Steamer Crew at Halifax Tell Amazing Story of Piracy

CAUTIONS IN CANCER CLAIM

SAY HIGHJACKERS CAPTURE MILLION WORTH OF LIQUOR

Crew Says 35,000 Cases Unloaded From Mulhouse Off Jersey Coast.

OFFICERS BOUND

Report That One of the Pirates was Shot Dead is Unconfirmed.

(By Canadian Press.)

Halifax, July 10.—An amazing tale of piracy among the liquor ships on the Jersey coast "run row" involving the theft of a million dollars worth of liquor and \$3,000 in cash, has been related by members of the crew of the French steamer Mulhouse, which arrived here yesterday. It is understood there will be an investigation by the French consul general here, to decide whether or not the piracy tale is bona fide.

According to the story, the Mulhouse was boarded some days ago by 30 "highjackers," who drove the crew below decks and after manacled the officers, kept them prisoners for 10 days while they unloaded 35,000 cases of liquors into small boats.

Crew Robbed

The story was told that the prisoners were half starved and that those of them who agreed to help in discharging the cargo for which they would be paid by the pirates, were afterward robbed of their earnings at the point of gun.

Another rum runner in port yesterday reported that in the attack on the Mulhouse one of the pirates was shot and killed, but he refused to give any details.

Investigation Proceeds.

Representatives of Lamorne Francaise, owner of the Mulhouse, en route here from St. Pierre to institute an investigation into the hair-raising story told by the officers and men. They will arrive tomorrow. In the meantime an investigation is being conducted at the instance of French consular authorities into the damage sustained by the ship during the alleged 10-day's visitation of the pirate band.

It is understood that both cargo and ship were fully insured, which means that a third investigation will probably be instituted as soon as the underwriters, reported to be French Lloyds, are called upon to make good the loss. Emile Gahoury, French consul-general here, expressed astonishment this morning as to how the news had leaked out. He said that as soon as the loss had been reported instructions were placed on board that no one should leave or board the ship, pending further advice. He did not purpose holding an official investigation into the piracy story unless formally instructed to do so, and he was unwilling to discuss the report made officially to him by the captain and two officers of the rum runner.

Captain Ferrero said the pirates left but 3,000 cases behind them when they left the vessel.

Quaco Queen Mentioned.

James Fraser, representative of the owners gave out a statement this morning to the effect that the value of the stolen liquors was about \$300,000 and that the lot consisted of 33,200 cases including brandy, whiskey, champagne and French wines. The pirates, according to Mr. Fraser's statement, came aboard the Mulhouse on June 24 from a speed boat named the Navy Away, New York. The seized liquors were placed on board the following craft; the schooners Patara, Clarke Corkum, M. M. Gardiner, Quaco Queen, and Marie Annod, all thought to be of Nova Scotia registry, the steamer Genevieve, place of registry not stated, the schooner Catherine Marie, Nassau, and the schooner Tessie Aubrey, place of registry not stated.

MEDICAL MEN AT DEMONSTRATION BY DR. GLOVER

Some Endorse, Others Say Cannot Yet be Accepted as Cure.

DR. ROBERTS THERE

N. B. Health Minister Sends Telegram Dealing With the Matter.

(By Canadian Press.)

Philadelphia, July 10.—Dr. T. J. Glover of Toronto, speaking last night before the Philadelphia Clinical Association and the Clinical Society of the National Stomach Hospital, in the Academy of National Science, here, gave a demonstration of isolation of organism which he said causes cancer, and said he hoped to be able to immunize human beings.

Dr. Glover's work, which was illustrated by stereopticon views showing various stages of treatment and the isolated bacilli, was endorsed in address by several speakers; others cautioned against hasty acceptance of the discovery as a permanent remedy.

Tells of Work. According to Dr. Glover the carcinoma, or cancer organism, is a noble, spore-bearing bacillus occurring singly in pairs or in chains of three or more. He has been able to isolate it, he said, from every type of human cancer tissue and to grow it in special media, using it to produce cancer in animals and to develop an anti-toxin.

"In our work on immunity," said Dr. Glover, "we inoculated a number of guinea pigs and monkeys with an old standard toxin which had been partially neutralized by the addition of anti-toxin at intervals of once a week for a period of three weeks. These animals were watched for three months. At the end of that time we inoculated these same animals, along with an equal number of healthy control animals, with a fresh toxin, the lethal dose of which had been previously determined. The control animals that were given lethal doses of the toxin all died in from two to three days. The immunized animals that were given one and one half lethal doses of the toxin did not die. This, we believe, will form the basis for the production of immunity against the disease in the human."

