

BALFOUR LAUNCHES ATTACK ON MINIMUM WAGES BILL IN TENSE, PACKED COMMONS

The Ex-Unionist Leader, Called In To Help By Bonar Law, Moves That the Measure Be Rejected.

DECLARES UNIONISTS WILL HELP IN RELIEVING GRAVE SITUATION

Leaders of the Men Now Insist Upon Schedule Being Included in the Measure—Distress Rapidly Spreading and Hunger Riots Are Expected.

[Canadian Press.]

London, March 21.—The gravity of Great Britain's national peril arising from the labor war, which Arthur J. Balfour, the Unionist statesman, characterized as passing in magnitude anything that this country has heretofore experienced, was reflected in the tense atmosphere of the House of Commons this afternoon, when the minimum wages bill came up for second reading.

The House has not been so crowded for years. Every gallery was packed.

BALFOUR MOVES REJECTION.

Premier Asquith formally moved the second reading of the bill, and then immediately yielded the floor to Mr. Balfour, who moved its rejection.

"The country," said the former Unionist Premier, "has never been before faced with a crisis such as this. We are witnessing the new, strange and perilous spectacle of a single organization acting within its legal powers threatening to paralyze the whole trade of the country."

"There is no indication that the leaders of the movement desired to temper the use of their legal powers with any consideration of mercy. Was there ever an American trust at any period of its existence which has used or misused the powers given to it by the law to the detriment of private interests and general trade to the extent we are now witnessing?"

Cries of "Yes" from the Labor benches greeted Mr. Balfour's question as to the American trusts.

Mr. Balfour recognized the earnestness of Premier Asquith's efforts, but continued:

"There never has been a graver case of a Government deceiving itself and deceiving the House of Commons."

CALLS IT REVOLUTION.

The former Premier said the Government defends the bill on the ground of the existence of abnormal places in some of the mines, but this was merely to save the face of ministers who had hastened under threats to yield to the conditions laid down by the miners. He complained that the Government had sanctioned the tearing up of existing agreements without a word of protest and declared that there was no justification for the Government attempting to force "this colossal revolution" through the House of Commons in less than a week.

Mr. Balfour concluded by saying that even assuming that the Government were defeated there could not be a dissolution, as it was impossible to add the confusion of a general election to the confusion of the strike. He intimated that although the Unionists intended to test the opinion of the House regarding the methods of the Government they would after that do their best to see that the policy of the Government had its chance.

From this it appears clear that the Unionists will not obstruct the committee stage of the bill and that the House of Lords will pass it.

PREMIER ASQUITH.

Premier Asquith, who followed Mr. Balfour, claimed that the Government had an absolutely even balance between the disputants. The Government has tried by every form of argument to negotiate to bring the parties to an agreement, but had failed, and it could not allow the population and industries of the country to starve.

The Government, the Premier said, believed that the Minimum Wages Bill was a necessary preliminary to any further steps, "which God forbid should be necessary."

[Canadian Press.]

London, March 21.—The crisis which has arisen over the Minimum Wages Bill, introduced by Premier Asquith in the House of Commons in order to bring to an end the deadlock in British trade caused by the national coal strike, continues. The idea appears to be gaining ground that there will be considerable delay in passing the measure, even if it is not thrown out entirely, and that thus the strike will be prolonged.

The spread of this opinion has caused further consternation in the industrial districts of the United Kingdom, where the suffering is already extreme. The total of the men out of employment is increasing daily and it is now estimated that besides the million miners on strike nearly 2,000,000 other persons have been rendered idle.

Many in Distress.

The people in many centres daily besiege the offices of the mayors, where relief is freely distributed. It is thought probable that unless something is quickly done to bring the crisis to an end, hunger marches, such as took place last night in the fishing town of Grimsby, when 300 starving men marched to the town hall and begged for relief, will become a common sight all over the country.

What Will Commons Do?

In every town of the Kingdom people are anxiously awaiting the action

of the House of Commons tonight, where it is expected that the Minimum Wages Bill will receive a second reading, and the House will vote on whether to pass it or to reject it.

Arthur Balfour, the former Unionist Premier, who is expected to move the rejection of the bill, has been seen in many of the streets of London, where he is being besieged by the unemployed.

There is another danger. The Unionists under the leadership of Hon. Arthur Balfour, having announced the principle of the Minimum Wages Bill, the House of Lords will possibly take the same stand and refuse to consent to its passage.

Stems of Doubt.

The Liberal party is now swept by storms of doubt. Some of its members wish the bill to be abandoned, others desire to accept the miners' wages schedule, and an even larger fraction of the party is willing to engraft on the bill a clause establishing a minimum wage of \$1.25 daily for all men employed underground and 50 cents a day for boys.

The Government, however, it is understood, is bound by its pledges to various parties not to state the figures of the minimum wage in the bill. (Continued on Page Ten.)

SCOTCH MINERS AND POLICE ENGAGE IN PITCHED BATTLE

Many Heads Are Broken During Fight at Dumfriesshire Pits.

[Canadian Press.]

Glasgow, March 21.—A pitched battle occurred today at Kirkcubbin, in Dumfriesshire, between the striking miners and the police. Many heads were broken among the combatants. The police ultimately routed the miners, of whom 100 were arrested.

The miners, incensed at the non-unionists resuming work, had attacked them severely when the police appeared on the scene. A series of police charges ensued, in which the police-men's clubs were freely used.

Mine Owners Pleaded.

London, March 21.—The mine owners appear to be pleased with the turn of events which threatens to wreck the minimum wage bill, which they characterized as a "blackmailing makeshift."

Many of them contend that the passage

of the bill will condemn numbers of the less-productive collieries to permanent abandonment. They demand radical amendments to the bill, providing giving the powers of an arbitrator to the chairman of the district boards, who, they claim, should be appointed by the Lord Chief Justice of England and the Lord Justice General of Scotland, within their respective jurisdictions, "because political considerations entered so freely into the Government's proposals." For this reason the own district boards by the board of trade as proposed would be possibly biased.

FOURTEEN RESCUED FROM SAN BOIS MINE

McCurran, Okla., Mar. 21.—Fourteen more workmen were rescued from the San Bois mine today. This makes a total of 25 miners brought forth alive from the wrecked workings.

Fifteen corpses had been recovered up to 11 o'clock this forenoon. Estimates of the number of men at work at the time of the explosion vary from 85 to 110.

Douglas H. Grand, Baron Rothschild, And a Picture

Mr. Douglas H. Grand, formerly of this city, but now of London, England, was the discoverer of a remarkable painting, which is today one of the priceless collection of Baron Rothschild.

While returning from Doncaster, where he had been attending the races, he happened to glance in the window of a second-hand store and saw a fine picture with a magnificent carved oak frame. He took a fancy to it, and asked the proprietor what he wanted for it.

"I want £10 10s," answered the man.

"I will give you what I have in my pockets," answered Mr. Grand.

The deal was struck, the latter having £7 10s with him, and Mr. Grand took the picture to his office. One day Baron Rothschild, who purchases many horses from Mr. Grand, came into the office, and discovered the painting. He asked him to hold it for a couple of days, and an expert was brought in by the baron, and pronounced it a good one.

The latter set down, signed his name to a blank check, and asked Mr. Grand to fill it in with any amount he desired.

Mr. Grand thought awhile, and at last put down the sum he paid for the painting, £7 10s.

Baron Rothschild was astonished that it could be purchased for that sum of money. He and Mr. Grand had been friends for years, and he was Mr. Grand's best customer.

The baron thanked him for the painting, and the next day sent him a magnificent check, but by a more modern artist, valued at over £2,000.

Mr. Grand discovered then that the painting he had found in a second-hand shop was worth at least £3,000.

Baron Rothschild, however, has never failed to appreciate the kindness of Mr. Grand in giving him the picture at so low a figure.

"Here's your hat; must you be going?"

A HOT ROW IN COMMITTEE NEARLY STARTS A FREE FIGHT

Major Currie and Mr. Nesbitt Protest Against Insult To Liberals Through Lancaster Refusing Them Representation on Sub-Committee, and Members Were on Verge of Blows.

[Canadian Press.]

Ottawa, March 21.—There was a grand little row in the Commons railway committee this morning in which a number of members of Parliament got as mad as they could be. Mr. Lancaster intimated his willingness to fight with Mr. Nesbitt and Major Currie brushed up against Mr. Lancaster in a way that made the hair fly.

A bill to increase the financial powers of the Grand Trunk was the storm centre. It had been referred to a sub-committee, and when that committee met last night, Major Currie (Conservative), the promoter of the bill, said that it was the most extraordinary sub-committee he ever saw, as there was not a Liberal on it. It was without precedent to cut out the minority in this way.

An Insult to Liberals.

This morning, Mr. Nesbitt brought up this point in the main committee. "I protest against this treatment, which I regard as a deliberate insult to the Liberal members of Parliament," he said.

"You take back that remark," shouted Mr. Lancaster, the chairman of the sub-committee.

"I will take nothing back," replied Mr. Nesbitt.

"No insult was intended," said Mr. Lancaster. "I picked the men for the sub-committee—two were opposed to the bill and two favored it."

"Why was there no Liberal named?" asked Major Currie. "I think that the composition of the sub-committee was most improper."

"I was flying between Mr. Lancaster and Major Currie for a few moments, when the former turned to Mr. Nesbitt and shouted: 'You said there was a deliberate insult.'"

"Yes, I said that, and I will add that everything you say is a deliberate insult," said Mr. Nesbitt.

"Oh, go and take a dose of something," said Mr. Lancaster.

"I'll give you a dose of something which you very much need, and I'll stay with you to the finish," replied Nesbitt.

The chairman intervened and order was restored for the time.

Major Currie said that as Mr. Lancaster had named himself chairman of the committee, and had appointed no Liberals on it, he obviously intended to kill the bill.

"I don't propose to take your stunts," said Mr. Lancaster. "I did not make a mistake. There is no political line drawn for sub-committees."

Other pasters expressed themselves as being of the opinion that it would be practically impossible to get a clergyman who would marry intoxicated parties.

REV. W. H. BUTT III.

Pastor of Ridout Street Methodist Church in a Serious Condition.

Rev. W. H. Butt, pastor of the Ridout Street Methodist Church, is very seriously ill at his home, 153 Emery street, his condition being deemed so critical that the members of his family have been called to his bedside.

Rev. Mr. Butt, who was born in England, has been engaged in the work of the Methodist Church in Canada for a great many years. He has held pastorates in different parts of the country, including Glencoe and Centralia. He came from the latter place to accept the call to the Ridout street.

Rev. Dr. Ross Speaks.

"I never heard of any such cases in Canada," said Dr. Ross, of St. An-

DEATH NOT DUE TO NATURAL CAUSES

Sensational Developments Are Looked for in the Case of Late Mamie Renahan.

INQUEST TUESDAY NIGHT

Coroner Ferguson and Jury Viewed the Body Last Night, and Then Adjourned.

While all information concerning yesterday afternoon upon the body of Mrs. V. P. Dennis, or Mamie Renahan, who died yesterday under rather peculiar circumstances at the home of Mrs. Frank Wesson, of 99 Clarence street, is being carefully suppressed by the authorities until after the inquest, which has been set for Tuesday evening, the postmortem report of Drs. Phipps and Hogg will show that death was not due to natural causes.

The jurors met last evening at the undertaking parlors of Smith, Son & Clark, to which the body was taken, and after hearing the evidence of Mrs. Margaret Renahan, given for identification purposes, adjourned to consider the matter further at the police station on Tuesday evening. Coroner Dr. Ferguson is in charge of the proceedings, and has now the post-mortem examination report in his possession, but acting in accordance with the regulations, has refused to divulge its contents.

The Cause of Death.

While the girl, it is claimed, had taken carbolic acid before in an effort to end her life, the post-mortem did not reveal any poison in the stomach. Neither were there any evidences of strangulation, while in convulsions, as the physicians at first believed from external appearances.

According to the story told to The Advertiser by Mrs. Wesson, at whose home the death occurred, Mrs. Dennis was taken ill while returning to London from St. Thomas on a London and Lake Erie Traction car. On reaching the city she proceeded to Mrs. Wesson's place and had remained there since Monday owing to her illness. She complained of violent headaches and pains throughout her body and spent the greater part of her time in bed, although she arose at intervals, only to return again.

Yesterday morning she got up before 7 o'clock and after sitting about for a time laid down on a couch. Mrs. Wesson left the room for a moment to obtain a drink of milk for the girl and upon her return found her dead. Although she had made no outcry, her face bore a look of agony.

Movements in St. Thomas.

Mrs. Dennis, who was 24 years of age, was married about three years ago, but it is claimed by her foster parents that her husband deserted her on Easter Monday of 1911. Since that time she has lived at the home of the Renahans in Cullis' Hall.

She had been in delicate health and it is understood that the post-mortem investigation of her movements while in St. Thomas.

The jury is composed of Y. W. Thomas, D. Lortie, A. Nevill, T. Marr, D. F. Kilgour, Adam Blair, J. C. Curry, G. W. Forrest and Reid, Tripp.

MANAGER KING OVERLOOKED IN REGARD TO ST. RY. EXTENSION

Says He Does Not Know Whether the Suggestion of the Special Committee for a North End Line Can Be Carried Out.

The decision of the special street railway committee to demand of the London Street Railway Company that a line be constructed from Wellington street, across Victoria, to William, down William to Oxford, east on Oxford to Adelaide, and down Adelaide to connect with the Belt Line at Central avenue, does not meet with the approval of Manager C. B. King, who considers that the company should have been consulted in regard to the matter.

"I was not informed of the meeting," he stated to The Advertiser today. "I thought it would be consulted. However, it was the impression, apparently, that our presence was not essential."

"I am at a loss to understand that phase of the matter. I have not received any official notification as to what really took place. I did not know whether the recommendation was that of a committee of north end citizens or the committee of the council. I was under the impression that it was the former."

A New Proposition.

When he was told that the special committee had recommended this route to the council as satisfactory to the city for the trackage due, Mr. King declared that he did not know whether or not it could be satisfactorily operated by the company.

"This is an entirely new proposition," said Mr. King. "We have not figured on it as yet, as we did not know the first thing about it until now. I cannot say offhand whether or not it would work out satisfactorily. We will look into it and give our opinion."

