Miss Blain Beat Bradford Representative in Ladies' Final-Prizes To-Day.

The Toronto Lawn Tennis Tournament made fair progress on Saturday, considering that the courts were too wet for play till well on in the day. The final in the ladies' singles was played on Saturday, Miss Blain of the St. Matthew's Club winning a well-earned victory over Miss Jessie Wilkes of Bradford. It is evident that Miss Blain is a coming player, and pleasing to note that at times she does not hesitate to come to the net and volley the ball. Mudd put up a good game in his handicap singles, but was only defeated after the closest kind of a contest. The girls' singles are steadily improving. Miss Smith has consented to present the prizes on the conclusion of day to-day, which is expected to be about 5 o'clock. As this is a holiday, a large number of spectators will doubtless be present. Hayes Won on Trillion in Short-Course Steeplechase-Garrison Third on George Keene.

New York, Sept. 2.-The track at Sheepshead Bay today was deep mud and the favorites again went to the wall. In the Flatbush Stakes for 2-year-olds at seven furlongs, David Garrick was favorite and was among the only horses to finish in the race. Kilogram led the way for the first starter, with McClellan took command. In the last sixteenth, Lieut. Gibson came with a rush and won very easily. The three ran locked to the stretch, when Martins quit. Kinley Mack led for a few jumps, when he began to go back and was not in the money at the end. Maxine took the lead a furlong from home and won.

OF THE BLOOD OF COLUMBUS

Isaac Columbus Settled at the Site of Markham Village Eight Years Ago.

MANY RELATIVES IN TORONTO.

The Family History Recalled by Death of Mary Harriett Columbus in Ohio.

A press despatch appeared in The World on Saturday morning, which, though short, reached away back to 1492, when the bold mariner, Christopher Columbus, set his face towards the West with his convict crew.

The item was as follows: Toledo, Ohio, Sept. 1.—Mary Harriett Columbus, a direct descendant of Christopher Columbus, died here home in Sandusky yesterday of old age.

She was born in Toronto, Ont., her father having come to this country with several of his brothers, many years ago, and was considered of such interest as the only living direct descendant of Columbus, that the management of the Chicago World's Fair made large offers for her presence in one of the buildings, but she refused them.

A Pioneer in York. From relatives in Toronto, The World was able to glean many facts concerning the deceased and her family.

The family to which she belonged came from France about 80 years ago, and settled on land which is the present site of the village of Markham.

Isaac Columbus, was appointed agent by the government to deal with the Indians. It was also his duty to repair the rifles used by the regiment stationed at Toronto and to look after the ammunition.

Isaac Came to Toronto. He worked for the Government until about 50 years ago, when he removed to Toronto and took up residence on Queen-street, east of Bay-street.

Relatives in the City. Harriett went to Ohio 25 years ago, and had resided there up till her death. There still remain relatives of deceased in Toronto.

Remember Isaac. Mr. Christopher Bright, one of the cousins of Isaac Columbus, is now on a visit to relatives in Toronto, is a niece of the deceased.

At the Fair. You'll all see him. He's at the Fair. Reuben Strawbridge, who has called up to visit his daughter, Sarah Jane.

Isaac a Wonder. Isaac was a most remarkable man. He was a blacksmith, silversmith and gunsmith, and he worked at all three trades.

Brant, Bryan, Rose. Walter Brant of 238 Terapias-street and Walter Bryan of 221 College were taken unawares by the constable Wallace on Saturday night and locked up at the Agnes-street station.

Police Make Two Calls. Find Liquor at One Place and a Gambling Outfit at Another on Sunday.

MINES AND MINING STOCKS

Rich Discoveries Have Been Made at the North Fork of the Kettle River.

GRAND FORKS HAS GOOD CREDIT

The Town's Issue of Debentures Taken by the Merchants' Bank of Halifax at Par.

Grand Forks, B.C., Aug. 23.—(Special Correspondence)—The Merchants' Bank of Halifax has just purchased at par an issue of civic debentures amounting to \$24,000 for the enlargement and improvement of the waterworks, and another issue of \$11,000 for the extension and improvement of the electric lighting plant.

The satisfaction terms secured speak volumes for the stability, progressiveness and financial standing of Grand Forks. The fact that the issue was taken at par by a bank which has an agency here, and which is acquainted with the local conditions, is also significant. The bonds are repaid in 20 years and bear interest at 5 per cent. per annum.

E. C. Hibbet, a Spokane hydraulic engineer, has arrived here for the purpose of making specifications. A contract will be let at once, and it is expected that work will be commenced within a fortnight. Owing to the construction of the smelter dam on the North Fork, the main Kettle River, it will be pumped into a steel tank on Observation Mountain, thus ensuring splendid pressure. The present electric light plant is unable to meet existing requirements. The new plant will have a capacity of 4000 lights.

