BISHOP'S CHARGE TO ANGLICAN SYNOD

Matter of Religious Instruction in Schools SEES NO PROGRESS

Disclaims Responsibility for Self and Church in Matter—Material and Spiritual Conditions in New Brunswick—Business and Reports at Opening

The annual meeting of the Diocesan Synod of Fredericton of the Church of England was opened this morning and will continue until Friday morning. At ten o'clock this morning the delegates met in Trinity church for Holy Communion. His Lordship Bishop Richardson was the celebrant and he was assisted by Very Rev. Dean Schofield, Archdeacon Forsyth and Rev. R. A. Armstrong.

The synod met at eleven o'clock in the school room of the church for the first business session. After the opening prayer, which was offered by the bishop, the roll was called and the list of delegates and the treasurer's report were referred to the committee on credentials.

The nominating committee consisting of one clerical and one lay member of the synod from each diocese who were nominated all standing committees and boards as appointed by the bishop as follows:—Chatham, Archdeacon Forsyth, F. E. Neale; Fredericton, Dean Schofield, A. A. Sterling; Kingston, Canon Meale, H. M. Campbell; Shediac, Rev. W. Wiggins, R. W. Hewson; St. Andrews, Rev. C. W. Nichols, Hon. W. O. H. Grimmer; St. John, Rev. G. F. Scovell, H. B. Schofield; Woodstock, Rev. A. W. Teed, T. G. L. Kitching.

The bishop, in his annual charge, referred with deep feeling to the loss of seven members of the synod since the last meeting, including Rev. C. O. Haviland, rector of Grand Falls, who died on Sept. 29; Rev. N. M. Hillier, rector of Grand Falls; Rev. W. L. LeBaron, rector of Grand Falls; Rev. W. L. LeBaron, rector of Grand Falls; Rev. W. L. LeBaron, rector of Grand Falls.

Points of Weakness Under "points of weakness" His Lordship referred to the fact that the majority of the clergy added to the diocese were brought from other parts of the world and that the diocese was falling to pieces as a result of the leaving of the clergy as strong as the leaving of the clergy was of this nature. "Are we satisfied to be spiritual papists, and if we are it is not a damning indictment of our spiritual life."

The remedy The remedy must be found in the deepening of the spiritual life, by holding up the privileges of holy service before the boys and young men of the church and also by making the conditions in the mission fields more comfortable in order that parents might not be afraid to trust their sons to them.

QUEEN BUYS CHRISTMAS GIFTS EARLY

Her Majesty Has Already Laid in a Good Stock

ALL USEFUL PRESENTS

London, Nov. 5.—Queen Mary has already laid in a good stock of Christmas presents, each personally chosen. While at Balmoral she bought various articles for the household, including handkerchiefs, scarves and wraps, hand-knitted hunting waistcoats, gold jewelry, and motor mufflers. Her Majesty who invariably chooses useful gifts in preference to the ornamental.

The queen has again shown a marked partiality for a rough green-colored home spun hop-sack tweed. For years Princess Mary wore frocks and coats of this material, which is woven in the Isle of Harris. To the Queen of Italy and to the Queen of Greece, she has presented gifts of this particular cloth, and another favorite offering from Her Majesty is a set of fine household linen, comprising a pair of very beautiful Irish hand-embroidered sheets and pillowcases, with covers to match, and the recipient's crown and other delicately embroidered on each.

Through Lady Londonderry and the Irish Industries Association the queen buys dresses of "Irish tweed," including handkerchiefs, scarves and aprons. Her Majesty has also bought a pair of very beautiful Irish hand-embroidered sheets and pillowcases, with covers to match, and the recipient's crown and other delicately embroidered on each.

TELLS FEARFUL TALES OF ATROCITIES BY THE TURKS

Situation Growing More Grave in Constantinople Every Day

Hostility to Christians Increases and is More Openly Shown—Serbian Writer Sends Description of Awful Acts by Turks—New Grouping of the Powers Talked Of

(Special to Times) London, Nov. 5.—The situation in Constantinople grows graver every day. The hostility to Europeans increases and is shown more openly and atrociously as days pass. The lower classes express their fierce animosity without any attempt at concealment. Some workmen's guilds openly boast that they have taken a secret vote to massacre every Christian in Constantinople should the Bulgarians enter the city or should Romania be severed from Turkey. Fatwas are now preaching in condemnation to the mob in out of the way mosques.

TERRIBLE TALE OF ATROCITIES Dragutin J. Iliak, a Serbian novelist, has written the following description of atrocities by Turks on the Turkish frontier since the war began: "In November a number of Turks entered a house of a priest named Philip Kusanovich, in the village of Dobruytz, they dragged him into the road and cut off his nose, ears, and lips. Thus mutilated, the hands took the priest through the streets to show him to the passersby. When the man fell down in agony they gave him a finishing stroke by putting a bullet through his head. "The Turkish murderers then went to the next village where they seized another priest, Peter Decaline. They treated him in similar fashion and at last put an end to his sufferings with a revolver. "In the village of Grandin, Turkish soldiers caught an unfortunate peasant named Pashan. Some rather interesting evidence was brought out. "The Bank of Commerce branch being established in this city will open for business on Thursday.

CHARGES AGAINST FREDERICTON POLICE Special Says Two Were Drinking—Sudden Death of Geo. H. Clewes of Ormoco (Special to Times) Fredericton, N. B., Nov. 5.—The police commission is investigating a charge of drunkenness preferred by Newton Jarvis against two members of the police force. The trouble is said to have occurred on Hollow Eve when Jarvis was employed on a special policeman. Some rather interesting evidence was brought out. "The Bank of Commerce branch being established in this city will open for business on Thursday.

GETTING NEARER TO AGREEMENT AS TO REFINERY Deposit of \$100,000 by Company as Evidence of Good Faith Condition The agreement for the extension of time for the construction of the sugar refinery on the site granted for that purpose has not yet been fully ratified and the representatives and the city commissioners are getting closer to an agreement and it was said today there was little doubt that one of the finest sugar refineries in Canada would soon be erected in this city. The proposed agreement was submitted to the commissioners this morning by a recorder who has been conducting negotiations with Victor Mitchell, of the law firm of Mitchell, Casgrain & Mitchell, Montreal, and Fred R. Taylor of this city, the legal representatives of the refinery company. The commissioners took objection to some of the clauses and amendments were proposed. The commissioners will meet again this afternoon and after a further conference of the legal representatives it is possible that the final ratification may be given to the agreement. It is understood that both interests are agreed upon the main points under discussion and that the matters which have yet to be settled are not of vital importance. One of the conditions which the city is exacting is the deposit of \$100,000 as a guarantee of good faith, this amount to be returned upon the completion of the work or, failing this, upon the return of title deeds of the free site which has been granted.

ONLY ONE IN SASKATOON Saskatoon, Sask., Nov. 5.—M. Knowles, the only member of the Brotherhood of Railway Employees in the C. P. R. employ of Saskatoon, was in the freight department here, and Fred R. Taylor of this city, the legal representative of the refinery company. The commissioners took objection to some of the clauses and amendments were proposed. The commissioners will meet again this afternoon and after a further conference of the legal representatives it is possible that the final ratification may be given to the agreement. It is understood that both interests are agreed upon the main points under discussion and that the matters which have yet to be settled are not of vital importance. One of the conditions which the city is exacting is the deposit of \$100,000 as a guarantee of good faith, this amount to be returned upon the completion of the work or, failing this, upon the return of title deeds of the free site which has been granted.

