## "BUILD UP CHATHAM!" THE CITIZENS' WATCHWORD

Ratepayers Should Not Allow Matters of Personal Spite  
to Influence Them in The Present Hour—Everyone  
Should Look to City's Best Good—Be a Boomer!

The Planet is in receipt of the following letter:

To the Editor of The Planet:

Dear Sir,—Being a member of the Board of Trade, and also one of the workers who are canvassing the city in the interests of the Wolverine Brass Works By-law, I address this letter to you, hoping it will prove of benefit to the best interests of the city. I have been greatly surprised at some of the reasons given by some for being opposed to the by-law. I am very sorry to have to state that the only reason that some give, who say they will oppose the by-law, is that they have some grievance or petty spite against a member of the City Council or Board of Trade who is working for the by-law.

I would just like to ask these persons if it is fair, or loyal, to vote against a measure that will greatly benefit the whole city, just because they dislike or do not approve of some actions of some member of the Board of Trade or Council.

Again, I cannot see for the life of me how, through voting against, they can get even with or injure any person who is supporting the by-law. They are only injuring the city as a whole, and themselves as much as any other citizen.

I appeal to every ratepayer to bury any and all personal feelings and be loyal to our fair city, as it is only through a policy of this kind that we can expect to build up Chatham.

Vote for the by-law and progress! Settle your petty grievances at some more suitable time.

Yours Respectfully,  
RATEPAYER & WORKER.

Balloon At Military Manoeuvres Drops Seven Hundred Feet

Rome, June 3.—A tragic incident took place during a review body yesterday of troops by Victor Emmanuel.

A military balloon was sent up to a height of 700 feet, with Ullivelli in the car.

A storm which had been coming up burst suddenly, and the thousands of spectators were horrified to see a flash of lightning strike the gas bag. There was an enormous burst of flame and the terrific detonation and the collapsed balloon, with its dangling car, fell to the earth over a mile from the scene of the review.

Crowds of persons, afoot and in autos and other conveyances, rushed in the direction where the balloon had fallen. Ullivelli was found alive, but unconscious. He was placed in an auto and rushed to a hospital, where he died without regaining consciousness.

King Victor Emmanuel and the military authorities went to the hospital after the review to enquire concerning him.

**TAMMANY HEALERS WON**

A game of baseball was played last Friday evening on Tecumseh Park, between the Tammany Healers and Canada Flour Mills team.

The game was very enthusiastic and some good playing was done. Both teams are lacking in practice, but in the course of a short time they will be able to play a good game.

Pleasance was good all through with the exception of the second innings, in which he allowed five runs on a couple of passes, and a few wild throws. There was a good attendance of rooters for both teams, and much enthusiasm was aroused in everyone.

The following was the lineup:

C. F. M.—C. Clements p, Robert 1b, Ward 2b, Duff 3b, Sager ss, McDonald, Walker rf, Dyer cf, Edinger.

Tammany Healers—C. Taylor, p, Pleasance, 1b, Trotter, 2b, Woods, 3b, Sager, ss, Raynor, lf, Willard, rf, Winegarden, cf, Head.

Earl Kimberley acted as umpire to the satisfaction of everyone. The game resulted in a score of 18 to 8 in favor of the Tammany Healers.

The winners have arranged a game with Leamington to be played here the latter part of the week.

**Insolvent Broker Suicides.**

London, June 3.—Frank Boy May, who was a member of the stock exchange, was declared insolvent on the exchange Saturday morning and in the evening committed suicide at his residence, near Marlow.

Mr. May was a cricket player and a well known sportsman.

## COULD NOT REMEMBER

Witnesses Of Colborne  
Street Row Had Their  
Ears Closed

Judge Reserves Decision In  
Eady Case—Arnold Out  
On Good Behaviour

There was a full house at Judge Houston's Court this morning. Nine of the visitors were witnesses in the insulting language case from Colborne St., in which Bessie Ray was accused by Bille Calendor of calling the former a rather hard name. The case first came up last week when it was adjourned till this morning.

Most of the witnesses called appeared to be afflicted with defective memories. They could not just exactly remember what Bessie Ray did call the Calendor girl. They all appeared to know that there was some kind of a row on, but they could not definitely recollect all the linguistic bouquets which the participants favored each other with. The result was that the Judge dismissed the case without costs.

The witnesses called were, Belle Calendor, Lucinda Calendor, Bessie Ray, Josephine Lague, Alice Ray, Oliver Purdy, Geo. Purdy, Thomas Clarke, Chas. Lague and Mrs. Lague.

The young man Arnold, who pleaded guilty to stealing five dollars from Wing Lung, of North Chatham, came up for his final hearing this morning. His father has made restitution to the Chinaman, and he offered to pay the costs of the case, if the boy were let out on suspended sentence.

Judge Houston gave young Arnold quite a strong lecture on the evils which beset the path of the transgressor, and allowed him to go on a six months' suspended sentence.

Arnold left the court room with a joyful tread. He was most likely tickled to death to hit the fresh air once more, after a week's confinement in the cells.

But the star case this morning was that of Humane Officer James McGregor vs. Alexander Eady, in which the former was accused of being a party to the ill-treatment of a horse belonging to Livestockman George Lamperd. Crown Attorney H. D. Smith prosecuted, and City Solicitor O. L. Lewis appeared for the defense. Both legal lights were on their mettle this morning, and they had several lively passages-at-arms before the case was concluded.

The witnesses called were, Livestockman Lamperd, Veterinary Surgeons Joseph Kime and Pringle, Fred Johnson, and the defendant, Alexander Eady.

According to the Crown witnesses, it appears that a man named Edwards ordered the horse and rig at Lamperd's livery. He said he had been sent there by Eady, and that they were going to drive out to the 8th concession. Instead, they drove to Dresden, and did not get back till 1.10 the following morning.

When they brought the horse back, it was in bad condition, and required the attention of two veterinary surgeons. It was sick for fifteen days afterwards, and the attendance cost Livestockman Lamperd about ten dollars.

Mr. Lamperd claimed that Eady had promised to make a settlement with him, if Edwards would go half, but Edwards had since left the country, and Eady had not paid up.

Both veterinary surgeons said that they thought that the animal's sickness was caused by its being over-driven, but they could not swear that it was the result of over-driving on the occasion when Eady and Edwards took it out.

O. L. Lewis put up a stiff defense, claiming on behalf of his client, that the horse had not been ordered by Eady, but by the man Edwards, who merely used Eady's name to secure the horse. Edwards had afterwards driven over to Eady's place, and taken the latter out for a drive.

The defendant said he never made any agreement to settle for the veterinary attention given the animal.

Judge Houston reserved decision till Monday.

## A STARTLING ACCUSATION.

At the Master Printers' Guild banquet in London, Ont., a few nights ago, in response to a toast to "Our Humble Selves," Frank Lawson, of Lawson & Jones, printers, London, made a somewhat startling accusation against church organizations as to their methods of dealing with printers. The interest elicited gave every evidence of the printers as a whole concurring strongly in the sentiments.

"In this matter of shopping for prices," said Mr. Lawson, "the church organizations give the printers the most trouble. Not long ago I heard a minister of the gospel, for whom I have the most profound respect, lamenting that men of affairs no longer take active interest in church work, nor regard official positions in the church as positions of honor. There is always a cause for every effect, and if business men have come to look on the churches with a degree of contempt, it is not possible that the methods adopted by the churches is the cause. While fraternal societies and other organizations use their patronage to foster their growth, and while every individual with a heart is favorable to making his patronage reasonably valuable to those from whom he buys, the church organizations and miserly men continue to look only upon their own selfish interests, even to lack of regard for honor in some cases. I feel interested in seeing the church assume a different position in the community, and I candidly believe that business men would readily assume the responsibility which they should shoulder in support of it if they felt more respect for its methods."

