WARKE & C.

D, O. Roblin, Sole Agent in Canada, Toronto.

Sold in bottles only.

Troops have been landed at strategic points in Greece, at Corinth to control the Morea, at Piraeus to control Athens. Greek islands are being occupied, and hostile submarine bases will be destroyed and the submersibles rooted out of Greek waters.

The Germans and their allies are concentrating three armies for the attack on Saloniki. They will be unable to beset this second Torres Vedras till they have constructed enough roadways and opened the line of railway which runs down the Vardar Valley. In retiring from southern Serbia the French blew up a rock tunnel and tore up the tracks. The Germans have succeeded in clearing the line of the Oriental Railway for traffic as far as Nish, and they have begun to operate trains from Berlin to Constantinople. It is presumed that they are now repairing the line south of Nish into As many bridges have been destroyed, these will all have to be Greece. rebuilt, but, as the French proved at the battle of the Marne, destroyed bridges can be replaced in an incredibly short time. It may not be till the end of February when the enemy is ready to move on Saloniki, while again he may be able to get on the move almost at once. But, first, it might be expected that he would attack the Italians in Albania.

To counter a stroke at Saloniki, the allies, having the command of the sea, have the power to land troops at the fine port of Santi Quaranti, in Epirus. From this point a good metaled road leads to Monastir and an advance on that point would threaten to cut off the hostile troops which

might beleaguer Saloniki.

Berlin is certainly alarmed over the presence of allied troops at many points in Greece, and open fears are expressed of the deposition of King Constantine and the declaration of a republic. Sofia is said to be extremely alarmed. This fear may prod on the Germans to a premature attempt to oust the allies from Saloniki.

Official communiques from London, and, especially from Paris, speak of the effective work which is being carried out by new long-range guns and improved anti-aircraft weapons. In increasing their armament two things can be done by the allies: Firstly, the providing in greater number of the same class of weapons as the Germans have, and, secondly, and more difficult, the introduction of artillery which would render the existing German armament obsolete. This was done by Lord Fisher on the sea by the perfecting of the Dreadnought, which rendered all the other warships of Germany out of date, which forced her to begin a new era of construction, and which also forced her to sink hundreds of millions of dollars in deepening her shallow harbors and the Kiel Canal to accommodate the big ships when they were put afloat.

In regard to their armies, the allies have apparently adopted the policy which has worked such good results in the case of the British navy. The outclassing of the German artillery gives the allies an immense superiority in fire. If the Germans drop everything to cope with the new developments in big guns, they cannot hope to compete with the workshops of the allies and the rest of the world. * * * * *

The value of bringing new and improved weapons into the fight is obvious, when it is realized that the problem of forcing a line of trenches is similar to defeating an army in the open field, and solely depends on developing fire superiority. While in the process of doing so, tentative attacks may be expected on the German lines to prove the quality of the new weapons, and to give the British and French troops increasing moral ascendancy over the Germans.

The Russian official communique of yesterday says that the situation on the western front is unchanged. The Russians, it is known, won a big victory on the Stripa River and practically destroyed the army of Von Bothmer, which was mown down by the czar's new artillery. The Austrians, seeing that the Russians have ceased attacking for the present, make a report claiming a big victory on an 80-mile front, alleging that the Austro-Germans held their ground, and basing their claim on alleged statements that the Russian commander had big objects in view. Not only in this war, but in all past wars, Austrian generals have been notorious liars, and the latest effusions from Vienna bear out their past reputations.

The Turks confess to flight in the Caucasus, pursued by superior Russian troops. Petrograd more modestly sets forth the capture of 24 Turkish officers and 200 men, with a field gun, a number of rifles, tents and provisions. The taking of rifles indicates demoralization among the Turks, who have been participants in another battle of Bull Run, and have been throwing away their small arms as they ran.

den in Mayor's Absence. The 14th annual convention of the Canadian National Clay Products As-sociation was commenced yesterday in the King Edward Hotel. Mayor Church was unable to we come the delegates thru pressure of business and Controller Thompson and Alder-man Ramsden acted in his stead. At 4 o'clock in the afternoon the delegates visited the Central Technical School and were very favorably im-pressed with the work which is being accomplished. Pugsley's Charges.

Hon. Wm. Pugsley accused the gov-ernment of failing to deal with the tiers horror of conscription. France, Belgium, Russia and Italy all had conscription. Every ablebodied man charges and insinuations in respect to war contracts and the record of

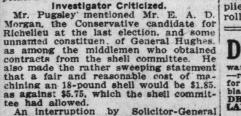

the shell committe Mr. Pugsley said the Dominion Government had not built a car or a ship since the war broke out. Naturally the admiralty had requisitioned many merchant vessels, and ocean freight rates had advanced 100 per cent. Yet the government declared itself powerless to deal with ocean freight rates, even in the case of steamship lines drawing big subsidies from the gov-

Mr. Pugsley said that the whole she Mr. Pugsley said that the whole shell business was turned over to a commis-sion of manufacturers who gave out con-tracts at fixed prices. A contract for a million dollars had been given to a firm in which General Bertram was in-terested, and others aggregating as large an amount to a concern of which Mr. Carnegie was the active head. In Canada shells cost \$5.05, altho the steel was furnished the manufacturers free, while the Australian Government manufactur-ed for two dollars less. Calls For Engulry.

the Austrelian Government manufactur-ed for two dollars less. Calls For Enquiry. Mr. Pugsley wanted a commission to be appoin ed to investigate the work of the shell committee. He said that an order for four million fuses had been given to an American company thru Col. J. Wesley Allison, a personal friend of the minister of miltia, altho a Canadian firm, which desired the work, was not allowed to tender at the time. The Canadian firm finally got an order, bu at a price much less than that paid the foreign firm. The shell committee, he charged, had awarded contracts to po-litical friends and favorites. Mr. Hep-burn, the Conservative M.P. for Prince Edward County, had secured a contract ostensibly for a firm in his own coun y, but the contract was at once transferred to a concern in Montreal. Contracts for making boxes for shells had been award-ed to men who had no plants, but farmed them out to planing mills, altho legiti-mace manufacturers were told that more boxes were needed. One firm soliciting ar order for shells after expending \$15,-000 installing lathing machines and other machinery, was notified by two gentle-ren very close to the shell committee that one and one-half per cent. commis-sion would have to be paid in order to secure the orders. The firm refused to comply with the demand and did not get the order. Mr. Pugeley said he would give the names of these men to an in-vestigating committee if one was ap-pointed.

