

BALKAN STATES PLAN COMPLETE ALLIANCE

Common Tariff and Postal Union Proposed GREEK KING PRESIDENT Religious Rivalries Will be Ended by Fusion of Churches Under One Head--Serbian Extension Assured.

London, Oct. 25.—The league of the Balkan states is based on a formal written alliance, according to a despatch from Vienna. When this is made public it is stated it will reveal the territorial aims of the Balkan nations. The secret treaty defines the zones of influence of the respective countries in Albania and Macedonia and provides for a common tariff and postal union between the Balkan nations.

The alliance of the Balkan kings far exceeds the status of a military combination for the immediate object in view, according to the Outlook, which claims to have special information to the effect that it is a permanent federation intended to exclude all external authority from the Balkan peninsula.

The King of Greece, according to the Outlook, will become president of the alliance on the nomination of King Nicholas of Montenegro. The religious rivalries of the Balkan Christians will be ended by uniting the orthodox churches of Greece, Bulgaria, Serbia and Montenegro as in ancient times, under the patriarch of Constantinople, who is the head of the Greek church. The churches will retain their national status and maintain their national character.

The extension of Serbia through Russia to the Adriatic Sea will form a part of the scheme which Austria is expected to strongly resist, says the Outlook. The powers are negotiating actively in European capitals concerning what policy to pursue when the time for settlement of the war or for intervention arrives.

They are much more concerned to insure peace among themselves than to attend to the issues at stake in the Near East, which look small when compared with a general European peace.

The Outlook says the Balkan diplomats in London declare their object is the Balkans for the Balkan peoples, and in case of victory the demands which will be included in a note to Turkey will be their minimum requirements. They will not sit in the ante-room while the powers allow the spoils, nor will they accept any temporary patching up of near European problems.

REPORTS ALL POINT TO CONTINUED SUCCESS OF THE BALKAN STATES

Bulgarian Victory at Kirk-Kilisseh TURKS FELL BACK Heavy Losses Suffered on Both Sides--Refugees Pouring Into Constantinople Present a Pathetic Appearance--Inhabitants of Adrianople Advised to Leave Unless Prepared for Siege.

London, Oct. 25.—The final attack by the Bulgarians on Kirk-Kilisseh lasted 30 hours, according to a special despatch from Stara Zagora. It culminated in a bayonet charge after which the Turks retreated to the east in the direction of a column of garrisons advancing from the Viza road. Another special despatch says the Bulgarians were repulsed when they attacked Maraz at the junction of the rivers Maritza and Arda opposite Adrianople. The losses of both armies were enormous. A large number of Turkish officers fell. All the inhabitants of Adrianople who are not supplied with two months food have been advised to leave the city.

Despatches from Belgrade say the Serbian army commander, General Stepanovich, has allowed a retreat before making a concentrated advance and attack upon Ukup. The Sultan's army, through the intervention of the minister of war and the minister of works on the occasion of their departure for the front. The departure of the foreign military attaches for the seat of war has been postponed until next Monday. Tramway service in Constantinople has been suspended and all the houses have been requisitioned for the purposes of war. It is still maintained here that the reported capture of Kirk-Kilisseh by the Bulgarians is a fiction, that communication with that city is still working regularly and the Turkish troops are holding all their positions between Kirk-Kilisseh and Adrianople.

An admission of a Serbian success at Kumanova, which was reported in a despatch from Salonika, which said that the Serbians operating in that region had succeeded in regaining their lost ground. A despatch from Adrianople timed 3 o'clock this morning reports that all is tranquil there and says no firing has taken place since yesterday.

Pathetic Scenes. Pathetic scenes are being witnessed at the Constantinople railway stations where daily there is an outpouring of refugees from the frontier villages. All of them have a bewildered look and carry bundles containing their few belongings. Four thousand refugees from Adrianople and Kirk-Kilisseh arrived here before the attack on the city. The Turkish position is unchanged, in the fighting at Yurak the Turks are reported to have lost about three hundred men killed and five hundred taken prisoners, and in addition had taken from them three quick-firing guns, 50,000 rounds of ammunition, and 40,000 rounds of shells. In Harzi district the Bulgarians are master of the upper regions of the Mesta river. In this district near Mahomia, a Turkish infantry regiment has been annihilated and a battalion of Turkish regulars and irregulars is surrounded in the town by Bulgarian troops.

London, Oct. 25.—Sofia despatch says that Mukhtar Pasha, son of Grand Vizier, who commanded the fortress of Kirk-Kilisseh, was captured by the Bulgarians as well as Prince Abdul Halim and several generals. Belgrade, Oct. 25.—The Serbians claim to have won a great victory over the Turks at Kumanova. They state that the Turks lost 5,000 men, 12 guns and an enormous amount of ammunition. The fighting is reported to have been of the most desperate character. The Turks are said to have been engaged in the fighting for three days with only short intervals when darkness prevented the working of the guns. The Turks are declared to have made several vigorous attacks which were repulsed by the Serbians. The Crown Prince of Serbia was in charge of the artillery during the battle. Telegrams received here from Pristina, ten miles west of the Serbians, state that the Turkish province of Kossovak, say that the Mohammedan Amnats and Turkish troops are retreating southward followed by the Serbians.

BECKER'S IRON NERVE DEMAINS UNBROKEN

Seems Confident of Reversal of Verdict SENTENCE WEDNESDAY Convicted Police Officer Would Die Under Regular Procedure, Early in December, But Appeal Will Act as Stay.

New York, N. Y., Oct. 25.—Police Lieut. Charles Becker spent his hours of confinement in the Tombs today planning his fight to annul the verdict of the jury which convicted him last night of the murder of the gambler Herman Rosenthal. Becker has lost none of the iron nerve which bore him through the trial and the ordeal of hearing himself condemned as guilty, if his appeal is successful. He awoke refreshed from a sound sleep, after a hearty breakfast, and summoned his chief attorney, John A. McIntyre. The two conferred for more than an hour and later Mr. McIntyre announced that immediate notice of appeal from the verdict would be filed.

Becker, who is due to be sentenced next Wednesday, would, if the usual procedure were followed, take his seat in the electric chair the first week in December. The filing of the notice, however, will act as a stay, and it is not impossible that months may lead into years before the fate of the convicted police officer is decided. A recent case occupied two years before the appeal of a first degree murder verdict was settled.

Expect Reversal. "I don't mind saying that we expect a reversal," Becker's attorney announced. "The appeal will be on the grounds that the verdict was against the weight of evidence, that the justice's charge was of a nature to induce the chances of the defendant, upon the justice's failure to rule that Sam Schepps was of a nature to induce the refusal of the justice to allow testimony submitted by the defense to go into the record."

Becker's wife visited him in his cell this afternoon, and according to the one moment since the prisoner was indicted when he seemed on the verge of breaking down. Either Whitey Lewis or Lefty Louis will be the next of the seven men indicted of the murder of Rosenthal. On November 1, Meantime Jack Rose, Bridge Webber, Harry Valton and Sam Schepps the four informers, will be kept in confinement in the west side prison.

MURDEROUS NEGRESS GIVEN LIFE SENTENCE BY COURT YESTERDAY Clementine Bernabet Charged with Butchering Twenty-Nine Colored Folk Confessed to Murder of Nineteen.

Lafayette, La., Oct. 25.—The negress Clementine Bernabet, who in a period of several months, butchered nineteen persons with an axe, each of whom she slept with, was convicted today and sentenced to life imprisonment. She was found guilty of killing the wife of Norbet Randall. All her victims were negroes. What disposition will be made of the other cases is not known, but it is assumed they will be dropped. For several months negroes of southwest Louisiana and southwest Texas almost feared to sleep because of the butchery of the Bernabet woman. In some instances whole families were exterminated in a night as they slept, and altogether victims of such butchery number twenty-nine. Clementine confessed to killing nineteen.

SHOTS A BEAR. Albert, Oct. 25.—Michael Power of Albert shot and killed two bears, a mother and her cub, today, west of Isaac C. Prescott's millpond.

DEFIANCE OF PRIVY COUNCIL PUTS CHECK ON ADULTERATION

Toronto Will Root Up the Poles Sunk by Niagara Power Co. Without Permission--Want Law Changed. Standard of Quality of Various Products Fixed--Presence of Glucose Must be Noted on Label.

Toronto, Oct. 25.—The City of Toronto will defy a decision of the Privy Council, Poles planted by the Ontario Electric Light, Heat and Power Co. without the consent of the city council. The Poles are to be pulled up as a penalty for carrying their case to the Board of Control so decided this morning at a special conference with Corporation Counsel Geary and Works Commissioner Harris.

The Poles are to be pulled up without civic consent. The control of carrying their case to the Board of Control is in the hands of the Ontario government in the hope of obtaining an amendment to the law so that the city may control its streets. The Toronto Electric Light and Power Co. has been ordered to operate only within the former city limits, but the Toronto and Niagara Companies are trying to invade newly annexed districts.

WANT NAVIGATION ON THE ST. LAWRENCE KEPT OPEN LONGER. The Water is Higher than it Was This Time Last Year and this is Taken as Good Indication.

Special to The Standard. Oct. 25.—Vessels are still negotiating with underwriters regarding keeping navigation open after the close of the season. During the past two days there have been storms on the St. Lawrence with the result that at different parts of the river the water has risen 23 feet higher than the same time last year. This is taken as a good indication for longer navigation, and will do a great deal towards abolishing the anxiety usually felt at this period.

GREAT CHANGE FOR INDUSTRY

Humphrey Underwear Ltd., has Unusually Bright Opportunity at Moncton--Over Subscription of Stock Likely.

Halifax, Oct. 25.—No industry in Nova Scotia has proved more successful from the point of view of the quality of and demand for the goods manufactured, or with regard to the profits on the capital invested, than has that of the unshrinkable underwear companies in this province. It is said that these companies are now earning 20 per cent. on their common stock, and that it is practically impossible to keep pace with the orders.

NOVA SCOTIA BANK WANTS INCREASE OF MILLION CAPITAL

Royal Gazette Contains Notice of Plans for Purchasing of the Bank of New Brunswick.

Special to The Standard. Ottawa, Oct. 25.—The Canada Gazette contains formal notice of a special meeting of the Bank of Nova Scotia to be held on Dec. 11 at Halifax to consider the proposed purchase of the assets of the Bank of New Brunswick, to smelt a by-law increasing the capital stock from \$5,000,000 to \$6,000,000 by the creation and issue of ten thousand new shares of the par value of \$100 each, and to authorize the issue and allotment of these shares in part payment of the purchase price of the assets of the Bank of New Brunswick.

ATTEMPT TO EXTORT MONEY FROM DUCHESS DE TALLEYRAND FAILS

Leipzig, Germany, Oct. 25.—An attempt to obtain from the Duchess de Talleyrand (Anna Gould), the sum of 100,000 was declared yesterday to be founded on extortion and was rejected by the Imperial Supreme Court here.

A real estate company having claims against the Duc de Talleyrand sent a representative to the Duc and Duchesse when they were staying at a Berlin hotel in 1911, and forced the Duchess to sign a note for the amount by threatening her with arrest. The court decided that the note was not valid.

APPOINTMENT OF TARIFF EXPERT. Special to The Standard. Ottawa, Oct. 25.—It is understood that the appointment of F. W. G. Haultain as Chief Justice of Saskatchewan has been recommended and will take place tomorrow.

APPOINTMENT. F. W. G. HAULTAIN'S APPOINTMENT. Special to The Standard. Ottawa, Oct. 25.—It is understood that the appointment of F. W. G. Haultain as Chief Justice of Saskatchewan has been recommended and will take place tomorrow.

District Attorney Says Heavy Doors Not Heavy Bail is What they Desire -- Trial Next Month. New York, Oct. 25.—District Attorney Whitman said this afternoon that the four gunmen will go on trial in the early part of November. Then the early part of November. Then the court once more to repeat their story. Mr. Whitman pointed out that while the counsel for the informers had the amount by threatening her with arrest. The court decided that the note was not valid.

EXMOUTH ST. CHURCH HAS NEW ORGAN

Instrument Costing \$2,800 Installed By Cassavant Bros—Church Has Also Been Repainted and Decorated

During the past six weeks carpenters, painters and decorators have been busy on the interior of Exmouth street Methodist church. The work now approaches completion and the church will be reopened for divine service on Sunday, November third.

The interior of the church presents a most attractive appearance, and when the final touches shall have been added the edifice will rank among the most beautiful in the city.

While the redecorating of the church has been in itself a considerable undertaking the installation of the new organ is an important achievement and the new instrument will prove a valuable acquisition.

Manufactured by the well known organ builder, Cassavant Bros, of St. Hyacinthe, P.Q., the instrument is of the most modern style and a new motor has been installed in the school room for pumping. The organ has nineteen feet frontage, the woodwork is oak and the front pipes are done in plain gold.

The following is a detailed description of the new organ: 25-note compass of manuals C C to C, 61 keys. Compass of pedals C C to F, 29 keys. Great organ—open diapason 8 feet 67 notes; melodia, 8 feet 65 notes; dulciana, 12 feet 65 notes; principal, 4 feet 65 notes; harmonic flute, 4 feet 65 notes.

Compass of manuals C C to C, 61 keys. Compass of pedals C C to F, 29 keys. Great organ—open diapason 8 feet 67 notes; melodia, 8 feet 65 notes; dulciana, 12 feet 65 notes; principal, 4 feet 65 notes; harmonic flute, 4 feet 65 notes.

On Tuesday evening at eight o'clock a recital will be given on the new organ by Prof. Jas. Ford. He will be assisted by the following: Mrs. L. M. Curran, Mrs. F. C. McNeill, C. A. Munro, Fred McKean, Miss Ethel Creighton and Edward Bonnell.

The reopening of the church for divine service will be on Sunday, Nov. 3, when it is expected special services will be conducted and addresses delivered by visiting clergymen.

