Pain Around the Heart,

AND ALL OTHER SYMPTOMS OF HEART DISEASE ARE TOO DANGEROUS TO NEGLECT.

An ingersoil, Ont., Man tells how Milburn's Heart and Nerve Pills Restored his Heart to Healthy Action.

SOMETIMES a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it will burst. Once and a while you have a dizzy or faint spell, feel weak, nervous, irritable and depressed. There is no other remedy will do you so much good, restore your heart to a natural condition, build up your strength and give you back vigor and vitality as Milburn's Heart and Nerve Pills. Here's what Mr. Hugh Moore, Ingersoll, Ont., says about them: "Last year I was sick with Malaria. Since then I have had serious heart trouble, such as sharp pains beneath the heart, violent palpitation, shortness of breath, smothering spells on going to bed, etc. My rest was broken and disturbed, and I often woke up gasping for breath, while my heart beat so violently as to make me fear sudden death.

"I heard that Milburn's Heart and Nerve Pills were a good remedy for heart troubles and therefore got a box from Mr. G. A. Ionson's Drug Store, and to my surprise and delight obtained almost instant relief. My heart is now all right, the pain is gone, the heart best is natural, the shortness of breath has vanished, and I have had no attack of smothering since beginning their use. I now get unbroken, restful sleep, so that I am feeling strong and well. Milburn's Heart and Nerve Pills have wrought this gratifying change, and I heartily recommend

them to all sufferers." Price 50c. a box, or 8 for \$1.25, at all druggists. T. Milburn & Co., Toronto,

Performances of a Lady From the Far East Who Is Skilled in Magic-May be Seen at Oak Hall.

Yesterday afternoon and evening large crowds gathered in front of the Oak Hall, Dundas street, and were delighted by a clever magician from the far east. The west window was converted into a temporary stage, where Miss Rheda, robed in the picturesque garb of the Orient, held sway, and performed, apparently by the aid of gess. ccult powers, some very mystifying ilusions. The lady, skilled in black art, one of the seventeen magicians emoloyed by the Hindoo Puzzle. Company, o introduce their vanishing handkerhief, a novelty which is immensely popular in the United States. The posbilities for fun-making with the puzzle are unlimited. Miss Rheda will be here until tomorrow evening, and no one should miss her entertaining performances, which commence in the afernoon at 2 o'clock and in the evening at 8. The puzzle can be purchased from the magician herself or from any clerk in Oak Hall.

Auction Sale of Bicycles On Saturday evening next Londoners will have an opportunity of purchasing a reliable bicycle such as they have never had before. The Griffiths Cycle Corporation (Limited), of London, England, announce that they have decided to close out their entire stock of high grade imported bicycles at public auction. These wheels enjoy an enviable reputation in Canada both for strength and easy running qualities, but owing to the heavy duty and freight rates on English bicycles, they cannot be sold at prices low enough to compete with the local made wheels. The Canadian manager of the Griffiths Corporation states that they are offering a lot of 100 wheels in London principally with a view of introducing the Griffiths wheels here, as they are satisfied that as soon as Londoners become familiar with the merits of these machines that a good local trade will result. Every wheel sold will be just as fully guaranteed as if it had been sold for the full retail price, and they are all fitted with the well-known and reliable Dunlop tires-the best and most expensive tires to be had. With guarantee such as this, coming from so reliable a firm as the Griffiths Corporation, there should be lively bidding

> BASEBALL. STILL ON THE SLIDE.

They are with us again, the bold, bad, bumptious Hams, with their

noise and their bluff, their loud-mouthed and irrepressible Dean, and worse still, their new-found, unrivalled ragchewer, Hagerty, who can make more racket than the whole London team put together. We would not say these unkind things if the Londons had won, but to return home after a week the merits of the case, but are eviof calamity abroad, only to be squelched by a lot of dubs from Hamilton is enough to drive the local cranks to drink or St. Thomas. We must get even some way. It was a good game, from a scientific standpoint, but people do not appreciate science when the runs are not coming in on their It was thought the home air would cure the general debility | turning balls to the plate. which attacked the team during its Michigan tour, but the malady still lingers, and there are some who insist that it is chronic. However, the present series will develop the real condition of the boys, and the fans should sprinkle cool patience on the heat of their distemper for a few days. If the Londons do not conquer their aversion to base hits, and begin to shin up the ladder again this week of Galt-2 to 13. it will become the painful duty of

their admirers to file a protest.