Fifteen new members were Investigator Criticized. plies. rolled

as against 30.75, which the shell commit-tee had allowed. An interruption by Solicitor-General Meighen suddenly turned the tide of dis-cussion from the shell committee to the purchase of submarines by Sir Richard McBride for the Dominion Government. Mr. Fugsley declared that the investiga-tion by Sir Charles Davidson had been shallow and perfunctory. Just before the house adjourned Mr. Carvell, the Liberal member for Carle-ton, N.B., announced that Sir Charles Davidson was "the greatest whitewasher who ever lived,"

AUDITORS' REPORT

In accordance with the provisions of Sub-sections 12 and 20 of Section 56 of the Bank we report to the Shareholders as follows: Act, we report to the Shareholders as follows: We have examined the above Balance Sheet with the books and vouchers at Head Office and with the certified returns from the Branches, and we have obtained all the information and explanations we have required, and in our opinion the transactions which have come under our notice have been within the powers of the Bank. We have checked the cash and verified the securities of the Bank at the Chief Office and at several of the principal Branches during the current year, as well as on November 30th, 1915, and have found that they agreed with the entries in the books of the Bank with regard thereto.

with regard thereto. In our opinion the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs, according to the best of our information and the explanations given us, and as shown by the books of the Bank.

C. S. SCOTT. } Auditors, Chartered Accountants

In moving the adoption of the report, the President, Sir John S. Hendrie, K.

M. G., said in part: "This Report is of special interest because during the whole period of the year we have been under war conditions, and, therefore, have no precedents to

guide us since the establishment of this Bank. In spite of adverse circumstances, after making provision for bad and doubtful debts, the net profits were sufficient to pay a dividend at the rate of 12 per cent. per annum, put \$19,013 to the Pension Fund, meet the War Tax on Bank Note Circulation,-\$26,526, and carry forward \$18,000 more than the year began with, or a total of \$175,821 carried

forward to next year. The General Statement shows the Bank to be in the strongest position in its istory. There has been a notable increase in deposits, which now amount to over thirty-eight millions.

Referring to the proposals for amalgamation which were received during the year from the Royal Bank of Canada, he said that the Bank of Hamilton has never teen, and is not now for sale, but the proposals were so flattering that he thought the shareholders should have been permitted to pass on them, However, the Finance Minister ruled otherwise, and the incident was closed-

He also referred to the success of the Canadian War Loan, and stated that ver 100 men of the staff of the Bank had enlisted for active service.

Mr. Cyrus A. Birge, Vice-President, seconded the adoption of the Report. Mr. J. P. Bell, General Manager, said, among other things:

Deposits show a gain of \$3,500,000, and reach the large total of \$38,069,000. Our liquid assets this year are \$17,134,199, which is \$3,830,113 more than a ear ago, showing that all the gain in deposits and a bit more has been kept in liquid form, and the total is 41.15 per cent. of our liabilities to the public. This ercentage is the largest we have ever shown.

The Total Assets are over \$48,250,000, an increase of \$3,560,000.

In presenting the Auditors' Report, Mr. C. S. Scott took occasion to assure he Shareholders that the Assets of the Bank are well within the values assigned to them, and that, with the return of normal times, much that has been written off for depreciation will likely be recovered.

Mr. C. S. Scott and Mr. E. S. Read were reappointed Shareholders' Auditors. Mr. Stanley Mills moved, seconded by Mr. D'Arcy Martin, a vote of thanks o the President and Directors.

Mr. R. M. Roy moved, seconded by Mr. W. J. Waugh, a vote of thanks to

he General Manager and Start The following Directors were re-elected; Sir John S. Hendrie, K. C. M. G., Cyrus A. Birge, C. C. Dalton, Robert Hobson, C. H. Newton, Geo. Rutherford, J.

WEDNESDAY MORNING

\$2,000,000 Wanted From Toronto and York County for Canadian Patriotic Fund

THE TORONTO WORLD

Quarter of Dominion's 25,000 Soldiers' Families Are to Be Found Within Limits of County and City-Monthly Payments Amount to \$100,000, and Are Rising.

NIGOROUS THREE-DAY CAMPAIGN PLANNED,

COMMENCING ON THE 25TH OF THIS MONTH

An addition of \$8,000.000 to the Canadian Patriotic Fund is the call to duty which H. R. H. the Duke of Connaught issued on New Year's Day to the people of Canada-to those who because they cannot fight ought to pay.

There are more than 25,000 families-or between 50,000 and 60,000 souls-receiving assistance from that fund. This assistance the people of the country have obligated themselves to maintain by the very fact of the establishment of the fund and its promises. Of the \$8,000,000 the share which belongs to Toronto and the

County of York to furnish is \$2,000,000. This city and county have within their limits one quarter of the Dominion's 25,000 soldiers' families. We pay out to them

\$100,000 a month. And the amount is steadily rising with every new battalion that is enlisted. One third of the recruits are married men

Of this great city and rich county it is not too much to ask that faith be kept with the men who have joined the colors and are joining daily; and faith kept also with the other parts of the Dominion with whom we are acting in this common and necessary cause

TO SUPPORT FUND IS A PATRIOTIC DUTY.

The practical value of the patriotic Fund is testified to by every recruiting officer. Its support is both a patriotic duty and in a very real and practical sense an augmentation of the fighting forces of the Empire.

The campaign to raise our \$2,000.000 is to be held during the last week in this month (January). It will commence on the 25th and continue during three days. A thorough canvass of the city parts of the Dominion than the wealth of the people in those sec-tions. It is proper therefore that assistance should be forthcoming from elsewhere where the wealth is disproportionate to the enlistments to equalize the distribution of the financial obligation which the country as a whole has assumed toward the soldiers' families. Montreal has met her share of this general obligation. During last year that city's own dependants received allowances totaling \$800,000. But Montreal people contributed to the fund \$1,500,000. This being \$700,000 in excess of the city's own requirements, this large sum was at the disposal of the Central Executive at Ottawa. Montreal is now entering the second year with a campaign to raise another million dollars.

WHO ARE THE BENEFICIARIES?

