THE GERMAN ARMY EVACUATING THE IMPORTANT TOWN OF DOUAI

North of Scarpe River in Direction of Douai, British Have Passed Drocourt - Queant Line and Reached Lens-Douai Railway in Vicinity of Beaumont and, at Quiry-La Motte, Further North, Have Arrived at Henin - Lieutard on Douai-Carvin Road—British Take St. Aubert—Enemy Abandons Great Stronghold of Chemin-des-Dames.

London, Oct. 11.—North of the Scarpe river in the direction of Douai the British have passed the Drocourt-Queant line and reached the Lens-Douai railway in the vicinity of Beaumont, and at Quiry-La-Motte, further north, have arrived at Henin-Lietard on the Douai-Carvin road.

The enemy evidently is retiring from Douai. The British have captured St. Aubert and thus are within seven miles of the main German lateral line of communications, namely the Valenciennes-Lille railway.

The enemy is retreating from the whole front from the Soissons-Laon road to Grand Pré north of the Argonne Forest, and also from the north bank of the Suippe river in Champagne. General Gouraud's army in Champagne advanced four miles this morning and captured Machault. The enemy is falling back towards Vouziers.

War Summary. (By The Associated Press.) On the wings of necessity the Germans are flying east from their old battle positions from Douai to La Fère, and northward from La Fère to the Meuse River. Their flight is toward some haven of safety from the talons of the Allies, which everywhere are menacing them. Meanwhile there have been sent broadcast further reports that Austria-Hungary and Turkey, seeing they cannot expect ultimate defeat, have informed Germany that they will accept President Wilson's peace terms. Notwithstanding the advances that are being achieved over the common enemy on the battle fronts and the peace feelers in the air, President Wilson, Secretary of the Treasury McAdoo, and in fact, all the high officials of the government are warning the American people that every one should rally to the support of the fourth Liberty Loan.

Allies Advance Everywhere. All along the battlefield the Allied troops are advancing. From the south of Douai to the east of Tonnin the enemy everywhere is giving ground eastward.

The famous Chemin Des Dames, the ridge which the Germans had believed to be an insuperable barrier to an advance northward from Soissons, is being evacuated, while in Champagne and along the Meuse River further eastward the French and American troops are pushing further forward northward their lines in the great converging movement which is fast driving the enemy from Belgium and the greater portion of invaded France toward his own borders. Douai now is completely outflanked by the latest operations of the British while between Cambrai and St. Quentin the British and Americans are still chasing the enemy. To the south of St. Quentin the French over a wide front have crossed the Oise River, and in conjunction with the retirement of the enemy from the Chemin Des Dames, are forcing the Germans to give up the great St. Gobain Forest, the bastion at the bend of the line where it turns eastward, and also the stronghold of Laon, the keystone of the entire southern line. While from the war maps it would appear to the casual observer that the Germans in this bend of the Oise are likely to be cut off, it seems probable that they will be able to use the railways and high roads leading in all directions from Laon, like the main branches of a spider's web, and effect their escape without great losses in prisoners.

Nevertheless the retrograde movement here of necessity must have a

U. S. DESTROYER LOSES 13 MEN

Washington, Oct. 11.—In a collision between the United States destroyer Shaw and a British vessel October 9, two officers and 13 enlisted men of the destroyer were lost. Thirteen other members of the crew were injured. The collision occurred in British waters. The destroyer was able to make port under her own steam, the navy department said tonight in announcing the collision, which, according to reports, was caused by the jamming of the destroyer's steering gear.

Lieutenants George F. Parrott, Jr., of Kingston, N. C., and John D. Edwards, of Buckreef Beach, Va., were the officers lost.

TURKS AGAIN ASK PEACE

Report That Austria-Hungary and Turkey Have Accepted Wilson Terms — Many Boche Rumors.

London, Oct. 11.—Turkey has made a definite proposal to President Wilson, according to reports in circulation here.

Austria-Hungary and Turkey have informed Germany that they will accept President Wilson's peace terms, according to a despatch to the Central News from Amsterdam.

Reuter's Limited, says it learns that Turkey has approached the United States with a view to peace.

Ludendorff to Quit. Amsterdam, Oct. 11.—"Germania" of Berlin, today foreshadows the resignation of two leading German commanding generals as the result of the appointment of General Von Scheuch as minister of war.

The German newspaper probably refers to General Ludendorff and Field Marshal von Hindenburg, who recently have lost much of their popularity in Germany.

Still Another Rumor. Paris, Oct. 11.—A rumor was circulated on the Paris Bourse this afternoon that Constantinople had been declared under martial law. Ottoman values jumped three and four points, Turkish securities were in great demand and there was much trading in them.

Crisis in Hungary. Budapest, via Basle, Oct. 11.—Vienna newspapers received here say that a ministerial crisis in Hungary is imminent and that a coalition cabinet is probable.

New War Minister. Amsterdam, Oct. 11.—Lieutenant General Scheuch, who recently was spoken of as the successor of General Von Steis, head of the German war ministry, today was appointed to that post, according to a despatch received here from Berlin.

Governor of Alsace. Amsterdam, Oct. 11.—Karl Hauss, a member of the Reichstag, and president of the Centre party, in the Prussian Diet, has been chosen to succeed the governor of Alsace-Lorraine, who is expected to retire momentarily, according to a Strasbourg telegram published in the Dutch newspapers.

Italian Statement. Rome, Oct. 11.—"On the Asiago Plateau this morning Italian and Franco-British troops carried out several vigorous surprise attacks," says the Italian official statement today, "preventing down by the enemy's trenches at Canova, at Aven, on Slesmet, to the right of the Frenzela Valley, at Basso Ronco and at the end of the Brenta Valley."

Pittsburgh Man Claims Effective Cure For Spanish Influenza

Remedy Is Simply Preparation of Iodine and Salt and It is Also Said To Be Preventive For Insidious Malady — Many Former Provincialists Have Died of Influenza and Pneumonia in New England.

Pittsburgh, Oct. 11.—Dr. George F. Baer, of the homeopathic hospital staff here, announced this afternoon that he has found a successful cure and preventive for Spanish influenza. Dr. Baer said tests on patients suffering from the disease and having fever of 103 have recovered under the treatment, which has also proved a successful inoculation against the malady.

In announcing the result of experiments since the epidemic began, Dr. Baer said the preparation used is not a scientific secret, but a combination of iodine and creosote.

