

THE CANADIAN BRYBECK

WEST-CANADIAN SAVINGS COMPANY

ANNUAL MEETING.

The Eighth Annual Meeting of the Shareholders of the Company was held at the Company's Office, Freehold Building, Toronto, on Wednesday, the 5th instant, the Vice-President, Mr. Thomas Long, in the chair, and the Managing Director, Mr. E. W. G. Fitzgerald, acting as Secretary.

The Report of the Directors was presented and read, as follows: The Directors have pleasure in submitting herewith the Eighth Annual Statement, showing the results of the Company's operations for the year ending December 31st, 1901.

The Cash Assets of the Company have been increased during the year to \$1,036,720.80, and the Paid-up Capital to \$892,423.00.

The total Earnings for the period, after making provision for possible future contingencies, were \$85,929.00, an increase of \$11,388.00 over those of the preceding year.

From the Earnings of the year have been paid in cash, semi-annually the usual Dividends of Six per cent. upon the Company's Permanent Shares, amounting to \$27,819.10. After transferring \$8,500.00 to Reserve Fund, and providing for sundry fixed charges, there is available a balance of \$26,918.19 for distribution to the Accumulative Shares. The Net Earnings over and above all expenses were equal to Eight per cent. per annum.

Payments of Principal and Interest by Borrowers continue to be made promptly and satisfactorily. As a result of its repayment system, the Company's securities are improving yearly, and the favorable opinions expressed in previous Reports with respect to them have been further confirmed.

During the year a large amount of Permanent Stock has been subscribed for and allotted to Shareholders for future payment, and beyond what appears in the present Statement. As intimated in the Directors' Report of last year, it is felt desirable that the Paid-up Permanent Capital of the Company should be increased as soon as practicable to \$1,000,000. Before concluding arrangements for the underwriting of the amount remaining to be issued, existing Shareholders will be given an opportunity of intimating what portions thereof they may be desirous of reserving. The terms on which such options will be granted, and the general conditions of subscription, will be definitely announced later.

Toronto, February 14th, 1902.

H. P. DWIGHT, President.

STATEMENT OF ASSETS AND LIABILITIES AT 31st DECEMBER, 1901.

Table with columns for ASSETS and LIABILITIES. Assets include Loans on First Mortgage, Loans on Stock and Debentures, Real Estate, Office Furniture, Due on Permanent Stock, and Cash in Banks. Liabilities include Permanent Stock, Mortgage Reserve, Dividend due, Loans in course of completion, and Sundry Creditors.

PROFIT AND LOSS ACCOUNT—1st JAN., 1901, TO 31st DEC., 1901.

Table with columns for DR. and CR. Dr. includes Dividend, To Government Taxes, To Profit on Advances, To Transferred to Reserve Fund, and To Balance. Cr. includes By Interest on Investments, By Premiums on Stock, and By Balance.

F. W. G. FITZGERALD, Managing Director.

AUDITORS' CERTIFICATE.

We have examined in detail the books and accounts of the Company for the twelve months ended December 31, 1901, and hereby certify them to be correct.

A. C. MCCONNELL, GEORGE D. PERRY, Auditors.

The Vice-President, in moving the adoption of the Report, said: Owing to an unfortunate, but not serious, accident, we are, for the first time since the inception of the Company, deprived of the pleasure of the presence at our Annual Meeting of our respected President, Mr. Dwight. In his absence, it devolves upon me to move the adoption of the year's Report.

The Statements submitted to our Shareholders from year to year aim at exhibiting clearly and concisely the position of the Company, and the one now presented will be found, we believe, at once simple and comprehensive. It has the merit, we think, of being readily intelligible, and free from vague or involved features. The Directors, we believe, have done their best to give a clear and extended explanation. The business of the Company during the year concluded has been active and profitable, and has again resulted in a substantially increased growth in earnings and assets.

The invested assets stood at the close of the year at \$1,036,720, while the total earnings for the year amounted to \$85,929. These are results which the Shareholders may, we think, properly view with satisfaction. There is but one feature of the Financial Statement in regard to which a word of special explanation may be useful, and that is as to the manner in which the amount of the Company's profits, earned and available for distribution, are determined from year to year.

Out of the \$85,929 so appearing, the sum of \$73,428 was received in cash. As respects the balance of \$12,501 representing accrued interest, the same careful study has been observed as in previous years. It includes no credit for any amounts in respect of which proceedings have been or are likely to be taken, or in regard to which reasonable doubt or uncertainty could exist. Every item contained in this credit is passed upon and approved jointly by the Manager and Auditors of the Company, whose constant care it has been to exclude all credits for interest on any account six months in arrears, unless the sum due is more than offset by repayments of principal. No more stringent method of treatment could well be suggested, and we refer to it only in order to make clear that in the preparation of the Company's Profit Statements due care is taken to distinguish as between actual and ascertained, and what may be termed apparent, earnings. The Company is, furthermore, steadily adding to its Reserve Fund, and making reasonable provision for possible future needs. In other respects the Statement calls, we believe, for no comment. On what has been accomplished in the past the Shareholders will, doubtless, base their judgment and expectations as to the Company's future.

The Company has already benefited in reasonable measure by the active growth and development that has prevailed so generally of late years throughout the Dominion, and the indications are that the opportunities for the safe and profitable extension of its business for some years to come will not only continue to be materially enlarged. The Directors feel that the Company is in a position to employ to advantage increased capital, and to largely extend its business. As a first step to this end, it is intended to increase its Permanent Capital to \$1,000,000 as soon as practicable. As intimated in the Report, existing Shareholders will be given the first opportunity of taking up the issue, after which arrangements will be concluded for the underwriting of the remainder. The terms on which this option will be extended will be announced almost immediately, and it is believed will be such as will be considered equitable to the general body of the Shareholders.

Mr. Caldecott, in seconding the adoption of the Report, said: I cordially concur in all that the Vice-President has said. The results of the year's business have been in all respects gratifying. The growth of the Company has been continuous, and, what is more, has proceeded upon a safe and stable basis. Looking at what has been so far accomplished, and the improved business opportunities now existing throughout the country, and we are warranted in taking a hopeful view of the future growth and prosperity of the Company. Although what has been done so far is considered as little more than introductory, we are able to feel that the foundations have been securely and strongly laid for what, within another decade, we believe, will become a noticeably strong and important Canadian Company.

The Report was adopted, as also were votes of thanks to the Officers, Agents and Solicitors of the Company.

The following were elected Directors for the ensuing year: Messrs. H. P. Dwight (President), G. N. W. Telegraph Company, Thomas Long (Director), Merchants' Bank, S. H. Ewing (Vice-President), Molsons Bank, Stapleton Caldecott, W. E. Wellington and F. W. G. Fitzgerald.