Mr. Lawson gave some experiences of methods adopted by clergymen in what he considered unfair competitive methods, one case being cited of tenders being received in London from three or four offices where there was not 10 per cent. difference in these tenders, but that the minister found one office at which he got the work done for 40 per cent. less than any of the other tenders. To a business man who wished to be honest the case would have presented itself at once that either the four other printers had been attempting to rob him, or that the one quoting such a low price had made an error in his calculations.

Another case was cited of a man receiving \$1,800 per annum going to three different printing offices and consuming possibly two hours of his time on a job for which he was at the first office quoted \$175. This man consumed more time in "shopping" computed on the basis of his salary, than printer number one quoted him for the job. "It is needless to say," continued the speaker, "that that man did not get \$1,800 a year in a mercantile establishment; and it would be remarkable if the Board that employs him, had they asked for tenders to fill his position, could not have got a better man for \$1,795.95."

"But," concluded Mr. Lawson, "when we printers see the slogan in flaming letters on a gospel campaign, 'Get right with God,' and feel that we would like to tell someone that a good method of doing this is to act right with man, we must not forget that there are ministers of the Gospel who deserve our every respect; who are agitators for shorter hours on their own account, many of them working long hours overtime month after month and year after year, and putting forth efforts in the cause they represent that no money standard can pay for."

Mr. Borden wears well. He improves with acquaintance, and we feel sure that he will return from his western tour possessed of the perfect confidence of thousands of those who desire a change in the best interests of Canada.—Brookville Times.

Mr. Dewey gave a very interesting paper on writing at a recent meeting of the Galt Teachers' Association. He thought that there was not enough time devoted to writing in the schools in comparison with other subjects. He emphasized the necessity of good penmanship and pointed out the advantage it was to a young man or woman to be an easy and legible writer.

### ROYAL NICKNAMES.

They Tell Briefly the Story of Each King's Career.

How do kings come by the curious nicknames that have been bestowed upon them? would be an interesting subject for some one to write about. We know fairly well how England became the Lion Hearted, its Great, its Conqueror and its Conqueror kings, but how about those of other lands? Thus France has had its monarchs who were termed the Little, the Bold, the Stammerer, the Simple, the Indolent and the Fair, in addition to the Long, Handsome, Beloved, Affable, Fortunate, Good, Wise, etc. German history tells us of one who was called the Fat and another the Blind; also the Child, the Fowler, Blood, Red, Black, Superb, Sharp, Holy and Lame. Russia has had a wonderful list in which the titles of Terrible, Fierce, Lion, Grim, Proud, Impostor and Lightfoot are prominent. Denmark shows a curious array, with its Blue Tooth, Forked Beard, Single, Hungry, Harefoot, Lamb, Plous and Cruel. Hungary has had a Saint, German Thunder, Venetian and a King Mary; Portugal, a Fat, Idle, African and Perfect Spain, a Monk and Gouty and an assortment of oddities, including the Infern, Bad, Noble, Strong, Valiant, Gracious, Sickly, Impotent, Beneficent and Ceremonious. The names in a way tell briefly the story of each king's career.

### LOOK OUT FOR THIS MAN.

If he offers something "better" than Adam's Corn Extractor, it's the additional profit on inferior goods that tempts him. Putnam's is the one sure and painless cure. Use no other.

### Colleagues Anxious.

Toronto, June 1.—Hon. A. J. Matheson called to Attorney-General Foy in England yesterday asking for information regarding the reported illness of Hon. Adam Beck. The reply was that Mr. Beck had not yet landed and that nothing was known of his alleged illness.

The report probably arose out of the cable announcement that Hon. Edward Blake was stricken with paralysis.

### BOOKBINDING.

Orders for Bookbinding should be sent at this office. It is surprising how nice volume can be made of these magazines, even though they are somewhat soiled from much handling. Books, Magazines or Periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books, with any kind of ruling, made to order. ### WOMAN IN PROVERBS.

Uncomplimentary Things Said of Her in Many Languages.

The treatment that womankind receives in the proverbs of various peoples forms the subject of an article by E. P. Robert in the Paris Galette. On the whole, the array is far from complimentary.

Among the Spanish maxims one of the gentlest is "Women and mules obey better when caressed than coerced." Another is "The man wins much who loses his wife." Here are a few more:

Man is tow; woman is fire and the devil blows the bellows.

The tears of women are worth much, though they cost little.

The fox is cunning, but the woman who loves knows far more than he.

The proverb of the Arabs places a very low value on women. Here are some samples:

The beauty of man is his spirit; the spirit of woman is her beauty.

Always consult your wife, but do as you please.

When you want to get square with a man, give him a handsome wife; when you want revenge on a woman, give her a handsome husband.

The Hindus are not much more respectful than the Arabs. They say:—

The coquette is like your shadow; chase her and she flees from you, flee from her and she chases you.

Do you want to test the fineness of gold? Use acid. The strength of an ox? Beat it. The nature of a man? Let him talk. The thought of a woman? There's no way.

Next comes the cynical Chinaman with a cutting maxim:—

The tongue of a woman is a dagger and she never lets it grow rusty. The spirit of a woman is of quicksilver and her heart is of wax.

The Persian says:—

When you go to war, say a prayer; when you go to sea, say two prayers; when you get married, pray all the time.

To a question, "What is a woman?" the Turk answers, "a prisoner"; the Albanian, "a slave"; the Serbian, "a servant"; the Bulgarian, "a companion"; the Greek, "a queen."

The gallant French are among the most brutal in their folk sayings about women. "Where there are dogs," they say, "there are fleas; where there is bread, there is mice; where there's a woman, there's the devil." Another current saying is, "Women and fools never forgive."

Also:—

A woman laughs when she can and weeps when she will.

What the devil can't do, woman accomplishes.

The man who beats his wife is like a man who beats a bag of flour. All that's good flies away; what's left is not worth having.

Man can rely on the fidelity of his dog to the last breath; of a woman to the next temptation.

He who believes his wife deceives himself. He who doubts her is deceived all the same.

Man has two good days in his life; the one on which he takes and the one on which he loses a wife.

Good women are all in the churchyard.

The compiler was unable to find any language in which the proverbs were friendly to women.

### Professional Snake Fighters.

"Last year the number of men, women and children who met a terrible death in India from the bite of poisonous snakes amounted to 25,837. Besides this there were about 4,500 killed by wild animals—chiefly tigers; to say nothing about 66,000 cattle. Every conceivable measure has been taken to mitigate this appalling annual destruction, but with little avail." So writes W. G. Fitzgerald, in The Technical World Magazine for May.

The venomous snakes of India most destructive of life may be placed in the following order: First of all comes the deadly cobra, responsible for nearly nine-tenths of the fatalities; and then the krait, kuppur, Russell's viper, the hampadras, and Baisamp. The water-snakes kill a good many, as we shall see, but they are comparatively rare. A regular organized warfare is waged upon India's myriads of reptiles, and in each district a regular head-tax is paid upon each cobra, and other snakes killed.

"Last year the number of snakes was 782,321, for which rewards amounting to nearly 57,000 rupees were paid. The greatest destruction to life appears to have been in Bengal, where 11,131 people were killed, and nearly 1,000 cattle. In this province alone 55,054 poisonous snakes were destroyed.

The officials charged with this curious work were scattered over the whole vast area, from the Himalayas to Southern Madras, including Bombay Provinces; the Junjib, Central Provinces, Burma, Assam, Hyderabad, and others."

