest run.

The four-cornered contest in West York looks very like giving the seat to James Simpson, who is endorsed by the U.F.O. Ald. Rydving will divide the Conservative vote with Dr. Godfrey, and Ald. Whetter will not seriously injure Mr. Simpson.

In Southwest Toronto the Liberal leader is fighting for his seat with Mr. George Gooderham, and the government machine with hopes of Mr. Gooderham's success had hoped for acclamation for Mr. Proudfoot, who has been so accommodating in connection with the nickel scandals.

In the northwest seats the hottest conflict will be between Hon. W. D. McPherson and Col. H. S. Cooper, who with a distinguished military reputation has an excellent ground for manoeuvre.

Business was at almost a complete standstill today. Not a store was open and the streets were deserted, except by the strikers.

brandy, has already been marked for promotion.

Hon. Mr. Cody, who is discreetly silent in the midst of this wicked world, has been rewarded by an acclamation in seat A in the northeast.

It is apparent that should the Hearst government now be returned to power it will be by a minority vote. The Conservative machine is relying on the very diversity of dissatisfaction which makes the opposition strong, to bring about division among the opponents.

An example of this is to be found in East Hamilton, where a three-cornered fight has been staged. Controller Halcrow is running as a Labor candidate against Lieut. Landers.

In East York the Liberals have put up a candidate, Mr. R. J. Gibson, to run against Lieut. Landers, who would probably put him well ahead of Mr. Henry, Mr. Gibson, in other words, prefers to see a Conservative candidate elected than abandon his own aspirations.

In London Sir Adam Beck is running as an independent candidate, and his record proves him to be the most progressive man in Ontario politics. He has been a consistent friend of Labor, yet Labor lends itself to his embarrassment by putting up an opponent.

The Liberal party made a deal with Labor to put up a candidate and promised support, the Liberal candidate, Andrew Robson, having no weight or influence in the constituency.

Grand Trunk Public Ownership Ensures Toronto Traffic Revolution

NO more dramatic thing has happened in modern Canadian history than the ceasing of the Grand Trunk Railway System to the people, which is assured thru the railway's inability to meet its obligations and the pending legislation in parliament.

In Toronto, particularly, a revolution in the relation of the public to transportation and of transportation to civic progress, is assured, with the Beck radicals as a reconstructive if not decisive factor in the new orientation of public policy which comes close home to the worker.

It is difficult for many people to realize the significance of what is occurring at Ottawa. That is always the way with reversals of public policy which come close home to the worker.

Learn from Magnates' Blunders.

Nor will they realize fully the extent to which private exploitation overreached itself in the subjugation of parliament and people to its designs to build simultaneously two transcontinental railway systems.

ownership, and so it is, when you have appreciated the special load that public ownership has got to carry, as the result of magnate's ownership and exploitation, with the almost untrammeled assistance of the public exchequer.

It seems lovely to take your choice of going northward of Lake Nipigon and the Lake of the Woods, or of keeping south of Nipigon and then slipping thru part of the State of Minnesota in order to pass the southern limit of the Lake of the Woods.

THE DISCOMS.

CHAPTER VIII. But if Harry felt that he was going into an ogre's den, there was nothing in the outward appearance of the room or the two people in it to justify the sensation.

"Well, well, I guess it will be all right," the older man answered, and there was more silence. Louise broke it with—"Do you like the dress, father?"

"Which? Oh, the one you have on? Yes, I suppose so. Is it new?" "I bought it Friday," Louise reminded him.

"Oh, yes, my dear, very pretty." Presently he looked over at his wife. "If you want to sell the Gladstone property, you had better do it now," he said.

"We saw the dearest house today," she began, looking appealingly at Harry. But that young man found all the courage which he had cheerfully endured shell fire and days of waiting in muddy trenches, was not equal to taking up the conversation.

PROHIBITION AND INSURANCE

Editor World: Extracts from the address of Arthur C. Savage, insurance commissioner for Iowa, before the life insurance committee of the United States in August last.

First, he states that prohibition should have an immediate, eight-cent policy. Mr. Moore states positively that he believes that the abstainers showed a marked superiority over non-abstainers throughout the entire working years of life for every class of policy.

The following table gives a good idea of the better showing made by abstainers over non-abstainers. The figures are compiled on the basis of 100,000 lives, beginning each decade in each class, and are based on actual deaths in the 100,000 lives.

Table with columns: Age, Number of Deaths, Total Abstainers, Number of Deaths, Moderate Drinkers, Number Excess Deaths Among Moderate Drinkers, etc.

It should be born in mind that these statements were issued and discussed simply as a guide to life insurance business, and not in any way connected with any prohibition campaign.

Ran Up Big Score in Senior O. R. F. Fixture at Stadium.

Capital's start in the O.R.F.U. senior race was not auspicious, but the work of T.R. & A.A. was hardly what was expected of them.