The anti-toxin, he said, is produced from young healthy horses.

Doctors M. T. Warmuth and James T. Donnelly, of the National Stomach Hospital, Philadelphia; Julian Loudon, chief physician of St. Michael's Hospital, Toronto; James McCormack, of the same institution, an Edmund E. King, past president and member of the council of the Toronto Academy of Medicine, endorsed Dr. Glover's work.

Dr. Glover's estimates will be considered in committee of supply.

Today the Senate will sit. The Commons estimates will be considered in committee of supply.

Up to May 1, 1924, they said, 84 humans had been treated. Of these 25 died, four showed no improvement, 38 were improving and 17 were free from all symptoms of the disease, some for as long as a year and a half.

They recommended the removal of cancerous growths by surgery, declaring that the action of the serum upon the remaining diseased glands would be more rapid and effective. Most early cases, where the disease is local, they said, would yield to serum treatment.

Caution Advised. After Dr. Glover and his associates had presented their case, a discussion followed during which a number of Philadelphia physicians and scientists cautioned against hasty acceptance of the carcinoma serum as a permanent remedy. Final proof of the efficacy of the serum, it was pointed out, must come from repeated demonstrations over a long period of time.

Dr. John A. Kommer, a serologist of Philadelphia, asked Dr. Glover for details in the isolation of the serum. Dr. Joseph McFarland, pathologist, of the University of Pennsylvania, declared he had gone to the laboratory of Dr. Glover in New York and requested to see the carcinoma serum, but was refused permission.

Applause and Boos. This precipitated a lively debate, Dr. Glover replying that he had been obliged to come from repeated demonstrations over a long period of time.

STUDENTS MUST PAY INCOME TAX

Berlin, July 10.—Several thousand foreign students in Germany, were stunned when the Government let it be known that students were not exempt from paying the ten per cent. income tax which is imposed upon Germans and foreigners alike. The students contended that it was always understood among them that as their incomes were derived from private sources, and not from any business carried on within Germany, the Government had no intention of taxing them in any form whatsoever.

GETS MARITIME BISCUITS.

One man's faith in St. John, as related in yesterday morning's Telegraph-Journal, has brought to light other incidents of citizens desirous of showing fealty to the Maritimes. A young lady went into the small grocery of a suburb and asked for Maritime biscuits. The little girl in charge looked carefully and then said: "I don't believe we sell Maritime biscuits for I cannot find them." Following another search, the proprietor of the store was called in, and he found that the purchaser wanted biscuits made in the Maritimes. Her need was soon satisfied, when she made her choice from the products of several reliable Eastern firms who manufacture biscuits.

THE NAVY TRADITION

Today there is hardly a vessel which floated in 1914 that is still an asset for fighting service, says the Australian. The Australia, a fine, modern ship when the commonwealth bought her, has just been her Nunc dimittis sung in a last salute of big guns off the entrance of Port Jackson. But the men do not change. They learn a different technique, but we know them for the inheritors of a tradition that which none greater has ever been handed down among men. That tradition is the most valuable thing which the British navy possesses. If it were sullied or were to deteriorate we might have reason to despair of the future of the British Empire, but we have complete confidence that it is safe in the hands of those who prize their personal honor.

THORNTON'S INSTRUCTIVE PHRASE.

Sir Henry Thornton, in his speech before the convention of the State of New York, held in Montreal, said La Presse, expressed a truth which should be inscribed at the top of all handbooks from which the youth of today and those of tomorrow, will draw their instruction, and, thereby strengthen their mentality, when he said with humor: "Of all the games I know, the only one where everyone loses."

Skin Hats Now Worn In England

London, July 10—Not content with possessing a regular "menagerie" of shoes—including those made from the skins of lizards, snakes, sharks, crocodiles, and alligators—the fashionable woman is having hats composed of similar skins.

IMPERIAL FINDS GIRL WINNER

Evelyn Roberts' Answer is Found Among Several Mislaid Cards.