G. S. MAYES AND PARTY HOME FROM THE WEST

After an enjoyable trip through western Canada, Mr. and Mrs. G. S. Mayes and Miss Mabel Thomson returned to the city yesterday greatly pleased with their trip.

Speaking of the trip Mr. Mayes said that the party had had a most delightful holiday. He was greatly impressed with the west, and one of the most noticeable features of the western towns is the spirit of optimism which prevails everywhere.

Mr. Mayes spoke in the highest terms of praise of the C. P. R. system and the efficiency of its service. The excellent manner in which it caters to the patrons contributes much to the pleasure of a trip.

OPPOSES IDEA OF CITY RECLAIMING THE FOUL GROUND

The Board of Trade Committee Thinks This Work Would Be Better Done By a Private Company.

The committee of the board of trade which is looking into the scheme for reclaiming the foul ground south of the ballast wharf met yesterday, and went over the information which has been collected regarding the project. The committee regards with favor the idea of building a sea wall around the area and using the material dredged from Courtenay bay for filling, thus adding 93 acres of new land to the southern end of the city.

It was stated after the meeting that the idea of having the city finance the project does not appeal to the committee, as if the city owned the reclaimed land shall be available for an unfair burden upon the taxpayers.

There is no objection in the matter of the reclaimed land being made available for industrial purposes, and that the company shall be content with a moderate return on the investment necessary.

ONE DOSE RELIEVES A GOLD—NO QUININE

Pape's Cold Compound Cures Colds and Grippe in Few Hours—Tastes Nice—Acts Gently.

You can surely end Grippe and break up the most severe cold either in head, chest, back, stomach or limbs by taking a dose of Pape's Cold Compound.

It promptly relieves the most miserable headache, dizziness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, sore eyes, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, without interference with your usual work, and you will find relief that there is nothing else in the world, which will cure your cold or Grippe misery as promptly and as surely as Pape's Cold Compound.

WESTMORLAND CIRCUIT COURT. Special to The Standard. Moncton, Oct. 25.—In the Westmorland Circuit Court at Dorchester today, Judge White presiding, the jury disagreed in the case of Christopher Horsemann of Moncton parish, charged with incest and rape. It is rumored that the jury stood 6 to 6.

Smoke of Herbs Cures Catarrh

A Simple, Safe, Reliable Way and it Costs Nothing to Try. This preparation of herbs, leaves, flowers, and berries (containing neither opium nor habit-forming drugs) is either smoked in an ordinary clean pipe or smoking tube and by drawing the medicated smoke into the mouth and inhaling into the lungs or sending it out through the nostrils in a perfect natural way, the worst case of Catarrh can be eradicated.

It is not unpleasant to use, and at the same time it is entirely harmless, and can be used by man, woman or child. Just as Catarrh is contracted by breathing cold or dust and germs-laden air, just so this balsamic antiseptic smoke remedy goes to all the affected parts of the air passages of the head, nose, throat and lungs. It can readily be seen why the ordinary treatments, such as sprays, ointments, salves, liquid or tablet medicines fail—they do not and can not reach all the affected parts.

If you have catarrh of the nose, feeling colds, catarrhal headaches, if you are given to hawking and spitting this simple yet scientific treatment will cure you. An illustrated book which goes thoroughly into the whole question of the cause, cure and prevention of catarrh will be sent to you by Dr. J. W. Blosser, 208 Spadina Ave., Toronto, Canada.

How Animals Adapt Means to their Ends

Instinct or Memory?—Is Rational Imaginative Capacity Shown?—Power of Recognition—Mechanical Skill.

(George Jenkinson in the Manchester Guardian.) We have advanced far since the French physiologists maintained that animals were not even sentient beings, but that they were still animals, many of whom explain every adaptation of means to ends in the brute creation by the fact that they have inherited an innate corporate experience through countless ages with death forever eliminating foolishness. The dogs that turn fully round at their masters' feet, settling to rest even on a bare board shows instinct of this sort they say. But surely the coin that goes to a distant farm to worry sheep in the night and slips his head into the collar again before morning, rather than having his animal intelligence, gives scores of equally remarkable instances of the held of intelligence of a meaning ability he accepts, and I. T. Hobhouse in Mind in Evolution, shows with what success animals adopt a meaning to the idea of having a company formed to undertake the work, it is surrounded by conditions assuring that the reclaimed land shall be available for industrial purposes, and that the company shall be content with a moderate return on the investment necessary.

Monkeys Clever Too. But elephants are not as clever as monkeys. For the last thirty years our knowledge of the intelligence of the monkey has been steadily increasing. It is not surprising that a single penny in a monkey's hand, each learning from others in the cage. They exhibit no other striking aptitudes, but individual intelligence can only be tested by more or less complete segregation, and may be dormant through lack of opportunity. Mr. Fitzsimmons of Port Elizabeth gives the Chacma baboon of South Africa a very high place. It is sometimes used, he says, instead of a boy to lead the front span of oxen, and he leads us to believe it can count. Our own young apes are certainly very clever, in a day it learned to use a slot machine, but it always saves the coin until the slot machine is empty, and then it goes to the bank to get more.

It knows how to somersault, and can earn bigger rewards that way. And it fastened by a bolt well out of reach, in an empty machine! It was, I believe, a monkey of this species that was fitted with a pair of spectacles in Breaux Gardens, and perfectly appreciated their use. It wore them with gravity, treated them with respect, and made the apogee of animal intelligence. Handling and familiarity count for much with these animals, and I should not be surprised to hear from correspondents of intelligent acts of any variety of monkey. The spider monkey has been known to open a door with its tail; the cebus (that is, the ring-tailed capuchin) besides cracking nuts with a hammer or stone, which appears to be a universal monkey habit, it has been known to use a stick to open a door with its tail; the cebus (that is, the ring-tailed capuchin) besides cracking nuts with a hammer or stone, which appears to be a universal monkey habit, it has been known to use a stick to open a door with its tail.

The orangutan, more sluggish than the chimpanzee, is more tractable, and is almost if not quite on a par in initiatory ability. Ordinary bolts are quite useless to him, but he will push them back into the hole at the head of the bolt is so often ineffectual that our keeper fastens the bolts with a screw. The bears probably draw the bolts and nail by chance at first, but quickly learn their relative values. Professor Hobhouse, who has been in the Central Park Zoo, today, after a long conference with the operators. Three miles are affected. The men are to receive 22 per cent, above the price paid under the scale of the United Mine Workers of America, but the operators do not recognize the union.

If the saying "Revolutions never go backward" is true, then some of the more militant of the Central American republics must have made considerable advance during the last hundred years. "It's hard to keep a good man down." Some one concurred pithily. But when he's in an aeroplane it's hard to keep him up. —Cincinnati Enquirer.

DOWN AND UP. "It's hard to keep a good man down." Some one concurred pithily. But when he's in an aeroplane it's hard to keep him up. —Cincinnati Enquirer.

ALBERT INTERESTED IN BLINKERTON CASE

Man Arrested for Theft Here Was Wanted in Albert County for Taking Liquor Into County.

Special to The Standard. Albert, Oct. 25.—The report in The Standard of the arrest of Wesley Blinkerton for stealing a valise containing four bottles of brandy and a bottle of whiskey, was read with much interest here. Blinkerton worked in Albert for some time but left suddenly some weeks ago, and for his arrest having been issued on a charge of bringing liquor into the county in violation of the Scott Act. Wm. Fullerton, from whom Blinkerton is alleged to have stolen the valise containing liquor, is an Albert County man. Last July he was charged with violation of the Scott Act, and the inspector has ordered that the process be served when he arrives in Albert County.

In a triumphant effort to remove a stubborn bracket so charmed the authorities that they published an account with plans in their official journal. Apa are equally at home with the action of a lock. We taught the first Consul to unlock his door, and it was certainly rather amusing to see him choose the right key and let himself out. But the experience taught us never to teach another.

Twice he was found at large in the gardens, and must have opened with tools of his own two simple locks, besides unbolting a door. Mr. Hagenbeck tells me of a chimpanzee, about two years ago, that took the key from the keeper's coat left hanging in the cage and managed to unlock the door. This beast had a mind fertile in experiment, or the later acts may have been the result of dual deliberation. After the first escapade the door was fastened by a bolt well out of reach, and he was given a cage companion. Alone or aided by her—an 'angian'—he pulled a small box to the foot of the door, she got on it, and he, on her shoulders, drew the bolt and freed them both. But our koolo-hambo marks the apogee of animal intelligence. It has not only discovered the functions of a lock, but actually made a key that opened it. This is a feat of intelligent acts of any variety of monkey. The spider monkey has been known to open a door with its tail; the cebus (that is, the ring-tailed capuchin) besides cracking nuts with a hammer or stone, which appears to be a universal monkey habit, it has been known to use a stick to open a door with its tail; the cebus (that is, the ring-tailed capuchin) besides cracking nuts with a hammer or stone, which appears to be a universal monkey habit, it has been known to use a stick to open a door with its tail.

WINTER ECZEMA CURED BY ZAM-BUK

Mrs. P. W. Drummond, of Thetford Mines, Que., writes: "Every fall, as soon as cold weather set in, my little daughter's face and hands would be covered with rough watery patches, which before long turned into scabby sores. These would itch and smart terribly, and would remain on her face from fall until spring. This happened for three years, and we could get nothing which did her any good, until a short time ago I started using Zam-Buk, and now, after using half a box of same, the sores have entirely disappeared leaving her skin as smooth and clear as it could possibly be."

Zam-Buk is also a sure cure for ulcers, abscesses, ringworm, blood poison, scalp sores, chapped hands, cold sores, and all skin diseases and injuries. 50c a box, all stores.

FAVORED NATIONS AND THE AMERICAN WOOD PULP DUTIES

Government Secures Indefinite Postponement of Case Arising from Free Admission of Product from Canada.

Washington, Oct. 25.—The customs court has granted the government's application for an indefinite postponement of the wood pulp and paper case involving the right of European countries under the "most favored nations" clause of their treaties with the United States to secure into this country woodpulp and paper free of duty.

That privilege is now granted only to Canada under the Reciprocity Act. The issue thus will be stayed for several months.

MINERS SECURE INCREASE; UNION NOT RECOGNIZED. Charlestown, W. Va., Oct. 25.—One thousand miners, who have been on strike since last spring returned to work in the mines at Dorothy, W. Va. today, after a long conference with the operators. Three miles are affected. The men are to receive 22 per cent, above the price paid under the scale of the United Mine Workers of America, but the operators do not recognize the union.

If the saying "Revolutions never go backward" is true, then some of the more militant of the Central American republics must have made considerable advance during the last hundred years. "It's hard to keep a good man down." Some one concurred pithily. But when he's in an aeroplane it's hard to keep him up. —Cincinnati Enquirer.

DOWN AND UP. "It's hard to keep a good man down." Some one concurred pithily. But when he's in an aeroplane it's hard to keep him up. —Cincinnati Enquirer.

ST. JOHN, N. B., SATURDAY, OCTOBER 26, 1912.

CONSISTENCY IN DISAGREEMENT.

In considering the difference of opinion between Mr. Monk and Mr. Borden, and the other members of the Cabinet, which led to the resignation of the Minister of Public Works, convincing evidence is on record in past debates in Parliament to show the consistency of the course which both Mr. Borden and Mr. Monk have pursued. Mr. Monk did not deny that the situation is grave or refuse to admit that an emergency contribution should be given by the Dominion to strengthen the British fleet. He conceded both points but maintained that he stood pledged that no contribution should be made without an appeal to the people. Mr. Borden, on the other hand, stands for an appeal to the electorate to authorize the permanent naval policy which the Government will eventually recommend, but maintains that this is not a necessary condition precedent to an emergency vote.

From the resolutions moved during the debate on Sir Wilfrid Laurier's Navy Bill, in 1910, the consistency of both Mr. Borden and Mr. Monk in the position taken is clear.

In moving an amendment to the Government's proposals on February 3, 1910, Mr. Borden maintained that they were weak and ineffective as they afforded no immediate aid or assistance. He continued:

"It would be a proper course to mature more thoroughly these proposals, to take up all matters that concern our relations to the Empire in respect to co-operation in imperial defence, and in the meantime to do that which, after all, is the most important thing, stand side by side with the Mother Country under the conditions which confront her at the present time. The needs of the Empire are before our very eyes today."

The conditions which confront the Mother Country at the present time make the sentiment then expressed by Mr. Borden even more applicable today. On the occasion the amendment which he moved at the close of his speech contained the following clauses:

"That no permanent policy should be entered into involving large future expenditures of this character until it has been submitted to the people and received their approval.

"That, in the meantime, the immediate duty of Canada and the impending necessity of the Empire can best be discharged and met by placing, without delay, at the disposal of the Imperial authorities, as a free and loyal contribution of the people of Canada, such an amount as may be sufficient to purchase or construct two battleships or armored cruisers of the largest Dreadnought type, giving to the Admiralty full discretion to expend the said sum at such time and for such purpose of naval defence as in their judgment may best serve to increase the united strength of the Empire, and thus assure its peace and security."

Mr. Borden urged the importance of an immediate contribution because the situation required it. Herein lies Mr. Borden's consistency. His policy as Prime Minister is the same as that which he advocated so strongly in 1910.

Mr. Monk followed Mr. Borden in the debate and also presented arguments against the Laurier Naval Bill. He did not support Mr. Borden's amendment but moved a blanket amendment of his own, demanding a plebiscite. Mr. Borden voted against Mr. Monk's amendment, and Mr. Monk voted against that moved by Mr. Borden. Both were equally consistent. Mr. Monk secured only 18 supporters for his amendment. Mr. Borden had 74. The Liberal majority in the House dutifully supported the proposal of the Government embodied in the Navy Bill.