At a subsequent meeting of the Board, Mr. H. P. Dwight was re-elected President and Messrs. Thomas Long and S. H. Ewing Vice-Presidents.

PARIS REVELS IN CARNIVAL

Summer Weather Makes the Mid-Lent Frolics Gayest of Boulevard Scenes.

ACTING QUEEN SEES PRESIDENT

"La Reine des Reines" in Triumphant Progress is Received at the Elysee.

Paris, March 7.—No finer weather has been desired for the mid-Lent festivities than yesterday's. It was in most pleasant contrast with the cold and rain of the previous day.

The Report of the Directors was presented and read, as follows: The Directors have pleasure in submitting herewith the Eighth Annual Statement, showing the results of the Company's operations for the year ending December 31st, 1901.

The Cash Assets of the Company have been increased during the year to \$1,036,720.80, and the Paid-up Capital to \$892,423.00.

The total Earnings for the period, after making provision for possible future contingencies, were \$85,929.00, an increase of \$11,388.00 over those of the preceding year.

T. EATON CO. LIMITED

Women's Jackets at \$1.98

Every day next week there'll be big doings in our Cloak Section. All this season's stock must be disposed of before next Saturday night. We want the space for our New Spring Garments. On Monday morning we commence the final clearance by selling:

221 Women's Cheviot and Beaver Cloth Jackets; several different styles; black, navy, brown, grey and Oxford; sizes 32 inches to 42 inches bust measure; our regular prices are \$4, \$5, \$6.50 and \$7.50; to clear Monday... **1.98**

Flannelette Gowns and Drawers

One hundred and fifty dozen pieces of each, just sent over from our own workrooms, and reserved for Monday's selling at prices that wouldn't pay for your cost of material. We omit regular values—your own judgment will tell you their merits:

LADIES' GOWNS—Striped Flannelette; Mother Hubbard yoke; sailor collar; full around collar, down front and on sleeve; shades pink, blue and white stripes; sizes 56, 58 and 60 inches long; Monday... **1.33**

LADIES' DRAWERS—Striped Flannelette; in colors pink and white, blue and white stripes; elastic at knee; 30 and 32 inches long; Monday... **1.17**

Carpets and Curtains

Rather than have you all wait until April or May to buy your new floor coverings and draperies we'd like to distribute some of our new stock among the homes of Toronto right away. That's why we planned to have new Carpets and Curtains at special prices this month. We quote four examples for Monday, showing how much bigger money's worth is available just now:

875 YARDS ENGLISH BODY BRUSSELS CARPET; a large and splendidly assorted range of high-class designs in conventional, geometrical and Oriental effects; beautiful colorings, in green, blue, crimson, fawn, brown and wood shades; suitable for drawing-rooms, dining-rooms, libraries, halls and stairs; with 24 and 54 borders and 34 stairs to match; regular \$1.15 and \$1.25 per yard; on sale Monday at... **.90**

960 SQUARE YARDS SCOTCH LINOLEUMS, 2, 3 and 4 yards wide; a strong range of new, attractive designs; in floral, block, tile and parquetry effects; made in an extra heavy quality; well painted and thoroughly seasoned; a cloth that will give excellent wear in kitchens, halls, dining-rooms, bathrooms, etc.; regular price 55c, 60c and 65c a square yard; on sale, per square yard... **.40**

107 PAIRS EXTRA FINE LACE CURTAINS; 54 to 60 inches wide; 3 1/2 yards long; ivory or white; overworked cord edge finish; mostly single borders, with very dainty scroll and floral outlines; this curtain makes a very light lacy window decoration; regular value \$4; Monday, while they last... **2.00**

73 PAIRS HEAVY TAPESTRY CURTAINS; 50 inches wide; 3 yards long; fringed top and bottom; reversible all-over designs; with fancy borders across bottom; colors blue, crimson, olive, brown, green and terra cotta; this curtain has a fine, bright finish, making it very effective; regular value \$4; Monday, while they last... **2.75**

Monday's Sale of Clocks

Even the small Alarm Clock we sold at 65c carried our guarantee to give satisfaction or money refunded. The same guarantee holds good for all our clocks, no matter what the price we ask for them. We get the best movements from reliable manufacturers, and if they go wrong we'll cheerfully make good the defect.

To emphasize our selling of Clocks we offer two lines on Monday at very special prices—much less than you're accustomed to paying even at this store:

Mantel Clocks; black mahogany finish on hardwood; with marbleized wood trimmings and bronze mountings; 15 inches wide, and 19 inches high; fitted with 8-day Seth Thomas movement; hour and half-hour cathedral gong strike; regular price would be \$7; our sale price Monday, complete with ornament... **4.20**

Desk or Boudoir Clocks; gilt finished; fancy frame; fitted with reliable American movement; regular price would be \$2.25; our sale price Monday... **.98**

Boys' New Suits for Spring

The boy who gets his spring suit from our stock will be the best dressed boy at school, because our styles are not of the common ready-made kind, but are made with the same care and attention we give to Men's Clothing. Making for our own trade gives us that advantage, and also makes prices much in favor of those who buy from our stock.

We have selected a few prices to show how our values run in Boys' Suits. These are new goods, made expressly for our spring trade:

Two-Piece Suits

Boys' Suits; short pants; dark checked tweeds and navy blue serge; single-breasted coats; neatly pleated; pants lined; sizes 28 to 38... **1.50**

Boys' Suits; double-breasted style; dark checked Canadian tweeds; Italian linings... **2.00**

Boys' Navy Blue All-wool Serge Suits; short pants; in single-breasted, double-breasted, and Norfolk jacket styles; sizes 28, 24, price \$2.25, 25, 26, price \$2.50; 27, 28, price \$2.75... **2.75**

Boys' Suits; made of navy blue best worsted serge; coats single-breasted; neatly pleated; sizes 28, 24, price \$2.25, 25, 26, price \$2.50; 27, 28, price \$2.75... **3.75**

Three-Piece Suits

Boys' Suits; short pants; single-breasted saque shape; in navy blue English serge and dark Canadian tweed; sizes 27 to 33... **2.50**

All-wool Dark Checked Canadian Tweed Suit; short pants; single-breasted saque shape; in navy blue Italian linings... **3.00**

Boys' Suits; short pants; single and double-breasted; all-wool dark checked Canadian tweed; good Italian linings... **3.50**

Navy Blue All-wool Serge Suits; short pants; double and single-breasted; Italian lining... **3.75**

All-wool Dark Checked Domestic Tweed Suits; with red overplaid; single-breasted saque shape; Italian linings... **4.50**

