V'01 27

VICTORIA AND EUGENIE.—The editor of the New York Albion" writes that notwith-rtanding the critical state of European politics, everything is not black in the old world.— "Such was not," he adds, " the light of the Queen's countenance which I had the pleasure of seeing yesterday by chance, as Her Majesty passed in her carriage. In the ness, honesty of purpose, openness of character, and tranquility of mind, unmistakable to be read thereon, there was indeed a marked and most acceptable contrast to that which I had recently seen in Paris. If our good lady sovereign be not so fair or so graceful as the Em-

	press, at least she is neither vapid or frivolous in air or manner; as for guile and cunning it were useless to look for them in her.

the usual quantity of plaster in the hill, and on the other half put the same quantity in the following manner:

When the potatoe tops are about half grown take a common tin cullender that will hold about three gills, and take up about one gill and, and still do not show any better erops than their neighbors, I am not inquisitive to know or practice their theories. Happening a few days ago to be in the cellar of season should be dry, and the potatoe tops present a yellow, sickly appearance, a very marked difference, a great change for the field on which the plaster was applied above.

The Moors, thinking that they had fallen theories, do a great deal of extra work on the other half put the same quantity in their land, fuss a great deal with composting into an ambush, took to flight. This exploit of the trumpeter excited great admiration at the time, and on the entrance of the troops than their neighbors, I am not inquisitive to know or practice their theories. Happening a few days ago to be in the cellar of capt. S Hayden, of Hollis, I noticed the the bins of splendid potatoe, and had the currissity to inquire how he raised them. He present a yellow, sickly appearance, a very marked difference, a great change for the better, will be observable on that part of the field on which the plaster was applied above. field on which the plaster was applied above ure by putting in the green manure some ground, in a very few days.

All crops may, at times, benefited by an application of plaster—in dry seasons, or in a dry time; in a wet one, wheat oats, barley and other crops presenting a yellow, sickly appearance, indicate that they lack carbon. By sowing one bushel of plaster to the acre even as late as when the grain is in blossom, and the put a shovelful of the put a shovelful of the manure on the top of the potatoes. The research and other crops presenting a yellow, sickly appearance, indicate that they lack carbon. By sowing one bushel of plaster to the acre even as late as when the grain is in blossom, sult was that his potatoes yielded at the rate of the put a shovelful of the manure on the top of the potatoes. The research and other carbon. By sowing one bushel of plaster to the acre even as late as when the grain is in blossom, sult was that his potatoes yielded at the rate. even as late as when the grain is in blossom, ten or twenty times the cost may be realized in the crops.

Plaster should not be mixed with manure.
Because manure is composed, when dry, of nearly pure carbon, and the active elements as antagonistic as well can be. Heat results from the contact of carbon and sulphuric acid is diluted with 499 parts of water-to one

A Kiss IN THE DARK .- Those whose are THE "RELIEF OF LUCKNOW."—The ally, which comes so near art, at times, as to made 240 shoes, and McKinney 210. Near Messrs. Agnew have opened their exhibition render its simplicity doubtful. We heard the close of the contest the helper of the latof Mr. Baker's picture of the "Relief of Lucknow," with great ectat. The exhibition room in Waterloo-place on the 28th of course—who recently attending an evenand 30th ultimo-the two days of private ingexhibition at the American Museum The 3 view—was crowded with statesmen, members
0 of Paritament, Indian officers, and the fami1 lies and friends of those who took part in lies and friends of those who took part in the suffering of the siege, shared in joy of the selfering of the siege, shared in joy of the relief, or, still oftener, fell under the bullouring the exhibition, the audience part of of spirits of hartshorn should be considered lets of the enemy, or the more fatal arrows, the hall being partially obscured, by accidof the pestilence or the sunstroke. Lady
Havelock, was there on the 2-th, and
brought her youngest boy from Ealing to see the picture of his heroic father. The little time, the city gentleman, perhaps accilikenes of the boy to the Havelock of the dentally gently pressed the hand of the bride instant, perfect and permanent relief, the picture struck all present. Lady Havelock who was too much alarmed to offer resistance. bite of a mad dog (we believe) not excepted; a wet eye in the room while she strove to hide her emotion. Mr. William Rusell er, certainly not accidental, for the city Lo-("our own correspondent") was there for a thario actually kissed the bride. This was long time, and bore testimony to the accura-cy of the painter's representation both of scenery, personages, and incidents. The tell her husband which she did, when the

"John," "What ?"