Mr. Monk's resignation from the Cabinet calls for no criticism. His action is the expression of his own opinion as recorded in the navy bill debate. He has expressed no opposition to the naval policy of the Government with the details of which he is, of course, fully acquainted. Having a keen sense of honor he relinquished his position in fulfillment of his pledge. Mr. Borden is also fully justified in the course he has taken. The people are to be consulted on the permanent policy which the Government will recommend. An appeal on the question of an emergency contribution, which would undoubtedly be endorsed by an overwhelming majority, would involve two popular votes. A precedent is already established for emergency assistance to the Empire in the contribution of men and money for the South African war. The Borden Government were elected by the votes of the people and by their record during the past year have shown that the confidence reposed in them at the general election has not been misplaced.

THE COST OF THE BALKAN WAR.

It is being freely predicted that the exhaustion of the financial resources of the contestants in the Balkan war may have a tendency to shorten its duration. A campaign with hundreds of thousands of mobilized troops fighting pitched battles along the whole line of Turkey's northern border must necessarily prove expensive. A Vienna estimate, in the current London Economist, figures out that the mere bringing into action of the 410,000 infantry and cavalry of Bulgaria and Serbia will cost the first of these governments \$400,000 per day, and the second of them \$360,000. Continued at that per diem rate, the expenses of these two belligerents would be fifty to sixty millions per month, and it would still be left to peck up the outlay of Turkey, Greece and Montenegro. Bulgaria is the best off financially of the Balkan States; it was in the Paris market, before the war broke out, to raise a \$25,000,000 loan for refunding older issues. But Paris now reports its bankers unwilling to proceed with the negotiations, if the proceeds are to be used for war. The Serbian debt, like that of Greece and Turkey, is administered by foreign commissioners, and the one loan lately placed was carefully "ear-marked" chiefly for railroad building purposes. Greece has practically no foreign credit, and Montenegro is believed to have subsisted on subsidies from St. Petersburg and Vienna.

This presents a curious and in many respects novel situation—especially with financial Europe united in disapprobation of the war. It is quite true that all of the belligerents have been accumulating armaments and stores, and it is also true that even poor nations can sometimes tap with the Bear Republics' lead and equip their armies from their own resources, and fight for months without recourse to outside money markets. But the campaign has little or no resemblance to the South African conflict.

It is a contest carried on in a locality long familiar for military manoeuvres, and, so far as regards the Balkan States, it is a campaign of aggression and invasion rather than defence. As such, it may provide some new consideration in the financial side of modern war.

The New York Post, in reviewing the situation from this point, suggests that the war, unless the conflict is speedily terminated by a great victory on one side or the other, may produce some novel incidents in warfare. "We have today presented," it says, "at the very beginning of hostilities, the possibility of the situation which the Russians were fond of predicting as the eventual fate of Japan in Manchurian struggle—the breaking down of the campaign through exhaustion of financial resources."

TERRITORIAL TRADE OF THE UNITED STATES.

The "non-contiguous territories" of the United States, as Alaska, Porto Rico, Hawaii and the Philippines are formally designated, do a large amount of business with the Republic. A recent report of the Federal Department of Commerce and Labor states that this trade during the calendar year 1912 will amount to \$250,000,000. It is based upon the returns, for the first eight months of the year, of merchandise shipped to these territories, amounting in value to \$74,000,000 and showing an increase of \$13,000,000 over that of the preceding year. The merchandise received from the territories during the same period had a value of \$97,500,000 against \$80,500,000 last year.

An interesting point in this connection is that the ratio of gain in trade between the United States and these territories has been far greater than that in the trade with other countries, the annual increase being twice as great. It appears that the trade with Porto Rico in 1903 amounted to about \$23,000,000 in value, while in the current year it will amount to about \$75,000,000, or more than three times as much as a decade ago. The trade with Hawaii in the year ended June 30, 1903, was \$37,000,000 in value, and in the calendar year 1912 it will amount to about \$85,000,000, an increase of over 130 per cent. in a decade.

With the Philippines, the trade in 1903 was \$15,000,000 in value, and in the calendar year 1912 it will amount to about \$45,000,000, having trebled in that period. With Alaska, the trade of 1903 was about \$20,000,000 in value, and in the calendar year 1912 promises to be about \$45,000,000, an increase of approximately 125 per cent. in the period in question. In return for these imports, largely of raw material and food products, the United States sends its manufactures to these distant territories and by so much the market is expanded.

TEACHING IN FRANCE.

M. Guist'hau, the French Minister of Education, recently announced some of the reforms which the Government propose to improve the condition of the teachers in the Republic, of whom many have been in a state of revolt. The reforms will come into force in the course of five years and are estimated to cost 40,000,000 francs. They fall roughly into two groups. The first seeks to guarantee teachers against arbitrary treatment; the second to improve their financial position. It is hoped to secure protection against favoritism by increasing both the powers of the Departmental Councils, which immediately control the teachers, and the number of teachers elected on the Councils. The salaries of novices are to begin at \$240 instead of \$220 a year, and those of regular teachers at \$300 instead of \$240; the maximum for men will be \$500, for women \$470 a year.

These salaries are not large, but French teachers receive in addition advantages which are equivalent to a considerable sum of money. Among these may be mentioned free lodgings, half fares on the railway, and holidays twice as long as those of other Government services. A teacher in the country is often secretary to the mayor and generally receives payment for holding adult classes. M. Guist'hau, in order to controvert the widespread belief that these concessions are the result of agitation, has stated that they are not new, but have been under consideration since the formation of the Poincare Ministry.

AN IMPORTANT DISCOVERY.

The discovery of an anti-meningitis serum by Dr. Simon Flexner of the Rockefeller Institute, is reported, and in view of the fact that cerebro-spinal meningitis was an almost hopelessly fatal disease, there is reason for widespread interest. Dr. Flexner stated to the International Congress of Hygiene in Washington that in 1294 cases of cerebro-spinal meningitis, coming under his personal observations the serum was used in fighting the disease, and of these 449 recovered.

This shows a death rate of 30 per cent. Before the serum was discovered, Dr. Flexner asserted, the normal death rate from meningitis was about 70 per cent. In the recent outbreak in Louisiana, he said, the serum was used in 176 cases, of which 123 recovered.

Current Comment

A Child Welfare League.

(Toronto News.)

We stimulate immigration by granting bonuses for farm laborers and domestic servants. Every possible means is taken to advertise Canada as a good market for labor. We need men and women to work on the fields and in factories and offices. Yet for a little effort we allow thousands of half-bred Canadian children to die every year. Every child should be deemed of value to the city and to the Dominion. Mothers are anxious to learn how to bring up their children to healthy and strong manhood. But what the mother cannot get is simple instruction and sympathetic guidance. It is time to organize a child welfare league in Toronto in order that countless homes may be saved from mourning and also to preserve for Canada its sturdy, native-born children.

Fire Fighting Sanity.

(Edmonton Journal.)

The annual loss by fire in this and other countries is appalling. With proper preventative measures it could be cut down to a fraction of what it is. Fire-fighting facilities can accomplish much, but it is folly to depend on these. It would be just as sensible for a man to take no steps to keep himself in good health because he knows that he has a skillful physician near at hand to attend to him if he is taken ill. The thing to do is to construct buildings so as to minimize the fire danger and to see to it that they are not surrounded by conditions that are likely to cause trouble.

Not a Matter for Debate.

(London Free Press.)

New German battleships now under construction are to have 16-inch guns weighing 101 tons and 62 feet in length. It is facts of this character, a part of naval activity such as the world has never before known, that makes the question of an emergency contribution to Great Britain a matter not of debate but of action.

The Change in Father.

(Ashland Bugle.)

When father drove old Dobbin he sat upon a load and frowned at every chance he saw to whip the road, but when father got an auto his feelings seemed to switch; he glared at every horse he met unless it took the ditch.

WILLIAMS WAS PUT OFF C.P.R. TRAIN BY THE CONDUCTOR

Special to The Standard.
Woodstock, Oct. 25.—The inquest into the death of Norman Williams, whose body was found horribly mangled on the C. P. R. track Wednesday night was held today in the town hall, before Coroner J. A. Lindsay and the following jury: Geo. E. Balmaln, Wallace Gibson, John S. Leighton, Jr., Jas. Carr, Jas. S. McManus, Stephen Green and J. D. Carey.

J. C. Hartley is representing the family of the deceased, and F. B. Carvell is the counsel for the C. P. R. T. C. L. Ketchum is stenographer. The examination will be continued tomorrow.

The witnesses today were Fred Logue, John Morrison, A. C. Grant, Ernest Benn, Arthur McElbrien, Geo. Boyer, John Hines, Daniel Shaw, C. Burns, Frank Crabbe, Sam Spearman and Frank Kelly. The first named was the principal witness and he swore that he was C. P. R. conductor from Woodstock to Aroostook, that deceased who was under the influence of liquor, boarded his train at Woodstock. Deceased, he said, had not purchased a ticket, and he felt it necessary, according to the rules, to put Williams off the train, which he did near the spot where the body was found in the boundaries of the town.

That was the last he saw of deceased. He was put off on the west side of the road that crosses near the Jones property, it was quite dark, but the moon was shining, he was under the influence of liquor but not drunk. He stepped off the train and started for town, the train went north and it was possible that the Gibson train coming south might have struck him while he was lying on the track.

HIGHER PROTECTION FOR STEEL INDUSTRY ASKED BY DELEGATES

Ottawa, Oct. 25.—No promises were made to the representatives of the steel industry who today had a lengthy interview with the minister of finance in behalf of higher protection for the industry in Canada. The companies submitted figures and memorials in proof of their contention that the extent of the protection now afforded them, less than ten per cent., is insufficient.

It was pointed out that the steel industry was one of the most important in the country, and therefore entitled to as favorable treatment as other branches of manufacture. Strong emphasis was placed on the ruinous competition by the dumping into Canada of the product of the United States Steel Corporation.

Hon. Mr. White, after an attentive hearing, promised consideration.

EXPECTS TO SEE BIG FLOUR TRADE WITH WEST INDIES Manager of Ogilvie Milling Company Says Canadian Millers Are Hopeful of Improving Their Market.

F. H. Anson of Montreal, manager of the Ogilvie Milling Company, who is in the city in connection with the sugar refinery project, when asked about conditions in the milling industry, said that the millers expected to do a good business next year, as the reports from the West Indies indicated a large wheat crop, and in spite of the wet weather during the summer the wheat seemed to be growing up well, much better than last year, when a good deal was a poor quality.

Those who will tonight for Halifax are: R. S. Ritchie, Max Ross, E. W. Bonnell, J. Beamish, K. F. Bonnell, James Monahan, S. D. Young, Alex. Corbett, F. W. Munro, Robert Slipp, G. M. Johnson, A. C. Smalley, W. S. Clawson, H. B. Nixon, J. C. Mitchell, J. T. Hannigan, C. P. Nixon, Hazen Thomson, R. Strain, A. C. L. Tapley, R. E. Horne, S. E. Eklun, Elmer Burdell, H. H. McLellan, R. M. Bartsch, W. McLellan, W. S. McDonald, F. Walker, Alf. Jones, F. Doherty, Alex. Jones, E. M. Smith, W. H. Holder, Frank Scott, A. Poyas, W. A. Connor, Wm. J. Steen, Oscar Price, J. A. Moore, Theodor Moore, Allan Kennedy, E. A. Kincaid, Fred DeForest, F. W. Coombs, E. P. Logan, E. O. Bates, H. G. Gantner, Stanley Hopkins, Walter H. Golding, Wm. Rising, H. W. Rising, Reg. Honnell and about 15 from Moncton.

PROVINCIAL PERSONALS (Kings County Record, Oct. 25.) Mrs. A. W. Jones, of Hatfield's Point is visiting with friends in St. John. Miss Ethel Green, St. John, was a guest of her sister, Mrs. T. B. Raffner, of Hatfield's Point, for the past week.

Mrs. W. O. Slipp and daughter, Mrs. Roy Fenwick, spent part of last week here at Mrs. Slipp's home, arranging for the shipment of their furniture to St. John, where they will reside.

Inspector Jones, St. John, was in town on Monday. Mrs. Archibald Newnam, of St. Stephen, is the guest of his son, Godfrey Newnam.

Mr. and Mrs. E. W. Blair and Miss Isabel, are spending a few days in St. John. Rev. R. W. Weddall returned from St. John on Tuesday, where he had been attending a meeting of the conference association committee, called for the consideration of important interests in connection with the Methodist church in the provinces. Mr. Weddall spoke at Williamsport on Wednesday evening and at Centerville on Thursday evening upon the question of Methodist missions.

(Moncton Transcript, Oct. 24.) Miss Estey, who was the guest of Mrs. W. K. Gross, for a few days, has returned to her home in St. John.

(Richibucto Review, Oct. 24.) Miss Nellie Fitzpatrick, of Portland, Me., is visiting her parents, Mr. and Mrs. James Fitzpatrick.

(Charlottetown Guardian, Oct. 25.) J. P. Gordon, Charlottetown, passed through Summerside last night, after a trip to St. John and Moncton.

(Newcastle Advocate, Oct. 25.) I. B. Humphrey, of Apohaqui, late I. C. R. station master here, last week, was the guest of Newcastle friends last week.

ENROLLMENT OF SISTERS CITY Local Contingent Leaves on Special Car Tonight - Spectacular Parade in Halifax Monday Afternoon.

A large party of the "Dokays" will leave on a special Pullman attached to the 11.15 train for Halifax this evening, to take part in the ceremonial incident in the enrollment at Halifax on Monday. On Monday afternoon they will take part in a parade which will be of a very spectacular character. A band of forty pieces will furnish music, and there will be a herd of oxen, ridden by cow boys, and many features likely to cause a deal of amusement. At the meeting in the afternoon 60 candidates will be enrolled, which will make the Adla Temple, Dokays, 250 strong. Some of the most prominent citizens of Nova Scotia are to be enrolled at the Halifax meeting.