GOVERNMENT AND THE SCHOOL BOOK MONOPOLY.
One of the principal grievances that exist throughout the province against the Ross administration is directed against the iniquitous school book monopoly. Everyone nowadays is aware of the cheapness with which books are produced. It is only necessary to compare the books authorized by the Minister of Education with the ordinary books of commerce, published under competition, to get an idea of the extravagant prices at which the former are sold. Every process in the manufacture of books is much cheaper to-day than any former time. Paper is a great deal cheaper, while the mechanical processes connected with printing have been improved and cheapened in every direction. There is no doubt that the books used in our schools could be better than those now charged. This great reduction could be effected either by opening the publication to competition or by establishing a printing bureau to publish school books at cost price. The school book monopoly is a live issue throughout the whole province. The Berlin Trades and Labor Council discussed the matter the other night and passed a resolution in favor of having school books printed and published by the government. The resolution of the Berlin Trades and Labor Council will meet with the almost universal approval of the electors of this province. If there were any means of taking a referendum on this question we venture to say that it would secure 90 per cent. of the vote polled. Reform of this kind, however, are not possible under an administration that has been in power for a quarter of a century. The government is so completely tied up to corporations and monopolies that it is simply impossible for it to extricate itself. However much inclined it might be to adopt the popular view of any question, the government's disinclination, or disability, to establish a government printing bureau for the publication of school books is only a sample of the weaknesses which pervades its whole system. It cannot let the public have access to the power of Niagara Falls, because that power has already been pre-empted by a private monopoly. It cannot enforce the liquor law, because the government remains in power at the mercy of the liquor interests. It cannot regulate the rates of electric railway companies, because it is equally at the mercy of those who control this interest. In short, after 25 years of monopoly, the government is so completely under the control of corporate influence that it really has no independent existence of its own.

A PARALLEL CASE.
Buffalo is only 22 miles from Niagara Falls, and yet that city pays more for its street lighting than any other city in Toronto. The street lighting of Buffalo is controlled by a monopoly, and consequently the original cost of producing electricity has little to do with the price charged for the lights. The contract for lighting the streets of Buffalo is about to expire. The city finds itself unable to get a lower rate than \$80 per lamp, and this price cannot be obtained till after a lapse of seven months, during which time \$105 is to be charged. A high price for street lighting in Buffalo, taking into consideration its contiguity to Niagara Falls, would be \$50 per lamp. The residents of Buffalo see the necessity of obtaining control of the distribution of electricity within the city, break up the monopoly, and create an electric corporation. There is consequently a movement in that city of the same nature as was started here some time ago, namely, to establish a municipal system of distribution, with a view to utilizing Niagara Falls power with the utmost economy. It is to be hoped that Buffalo will be more fortunate than Toronto in securing the necessary right to convey Niagara Falls power and distribute it within the city. It seems a simple concession to make, but the corporations are entrenched too strongly here to permit Toronto to get it, and we will be somewhat surprised if the City of Buffalo is able to obtain what cannot be had here. The experience of the two cities is strongly confirmatory of the fact that cheapness of production in any article is of little account if the article is distributed to the public thru a monopoly.

THE C.P.R. MAKING FOR SYDNEY.
A well-developed rumor is going thru the press to the effect that the Canadian Pacific Railway is back of a deal to secure control of the Dominion Iron and Steel and Dominion Coal Companies at Sydney, C.B. The rumor is denied by President Shughnessy, but the possibility of the great transcontinental corporation getting control of these two companies is considered not at all improbable in some circles. It is pointed out that, with the Intercolonial in its possession or control, connecting with the coal mines and steel works of Sydney, the road would practically control the coal fields of Canada. The steel plant is quite within the possibilities of the near future that they may require to manufacture their own steel. Of the \$20,000,000 worth of new stock to be issued, \$10,000,000 alone will be expended on the two engineering departments on bridges, rails, locomotives and cars, and the manufacture of its own steel, it is pointed out, would mean a saving of hundreds of thousands a year.

While the acquisition of the Steel and Coal Companies by the C.P.R. is more or less speculative, there is no doubt that the company has made Sydney one of its objective points on the Atlantic Coast. Sydney will, within a few years, become the most important seaport of the Maritime Provinces. Its geographical position in regard to Europe is much superior to that of Halifax and St. John. It is 400 miles nearer Europe than Halifax, and is only 100 miles further from the direct route between Great Britain and Quebec. Its immense deposits of coal further increase the importance of Sydney as an Atlantic seaport. There is no doubt the C.P.R. has in view the establishment of a fast Atlantic service, and it is not at all surprising that the company should doubt its objective point in connection with that service. Sydney, Lord Strathcona stated when he was last in Canada that Sydney would be the Canadian terminal of the proposed fast Atlantic service. It is not surprising that the C.P.R. will before long announce its plans for a really fast Atlantic service. Sydney will be the point of arrival and departure for those who wish to make a rapid passage, while others will embark and disembark in Quebec. Once the C.P.R. goes into the steamship business on the Atlantic it will not stop at fast passenger boats, but will take a hand in the freight business, a great part of which it would naturally control thru its dominion railways. If the C.P.R. were to adopt the consolidation idea as it has been developed in the United States it would not stop at adding an Atlantic steamship service. The acquisition of the Sydney plants would be fitting in line with the Morgan plan of getting into the New York Commercial center. To think the rumor has a good basis behind it. It says:

"The reports, which assert very positively an authoritative source, are not yet confirmed; but in starting the much talked of fast Atlantic steamship service, the C.P.R. is evidently in the preliminary stages of the Canadian Pacific to do so if the Sydney interests can be secured in connection with the railway company and its increasing control of subsidiary lines would result in an important step in the purchase of properties which would give it all necessary fuel and material for the manufacture of steamships and locomotives; while its intended purchase of the government's Intercolonial Railway would give it a direct line to the proposed fast Atlantic line and the line it operates between British Columbia, China, and Europe. The acquisition of the Sydney plants would be fitting in line with the Morgan plan of getting into the New York Commercial center. To think the rumor has a good basis behind it. It says:

SINKING OF THE STEAMER WAESLAND

Continued From Page 1.

made the Waesland stagger from stem to stern. Then there loomed right over her ship's bow the steamer which had run into us. The darkness was so thick that we were almost impalpable. The nose of the Harmonides appeared to have eaten right into our side. We were going very slowly, with no more speed than was necessary to keep headway. We struck at right angles a tremendous hole was made, and for a moment the stem of the Harmonides was literally inside ours.

