

CHRISTMAS BEEF AND TUBERCULOSIS.

English Doctor Urges Abolition of Slaughter Houses for Abattoirs.

Denounced the Prevalent Craze for Getting Thin--Produced Debility.

London, Sept. 18.—Sir James Crichton-Browne, in delivering the presidential address at the annual meeting of the Sanitary Inspectors' Association at Llandudno, referred to the English meat supply, and urged the abolition of private slaughter houses and the providing of abattoirs and a central office for meat inspection.

JAPANESE STEAMER BURNED; ONE HUNDRED LIVES LOST.

The Tafu Maru on Fire Three Miles Off Ching Kiang and 45 From Nanking.

Shanghai, Sept. 18.—A Japanese steamer, said to be the Tafu Maru, has been burned three miles off Ching Kiang, on the right bank of the Yangtse Kiang, 45 miles from Nanking. It is reported that one hundred lives were lost.

WAS ACCIDENTAL.

That Was Jury's Verdict in the Death of Samuel Joyce.

The inquest into the death of Samuel Joyce was held in the City Hall last evening, Coroner Griffin presiding. Five witnesses summoned by Beach Constable Hazel, Claude Jasper, conductor; John Klankie, a friend who was with Joyce; Charles Taylor, motorman; Dr. Spears and Dr. Rennie, who attended him, testified. The testimony was only a repetition of the story of the accident as already published, that the deceased was intoxicated and found out when he got to the Brant House that he was going the wrong way. He went out to stand on the back platform to wait until the next station was reached, but fell off, breaking his neck.

YOM KIPPUR.

Day of Atonement Is Being Observed in Synagogues To-day.

To-day is the most sacred day of the year so far as the Jews are concerned, for it is the Day of Atonement, which was set apart by Moses as the day upon which all Jews should make atonement for their sins by fasting and prayer. From sundown last night until the same time this evening no Jew will partake of food or water, and each will spend the day in prayer. It was on the Day of Atonement only that the high priest entered the Holy of Holies and made atonement for the sins of himself and his family and the entire Hebrew race. Even the most lax Jews observe this day, and it is universally kept.

THRILLING STUNT

That Was Not on Bill at the Bennett Theatre.

While Miss Carlotta was doing the sensational turn of looping the loop in Bennett's Theatre yesterday afternoon, there was just as thrilling an act going on outside the theatre. Two painters, employed by the contractor, were at work on a scaffold, 30 or 40 feet from the ground, and they got into an altercation, and they were once tried to throw the other to the ground, which would likely have meant death. The man held on to the scaffold for dear life, till Mr. R. Stark went up a ladder to his assistance, the men were separated, one being sent to another place to work.

DANGEROUSLY ILL.

His many friends in Hamilton and in Leamington will regret the dangerous illness of Mr. Fred Abbs, who left this city last March to reside in Regina, and who travelled for the firm of F. F. Dalby & Co. Mr. Abbs was operated upon recently for appendicitis and very serious complications were also found.

Park Commissioners, of Toronto, was granted more time to look into the charges against Carelaker Kimmins of Centre Island.

W. H. LONG DEAD. FATHER MAY KEEP THE BOY.

Death Claimed Highly Respected Citizen Early This Morning.

After a long and painful illness, death early this morning ended the sufferings of Mr. Walter Henry Long, a well known and highly respected resident of this city. Mr. Long was taken to St. Joseph's Hospital, seriously ill, six weeks ago, and little hope for his recovery was entertained from the outset. He died shortly before 2 o'clock this morning. Of a kind and generous disposition, he was well liked by all with whom he came in contact, and his death will be sincerely regretted by a host of friends. Besides a widow and three daughters, Misses Annie, Irene and Stella, he is survived by two brothers, Mr. Andrew P. of Brooklyn, N. Y., and Mr. Robert Long, of this city, and three sisters, one of whom is Mother Martina, of St. Joseph's Hospital.

G. T. R. MACHINISTS.

Delegates Ask That the Agreement With Company be Repudiated.

St. Louis, Sept. 18.—That the settlement of the Canadian machinists' troubles on the Grand Trunk Railroad under the trades disputes law was not satisfactory was shown at yesterday's session of the International Association of Machinists. Several Canadian delegates insisted that the contracts be repudiated, and expressed bitterness towards Second Vice-President A. H. Champion, who they declared, was responsible. It was announced later that Champion had been defeated for reelection, J. Somerville, of Alberta, Canada, replacing him.

CHECKER CLUB.

Officers Elected—Talk of Four-City League.

The Hamilton Checker Club held its opening meeting last evening, and the officers for the year were elected, as follows: Thomas Curtis, President. C. B. Linton, Vice-President. F. Woolcott, Secretary-Treasurer. Mr. Vernon, Assistant Secretary. Executive Committee—M. J. Cummings, E. Curry, W. Cline, J. Withrall and Thomas Leach.

A BOAT JAM

At the Limekiln Crossing Near Amherstburg—A Tug at Work.