The Imperial management desires to announce that a bundle of cards in connection with the recent contest or Game of Observation, has been discovered that was not examined with the others from which judgments were made and announced in last night's Times. These cards—about 15—which were inadvertently placed in a mis-taken drawer, strangely enough included the only direct and correct answer to the puzzle, and a girl, Evelyn Roberts of 31 Somerset street, North End, is the clever Miss. She plainly and definitely stated that the date "June 28th" did not require the "th" after it. Little Miss Roberts was the only girl to take this correct view and shares with Harold Brown of 928 Union street the ten dollars in cash. The theatre had already offered to recompense the four girls who mentioned the date—though not correctly—with theatre tickets and is still going to do so, but along comes Evelyn and takes the money. The Imperial apologizes for the oversight, which was obviously unintentional, and not the fault of the judges.

Saving Ancient Abbey in England

London, July 10.—Furness Abbey, the beautiful transitional Norman and early English ruin, near Barrow, taken over by the nation, is crumbling and portions of it are leaning from the perpendicular. Extensive renovations and repairs have been found necessary, and work has been begun. It is estimated that it will take several years to complete the work, and endeavor will be made to keep the abbey as "ancient-looking" as practicable. So securely were the parts cemented together by the medieval builders that when one of the unsupported portions of the structure fell gunpowder had to be used to break up the pieces into removable sizes. Evidently the monks of the 12th and 13th centuries were builders.

ST. JOHN DELEGATES AT PRESBYTERIAL

Many delegates were in attendance at the third session of the Presbyterial which opened in Grand Falls yesterday. The meetings both in the morning and afternoon were taken up with the hearing of addresses and the consideration of reports. At the close of the afternoon session the delegates were entertained to tea at the manse and were then taken on a sight seeing tour of the district. Delegates from St. John and vicinity in attendance were: Miss Edith Magee, Miss L. Somerville, Mrs. H. E. Hurley, Mrs. M. Elliott, Mrs. Cruikshank, Miss Cora Sinclair, Miss Janet Sinclair, St. John; Mrs. John Thomson, Rothesay and Mrs. Wilson, Lorneville.

300 PEOPLE ENJOY TRAINMEN'S PICNIC

The Brotherhood of Railway Trainmen held their picnic yesterday at Grand Bay. Little Angus McDonald, aged four years, wandered away from the ground in the afternoon and was discovered on the railway track in the path of a freight train later. He was returned to the grounds in a motor lorry, tired and dirty but unhurt. Another special incident at the picnic was the attacking of Lloyd Parlee, a small boy, by a large watch dog owned by G. Watters of Grand Bay. The lad had a piece bitten out of his leg and he was brought to the city and the wound was dressed by Dr. F. D. Weldon. Mr. Watters offered to shoot the dog but Mr. Parlee objected.

More than 300 people altogether were in attendance and the day was bright and warm until evening when a slight mist rolled in. The races and games were thoroughly enjoyed. The Carleton Cornet Band was in attendance. The lady conveners were Mrs. Chas. James, Mrs. Charles Parlee and Mrs. W. A. Tobin. The convenor for the men's games was Alfred Campbell. Alexander Northrup had charge of the ice cream. Mrs. Walter Beatty and Mrs. Charles Cooley, Mrs. Fred Clifford and Mrs. Arthur Morrow had charge of the fruit and candy.

The ladies' and gentlemen's rifle ranges were in charge of Mrs. R. A. Baillie, Mr. Baillie and Charles James. Those winning prizes were Arnold Arthur, R. Kirkpatrick, Mrs. Tennyson Currie and Mrs. C. Giles. The bean tosses were in charge of Walter Beatty and Roy McIntyre. Prizes were won by Mrs. J. Geary, Mrs. Thomas Totten, A. Page and P. Murphy. Some of the other committees were: Soft drinks, Fred Henderson and Samuel Silliphant; house-hokey, H. L. McFarlane and Walter Walsh; diamond blocks, Arthur Morrow; bagatelle, Bert Kirkpatrick; wheel of fortune, W. A. Tobin and Charles Cooley. William Thompson had charge of the spindle.

Those replenishing for the supper were Mrs. Edward Kane, Mrs. William Thompson, Mrs. Tennyson Currie, Mrs. James Brittain, Mrs. George Costley, Mrs. Hazen Cauley, Miss Annie Baillie, Mrs. Harry Watters, Mrs. Alberta Robinson, Mrs. G. Goldie, Mrs. S. Silliphant and Mrs. George Wiley. An efficient committee assisted in serving. Races were run by young and old, small and large people and everybody had a lively time. Mrs. Charles Parlee and Mrs. Geo. Currie took the tickets.