A rush of excited people from all parts of the ship immediately ensued. The passengers tumbled up just as they had retired for the night. The men, women and children were in their night-dresses. In a few instances the passengers had thrown a shawl or blanket over their shoulders. Terror and bewilderment reigned for a few moments. But the passengers gradually regained themselves. In groups about the decks, where they were best sheltered, and the crew worked for the rescue of the other passengers. The only exception to the good behavior of the passengers was in the case of a saloon passenger, who rushed either and thither, calling in turns on heaven and earth to rescue him. Fortunately the other passengers were not affected by this man's pitiable mental agony, but were quietly marshalled to the lifeboats.

"The experience in the small boats was trying on account of the darkness and cold. We did not know exactly where we were, and for a long time could not discover the whereabouts of the Harmonides, who she was near by. The boats stood well away from the Waesland, for fear of being sucked down, and we could hear the wailing and tearing of the timbers as she seemed to break in two. Then there was a terrific explosion, as the men blew up, and all was over. We drifted and rowed for seemingly two or three hours, when we finally got in touch with the Harmonides. We had no difficulty in getting aboard. All our effects went to the bottom with the ship. The collision was terrific, alike in the suddenness of the shock and in the completeness of the steamship's destruction, and we think we most fortunate in escaping as we did."

A pilot boat met the Harmonides off the coast of England, and conveyed the news of the disaster to persons ashore, with the result that tugs were dispatched in search of the Harmonides, and accompanied the steamer to this port. Here the passengers were landed and comfortably housed. They will proceed to Philadelphia by the steamer "The Waesland," which has made a rule, escaped with only a few hours' delay. The Harmonides' stem and bow plates were torn and twisted that it appeared perilous to attempt to start her. She also has a deep rent in her 'tween-decks.

A passenger's experience.

"I am a passenger of the Waesland, and a very pleasant experience took the form of rushing to the lifeboats. I saw a man who had seven life belts attached to various parts of his body. Mr. Ferguson also saw many passengers wearing life belts upside down, so that if they had fallen in to the water their feet would have been uppermost. As the last boat, in which Mr. Ferguson was seated, was leaving the ship's side, cries of help were heard on board of her, and the boat returned to the Waesland and found two of her crew had been left behind. One of these men had slept through the time from the first impact to the last boat leaving the ship. The man was a feeling, and his perilous position when the sea water flooded his bunk thru the port hole.

THE TRUSTS AND ECONOMIC PRODUCTION.
The excuse put forward in justification of the big United States steel consolidation and similar undertakings is that the cost of such material as factoring on an extensive scale as compared with limited production. An exhaustive article in The Iron Age deals with the various methods and systems introduced by the Steel Corporation, such as uniformity in accounting, constant reduction of overhead charges, the management of the business, an insistence that every plant must in time attain the average economies of them all, the placing of every executive and superintendent or overseer exactly where he can be the most useful, and so forth. The organization is completed with studies and improvements are effected with sufficient illustration. This, as described by The Age, is a committee chosen by the officers of the constituent companies from among the keenest of the superintendents, managers or men in charge of departments engaged in the production of steel. Those who have made the best showing heretofore, men whose records prove them to be experts. "The aim," says our Iron Authority, "is always to have represented on each committee both technical and practical men. The committee, an executive committee, a Bessemer committee, a fuel committee, a rod mill committee, a committee for handling materials, a committee for the manufacture and use of sulphuric and muretic acid and so forth. In every branch of the business, these various committees is about like this:

"The aim," says our Iron Authority, "is always to have represented on each committee both technical and practical men. The committee, an executive committee, a Bessemer committee, a fuel committee, a rod mill committee, a committee for handling materials, a committee for the manufacture and use of sulphuric and muretic acid and so forth. In every branch of the business, these various committees is about like this:

THE TRUSTS AND ECONOMIC PRODUCTION.
The excuse put forward in justification of the big United States steel consolidation and similar undertakings is that the cost of such material as factoring on an extensive scale as compared with limited production. An exhaustive article in The Iron Age deals with the various methods and systems introduced by the Steel Corporation, such as uniformity in accounting, constant reduction of overhead charges, the management of the business, an insistence that every plant must in time attain the average economies of them all, the placing of every executive and superintendent or overseer exactly where he can be the most useful, and so forth. The organization is completed with studies and improvements are effected with sufficient illustration. This, as described by The Age, is a committee chosen by the officers of the constituent companies from among the keenest of the superintendents, managers or men in charge of departments engaged in the production of steel. Those who have made the best showing heretofore, men whose records prove them to be experts. "The aim," says our Iron Authority, "is always to have represented on each committee both technical and practical men. SUNLIGHT SOAP

\$5,000 Reward will be paid by LEVER BROTHERS LIMITED, who can prove that this soap contains any form of adulteration, or any injurious chemicals.

Two washings entail less cost for the same result than one washing with impure soap. Ask for the Octagon Bar.

THE NEW ONTARIO RAILWAY

Survey of the Route of the Projected Line Presented to the Legislature Yesterday.

COMMISSIONERS WILL GET \$1000

As Honorarium for Their Services

—Morning Sessions of House

Text Week.

In the legislature yesterday afternoon the survey of the route of the projected Temiskaming Railway was laid on the table.

The House, which started at North Bay, then ran northwards through the Townships of Widfield, Mulock, Merrick, Stewart, Osborne and Hammel. At a point near Red Water Lake the line crosses the proposed Nipissing and James Bay Railway, and it then touches the northeastern arm of Lake Temagami.

Then it runs through the Temagami forest reserve, and Buckle Township to the north of it, through Dymond Township, which is on the western shore of Lake Temiskaming.

Mr. Harcourt's Bill.

Hon. Richard Harcourt introduced a bill to adjust the differences respecting the maintenance of county high school pupils attending schools in counties from separated cities or towns.

The Attorney-General's bill to amend the Misdemeanor Statute Act was objected to by the opposition. It provides to do away with the oath which may be applied when persons have their names placed on the voters' lists.

The bill was allowed to stand.

In committee on resolutions the Commissioner of Public Works explained that an honorarium of \$1000 each would be paid to the commissioners that would supervise the construction of the Temiskaming Railway, and it was approved.

Objection was taken by the opposition to the clause in Mr. Gibson's bill to amend the Statute Law respecting the estates of infants, but the bill was finally advanced a stage.

A \$10,000 Grant.

The Attorney-General introduced a bill which was sent directly to committee authorizing the Village of New Hamburg to grant \$10,000 to the New Hamburg Manufacturing Company, which was burnt out.

Mr. Brewer asked: Was John Sullivan, late Inspector of Fisheries for the County of Elgin, short of weight the exact amount of such shortage? Who are his sureties? Did he resign or was he dismissed? Has any person been appointed in his place? If so, who?

The Commissioner of Public Works replied that Sullivan was short in his accounts \$250. This sum had been paid by a guarantee company, and Sullivan resigned. Charles W. Walcott was appointed his successor.