The presiding officers of Adla Temple are as follows: R. S. Ritchie, Royal Vizier; E. W. Bonnell, Grand Emir; K. F. Bonnell, Mehed; S. C. Young, Joe; F. W. Munro, Mokahama; G. M. Johnson, Sarrap; W. S. Clawson, Treas.; J. C. Mitchell, Shlek; C. P. Nixon, Sec.; Dr. H. B. Nixon, J. C. Mitchell, J. T. Hannigan, C. P. Nixon, Hazen Thomson, R. Strain, A. C. L. Tapley, R. E. Horne, S. E. Eklun, Elmer Burdell, H. H. McLellan, R. M. Bartsch, W. McLellan, W. S. McDonald, F. Walker, Alf. Jones, F. Doherty, Alex. Jones, E. M. Smith, W. H. Holder, Frank Scott, A. Poyas, W. A. Connor, Wm. J. Steen, Oscar Price, J. A. Moore, Theodor Moore, Allan Kennedy, E. A. Kincaid, Fred DeForest, F. W. Coombs, E. P. Logan, E. O. Bates, H. G. Gantner, Stanley Hopkins, Walter H. Golding, Wm. Rising, H. W. Rising, Reg. Honnell and about 15 from Moncton.

IN THE COURTS CIRCUIT COURT. The case of John E. Moore and Walter W. White, who were the active parties in the case of the late Mrs. Smith, was commenced in the Circuit Court yesterday afternoon before Mr. Justice McKeown, without a jury. This is an action for trespass in the plaintiffs' property at Clarendon Settlement, Charlotte Co., during the year 1911. The defendant alleges that the servants of the defendant entered their property at Clarendon Settlement and cut down and removed about four thousand superficial feet of trees and logs. They ask for \$1,725 damages.

The defendant denies the trespass and makes a counter claim of trespass by the plaintiffs through their servants. The defendant alleges that the servants of the plaintiffs during the year 1911 entered upon his land at Clarendon Settlement and cut down and carried away four thousand three hundred superficial feet of lumber. He claims \$52.25 damages.

W. W. Wilson, Arthur Plover, Nathaniel Floyd and Joseph Flower testified on behalf of the plaintiffs yesterday. The defendant's witnesses were the stand when the court arose shortly after half past five. The case will be continued this morning at ten o'clock and it is probable that the evidence on both sides will be concluded late this afternoon.

W. A. Ewing, K.C., and M. G. Teed, K.C., appear for the plaintiff, and John B. Baxter, K.C., and E. P. Raymond for the defendant.

ALBERT COURT. Special to The Standard. Albert, Oct. 25.—The adjourned session of the Albert County Court was opened today by the clerk in the presence of Judge Horne, who did not arrive, and at the judge's request the case was further adjourned until Tuesday, the fifth day of November, at 10 a. m. The adjournment was made necessary on account of George W. Fowler, K. C., being engaged at the circuit court at Dorchester in a criminal case, he being the attorney in two of the cases up for hearing today.

The Pollards Coming. W. Constance representing the Pollard Juvenile Opera Company is in the city making arrangements for the local appearance of the company probably as a New Year's attraction.

DISORDERED NERVES sometimes start from mental strain or indigestion, but more often from general weakness, and lead to appalling conditions unless checked. Treat the cause, not the effect. SCOTT'S EMULSION overcomes nervousness in a wonderful, permanent way by making life-sustaining blood corpuscles; it nourishes the nerve centres and acts as a bracing tonic to build you up. Scott's Emulsion does not stupefy—it feeds them in Nature's way.

SUGAR REFINERY PROSPECT BRIGHTER NOW THAN BEFORE City Will Probably Make New Agreement and Big Industry is in Fair Way of Being Realized

At a conference yesterday afternoon between the city commissioners and P. H. Anson, of Montreal, representing the Canada Sugar Refinery Company, which has taken over Mr. Durant's interests, the sugar refinery project was again discussed, and though nothing definite was decided on it is understood that the city will probably enter into a new agreement with the sugar refinery people, and there is good reason to believe that the long discussed project is in a fair way of being realized. Mr. Anson brought with him a copy of an order-in-council passed by the Dominion government, granting the promoters an extension of time in which to build the refinery, according to the new terms imposed by the federal government, and complete the refinery within eighteen months from the time of commencing building operations, and the company is prepared to pay the government the sum of \$100,000.

According to the act passed at the last session of the legislature the city is at liberty to make a new agreement with the sugar refinery interests. After the conference yesterday the mayor stated the situation had been discussed in a general way, and the discussion would be continued on Tuesday, when Mr. Anson will be in the city again.

NEWS IN SHORT METRE LOCAL. C. M. B. A. Organizer. James Brown, grand organizer of the C. M. B. A., on Tuesday selected yesterday from Moncton. He will be here until Saturday.

May Hold Sports. Division No. 1 of the A. O. H. has appointed a committee consisting of Messrs. William O'Neill, George McDermott, William H. Coates and John Stanton to make arrangements for holding sports during the winter in one of the city parks.

Delegates Chosen. At a meeting of the St. John Council, K. of C., on Thursday evening, Dr. F. Quigley and Messrs. W. J. Mahoney and R. O'Brien were delegated to attend the meeting of the representatives in St. Malachi's hall on next Tuesday evening. Branch 134, C. M. B. A., on Tuesday selected Messrs. R. J. Walsh, Joseph Harrington and Geo. McSherry as its representatives. The L. and B. Society on Wednesday evening named Messrs. F. J. Casey, James Barry and Roy Bennett as its delegates. Delegates from St. Peter's A. M. E. will be Messrs. William Shea, Edward O'Hara and Laymond Hansen; Branch 432 of the L. and B. Society, J. T. Quinn, Clement Murphy and Dr. C. M. Kelly; Division No. 1, A. O. H., will be represented by Messrs. Fred Barrett, John C. Ferguson and Wm. O'Neill.

Charged With Stealing Electricity. In the police court yesterday morning J. D. McAdam was charged with fraudulently diverting and consuming electricity, the property of the St. John Railway Company. Witnesses testified that the prisoner had tapped the wires which had been installed in his house, and that he had admitted fraudulent use of electric current for about six weeks. The prisoner was remanded until Tuesday.

After Boats Artistic. Liquor Inspector Jones intends to interdict all persons who drink liquor to excess. In police court yesterday morning William Jones, Fred Barrett and James Ramsey were interdicted. Another offender was summoned, but did not put an appearance and will be brought to court on Tuesday to answer the charge of being an excessive drinker.

Civil Pay Day. Cashier Willet yesterday at City Hall paid out the sum of \$2,652.92 to employees of the ferry, water and sewerage and public works departments.

Decision Given. Some time ago D. R. Jack applied to the Board of Railway Commissioners for an order requiring the C. P. R. to fence its right of way at Duck Cove, and the decision has just been given. It is ordered that the railway company fence its right of way on the southern side of Mr. Jack's west line to a point one hundred feet east of Mrs. de Soyre's gate, the work to be completed within thirty days from Oct. 22.

The New Sins Factory. The construction work on the new factory is well advanced.

James Brown, grand organizer of the C. M. B. A., on Tuesday selected yesterday from Moncton. He will be here until Saturday.

War Sloops on Pacific. Victoria, Oct. 25.—The British government has ordered two sloops of war on the Pacific coast.

Bank Manager to Resign. Montreal, Oct. 25.—Henry Stikeman, general manager of the Bank of British North America, will resign after 22 years of service. He will be succeeded by H. B. McKenzie, III, health is the cause of Mr. Stikeman's retirement.

Another McGill Building. Montreal, Oct. 25.—Work is to be commenced in three weeks on another building for McGill University to cost three-quarters of a million. It will be known as Convocation Hall.

Company Held Liable. Hallowbury, Ont., Oct. 25.—The Erie Railway Company were held negligently liable for not using fire-proof partitions between the temporary quarters where the fire and the explosion occurred on Wednesday, when a coroner's jury last night. Many witnesses were heard and Crown Attorney Ontario was present. Coroner Codd conducted the inquest.

OBITUARY. James F. Doherty. Woodstock, N. B., Oct. 25.—James F. Doherty died at the Fisher Memorial Hospital, Woodstock, after a month's illness from cancer of the stomach, aged 70 years. He is survived by one sister, Josephine, in Westport, Conn., and a brother, William, in some part of the States. The funeral will be held tomorrow, with interment in the Catholic cemetery. Deceased was born in Woodstock, his mother being a sister of the late Senator Dever, of St. John. After graduating from the Grammar School, he went to work for his uncle in St. John, where he remained a few years. Returning to Woodstock, he was connected with the Woodstock Field Battery, and later took courses in the Military College in Quebec, securing the very highest marks from that college. He quickly rose in the ranks, and finally was appointed captain of the Battery and had charge of the Battery for many years. Afterwards, he managed the large Doherty farm at Upper Woodstock for some years. Disposing of the farm, he became agent for St. John, and Frederickton daily papers, which business he carried on until his death. Highly educated and possessed of a fund of knowledge and humor, he was a good entertainer and leaves many friends to mourn.

Mrs. Elizabeth J. Blackman, of Baywater, died on Thursday evening at the home of her brother, She is in the 84th year of her age, and was survived by two brothers.

William Downing. The death took place at an early hour this morning of William Downing, at his residence, Spar Cove Road. He had been in poor health for some time, and his death was not unexpected. He was in the 70th year of his age and is survived by five sons, Timothy, John, William, Daniel and Patrick, and two daughters, Mrs. James Jeffrey and Mrs. John Jeffrey.

TEMPLE FAIR OPEN TONIGHT IN NORTH END Elaborate Preparations for Annual Event Under Direction of Alexandra Temple of Honor—Those in Charge

From six o'clock this evening to closing time on the night of November second, the annual fair of the Alexandra Temple of Honor will be in full swing in the Temple of Honor building on Main street. The fair this year will be conducted on a larger scale than in previous years, new games and attractions having been introduced, prominent among them being the giggle shop, shooting gallery, hoop la and plate game. The feature this year, however, will be the Thanksgiving supper on Monday evening, the arrangements for which point to it being an entire success. In the dining room, which is situated on a raised platform at the upper end of the lower floor, three large tables will be placed and supper will be served under the direction of Mrs. Robert Christie, Mrs. Stanley Webb, Mrs. Alice Todd, Mrs. Stanley Williams, Mrs. Fred Miller and Mrs. Carrie Black. The catering will be by John Robinson.

During the fair tea will be served every evening under the direction of Mrs. Charles Flower and Mrs. Carrie Black, assisted by Mrs. James Bond, Mrs. S. Hamm, Mrs. F. Gallop and Mrs. Walter Dowdle. The lower floor on which the different booths and dining room are situated has been decorated in an artistic and original manner, the prevailing colors being green and white. The most effective part of the decoration are the small green and white trimmed arches surrounding the booths. The small arches will be illuminated with electric lamps, and are arranged so as to circle a larger arch in the center of the room, which will also be lighted with electric lamps. The center of the large arch is the candy booth, which is dome covered and trimmed in the prevailing colors.

The booths will be cared for as follows:—Ice cream booth, Mrs. J. McAlary and Mrs. H. Estabrooks; doll booth, Mrs. Alice Todd; apron booth, Mrs. F. E. Fiewelling and Mrs. Robert Christie; fancy table, Mrs. L. Cameron and Mrs. J. Williams; doll booth, Mrs. S. Williams and Mrs. Izla Blaize; fancy table, Mrs. Robert Christie Black.

The upper floor is given over to the games, which this year will surpass any of the previous seasons. The prizes are also of a higher grade, keen competition being expected among the players.

TAKEN HOME ON A MATTRESS. How a Sufferer from Sciatica Found Permanent Relief. Fierce darting pains, pains like red hot needles being driven through the legs in the thigh, perhaps down the leg, are the hall-marks of sciatica. None but the victim can realize the torture of this trouble, and many suffer from it helplessly in the belief that it cannot be cured. This is a mistake; sciatica is a nerve trouble, and if the starved nerves are properly nourished with rich, red blood the trouble will soon disappear. Dr. Williams' Pink Pills make just the new, pure blood needed to feed the sciatic nerve and drive out the racking pain. It has been proved over and over again that they can do this and we offer now the following additional piece of evidence. Mr. E. H. Pascoe, Ontario, writes: "Some ten years ago I was terribly afflicted with sciatica, starting first in my hip and then extending through the leg to the foot. At the time I was attacked I was away from home and had to be brought home on a mattress in a spring wagon, and the agony of the trip was almost more than I could endure. Reaching home I was not able to sit up and remained in bed for six weeks. The doctor did not help me and I tried a number of medicines recommended by neighbors. I paid \$5.00 a bottle for one preparation, but it was no better than the rest, and I began to think there was no cure for me. While suffering this untold misery Dr. Williams' Pink Pills were recommended, and my wife got me a supply. In the course of a few weeks I began to feel better and could get around with the aid of a cane. I kept on taking the Pills until all the pain disappeared and I felt as well as ever I did. I have never had an attack of the trouble since, and although I am now 65 years of age I feel as vigorous as I did at 40, all of which I ascribe to Dr. Williams' Pink Pills."

If you are suffering from sciatica or any nerve or blood trouble, begin to cure yourself today by the use of Dr. Williams' Pink Pills, which will assuredly do for you what they have done for others, if you give them a fair trial. Sold by all medicine dealers or by mail post paid at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

The Readers of the Standard. Attention is called to advertisement in this column of building lots situated at Loch Lomond. These are very fine lots, beautifully situated, running from the road to the lake, and are all that can be desired for summer residences. As the number of lots is limited, it would be necessary to have your application in early.

Non-Rate-Payers Reported. James Gibbs, Joseph Cullimore, Wm. Austin, Preston Macfie, Adolphus Hope, Daniel Weeks and Thomas Treadwell have been reported by Policeman Crawford for working in the city without a license, they being rate-payers.