The T.R. & A.A. halves fumbled badly in the first half and it was the weight of their wing line that bored thru the Caps and made the score possible.

Darcy Smith was the big train, and he made smashing runs for the winners. Joe Smith took off pretty runs and was a deadly tackle.

Hobbs booted over an on-side kick in the first few minutes that went for a point. DeGruchy was doing the booting for T.R. & A.A. in the opening, and Caps blocked his efforts many times.

Bickle booted over and Harrison was forced to rouse. T.R. & A.A. to a Caps' line which was downed. Hoose couldn't get the ball up.

After half-time it opened up and the black and white players were playing a game of tag.

Rough Riders Are Swamped by McGill

Montreal, Oct. 13.—McGill University defeated the Ottawa City team of the Interprovincial Football League this afternoon by 19 to 1 in an exhibition game.

The intercollegiate club outscored its rivals in every department. Its line was far stronger and also gave its backs water-tight protection.

The McGill backs found a weak spot in the Ottawa team's line. This was early in the second half when Ottawa came into possession of a loose ball close to the McGill line.

The McGill line held up the visitors, who could only get a dead line kick out of it after two ineffectual bounces.

The Ottawa players suffered badly at the hands of the McGill wings, who tackled with deadly accuracy.

The line-up: Ottawa: Flying wing, Emmerson; right half, Gilhooley; centre half, Cray; left half, Davies; quarter, Murphy; centre scrumhalf, Cassels; left scrumhalf, Lefebvre; right scrumhalf, McNeill; right inside, Cummins; left inside, Gilt; right outside, Ketchum; left outside, Reid; fullback, Reid; referee, W. J. Morrison.

McGill: Flying wing, Seath; right half, Williamson; centre half, Laffoy; left half, Anderson; quarter, Montemayor; centre scrumhalf, Bailey; left scrumhalf, Lefebvre; right scrumhalf, Lally; right inside, Nottman; left inside, Gilt; right outside, Forbes; left outside, Parkins.

Man does not live for himself alone

In the Stone Age every man had to protect himself against the rest of the community. Nowadays the community protects itself against the man. It also protects him.

No man can injure his own body and mind without injuring the community of which he is a part. Alcohol deprives the man of his ability to contribute his full share towards the production and conservation of Ontario's wealth.

Alcohol adds to the burden of fighting and preventing crime. The many should not have to carry this burden for the sake of the appetites of the few. It is not fair to the community—it is not consistent.

You acknowledge the community's right to protect itself in many other ways—why not against the use of the poison, alcohol? For instance:

- 1. For protection of the public health the community compels you to submit to the quarantining of your own children if they contract contagious disease. You must keep your own premises clean and sanitary.

- 2. For protection against illiteracy the community compels you to send your own children to school.
- 3. For protection of property you are not permitted to erect a frame building on your own land if it be dangerous to the safety of surrounding property.
- 4. The law does not permit you to take into your own body habit-forming drugs such as opium, cocaine and morphine.

In Fairness, Consistency and Duty Vote "No" for the Common Good

The common law provides scores of examples of restrictions protecting the community and the individual. You accept as being just and right the restrictions they place upon your own premises, your own family, and your own body.

Then why in the name of consistency should the community protect your wealth, protect your family, and your body in the above-mentioned cases and not do so in regard to the poison, alcohol?

Like the Labor Union which requires its members to forfeit many privileges for the good of all, and which protects the interests of the weakest of its members, Ontario desires the preservation of its greatest asset—the people.

In the name of consistency, fairness and duty every citizen should vote to retain the Ontario Temperance Act, and against the sale of the so-called "light" beer. To do this—

Mark Four X's—One X under each No

Table with 4 questions and YES/NO columns. Question 1: Are you in favour of the repeal of the Ontario Temperance Act? Question 2: Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol weight measure through Government agencies and amendments to the Ontario Temperance Act to permit such sale? Question 3: Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol weight measure in standard hotels in local municipalities that by a majority vote favour such sale and amendments to the Ontario Temperance Act to permit such sale? Question 4: Are you in favour of the sale of spirituous and malt liquors through Government agencies and amendments to the Ontario Temperance Act to permit such sale?

NOTED VOCALIST CALLED BY DEATH

Atherton Bernard Furlong Succumbs to Relapse Following Pleurisy.

After an illness of two weeks, Atherton Bernard Furlong died yesterday afternoon at 2:30 o'clock at his late studio, college of vocal art, 382 Yonge street.

Mr. Furlong was born in Norway, Maine, 70 years ago. Nine years ago he came to Toronto and opened a college of vocal art.

Interment will take place in his home town in Maine. He is survived by two sons, A. B. Furlong, Jr., and Major Charles W. Furlong, who is at present on his way back to the United States from the Balkans and the east, where he has been on special work for the intelligence corps of the United States army.

Mr. Furlong's late business will be carried on by Miss Perle Chelew, who has been his chief assistant for some years.