No Way of Finding Out.

The Commissioner of Crown Lands in answer to Mr. Morrison, said there was no way to determine the amount of pulp wood exported by private concern last year, but from Crown lands the North Shore Lumber Company exported 10,000 cords.

Mr. Latchford's bill to amend the Ontario Game Protection Act, Mr. Dryden's, respecting the fishery shanty; Mr. Carleton's, to amend the Ontario Factories Act, were read a second time. In connection with the last mentioned bill Mr. Carleton explained that it provided for a more thorough and systematic inspection, and also that inspectors make their reports in writing at least twice a year.

Private Bills Advanced.

These private bills were read a second time: Respecting the Algoma Steel Company, Limited.—Mr. Farwell.

To incorporate the Northern Power Company.—Mr. Commie.

To confer certain bylaws of the township of Cornwall.—Mr. McLaughlin.

To incorporate the Huron and Bruce Railway Company.—Mr. Farwell.

To incorporate the Canada Central Railway Company.—Mr. Commie.

To change the name of the town of Tilsonburg.—Mr. McKay.

Respecting the Algoma Tube Works, Limited.—Mr. Farwell.

Respecting the estate of William John Moore, deceased.—Mr. Trux.

FUNERAL OF LATE J. P. BULL

Yesterday was Largely Attended. By Old Residents of Toronto and York County.

BEAUTIFUL FLORAL TRIBUTES

Placed on the Casket—Impressive Services at the House and Grave.

Many old residents of Toronto and York County were present at the funeral yesterday afternoon of the late John P. Bull, J.P., which took place at the Prospect Cemetery.

The remains, encased in a beautiful casket, lay in the parlors of the residence surrounded by many handsome floral tributes sent by friends of the deceased.

A private service, attended by the family and intimate relatives, was conducted by Rev. W. H. Hincks, of Trinity Methodist Church, assisted by Rev. Thomas Cobb and Rev. Peter Addison.

At the public service, Rev. W. H. Hincks, Rev. Isaac Tovell and Rev. Griffin delivered a brief eulogy, eulogizing the life of the deceased.

On the conclusion of the service, the remains were borne to the hearse by Messrs. William P. Bull, B. E. Bull, L. J. C. Bull, W. D. Gregory, Clarence Fletcher and Ambrose Bull, of the cemetery. The last rites were performed by Rev. Mr. Hincks.

The chief mourners were: W. H. Bull, son-in-law; T. G. Bishop, brother-in-law; Pittsburg.

Among those present were: Emerson Costworth, Jr., Rev. Dr. Workman, John Goulding, Weston; Henry Duncan, East York; Rev. William Burns, Mrs. N. Clarke, Wallace, Woodbridge, Allan Royce, Davenport; Robert Clark, Dr. Hough, Dr. Wilmore, Rev. W. P. Wilson, Hamilton; Rev. Dr. German, Rev. Joseph Odery, T. F. Wallace, Woodbridge; Albert Eckardt, Percy Eckardt, W. P. Tass, D. F. Smith, A. McGregor, A. E. Williams, J. T. Culverwell, R. A. Graydon, Isaac Lennox, Inspector Archibald, B. P. Justin, Brampton; W. T. Lee, William Clarke, Downsview; William Tyrrell, Weston; Edward Galley, A. McLean, D. Montgomery, John J. Cook, W. A. Clarke, R. J. Bull, Weston, and C. Sylvester.

Branch P.O. in West End.

Ottawa, March 7.—Owing to the growth of Toronto in a westerly direction, it has been decided to make the purposes of the main office by establishing a sub-station in the west end, which will be in working order by July next. When it is in operation the matter will be carried direct between the sub-station and the Union Depot, thus greatly expediting the transmission of mail matter, which at present is greatly delayed by its roundabout course, having to reach its destination via the main office. A similar improvement is being carried out in the City of Montreal by the establishment of a sub-office in St. Mary's division, which will be equally advantageous to the mail service in Montreal. This station is also expected to be in operation next July.

Order to Be Issued.

Ottawa, March 7.—The Railway Committee of the Privy Council this morning agreed to issue an order to the Schomberg & Aurora Railway Co. to cross the Grand Trunk Railway track north of King Station. The order will be obeyed by the companies interested before it goes out.

Approval was given to the Grand Trunk plan of a proposed railway at a point in the Township of Thurlow, between Belleville and Foxton, to the mill and distillery of Mr. Hay at Corbyville.

The C.E.R. asked permission to lay six additional tracks across Maple and Main streets, Winnipeg. It was agreed that all parties should meet in a pipe and endeavor to reach a settlement.

Dr. Borden to Go.

Ottawa, March 7.—The Hon. Dr. Borden, Minister of Militia, will attend the big military tournament to be held in New York about the end of the month and will review the troops. The 48th Highlanders from Toronto are to attend. The troops will be reviewed on different days by General Miles, Commander-in-Chief; Major-General Brooks, Commander of the Department of Ottawa; and by Mr. Borden, Minister of Militia for Canada.

Public Accounts Committee.

Ottawa, March 7.—In the Committee on Public Accounts this morning the Auditor-General gave evidence relative to payments made on capital account for the Intercolonial Railway. Under examination by Mr. Barker and Mr. Haggart, he stated \$68,320, of a total payment of \$905,150 to the Canada Locomotive Company, Kingston, was paid on account to Messrs. Harty, Hovey & Birmingham, the original holders of the contract, who assigned their contract to the locomotive company.

Another Canadian Ill.

Ottawa, March 7.—Hon. Joseph Chamberlain has called Lord Minto to the effect that Clarence Ridout of the South African Constabulary is dangerously ill of enteric at Elandsfontein. Ridout's father is F. Ridout of Carleton County, New Brunswick.

Toronto Railway Company.

Great Earnings, Percentage February, 1902 \$128,068.75 \$10,292.50 February, 1901 110,475.88 8,838.07

Boiler Found Lashed to Schooner.

Vancouver, March 7.—A small schooner-rigged vessel was towed to Vancouver harbor last night with the boiler of a tug lashed to the stern. The vessel had been overturned by the storm Monday night, and was picked up by the tug yesterday in the Gulf. The only survivors were the crew. The names of the dead men are not known.

Was the Overworked.—What are the causes of dependency and melancholy? A disordered liver is one cause, and a prime one. A disordered liver means a disordered stomach, and a disordered stomach means disturbance of the nervous system. This brings the whole body into subjection, and the liver and stomach are not known. Vegetable Pills are a recognized remedy in this state, and relief will follow their use.

Sued for an Assault.