"What do you think of the idea to compel the company to appeal to the Dominion railway commission for the right to cross the C. P. R. at Adelaide street?" he was asked.

"Was that done, too?" Mr. King asked. "At the former meeting it was decided that the city would make the appeal. We did not care to do so, under the circumstances. I cannot say what we will do now. That puts

LONDON, THURSDAY, MARCH 21.

THE ASQUITH GOVERNMENT'S PERIL.

The debate in the British House of Commons this afternoon gives a new and sensational interest to both the political and industrial situation in the United Kingdom.

At the present moment the Government is between the upper and the nether millstones. Its bill has been rejected by the miners' leaders because it fails to sanction their own minimum wage schedule, but refers this question to district boards of arbitration. The Unionists will vote against it on the pretext that they are opposed to legislative enactment of the principle of the minimum wage. The leader of the Labor party in the House of Commons intimates that he will move an amendment to incorporate the miners' minimum wage rate in the bill. If the 40 Labor members voted against the measure the Government would still have a majority of over 30 if the Liberals and Nationalists stood by it solidly. But no dependence can be placed on the followers of Healy and O'Brien, and there are rumors of Liberal defections.

The Laborites may hesitate when they find the fate of the Government is in their hands. With the present depleted state of trade union funds they will not welcome a general election. Mr. Balfour says a dissolution would not follow the Government's defeat, but it is not likely the Government would hold office an hour if it failed to carry its own measure. The King might refuse dissolution, in which event the Unionists would form an administration and go to the country as soon as the coal strike was settled. They have reasons for thinking that now is the appointed time. They have had a run of success in the by-elections. Their prospects of carrying the country are brighter now than they may be a year or two hence, when the insurance act would be in operation, and its benefits would be diffused. By an election now they would forestall the abolition of plural voting, which is worth half a million votes to the party. By a victory they would shelve Home Rule, Welsh Disestablishment, and adult suffrage. The temptation to play politics with a national crisis is great indeed.

If the Government is overturned the coal strike might go on until the misery of millions produced riot and pillage in every part of the Kingdom. Or the master miners might surrender to help the fortunes of the party to which, with few exceptions, they belong. The situation is as dramatic as it is serious.

THE DEMOCRATS' MASTER STROKE.

The Democrats have shown masterly tactics in forcing the hand of the Republican on the eve of a presidential election. By a vote of 250 to 40, the House of Representatives has passed the excise bill to tax all incomes over \$5,000. Eighty Republicans voted with the Democratic majority.

Mr. Underwood, author of the bill, estimates that it will produce a revenue of \$50,000,000. This will be balanced by a loss of \$50,000,000, due to putting sugar on the free list.

The income tax and the sugar bills must run the gauntlet of the Republican Senate, where the "interests" are strongly entrenched. Both measures are highly popular. The sugar tax pinches every household in the country, and shelters an unscrupulous trust. Its removal would be particularly welcome and timely, when the consumers are so much exercised over the high cost of living. The income tax bill makes an equally strong appeal to the masses. Fifteen years ago the supreme court declared an income tax unconstitutional, but the Democrats seek to circumvent this extraordinary decision by bringing the tax under the head of excise. There is no juster impost, and the United States is the only great country that dispenses with this mode of raising revenue. Its constitutionality in the new form proposed by Mr. Underwood may be again challenged, but the supreme court would not long be allowed to block the will of the nation. An agitation for an amendment of the constitution would ensue and would be resistless.

If the Senate rejects both measures it will put trump cards into the hands of the Democrats, who in any event will get credit for initiating legislation which transfers taxes from the shoulders of the poor to the shoulders of the well-to-do and the wealthy.

CHURCHILL IRRITATES THE GERMANS.

It looks as though Winston Churchill, with all his cleverness, has made a mistake in the general tone of his navy speech. He has not made it easier for Germany to reduce her construction programme. Plain speaking is all very well, and no doubt he meant well with it, but sometimes more of reserve and reticence pays better. As

the situation now is, the German Government, if it wished to curtail its naval expenditure, would be exposed by German chauvinists to the charge of having yielded to threats.

It may be said that Churchill only talked out frankly what everybody knew. But if everybody knew, why rub it in? The Germans hear a shout from the Westminster house-top for the preponderance of 60 per cent. in Dreadnoughts, just at the moment when people had been led by Mr. Asquith's assurances to believe that, as a consequence of Lord Haldane's mission, negotiations for an agreement were proceeding to a satisfactory conclusion.

Perhaps the situation appealed to Mr. Churchill's histrionic talent; there was an opportunity to startle the world. Perhaps he had an idea of heating up the pacific Radicals; but the unanimous applause of the Unionist press is as undesirable as the chilly reserve manifested by Liberal journals. The only real excuse for the speech may be that something has happened since the Premier's announcement on the negotiations, which called for more than dove cooing and blank fire.

Are there any more troubles in store for John Bull?

A ton of coal in the cellar is worth ten in the mines.

The Duke of Connaught says that docking horses' tails is a relic of barbarism. There are some high-toned barbarians who deserve this rebuke.

Messrs. Duff and Pyne are the dimmest in the nebulous cluster of Seven Sisters. Not only do the departments of education and agriculture languish, but the Orange dawg can go on being kicked around by its party manipulators.

The passage of Mr. Boulay's speech, attacking Speaker Sproule in French, has been excised from Hansard. Speaker Sproule, whose knowledge of French is confined to reciting the official prayers in that tongue, heard Mr. Boulay's speech, but "didn't know it was loaded."

Champ Clark bewails the exodus to Canada and would try to stop it by making homestead conditions more attractive in the United States. That will be a fair method of competition, but it will not be effective so long as Canada has free land and so long as her other land is much cheaper than across the line.

MacKenzie & Mann get a bond guarantee of \$35,000 per mile from the British Columbia Government for their line in that province. The Ottawa Government has just given them a cash subsidy of \$12,000 a mile for the same line, a total of \$65,000. This is an extraordinary scale of generosity, but Sir William and Sir Donald are extraordinary men—at Ottawa.

Sir Frederick Pollock, the great English professor of jurisprudence, and a foremost Imperialist, announces his conversion to Irish home rule, which he has strongly opposed. He says he has been reluctantly convinced that Unionist ideas are not of equality, but of ascendancy, and that the conduct of Sir Edward Carson and his Belfast companions has completed the conviction. The attitude of such converts as Sir Frederick Pollock, Lord Dunraven, Sir Conan Doyle and Lord Dudley, all English Protestants, at one time bitterly opposed to home rule, is much more impressive than the antics of Canadians who are calling for money to aid Carson and his crew.

A WHACK AT WINSTON.

Churchill has won the cheers of his enemies and lost the applause of his friends by his latest utterances.

UNLIMITED SUPPLY.

However great the demand for Colonel Roosevelt may become, it will never be greater than the supply.

DEFINITION OF SUCCESS.

Success, generally speaking, is the science of leaving just as little as possible to chance.

THE COAL CRISIS: A CONTRAST.

[B. W. in Westminster Gazette.] Hephaestus' workmen, under Etna's pent, The earth with subterranean labor bent, Our modern Cyclopes with a like turmoil convulses, when he quits his toil.

A BEAUTIFUL PROCESS.

Mrs. Doubter—I do hope those pictures are going to turn out pretty. Photographer—Why, madam, after I finish touching up the negative you won't know yourself.

AS DICKENS SAW BATH.

[London Chronicle.] Bath, from which city Dickens carried away the immortal names of Pickwick and Snodgrass, holds relics of the master. His tobacco jar and beer jug are still proudly preserved at the Saracen's Head. But although Dickens wrote gloriously at Bath he never really liked the place. "I and the ghost go along the silent streets here before me," he writes in 1868. "The place looks to me like a cemetery where the dead have succeeded in rising and taking. Having built streets of their own gravestones they wander about scarcely trying to 'look alive.' A dead failure."

A BUMPER CROP.

[Tit-Bits.] For a bet a young seedsmen of Leeds Rashly swallowed six packets of seeds: In a month—silly ass!—He was covered with grass, And he couldn't sit down for the weeds.

THE DUKE DOING HIS DUTY.

[H. F. G. in Toronto Star.] A brave old duke he is. The other night he attended a ginkhama in the Rideau rink. You know how cold a rink can be. You can see the frost coming up like a mist. Personally I don't care for ginkhama in a skating rink. I'd as leave go to a funeral. But the duke had to be there—he was patron—and so had we. Just now his

highness is almost a cripple from sciatica, but he hobbled in promptly on the minute and was hoisted into his royal box, where he sat for two mortal hours, smiling through his misery. After which he presented the pretty girls with their prizes. You can guess how good that sort of public duty is for sciatica. Yes, there are drawbacks to being an aged prince in exile in a rheumatic climate.

THE HARP THAT ONCE THROU TARAH'S HALLS.

The harp that once throu Tarah's halls

The soul of music shed,
Now hangs as mute on Tara's walls,
As if that soul were fled,
So sleeps the pride of former days,
So glory's thrill is o'er,
And hearts that once beat high for praise
Now feel that pulse no more!

No more to chiefs and ladies bright
The harp of Tara swells;
The chord alone that breaks at night
Its tale of ruin tells.
Thus freedom now so seldom wakes,
The only throb she gives
Is when some heart indignantly breaks,
To show that still she lives.

GIVING HIM A CHANCE.

[Hamilton Times.] Bishop Fallon is not making any public statement on the billing school days. He does not think it is necessary. He has every reason to believe that Dr. Merchant's report has justified all that he said about them. Perhaps Bishop Fallon is waiting to give Sir James Whitney a chance to set himself right!

WHAT ABOUT UNCLE SAM?

[Springfield Republican.] There can be no question but that the solar plexus of England lies near the coal belt.

LONGITUDE BY WIRELESS.

[From the Westminster Gazette.] Several determinations of longitude have of late been made by means of wireless messages, but the most ambitious attempt of this nature has just taken place between Paris and Tunis. Wireless signals connecting two clocks, one at the Eiffel Tower and the other at Bizerta, Tunis, the comparison of which decided the longitude. The signals travelled the whole distance in 0.07 second, which works out at nearly 200,000 miles a second. When Sir George Airy, astronomer royal, determined the longitude of Valencia, the little island off the coast of Spain, he had no fewer than thirty chronometers carried back and forward between Valencia and Greenwich Observatory twenty-two times before he was satisfied.

COSTS NOTHING.

[Tit-Bits.] Mrs. Byron—That's the kind of a husband to have! Did you hear Mr. Dike tell his wife to go and look at some £20 hats?

Mr. Byron—My dear, have I ever deprived you of the privilege of looking at £20 hats?

EITHER WAY.

[London Opinion.] The Optimist—After all, marriage is the thing. If you marry the right woman, there is nothing like it.

The Pessimist—And if you marry the wrong woman, there is nothing like it.

WINNIPEG CITIZENS FIGHT POWER BILL.

Claim Legislation Throws Manitoba Into the Hands of a Private Corporation.

[Canadian Press.] Winnipeg, March 20.—Morgan & Co. officially deny that they are interested in the purchase of the Winnipeg Street Railway Company. E. M. Reese says in spite of Sir Wm. MacKenzie's denial, the deal is completed, only waiting legislation to pay over some \$25,000,000. Today a strong delegation of citizens, including city officials, before the law amendment committee, savagely opposed legislation calculated to permit the Manitoba Power Company to take over the Winnipeg Street Railway Company and allied interests with increased powers. An animated debate continued for three hours, and the Legislature will take up the bill this afternoon. The city is determined to oppose the deal to the bitter end, as they claim it infringes on the city's interests. Other municipalities of the province are in opposition, as the Manitoba Power Company bill is in the nature of a blanket franchise, permitting them to do almost anything throughout the province.

DEATH OF MRS. RAISON.

Well Known For Years as a Market Gardener.

Mrs. Harriet Raison, who for over forty years has occupied a position among the market gardeners on the London square, died yesterday at her home, 18 Chester street, South London, aged 81 years.

Mrs. Raison was born in Essex, England, but came to this country when quite young. She settled in London Township, near the city, and for forty years attended the market to offer her produce, scarcely missing a market day in that time.

Her husband predeceased her three years ago, and since then she has been in rather poor health. Her death, however, was the direct result of a stroke of paralysis, sustained a few days ago.

She is survived by two sons, Simon and John, both at home. The funeral is to be held from her late residence tomorrow afternoon to Mount Pleasant Cemetery. The services will be conducted by Rev. Mr. Walker, of South London Baptist Church.

BILLIARD TOURNAMENT.

[Canadian Press.] Paris, March 20.—Three games were decided yesterday in the International Amateur Championship Billiard Tournament. In the opening contest, Blanc defeated Moritz, the champion, by the narrow margin of 400 to 389. The second match brought together Agassiz and Roudil, the former winning by the score of 400 to 344. In the evening game Deere triumphed over Daren, 400 to 275. J. Ferdinand Poggenburg, the American champion, who was defeated on the opening night by Agassiz, did not play yesterday.

The report that Poggenburg won his first game was due to the similarity of the names of two of the players, Poggenburg and Poggenburg. The American lost to Agassiz by the score of 400 to 312.

A Few Lines of Most Anything

OUR PRECISE ARTIST.

SO YOU THINK YOUR HUSBAND DOESN'T DRINK?
I SHOULD SAY NOT! BUT HE HAS ONE PECULIAR HABIT HE'S TERRIBLY FOND OF CLOVES

Where ignorance is—, etc.

This is supposed to be the last day of winter. But it looks more like the first day of another one.

Firing the Postmasters. You ask me why he should be fired—Well, sir, I'll tell you quick—The last time I for stamps inquired The stamps he would not lick.

Oil Vail Vail songs for the "movies." Merely trying to demonstrate that he can play first bass.

And—would modestly aver—we recently suggested that Sammy soon would break into vaudeville.

No doubt the theatre posters will read: SAMUELLO SMITHO, The Timid Tenor Prince of the Canadian League, —The Caruso of the Cockneys—

The Mail and Empire says that Britain's big feet go together. For some reason this paper is trying to square itself with the Toronto police force.

A Bumper Crop. Spring gardeners may find a grain of warning in the following limberick: For a bet a young seedsmen of Leeds, Rashly swallowed six packets of seeds: In a month—silly ass!—He was covered with grass, And he couldn't sit down for the weeds.