Another New Camp.

A good-sized stampede took place to-day to the east fork of the north fork of Kettle River, as a result of the news, which reached the city yesterday, respecting some remarkably rich discoveries, recently made there.

The new camp is located 45 miles northeast of Grand Forks, and is about 35 miles from its junction with the north fork. The existence of a silver belt on a locality which has long been known by prospectors, but the region has hitherto been considered too inaccessible, owing to its remoteness, and the cost of transportation. Three years ago Frank Maclean and James McEldan discovered a 30-foot vein there, and have done the assessment work since. In making the shaft the quartz developed silver, galena and copper. The entire face of the shaft is covered with a range in value from \$16 to \$75 per ton. J. A. Corryell, C.E., and Frank Corryell got the tip last month, and despite the fact that Charles Wolf to the scene. The prospector located three claims on what appears to be a mountain of white quartz. They discovered a 40-foot vein, from the surface of which the values of the ore are estimated to be obtained. The ledge matter is similar in color and formation to the Republic, and is situated in the same general strata as the Republic and Melones, the local ranchers, and the local ranchers found two ledges of galena carrying gold and copper and silver values. The assays from one of his claims average \$100 per ton.

When Wolf returned to the city, the news quickly spread, and seven or eight outfits left for the new camp. Other outfits will start to-morrow. Every pack horse in the city has been hired, and the new camp can now be easily reached from Brooklyn, B.C.

ROSSLAND SHIPMENTS.

Over 100,000 Tons of Ore Sent Out in 1899—Development Going on at a Good Rate.

Rossland, B.C., Sept. 2.—One of the most gratifying features of the mining industry in this province has been the increase in the ore production of the Rossland district, which has turned the 100,000 ton mark for 1899, but has also broken the record for weekly shipments, and this notwithstanding the fact that a large shipper, the Centre Star, owing to the installation of a new power plant, is not shipping a pound of ore during the week. The Iron Mask is increasing its shipments and averages eight cars a week, while the Evening Star is holding its own and the big shippers, the Le Rod and Wye, are steadily increasing their output.

The Columbia-Kootenay have made their first shipment for the year, having sent a car load of ore to the Hall Mills smelter at Nelson.

Shipments for the Week.

Following are the approximate shipments for the week:

Will Continue Contract System.

Greenwood Miner—Interviewed by the Nelson Tribune, E. Rykert, of the street of McQuig, Rykert & Co., Montreal, said

that the Parry mine would not start work, and pay \$3.50 for eight hours' work. The future was uncertain. The program for the present was to continue development of the Parry mine. The Parry mine was paid over \$1,000,000 in dividends.

Homestake Looking Up.

Rossland, B.C., Sept. 2.—There has been quite a demand for Homestake stock with- in the last few days. The price has advanced from 7 to 10 cents. Today on the exchange 9 1/2 cents was bid and 11 asked. There is little or no stock available at the present prices.

Good Copper Ore.

Rossland Miner, Aug. 26: A quantity of very fine copper ore was brought down yesterday from the Wallingford Mine, and is now on exhibition in the Miner window, property is being continuously worked, and it is reported to be looking most satisfactory. The drift from the tunnel is now about 60 feet from the shaft, and is cutting to the ledge in the shaft will be commenced in a few days. The ore shown is from the shaft and is one of the best copper ores in the district, averaging over 10 per cent. in copper, besides being rich in silver, and is continuous from the surface to the bottom of the shaft. The drift from the tunnel is now in progress. The main ledge will shortly be tapped at the 100-foot level, when a good showing of ore is expected.

sympathy, must of necessity create a patriotic feeling for their noble efforts to retain to Canada a big branch of industry that cannot but lend its efforts in assisting to build up the commercial life of the country. Mr. W. E. Stanley, of Lanes and Mr. James Low, Stratford, two leading agents of the company, are in charge of the stand, and will be pleased to entertain any and every one desiring to know anything respecting the goods of their firm.

Shants Agricultural Exhibits.

This stand is attracting much attention from the visitors to the important buildings. The factory of the firm is located at Preston, Ont., and a complete line of harvesting machines is turned out at the works. Among the many lines made is the buckeye frame binder. This machine embraces a large number of new and distinct features, some of which are: 1) No frame around the main wheel, allowing it to be placed twelve inches nearer the horse, and thus lightening the draft; 2) The axle is three inches in diameter, the wheel being thirty-eight inches, which also assists in making the machine the lightest running and without getting into the binder on the market. The fact that every section of the machine not patented is being copied by other makers goes far to show the superiority of it over other makes. Farmers and country people are requested to examine this binder, before making their purchases, and to be assured that they cannot do better than try one.

Manila, Sept. 2.—Argueta, the most impregnable stronghold of the bands which have been destroying plantations and levying tribute on the people of Negros, was taken Tuesday by the 6th Infantry, under Lieut-Col. Byrne.