OVERWHELMING WILSON VICTORY

That is Outlook in Election in States

WOTE IS VERY LARGE

(Special to Times) Boston, Mass., Nov. 5.—A tremendous vote is being cast in nearly all the states today. Fine weather in the eastern states brought out the largest vote in the country districts ever known and the usual Democratic pluralities were piled up in the big cities. All indications pointed to an overwhelming victory for Governor Wilson, the Democratic candidate for the presidency. Thousands of Republicans in this state voted for Wilson and for Governor Fox, Democrat. "The election is conceded. The Democrats probably will elect ten of twelve the sixteen congressmen in Massachusetts. Wilson will carry Maine, Connecticut, and probably Rhode Island and New Hampshire. Vermont is doubtful between Taft and Roosevelt. The Democrats are practically sure of New York, New Jersey, Ohio, Indiana and other important states. "Residues of the national capital have no voting franchise, so while voters in the city are going to the polls for their favorite candidates, Washingtonians are contenting themselves with casting straw votes. Hundreds of polling places throughout the District of Columbia opened at sunrise and will continue to receive ballots until sundown, when an effort will be made to assemble the vote. Men and women are voting. "Chief Moore of the weather bureau says to report that his predictions of generally fair weather for election day were being made good. In the rural districts surrounding Washington just over the line in Virginia and Maryland, the fair day was being out the rural vote early. Hundreds of suburbanites who have residences in the two states, and come to work every day in the district exercised their franchise bright and early and then came to their offices. It is estimated that 1,000 government employes left the city to go to their homes to vote. "The families whose attend election day elsewhere, however, are not in evidence here. The city has the appearance of Sunday or a holiday. Quiet prevailed everywhere, and government offices, because of the absence of their heads, are merely grinding out routine. "Buffalo, N. Y., Nov. 5.—Ideal weather conditions prevailed in Buffalo today. New York today brought out an unusually large early vote in both city and country. In some districts in this city more than a third of the registration had been polled at nine o'clock. No trouble was reported during the early hours. The only incident out of the ordinary was the death of Henry A. Moore, 48 years old, a toll clerk who fell off a while checker up a voter.

VIENNA DOES NOT WANT TO SEE SERVA OCCUPY THAT COUNTRY AND A WARNING IS ISSUED—MORE TROOPS TO THE FRONT (Canadian Press) Vienna, Nov. 5.—The attitude of the Austro-Hungarian government in regard to the proposal of Premier Poincare for the adjustment of the Balkan situation, is clearly stated in the Neue Freie Presse, which says: "The present military situation in the Balkans cannot be decisive for the solution of the whole eastern question. Premier Poincare gives to the Balkan states more than they themselves have demanded. The proposal which is a most radical expression of pan-Slavist tendencies, is so one-sided that it can hardly find the approval of all the powers and particularly of Austria-Hungary, the less so, as nothing is said regarding the future of Albania. This is a question which is of the greatest importance both to Austria-Hungary and to the Balkan states. "The anxiety of Austria-Hungary that Serbia shall not occupy Albania, and thus secure the outlet to the Adriatic Sea, which the Serbians are so desirous, will probably provide a great bone of contention. Serbia has been warned already from Vienna that her armies have gone far enough to the west. This warning is repeated today by the semi-official Press. After praising the Serbian soldiers for their humanity, the newspaper says: "The Serbians having approached the frontier of a territory occupied without exception by Albanians, it is hoped and expected now that Serbia will avoid the raising of these difficulties which the historic character of the Albanians prove insurmountable. The most elementary justice demands here that the principle of the Balkan states for the Balkan people shall also be to the advantage of the Albanians. "Austria-Hungary, the president of the Albanian national committee, it is said, is to be proclaimed king of Albania. "Sofia, Nov. 5.—Reinforcements continued to proceed to the front from the Bulgarian capital in considerable numbers. Some 1,000 troops passed through here yesterday for Adrianople and today eight battalions of volunteers, including Macedonians and Russians, entered from the front. It is reported that fighting still continues in the neighborhood of Serai and Tchouk. "London, Nov. 5.—The first sign of disension among the Balkan allies themselves comes in a despatch from Belgrade in which it is said the Serbians are beginning to declare that the "autonomous Albania" which was agreed upon before the war started, has now faded away. "As to the future of the Balkans, a very sharp line divides Germany, Austria-Hungary and Italy from France, Russia and Great Britain. "Public opinion in Great Britain, France and Russia argues that the allies should have the territory which they have conquered, and Russia particularly has warned Turkey that conditions could only be come worse should further disaster occur at Thessalonika. "Austria-Hungary, which after all is the most directly interested of the great powers, being the nearest neighbor to the Balkan states will, it is believed, not set quietly by and see the Balkan league established. "In the struggle with the allies, the Turks lost more than half their artillery. In fact the Serbians alone claim to have captured not less than 300 guns. This will certainly militate against any prolonged stand at Thessalonika. "In a circular note to the Turkish ambassadors abroad the government maintains that although embarrassing, the position of the affairs is not desperate, and declares that when the allies had completed their mobilization, Turkey had barely begun here. The note insists that Turkey is still able to maintain prolonged warfare. "Up to the present hour there is no sign that anything has come off the Porte's appeal to the powers for mediation. No replies have been received in Constantinople and there is little doubt that when they are received they will embody a declaration to consider the idea of proposing an armistice. "War Most Continues "London, Nov. 4.—Those powers thus far consulted have responded to Turkey's appeal for their mediation in the war by declaring that they could make only proposals for peace and could not approach the Balkan nations with a request for an armistice. "Austria-Serbia Battleships "Vienna, Nov. 5.—The first division of the Austro-Hungarian fleet, consisting of three battleships, one cruiser and two tor-

DALHOUSIE PEOPLE VOTING TODAY ON LIGHTING PROJECT Proposal is to Spend \$20,000 For Electric Light Plant (Special to Times) Dalhousie, N. B., Nov. 5.—The ratepayers of Dalhousie are voting today on the question of installing an electric light plant at a cost of \$20,000. The town council submitted the matter to the people before the meeting. A public meeting was held last evening in the court house to discuss the project before the vote. Those who favored the scheme by public address were Mayor W. S. Montgomery, Hon. O. H. Lablanc, Doctor F. Ross, H. A. Blyden, E. Richard, W. A. R. Coe, and John E. Sloan. All speakers spoke hopefully of the future of the town.

TORRENT OF WATER SWEEPING DOWN FROM RESERVOIR Nashville, Tenn., Nov. 5.—A portion of the East basin of the reservoir from which Nashville gets its water supply gave way early this morning letting a torrent of water loose down the hill on which the basin is located. Several houses have been washed away and few residents of the section are reported missing.

GRAND TRUNK GOES IN—MORE FOR USE OF THE TELEPHONE Montreal, Nov. 5.—The telephone system of Grand Trunk is being gradually extended by the Grand Trunk railway, and as soon as the line can be completed, will be put in force right through from Montreal to Chicago on the main line. "Already 240 municipalities have adopted the local option, while 260 still have houses within their borders. "REPORTED CODRER WILL BE RETURNED UNOPPOSED (Canadian Press) Montreal, Nov. 5.—Sir Wilfrid Laurier today wrote the liberal executive strongly urging them not to make a fight in Hochelaga on the naval question in view of the fact that there was no definite information on which to base a campaign but to leave the matter to be combated on the floors of the house, if necessary. "In consequence, Hon. Louis Coderre will be returned by acclamation unless the Nationalists desire to make a fight. "A ST. JOHN MAN. "Allan E. Doig passed through the city yesterday on his way from Montreal to Halifax where he will take charge of the Maritime office of the Gutta Percha Rubber Co., Ltd., of Halifax, in succession to W. G. Ogle whose death occurred last week. He was accompanied by W. H. Oates, manager of the Montreal office of the company. Mr. Doig is a former St. John man and is a son of David Doig, superintendent of water and sewerage. He has been connected with the Montreal office of his company for the past six years.