That court house site looks more and more inviting as the green sward is exposed.

And truly, Mr. County Councillor, we'll admit it's more enjoyable in the country in the winter time if you'll open the gates to us.

The city treasurer means to be the bell-cow of his department.

PATRONAGE. The gray wolves are prowling On the flanks of retreat; The gray wolves are howling For something to eat.

The gray wolves are stealing On prey long denied; The gray wolves are squealing—When not satisfied.

The gray wolves are slaying The weaker ones first; The gray wolves are preying Where ranks have been burst.

The gray wolves are tearing Each other in the city; The gray wolves are bearing Near where the chief sits.

Perhaps Captain Scott heard about this winter and means to stay in a warm place until it blows over.

Believe it or not, as you please, but spring is coming.

Chicago is 75 years old. And quite spry for her age.

Mrs. Peet-Fink resides at Racine, Wis. We've never been in Racine, but we'll venture the only person known there is Mrs. Peet-Fink.

Sir Thomas Lipton may challenge again. A sign for the Americans to rehearse "Rule, Britannia," once more.

Moral: Drive a Dog. [Kingston Standard.] A man driving a dog team on the railway tracks west of Cartier just escaped being killed by a train.

Nighty Grandmas! [Belleville Ontario.] Our grandmothers did indeed indulge in the luxury of clay pipes, but this habit was healthy and unobjectionable compared to the use of the modern cigarette.

WALLACE REFUSED TO GIVE EVIDENCE

Is Said To Be the Instigator of the Inquiry at Princeton.

[Canadian Press.] Princeton, Ont., March 21.—The whole of this morning's proceedings at the Vickers inquiry in Princeton, consisted in a discussion on Mr. J. G. Wallace's absence from the list of Conservative candidates at the last federal election, and is said to be the instigator of this inquiry, but he refused to come and give evidence today. Mr. S. G. McKay, K.C., objected to an adjournment being made to get to an adjournment taken in Woodstock, on the grounds that Wallace was not entitled to any privileges. He should be brought to Princeton, and the same was the others were, and his absence was no reason for an adjournment. Eventually a subpoena was issued for Wallace to attend Friday morning in Princeton.

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs.

Dress Goods

Easter is only sixteen days away, so it is time to think seriously of Spring Dresses and Suits.

HAIR-LINE SERGE SUITING—Navy blue with a white hair-line stripe. The most wanted Spring Suiting. A yard... \$1.00

Notice this special value in Nottingham Lace Curtains, made of strong net, over-locked stitched edges, choice of several patterns.

J. H. Chapman & Co.

248 DUNDAS STREET, LONDON

TRUSTEES GUESTS OF A COLLEGIATE CLASS

A Rather Select Party Sampled Domestic Science Today.

Several members of the board of education and others were the guests at dinner today of the domestic science class of lower 12 at the Collegiate Institute. The dining table was daintily appointed, the color scheme being in white and yellow.

A large bowl of daisies adorned the centre of the table, and the menu and place cards bore sketches of crocheted work of the girls' hostesses. Those present were Mr. F. W. McCutcheon (principal), Mrs. M. G. and Teasdale, Rev. J. G. Inkster, W. T. Strong, and Mr. Irwin, of the McClary Manufacturing Company. The dinner was arranged for and prepared by Misses Hazel Cunningham, Marjorie Morrison, Edna McKibbin and Nettie Merriam, under the supervision of Miss Macpherson, the instructor.

A PRESENTATION TO MR. JOSEPH BAILEY

Former McClary Employee Is Leaving For the West.

A pleasing event took place recently at the residence of Mr. F. H. Westbury, where the factory staff of the McClary upturn works met to say farewell to Mr. Joe Bailey, for many years a valued and popular employee of McClary's. Eighteen department heads formed the company, who spent the first part of the evening in cards and social chat. Later all sat down to a dainty lunch, at the close of which Mr. Sam Milliken took Mr. Bailey by surprise, handing him a handsome locket on behalf of the staff.

Highly complimentary speeches were made by Mr. R. A. Somers and others. Mr. Bailey, who will shortly leave for the West, regretted the severance of so many ties, and expressing his appreciation of the good wishes of those present.

WHITE SLAVE CAMPAIGN FOR CANADIAN CITIES

World's Purity Federation Planning War on Traffic in East.

[Canadian Press.] Lacrosse, Wis., March 21.—The World's Purity Federation, with headquarters in this city, an organization that has waged war on the white slave traffic for ten years, announced today through its president, H. S. Steadwell, that the next campaign which the federation will launch against white slavery will be a tour of a large force of workers through leading cities in Eastern Canada, the Atlantic coast states and the south. The start will be made at Toronto on April 9.

Among the workers who will take part in the various conferences are the following: Rev. T. Albert Moore, Toronto; J. Frank Chase, Boston; Ernest A. Bell, Chicago; Mrs. Kate Walker Barrett, Washington; Anthony Comstock, New York; Mrs. Carroll, wife of the governor, Des Moines, Iowa; Rev. J. W. Aikens, Toronto.

BAIL IS REFUSED FOR TOM MANN

English Labor Leader Charged With Traitorous Actions.

[Canadian Press.] Manchester, Eng., March 21.—Tom Mann, the well-known labor leader, was today remanded by the Salford magistrates when he was brought up on the charge of "feloniously, maliciously and advisedly publishing certain printed matter called the 'Synicalist,' endeavoring to persuade persons serving in the forces of His Majesty the King on land or sea from their duty to his majesty, and inducing the said persons to commit treasonous and seditious practices." Bail was refused.

W. B. Reduso CORSETS

GUARANTEED TO REDUCE FROM 1 to 5 inches

ALL DEALERS 30c UPWARD

WEINGARTEN BROS. Makers, Broadway & 34th St. N.Y.

BONE-GRAFTING BY A FRENCH SURGEON

Two Remarkable Operations That Have Turned Out Successful.

[Canadian Press.] Paris, March 21.—Dr. Tuffier, one of the most prominent surgeons in Paris, reports two cases of successful bone-grafting in a communication to the Academy of Medicine. Two of the operations were performed more than a year ago, and as the subjects are in perfect health there can no longer be any doubt of the success of the experiment.

Dr. Tuffier says he was called upon to treat the arm of a young man whose elbow joint was affected by ankylosis. The joint had been removed, as the entire arm was paralyzed. The bone of another patient, a woman, whose foot had been amputated, was used to replace the missing bone. The young man, after thirteen months, is now able to use his arm.

The second case is that of a young man, whose elbow had been destroyed by tuberculosis. In this case Dr. Tuffier grafted cartilage, which has been preserved for five days from an operation on the leg of another person. This operation was carried out fourteen months ago, and was a perfect success.

CHARGED WITH ROBBERY.

St. Louis, March 21.—Daniel Callahan was arrested today by postoffice inspectors, who say he is wanted for complicity in three diamond robberies aggregating \$120,000, and in the robbery of a postoffice sub-station in St. Louis and other points.

SCHURMAN AFTER T. R.

Cornell President Says Colonel May Split Republican Party.

[Canadian Press.] New York, March 20.—Dr. Jacob Gould Schurman, president of Cornell University, in this week's issue of the Independent, tells some news. Why Colonel Theodore Roosevelt should not be nominated for a third term in the White House, and he ventures the prediction that the colonel won't be. His nomination, Dr. Schurman declares, must in the end bring about such a split in the Republican party as would cause the election of a Democrat as President.

After contrasting Colonel Roosevelt's "under no circumstances" utterance concerning a third term of Nov. 8, 1904, with his more recent pronouncement of "I will accept the nomination for President if it is tendered to me," Dr. Schurman declares that the colonel's apologetic explanation that he meant in 1904 to refuse only "consecutive" third term—as he might refuse a third cup of coffee today, yet drink it tomorrow—did not hold.

If the Republican party were to nominate Mr. Roosevelt next June in Chicago, it is safe to predict that the anti-third term sentiment of the American people must inevitably lead to a split in the party. At the same time, the organization of the Republican party would pretty certainly fall into the hands of radicals who had secured the nomination for their candidate.

President Taft, declared Dr. Schurman, in addressing himself to the problems of tariff revision to adapt it to existing economic conditions and to the anti-trust law, a genuine progressive Republican.

A Tale of a Can, a Fly, and a Tail

By "Larry Ho"

A sad little dog with a can on his tail

Sat down in a corner to weep and to wail;

He moaned "Oh I wish that my tail were cut off,

And then at the naughty boys gaily I'd scoff.

A man came along with a very kind heart

And he said, "If you really are anxious to part

With the tail that your parents have given to you

Why I have an axe and I know what to do."

SNYDER CHARGED WITH FRAUD

Is a Former Member of the Police Force of This City.

RESIDED IN HAMILTON

A sequel to a Horse Deal Made With George Wadsworth, of Lobo, Township.

Frank Snyder, who until a few months ago was a member of the London police force, was arrested in Hamilton yesterday and brought back to London by High Constable Hughes, charged with obtaining \$76 from Geo. Wadsworth, of Lobo Township, near Mount Brydges, by fraudulent means.

Snyder appeared before Squire Chittick last evening and was remanded to jail for a week, as he was not ready to proceed. While on the force Snyder was charged with frequenting the house of a Wilson avenue woman. An investigation was conducted, and according to the information given out by the authorities, Snyder had played cards at the place while in uniform. Shortly afterward his position on the police force became vacant, as he was asked to resign.

Since then he has been employed in different capacities about the city. In the information sworn out against him it is claimed that Snyder engaged in a horse deal with Mr. Wadsworth, and a lien was given to the Lobo man. Later Snyder sold the horse, and for the past three weeks has not been in London.

High Constable Hughes furnished the Hamilton department with his description and the arrest was made yesterday.

NOT A LIBERAL ON LANCASTER'S COMMITTEE

Mr. Emmerson Protests Against Unprecedented Position In Canadian Parliament.

Ottawa, March 21.—The spirit of political partisanship which has taken hold of the Government and its supporters was strikingly illustrated by Hon. Mr. Emmerson's protest against the appointment of the railway committee in the morning it was decided to submit the Grand Trunk financial bill, which was due for discussion, to a session of the House that night. At the meeting of the railway committee in the morning it was decided to submit the Grand Trunk financial bill, which was due for discussion, to a session of the House that night. At the meeting of the railway committee in the morning it was decided to submit the Grand Trunk financial bill, which was due for discussion, to a session of the House that night.

In bringing the matter to the attention of the House, Mr. Emmerson pointed out that never before in the history of the Canadian Parliament had such a selection been made entirely from one party.

When the sub-committee, consisting of Messrs. Lancaster, Currie, Aikins, Stevens and Macdonnell, appointed by the railway committee, met, Mr. Currie took exception to its composition. "In all my experience," he said, "I never saw anything like this before, the minority in the House being entirely unrepresented. The Liberals treated the majority in the matter when they were in power, and I do not propose to be responsible for their exclusion from this committee. It is an unheard of thing in parliamentary procedure. This committee can do what it likes, but I will take no responsibility in the matter."

Major Currie also pointed out that the personnel of the committee had also been apparently chosen with a view to handing the bill as they desired.

Upon his protest the committee declined to rise without doing any business.

POWERS MAY CANCEL LOANS TO CHINESE

Unless the Arrangement With the Russo-Belgian Syndicate Is Withdrawn.

[Canadian Press.] London, March 21.—The Daily Telegraph's London correspondent says: "The imbrolio caused by the foreign loan affair has become more serious. The four power group—Great Britain, France, Germany and the United States—now threatens to cancel all its provisional arrangements regarding weekly advances to the Peking Government unless the Russo-Belgian \$1,000,000 (\$5,000,000) loan is cancelled."

The Chinese, on their side, claim that the four power group introduced damaging and oppressive conditions after formal arrangements had been arrived at, and that, therefore, in self-defence, they sought accommodation elsewhere.

DIED IN METCALFE

Funeral of Mrs. Moyle Was Held to Strathroy Cemetery.

[Special to The Advertiser.] Strathroy, March 21.—The funeral of Mrs. Richard Moyle was held from the family residence in Metcalfe today to Strathroy Cemetery, and was largely attended.

The late Mrs. Moyle was a daughter of Capt. Christopher B. of the British royal navy, and was born in Cornwall, England, 86 years ago. She leaves two sons and two daughters, Thomas, Christopher, Ellen and Marion, all of whom reside at home.

GERMAN SPIES ARRESTED

Were Photographing Fortifications on the Isle of Wight.

London, March 20.—It is reported here this afternoon that three German spies have been arrested on the Isle of Wight while in the act of photographing the fortifications. The men are being held for examination. It is stated.

John W. Slicksmith, Greensboro, Pa., has three children, and like most children, they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

NOBLE ITALIANS IN LOVE TRAGEDY

Marquis Volpicelli and American Girl Principals in Double Killing.

ANOTHER AT LAKE GARDA

Count Barbara Shoots His Sweetheart and Takes His Own Life in Same Way.

[Canadian Press.] London, March 21.—The Daily Mail's Rome correspondent telegraphed that the Marquis of Volpicelli, belonging to one of the old Neapolitan families, arrived at a Naples hotel this morning with a young American girl, well known in the foreign colony.

Shortly after their arrival the sound of several shots was heard from inside their apartment. On the door being forced open the marquis and his companion were discovered mortally wounded by bullets in the head from a large pistol.

Another Account.

Another Rome correspondent gives a different version of the affair as follows:

"A double tragedy occurred at the Hotel Risorgimento, Naples, this morning, where the Marquis Salvatore Volpicelli, a prominent Neapolitan nobleman, and Fraulein Adams, a young actress, were found dead in one of the rooms."

Fraulein Adams, who had been stopping at the Hotel Excelsior for some time, went with the Marquis Volpicelli to the Hotel Risorgimento for supper. They were heard quarrelling in the dining room. The altercation was followed by shots. When the door was burst open, the marquis was found dead, and the woman dying.

"The police believe that Fraulein Adams killed her companion, then shot herself."

Another double tragedy occurred on the Lake of Garda yesterday, where the bodies of Count Barbara, a member of a noble family of Padua, and Signorina Maria Scaretz, his sweetheart, were found on the bank of the lake. The count had shot his companion, and then committed suicide.