Many Provincialists Die. It is estimated that more than one hundred former residents of the Maritime Provinces have died in this New England state of influenza or pneumonia recently. A large number of the bodies of victims have been brought to the provinces for burial. The epidemic has shown signs of abating but is not quite so

severe. The daily death list in Boston from the two diseases runs in the vicinity of 125. A serious situation exists in many of the public institutions where the inmates have the influenza. The Boston theatres and schools will remain closed next week. Among former provincialists who have died of either of the two diseases in the States are the following: In Attleboro, Mass., Olive Mully, formerly of West St. John; in Somerville, Mass., Mrs. J. Douglas Sinclair, a bride of two months, husband formerly of St. John; John Duggan, at Roxbury, Boston, formerly of St. John; at Camp Devens, Mass., Simon Picard of Enniskillen, Victoria Co., N. B.; in Swampscott, Mass., Miss Alma Burton formerly of Neweast, Miramichi, N. S.; in Philadelphia, Rev. Milledge Walker, Anglican, formerly of St. John and Hampton; at Wrentham, Mass., Mrs. Ann M. Dishes, formerly of Norton; at Boston, Capt. A. W. (Continued on Page Three.)

ALLIES SMASH DOUAI DEFENCES

BY ARTHUR F. DRAPER. British, French and Americans are fighting west of the railway between Cambrai and St. Quentin, and hearing the Oise from La Fère almost to Nivelles. Hora's army is smashing the defences of Douai. Berthelot and Gouraud are squeezing the enemy of the Rheims-Champagne front with the same persistency the British showed on the Cambrai-St. Quentin line. Haig has completed his great battle and is now simply gathering the fruits. The French generals have won an almost equal success.

German comment on Wilson's reply is only beginning to arrive. The Nord Deutsche Allgemeine Zeitung states that peace manoeuvres will continue, adding that Ludendorff was called immediately to Berlin on receipt of President Wilson's reply.

NO RELAXATION IN PROHIBITION LAW FOR METHODISTS

Emphatic Protest Made Against Boose For Spanish "Floo" — More Pay For Ministers.

Hamilton, Ont., Oct. 11.—More generous treatment for its ministers, both in the active service of the church and in the retired list, was authorized by action of the Methodist general conference today. Minimum salaries for ordained men and probationers were fixed at \$1,500 a year for married ministers, \$1,000 for unmarried ministers, and \$800 for probationers. At the same session the conference approved the raising of the scale of superannuation. Retiring allowances of \$15 for each year of a minister's services and \$10 for minister's widow were definitely decided on. To meet the increased budget required for raising at least \$1,000,000, increased endowment for the superannuation fund, ministers' salaries in addition, may be assessed up to 20 per cent. more than the present rate, but provision is made for the reduction of this as revenue from other sources becomes available.

Against Liquor. Proposals to relax the Dominion prohibition measure during the present influenza epidemic, met with unqualified condemnation by the conference, which decided to write a protest to the prime minister of the Dominion, of all the provinces of Canada and Newfoundland. The appointment of a special secretary of evangelism was authorized.

No change will be made in the four year itinerancy. Rev. W. Hodson Smith of the Wesleyan Methodist Church addressed the evening session.

THE GOVERNMENT FORBIDS STRIKES AND LOCKOUTS

Any Person Violating Order in Council Passed Yesterday is Liable To Fine of \$1,000 or Imprisonment of 6 Months or To Both.

Ottawa, Oct. 11.—Provision having been already made for the prompt and equitable settlement of all matters of dispute between employers and employees in industries affected by the industrial disputes investigation act, an order in council was passed today forbidding, for the duration of the war, strikes or lock-outs and imposing severe penalties for violation of the law.

Any person violating any of the regulations is made liable upon summary conviction to a penalty not exceeding \$1,000 or to imprisonment for a period not exceeding six months, or to both fine and imprisonment.

Fort's Exemption. Any male person employs or employed of military age who violates any of the regulations and any director of a company who being of military age, acquiesces in violation by the company of any of the regulations, shall be deemed to be a soldier enlisted in the military forces of Canada and subject to military law for the duration of the war, and of demobilization thereafter. He shall furthermore forfeit any exemption granted to him and any right to apply for, or obtain exemption from military service under the military service act.

372 U.S. TROOPS DROWNED AT SEA

Transport Otranto Strikes Steamer Kashmir in North Channel During Fearful Storm and is Dashed To Pieces on the Scottish Coast.

Three Hundred and One Men Rescued and Seventeen Reach Island of Islay, Argyshire—Total of 699 Soldiers on Ship.

A British Port, Thursday, Oct. 10.—A large number of American troops have been lost as the result of the loss of the transport Otranto in the north channel between the Scottish and Irish coast in a collision with the steamer Kashmir.

Three hundred and one men were taken to Belfast by the British destroyer Mounsey, the only vessel which made an attempt to rescue in the terrific gale, when the Kashmir, another vessel in the convoy with the Otranto, rammed the Otranto amidships.

Seventeen men were picked up alive on the Scottish coast. Of the 699 American soldiers on board the Otranto 310 were landed. Seventeen were rescued alive at the Island of Islay, Argyshire, leaving 372 unaccounted for.

PROF. H. L. STEWART FATALLY INJURED

Falls in Halifax Post Office and Sustains Fracture of Base of the Skull—Eminent Scholar.

Halifax, Oct. 11.—An accident that will probably result fatally, occurred this afternoon, when Prof. or H. L. Stewart, M. A., Ph. D., (Royal University of Ireland) fell from a rear entrance to the city post office to the foot of the letter carriers' department and sustained injuries to the skull and brain, which rendered him immediately unconscious. At the Victoria General Hospital, Drs. Chisholm and Murphy found a fracture at the base of the skull, which makes the outlook for Dr. Stewart's recovery extremely grave.

Dr. Stewart, who occupies the chair of philosophy in Dalhousie College, has the distinction of having written the most incisive criticism of the Nietzschean theory of German "kultur" that has appeared from the British press.

He was born and educated in Ireland, winning many prizes and medals for his brilliant career in the literary and philosophical faculties. He is vice-president of the Charitable Irish Society, and a member of the Halifax Rotary Club.

The accident is explained by the Post Office authorities by saying that being a great lover of books, and expecting several books, for which he had been looking but not receiving, he went to the letter-carrier's entrance to make enquiries about them, being preoccupied with his errand, had inadvertently raised the guarding chain, and overbalancing had fallen to the floor.

BOLSHEVIKI FLEE BEFORE JAPANESE

Tokio, Friday, Oct. 4.—(By the Associated Press)—Bolshevik forces abandoned the gold mining district west of Morascefsky, in the Trans-Balkalia region, when the Japanese and Allied troops approached, according to a statement issued at the war office today. The Bolsheviks left the vicinity of the Irokski gold mine when the Allied troops entered the village there.

When the Allied forces entered the town of Banbuki, on September 27, no Bolshevik forces were found. The people gave the Allied troops a cordial reception. The Allies captured nine steamers at Banbuki, and took possession of 331 passenger cars. The war material captured included 1,300 hand grenades, 29 machine guns and four mortars.