LIFE IN LABRADOR

Dr. Greenfell, Famous Doctor Missionary, Gives Illustrated Lecture at Convocation Hall.

A large audience listened to Dr. Greenfell at Convocation Hall last night when he gave an illustrated address on Labrador, throwing many interesting views on the screen, and giving a good deal of information on the life and products of the country.

The richness of the fishing was shown by a "demonstration" of the fisherman's life. The hospital at St. Anthony for the medical mission has accommodations for forty beds, but sometimes there are sixty patients. The worst they have to contend with is tuberculosis, for which they are hoping soon to have an open hospital.

Life in Labrador was described as by no means unattractive, and the people as amiable and idealistic.

BAKERS STILL OUT.

Both Mark Bredin, president of the Canada Bread Company, and George Lawrence, president of the Lawrence Bakery, stated to The World that none of the striking bakers had returned to work as yet. Mr. Lawrence stated that it would not be possible at this juncture to say whether or not the strikers would be placed if they offered to return. That was a matter which would be dealt with by the foremen themselves. Mr. Bredin replying to The World stated that his factories were full, and he hoped that none of the strikers would be taken back.

A special session of journeymen bakers is being held at Occident Hall this evening to decide as to the final action to be taken. It is understood that they will accept the report of the committee which has been in conference with the fair wage officer relative to ending the strike, and future action will cover the factor of legislative action with respect to the needed change from night-shifts to day shifts.

INJURED HEAD AT FOOTBALL.

Charles Wood, 255 Dovercourt road, was injured about the head yesterday afternoon while playing rugby at Trinity Park. He was removed to the Western Hospital, John Jones, Ossington avenue, sustained injuries about the head last evening, when he was struck by an automobile. He was admitted to the Western Hospital.

MACEDONIANS ARRESTED

Breaking down barricaded doors, Plainclothesmen Black and Ewing last night raided 346 East King street, and arrested 20 Macedonians, Anastie Anostoe, keeper, is charged with keeping a gaming house. He is alleged to have been receiving a rake-off of 25c a game.

HOLD FOR ORDER

"I Wonder Would It Help Me?"

THIS question has been answered by many thousands of women who have found health and happiness in the use of Dr. Chase's Nerve Food.

Sleeplessness, irritability, nervousness, gloomy forebodings of the future, depression and discouragement—these are some of the symptoms which tell of exhausted nerves.

In order to avoid nervous prostration or some form of paralysis it is well to get the building up process established at once by use of Dr. Chase's Nerve Food.

LABOR IN JAPAN LOUDLY PROTESTS

Claims Delegates to Washington Have Been Chosen by Capitalistic Class.

Tokio, Oct. 13.—A clamor of protest has broken out in Japanese labor circles against the alleged interference by the government with the selection of the representative from the ranks of labor to go with the other Japanese delegates to the international labor congress at Washington, sailing on the Fushimi Maru on Oct. 9.

Give your child free access to the milk bottle

A child's growth depends absolutely on milk. Certain elements are found in milk—and in milk only—that builds the child up, increase its vitality, and actually help the digestion of other foods.

A quart of milk a day for each child is a good rule. Your doctor will tell you so. He will tell you that it increases growth, adds energy.

Give your children the freedom of The Farmers' Dairy bottle. Let them drink milk whenever they come in thirsty and hungry. Give it them to drink at meal times—on fruit, cereals and puddings.

Every family should, on the average, drink twice as much milk as it now does.

Few other foods are so easily digested, so nutritious, or so cheap. Few foods can be used in so many varied ways. Milk is the perfect food—you take it, if you desire—as Nature offers it to you—no need for trouble or cost of preparation.

The man who would be clear-headed should drink milk at lunch instead of the heavy, expensive foods usually eaten.

Farmers' Dairy milk comes from well-fed, well-tended cows. It is richer than ordinary milk. And it is made safe by scientific pasteurization in the Wonder Dairy of the Continent.

PLAYS, PICTURES AND MUSIC

"MAYTIME."

Marie Dressler, Full of Exquisite Romance, Revived at Royal Alexandra With Notable Success.

More exquisite, more beautiful, more thrilling than ever, "Maytime" was revived at the Royal Alexandra last night before a crowded house. It is impossible to praise this charming production too highly, and the present company, is an improvement over the last in the few changes that have been made.

The second act brings Madam Delphine's salon on the stage, and P. T. Barnum in all his glory introduces his Spanish dancer and his Italian, both of whom he has introduced in his previous plays.

William Morris, as Matthew, is inimitable throughout, and furnishes sterling comedy. Edwin Harold Lloyd comedy is laugh from start to finish. Comedy is a laugh from start to finish. Comedy is a laugh from start to finish.

The Clara Kimball Young picture at Loew's Theatre this week presents the star in the role of the wife of a man who lets the memories of the past so absorb him as to forget the living present.

