American Commissioners to Attend Approaching Allied Conference.

REASON FOR MEETING

Entente Powers Will Endeavor to Arrange Better Co-operation in War.

Washington, Nov. 7. — An American mission landed in Englani today on the eve of the opening of the first great war conference in which the United States will participate.

Col. E. M. House, President Wilson's personal friend and advisor, is the officially designated representative of the United States. He is accompanied by a staff representing companied by a staff representing companied by a staff representing conference in which the south our troops, advancting in a northwesterly direction from the neighborhood of Beersheba, carried the whole Turkish defenses south of the line to Tell Abu Harere-Tell Esch Sherilah, capturing both these last-named places. This is an advance of nine miles from the position of departure.

The new British offensive in Palestine, which is being prosecuted vigorously, now that the oppressive heat of the summer season no longer causes enforced inactivity, is being developed along a front extending eastward from the Mediterranean coast. Gaza is 30 miles north of the Egyptian border, near the coast. It is about 30 miles southwest of Beersheba, which the

So have we made a hit with our Overcoats this season.

Every wanted style is here including the heavy Driving Ulsters and Belted Trench Models.

We strongly advise every man to buy a good coat this year while it is possible to get good, solid, all-wool fabrics at reasonable prices. Splendid Coats at \$18, \$20, \$22 and \$25. Excellent values at \$30, \$35 and \$38. Top notchers from \$40 to \$60.

"Let us tell you something"; owing to the rapid rise in materials (the cheaper grades principally), we found it next to impossible to get low priced lines with any merit. So, rather than try to inflate further on garments that were already overburdened with price, we stocked and bought freely in the better cloths and our sales and business to date prove beyond the question of a doubt that we made one wise guess.

Common sense will tell you this year to pay a little more rather than less, and in the end 'tis a big saving to you.

We want you to see our two best models - the Jutland and One O Four. We think they are the smartest in town.

The Day's Events Reviewed

ENERAL ALLENBY and his forces have won a fresh series of sucmiles south and southwest of Jerusalem. They have captured Khuweilfeh, eleven files north of Beersheba, and the whole urkish defences on the line from Beereba southwestward to Tel Abu Harere-Te, Esch Sheri 'Ah, including both these towns, and last, but not least, they have formed the historic coastal city and site of Gaza. Their attack from the region of Beersheba represents an advance of nine miles. The allied troops, which include some Italians, behaved with magnificent dash and endurance. It is too early yet for General Allenby to make an estimate of the spoils. In one sector alone these include six guns.

The crushing nature of the German de eat at Passchendaele, and the growin weakness of the German military organization in Belgium, account for the abone of counter-attacks against the new particular accounts.

Petrograd is apparently passing thru another extremist uprising. Anarchy is destroying itself. The extremists are divided into Jews and Gentiles. According to their old custom, the Socialists are disputing among themselves. The Gentile Socialists wish to hold a pogrom against the Jewish Socialists. Kerensky has cut off the workingmen's quarter from the rest of Petrograd in the apparent desire to let the factions of the soldiers' and workmen's council fight it out, like the Mexicans, among themselves. The Russian state thereby would get rid of an element of disorganization. The Cossack guards of the capital have demanded that Kerensky declare the soldiers' and workmen's delegates outlaws. Kerensky has declined to do this, but promises strong measures.

The Italians are safely retiring to their newly-organized defensive lines. Their rearguards are flighting delaying actions. These are to gain time for British and French reinforcements to come up. Italy's needs will come before an important allied conference, and the United States in affording support, will abide by the conference decis'ons. The country north and east of the Po and Mincto Rivers has become the zone of the Italian military operations. The southwestern limits of this territory extend from a point about 30 miles south of Venice to Lake Garda.

Major-General Maurice, at the British war office, says that the German claims of a enormous bag of prisoners in Italy are largely overdrawn. It is likely that they have counted all the civilians in the total of prisoners announced. Von Below and not Von Mackensen commanded the German troops, and the Germans accomplished at least something thru insidious propaganda among the Italian troops. The attack was no surprise to General Cadorna.