The writer follows this with an interesting article of some length upon the methods pursued by the snake exterminators.

### Value of Constancy.

Spurgeon once visited a lunatic asylum, and there met a man who strutted about in what he meant to be a very impressive attitude.

On meeting Spurgeon the man said to him very solemnly: "I am Sir William Wallace! Give me a bit of bacon."

The descent from Sir William Wallace to a piece of tobacco was too sudden and absurd for gravity.

"Yet," said Spurgeon, "it was neither so absurd nor so sad as to see a professed ambassador of the Cross covetous, worldly, and passionate."

"There are not a few going about making claims of their holiness of life who excite scorn and laughter, when they do not arouse pity."

Let it be always kept in mind that character, revealed subjectively in a holy life and objectively in deeds worthy of God, is the one sure sign of a divine authority.

### The Badge of Honesty

Is an every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Cox, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing by applying to them Dr. Pierce's All-Healing Salve. If your druggist doesn't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicinal or known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Peppermint regulate and invigorate the liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

### The Circus and the Arab Steed.

Circuses are perhaps more to blame for the misrepresentation of the Arab horse than any other source. A friend of mine owns a circus, and I saw his posters a few years ago claiming to exhibit eighteen or twenty of the only Arabian horses brought to America.

He said they were captured with great difficulty and brought to New York by a special permit of the sultan; that they were of the family known in history as the eagle feather horses, so much prized in the queen of Sheba's days; that they were snow white, with big markings in their spots of the tip of eagle feathers.

We don't have to believe everything we read on the circus posters. In this case I am mighty certain these "spotted Arabians" were brought to Albany, Ore. The most peculiar part of this spotted horse business is this, and it is not a very strange reason when you know it, that spotted anything is created by a mixture of different races or different breeds, and that likely accounts for the fact that the Arabian desert in all its history has never produced a spotted, or piebald, horse, possible from the fact that there is never any mixture of blood.

### HELP NEAR AT HAND.

Is what you want when sickness happens at night. Can you possibly find the equal of Nerviline? No, for it stands unequalled in curing pain, internal or local. Earache, toothache and neuralgia disappear in a jiffy. Rub it on and away flies the pain. For cramps, vomiting or indigestion all you need is a drop in sweetened water. Sick or well you'll find Polson's Nerviline invaluable in your house. Get a large 25 cent bottle to-day.

### How to Prevent Nightmares.

Referring to the frequency with which unpleasant dreams, and more particularly the classical nightmare, occur, Dr. Kehrer, the Munich specialist says: "Persons who are subject to disturbances of this sort should allow three or four hours to elapse between the last meal and going to bed; should not let this last meal be too hearty; a one and should make it a point to avoid all indigestible dishes and alcoholic drinks with the evening meal."

Free for Cataract, just to prove merit, a Trial size Box of Dr. Shoop's Cataract Remedy. Let me send it now. It is a knowy-whit, creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc., it gives instant and lasting relief to Cataract of the nose and throat. Make the free test and see for yourself what the preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all dealers.

### Beyond Her Sphere.

Mrs. Finckley-Norah, I just read that a celebrated German doctor says a broom is full of bacteria, so hereafter you'll have to give your broom an antiseptic bath each day. The Maid-I'll do nawthin' av the kind! It'll likely git worse soon an' thin rayquire alkylhol rubs, massage thratments, hypyrdemic injections an' hot water bottles at night, an' I'll have ye understand right now that I'm no thrained nurse!

Women have decided that in case they cannot vote, they will cut out the "Stork" proposition. Perfectly proper. Take Hollister's Rocky Mountain Tea, it is good for most everything. 35 cents, Tea or Tablets. A. I. McCall & Co.

### LONG HAIR MEN.

The Way Massachusetts Protected Against Them in 1649.

The following protest signed by Jo. Endicott, governor; Thos. Dudley, deputy governor; Richard Bellingham, Richard Saltonstall, Increase Nowell, William Hibbins, Thos. Flint, Rob. Bridges and Simon Bradstreet was published in Massachusetts in 1649:

"Protest, against wearing long hair, of the governor, etc., of Massachusetts:

"Forasmuch as the wearing of long hair, after the manner of Russians and barbarous Indians, has begun to invade New England, contrary to the rule of God's word, which says it is a shame for man to wear long hair, as also the commendable custom generally of all the godly of all our nation, until within these few years:

"We, the magistrates, who have signed this paper, for the shewing of our own innocency in this behalf, do declare and manifest our dislike and detestation against the wearing of such long hair, as against a thing unbecomely and unmanly, whereby men do deform themselves and offend sober and modest men and do corrupt good manners. We do therefore earnestly intreat all the elders of this jurisdiction, as often as they shall see cause, to manifest their zeal against it in their public administrations, and to take care that the members of their respective churches be not defiled therewith; that so, such as reform themselves, may have God and man to witness against them. The third month 10th day, 1649."

### ADAM'S FIRST WIFE.

The Fiendlike Lilith Was a Complete Matrimonial Failure.

Whether Lilith was one of the female creations of chapter I or a demon or something between the two, she was, considered matrimonially, a complete failure. She was expelled after living with Adam for 130 years and subsequently became the wife of Satan, by whom she was the mother of the Jinns, so familiar in Persian fairy lore.

The emphatic remark of Adam when he first saw Eve, "This is now bone of my bones and flesh of my flesh," makes, it is suggested, a comparison between Eve and the beautiful but fiendlike Lilith not complimentary to the latter, while the reference on the birth of Seth to him as Adam's son "in his own likeness, after his image," conveys a painful hint of the uncanny offspring born to Adam and Lilith.

Perhaps in revenge for this Lilith—the name occurs translated "night monster" in Isaiah xxxv—became the sworn foe of little children, whom she was wont to strangle with one of her glorious golden hairs unless the watchfulness of their mothers drove her away. It has indeed been gravely suggested by an etymologist greatly daring that our word "lullaby" is simply a corruption of "Lilith, abli" (Lilith, avast!) which mothers and nurses would croon over the cradles or write on the doorpost.—St. James' Gazette.

### An Underground City.

In Galicia, in Austrian Poland, there is a remarkable underground city, which has a population of over 1,000 men, women and children, scores of whom have never seen the light of day. It is known as the City of Salt Mines and is situated several hundred feet below the earth's surface. It has its town hall, theater and assembly room as well as a beautiful church, decorated with statues, all being fashioned from the pure crystallized rock salt. It has well graded streets and spacious squares, lighted with electricity. There are numerous instances in this underground city where not a single individual in three or four successive generations has ever seen the sun or has any idea of how people live in the light of day.

### Don't Stoop When You Read.

The habit of stooping over when reading or writing has a bad effect on most eyes and should be avoided, especially if one is nearsighted. When people approach the age of forty the morning paper is apt to appear blurred, and they complain the printing is getting bad. The trouble is they need glasses. If they do not get them, later on their eyes will deteriorate so rapidly they will be obliged to wear them all the time. On the other hand, if a person puts on glasses when the first warning of "tired eyes" is received he will never be obliged to wear them the rest of his life except when doing fine work.

### Backing His Theory.

"Do you still believe in inherited weaknesses?" "Yes."

"How do you account for the fact that little Mary Binger cries so easy and so often?"

"Her mother worked in an onion canery and her grandmother was an emotional actress."

### A Winner.

Mrs. Goldington—I am amazed, sir, that you should propose to my daughter. You have not known her a week. The Willy Sutor—True, madam.

But I have known you for a long time, and everybody says your daughter takes after you. (He got the girl.)

### Forgetful.

Hestess—Oh, professor, haven't you brought your wife? Professor—There I knew I'd forgotten something!—Punch.