WOMEN WORK AGAINST DIVORCE AND FOR CARE OF CHILDREN'S HEALTH Spokane, Wash., Nov. 5.—A large proportion of divorces granted are due to incompetent housekeeping. More than one-third of the children born die under the age of five years, and more than one-half of these deaths are caused by digestive disorders. Basing its campaign on these declarations, the State Federation of Women's Clubs of Idaho, headed by Miss Permal French, dean of women at that state university, has started a movement to secure a \$100,000 home economics building at the university. "The states of Washington, North Dakota, Illinois, Iowa, New York, Kansas, Nebraska, Oklahoma, Colorado, Utah, Missouri make special provision for up-to-date training in home economics," says Miss French. "It is everywhere being recognized that it is fully as important to train women to be capable managers and intelligent consumers as it is to make men efficient producers. If the state provides proper equipment we can make an incalculable return in improved health and domestic conditions."

CAPTAIN McLEAN OF SNOWBALL EMPLOY DEAD Chatham, N. B., Nov. 5.—Captain Robert McLean, one of the best known captains of the J. B. Snowball Co. tugboat service, died on Monday night, aged fifty-three years. He is survived by his wife and ten children, his father, one sister and two brothers. Captain McLean was a son of John McLean of Escumac and was born in this village. He came of an old seafaring family and he took up navigation while still a boy. For many years he commanded one of the schooners of the W. S. Loggie Company engaged in the coastwise trade and later accepted the position of commander of the St. Nicholas, a post held with much ability and satisfaction to the company.

THE MAN HUNT

What It Means: How It Is Done

Did you ever pause a moment to think what it means when you hear of a "man hunt" being organized? Have you any idea of the awful hours passed in beating the bush for a criminal? You cannot realize the terror, suspense, dread, during, cunning or a score of other factors which go to compose the "man hunt" in the south, unless you have seen one or taken part in one, but if you see the picture tomorrow at the Gem, a production in two reels, cleverly reproducing one of the best known man hunts, you will then comprehend the full meaning of the phrase "A Man Hunt."

FRAUD ON FELLOW PRISONER

Bertillon Identification System Brings To Light Strange Case

Paris, Nov. 5.—Through the Bertillon identification system a curious case of one man going to prison in the place of another has just come to light. Examining the records relating to one Brecher, who has just completed thirteen months' imprisonment, M. Bertillon was led to the discovery that the prisoner was not Brecher at all, but a man named Fedide, who had been sentenced to only nine days' imprisonment.

Investigation showed that the two men had shared the same cell in the Sauto prison. There Brecher, a clever swindler, told Fedide he was a rich man. "If," he said, "you will remain in jail instead of me, I will send you \$100 a month, so that when the thirteen months are over you will be quite a small capitalist, and no longer a vagabond."

GRANDMOTHER OF 270 This Woman Has Buried Six Husbands

Natal, Nov. 5.—Mrs. Thekla M. de Beer, widow, seventy-eight years of age, residing at Pretoria, probably holds the world's record in matrimonial ventures.

At the age of eighteen she married Petrus Jacobus Lubbe, who died, leaving her with one child. Ten months later she took another husband, a widower with three children. A year and five months afterwards he also died, leaving her with four children. Within five months she married for the third time, another widower, this time with seven children. With him she lived for eleven years, and had seven children, when he also died.

For the fourth time, on this occasion a widower with eight children. With him she had four children, and after eleven years, he too, died. Five years later she married a man named Hendrik Klopper, another eleven years elapsed and then her fifth husband died, leaving her with ten children.

In two years' time she contracted another marriage with Hendrik Van Wyk, a widower, who brought five children to swell the family. Another eleven years passed, and he, too, went the way of his five predecessors, his death occurring only recently.

Mrs. de Beer is now the mother and grandmother of forty-nine children and the grandmother of 270.

CENSOR FORBIDS PLAY

England is Now to Have Censorship of Moving Pictures

London, Nov. 5.—The examiner of plays, Charles H. E. Brookfield, has prohibited the production of a play by Max Reinhardt's wordless play "A Venetian Night."

A large company was brought from Berlin with elaborate settings and was to have appeared in the Palace Theatre tonight. After witnessing the rehearsal, the censor forbade the production on the ground that the whole tone of the performance rendered it unsuitable for the English stage.

A censorship of moving pictures is about to be instituted. The former dramatic censor, George A. Redford, has been appointed with ten assistants, to examine films at the request of English manufacturers who say that the nature of many foreign pictures has had an unfavorable effect on the moving picture business.

WAR EFFECT ON BRITISH TRADE

Lancashire Cotton Goods Export Most Likely to Be Hardest Hit

London, Nov. 5.—There is no industry in this country which is likely to be more seriously affected by the war in the near east than the cotton trade of Lancashire. The countries concerned are important sources for manufactured cotton goods, and already merchants are meeting with a restricted trade. Fresh buying, of course, is practically at a standstill, and in some cases shippers are being compelled to stop further exports for the time being.

Last year Turkey took 488,000,000 yards of calico, made in Lancashire, and Roumania, and Greece 60,000,000 yards. Some of the cotton is now turning their looms on to cloths suitable for other markets, such as India. It is an easy matter to exaggerate the probable effects of the war upon trade, and some alarming reports as to machinery in Lancashire going on short time in a few weeks should not be taken seriously.

If the war continues the British export trade will be somewhat crippled, but some shipments will take place. What merchants fear more than anything else is that remittances will be interfered with, and in that case serious financial troubles may occur.

In consequence of the inflated freight rates due to the war, the banks' suspension of financial support to exporters, and the refusal of foreign importers to share the shippers' risks, the Black Sea grain trade has been completely paralyzed. British shipping is a heavy sufferer.

Another Comet Cambridge, Mass., Nov. 5.—The discovery of a new comet by Astronomer Borjoville of Marzeville, France, is announced in a telegram received today by the Harvard College observatory from Professor Kobold of Kiel, Germany. The position of the comet is given on Nov 2 as right ascension 17 hours 47 minutes; declination plus 28 degrees 57 minutes. The comet is reported to have been visible in a small telescope, and to be moving southeast.

METHODIST MINISTERS The weekly meeting of the Methodist Ministers of the city, postponed from yesterday on account of the meeting of the Ecumenical Alliance, was held this morning. The ministers decided to endeavor to arrange a public meeting to be addressed by Rev. A. H. Banton of Toronto who is now conducting services in Amherst. The subject of the lecture would be "From Her Room to Pulpit," and the cooperation of the various temperance organizations of the city will be sought.

Seven centenarians died in Irish workhouses last year—one 110 years, one 108, two 107, and three 106.

CONDENSED DESPATCHES

Moosjaw, Sask., Nov. 5.—The Dominion land sales agency at Willow Bunch has been closed. This step was made necessary by railway construction and consequent change in the population centre. Amosintha will probably be the new point chosen.

Regina, Sask., Nov. 5.—While no actual settlement of the strike of telephone linemen has been effected, the men will return to work pending what it is believed will prove to be an early settlement.

WHAT WOMEN DO. A philosopher has been at work and has evolved the following:—A woman walking on a city footway will generally choose the inside. She does so partly in order to look at the shop windows, but chiefly on account of the slope of the pavement, which is less on the inside. In trains and omnibuses women mostly sit near the door. At the far end you will, as a rule, see a majority of the men. When a man is crossing a street with much traffic she runs, in nine cases out of ten, and the older she is the more she is inclined to run. A woman holds a closed umbrella by the middle, and usually clasps it to her body. No one ever saw a man carrying it in this way. A woman usually raises a cup or a glass or a fork to her lips correctly—that is, with her elbow close to her body.

NO USE FOR HIM. He—Can I hope for another walk this evening? She—Won't it make your wife jealous? He—Not at all. She—I'm afraid my card is full tonight.

The Evening Times and Star

ST. JOHN, N. B., NOVEMBER 5, 1912. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

DRIVING OUT THE TURK The Review of Reviews for November points out that "the present Balkan war, whatever it may amount to or finally involve, is merely another step in the continuous process of the disintegration of the Ottoman Empire, going on ever since 1883, when Sobieski checked the advance of the Turk at Vienna."

