A Barefaced Forgery.

LONDON, Sept. 4.—The subscriptions of Mr. Gladstone, Lord Tweedmouth and other English Liberals to the Irish parliamentary fund in response to a circular signed Justice McCarthy, William O'Brien, John Dillon and T. P. O'Connor, has led to inquiry which proves that their signature is a forgery designed to compromise the McCarthyites.

So Redmond Says.

DUBLIN, Sept. 4.—Mr. John E. Redmond, M.P., speaking here today, declared that the great political crime, the abandonment of Mr. Parnell, had resulted in the corruption of the real Irish party and in the bonding of its knee to England. This generation, he said, would not see the end of Ireland's sufferings. With the suppression of Mr. Parnell Ireland ceased to have a national leader or a national organization.

Horrible Outrage on Jews.

TANGIER, Sept. 4.—The Kabyles in the vicinity of the city of Morocco are perpetrating horrible outrages upon the Jews at Donat, Kalha, Sadirabel, Tanai, Tanilal and other places. The shops, houses and synagogues are being looted, men are being tortured and killed and the women and children outraged and sold into slavery. The city of Morocco is besieged by Kabyles, and it is feared that the garrison will not be able to hold the place much longer.

William Unveils His Grandfather's
Monument.

KÖNIGSBERG, Sept. 4.—The Emperor and Empress arrived here at noon today, the former to officiate at the unveiling of the monument to the memory of his grandfather, Emperor William I. The city was gaily decorated and the streets were lined with soldiers, who were backed by the cheering populace. The principal oration was delivered by Count Botho Eulenburg, who eulogized the eminent services of the first Kaiser to the fatherland. The Emperor then unveiled the monument and reviewed the troops as they marched past the platform.

The Emperor made a speech in which he said that which his ancestors had won by the sword he hoped would be preserved and made prosperous by works of peace.

A Cruel Outrage by Chinese.

LONDON, Sept. 4.—A dispatch from Shanghai to the Central News says a large number of Chinese recruits are arriving at Tien Tsin, where they are receiving their arms and equipment. The province of Shan Tung is showing much discontent, and little or no sympathy with the war against Japan, and is withholding the men and supplies which have been demanded of that section of the country. The authorities of the province, speaking in the name of the inhabitants, regard the warlike operations of Japan as directed against the Government, and not the people of China. On the contrary, the people of Manchuria are intensely anti-Japanese, and urge the most active opposition to the Japanese.

A man was arrested at Ningpo today or two ago as a Japanese spy, and was tortured by having his ankles broken. It has turned out that the man was not a Japanese at all, but a native of Southern China, who was on a pilgrimage to Foo Chow.

The Japanese who were arrested in the Shanghai settlement as spies were surrendered yesterday to the native officials by the American consul. The foreign population of Shanghai are very indignant at this action. The Chinese authorities claim the right to arrest Japanese within the limits of the settlement. The United States Government has instructed its consuls not to interfere in any way in the difficulty between China and Japan.

SAVAGE MUST FACE THE MUSIC.

TORONTO, Sept. 4.—Before Judge Osler today the case of Whittaker vs. Savage, re West Algoma Provincial election, was heard. The motion was on behalf of the respondent, to set aside service of the petition upon him on the ground that it was made out of the jurisdiction, viz., at Winnipeg. Motion was dismissed with costs.

THE C. M. B. A.

Grand Council in St. John, N. B.—A
Large Convention.

ST. JOHN, N. B., Sept. 4.—The C. M. B. A. Grand Council of Canada opened in biennial session here today. The delegates, with members of local branches, marched in a body to the cathedral, where an eloquent sermon was preached by Archbishop O'Brien. The gathering was one of the largest ever seen in this city, and there are 225 delegates in attendance, representing every Province in Canada. Nothing but routine business was transacted this morning. This afternoon President Fraser submitted the correspondence regarding the expulsion of the Grand Council of Canada from the Supreme Council, and the same was referred to a committee to consider.

Death's Great Harvest.

The Number of Forest Fire Vic-
tims Estimated at 450.Inhuman Ghouls Found Robbing the
Dead Bodies.Terrible Scenes at the Burying
Grounds.Corpses Piled in Heaps—The Country
a Desolate Waste—A Relief
Army—Welcome Rains
in Michigan.

DETROIT, Mich., Sept. 4.—Reports from Northern Michigan show that yesterday's rain was general and that the forest fires have been materially checked where they have not been entirely extinguished. In the counties of Dickinson, Houghton and Ontonagon, in Michigan, and Florence and Marietta, Wis., it is estimated that seven hundred million feet of white pine and hemlock have been scorched.

A RELIEF ARMY.

HINCKLEY, Minn., Sept. 4.—The special train sent out by the citizens of Minneapolis, bearing supplies and medical relief to the suffering people of Hinckley and vicinity, left on Monday morning, about 10 o'clock, with a full supply of drugs and instruments and 50 canvas cots. Pine City was the main objective point, for it was here that the relief supplies were to be distributed and the temporary hospital had been opened. Instead of 200 wounded to be cared for there were a bare 20, and most of these not seriously hurt.

Most of those who escaped did so without any physical hurt, while those unable to do so perished. Nearly all of the patients were Scandinavians. None of the cases at the rink are considered especially dangerous except two—Mrs. Westerland, who saw her husband and baby drowned before her eyes, and Mrs. M. A. Greenfield, who was terribly burned about the abdomen and is a craving maniac besides. Mrs. Matilda Olson was another dangerous patient. She lost five children and her husband, but jumped into the river and managed to save her own life as well as that of a man nearly suffocated, whom she covered with a blanket.

Leaving Pine City, the correspondent went to Hinckley, only three miles distant, in a handcar. Words utterly fail to describe the desolation. Not only was every green and living thing licked up by the flames, but the soil itself was blackened and consumed and the earth torn up in great holes and patches. Nothing but

A DREARY, DESOLATE WASTE. Not a vestige is left standing of the town, except the charred walls of the schoolhouse and roundhouse, and a couple of iron safes. At the time of this writing 200 dead bodies have been gathered.

DEATH LIST NOW 500.

The bodies were found lying in two great heaps, one containing about 97 bodies piled indiscriminately to a height of five feet, naked, charred, blackened and torn. Most of them are absolutely beyond recognition and those that have been identified were only made so by some trinket or mark upon the linen. Trenches were being dug and into these the bodies were being thrown, some in boxes, some without covering of any kind. It seems terrible even to describe the work, but the task is hardly to be wondered at when it is known that not more than five or six men are there to perform the services of burial.

It was only towards evening that friends and relatives began to come in from Duluth and other points to assist in the sad rites. Other bodies are being constantly found in groups of eight or ten, and when the outlying farming districts are heard from it will be a low estimate that places the list of dead at between 400 and 500.

ROBBING THE DEAD.

PINE CITY, Minn., Sept. 4.—The general executive committee in charge of relief work has made a report of the dead bodies recovered thus far, as follows: Hinckley 271, Sandstone 77, Miller (often called Sandstone Junction) 15, between Skunk Lake and Miller 12, Pokegama 25, in lumber camps 50, total 450.

Today a party from Duluth came down to help bury the dead, and came upon a body who had broken upon and rifled some safes. When discovered they had just found a cistern, from which they had hauled fifteen dead bodies and robbed them of their jewelry, and were throwing the bodies back into the well. The ghoul escaped.

Lee Webster, mayor of Hinckley, lost his wife, and he is searching everywhere for her body. Today he had nine bodies disinterred that he might examine them.