"This feller here's kissing me." "Well," said John, who was a little shy of the citizen, " tell him to quit."

"No. John, you tell him." "Tell him yourself."

" No John, I don't like to, you tell him .-The gentleman's a perfect stranger to me."

Ayer's Sarsaparilla

A compound remesy, in which we have isbored to produce the most effectual alterative that cenhe made. It is a concentrated extract of Para Sansaparilla, so combined with other substances of still preater alterative power as to afford an effective antidox for the diseases. Sansaparilla is reputed to care. It is believed that such a remedy is wanted by those who such from Strumous complaints, and that one which will precouplish their cure must prove of immires service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been moven by experiment on many of the worst cases to be found of the following complaints:

Scapfilla AND Scapfillas AND Struitling Appendix AND Scapfillas AND Struitling Appendix on the Automotive Precious, Sand Energy, Scald Head, Syphills AND Struitling Appendix on Struitling And Struitling And Struitling on Struitling And Struitling And Struitling on Struitling And Struitling from Implicator of the slow.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many ranking disorders are mipped in the bad. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions, and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to de this through the natural chumels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings wi

contain but little of the virtue of Sarsaparilla, or any thing else. It is a supported by the public have been missiled by large bottles, pretending to give a quart of Extract of Sausapirila not past dollar. Most of these have been fraids upon the sick, for they not, only contain little, if any, sarsaparilla, but often no curative properties whatever. Hence, bifter and paintail disappointment, has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has beecme synonymous with imposition and cheat. Still synonymous with imposition and cheat. Still we call this compound sarsa, artifa and intend to supply such a reactly as shall rescut the name from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irredistible by the ordinary run of the cleanes it is intended to cure. In criter to secure their complete cradication from the system, the reactly should be judiciously taken according to directions cathe bottle.

DR. J. C. AVER & CO. LOWFILL, MASS.
Price, \$1 per Bottle, Six Bottles for \$5.

Ayer's Cherry Pectoral, has won for itself such a renown for the cure of every viriety of Throat and Long Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant, use throughout this section, we need not do more than

Ayer's Cathartic Pills, FOR THE CURE OF

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrotulous taint is variously caused by mercurial disease, low living, disordered or unbealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of lifers that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, wast numbers perish by disorders plaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders
which, although not scrofulous in their nature,
are still rendated fatal by this taint in the
system. Most of the consumption which decimates the buman family has its origin directly
in this ecrofulous contamination; and many
destructive diseases of the liver, kidneys, brain,
and, indeed, of all the organs, arise from or
are aggravated by the same cause.

One quarter of all our people are scrofulous;
their persons are invaded by this lurking infection, and their health is undermined by it.
To cleause it from the system we must renovate
the blood by an alterative medicine, and invigorate it by healthy food and exercise.
Such a medicine we supply in

AYER'S

compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatsiff malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul discorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only acrofula, but also those other affections which arise from it, such as Expertua and Sair Disgasse, St. Antrony's First, Ross, or Enviralla, Puntling, Pertures, Blovenes, Blairs and Boils, Tumors, Tatter and Sair Rerus, Scald Hard, Ringwoons, Rassenation, Syvallatic and Mercurala Discasses, Deporter, Departure and Sair Rerus, Scald Hard, Ringwoons, Rassenation, Styphilatic and Mercurala Discasses, Deporter, Departure and Sair Rerus, Scald Hard, Ringwoons, Rassenation of Living and indeed, all Complaines arising from Vittle for serofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. Compound Extract of Sarsaparilla,

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES CF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanes, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility, is astonished to find his health or energy restored by a remedy at once as sample and inviting.

Not only de they care the every-day complaints of every body, but also many formidable and dangerous diseases. The speat below named is pleased to furnish gratts my American Almanac, containing correlateses of their cures and directions for their use in the following complaints: Coefferness, Handsham, Handsche arising prom disordered Stomack, Names, Insingention, Passe in and Mirotion for the discussion of the Bloweigh Findulency, Loss of Application, Jeansdoor, and other kindred complaints, amining from a lew state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

Congba, Colda, Influenza, Hoarseness, Croup, Braschitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

disease.
So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ or the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained firends by every trial, conferred benefits on the affirsted they can never forget, and produced cares too numerous and too remarkable to be forgotten.