For whom is the fund intended? It is for the wives and children of soldiers on overseas service;

for the widowed mothers of soldiers who were their sole or main support; for the mothers of soldiers whose husbands, although alive, are incapacitated from earning their living, and the soldier son was the sole or main support; for other dependants of soldiers. Their must be dependancy; and there must be need of assistance over and above other income; and in the third place the assistance afforded by the fund must in each case conform to the need. The principle laid down in fixing allowances is that the dependants are to be maintained as far as practicable in the comforts to which they have been accustomed. This does not mean that in some cases there is not deprivation. There may be instances in which this is the case, because the fund has adopted a maximum as well as a minimum amount of assistance that will be given to any family. And it is also true that in a good many cases home comforts have been not merely maintained, but have been visibly increased. For this the administrators of the fund make no apology. So long as the allowances are not wastefully or improperly expended, the fact that the fund has contributed to improve the standards of living in many homes in Toronto and throughout the Dominion should be a source of satisfaction. Where allowances are known to be waste-fully or improperly used, they are after due warning reduced or stopped altogether.

NOT FOR OFFICERS' DEPENDANTS.

6,000 families, but nearly 15,000 souls-the population of a small city. To carry on this work the cost has been kept within the percentage fixed by the Central Executive at Ottawa as an economical standard-namely, two per cent. of the disbursements. No salaries are paid except to the office staff. A number of unpaid volunteer workers give all their time to the work and contribute to the organization both economy and efficiency.

JANUARY 19 1916

LARGE SUMS PAID OUT HERE.

The monthly payment of allowances from the Toronto and York branch now amount to \$100.000. This is one-fifth of the total Patriotic payments throughout Canada. It is to sustain these monthly payments and provide for future additions that the Toronto and York Patriotic Association now asks the people of this city and county to subscribe.

During the past year Toronto and York contributed about a million dollars. By the end of next month the whole of this amount will have been exhausted in payments to our own soldiers' dependants. We have not, therefore, fulfilled the expectations of the central association by contributing in excess of our own needs. The cause of this is not to be found in any want of generosity on the part of the people of the city and county. The enlistments have so far exceeded what was thought possible a year ago that a large enough sum was not asked for on the occasion of the first patriotic campaign.

TWO MILLIONS WILL DO IT.

The sum of \$2,000,000 will take care of our own needs during the year and leave something over to square our account with the balance of the Dominion. Just a few figures touching Toronto's position as compared with some other cities and towns. During the twelve months ending September 30th, 1915, the subscriptions actually paid in the following places in Ontario were, according to Completion of follows: Der C

and continue during three days. and county will be made, and the co-operation of every class and section of the population is confidently appealed for. Subscriptions are to be paid in ten equal instalments monthly.

Two million dollars is a somewhat larger amount than has ever been raised in Canada in a short campaign, but the generosity and patriotism of the people of this city and county may be relied upon to carry it through.

The amount for which his Roval Highness has appealed will carry the work of the fund through the ensuing year, unless larger Canadian forces are enlisted than were calculated upon. And if, as is to be sincerely hoped, the war comes to an end during 1916, this campaign will carry the fund until our soldiers come marching home to receive the welcome of their loved ones and the gratitude of their country.

After all it is little that those who remain at home can ever do to discharge the debt which the whole world and civilization itself owes to these our fellow-citizens who, leaving behind them their homes in Canada, have joined the Empire's forces on the fields of France and Belgium.

HOW FUND ORIGINATED.

The Canadian Patriotic Fund was instituted at the instance of His Royal Highness the Duke of Connaught in September, 1914, for the purpose of supplementing the pay of the soldiers in Canada's army whose dependents in their absence might be in need of assistance to enable them to continue to enjoy the comforts to which they had been accustomed. A publicly-subscribed fund for a similar purpose had at that time been organized in Great Britain under the presidency of his Royal Highness the Prince of Wales, and was being very generously subscribed to. In Canada the response to his Excellency's appeal was no less prompt and liberal. The Toronto and York County Patriotic Fund Association is a

branch of the Canadian association. The moneys which are collected by it become part of the Canadian fund. The administration is carried on in close association with the central organization. 'All disbursements, whether for expenses or by way of allowances to soldiers' dependants, are made by the local association. but are reported to the central body and are in accordance with the rules. laid down by it for the guidance of all the branches throughout Canada. The relationship is intimate and harmonious. It gives the advantage of local knowledge and sympathy along with the safeguards and efficiency of central supervision and advice.

CANADIAN FUND GETS ANY SURPLUS.

Contributors to the Toronto and York Fund are making their contributions at the same time to the Canadian Patriotic Fund. From the point of view of the Canadian fund the result of this relationship is that any portion of the moneys raised in Toronto and the County of York in excess of what is needed for soldiers' dependants who live in this city and county is at the disposal of the Canadian association for the dependants of soldiers in other parts of the Dominion. Toronto is a very wealthy city. Many financial and business concerns of national scope are located here and make their contributions through the Toronto fund. Their subscriptions are however national, rather than local. To this city, as well as some other large centres of population and wealth, the Canadian fund naturally looks to supply larger sums of money than are needed for the dependants of their own soldiers.

MONTREAL HAS DONE SHARE.

In portions of Canada-in the West, for example-enlistments of men have been proportionately greater in comparison with other

Allowances have in no case been n commissioned officers by the Toronto and York Association. How much do the patriotic allowances amount to?

They vary according to the size and circumstances of each fam-

ily. There is a basic scale of subsistence with which the committee works. It is estimated that for a wife the scale of subsistence in Toronto is \$30 a month, and for each child there is a certain additional monthly amount. For example, for a wife with two children, both under five years, the subsistence scale would work out as follows: Month

Wife, \$1 a day \$30 00 Two children, 10c a day each 6.00

Total \$36.00

OLDER CHILDREN GET MORE.

From this the separation allowance, which is paid by the Government over and above the soldier's pay. is deducted by the Patriotic Committee. That is \$90.00 a month for the wife (nothing for children). After making this deduction the balance to be paid by the Patriotic Fund is \$16.00 a month to that family. If the children were older the allowance for them would be slightly increased. Always the surrounding circumstances are taken into account and the allowance is made to fit each case as nearly as possible. There is infinite variety in the questions which arise in administering the fund. It may easily be that the judgment of the committee may not coincide in some cases with the opinions of other people as to what ought to have been done. But it is gratifying to know that after more than fifteen months, and dealing with 9,000 applications in Toronto. the Patriotic Fund enjoys a full measure of public confidence. It has incurred extremely little criticism. The above example has been cited because it represents the average allowance by the Toronto Committee-namely, \$16 a month.