EIGHTY-SEVEN PERISH IN GAS EXPLOSION

Thirteen Miners Escaped, But So Badly Injured All May Die.

Fort Smith, Ark., March 21.—Forty miners are known to have been killed as the result of an explosion in Mine No. 2 of the San Bois Coal Company, at Meridian, Okla., 47 miles west of here, yesterday. It is hoped that 37 others entombed in the mine are alive, has been practically abandoned. Thirteen of the miners escaped shortly after the explosion occurred. Several of these, however, are so badly injured that it is believed they will die.

A systematic search of the wrecked mine began early last night under the direction of government experts, and up to 9 o'clock five bodies had been recovered and 35 others found.

MALE ASSISTANTS WANT AN INCREASE

Another Request for More Money From the Local Teachers.

The male assistant teachers have put in a request for an increase of salary, and the board of education will have to deal with this matter at the special session to be held this afternoon.

The minimum is now \$1,000 and the maximum \$1,200. All have reached the latter figure, and ask the board to raise the maximum to \$1,300.

It is the intention of the trustees, where possible, to secure male assistants for the majority of the schools, and the increases will have an important bearing.

While no official word has come from the trustees it is expected that they will ask for more money also.

STORM IN N.Y. STATE

Last Day of Winter Proves Coldest in Years.

[Canadian Press.] Rochester, N. Y., March 21.—Western New York is in the grip of a blizzard today, ushered in during the night by a drop of 20 degrees in temperature. In Rochester six inches of snow fell, crippling street railway traffic.

New York, March 21.—A nasty sleet-storm, the forerunner of a severe blizzard, which has been gripping the Central Western States, struck New York today, and badly hampered street traffic. Sleet and snow were promised for the next 24 hours by the weather bureau.

Forecasters of the weather bureau, said that the winter, which officially ended at 5:29 o'clock yesterday afternoon, was the coldest New York had known in many years.

EUGENIC LEGISLATION

Dr. Godfrey Has Bill to Prevent Procreation Amongst Feeble-Minded.

[Canadian Press.] Toronto, March 21.—Dr. Forbes Godfrey, M. P. for West York, is sponsoring in eugenic legislation. Having already this session introduced a bill to obviate marriages of the unfit, in so far as that desideratum can be secured through an appeal to the fears of issuers of marriage licenses, physicians and others, he will again father a legislative proposal of a more drastic nature, which the Legislature two years ago treated with scant ceremony.

This second bill of his will seek to prevent increase by procreation among the feeble-minded in provincial institutions. This plan is already under trial in Connecticut, and is being examined by a legislative committee in Maryland.

Cattle and Produce Markets

For Other Markets See Page Eleven

CATTLE PRICES AT TORONTO MARKET

TORONTO, March 21.—Today's market is affected by the storm, but it is thought it will not be very serious. Many cars which arrived early this morning and last night were weighed early and the greater part of these were common and good cattle. Prices remain very strong for common and medium stuff, while the choice and extra choice were quiet, with prices unchanged. Milch cows are in fair demand, with prices steady. Sheep and lambs are unchanged from yesterday's prices. Hogs are active, with prices much stronger today. The run of hogs is fair. Butcher cattle, choice, \$6.20 to \$6.55; do medium, \$4.50 to \$6; do common, \$3 to \$4.25; butchers cows, choice, \$4.75 to \$5.50; do medium, \$3.50 to \$4.50; do common, \$2.50 to \$3.50; do bulls, \$2.50 to \$3.25; feeding steers, \$5.50 to \$6.50; stockers, choice, \$4.75 to \$5.25; light, \$3 to \$4.50; stockers, choice, each, \$5.50 to \$6.50; cows and heifers, \$2.40 to \$3.70; calves, \$5.50 to \$6.50. Hogs—Receipts, 14,000; market 25c to 20c higher, mixed, \$7.20 to \$7.45; heavy, \$7.30 to \$7.70; rough, \$7.30 to \$7.40; pigs, \$5.10 to \$5.15; bulk of sales, \$2.50 to \$7.75. Sheep—Receipts, 14,000; market steady, 10c higher; native, \$4 to \$5; western, \$4.50 to \$5.25; yearlings, \$2.50 to \$6.85; and strong buyers, \$5.50 to \$7.50; western, \$6.25 to \$8.10.

EAST BUFFALO, N. Y., March 20.—Cattle—Receipts, 150 head; active and 75c higher; \$5 to \$10. Hogs—Receipts, 12,000; market steady, 10c higher; heavy and mixed, \$7.25 to \$7.90; Yorkers, \$7.25 to \$7.90; pigs, \$7 to \$7.10; roughs, \$6.85 to \$7.50; stockers, \$5 to \$6; calves, \$5.50 to \$7.50. Sheep—Receipts, 4,000 head; active and 15c to 25c higher; lambs, \$5 to \$8.25; yearlings, \$5.50 to \$7.25; western, \$5.50 to \$7.50; do to \$5.50. Sheep, mixed, \$2.50 to \$3.

PRODUCE

MINNEAPOLIS, March 20.—Closing price of wheat, No. 1, 1.06 1/2; No. 2, 1.05 1/2; No. 3, 1.04 1/2; No. 4, 1.03 1/2; No. 5, 1.02 1/2; No. 6, 1.01 1/2; No. 7, 1.00 1/2; No. 8, 99 1/2; No. 9, 98 1/2; No. 10, 97 1/2; Madero of Mexico Doomed—Only U. S. Can Save Him

War Correspondent Shepherd Thinks New Revolution Will Succeed, and That Insurgents Will Take Mexico City—Peons Believe All Americans Are Villains, and Americans in Mexico Are in Grave Danger—Wall Street Wants Intervention—Madero's Mistakes.

(Editor's Note.—The following analysis of the situation in Mexico today is illuminating, coming, as it does, in the midst of all the conflicting dispatches from about the republic of the south west. William Shepherd, as staff writer for The Advertiser has been in Mexico twice during important occasions within the past year. He acted as war correspondent during the successful Madero revolution last spring and gained the friendship and confidence of Madero and such men as Gomez and Orozco. Again in the fall of 1911 he was in Mexico and travelled with Madero when the latter campaigned for the presidency. So Shepherd understands Mexican conditions today like a book.)

[BY WILLIAM SHEPHERD.]

The doom of President Madero in Mexico is sealed. This is his plight:

His opponent is Dr. Francisco Vasquez Gomez, whose followers are known as Vasquistas. Gomez was the brains of the early part of Madero's revolution, but as soon as Madero, with the overthrow of Diaz in sight, compromised with the powerful grafters of Mexico by granting immunity to Jose Limantour, the chief of the scientific ring, Gomez began to oppose Madero.

This present revolution is only a continuation of Gomez's opposition. Gomez believes that he is fighting Wall Street, and the money trust in both the United States and Mexico.

The Mexican revolutionists under Gomez are not fighting ignorantly. This is shown by the fact that when Gen. Bernardo Reyes, in December, travelled through Mexico calling upon the peons to rise and overthrow Madero, they refused. They knew that Reyes, famous as he was, was only a representative of the aristocracy.

Aristocracy and plutocracy and their power is what the Mexican peons are opposing in their new revolution.

Because American money predominates in Mexico the peon looks upon all Americans as villains, as oppressors; therefore, in a sense the present revolution is directed against Americans.

For many months Gen. Pascual Orozco, who once was a storekeeper in Chihuahua, headed the government troops and was loyal to Madero. But secretly he sympathized with Gomez and now that he has come out openly, taking with him the sympathy of a large part of the federal army in Northern Mexico, it looks bad for Madero.

Orozco is determined to march from Chihuahua to Mexico City, 600 miles. The only opposition he has as yet comes from the federal soldiers under Francisco Villa. And who is Francisco Villa?

He is not a general or a trained military man. Until Madero started his revolution, Francisco, popularly known as "Poncho" Villa, was the bogey man of Mexican children. He was a fugitive from justice. He had 22 notches in his gun. A price was on his head. But when he brought 300 bandits and bad gun men to Madero's aid in the Madero revolution, the revolutionary chief removed the ban on Villa and made him a line commander in the federal army.

To those who know, there is no conceivable power that can stop Orozco's onward march, except American soldiers. No one believes "Poncho" Villa will stand for Madero after he sees that Madero's cause is likely to lose.

Orozco is the popular idol of Northern Mexico. When he arrived in Mexico City, a week before Madero's fall, the metropolis showed him a much greater enthusiasm than for Madero himself.

Madero's doom, however, was sealed as soon as he had driven out Diaz. Madero recognized the fact then and foresaw present conditions. His alliance with the money interests was forced on him by his family against his wishes. But he was helpless. His brother, Gustavo, became money-mad after

SENATOR COFFEY ON BOUNDARY BILL

Puts In a Plea for Restoration of Separate Schools in Manitoba.

SAYS WRONG WAS DONE

Claims That It Is Wasting Time To Antagonize Catholics as They Pay Double Taxes For Religious Schools.

Ottawa, March 20.—Senator Coffey, of London, discussed the separate school question in a speech on the Manitoba boundary bill yesterday in the Senate. He said he would call the attention of the House, not so much to what the bill contained as to what it did not contain. The Manitoba school question had been long discussed by the ablest lawyers in the country. They had crossed swords pro, and con, and the legal tangle went on.

"I do not propose to advance any opinion as to the constitutionality of the stand taken by one side or by the other," added Senator Coffey. "Until the crack of doom the legal profession may be hopelessly sundered on this point."

"While it may be claimed that provincial rights is a sacred thing—that there should be no interference with these rights by the Federal Parliament, it should also be borne in mind that there may be, and there actually is, such a thing as provincial wrongs, and when it is felt that such a condition as this prevails, where is the remedy?"

"The minority in Manitoba feel deeply on this question. They have reasons in plenty to complain that they have been harshly dealt with, that their dearest rights have been trampled upon by a majority that seems regardless of the appeals of natural justice."

Religion and Education.

"The fathers and mothers of the minority feel it incumbent upon them to give their offspring a religious as well as a secular education. They deem a duty they owe their God, their country and their children. The state steps in and tells them they will be permitted to do this, but if they elect, they must also contribute of their means to sustain other schools."

YOUR BABY'S SKIN

Is the most delicate fabric in the world. You may cause it permanent harm by poisonous mineral ointments for the little rashes and eruptions that every baby suffers from occasionally. Don't take any chances. Use Zam-Buk, the baby's best balm.

Zam-Buk is made from fine herbal extracts, and is free from any harmful, poisonous coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer!

Most ointments and salves have, as their foundation, various animal oils and fats. Zam-Buk does not contain one atom of animal substance. Most ointments and salves are too coarse to be absorbed by the tender, delicate skin of a baby, and remain on the skin irritating it. But put a little Zam-Buk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it.

Use nothing but Zam-Buk for baby's skin troubles, and wash with Zam-Buk Soap.

Zam-Buk should also be used for cuts, burns, scalds, eczema, piles, ulcers, etc. All druggists and stores sell at 50 cents box, or post free from Zam-Buk Company, Toronto, for price. Refuse harmful substitutes and imitations.

Dr. FRANCISCO VASQUEZ GOMEZ, LEADER OF NEW MEXICAN REVOLUTION, WHO WILL PROBABLY BE MADE PRESIDENT WHEN MADERO IS DRIVEN OUT.

Madero's victory and even went so far as to have himself placed on the board of directors of the national railways.

Even while Madero was whipping Diaz the foundation of his own overthrow was being laid because the powers that prey were scattering broadcast among the ignorant peons the impression that as soon as he was elected Madero would divide up all land and give to each peon a farm, horses, cattle and cash.

It was the failure of Madero to do this impossible thing that was largely the cause of the present uprising.

The situation of Americans in Mexico will be most grave as soon as Madero's weakness becomes more apparent.

American intervention seems to be the only way out.

It would require desperate fighting to conquer Mexico. Intervention is wished by all Wall Street interests. I am certain that J. P. Morgan and all his associates, who hold bonds of National railways, will work to their utmost to persuade President Taft to send American boys in blue down into Mexico to kill and be killed.

constitution be altered, even if we have to appeal to the mother of parliaments and our gracious sovereign.

"We are all Canadians. Would that a kinder spirit were abroad. Would that there were fewer rancour-mongers plying their unlovely trade in our midst. Would that we had amongst us more really great Canadians whose noble purpose is to build up a united Canada, united in heart and soul, dealing out measure for measure of kindly consideration, each for each, irrespective of race, or class, or creed. With such men Canada will become truly great."

Such men are a besetment among us. May they be multiplied over and over again, until it may come to pass that we are as one people, under one and the same old flag, loving our country with a great love and our neighbor as ourselves. Let the Senate of Canada then, the champion of the weak, the defender of the minorities, the court whose decisions are above and beyond all that is petty and mean, issue a mandate that shall be reckoned with by those who continue without cause that scandalous violation of natural justice in the Province of Manitoba. That province is entering upon a new era. She will be broadened and enriched under the new order of things; may it be that the minds of the majority broaden also. A fitting time would this be to throw down the barrier of oppression and give the Catholic minority that right of justice and fair play which should be the portion, for it is the birthright of every subject of King George."

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by all dealers.

"I may be met here with the argument that the school should confine its work to secular training and that the home and the Sunday school suffice for religious instruction.

"There has never been a contention more fallacious, for experience has proved that while these methods are excellent as far as they go, but a mere trifle of the work can in this way be accomplished. A very large proportion of our rising generation do not attend Sunday schools, and another large proportion of the parents are more or less indifferent. While they are solicitous about the things of time—while they are anxious their children should be well equipped in the race for the golden goal—the thought of eternity, and the thought of character building on Christian standards, give them small concern.

"Pardon me, honorable gentlemen, for taking up your time with this phase of the subject. I would not do so were it not in my mind that our country's future will in due time be in the keeping of the little ones who are springing into the world. Their own future is now in the molding. Will it be for good or evil? Will our boys of today be noble men of tomorrow? Will they carry a conscience, into their life, work, or will all their thoughts, all their energies be directed towards the acquirement of wealth?"

