POLICE BULLET KILLS RUNAWAY PRISONER CHIEF UNDER ARREST

Chief Kimball of Leamington Shoots Young Man Accused of Fraud in Jumping Board Bill Incurred - Was Trying to Scare.

CORONER'S JURY WANTS RESTRICTION OF ARMS

TILBURY, Ont., July 28.—(Special.)—Fired on at less than five feet, by Alex. J. Kimball, chief of the Leamington police, who had attempted to arrest him, William Healey was killed this morning, in full view of his three-weeks' bride. Kimball is now locked up in the Chatham Jail, awaiting trial for manslaughter.

The cause of the unfortunate affair was an unpaid board bill. A year ago Healey married a daughter of Richard Wellington of this place, and the couple spent considerable time boarding in Leamington, where Healey had been working. Last week they came to visit at the bride's former home, and it is alleged, left Leamington without paying their board.

His landlady kept his valise until he gave her an order for the amount, and after delivery of the valise, she claimed the order was a fraudulent one, and hence the warrant for his arrest.

Early this morning, Chief Kimball arrived in town with a warrant for Healey's arrest on a charge of fraud. Without waiting to notify the local police, he went straight to the Wellington home and asked for Healey. The young wife answered the door and said her husband was in bed. The chief was ushered into the parlor, where he read the warrant to Healey and placed him under arrest.

The prisoner said he wanted to wash and went to the back of the house, and at once ran out of the back door.

Kimball made a dash after him and chased him around the house into the front door, where a fierce scuffle ensued. Healey broke loose and again got thru the back door entrance, with the policeman after him. The fugitive scaled a fence and had taken about three steps when Kimball, who had charged the fence, fired, he says, to scare him.

Healey dropped in his tracks with a bullet in his back. Medical aid was summoned, but the victim died in 15 minutes within 50 feet of where he had fallen. He could barely summon enough strength to bid farewell to his wife and to tell her to notify his mother, who lives in London.

Surrendered Himself. Chief Kimball immediately surrendered himself to Magistrate James Inwood, and was detained until the inquest opened at 4 p.m. under Coroner Dr. McCough, who presided. The following verdict was rendered:

"That the said William Healey came to his death from the wound of a bullet discharged by the hand of Elliott J. Kimball, who in the said Wm. Healey was running away to avoid arrest at the hands of the said Elliott J. Kimball, and that we would recommend that some restrictions be placed upon the carrying of police arms by the constabulary of the province."

Kimball was then arrested by local Chief Constable Wm. A. Smith on a warrant issued by Magistrate H. H. Smith, charging manslaughter. He was remanded for preliminary trial until Monday at 10 a.m. and taken as prisoner to Chatham Jail.

Solicitor O. G. Lewis appeared for Kimball and brought out evidence pointing strongly to the accidental theory, as Kimball, it was shown, was firing above the fence at the time he fired the fatal shot.

Meanwhile the crown attorney will get into consultation with the attorney-general's department as to whether or not bail should be accepted for the prisoner.

Fifteen Years on Force. Kimball is 32 years of age, and was brought up in the vicinity of Leamington. He has been attached to the constabulary 15 years and was appointed chief of police two years ago. He is very highly respected, and feels the incident deeply. He had no intention of killing Healey, he protests, but after the prolonged struggle, and in the excitement of the moment, when the prisoner was undoubtedly escaping, he involuntarily pulled his revolver as the only means of making him stop, and fired.

INJUSTICE CAUSES WARS.

Eliminate It, and Peace Will Be Perpetual. LONDON, July 28.—The business session of the seventeenth universal peace conference, the regular session of which opened in this city yesterday, was inaugurated to-day with a speech by Lord Courtney, who emphasized the close connection between justice and peace.

He declared that there would be no wars if injustices were driven out of the world, and that the first step in this direction was to develop the strength, scope and purity of international law, which covers above individual nations just as the national law was above individual citizens.

ON LEE'S TRAIL. NIAGARA FALLS, N.Y., July 28.—A press dispatch from Boston that Ed. Lee, the alleged murderer of Patrolman McCormick, had been arrested in that city as he was attempting to board a steamer, caused considerable excitement to-day. He is said to have been seen at Syracuse since the shooting.