HE FIRELESS COOKER You have heard its praises sung abroad by the Busy Woman who accomplishes many things, have you not? For instance, you have heard how it is possible to indulge in outside interests and have them affect in no way the regularity of home meals, if possessed of a fireless stove. Or perhaps you did not know that with one of these excellent devices you could place to cook, a roast, vegetables or a pudding, and leave them while you go a-shopping, a-walking or a-visiting.

On your return you find whatsoever you have left well cooked and luscious. Does it not, then, spell opportunity for the housewife-to indulge in varied pleasures or duties, and cause no clog in the household wheels.

The "Duplex" stove, illustrated here, would prove a worthwhile addition to any home. It is lined with aluminum and equipped with 6-quart and 3-quart aluminum vessels and two large baking and roasting discs. The price is \$11.75. The same stove with 8 and 4-quart vessels is \$15.00.

The Electro-Vac Suction Sweeper

ODERN INVENTION has done much toward lightening household burdens, and never more than in the evolution of the vacuum cleaner. With the use of one is dispensed the necessity of beating heavy rugs, carpets or curtains, and it is possible to beautify your upholsterings at home. There is no arduous task attached to removing dust from draperies, furniture, walls and woodwork, as well as rugs, with the "Electro-Vac Suction Sweeper," for it is a light device, which, when attached to an ordinary electric socket, does its work with the aid of a guiding hand. It has many points of excellence of which the modern housewife will approve. For instance, the "Electro-Vac" combines brush sweeping with suction cleaning, dispensing with the necessity of using a carpet sweeper

For the Woman Who Sews

HETHER THE EXTENT of her sewing is a blouse or frock, new curtains or cushions, or the entire family wardrobe, she requires a machine which works easily and well.

The "Windsor," which our artist has drawn, is a machine possessed of just such attributes, as well as that of an attractive appearance. If limited space demands that your machine be in other than a sewingroom, its presence would hardly detract from the general appearance, since when not in use it folds compactly into cabinet such as drawn in the inset. The woodwork is of excellent quality quarter-cut oak, and lasting satisfaction is assured by the ten-year guarantee which accompanies each machine. It is modern and efficient, possessed of dustproof cabinet, into which head drops when not in use, has automatic lift and ball bearings. Price, including freight paid to your nearest railway station, \$24.35.

■ HAT A WEALTH OF PROVISIONS may be stowed away behind the closed doors of a kitchen cabinet! There's a place for quite everything in the way of cooking ingredients, which means many steps saved on baking days, as well as hooks and shelves for dishes and accessories.

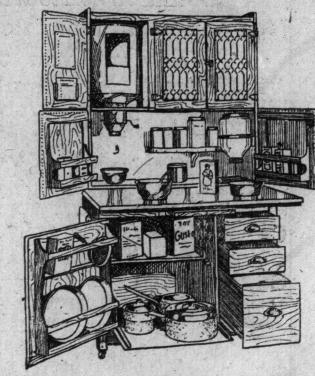

The "Special" cabinet, which is here depicted, is a very pleasing as well as practical piece of furniture, constructed, as it is, of well-seasoned oak, the upper portion of interior being finished in

white enamel. It is made in Canada, on distinctly sanitary lines, one of its interesting features being its panel doors, with plateholders and spice jars over the shelves in upper section, rendering them perfectly dust-proof.

The Splendid Equipment of the "Special" Includes:

Food guide, label cards, order pad and pencil, holder for milk and bread tickets, sanitary metal flour bin, with sifter attached; hooks for canopener, egg-beater, etc.; set of glass jars for spices, tea, coffee, etc.; metal tray for bottles, and top shelf for groceries. The lower section has a sliding table top, cutlery drawer, rack for pans, shelf for canned goods, drawer for kitchen linen; metal bread and cake box with wire shelf for storing cake and pastry. Price, \$29.50.

The Burning Question.