"It is but wasting time to antagonize the purpose of the Catholics to establish separate schools. Not matter what the law may be, Catholics will everywhere, and at all times, establish religious schools, or rather schools in which religious training and secular training go hand in hand. You may compel them to pay the double tax if you will, but that will not stay them in their purpose. With them it is a matter of conscience. They cannot and they will not relinquish their right. Nowhere in the world are we furnished with a more striking illustration of this fact than in the great American republic. In that country Catholics pay the double tax, and while meeting the exaction of the public school tax, they pay each year for the maintenance of parochial schools the enormous sum of \$25,000,000.

Favors Protestant Separate Schools.

"Nothing would please me better than to note that my friends who do not believe as I do, the great Protestant body of the Dominion, established Protestant separate schools in every section of the country, where conditions would permit such a departure. In centres of population it would please me to see a Protestant separate school in the shadow of every Protestant church.

"The condition in Winnipeg is a reproach. The pity of it. The shame of it. When another generation will pass away, the men of the future will wonder that the injustice done to the Catholic neighbors was permitted to continue even for a short period. They will wonder that the separate school question had for so long a time been cast about, particularly in Winnipeg, like a hockey puck by the practical politicians who cared much for the sweets of office, and were as adamant to the plea of justice. How long it will continue we know not, but some means should be taken to force the hands of those who value not fair play, whose shibboleth of equal rights for all comes but from the teeth outward. Lawyers may tell us that it would be unconstitutional to take drastic measures. Well, be it so. Then let the

Try Cuticura Soap and Ointment Free

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of skin and hair, will be sent, post-free, on application to Potter Drug & Chem. Corp., Boston, U. S. A.

TO BUY LAND FOR INDUSTRIES

J. Grant Henderson Told the Manufacturers' Committee What Is Wanted.

ENTERTAINING THE DUKE

\$200 Set Aside to Assist the National Council of Women—A Meeting on Wednesday.

The purchase of a parcel of land, in close proximity to the railways, for factory site purposes, was advocated by Mr. J. Grant Henderson, commissioner of industries at the meeting of the manufacturers' committee on Wednesday evening. He met the members of the committee and addressed them briefly. He declared that the prospects were bright for London's prosperity, and he asked the co-operation of all the members. He had not been able to map out a programme, but this would be done as soon as possible. The committee are considering this matter.

The question of the entertainment of Their Royal Highnesses the Duke and Duchess of Connaught on May 29, was brought up, and it was decided to make a grant of \$200 to the National Council of Women for their part of the programme. Mayor Graham, Ald. Spittal, Ald. Coles and Mr. Harry T. Reason, president of the board of trade, were named a committee to arrange the details of the entertainment.

Mr. Henderson called attention to the fact that some furniture was necessary for his office, and Mayor Graham, Ald. Spittal and Ald. Coles were empowered to purchase the necessary equipment. The matter of engaging a stenographer was also left to them.

Those present were: Ald. Spittal, chairman, Aldermen Moore, Coles, Robinson, Blandford, Murphy, Wright and Johnston, A. W. White, Dr. H. T. Reason, Col. W. M. Gartshore, T. F. Dexter, R. Christian, J. Grant Henderson, and Secretary Baker.

ROOSEVELT LOSING IN AMERICAN WEST

London Man Home From California Talks U. S. Politics.

Mr. R. Albert Brown, of this city, has returned from California, where he has been on a two months' trip. In discussing politics, he declares that sentiment in the west is anti-Roosevelt.

"There is no question that Roosevelt has lost in the west," said Mr. Brown. "Six years ago, one would have been branded as a traitor or something worse, if he uttered a word against Roosevelt. Now everything has changed, and everywhere I went they seemed opposed to him. The change in sentiment was surprising to me, as he used to be so popular there."

Mr. Brown is much improved in health.

THE MARRIAGE LAW; BILINGUAL SCHOOLS

Eastern Ontario Orangemen Pass Resolutions on Burning Questions.

Kingston, Ont., March 20.—There are 206 members of the Orange Grand Lodge of Ontario West in session here at the annual convention, which is being held in the city hall, with Lieut.-Col. John Hughes, of Clarke, Ont., presiding. A civic welcome was extended to them this afternoon by Mayor Hoag.

There was a big Orange parade from the city hall this evening at eight o'clock to St. Paul's Church. The parade was headed by the Fourteenth Regiment Band, and over 500 Orangemen participated. Rev. W. E. Fitzgerald, grand chaplain, preached on "The Anglican Position."

Grand Master Hughes reported a large increase in membership of the order, including leading clergymen and men of all walks in life. The passing of the Manitoba boundary bill without a separate school clause, the grand master said, was the Government's answer to the French-Canadian bishops and their emissaries, that the constitution must be observed. The grand master advocated a univer-

HEALTH AND BEAUTY HELPS

BY MRS. MAE MARTYN.

Louise: Face powder is very bad to use. It looks bad and leaves bad results. The woman who uses face powder eventually finds it clogs the pores in her face, causing wrinkles and other age marks. Leave it alone if you will be beautiful. Dissolve 4 ounces of spumax in half pint of water. What you need is a good system tonic and blood purifier. Try this one: Dissolve one ounce karsden in half pint of water. Add half cup sugar and hot water to make a quart. A tablespoonful taken before each meal will give you pure blood, a healthy complexion, and put life and color into your face.

Miss Essie: Even though your hair is thin, dull, straggly, split and broken through improper shampooing, you can fluff it up and make it appear abundant and be easy to arrange by shampooing with a teaspoonful of canthax dissolved in a cup of hot water. Rinse in clear water and the hair will dry quickly and will strengthen. Your eyes and scalp and most prepared shampoos ruin the hair by making it squeaky, dull and brittle. Nothing is so cleansing as karsden. When used for shampooing it removes all dandruff, irritation, and gives the hair that soft, glossy, silken sheen every woman so much admires.

Mrs. W. J.: During the winter months anyone's blood is likely to become thick and sluggish, causing a sallow, pimply complexion and loss of energy, such as colds, influenza, and other ailments. A good system tonic and blood purifier. Try this one: Dissolve one ounce karsden in half pint of water. Add half cup sugar and hot water to make a quart. A tablespoonful taken before each meal will give you pure blood, a healthy complexion, and put life and color into your face.

Harriet: For your tired, dull, inflamed eyes you need a good eye tonic. Dissolve an ounce of crystals in a pint of water. Two or three drops of this in each eye daily will strengthen your eyes and make them bright and sparkling. This tonic will not smart, and has proven a tonic to those who wear glasses. A friend of mine who has remarkably clear, sal federal law regarding marriage.

Prompt action upon the bilingual school question was also urged by Col. Hughes. He declared that Dr. Merchant's proposal of better inspection of these schools would not do at all. The order creating bilingual schools should be repealed, and there should be but one language in Ontario's schools, and that the English language. The Orangemen sympathized with their English brethren and all Protestants in Ireland, in their opposition to the home rule measure, said the grand master.

There was some talk during the session as to why the flags on the city hall in London were meeting with no success. The reason given was that if the flags were floated in honor of the Orangemen they would have to be put up when any other organization met in the city. A further discussion is promised on this matter tomorrow.

Notice was given of a lengthy resolution protesting against the special privileges accorded the French-Canadians in the use of their language in the schools in Ontario, and asking upon the Ontario Government to make bilingualism illegal.

PRINTING CONTRACTS WERE AWARDED

The Advertiser Job Will Print 5,000 Prize Lists for Western Fair.

At the meeting of the printing committee of the Western Fair Board held on Wednesday afternoon, contracts for printing were distributed among various concerns of the city.

The London Advertiser job department was awarded the contract for printing 5,000 prize lists and 10,000 entry tickets; while the London Printers and Lithographing Company will print 6,700 entry sheets, and Talbot & Co. 40,000 programmes and 2,500 advertising hangers.

The big posters were not dealt with, none of the designs submitted coming up to the requirements of the committee. A special meeting will be held shortly to discuss this matter.

Secretary Hunt announced that there would be a meeting of the executive on Friday afternoon at 4:30 o'clock, and on Tuesday next a meeting of the board of directors. Those present at the meeting yesterday were: Chairman Jeffrey Hale, W. W. Gammon, Ald. J. G. Richter, and Secretary A. M. Hunt.

beautiful eyes tells me that she uses this simple tonic to keep them bright and full of expression. I find it excellent for inflamed, tired eyes and granulated eye lids.

Margie: To remove the fuzz from your chin, apply a delatone paste, made by mixing powdered delatone and water. Let remain two or three minutes, then rub off and wash the skin. Saldom is a sweet application required to remove every trace of hair from any part of the anatomy, and while druggists charge a dollar for an original ounce package of delatone, it is well worth its cost.

Audrey: I do not put much faith in oils and vasoline as a remedy for scalp troubles. If you will keep your scalp clean by frequent shampooing and twice a week massage into the hair roots a tonic made by mixing together one ounce quinine and half pint each alcohol and cold water, your dandruff will disappear. Your hair stop coming out and all scalp irritation leave. This remarkable tonic adds a beautiful gloss and lustre to the hair, and if anything will make the hair grow this quinine tonic will.

T. H. M.: The only safe method of quick fat reduction without dieting and violent exercising is by taking before meals a tablespoonful of 4 ounces of parotis dissolved in 1½ pints of hot water. This harmless remedy is particularly effective in cold weather and cuts down weight rapidly. It leaves the skin free from wrinkles or flabbiness. Try this wonderful remedy and I am sure you will be delighted.

Julia: A good cleansing, softening, healing complexion cream is best prepared by stirring an ounce of almond oil and 2 teaspoonful glycerine in a half pint of water. This cream-jelly is greasy and will not grow hair or make the skin oily and shiny. Used morning and night it will quickly smooth, soften and whiten your skin, and add a look of youthfulness that comes only from a smooth, refined complexion.

NEW HEATING SYSTEMS FOR THE PUBLIC SCHOOLS

School Trustees Want To Issue \$15,000 Debentures for the Purpose.

At a meeting of No. 2 committee of the board of education held Wednesday night, it was decided to recommend that the council be asked to issue debentures for the sum of \$15,000 to install up-to-date heating systems in Victoria school, Slocan street and Empress avenue schools.

A report was submitted showing that the present systems were inefficient and expensive, and the board was unanimous in favoring new apparatus. It was decided also to have plans prepared for a new 14-room school to replace the present Aberdeen school. It is the intention to erect it in sections, a four-room portion to be constructed this year, and the rest to be built within three or four years.

Considerably more land is required, and a sum of money will be asked for to purchase the necessary property. It is expected that the improvements in mind will cost about \$105,000.

The Examinations.

The members of the committee will recommend that the Provincial Government be memorialized to hold the examinations later this year. Prior to 1912, the examinations were held the last part of June, but this year, they will be held about the middle of June.

The members of the committee thought it was a mistake to hold the examinations so early, as it simply meant that the pupils would secure two weeks' additional holidays. As a result, a resolution was passed asking the Government to change the date to the last week in June of each year.

Those present were: Dr. A. J. Wyckoff (chairman), W. W. Gammon, A. M. Hunt, E. R. Dennis, J. M. Gunn, and Secretary McIlhenan.

PAPER ON R. C.

London, March 20.—Frank Buffington, Vrooman, of Washington, who was graduated at both Harvard and Oxford, read a paper on "British Columbia and Her Imperial Outlook" before the members of the Royal Colonial Institute last night, Lord Charles Beresford presiding.

South Pole Discovery Aids Human Race —Great American Geographer Writes Reasons Why

(Editor's Note:—The following illuminating article on the scientific and practical value of Amundsen's South Pole discovery was written for The London Advertiser by R. D. Salisbury, A.M., Ph.D., L.L.D., famous geographer, geologist, and meteorologist of the University of Chicago. Dr. Salisbury has spent a lifetime in scientific study and research, in America and abroad, having been associated with some of the foremost universities of the world and with the United States government.)

BY R. D. SALISBURY, PH. D., L. L. D.

Professor of Geography and Geology of the University of Chicago.

"Are such exploring expeditions as those just made in the South Pole regions worth while and do they serve any practical, useful purpose?"

Broadly speaking, I say yes to that question because such explorations add to the sum of human knowledge. The more knowledge we obtain the better able we are to progress and the more rapidly do we progress.

In the particular case of the south pole regions, however, we do not need to depend on any vague, indefinite promises of future practical results. The knowledge obtained by Amundsen, by Scott and other south pole hunters is certain to be of benefit to mankind. The mere act of locating the particular spot that is known as the south pole, of course, is interesting, but in itself it is of no great practical benefit to science or to humanity.

But the facts pertaining to climate, geological, oceanic and animal conditions in the south pole regions will be in fact I think that so far as direct, practical benefits are concerned, the establishment by Shackleton, on his last trip, of the location of the south magnetic pole is more important, scientifically and practically, than the location of the south pole itself.

Of greatest immediate benefit to science and humanity I think will be the added knowledge of climatic conditions. In the science of meteorology, we have been working in the dark because we have not known the scientific facts as to geography and atmospheric conditions in the two polar regions. We have been able to analyze weather conditions only to the extent of forecasting specific conditions in specific places two days in advance, and frequently something that we cannot explain our calculations into chaos. With exact knowledge as to meteorologic and climatic conditions in all parts of the world we can do better. Of course, we will not even approximate exact accuracy until we also devise means of learning conditions much further from the earth's surface than we now know them.

The study of geology of the Antarctic lands will throw important light on geological history. The fossils in the rock will tell us directly of the life of those regions during ancient periods, and will afford evidence concerning the climate of past ages. All such data are of great moment in advancing our knowledge of the history of the earth.

All polar exploration takes cognizance of animal and plant life, and so furnishes the basis for the advancement of biology. The study of the most biological studies are carried on so that their study should supplement, in an important way, the studies of well-peopled lands.

All polar expeditions, too, devote much study to oceanic phenomena, other than those of oceanic life. The depth, the movements and the temperature of the sea, in high latitudes, all have bearings on problems of human and scientific interest.

Mineral wealth of importance may perhaps be discovered, though mineral deposits would need to be very rich to repay the cost of mining in regions where the difficulties of work would be so great.

through," said one dealer to The Advertiser this afternoon, "and find that our consignments are stalled at Black Rock. There are thousands of tons of coal there waiting for the railways to take it out, and the roads claim they cannot handle any more than they are at present carrying."

So far as can be learned, none of the local factories are so short that there is any fear of their having to close.