Explanation for Vanished Exhibition Surplus Discovered By City's Special Auditors—Treasurer Furnishes Bond.

QUEBEC, July 28.—(Special.)—A speedy adjustment followed yesterday upon the heels of the surprising discovery made by Auditors Barber and Vigon, specially appointed to investigate methods of civic bookkeeping, that the sum of nearly \$10,000, being the surplus from the fair of 1907, did not appear in the cash book of the Industrial Exhibition Association.

As a result of the mayor's prompt action in calling a special meeting of the board of control to deal with the situation, the city was secured from loss by compelling the giving of a bond by Treasurer Col. Knox Leslie more than covering the apparent deficit, which exceeded \$9000.

The 1908 accounts had been certified correct by City Auditors Anderson and Jones, the latter now retired, who had evidently overlooked the fact that the amount of the 1907 surplus had not been carried forward to the cash credit of 1908. The special auditors, however, noted the difference and apprised the mayor, who at once, as said, took measures to have the debt made up, pending further investigation of the accounts.

Work Done in a Hurry. Treasurer Leslie, when asked to explain the circumstances, said that an error in bookkeeping was responsible. Owing to the annual meeting of the directors having been held this year a month earlier than usual, he was compelled to prepare his statements with unusual haste, and thru a mistake the amount was not duly credited to the cash account.

MISSIONARIES RETURN TO ENJOY FURLOUGH

Quite a Movement of Men and Women Who Are Serving the Master in Foreign Fields.

Many missionaries are now on the move, or preparing to soon be on the move, either coming on furlough from or going to foreign fields from Canada, and, despite the great exodus provided by the various denominational societies, urgent appeals are still coming in to the head offices from the seats of evangelical activity.

A request for 14 men workers was received at the Presbyterian Foreign Mission offices yesterday from the Presbytery at Honan, China. They ask for 8 men and 6 ladies of educational, medical and evangelical qualifications.

Rev. Wm. Gault, who has terminated his one-year furlough in Ontario, left Toronto Monday night for Formosa, where he will continue his former activities. At Winnipeg he will join Rev. Mr. Hardy and Mrs. Hardy, who are about to set forth for Honan, China.

Mrs. Johanna Gortoff is expected to arrive in Toronto in a day or two from Honan, China, accompanied by her five youngest children. She will remain in the city, as the children have attained ages where they require advanced educational attention. Mr. Gortoff will remain in China for two years. Their eldest son is at present recovering from an acute attack of rheumatic fever at his uncle's home in Picton, Ont.

MAYOR STEWART EXPLAINS WHY HE WILL NOT SIGN

Circumstances Such That Cataract Bylaw is Not in Accord With the Wishes of Citizens.

HAMILTON, July 28.—(Special.)—Mayor Stewart today issued a statement giving his reasons for not signing the bylaw agreement with the Cataract Power Co. His worship points out that the ratifiers of the city council to enter into a contract with the hydro-electric commission, and without even considering the contract offered by the commission, the aldermen turned around and closed a deal with the Cataract company, shutting out all chance of carrying out the will of the people.

The mayor remarks that it is possible that the Cataract aldermen will apply to the courts for a mandamus to compel him to sign the bylaw, and that he may be stuck for heavy costs, but he says that he feels it his duty to do all in his power to prevent the council from thwarting the will of the people.

There will be bands and all kinds of fireworks for Bobby Kerr and Jack Caffery when they return. Many prominent citizens met this evening at the Royal Hotel and started the ball rolling. Mr. Stewart was in the chair, and George F. Ballard acted as secretary. A committee consisting of the Olympic committee and Messrs. J. M. Eastwood, A. B. McKinstry and M. J. Cummings was appointed to arrange the details. Testimonials will be presented to both the runners.

The much-postponed moonlight of St. Patrick's Club was held on the steamer Modjeska this evening. There was a large attendance. The 18th band furnished music.

The city hall employees entertained the mayor and aldermen at a picnic at Oaklands this afternoon. There were a number of features, including a baseball game between the city hallites and the aldermen, the former winning by a score of 24 to 11. Battered Stewart and Howe, Clarke and Dickson.

Honourably Acquitted. William Stewart this morning honourably acquitted of the charge of false pretences, laid in connection with a stock transaction.