GREAT STIMULUS TO VICTORY LOAN

Saskatoon, S. S., Oct. 11.—Sir Thomas White, in an interview with the Canadian Press today, declared the victorious advance of the Allies at the front should prove a great stimulus to the success of the Victory Loan.

"It has been suggested by some that by reason of our victories bringing peace appreciably nearer, not so much money may be required for the purposes of the war. This is a mistaken view. The war may last a considerable time yet before final victory is achieved. In addition to this the Allies, including Canada, will necessarily be on a war basis so far as expenditure is concerned, for a considerable period after the close of the war. It will take many months to effect demobilization, all the money for other products. No matter what the course of events in the war there is the utmost national necessity for making the Victory Loan an overwhelming success."

ENEMY FALLS BACK.

London, Oct. 11.—British troops, pressing into the southeast of Douai toward Denain have captured the village of Iruy, according to the official report from Field Marshal Haig tonight. The capture of Frossies, to the northeast of Iruy also is announced.

The Germans are hastily withdrawing from their strong positions north of the Senoe River in the face of the deep advance of the British, south of that river.

TO RESTORE PROPERTY.

Paris, Oct. 11.—(Havas).—The Bulgarian foreign minister has decreed that British and French commercial properties, held in trust during hostilities must be returned to the owners.

AMERICAN TROOPS CLEAR UP ARGONNE

A PANIC AND NERVOUSNESS PREVAILS IN RHINE CITIES

French and American Heavy Guns Continue To Bombard With Considerable Effect Railways Connecting German Points — German Public Being Prepared For More Peace Move Developments.

Basel, Switzerland, Oct. 11.—So far no decision has yet been reached by the ministers assembled at Berlin under Chancellor Maximilian to consider President Wilson's answer to the peace proposals of the Central Powers, says a despatch from Berlin received here today.

As the new German government, the message adds, regards the peace measures most seriously it is considered certain that an answer will be given to President Wilson on all three points with the same rapidity as that in which he answered Germany.

It is believed from this that it is the purpose of the German government to pursue the conversation commenced in the possibilities of a conclusion of peace.

Premier Resigns.
Budapest, via Basel, Oct. 11.—Dr. Alexander Wekerle, the Hungarian premier, announced his resignation after an audience with King Charles.

Basel, Switzerland, Oct. 11.—President Wilson's reply to the peace proposals of the Central Powers does not create a new situation, says the Frankfurt Gazette, which adds: "The grave reasons for an armistice continue and they will determine the decision which the government should take."

Travelers arriving from Germany assert that they encountered considerable risk because the French and American heavy guns are bombarding with considerable effect the railway connecting the southern Rhine cities. Near the Swiss frontier the railway was struck by shells several times at different places.

Panic and a state of nervousness continue in the southern Rhine cities despite the efforts of the newspapers, which admonish the people to remain calm.

Kaiser Gives Orders.
A rescript from the German Emperor to the army generals is printed in the German newspapers. After stating that Chancellor Maximilian is desirous of an armistice, the Kaiser invites the military authorities to establish relations with the presidents of the provinces on all questions not strictly relating to military affairs. In particular he mentions censorship and the right of public reunion and association.

Further Peace Drive.
Amsterdam, Oct. 11.—German newspapers received here reveal a number of long articles apparently intended to prepare the public for a further development of the peace movement, and containing favorable reference to President Wilson's formula.

THE SOCIALIST VORWARTS.
The Socialist Vorwarts prints an article seeking to show that the German people have confidence in President Wilson's ideals and sense of justice.

MISS WANDO KREUTZINGER, TRAPPED AS A SPY OPERATOR, FIGHTS TO RESCUE PAPER

Miss Wando Kreutzinger, Arrested in Main Postal Office, New York, Makes Dash For Window—Confesses To Giving Enemy Information About Munitions Shipments.

New York, Oct. 10.—After a desperate struggle in the operating room of the Postal Telegraph Company, Broadway and Murray street, agents of the Department of Justice, arrested Miss Wando Kreutzinger, twenty years old, of No. 1,324 St. Nicholas avenue, whom they declare to be one of the most dangerous German spies in the United States.

The woman was arrested as she sat at her typewriter key on the twelfth floor of the building. Her struggle with the Department of Justice agents in the presence of 600 men and women operators was due to her endeavor to destroy a paper which was being scratched at her desk when they suddenly confronted her and informed her that she was under arrest. She is accused of attempting to supply information to the enemy about shipments of munitions.

For six weeks Miss Kreutzinger had been under the constant surveillance of agents of the Department of Justice of the Bureau of Investigation for this office. When the five agents left her to arrest her, Mr. De Woody warned them to be careful that she did not destroy any papers.

Watched Her Work.
When the five government agents reached the twelfth floor of the telegraph building they did not speak to anybody, but walked in the direction of the operating room. Miss Kreutzinger was busily engaged sending government messages to the company's various offices in what is called the watched Miss Kreutzinger for ten minutes, during which time she disposed of several government messages, which were then taken by her and carefully pulled from her bodice a small sheet of paper of the kind the telegraph company uses for recording messages. She started to read the paper, but she was seized by the agents and she was taken to the floor in the direction of the elevator.

Continues Her Struggles.
She continued to scream and struggle as she was taken to the main office of the company, where she received her hat and coat and was hurried in an automobile to the office of the Department of Justice.

French Statement.
Paris, Oct. 11.—The Germans have been compelled to abandon their positions north of the Salpette and the Arnes on a front of sixty kilometers, according to the official statement issued by the war office tonight.

ALEXIEFF DEAD AGAIN.
Basel, Oct. 11.—General Michael Alexieff, commander-in-chief of the Russian imperial armies in 1917, died at Yekaterinod, on October 10, according to a report received here today from Kiev.

General Alexieff in September, 1917, was reported to have committed suicide and in the following May he was said to have been killed in battle at Novo Tcherkassk.

10,000 Liberated.
With the Anglo-American Forces East of Cambrai, Oct. 11.—Nearly 10,000 French civilians have been liberated from the Germans by the advancing British and Americans.

REJECT FURLOUGH TO FIGHT HUNS

American Division Declines Promised Leave and Enters Battle.

Paris, Sept. 25.—General Mangin's army was engaged in the most terrific battle of the war; for three days no progress could be made against the desperate resistance of the Prussian Guards and Bavarian shock troops. In the vicinity of Gouy-le-Chateau and on the edges of the Saint Gobain forest the battle raged. German counterattacks had driven back the attacking Franco-American army at various points.

A division of the American army after three weeks of stubborn fighting had just been relieved and rested in comparative safety behind the Ailette River. Two hundred of the American soldiers proudly exhibited passes entitling them to ten days' leave in Paris and elsewhere to their rear.