CONCERTS IN ST. DAVID'S. The concert to be given in St. David's Hall on Tuesday and Thursday evenings next promise to be of a very high order. Miss Mary Ogilvie, of Boston, is an artist of rare ability, especially in Scotch songs, while Miss Thompson and the other principals are always a delight to St. John audiences. Tickets for these concerts should be secured early as a very large attendance is expected.

Carey Case Again Arraigned. One witness, M. Geary, who testified in the case against Mark Carey for peddling liquor without a license before Stipendiary Magistrate Allingham at Fairville yesterday afternoon, testified that although Carey had drunk with him he had purchased the bottle in the city. The case was again adjourned until next Wednesday, when it is expected that an important witness for the prosecution will be present.

PIMPLES RUIN GOOD LOOKS But Cheer Up! In a Short Time Stuart's Calcium Waters Transform Worst Complexions Into Perfect Loveliness. Many a sigh and heartache have been caused by pimples. But never mind. You will shortly get rid of all those spots and blemishes by using Stuart's Calcium Waters.

The action of these Waters is wonderful. They make the skin breathe out just as your lungs expel impurities. Every minute of the day and night these wonderful Waters keep the pores busy. Instead of clogging the pores in the form of pimples, blackheads, eczema, rash, liver spots and other skin eruptions, these impurities cease to gather, they dry up and Nature soon gives the skin the bloom of youth and health. If you would have a beautiful complexion, please stop using cosmetics. Can you not realize how they plaster the pores? Were you to cover your entire body with such a mask, you would die in a day or two. Stuart's Calcium Waters are very pleasant to the taste, are put up in convenient form to carry, and can be obtained at any drug store, at 50 cents a box. Make your dreams of a lovely complexion come true. In a short time a very bad complexion is transformed to perfect loveliness.

She's on the warpath again! She's always most active when the nipping winds set others shivering. They bring her out—busting about to get ready that basin of warm, satisfying soup which looks so good, smells so good, and tastes—well, just try a basin yourself and see.

It's made of prime beef and the choicest of Irish vegetables. And as there's no over-strong flavouring, it is the making of any other soup or made dish.

EDWARDS' DEDICATED SOUPS 5c. per packet. Edwards' Dedicated Soup is made from the choicest of Irish vegetables. The other two are purely vegetable soups. Best for half a hour.

WM. H. DUNN, 336 St. Paul Street, Montreal. Representative for the Maritime Provinces.

A BUNCH OF KEYS. A company headed by "Billy Barlow" produced Hoyt's musical comedy "A Bunch of Keys" in the Opera House last evening. There was a large audience in attendance. "Billy Barlow" Taylor, Williams and Gertrude Langand passed well, but aside from this the production was poor.

An amateur contest and a prize walk are advertised as special attractions for tonight, and there will be a matinee this afternoon.

CONCERTS IN ST. DAVID'S. The concert to be given in St. David's Hall on Tuesday and Thursday evenings next promise to be of a very high order. Miss Mary Ogilvie, of Boston, is an artist of rare ability, especially in Scotch songs, while Miss Thompson and the other principals are always a delight to St. John audiences. Tickets for these concerts should be secured early as a very large attendance is expected.

WITH THE LOCAL FINANCIAL AGENCIES

Another Dull Day. It is a much mooted question whether the liquidation in foreign circles has more to do with the death of buying and selling in stocks than with the possible effect of the coming presidential election.

The Bank Amalgamation. In local financial circles one of the principal changes for several years went into effect when it was decided to amalgamate the Bank of Nova Scotia with the Bank of New Brunswick with the Bank of Nova Scotia under the conditions which have already been made public.

Foreign offerings were ignored. Dow Jones and Co., the publishers of Wall Street Journal, had this to say of yesterday's market.

On the Montreal exchange the movements in Textile furnished the feature. Bell Telephone giving place Dominion opened at 79 1/2 and closed at 79 1/2.

On arrival at Campsioners holding excursion can go direct to the steamer and occupy their berth at their return journey.

**Security of Aviators Worries
the French—Physical Exam-
ination Must Be Undergone
By Candidates.**

Paris, Oct. 18.—The serious ques-
tion of the security of aeroplanes has
been raised by the great number of
fatal accidents to airmen and it is to
be discussed at length at a special ses-
sion of the Permanent International
Aeronautical Commission during the
aviation salon on Nov. 4, 5, and 6. Sev-
eral important communications are
then to be made by military and civil
experts of various countries.

A novel feature of the salon which
opens on Oct. 25 will be the exhibi-
tion of a large number of military and
naval aircraft constructed by public
subscriptions. The military machines
are to be guarded by aeronautical cap-
tains and the naval hydro-aeroplanes
by bluejackets.

A number of "Avietes," which is
the technical name for machines or
planes propelled by human power only
will be exhibited in special section
of the salon.

The 700 candidates for France's fly-
ing corps are to be subjected to very
severe tests at the physical examina-
tion ordered by the Ministry of War.
The candidates are now learning to
vision, normal color sense, sharp
hearing, and absolute soundness of
the respiratory and circulatory sys-
tems. It is specified particularly that
no men who have to wear spectacles
shall be admitted. A rule making the
more interesting because some of the
world's most notable aviators, past and
present, were of now war glasses.

The candidates are now learning to
fly at the government aerodrome,
some of them as pilots of dirigible
balloons, but the majority as pilots of
light aeroplanes. The test is to be
more severe for operators of aero-
planes than for balloon aeronauts.

Forty million dollars yearly is the
estimated figure of the damage done
by the destruction of aeroplanes in
France. The publication of these sta-
tistics by the Incorporated Society for
the Destruction of Vermin has given
an impetus to the campaign for the
extermination of the rodent, which is
also known to be a transmitter of
disease.

The example set by several Ameri-
can cities has been followed with
great interest in France. Dr. Fontenelle
has been asked to make a special study
of the subject. He finds that the role
of the rat and the mouse has been
very serious in connection with
cases of pneumonia. For a long time
it has been noticed that this disease
occurs in epidemics in hospitals and
other places. The pneumonia microbe
becomes extremely virulent in the
presence of the rat and mouse. It
comes in contact with a mouse mi-
crobe, he will be gravely attacked by
the disease.

Fontenelle says that the hospital
of Paris, especially the old ones,
are alive with rodents. It is consid-
ered that the rats and mice are con-
ditions calculated to increase its vir-
ulence and its murderous powers of
destruction. He urges the necessity of
an immediate and relentless extermi-
nation of rodents in every hospital
establishment in France or in any other
country where the rat or mouse may
be found.

The depredations of the rat in
France on property are enormous. It
is reckoned that for a farm of fifty
hectares, the loss caused by rats reach an
annual minimum of \$200. The destruc-
tion of rats throughout France
amounts yearly to about one dollar
to each inhabitant. Dr. Fontenelle
says: "This is too high a tax to pay
to the rat and mouse. It is a serious
danger from the rodents' propagation
of maladies like the plague and pneu-
monia, and the business of carrying on
a determined war of extermina-
tion."

An amusing narrative of the com-
forts of prison life in Constantino-
ple is told by a French correspondent.
Having applied in vain for permis-
sion to visit the imprisoned David
Bey, ex-Minister of Finance, the cor-
respondent went to the prison and
boldly asked to see the distinguished
prisoner. To his surprise he was im-
mediately admitted and he was
requested to sign the visitors
book, was ushered into a magnificent
furnished room, where the Govern-
or and several attendants were occu-
pied receiving the prisoner's guests.
A large table in the centre of the
room groined under the weight of
fakes and Oriental sweetmeats, while
coffee was being handed round by
uniformed servants.

Djavid Bey himself was delivering
a political speech at the far end of
the apartment. Having concluded his
discourse amid a round of applause
from his fellow prisoners, the ex-Min-
ister came forward to welcome his
guest. Prisoner and correspondent
made a tour of inspection of the sumptu-
ous rooms of detention, where the
prisoner's rooms are decorated every
day with fresh-cut flowers and where
the sentries are expected by the Gov-
ernor to wait upon the prisoners.
Then they took coffee together.

As the correspondent was about to
leave, stating that he had only a half
an hour to spare, David Bey said: "I
shall accompany you."

The prison doors opened without
the slightest difficulty and, half an
hour later, the ex-Minister bade his
guest farewell, saying that it was too
cold to stay out late and that he was
going home.

A Maid and a Man.
She frowned and then straightway
she smiled.
This fellow completely bewitched.
(With him I'd be a kitten she played.)
At saying "Yes" and then "No."
She bid him to come and then go.
(Sing ho for the way of a maid.)
He swore that he loved and adored
So coax'd, and coaxed, and implored
(He couldn't discover her plan)
He picked up his hat, and he went
(Sing ho for the way of a man)

**SCANDAL IN
RUGBY UNION**

**Sport Professionalized When
Amateurs Are Supposed to
Retain Exclusive Control—
Some of the Players Sus-
pended.**

London, Oct. 18.—English Rugby
football is faced with a scandal which
may lead to a wider breach in the
English Rugby Union as that which
caused the formation of the Northern
Union in the '90s.

Rugby is ostensibly a purely am-
ateur game in England in distinction
to the Association game which is play-
ed largely by professional teams.
Recently the Northern Union ad-
herents invaded Devonshire and at-
tempted to recruit players from the
existing Rugby clubs. This campaign
led to the exposure of the fact that
many of the Devonshire players were
receiving compensation for time lost
from work in addition to their ex-
penses while playing with their teams.
This practice is open among the teams
of the Northern Union, which has re-
vised the Rugby rules until the form
it plays is so strenuous that profes-
sional players are necessary for a suc-
cessful team.

Some of the Devonshire players who
have been suspended for negotiating
with the Northern Union invaders
state that the payment for lost time
is general in the Rugby Union, and they
declare that they will expose the sys-
tem at the investigation which has
been ordered by the governing com-
mittee of the Union.

The scandal comes at a particularly
inopportune time, as the South Afri-
can Springboks have just commenced
a tour of the British Isles as the
guests of the Rugby Union. England
is particularly anxious to present an
unbroken front to the invaders in or-
der to wipe out the unbroken series
of defeats which the last South Afri-
can team inflicted on the English five-
teens several years ago. During that
tour the South Africans suffered only
one reverse and that was at the hands
of the Royal Cornwall Rifles, a team
of Public Records. It recognizes that
the office has done much excellent work
in recent years, but declares that it
has not been generously supported.

It is understood that the commis-
sion has been greatly assisted by the
evidence and experience of American
students, who do much work in the
Public Record Office.

Students of the commission contends
that the documents to be of use to
students, must be made more acces-
sible and must be placed in charge
of scholars. Accessibility, however,
does not imply centralization, and
the commission recommends that lo-
cal documents should be kept in the
localities where they originate. It
recommends that these branch record
offices, wherever possible, should be
placed near a good reference library
and in the neighborhood of a univer-
sity.

**TORTURED FROM
BABYHOOD**

"Fruit-atives" Cures Constipation

MISS E. A. GOODALL.
Edmonton, Alta., Nov. 20th, 1911.
"I have been a sufferer since baby-
hood from that terrible complaint,
Constipation. I have been treated by
physicians, and have taken every
medicine I heard of, but without the
slightest benefit. I finally concluded
that there was no remedy in the world
that could cure Constipation.

About this time I heard about
"Fruit-atives" and decided to try
them. The effect was marvellous.
The first box gave me great relief,
and after I had used a few boxes, I
found that I was entirely well.

"Fruit-atives" is the only medicine
that ever did me any good and I want
to say to all who suffer as I did—"Try
this fruit medicine and you will find
—a! did—a perfect cure.

(Miss) E. A. GOODALL.

"Fruit-atives" is the only medicine
in the world made of fruit and the
only one that will positively and com-
pletely cure you of Constipation.
50c a box, 6 for \$2.50, trial size 25c.
At all dealers or sent on receipt of
price by Fruit-atives Limited, Ottawa.

South Africa the board of trade re-
cently obtained, at considerable ex-
pense, a sample collection of foreign
hardware and tools. The general de-
mand there. And American tools oc-
cupied a conspicuous place in the col-
lection.

A plan for making the British Public
Record Office more efficient and
useful has been recommended in the
report of the Royal Commission on
Public Records. It recognizes that
the office has done much excellent work
in recent years, but declares that it
has not been generously supported.

It is understood that the commis-
sion has been greatly assisted by the
evidence and experience of American
students, who do much work in the
Public Record Office.

Students of the commission contends
that the documents to be of use to
students, must be made more acces-
sible and must be placed in charge
of scholars. Accessibility, however,
does not imply centralization, and
the commission recommends that lo-
cal documents should be kept in the
localities where they originate. It
recommends that these branch record
offices, wherever possible, should be
placed near a good reference library
and in the neighborhood of a univer-
sity.

Emergencies come unawares

An Automoblist may keep his head and do the right thing at the right moment, but what is the use if his equipment is against him?

MOTORISTS DREAD SKIDDING. A greasy street—a sudden application of the brake—and, without a reliable non-skid tire, a catastrophe may result.

THE GOODYEAR NO-RIM-CUT TIRE CANNOT SKID. The angles and edges of these blocks grip the road with a tenacity which resists all tendency to skid.

The diamond-shaped blocks of pure rubber are broadened at the base, distributing the weight of the car over the whole tread surface. Resilience is not lost. That is where the Goodyear differs from those with bars,

letters and other projections, which deaden the tire and cause the jolting so fatal to the adjustment of your motor. As the centre blocks become worn the side blocks come into action as perfect skid-preventers, giving non-skid efficiency to the last.

No-Rim-Cutting

Nearly one in four tires is ruined by rim-cutting. NO-RIM-CUT tires are held in place by the round surface of the side ring and cannot rim-cut, actually saving 25%.

10% Oversize

Goodyear tires are made 10% oversize—provide for overloading—extra equipment. This lessens the chance of a blow-out, and reduces vibrations. With the average car this adds 25% to the mileage.

Why not investigate this for yourself? You would be interested in our book "How to select an Automobile Tire." Ask us to send you a copy.