### Pearls of Great Price.

"Your wife's teeth are like pearls." "They ought to be. I paid for them at that rate."—Tatler.

## A Mild Larative

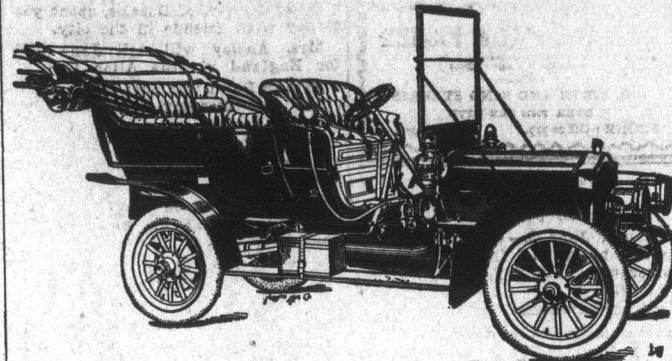

Ask your doctor to name some of the results of constipation. His long list will begin with sick-headache, biliousness, dyspepsia, thin blood, bad skin. Then ask him if he would recommend your using Ayer's Pills for constipation. Just one pill at bedtime, a few times, that's all. We have no secret! We publish the formulas of all our preparations. J. ## THE One Minute Washer

Revolutionized the soiled clothes question and makes domestic life easy. A fly wheel under the bottom of the tub of the One Minute Washer is a feature of the machine exclusively its own. This fly wheel is driven by a gear wheel with crank attached and revolves on little steel balls like the wheels of a bicycle. You would be surprised how hard it is to stop the machine when once it is in motion. Two strokes of the handle are sufficient to get up speed and then the fly wheel does half the work. The construction of this machine is the very best and is made of Louisiana cypress imported from the United States. The machine filled with clothes to its capacity makes from fifteen to twenty reciprocating motions (forward and backward) before coming to a stand still.

The Price Is \$10

After you have used one, twice the money would not persuade you to give it up, if you could not replace it.

## MR. GROVES' FATHER DIES OF PARALYSIS

Thomas Groves, of this city, received word this morning that his father, George Groves, of Ripon, Yorkshire, England, passed away on Whit-Monday, two weeks ago to-day. The deceased gentleman was taken ill on the 15th of May with a stroke of paralysis, from which he never recovered. Mr. Groves, of this city, had a letter from him only a month ago, and at the time of writing, he claimed to be in excellent health. Mr. Groves received word from his sister at noon to-day that his father had passed away.

The family which survive are: James, of Ripon; Thomas, of Chatham; Mrs. Chas. Hill, of Newcastle-on-Tyne; Miss Groves, of Ripon; and Mrs. Fort, of Halifax, England.

On the 27th of February, one of the sons passed away from an attack of pneumonia. Ever since this son's death, the elder Mr. Groves has never been the same, and it is thought that this sad event had a great deal to do with the hastening of his own end.

The death is particularly sad, in view of the fact that Mr. Groves intends to go to his home in England this summer. One of his chief objects in making the visit was to see his father, whom he has not seen for over 26 years. He will take the trip, anyway, but his father's death has added a touch of sorrow which will mar the pleasure to a great extent. Mr. Groves has many friends in this city who will sympathize with him in his very sad bereavement.

## MRS. GARDINER'S DEATH WAS VERY SUDDEN

The death of Agnes Gardiner, wife of J. M. Gardiner, Queen street, occurred last night at 12 o'clock, after a short illness. Deceased was 64 years, 1 month and 17 days old, and died of pneumonia. Two weeks ago yesterday she was quite well and occupied her place in the First Presbyterian Church.

The deceased lady was born in Scotland and came to this country at the age of five years. For several years she resided at Tilbury and Blenheim, and has been a resident of this city for twelve years.

The funeral will take place on Wednesday at 10 a. m., from her late residence to Evergreen Cemetery, Blenheim. Rev. A. H. MacGillivray will conduct the obsequies.

## VERY LARGE TURNOUT

The second military church parade of the season took place yesterday morning, when the members of the Twenty-fourth attended divine service in the First Presbyterian Church. There was a good turnout, and the Regiment made a very creditable showing.

The service was bright and attractive throughout. A splendid and appropriate sermon was delivered by the pastor of the church, Rev. A. H. MacGillivray, and the music rendered by the choir was of the usual high order. Besides an excellent anthem, a selection was given by the First Church Male Quartet.

The special feature of the marching was the excellent music provided by the brass band. This band is making good progress, and considerable improvement is noticed upon each appearance. There were a number of the bugle band also in the parade. They did not play, however, as their organization is not yet complete. They are going ahead with the enthusiasm, however, and it is expected that in a very short time they will again be worked up to their former state of efficiency.

## MURDERS WRONG WOMAN.

Young Mother Victim of Drunken Jealousy.

Freeport, Ill., June 3.—Mrs. Edna Humelbagen, 19 years old, was shot to death yesterday by Herbert Springer, 18 years old, of Rockford, Ill., who chased Mrs. Humelbagen from her baby through a crowd in Ninth street, thinking she was a Rockford woman who had spurned him. Springer last night revived from an alcoholic stupor and raved over the fatal mistake.

Mrs. Humelbagen had been married only seventeen months, and was wheeling her six-months-old baby along Ninth street, on a shopping trip. As she stopped to re-arrange the infant in the cab, Springer stepped up and muttered a threat that caused the young mother to retreat a few paces from the baby carriage.

With a hand made unsteady by drink, Springer drew a revolver and fired at the woman, missing her. As the man paid no attention to the child, but started toward the mother, she turned and fled down the street, pursued by Springer.

A second shot missed Mrs. Humelbagen as she ran, and nearly overcame by fright, she tried to enter Aton's grocery, calling for help. Just as she reached the door of the grocery, Springer fired a third shot, and the bullet struck her dead as she fell into the arms of Grocer Aton, moaning, "Save me for my poor baby's sake."

## COUNTY MUST PAY ALL.

Decision, Handed Down By Judge McHugh, Affects Many Bridges.

Windsor, June 3.—County Judge, McHugh has decided in favor of Rochester township in its suit brought against Essex county over the construction and maintenance of the bridge over the Ruscombe river. The bridge proper is one hundred feet in length, with approaches on either side which add five hundred feet to the length.

Judge McHugh upholds the township's contention that these approaches are a part of the bridge. The statutes require the county to assume all expenses of bridges over three hundred feet long. There are about twenty-five such bridges in this county.

The decision, if it stands, will compel the county to take over all of them and assume a large and unexpected expense.

## Druggist Refused Drug.

Pense, Sask., June 3.—The four children of Mr. and Mrs. Bottram, who resides here, have died from diphtheria. An order was sent to a firm of druggists in Regina for anti-toxin, but as the money did not accompany the order, the drug was not sent.

If the anti-toxin had been obtained it is believed that the lives could have been saved, and the incident has caused considerable severe comment.

Sammy Kovinsky was arrested Friday on a charge of receiving stolen goods. The police are going to be quite strict with the junk dealers from now on, as they believe that they should be more careful in buying goods from small boys. It seems that the junk dealers keep no books or data as to whom they buy their goods from, and the police have no means of finding out who the guilty parties are.

### GRADUATION GOWNS.

What Materials to Select For These Important Costumes.  
What materials and styles of gowns to select for the graduation exercises are problems that are already perplexing high school girls who finish their course the last week in June. White naturally is the popular color that all are agreed upon, but as to the kind of materials to choose and the models to use for the frocks there are no such definite rules to follow, and each girl is left to satisfy her own desires and to get what is most becoming and within the limits of her spending money.