At four in the morning the "alert" was sounded. A violent German counter attack had just been launched threatening the allied positions north of the Ailette. The division was to return to the firing line at once. As they mustered out, heavy with sleep, the officers told the boys that they in possession of passes, for the rear might remain behind. They could take advantage of the brief furlough. Not one man remained behind.

CASUALTIES.

BAPTIST CONVENTION OFF.
Toronto, Oct. 11.—The annual convention of the Baptist Church for Ontario and Quebec, which was held in Jarvis Street Baptist Church on October 16 to 22, has been postponed indefinitely by order of the M. O. H. As soon as the "flu" epidemic is over, an auspicious date on the part of the convention will be chosen by the order of the executive committee.

BEING KEPT BUSY.
Inspector Robert Crawford is busy the present time when he holds up all travellers appearing as aliens and demanding their papers. His action is to be commented upon highly, as many of the aliens in New Brunswick attempt to evade the law by not reporting to the authorities on emigrating to other centres without the necessary permit.

MEETING NOT HELD.
A meeting scheduled last evening when the munition workers of the city would organize and elect officers in furtherance of their interests, was postponed until a later date on account of the regulations put on by the board of health, when precautionary measures were adopted. The meeting is now held in the afternoon and the ban is lifted, and organized.

THE RECENT STRIKE.
The recent strike of the Dominion Express Company employees, when all the red wagons lay idle, and men were imported to this centre from Central Canada to handle the congestion here now appears to have not been settled, as was promised by a compromise reached between the employees and the company, the company offering to meet the men or their representatives, and adjust grievances satisfactory to them.

ON INSPECTION TOUR.
Major-General Macdougall and Major Hearty reached the city last evening on the McAdam express. They spent yesterday in the capital where General Macdougall and staff gathered information relative to the military man power in the province. The depot held drill exercises, and were inspected, and the office system of "K" unit underwent inspection.

This year above all former seasons, a coat of substantial handsome fur is an investment. By comparison with all other wraps, it is beyond question the most economical purchase.

Text—1. Thes. 5, 18: In everything give thanks, for this is the will of God in Christ Jesus concerning you. I read a sermon in which the preacher attempted to arouse us to a spirit of gratitude by contrasting our benefits with the misery of others.

But how can we look upon failure, and death, and the great world war and be thankful? These misfortunes cast a gloom in which it seems impossible to discover any cheer, or inspiration to gratitude.

Another trouble—the invasion of the world has already brought sorrow into many homes in the United States and other parts of our own country.

Is there any source of help to which we can go in our days of trouble? There is. Where shall we find it? Where shall we find it? Where shall we find it?

GERMAN FUNDS SHOW STRAIN

No Relief in Sight From High Fares and Restrictions, Newspaper Says — Great Military Burdens.

The many complaints against the service rendered by the German railroads after four years of war have brought an answer which appears in the semi-official Norddeutsche Allgemeine Zeitung of Aug. 7. No relief from the heavy charges of passenger travel, or the restrictions that have been put into effect to release transportation equipment for war needs, is in sight, the article says. The heaviest burden on the railways, the article points out, is in the occupied territories to which new equipment had to be sent and where the care of the machinery of transportation is not what it requires. The only counsel to the people is to be patient and bear the shortcomings of the railroads as a necessary war burden. The article, which may be taken as the expression of the views of the German government, says:

Recently one has read in the newspapers many expatiative and reassuring statements about the failure of traffic on our railroads and therein many acknowledgements to the railway authorities. That had to come since for a year and a day it seemed to be a part of the iron stand of the press to speak of the breakdown of the railroads, the inadequacy of their work about capital and bureaucracy. Other authorities during the war have not been better treated. The people who groan under the weight of the time seek for the guilty upon whom they can unload the responsibility and find them easiest among the responsible authorities. It is well remembered how last year the attacks mounted up against the Central Purchasing society, how it was accused of profiteering, how the attempt was made to show how it made everything dear and that scarcity of food was due to its policy. Finally a methodical explanation was made and confidence returned.

It was not otherwise with the Imperial Clothing office when it began to draw upon the people for clothing for the munition workers, for other heavy laborers, and the returning soldiers. Opposition arose on all sides and one was obliged to conclude that the Imperial Clothing office had handled its problems in the most clumsy way. These complaints arose upon Parliament, where the rectification followed. The parties were satisfied with the explanations and then it came out that the attacks on the Imperial Clothing office had far overshot the mark.

High Prices, Restricted Use.

It is no different with the complaints about the railroads. They are equally directed against the high prices of travel and against the falling means of transportation. These complaints stand really in contradiction to each other. If one complains against the railroads on account of the high prices it must logically follow that they would transport as many people as possible in order to achieve the greatest benefit of the high prices. But difficulties of the business stand in the way. It is, therefore, not possible to make a connection between the high prices of travel and the restrictions on the traffic. The increases in prices moreover, do not stand alone, but belong to a series of measures, some of which have come from the empire and others from the State authorities. The increases which come from the states have different reasons. In part, they are due to the increases in expenses which come with the war, in part they are a means to bring traffic into a right relation with the possibilities of the business. The previous reforms of the imperial finance law could not have omitted the railroads. Thus the railroad ticket tax was introduced which affected the cost of travel, but, of course, did not help the state authorities. Then the increase of ten per cent. on travel prices on account of the increased expenses had to be put on. This is so obvious in view of the increases everywhere else that one must be content without further comment.

Here and there, perhaps, the complaint has been heard that the increase affected all classes equally, but the charge of anti-social management can have no standing since the workmen's tickets and the weekly tickets are left free of the increase and since under present war conditions many people are sitting in the second and third classes who can ill afford to bear the ten per cent. increase as those in Class 4.

Double Fares for Fast Trains.

In considering the high cost of travel, one must first take into account the increased outlay which has come about through the ticket tax and the increased expenses of administrations. There remains the special impost for the fast and express train which has existed since November of last year. This chapter is not without objection and only acceptable for those who understand the war needs of her railways. Originally this fast train excess was introduced as a zone impost. The zone increase worked so haphazard, unjustly, and unequal that dissatisfaction was soon general, and the authorities looked for another way out. So they came to the substitute of the double fare, which of course, for those who must use the railroads, has been found very painful. Then came this year the passenger tariff reform which still further raised the prices. It is not, however, superfluous to state that the doubling of the rates was not made on the basis of the price established by the tariff reform, but on the cost before the reform.

MOSCOW UNDER THE BOLSHEVIK PARTY

Crime and Disorder Prevails in Oppressive Atmosphere of Ancient City—Majority of Citizens Opposed To Lenine and Trotsky's Cut-Throats.