The vaudeville attractions are especially strong this week and are headed by Bert Morin, whose specialty is card tricks. There is not a dull moment when Bert has the stage and his small talk is especially clever.

"TILLY'S NIGHTMARE"

Marie Dressler, Fairly Scintillates in Leading Role at Royal Alexandra.

Marie Dressler, who plays the leading role in "Tilly's Nightmare," which opened a week's engagement at the Princess Theatre last night, so evidently enjoys her part as she romps about it that she carries the whole audience with her thru a kaleidoscope of scenes, and finishes up at the starting point with a lightning change of costume.

From A to Z there is not one even ordinary turn in Shea's Theatre program this week—each and every turn is far above the average vaudeville. The jazz band, led by George Hart, from start to finish, is a laugh from start to finish.

George Clark, Famous Tramp Comedian, and Pretty Girls Make Burlesques Real Hummers.

George Clark, famous comedian, who is a show in himself, and the big girlie show is the offering at the Star Theatre this week. Capacity audiences greeted the company at the afternoon and evening performances.

"Oh, yes, that's good," Squash pie is pretty good," Uncle Wiggly answered. "Well, I'll hop right along and see if I can find one. When will it be time for pumpkin pie, Nurse Jane?"

"Please do," Nurse Jane answered. "I've taken care to have 'em come back at the hands of these well-trained maids. Made o'ba bewilderin' variety is the offering at the feature at the Allen Theatre this week.

G. W. V. A. TRUST THEIR EXECUTIVE

Unanimous Resolution of Confidence Carried at Central Meeting.

Confidence in the Dominion executive and unanimous approval of the G.W.V.A. re-establishment scheme, presented before the parliamentary committee at Ottawa, was recorded at a meeting of the central branch of the G.W.V.A. in Columbus Hall last night.

Mr. Waistell, who was largely responsible for the framing of the re-establishment scheme, declared that no man could ever persuade him that there was a fairer one.

Given Fair Hearing. The methods of cross-examining witnesses and the activities of the parliament committee in regard to the question were all fully dealt with by Mr. Waistell, who stated that the association would never regret the moment that they considered the facts to Dominion Secretary McNeill.

Our case has been laid before them, declared the speaker, "and we do not know what the verdict will be. It is up to the decision of the committee; but whatever the result may be, I am perfectly satisfied that the pension is bound to be generously added to immediately."

Referring to the "flowery speech" of Sir Thomas White, Mr. Waistell declared that "you could not fill an empty belly with words." He added that it was due to Sir Thomas that the country borrowed huge sums of money to meet the expenditure of the war, and yet when approached by the returned men, he emphatically stated that it was "impossible to pay the increased bonuses because it was impossible."

Mr. Waistell pointed out that the government intended granting a large sum to the Patriotic Association in order that they might use their judgment in providing for the needs of those men during the coming winter.

Would Humiliate Canada. "I earnestly hope," said the speaker, "that it may never be said that Canada may have adopted charity to relieve the necessities brought upon the returned men and their families because of the very services they rendered to Canada to preserve the country from several invasions."

Mr. Waistell claimed that unless equitable re-establishment was adopted there would be discontented people and that the prosperity of the future depended upon it.

In reference to the criticism of the association within the past few weeks, the speaker stated that what was wanted was constructive criticism and not destructive criticism.

A resolution was unanimously adopted by the meeting extending a hearty vote of thanks and appreciation for the work of Comrades Waistell, Bowkes and Wilson at Ottawa, and endorsing the work of the G. W. V. A. re-establishment committee.

The following candidates have accepted the platform of the Grand Army of Canada and have received the endorsement of that association. It will be noticed that, with the exception of Hon. Dr. Cody, all of the candidates are soldiers.

Northwest Toronto, seat A, Hon. Dr. H. J. Cody; Northeast Toronto, seat B, Lieut.-Col. Kelly-Evans; Parkdale, Lieut.-Col. W. H. Price; Northwest Toronto, seat B, Capt. H. S. Cooper; M. C.; Southwest Toronto, seat B, Lieut. J. Ramsden; M. C.; Southeast Toronto, seat B, Capt. J. Wallace; Riverdale, Sergt.-Major MacNamara; D. C. M.; East York, Capt. G. Litcher; East Hamilton, Capt. M. L. Fitzgerald; Centre Grey, Lieut.-Col. Carmichael; South Norfolk, Col. A. C. Pratt.

These candidates were decided upon at a meeting of the parliamentary committee of the association last night. A further list will be issued shortly.

TO OBLVIATE PAYMENT OF DOUBLE INCOME TAX

London, Oct. 13.—Two meetings have already been held between the royal commission on income tax and representatives of the overseas dominions, with a view to discovering proposals acceptable to the home and dominions' governments, under which payment of double income tax may be obliterated.