NO LAW TO COMPEL
WIRING INSPECTION

Bylaw Prepared Some Time Ago
Was Lost in the Shuffle.

A bylaw prepared some time ago to provide for the compulsory inspection of all electrical wiring in the city, has been lost somewhere in the city hall, and has not been considered for some time. As a result, there is no law to compel users of electricity to have their wires properly inspected.

The bylaw was sent, I understand, to Mr. Glauz, said City Clerk Baker. "There was some question about fees, and he was to report. However, nothing has been heard of the matter lately. It is quite probable that something will be done in the immediate future on the question."

ARE GETTING READY
FOR SPRING WORK

G. T. R. Will Be Able to Start, First
of April.

The Grand Trunk is getting in shape for its spring work, and Assistant Superintendent Davidson stated to The Advertiser yesterday that everything will likely be ready for a general start about April 1.

"Of course, it all depends on the weather," said Mr. Davidson, "but we expect to be in shape about April 1. I have not been advised of any new work for London. There are always a lot of repairs to be made at different points along the line, and extra men will be taken on the various repair gangs. The work of relaying the line is one of the most important of the undertakings in this district. Gangs will be put to work both at Komoka and Woodstock. One will work towards London, and the other towards Windsor. We expect to get the work through this season."

OBJECTED STRONGLY
TO BEING ARRESTED

Joseph Senecal Gave P. C. McCullough
a Battle.

Joseph Senecal, who came to London from Montreal, who conducted himself in a very disorderly manner at the home of a local insurance man yesterday afternoon, was fined \$10 for drunkenness by Police Magistrate Judd this morning, the court, at the solicitation of the prisoner's wife, suspending sentence on a charge of indecent exposure.

P. C. William McCullough, who was called to the house by the complainant's little daughter, had some difficulty in bringing the man to the station. Senecal putting up a fight on the way. Clinging along Richmond street near Clung he smashed a big sign in front of one of the stores and proceeded to make things interesting for the police. McCullough, however, carried him to change his mind, and carried him to the station.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood-purifier, the finest complexioner, the most certain regulating medicine known. All dealers, in 25c. boxes, or the Catarrhoe Co., Kingston, Canada.

Mrs. Winslow's Soothing Syrup has been used for over SIXTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, and is the best remedy for diarrhoea. Sold all over the world.

HAMILTON WILL NOW SPEND THE MONEY

Resignation of Mr. J. Grant
Henderson Is Regretted by
City Fathers.

The resignation of Mr. J. Grant Henderson, as commissioner of industries for Hamilton, has occasioned much trouble in the city. Several clashes between Mayor Lees, who was responsible for the resignation of Mr. Henderson, and the board of control taking place since that time. One official, an assistant Engineer Sifton, was appointed over the mayor's head, and other evidences of revolt are seen.

It is now proposed to appropriate \$10,000 for the needs of the industrial department there. Controller Bailey is sponsor for this suggestion, and it is expected that it will be carried out. "If we spend \$100,000 to Hamilton in a very short time," declared Controller Bailey.

"These things vindicate my position," said Mr. Henderson to The Advertiser today. "I have contended that the wise expenditure of money along this line is in the best interests of the city, and will bring about excellent results. Hamilton is now seeking up to the possibilities of the situation."

A large number of applications have been received in Hamilton for a commissioner of industries, but it is expected that a local man will be named for the place.

MR. HAROLD MAY COME TO LONDON

Former Freight Agent of G. T. R. Likely
to Return.

There was a rumor around the G. T. R. this afternoon that Mr. Harold May, who was recently removed to Montreal from the local freight sheds, was to be brought back again shortly. The official, however, state that they have heard nothing of the matter.

It was stated to The Advertiser that notices have been posted throughout the district advising the various agents that the position is vacant, and that all who deem themselves sufficiently qualified may make application. So far none of the applicants have been considered.

"London is one of our most important shipping points," said an official this afternoon, "and it takes a good man to fill the position. Mr. Harold May, or may not, be brought back. I have not heard that such a step is contemplated. No appointment has as yet been made. Mr. Richard Wright is filling the position temporarily."

A SOCIAL EVENING

Held by the Junior Gleaners' Mission
Band.

The members of the Junior Gleaners' Mission Band of Knox Presbyterian Church held a social evening in the church. The first part of the time was devoted to games and contests, which was followed by a short programme, consisting of readings and recitations by Mr. Anderson, Miss Gladys McEvoy and Miss Harris. Rev. J. G. Stuart, pastor of the church, occupied the chair.

At the conclusion of the programme refreshments were served.

CORRESPONDENCE

What the Traffic Says About Itself.
To the Editor of The Advertiser:

The advocates of total abstinence are sometimes charged with being extreme and sometimes it is said of one who speaks his mind more plainly than others "Oh, he is crazy. But let us hear what the trade has to say about itself."

The Wholesale and Retailers' Review of Sun Francisco, says: "The growing disrespect for the saloons is the harvest of tears, ripened by the lurid glare of thousands of nights of hellish debauchery. 'Harvest of tears.' What temperance orator ever used stronger language?"

Again, Bamford's Wine and Spirit Circular, Sept. 10, 1908, said: "The saloon has discredited personal liberty and has made man a reproach rather than something to conjure with. In the name of personal liberty saloons have been run in violation of law and decency until it looks as though they were doomed to extinction except in our larger cities. A sufficient percentage of such places have been badly conducted; that is, have been disorderly, have sold to intoxicated men, have sold to women and to minors, have conducted games of chance, and have kept open after legal hours and on Saturday, to create a hostile sentiment."

Doctors Condemn
Oily Liniments

Public Are Warned Against
Strong-Smelling, Oily Liniments
Containing Harmful
Acids and Ammonia.

Many people have clung to the old-fashioned idea that a greasy liniment is the best kind. Doctors say not—and they know.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormous percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, sets up inflammation and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment, do so. He knows that a thick liniment cannot penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago an important physician stated that he considered a strong, penetrating, pain-subduing liniment such as "Nerviline" to be superior to any of the white ammonia liniments. In his 25 years of practice he has witnessed cases of rheumatism, sciatica and lumbago that simply would not respond to ordinary treatment—but Nerviline cured them. The same physician also spoke of the great advantage of keeping a preparation like Nerviline in the house, because of cramps, diarrhoea, stomach disorders, earache, headache, toothache, and such minor ailments. Nerviline is a put up as a liniment, is scarcely an ache or a pain, internal or external, that Nerviline won't cure. In thousands of homes no other pain-relieving medicine is used. Fifty years' continued success and the endorsement of the profession are proof that Nerviline is the liniment for the home.

ment that has crystallized into a war of extermination," and "leave in larger places, the saloon as a factor" in society "would seem to be doomed. This is a big admission, but the facts demand the admission, that our trade may properly grasp the situation."

Another quotation from the Wholesale and Retailers' Review: "Any man who knows the saloon well, can honestly say that most of them have forfeited their right to live. Unfortunately the average tipping house is a place of ill-fame, a place of debauchery. With comparatively few exceptions our saloons are houses of drunken men, profanity and obscenity of the vilest possible type."

That is strong language, but it is what the trade says about itself. No real temperance man would use such language about the saloon or the saloon-keeper. He goes deeper and fights the system, the whole system, that not only permits, but licenses and makes revenue out of a most dangerous drug that is doing so much harm, even unto the third and fourth generation."

H. ARNOTT, Sr.

Why a New City Hall?

You have already published very many letters in which are made suggestions for sites for a new city hall. May I further impose upon your good nature by asking space for a few remarks regarding the propriety under existing circumstances of erecting a city hall at all, for the present at least?

Although a committee of the council has been appointed to select a site for a new hall, the council has not yet taken any action approving the idea of building a hall. True, a bylaw was submitted by a council, now defunct and discredited, to the people, who carried it, and the expenditure of \$75,000 for the purchase of a site, but, though the site might be purchased, and might even be obtained for that amount, there is still no obligation on the council to proceed with the erection of a building.

We now have a very large uncontrollable expenditure that must be provided for annually; this is yearly increasing owing to the necessity of making permanent improvements that must be had; the present condition of our thoroughfares amply proves the need, as our capable engineer has frequently pointed out, of a storm water drainage system, which alone will require a large capital outlay and will necessarily add to our uncontrollable expenditure; this is a need that must shortly be supplied if we are to have any comfort at all in the use of our streets.

Then we have also on our hands problems, such as the London and Port Stanley Railway, the London Westchester, the elevation of rail way tracks and abolition of level crossings, the construction of new and the enlarging and improving of old schoolhouses, and many others of equal or greater importance, all of which will increase our contingent debt, and add to that "uncontrollable expenditure" which the candidate for aldermanic honors every year uses as an excuse for the failure during his term of office of doing any real work.

Now, it is quite proper for our governing body not to hesitate to add to our debt, but the question is, what is the object? Is it to increase the comfort and the enjoyment of the citizens? But will a new city hall or any city hall do either? The city's business is now being well attended to in comfortable leased offices and at an enormous cost. There is no need of a new city hall. The city's business is now being well attended to in comfortable leased offices and at an enormous cost. There is no need of a new city hall. The city's business is now being well attended to in comfortable leased offices and at an enormous cost. There is no need of a new city hall.

As to rising the waterworks dam to beautify the river, none would be more pleased to see this than West Londoners, providing proper flood-gates are inserted to reduce the water at high water. But Mr. Glauz admits the Springfield dam is not strong enough to stand more than two feet increase in height and two feet extra will not cover the bed of the river north of Dundas street bridge, and would be useless for boating. Why, then, maintain this useless, dangerous and unsightly obstruction in the river. If the river is to be made useful and beautiful? Don't do it by jobs, but do it right. Put a safe, permanent break-water around West London, improve and strengthen the waterworks dam, build it up six or eight feet higher, with ample flood gates to not only let all flood water, but to flush the whole river to its bed at every freshet, then to fill up again with sweet water to a height that will make boating possible away up the north branch, and give us a river we shall be proud of and that would really beautify and benefit the whole city, and attract outsiders to our water sports and parks. And a river, too, that will be free from all dangerous obstructions, a river that can be let out at any time, a river that is no cause of fear or

Blackfriars Dam a Menace.
To the Editor of The Advertiser:

I wish first to compliment you on your excellent and common sense article on the dangerous condition of the Blackfriars dam in last night's paper. It is quite a relief to hear a common sense opinion expressed by someone who has taken the trouble to investigate a little and see the cause of real danger to West London.

The common opinions of our civic engineers as reported by your paper on Monday evening in answer to my letter on this subject, would be laughable if we did not know the position of the said experts, or if the sensible understanding of this great danger and nuisance was not so serious.

We are told in your report that our city engineers assure the public that our fear is largely imaginary. We are sympathized with, but assured that as far as they can see, there is no real danger. Then to let us know this opinion is not imaginary, they straightway informed us that they have not seen the dam or abutments at all, but were asked to assure us, I suppose on a professional guess, that our troubling them to take a look. But one engineer stakes his professional reputation on the opinion and assertion that if the river rises above the breakwater we will have a flood. It is great to be professionally educated. If the water comes over, he told you so, in a position to say, "I told you so." If it does not over, he will then say, "I told you so," again.

Now, Mr. Editor, first let me say we do not need or want sympathy, nor are we fearful of a flood any more than we are of a fire. We are not afraid of a flood any more than we are of a fire. We are not afraid of a flood any more than we are of a fire. We are not afraid of a flood any more than we are of a fire.

Now, Mr. Editor, first let me say we do not need or want sympathy, nor are we fearful of a flood any more than we are of a fire. We are not afraid of a flood any more than we are of a fire. We are not afraid of a flood any more than we are of a fire. We are not afraid of a flood any more than we are of a fire.

DEATH TO DANDRUFF GERMS LIFE TO ALL HAIR

No More Dandruff, Falling Hair, Scalp Itch,
Bald Heads or Dull Faded Hair

This is a free country. It's your right, your privilege to use any hair tonic you desire.

But why continue to use a hair tonic that doesn't do what it should do: kill the germs and banish all dandruff and hair troubles?

If you have dandruff, if your hair is falling thin and falling out, if your scalp itches and your hair isn't bright and lustrous, bear in mind this fact: that PARISIAN SAGE, now sold all over Canada, is guaranteed to give the

limit of satisfaction if used for any of the above hair or scalp troubles, or money back.

PARISIAN SAGE is the most delightful and refreshing hair dressing for men, women and children, and is particularly in demand by refined women who desire to increase their beauty by acquiring an abundance of fascinating hair, full of life and lustre. A large bottle of PARISIAN SAGE costs but 50 cents at druggists everywhere. The girl with the Auburn hair is on every carton and bottle.

Don't Worry

Your last Match cannot fail to do its duty, because it's an

Eddy Match

And therefore failure is impossible.

The E. B. Eddy Company, Limited,
HULL, CANADA.

London Branch, 155 CARLING ST. DONALD MCLEAN, Manager.

He repaired this dam year after year, although he did not use the dam for many years, and his unprofessional knowledge told him to repair in the summer to meet the coming danger, and not repair in the spring, as Mr. Glauz suggests, after the danger is past, or the damage done. Both engineers refer to the stagnant hole above the dam if it is removed, but a West London schoolboy would inform them that the cause of the odor is a certain creek about two hundred yards above the dam, and the cause of the hole is the dam itself. There is no danger of the hole below the dam, because the way is clear and is flushed by every rise in the river.

As to rising the waterworks dam to beautify the river, none would be more pleased to see this than West Londoners, providing proper flood-gates are inserted to reduce the water at high water. But Mr. Glauz admits the Springfield dam is not strong enough to stand more than two feet increase in height and two feet extra will not cover the bed of the river north of Dundas street bridge, and would be useless for boating. Why, then, maintain this useless, dangerous and unsightly obstruction in the river. If the river is to be made useful and beautiful? Don't do it by jobs, but do it right. Put a safe, permanent break-water around West London, improve and strengthen the waterworks dam, build it up six or eight feet higher, with ample flood gates to not only let all flood water, but to flush the whole river to its bed at every freshet, then to fill up again with sweet water to a height that will make boating possible away up the north branch, and give us a river we shall be proud of and that would really beautify and benefit the whole city, and attract outsiders to our water sports and parks. And a river, too, that will be free from all dangerous obstructions, a river that can be let out at any time, a river that is no cause of fear or

less to anyone. This is real improvement and progression.