(Special Cable to The N. Y. Tribune and The St. John Standard.)
A vivid picture of Moscow under the Bolsheviki regime is given by Hans Vorst, one of the foremost German authorities on Russian affairs whom the "Berliner Tageblatt" has sent to Moscow to describe the conditions in the Bolsheviki capital. The facts given in his article, which was written last month, agree in general with the recent accounts reported by Allied citizens fleeing from Russia. Especially striking is Vorst's admission that the masses of Russian people, even in Bolsheviki controlled Moscow, are not with the Bolsheviki, but are continuing to spread rumors of Bolsheviki defeats and of the approaching fall of the Soviet government. He says:

"A heavy, oppressive atmosphere is hanging over Moscow. The people are hungry. It is true that the bread which the Bolsheviki government distributes is not expensive but the quantity each person may receive is too small—only a few slices, or at the most a fourth, of a Russian pound—and recently it has not been possible to distribute even these small rations with any regularity. The Soviet authorities, it is true, have made efforts to open eating-houses at least for the workmen but even here everything is so expensive that the workmen cannot help spending on food, alone, all their earnings, which since the revolution have increased more than ten times. And furthermore, the food in the Bolsheviki eating-houses is not sufficient for all.

"And so the population is compelled to engage in contraband, which under the present circumstances cannot be successfully combated even by the draconic measures of the Bolsheviki. The public keeps immune from the growing dangers only thanks to the incessantly high profits which the smuggling trade brings in to those who engage in it. The peasant, for example, in the country demands, perhaps, from 30 to 40 rubles per peck of flour (\$15 to \$20 per thirty-five pounds).

"But the 'metchetchnik' (the bag carrier) is called because they are trying to smuggle in their bags from the village into the city—must cover the expenses of their journey, which often takes several days, and their risks, which are considerable, as very often the goods they had obtained after so much toil are taken away by the Red Guards, and so they must make all their profits on the few pounds which they can bring to the buyer. Because of this, a peck of flour (thirty-five pounds) costs in the Moscow smuggling market from 300 to 400 rubles (\$150 to \$200); sugar from 30 to 35 rubles per kilogramme (\$10 to \$15 per 22.25 pound).

"If one bears in mind these facts it is not strange, then, that in the very few good restaurants which still remain open in the city of Moscow one cannot obtain a meal consisting of soup, meat or fish and dessert for less than 70 to 80 rubles (\$35 to \$40) naturally without wine, of that there is no question. There is no wine in Russian commerce. There are a few places where one can obtain alcoholic drinks, but here one has to pay for a bottle of the poorest quality, sometimes about 200 rubles; a bottle of monopony brandy, 50 rubles.

"The other day I entered the 'Ermitage' cafe and ordered a cup of coffee. The waiter also brought me four macaroon cakes. The bill had to pay was 33 rubles (\$16.50). The cakes were 6 rubles apiece, the coffee 3 rubles. The rest were the interest rates in favor of the personnel, which were added directly to the bill. In the cheap restaurants the food is very little cheaper than in the high class ones. Recently many vegetarian kitchens

have been opened in Russia—a thing which is new in Russia, where large quantities of meat and fish are consumed. But even here a plate of beans costs 4 rubles and 50 kopecks, a vegetable soup 6 rubles, and a salad 3 rubles 50 kopecks.

"Because of these high prices money is losing its value completely. A ride on the Moscow streetcars costs 40 kopecks a single trip. And the cars are always so crowded that people hang together like grapes.

"An ordinary letter costs 25 kopecks (16.5 cents), a registered letter 1 ruble 50 kopecks. A newspaper costs from 50 to 60 kopecks.

"To realize fully the tremendous change which has taken place in Russia we must remember that formerly a ruble was worth very much in Russia. Today its value is little above zero. One feels a disgust for this money-chaos, this ugly imitation money, when one meets at every corner a new comer or match-vender with fistfuls of these papers notes the actual value of which is little greater than that of former copper coins.

"On every step one finds proofs of the misery caused by the devaluation of money. On my first arrival in Moscow I was sitting in the Alexander Station eating some food I had brought along with me. Near me was sitting a man who was watching me with hungry, staring eyes. He could not control himself and asked me to give him some food. Then he told me, partly in Russian, partly in French, which he spoke fluently, of his misery. He had lost his position when the Bolsheviki came to power. 'For the last six months,' he said in French, 'I'm dying of hunger.'

"In addition to the misery and starvation of the masses there is another factor which makes the picture of Moscow still more gloomy—an extremely alarming and oppressive mood which seems to seize everybody. Never before have so many fantastic rumors passed through the city as at present. Since last month all the Moscow newspapers which do not support the new platform as the Bolsheviki have been suppressed. This unprecedented measure is said to be intended to put an end to 'provocative rumors,' but in spite of that fact the rumors against

the Bolsheviki are continuing to be circulated among the population. 'The measures have obtained the contrary effect. Wide masses of the people have no confidence in the Bolsheviki press, and as there are no other sources from which they may obtain their information the road is thus opened to rumors and stories. Now one hears that the Czech-Slovaks are very near Moscow, soon again one hears that the Bolsheviki government is about to resign, then again the Bolsheviki government is no longer safe in Moscow and is going to move to Petrograd or some other place. Then again, the people are whispering to each other about great anti-Bolsheviki outbreaks in the provinces, about railways cut off and other reports.

"Even political circles are groping in the dark and are taking part in this spreading of rumors. Everybody is living in the expectation of serious events. In the bourgeois circles people wear an expression of great anxiety, as if they knew the day and the hour when the Bolsheviki government would be overthrown. At the most, the Bolsheviki government is given a period of not more than a few weeks.

"The Bolsheviki government is taking all possible measures to suppress all the hunger riots that are breaking out. Its mistrust is directed especially against the old officer corps, which would be the most competent to take over the leadership.

Proof that Some Women do Avoid Operations

Mrs. Eta Dorion, of Ogdensburg, Wis., says: "I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation.
Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to try Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARY BOYD, 121 5th St., N. E., Canton, Ohio.

Died of Starvation

Many a Belgian mother could have these words engraved on her child's gravestone—"Died of Starvation".

Perhaps the child has wasted away with Consumption, or has been twisted into a mockery of happy childhood by Rickets, but starvation is at the root of the tragedy.

What else can be expected for a growing child whose daily ration is the bowl of soup and two pieces of bread provided by the United States loans to the Belgian Government?

The only hope for the destitute children of Belgium is that we who can afford three meals a day will be moved to pity and send help immediately. Even a small contribution will help to take some child, sinking under its load of trouble, over to Holland, where with good milk, nutritious food, medical care and loving treatment, he or she may regain health, strength and the wish to live.

MANY STOCKS IN WALL ST. MAKE NOTABLE GAINS

Regardless of Approaching Holiday There Was Unusual Activity—Rails Rise From Two To Five Points.

New York, Oct. 11.—Regardless of the approaching holiday, which ordinarily begets caution and resultant covering of long contracts, trading in stocks today was attended by unusual activity and many substantial gains.