The main difficulty is finding a formula which will cover all examples of such double payment. It is stated that the imperial treasury would sacrifice £22,000,000 sterling yearly if existing payments were canceled.

VETERANS PRESS FOR THE GRATUITY

Hold Monster Parade Followed by Meeting in Queen's Park.

The great necessity of unity in order for the returned men to secure their demands, was the keynote of addresses delivered in Queen's Park yesterday afternoon to several thousand returned soldiers.

The meeting followed a monster parade of veterans thru the downtown streets, which was declared to have the significance of a silent protest against the demands for increased gratuities being refused by the government, and also by the parliamentary committee, investigating the question.

J. H. Flynn repeatedly attacked the government during the course of his address and declared that it was now up to the veterans to force the government to give them what they demanded. He made reference to the intentions of the United Veterans' League to press for a referendum in order to allow the country to decide whether the returned men should be given increased gratuities or not.

Declaring that the German prisoners in Kapusinsing Camp and elsewhere were treated better than the Canadian soldier, who gave his best for the honor of the country, Mr. Flynn stated that the government at Ottawa was sneering at the wounds of the veterans and could pay the money asked for if they so desired. Mr. Flynn averred that while the government in Canada granted increases to the munition makers in Canada when the blood in Canada had their hands blood out at Boulogne by imperial troops because they refused to fire the ammunition off.

H. Capewell, another speaker, declared that the government had its ear to the ground and that the treatment to the returned men would be different from now on. He also urged the veterans to raise the money to pay the gratuities demanded by the men.

WILL NOT RETURN TO WORK ON DOCKS

Mass Meeting of Longshoremen Made It Evident They Would Not Go Back.

New York, Oct. 13.—Thousands of longshoremen, massed tonight in Cooper Union to vote on the question of calling off the strike, which has virtually tied up New York harbor, made it so evident that they intended to stay out that the intention of putting the question to a vote was abandoned.

It was a relatively good natured, but determined, crowd of waterfront "hustlers" that filled the hall, but outside thousands of their comrades, unable to gain admittance, surged toward the door so determinedly in their efforts to get in that police reserves had to be called to preserve order.

The meeting was called by T. V. O'Connor, president of the International Longshoremen's Association, to obtain a vote on the recommendation made by delegates of the various locals that the men abandon their unauthorized strike pending reopening of their case by the national adjustment commission.

Mr. O'Connor, who repeated tonight his charges that the walkout had been inspired by the I. W. W., made a supreme effort to gain control of the meeting, but he was booted and chased and it was only after three attempts by Hugh Frayne and other labor leaders that he was able to make himself heard.

When it was evident that the men would not listen to a proposition of returning to work, directors of the meeting abandoned their intentions of calling for votes.

Ferry Men Stay Out. Railroad, port and terminal workers, at a meeting held in Jersey City today, unanimously decided not to resume operations of ferry boats, railroad tugs and lighters until their demands are settled, according to a statement issued at the headquarters of the Marine Workers' Union.

The longshoremen's strike was denounced as a violation of "the fundamental principles of the American Federation of Labor" by Samuel Gompers, president of the American Federation of Labor, in a letter received today by T. V. O'Connor, president of the International Longshoremen's Union. The strike was un-

GROUSE IN YORKSHIRE.

Grouse shooting in Yorkshire is not as good as it might be, owing to the late frosts and snowstorms that wrought havoc with the young birds.

as good as it might be, owing to the late frosts and snowstorms that wrought havoc with the young birds. Lord Ripon, now at beautiful Studley Royal, has been shooting on the Dalwigh Moors. Five Minutes To Eleven has not yet come for those who stayed at home

The gallant Canadian army kept right on fighting until five minutes before the Armistice was signed.

The last lap of the war for those men was indeed a smashing, glorious finish!

While the fighting ended at five minutes to eleven on the morning of the eleventh of November last year, the war has not yet ended for those of us who stayed at home.

Our "Five Minutes to Eleven" has not yet come. There is a great deal more for us to do, before our war job is finished.

There are still heavy demobilization expenses to clean up. In a few short months we have brought home the troops that were transported overseas during four years of war—four years' transportation expenses crowded into a few months.

Many millions are still required to complete payment of demobilization and for other purely military expenditures.

The Victory Loan 1919 which is necessary to meet these war obligations is the great objective in the last lap for those who stayed at home

The Canadian Corps, during the war, never lost a gun—never once retreated and never failed to take an objective

Keeping that glorious record in our minds, and carrying that "no surrender" fighting spirit into the new Victory Loan campaign, there can be only one result—Success, overwhelming and triumphant

When the figures for the Victory Loan 1919 are totalled up the result will show the world that those of us who stayed at home have taken another glorious objective on the road to our "Five Minutes to Eleven."