KILLED HIMSELF FROM GRIEF.

One farmer whose name cannot be learned who lived about half way between Miller and Sandstone killed himself when he saw his wife and three children, his house-in-law, wife and children, all burned to death before his eyes, and his home, stock and savings of a lifetime swept away.

FOUGHT ON THE SEA.

Two Chinese and Japanese Gunboats
Smash Each Other.The Chinaman Retreats—A Big Land
Fight—China's Declaration of War.

SHANGHAI, Sept. 5.—A torpedo explosion near here has destroyed a junk with all on board.

It is reported that a levy of 250,000 troops has been made upon the Province of Shan Tung, which has hitherto withheld aid from the Chinese Government.

The Chinese declaration of war claims that Korea has been the tributary of China for 200 years. It further asserts that the King of Korea asked for troops to put down an insurrection. Then the Wajen (ancient name for Japanese, expressive of contempt) without any cause sent troops to Korea, entered its capital city, and bullied its king and people. This is contrary to all international law. The Japs are now charged with making an unprovoked attack on Chinese transports, and with violating treaties, exhausting all patience. Hence the declaration of war by China.

A NAVAL BATTLE.

The engagement between the Chinese

twin screw steam cruiser, Chi Yuen, and a Japanese man-of-war in Korean waters, according to Chinese accounts, lasted four hours. At the commencement the Chinese sailors refused to work their guns, but on one of them being shot by their own officers they raked the Japanese fore and aft, killing the Japanese admiral, but the Japanese picked off all exposed persons on the Chi Yuen, and exploded a shell on her deck, killing a lieutenant and three men working one of the guns. Chi Yuen's own steering gear was carried away and her forward guns disabled, but she steered with her twin screws, and replied to the Japanese with her after gun with such effect that the Japanese surrendered, hoisting the dragon flag over the white flag, but before the Chi Yuen could take possession, several Japanese men-of-war were in sight, and the Japanese vessel retreated, and the Chi Yuen made all haste to get away, and succeeded in reaching Wei Hai Wei for repairs.

A FIGHT EXPECTED.

Three thousand Japanese soldiers are now marching to Gzan, where 6,000 Chinese soldiers are encamped, and an engagement is hourly expected. Forty American marines have been sent to Soane. The battle at Selkwan opened at 3 o'clock in the morning on July 29, and after five hours of hard fighting the Japanese army was completely victorious and gained possession of the trenches. The Chinese troops numbered over 2,800, of whom over 500 were killed or wounded, while the Japanese lost 5 officers and 70 men.

The Chinese Government is contemplating the wholesale reduction of its foreign employees, the money thus saved to go to meet the expenses of the war.

THEY WANTED TOO MUCH

And Got Run In—The Franks of Two
Youths—Market Clerk Wilson's
Assault Case.

The Carling street exhibition was in full swing this morning with the usual crowd of spectators and about the usual number of participants. Charles Ruggart and Gerald P. Eastland, two well-dressed boys, were in the iron-barred cage and they were about as innocent a looking team as ever wore the steel bracelets. But, according to police ideas, they are bad. Ruggart and Eastland were locked up about midnight while snoozing inside the Chapter House fence. They had straggled in the afternoon and late in the evening went to the C. P. R. station and, pulling out a large receipt book, wanted the ticket agent to give them a sample of the stamp which is placed on tickets. They were Government men, they said, and were securing stamps at every station along the line.

The clothes worn by the youths were not such as is generally worn by a Dominion Government contractor or employee, and the agent, Mr. Waugh, couldn't digest the story. He ordered the team away, but, like the cat, they soon came back and started to snub-nob with the agent again. Ruggart and Eastland soon left in disgust, jumped over the Chapter House fence, crawled behind some bushes and were soon asleep. Detective Rider and P. C. Egerton were speedily on their tracks and put the boys in the patrol wagon. They had an endless quantity of small articles in their clothing and in a valise. There were brushes, combs, towels, latch keys, receipt books, jewelry, baggage checks, C. P. R. switch key and some money. Ruggart, the smaller of the two, had a photograph of himself in prize-winning costume, on which was written "Charles Ruggart, light weight champion of Western New York."

Police Magistrate Parke looked through the receipt book and found the stamps of the Grand Trunk, showing that the prisoners had been at Brantford, Hamilton and other places. "You were at Canfield Junction on Aug. 20," said the court.

"Yes," said Ruggart, "but we came here from Brantford, where we had been working in a barber shop. We have been in that business for several years."

And the pair looked perplexed. It was the first time they were ever in trouble, and they hoped it would be the last. It was work they were after.

Constable Logan, of the G. T. R., was present and asked a remand till Saturday. It was granted.

A. McCracken, a gardener belonging to Vancouver, was charged by Market Clerk Wilson with assault. The racketeers had been Thursday on the market, said Mr. Wilson, and arose through McCracken refusing to remove his team where he (Wilson) ordered him. The complainant undertook to do it himself, when McCracken interfered. No blows were struck.

"Not much of an assault," said Mr. Clark, for the defense.

"Not a great deal," rejoined Mr. Wilson. "Have you ever had trouble with McCracken before?"

"No," said the complainant. "He has been very crusty of late."

The magistrate defended Mr. Wilson's action and made McCracken pay 50 cents to Wilson, who had given that amount to a witness, who, however, was not heard.

Ed Smith, Thomas Coleman and George Thompson were found in a G. T. R. box car and were allowed to go. Ed Cookson, another vag., was given his freedom.

Belmont Briefs.

At the recent auction sale Dugald McKellar purchased the old homestead in South Dorchester. The consideration being \$230. The other farm in Yarmouth was offered for sale, but not sold. The store was not sold. George Legg purchased a house and lot on the hill, formerly owned by Lewis Olmstead, but lately by his daughter, for \$401.—Dr. C. A. Cline received a telegram from the States, saying that his brother, Dr. Dolphin Cline, was dying. His sister, Mrs. Quimby, left at once. The doctor is now reported as improving.

At the request of numerous friends, Mr. John Munnoch, art master, city, recently submitted his credentials to the Ontario Education Department. He has now received the following reply:

"My Dear Sir,—From a perusal of your certificates as a certificated pupil of Kensington Art School, I have great pleasure in recognizing you as a duly qualified teacher of art schools or of art and science classes in Mechanics' Institutes in the Province of Ontario. Yours truly,

"Geo. W. Ross,

"Minister of Education."

It is understood that Mr. Munnoch, having recently severed his connection with the Western Ontario Art School, will at an early date begin classes on his own account. He is an able and painstaking teacher, and deserves success.

Carpet Warehouse,

130 and 132 Carling Street, London.

9,900 FEET OF FLOOR SPACE.

Draw a Diagram

Before you move into your new home or start to clean house, draw a diagram of your rooms and make a note of the floor coverings, curtains, draperies, and other furnishings which you will need to get things in shape for the winter. Here is the scheme with a few suggestions thrown in:

With thousands of rolls of good, new carpets at our disposal we can do better than the best in order to interest you NOW. If we do a little better as to price, it's because profit is out of the consideration. If you get more prompt and careful attention in the buying, it's because everybody isn't in a hurry to be first.

We're proud of our carpet display at any and at all times. Measured by any standard—style, price, quantities, patterns—we're marvelously in the lead.

THE FIRST IDEALIST.