Speculative interests continued to centre in special issues, foremost among which were shipbuilding, oil, motors, and the better known equipments including many war shares recently under severe pressure.

Later the buying encompassed copper, tobacco, food shares and utilities, prominent among the latter being the gas and express company stocks.

Pears attempted a drive against the market at midday, with United States steel as their chief objective. That stock yielded easily, however, on a sweeping upward movement in rails, which registered numerous gross advances of 2 to almost 5 points.

Marine Preferred yielded all but a point of its 3 1/2 advance, and Texas Company and Mexican Petroleum followed much of their 3 to 4 point gains, specialties of the better grade scoring higher, quotations in the active operations of the last hour. Sales amounted to \$40,000 shares.

Irregular movements again characterized quotations for some of the Allied exchanges, as well as remittances to neutral centres, Dutch rates showing further heaviness.

Bonds were strong in the main, with an extension of dealings in Liberty issues. Total sales, par value, aggregated \$10,850,000.

U. S. old 4's declined 1/4 per cent. on call. AMSTERDAM, Oct. 10.—A revolt has broken out in Bruges, Belgium, the populace having risen against the attempts of the Germans to deport the civilians, according to Les Nouvelles. German troops used their guns and killed or wounded numerous Belgians.

Throughout Flanders the newspaper says the roads are encumbered with cattle, horses and pigs, which are being transported to Germany.

Washington, Oct. 10.—The daylight saving law would remain in effect until rescinded by congress under a bill passed today by the Senate. The measure, which was endorsed by Chairman Barkley of the War Industries Board, in the interest of fuel economy now goes to the house. Under the present law the clocks would be turned back an hour on October 27th.

CANADIAN PACIFIC ACTIVE AND HIGH

Stock One of Strongest in Wall Street, Advancing Over Two Points—U. S. Steel Up.

(McDougall & Cowans.) New York, Oct. 11.—Rails were active and strong this afternoon, taking the lead in the market. C. P. R. was one of the strongest, advancing over two points. Steel issues recovered irregularly, U. S. advancing a point and increasing this gain in the closing hour. There was a general disposition to cover short commitments over the holiday in view of possible developments in the military situation and this was particularly the case in the last hour. Advances were general throughout the list except for moderate reactions in Marine and Mexican Pte.

E. & C. RANDOLPH. OGDON MILLS. Special to The Standard. Montreal, Oct. 11.—While flour milling profits of the Ogilvie Flour Company, Limited, showed only a moderate increase in the year ended August 31 last, from \$751,928, the previous year to \$822,310, profits from other sources and investments jumped from \$637,808 to \$1,222,504.

The year's showing of \$1,854,432 net was a good margin the best in the history of the company on the previous banner year of 1915. Total net profits were \$1,719,584, a total net exceeded by \$493,820, or well on to a 30 per cent. gain.

Surplus after all charges and dividends for the year amounted to \$1,404,414, against \$938,847, the previous year; \$334,270 two years ago, and \$1,179,584 three years ago.

FIRED BY LAURIER, IS IN BIG C. P. R. POST. Mr. Grant Hall is the new vice-president of the Canadian Pacific. Mr. Hall was some twenty years ago more connected with the Intercolonial at Montreal, but was removed by the Laurier Government for political reasons. That was a good thing for Mr. Hall, and those who wish the pleasure of knowing him in Montreal will be glad to hear of his rapid rise in the railway world.

THE MARSHALS OF FRANCE FAMOUS History of Exalted Position Created by Napoleon the Great Who Made Twenty-Six Marshals.

A high degree of interest and approval has been aroused by announcement that Ferdinand Foch, generalissimo of Allied armies on the Western front, has been made a marshal of France, the title denotes the highest rank in the French army, and Joffre is the only other officer who now holds it; but these facts do not suffice to account for the impression made by his bestowal upon Foch. The truth is that the Emperor Napoleon made the title famous by the great soldiers upon whom he conferred it; so that a marshal of France is by the very name of his office to be synonymous with all the attributes of supreme military leadership.

The marshals appointed by Napoleon were twenty-six in number, and the names of some of them—such as Ney, Murat, Soult, Lannes, Massena, Davoust, and Macdonald—are familiar as household words. Two of the emperor's monarchs—Murat, King of Naples, and Bernadotte, King of Sweden. They were tried by court martial and executed—Murat and Bernadotte were murdered—Bruno and Mortier. Two lost their lives in combat—Bessieres at Lutten, and Potomiatov at Leipzig; while the remainder were gloriously wounded at Aspern. After Waterloo, Grouchy visited America, and was kindly received at Philadelphia by Stephen Girard, the merchant prince and founder of Girard College, who was himself a Frenchman by birth. Grouchy was not only a count of the empire, but a marshal of France, and he was able to return to his own country and regain his previous rank and station.

Under the Second Empire, the marshals of France varied greatly in character and success. Saint-Arnaud, the first French commander in the Crimean War, had been an actor in early life, and owed his advancement largely to the assistance which he rendered to Louis Napoleon in the coup d'etat of 1851; nevertheless he was a brave soldier and displayed heroic conduct at the battle of the Alma. Pelissier, Duke of Malakoff—so entitled after the principal fortification at Sebastopol—was chiefly known for his having smoked six hundred Arabs to death in a cave where they had sought shelter, in Algeria.

But the two marshals who figured most prominently in the Franco-Prussian War were the greatest possible contrast—Bazaine, discredited and disgraced for his ready capitulation of Metz and his garison; and MacMahon, honored and esteemed for his administration of the presidency of the new French Republic, during a critical period when a misstep might have been fatal.

The lives of all the men who have been marshals of France would make an instructive volume of biography. For us, however, none compares in importance with the life of the newest marshal, as it is being lived from day to day.

HIGHER PRICES IN THE CORN MARKET at 65—Provisions Dull. Oats Rises With Corn, Selling

Chicago, Oct. 11.—Noticeable set-up in the selling pressure which has burdened the corn market of late led today to higher prices. Signs that the German answer to President Wilson's note might be somewhat delayed brought about covering by shorts who had in mind that tomorrow would be a holiday, and that to defer profit-taking until Monday would be to incur greatly increased risk. Offerings, however, widened out on bulges. Opening prices which ranged from the same as yesterday's finish with one cent higher for November at 112 3/4 and 113 1/2 and December 1.11 to 1.12 1/4, were followed by material gains all around.

Oats rose with corn. Trade was not large. After opening 3 1/2 off to a like advance with November 4 1/4 to 6 1/4 the market scored moderate general gains. Provisions were neglected. The tendency of prices though as in the case of cereals was up grade.

COTTON MARKET CLOSED TOMORROW Trading Slows Down Because of Approaching Holiday. (McDougall & Cowans.) New York, Oct. 10.—It is probable that trading has been slowed down today by the proximity of two day adjournments as the market will be closed on Saturday and Sunday. The weather in the south continued favorable, and southern spot advices were conflicting, but the claims of renewed holdings do not make much impression on settlement so long as the markets officiating reported are declining.

