REDUCED RATES OF PREMIUM—HALF
CREDIT RATES OF PREMIUM.
THE great and decided steems which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assertance at such lower Rates of Premium than those of any other Assertance Compuny & anaesting business in Canada.
The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

The Madrid correspondent of the London Times writes, under date of the 3rd instant, as follows:—

The present state of Gubs, and the marked disagreement which exists between the General disagreement which exists between the General disagreement which accompanied him, and the appointment of General Jose de la Concla to that commission which accompanied him, and the appointment of General Jose de la Concla to that command; as the objects of every conversation, and may be regarded as the most interesting matter of the day. There are, no doubt, many just causes of complaint against the military authorities of the labent of Cubs, which have come to light, newtitus miding the difficulty which the inhabitants, who have been long condemned to suffer in silence the abuses of the authorities, find in making their complaints heard. It appears that serious facts, well sutheritiested, have made their way to the Council of Ministers, and have enlightened them as to the real state of the Colony, and the perils which hang over it. A perition has been presented to the Government demanding a more liberal policy, a more enlightened and equitable administration, and an efficacious guarantee against the sepredations & excesses of the officials. In a letter received a few days since from the Histonian the sepredation of segmental the stave trads and the importation of segmen have been carried to the highest pitch during the government of the present Captain General. At present there is a complete suspension of the op rations of both armies, but an engagement is looked for. Weather intensely not, but measures are being taken to preserve the health of the cope. The Koner Zeitung has a telegraphic despatch from Hamburg of the 17th all, stating that an engagement this place on the avening of the 160, between a Dunia steamer, accommand by two gan boa's, and a Holstein steamer, (the Lowe), which was likewise supported by two gan boats. The combat continued throughout the night-and at half-past seven in the morning the Banks was sele retreated. The Lowe has suffered from the enemy's fire, and one of the gan boats was independent of the gan boats was independent.

Two of the Seikhs fell victims to their own designs. The mutineers had possession of the vesual for some time, and, having obtained some boats from the shore, succeeded in effecting their escape; but, before many hours elapsed, several of them were retaken and placed in more secure custody. Frauds on the military fund to a considerable extent had been discovered, srieing from a defective way of keeping the accounts. The Secretary and the Magna's dominions we learn that

sa defective way of keeping the accounts. The Secretary and the Auditor had been desmissed. From the Nizam's dominions we learn that another intestine war had broken out in his capital, the combotants being some Gossiers and 300 Robillas on one side, and 4,000 of the Nizam troops, with guas, on the other. The Robillas occapied a fortified building, with thick nou walls, and, after having sustained, without loss, a cannonade of twenty-seven hours, during which they killed some afteen or twenty of their assailants, evacuated their fortress, on condition that they should receive the amount of their dams and be exempted from all punishment on account of their wills way of obtaining justice. The Nizam's vasial, the Newab of Elichpoor, had defented the force which his lord had unjustly sent against him to disposees him of his Jagheets.

Accounts from China of the 22nd Jane announce the arrival of the new Pertuguese Governor at Macan, with a small military and neval force, and said that, acc refing to the accredited report, the traffic in opium was about to be realized, with the concent of the rew Emp for. Some doubt, however, still exists on the point. Several deaths had occured amongst the European sudders, clarify from fever; and a large number were in hospital. Christian sects would be permitted in the cup pars.

ACCIDENT.—It is our painful duty to chronicle agoiner of those melanche y accidents which so frequently occur, in this Proysnee, from the careless use of firearms. On Se unday last, Frederick, second son of William Lepenotiere, Esq., of this place, was returning from a pigeon sho ting excursion, and in crossing a fonce near his father's residence, the gan was accidently discharged, and shattered his right hand and wrist in a frightini manner. It appears that wearied from his journey, he instead of keeping the gun before him, dragged it oses, or through the fence after him; bolding it by the nursels. The whole charge entered the palm of his hand and passed out at the wrist, and it is feared that unjouts itin will be decessiry. We hope this will be a warning to othere engaged in similar purisities, and cause them to use that caution which is also stelly necessary in carrying loaded firearms.—North American.

They will find a property, (Simmon's Corner,) which ten years ago would not be sold for £500, was this day knocked down at £216!.

They will find that within the last three months, seventeen families (chiefly industrious mechanics) have left the town, to seek a home and living elsewhere!

They will find the abip-yard closed, its mechanics ecultored from Ogdensburgh to Oswago, and its proprietor about to leave for Obstham?

They will find seven merchanic shops less in town to-day than there were ten years ago it.

VERY SEALL FOR ITS ASS.—A friend of ourse was saked a few days ago, by a cross fisted old customer, to partitude of some very old whiskey, which he valued very highly. He consented, not reluctantly, when his hospitable entertainer took the bottle and poured out what our trend regarded as a very small dose. The latter, taking the glass and holding it show the head, remarked rather secretically—"you say this is forty years old?" "Tes," replied the host. Tills Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has proved eminently successful in all the discenses in which this medicine is prescribed. It is considered by Physicians of the present day the very beat Medicine for re-establishing the constitution after it has undergone the effects of Mercury. In Chrome Rheumaniam, the most marked effects have been produced by the lane of Strangarilli ; and its continued use is often attended with improvement of appetits and digestion, increase of strength, the production of a more bealthy state of mund, and the palliation, or, in some cases, complete disappearance of various morbid synaptoms, as Erupiusa, Uterantions, pains of a Rheumania character, &c., &c.

Drs. McCulloch, Campbell, McDouell, and Praser, who have extensively used it in their practice, have bringly interested by the propretor with the following Gerricanes: —

I beg to certify, that I have employed very extensively, the "Fluid Extract of Saraparilla," made by Mr. Lingunart, in all those diseases in which than Medicine is anotally prescribed, and that I have found is a most valuable preparation. I can, moreover, state, from personal investigation, that the Proprietor employs more but the purest ingredients, and bestows the greatest care and attention than the mode of preparing this remedy.