A jellyfish swam in a tropical sea. And he said: "This world is made of jelly. There's nothing above and nothing below. That's a jellyfish ever can possibly know. Since we've got no sight, or hearing, or smell. Beyond what our single sense can tell. Now, all that I learn from the sense of touch is the fact of my feelings, viewed as such; But to think they have any external cause is an inference from a logical law. Again, to suppose, as I've hitherto done, There are other jellyfish under the sun. Is a pure assumption that can't be backed. By a jot of proof or a single fact. In short, like Hume, I very much doubt if there's anything else at all without. No I come at last to the pl. a conclusion. When the subject is fairly set free from confusion. That the universe simply centers in Me. And if I were not, then nothing would be."

But, somehow, the universe still exists. That minute a shark, who was strolling by. Just gulped him down, in the wink of an eye. And he died, with a few convulsive twists. But, somehow, the universe still exists.

He has been cured by Dodd's Kidney Pills, and has been accepted as a first-class leading life insurance company. He has also got a position as foreman of a lumber concern of Davidson's, and the fact that he has been cured of such a position, is ample proof of the permanency of his cure.

Charitable women in Windsor called recently at the house of Geo. Rutland, of McDougall avenue, a peddler, who supported his wife and three children by selling suspenders and other notions, and there Mrs. Rutland was found confined to her bed in a delicate condition. There was nothing in the house to eat, and the sick woman said her husband had deserted her, and left no money with which to procure proper food or medicine. The little ones were crying from hunger, and it was found that they had not eaten a meal in two days. The woman was given medical treatment, but died from the effects of her lack of nourishment.

At the Gorrie Division Court last week Fallahay vs. McNeil was an action to recover \$50, the price of a horse Fallahay had left for one month with McNeil, who said horse having strangled itself while tied in McNeil's stable. McNeil proved that the horse had proved a nuisance in pasture field and, therefore, he had tied it up, and also produced evidence to show that the horse was in the habit of pulling on its tie, and that he was not made acquainted of that fact when Fallahay left the animal in his possession. The point in the case was whether or not McNeil should stand good for the insurance of the animal, when entirely unacquainted with the faults of the beast. Judge Doyle reserved decision indefinitely.

A Mooretown correspondent writes: "One of the old settlers of this township, in the person of Mrs. Ormerod, passed away quite suddenly this week. The funeral was very large."

Last week Mr. John Courtwright, of Detroit, purchased 50 acres of the farm owned by the late Mr. G. B. Johnston, at Mooretown. The price paid was \$3,500 in cash. He intends erecting a large hotel on the farm, chiefly for summer visitors.

At Petrolia water is so scarce that it is being sold at 2 cents per pail, the price having gone up a cent the last week. Fire bugs known as coon hunters, or perhaps given coon stealers, through pure wickedness, started fire in a four or five acre tract on A. C. Attwood's stock farm in Brooke the other night. Everything being dry as tinder the fire, under a great wind, raged beyond control. At date of writing it has run over 40 acres, burning in its course, not missing even a square yard. The sod is entirely destroyed. From the sod the fire got into the bush, burning everything in its course. Mr. Attwood has 30 acres of the most valuable bush in that section, having never been cut. The fire has now (Sept. 3) destroyed 25 acres and is still burning, and will burn until a heavy rain or snow falls or for the want of material. There was a large stock of cattle and horses on the farm, all of which Mr. Attwood has had to take home or send out through the loss of pasture and fear of falling timber. The loss cannot yet be estimated until the fire is out. Some 90 rods of black ash fence have been burned, and more is still in danger. Four oil wells in the new territory are down within half a mile of the farm. An American company worth \$500,000 are the chief operators, to whom Mr. Attwood expects to lease to work on royalty.

The School Board Want Doctors Appointed for That Purpose

By the Board of Health—The Model School to be Located at Simcoe Street—Educational Notes.

The educational fathers who attended the meeting of the school board to the discomfort of crowding themselves into a committee room and a half, while the council enjoyed big easy chairs in the chamber. Seats, too, were very scarce, and over half the trustees had to hunt around for a chair for their own accommodation. Trustee Powell did not like the idea a little bit, and moved a resolution calling the attention of the sergeant-at-arms to the matter. There was not a dissenting voice. The members present were: Trustees MacRobert (chairman), Alexander, Powell, Anderson, Murphy, Dr. Campbell, Blackwell, Craig, Griffin, Jeffrey, Johnston, Greenlees, Logan, Martyn, Stephenson, Sanders and Turner, Inspector Carson, Principal Merchant, Principal Graham and Secretary McEltheran.

The most important business brought up was the location of the model school. It had to be decided, anyway, but it came about in an unusual way. The chairman announced that Miss Wade, of Port Hope, who was appointed to Talbot street in place of Miss Miller, had telegraphed her inability to accept. Mr. Latta, of Zurich, had been placed in charge.

This announcement had no direct bearing on the model school, but it led from one thing to another and finally brought the question in.

Inspector Carson's report mentioned the vacancy. It recommended the opening of a night school in King street and also in either Colborne street or Rectory street school. The purchase of supplies, consisting of ink, pens, crayons, etc., was ordered. The report was referred to No. 1.

Mr. Latta was not in objection to the appointment, as Mr. Latta was, so far as he was aware, thoroughly capable.

Trustee Powell moved that the appointment be confirmed. Mr. Jeffrey offered an amendment that Miss Dunbar fill Miss Miller's place, Miss Lynch take Miss Dunbar's room, and that the vacancy caused by Miss Lynch's removal be left with No. 1.

Mr. Griffin's further amendment that Mr. Orme be appointed to Talbot street was lost, 10 to 4.

Mr. Anderson wanted Mr. Orme to take Simcoe street school, but Mr. Graham said that being inexperienced, Mr. Orme would not be capable of taking charge while he (Mr. Graham) was in the model school.

Mr. Jeffrey's amendment was carried. Mr. Graham was also heard in connection with the model school. It was his desire to be as near Simcoe street as possible, so that he might supervise the work in his own and the model, too. He suggested that a cottage be secured for the Simcoe street kindergarten, thus making room for the model.

Mr. Craig was opposed to this scheme, saying that he did not believe it would be inconvenient to hold it in Princess avenue as before. It would only last about six weeks.

Inspector Tilley, of Toronto, had hinted to Mr. Graham that it would be better to have the model school at Simcoe street.

The chairman was strongly in favor of keeping it at Prince Edward street, despite Mr. Tilley's suggestion. Crowding or doubling up the rooms would never meet with his approval. The scheme of renting a cottage would not go.

Mr. Craig moved that the model school be located in the vacant room at Princess avenue.

Inspector Carson's opinion was that if any institution should be well looked after it was the model school. He was sorry to hear that the grading in the Simcoe street school was in such a condition that doubling up should be resorted to.

Mr. Griffin moved an amendment that the model school be continued at Simcoe street school.

It carried on a vote of 8 to 6.

Recommendation of the appointment of Mr. Latta was carried, and it was decided to move Miss Cannell to the Talbot street school, and send the new teacher to Simcoe street.

Trustee Sanders called the attention of the board to the absence of many children from school on account of not being vaccinated. The cost was in the way of a great many parents. He suggested that a physician be provided for the purpose.

Secretary McEltheran—It cost the city over \$2,000 to vaccinate the children once before.

Trustee Sanders—We cannot help that; they must be sent to school. The board of health has ordered that the children be vaccinated, and I would move that they provide a physician for that purpose at every school.

And the chairman objected to having his children vaccinated by any person from the health board may see fit to appoint.

But Trustees Turner and Blackwell were not a bit afraid. The former had one son who had been vaccinated seven times and the operation had never taken.