LIBERTY AIRPLANE IS MAKING GOOD By Caspar Whitney. (Special Cable to The N. Y. Tribune and The St. John Standard.) Paris, Oct. 5.—To the limit of present experience, the Liberty plane is making good. A considerable number are now in American squadrons serving as eyes of the advance army in West Mosul and they have also contributed largely to the success at St. Mihiel.

Not yet in the highest perfected form, as is usual with any new motor, the Liberty plane exceeds all other observations and is being planes of its type and class in stanchness, power and speed at high altitudes. They are not so easily smashed as others and are more quickly repaired. The engine itself is all right but there is some annoying delay and work which should be unnecessary here, because the motors arriving need overhaul, due to careless or inadequate inspection before accepting or shipping.

American service in France is now an appreciable factor in the Allied effort. American pilots are equal to the best, indomitable, daring and skilful. They did great work at St. Mihiel and are doing even better in the attack between Meuse and Aisne, sweeping the sky clear of Boche planes, patrolling, observing and bombing—always in the air.

But the service is seriously handicapped and development impeded by the incompleteness of the training given pilots in America because of lack of service planes, which is necessitating and extending final training here. There is an urgent need for thoroughly trained pilots, observers, bombers and for material and thorough inspection of motors before shipment. Emphasis should be laid on aerial gunnery training, which is being given in a home newspaper, no man appearing in a home newspaper, no man having sound judgment, but feels that the enemy is still powerful and is preparing a fierce and determined resistance which we can break down only by using all our strength and resources on and back of the line.

Defeat of the Boche airplane is an absolute essential. It is not too much to say that the vanquishment of the German army rests heavily on our securing and retaining complete mastery of the air. And thousands of American lives lost or saved depend on the efficiency of our air service.

NO RELIEF FOR THE NEWSPAPERS Ottawa, Oct. 10.—Newspaper Commissioners' Frigate this afternoon, after hearing application of publishers, declined to vary the terms of his order fixing the price of newspaper, but suggested that manufacturers in connection with restrictive features providing for collecting of higher prices from July 1st to Oct. 1st should give three months time for payment to publishers desiring time in which to meet the payments.

CANADIAN FISHERIES INCREASE \$13,143,666

Total Market Value for 1917 Was \$52,312,044. Ottawa, Oct. 9.—An increase of \$13,143,666 in the market value of Canadian fisheries during the year 1917, as compared with 1916, is shown by a statement issued through the department of the naval service. The statement shows that the total marketed value of Canadian fisheries for 1917 was \$52,312,044, to which total these fisheries contributed \$47,082,965 and the inland fisheries \$5,229,079. The two provinces which were chiefly responsible for the increase were British Columbia and Nova Scotia. The fisheries of the province of Nova Scotia were \$14,682,219 in 1917, against \$10,002,902. The products of New Brunswick fisheries, which came next to those of Nova Scotia, had a marketed value of \$6,143,958 in 1917, and those of Quebec \$3,414,378. All the provinces showed an increase.

RED TERRORISM IN PETROGRAD Stockholm, Oct. 10.—In spite of the assurances of Nikolai Lenin, the Bolshevik premier, the red terrorism continues in Petrograd. M. Zinovief, a close political associate of Lenin, declares it the duty of every real revolutionist to be a terrorist. The Soviet has rejected by an overwhelming majority the proposal to release the political prisoners. General Volkoff, former police commissioner, is reported to have been shot at Tambor.

BERLIN ANXIOUS. Paris, Oct. 10.—German newspapers received in Switzerland indicate what feverish intensity Berlin awaits President Wilson's reply to the peace proposals of the Central Powers. A despatch from Berne to the Swiss press agency on October 7, when a rumor spread that President Wilson had rejected the German offer. In other cities reports were circulated that an armistice had been agreed upon. The good news was posted immediately in public places, the advice say, and the crowds could not conceal their joy. A part of the German press rebuked the population for not awaiting receipt of the reply with proper dignity.

TURKS MASSACRE 200. London, Oct. 10.—Mesopotamian despatches received here record the arrival inside the British lines of 47,000 Assyrian, Armenian and Russian refugees from Urmiah, Persian Armenia, who broke through the Turkish front and made their escape. They are not so easily smashed as others and are more quickly repaired. The engine itself is all right but there is some annoying delay and work which should be unnecessary here, because the motors arriving need overhaul, due to careless or inadequate inspection before accepting or shipping.

GIRLS DO GOOD WORK IN MUNITION PLANT.

The Munition Plant of Charles Fawcett, Limited, at Sackville, N.B., is now employing about forty girls and women, who it is understood, are doing good work. So pleased are the Fawcett people with the work of the girls that they are now thinking of increasing the number of girl employees to sixty or seventy. Any girls, who want to do their bit in real war work, can no doubt secure work in the Fawcett plant.

NOTICE OF ROAD CLOSING.

How To Send Them and What It Costs

It is absolutely necessary that all parcels should be very carefully and securely packed. The following forms are recommended by the post office department: (1) Strong double cardboard boxes, preferably those made of corrugated cardboard having lids which completely enclose the sides of the boxes. (2) Strong wooden or tin boxes. (3) Several folds of stout packing paper. Additional security may be had by the use of strong linen, calico, canvas or other textile securely sewn up. Address should be clearly written in ink on cover preferably in two places, also name and address of sender should be clearly written in ink on parcel. Parcels which do not comply with this condition will be refused—the contents of the parcel should be stated on the cover. Additional information could be secured from the post office.

The cost by parcel post is as follows:—For troops known to be in the United Kingdom, 12c. per pound or fraction thereof. Limit of weight is 11 pounds. Parcels for troops in France or Flanders: Parcels weighing up to 3 pounds, 24c.; parcels weighing more than 3 pounds and not more than 7, 32c. Limit of weight is 7 pounds.

Parcels for the Mediterranean and Salonika Expeditionary Forces are subject to the following rates: 1 lb., 32c.; 2 lbs., 40c.; 3 lbs., 48c.; 4 lbs., 74c.; 5 lbs., 82c.; 6 lbs., 90c.; 7 lbs., 98c. The limit of weight in this case is 7 pounds.

MILITIA OFFICERS NOT GUILTY IN ELECTION CASE

Allegations of Perjury Made By Joseph Archambault, Laurier M. P., Disproved and Men at St. Johns, Que., Exonerated.