CAUGHT IN THE ACT The Montreal Witness throws some light on the methods by which a war scare or a navy campaign may be worked up in Canada. It says: "Who pays fourteen cents a square inch for the insertion of the jingo articles that appear as paid matter in the French-Canadian paper is a question the 'Devoir' has been insistently asking. Here is another question of the same sort. Who in England paid for the free despatch by cable and telegraph of Lord Roberts's notorious jingo speech in our Conservative paper in Canada that would print it? If anyone had any doubt that the jingo campaign had financial interests back of it that are loading the wires in its favour there is no longer any secret about it except as to who the parties are who are supplying the funds in England, and how the propaganda is being run. As it is known who stands to profit by the war scare the surmise is easy that they are giving their money to work up the agitation and to help over the wireless anything that supports their cause. The manufacturers of guns, of small-arms, of army uniforms, of officers' equipment; the builders of naval ships and dockyards and the manufacturers of ship chandlery; the officers who stand to gain promotion. This is a superficial and probable enough surmise that has been much harped upon, but behind it is the much more serious one of the tariff reformers as they call themselves, who will be able to get such privileges as they may seek should they be able by such appeals to jingoism to replace a government they hate like poison by one of their own making. With them are all forces of wealth and privilege."

PRISON REFORM There appears to be an impression on the minds of some writers that a prison farm is a cure-all, and that it transforms all rascals and vagabonds into good citizens. We may as well be right in our thinking on this subject. Neither a prison farm nor any other institution will transform a man who has no desire to be transformed, and there is a fairly large percentage of these gentry in the world. It is no argument, however, against a prison farm that it does not perform miracles. An article in Canada, Monthly for November tells a very interesting story of the prison farm at Guelph, Ontario, but the writer is quite too enthusiastic about "making a man of a convict," and in the sequel of the Hon. W. J. Haas forgets to pay tribute to those who were the pioneers in working out the prison farm idea. It may be quite true that Mr. Haas has been a leader in this reform in Canada, but there has been a prison farm in the State of Massachusetts for many years, and before the work was started in Ontario delegations visited the Massachusetts farm and others in the United States. Mr. Haas has done a great work, and deserves the highest praise, but in awarding him full credit it is not fair to overlook those who worked out the problem before an attempt was made to solve it in Ontario.

**ALICE IN WONDERLAND DELIGHTS AUDIENCE**

Fairy Story Presented in Excellent Manner In Opera House  
**ENGORGES NUMEROUS**

Spectacular Production With Many Features of Interest—Children and All Acquaint Themselves Most Creditably—The Names—  
Alice in Wonderland, a fairy tale that has been the delight of the children for years was given a very successful reproduction in the Opera House last night, when more than 200 children and several adults, under the direction of Miss D. Hope Leonard, sang and danced themselves into the hearts of a large and appreciative audience. From the rise to the fall of the curtain there was always something to keep the attention of the audience, and each and every number on the programme was heartily enjoyed. From the smallest tots in the play, the little girls who sang "I am Nothing But a Big Wax Doll" up to the adults, all helped materially in making the performance a great success. The stage settings were exceptionally attractive and showed to good effect the pretty and varied colored costumes of the children.

The principal child role, that of Alice, was entrusted to Miss Marion Belding. The little girl spoke her lines clearly and distinctly throughout the play, and appeared entirely at home in her novel surroundings. In her scenes with the older members of the cast she also played up exceptionally and in fact gave a very clever interpretation of the role in every respect.  
It must be said that the lighting effects which were used with the dances and ensembles were poor, the stage at many times being much too dark. This hindered the performers somewhat, but the fault will be remedied by tonight. Some of the performers showed a little more of first night nervousness but they will have overcome this by tonight and a much more finished production may be expected.  
Each and every one of the last night went with a swing, and the children were encored time and time again. The March of Nations and the Flag spectacle were perhaps the most spectacular and patriotic drills of the evening and the performers had to receive a bouquet and a big wax doll.

Two other especially good features on the programme was the Sailor's Hornpipe Dance by Alice Gibb and the Highland Fling by Little Miss Gibb. Both dances were exceptionally well done and the dancers received many bouquets.  
Another pleasing feature was the song by the six little tots several of them almost infants, who sang the Wax Doll song. Their little voices could hardly be heard over the footlights, but when they had finished their song they received perhaps the most hearty applause of the evening and were forced to respond. Two of them received a bouquet and a big wax doll.

The double sextette "On a Beautiful Night with a beautiful girl," was sung and acted well as also the sextette in Hello Mr. Moon.  
A song by Miss May Alchorin assisted by a chorus of children dressed in ragtime costumes, also made a decided hit with the audience.  
Taken all in all the production was such as reflected much credit on Miss Leonard and also those who took part. The play is being staged under the auspices of the Playgrounds Committee and will run the entire week at the Opera House. Already there has been a large advance sale for tonight's performance, and it is to be hoped that the children will be greeted by capacity houses during the remainder of the week.  
The following are the names of those taking part:

A Berlin Problem One of the first problems with which the City of Berlin is now faced is that of its ways and means of public conveyance. The city, having grown more rapidly than any other capital in Europe in the last twenty years, has found during the last decade that its traffic equipment is continually behind the times, though, perhaps, not so much in the material as in the geographical planning of the various suburban railway, tramway, and electric underground systems of which it is composed. This is perhaps natural, for a house is always to be built more rapidly than a railway, and Berlin is specially quick at house-building and rather slow at constructing an underground railway. Now that the great city is coming to something like a definite shape, and the geographical planning of the various suburban railway, tramway, and electric underground systems of which it is composed. This is perhaps natural, for a house is always to be built more rapidly than a railway, and Berlin is specially quick at house-building and rather slow at constructing an underground railway. ### DRIVING HIM TO THE GRAVE

#### “Fruit-a-ives Saved My Life”

Niagara Falls, Ont., July 26th, 1911.  
“For thirteen years I was a terrible sufferer from the tortures of Sick Headache, Indigestion, Constipation and Vomiting. I could not retain much food, and this, together with the pain, and headache, was driving me to the grave.  
Then I used “Fruit-a-ives” and almost at once I got relief.  
“Fruit-a-ives” stopped the vomiting, relieved the Constipation, toned up the stomach, and gave me the first relief in years. I feel that I owe my life to “Fruit-a-ives,” and for the sake of other victims of Indigestion and Headaches, I will allow this statement to be published.  
HARRY DICKINSON.  
“Fruit-a-ives” is sold by all dealers at \$1 a box, for \$2 a trial size, 25c. on receipt of price by Fruit-a-ives Limited, Ottawa.

### COUNT GOES THE PACE

Only Thirty But is Said to Have Squandered More Than \$1,000,000

Paris, Nov. 4.—Baron Clement von Rottwil, said to be a nephew of a former German ambassador to Spain and a relative, by marriage, of the Emperor William, was arrested here recently on a charge of swindling. He was in the company of Miss Robinson, a beautiful girl star, better known as Yvonne d'Ardenne.

The baron, who is about thirty, has squandered about six million francs without a cent's care, and although his resources were exhausted, he still has a country chateau with eighteen acres and a town residence in the Rue d'Argenteuil.

Mlle. Yvonne d'Ardenne had a great fondness for tasteful and valuable jewelry and whenever she particularly admired an article in a fashionable night resort he was hurried to the lock-up, although he argued that his difficulties were purely commercial and could give ground only for a civil law suit.

He had \$50,000 in bank notes upon him and Mlle. Yvonne d'Ardenne was wearing jewels worth more than \$20,000.

### A BUSY DAY

Mr. Bradford Here From Amherst, Aiding Social Work

John Bradford, who arrived from Amherst this morning, went with Boys' Secretary Milligan of the Y. M. C. A. to the Centennial and Aberdeen school buildings. He reported the former as admirably suited for social centre work. At two o'clock Messrs. Bradford and Milligan, with Walter C. Allison and A. M. Belling visited the Rockwood Park playground. At three o'clock Mr. Bradford met the leaders of the Girls' Club in Union street. At four o'clock he went with a Playground Association delegation before the school board. At a quarter past six he will address the Canadian Club, and at eight o'clock will visit the Every Day Club.