Housekeepers vote on the Range Question and the "SASK-ALTA" RANGE carries the day by a big majority

We are stating a fact, which can be easily verified, when we say that a majority of women prefer the "SASK-ALTA" Range. Simply because they have proven, by actual experience, that the "SASK-ALTA" is the best cooking and baking apparatus on the market.

You may want a range now—you will want a range some day, and you may be disposed to buy a range of another make, since there are other good ranges. But—don't you think that it would be only fair to yourself and family to investigate the "SASK-ALTA" before buying—to consider the reasons why so many prefer it to any other range.

The "SASK-ALTA" is a strong and beautiful steel range made by McClary's—the range specialists of Canada. The name of the makers is ample proof of "SASK-ALTA" superiority. Whenever you see that name on a stove or a range you may be sure that it is the best made.

The "SASK-ALTA" Oven is a delight to the cook. It is big and roomy and made of nickel-plated steel. It's easily kept clean. You can wash it out like a kitchen dish—always have a clean, fresh oven when you have the "SASK-ALTA" in the kitchen. The Oven of this handsome range is evenly heated because built in exact proportion to the Fire-box, and thoroughly ventilated, leaving all the rare and generous juices in a roast while cooking it just the way you want it.

U. N. B. WIN FROM KING'S COLLEGE

Special to The Standard. Wolfville, Oct. 25.—U.N.B. outplayed King's College in the first intercollegiate Rugby game of the season here this afternoon on a field strewn with mud and water. The final score was only 6 to 3, but U.N.B. forced their opponents to touch for safety on no less than seven occasions and kept the play in the visitors' territory about all the time.

Poor judgment displayed by the back division in their open work, and the forwards kicking the ball into their opponents' possession in dribbles, lost many opportunities for the U.N.B. to run up a big score, but at the conclusion of the game Coach Baber Church expressed himself as fairly well satisfied with the work of the red and black squad.

U.N.B. really beat King's by a penalty kick by Frank McGibbon when referee Clark awarded U.N.B. a free kick almost in front of King's goal posts for one of many flagrant infractions. Each side scored another touchdown which they failed to convert into goals. The kicks being from difficult angles, U.N.B.'s lone forward division, while McGibbon starred behind the line, both Malmann and Murray imitating their otherwise good playing by failure to use good judgment when opportunities to score turned up. Oty at full back made several swell tackles at critical times and his kicking was generally well up to the standard.

J. Harley, of the King's half line, got away for an 85 yard run on which he scored their try. He is big, fast, ran ten yards and passed to Capt. Murray, who hurdled the King's full back when he went to tackle him at the line and thus got over. The game was cleanly played, the only player at all hurt being the King's fullback who, on another occasion, was put out for a few moments by another of the U.N.B. captain's hounding acts which, however, came at a time when a little scientific dodging would have been more effective, and would doubtless have given U.N.B. a touchdown.

The new grandstand at College Field was in use for the first time and proved a boon for the spectators as rain fell almost incessantly throughout the game.

The team lined up as follows:
U. N. B.
Murray Full Back,
Oty Halves,
J. Harley Murphree
McGibbon H. Murray
H. R. Jones Malmann
Duppy Malmann
Quarters,
G. Harley McGibbon
R. Morris McFadden
Forwards,
Bell Duguay
Brown Veniot
Jeffery Patterson
Wilks Murray
Holmes Alexander
G. L. Jones Jewett
Spence Brewer

On two occasions before the half was over, U. N. B. had carried the ball over King's line, and in the second half play had been on for about ten minutes when McGibbon got the ball from the scrum on King's 25 yard line, ran ten yards and passed to Capt. Murray, who hurdled the King's full back when he went to tackle him at the line and thus got over. The game was cleanly played, the only player at all hurt being the King's fullback who, on another occasion, was put out for a few moments by another of the U. N. B. captain's hounding acts which, however, came at a time when a little scientific dodging would have been more effective, and would doubtless have given U. N. B. a touchdown.

THE MAN WHO CAME BACK

RUBE MARQUARD.

The Rube was one of the New York Giants' best pitchers last season, and before the world's series the chief topic among the base ball critics was whether or not he could come back to his old form and twist a winning game from the Red Sox. Rube's

chance came on Monday, 14th inst. in New York, when he kept the Sox down to seven hits and the Giants won the game by a score of 5 to 2. It was in this game that the Giants pounded Buck O'Brien of the Sox for six hits and made their five runs in the first inning.

SIX DAY BIKE RIDERS

The six day bike riders at the Arena, Toronto. The riders are shown strung out, but almost immediately after the picture was taken there came a bad spill, which resulted in several of the men being badly scratched. A good idea is given of the steep banking at the track corners. The track is twelve laps to a mile.

EVERS TO GET A BIG SALARY

Chicago, Oct. 25.—John Evers, second baseman of the Chicago National League baseball team, officially became manager of that club for the next five years today, when he signed a contract with Pres. Charles V. Murphy, the details of which were not made public.

ACADIA LADIES VICTORIOUS

Wolfville, N. S., Oct. 25.—Mt. Allison footballists were accompanied by the Ladies' College basketball team, who played the Acadia University girls in the college gym at the close of the football. The game was a good exhibition, resulting in another victory for Acadia, the score being 14 to 17, the playing of Miss M. Cash of Mt. Allison and that of Miss Vanwart of Acadia being most noticeable.

CORNS, CORNS, CORNS.

Tender corns, painful corns, soft corns, bleeding corns, every kind of corn that other remedies fail to cure—that's a good many—yield quickly to Putnam's Painless Corn Extractor. Used forty years in many lands. Largest sale in the world. Putnam's Painless Corn Extractor. The name, you see, tells its story. It removes corns and does it painlessly, but here is a pointer: be sure you get Putnam's. Sold by druggists, price 25c.

Took no Chances.

Didn't you give that horse thief a chance to say anything before you lynched him? No, replied Bronco Bob. He was a pretty rib talker, and we thought it best not to take any chances. There's no telling what a silver tongued orator may get away with these days. Washington Star.

A Champion of the Law.

I am fighting for a principle, said the candidate. What principle? rejoined the sardonic questioner. And the candidate whispered in a burst of confidence: The principle of self-preservation. Washington Star.

ACADIA DEFEATED MT. ALLISON

Special to The Standard. Wolfville, Oct. 25.—Under lowering skies and on a heavy field the long looked for football game between Mt. Allison and Acadia was played here this afternoon. The lineup was as follows:

Acadia—Fullback, Morrison; halfbacks, Lemah, Porter, L. Andrews, (captain); P. S. Andrews; quarterbacks, Eaton, P. L. Andrews, Kitchin; forwards, Freida, Alkins, Spencer, McKay, Kinsman, Lyons, Vanamburg. Mt. Allison—Fullback, Milton; halfbacks, Godfrey, Thompson, Pick, Clay; quarterbacks, Malcolm, Lucas, Dickinson (captain); forwards, Gregg, Titus, Durrant, Pickett, McDonald, Palmer, Cramm.

Two minutes after the whistle Lemah went over the line on a pass from Porter. From that on for the next ten minutes the play was all in Mt. Allison territory. Acadia men tried drop kicks twice but did not succeed. There was no further scoring in the first half. Mt. A. was forced to touch for safety several times. In the first half Cramm of Mt. Allison was injured and was forced to retire for the remainder of the game. In the beginning of the second half Acadia rushed the ball into Mt. A. territory. L. Andrews scoring. Although difficult to convert Lemah placed a good one over the bars, making the score 9 to 0. In a very short time after Phil Andrews scored a drop kick succeeded by Percy Andrews, who made a try for Acadia, which was converted, the game closing with a score of 20 to 0 in Acadia's favor.

The playing of Acadia's halfbacks was particularly brilliant. Their scoring was far too heavy for Mt. Allison, who only succeeded in getting the ball five times during the entire game. Eaton, of the quarterbacks, did most effective work. In the Mt. Allison lineup Pickford played well while the long and brilliant runs of their fullback, Milton, brought forth hearty cheers from both sides of the line. Clay and Godfrey were both fast men, but their long runs failed to count for Mt. A., being across field rather than toward Acadia's touch line.

LAWRENCE BOXER ARRESTED

Lawrence, Oct. 25.—Stephen Kennedy, aged 21, a local boxer, was taken into custody by the police today and is held pending an investigation into rumors that he was a participant in the quarrel in which John Smalsky was fatally injured Saturday afternoon.

At today's session of the police court John T. Manning was charged with being an accessory to manslaughter in connection with the death of Smalsky, and the case was continued until Nov. 1 on request of the Commonwealth, sureties being fixed at \$5,000.

DIDN'T LIKE THE ISSUE.

"I don't like Maud's voice. Her notes come from the chest." "Well, ought they not?" "No, they ought to stay there."

ALGONQUINS TO PLAY AT FREDERICTON

The Algonquin football team will go to the capital on Monday morning to play a match with the U. N. B. team. The Algonquins has a strong line-up and expect to make a good showing against the college boys. The following will be the Algonquin line up:

Full back, Carten; halves, Drinnan, Howard, Willis, Finlay; quarters, Mcgowan, Turner, Baker; forwards, Stubbs, March, R. Stewart, W. Stewart, Morrissey, Pritson, Leitchair.

The A. Company football team were trying to arrange with the Kings College team to play them a game here on Monday. A telegram was received from the Kings players yesterday afternoon stating that they would be unable to play the St. John boys on the date mentioned.

A Company are now trying to make arrangements to play Mount Allison at Sackville on Monday.

ACADIA DEFEATED MT. ALLISON

Special to The Standard.
Woolville, Oct. 25.—Under lowering skies and on a heavy field the long-looked-for football game between Mt. Allison and Acadia was played here this afternoon. The lineup was as follows:

Acadia—Fullback, Morrison; halfbacks, Leman, Fortor, L. Andrews, (captain); P. S. Andrews, quarterbacks, Eaton, P. L. Andrews, Kitchen; forwards, Freda, Atkin, Spencer, McKay, Kinsman, Lyons, Vanamburg.
Mt. Allison—Fullback, Milton; halfbacks, Godfrey, Thompson, Pick, Clay; quarterbacks, Maloolin, Lucas, Dickinson (captain); forwards, Greg, Titus, Durrant, Pickup, McDonald, Palmer, Cramm.

Two minutes after the whistle Leman went over the line on a pass from Porter. From that on for the next ten minutes the play was all in Mt. Allison territory. Acadia men tried drop kicks twice but did not succeed. There was no further scoring in the first half. Mt. A. was forced to touch for safety several times. In the first half Cramm of Mt. Allison, was injured and was forced to retire for the remainder of the game. In the beginning of the second half Acadia rushed the ball into Mt. A. territory. L. Andrews scoring. Although difficult to convert Leman placed a good one over the bars, making the score 8 to 0. In a very short time after Phil Andrews scored a drop kick succeeded by Percy Andrews, who made a try for Acadia which was particularly brilliant. Their action was far too heavy for Mt. Allison, who only succeeded in getting the ball five times during the entire game. Eaton, of the quarterbacks, did most effective work. In the Mt. Allison lineup Pickford played well while the long and brilliant runs of their fullback, Milton, brought forth hearty cheers from both sides of the line. Clay and Godfrey were both injured, but their long runs failed to count for Mt. A., being across field rather than toward Acadia's touch line.

Sommambulist Stunts—What an Up-to-Date Policeman Might Do About the High Cost of Living.
BY EDGAR NICOLE.
There is a Western Canadian who is said to be somewhat of a phenomenon as a somnambulist. This wanderer of the night is, we are told, a very ignorant man when awake, but can do pretty well when asleep. There are many more like him in this respect. His favorite occupation is drawing strange hieroglyphics and depicting, in much detail, curious birds, animals and other things. None can quite understand what it all means. The hieroglyphics are said to resemble a mixture of Arabic, Chinese, Hindustani, Hebrew and other languages. The man is a crack-jack at drawing Saurian forms. Subjects like the Boob, Dinosaur and our old friend the Triceratops—the one with a skull seven feet long, a horn over each eye and another horn at the end of the nose—do not escape his attention.

The man's friends have tried to break him of this habit by hiding pencils, ink and paper, and in other ways but have found it best to leave him alone. For, when he couldn't get to work as he pleased, he began a strenuous stomach. His efforts herein left him so exhausted, however, (for it is scarcely necessary to say that he always came off second best in the shadow-fighting business) that those interested in his physical welfare decided to let him go on in the same old way.

The odd thing about these somnambulist is that they rarely do anything useful when they are on the job. Did you ever hear, dear reader, of one of them simply polishing the kitchen stove, or spilling wood for the family fire, or mending the baby's socks? Did you ever hear of one penitently proceeding to the place where he had, in his wakeful moments, carefully hidden that ten-dollar bill that he didn't want his wife to know he possessed, grabbing it and putting it on the kitchen table with a hieroglyphical note meaning, when interpreted, "for my dear wife"? No, a disciple of Somnus just like this is never seen. He would know, quite well, that the good lady would be able to read these hieroglyphics as easily as she could wink, and that she would annex the bill without delay.

The policemen in Los Angeles, Cal., now carry as a part of their equipment a stack of candy and chewing gum. These confections are used in comforting lost children found by the police. This is very humane, and the idea might be advantageously adopted, and extended, in other places. For instance, every policeman should be required to have on his person a feeding bottle (with suitable contents) for the pacification of infants who are fretful in the streets. He should carry a clothes brush for the use of the man who has dusty garments, and a headache powder for the other man.

CANAL ZONE RICH
NATURALIST FIELD
Eight Hundred Bird Specimens and Nearly 600 Mammal Types Found There—Reports are Official.
Washington, Oct. 25.—The Smithsonian Institution has issued three papers describing new material collected during the biological survey of the Panama Canal Zone, including new insects, mammals and birds. This survey was begun in 1910 and carried on for two seasons. The Smithsonian had the co-operation of various government bureaus, including the Bureau of Fisheries, the Bureau of Entomology and the Biological Survey of the Department of Agriculture, the Isthmian Canal Commission and the Panama Railroad Company, &c. The Field Museum of Natural History, of Chicago, took part in the fish collecting.