Windsor, Sept. 18.—(Special).—No less than five boats got in a jam at the lime kiln crossing, near Amherstburg. At an early hour this morning the logging lumber laden, took the east channel, which is not open for down bound boats, and ran into the Isabella Boyce up bound, and coal laden. The latter was quite badly damaged. Each steamer had tugs which grounded in the channel. Two tugs are working to clear the passage.

DEATH OF CHARLES GREEN.

Charles Green, an old and respected resident of this city, who many years carried on a bakery business on John street south, passed away at his home last night. Deceased was 66 years of age. His wife died in 1899. He is survived by six sons, Sidney, Ernest, Victor and Ivor, of this city; Bertie, of St. George, and Hedley, of Carberry, Man.; also three daughters, Mrs. J. Street and Miss Gertrude, of this city, and Mrs. Murruthers, of Carberry. The funeral will take place on Friday afternoon at 2 o'clock.

ANNOUNCEMENT.

Miss Rose L. Fritz, champion typist of the world, will give a public demonstration of fast typewriting at the offices of the United Typewriter Company, 26-32 Main street east, on Friday afternoon and evening, Sept. 20.

GORKY MARRIED.

New York, Sept. 18.—Those who recall the unpleasant experiences of Maxime Gorky in New York, on account of Mme. Andrieva, whom he sought to have recognized as his wife, will be interested to know that Gorky and the woman are now married and are living happily in a literary colony on the island of Capri.

NEW CARDINALS.

Rome, Sept. 17.—The next papal consistory will be held in the middle of November or the middle of December. It is not believed that any foreign cardinal will be created, but the names of four Italians have already been decided upon for elevation to cardinalate.

You'll Find It

An agreeable change to order your suit from Fralick Co., this fall. You'll see a big improvement from the average tailoring to ours. Our very moderate prices are a secondary consideration. The showing of English, high-class worsted suitings are not surpassed. Fralick & Co., 13 and 15 James street north.

The Northfield Conference has had this summer the largest attendance since Mr. Moody died. Four thousand or more attended the meeting on some of the August Sabbaths.

FATHER MAY KEEP THE BOY.

Chicago Woman Came Here to Have Husband Arrested

But Police Magistrate Found He Was in Right.

Woman Told a Very Bitter Story to the Press.

Police Magistrate Jelfs had a visitor from Chicago to-day who had a hard luck story to tell that would bring tears to the eyes of a Sphinx. Mrs. Catharine Telfer, 5,135 Halsted street, was the visitor, and the story she told to a Times reporter was that four months ago she and her husband, Alex., and their eight-year-old son, a young daughter lived happily together at the above address. About that time the young daughter died very suddenly. Her husband, she said, insisted that the property, which was in her name, be sold, and shortly after the child's death she consented. The property was sold three weeks ago, and her husband took his share and their son and left Mrs. Telfer used all her money advertising and endeavoring in many ways to get a trace of her husband and her son, and it was only a week ago that Telfer was found by the local police living with his sister, Mrs. Hammond, Wentworth street north, this city.

Mrs. Telfer, two or three days ago, came on here, hoping to have him arrested. She went to the home of her sister-in-law, where her husband was staying, and was told that he and the son had left for California, but from what she heard in the neighborhood she thinks that, as a matter where her husband is at present, her son is still with the Hammonds, and she is anxious to be given possession of the boy. She said she intended having a warrant issued that would enable her to get her son away from Mrs. Hammond as soon as possible.

Mrs. Telfer was very bitter in her speech about her husband at the Magistrate's office yesterday. She showed a card backed by the State Attorney, at Chicago, commending her to the police of any city she may visit, and promising that any expense they may incur on her behalf will be paid.

The Magistrate, after hearing the particulars refused to issue a warrant, and he was of opinion that Telfer was entitled to the boy. The police were perfectly right in letting Telfer go, he said, as he had an agreement with his wife to take the child and half the money.

The police said that the couple pursued by the father and his people here has been fair and honorable.

WAS KNOWN HERE.

Old Railroad Man Who Figured in Great Disaster Dead.

James Carter, one of the oldest and best known railroad men in the Province, who died at his home in Toronto this week, was well known here. He had been employed by the G. T. R. since 1868, up to his retirement five years ago, on the lines running out of Toronto, first with the Great Western on the Hamilton line, on which he got his appointment as conductor in 1873.

MASONIC RING.

Ex-P. C. McDonald Popular With Comrades.

The members of the police force made a presentation last night to ex-Constable McDonald, who left the force some time ago to take a position as private detective with the T. H. & B. On behalf of the men, Sergt. Moore presented him with a gold Masonic ring and a gold pocket. Mr. McDonald replied suitably, thanking his comrades for their kindness and good wishes.

SEIZED THE BOAT.

F. A. Lewis Took That Means to Get His Wages.

An officer of the law, acting for Frederick A. Lewis, to-day, seized the boat Tempest, which is lying at the city dock, for \$63 wages, which Lewis had received judgment for from William Carson, a half-owner of the boat. Lewis brought the boat down from Sarnia for Carson, and when he arrived here, Carson refused to pay him for the time it took him to come down. He sued in Police Court, got judgment and then executed it in the manner stated.