Edward Baugh, son of Dr. Baugh, inherited \$100,000 from his aunt, Mrs. Amelia Mainwaring, Toronto, and his sister, Mrs. Tebb, \$50,000 and a life interest in \$4000.

Mr. Men Thomas, mother of G. H. Thomas, clerk of the surrogate court, died this morning.

The late information from Hon. J. S. Hendrie is that Lord Roberts will visit Hamilton on Saturday, Aug. 8.

The police here think they have a new case against Harry Williams, alias Arthur Cavanaugh, under arrest in Toronto, on the charge of robbing R. S. Morris' house.

Mr. Christian was given two years this morning by the magistrate for theft.

A number of youths were fined \$5 each this morning for bathing without the proper regalia.

WILL LET MACEDONIA STRAIGHTEN ITSELF OUT

No Interference by Powers—Britain Not Trying to Isolate Germany.

LONDON, July 28.—The Macedonian question was raised in the house of commons last night.

Sir Edward Grey, secretary for foreign affairs, said that the situation had changed suddenly and greatly in the last few days. Turkey herself was going to improve the whole government and the country to benefit Mussulmans and Christians alike.

It was better, he said, that the Macedonian question should thus be settled by the Turks themselves than that partial reforms should be pressed upon reluctant and obstructive authorities.

"We ought for the present," added the secretary, "to preserve an expectant and sympathetic attitude toward these changes."

He deprecated the idea of intervention in Persia unless the Persian subjects became threatening.

Sir Edward took occasion to reiterate in warm terms the idea that Great Britain's policy was aimed at the isolation of Germany, or that she had any reluctance to be on good terms with Germany. He said that while Great Britain must be free to make arrangements like those with Russia and France, in order to remove the causes of friction, such policy implied no enmity toward other powers.

The foreign secretary's reference to Germany, which was drawn out by a discreet speech by Sir Charles Dilke, was rather unexpected and was much canvassed afterwards in the lobbies.

The inference also was drawn that the government was desirous of arriving at an understanding with Germany regarding the causes of friction, which had been reached with France and Russia.

HE GAVE THE PRINCE HIS JOB.

Lord Grey is entitled to a rest. So are all his co-workers in the Quebec celebration. The Prince of Wales, as an old sea-dog, must sniff the salt air with renewed zest when he finds himself seaward this morning. Sir Wilfrid Laurier will be glad to be back at his trade of cabinet-making. Sir James Pliny Whitney must be longing to look from his upper front window on the green grass and the flower-laden foliage of Queen's Park. Col. Denison sighs again for "thirty days" at home.

As for Samuel de Champlain (for as we would call him in English, Mr. Sam Plamfield), he and his little craft, the Don de Dieu, will withdraw into that eternal solitude whence they came forth but for a moment.

Our good friend John Baptiste will have not yet got over his wondering as to what it all meant and as to whether Sir Wilfrid Laurier really gave the Prince of Wales the job he is now holding down so satisfactorily.

STANDS BY THE PEOPLE.

By declining to be stampeded into signing the agreement with the Cataract Power Company, passed by a majority of the council in defiance of the express instructions of the citizens of Hamilton, Mayor Stewart deserves and should receive hearty commendation. His course throughout the struggle with the company has proved him to be an able, honest and fearless public servant desirous that the interests of the people should be protected, not only in the matter of electric power, but also in the exercise of their right to declare what shall be the policy of the city regarding it. The mayor did not take up an irreconcilable position towards the new offer of the Cataract Company. He and his supporters were quite willing to leave the option to the people by another referendum. It was the majority of the council, partly composed of aldermen who had been elected on distinct pledges to vote for public power, that proposed to nullify the decision of the citizens and absolutely declined to invite another expression of electoral opinion. On this ground alone the mayor is fully justified in requiring judicial direction before irrevocably committing the people of Hamilton to a policy contrary to that which had approved in no uncertain manner.

PRINCE PROFOUNDLY-MOVED

Important to Understand Greatness of Canada.
(Canadian Associated Press Cable.)
LONDON, July 28.—The Prince of Wales told a special correspondent of The Times that he was profoundly moved by his experiences in Canada. The visit had made him feel more than ever the absolute necessity of increased efforts to make the people of Great Britain understand the greatness of conditions and opportunities in Canada, as well as the other great colonies.