Trustee Sanders' motion carried. The reports of Nos. 1, 2 and the audit committee contained nothing but accounts for payment. They were all adopted.

Mrs. Flora Carson kindly thanked the board for the grant of \$20 to the W. C. T. U. Filed.

A number of applications for positions on the teaching staff were sent to No. 1, and several relating to works were referred to No. 2.

Miss Annie L. Laird resigned her position as teacher on account of the death of her sister. It was accepted and referred to No. 1 committee to name a substitute.

James M. Waters, of Aberdeen school, resigned in order to attend the university. Accepted.

Mr. Griffin moved for two slate blackboards for Aberdeen school. No. 2.

Mr. Greenlees drew the attention of the board to a complaint which had been made to him by Col. Lays. He (Col. Lays) had sent his son to Simcoe street school to receive his education, but the boy had been sent home, as the Askin street school was the proper place. The board held that the teacher's action was right.

A PERILOUS VOYAGE

Across the Atlantic in a 24-Foot Boat—A Lone Mariner.

BALTIMORE, Md., Sept. 4.—Capt. Frietsch, who sailed from New York four weeks ago for Queenstown alone in the fore and aft schooner Nina, a tiny craft of 24 feet, was spoken Aug. 26 by the steamer Menantic, which arrived in this port yesterday from London by way of Swansea. Upon being signalled by the Nina, Capt. Mann, of the Menantic, says he hoisted the only occupant of the little craft came close alongside and requested Capt. Mann to send an officer aboard the Nina to verify the statement that he was alone. Third Officer Powden performed this office, and

found everything snug and comfortable on board. The lone mariner told the people on the Menantic that he was in the best of health and spirits and was glad to hear a human voice again. On Aug. 14 the Nina weathered a severe gale, during which her rudder split and she leaked slightly. Capt. Frietsch was given his position, which was 1,253 miles from Queenstown. His time-piece was four hours out of the way, and that was also corrected.

The little schooner shoved off and continued her perilous voyage, with "Good luck" shouted after her from the deck of the Menantic. Capt. Frietsch sent "two more."

ELOPERS ON A BICYCLE.

Will Fewler and Gertrude Grady Ride to the Minister's to be Made One.

NEW YORK, Sept. 3.—The elopement of a la belle is now an established fact instead of a cartoonist's dream. The young folks who have made it so were Miss Gertrude Grady, of Rockville Center, L. I., and William S. Fowler, of Brooklyn. It was through the bicycle they met. It was on the bicycle that they loved. On the bicycle they fled to be married. It was not long after their first meeting that they fell in love, but for some reason which Miss Gertrude Grady could not get to the life of her understanding her mother, a well-to-do widow, and her big brother, a plumber, did not take kindly to her handsome young bicyclist. They preferred that she should favor the suit of a young broker who was paying her attention. But Miss Gertrude preferred the suit of the bicyclist, and she had a mind of her own. For a week back Miss Grady has been taking bundles on her bike to Flushing, and today she carried a bigger bundle than usual. It was her wedding dress. She was met on the way by her cycling lover, and together they wheeled to a minister's and were married.

THAT COAL FERRY DREAM.

Will It Be Realized at Port Dover? Fifty Cents a Ton Saving Claimed.

OTTAWA, Sept. 4.—Col. Tisdale, M.P., has seen the Minister of Public Works in regard to dredging the harbor opposite Port Dover. It is proposed to maintain a railway ferry across Lake Erie from Erie, Pa., to Port Dover. Special transport vessels are to be built so that train loads of coal can be run on board at Erie and carried across to Port Dover without transfer. The distance between the ports is only 60 miles, and the project once in working order will prove a great boon to Toronto and Western Ontario points. The long detour by Buffalo and the Niagara will be saved, and it is expected that western consumers will benefit to the extent of 50 cents per ton on coal. The necessary docks and harbor works as well as the dredging will be prosecuted with the utmost dispatch. Influential mine owners and other capitalists are said to be backing the scheme.

President Van Horne of the C. P. R. says that "in this country everything depends upon the grain market, and that this country is better off than any other on earth today. The hard times, which are universal, do not affect us to anything like the same extent they do other communities." Everything depends upon the grain market, and the grain market exists because of the farmer, who in turn should feel comfortably disposed towards the future. With a future secured from want all the rest is easy. Every prudent farmer will see to this himself, and many hundreds of them have already seen to it by a life or endowment policy in the Manufacturers' Life, which is proud of recording the fact that the year 1893 was the most prosperous in the history of the company. The cash income of the Manufacturers' Life is now over \$1,000 a day for the working days of the year. J. T. BURGESS, Asst. Bank of Commerce Buildings, Richmond street.

TRADE FREEDOM THE GOAL.

In his masterly address at Winnipeg
 Hon. Wilfrid Laurier gave small comfort
 to two classes of people in the community
 —(1), the trade restrictionists and (2),
 those men and newspapers that are con-
 tinually pretending that the Liberal policy
 is not in accord with British ideas. Of the
 policy of the Liberal party Mr. Laurier
 said:

"Let me tell you that policy may be
 summed up in the good Saxon word—free-
 dom. Freedom in every sense of the term.
 Freedom of speech, freedom of conscience,
 freedom of trade."

Then, taking up the cardinal difference
 here is between the trade restrictionists,
 who profess to believe that taxation is a
 blessing, and the friends of trade freedom,
 who hold that taxation is an evil that
 should be abated as far as possible, Mr.
 Laurier proceeded:

"Can you expect reform from those
 who do not believe in reform? Can you
 expect a reduction of taxation from those
 who have always told us that taxation
 makes a country prosperous? No sir. It
 would be impossible to expect the leopard
 to change its spots or to use its teeth, or
 to use its instruments with which nature
 has endowed it. If, gentlemen, you wish
 reform you must not ask it at the hands
 of Conservatives. The Tories are a party
 who do not believe in reform, and this
 reform is the policy which the Liberals
 have never ceased to proclaim."

A policy of freedom in trade. (Ap-
 plause.) And now I will ask you, what is
 the policy of the Liberal party? At ex-
 treme of great labor and trouble in the
 past we have obtained religious and civil
 freedom. This has not been obtained, as I
 have said, without a hard struggle. I refer
 to freedom of trade such as exists in En-
 gland, freedom of trade as it is practiced
 in Great Britain, freedom of trade as it
 was in the time of Cobden and Bright.
 Mr. Robert Peel at one time was a pro-
 tectivist, but, finding that he was in the
 wrong, altered his views and went over to
 the other side, and by the policy of such
 gentlemen as these England has been made
 rich and placed in the honorable position
 which she holds amongst the nations at the
 present day. This is the policy we have to
 adopt; we cannot have it at the present
 time, I am sorry to say, but we can ad-
 vance towards it, and I can tell you that
 soon as we shall have a Liberal
 Administration at Ottawa, and I think
 we shall have one before very long,
 though it is not for me to say when,
 there can be a very radical alteration of
 the tariff. As I have just told you, we
 do not know when we shall have this
 Liberal Administration at Ottawa, but this
 is the policy of the Liberal party, and this
 is the policy of free trade as it exists in
 England and today."

A wayfaring man, though a fool, can
 understand a declaration of principles such
 as is here set forth. It is the only line
 of policy that can build up this great Dom-
 ion of ours fairly and honestly, permitting
 every man, whether rich or poor, the right
 to the enjoyment of his own earnings with-
 out being subjected to tolls by Government
 fostered favorites.