The issue between the union government and its opponents is plain and unmistakable. The union goverament is pledged to keep our four divisions on the western front reinforced up to strength until the end it is all a question of the will to victory. With them men fit to fight to go into the trenches. The governlegislation, provide for the drafting of as many more men as may from time to time be needed to keep our forces in France and Flanders up to strength.

The opposition has announced its policy thru the manifesto of Sir Wilfrid Laurier. If the opposition further draft is likely without still another mandate, and we will at best have to face a long period of hesitation and delay.

draft is being taken right now. If the union govern- privilege. ment meets defeat at the polls we will have no more national service in Canada. Sir Wilfrid may punctiliously observe his word by taking a plebiscite, but such plebiscite will be unnecessary if the people vote out the union government at the coming election. The fate of national service hangs in the balance of the coming contest at the polls. Those who favor the extent, and the law allows considerable latitude in draft will have no choice but to support the candidates of the union government; those who oppose the draft will logically and naturally vote for those candidates who proclaim themselves followers of Sir Wilfrid Laurier.

Never was there so little chance for anyone to sit milk or our law watered down. on the fence or walk in the middle of the road. Those who for one reason or another do not like the idea of a union government, or for one reason or another do not approve of the record of the Borden government, and yet favor the draft, find themselves with no alternative. If to their mind the supreme issue is the reinforcing of our boys at the front, then they must support and vote for the union government.

Possibly no one in Canada really desires to have this country become a province of the German Empire, or to have the speaking of either English or French made a penal offence in this country. But beyond doubt some who would like to see the allies win are a little war-weary, are unduly anxious for peace, and are obsessed with the idea that Canada has done all she should do in the matter of sending soldiers to the front. Those who think this way are quite within their rights in opposing and voting against the union government. Those who believe that Canada must not they also spend a certain time in craftsmanship and.

They have no choice in the matter; their duty is clear and unmistakable. No one who favors national service can conscientiously vote against the union government.

The New Highway.

An end has been made or paving the Hamilton-Toronto highway. A good deal of friction of one kind and another developed as the work proceeded. There were delays and inconveniences, much of which were attributable to the conditions arising out of the war. Labor was scarce, material hard to procure, transportation difficult. But the road is finished, and it is the beginning of civilization between Hamilton and Toronto. There is no real civilization without good ing done under the benevolent but somewhat slimy Amid applause Mr. Godfrey stated understand it, destroy our roads as they retire. We have to build roads to preserve our lives and our

Roads of the old highway order are coming back into use once more. There may not be so much horse about them as once there was, but there will be running to and fro, and there will be a return to the transport of goods over the high roads of the country by means of motor-trucking. It is probable that it will be cheaper to load many lines of goods on a motor truck in Hamilton and convey them to Toronto for delivery, or vice versa, than to truck them to a railway car, load them there, unload them in Toronto, truck them to the warehouse and unload again. The extra loading and unloading means much in a short

There will be a tendency to regard the new highway as benefiting chiefly Hamilton or Toronto. This would be an error. Every farmer on the road will receive as much benefit according to the space he occupies with his farm as any resident of either city will according to the size of his lot. And he will benefit, also, in his farm business proportionately as the city man in business will benefit. These are important considerations, because they touch the rural life of the country. And our Canadian civilization is weak just to the extent that it has been confined to the city and left the country to look after itself.

Good roads are a first step in co-operation between

Passchendaele.

A climax in gallantry has apparently been reached by the Canadian troops in the assault on Passchendaele. The accounts from independent sources describe the action as almost an incredible performance. It is clear that the Germans regarded their position as impregnable. Unconquerable is not a word that British soldiers apply to enemy positions when they are properly led. Slowly but surely the guns and the machinery of war have been impressed into the work so that men's lives might be saved. The comparatively light casualty dists, in view of the highly important gains made, is a testimony to the staff work, the brains and intelli- Hon. Arthur Meighen Sounds gence, which General Hindenburg has not been able to match. Heavy artillery was the factor by which the Germans were able to dominate Belgium and France in the early months of the war. Heavier artillery is the factor before which they are now compelled to retire. Yet the Canadians on these various drives at Vimy, Messines and the Passchendaele ridges have faced heavier fire and endured barrages which were Gordon C. Wilson Heartily never approached in severity in 1914. The Germans were justified in their calculations, from ordinary human standpoints, that they would win the war. Not often do illiterate foreigners fight and wrangle over questions of pedagogy, and still less often do school children by the thousands go on strike to show their disapproval of some educational fad. But in New York parents and children on the East Side seem to have combined against the Gary school system.