How can an ordinary Talcum Powder be expected to do all these things?

There are five medicaments in Mennen's each with a definite well defined therapeutic value.

Imagine the helplessness of a tiny baby—whose skin is, by day and night, constantly assailed by three enemies:—

- MOISTURE**—from perspiration or urine, causing painful inflammation.
- FRICITION**—and chafing from clothes or baby's restlessness.
- INFECTION**—because baby's skin is helpless alone to resist.

So there is a decided difference in Mennen's with its five principal ingredients. One to afford soothing comfort—another to heal—another chosen for its antiseptic qualities, while another helps in counteracting friction; then, finally, the fifth ingredient increases the absorbency of Mennen's and counteracts acidity.

For the sake of baby's welfare, you should remember the distinctive qualities of Mennen's Borated Talcum and never omit the Mennen shower after every bath, change of diapers—before each nap, and whenever baby cries.

Surely no ordinary powder will soothe baby's skin and protect from these foes of comfort and health. That is why Mennen Scientists experimented for years in their researches to compound a perfect formula of elements to put in Mennen Borated Talcum. That is why this famous scientific preparation is mild and safe, yet most effective in keeping baby's skin soft, smooth and comfortable.

Prince Arthur Brings 182 Passengers, Happy in Relief From Heat.

J. W. DAVIS AND C. W. BRYAN ARE DEMOCRAT CHOICE

(Continued from page 1.) Smith that held through 100 ballots before a presidential nomination was in sight. And in the closing scenes came a new precedent in the personal appearance of the nominee to acknowledge his gratitude, and his prompt assumption of command.

The large steel liner S. S. Prince Arthur, which was recently placed on the St. John-Boston service by the Eastern Steamship Company, is making record time for the voyage. She sailed from Boston yesterday afternoon and docked here about 7.30 o'clock this morning, completing the run in 18 hours. As a result of these quick trips she is now getting a large passenger trade and also attracting merchants who ship freight between here and the Hub. On this trip she brought 182 passengers and a fair sized general cargo. Those who made the voyage told of the pleasure they experienced on reaching here to find the weather so cool and refreshing. They said they had been sweating in heat at home and had eagerly taken advantage of an opportunity to come to the Maritime Provinces to enjoy a holiday and escape the heat wave.

He graduated from Washington and Lee University at the age of 19. After receiving his B. A. degree he spent three years studying law and won the law degree at the age of 22 in 1905. In 1906 he was elected to the Virginia Legislature. In 1910 the Democrats of his district chose him for representative in Congress and he was elected to a district that had been Republican for 20 years. He was re-elected in 1912. In 1918 Mr. Davis went to Europe as a member of a commission to treat with Germany as to the exchange of prisoners of war, and upon the resignation of Walter Hines Page, Mr. Wilson made Mr. Davis the U. S. ambassador to Great Britain. Mr. Davis took up his work in London in November, just as the war came to an end. In his capacity of ambassador he was present in Versailles during the peace conference.

Adventurous Youth Tries a Hazardous Climb—Saved by Coastguards.

London, July 10—Balanced on a narrow ledge of rock 400 feet above the ground, a youth of 20, in sight of a large crowd of visitors, was in peril of his life at Beachy Head, Eastbourne, a few days ago. The young man, named Girdler, had walked around the beach to the foot of the head, and at a point where the cliffs rise 500 feet, he began a hazardous climb. The long spell of wet weather had made the chalk treacherous, but in spite of warning shouts from the crowd to retreat, he pressed forward, and on all cliffs set back he continued the ascent, although he was in danger every minute.

WALSH DECLINES

Senator Thomas J. Walsh of Montana, chairman of the convention of Mr. Davis had swept the field on the 10th ballot, avoided the vice-presidential nomination by acclamation only by declaring an adjournment until 8.30 p.m. in the face of a thunderous chorus of "noes" against such action. He maintained his stand, insisting his wishes would be greater as a senator. London's Comment. London, July 10—(United Press)—"Out of the pandemonium of the Democratic convention emerged unexpectedly the spirit of wisdom," said the Daily News today. "Every liberal-minded politician in the country will welcome an announcement that John W. Davis is the party's candidate. 'If it should be his lot to succeed Mr. Coolidge he will bring to discharge of that powerful position courage and sagacity above the ordinary.' The Daily Chronicle says Davis probably is the strongest candidate the Democrats could have nominated, and 'Now that the Republicans' chances are so impaired, first by oil and secondly by LaFollette, believes the former ambassador to the Court of St. James has considerable chance of election.' 'American political methods as exemplified by party conventions look often so unpromising as seen from a distance that one cannot help marveling again at the comparative frequency with which the men of high character and attainments contrive eventually to be thrown to the top by them.' John W. Davis' Career. John William Davis, the democratic nominee for president, was born in Clarkburg, West Virginia, in 1873, the only son in a family of six children.