—The rain which fell in various districts
 of Ontario during the last 24 hours,
 though long delayed, will be of considerable
 benefit to the late crops. It will be of
 great value in quenching the destructive
 fires which have been raging in many parts
 of the country. Owing to the fact that
 the Ontario Government has adopted
 stringent regulations for the preservation
 of our forests from fire, the losses in On-
 tario this year will be small compared with
 those that have fallen to neighboring States.
 Even in Western Ontario, where the forests
 have been pretty well cleared off, many a
 farmer, during the last few weeks, has been
 kept hard at work night and day in an
 effort to save his woods from the ravages of
 fire. In too many cases this has been
 necessitated through the carelessness of
 neighbors, who could, if they had taken
 prompt action, have suppressed the fire in
 its incipient stage.

WONDERFUL PROGRESS.

As was expected, the London Street
 Railway Company has declined to accede
 to the amendments in its offer,
 stipulated by the City Council, and the
 aldermen were so informed last night.
 What step the Council will now take re-
 mains to be seen. The settlement of the
 question is further off today than it was
 eighteen months ago, when the old Cronyn
 offer was "laid on the table" along with
 that of other capitalists, and new bids were
 asked for.

Electric railway development has pro-
 ceeded with giant strides throughout the
 world, though only fourteen years have
 elapsed since the first line was set in opera-
 tion. Siemens & Halske, of Berlin,
 Germany, built and operated the first
 electric motor line, running between rail-
 road station Lichterfelde and the Central
 Radetz academy station, of the same place,
 about one and a half miles in length, and
 which was opened for public service
 late in the fall of 1880. In 1881
 and 1882 several other lines were built in
 Germany and Ireland, and in 1883 the first
 in the United States. Windsor had the
 first electric line in Canada, Ottawa
 followed, and many other places have since
 established lines. London is a progressive
 city, but in this matter it lags. Will we
 have an electric system before 1900?

—Despite the outcry of the Canadian
 high tax advocates, who claim that the
 British trade policy has ruined England, it
 is shown by recent authentic returns that
 pauperism has greatly declined in England
 since 1871. The proportion of child paupers
 has changed from 5 to 2.3 per cent, that
 of the able-bodied from 1.4 to .5 per cent,
 and that of the old paupers (above 60) from
 21.5 to 13.7 per cent of the population of
 the several ages. Since 1858 the paupers
 who are not able-bodied have decreased not
 only relatively, but absolutely, by 30,000.

THE DOCTORED CENSUS.

Of what value are alleged industrial re-
 turns when taken from the Canadian
 census? During last session of Parliament,
 member after member rose in the House
 of Commons and assailed the reliability of the
 enumeration, and openly charged that the
 census had been "stuffed" so as to accord
 with the political contentions of the
 high tax leaders at Ottawa. The charges
 there made have never been met by those
 in authority. Sir John Thompson and his
 associates fought a whole night to prevent
 the bringing down of the necessary returns
 to reach a conclusion in regard to the
 manner in which the industrial census was
 made up. Then they capitulated. But they
 still continue to conceal the facts.
 Eighteen months ago, for example, they
 promised Hon. David Mills to lay on the
 table of the House of Commons a return of the
 800 odd manufacturing alleged to exist in
 this city. Again and again, during the
 session of 1893 and also during that of 1894
 the attention of the Government was called
 to the failure to produce the desired infor-
 mation, but up till now the returns regard-
 ing London have not been produced. Why?
 Are the returns regarding this city as
 grossly incorrect as those of Nova Scotia
 were proved to be by Dr. Borden, M.P.,
 and Mr. Forbes, M.P.?

—Hon. J. J. Rogerson, of Newfoundland,
 who is a delegate to the Methodist Confer-
 ence in this city, says that the question of
 joining the Canadian Dominion is not
 discussed in the island just now. He sig-
 nificantly adds that the present Canadian
 tariff would prevent the growth of any
 feeling in favor of confederation growing
 up in the island. The Newfoundlanders
 do not take kindly to the trade restriction,
 combine-breeding policy.

FOOD EXPERIMENTS.

The agricultural department of the
 United States Government has issued a
 bulletin on wheat as animal food that will
 interest Canadian farmers as well as their
 neighbors. It was compiled by D. S.
 Salmon, chief of the animal industry
 bureau of the department, and is in re-
 sponse to inquiries as to the value of wheat
 for growing and fattening animals, sug-
 gested by the important change in the com-
 parative prices of wheat, corn and oats.
 The bulletin advocates the use of screen-
 ings and imperfect wheat as animal food
 and the placing of only the best wheat on
 the market. A statistical table shows the
 near approach chemically of 26.6 pounds of
 wheat to the German standard ratio for
 growing cattle from 6 to 12 months of age,
 and the fact that 33½ pounds of wheat
 comes much nearer the feeding standard
 for fattening cattle than does the same
 quantity of corn. Equal parts of wheat
 and corn should, however, prove better for
 fattening animals than either of these
 grains alone. For growing animals corn is
 plainly not so suitable as is wheat or oats.
 Says the bulletin:

"When wheat and corn are the same
 price per bushel it is preferable to feed
 wheat and sell corn. First, because wheat
 weighs 7 per cent heavier per bushel than
 corn; secondly, because wheat is weight for
 weight an equally good grain for fattening
 animals and better for growing animals,
 and, thirdly, because there is much less
 value in fertilizing elements removed from
 the farm in corn than in wheat. Wheat
 should at first be fed in small quantities
 and when possible be mixed with some
 other grain, and care taken to prevent any
 one animal from getting more than the
 quantity intended for it. Precautions are
 essentially necessary when wheat is fed to
 horses."

The best form to feed wheat is to roll or
 grind it into coarse meal. From Canadian
 experiments it appears that wheat exceeds
 corn in feeding value by from 10 to 20 per
 cent, though corn has the greater fattening
 quality, while in South Dakota corn was
 found to exceed wheat.

Interesting experiments with regard to
 ensilage have also been made recently by
 Mr. D. M. Macpherson, of this Province,
 who is a noted dairyman. He has a farm
 of 120 acres and supports on that farm 70

head of cows and 4 horses. Last year he
 put up 700 tons of ensilage, and gives us
 the following interesting figures of the
 cost of the same: Plowing, cultivation,
 seed, etc., \$180, or \$1 50 per acre. Cost of
 harvesting, \$282 90. Total cost, \$463.
 Forty acres were employed, making the
 total cost per acre \$11 07, and per ton, 63
 cents. The rent of the land, or what is
 the same, the interest on the land
 value, is not reckoned. Mr. Macpherson
 states that the cost of cutting the
 corn in the field was double what it
 usually is, because of a severe storm
 which passed over the field a few days
 before cutting. The ensilage fed 140 head
 of cows and fattening cattle 210 days, at
 the rate of about 60 pounds per day. This
 year Mr. Macpherson thinks the crop of
 ensilage from the same acreage will amount
 to 800 tons. He is pasturing 70 cows on 35
 acres divided into three fields, pasturing
 each a week at a time.

In these times of drought, the question
 of feed for stock becomes a serious one.
 From this advice by the authorities and
 these experiments by an expert in raising
 cattle for the produce of milk and beef our
 western farmers may obtain some assist-
 ance in wrestling with the problem.

THE CANOE TRAGEDY.