### GRADUATION GOWN.

Since soft, clinging materials are favorites this season young girls will find that in buying veils, tulle or net for their dresses they are not only securing sheer weaves that are best suited to their ages, but are also getting those that are most worn now.

The style of a commencement gown should be in keeping with the wearer's height, the fashion of hairdress and with her age, so that the model suits each young woman.

According to the individual taste, a frock may be exceedingly simple, with long or three-quarter length sleeves and high neck, or it may be quite decorative, provided the trimmings are girlish and are made of ribbons, sheer lace, pompons or delicate flowers, such as wild roses in light pink, lilies of the valley or forget-me-nots.

### Why One Should Laugh.

A good laugh is the best medicine in the world.

If we laughed more we should all be happier and healthier.

True, we are a busy and a very practical people, and most of us probably find more in this life to bring the frown than the smile, but at the same time it is a pity that we do not laugh more—that we do not bring ourselves to the laugh, if need be.

Physicians have said that no other feeling works so much good to the entire human body as that of merriment.

As a digestive it is unexcelled; as a means of expanding the lungs there is nothing better.

It keeps the heart and face young.

It is the best of all tonics to the spirits.

It is, too, the most enjoyable of all sensations.

### No More Striking of Gathers.

The monotonous, nerve trying work of striking gathers, or laying them, as it is sometimes called, may be entirely done away with by the following method: Use a long, slender needle and fine thread. Fill the needle with gathers almost as full as it will hold. Squeeze these hard together, pressing toward the eye of the needle. When well squeezed, hold firmly in one hand and pull with the other. When the gathers have passed from the needle, they will be found as nicely laid as if done with a pin.

If the gathering has been put in by machine, and none are nicer and more even, a little gentle pulling will make them set like handmade gathers.

### Eat Lots of Almonds.

According to a celebrated health expert, almonds give the higher nerve or brain and muscle food, and whoever wishes to keep her brain power up would do well to include them in her daily bill of fare.

Juicy fruits give the same in less proportion and are eaten by all those whose living depends on their clear headedness.

Apples supply the brain with rest. Prunes afford proof against nervousness, but are not muscle feeding. They should be avoided by those who suffer from the liver. But it has been proved that fruits do not have the same effect upon everybody.

### The Soft Coiffure.

No matter whether a woman's face is thin or fat, long or short, she invariably looks better with her hair dressed softly. Hair that is drawn back tight from the face would tax the good looks of the prettiest woman ever seen.

Whether it is arranged high or low, however, depends entirely on the shape of the head and the lines of the face.

### Colored Morning Dresses.

Have a couple of morning dresses made of some dark or half dark colored dimity or lawn or gingham.

Pretty little dresses of pink and white check or of the cool figured grays and dark blues can be made (lightened up with embroidery or lace), which do wonders in the way of saving laundry work.

Bobby Remembered.  
Binks after inviting his friend Jinks, who has just returned from abroad, to dinner is telling him what a fine memory his little son Bobby has.

"And do you suppose he will remember me?" said Jinks.

"Remember you! Why, he remembers every face that he ever saw."

An hour later they enter the house, and after Jinks has shaken hands with Mrs. Binks he calls Bobby over to him.

"And do you remember me, my little man?"

"Course I do! You're the same feller that pa brought home last summer and ma wuz so mad about it that she didn't speak to pa for a whole week."

"Going to the Dogs."

The phrase "going to the dogs" has puzzled the explainers of metaphorical expressions rather needlessly. It has even been suggested that it is a profane perversion of "going to the gods," and an allusion has been detected to "canis," the dog throw, the worst throw with the dice among the ancient Romans. Shakespeare's "Throw physic to the dogs" and the Scriptural "Give not that which is holy unto the dogs" have been quoted in connection with the expression. But it seems a fairly obvious reference to the fate of the worn-out horse, condemned to be slaughtered. The old Greek curse, "Go to the crows!" may be compared, referring as it did to the Greek's horror of having his body left unburied as food for carrion birds.—London Spectator.

### A ROSE JAR.

How to Make This Old Fashioned Scent Last For Years.

The rose jar of years ago is now seen in young women's boudoirs, and happy indeed is the possessor of a jar that is a family heirloom. For those that are not so fortunate many beautiful jars are shown for this purpose.

To fill it, gather the rose petals and let them stand in a cool place for two hours, toss them and put them in a large covered dish, sprinkle each layer with salt, keep adding to these until you have enough stock. Shake the leaves up every morning, and let the whole stand two weeks after the last petals are added.

In a large glass jar place two ounces of crushed allspice, two ounces of broken cinnamon, then put in the rose leaves and let stand eight weeks covered.

Then it will be ready for the permanent jar. Add two ounces of lavender flowers and one ounce of shredded orris root. Mix all well together and put in the rose jar in alternate layers with the rose stock and a few drops of oil of roses.

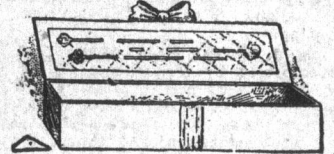

Over this pour a wineglassful of good cologne, from time to time add a little lavender water and occasionally fresh rose petals. This will last for years.

### GLOVE AND HATPIN BOX.

A Nice Little Contrivance For the Traveler.

Here is an idea for the conversion of an ordinary long cardboard box, such as a corset or shoe box, into a useful and ornamental adjunct to the toilet table—viz., a receptacle for gloves and hatpins.

Any odd length or lengths of brocade, silk, satin or cretonne could be utilized and joined if necessary, as the joints could easily be hidden under a strip of ribbon or ornamental braid. For those who do not care for the bother of sewing glue can be used to secure the ma-

terial to the box, the edges being carefully turned in and stuck down or finished off with narrow ribbon.

The lid can be secured to the box by a wide strip of ribbon, which should be so arranged as to allow the box to open easily.

The quilted portion, through which the pins are placed, can easily be stuck to the inside of the lid when the whole has been covered, care being taken to keep this perfectly even and the same distance all round from the edge of the lid.

When this is done, the ribbon can be secured round the center of the box, as the sketch shows, and fastened off with a bow at the edge of the lid.

### Let Yesterday Alone.

If you made mistakes yesterday, forget them. No strength was ever built upon continued regret. Today is the result of yesterday, but it is more important to remember that tomorrow is the result of today. The result of the actions of today we can determine, but no amount of dwelling upon yesterday's regret will reshape today.

If we fell yesterday, there is nothing to do but to pick ourselves up, shake off the dust and start afresh. Rise above yesterday. It is hard work to hold up the head and live down a black yesterday, but the blacker the yesterday the greater the need of rising above it, the higher the head must be held.

Yesterday has passed. Let it rest in peace. Don't keep dragging it out on parade. Do not waste energy on what cannot be undone. Let yesterday alone.

### In the Bathroom.

The one thing to be avoided is a clutter of small things—too many bottles and boxes on the shelves and tables, a number of crumpled towels and, above all, a rack of clothes hung up to dry.

The nickel plate should be kept shining with constant polishing and the white porcelain, tiles and enamel immaculate. The nickel collects ugly and unsightly green oxide and the white enamel a peculiar yellow stain if neglected. Any one who has attempted to correct the results of this neglect in either case has found her task a difficult one, and if the neglect has continued too long almost an impossible one. With daily care, soap and water, combined with vigorous scrubbing and rubbing, are quite sufficient. A gritty soap should not be used on either the nickel or the enamel.—Harper's Bazar.