Boston, March 7.—Councillor H. B. Hunt has been served with a writ for \$500 damages issued at the instance of Editor J. W. Boyle of the World. Hunt assaulted Boyle one evening about three weeks ago and inflicted severe bodily injuries.

The Painter Who Stops Work

to tie his brush round with twine in the way his grandfather did before him is out of date and out of pocket, too.

save money, time and temper. The twine works on a pivot, thus retaining the full elasticity of the bristles. Very simple to remove or replace the twine when cleaning brush.

—BOECKH'S BRUSHES are all warranted. Sold by all leading dealers.

HOW ANDREFF FELL

Murder by Eskimos of Famous Arctic Explorer is Contained.

Winnipeg, March 7.—A report sent out from the Hudson Bay post at Port of Arctur, about two and a half years ago that Andre, the Swedish aeronaut, and his assistants had been killed by Eskimos is confirmed by advice received at the head office of the company here.

Aston Churchill, factor at Churchill, which is the company's most northerly point on the west coast of Hudson Bay, has written that after about two years' search the men sent out by him returned with a report similar to the one first published. "Traces of the daring balloonist and his assistants were followed for hundreds of miles, but it was impossible to locate the tribe which caused their deaths. The story of the searchers is that Arctic Eskimos saw "Onnaak" (one of their large boats) floating in the air. When it settled to the ground three white men, strangely dressed, came out with guns, which they indiscreetly fired, and the Eskimos killed with musket balls and everything of value taken.

Independent Forestry.

Although the large initiation of over five hundred members in one evening at the Temple Building has just gone by, Dr. Orshyk, the Supreme Chief Ranger, has now issued a circular to the membership of the Canadian Forestry Association, which is being made for a grand initiatory ceremony to take place at the Temple Building on the evening of the above-mentioned day to admit them to the order. The above date is the day previous to the leaving of the delegates from each district for the Supreme Court, which assembles in Los Angeles on April 29 next, and if the thousand members reached the announcement of this great achievement will be an evidence of the confidence of Foresters gathered there from the world over of the millions of delegates from the jurisdiction in which the home office of Independent Forestry is located.

Next Thursday.

Ottawa, March 7.—The bill of Mackenzie & Mann against the government, amounting to about \$300,000, will be heard in the Exchequer Court on Thursday next.

Amounts to \$501.

Ottawa, March 7.—The fund for the erection of distinctive memorials in South Africa upon the graves of the fallen Canadian soldiers amounts to \$501.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which affords relief in a few minutes, and frequently, valuable lives. This cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaints.

A LARGE BOTTLE, 25c.

Happiness in Strength

NATURE'S REMEDY

FREE TRIAL

It is every man's duty to really be a man. Why? Because there is no excuse for weakness. Folly during boyhood leaves its marks in nervousness, drains, impotency, lame-back, varicocele, shrinkage of parts, etc. But what of it? Sitting in a draft is a folly productive of a cold, but you assist in doing your weakness, my friend. Assist Nature. It's a duty you owe yourself and your family. The only natural aid is Electricity, not drugs. Every honest doctor says as much. That's because Electricity is Strength itself.

The Dr. Sanden Herculex Electric Belt

(1902 Model) gives you the current in the only practical way, because it is worn comfortably about the waist all night while you sleep. It sends a gentle, warming stream of new life for six or eight hours through the weakened parts. Benefits to back and nerves at once. This claim is based on my thirty years' practice. To prove my own faith I therefore, hereby agree to deliver to any suffering man or woman in any part of the world, one of these famous Electric Belts, on Absolute Free Trial for 60 Days; not one penny in advance or deposit. Either personally or write, send me one of a few symptoms. I will then fix Belt for you and arrange to deliver it to you free. Worn by women as well for rheumatism, etc. Upon receipt I send my two books together with symptom blanks free in plain sealed envelope. One book on disease in general, describes my Herculex Electric Belt. The other, for advice at office or by mail. There is but one best electric belt. Write or call before purchasing elsewhere.

Dr. A. B. Sanden, 140 Yonge St. (Corner Temperance Street) Toronto, Ont.

Office Hours 9 a.m. to 6 p.m. Saturday Evenings Until 10 o'Clock.

Public Amusements

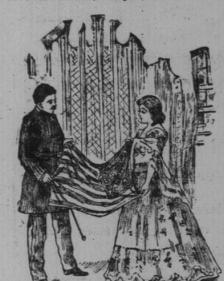

"The Climbers." Clyde Fitch's brilliant play of social life, will be presented for the first time in this city at the Princess Theatre during the latter half of next week, the engagements being limited to 4 performances. The theme

"The Climbers" at the Princess Theatre.

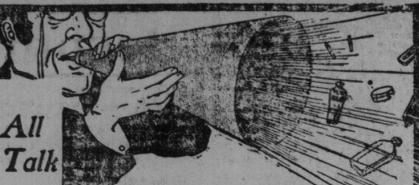

of "The Climbers" is the pursuit of social distinction by one set of persons in the play of wealth through dishonest methods by another, and of happiness and high ideals by a third. The sale of seats and boxes will open at the box office of the theatre on Monday morning at 9 o'clock.

The Story of "Barbara Franchise." Clyde Fitch's purpose in writing "Barbara Franchise," the play at the Grand Opera House next week, was to illustrate and illuminate the unwavering love of a young girl for the first man that had really seriously caught her affections, and to make plain that such a love rises superior, without effort or debate, to parental or patri-

"THIS IS THE FLAG I TOLD YOU OF LAST NIGHT—MY GRANDFATHERS."

otic ties. Miss Frances Gaunt, for several years identified with Charles Frohman's best plays, will enact the title role. She will be assisted by a very capable company, and the original New York production will be present-

No cures to report, no long record of testing, nothing to give you confidence—but talk, all talk. That's the truth about nearly all cough medicines. But there's a record of 60 years of cures back of Ayer's Cherry Pectoral. And physicians endorse it, prescribe it for colds, bronchitis, and coughs of all kinds. Probably your own doctor does. Ask him. He knows all about it—has the formula.

"I know from personal experience that Ayer's Cherry Pectoral is the best medicine in the world for quickly breaking up a heavy cold that has settled on the lungs."—D. C. SNEDEKER, Pine Hill, N. Y.

McC., S.M. J. C. AYER CO., Lowell, Mass.

ed here, with its wealth of scenery, costumes and effects.

Flax Quillier Sale. The Klaw & Erlanger Opera Company, the largest light musical organization in the history of the American stage, will appear at the Princess Theatre the week after next. The opera chosen for presentation is De Koven & Smith's "Flax Quillier." The Klaw & Erlanger Opera Company is headed by Jerome Sykes, by far the greatest of American singing comedians. There are three carloads of magnificent scenery and more than 400 splendid costumes are shown in the production. The regular prices for attractions of the first-class will prevail. The advance sale for the engagement will open next Thursday.