Early in 1912 E. A. Goldman of the Biological Survey, Department of Agriculture, went to Panama for the second time and made additional collections of mammals in January and February. From February to June work was carried on in Eastern Panama to determine the faunal relation of that region to the Canal Zone as well as the seas to the westward and northward.
Eight Hundred Birds.
His efforts were centred around the Piri Mountains, one of the highest ranges in Eastern Panama, rising more than five thousand feet and situated near the Columbian boundary, southeast of San Miguel Bay. This region is covered with a dense, unbroken forest, and has a heavy annual rainfall, although the lower levels it is usually dry from January to April, except for a nearly continuous fog and the consequent condensation of moisture on the foliage, which has practically the same effect as light showers.
The collection of natural history specimens, which includes some eight hundred birds and 583 mammals, indicates that the fauna of Eastern Panama is South American in its general characteristics.
Mr. Goldman describes fourteen new species and subspecies, including:

First Zoological Collector.
Many of these specimens were collected by Mr. Goldman, who seems to have been the first zoological collector to have penetrated the forests about Mount Piri and its bordering lowlands. Here many birds and mammals not before known from Panama were also new to science. Several species of South American animals appear to reach their northern limit at this point, being unknown in the Canal Zone and the adjacent territory, although only about one hundred and fifty miles distant.
The birds described by Mr. Nelson represent three new genera and twenty-four new species and subspecies, including wood dove, two motmots, three humming birds, two flycatchers, several tanagers, two warblers, a woodpecker, toucan, wren, finch, thrush and others.
J. H. Mallon of the Bureau of Entomology, Department of Agriculture, has written a technical description of three new species of diptera from Panama. The specimens reported on were collected by August Busck while a member of the survey in the regions of Taboga Island, Panama.
It is expected later that a faunal paper will be published by the institution covering the entire results obtained in the district of Panama, and the Canal Zone. The three papers just issued are publications Nos. 2141 to 2143 in the Smithsonian miscellaneous collections.

Hardly Fair.
It seems odd that the Thanksgiving turkey, though thoroughly stuffed he may be, with things rare and sweet that are splendid to eat. Yet he never can taste them, you see.

"I'll be shaved and ready in a moment"

Would you, busy man, know real refreshment? Then treat yourself to a Gillette shave when you dress for the evening.
What a welcome break it makes between the hustling, bustling day and the evening's social enjoyment! How the cool, clean Gillette shave transforms the face of the wearied worker into that of the fresh, well-groomed man of pleasure!
Yes, you have plenty of time, for it won't take you five minutes. With the Gillette Safety Razor there's no preliminary honing or stropping—no gingerly fussing around for fear of a cut. You simply lather up and SHAVE, without loss of time or temper.
If you would always look your best, however urgent the demands on your time may be, you really need the Gillette Safety Razor. Ask your Druggist, Jeweler or Hardware Dealer to show you the different styles of Gillette Sets—as handsome as they are efficient.
Standard Sets \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets \$6.50 up.

WIRELESS WITHOUT SPARKS EXPECTED TO WORK WONDERS

200 Words Per Minute May be Sent by New Method—Will Revolutionize the System.

Paris, Oct. 25.—It is reported that a young French engineer has made a discovery which is likely to revolutionize wireless telegraphy. The author of this wonderful invention is Julien Bethend, a pupil of Henri Poincare and a friend of M. Brault, who is regarded in France as the inventor of wireless telegraphy.

Wireless telegraphy cannot at present compete in speed with messages despatched by trans-Atlantic cables. The latter can despatch as many as 35 words per minute by the duplex system, while the former can only send out 10 to 15 words a minute...

Greater simplicity of construction is also claimed for the installation, and each wireless telegraph station would barely cost \$40,000 and would be able to do the work of 10 cables...

In conclusion, this new invention will at once place wireless telephony on a practical basis.

WHERE HE WANTED THEM. A district leader went to Segrit, recently, to see the Democrat candidate for President. In the course of an animated conversation, the leader noticed that Governor White's eyes glared and he was looking at the tip of his nose, remarked: "Your glasses, Governor, are almost on your mouth."

"That's all right," was the quick response. "I want to see what I'm talking about."—Everybody.

St. Louis, Mo., Oct. 25.—The ownership whereabouts and species of a certain snake are the subject of much debate around the boilerroom of the Laclede Hotel. Persons who saw the mysterious reptile say he was confined in an ordinary whiskey flask. One thing is certain, however, and that is that Boyd Frazier, who gave his address as No. 616 Walnut street, is suffering from a snake bite, presumably of the poisonous variety.

Frazier told the police the snake belonged to Louis Van Brand, a fireman in the boilerroom at the hotel. Van Brand vigorously denied the ownership of the reptile and said he first saw the snake yesterday morning.

"I went out in the alley while some coal was being unloaded and saw Frazier with the bottle and the snake," he said. "It was the first time I ever saw the snake, and I looked in the cooperhead. He held the bottle up, the snake poked its head out, and all of a sudden he exclaimed that he was bitten."

"He then proceeded to try to choke the snake to death. Whether he succeeded I do not know."

Frazier was taken to the city dispensary, where the wound on his hand was dressed.

Van Brand exhibited a broken bottle in which the snake had been confined, he said. He declared that he had been searching around the hotel all day for the reptile.

Sanitarium and Discharges Relieved in 24 Hours

Every Woman in Distress and Suffering from PAINFUL MENSTRUATION, BILIOUSNESS, HEADACHE, NEURALGIA, BRUISES, SCALD HEAD, RHEUMATISM, GRAVEL, GOUT, AND ALL AFFECTIONS OF THE BLOOD.

Dr. W. W. Chase's Catarrh Cure

Dr. W. W. Chase's Catarrh Cure

LET ME SEND YOU A TREATMENT OF MY CATARRH CURE FREE

Expenses, that I Will Take Any Case of Catarrh, No Matter How Chronic, or What Stage It is In, and Prove Entirely at My Own Expense, that I Can Be Cured.

C. E. GAUSS. I Will Take Any Case of Catarrh, No Matter How Chronic, or What Stage It is In, and Prove Entirely at My Own Expense, that I Can Be Cured.

Curing Catarrh has been my business for years, and during this time over one million people have come to me from all over the land for treatment and advice. My method is original. I cure the disease by first curing the cause. Thus my combined treatment cures where other fails. I can demonstrate to you in just a few days' time that my method is quick, sure and complete, because it rids the system of the poisonous germs that cause catarrh. Send your name and address in plain text, and mail to C. E. GAUSS, 3683 Main St., Marshall, Mich.

FREE This coupon good for a package of GAUSS COMBINED CATARRH CURE sent free by mail. Simply fill in name and address on dotted lines below, and mail to C. E. GAUSS, 3683 Main St., Marshall, Mich.

WOMEN AIDED IN CAR BY VOLUNTEER FISHER

Elderly Passenger, Probably a Church Official, Causes Considerable Amusement by Escorting Gentler Sex to Seats

San Francisco, Cal., Oct. 25.—Passengers on an inbound car were vastly amused by watching the antics of an elderly man, obviously a church official. There was something else about him, however, and that was that he would not have been so amusing.

Aroused by a jolting of the car from his sleep, which may have first suggested to him that he was in a church, he got up and offered his seat to a woman and then began to play the role of usher. As each fair passenger entered he would escort her to a seat, and was courteously rebuffed there was no room for resettlement.

When the seats were filled he would go up to a man, tap him gently on the shoulder and whisper: "Excuse me, but there are ladies standing." And he kept this up until every woman was seated.

He fairly beamed with politeness as natural it must have been instinctive, and when asked he would hold up a deprecating finger as though to remind the irreverent that it was a house of prayer and not a United Railroads street car.

MYSTERY OF SNAKE WORRIES ST. LOUIS

St. Louis, Mo., Oct. 25.—The ownership whereabouts and species of a certain snake are the subject of much debate around the boilerroom of the Laclede Hotel. Persons who saw the mysterious reptile say he was confined in an ordinary whiskey flask. One thing is certain, however, and that is that Boyd Frazier, who gave his address as No. 616 Walnut street, is suffering from a snake bite, presumably of the poisonous variety.

Frazier told the police the snake belonged to Louis Van Brand, a fireman in the boilerroom at the hotel. Van Brand vigorously denied the ownership of the reptile and said he first saw the snake yesterday morning.

"I went out in the alley while some coal was being unloaded and saw Frazier with the bottle and the snake," he said. "It was the first time I ever saw the snake, and I looked in the cooperhead. He held the bottle up, the snake poked its head out, and all of a sudden he exclaimed that he was bitten."

"He then proceeded to try to choke the snake to death. Whether he succeeded I do not know."

Frazier was taken to the city dispensary, where the wound on his hand was dressed.

Van Brand exhibited a broken bottle in which the snake had been confined, he said. He declared that he had been searching around the hotel all day for the reptile.

MISSING PICTURES WORTH A MILLION

Motion Film Operator's Series of Misfortunes Begins with the Sinking of the Titanic—Hard Luck Champion.

San Francisco, Cal., Oct. 25.—P. C. Hempstead, who returned from the Titanic north of the whaling schooner Letitia, is the original hard luck champion. Hempstead more than a year ago lost his life in the sinking of a whaler named the Letitia. After much correspondence he persuaded a London cinematograph company that his idea was a good one, and was commissioned to go north on board the Letitia and get the pictures. They shipped him the necessary outfit and he arranged for his passage on board the old whaler.

To insure a touch of the picturesque in the otherwise commonplace treatment of the whaler, Hempstead provided each man of the crew with a red tunic such as were popular during the French Revolution, and the kind of headgear affected by the pirates of fiction.

The moving picture outfit, shipped from London, went down with the Titanic. By cable Hempstead arranged for a new outfit to be shipped to Dutch Harbor, where the Letitia would call. He left here April 27 last, on board the Letitia. There was no moving picture outfit awaiting him at Dutch Harbor. When the Letitia put out, as there was nothing else for him to do.

After that the vessel went through two terrific hurricanes that would have furnished material for pictures such as the world never saw. About a dozen whales were chased and five were killed, brought alongside and cut up. There was the dramatic tragedy of the captain's death. There was a new killed whale alongside, when another was slithered against nearby. Two boats were sent in chase. Captain Macomber, in the rigging, was directing the movements when he was stricken with heart failure and fell dead into the water.

Hempstead estimated that the pictures that went to waste before his eyes were worth not less than \$1,000,000, and there were tears in his eyes as he told of the waste that would have brought back if that picture outfit had not miscarried.

Every cloud is supposed to have a silver lining, but Hempstead declares that his was blacker than that. He had a kodak with him and thought to improve the occasion by getting enough pictures to show the company what was missed by the hauling of the ship of the moving picture machine. After he had shot away all his film he discovered that there was a mechanical defect in his camera and that every picture was out of focus.

PRINCETON MAY START A CANNERY

Talk of Preserving the Produce That is Raised on the University Farm by Student Agriculturists.

Princeton, N. J., Oct. 25.—That the Princeton University farm which was established here last spring to furnish a source of employment to students who are working their way through college will become a permanent fixture at this university was made known by the publication of the annual report of the student bureau of self-help. According to this announcement the fact that the farm was not working on an intensive basis. The authorities were unwilling to expend any great amount of money on farm equipment while the idea was still in the experimental stage and as a result the majority of the work which is ordinarily done by the farm was not worked on by twenty-five cents an hour, and working eight hours a day, averaged \$12 a week. An interesting feature of the experiment is the fact that the men worked on the Princeton "honors system" which applies to examinations held here and kept their own time, thus doing away with the necessity of a time form.

Chiefly through the influence of Dr. Hibben, Princeton's president, the men obtained permission to live in one of the college dormitories and also to get the use of one of the rooms of the university dining halls for their meals. By hiring their own cook and having one of their number do the buying, their living expenses were reduced to less than four dollars a week, thus giving them a gain of \$5 for each seven days.

Practically every variety of vegetables was raised on the farm. Among them were potatoes, of which three acres were planted, five acres of beans, 20,000 bunches of celery and various other kinds of garden truck. These were sold to the local dealers and are now being purchased by the college clubs and the university dining halls at regular market prices. It is reported that a cannery is also to be introduced for the preservation of all surplus produce.

Arrangements for next year include the cultivation of one acre twice the number of men as was on the payroll this year.

All the men who worked this summer are in excellent physical shape, and the majority say they were benefited by their outdoor labor.

MEANT NOTHING WRONG. Dr. Edwin A. Alderman, the president of the University of Virginia, tells this story, illustrating the importance of being careful in criticism:

"I knew of a certain instructor in rhetoric who always impressed upon his students the necessity of clarity in what they wrote. A young man brought on one occasion a very carefully prepared essay.

"A good piece of work," said the instructor, "but, Mr. Smith, you should remember to write every sentence so that the most ignorant person can understand every word you put down."

The young man looked worried and asked anxiously: "What part of my essay was not clear to you, professor?"—Popular Magazine.

Affinities. The dapper little ribbon clerk gazed languidly into the dark eyes of the handsome brunette waitress. "Isn't it wonderful," he gurgled, "how opposites seem to be attracted to each other?"

"It sure is," agreed the beauty. "I noticed only today that the tallest man at the lunch counter ordered short cake."

Four Roses Flour

THE WEATHER

Maritime—Easterly winds; unsettled and showery. Toronto, Oct. 25.—The storm which was centred near New York last night has remained almost stationary, and the weather from the great lakes to the Maritime Provinces continues unsettled and showery. In the west it has been fine and mild.

AROUND THE CITY

Clock for New Fairville Post Office. A. B. Smalley and Sons, have been awarded the contract for installing the clock in the new Fairville post office. The clock will have four dials, each four feet in diameter, and will be electrically controlled and automatically illuminated at night. It is expected the clock will be in place about the first of the year.