A SAMPLE INCOME.

It may be asked what the total income from all sources of a wife with two children would be. Here are the figures by the month

Soldier's assigned pay Government's separation allowance Patriotic Fund	16 00	· · · · · · · · · · ·
	171 00	

Total for the month \$51.00 (Or \$11.77 a Week)

Where there are a greater number of children, or they are older, the assigned pay and separation allowance remain unchanged, but the Patriotic allowance increases to a maximum of \$30.00 a month. On the other hand, there are many smaller allowances, so that the average over all the families in Toronto and the County of York is \$16.00.

NINE THOUSAND CASES CONSIDERED.

The number of cases which have been investigated by the Toronto Patriotic Committee has reached 9,000. Of these, 6,000 have been found to be eligible for allowances. An immense amount of work is entailed by so great a volume of business both inside the office and in the investigation department. The utmost pains and care must be taken to deal equitably with every case while safeguarding the fund.

The number of dependants is not, as many have supposed, the

GENEROUSLY SUPPORTED ELSEWHERE.

By way of explanation regarding Toronto it must be said that a portion of the million dollars subscribed in this city a year before had not fallen due and was not paid on the date of the above comparison. But it will do us no harm to know how generously the Patriotic Fund is supported elsewhere.

Making the comparison by Provinces, the contributions dur-ing the year ending September 80th, 1915, were:

file Acar crame	in the second	and the second	Per	
		Amount	Capita	
and the second	Population	Raised	Cont'n	
	900.000	\$ 325,000	\$.36	
laritime Provinces		1,675.000	.80

anitoba	600.000	240,000	.40	1.1
askatchewan	500.000	238,000	.48	
lberta	475,000	372,000		
ritish Columbia	10,000		State 1	

COMPARISON SHOULD BE STIMULUS.

A

Here, too, the comparison will act as a spur and stimulus for this splendid Province of Ontario. The municipalities are doing magnificently in many cases. Contributions are being made by municipal councils of as much as five mills on the dollar to be put on the tax rate. Some people think the Patriotic Fund allowances should be paid out of money altogether raised by taxation. Without entering into a discussion of this question, it may be said that the Canadian Patriotic Fund Executive has carefully considered this idea, and is of the opinion that the present plan has practical advantages over a system based upon Government support.

Anyway, whatever may be said on one side or the other, on one thing we will all agree. Seeing that our soldiers are under our voluntary system offering themselves without waiting for any law to "fetch them," those of us who remain behind will, we feel sure, voluntarily and willingly supply all the money that the Patriotic Fund requires for their families. At the same time contributions are being made by municipal councils to be collected in the tax bills, and in this way there is a combination in practice of the two ideas of taxation and voluntaryism.

DEMANDS ON FUND ARE HEAVY.

This outline of the work of the Patriotic Fund has been pr pared with a view to supplying information such as may be useful in connection with the \$2,000.000 campaign. It is partly a report of a year's operations and partly an appeal for further support. The demands upon the fund are and will be very heavy. the calculation was made that the fund's needs for Canada during the calendar year 1916 would be \$8,000,000 the authorized forces were 250,000. They have now been raised to 500,000. The speed with which these additional men are recruited will determine the demands to be made upon the Patriotic Fund. One thing is plain. The \$2,000,000 that Toronto and York County is asked to provide is the minimum and less than the minimum that will be required to discharge our share of the country's obligations to its soldiers for the maintenance in comfort of their dependents. Let everybody get behind the campaign and do his share.

tion of the spiendid work done by this shade, then every two weeks. It will association. To convenience Her Royal Highness the meeting was scheduled for 12.30 o'clock, when the reports were read and a most interesting pro- or greasy, does not rub off and does not color the scalp.

cr

JANUARY 19 1916

the latter off for 20 rounds, it can be imagined what kind of a scapper Scott will nave to contend with. As interesting a box, as any will be that between Hilbard Lang, Toronto's idot, and Jack Britten. The pride of Brooklyn. The former has been out of the game for some time and local fans are evincing great interest in his come-back. Should Lang win against Britton he will be sent against the best welters the United States can put up, so that. Friday night's bout will be a test for Hilliard, whether he will re-enter the game or be hung up among the discards. Torontonians are hoping that Long will win, as apart from the fact that he is quiet, unassuming, gentlemanity fellow-a credit to the profession. Scotty McRae, former amateur middle and heavy champion and conqueror of bears, will have his real professional try-out when he clushes with Al. Palmer. The latter, in his palmy days, was a classy mitt-artist. He is devere than weight, so the bout promises to be very interesting.

ROSEDALE FIVEPIN LEAGUE

The averages of the twelve lease ien in the Rosedale Fivepin League s follows:

As follows: J. O'Des, Otto C'hb F. Wood, Canadlans McBride, Otto Club Hocigson, Canadlans Hodrson, Carldians Tomin, Otto Civib F Pethick, Heyward's Express.... G. Pethick, Heyward's Express... G. Pethick, Heyward's Express... Kettlewell, Canadians Loids, AH Stars S. O'Dea, All Stars --Standing of the League-Won. Lost.

ATARRH OF THE

BLADDER

Rallavad II

24 Hours

177 174- 528 819 905 2613

"A team that has a few 'lushers' on its roster seldom gets a high place in the race."

Your Opportunity Next Week

Baseball demands, above all things, efficiency. And where the wise Mr. Mack wants flaw-

less work and keen-witted intelligence he relies upon men who keep their blood cool and their

heads clear.

"Because constant 'Moderate' drinking gets a ball player just as sure as boozing, I don't bother with youngsters that drink," says Connie Mack.

Jess Willard, a Double Champion

Jess Willard, the champion heavy-weight fighter of the world, is also a champion of the water waggon. After his memorable battle, when he wrested the championship from Jack Johnson, he said :--

"You can't be strong and well unless you live right. When you go up against nature you get the worst of it every time. And nature doesn't stand for whiskey. . . All this may sound funny from a prizefighter. And, because I am champion, I figure that maybe boys will listen to me when they would give anybody else the laugh as a 'sissy.' "

What it Does

Alcohol impairs the tone of the muscles. It makes slower thinking. It lessens skill and endurance. It affects the heart, liver, stomach and kidneys. Ty Cobb wouldn't be such a dashing, quick-thinking ball-player; he wouldn't be able to hit the ball so hard, so far and so often if he hit the bottle, too.