TAKE SLAM AT DETECTIVE FORCE

Halifax Newspaper is Calling for Reorganization in Department.

The Halifax Mail says: "The citizens of Halifax are alarmed over the failure of the local detective force to cope with the crime wave that has swept over this province during the last few years. There are at the present time in Nova Scotia upwards of half a dozen murderers at large—not to speak of burglars and hold-up men." "The Halifax detective force has been accused of being connected with practically every case, but without result." "The fact is the time has long since passed for a complete and thorough reorganization of our detective system. For years the Halifax detective force has been losing public confidence and today the department is not justifying its existence." "Citizens appreciate that Mayor Murphy, chairman of the police commission, has been away from active duties as a result of a serious illness, and it is still in a state of transition. It is important to point out to his taxpayers that he is not a party to the present situation." "The fact is that the Halifax detective force has been losing public confidence and today the department is not justifying its existence."

EQUITY IS UPHeld

Actors' Fidelity League Loses Its Suit For Injunction. New York, July 10—Supreme Justice Pitelack has denied the application of the Actors' Fidelity League, made through Miss Ruti Chatterton, its treasurer, for an injunction to prevent the Actors' Equity Association and the Managers' Protective Association from carrying out their contract providing that 50 per cent of every cast be Equity members. Miss Chatterton had considered that the agreement tended to drive Fidelity members and independent actors off the stage. Supreme Court Justice McCook upheld the legality of the Equity contract when on May 28 he denied an application for a similar injunction made by the Producing Managers' Association. His decision was affirmed by the Appellate for division of the Supreme Court on June 27.

FOUR HUNDRED AT FAMILY PARTY

Paris, July 10—At a time when so much is written about the depopulation of France it is interesting to indicate a family record which has just been commemorated at a unique gathering at Santes, near Lille. At this gathering were 400 members of the same family, whose descendants now number nearly 1,000. The marriage of M. and Madame Bernard Lagache took place 289 years ago, and there issued from this union five powerful branches. Today the direct descendants of Bernard Lagache number 931. It was around the eldest branch that the descendants of the family gathered. After a special mass in Santes Parish Church, a commemorative plaque was inaugurated, on which are engraved the names of 21 members of the family who died for France. Great grandparents, grandfathers, parents, and children then assembled at the house of M. and Madame Bernard Verley, who have a family of 17 children, and an open-air feast was organized, the guests numbering 317.

The Evening Mail has referred on several occasions to the recent daylight robbery at the home of French Consul Gaboury. It is needless to repeat what has already been said, but it is important to point out to his worshippers that he is not a party to the present situation. The fact is that the Halifax detective force has been losing public confidence and today the department is not justifying its existence.

GIANTS MAKE BIG HIT WITH FANS

Battle With Vets Makes Stirring Baseball at East End Grounds.

One of the classic and snappiest touring aggregations to reach these parts in years, the Philadelphia Giants went down to defeat at the hands of the War Vets last night on the East End grounds as a result of one of the most spirited and sensational ninth-inning rallies it has been the lot of the batting rally coupled with a piece of brainy thinking by "Joe" Dever sent the fans home tickled to pieces and anxious to see the next battle between these teams.

Going into the final frame with the score 4 to 2 against them, the locals sewed up the game when Ramsay and Tippetts doubled, Ramsay scoring. Dever came next and he eliminated the good example, scoring Tippetts with the tying count and placing himself on second. On a wild pitch, "Joe" reached third. With one out, Bonnell came up with the fans pleading for a hit. Bonnell drove one between first and second. Instead of wildly dashing for home, Dever held the bag and compelled Second Baseman Cordova to throw to first to get Bonnell.