Surprise and Presentation. Mr. and Mrs. Frederick Sullivan, of 40 Middle street, West End, were the recipients of a handsome rocker presented at a surprise party held at their home by a number of friends, last evening. The presentation speech was gracefully made by F. J. Hamilton on behalf of a committee composed of Mr. Hamilton, Mrs. Edna Sullivan and Miss Lucy Cobham. Mr. and Mrs. Sullivan were entirely taken by surprise but both made brief speeches in which they thanked their friends for their kind remembrance.

Many Settlers Coming. The local immigration officials state that advice recently received from Mr. Bowler, the provincial representative in Great Britain, indicate that there will be quite a number of immigrants coming here in the course of the winter navigation. Mr. Bowler wrote some time ago that a party of old country farmers were coming out here to look over the situation with a view to locating their sons on lands in the province. Several families have booked passages on the winter port boats which will arrive here next month, with the intention of stopping in New Brunswick.

Has Left Mourners Behind Him. It is reported that a man who has been doing business as a contractor and who has been driving a tallyho and a pair of iron gray horses in the North End, has left the city with the horses and team, and Edward Hogan, who sold him the horses, is anxious to discover his whereabouts on both horses and carriage. Mr. Hogan and Mr. Edgcombe have become uneasy, and through their solicitor, J. A. Barry, have taken legal proceedings.

Another Dredge Coming. The dredge Prince Ito, Capt. Irving, which has been at work in Richibucto during the summer, is expected to arrive here today or tomorrow, and will be put to work with the Maritime Dredging Company's fleet, on the West Side. The Prince Ito is a suction dredge of 90 horsepower, and with a 21 inch suction pipe. She will employ about 25 men. She will be used in connection with the reclamation work on the West Side. Next week she will be put to work filling in behind the crib sunk by Connelly and Charlson, and when the job is completed, she will be engaged filling in the area behind the revetment wall constructed by the C. P. R. this summer. The scows will dump the material picked up by other dredges near the crib, and the Ito will pump it to the area which is to be reclaimed.

THINKS GOVERNMENT SHOULD APPOINT ALL COUNTY ASSESSORS

Chief Superintendent of Education Believes This Would Remove Difficulties Re School Assessment. W. S. Carter, Provincial Superintendent of Education, was at the Durfort yesterday. Mr. Carter attended the meeting of the Teachers' Institute at Sussex, and also a school board meeting there. Speaking in a report, he said that at the Sussex meeting of school trustees, the question of levying the assessment came up for discussion and was also receiving a good deal of attention in various other school districts, since the tendency was for the assessors to reduce the assessments. He thought the provincial government should appoint the assessors and remove the work of making up the assessments from the influence of parish politicians. Under present conditions every parish tried to cut down its valuations as low as possible, and many people who should be assessed at a considerable figure were not paying their right proportion of the taxes. In reply to a question Mr. Carter said that while the matter of technical education was receiving more and more attention from the provincial authorities, and the manual training schools were growing in favor, there were not likely to be any important steps in the direction of providing technical instruction until the Federal government acted on the report of the Royal Commission on technical education, when it was hoped the Federal authorities would make a grant which would be available for technical education in the province.

H.M.S. CORNWALL TO VISIT ST. JOHN

Training Ship Coming at Request of Hon. J. D. Hazen—Will Probably Arrive Next Week.

Word was received yesterday that H. M. S. Cornwall will pay a visit to this port. It is understood that the decision of the Admiralty to have the Cornwall call here is due to the action of Hon. J. D. Hazen, minister of marine and fisheries, who at the request of a number of prominent citizens, took up the matter of having her come here when it became known that she was to visit Halifax. It was expected that the Cornwall would arrive in St. John today, but she will probably not arrive till next week, owing to a delay caused by the loss of a torpedo. The Cornwall is a training ship for naval cadets of whom there are a number on board. These young officers have to undergo a course in the school ship before they are posted in the fighting ships. The Cornwall received the following despatch from Halifax last night: "H. M. S. Cornwall, which has been in port for a week, has spent all of today in the face of a heavy southeast gale in searching for a lost drill torpedo, which has gone to the bottom of the harbor. Had it not been for this loss the Cornwall would have sailed for St. John today. The rules of the Admiralty are that a lost torpedo must be searched for during a period of seven days before abandoning it, but where there is another warship available to take up the search, this may be passed over to her. "If the Cornwall fails to locate the torpedo within her grappling irons tomorrow forenoon, the Niobe will take up the search and allow the Cornwall to proceed to St. John where she has been ordered by the Admiralty. The vessel will proceed to the West Indies."

FLASH ELECTRIC WELCOME TO CANADA'S NEW CITIZENS

Women's Canadian Club Plans to Erect Sign of Greeting in View of Incoming Ships—Annual Meeting Last Night.

At the annual meeting of the Women's Canadian Club, held last evening in Keith's Assembly rooms, Mrs. E. A. Smith was re-elected president for the ensuing year, the reports of the year were submitted and plans outlined for the coming season. The following were the officers: President, Mrs. E. A. Smith (re-elected); 1st vice-president, Mrs. G. A. Kunring; 2nd vice-president, Mrs. H. J. Powell; 3rd vice-president, Mrs. J. H. Frink; recording secretary, Mrs. Clara O. McDevlin; corresponding secretary, Mrs. A. R. Melrose; treasurer, Miss Travers; historian, Mrs. G. Oscar Greenland. The executive was chosen as follows: Mrs. Robert Thomson, Mrs. David McLeellan, Mrs. Jas. F. Robertson, Mrs. John McAvilly, Mrs. Geo. F. Smith, Mrs. Harold Lawrence, Mrs. C. B. Allen, Mrs. G. U. Hay, Mrs. J. H. Thomson, Mrs. John P. Bullock. During the evening the president, Mrs. E. A. Smith, delivered a concise but interesting resume of the work of the club during the past year, and the greatest measure of success obtained in the different departments of the club's work. The lecture course conducted was in every respect a success. The club had the privilege of hearing several prominent ladies and gentlemen, among the number being Lady Fraser, Rev. Dr. Wolfe, of Acadia, and others equally well known, who delivered addresses on topics of interest. Future Plans. Touching upon the future work of the club the president pointed out that among the projects which it is hoped to carry out are the erection of a memorial to Lady LaTour; the placing of an electric "Welcome" sign at some suitable place on the West Side to flash a friendly greeting to the immigrants to our shores. The course of illustrated lectures for school children and parents held by the Women's Canadian Club was one of the successful achievements of the past year, and had met with encouragement from all. The St. John Women's Club is the only one in the maritime provinces, the president said, but an effort will be made during the year to organize clubs in other large cities. Successful Work. The reports received from the different committees were especially pleasing, and showed that in all departments much had been accomplished. In the educational, immigration, and other phases of the work, excellent results had been achieved, and the past year had been marked by considerable activity. The secretary in her annual report referred to the progress and growth of the club. One hundred and fifty new members had been enrolled, bringing the membership up to 425 at present. Progress has been made regarding the memorial to Lady LaTour; a committee has been formed. It has been decided that a tablet shall be erected by the club. The site has not been selected but it is suggested that Fort Howe be the site. The financial report showed receipts of \$727.71 and expenditures of \$273.22, leaving a balance of \$454.49. Following the reading of annual reports Mrs. Harold Lawrence gave a report of the meeting of the Federation of Canadian clubs at Fredericton, at which the local women's club was represented, and at which Mrs. E. A. Smith was elected vice-president. The following new members were elected: Mrs. G. F. Palmer, Mrs. Fred Goodspeed, Mrs. F. B. Paterson, Mrs. T. E. G. Armstrong, Miss Alice Isaacs, and Mrs. Andrew J. Mulcahy.

WOMAN BARELY ESCAPES BEING BURNED TO DEATH IN SYDNEY STREET HOUSE

Mrs. Annie Burgess had a narrow escape from being burned to death in her room at 176 Sydney street last evening. Mrs. Burgess had been in the country for some time with her husband and son. She arrived in the city yesterday morning, and, it is stated, procured liquor and became intoxicated. She had a rented room in the building on Sydney street, the house being also occupied by three families. Near the head of the bed in Mrs. Burgess' room was a small table on which were a number of magazines and a lamp. Mrs. Burgess was in bed, and it is thought she knocked over the lamp and set fire to the magazines on the table. Fortunately one of the tenants in the house smelled smoke and notified Wm. Rowley, a grocer on the corner of St. Andrews and Sydney streets. Mr. Rowley hastened to Mrs. Burgess' room and found the fire as described. The woman was lying with her head and arms close to the burning magazines, and if the fire had not been discovered when it was the flame soon would have caught her clothing. Mr. Rowley quickly put the fire out and a telephone message was sent to central police station. Policeman James Ross answered the call, and seeing Mrs. Burgess' condition conveyed her to the station. The woman is entered on the police blotter as having been taken in custody for her protection, she being drunk, setting fire to her house, thus endangering her life and the lives of other tenants in the house. Mrs. Burgess is 50 years of age.

Will Purchase More Farms. The members of the Farm Settlement Board, who have been on a trip to the eastern counties, looking over lands with the object of purchasing farms for new settlers, arrived in the city yesterday. Mr. Butler and Mr. Hay going to their homes last evening. The board saw a number of farms which it will probably purchase. Yesterday Mr. Gluchrist, the secretary, received a letter from a man living near Loch Lomond, asking for assistance in the purchase of a farm which he wishes to acquire. The applicant is a young man born in the county, and intends to stop here instead of going west if he can borrow money from the government to secure the farm which has taken his fancy, and on which he has an option.

ATLANTIC REALTY COMPANY HAS BEEN FORMED

Atlantic Realty Company Ltd. Plans to Build Self-Contained Homes—Prominent Men on Directorate.

The Atlantic Realty Company, Ltd., having a capital stock of \$250,000, now being incorporated under the special act of the Dominion parliament for the purpose of buying and selling real estate, and building and improving property generally. The head office of the company will be in St. John, and its principal business will be done here. The provisional directors are all leading business or professional men of St. John, their names being:—A. P. Barnhill, K. C., W. S. Fisher, F. Neil Brodie, H. C. Robinson and L. P. D. Tilly. A director of the company when seen yesterday said it was their intention to buy and develop various tracts of land in the city limits or suburbs, and put up houses, varying in price from \$1,200 to \$5,000. "For some time," he said, "there has been a growing demand in St. John for self-contained houses, with a little plot of ground, not only from workmen but from people with means. There is a lack of this kind of dwelling in St. John, and our company proposes to pay for self-contained dwellings and help men to purchase and own homes by buying for the same in monthly payments. As the city of St. John is built on a peninsula, with the houses somewhat congested, it may be necessary to acquire some land lying outside the city limits, but we anticipate no difficulty in this direction, as the general experience is that it pays people to live in a house with a garden and grass plot, not only in health and comfort, but in dollars and cents." The Atlantic Realty Company will not limit its operations to St. John, but will do business wherever it sees a field for development in New Brunswick. It is the intention not to dispose of more than \$50,000 of the capital stock at the present time, and the first issue will be sold at par. L. P. D. Tilly, M. P., is the provisional managing director. The solicitors of the company are Barnhill, Ewing & Sanford, and the bankers will be the Bank of New Brunswick. The company will have a permanent auditor, and P. F. Blanchette has been selected for the position.

MOTION PICTURES AND MUSICAL ATTRACTION AT THE OPERA HOUSE

Holiday amusement seekers will flock to the Opera House on Monday afternoon and evening, when the motion picture and musical programme will be offered. John Lloyd, who is well remembered in this city as one of the best tenor soloists, will be heard in classic and popular numbers. Miss Arline Lloyd, the possessor of an excellent soprano voice, will submit Bartlett's "Dream" while little Miss Rhona Lloyd offers several dainty character songs in costume. The film subjects are "The Blind Queen's Love," a high class piece of historic picture, a thrilling western photo play and an up-to-date comedy. The management will continue to offer a balance of the week with prices at 10c and 5c for gallery.

Wool Blankets. "Keep your feet off me." You will never hear this remark if you crawl in between a pair of these soft, burly wool blankets that F. A. Dykeman and Co. are selling. These blankets are made by people who know how, and who have been making blankets longer than any other firm in Canada. They come to them at the usual spot-cash discount of the prices, and are handed along to you at the most favorable possible prices. Sixty by eighty woolblankets, \$2.98 per pair. The celebrated Slingsby Blanket, soft and warm, with a washable kind, \$3.75 a pair. Our Special Make, like the old fashioned home made blankets were made, 60x90, \$4.50, and \$5.40 a pair. Grey wool blankets, good weight and good wearing qualities, \$3.25 and \$2.50 a pair.

Holiday Millinery at M. R. A.'s. A particularly attractive display of millinery has been arranged in the salon for the benefit of today shoppers. There are a great many new tailored hats which have been made to sell at special prices to meet the Thanksgiving demand for extra stylish headwear. Also all the imported and pattern hats which comprise some very beautiful creations have been reduced in order to clear them. The showing of children's millinery will be of much interest to mothers, as the little hats and bonnets are offered at quite reasonable figures. Special attention is called to the bargains in real Irish hand embroidered linens in the linen room. These are very handsome and appropriate for this season, and are most extraordinary values.

Special Sale of Ferns. A fine lot of ferns for dishes and large Boston ferns at half price; at the new store of W. Pedersen, 142 Charlotte street, corner of Princess.

Change of Time. Beginning Monday, the 29th inst., the S. N. Yarmouth, of the Dominion Atlantic Railway, will leave St. John at 7 a. m., instead of 7.45 as at present.

St. John Realty Co. Dividend. A meeting of the directors of the St. John Realty Company was held yesterday afternoon, when the usual half-yearly dividend of 4 per cent. was declared. The dividend is payable on November 1st.