The Citizens' Committee of One Hundred appeals to the whole sporting fraternity of Ontario to join the new movement for Prohibition in Ontario. In the present world crisis the Empire requires that the manhood of Ontario be brought to the highest state of efficiency. Alcoholic beverages are a bar to efficiency. And they cost Ontario upwards of thirty millions of dollars annually, which should be devoted to more vital needs at this time.

Boys, line up with Connie Mack, Ty Cobb, Jess Willard, Hughey Jennings and Eddie Collins. The opportunity will be given you next week, when the Citizens' Committee of One Hundred will circulate among the voters of Ontario a petition to the Provincial Government either to enact a law for Prohibition in Ontario or to give the people of Ontario the chance to vote on it.

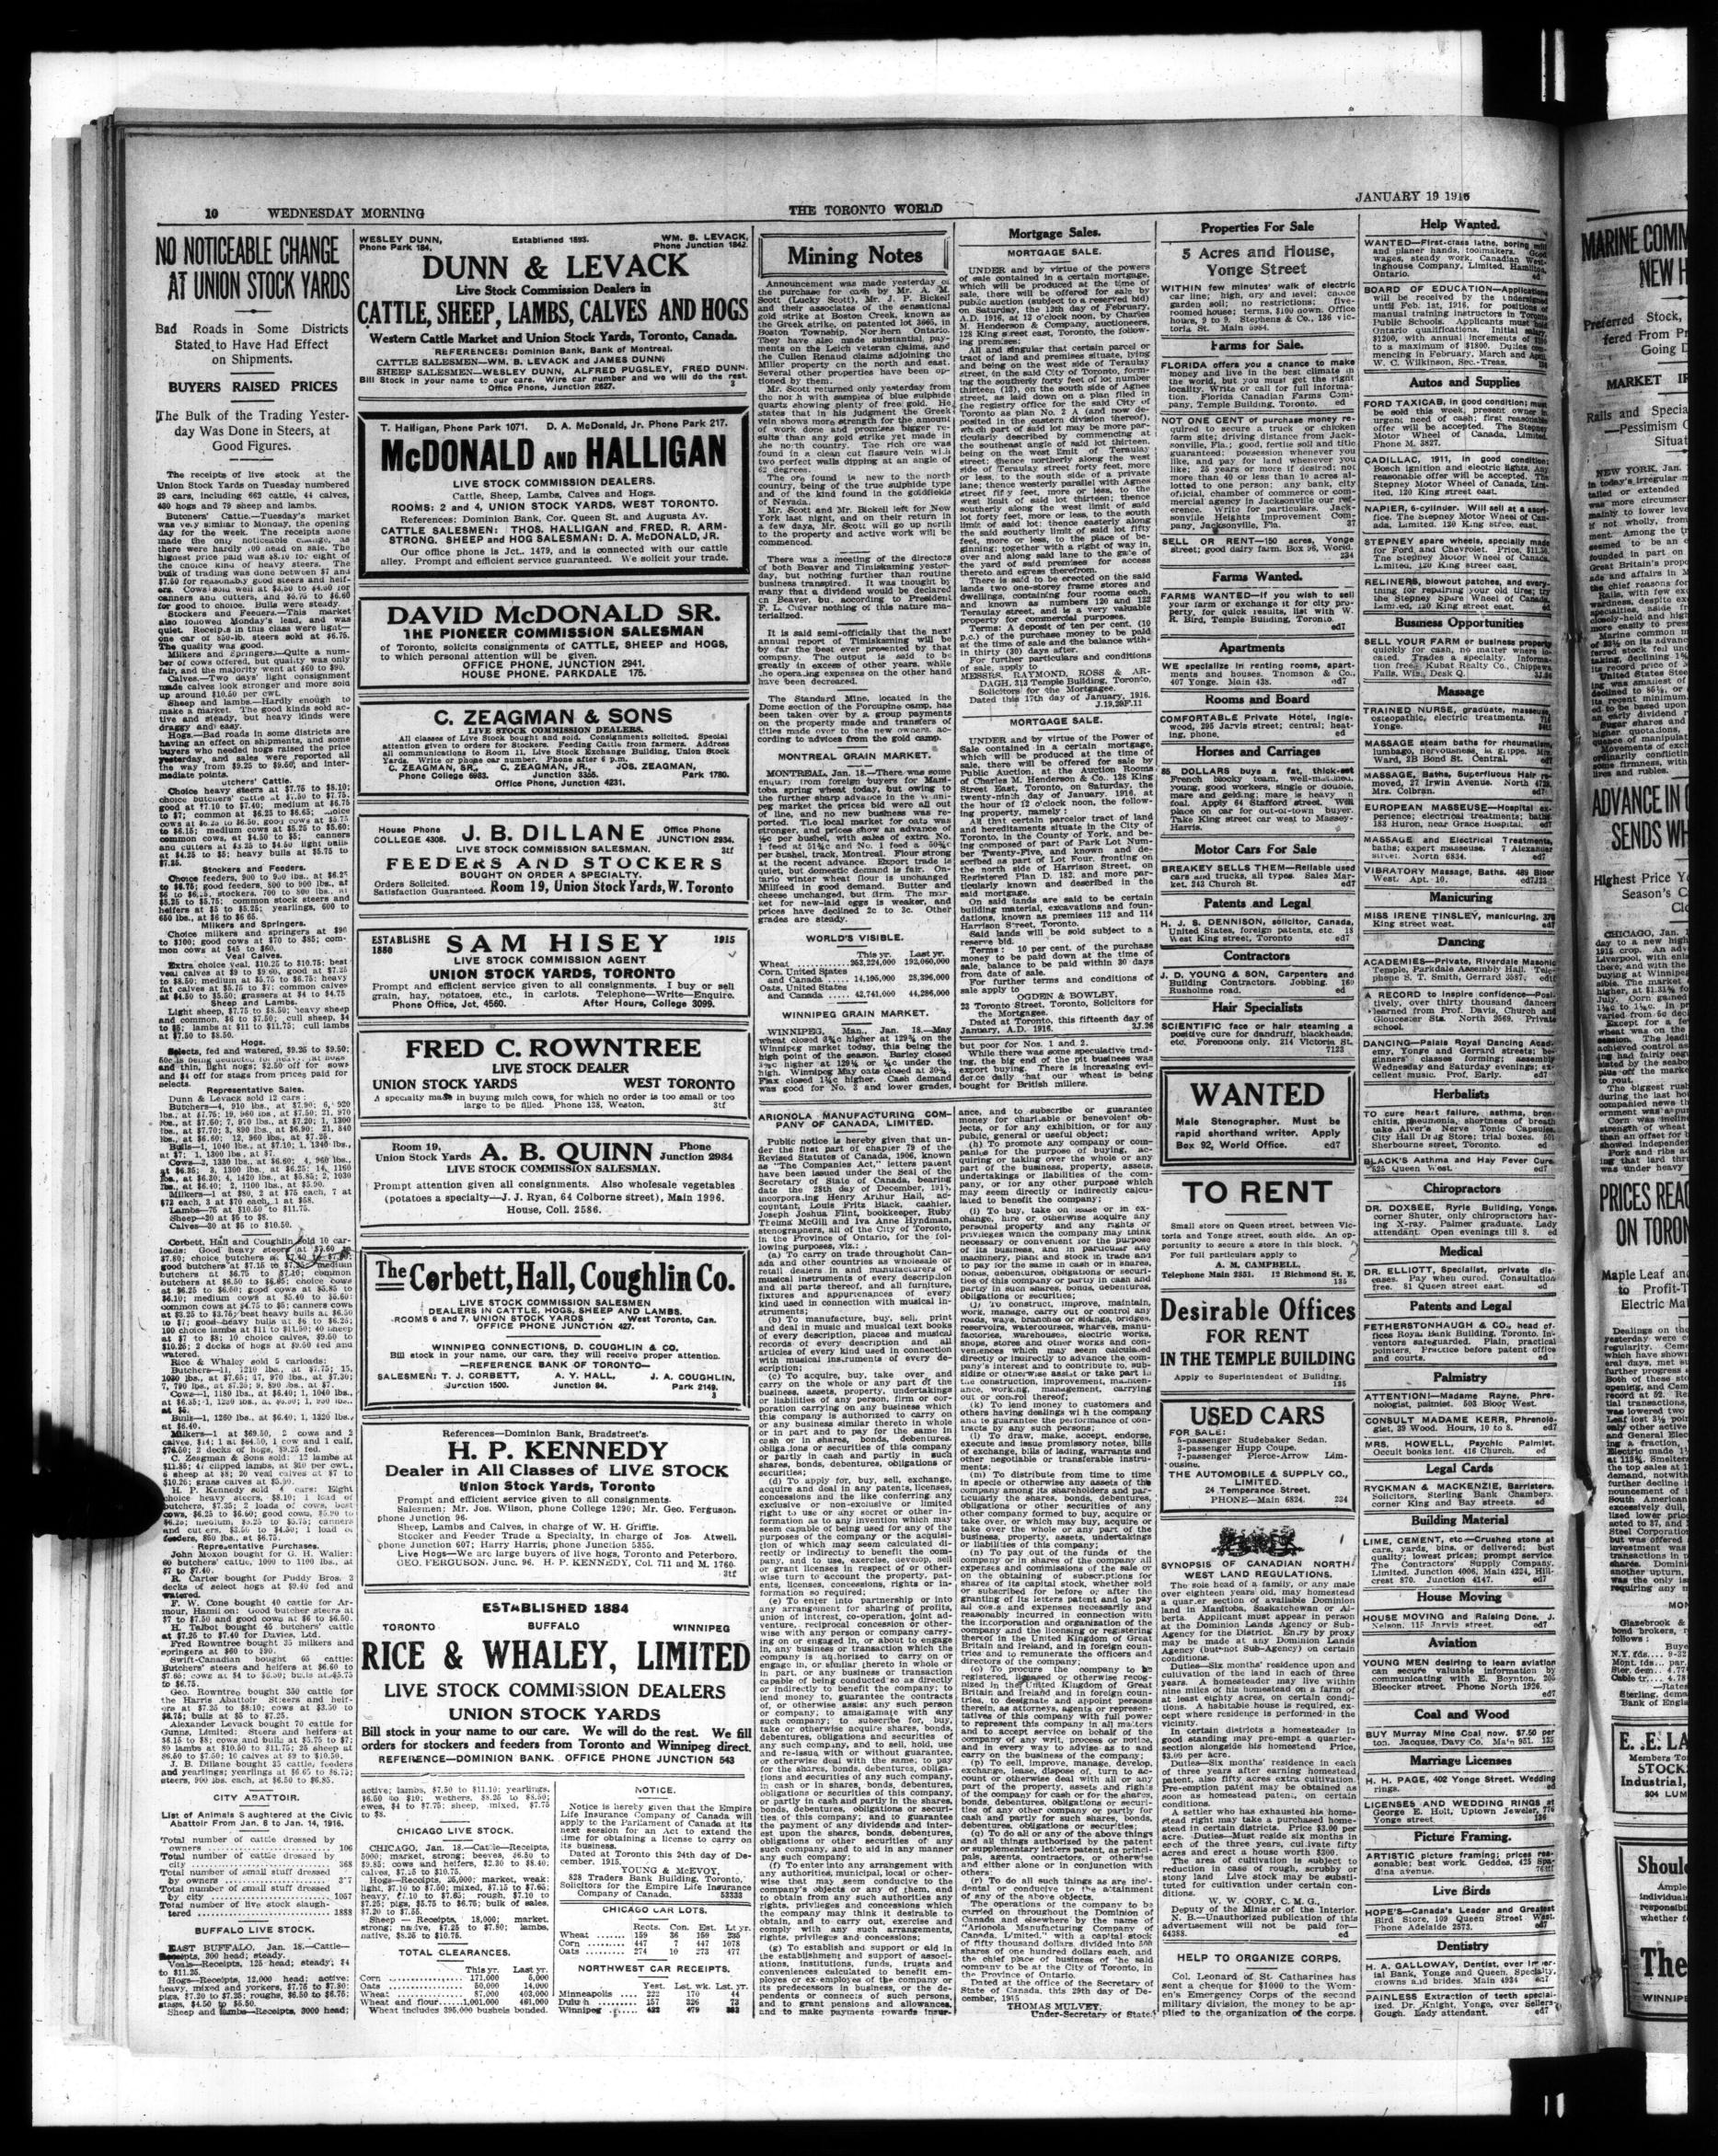

No One Can Refuse

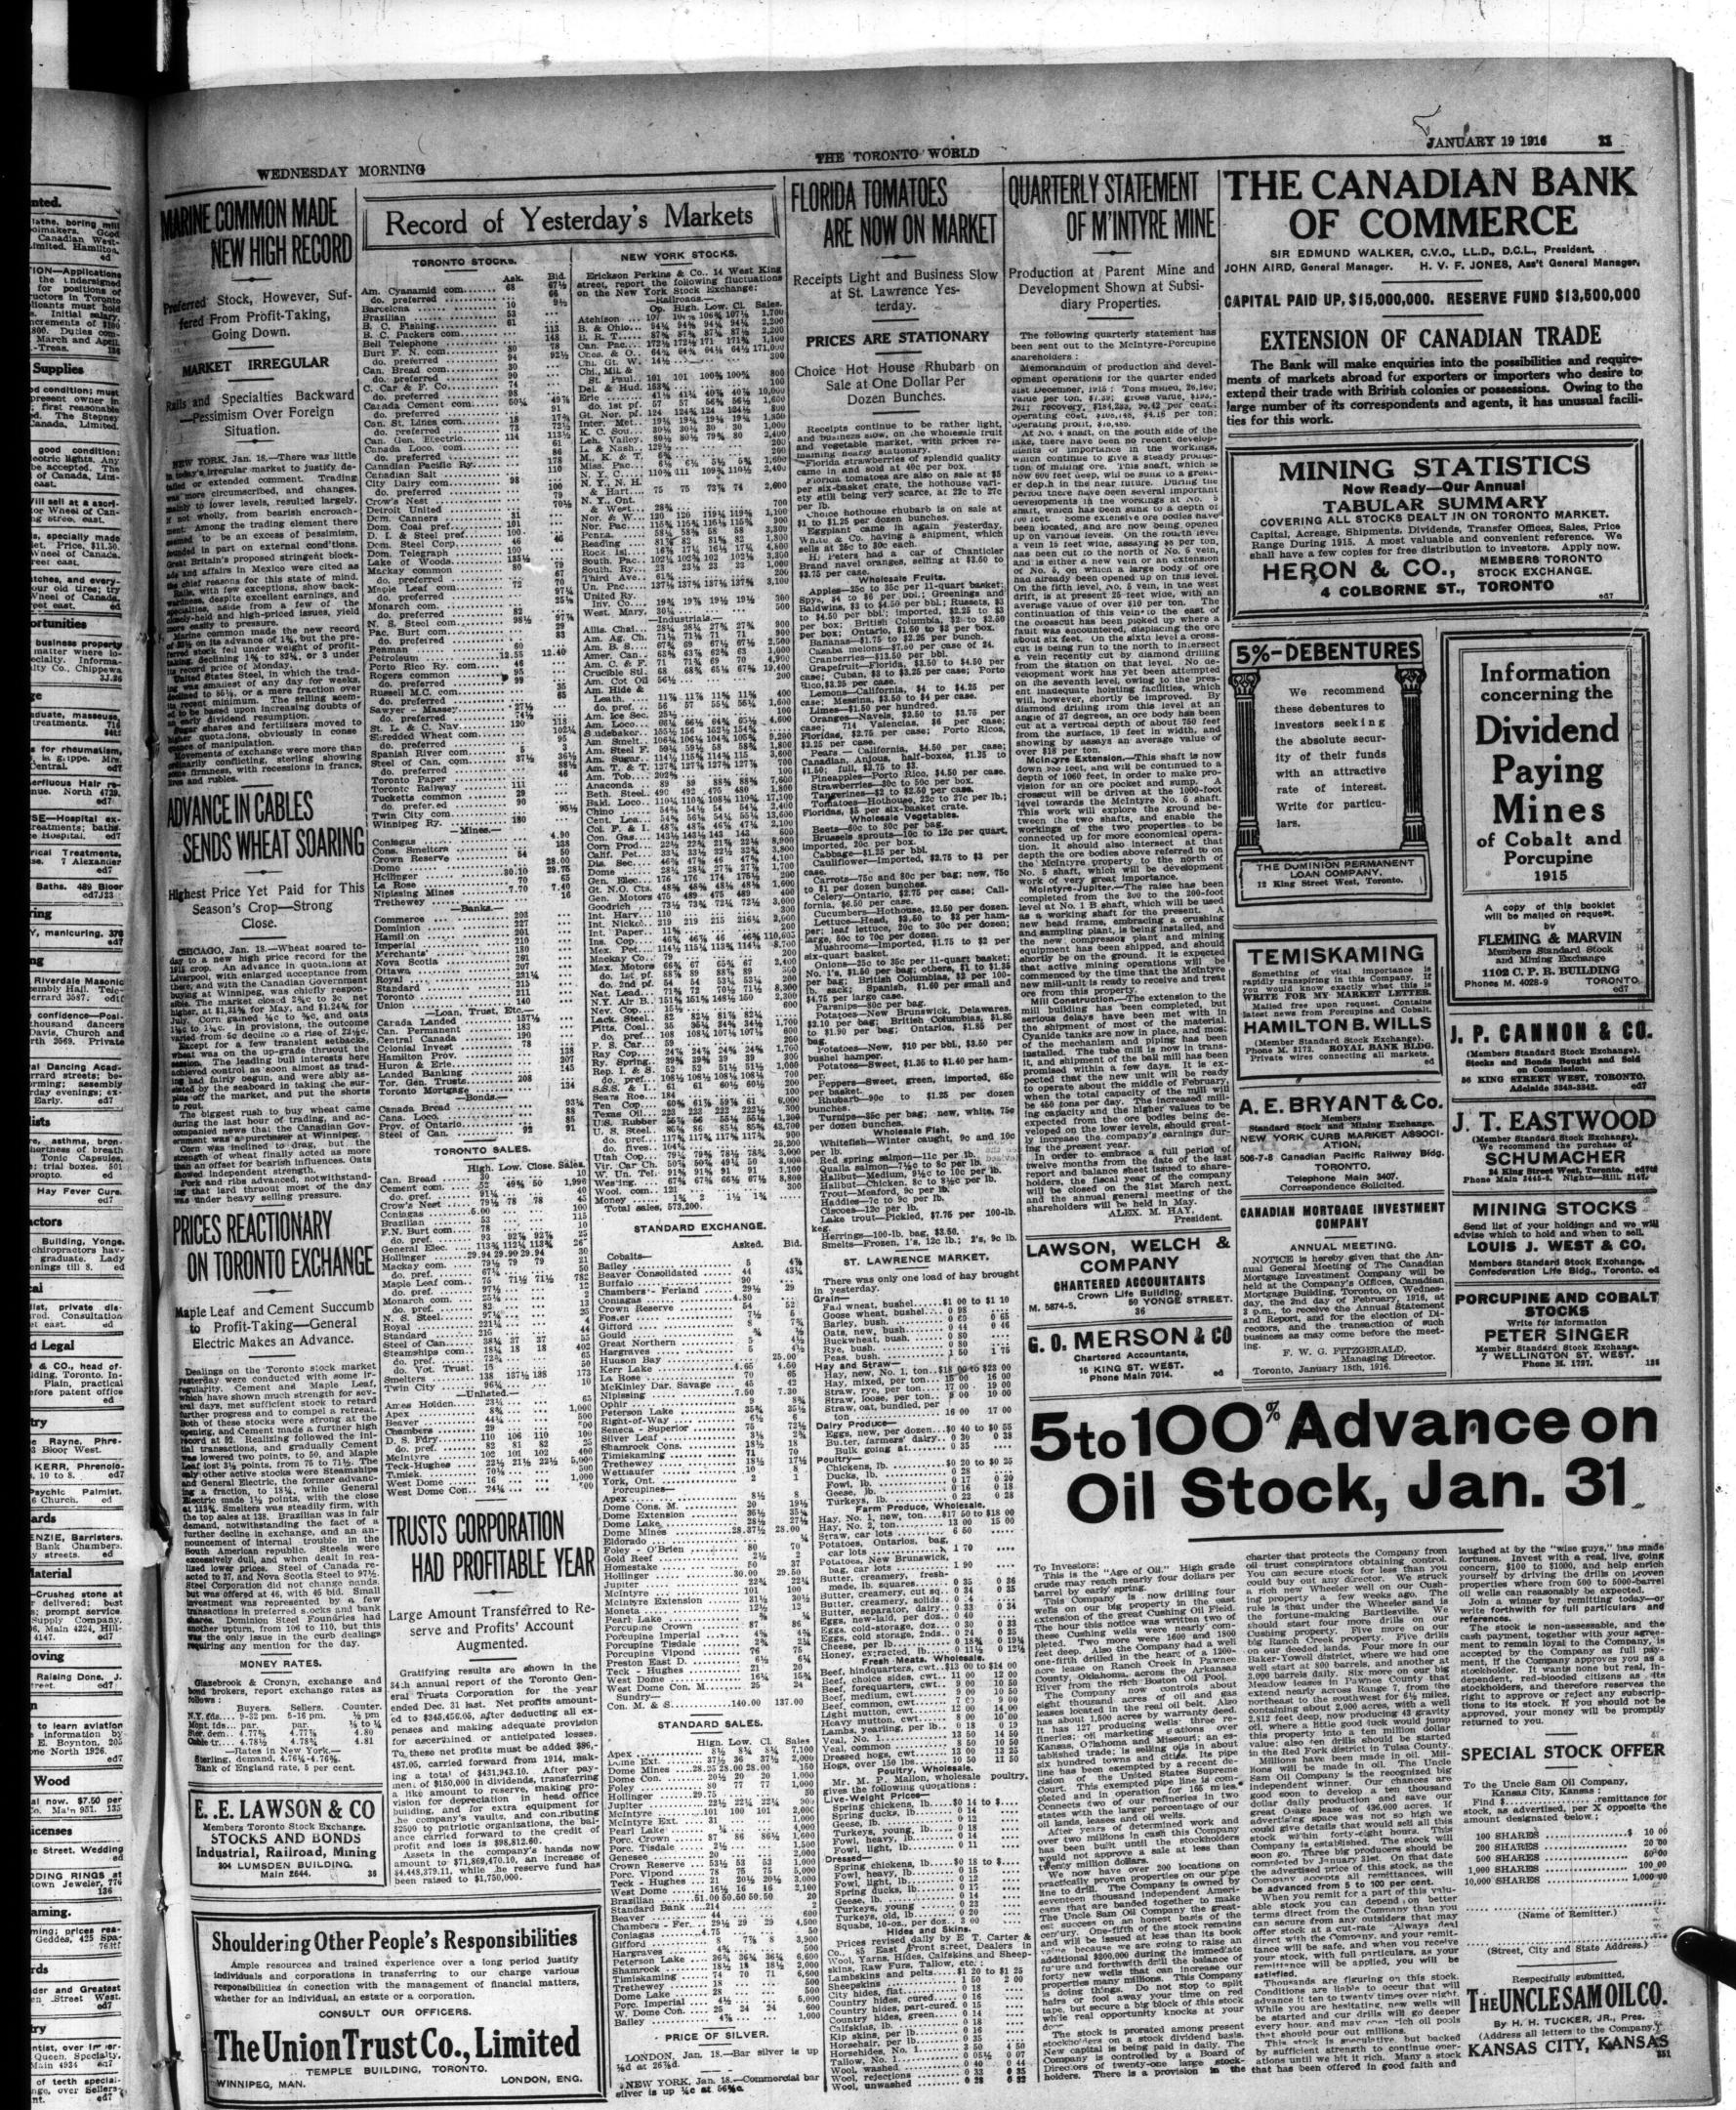

to sign on the grounds of politics. The Citizens' Committee of One Hundred is a non-partisan organization, containing representatives of both political parties who have joined hands to work for the common good of Ontario and the Empire. They ask your loyal support. Sign the petition for Prohibition.

Citizens' Committee of One Hundred E. P. CLEMENT, Berlin, G. A. Warburton, Chairman of Executive Committee Telephone Main 2246.

JAMES HALES. Toronto, Vice-Chairman.

C. P. R. Building, Toronto.