The coaching vim of the Hams was tion, but his skill with the wagon tongue excused his wagging tongue. The Hams, as usual, are a strong team, and their work yesterday was Marr Phillips, the grand old man of the league, played the game of his life. He picked up eight grounders and threw to first with automatic speed and precision. Dean on second, was as quick as a flash.

For London, Carson pitched a good game, the hits being well scattered. It is doubtful if Baker's twirling was any better, but the Londons could not place the sphere safely. Only one of them struck out, but with four exin by making two runs. Sechrist Blackburn and Burrill.
dropped Hagerty's fly after a very
NATIONAL LEAGUE hard run-an excusable error-and then Dean's single, Congalton's sacrifice and Phillips' triple did the trick. Two singles and a double in the third, and a double and single in the fifth were responsible for the Hamilton's other runs. London's solitary run was secured in the fifth on Sechrist's

charity and Carson's single. The regular umpire did not show up, and McCann, of Hamilton, and Johnson, of London, were induced to officlate. This robbed the game of some interest, and perhaps robbed London of a run or two in the second inning. Grimshaw had singled, and Reuning had got a base on balls, when Ward hit to Phillips, who threw to Dean, cutting off Reuning at second. Dean threw to first to catch Ward and effeet a double play. Warl got to the bag at the same time as the ball, through one of his neat slides, but though clearly safe he was given out by McCann, who was hooted by the

Our neighbors will thus have it effectively brought home to them that even a war with an effete nation like Spain is a costly thing, and that the taxpayers must contribute at every on. The expenditure is but begun. No one can estimate what the ultimate cost to the taxpayers will be in money and men. Long after it is ended, too, our neighbors will be paying for the conflict in interest on money borrowed and is pensions to those whose breadwinners are victims of the strife.

The Macdonald Anniversary. The seventh anniversary of the death of Sir John Macdonald was observed in several places in Canada yesterday. In Kingston, the gathering at the cem-

Toronto, it was more distinctively partisan. In this city, the observance was not general, even in the Conservative party, but was of a private nature. What is emphasized, as the Conservative Ottawa Citizen, fitly confesses, by this anniversary, is that Sir John Macdonald was a unique political leader. He was so long the controlling influence disintegration that even so strong a toria Park and for amendments to the man as the late Sir John Thompson could not stay, set in. It has been in progress ever since. And at present there is no prospect of an early effective leadership being provided. So there has been a great deal of talk over nothing. I think the council will bear me out that I did my duty. It is customary for all the architects in the employ of the city to bring the sealed tenders to the committee. Now I ask you to either censure me or exonerate me, and I would also suggest

Ald. Carrothers-Whatever misunderstanding there may have been, it was perfectly understood by the architect as to where the tenders were to be deposited. The secretary told him to send them to the city hall. I had no objections to Mr. McBride receiving the tenders, but as soon as the time for their reception was up they should have been sent direct to the secretary. On Saturday night Mr. Bell went for the tenders, but Mr. McBride was away, and they were not brought here until Monday. I consider that the proper place for them was the city The speaker insinuated that certain contractors would not have tendered had they known their

sisted. Ald. Wilkey thought the only room for criticism was in not calling the committee together Saturday night to open the tenders.

Ald. Carrothers jumped up just be-fore the motion was put and said: "I want it thoroughly understood that I don't want any exoneration. All my actions have been above board, and I wish to be excused from voting.

Mr. P. H. Bartlett, on behalf of Architect A. Bodley, asked \$1,400 for his services in connection with hospital plans. The decision as to the plans, he claimed, was in such a peculiar manner that it was not on the merits of the plans. Suit was threatened if the money was not paid. The letter was sent to the hospital committee.

Mr. Robert Pritchard tendered his resignation as a member of the special sewerage committee, because of the city solicitor's finding that he had not the right to vote. Accepted. Several petitions for asphalt pave-

Ald. Wilkey was strongly in favor of taking a step towards the city doing its own lighting. A difficulty they had met in the committee, he said, was the opposition of the chairman. But outside of the committee they had procured information which was most favorable to the installation of the system by the city. Ald. Stevely said that figures ob-

tained from the engineer indicated that the cost to the city would be more if the city installed and operated its own plant than at present. The committee was asked to get further information. AN UNWELCOME INNOVATION.

A lengthy discussion followed the remmendation that the petition of J. A. Important Ruling of the Court of

Appeal at Quebec.