Victory Loan 1919

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

MASCOT HABIT GROWS AMONG LONDON WOMEN

There seems to be a growing tendency among women to load themselves with charms, amulets and mascots. In a London house recently a woman displayed which hung about her neck, a "cannibal" bracelet, and some weird and historic-looking stone set as a hat ornament. The owl was cast in silver, and dangled at the bottom of a handbag, the handles of which were formed of suspended from a long string of beads which hung almost to the floor, and the black cat was worn as a brooch. It would not be correct to put this all down to mere superstition, but the habit, started as a "sporty" one, has grown, until there are quite a large number of women who would be genuinely distressed if they lost their crooked "lucky pig," or piece of white hickory, or what they call a "mascot." Almost every woman's handbag contains something which serves as a mascot, and surely the most extraordinary of them all was a plumstone which a lady confessed she had treasured for over 12 months.

Witness the refusal to be the third to witness one match, which still persists. The windows of cycle and motor shops are filled with the most extraordinary figures made to fasten on the handle-bars or the handlebars of motor cars, and thousands of demoralized men still keep the "woolly cats," colligoes, etc., and the women on the battlefields, mostly by lady friends.

PAINTED ROCKS ARE PUZZLE TO STUDENTS

Whether painted symbols on the rocky banks of the Columbia River, in Klickitat County, Washington, are Indian symbols or whether they are the records of early Teutonic explorers, is to be submitted to experts of the Bureau of Indian Affairs at Washington, D.C., for their verdict. The pictures are fragments of the early history of the tribesmen of the Pacific Northwest is the belief of W. S. Lewis of Spokane, secretary of the Washington Historical Society. He believes they are 250 years old. The theory that they are the writings of European travelers of many hundreds of years ago is held by Cliff Osborn, a student of archeology, who resides at Dishman, Wash. The same symbols were also discovered by Mr. Osborn on a large stone on the seashore north of Seattle, Miss.

EX-KING MANUEL HAS FAMOUS OLD HOUSE

Fulwell Park, where ex-King Manuel has lived since he brought his bride to England, five years ago, is an historic mansion, built mainly in a historic style. A part of it dates back to James II, but it has been considerably enlarged from time to time, and now contains a magnificent suite of six entertaining rooms. Besides the nine-hole golf course, there are a number of tennis courts, and a croquet ground. This is a game at which the ex-king excels. The house, which is on the River Crane, on which also boating is popular, has been the home of many famous men. In 1800 Orleans House was the residence of Louis Philippe, then Duke of Orleans.

FIRST PEACE STAMPS ISSUED BY JAPANESE

The first "peace stamps" have reached the war stricken exhibition in London. They have been issued by Japan, and are from designs by two celebrated Japanese artists, Okada and Yuki. In each design figures a dove. There are four denominations—1 1/2 sen, 3 sen, 3 sen green, 4 sen carmine, and 10 sen blue.

BRITISH ARMY T. C. AN IDEAL LEADER

Sir Travers Clarke a Very Big Man Not Much Heard Of.

A vivid picture of Sir Travers Clarke, the British quartermaster-general, is furnished by an expert official in the London Daily Telegraph. As a regimental officer in the '90s "T. C." never seemed to get an opening. "Nor did his early staff work bring him much recognition. But an officer of his today, who was a clerk when he was first a staff captain, insists that he always gave the impression of great power to serve. He believed in the British Army, in hard work, and in himself. That was the foundation of the career of a man who, once an opening showed, forged ahead with marvelous speed to his destiny.

FATE OF ALBANIA AS NATION IN DOUBT

Lausanne, Oct. 12.—The national Albanian committee here has issued another appeal to the peace conference, in which it is declared that the pretensions of Italy, recently expressed by Signor Tittoni, the foreign minister as being confined to the occupation of Avlona and the exercise of a mandate for Albania, are only a cloak for imperial designs and that the negotiations between Italy, Greece and Serbia have in view an understanding equivalent to the annihilation of Albania as a nation.

LIVE STOCK MARKET.

With more than 6000 cattle on sale at the Union Stock Yards yesterday, there was a fair steady demand for the good useful butcher class, with few or no real choice heavy-weight cattle on sale.

There was a fair inquiry for breeding stockers and feeders, and hogs and pigs were held steady. Good milkers and springers made satisfactory prices for the better class, but the common milkers were pretty well sold.

With a run of over 6000 sheep and lambs, the market eased off fully from 125c to 135c lb. with a few odd bunches of extra choice selling at 135c.

With 1700 hogs on sale, and the market in its usual position, the good useful butcher class, with few or no real choice heavy-weight cattle on sale.

Farm and Country Life in Canada

FARMING is a basic industry in Canada. From the first days of its publication, The Globe has always strongly advocated the development of scientific agriculture.

When the breeding of pure-bred stock in Canada was first deemed necessary, The Globe, by example and precept, showed what could be done. The late George Brown was a leader in experiment. At Bow Park Farm, near Brantford, he bred from imported cattle so as to place pure-bred stock at the disposal of his neighbors.

