Whitelaw Reid's Disappointment.

London, June 30—In the opinion of many people, and especially the Americans in London, Whitelaw Reid is the most disappointed man in England.

He had set his heart on being entertained by royalty and entertaining royalty; he had provided the most gorgeous costumes in which to appear on these occasions; he had expended a fortune in providing everything that could give eclat and distinction to his doings, and now everything has fallen to the ground because the king was suddenly taken ill.

Especially bitter was the postponement of the coronation, which deprived him of the covered opportunity of appearing in Westminster Abbey before the king and queen fand princes of all the world in court costume. He never for a moment

he had bidden all the royalties, princes and envoys in London.

Now that these entertainments are impossible because of the illness of the king, Mr. Reid is reported as being very unhappy, for he had been ambitious to make his functions memorable for their splendor, the many larged correspond to even among the many lavish coronation entertainments arranged by royalties and

famous peers.

During Assot week, Mr. Reid was the guest of William Waldorf Astor for several days. The London papers did not mention the fact, because Mr. Reid did not care to have it known in the United States that he had been the guest of the expatriated American millionaire.

Buffalo, N. Y., July 1.—Charley We, a Chinese laundryman, was arrested this afternoon and held on a charge of connection with the murder of Lillie Murphy, the six-year-old girl who mysteriously disappeared on June 19, and whose body, bound with ropes, and wrapped in papers and coarse cloth, was floating in a small pond in Forest Lawn cemetery. The autopsy showed that the little girl had been outraged and strangled. Public feeling runs high and every Chinese laundry in the city has been closed and policemen stationed in front of them.

Canada; the Duke of Argyll, former governor-general of Canada; the Duke of Argyll, former governor-general of Canada; the Earl of Aberdeen, late governor-general of Canada, and all the agents-general in London. her majesty explained how deeply touched King Edward had been at the outburst of sympathy for him throughout the empire, and in which she added her thanks to those who had joined her in prayers for

the king's recovery.

Sir Charles Tupper, formerly high commissioner for Canada in England, who was also present, proposed the health of the royal family and said he hoped the conference of colonial premiers now being held in London would result in some system of preferential trade throughout the

tem or preferential trade throughout the empire.

The Earl of Minto, referring to the South African war, said the greatest landmark in Canadian history of the past four years was, the sailing of the first Canadian contingent for South Africa. This, the speaker said, was notice to the whole world that it would hereafter have to reckon with the fighting manhood of the world-wide empire. The Earl of Minto said also he thought that the war would have a great and favorable influence upon the imperial career in the future. The Duke of Argyll proposed a toast to the Dominion.

Responding to this toast, Sir Wilfrid Laurier said it was Canada's pride to be first in devotion to the motherland. The colonies came to her assistance, said the Canadian premier, not because Great

colonies came to her assistance, said the Canadian premier, not because Great Britain needed help to fight her own battles, but in order to prove, henceforth, the unity of the empire. In conclusion, Sir Wilfrid said that already he foresaw a new South African confederation with accord widths for all reces. equal rights for all races.

The Right Hon. R. J. Seddon, premier of New Zealand, who also attended the dinner, was among those who spoke, but Sir John Gordon Sprigg left before the time set for his address.

experiment.

Addresses by Principal Oulton and C. H. Atchison, of Moncton High School, on the High School Course of Study, developed an interesting and spirited debate. The former advocated less classics and more technical and practical instruction, and the latter defended the classics. R. D. Hanson, Petitodiac, Professor Brittein, of the Normal School, and Doctor Bridges, of St. John, joined in the discussion. Judging from the applause, the science and technical men had the most supporters, but the classics' advocates were not without considerable backing and pressed their arguments effectively.

Fredericton, June 28.—(Special)—The closing session of the Teachers' Institute was held this morning. Secretary Brittain was held this morning. Secretary Brittain was held this morning. Secretary Brittain approunced the enrollment 450, the largest ever at provincial institute closing. The election for members of the execu tive committee was announced as follows:
B. C. Foster, Miss Ella Thorne, Fredericton; Brank Good, Woodstock; C. H. Acheson, Moneton; P. G. McFarlane, St. tophen; C. J. Mersereau, Bathurst; E. W. Lawis, Campbellton; Miss Bartlett, St. John; G. J. Oulton, Moneton; and

R. D. Hanson, Petitcodiac.

Doctor Crocket briefly addressed the institute, congratulating the teachers upon the very successful conference. He spoke of the very able papers read and of the interesting and profitable discussions. He appressed satisfaction at the progress noted in the schools, particularly in spellng, writing and composition. The special committee to which was

eferred the matter of correct pronunciation of Latin reported through Doctor Bridges, the following resolution: That a committee of teachers be ap pointed in regard to the best method of eaching Latin, to confer with the teachers of Latin in the province, and with the professors of Latin in the Dominion, the United States and England in order to tssist them in reaching a decision.