HAVE SPENT \$25,000 ALREADY FOR SITES

Sarnia's Latest Industry Promises To Be An Unusually Large One.

[Special to The Advertiser.] Sarnia, March 21.—The factory plans for the Mueller Brass Works are now being prepared at Decatur, Ill. In a few days representatives of the company will be here to make arrangements for the construction. Twenty-five thousand dollars have been expended by the company so far in the purchase of sites, and it is expected that other large amounts will be expended before long.

Rev. J. M. Gunne, of Wyoming, will conduct the services in St. George's schoolroom this evening. J. M. Macdonald returned this week from a business trip to Montreal, Ottawa and Toronto in the interest of the Lambton Publicity and Development Association.

RUSH OF IMMIGRANTS

G. T. R. and C. P. R. Carrying Thousands to Ontario and the West.

[Canadian Press.] Montreal, March 20.—The annual spring rush of immigrants from the north of England and the Canadian Pacific are now pouring hundreds of newcomers into Montreal almost daily.

Most of the new arrivals are coming from the north of England and Scotland and are bound for Ontario and the western provinces.

The reports of ships due to dock in the near future show that thousands more will arrive in a week or so.

The Royal Edward reached Halifax today and reported a full complement of passengers.

The Victorian, due on Friday, is bringing 1,500; the Hesperian, due next week, has 1,300.

The Ansonia, which reached Portland yesterday, brought 1,000 passengers destined for the Canadian West, while the C. P. R. announces that all its ships are well booked up.

MURDERED IN REVENGE

Italian Woman of New York Shot to Death in Her Home.

[Canadian Press.] New York, March 21.—Mrs. Pasquella Spinelli was found murdered late last night in a stable of which she was part owner, directly opposite her home on One Hundred and Eighth street. Nellie Lenore, the 20-year-old daughter of the woman, looking from the window of her home, saw two unknown men rush into the stable door and shoot her mother down. The murderers escaped before she could call the police. The daughter attributed the murder to revenge for the killing of Frank Monico, a young burglar, in her home last fall. For months the two women kept themselves closely guarded in their home, but last night the mother ventured out for the first time, to her death.

DIE D OF EXPOSURE

John Clements, Aged 70, Wandered Away From House of Refuge.

[Special to The Advertiser.] Sarnia, March 21.—At an inquest held last evening to investigate the death of John Clements, a verdict was brought in that he died from natural causes.

Clements, who was 70 years of age, had been an inmate of the House of Refuge. He wandered away on Tuesday evening, and when found he was seriously ill from the effects of exposure that he died in the local jail soon afterwards.

Clements had a habit of frequently wandering away, and had many times been warned not to repeat the practice.

WEST LONDONERS TALK BREAKWATER

Boosters Think the Logs Should Be Taken From Spring-bank Dam.

DANGER OF A FLOOD

Residents Went Into the Matter From All Standpoints at Meeting Wednesday Night.

That the members of the West London Boosters' Association are divided in opinion as to the possibility of having \$200,000 spent on a permanent breakwater, was shown at the regular weekly meeting Wednesday evening, when considerable time was devoted to a discussion of the plans suggested by the city engineer at the suggestion of Ald. Coles.

Further there were some among the members who expressed the belief that the removal of the logs from the Springbank dam, was shown at the regular weekly meeting Wednesday evening, when considerable time was devoted to a discussion of the plans suggested by the city engineer at the suggestion of Ald. Coles.

Proud of West London, the members of the West London Boosters' Association are divided in opinion as to the possibility of having \$200,000 spent on a permanent breakwater, was shown at the regular weekly meeting Wednesday evening, when considerable time was devoted to a discussion of the plans suggested by the city engineer at the suggestion of Ald. Coles.

At another time, when people were going excited over the prospects of floods, Dr. C. I. Campbell, who was then mayor, ordered the removal of the logs from the Springbank dam. The water rushed through in tremendous volumes, and there was not the slightest difficulty.

Over the Dam, Mr. Stinchcombe, whose arguments were supported by a number of others, declared that in his opinion the best and most economical method to combat the trouble was to lower the dam at the Springbank at this season, and remove the old Blackfriars dam.

One member who had seen City Engineer George Wright and Mr. Glaubitz, of the water commission, declared that the suggestions of both gentlemen that the Blackfriars dam be retained for the purpose of holding the water back in the summer and off-seasons of low water.

A number of articles published in The Advertiser during the past few weeks dealing with the situation of the water commission and the situation of the water commission and the situation of the water commission.

A Weak Spot. The weak spot near the Blackfriars dam, which is being eaten away by the force of the water, should be reinforced by the force of the water, and a buttress erected to deflect the strong current to the opposite side during the spring freshets.

The suggestion that the Government be asked to assist in the erection of the breakwater for the protection of West Londoners also caused a discussion. Some were of the opinion that the Government should act, but others felt that the water commission should act.

Others, however, contended that the Government should act, but others felt that the water commission should act.

The Government will never support the scheme in this way, and the water commission should act.

Should Not "Knock." "We should not knock in such a manner as this," declared one of the members of the association warmly. "Something is going to be done now. You fellows who are talking this way would be surprised to know that West Londoners are not moving to leave this place."

Another member declared that the water commission should act.

OLD LONDON SOCIETY LADIES OFF ON A TREASURE HUNT

To Search for Hidden Millions In a South Pacific Isle.

[Canadian Press.] London, March 21.—The Evening News, vouches for the authenticity of the statement that two women, both well known in London society, will leave England next month to search for a hidden treasure in an island of the South Pacific.

They have chartered a 200-ton yacht from a well-known yachtman, who will probably participate in the search. The treasure is said to amount to millions, and to have been buried by pirates. Records of the affair, it is added, are in the British Museum.

The two women visited the island last year, and spent five weeks there, accompanied by a representative of the Government to which the island belongs. The investigation that followed was satisfactory, and the two principals returned to the mainland and obtained an interview with the president of the country which owns the "treasure island." He granted a concession, giving leave to remove any treasure found. By the terms of the agreement, the Government will receive one-third of the treasure. The agreement was duly witnessed by the British representative in the country in question.

LA FOLLETTE WILL RESUME THE BATTLE

Victory In North Dakota Over Roosevelt Encourages Him.

Chicago, March 21.—"The time for talk has gone by; the time to do is at hand. I shall campaign from now on until the last delegate is elected, in the same spirit, with the same definiteness as to principle and with the same confidence in the result as in North Dakota."

This was Senator Robert M. La Follette's announcement early today after reading late returns from the North Dakota presidential primary.

Washington, March 21.—A statement today from the La Follette national headquarters says that in Wisconsin, Nebraska, Oregon and California and other states, "Mr. La Follette's candidacy will be submitted just as it was in North Dakota."

Fargo, N. D., March 21.—With 1,167 of the 1,800 precincts in the state held in the North Dakota presidential preference primary election yesterday, Senator La Follette's plurality in these precincts is 11,283.

Complete returns from 27 of the 49 counties in the state show that Roosevelt is 7,500 votes behind La Follette. The counties reported include Grand Forks and Cass.

MINE WORKERS MAY MODIFY DEMANDS

Operators Expect That There Will Be Suspension In Anthracite Region.

[Canadian Press.] New York, March 21.—While many of the operators believe that there will be a suspension of work in the anthracite region on April 1, they expect that the miners will, within a few days, submit a proposition containing modified demands which will lead to further conferences.

Vice-President Loomis, of the Lackawanna Railroad, has just returned from the hard coal region and says: "The position of the operators is the same as it was when the last conference ended. The operators are ready to meet the miners when they have any modified proposition. We hope for peace, but we cannot candidly say that we do not expect any suspension of work after the April 1 holiday."

Mr. Loomis said that he did not find any feeling against the companies by the miners, and that most of the men were not in favor of a strike.

WRESTLING WITH PART OF HOME RULE BILL

The Irish Leaders In Consultation With The Cabinet Committee.

[Canadian Press.] London, March 21.—That the home rule bill has not yet been finally drafted is evident from the fact that the Irish leaders were called into consultation yesterday with the cabinet committee concerning the details of the measure.

The meeting was shrouded in the utmost secrecy. It lasted only thirty minutes, but it was a half hour of intense discussion.

Mr. O'Connor had spent two and a half hours in Premier Asquith's official residence at Downing street wrestling with the Premier, Augustine Birrell, the Irish secretary, and other members of the cabinet over the financial provisions of the proposed bill. The difficulties in this respect are understood still to be unsolved.

KAISER CHANGES MIND. Berlin, March 21.—The German Emperor today received Johannes Kaempf, the speaker, Heinrich Dove and Dr. Hermann Sigismund Paasche, the deputy speakers of the Reichstag. In audience, after having refused to meet them because the Socialist, Philip Scheidemann, who was first selected as one of the deputy speakers, had declined to participate in a court function, Herr Scheidemann's selection as deputy speaker was not confirmed.

OCEAN STEAMERS. Portland, Me., March 21.—Arrived: Steamer Hungarian. New York, March 21.—Arrived: Steamer New York from London; Arcadian, from Bermuda.

BLIZZARD AT TORONTO. Spring Ushered in by a Heavy Fall of Snow and Wind.

[Canadian Press.] Toronto, March 21.—Spring was ushered in here this morning with a blizzard which eclipsed any other storm of the past year for wind accompanied by a heavy fall of snow. Banks of heavy white crystals several feet deep stretch across the streets in the middle of the blocks, while the corners, frost-laden whirled, are swept clean.

The street cars are a little out of the schedule, but the delay is not serious. Trains are behind time and traffic generally is interrupted to an uncomfortable extent.

ARMING COURT CLERKS. New York, March 21.—As a result of the sensational killing of Judge Masie and officers of his court at Hillsville, Vt., Chief Magistrate William MacAdams, of the New York city courts, has decided that all the uniformed attendants and clerks in the courts under his jurisdiction must carry revolvers.

ARMING COURT CLERKS. No Obituary, Says Dr. Mary

New York, March 21.—Dr. Mary Walker, who has been generous all her life, for several days, was reported much improved today. Last night she asked for pen and paper, and wrote out this statement regarding her condition: "Don't waste your time writing my obituary now. It will be stale before you have occasion to use it. I expect to add a long record to my life. I am not dead yet. I have never sent for a doctor in my life. I have always been my own physician. I have got so few brains that I need them, I only went to the hospital for one night to rest up."

ALLEN MURDER GANG SEND NOTE OF WARNING

Strangers Told To Keep Out of Hills Where They Are Hiding.

[Canadian Press.] Hillsville, March 21.—Sidna Allen and his gang today apparently are no nearer capture than they were a week ago, when they rode back to the mountains after the tragedy that blotted out the circuit court of Carroll County. Nearly every clue run down by searching detectives and posse men has proved to be a false one, and if a warm trail really has been struck the fugitives have been too wily for their pursuers. Poses have surrounded three different mountain strongholds in which the Allens were reported to have been run to cover only to find upon closing in that the outlaws either had escaped or had not been cornered at all.

The town is excited over a report that a party of the Allens or their sympathizers rode to a point within three miles of Hillsville last night and placed a notice of their own beside the governor's posted proclamation offering rewards for the wanted clausmen, dead or alive. This is the notice said to have been posted:

"To those who have made it their concern: We have plenty of arms and bullets. We know how to use them. These hills are an unfriendly place for strangers to visit. Remember this: You can get us in the end, may be, but we will get you first."

TOBACCO MAN FINED; CHAFFED THE P. M.

Fred Dyer, of Richmond St., Had Some Fun for His Money.

Fred Dyer, a Richmond street tobaccoist, who sold cigarettes to some person on Sunday last, and who was charged with this offense in the police court this morning, pleaded guilty and paid a fine of \$3. Stepping up to the rail in a rather chipper mood, Dyer handed the money to Police Magistrate Judd.

"I don't take that," said the court, "as he pored over the docket. 'Give it to Mr. Moule, the clerk.'"

"Won't trust you, eh?" he inquired with the air of a man who had learned something worth the three-dollar fee.

The magistrate took the remark good-naturedly and just smiled. Policeman McIntosh, while going his round last night, came upon a drunk who, on being taken to the station proved to be a namesake, Robert McIntosh. Robert, the intoxicated, was discharged this morning. Samuel Caloney was dealt with in a like manner.

William May, who peddled milk without having his license number attached to his wagon, was fined a dollar and fifty cents costs.

Mike Flannagan, an Indian-hater, who became intoxicated, was fined \$10, with the option of a month in jail.

BLIZZARD AT TORONTO

Spring Ushered in by a Heavy Fall of Snow and Wind.

[Canadian Press.] Toronto, March 21.—Spring was ushered in here this morning with a blizzard which eclipsed any other storm of the past year for wind accompanied by a heavy fall of snow. Banks of heavy white crystals several feet deep stretch across the streets in the middle of the blocks, while the corners, frost-laden whirled, are swept clean.

The street cars are a little out of the schedule, but the delay is not serious. Trains are behind time and traffic generally is interrupted to an uncomfortable extent.

TOO MANY GOING NORTH SAYS CHAMP CLARK

U. S. Speaker Has Homestead Bill to Keep Americans From Canada.

Washington, March 20.—Champ Clark, Speaker of the House and contender for the Democratic presidential nomination, who was severely criticized last summer for his Canadian annexation utterance, relinquished his gavel long enough today to take the floor in support of a homestead bill intended to put a stop to the constantly increasing emigration from the United States to Canada.

The bill proposes to reduce the period a homesteader must live on his land from five to three years, and to allow him to absent himself from his holding for five months for each of the three years.

Speaker Clark spoke earnestly for ten minutes. He said in part: "To me the most painful feature of the day in which we live is to see a constantly increasing stream of our very best American citizens of this country going to Manitoba and Alberta. On one day in my country, one of the richest and largest and most beautiful counties under the sun, 42 families loaded up an entire freight train, as much as one of these big engines could pull, chartered the train and pulled out for Alberta. There were not fairly amongst them who was not fairly well-to-do. Another man in my district sold his farm for \$26,000, and his stock and other valuable assets run the sum up to about \$40,000. He moved to Manitoba and entered or purchased 10,000 acres of that land up there. He gave to each of his eight children one thousand acres, keeping 2,000 acres for himself. Those are the kind of American citizens who are leaving this country and going to the Canadian Northwest."