From those days to the present, the furthering of the interests of the Farm and Country Life of Canada has been an important feature of The Globe. The Weekly Farm Department has always been a source of inspiration to the farmers to improve their knowledge of agriculture.

This is why The Globe should have a place in every Farm Home in Ontario.

COBALT OFFICERS DEBATE ARMY RUM

One Says, Personally, It Was "Nuisance"—Other Declares It Was Aid to Victory.

Canadian Press Despatch.

Cobalt, Ont., Oct. 12.—Two gallant officers of the C. E. F. who have rushed into print following the publication in a local paper of the reported statements of one of them at a meeting held under the auspices of the Cobalt referendum committee, have created a diversion in the election campaign here.

At the meeting indicated, Col. E. F. Armstrong, who commanded the 158th Battalion until it was broken up in England, was reported to have stated that he saw the rum in the army ration was not a benefit, that its bad effects asserted themselves just at the time the men needed strength, that it was a perfect nuisance, and that he had no hesitation in saying it was a bad thing for the army.

Refuse Annulment Neilson Marriage

Quebec Judge Reverses Finding of Justice Dorien in Widely-Known Case.

Canadian Press Despatch. Quebec, Oct. 13.—Judgment was rendered here on Saturday morning in the case of Neilson vs. Justice Dorien, when the marriage of the plaintiff, which was annulled by the defendant, was held to be valid.

The salient points brought out in the judgment were: First, that the husband deceived the defendant by stating that he was of the full age of 21 when they were getting married; secondly, that while the plaintiff in the case, the defendant's husband, did not know the plaintiff when it occurred, but had since ratified the marriage, and thirdly, that the husband of the defendant wife was in bad faith.

Prince to Visit Cobalt

Cobalt, Oct. 12.—Arrangements for the visit of the Prince of Wales to Cobalt on Thursday of this week, have been completed. The program calls for a half hour reception at the station immediately after the arrival of the party, where Mayor McKinnon will personally address the visitors, after which visits will be paid to the Conlagas Mining Corporation and O'Brien Mines, with a motor car drive thru the township. Special souvenirs of the prince, who is to leave for Timmins at 11 o'clock.

New Liskeard 6-Year-Old Boy Is Accidentally Shot Dead

New Liskeard, Oct. 12.—A few minutes after a bullet from a loaded rifle which had been left near a window of a house, had penetrated the window of a 6-year-old boy, Bert, who was sitting on a chair, the child had crossed over to the window and the rifle exploded, as the boy was alone at the time. The bullet entered the boy's stomach and pierced one of his lungs.

The Price of Revolution

Berlin, Oct. 13.—Germany has paid 4,500,000,000 marks in unemployed benefits since the outbreak of the revolution, according to estimates here.

BARITE ABOUNDS IN MATACHEWAN

Deposits of Heavy Spar, Fluor Spar and Potash Feldspar Are Extensive.

In the Matachewan gold area there are a number of valuable and at the same time comparatively rare minerals. Barite or heavy spar is found in the Township of Cairo and Yarrow. It is worth about \$16 per ton. It is used for many purposes, including the manufacture of mineral in the township named. The Ontario Barium Company is now open and the other 14 feet in width. M. E. R. Gordon, a well-known mining engineer of Cobalt, is in charge of the work. Fluorite or fluor spar is found as a flux. It occurs in the large batholith of quartz-syenite in Cairo and Alma. There the mineral is of a deep purple color. It is found over a wide area. The bureau of the last report of the Ontario Geological Survey, which is an orthoclase feldspar which forms one element of the quartz-syenite contains 9.65 per cent of potash and 2.95 per cent of soda. This is about three-quarters as much as that contained in the well known Richardson feldspar mine in the County of Frontenac.

Work Progresses Briskly

Work is now proceeding vigorously at the property of the Ontario Barium Company. When going to and returning from Matachewan recently I saw many items of freight, all consigned to Mr. Gordon, the manager of the company. After spending \$3000 on a winter road from the railway terminal at Elk Lake, this company estimates that their heavy spar can be teamed at a cost of \$5 per ton. A railway would bring the benefit and material assistance to the ultimate victory of our arms.

Germany to Crush Politics in Schools

Berlin, Oct. 13.—Herr Haenisch, Prussian minister of worship, told yesterday that he proposed to adopt radical means to crush political agitation among the pupils in the public schools, which, he declared, has been instigated by political propagandists seeking the regeneration of the Hohenzollern regime.