Tomorrow morning at half-past nine Mr. Bradford will attend a special boys' work conference in the Y. M. C. A. At noon he will leave for Montreal to deliver two addresses before the N. B. & P. E. Island Sunday School Associations on Boys' Work and Community Work.

On Nov. 18 Mr. Bradford will go to Fredericton to deliver addresses. It is possible that he may be able to give the St. John Playground Association valuable aid in securing a director to give a short course of training to playgrounds teachers this winter.

### BISHOP'S CHARGE TO ANGLICAN SYNOD

(Continued from page 1)

The missionary appropriation for 1911 was only \$15,000 and on this amount there was a shortage of \$3,876 in collections. This meant a failure to meet the pledge and obligations of the church, especially towards the western part of the country where the church had a great burden of work with scanty funds.

The bishop said that he had attempted no defence of foreign missions as such a effort to do this alone. Fifteen parishes represented the failure of many of the parishes to make an honest and earnest effort to do their share. Fifteen parishes contributed nothing, fifteen more gave less than their appropriation and only seventy gave the system more. He emphasized the fact that this work should be left to the women or to individuals who were not bound up with the parish. If the people of the diocese wished to reach the minimum standard of \$900,000 a year for every clergyman, it would be necessary for the churches to adopt the duplex envelope system. It need not be said that the system would not work. It was those who should introduce it who would not work. A report from the treasurer showed that at the end of October in this year only two-fifths of the appropriation had been paid in.

Confirmation  
Dealing with the problems of confirmation His Lordship said that he was frequently shocked to find that young people who had been confirmed a year before had not yet taken their first communion. He felt that the confirmation should not be taken by any who were not intended to become communicants.

It was his duty to bring before the synod a resolution adopted by the M. E. C. calling attention to the neglect of parishes. The subject, he said, was of vast importance. There was no question but that the practice of family prayers was rapidly losing ground. He had been told that modern conditions made it difficult but where the desire existed an opportunity could be found if not in the morning at evening.

The lack of interest shown towards church matters His Lordship ascribed partly to the lack of subscribers to denominational papers. He believed not five per cent. of the members of the church read a periodical. It had been suggested that a diocesan monthly could be established. This might detract from the other publications but some step must be taken.

### THE SCHOOLS

Regarding religious instruction in the public schools His Lordship said that nothing had been done and there seemed to be no prospect of anything being done. He was convinced, however, that the lack of religious instruction would result in a breaking down of the moral standards of the people, signs of which already might be seen. He referred to the matter to claim all responsibility for himself or his church for the failure to secure action.

His Lordship referred with thankfulness to the rapidly with which repairs to the cathedral had been made. He wished to publicly thank James H. Dunn for his contributions, the dean for his untiring work and Frank DeLancy Robinson who contributed not only his services as architect but the sum of \$2,000.

### Dr. Morse's Indian Root Pills

exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or La Grippe by clearing the system and inducing the flow of blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headache, Rheumatism and other common ailments. In the fullest sense of the words Dr. Morse's Indian Root Pills are a Household Remedy.

### deacon Raymond secretary, reporting several meetings.

On Nov. 10, 88 was ordered by the contingent fund on account of the Edgell School for Girls as was voted out of the Incorporated Fund to the Rev. C. P. Matthews.

On Jan. 9, Rev. Canon Nesles reported for the Baboy Kingston Memorial Committee that \$1,200 had been received, and the money was ordered paid over to the treasurer of the synod. Mention having been made that there were no funds available for prizes for the Girls' School at Edgell, the Rev. E. B. Hooper agreed to act in collecting the same.

A letter was read from the corresponding secretary of the Women's Auxiliary in the Diocese of Fredericton stating their intention to furnish some assistance to the Baboy Kingston Memorial Committee.

The committee on the clergy, widows and orphans fund reported that they had approved the application of Rev. G. T. Spriggs for a certificate; also directed the treasurer to refund to Rev. J. W. B. Stewart the amount to which he was entitled under the canon, of the premiums paid by him to the fund while in the diocese.

On May 12, Rev. Mr. Hooper reported that he had collected \$40 for prizes for the Girls' School at Edgell, and received the thanks of the committee. The Lord Bishop reported the strained circumstances of the widow of James W. Belyea, who had left a bequest to the synod for missions. The matter was referred to the board of finance to do all they legally could.

The committee on the clergy widows and orphans fund reported that they had approved the applications of Rev. R. A. Robinson and the Rev. A. W. Daniel for certificates.

The committee on the incapacitated clergy fund reported that an application for Rev. W. LeB. McKel to be placed on the fund upon his resignation of the Parish of Lancaster in September 1908 had been considered and approved. The committee further reported the death of the Rev. N. M. Hansen, who had been in receipt of a pension of \$200. The treasurer was authorized to issue a check in lieu of one to the late Rev. Mr. Hansen which had been lost and also to remit the balance due on the pension to April 18, the date of decease.

J. R. Campbell and J. H. A. L. Fairweather were appointed to fit up the synod room known as the "Bishop's room," in a decent and orderly manner.

A resolution of sorrow at the loss sustained in the death of Rev. R. W. Colston was passed and a copy ordered to be sent to the widow and relatives. The committee on the incapacitated clergy fund reported that his room had been well fixed up and he expressed his thanks. The synod representatives on the board of governors of King's College, were appointed to cooperate with J. Fred in the collection of funds subscribed in the diocese for King's College.

On Oct. 3 the committee on the widows and orphans fund reported that they had approved the application of Rev. A. S. Hanz for a certificate. The committee on the incapacitated clergy fund reported the death of the Rev. W. LeB. McKel on September 17. He had been on the fund only since September 1. There are present three clergy on the fund and there is a surplus income of about \$300 per annum.

The committee adopted a resolution that the committee on memorials to deceased members furnish the bishop with such information as would enable His Lordship to make fitting reference in his charge to any deceased members of the synod, and that it is not desirable to continue the custom of making separate resolutions in connection with the decease of each individual member.

MRS. GREATON'S AWFUL EXPERIENCE

During Change of Life—How Lydia E. Pinkham's Vegetable Compound Helped Her.

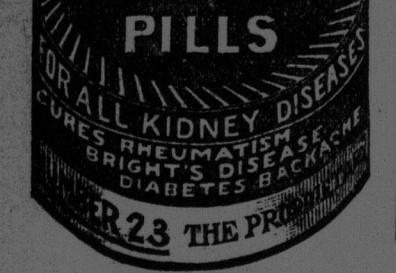

Medic, Mass.—"I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition that I could not sleep at all. My limbs were cold, I had creepy sensations, and I could not sleep at all. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."

THE COMMON COUNCIL

The reports presented to the common council, as published yesterday, were adopted. A bond issue of \$2,000 is to be made to cover the extra work in Charlotte street. In this connection Commissioner Agar reported that when the estimate for this work was first made up it did not provide for continuing the pavement to the Duffin Hotel corner but this had been done and steps also were to be provided from the roadway to the sidewalk in King square. Verified brick had been placed between the tracks when it was originally intended to have asphalt.

TYPES OF SOLDIERS WHO ARE FIGHTING DESPERATELY IN THE BALKAN MOUNTAINS

Military experts concede that the allied Balkan states have an advantage of Turkey in the matter of well trained and properly equipped troops. Practically all of the main remnants of Greece, Montenegro, Serbia and adjacent principalities have had military training. But the Turks have an advantage in the natural ferocity of the natives and in the fact that most of them are religious fanatics who regard death on the field of battle as something to be sought. Still all the victories seem to have been for the allies.

WHICH OF THE THREE WAS RIGHT?