The system, tho it originated in the Town of Gary, Indiana, has been adopted with some modifications in Cincinnati, Milwaukee and other cities, as well as in New York. Where Will the Money Go?

Editor World: The sale of land reclaimed by the harbor comm.ss.on is a direct reversal of the policy laid down when the commission was formed. Indeed, it is not too much to say that the motive for creating the nents and appeal for union in commission was to prevent any further sales of waterfront property. If the lands-or any portion of them—are sold outright, will the money be funded to meet the obligations of the board, or will it be used to carry on the work?

There was a great deal of criticism of the civic administration of Mayor Oliver for selling land to Cawthra Mulock that was covered with ten to twelve feet of water. If that was bad policy, what can be said for this sale to the Imperial Oil Company of solid land at own and country, and Ontario has laid a foundation \$15,000 an acre? Besides, we were led to believe that the aim of the harbor commission was to attract industries that would employ large numbers of men, and thus build up a prosperous industrial population in the east end.

SEASONS IN THE EAST.

showers. May to flowers. We have changed all that, Winter, if it has increased none in severity, has extended at both ends, summer has become a new sort, and spring and fall have disappeared. Instead of the old order we have:

Light winter-October, November, Heavy winter-January, February.

First rainy season-April, May. Second rainy season-July, August. September. We liked the old order better. So did the farmers.

Distinctly different from any other offering of its kind in burlesque, "The Tipperary Girls," who come to the Star Theatre rext week, beginning with a matince Monday, Nov. 12, make a particular bid for public approval. For this season's production the producers have engaged the largest and cleverest array of talent that has ever assembled in one burlesque conedy, including, besides the principals, a group of 24 of the handsomest choristers in captivity. Heading the cast is funny Billy Gibbert, a king of mirth-makers: Bobby Barker, a noted fun-provoker, and many others of almost equal fame.

"Twentieth Century Maids."

These who go to the Gayety Theatre next week to see "The Twentieth Century Maids." and who fail to get plenty of laugh exercise out of the comedy afforded by "C. K.—K. O.," the two-act vehicle written by Abe Leavitt, are advised to give up show-going as a bad job, for it will be certain that laughter is not their forte. The comedy in this production is not only spontaneous but is an ever-present quantity, which is evenly distributed thruout the production. Jim Barton, the chief comedian, is proving more popular than ever this season and he is supported by a staff of fun-producers including Bob Farns, the black-faced artist. A ticket to "The Twentieth Century Maids" assures an enjoyable passage ever a two hour and a quarter laugh route.

New World's Golf Record.

What is supposed to be a new world's golf record was set recently by M. J. Brady, professional, at the Oakley Country Club, Boston, Mass., in a match with Louis Tellier against W. E. Woodruff and Harry Roberts over the Siasconset Club links, when Brady made the two short holes in ones. The seventh, 167 yards, and the thirteenth, 145 yards, were those over which he accomplished his wonderful feat. Brady incidentally lowered the course record, making a 68.

panese because they appear lonely and fairy-like.

Lake Haruna is regarded as one of the most mysterious in the empire. This body or water is on an elevation about five miles from the famous hot springs at Ikao. In this lake a singular phenomenon appears when the water begins to freeze. Strange sounds can be heard at night proceeding from the surface of the water. The noise is not unlike the report of muskets or the beating of a drum, the reports coming in a rhythmical cadence. Of course the Japanese know that the sounds are produced by the straining of the ice as it swells with the frost, but in this case the sound is so musical that it produces a singular impression on all hearers.

JUNIOR MEDS FALL **BEFORE THE DENTALS**

Tooth-Pullers Much Superior in Mulock Cup Fixture at the Stadium.