WALL STREET VIEWS

Henry Clews in his weekly market letter says: Despite pessimistic predictions of money troubles in various quarters the fact remains that there has been decided improvement in many essential aspects of the financial outlook. Altho rates have been high they have steadily maintained themselves on a lower level than that of midsummer. There has been decided falling off in the demand for crop moving funds, due to western prosperity, and the apparent prospect that there would be a smaller amount of grain to be taken care of. Banking conditions while continuing inflated are nevertheless showing the results of an effort to prevent undue extensions of loans. On the whole, therefore, bond and stock issues of an investment description have held their own respectably. It is likely that money rates will continue high for some time to come. Indeed, under existing conditions this is the best if not the only method of protecting bank funds against undue exploitation. In some aspects, therefore, it must be regarded as a sign of health rather than the reverse. Much, however, must depend upon conditions as they develop themselves in the industrial world, and especially as affecting relations between labor and capital during the immediate important lines will necessarily throw additional burdens upon the banks and necessitate their "carrying" business houses and producers that could not otherwise meet such assistance.

CANADIAN FAILURES

The number of failures in the Dominion as reported by R. G. Dun & Co. during the past week in provinces, as compared with those of previous weeks, and corresponding week of last year, are as follows:

Corporal Filip Konowal, V.C., To Be Released on Bail Today

Ottawa, Oct. 13.—Corporal Filip Konowal, V.C., who has been awaiting his trial in the Hull jail on a charge of having murdered William Artick, a Hull naturalized Austrian, will be released on bail Tuesday.

Kitchener Taxi Occupants Are Hit by a G.T.R. Train

Kitchener, Oct. 13.—A taxi cab was demolished and the driver and one passenger hurt in a smash with a G.T.R. passenger train at the Lancaster street crossing here this morning. The taxi driver had slowed up to allow the Elmhurst train to pass and as the train went by, it struck the taxi and the crash came just as the taxi reached the centre of the track. The passenger, B. Hembush, suffered cuts on the head, while the driver had a leg broken.

Freight Traffic Is Resumed Between Germany and Mexico

Berlin, Oct. 12.—Freight traffic between Hamburg and Cuba and Mexico was resumed on Saturday with the clearance of the steamer Hans, carrying a mixed cargo.

TO MILL ORE IN KIRKLAND DUMPS

In Three Months, Mines Will Have Full Underground Staffs.

Special to The World.

Kirkland Lake, Oct. 13.—Now that work is under way again in mines of this district, a survey of the situation is of interest. It is naturally impossible for these properties to be put on a producing basis at once. They are, however, making plans to run thru dumps of ore now on surface. They have each sufficient of this material to keep the mill at capacity for about three months. By that time they expect to have full staffs at work underground.

SKED DISCOVERY TECHNICALLY GOOD

Appears, Therefore, to Be One of Most Important of Year.

Special to The Toronto World. Englishman, Oct. 13.—On the Manley Township, one of the most important gold discoveries of the year has been made. Gold has been found in two sections of twenty-odd feet, and in two sections of the whole, therefore, bond and stock issues of an investment description have held their own respectably. It is likely that money rates will continue high for some time to come. Indeed, under existing conditions this is the best if not the only method of protecting bank funds against undue exploitation.

THE LIVE CATTLE EXPORT TRADE

While in Europe studying the market for Canadian meat products, H. S. Arkell, live stock commissioner, discovered with respect to live cattle that a problem exists that will prove a worthy test of Canada's nerve, ingenuity and determination. According to Mr. Arkell's statement the difficulties are great but they are not insurmountable. He says: "In the Argentine and Australia are more and better cattle than in Canada and these countries are proving much cheaper sources of supply. The Argentine is endeavoring to secure passage to Germany via Rotterdam. We have secured this concession for Canada on account of the health of Canadian cattle and it now remains to see what advantage we can take of it. "Two Canadian firms only, one western and one eastern, have as yet dared to face the risks of live cattle export and they deserve all the success and profit which they are likely to obtain from it. I am firmly of the opinion that this live cattle trade must become a necessary part of our cattle policy. "So far as Europe is concerned, we are at the beginning of this business, even if in the end it prove not to be permanent. Germany, France, and Belgium are in the market for fat cattle and the latest price is from £55 to £75 per head. Further, next spring there will be large demand for culling and breeding cattle, the latter chiefly of the Holstein and Short-horn sorts. I recommend the organization of companies of producers to join with competent men for the development of this business. The present avenues of distribution must be widened; otherwise other countries will secure the business to Canada's disadvantage."

MONTREAL BROKERS ARE THEFT VICTIMS

Four Firms Suffer Total Loss of \$25,000 in Stolen Victory Bonds. Montreal, Oct. 13.—Four big Montreal brokers have lost \$25,000 in Victory bonds within the last week, each time the method employed to secure the property was the same. On Thursday last Thornton Davidson & Co. had a caller who gave the name of Brian, who declared he wanted to buy one of the \$5,000 Victory bonds of the 1923 issue. He was told to come back for the securities the next day, when they would be ready for him. He did so and tendered a cheque for \$4,750. It was so near the amount of the account that it was given the bonds. When the cheque was presented at the bank, it is said, there were no funds on hand to meet it and investigation is alleged to have discovered that three other firms had thru the caller, lost bonds totalling in all \$28,000.