An After Dinner Story and a Question of Ethics of the Medical Profession

(London Tit-Bits). This is a story, told by a well-known physician, of a problem that suddenly confronted him, and of how he interpreted the ethics of his profession and acted on it. He told the story after dinner, when the cigars had been lighted, some time ago. "I was roused one night," he said, "by a telephone call. An unfamiliar voice asked me if I could attend a man who had been injured. I answered that I could if the case was urgent; but before I could ask who was calling, the speaker answered: "All right, doctor, I'll call at your house in ten minutes with a carriage. "I was well dressed. The request was somewhat unusual, but, after all, nearly everything that we learn professionally is held in the strictest confidence without any definite understanding to that effect, so I thought there was no reason for refusing to make the agreement. "I took my hat, and we started. The carriage, I noticed, was a closed one. We got in, the man turned on a small electric light, and then drew the blinds over the windows. "Doctor," he said, "I'm going to ask you to take this trip without knowing where you're going. I'll assure you it's all right. I want you to blindfold yourself before we leave the carriage until we get inside the house. "Well, I didn't like the look of this, but I was in and didn't like to back out. Of course, I wasn't at all afraid for my own safety. By the time the carriage stopped I didn't have the least idea what part of the town we were in; we had made no many turns. I put on the blindfold, as my visitor requested, and we went up some steps and into a house. Well, the place struck me as having a familiar look, and pretty soon I was almost dead certain that it was a house I had known years ago when I was a boy. The house I took it to be was one that used to be in adjacent residential neighborhood, and—well, it isn't now. "Upstairs I found my patient. He had been shot twice. Revolver bullets they were. The wounds weren't dangerous, but they were painful because they had not been treated earlier. "I dressed them, told the woman who was there what sort of care the patient ought to have, and then told them that I'd have to see the man at least two or three times more before I could answer for his safe recovery. "The man with the dark glasses quietly asserted to this but insisted that he should bring me at night, as he had that time. I agreed. "The next morning the papers told of a robbery, in which a householder had been wounded after shooting one of the burglars, who succeeded in escaping. All the facts of the case indicated that my patient of the night before was the burglar who had been shot. I felt sure I could locate the house. The householder recovered quickly. BOY SCOUTS IN SESSION

Local Officers Chosen—A Wedding Present For General Baden-Powell

The annual meeting of the St. John Boys' Scouts Association was held last evening in Wainwright's restaurant, when reports on the last year's work were discussed, plans made for the coming year and officers elected. The members of the association met for supper and after this feature of the programme was disposed of the business before the meeting was taken up. Commissioner Malcolm McKay presiding. The report was approved and adopted, after which the meeting proceeded to the election of officers with the result that the following were chosen: Honorary president, Mayor Frink; president, J. Fraser Gregory; vice-presidents, H. R. McLean and D. King; secretary, Malcolm McKay; treasurer, Guy Lordley; council, Wm. McIntosh, Allan Schofield, Ronald McKay and W. E. Anderson. A discussion of the affairs of the association followed, and it was decided to take active steps to increase the number of scouts and to forward the work of the order. A communication was received from headquarters to the effect that it was the intention to present to the chief scoutmaster, General Baden Powell, a testimonial from the scouts throughout the world in honor of his marriage. Subscriptions were limited to a penny each, and the amount of the contribution was \$18.00 on hand. CURED US! WHY NOT YOU?

Injury to Foot Healed. Mr. Resban Atherton, of 387 Ferguson Ave., Hamilton, says:—While employed with the Olds Elevator Co. a heavy plank fell and severely crushed my big toe and right foot. The nail had to be removed from the toe when the doctor came to dress the injured member. The flesh was terribly bruised, turned very black, and the foot and leg became much swollen and painful. I was laid off work for some time. The doctor attended regularly at first, but the wounds did not heal. At last I heard of Zam-Buk and at once using this ointment. It really seemed to act like magic, cleaning all unhealthy matter from the wound and drawing out all inflammation, inflammation and soreness. In two weeks the toe and foot were well again. Zam-Buk has certainly a wonderful power not to be with a box in the house.

PREMIER AND MAYOR AT ST. STEPHEN'S DINNER

Hon. J. K. Fleming, premier of the province, and Mayor Frink were the chief speakers at the organization of the St. Stephen's Church Guild last evening in the St. Stephen school house. Dinner was served at 6.15 by the women of the mission society and a musical programme was also carried out. K. J. MacRae acted as chairman. The evening was well attended those present and an enjoyable evening was spent. The new idea of the guild is to include the young men who have up to this time been interested in the Sabbath school and will be the endeavor of the members to help the work of the church in every possible way. An executive committee of the following was selected to make plans for the members of the guild: K. J. MacRae, A. C. Jardine, Robert McQuarrie, Douglas MacArthur, Jr., Edward Stirling, W. J. Macaulay, Harry Dunn, Hugh McLellan, Mr. Frink, J. J. Irving, and J. J. Irving. Mr. MacRae told of the object of the gathering and then introduced Hon. Mr. Fleming. The premier spoke of the greater activity in St. John and he thought this was only an indication of the growth of the whole province. The foundations of a great nation should be well laid, he said, and he compared the building of a nation to the building of a house, where the foundation was the very necessary part. He made a plea for the younger men to do their share in building the foundation well. He thought it was a very poor Canadian who would set the least against the west and he urged his hearers to be loyal to the city, loyal to the province and loyal to the whole country. Mayor Frink spoke of the new activities that have lately interested the members of the St. John. He thought that it was impossible for the west to prosper and this section of the country to be a wilderness. He believed that the people of St. John were on the ground floor of prosperity and the new interests had led outsiders to invest capital here. His worship saw great strides being made in the city and he hoped to see another big industry established here soon. He said that some people had thought that there were no good men in the old council but that was not true but the commission at present gave a greater opportunity to give the province and loyal subjects that come before them. He urged his hearers to be loyal to St. John and unite for the betterment of the community. The musical part of the programme included solos by Douglas MacArthur, Jr., Mr. Griffiths and Harry Dunn. At the close Rev. Mr. Deike tendered thanks to those who had taken part in the programme and to Hon. Mr. Fleming and Mayor Frink. The gathering dispersed after singing the National Anthem.

EXHIBITION SHOWS DEFICIT OF \$12,140

City is Asked to Pay Its Grant and Guarantee. The detailed financial statement of this year's exhibition, as submitted to the city commissioners yesterday, showed that when the city and provincial grants are secured the deficit will amount to \$12,140. The total grants are \$5,000 from provincial government and \$3,000 from the city. In case of a deficit the city guarantees \$2,000 additional. The communication to the council yesterday asked that both the grant and the guarantee be paid. The financial statement as given to the commissioners yesterday was as follows: Receipts. The matter was referred to the commissioner of finance. FATHER MATTHEW ASSOCIATION. There was a largely attended meeting of the Father Matthew Association last night in the rooms in St. Malachi's hall, when the new officers for the coming year were elected as follows: President, Fred Haxo; vice-president, Sidney Stanton; junior vice-president, Joseph O'Brien; financial secretary, James McNulty; assistant financial secretary, Harold Power; recording secretary, Joseph Kennedy; corresponding secretary, Thomas Bonner; librarian, Joseph McGrath; treasurer, James McHugh; conductor, James Carberry; investigating committee, Charles McCleary, Charles McGowan, J. Lynch, J. Carberry, J. McNulty, J. Loutay; trustees, Rev. D. S. O'Keefe, Joseph Mitchell and M. E. Agar. The society is planning for a great deal of work during the winter season and preparations are being made for private entertainments. LOCAL COAL HANDLERS. The half-yearly meeting of Local Coal Handlers' and Trimmers' Union, International Longshoremen's Association, was held last night in the Opera House building, and the following officers were elected: President, C. Doyle, late vice-president; T. Madden, secretary; W. Ross, recording secretary; H. Taylor, treasurer; and J. Snow, marshal. F. Hyatt, president, will leave for Boston on Wednesday, where he will represent Local 810 at the South Atlantic District convention.