Ottawa, Oct. 11.—Complete exoneration of the charge of perjury made by Joseph Archambault, M.P., in the House of Commons, against certain military officers at the barracks of the engineering training depot in St. Johns, Que., is the finding in the judgment of Judge McLennan, the commissioner appointed by the minister of justice to investigate. The evidence clearly establishes that there was no canvassing for votes on the part of any officers. The charge of perjury and subornation of perjury by the officers or their men fails, the judgment adds. There were no improper inducements, representations, suggestions or other misconduct by the officers or any of them to influence any non-commissioned officer or men to commit perjury by giving false answers to questions on the envelope, and the non-commissioned officers and men who appeared and were examined did not, in his opinion, commit perjury in connection with their answers. The charges of perjury and subornation of perjury are unfounded.

Not influenced. Referring to "Knots and Lashings," a weekly newspaper published by the depot, the judgment says that the evidence does not show that the voters were influenced by anything which appeared in the publication. "They gave," says the judgment, "what appeared to me to be good, valid and sufficient reason for the answers which they gave to the questions and of their choice of 'Chamby and Vercheres.'" The lawyers acting in the inquiry were S. Fabre Surveur, K.C., and John MacNaughton, Montreal, who were appointed to protect the interests of the soldiers involved in the charges of Aime Geoffrin, who represented Mr. Archambault's side of the investigation.

Finds Cure for Rheumatism After Suffering Fifty Years!

Now 83 Years Old—Regains Strength and Laughs at 'URIC ACID'

Goes Fishing; Back to Business, Feels Fine! How Others May Do It!

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army, over fifty years ago. Like many others, I spent money freely for so-called 'cures,' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change."

HOW IT HAPPENED. Mr. Ashelman is only one of thousands who suffered for years, owing to the general belief in the old, false theory that "Uric Acid" causes rheumatism. This erroneous belief induced him and legions of unfortunate men and women to take wrong treatments. You might just as well attempt to put out a fire with oil as to try and get rid of uric acid with medicine and like complaints, by taking treatment supposed to drive Uric Acid out of your blood and body. Many physicians never did, never can and never will cause rheumatism; that it is a natural and necessary constituent of the blood; that it is found in every new-born babe, and that without it we could not live!

HOW OTHERS MAY BENEFIT FROM A GENEROUS GIFT. These statements may seem strange to some folks, because nearly all sufferers have all along been led to believe in the old "Uric Acid" humbug. It took Mr. Ashelman fifty years to find out this truth. He learned how to get rid of the true cause of his rheumatism, other disorders and recover his strength from "The Inner Mysteries," a remarkable book that is now being distributed free by an authority who devoted over twenty years to the scientific study of this trouble. If any reader of The St. John Standard wishes a copy of this book that reveals startling facts overlooked by doctors and scientists for centuries past, simply send a postcard or letter to H. P. Clearwater, 204 A Street, Hallowell, Maine, and it will be sent by return mail without any charge whatever. Send now! You may never get this opportunity again. If not a sufferer yourself, hand this good news to some afflicted friend.

ST. JOHN MAN WEDS JEMSEG YOUNG LADY

Special to The Standard. Jemseg, Oct. 11.—On Tuesday evening, Oct. 8th, a very pretty wedding took place at the residence of Mr. Chipman G. Colwell, when his youngest daughter, Susie, Cora, was united in marriage with Mr. Zachariah Toole of St. John. The ceremony was performed by Rev. A. W. Brown. The bride entered the room with her father and was prettily gowned in white crepe de chene with veil and orange blossoms and carried a beautiful bouquet of roses and maidenhair fern.

The room was tastefully decorated with autumn leaves and asparagus. Mendelssohn's wedding march was played by Mrs. A. W. Brown. After the ceremony a very dainty supper was served. The bride received many useful and beautiful gifts, including cut glass and silver, etc. The members of the Street Railway, St. John, where the groom has been employed for many years, presented them with a beautiful gift.

The happy couple left on the Champlain Wednesday morning for St. John where they will make their future home at 49 Mocklenburg street.

GERMANS FEAR AN ALLIED INVASION

Mysterious Power Pulling Back Teuton Armies, Says Gen. Von Ardenne.

Washington, Oct. 11.—A despatch today says General Von Ardenne writes in the Berlin Tageblatt: "General Poch has obtained evidence so important and so plainly evident that the Central Powers have now lost nearly all the benefit of previous offensives, and many people wonder what is the mysterious power continuously pulling back the German armies though they were meant to go onward."

The Strassburg Post is quoted as saying: "The military situation in the west causes the most fantastic rumors to be newly spread again. People begin to fear the collapse of our front and the enemy's rush into Germany. All those who have not lost their heads and who still preserve the memory of their nerves ought to feel it their duty to go against such rumors."

Uncle Dick's Chat With the Children

My Dear Kiddies:—How did you like the new feature introduced into the Corner last week? I refer to the making of the paste board horse. This week, I am giving you a splendid story, illustrated which I am sure you will like. Write and tell me...

but there are a large number of ways each day, in which you can display thought for others, and unselfishness. Keep your eyes open for them, and they will be sure to turn up. Then act.

In my previous chat, I spoke about the forthcoming Victory Loan. Have you made up your mind what you are going to do? Are there quite a number of pennies, nickels, or dimes in that money box of yours? If not you had better hurry up, as the time is getting short. Save all you are able...

Now kiddies, this chat has "grown" great deal this week, so I shall have to shut it off, and let the rest of the stories finished for you, good-bye for the present, and don't forget to write, and enter the contests.

Best wishes from your Uncle Dick Children's Editor.

JUST A PASSENGER TRIP

"Hang it all!" exclaimed Lieut. Walter Carstairs, R. N. "The petrol is giving out, and we're at least four hundred miles from home. There isn't a ship in sight either, to pick us up. If we land there isn't another plane that we can borrow a pint or two from."

"Well, it isn't much use worrying, is it, sir?" he ventured. "We'll just have to go down to the surface and trust to luck." "Yes, that's about all there is left to us," agreed Carstairs. "You'd better hang on tight, for I'm going to fasten her on now. Those straps of yours aren't any too strong, either, so you'd better cling like you baa."

"The German submarine by this time had edged quite close. A guttural growl, then, after a short pause, he said, "I expect they've sent a special one out, sir, I have only dropped them a post card saying where we expected to be, with a twinkle. Anyway, as I haven't a gun, I can't see that there's anything in it for us but to be taken prisoner, though I'd like a scrap for my collection. What's the next move, 'What's the use?" demanded Carstairs. "They'd only strafe us and the machine, and perhaps if they take aboard, then, after a short pause, he said, "I expect they've sent a special one out, sir, I have only dropped them a post card saying where we expected to be, with a twinkle. Anyway, as I haven't a gun, I can't see that there's anything in it for us but to be taken prisoner, though I'd like a scrap for my collection. What's the next move, 'What's the use?" demanded Carstairs.

A FEATHERED FOSTER MOTHER

Hens have long been known to be generous in the matter of adopting motherless chicks and incubator orphans, but Mr. R. S.