Dents opened their Mulock Cup cam-palgn with a victory over Junior Meds at Varsity Stadium yesterday. The score was 14 to 4 and just about indicates the margin between the two teams. The future "mouth-plumbers" had the weight and their backs showed much better judgment in their booting. The feeling was strong thrucut the game and Referee Jimmy Stewart, of hockey fame, had his hands full keeping the boys from mixing it.

hands full keeping the boys from mixing it.

Both sides showed tack of coaching, but they made up for this by the sarnestness they made up for this by the sarnestness they put into the game. Dents have the making of a first-class dourteen, with a fair amount of speed mixed up with some good rugby brains.

Dents went right into the fray and bucked over in the first ten minutes for a try that was converted. This was the only scoring of the first quarter. Meds showed better in the second quarter. They pulled off several good runs, but fell down on their back line work. Edwards dropped a goal from the field, to leave it 6 to 2 at half-time.

The third session was a punting duel, with the Dent halves out-kicking their opponents all thru the quarter. Good booting forced Meds to rouge twice and the three-quarter time score was 8 to 3.

Dents again fore holes in the light Meds line in the final quarter. Letallier was bucked over for a try and it was converted. This try was made possible when a muff on the Junior Meds' back line gave Dents possession five yards out. Meds forced a rouge just before the fall-time whistle blew and the final score was 14 to 4.

The teams:

The High School Rugby League finals will be staged at Varsity Stadium tomorrow afternoon. This is the third year in succession Technical are represented in both the senior and jumor Rugby finals. Two years ago they were returned double champlons, when the seniors beat Harbord by 26 to 0, and the junior disposed of Parkdale by 1 to 0. Last year the seniors again won the title after ten minutes overtime, from Harbord, by 14 to 12. They were defeated by Parkdale for the junior by the score of 17 to 15. The winner of the High School League championship is eligible to compete in the Junior O.R.F.U. series.

Upper Canada College second team defeated Harbord seconds 11 to 5 in an exhibition game at U.C.C. yesterday.

It was a close game all the way and some excellent booting was displayed by both back lines. U.C.C. went over for two tries and forced a rouge for their eleven points. Harbord's five were secured by a try that was not converted.

ABOLISH SPITBALL

Freak Deliveries Get Strong Opposition in the Minor Leagues.

Whatever may be the action of the major leagues in barring the spitball and other forms of freak pitching, the minors will take a stand that will cleanse the game of such deliveries and at the same time add to the action of diamond play, by putting on the ban, if Emerson W. Dickerson of the Western League has his way. In a strong attack on the spitbail particularly, the president of the Western circuit intimates that he will suggest action that will bar it among the minors. Coming from the president of a league in which various forms of freak deliveries, even including the emery ball, were said to have been used in the past season. Dickerson's remarks are significant and of interest.

Writing of the subject in an article submitted for general publication, President Dickerson says:

"The nasty, slimy and unsanitary spitball should be made illegal, and that will do away with a dozen or more kindred deliveries that are cutting down batting and depriving baseball fans of that which they enjoy the most—hard and clean hitting.

"It is folly to attempt to stop other

deliveries that are cutting down betting and depriving baseball fans of that which they enjoy the most—hard and clean hitting.

"It is folly to attempt to stop other freak deliveries and still permit the spitball, for it gives the chance for disguise under which the other deliveries are prepared. The so-called emery ball is nothing more nor less than a polished and a rough surface on opposite sides of the ball, the air resistance bringing about an almost unhittable shoot.

"When pitchers are permitted to expectorate on the ball, they also can polish. It takes little roughness to make the shoot, sufficient being made by the scraping of sharp fingernails over the seams. Once the ball hits the ground it is plenty rough enough for the emery ball worker. The leather that baseballs are covered with now is not of the high quality formerly used. It is easily roughed.