### Bedmaking For Invalids.

The trained nurse method of bedmaking is one which might well be studied carefully by all bedmakers. There is no real reason why only invalids should be comfortable. The undersheet is tucked in carefully and tightly at both ends. On the sides at each corner it is folded back carefully in the same way that paper wrappings are folded at the corners of a package. Then the sides are tucked in. The other sheet, the blanket and the spread are tucked in at the foot in the same way and drawn very tightly under the sides.

### A Hint About Silk.

When silk is silmy, its body may be restored in large measure by sponging with water in which an old kid glove has been boiled.

Faded silks should be sponged with warm water and soap, taking care not to apply the water too hot; then rub with a clean, dry cloth. Iron on a flat board on the inside, thin paper being spread over to prevent glazing.

## CATTLE MARKETS.

**Toronto Live Stock.**

TORONTO, May 30.—Receipts of live stock at the city market as reported by the railways since Tuesday were 90 car loads, composed of 1202 cattle, 2365 hogs, 195 sheep and lambs, and 300 calves.

**Exporters.**  
 Not many offered and prices ranged from \$5.25 to \$5.50, and those quoted at the latter price were bought for butcher purposes. Export bulls sold at \$4 to \$4.50 per cwt.

**Butchers.**  
 Prime picked lots sold from \$5.25 to \$5.50; loads of good to \$5 to \$5.25; medium at \$4.75 to \$5; common mixed at \$4.25 to \$4.50; cows \$3.50 to \$4.00 per cwt.

**Stocks and Feeders.**  
 Harry Murty reports a light trade in feeders and stockers during the week, owing largely to the active demand for butcher cattle, which has placed them at a price too high for those who were buying short-term feeders. Mr. Murty bought about 100 stockers, and several calves, weighing from 600 to 800 lbs., at \$3.50 to \$4 per cwt.

**Milk Cows.**  
 There was a good outlet all this week for good to choice milks and springers, the bulk of which were taken by eastern buyers from Montreal, Ottawa and Quebec. A good many went to Montreal. Buyers, as usual, were after the high-class cows, giving or likely to give a large flow of milk.

The best sold up to \$60 and \$70, and the bulk of good ones went at \$45 to \$55. Medium cows have been slow sale in comparison with the good. Common light cows were not wanted, and were hard to cash or close out at \$25 to \$30.

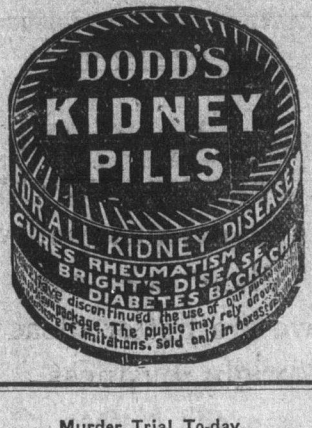

**Veal Calves.**  
 Receipts of veal calves have been large for some time, and, of course, there are some that are choice and just what the butcher requires, but the great majority lack the necessary age and finish to make them satisfactory killers. This has been the case more emphatically than usual this season, because the price of milk is higher than it has been in years, and that is about all some of the dairymen seem to think about. For him there is money to be made in the calf, and save the milk. The result has been that the market has been flooded with a poor class of veal, and dealers want something better. It is 75 per cent. of the calves coming on the market, very few about two to three weeks longer, prices would average much higher, but the dairymen have figured it out and have concluded that it won't pay. Prices for calves were firmer to-day in sympathy with the advance in beef prices, and some were reported at \$7 per cwt., but this was for an odd new milked veal of choice quality, such as butchers are anxious to get.

**Sheep and Lambs.**  
 The run being light prices were firmer all round. Export ewes sold at \$3 to \$6 per cwt.; rams \$4 to \$4.50; yearling lambs \$6 to \$7 per cwt.; spring lambs \$3 to \$7 each.

**Hogs.**  
 Twenty-four hundred hogs were bought by Mr. Harris at \$7.30 for select, and \$6.85 for lights and fats. Mr. Harris reports prospects to be for easier markets.

**East Buffalo Cattle Market.**  
 EAST BUFFALO, May 30.—Cattle—Receipts 100 head; slow; prime steers, \$8.50 to \$9.00; calves, \$7.50 to \$8.00; yearlings, \$7.50 to \$8.00; hogs, \$6.50 to \$7.00; sheep, \$5.50 to \$6.00.

**Properties of Gold.**  
 Pure gold is unaffected by the atmosphere either at ordinary temperatures or when the metal is heated. It is also proof against the action of common acids when used singly. Moreover, it confers its properties more or less upon copper and silver when these metals are alloyed with it. Thus, for example, twelve carat gold will withstand the action of nitric acid and the atmosphere at ordinary temperature, but some of the copper will be oxidized during annealing. Nine parts of gold may be alloyed with ten parts of platinum in any ordinary crucible and fire, but such an alloy will not be uniform; a larger proportion of platinum will free itself from the gold on solidification, and a homogeneous alloy of the two metals cannot be obtained.—Jewellers' Circular-Weekly.

**Apoplexy.**—Dr. Agnew's Cure for the Heart is effective in apoplexy symptoms. If you have palpitation of the heart, or a sudden rush of blood to the head, take precautions against a recurrence. This great remedy will remove the cause. The press of the land has daily a list of sudden deaths which would not be chronicled if Dr. Agnew's Cure for the Heart were used. 127 Sold by W. W. Turner, Chatham.

**Only Slept There.**  
 Dickens, looking for local color for his novel of "Hard Times," visited Manchester. He went through the hovels of certain Manchester cotton spinners, and these foul houses filled him with pity and horror. Meeting the Manchester manufacturer who owned them, he said:

"And do your employees really live in such houses as these?"  
 "Certainly not," the manufacturer replied. "They only sleep in them. They live in my mill."

## MYSTERY OF THE SEA.

The Puzzling Beeswax of the Beaches of Oregon.

Of all the secrets held by the flossam and jetsam of many years none is stranger than that of the beeswax of the Oregon beaches. Long before the white man came to the great northwest by ship or prairie schooner vessels from the orient had skirted the coast. Bits of wreckage have told the story of Chinese junks gone to pieces on the shore, but the most curious evidence of this eastern traffic has been found on the Oregon coast south of the Columbia river. Mr. Clarke gives an account of this treasure trove in his "Pioneer Days."

When Lewis and Clark made their famous expedition they learned that the native Indians of Oregon had for many years found lumps of beeswax on the sandy shores.

Beeswax is practically indestructible in water, but these pieces had pounded in the surf until they were black and battered almost beyond recognition.

In 1814 one Henry, engaged in the fur trade, wrote an account of finding masses of this wax. The pieces were scattered over a wide stretch of coast and were now covered, now uncovered, by the blowing sand. Some of the lumps were softened into all shapes and sizes by the heat of the sun and bleached nearly white. Others were square and stamped with strange characters.

In 1855 a Mr. Howell, walking on the beach, saw something exposed in the sand. It proved to be the corner of some large squares of beeswax weighing several tons. Many smaller blocks were also found, all bearing the stamped letters "H. S." Besides the squares of wax, quantities of large candles were discovered. In looking up the matter it was learned that as far back as records ran these tapers had been found with the wax on the shore.

Of course the explanation may be that some oriental ship bearing church supplies for a mission farther south went to pieces on the Oregon coast many, many years ago, but what would a ship bound for Mexico or South America be doing so far north, and what use could any mission have for such an enormous quantity of wax?

## LITERARY IMPOSTORS.

Many Clever Writers Who Have Deceived the World.

Clever literary impostors who have deceived the world are numerous. Gamelli Carriari, a Neapolitan gentleman and scholar, while confined to his room for a long period of years by illness amused himself by writing an account of an imaginary voyage round the world. When the volume was published, it was taken as a fact even by learned people.