FOR A "VILE ATTACK"

R. C. Edwards of the Calgary Eye-Opener Apologizes. Calgary, Alta., October 8, 1912. E. P. Davis, Esq., K. C., Calgary. Sir,—I beg to offer you my sincerest apology for a vile attack on you which appeared in The Calgary Eye-Opener (of which I am the publisher) under date of August 3rd, 1912, for the publication of which I was yesterday committed to trial on a charge of criminal libel. There was not a particle of foundation in fact for that attack and I never believed there was, neither had there been any foundation in fact for the various other attacks on you which have appeared in the same paper during the last four years. I have never known you personally and have never had any dealings with you, and my sole motive for those attacks was that I thought you had criticized me and my paper too severely in an address you made to a Calgary jury some four years ago. I promise not to mention your name again or to refer to you in any way directly or indirectly in any future number of The Calgary Eye-Opener, or any other paper that may be published by me. I authorize you to publish this apology in any way you may think fit. Yours truly, (Sgd.) R. C. EDWARDS. Witnesses: (Sgd.) P. J. NOLAN, (Sgd.) JAMES SHORT, Barrister.

THE QUICKEST, SIMPLEST COUGH CURE

Easy and Cheaply Made at Home. Saves You \$2. This recipe makes 16 ounces of cough syrup—enough to last a family a long time. You couldn't buy such or as good cough syrup for \$2.50. Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat troubles, etc. Mix two cups of granulated sugar with one cup of warm water and stir for two minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a measuring bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours. Pinex is one of the oldest and best-known remedial agents for the throat membrane. Pinex is the most valuable concentrated compound of Norway white pine extract and is rich in quinine and all the other natural healing elements. It is a powerful germicide and its formula. Prompt results from this recipe have endeared it to thousands of householders. It is a safe and reliable remedy which explains why the plan has been limited to a few bottles in each city. A guaranty of absolute satisfaction, or money promptly refunded, goes with every bottle. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

**Says Nelson Too Old.**  
Cincinnati, Nov. 2.—Battling Nelson, erstwhile lightweight champion, will not be permitted to box Tommy Gary of Chicago in a ten-round bout here on November 11, if William A. Fiesler, chairman of the boxing commission, has his way. Mr. Fiesler is of the opinion that the latter is getting too old to take severe punishment. Bouts that have the same killed in that city by having Nelson injured in a contest, the commissioner intends to ask the other two commissions to vote with him in barring the Dane from boxing there.

**Police Prevent Bouts.**  
St. Louis, Mo., Nov. 4.—Declaring that the laws regarding club membership were being disregarded, the police tonight prevented the staging of the Business Men's Association Club bouts, the main event of which was to have been an eight round go between Johnny Kilbane, featherweight champion, and Ollie Kirk. Art Magri, of Oklahoma, and Tommy Danforth, were scheduled to pit on the scenic.

**A Knock-Out.**

New Haven, Nov. 4.—Phillip Baker, acting for Oxford and Cambridge Universities was at Yale last week to take up negotiations for a proposed meet in this country next summer. Oxford and Cambridge would like to hold the meet and hope that it can be assured. Baker has been at Harvard discussing matters with the track officials there.

**Track Notes**  
Homer Baker of the New York Athletic Club, the junior Metropolitan half-mile champion, is out for a few months with a bad ankle, which he hurt recently while running.  
The Amateur Athletic Union will celebrate its twenty-fifth year as a governing body of athletics on November 18 in New York. From all reports received for another year. Delegates will be present from Los Angeles, San Francisco, Baltimore, St. Louis, Chicago, New Orleans, Boston and Philadelphia.

**STINGING SARCASTIC.**  
A new recruit in a crack cavalry regiment was escorted by the orderly sergeant to the regimental store to secure a better-fitting pair of jack boots. The recruit seated himself on an upturned case and held up his foot for inspection. The master bootmaker's jaw dropped on seeing the size of it, and he ordered his assistant to procure the biggest pair in the store. After many unsuccessful trials to get them on the bootmaker exclaimed, "What shall we do now? That's the biggest pair we have!" The orderly sergeant saluted. "Try on the cases, sir!" he said.

SAM FELTON, HARVARD'S STAR END

Two papers gave the fight to Mandot, and one called it a draw. The opinion of the fourth will not be known until this afternoon, but even should it be for Wolgat, the three opinions already made public, counting the draw as a half vote, as is the custom, give the best to the local boy.

**LOOKS LIKE NEW HOLDER OF THE TITLE**  
New Orleans, Nov. 5.—The lightweight champion, Al Wolgat, and Joe Mandot of New Orleans divided honors in a ten round no decision bout here last night. Both took a lot of punishment, but at the end neither had the advantage, according to a decision of newspaper men. Although Mandot was credited with having the best of four of the ten rounds, Wolgat with one, while others were even, the champion's fighting and early aggressiveness won for him the unofficial draw decision.

**Was Troubled With His Heart. HAD TO GIVE UP WORK.**  
When the heart begins to beat irregularly, palpitates and throbs, skips beats, and sometimes seems to almost stop, it causes great anxiety and alarm. Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through this unnatural action of the heart.

**MILBURN'S HEART AND NERVE PILLS**  
To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.  
Mr. Alfred Male, Florida, Ont., writes:—"I was troubled with my heart for two or three years. I thought sometimes that I would die. I went to the doctor, and he said he could not do anything for me. I had to give up work. My wife persuaded me to try Milburn's Heart and Nerve Pills. The first box relieved me, and I kept on until I had taken seven boxes, and they cured me. I would not be without them on any account, as they are worth their weight in gold. I advise my friends and neighbors who are troubled with heart or nerve trouble to try them."  
Milburn's Heart and Nerve Pills are 50 cents a box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SAM FELTON, HARVARD'S STAR END

Cambridge, Mass., Nov. 4.—Football experts here say that Sam Felton, Harvard's star end, is the best punter of the season. The Felts' kicks average from sixty to seventy yards. His playing at end has been brilliant, too, and should he show up well in the game with Yale he must be considered an All-American possibility for the position.

Clarice:—"Well, aunt, how do you like your new doctor?"  
Aunt:—"Oh, immensely! He's so thorough. He never comes to see me without finding some little thing the matter with me."—Judge.

WANTED A WINNER

The man at the table:—"Look here, waiter! That lobster is without a claw! How's that?"  
Waiter:—"You see, they're so fresh, these lobsters, they fight with each other in the kitchen."  
The man at the table:—"Well, take that one away and bring me one of the winners."—Tit-Bits.

LOCAL NEWS

IN THE HOSPITAL. Policeman George Henry still continues to improve at the hospital. Thomas Cardy is also getting along nicely.

GONE WEST. Luke Stack of Melrose, but lately studying law in Moncton, passed through the city last evening on his way to the west. He will go to Regina where he intends to practise law.

LECTURE IN ZION. Rev. Dr. Wagle of Amherst delivered a very interesting address on Ramblings in Palestine in the Zion church last night. The attendance was large and the lecture was very much enjoyed.

THE BANK ROBBER. An interesting article in the Times last evening dealing with the early history of the banks of New Brunswick and Nova Scotia, should have been credited to the Halifax Recorder.

POLICE COURT. Four prisoners faced Magistrate Ritchie in the police court this morning. All four were charged with drunkenness and were sentenced to fines of \$4 or ten days in jail.

WEDDING IN LYNN. An interesting event took place at the residence of Rev. Harry Adams, 100 St. Patrick street, Lynn, when Miss Sadie V. Belyes and James W. Green, both of Springfield, Kings Co., N. B., were united in marriage by Rev. Chas. H. Stackpole, of South street.