"A penalty should be provided for a pitcher discoloring, roughing or dampening a ball in any way. That will mean more batting, and that is what the fans want to see. As it is now, a pitcher with a good spitter or emery ball makes monkeys of almost all batters and turns the game into a one-man band. The more batting, the more real action there is, "The freak ball pitchers take from a half-hour to an hour longer to pitch a game than those who pitch as pitchers should, and they make the games in which they take part both siow and tresone. Every player on both teams who is at all responsible for the slowness should be fined when a contest of nine innings hasts over two hours. When two freak delivery slab artists are opposed to each other, it is rarely a game is played in said of two and one-half hours. It all most always takes over two hours to play a freak delivery which requires a considerable pause before the pitching of each ball.

"A contest of nine innings should be played in an hour and a half or theresale pause before the pitchers uses a freak delivery which requires a considerable pause before the pitchers uses a freak delivery which requires a consi

Storm Patriotic Fund Head-

With fire in their eyes and a fixed determination to extract a written apology from Graydon H. Butler of the Patriotic Fund Association, for his failure to attend the recent meeting of the Earlscourt branch of the G. W. V. A., after promising to do so, a deputation of soldiers wives and widows stormed the patriotic fund headquarters yesterday afternoon and handed Mr. Butler a letter written as follows:

and handed Mr. Butler a letter written as follows:

"We, as representing the G.W.V.A., Earlscourt branch, request from you an apology for the ungentlemanily manner in which you broke your promise to this branch of the G.W.V.A., and as this meeting was called to discuss and devise some good way in which we could help the wives and widows of soldiers overseas and at home, we thought that you as the head of the fund supported solely by voluntary contributions for the purpose of alleviating the sufferings of the dependents of soldiers, or your representative, would be able to give the people dependent on the just and rightful distribution of the fund of which you are the head in Toronto, some information regarding the unjust manner in which you are treating the wives and dependents of the men in khaki.

"As your promise was given to the

"Will red tape and insolence be done away with?" was the next question hurled at the already overwrought Mr. Butler.

Mr. Butler Promises.

"I will see that everything is done that can possibly be accomplished, and I can promise you that all women will get a raise in their allowances about Christmas." Preceding, Mr. Butler pointed out that if the fund was placed in the hands of the government the recipients would be worse off than ever and there would be more trouble than there is at the present time.

sent time.

"I admit you are not getting enough," said Mr. Butler.

"I want to tell you that I will work if I can get employment, and you won't cut off my patriotic allowance for doing so," said another member of the deputation. "I could buy shoes for my children last year when working on munitions, but I cann't this year, and all thru your refusing to give me the allowance if I go to work."

"More women have gone to the dogs thru the patriotic fund than thru anything else," emphatically declared the woman

"As your promise was given to the Earlscourt branch of the G.W.V.A. and not to the British Imperial Association, and as we do not ask for any assistance from the British Imperial Association, but feel quite capable of handling our own business, we cannot accept your invitation to form a joint committee to meet you to discuss matters which are of such vital interest to us. The welfare of the wives and widows and all dependent on the men in khaki, and your refusing to accept the invitation of the Earlscourt branch of the G.W.V.A. to discuss this most important matter, calls for an apology from you to the bearer or thru the secretary. Mr. Butler refused to give a written apology to the deputation, stating that he had already notified the secretary in writing regretting non-attendance. He stated as his reason for absenting himself from the meeting that the patriotic committee recommended him not to attend.

"Who is your committee?" asked Mr. J. Ross.

Ryrie. J. Atkinson. Mr. Henderson and Sir William Mulock."

What is your salary and that of the women in the outer office, and why are not the men including yourself, in khaki? were the next question saked.

Mr. Butler declined to state his salary, but said his household expenses for himself and wife were \$69 a month. He said his age was 32 years and that he was in lass two, as also were the other more office, and why are now, and been successful in five respects. The armyloyed in the office.

sentative to the inter-allied confersentative to the inter-alled conference, which is to discuss and lay plans for the successful carrying on of the war. Col. E. M. House, long known as President Wilson's confidential adviser, heads the mission.