The report was adopted, and Doctor

ointed the committee. Votes of thanks were passed to the hairman, the secretary and assistant sec retaries and the Fredericton teachers, ter which the institute adjourned, the national anthem being sung . At a subsequent meeting of the executive committee, it was decided to have the proceedings of the institute and the papers read printed in pamphlet form for distribution.

### PREMIERS IN CONFERENCE, TEN DAYS HAVE COLONIAL REPRESENTATIVES BEGIN

Cordial Welcome from Rt. Hon. Joseph Chamberlain-Position of the Colonies on Preferential Tariff Throughout Empire Messrs. Fielding, Muluck, and Paterson Arranging Separate Conference

London, June 28-The colonial premier

and ministers, while sorely disappointed are consulting among themselves and re ceiving cues from Colonial Secretary ceiving cues from Colonial Secretary
Joseph Chamberlain respecting the imperial conference next week. There is reason for the belief that the conference will gain importance from the collapse of the general festivities, since public attention will be centered upon it. Premiers Laurier, Barton and Seddon will be the chief figures, but there will be strong men behind them. There is a hopeful feeling among the Canadian ministers and the premiers that with the help of Mr. Chamber'ain something may be done in the premiers that with the help of Mr. Chamber'ain something may be done in the direction of preferential aid. Astute men like Premier Ross from Toronto and Ministers Fielding, Mulock and Patterson do not wish to commit themselves prematurely to any statement of policy, but they are convinced that the self-governing colonies have in Mr. Chamberlain a resourceful leader who commands support Following is a list of the subjects to be discussed by the colonial premiers at their conference. The following subjects were selected by the colonial office:— The political relations of Great Britain and the colonies.

The commercial relations of the empire. The relations of Australia and New Zea-and with the islands in the Pacific. wing subjects were suggeste by New Zealand:

by New Zealand:—
Preferential tariffs by way of rebate duties on British manufactured goods carried in British-owned ships, and in the mother country a rebate of duty on colonial products which are now taxable.

The Australian government to be strengthened on the lines of existing ar-

rangements.

That subsidized mail services be established between Australia, New Zealand, Canada and Great Britain, the steamships month, Mrs. W. E. Hodgings and Miss to be British-owned and so fitted that in time of war they may be armed and used That South Africa members of the

learned and skilled professions who have been admitted to practice in Canada, Australia and New Zealand be allowed to That triennial conferences be held be

tween the imperial secretary of state for the colonies and the premiers of the selfthe colonies and the premiers of the self-governing colonies.

The following subject was suggested by the Natal and Cape governments:—

That the naturalization of aliens in anypart of the British empire will be sufficient for the whole of the empire.

These subjects were suggested by Australia:—

That preference be given to the colonies n army and navy contracts, the construc-ion of ocean cables and the purchase

It was this possibility of saving labor in the manufacture of the spars that first attracted the attention of the country across the border to St. John county tim

Three weeks ago a representative of Shepard, Farmer & Co., a big lumber firm of Boston, visited St. John on a vacation trip and from here went to St. Martins While cruising about in the vicinity of the latter village he was struck with th idea that from the spruce timber lands near there could be cut poles which were admirably fitted for conversion into ligh spars. Examination proved the correct spars. Examination proved the correctness of his first impression and as a result he contracted with Robert Carson to supply 300 poles. The order was filled and the poles are now on the way to the place of delivery—Portsmouth (Va.). The shipment is a particularly good one, every pole being of excellent quality. It is confidently expected that the satisfaction this shipment will give to the consignees will result in a large and profit ble trade being built up in small new Brunswick spruce and the lumber operatives about St. Martins are preparing to reap the benefits accruing from it. As far as known this is the first shipment of the kind ever sent from Canada.

During the six months ending June 30 the police of the city "ran in" 544 persidered offensive to the laws. Forty females formed a part of the total. During the months of April and May the number was greatest, both months totalling 110 arrests. Drunkenness was, as it al-most always is, responsible for the greater most always is, responsible for the greater portion. During January only 38 drunks were "scooped," probably because the topers found it too cold to go "skating" in the open; but in April when flowers and trees are supposed to bud and sap to stir, the alcoholic sap did some surprising stirring which resulted in a grand arra of "drunks" for April that totalled 89the largest number for any of the six months. The oldest offender during the six months was a man of 70 years for drunkenness, and the youngest a boy of 10, for theft.