The detailed account of a trip to China which is credited to Du Halde is another literary hoax. The author had never seen China and had been sufficiently clever to compile the work solely from the memoirs of Chinese missionaries.

It is remarkable, though no less a fact, that "Gulliver's Travels" was thought to be a true narrative when it first appeared, and the famous story of Dambriger's travels was likewise a hoax.

Varillas, the French historian, enjoyed a wide reputation as a chronicler of events, but later it was discovered that his works were purely fables. The volume of this writer resembles those of Gregorio Rett, who, in order to keep himself from starving, appended the most unheard of incidents to English history as it was known.

One of the most daring impostures on record is that of Joseph Vella of Sicily. He said that he discovered seventeen of the lost books of Livy in Arabic. He then set to work and wrote a translation from his fancy, which was printed. After his death the fraud was discovered. Before his death, however, he fell under suspicion and was condemned to imprisonment.

There are countless cases of authors selling their names to be put on works they have never read. Sir John Hill once contracted to translate a novel book. After the agreement he remembered that he did not know a word of Dutch. He then bargained with another translator to do the work for half the price he was to receive.

Uranus.

It was on the evening of March 13, 1781, that William Herschel, at Slough, England, discovered a new planet. Wishing to pay a compliment to George III, his patron, he gave it the name of Georgium sidus, or the Georgian star. Other English astronomers, wishing to compliment the discoverer himself, suggested the name of Herschel. Continental astronomers proposed that the old mythological system be followed, and the name of Uranus was accepted by the scientific world as the designation of the seventh planet.

No Need to Talk.

"Does the baby talk yet?" asked a friend of the family.

"No," replied the baby's disgusted little brother; "the baby doesn't need to talk."

"Doesn't need to talk?"

"No! All the baby has to do is to yell, and it gets everything there is in the house that's worth having."—Tit-Bits.

Not Living.

"Hello, Jinks! I hear you are living in a boarding house."

Her Astral Spouse.

An unmarried woman was drawing dangerously near the threshold of that age where the unmarried must abandon every matrimonial hope. Belonging, as she did, to that large contingent of women to whom marriage represents the only possible career, her anxiety as she saw her chances of achieving it dwindling to the vanishing point became keen, and in her distress she began to seek for comforting reassurances among that fraternity who for a suitable consideration obligingly offer to reveal the secrets of the future.

In the course of an interview with one of these "wise women" she was told, "My dear, you already are married on the astral plane, and it is your astral husband who is keeping the earth men away from you."

"Oh," cried the ungrateful bride, "please tell him not to!"

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Why Remain Thin and Pale?

Pale people have pale blood. The stomach is wrong, assimilation is poor and food is not changed into blood. The system lacks vitality and reconstructive power, which can be supplied by Ferrozone. It braces the appetite, digestion is stimulated, what you eat is transformed into the kind of nutriment your system requires. Vital, life-giving blood that makes rosy cheeks, strength that defies weariness, spirit and ambition, all come from Ferrozone. Nothing in the annals of medicine so sure to build up and strengthen as Ferrozone. Try a 50c. box. Sold everywhere.

## FASHION BITS.

Revival of an Ancient Fad—Pongee is the Fabric Most Worn.

If you have an old oval brooch with a bar crossing it lengthwise in buckle fashion, its time has come again. If it is a jeweled brooch, you are in great good fortune, for it is the latest cry—a black satin neck scarf with an antique jeweled pin fastening it.

Plain velvet collars and velvet buttons trimmed with cloth like the gown are two features that are prevalent in the new checked and striped suits. The collars are a natural outcome of the mixed materials, and the buttons are an ingenious new development emanating from some clever tailor's brain.

Early styles in millinery are always spectacular. It always takes the entire spring season to curb them into something like sensibleness. Ultra fashions are always short lived. The eye wears of them as certainly as does the palate of condiments and sweets.

For summer wear there is nothing more serviceable and yet so attractive as the natural toned pongees, rajahs

and tassels which are so much in vogue at the present moment. Jaunty coats in full and half lengths are shown for summer wear in conjunction with hats of the same material.

The tailor made woman will have it all her own way this summer. Blouses and shirts on the most approved manish lines are to be prominent, and the lingerie affairs of past seasons are again to become negligible.

The handsome gown shown herewith is made of pongee in one of the lovely new apricot shades. It is trimmed with soutache braid applied over a stamped design and is worn with a glimpse of ecru lace.

FASHION GLEANINGS.

Ankles Like Chameleons—Filet Lace Rules This Season.

Some of the new hostelry shown this spring will hypnotize the average woman. It is "fearful and wonderful" or "perfectly lovely," just as it strikes the individual taste. A style that may be exploited by wearers of the short walking skirt is hostelry of shot silk. Such stockings look as if they were made of changeable taffeta shading

from color to color and are worn with pumps of black and black patent leather. Of course they are expensive.

Filet lace rules this season, as Irish lace did two seasons ago. The square mesh is the thing.

A novel use of leather is in the form of a hatpin. It is rather large, cone shaped, embossed and stained in a handsome design representing leaves and fruit or flowers very rich yet subdued in color. Though it looks massive, it is hollow and of very light weight, and it gleams like a bit of enamel on the spring hat. To meet the desire for small anklets, which arises because of the distension of the feet by low shoes, rubber anklets have been devised to wear inside the stockings or when shoes and stockings are removed at night. It is claimed for these anklets that they retain the flesh in firm but easy bonds, which would otherwise be spread when the high laced boot is discarded.

Stunning automobile coats of rough pongee, with collars and cuffs and sometimes hoods of plaid taffeta, have been seen.

Here are four very attractive berthas to transform an otherwise plain frock for a little girl. No one of the berthas involves any great amount of labor, and each and all are dainty, becoming and graceful.

Water as a Beverage.

Flattest After an Apple and Coolest After a Peppermint Drop.

"Water is the finest drink in the world," said the epicure in little things, "but not every one knows how to get the most enjoyment out of drinking it."

"For instance, water should never be drunk immediately after an apple has been eaten, for as a beverage it then has a taste more flat and insipid than as if it had been taken from a cold teakettle."

"On the other hand, there is nothing to my mind that makes water taste more cool and refreshing (not counting actual thirst) than to eat a peppermint drop before taking a drink of it."

"And, while peppermint stands at the head of the list of water is particularly and noticeably good after any water or lemonade. Popcorn, on the other hand, takes all the animation out of a subsequent swallow of water."

"The tyrant who first hit upon bread and water as a prison fare of punishment knew his business."

"The enjoyment of a drink of water varies, too, with what you drink it from. You would not offer to a sick person a drink of water in a cup, but rather in a glass, the thinner the better. The fact that the water itself in all its limpid clearness is present to the senses of sight stimulates an expectation that is gratified along with the sense of taste."

"I have frequently observed men about to drink some other beverage than water, and it appears to be a very common habit with them to regard the liquid steadily for some seconds before swallowing it, often holding it on a level with their eyes in order to see it as clearly as possible."

"Surely this lesson should not be lost upon the man who knows that there is no drink like water. While you are drinking it enjoy it."

"For my own part, I like water from a big tin dipper even better than from a thin tumbler, but best of all drinking dishes for me is a newly made birch bark dipper, all the better if I have made it myself."

"Dip a full dipper from the center of the bubbling spring, take a look to see how limpid it is against the clean yellow freshness of the dripping dipper, put your lips to the water itself and then take one of the sweetest gifts the gods provide."

"Ginger" of West Point.