The recent mournful catastrophe in
 Northwestern Ontario, whereby three
 well-known citizens of Chatham were
 drowned while on a canoeing trip, empha-
 sizes the dangers of that method of naviga-
 tion even when conducted by an expert.
 It has been assumed by some that the
 company were amateurs, and that though
 they lost their lives experienced men
 might have escaped. This is a miscon-
 struction of the facts—at least, so far as
 Mr. Christie was concerned. He was an
 expert canoeist, and had made the trip up
 the northern streams on four previous
 occasions, one time going as far as York
 Factory, on Hudson's Bay. There were two
 rapids to pass through, one comparatively
 easy and the other full of boulders. Before
 the party started Mr. Christie expressed
 his anxiety to avoid on this occasion the
 more dangerous one, but it is supposed
 that he yielded to the desires of his
 venturesome companions and agreed to
 run both rapids. The supposition is
 that the party shot the lower rapids in
 safety and were wrecked in the dangerous
 upper rapids. The sad end of the voy-
 age recalls the fate of the young man in
 Muskoka, who last year lost his life in a
 dangerous rapids after he had repeatedly
 run it in safety. With so frail a bark only
 the most experienced should attempt to
 enter open lake water or navigate rapids,
 and, as in the present case, even they take
 their lives in their hands. Is the sport
 worth the risk?

—Preparations for the welcome of Hon.
 Wilfrid Laurier continue to be made in
 British Columbia. In New Westminster,
 the city council has resolved to present an
 address of welcome to the distinguished
 statesman and to place a carriage at his
 disposal during his stay. The mayor and
 a committee of aldermen have been ap-
 pointed to entertain him.

HOW TO MAKE BUSINESS.

The farmer has to plant and cultivate,
 and so must the merchant and manufac-
 turer. It is useless to have meritorious
 goods unless you let the public know it.
 The most successful business men every-
 where are those who realize the great
 fact that the press gives them access
 to the minds of the people; without the
 press most of the great fortunes made
 in business would have been impossible;
 "that is why," said one of our
 most successful merchants, "I am always
 glad to see an advertising agent. I may
 not be open to do business with him at the
 time, but I always learn something that
 helps me work intelligently when I am
 ready to advertise." Advertising is the
 seed of business. Every business man
 should provide himself seed from which to
 raise his crop, and now, when the business
 interests of the country have got a chance
 to go ahead, is the time to plant it.

House Cleaning.

is considered and acknowledged to be a
 necessity. The nature of man is opposed
 to filth. If, however, the cleansing of the
 house is necessary to health, how much more
 necessary to health should we consider it
 keep the Temple of God—the human body
 free from the taint of impurity. Dr.
 Pierce's Golden Medical Discovery is like
 the thrifty housewife, going through every
 nook and corner, searching out the accu-
 mulated filth, purifying the system and restoring
 perfect health.

It is the only blood purifier, liver and
 lung invigorator, and certain in its
 curative action that it can bring through
 dealers, on trial, being guaranteed to cure
 or money restored.

AT SHEEPSHEAD BAY.
SHEEPSHEAD BAY, Sept. 4.—The races here today were not especially attractive and the weather was anything but pleasant. Nevertheless 5,000 persons were on hand to watch the various events run, and to relieve the boredom of some of their surplus cash.
J. J. McCafferty, the owner of Buckrene, was before the stewards today to explain the wonderful difference in form which that colt showed in his last two races. No action has yet been taken by the stewards, but it is likely that he will be punished severely. McCafferty stoutly maintains that there was nothing wrong in the running of the horse. J. P. Korn was also up on the carpet to explain the curious running of St. Michael in the second race. St. Michael on his previous races should have been a contending factor in the race, but he ran miserably and finished in the back. St. Michael is a notorious sulker and has a trifle too much of it at the present meeting. Meantime Korn's entries will be refused. The large field which started in the first race, were at the post over half an hour. They stirred up the dust by their antics until it looked as if there was a big fire in the futurity chute and the horses could not be seen when they were got away. Pittsburgh Phil won two races and a pot of money with them. Summaries:
First race, about three-quarters of a mile—Dartford, 112 (Duggitt) 4 to 1, won; Armistage, 92 (Keefe) 15 to 1, 2; Chatterbox (Lamley) 8 to 1, 3. Time—1:11.1. Ferrier, Poor Jonathan, Black Hawk, Marguerite, Panway, Mable Glenn Little Billy, Will Elliott, Canary Bird and Rose H also ran.
Second race, 1 mile—Candelabra, 108 (Duggitt) 16 to 5, 1st; Discount 105 (Hamilton) 7 to 1, 2nd; Soundmore 98 (R. Duggitt) 20 to 1, 3rd. Time—1:41.2. Strathmuth, St. Michael and Flora Thornton also ran.
Third race, 1 mile—Figaro, 102 (Bergen) 1 to 2, 1st; Dutch Skater 108 (Ballard) 7 to 1, 2nd; Antipode 94 (Keefe) 100 to 1, 3rd. Time—1:41.5. Ben Lomond, Prig Longdale and La Joya also ran.
Fourth race, 5 furlongs—The Commoner (Duggitt) even, 1st; Counter Tender 114 (Tara) 20 to 1, 2nd; Urania 115 (Regan) 40 to 1, 3rd. Time—1:01.3. Connet Edwards, Walter Cronwell, Glen Lilly, Pepper, Phobus, Bravours and Dario also ran.
Fifth race, 1 1/16 miles—Void, 118 (Bergen) 30 to 1, 1st; Miss Dixie 111 (Tara) 15 to 1, 2nd; Watterson 118 (Reid) even, 3rd. Time—1:48.3. Leonville, Thornton and Stenonson also ran.

GREAT RACES AT FLEETWOOD PARK.
NEW YORK, Sept. 4.—Threatening, muggy weather tended to reduce the attendance at Fleetwood today, and there were not more than 3,000 persons to witness the races of the second day of the Grand Circuit meeting. The damp atmosphere affected the track and it was not so good as it was the day before. Still, as some of the fastest trotters on the turf were engaged in three events of the day the

average rate of speed was almost as good as on the opening day. The first race on the card furnished the sensation of the meet thus far, and its outcome was one of the biggest surprises of the Grand Circuit of 1904. Oro Wilkes, the California colt, took a record of 2:11 at Terre Haute a fortnight ago, was the favorite before the start, selling for \$100 against \$15 for Miss Lida and \$5 for the field in the opening pools. When Miss Lida won the opening heat in 2:13, with Oro Wilkes away in the rear, the odds remained almost unchanged, Goldsmith having made no effort with the favorite, and Oro sold for \$100 against \$40 for the field. The crisis came in the second heat, when Goldsmith made his drive for the lead just beyond the half mile pole. Oro momentarily went to the front, but Miss Lida came again near the three-quarters, and in spite of one of Goldsmith's most artistic drives the western mare forged ahead in the homestretch, beating the black colt out by more than a length. There was a rush to hedge by the players who had backed Oro heavily at the start, and before the third heat Miss Lida sold for \$100 against \$30 for the field. She was apparently a sure winner, but at this stage of the game Fannie Wilcox came up from the rear rank, leading at the outset and holding it all the way to the wire, won in 2:13, a new record for the Connecticut mare. Miss Lida was tired and was counted out of the race, but Oro Wilkes again became the favorite and sold for even money over the field.