During the month of June there were 109 arrests made by the city police. Eight these were females. Intoxication was the charge against 77 of the number while destruction of property, theft, suspicion of theft, aimless wandering, profanity, lying and lurking, pugilistic exercise, break ing and entering, cutting and wounding, assault, interfering with police while in discharge of duty, threatening to slay, desertion, and drunkenness combined with other offences, were responsible for

The monument would be subject to change as the directors would choose. Regarding the figure to be placed on the summit, the directors have secured a photograph of one of the first contingent's men in full uniform, and distinguished by a purely workmanlike appearance. In stead of the familiar helmet he wears a soft hat of the South African irregular horse type. The suit is khaki, with puttees, and the equipment is cartridge-filled bandoher, haversack, water bottle and great coat. He is standing with rifle in hand, at ease. have been noted in many lines.

Unseasonably cold weather is a drawback to immediate retail distribution and arrests the progress of the corn crop east and west. Confidence in the outlook, however, is evidenced by the continued heavy buying for fall delivery in the great grain growing sections. This is also reflected by the continued large increases in railroad earnings over the best results of previous years, except where, as in the case of the coal roads, distribution is paralyzed by the wholesale shut down of production and consumption. Aside from this single exception, however, the general industrial situation has rather improved. Cotton moved higher earlier on continued dry weather reports fromTexas and Louisiana but rains at the close of the week in Southern Texas gave hopes of a change here. In the rest of the cotton belt, conditions are still of a favorable character.

In cereals the features have been the strength of corn on reports of cold weather and the advance in oats, due to short supplies and large cash demand. Wheat has fluctuated within marrow limits, but the large decreases in supplies have constituted a balance to the quite favorable reports as to the winter and spring-planted crops.

Western and northwestern, reports are almost uniformly favorable.

The Texas crop has been ruined by drought and the coming week will be a critical one in the life of cotton. New Orleans also reports the absolute need of moisture, but cotton in Oklahoma, the Indian territory, the Central South and the Atlantic states notes good conditions ruling, though rain would help in Georgia. Lower prices for print cloths have not evoked surprise at the east, but reductions in bleached cottons have induced good sales. Woollens note a better demand and raw wool is steady.

A lull in the demand for lumber at retail is noted at New York, Philadelphia and other cities, but the mills are firm as to prices and stocks are barely broken.

The failure of legislation for Cuba has lowered raw sugar prices but refined is unchanged.

Another phase of the matter is that the teachers who are satisfactory to the board are all re-engaged even though they may desire no re-engagement. To cite an illustration: Suppose all the teachers who have been re-engaged for the next year should fail to report for duty when school re-opens after the summer vacation, how would the school heard get over the difficulty and how could they blame anyone but themselves for this condition of affairs? Will some trustee kindly rise and explain?

A good many pedestrains who were out in Thursday's storm didn't pray for a cessation of the rain—they weren't in the right mood. The scientists gave the cue, might mood. The scientists gave the cue, Mont Pelee's cruption, and it was a satisfaction to have something tangibles to lay the blame on; though one man wished that he had been close enough to that hery monster to perish with the 40,000 in preference to soaking to death, drowning, or being blown away; all of which seemed on Thursday, quite within the

Ring street presented many incidents full of humor for those who could gaze laughingly from behind rain-bedimmed windows. There went a well-known local windows. There went a well-known local man in a pair of white canvas shoes without coat or umbrella, closely followed by a lady in a white dress, also without coat or umbrella. Here a man chased his Derby meanwhile forgetting his umbrella which with the assistance of the gale obligingly turned inside-out and the man said—I forget just now, but it doesn't much matter, he was awfully, terribly pleased anyhow.

A woman in a picture hat bent her head, struggled down Charlotte street and turned down King. She was sailing quite fearlessly, but the storm was playing a scientific game and suddenly got in an upperout that sent the picture hat down King street at a winter's bace. The woman pursued, but the hat had the pole and soon rounded. Germain street corner.

and soon rounded Germain street corner, headed for Union. The woman hurried on with flying hair trying to make time and her toilette at the same time, while the storm followed up its advantage with a devil's cleverness learned from the practice of ages. People gazed from every tice of ages. People gazed from every-where—faces, manly in form, whose ex-pressions belied the feelings of sympathy that should have been in their hearts. At last a small boy turned up around At last a small boy turned up around the corner with what used to be a picture hat, and handed it to the owner. She, poor girl, took it with mingled expressions of joy at its fecevery and sorrow for its condition. I am not sufficiently well-versed in millinery matters to advance my opinion as to whether or not the damage was irreparable.

The woman turned into the same store where the man of the Derby was fixing matters and they no doubt held a meeting of mutual indignation and sympathy. If Mont Pelee caused all this may itoh, may it spout again and plug the leak.