The only means of reaching the town was up a perpendicular cliff, covered with dense shrubbery, and 1000 feet high. The Americans accomplished the feat by the aid of a ladder and a rope.

Wall Street.

The stock market was intensely dull throughout the day's session, and net changes were hardly noticeable. In contrast to the sudden outbreak yesterday of panic instances, the much-discussed bank statement conformed closely to previous estimates. As the banks and sold the market short in anticipation of the statement, the steady rise in the price of New York banks created a demand which nullified the market for earlier depression and brought prices in most cases above yesterday's level. There was nothing in the bank statement to affect the stock exchange operations, at a minimum, the more so as the situation in the Transatlantic is felt to reach its crisis in the meantime. The report of a death from yellow fever in New York, and the general quietness of the market, were the only factors in the weakness in the railroad stocks in the afternoon. FRANCHISE NOW GIVEN UP.

The Suburban Electric Railway Will

Let the Toronto Railway Com-

pany Extend its Services

OVER DUNDAS TO KEELE STREET

In Return Toronto Junction Council

Will Give Up Certain Important

Privileges—Public Opinion.

Toronto Junction, Sept. 3.—(Special.)—

Mayor Langton, Town Solicitor (Gos-

nell), and Councillors Ryding and

Paterson returned from their visit to Mon-

tréal yesterday morning, where for two

days they have been interviewing Mr. R.

Wilson-Smith, president, and the directors

of the Suburban Electric Railway, with a

view to inducing the company to give up

their right to the franchise, extending over

Dundas-street to Keele-street. Their

mission has been successful in indicated in

the company's consent to the proposed

agreement, the details of which they have

instructed their solicitor to prepare.

The Agreement.

1. The Suburban Company consents to

the Toronto Railway Company ex-

tending its services to the company of

Keele and Dundas-streets, thence along

Keele-street to Humber-street, and then

eastward along Humber-street to

Dundas-street.

2. The company consents to extend its

lines, at least ten (10) miles within

five years.

3. In consideration of the above con-

cessions the town will extend the present

franchise for a term of years, on the

same date as the Toronto Company's

franchise, and will also abandon its

right to mileage rental under the

agreement, and will extend the ex-

ception from general taxation to the

area of the term, and also will grant

water at cost for ten years.

4. The town consents to maintain streets, but

company to pay \$125 per mile per annum

for such maintenance, commencing

from the first day of January, 1900.

5. The town to grant a statutory

franchise at once, and to procure legis-

lation for ratification of agreement at

company's cost.

6. In other respects the present form

of printed draft agreement to be fol-

lowed.

Public Opinion.

Public opinion is very much divided upon

the result of the negotiations. The citizens

in that portion of the town near where

the city railway will run are generally

satisfied. A large portion of the business

men are also satisfied; but there are others

who look upon the proposed extension of

the line as being open to question. For

instance, they point out that a belt line

running half a mile from the Junction

beginning and ending nowhere, can only

benefit the citizens residing near

the belt, or those who are extending

it, and will have a shorter distance to

walk. For this reason, they are

opposed to the proposed extension, and

adding a possible value to property south

of Annette-street east of Keele-street,

comparatively small areas, the town

gives the right to collect from the Subur-

ban Railway Company millions of dollars

and gives free water for an extended period

as well as a lengthened franchise.

The town also contains the provision in

section 24, providing for absolute forfeiture

in case the portion of the business men

any line south of the Junction is

abandoned. This is a serious matter,

and means that the company can, at will,

abandon the line, and the citizens who

people who have built handsome residences

in the quarter west of the town are

to be sacrificed in the name of a

commodation for the people in the east.

It is already known that the

majority of the citizens are

anxious to see the city line in the

Junction, there is an apprehension that

giving a great deal for a little, and that

the citizens are not to be benefited

at all. It is also known that the

radial line scheme, which will in the

future be blocked at the Junction unless

Two Sick Negroes Are Said to Have

Been Fed to Sharks to Avoid

Quarantine.

Antwerp, Sept. 2.—M. Mesdach de ter

Kiele, Belgian Consul-General, has referred

to the Criminal Court the case of the

officers of the Belgian steamer Albertville,

board of two negroes suffering from contagious

disease, in order to avoid quarantine at

Las Palmas, Canary Islands, on the way

from Leopoldville to Antwerp. The

passengers and crew of the vessel give strong

evidence against the officers, saying that

they saw the negroes clinging to the

outside of two porches until their strength

failed them, when they disappeared in the

sea. The authorities cannot ascertain the

whereabouts of the two negroes.

The affair is causing intense indignation

in Belgium, and although under Belgian

registry, is mostly owned in Liverpool, and

the captain and officers are English.