General Cadorna in his report mentions the present withdraws of being the conference of t tions the present withdrawal as being conducted in the direction of the Livenza River. This may indicate that he intends to fight another delaying action along this comparatively small stream, falling back on the Piave, approximately ten miles further west. Incidentally, a semi-official state-ment from Rome declares the Austro-German invasion has failed of its po-litical object—assumedly the break-ing of the Italian will to resist and the forcing of a separate peace—while there is a strong conviction that

while there is a strong conviction that the serious military problems created by the drive will be solved.

The Livenza is the next river line behind the Tagliamento. Its mouth is 12 miles below that of the Tagliamento. Its course is tortuous, and it has been generally assumed that General Cadorna would undertake nothing more than a delaying action there, making his stand along a more favorable line such as that of the Piave orable line, such as that of the Piave

New Italian Line.

Paris, Nov. 7.—The new Italian line
of defence will run along the course of the Plave River, says the Rome correspondent of The Matin. He describes this line as one which an army that has pulled itself together and is

determined to resist can hold for a long time.

"It is hoped here," the despatch continues, "that if an energetic counter-offensive becomes necessary at one of the most threatened points, Franco-British forces will participate. In this way a retreat to the Adige line may be avoided. The Tagliamento was fortified hastily and could not be held."

Retreat Unavoidable.

Washington, Nov. 7.—General Cadorna could not have organized his retreating forces for successful defence along the line of the Tagliamento, in the opinion of French military experts. They contend the line was entirely too near the point, where the Austro-German troops had broken thru the Italian front. The experience of the French at the Marne is held to have proved that there is an advantage in not stopping a retreat too soon, if a commander wishes to strike a decisive blow.

The real successful Italian defensive, in the opinion of the French experts, will be based upon the historical quadrilateral, "Mantus, Verona, Peschera and Lugano," and the real battle of the campaign will occur when the Italian armies, supported by the French and British troops, will definitely bar the German invaders on those lines.

The French general staff made almost instantaneous response to the Italian appeal for help. Once the de-

The premier replied: "I find it difficult to declare the Bol-shevikis outlaws; the attitude of the government towards the present Bol-sheviki activities is known." The premier explained that those who had been released were on bail, and that any of them found participating in new offences against peace would be severely dealt with.

Numerous precautions have taken by Premier Kerensky to thwart the threatened outbreak of the Bolshevikis. The soldiers guarding the government buildings have been re-placed by men from the officers' trainols. Small guards have been placed at the embassies. The women's battalion is drawn up in the square in front of the Winter Palace. The commander on the northern front has informed the premier that his troops are against any demonstration, and are ready to come to Petrograd to quell a rebellion if necessary.

JAPANESE RESOURCES MUCH DEPLETED BY WAR

Baron Megata, Now in U. S., Says Japan Has Gone the Limit in Aiding the Allies.

St. Louis, Nov. 7.—Japan's resources have been depleted by the war, and they must be augmented to enable her to continue her full participation in the world strife, Baron Megata, head of the special finance committee from Japan, said tonight in a speech at a dinner tendered to the commit-tee by the Commercial Club of St.

"Japan's desire not only to do her part in the war, but to render the fullest possible aid to her allies, has forced her to greatly diminish her stocks of supplies." said the baron. "Her resources are limited, and they are now strained to meet the demand for necessary and proper materials." for necessary and proper materials."

MEATLESS DAYS IN GERMANY,

Amsterdam, Nov. 7.-The Cologne Amsterdam, Nov. 7.—The Cologne Gazette's Constantinople correspond-ent says an order has been issued there fixing three meatless days each week. The correspondent adds that a shortage in fuel is necessitating the cutting down of forests around the city. He says also that the depreciation in paper money and the resultant inflation of prices is causing alarm.

Mr. Guthrie devoted a portion of his address to an analysis of the manifesto recently issued by Sir Wilfrid Laurier. He pain garticular attention to Sir Wilfrid's declaration in regard to conscription. Mr. Guthric contended that if Sir Wilfrid were ned to power at the ensuing election, and were to carry out his declaration in regard to the military situation it would mean the practical withdrawal of Canada from the war. Mr. Guthrie declared that it was idle for Sir Wilfrid to suggest that men could be obtained in Canada by voluntary enlistment. He contended that the policy of Sir Wilfrid Laurier on conscription and reinforcements was an inhuman proposal and would involve a frightful breach of faith with the soldiers who were shedding their blood in, France and Flanders.