A Paradox of Paradoxes.

We recall an old Roman saying, "Populus vult decipi et decipi." which translated colloquially means, "The people like to be humbugged and they are." This easily understood bit of psychology has its truth made obvious by a special case connected with the University of Toronto. Only on the particular psychological ground given can we understand why the people of Ontario stand for an unpaying investment, namely, the money earned nothing during the summer months when the buildings of Toronto University are empty, and being put to no use whatever.

The University of Toronto is supported chiefly by appropriations from special provincial revenues. What sane business man would invest his money in, say, a manufacturing company, incorporated and capitalized, and then sit patiently while the factory or plant stood idle for several months in the year, for no other reason than that the directors made no effort to keep the investments somehow earning money?

Yet we must see this unprofitable procedure happening daily in the case of the University of Toronto. And what makes the situation singularly absurd is this paradox of paradoxes, that during the college session the students are expected to listen to lectures on economics and political economy by professed experts in these sub-

ONTARIO'S NEW FOUR MILLION DOLLAR LOAN

Likely to Be Placed in the London Money Market Early in October.

It is probable that Hon. Col. Matheson, provincial treasurer, will be called upon by his colleagues to make a visit to England within the near future to float the permanent four million dollar loan. This credit was granted by the legislature. The government simply availed itself of half the amount and issued treasury notes for the \$2,000,000. These mature on November 1. The peculiar monetary conditions have made deliberate action prudent, and they are still too unsettled in London to issue the loan. The government has made deliberate action prudent, and they are still too unsettled in London to issue the loan.

MR. HEARST AND THE INDEPENDENTS.

On Monday the first national convention of the Independence party opened in Chicago and it introduced a factor into United States politics whose possible influence on the coming presidential election is creating speculation and unusual interest. It already has remarkable and novel characteristics in that it is organized by regular charter of incorporation on the personally conducted plan, the guide and director being William Randolph Hearst, who, despite his previous failure, remains the dark horse of the political field. In their appearance on the national stage the Independents have the further prestige derived from the fact they have already played in the affairs of the states, and localities covered by Mr. Hearst's journals. This gives the Independents an initial advantage and tides them over a difficulty which has adversely affected the efforts of other invaders on the regular party preserves to attract the popular ear.

A People's University.

Editor World: I have read with interest your articles on the new store of the Robert Simpson Co., Limited. It seems to me that you might say something about the plans of the management for making the new store of the Robert Simpson Co., Limited, more than a mere store. Permit me to offer a suggestion.

Years ago a man said to me: "If you want to get an education in matters not included in the studies of a university course, there is no better place to acquire it than in a large department store. Suppose you are a student of fine art. In a department store you can find all the material for a real (not book) study of fine art and architecture. You can study the actual handling of silks; then, again, large department stores have good exhibitions of pictures, in oils, water colors and black and white. It is a most interesting place for getting a free education than the different sections of a large department store."

So I believe the management of the new store of the Robert Simpson Co., Limited, can make it practically a people's university; and I suggest that they provide a lecture room for the employees, where instruction can be given them about rugs, pictures, silks, books and what not. It will make life better for them and assist their salesmanship. J. Daniels.

Eaton's Annual Shirt Sale STARTS THURSDAY

The "Economy" of an event that in three or four days disperses over 22,000 Men's Shirts is food for the consideration of every man.

That was last year's shirt sale record.

Now read what awaits you this year:

35,000 Neglige and Laundered Shirts, secured from four of the country's best shirt makers, to clear in this sale. Makers that use the best and latest patterned Scotch Zephyrs, Madras, Cambric and Corded Goods, and make them as shirts should be made. Thousands of these shirts are usually sold at comparatively "fancy" price throughout the country.

We secured them by power of cash at a time when the makers were badly overstocked.

Every kind of good shirt is here—Plain colored and patterned, neglige, stiff bosoms or pleated fronts, cuffs attached or detached, shirts by the scores of dozens in every single size of from 14 to 18.

Two big circles have been cleared for the selling. Extra salespeople ready; cashiers on the spot, and sizes kept separate for easy selection and quick service.

Now for the big shirt chance of the whole year. One price, each... 50c