Toronto, June 7.-The Northwestern Life Company's headquarters in Chicago has sent out circulars to its various subscribers practically admitting the failure of the assessment system, and transferring the policies of all members of the first grade-that is, the oldest members—who are willing to go, into a straight life insurance company, without medical examination. The rate will be a little lower than the present assessment.

Quebec, June 7 .- An important judgment was given in the court of appeal on Saturday. A man named Villeneuve joined the Union St. Joseph, of Beau-port, paying double fees. On this ground he claimed to have a right to a double amount of insurance. union opposed the claim and offered to remit the extra amount of fee paid. The case was taken to the superior court, where it was dismissed. It was then taken to the court of appeal, where, on Saturday, judgment was given maintaining the plaintiff's claim to double insurance.

THE INJURED. Over 50 policemen have been injured, and 24 have been taken to the hospitals with fractured skulls and severe scalp wounds. Many civilians were injured in the military charges, some dangerously. The constable who was thrown from his horse is not expected to recover from his injuries. The military are now in practical occupation of Shank Hill.

CANADIAN SEALERS' CLAIMS. In the House of Commons yesterday, Mr. Curzen, parliamentary secretary of the foreign office, in reply to a question of Sir George Baden-Powell, said he did not suppose there would be any unnecessary delay on the part of the United States in paying the claims of the Canadian sealers.

Opposition Object to the Age Limit for County Judges.

We find it impossible to now handle English wheels in this country at a profit and yet compete in price with the other large firms. We rethe item of \$10,000 for the relief of the alize that we must manufacture here if we wish called the attention to the danger of establishing a precedent that would lead to calls for assistance in many other cases for loss by fire. Sir Wilother cases for loss by fire. Sir Wilfrid Laurier explained that votes of a similar kind had been made in previous cases, as in the Hull fire a few years ago, and that it was not in any way to be taker as a precedent.

Mr. Lister gave notice of a motion for the adoption of the report of the Drummond County Railway investigat-

> Mr. Borden (Halifax) asked that the matter be left over till next session. Sir Wilfrid Laurier doubted if that could be done, but would see. The minister of railways, replying to a question asked in the name of Mr. Casey, said that the chief objection to the new rules of the Grand Trunk Railway was that they went into operation at an earlier date than the association representing the employes hought it would be possible for them to become trained and experienced in. As a result the company have deferred the date of their enforcement until

the men shall have become sufficiently experienced in the rules and familiar with the new signal methods. with the new signal methods.

In response to a question by Mr. Robertson, the minister of militia stated that the cost of lighting the permanent infantry school at Fredericton, N. B., was last year \$1,700, while a similar service at the London barracks cost \$200. At Fredericton there are 79 members of the permanent corps and 350 attached, while at London there are 79 of a permanent corps and 450 attached. The excessive cost at Fredericton is explained by the high rates which had for years been charged there. which had for years been charged there. When Dr. Borden had the matter called to his attention last August he can-

celed the contract. A new and cheaper system will be enforced. Mr. McDougall, of Cape Breton, had on the paper what purported to be the of a letter written by Sir Wil-Laurier to Cardinal Rampolla, stating that if the happy results produced by the visit of Mgr. Merry Del Val are to remain permanent and be efficacious it is desirable, if not necesefficacious it is desirable, if not neces-sary, that his mission should be re-his shoulder blade. The prime minister stated in reply to questions by Mr. Clancy and Mr. McCormick that officers to enforce the

alien labor law have been appointed at Wallaceburg and Parry Sound.
Opposition members criticised the
proposal of the government to fix an age limit of 75 years for county court judges, and a proposal was introduced by Mr. Ingram that it be extended to 80 years. The amendment was rejected, and the resolution providing for the limitation was adopted. About

half dozen judges will be affected at once by this provision. Mr. Foster indulged in lengthy criticism of the bill to grant a loan of \$2,000,000 to the Montreal Harbor Commissioners for the improvements to be made at that port. Mr. Tarte and the premier effective-ly replied, and the bill was quickly re-

ported. The much-needed work will be begun within a month.

The True, Reliable and Easy SMALLMAN & INGRAM'S Working Diamond Byes.

When the Diamond Dyes are used the work of home dyeing is a pleasure to every woman. Doubts and fears regarding results are never entertained. There is a confidence in every woman's heart that perfect work will crown her efforts. It is an established fact that all colors of the Diamond Dyes come out in fullness, richness and beauty.