Say This is Reason for Deadlock.

Kitchener, Nov. 7—The fear that the withdrawal of Dr. J. F. Honsberger as Idberal nominee would result in W. D. Eular, Laurier Liberal candidate for North Waterloo, getting control of the Liberal party in this riding seems to be the stumbling block in the way of the Liberal executive in its offort to unite with the Conservatives for the selection of a union candidate. This is the principal reason for the deadlock existing among the union government adherents, according to statements made by leaders of both factions. In the meantime preparations are going ahead for a union are going ahead for a union affect. This is the principal reason for the deadlock existing among the union government adherents, according to statements made by leaders of both factions. ABOLITION OF TOLL ROADS.

Brantford, Nov. 7. — The Brant county council today instructed the special committee which has been working for the abolition of toll roads in Brant, to secure more definite information regarding the prices asked for the roads, and to report to a special meeting of the council. Warden A. B. Rose was appointed as a member of the suburban area commission.

Carelessness in putting his words together was the downfall of a young man at a local theatre. When the curtain went up for the first act he found that the hat of a young lady in front of him obstructed his view of the stage. Wishing to see the performance, he said to her:

"I want to look as well as you."

"Do you?" she enquired.

"Certainly!" he replied.

BARRAGE FIRE IS AWFUL PHENOMENON.

German cfficers who have fallen into British hands do not discuise that the affair has been a big defeat for them. The completeness and quickness of the advance staggered them, and they sepeak of our harrage fire as an awful phenometer on that has destroyed the new method of defence which they believed would save them to the end. The German officers have hard words to say about their higher commend which has led them into this trigedy, and their own pride is broken.

Stockers and feeders, as stated, are wanted, but there is striking difference in the price quoted, as between extra choice and common to plain feeders and stockers, and there is a org bunch of the latter grades on the market just now. The buyers for distillery purposes are making a sharp distinction, out the good stuff is selling weil.

Milkers and springers are in good demand, and the price, as shown in the sales of some of the local commission houses, as shown this morning, indicate what real high-class Holstein springers and milkers and other breeds, as well, are bringing on the Union Stock Yards Market these days. By the way, the reports of sales submitted day by day in The World are the very best indication of the market, and all the leading local houses are represented there.

Sheep, Lambs and Calves.

The market for lambs was a little stronger than Tuesday, and about on a par with Monday. Calves and sheep were steady.

Hogs.

There was a fair run of hogs—about 2400—and the market was steady at 17c lb., fed and watered, the bulk of the offerings going out at that price, tho, as shown in the representative sales, there were a few odd lots of extra choice sold at \$17.10 cwt., fed and watered.

Steel of Canada dealt in to the extent of but five as, selling at 49%, an advance of eighth, but the final bid of 50 timed a better demand for the shares, share of C.P.R. changed hands at close, reflecting the advance in 2, showing no sign of rising above minimum. The war bonds sold at manged prices, the demand centring the first light grave.

Ilieved, might have made greater progress but for the increased heaviness of bonds, many of which registered new minimums. The march topical surface and point in the states are days operations was that the protracted liquidation had exhausted itself, rendering additional short selling extremely hazardous. Gains were most pronounced in the stocks which recently experienced greaters losses, namely high-grade rails and standard industrials. Today's rebound carried Reading, Great Northern, Union Pacific, New York Central and Hilinois Central 3 to 6 points over Mionday's depressed levels.

United States Steel made a gross advance of 3% to 95% and other steels and equipments were 2 to 6 points higher at their best, shading, however, on recurrent realizing in the last hour. Shippings and coppers rose 2 to 3% points, but eased with the general list, final quotations averaging 1 to 1½ under the top. Internationals, notably war flotations, led the general decline in bonds.