The man who graduated at the foot of the class that year (1860) had been six years at the Point and had just squeezed through at last—Harold S. Borland, commonly known as Ginger on account of his hair being the exact color of ground ginger. Borland had distinguished himself while reciting to Captain Benton in ordnance by a remarkable answer to the question, "Mr. Borland, how many pieces will a twelve inch shell burst into?" the answer number having been determined well by experiment. Ginger threw his eyes, unexpressive, but very blue, on the floor and deliber

## DR. GODFREY IS ELECTED

A Conservative Is Chosen to Represent West York

Toronto, June 3.—Dr. Forbes Godfrey, Conservative, on Saturday was elected by a majority of about 2,500 as member for West York in the Legislature, his two opponents, Esten Williams, Independent, and F. J. Peel, Socialist, polling a ridiculously small vote.

Dr. Godfrey came out as a clean-cut advocate of the Beck power propaganda.

In Vaughan he upset a Liberal stronghold, supposed to be impregnable.

He has the vein of a fighter, the convictions of a champion of the people, and from the outset his career in the House will be observed with interest.

DR. FORBES GODFREY.

Forbes Elliott Godfrey was born in West York, near Downsview, 40 years ago. He is an M. D. of Toronto University, and also has the degrees of Glasgow and Edinburgh. After his course at the Scottish universities, he began practising at Belgrave, Ont., where he remained three years. In 1893 he came to Mimico, and in 1894 he was married to Miss Mary Carson of Belgrave.

### STEAMER SUNK IN COLLISION.

Serious Accident in Detroit River—Selwyn Eddy Goes Down.

Detroit, Mich., June 3.—The steamer Selwyn Eddy, one of the Shaw Eddy fleet of boats, was sunk in the Detroit River on Saturday, in a collision with the steel barge, Maids, owned by the United States Steel Corporation.

Immediately after the collision the captain of the Eddy headed for the Canadian shore, and his steamer sank about 50 feet from shore in 25 feet of water, with her main deck submerged but a short distance.

None of the crew was injured. The collision occurred just off the Village of Ecorse. The Maids was down-bound in tow of the steamer Vanhise, and was cast off opposite the plant of the Great Lakes Engineering Company, where she was to go for repairs.

The big barge became unmanageable in the current before her anchor caught and she sheered into the Eddy, which was upbound, from Sandusky to Milwaukee, with coal.

The Maids, it is reported, did not suffer much damage.

### MR. CHAMBERLAIN HOME.

Veteran Tariff Reformer Still Unable to Resume Active Politics.

London, June 3.—After the recent re-assuring reports from St. Raphael, France, regarding the improvement in the health of Joseph Chamberlain, his arrival in England on Saturday night was somewhat of a shock to the friends and admirers who gathered to meet him both here and at Dover. Quite apart from the fatigue of the troublesome journey, which he bore well, it was evident that Mr. Chamberlain was still a long way from such recovery as to give hope of his resuming political life with any activity.

In response to enquiries, the family authorized the following statement: “Mr. Chamberlain has returned much improved in health and none the worse for the long journey. He has not yet made any plans, but will certainly remain in London for a time.”

Educational Conference.

London, June 3.—(C. A. P.)—An official report of the private meetings of the Federal conference on education shows that in reference to the interchange of teachers and inspectors that the conference resolved that it was desirable that financial and administrative arrangements should be made for such a purpose. The conference also expressed the opinion that quadrennial conferences were desirable, and that the first should be convened by the Imperial Government. This will be held probably in 1911.

### Boy Drowned.

St. Catharines, June 3.—Jack Murdoch, 5 years old, was drowned in the old Welland Canal yesterday afternoon shortly after 4 o'clock. With his brother, Stuart, aged 7 years, he was playing on the banks of the military canal and fell in.

The body has not yet been recovered.

## THE ASSELIN LIBEL CASE

Jury Could Not Agree and Were At Once Dismissed

Quebec, June 3.—The disagreement of the jury in the Asselin libel case Saturday and their immediate dismissal by the judge was no surprise, for as the judge himself declared in addressing the jury, the case had assumed quite a political character for some time past, or ever since the correspondence concerning subscriptions to an alleged electoral fund came out in evidence.

The Government and its friends claim that the jury stood nine for conviction and three for acquittal. Asselin's friends assume to know that the twelve jurymen were equally divided in opinion. The defence consider the disagreement to be a success, and Asselin's friends in court crowded around him after the jury had been dismissed to shake hands and congratulate him.

**Sensational Incident.**  
The most sensational incident of the day was the court's statement that it had received threatening letters during the trial. Judge Bosse did not relate this fact to the jury, but only after the latter had retired to consider its verdict and when the judge proceeded to take up the rule against Le Soleil newspaper for contempt of court in intervening in the case and attacking lawyers and witnesses. For this offence Mr. Dhellencourt, the responsible editor, was fined \$50, though his friends declared publicly, after the court adjourned, that Premier Gouin, Attorney-General, who was in court himself during the proceedings, had assured them that the fine would be immediately remitted by his department.

**Everybody Attacked.**  
In dealing with this case Judge Bosse said that a regular tempest seemed to have blown over the city since the trial commenced. Everybody had been attacked, including lawyers and witnesses, and even the court itself. He had been threatened by an anonymous letter to be cited before Parliament and even to lose his pension if he did not change his method of conducting the case. It might seem incredible, but it was true.

The letter he received said: “We are in power at Quebec and in Ottawa, and if you do not change your attitude we will cite you before Parliament and will make you lose both your salary and your pension.”

He explained that he had not read this before the jury because he did not wish it to influence them.

**No Chance For Agreement.**  
The court spoke for an hour and a half and the jury, which retired at 11.30, returned to court at 12.45 and declared they could not agree, even if locked up for a year. They were then discharged. The charge was a moderate one. The court expressed the belief that the case should never have come before it, but have gone to the civil courts. He had done his best to prevent it coming, but the crown had insisted.

He declared that the evidence proved neglect of the mining department by the Minister, though he was busy with colonization matters at the time and not perhaps personally to blame. Nevertheless the facts were proved. As for Mr. Turgeon his character was left intact, and there was no malice proven against Asselin by the prosecution.

### BOY KILLS FATHER.

Was Protecting His Mother Against the Man's Attack.

New York, June 3.—In protecting his mother, Anthony Fusco, a 19-year-old lad, shot and killed his father, John Fusco, a laborer. The boy, who was 19, and told the police that his father came home in an irresponsible condition yesterday and threatened the mother with a revolver.

He declared he grappled with the elder man, wrested the pistol away, and that his father then started for him with a knife. Then he pointed the loaded gun at his father's head and fired.

### Woman's Body Found.

Selkirk, Man., June 3.—A search party found the body of Mrs. W. Chambers, who wandered away from her home at Oak Hammock, on Saturday. She has been missing for nearly a week. The body was found about a mile and a half from the house, and death was apparently due to exposure.

### Accused of Grave Offence.

Belleville, June 3.—David N. Fife, who is charged with criminal assault, committed on little 5-year-old Bessie Collins of this city, was brought up in the police court Saturday and was fully identified by his childish victim.

Fife was then remanded till next week.

### Forged His Father's Name.

Windsor, June 3.—Russell Lonsbury, the 16-year-old boy, who is accused by his father of taking \$130 from an Essex Centre bank, by signing the father's name to a cheque and disappearing, has been located by Detective Campeau. The boy will be sent back to his father's place at Kingsville.

### Husband Took Acid.

London, June 3.—William Austin, aged 21, married a year and a half, quarrelled with his wife last week. She left to go to her father's Saturday night, with a friend, Austin called at the house and while the friend went in, Austin swallowed carbolic acid. He will recover.

The minute man's ambition no doubt, is to be the man of the hour.