For long, long years Diamond Dyes have been the favorite family dyes in every civilized country, and although mitation package dyes are now being offered for sale by dealers who think more of big profits than of giving sat-isfaction to the public, the great in-feriority of these imitation dyes in strength, fastness, beauty and brilliancy was soon discovered, and they are now avoided and condemned by all who prize good, bright and durable colors.

Thousands of testimonials are coming in from all parts of the country testifying to the excellence and vast superiority of Diamond Dyes. Refuse all poor, worthless and imitation dyes when they are offered to you. Ask for the "Diamond," and see that the name is on each packet. MIDDLESEX.

The Middlesex and Lambton Baptists will meet at Poplar Hill on June 8 and 9. A petition is being largely signed, asking the Middlesex County Council to construct a bridge over the Thames on the town line between Dunwich and Aldborough. For a number of years interested parties have maintained a low-water bridge at this point at their own expense, and the large traffic, it is stated, fully justifies them in now asking that the country should in-

terest itself in their behalf. While climbing into a wagon at his residence, in Strathroy, the other day, Councillor James Healy had the mis-

[C. P. R. Special to The Advertiser.] Ottawa, June 7.-Though the House of Commons did not adjourn until nearly three o'clock this morning, ment. sharp at 11 o'clock today it was again busy at work. The attendance was not today to take the steamer Persian large, but both leaders, Sir Wilfrid for Montreal. Laurier and Mr. Foster, were in their places. The routine business did not take ten minutes, after which the Montreal harbor bill was read a third time, and passed. Supply was then proceeded with, and Mr. Tarte had the balance of his items in the supplementaries for 1898 sent through with

Mr. Robertson said that the directors of the Canadian Pacific Railway ought to be made to answer at the bar of the House of Commons why the country's children should be murdered in the way they were. Mr. Clarke, of Toronto, said that the

treatment of the men was the most disgraceful in the history of the country. If any officer of the government had prevented justice being done then he should be dealt with. Mr. Clarke Wallace blamed the gov-

ernment for not acting promptly when they got the report. Mr. McMullen agreed that the men had been treated in a barbarous way, but in justice to the C. P. R. he ought to say that he did not think the C. P. R. officials were cognizant of all the wrong done. Certainly the guilty men should be punished.

Dr. Rutherford (Macdonald) said that if there was no legal penalty the guilty persons would be held up and pilloried before all the people of Canada.

Sir Wilfrid Laurier explained how the commission came to be sent to investigate. The pressure of business incident on the government taking action on the

Saved From the Agonies of Diabetes by

Dodd's Kidney Pills. Toronto, June 6.-The Toronto THE LATE PATRICK FINN Street Railway provides another case

this week to strengthen the mighty chain of proof that Dodd's Kidney Pills are the only cure on earth for Mr. H. Hogg, 81 Fuller street, conductor. No. 207, has been completely cured of an aggravated and longstanding case of Diabetes by Dodd's

Kidney Pills, after other so-called "cures" had utterly failed. Mr. Hogg suffered for three years with Diabetes and impure blood. He had to quit work on acount of dizziness, loss of flesh and increasing weakness. All other remedies that he used having failed, he agreed, to please a friend, to try Dodd's Kidney Pills. Improvement begar at once, and six boxes effected a thorough cure. Give Holloway's Corn Cure a trial. | GIBSON GOES FOR TRIAL It removed ten corns from one pair of feet without any pain. What it has

House Property Advancing in Value in London.

A Valuation Expert Says the Present Is the Most Advantageous Time to Buy.

"Real estate in London has not been so good value in fifteen years as it is today," said Mr. J. W. Jones, the auctioneer and valuator yesterday. "There has been a decided tendency in values to stiffen, consequent upon the improved demand, especially for houses in good residential localities. Thirteen years ago, I told the people of London that owing to the military and exhibition grounds being put on the market, real estate would be stagnant for some time. Since then, however, we have added to our city a population greater than is to be found in either he cities of Guelph, Stratford, or St. Thomas. We have the grounds then out on the market covered with good dwellings, and we have almost every evailable site within a quarter of an our's walk from the postoffice occupied. THE CUBAN SUFFERERS.

Oneida Chapter, Baughters of the American Revolution, Learn of Three Essentials.