It was noon hour in a Charlotte stree

restaurant the other day, and one by one busy wage earners had dropped in for the mid-day luncheon. At last came one whose appearance, without the big bundle of Boston Globe's, Herald's and Post's which he carried, at once proclaimed him a traveler from the country next door. saked the waiter for the menu—only he called it "mennew," with the accent on the "new." Now there wasn't any menu card, as a glance around would have shown him, but when the waiter got round shown him, but when the waiter got round to him he ordered enough things to fill half a dozen cards. "But we only have a regular dinner here, sir," said the attendant. "We have none of these things you wish nor do we ever keep them." Then the important man in a loud whisper started in to give his opinion of "this one-horse town" to a man beside him. It was "no good" and the bloomin' place "wasn't fit to live in. Why in the states we"—etc., etc. Then he began to talk in the way which only a former provincialist can about the advantages of that country as compared with this. The listeners thought possibly they were in the presence of some great magnate, until kept prisoners by the Abyssinians. St. John, N, B. the presence of some great magnate, until still kept prisoners by the Abyssinians.

Accounts of weddings have been numerous this week and of course due stress was laid upon the charming appearance which every bride made upon the great day of days. It is doubtful however if one of the fair ones quite relished the unintentional remarks of one paper which said: "The bride looked very putty in her tailor made travelling gown of blue broadcloth, and a becoming hat trimmed with dirty little clusters of forget-ments."

one man who had listened with an amuser air to all that was said, turned round with: "Hello! Blank; where did you drop from. Thought they'd be too busy at your restaurant just now, to spare any of the waiters. That's a swell meal you put up at your place for 20 cents—went there several times when I was last in Boston. Hope you'll enjoy your visit." And the big restaurant magnate didn't speak another word all through luncheon.

### PRESBYTERY IN SESSION.

BUSY MEETING IN ST. ANDREW'S CHURCH YESTERDAY.

Rev. S. B. Hillock, Formerly of Church of England, Added to the Roll-The Call to Rev. A. D. Fraser-Standing Committees

The Presbytery of St. John opened at 10 o'clock yesterday morning in St. Andrew's church, with rather a good attendness. Rev. L. G. Macneil, of St. Andrew's church, raised the question as to how long an assessor could be appointed for. The moderator facilitated matters Rev. L. G. Macneil, of St. Anby approving the appointing of a committee to look into the question. On mo

mittee to look into the question. On motion the committee was appointed.

The following names of elders were received: St. Stephen's church, J. H. Parks; St. Andrew's, Judge Forbes; Chipman, Isaac W. Baird; St. Matthew's, W. M. Draper; St. John's, D. McLean; Fairville, John Willet; Waterford, J. A. Moore; Moncton, P. Hopper. On motion the rames were sustained. On motion, two visiting ministers were invited to sit and visiting ministers were invited to sit and correspond. Rev. Dr. Morison was appointed moderator for the ensuing year; Rev. A. H. Foster was re-elected clerk and

Peter Chisholm treasurer.
The clerk then presented his report which was very short, the only item of importance being that the Rev. R. G. Vanshod had been transferred from Buctbuche to the Presbytery of Miramichi. A communication from the general assembly was read and resulted in the name of Rev. S. B. Hillock, who formerly belonged to the Church of England, being added to the roll of the presbytery.

The committee which had been appointed that the report of the presents are reported, that Reformed Baptist Alliance this morning, it was decided by resolution to close the rooms in dormitory and hotel at the close of the camp meeting.

The yearly reports of the corresponding secretary and Sunday school agent will, in fiture, close with June 15, instead of June 30.

This was a crushing blow to Mrs. Bartsonbut with her grief came joy. A brother, whom she had not seen for years made his fortable circumstan es, and willingly gave his sister such financial assistance that her trouble in that direction was allayed. But Wilfred was still a source of anxiety.

"He tries to get along," she said, with a mother's natural tendency to hide her son's defects, "but he is so unlucky. Now, if some one would only give him a hand!" "When a boy walks into a hole with his eyes open, in broad daylight," said Mr. Lancaster, dryly, "he certainly needs assistance of some kind. I will give Wilfred

a hand, when he is able to walk." This happened very soon and Wilfred was delighted when his uncle announced that he was going to take him and his mother to for deliver next spring in large or Oregon to live on a farm of which he was the owner.

"I will be glad to get away from this place," said Wilfred, emphatically. "I here, at all." aid Mr. Lancaster, gravely,

THE ILLUSTRATED LONDON NEWS,

"If I were asked which single medicine I should prefer to take abroad with me, as likely to be most generally useful, to the exclusion of all others, I should say CHLO-RODYNE. I never travel without it, and its general applicability to the relief of a large number of simple aliments forms its best recommendation."