MARRIED TODAY. The marriage of Miss Annabelle A. Kilpatrick, of Uplam, to Harry S. Kilpatrick, also of Uplam, took place at the residence of the officiating minister, Rev. Wellington Camp, this morning. The bride was gowned in a navy blue travelling suit with hat to match. She was attended by Mr. and Mrs. Kilpatrick left on the C. P. R. for Uplam, where they will reside.

ROBERT G. LANE DEAD. The death of Robert G. Lane occurred early this morning at his home in St. Patrick street after an illness of about eight months. He was fifty years of age and had been well known as a teamster. His wife survives as well as two daughters, Mrs. Harry Adams and Mrs. Russell Grant. He also leaves two brothers William John and Francis. The funeral will be held at 2:30 on Thursday from his late home 109 St. Patrick street.

INTELLIGENCE BUREAU. St. Monica's Society will in all probability open at an early date an intelligence and information bureau, in correspondence with all the counties of the province, in order to enable farmers and other householders to get in communication with immigrants, with a view to securing labor. The A. O. U. E. in Nova Scotia is taking a stronger interest in securing Irish immigrants. St. Monica's deals with Catholics of all nationalities, and in the past has looked after Galicians, Poles, Italians, Scandinavians and others as well as English speaking people.

ELECTION CASE GOES OVER UNTIL AFTER SESSION OF HOUSE

Montreal, Nov. 5.—The Three Rivers election contestation case has been thrown over till some date after the opening of the session of the federal parliament, according to an arrangement entered into before the court yesterday afternoon. Owing to an indisposition from which Mr. Justice Cook is suffering, hearing could not be proceeded with yesterday. Counsel explained that on the opening of the session, Hon. Jacques Bureau, the respondent to the suit, would be unavoidably absent at the capital, and thus could not give the attention required to the matter pending before the courts.

PROVINCIAL BOARD OF HEALTH MEETS HERE

The provincial board of health is to hold a meeting here this afternoon. Two new members of the board, J. B. Dugart, secretary of agriculture, and Dr. B. M. Mullin, of Fredericton, appointed secretary in succession to Doctor Fisher, will be present for the first time. They arrived at noon today as did Dr. G. C. Jones of Fredericton and Dr. J. T. Sprague of Woodstock.

It was said this morning that so far as was known at present there were no special matters to be dealt with, but the board would be in session this afternoon and probably this evening. Reorganization was one of the chief matters.

BACK FROM THE WEST

The trains from the west arriving in the city these days are bringing back many maritime province boys who journeyed across the continent to work in the wheat fields during harvest time and who are now coming home pleased at having seen the country west of the Great Lakes of which they had heard so much, but disappointed because of the poor prospects for work immediately offering. As soon as they landed in the vicinity of the wheat field, or rather before they even reached there, they were hired to work for farmers at fairly good wages for that class of labor and they stayed at this work until there was no further need of their services.

In many sections of the west there was a demand for even more farm help than offered and better prices prevailed; but the harvesters from here had to work hard for what they did receive. It was a strenuous toil from early dawn till dark with no extras for overtime and what wages they received were well earned. Most of the men expressed themselves as being glad to get back to their homes in the province, but they said that some of those who had gone intended staying in one of the western townships for a time at least, chiefly men who had trades.

WOODSTOCK WEDDING

Woodstock, N. B., Nov. 5.—Frank Thompson and Miss Nellie Dent were united in marriage this morning in the Gertrude church by Rev. F. J. McMurray. The bride was attended by her sister, Miss Agnes Dent, and William Madden was best man. Mr. and Mrs. Thompson left on the early train for St. John, Halifax and other places. On their return they will reside in Green street.

FIRST TIME

IN 18 YEARS

No Criminal Business For County Court Grand Jury

RECORD ESTABLISHED

In Fact Two, For the Civil List is Light and There Are No Jury Cases—Judge Forbes Makes Comment

The November sitting of the county court opened this morning without any criminal business to present to the grand jury, for the first time in eighteen years. His Honor Judge Forbes said that he had been expecting for that number of years it was the worst time during that term that he had the pleasure of meeting a grand jury without having some criminal business to present to them.

Although some people, he said, would make one believe that St. John was decreasing morally, yet the evidence today showed that these reports were not only unfounded but ungrounded. He thought that the city area had been better from a moral standpoint.

With so much work going on near the city and so many foreigners here, it was a record—the entire absence of a criminal docket—which could not be equalled in any city of the same population on the continent.

The civil docket is as follows:— Non-Jury: Jordan vs. Johnson-Tait, McLean & Sons; Murray vs. Fitzpatrick-J. R. Armstrong, K. C.; Kerr vs. Cunard-J. Joseph Porter.

Appeal: From police magistrate, Harry Little, appellant, vs. Aaron Hastings and Thomas M. Wasted, respondents—J. A. Barry for the appellants.

The petit jurors were as follows:—J. S. Frost, S. Norman, S. D. Gell, E. Ellis, Frederick J. Dwyer, Albert A. Ellis, Arthur G. Dick, Thomas R. Christy, Frederick R. Patterson, Joseph M. Daisell (absent), Sydney Gibbs, William G. McIntyre, William McCann, James W. Boleby, Wm. E. Matheson (absent), James D. Seelye, LeBaron R. Thompson, George M. Robertson, James Ryan, Elbert E. Church (absent), R. Thomas Warden, Thomas Kirkham, Hudson M. Breen, John Flood (absent), Roland H. C. Skinner, Walter E. Basser, Alfred Burley (absent), Peter Clinch (absent), Frank L. Potts, Ira B. Kierstead (absent), Wm. H. Shaw (absent), J. Harvey Brown (absent), Samuel A. Corbett (absent), Wm. E. Baxter, Peris A. Smith, Frederick Kelley, George W. Stacey (absent), W. I. Fenlon, Alex. F. Paterson, Wm. E. Anderson, George McArthur (absent), Harold C. Schofield (absent), Heber G. Vroom.

The grand jurors were—Frederick C. MacNeil (absent), W. I. Fenlon, Alex. F. Paterson, Wm. E. Anderson, George McArthur (absent), Harold C. Schofield (absent), Heber G. Vroom.

The court adjourned until tomorrow morning, when the appeal case will be heard. The objections all will be tried in chambers.

Not only is the absence of a criminal docket notable in this respect, but an unusually small civil docket, with no jury cases at all, establishes another record.

OCONEE WILL BE MADE OVER AND ENLARGED

Captain Flewelling Predicts Early Closing of the River This Year

The river steamer Oconee, Captain Flewelling, which has been running between St. John and Wickham, finished her season last week, and yesterday was taken to Glenwood where she will be overhauled. The boat will be out in two and will be enlarged twenty-five feet. The work of remodeling will be done by D. H. Whelpley of Glenwood, and when completed the steamer will be able to compete with most of the river boats, both in passenger as well as in the freight business. The freight on this route this season has been very heavy, and the owners have had a very successful year.

Funeral of Father Carson

The body of Rev. Father John F. Carson, who died in Boston on Friday last, is being brought to this city from St. George, where it lay in state over night, and will reach here this evening about seven o'clock. This morning requiem services were conducted in the church in St. George where he so often officiated as pastor and where his name is held in reverence and esteem. Rev. Father Doyle, of Milltown, officiated. A large congregation attended.

On being brought to the city tonight the body will be taken first to F. Fitzpatrick's undertaking parlors, and thence to St. Peter's church, North End, where it will lie in state all night. In the morning divine service will be conducted at half past eight and a solemn mass of requiem will be sung at nine o'clock, after which interment will be made in the new Catholic cemetery. Quite a large number of parishioners from St. George are expected to come to the city for the funeral, among them Mr. and Mrs. George E. Frauley and Charles Lepetit.

TO REORGANIZE

The members of the Portland Y. M. C. A. are in hopes this year of reviving the interest which was displayed a few years ago in that association, and this evening will hold their annual meeting in the room at Portland street. It is expected that the Y. M. C. A. boys will take an active part in outdoor sports this winter, as well as in indoor games, particularly basket ball.