An American lady, residing in Guantanamo, Cuba, has written a letter to the Oneida Chapter, Daughters of the American Revolution, speaking of some of the misdirected charities, and stating that among the starving people three things seem to be essential-condensed milk, quinine pills and Scott's Emulsion of Cod Liver Oil. The request for the Scott's Emulsion was emphasized by the following statement: "A boy to whom I gave some, when actually on his last legs, had just come in looking so bright and happy that it has done me good. Oh! if I had some money! It is terrible not to be able to help the suffering." This attracted the attention of the manufacturers, who entered into correspondence with the Cuban relief committee, and found that Scott's Emulsion was being used in cases of extreme starvation where solid food could not be properly assimilated; whereupon they made arrangements for sending 500 bottles, to

be distributed free, in each relief ship that the committee should send forward, and it is now being used in Cuba with wonderful efficacy. The estimable ladies of Oneida Chapter have been very much gratified at the prompt response with which their appeal was met. The example set will probably be used effectively upon the larger manufacturers of quinine pills and the condensed milk people.

To Restrict the Use of Water.

Commissioners Limit Its Use for Lawn and Garden Pur poses to Two Hours Per Day

and Three Days in the Week. The water commissioners yesterday decided, in order to check the unnecessary use of water, to limit the sprinkling of lawns and gardens to two hours per day-from 6 to 8 p.m.and that, too, on only three days of the week, Tuesdays, Thursdays and Saturdays. The inspectors will keep a sharp lookout, and the police will be requested to co-operate, and report any violation, which will be summarily

Engineer Moore said there would be no shortage of water this year, if the lawns were sprinkled to a reasonable extent, and no water wasted. In his opinion, 400,000 gallons per day would water all the lawns in the city. None of the water from the lower Colville springs has yet been required for use. From May 16 to 29, 38,374,706 gallons of water were pumped. On the latter date the depth of water in the reservoir was 12 feet 8 inches. From May 30 to June 5, 18,938,294 gallons had been pumped, and on June 5 there was a depth of water in the reservoir of 11 feet 6 inches.

Miss Jane Holman, daughter of the late Jos. Holman, through her solicitors, Messrs. Parke & Purdom, inform ed the commissioners of her intention to take action for damages for the death of her father, and requested that a committee be appointed with a view to settling the matter. The chairman and Mr. Little will investigate. E. T. Essery, representing Mr. Crouse appeared before the board to press a claim for damages for the diversion of the watercourse through the latter's lands in consequence of the city's purchase of the Griffiths springs. The

matter will be considered Chairman Jones was appointed delegate to attend the American waterworks convention, which meets in Buffalo on June 14. A number of applications for mains were read and referred to the engineer. All the members were present.

'Tis But A Mere Advertisement

LONDON, JUNE 7, 1898.

TO THE READERS OF THE ADVERTISER: There was a time, and that not so very long ago, when you would not be bothered reading "ads." But the times have changed, and you have learned that many an advertisement contains a money-saving story, well worth the reading. But even yet the pages of the daily papers are so crowded with big blustering self-praises, as unwarranted as offensive, and often so soiled with direct mis-statements that one sometimes loses faith in all advertising. It is in view of this fact that we address this letter to the readers of The Advertiser.

Our advertising policy is simple and straightforward. We try to interest sensible people in our daily talks about Drygoods; to tell them in a plain, quiet way about the business doings in our big store, to advance sound arguments why they should trade with us, and to hold out to them strong inducements to become our patrons. And the great spirit in all our efforts is simple Truth. We strive to never misrepresent, never exaggerate. It would never pay us to have you expect more than we can give you. If we say a thing is all wool, there is not another thread but wool in it; if we say a thing is reduced from \$1, we mean that we used te get \$1 for it; if we say it is worth \$1, we mean that you must pay \$1 for it at our competitors' counters. Our policy is: Not something for nothing, but your money's worth every time. We give you whatever we promise, and the guarantee of the biggest and best store in Western Ontario goes with every article you purchase.

Are our "ads." worthy of your attention? Try us once, anyway, and see whether or no we live up to our agreement. Here's an offer as an earnest of our good faith: Splendid Black Llama Dress Goods, as light and cool as black dress goods can possibly be woven, durable and dust-shedding, 32 inches wide. the very biggest value you ever got, at 35c a yard.

Remember, we ask for no patronage unless we can convince you that it is to your advantage to trade here-but we do ask you to watch our advertising columns daily and give us a fair chance to convince you.

Yours very sincerely,

Hoping that our old patrons will bear witness to the truth of our statements, and that others will so appreciate our policy that they may soon become our business friends, we remain,