A New Play Coming. A real old-fashioned comedy melodrama, full of charming character delineations, is promised for patrons of the Toronto Opera House next week, when Manager G. D. Newell presents his romantic play, "New England Life," entitled, "A Jolly American Tramp." This play is said to be the best ever written by that veteran author, E. E. Kilder, who is responsible for Sol Smith Russell's great successes, "A Poor Relation" and "Peaceful Valley." With scintillating wit and comedy of a high order, pathos happily blending with laughter-provoking scenes, are said to be among the quaint conceits that will appeal to the heart strings as well as the risibilities of its beholders.

Pony Ballet at Shea's. The Pony Ballet, which will come to Shea's Theatre next week, is a novel English dancing act. Eight very pretty English girls go thru a series of fancy dances that are very interesting. The costumes are very fine, and the style of act entirely different from

anything heretofore seen in this country. The Pony Ballet comes from the Palace Theatre, London, where it was the reigning sensation of last season. It has met with great success during the short time it has been in this country, and will probably be one of the best features at Shea's during the coming week.

Stock Company Coming to Shea's. The announcement comes with surprise to the theatre-going public of Toronto that a change of policy will be made at Shea's Yonge-street Theatre, on Monday, March 17. On that day vaudeville will give way to stock. This does not mean that some cheap stock company will move into Shea's Theatre. Instead Mr. Shea has engaged about twenty people, each one being chosen for his or her particular qualifications in stock work.

Grossmith To-Night. George Grossmith, the famous humorist and actor, returns to-day for his final appearance in Toronto at Massey Music Hall this evening, when he will be greeted by another large house. Mr. Grossmith introduces several new features to the program this evening, including a remarkable piano solo, and among his other numbers he will give his famous monolog, "How to Compose a Scotch Song."

The Devil's Daughter. The great Pan-American success, "The Devil's Daughter," by Minner & Van Osten's "Devil's Daughter" Company with 50 people, is to be the next attraction at the Station Theatre, commencing Monday next. Over 275 performances of this burlesque were given in Buffalo, which marked a record that no other theatrical attraction ever had within halting distance of that city. The burlesque is just the kind of a production which is attractive to people who come to the great city

on pleasure bent and who demand something far out of the ordinary as diversion, and the "Devil's Daughter" is that in every sense of the word.

Max O'Rell on Monday. Max O'Rell, the famous humorist, will arrive in Toronto to-morrow in ample time for his lectures at Massey Hall on Thursday evening, March 13. At 10 o'clock he will interest the ladies in discussing "Her Royal Highness," and in the evening he will give his diverting lecture on "Peculiar People I Have Met."

Kubelik and Planket Greene. Kubelik, the wonderful violinist, who created such a sensation here on his first appearance, returns for a second concert on Thursday evening, March 13. The sale of seats will begin on Tuesday next at Massey Hall.

1200 IMMIGRANTS WENT THRU

The City Yesterday en route to the Western States.

The Union Station was a busy thoroughfare yesterday, over 1200 immigrants passing thru en route to the Western States. The first contingent arrived at noon hour via the C.P.R., and numbered 600 persons. They dined at the Union Station restaurant, after which 400 went on to Buffalo, and the remaining 200 went to Detroit. The second party of 600 came in last night, and after lunching here, proceeded their journey westward. The immigrants arrived at Halifax on the steamer "Newark" on Sunday evening, and were enabled in mid-ocean. It was the intention to land them at New York, but owing to the accident, they were towed into the former port by the Karlsruhe and Mallin Head. As a result of the accident the C.P.R. secured a good thing from a business standpoint, otherwise they would all have been carried to their destination by American ports.

The series of photographic views that the G.T.R. exhibited at the Pan-American Exposition at Buffalo will be shown to the people of Ohio, Michigan, Indiana, Kentucky and Pennsylvania, believing that the same will prove a great incentive to them to visit the Highlands of Ontario, which are artistically pictured in the collection. In the collection are over 100 pictures, each measuring 3 ft. 6 in. by 4 ft. 2 in., including specimens of black bass, muskellunge and land locked salmon. A representative of the company will accompany the exhibit, which will open in Saginaw, Mich., on Monday. The tour will occupy about 10 weeks.

Nevoy Kosovitch. Buda Pesth, March 7.—The proceedings in the Lower House here became so turbulent to-day that the session had to be closed. The Kosovitch rebelled at the quashing of the election of one of their deputies, and their passionate denunciations filled the House, preventing the Premier, Coloman des Zeli, from speaking.

Thompson-Seton Stops Lecturing. Chicago, March 7.—Ernest Thompson-Seton will say farewell to the lecture platform on Saturday after an address to children and a similar talk to other people in the evening. Mr. Thompson-Seton has accepted a new paper position in Philadelphia and will give up lecturing.

Rev. J. C. McCracken, incumbent of Holy Trinity Church, Chesley, Ont., and the members of the congregations presented the pastor and his wife with handsome pieces of furniture. The Rev. J. C. McCracken, incumbent of Holy Trinity Church, Chesley, Ont., and the members of the congregations presented the pastor and his wife with handsome pieces of furniture.

A Popular Company. The arrival of a carload of first-class delivery horses, consigned to the City Dairy Company, Limited, purchased by the city, has attracted the attention of the city's veterinary inspector, Dr. Galbraith, is another evidence of the high quality of the company's stock.

Two Englishmen Dead. London, March 7.—William Rathbone, the well-known Liverpool ship owner and philanthropist, died at Liverpool last evening, aged 82. Mr. Rathbone sat in parliament for several years, and was one of the representatives of Liverpool, and afterwards of a Welsh constituency. He was a great author, an able writer, the firm of Rathbone Bros. being one of the oldest in Liverpool, and at one time carrying on a great trade with American ship owners and merchants.

Resorts for March. Atlantic City, Asheville, Pinehurst, Summerville, Charleston, Old Point Comfort, St. Augustine, Jacksonville, Thomasville, Miami, Nassau are best reached via Lehigh Valley Railroad via Philadelphia and Washington. For excursion rates, full particulars, call on Robert S. Lewis, Passenger Agent, 33 Yonge-street, Board of Trade Building, Toronto.

No Cause for Alarm. London, March 7.—No further news has been received here regarding the Cunard Line steamer "Edith" (from New York Feb. 23 for Queenstown and Liverpool), which is in tow, disabled, on the coast of Newfoundland. The officials of the Cunard Line declare there is no cause for alarm.