"The immigration agent up there estimates that every American citizen who goes over there carries with him an average of \$10,000 and 240 acres of land. He will want to depart from the United States to secure a home in a foreign land."

Quebec, March 21.—The report of returns on the church union vote taken in the presbytery of Quebec shows a total majority of 436 in favor of union. Seventeen congregations and four missions made returns, but in several the vote was light, and at Three Rivers, where there was a unanimous vote east, both for the principle and for the basis submitted, only one-fourth of the members voted.

The total vote for union was 1,221, composed of 51 elders, 843 members and 327 adherents. The aggregate vote of 188 against union was made up of 28 elders, 501 members and 246 adherents. The majority of 436, and also a majority of elders, members and adherents.

The total vote for union was 1,221, composed of 51 elders, 843 members and 327 adherents. The aggregate vote of 188 against union was made up of 28 elders, 501 members and 246 adherents. The majority of 436, and also a majority of elders, members and adherents.

Quebec, March 21.—The report of returns on the church union vote taken in the presbytery of Quebec shows a total majority of 436 in favor of union. Seventeen congregations and four missions made returns, but in several the vote was light, and at Three Rivers, where there was a unanimous vote east, both for the principle and for the basis submitted, only one-fourth of the members voted.

Judging By the Past

In 1906 the operators and miners did not agree, and stopped work for eight weeks.

In 1909 there was no cessation at all.

This year all the agreements in the Hard and Soft Coal regions end April 1. It's not likely there will be a long shut-down.

LONDON AND DISTRICT

After 54 Years.

Mr. J. Fletcher, of Montreal, Inspector of tariffs for the C. P. R. Telegraph Company, was in the city on Wednesday. He was born in London, but has not been here in 54 years.

Hand Injured.

Peter Stone, a young man employed at the Watson box factory, sustained a very painful injury to his hand yesterday afternoon while at work, when the member slipped against a circular saw and was badly torn. The injury was dressed by Dr. J. B. Campbell.

Boy Scouts' Band.

A bugle band in connection with the Boy Scouts of the city was formed Tuesday evening. Several members of the Boy Scouts were present at the meeting and Sgt. Thomas Welch, of the R. C. R., has been placed in command. A meeting will be held on Thursday next, and the officers would like to see a large turnout.

Prof. Cappon Coming.

Prof. Cappon, of Queen's University, will deliver an address at the annual banquet of the Western Ontario Alumni Association of Queen's University to be held in the Tecumseh House during the first week in April. He will also deliver a lecture to the Art League of this city. It is expected that a large number of prominent graduates of Queen's will be in attendance at the function.

After a period of ten weeks of continuous sleighing, that means of getting about has been brought to an end by the recent thaw, and local people are beginning to put away their cutters and various sleighs for good. From all over the district come reports that the roads are in a horrible condition, being fit neither for runners nor wheels. Many of the roads are in such bad shape that the farmers will not venture out with loads of any size until the snow is gone and the roads dry up a little.

Late I. M. Mayell.

Friends of Mr. I. M. Mayell, a former spice manufacturer of this city, and prominent member of Dundas Centre Methodist Church, the news of whose death was contained in a dispatch to The Advertiser from Kingston yesterday, were deeply grieved to learn of his demise. Mr. Mayell resided in London for a great many years, and had charge of the Bible class at Dundas Centre Church. Two years ago his wife was struck and killed by a trolley car, and since that time he had been in poor health. Mrs. Mayell was buried at Dundas, and the funeral of her husband will be held to the same cemetery from Kingston on Friday afternoon.

Teachers' Salaries.

There will be a special meeting of the board of education at 5 o'clock this afternoon to discuss the question of teachers' salaries. At the last meeting of No. 1 committee it was decided to recommend that the maximum for women teachers be increased from \$750 to \$800, and male principals from

Very Low Rates and Special Trains

For Home-seekers.

Those taking advantage of the Home-seekers' rates will be in effect April 2, 16, 30, May 14, 28, June 11, 25, July 9, 23, Aug. 6, 20, Sept. 3, 17, and round-trip second-class tickets will be issued via Canadian Pacific Railway from Ontario points at very low rates, for example, Winnipeg and return, \$34.00, Edmonton and return, \$42.00, and other points in proportion. Return limit, 60 days.

For the accommodation of Canadian Pacific Railway passengers, a special train will leave Toronto 2:00 p.m. on above dates, comprised of Tourist and Colonist Sleepers. Colonist Sleepers may be occupied free of charge. Passengers, however, must provide their own bedding. Tourist Sleeping cars will be operated through to Edmonton via Saskatoon, also through to Winnipeg and Calgary. A moderate charge is made for berths in Tourist cars.

Both Tourist and Colonist cars are provided with cooking ranges, which trainmen have instructions to keep in operation. Full particulars from any Canadian Pacific Railway agent. Ask for copy of Home-seekers' Booklet.

partly with a view to their resemblance, as depicted by Mr. Gibson, to the characters in Mr. Chambers' book. The result has been that the play is a delight to those who have read the book, inasmuch as it verifies the mental picture they have made during the reading of "The Common Law."

Hanlon's "Fantasma."

Hanlon's "Fantasma" will be the attraction at the Grand Tuesday night. "Fantasma" comes this year in a bright new dress, with many brilliant new features never before seen in this bewitching and enchanting spectacle and pantomime. The Hanlions have provided numerous new illusions and stage effects, which are entirely new and different from their previous efforts in this direction. The basis of the story remains the same, but the book has been revised, and there is a lot of new music. There are several wonderful scenes, one taking place at the bottom of the sea, another in the enchanted garden, another in the haunted castle, and one in the magic bed chamber.

The Auditorium Attraction.

The Kellogg-Haines Singing Party, who are to appear in the Auditorium Saturday night, are all noted artists. Every member of the company has an extra good voice, but their claim to recognition is in their quartette work. It is very doubtful if any other mixed quartette in America can approach them in perfect blend, and realizing ideal quartette work.

DEER ARE STARVING AT GOVERNMENT PARK

Deep Snow Has Prevented Them From Getting Supply of Food.

[Special to The Advertiser.]

Ridgetown, March 21.—Reports from the Government Park at Ridgetown indicate a serious conditions among the deer there as a result of the severe winter weather.

The snow has been so deep that the underbrush which, under ordinary conditions, provides food for the deer, was buried, and the animals have been in a bad condition. A large number are reported to be dying for want of food.

The deer in the woods have multiplied very fast during the last few years, and while the feed itself was scarce, the demand for it was also increasing. The Government will be urged to authorize the ranger to provide hay or fodder of some kind and save the animal life of the park, that it has been otherwise encouraging for years past.

The Young People's Union of Ridgetown at a union meeting held to-night discussed the matter of starting something in the form of a Y. M. C. A. The matter was referred to a committee to confer with some of the businessmen as to the practical working out of the scheme.

The committee appointed to arbitrate on the matter of the electric light plant, met today, and adjourned until March 28, to give time to look at the evidence on both sides.

FERRY COMPANY MAY SELL ITS FRANCHISE

Claims It Is Impossible to Give Better Service Unless Rates Raise.

[Special to The Advertiser.]

Sarnia, March 21.—It is reported that the Sarnia and Port Huron Ferry Company is anxious to sell out, provided it can find a suitable purchaser. The company claims that it is making only 6 per cent profit, and outside of the employees the only salary paid is \$40 a month to the president, Mr. Mac-McGowan. In proof of this the company is willing to allow the license committee to examine the books.

If an increase in fare is allowed the company is willing to improve the service, but under the present rates they claim it will be impossible to do so. More will be known of the matter in a few days.

At the last council meeting a petition was read from the Northern Navigation Company asking that the council use its influence to extend the time of closing of the postoffice in the evening. The mayor and the clerk were appointed a committee of two to write to the Postmaster-General explaining the situation here, and request a later closing hour. Word has been received that the postoffice will now be kept open until 10:30 p.m. for the receipt of mail instead of 9 p.m.

This will benefit the people in general, as well as the Northern petitioners, and much satisfaction is evinced over the matter.

Many of the citizens complain of the street car company's snowpiling piling snow on both sides of the street, and of it being left there to be carted away by the city teams.

Cars Derailed.

The derailment of two freight cars on a train at Princeton blocked the Grand Trunk main line there for a time last evening. No person was injured, and there was no trouble, other than the delay, was not serious.

Piles Cured At Home

Quick Relief—Trial Package Mailed Free to All in Plain Wrapper.

The Pyramid Smile.

Many cases of Piles have been cured by a trial package of Pyramid Pile Remedy without further treatment. When it proves its value to you, get more from your druggist, at 50 cents a box, and be sure you get the kind you ask for. Simply clip out free coupon below and mail today, together with your name and address on a slip of paper. Save yourself from the surgeon's knife and its torture, the doctor and his bills.

Free Pile Remedy

Cut out this coupon and mail to the PYRAMID DRUG CO., 433 Pyramid Building, Marshall, Mich., with your full name and address on a slip of paper. A sample of the great Pyramid Pile Remedy will be sent you at once by mail, FREE, in plain wrapper.

574 yw

ROUTE LAID OUT FOR NEW EXTENSION

Street Railway Committee Got Down to Business Last Night.

SCHEDULE IS CRITICIZED

Motion Put Through to Compel the Company to Operate Cars on Time in This City.

A definite plan for north end track extension was decided upon at a meeting of the street railway committee held Wednesday evening, and if the council adopt the suggestions made, the line will run

From Wellington street, along Victoria to William;

Down William to Oxford;

East on Oxford to Adelaide street;

Down Adelaide, across the C. P. R. tracks, to Central avenue.

This is somewhat different from the original request of the north-enders, but is satisfactory, it is understood, to the residents of that district.

In addition, it was decided to instruct the city engineer to force the company to maintain the schedule as laid down in Bylaw 916, and also to put on modern cars and keep them clean and sanitary. It was rather a large bill of fare for one evening.

The Level Crossing.

City Clerk Baker reported that he had taken the matter of an appeal to the Dominion railway board for a level crossing at either William or Adelaide street, up with City Solicitor Meredith, and he had come to the conclusion that it would be better for the council to decide on the route it was intended to follow, and then allow the street railway to go to the commission.

"Both Manager King and Mr. Ivey, their solicitor, refused to go," commented Ald. Bennett. "Can we compel them to do so?"

"We have a mile and three-quarters of track coming to us, so let us see where it will go," said Ald. Spittal. A petition from the north-enders was presented, in which it was stated that a line from Wellington or Richmond streets, along Victoria to William, down William to Oxford, and thence to Adelaide, and on to Central avenue, would satisfy them.

"I move that we extend the line in the north end from Richmond or Wellington street, as suggested," said Mayor Graham.

Against Removal.

Mr. J. M. McEvoy presented a lengthy petition against the removal of the Wellington street line, and asked that their wishes be agreed to in this matter. Mayor Graham then modified his motion to meet this request.

Ald. Wright had a plan to submit to the C. P. R. to the effect that Fall Mall street would be closed, provided the company would erect their freight sheds on that street, and open up Wellington. Then the car line could be run along Wellington.

"That will never be done," commented Ald. Bennett. Mayor Graham's motion was passed, there being no objection to it at all.

"We might as well compel the company to live up to the bylaw," said Mayor Graham. "They do not maintain the proper service, and their cars are in a disgraceful condition. Not one of them is equipped with air-brakes or anything like that."

The Schedule.

City Engineer Wright reported that he had timed the street railway cars, but they did not maintain the schedule. "I move that we compel them to do so," declared Mayor Graham. "The city solicitor stated that he would stand behind the engineer."

This motion carried, and immediately his worship moved that the cars be made sanitary, and that they be equipped with modern devices for heating. There was no objection to that, either.

After providing the north end extension, the city has still about one-sixth of a mile of track coming to it. City Engineer Wright thought that Horton street should be double-tracked. "It would improve traffic greatly."

"The company should do this work themselves without demanding mileage," commented Ald. Johnston. "We had better allow the other matters to stand until we see what the company will do," said Mayor Graham. "It is just as well when we are dealing with them to have a little the best of it."

This was all the business transacted. Those present were Ald. Blandford, chairman, Ald. Coles, Ald. Moore, Ald. Robinson, Ald. Richter, Ald. Spittal, Ald. Murphy, Ald. Ross, Ald. Bennett, City Engineer Wright and Secretary S. Baker.

DIOCESE OF LONDON NOT IN AGITATION

Circulars Sent Out by the Constitutional Defence Association.

It was stated to The Advertiser today that the Roman Catholic Diocese of London will take no part in the agitation for the establishment of separate schools in Keewatin in accordance with the request of the Constitutional Defence Association of Canada.

Rev. Dr. Mahoney, vicar-general of Hamilton Diocese, has announced in Hamilton that the clergy there has adopted the same attitude with regard to the Bourassa propaganda.

Circulars sent out from Montreal and signed by W. H. Wickman, of the society mentioned, have been received, but have not been considered.

"The individual whose name was attached is not known to us and we do not know what authority he had for sending it out. The whole thing may be a hoax for all we know here," said Rev. Dr. Mahoney. He added that the matter had not come up for consideration.

MAY RECOVER

Young Petrolia Man Struck by Express Is Very Slightly Improved.

[Special to The Advertiser.]

Petrolia, March 21.—Asa Robertson, who was so seriously injured by being struck by the night express recently while walking on the tracks, is doing very well at the Englishman Hospital here and the doctors think he has a favorable chance for recovery.

Thomas Irvin left today for the Burma oil fields.

George Broughton, formerly of Sarnia, but now of Port Huron, is here for a few days.

Henry Brennan and wife, who recently sold their farm in Somers, are spending a few days with friends in Petrolia before leaving for British Columbia.

BETTER CONDITIONS FOR THE ANGLERS

Fish and Game Association Hold a Meeting Tonight.

A meeting of the members of the Fish and Game Association has been called for this evening at Duffield Block, when means of bringing about better conditions for the anglers of the district will be discussed.

It is expected that if organized action is taken the fishermen will be able to induce the Government to restock the Thames and protect the fish for a time. The stream was filled in the vicinity of London a few years ago, and the good effects are still apparent, although it is thought that it is now time that further action be taken.