The ball had barely left Cordova's hand before "Joe" started his historic drive for home. First baseman Ricks slammed it to home but this time it was on the side away from Dever and "Joe" was safe with the winning run on a great slide to the home plate. The local boy was given a great hand. This batting rally coupled with the all-round good playing of the visitors made the game one of the best in years. Big league staff fairly stuck out all over the colored boys. Their place bunting, their great fielding, the inside stuff they worked, while the antics of their coaches, stamped them as a bit out of the ordinary. One of their coaches was asked by a fan what he did on the team. "Who? Me?" he replied, "why I'd de guy what tends de money." He drew a big laugh. Dever started calling the plays and struck it right three times hand-running. So, the fans insisted he get into the game. They put him up in the ninth but the best he could do was hit into a double play.

FROM BAT BOY TO BIG LEAGUE STAR

New York July 10—(Associated Press)—Jumping from batboy to regular third baseman of the St. Louis Cardinals in three years, Howard Freigau realized the greatest of his boyhood ambitions in much less time than he ever dreamed he would.

Freigau related that he first attracted the attention of Branch Rickey, the Cardinals' boss, when he was playing high school baseball. At the end of his high school course he received offers from several colleges, but on the advice of Mr. Rickey went to Ohio Wesleyan. There he began studying for a B. A., but before he finished his course he became a B. B. (batboy), because the college diamond did not give him enough baseball.

Freigau, however, had ruined that status by playing semi-pro games on Saturdays and Sundays and, when the athletic authorities at Ohio Wesleyan heard of this, the youngster was advised that his playing days on college diamonds were over.

JEREMIAH STOUT OF FAIRVILLE DEAD

Prominent Resident was in 73rd Year—End Came Suddenly.

A pioneer who came out from Scotland in 1862 and settled here passed away early this morning in the person of Jeremiah Stout, at his residence in Fairville. Although in failing health for the last two years, the end came suddenly and as a shock to the many friends and relatives of this fine old gentleman. He was in his 73rd year. Besides his sorrowing wife, he is survived by one daughter, Mrs. H. B. Doherty, Beverley, Mass.; three sons, Learnout A., Winnipeg; H. Marshall and Stanley M., at home; and one brother, Alexander M., of Bathurst, N. B. The funeral will be held on Saturday afternoon at 2:30 o'clock, from the Fairville Methodist church.

Born on Fair Isle, Scotland, in 1851, Mr. Stout came to this country when a lad with a band of Scottish settlers, among them his future wife. He first located on the North Shore, near Connetquot, St. John. For a time he followed the sea, but on giving up the seafaring vocation he opened the business that he had maintained for many years in Main street, Fairville.

He was a leader for many years in the affairs of the Fairville Methodist church, being treasurer for a long time. For a quarter of a century he was superintendent of the Sunday school, and for 30 years he was leader of the choir. He was a member of the Independent Order of Foresters and for a time auditor of the Fairville school board. His death will be deeply regretted by the many who knew him and admired his lovely character.

CASE AGAINST WM. LEAN IS DROPPED

It Followed Auto Accident in Which Two Women Figured.

William M. Ryan appeared in the police court this morning for the caution in a case against William Lean of the Loch Lomond road, who was summoned to court on suspicion of supplying liquor to Raymond Pyne and his daughter Mable, who figured in an automobile accident on the Loch Lomond road. In summing up his case before Magistrate Henderson, Mr. Ryan said the evidence was unconvincing and while he was of the opinion that there had been an offense committed under the evidence he could not ask for a conviction. Magistrate Henderson said he concurred with Mr. Ryan and had arrived at the same conclusion. He was of opinion that the evidence for the prosecution, who were the two women in the case, could have given more evidence had they been so inclined. He then dismissed the case.

The men in the case said they had received only soft drinks at Mr. Lean's. When testifying the women said they would not say positively that they had received intoxicating liquor.

After testifying yesterday afternoon the women were sent to the hospital for treatment. Both had sustained quite bad lacerations and bruises and it was feared that blood poisoning might set in if they were not cared for. When asked today regarding their case, Magistrate Henderson said he had disposed of it. He said that the only charge against them was for drunkenness.

Raymond Pyne was taken into custody yesterday afternoon and charged with speeding, reckless driving in the Loch Lomond road and operating a car while under the influence of liquor were made out against him. His case was heard before Stipendiary Magistrate Adams at East St. John and he was remanded until Friday morning to give the prosecution a chance to procure witnesses.