Brutal Burglars. Butler, Pa., March 7.—Three masked men broke into the house of Henry Smith, a wealthy retired farmer at Saxenburg, Penn., last night and brutally murdered the old man and returned Mrs. Smith in a fiendish manner.

Cholera at Medina. Constantinople, March 7.—Cholera has broken out among the pilgrims at Medina. One hundred and thirty of the disease have occurred.

French Ship Deaths. Paris, March 7.—The Senate to-day passed the ship bounty bill with a few changes. The text was unanimously adopted by the Chamber of Deputies.

Cures Weak Men Free

Send Name and Address To-day—You Can Have It Free and be Strong and Vigorous for Life.

INSURES LOVE AND A HAPPY HOME.

HEALTH, STRENGTH AND VIGOR FOR MEN.

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicose, etc., and enlarge small weak organs to full size and vigor. Simply send your name and address to Dr. Knapp Medical Company, 1238 Hull Building, Detroit, Mich., and they will gladly send the free receipt with full directions as to how to use the medicine. It is a boon to weak men. Show what men think of their general health. Write to the doctor.

OWEN SOUND NEWS. Owen Sound, March 7.—The first anniversary of St. Thomas Church, Brooke, will be held on the 16th, when the pastor, Rev. G. M. Franklin, will be assisted by Rev. William Hinde, rector of Christ Church, Shelburne.

Life is Made of Time. E. H. Benson of Co., for many years yet more we squander. Often it is lost by using out-of-date implements. Many painters lose time by stopping to wind twine round their old-fashioned brushes. An up-to-date painter, however, takes care to purchase Roebek's Bristled Paint Brush, which works on a pivot, and the bristles are so easily and quickly removed or replaced when cleaning, that it saves him time and money.

Accused of Selling. Victoria, B.C., March 7.—The opposition fought the government last night, the Premier being accused of selling his Comox & Cape Scott charter to Mackenzie & Mann. The government adjourned till Tuesday, refusing to bring down the telegrams and other documents connected with the negotiations with Mr. Greenshield.

ABOUT CATARRH CURES. The Reason Why Inhalers and Local Applications Are Useless. For many years catarrh was considered to be a local disease, and was treated only by local remedies, such as ointments, powders, sprays and inhalers, and nearly all of these gave a temporary relief, but a genuine permanent cure was very rare.

It is true the most annoying symptoms, the stoppage of the nose and crusty mucus, are purely local, but they are simply symptoms, and the real seat of disease is far removed. Catarrh is a constitutional disease, a blood disorder, complicated usually with disease of the liver, and to supplant local applications of sprays, powders, inhalers, etc., can never reach the real cause of the trouble in the blood.

The sensible and successful treatment is to remove the catarrhal poison from the system by regulating the liver and purifying the blood, this can only be done by an internal remedy, which should consist of antiseptics and remedies to act vigorously on the blood and liver.

The best preparation of this kind, which fills all the requirements of a safe, constitutional treatment, is Stuart's Catarrh Tablets, composed of Blood Root, Red Gum and similar wholesome antiseptics, which are absolutely safe, and into the stomach, and which act upon the liver, stomach and mucous membranes, long since Stuart's Catarrh Tablets are large, pleasant-tasting lozenges, to be slowly dissolved in the mouth, thus reaching the mucous membrane and wind-pipe and finally reaching the stomach.

Dr. Edmondson in speaking of the new treatment for catarrh says: "I have accomplished the most satisfactory results in all cases of catarrh of the head, throat, stomach and bowels, as well as catarrh of the stomach and liver, by using nothing else but Stuart's Catarrh Tablets. I long since threw aside sprays and inhalers as being inconsequential, and at the best mere temporary make-shifts."

Stuart's Catarrh Tablets act immediately upon the liver and blood and clear the system of catarrhal poison. They are pleasant and very convenient to use, and they are not only the best, but certainly the safest, treatment for any form of catarrh. All druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package. A little book on catarrh and "Cure of Catarrh" mailed free by addressing the F. A. Stuart Co., Marshall, Mich.

JOYFUL NEWS FOR WEAK MEN.

For men who have spent the fire of youth; men who long for the old-time vim, courage and ambition; men who dread the nights that bring no rest; men whose bodies are racked with pains and whose minds are tortured by a realization of the loss of youthful vigor.

Are you a man of this class? Are you in any respect wanting in that unsexed but very important element which is called "manly vigor"? Would you like to feel stronger, more self-reliant, more energetic, more joyful and popular among your acquaintances? Have you any pains, spells of nervousness, periods of debility, attacks of stomach, kidney, liver or heart troubles? If so you must know that what has restored the joys of life to thousands of other men must be a blessing to you, for it can restore the sparkle to your eye, the spring to your step.

DR. McLAUGHLIN'S ELECTRIC BELT

has restored health and strength to thousands of nervous, debilitated and pain-worn men and women. You also can be cured if you will grasp the opportunity I offer. Read what the cured say. Electricity, as furnished by my Belt, cures by giving back to the weakened nerves, muscles and organs the vitality they have lost, reducing inflammation, developing the full vigor of health and removing the effects of overwork, exposure to weather and long continued sickness. To those who have trusted and been betrayed by seductive promises; to those who have swallowed painful pills and liquid medicines without result except a damaged stomach and increased pain and weakness, and to those who have worn so-called electric belts, which either burned and blistered the body or gave no electricity, I offer a positive cure by means of my Electric Belt. It gives a stronger current than any other, and is guaranteed not to burn nor blister.

DR. McLAUGHLIN'S OFFER.

I am not giving Belts away. I am offering to cure first and be paid after you are cured. I have an Electric Belt which DOES CURE. I know there is no better way to prove my confidence in the wonderful curative power of my Belt than to cure you before you pay for it. This offer is open to anyone who will secure me. All I ask is that you give me evidence of your honesty and good faith by offering reasonable security. I will then take your case on the conditions of

NO CURE, NO PAY.

Cures That Prove the Good Dr. McLaughlin's Electric Belt is Doing:

Made a Man of Him. A Lady's Grateful Report. Another Case of Rheumatism. Gained Eight Pounds in a Month.

DR. M. O. McLAUGHLIN, 130 Yonge St., Toronto, Ont. Office Hours 9 a.m. to 5.30 p.m.

CAUTION. Beware of old style, burning electrode Belts, which are using an imitation of my cushion electrodes. My office contains bare metal electrodes. I will make special terms to anyone having one of these old back burners. Call and see the improvements in my Belt, or write to my free book. Every man who admires the perfection of physical strength should read my beautifully illustrated book. It tells how strength is lost and how I restore it with my Electric Belt. I will send this book, closely sealed, free upon request if you will send this ad. If you are not the man you should be, write to-day.