The daughter of Jerome Eddy gave him a sound beating, however, in the two succeeding heats, landing them both with something to spare, while the colt was driven out to the last ounce by Goldsmith, whose money was on his own horse. It was a great beating race, and the wise men of the turf were whipped away by the victory of the outsider.
There were nine starters in the 2:18 class, and Ralph Wilkes was a hot favorite at \$100 to \$12 over the field. The Boston horse made a straight race of it, going along in the rear until the last half-mile in the opening heat, when Golden began his drive, and the colt cut down his opponents as if they were a lot of 2:30 trotters, gaining the lead at the head of homestretch and finishing in 2:10.3. After this he was barred in the betting, and was not afterward bothered in the class in landing the next heats in 1:55 and 2:10.3. Goldsmith did not make a move until the last half-mile in the last heat, but when he did so the brown mare could do nothing with Ralph Wilkes.
Red Bud was a hot favorite for the 3-year-old race, selling at \$100 to \$25 over the field. He far outclassed all the field and won the heat with a lot to spare.
Tomorrow's programme includes the 2:25 class, the 2:11 class, the race for 4-year-old trotters, and the class for 2:14 pacers. Summaries:

AQUATIC.
LONDON, Sept. 4.—George Gould is greatly disheartened at the continuous run of bad luck the Vigilant has had. He was quite ready to sail tomorrow, however, and take the chance of winning without a centerboard. He expressed regret at the mean insinuations in some of the newspapers that the centerboard was lost purely in order to avoid a race. He has at all times been anxious to sail and never to evade a race. Capt. Hall is very much chagrined at the outcome. He says he has done the best he could and hopes to be able to try again.

DIED FROM LOCKJAW.

Mr. Chas. Lincoln, of Sparta, Meets His Death Through a Slight Wound Caused by a Splinter.

SPARTA, Sept. 4.—The sad and sudden death of Chas. Lincoln took place from the effects of lockjaw this morning. He had been engaged with Mr. Edward McLean, thrasher, as engineer, and when at Mr. Artlett's on Aug. 24, while in the act of splitting a piece of wood, a splinter flew up and struck him just below the eye, inflicting a small cut, which did not trouble him at the time. He continued his work until the following Thursday evening, and was around the village until Saturday noon, but was compelled to take his bed in the afternoon. The blow which he received affected the nerves, drawing his face to one side, and lockjaw set in Saturday evening. Since that time he suffered terribly.

IN MR. MILLS' CONSTITUENCY.

A Liberal Rally at Wallaceburg—Messrs. Miller, Lister and Ferguson Warmly Welcomed.

WALLACEBURG, Ont., Sept. 4.—A Reform picnic was held here today, but owing to the high winds and the heavy frost, the country was not so large as was expected. Splendid preparations were made for a very large crowd. The speakers present were Hon. David Mills, M.P. of the riding, Mr. Jas. Lister, M.P. of West Lambton, Dr. Gilbraith, Dresden, and Robert Ferguson, M.P.P. of Thamesville. Some of the speakers' addresses could not be heard, however, they were quite enough present to interest the assembly for upwards of three hours. Dr. Gilbraith was appointed to the chair, which he most ably filled. After making a few opening remarks he called upon Mr. Robt. Ferguson, who made a short speech, at the close of which he said the Hon. David Mills had served the riding faithfully and well for the past twenty years, and doing this surely merited their united support again.
Mr. Lister spoke for upwards of an hour to a most interested assembly, making fierce attacks upon the Government for their ruinous trade policy, also for their bribing and corruption, which he said, was done in a wholesale way. He said this was proven by many acts which had been unearthed by the investigations which have been published.
Hon. David Mills then followed and was received with much enthusiasm, followed by a lively air from the Wallaceburg Marine band. The honorable gentleman spoke at some length, showing that the pledges made by the Conservative party in 1878 had not been redeemed, and that the country has not got out of the mire with their present trade policy. Mr. Mills is a fair speaker, who cannot help but command the respect and admiration of both friend and foe alike. At the close of Mr. Mills' speech both he and Mr. Lister were presented with beautiful bouquets by two little ladies from the audience. The meeting dispersed by giving three cheers for the Queen.

HERE, THERE AND EVERYWHERE.
In Upper Tonkin there are wood mines, according to the report of a French consul. The wood, which was originally a pine forest, was swallowed up by the earth, which covers it to a depth of eight yards. Some of the trees are a yard in diameter; the wood is inimitable and is sold to the Chinese for coffins.

AMONG THE TOILERS.

Annual Meeting of the Dominion Trades and Labor Council.

Caustic Remarks to the Late American Troubles—British Workers Want an Eight Hour Day for Miners.

OTTAWA, Sept. 4.—At the opening session of the Trades and Labor Council of Canada today the president delivered his address. He referred to the recent railway trouble in the United States, and said that while it seemed scarcely possible it was nevertheless true that a few wealthy owners could set at defiance all justice and reason asked and fought for by the millions of workers, calling at their will the military and judicial forces of the United States. They were thankful that their position was not so bad in Canada. He spoke of the grand results in so many Patrons of Industry being returned at the last Provincial elections. He spoke in praise of the report issued by the Ontario Bureau of Industries for 1893 containing as it did valuable information.
The treasurer's report showed that the total expenditure was \$393 and the balance on hand \$102. The receipts were \$495.
The report of the executive committee was also presented. It was reported that the committee had waited upon the Government relating to several matters of importance to organized labor. The subjects presented were the payment of the prevailing rate of wages on Government contracts; the abolition of the withdrawal notices in connection with the deposits in postoffice savings banks; a uniform 2-cent passenger rate on all railways in the Dominion; and rigid inspection of gear and tackle used in loading and unloading vessels; the establishment of the first Monday in September as Labor holiday; the employment of a practical mechanic as superintendent of the Government printing office, and Chinese emigration on the Pacific Coast. The delegates were promised an earnest consideration of their requests. Special attention was drawn to the fact that at the last Parliament loyal assent was given to 156 different bills, and only three of those were measures in the interest of workingmen.
D. J. O'Donoghue gave notice of motion that biennial sessions should be held in future. On Thursday the delegates will have a run over the electric street railway and will visit Rockcliffe. Officers will not be elected until after all the business of the Congress is finished.

WANT AN 8 HOUR DAY.
LONDON, Sept. 4.—The Trade Union Congress sitting at Norwich to-day voted in favor of a compulsory eight hour day for miners. The vote on this question was 276 to 16.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.
Syrup of Figs is for sale by all druggists in 75c bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

HOT AIR FURNACE.

OUR "FAMOUS FLORIDA"

With steel dome, low steel radiator and three steel flues, is constructed on the principle of a base-burner stove, and is as easily regulated as one. This principle is now recognized by the furnace makers of the United States as the correct one, and has been generally adopted by them. The distance the heat has to travel compels its utmost radiation and consequently insures great heating power with economy in fuel.

TANGLED THREADS

The transaction in regard to drawing the bill had been wholly Edmund North's. Some months ago he had sought Mr. Alexander, saying he was in want of some money—a hundred pounds; he did not know how to put his hands just then upon it, not wishing to apply to his family; would he, the surgeon, like a good fellow, lend it? At first, Mr. Alexander had excused himself; for one thing he had not the money—fancy a poor country surgeon with a hundred pounds loose cash, he said; but eventually he fell in with Edmund North's pleadings. A bill was drawn, both of them being liable, and was discounted by Dale, the lawyer of Whiteborough. When the bill had come due (about a week ago) neither of them could meet it; and the matter was arranged with Dale by a second bill.

"What I cannot understand is, how Edmund North, poor fellow, could have pitched upon me as the writer of that letter," observed the surgeon to Dr. Kane, when he had finished his recital. "He must have gone clean daft to think it. I had no reason for disclosing it; I did not fear but he would eventually acquit me of it."

"I told them you could not have written it," quietly rejoined the doctor.