LITTLE ONE IN TRAFFIC PRESS

Stella May Flanagan, aged two years, gave Traffic Policeman James McNeice quite a scare this morning while he was on duty at the intersection of Mill and Pond streets. While vehicles were passing he suddenly caught a sight of the little tot passing between two heavy slovens. He quickly signalled for all traffic to stop, fearing that the little one would be run over, and then, taking her by the hand, he led her back to the sidewalk. When questioned, she answered: "I can't find mammy."

The child was sent to the police station for safe keeping and while there was kept amused. Later her mother, Mrs. Annie Flanagan, of Pond street, arrived and took her home.

NEW LIGHTHOUSE

The Dominion Public Works Department has been doing considerable dredging recently in Yarmouth harbor on what is known as Bunker Light shoal. This dredging has now been completed, making a straight run in and out of the harbor. While the work was going along the marine and fisheries department maintained a lightship and also built a new lighthouse on the shore of Bunker Island, at an approximate cost of \$25,000. The new lighthouse has been placed in operation and the lightship will be removed next Saturday.

GRAND BAY PICNIC

The picnic yesterday at Grand Bay was held under the auspices of the C. P. R. trainmen. In addition to the prize winners published elsewhere, Mrs. W. A. Tobin won a ton of coal and Earl Watson a clock. Curry Styles was in charge of the races and he was assisted by Fred Henderson. During the evening a dance was held with Charles Cooley as floor manager, assisted by Allan Hipwell. The music was furnished by the Carleton Cornet Band.

CITY WILL HAVE EQUIPMENT TO SELL

Get Clear of Some Articles Not Needed—Tax Exemption Matter.

The city commissioners in committee session this morning decided to have a sort of house-cleaning sale of material belonging to the city that has long since outlived its usefulness. The decision resulted in a discussion started by Commissioner Frink who asked for authority to sell two old trip carts now stored away in the Exhibition building.

This reminded Commissioner Harding he had an old motor ambulance for which someone had offered him \$50. Commissioner Wigmore recalled he had an old motor truck for which he had received a bid of \$175. He said he tried to get \$200 and if the Council would give permission, he would make the best sale possible.

Mayor Potts expressed the opinion that public sentiment was against any private sale of the city's property. He suggested it would be wise to have each commissioner submit a list and call for tenders for the entire lot.

Commissioner Wigmore said that probably would be the better way and hold a public sale.

Commissioner Bullock objected. It was his idea to have each commissioner submit his list to the Council and let the Council give each one authority to dispose of the lot.

"I can call in the Ludlow on your list," interjected His Worship. It was finally decided to follow the Mayor's idea and hold a public sale.

General Business.

Commissioner Frink reported the N. B. Telephone Co. Ltd. had requested permission to lay a conduit in Prince street, between Carmarthen and Wentworth. Approval will be granted subject to city regulations.

An application from the Civic Power Commission for authority to order line materials was approved.

Lewis Connors wrote through his solicitors, Barnhill, Sanford and Harrison, asking what action the city intended taking in regard to taxation exemption for his proposed manufacturing plant in West St. John. He reported he had leased the land from the C. P. R.

The Common Clerk had a resolution prepared on this matter giving Mr. Connors five years exemption from present taxes except on school and water taxes. As there was no information available respecting the exact nature of what Mr. Connors proposed to manufacture, the matter was placed on the table until this information was to hand.

Commissioner Frink said the council could not grant exemption of three years unless another company in the city manufacturing the same article.

A request from Commissioner Wigmore for authority to notify owners of vacant lots in Brunswick Place where paving operations will commence soon to install water and sewerage on their premises was granted. This work is not to be done within 15 days from date of notice, the city can do the work and the owners must foot the bill.

Commissioner Harding presented a bill from John Magee for repairs to the city market building amounting to \$268.08. This was approved for payment.

YOUNG MEN WIN PRAISE FOR LIFE- SAVING IN RIVER

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "now that we got a Democratic candidate in the States well keep an eye on that there London conference."

"You follow the news of the day," said the reporter.

"Yes, sir," said Hiram. "I want to know what's goin' on. Why, it gives a fellow a lot to think about while he's follerin' the harrier or the cultivator, or milkin' the cows. When me an' Hanner sets down in the evening to hev a little rest after the day's work we hev somethin' to read an' talk about that makes us feel we ain't just a pair of old fools shet up fer life—but lookin' on at a game that's changin' all the time an' chock-full of what you newspapers calls human interest. This here human ant-hill that we call the airth is wuth watchin' every day—even if they are some folks that think of 'em as 'ninn' but what they kin git out of it fer themselves—yes, sir."