Mr. Alexander lifted his hand with angry emphasis. "Rane, I'd give a thousand pounds out of my hospital, and long may I be spared in health and strength to administer relief to suffering humanity."

"Remarkable Cure of Dropsy and Dyspepsia."—Mr. Samuel T. Casey, Belleville, Wis., writes: "In the spring of 1884 I began to be troubled with dyspepsia, which gradually became more and more distressing. I used various domestic remedies and applied to my family physician, but received no benefit. By this time my trouble assumed the form of dropsy. I was unable to use any food whatever except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. Northrop & Lyman's Vegetable Discovery having been recommended to me, I tried a bottle with little hope of relief; and now, after using eight bottles, my dyspepsia and dropsy are cured. Although now 73 years of age, I can enjoy my meals as well as ever, and my general health is good. I am well-known in this section of Canada, having lived here 57 years; and you have liberty to use my name in recommendation of your VEGETABLE DISCOVERY, which has done such wonders in my case."

I at once began the use of Pond's Extract Ointment, and continued to do so until finally cured at the end of three weeks. I used nothing else, and desire to say the skin was restored to its natural condition without any trace of scar." H. E. SCHNEIDER, Ph.D., 20 Hudson Place.

"If my wife will go on at once, and see Ketter, thought Dr. Kane. Time enough to call at the Hall as I return."

So he went on towards Dalory. Two gentlemen passed him on horseback, county magistrates, who were probably going to the Hall. The sight of them turned his thoughts to the subject of an inquest; he began speculating why Mr. North wished to evade it, and whether he would succeed in doing so. For his own part, he did not see that the case, speaking in point of law, called for one. Heburn said it did; and he was supposed, as chief undertaker in Dalory, to understand these things.

THE PEOPLE'S FORUM.

London City Hospital.
To the Editor of the ADVERTISER:
Having been sorely afflicted with stone in the bladder I put myself under the care of the medical superintendent of the London General Hospital, the necessary operation was very skillfully and successfully performed by the medical superintendent, assisted by his associates, and in my opinion to let it pass without a word of comment would be very ungrateful on my part, if not a positive injustice. I therefore thank Dr. Balfour and every one of his associates and assistants with whom I came in contact during my stay in the hospital, and long may they all be spared in health and strength to administer relief to suffering humanity.

"Remarkable Cure of Dropsy and Dyspepsia."—Mr. Samuel T. Casey, Belleville, Wis., writes: "In the spring of 1884 I began to be troubled with dyspepsia, which gradually became more and more distressing. I used various domestic remedies and applied to my family physician, but received no benefit. By this time my trouble assumed the form of dropsy. I was unable to use any food whatever except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. Northrop & Lyman's Vegetable Discovery having been recommended to me, I tried a bottle with little hope of relief; and now, after using eight bottles, my dyspepsia and dropsy are cured. Although now 73 years of age, I can enjoy my meals as well as ever, and my general health is good. I am well-known in this section of Canada, having lived here 57 years; and you have liberty to use my name in recommendation of your VEGETABLE DISCOVERY, which has done such wonders in my case."

In China a man who killed his father was executed, and along with him his schoolmaster for not having taught him better.

I was attacked severely last winter with Diarrhea, Cramps and Colic, and thought I was going to die, but fortunately I tried Dr. Fowler's Extract of Wild Strawberry, and now I can thank this excellent remedy for saving my life. MRS. S. KELLET, Minden, Ont.

A Spanish musician has devised a system of musical notation by which the flat and sharp system is done away with.

Mr. Schneider Enjoys a Warm Christmas.
HOBOKEN, N. J., May 4, 1893.—"I desire to inform you that at the late Christmas season I had a Christmas tree in my house, which took fire, and in my endeavor to put out the flames which had become quite extensive, I was severely burned on the face, upper portion of head and throat. I at once began the use of Pond's Extract Ointment, and continued to do so until finally cured at the end of three weeks. I used nothing else, and desire to say the skin was restored to its natural condition without any trace of scar." H. E. SCHNEIDER, Ph.D., 20 Hudson Place.

More than half the street railway mileage in the United States is now operated by electric power.

Pneumatic tires have been found very serviceable on hospital ambulances.

Dr. Low's Worm Syrup cures and removes worms of all kinds in children or adults. Price, 25 cents. Sold by all dealers.

The Japanese now make tennis rackets, and some of them are imported into the United States.

Gentlemen—I have used your Yellow Oil and have found it unequalled for burns, sprains, scalds, rheumatism, cramp and colds. All who use it recommend it. MRS. HIGHT, Montreal, Que.

A recent Berkshire, Pa., funeral was graced by the presence of a mourner on a bicycle.

"Robert Wilde, of Grenfell, says he thinks Gibbons' Toothache Gum is the best thing in the world for toothache. zvv

"All run down" from weakening effects of warm weather, you need a good tonic and blood purifier like Scott's Emulsion. Try it.

The best bricks in the world are made by the tribes of Central Asia.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Electric Oil is earache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hiccups, disorders of the bowels, and affections of the throat, to which the young are especially subject.

Asphalt is taken from a lake of pitch in the Island of Trinidad.

Why will you allow a cough to irritate your throat or lungs and run the risk of filling a consumptive's grave, when by the timely use of Bickel's Anti-Consumptive Syrup the pain can be allayed and the danger avoided? This Syrup is pleasant to the taste, and unsurpassed for relieving, healing and curing all affections of the throat and lungs, coughs, colds, bronchitis, etc.

New York City has 34,000 miles of underground wires.

Not That Kind.
Scott's Emulsion does not debilitate the stomach as other cough medicines do; but on the contrary it improves digestion and strengthens the stomach. Its effects are immediate and pronounced.

Every American war ship has an outfit of over 150 bags.

It is estimated that 1,200 tons of ostrich feathers have been exported from Cape Colony during the past 30 years, valued at \$50,000,000.

The Only One that's imitated, among all washing compounds is Pearline.

That is because it is the original, the most popular, and the best.

Peddlers and some grocers will tell you that this thing or that thing is "the same as" or "as good as" Pearline—what better recommendation do you want for Pearline? They tell you this because it pays them better to sell these "same as" stuffs. But how will it pay you to use them? Any saving that they can offer you, in prices or prices, can be only nominal. The loss in ruined linens, flannels, muslins, etc., can be large.

BBB CURES DYSPEPSIA.

Dyspepsia arises from wrong action of the stomach and is the cause of much misery and many diseases such as Constipation, Biliousness, Red Blood, Headache, Bloating, Blood Bitters is a prompt and effective cure because it tones the stomach, aids digestion and renovates the entire system. Cases which seemed past hope have been completely cured by B.B.B.

LIFE WAS A BURDEN.
"Life seemed a burden, the simplest food disagreed with me, and I was in misery from dyspepsia, but two bottles of B.B.B. entirely cured me from it," says Miss L. A. Kuhn, of Hamilton, Ont.

CASTORIA

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permits us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms.
Castoria allays Feverishness.
Castoria prevents vomiting Sour Curd.
Castoria cures Diarrhoea and Wind Colic.
Castoria relieves Teething Troubles.
Castoria cures Constipation and Flatulency.
Castoria neutralizes the effects of carbonic acid gas or poison.
Castoria does not contain morphine, opium, or other narcotic proper.
Castoria assimilates the food, regulates the stomach and bowels giving healthy and natural sleep.

Castoria is put up in one-size bottles only. It is not sold in bulk. Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose."

See that you get C-A-S-T-O-R-I-A.