IMMENSE THREE-DAY SALE.

Tremendous Sale of New Fall Goods at the Right House.

Thomas C. Watkins announces in tonight's papers a remarkable three days' underprice sale, as an introductory to the new season.

This big sale event will involve every department in the store, and will mean big savings on your needs for the new season.

Partial details of the sale are given in their big full page advertisement in this paper. One page was too small to carry all the saving news, so that many lots that will be on sale do not find mention at all.

The sale will last for three days, and every economical person in Hamilton and vicinity should visit the store and read the announcements each day.

The store is still in opening trim, and presents a pleasing and authoritative style study for every lover of the beautiful in dress.

Bain & Adams, 89-91 King street east.

The Man In Overalls

Fall drill, boys; fall in!

I suppose somebody will be good enough to "knock" the fire department's new steamer.

Possibly the Spectator may trot out one of its "coming men" to oppose Mayor Stewart. But it's hardly likely.

If it costs too much to paint the street cars, a little carbolic acid might be used to disinfect them.

Now if we all knew where we were to get our winter coal we could sleep all the easier.

Rev. W. R. Caswell declared from his pulpit on Sunday in Brantford that that city was the most profane one he had "ever met in his experience as a pastor." And Mr. Caswell used to live here. Brantford must be a wicked little place.

A huge sign-board fell four storeys in length the other day, narrowly missing a child. Is it anybody's business here to look after the signs and other boards suspended from on high, also what about the many flower pots and things on window sills ready at any moment to topple down on a person's head?

The Buffalo Chamber of Commerce has issued a circular with "Boosters for Bigger Buffalo." Hello, there, Mr. Uttley!

I suppose the sandsucker will be blamed for a lot of those September weddings.

Possibly the police look upon the Greek men as the yellow peril.

Now, how would John Milne do as a Mayralty candidate?

It looks to me as if the York Loan shareholders will all die of old age before they get back an instalment of their money.

No wonder the Mayor thinks that it is time to quit feeding the overdraft. I don't believe the Board of Works could pay 20c on the \$.

Now, who was it that coached Borden past Hamilton? Why all this side-stepping?

There is not a large city in Canada that elects its aldermen by the at-large system. It's doubtful if there is one anywhere.

Frosted wheat means dear wheat, and dear wheat means less of it.

We may expect the opening of the Home for Incapables to be the next great public function.

LOST HIS BALANCE, FRACTURED SKULL.

Serious Accident to Mr. Ardon Lane at His Own Home To-day.

He Fell Over a Bannister into a Basement Stairway.

While walking up his own front door steps at 8 o'clock this morning, Ardon Lane, 19 Gore street, fell over the bannister and into a basement entrance, falling upon some stone steps and fracturing the base of his skull so badly that it was at first feared he would not live more than a few hours, at best. He was taken to the City Hospital, where he is at present in an unconscious condition with Drs. Dillabaugh and Balie in attendance.

SMASHES WOMAN'S SKULL AND THEN ATTEMPTS SUICIDE.

The Man Evidently Insane, and Both in Hospital With Little Hope of Recovery.

New York, Sept. 18.—Just before Magistrate Corrigan closed night court on the morning of Sept. 14, a man who said he was Frank J. Miller, of 313 West Thirty-fifth street, presented himself and asked to be locked up.

"I have just ten minutes to live," he told the magistrate. On being questioned, Miller said that he had done wrong, just what he declined to say, and reiterated his belief that he was to die immediately. Magistrate Corrigan sent the man to Bellevue for investigation as to his sanity.

A woman claiming to be Miller's wife went to the hospital repeatedly to see him, and yesterday afternoon at 2:30 o'clock on her promise to take care of the man he was discharged from the hospital.

At 4:15 Miller smashed the woman's skull with a heavy hammer and cut her face with a razor, then, when he saw that he could not escape the police, cut his own wrists and throat. Both man and woman are lying in the Roosevelt hospital in a critical condition. Little hope is entertained by the hospital physicians for their recovery.

The woman's name is Della Moulton, and she is 25 years old. Miller is 43. They have been living as man and wife on Thirty-fifth street for the past two years. They had little to do with other tenants, who knew little about them. Miller was supposed to be in the real estate business when he worked.

A private telegram from New York is to the effect that the man and woman have Hamilton connections.

LOCAL LEGAL.

A Number of Cases Heard at Toronto Yesterday.

At Toronto yesterday, in Hamilton Steamboat Co. vs. MacKay, G. F. Shepley, K. C., for defendants, moved for leave to appeal to the Supreme Court of Canada from the judgment of this court. J. Dickson (Hamilton), for plaintiffs, contra. Reserved.

In Loudon Manufacturing Co. vs. Milmine, R. L. McKinnon (Guelph), for plaintiffs, appealed from judgment of Riddell, J., 90 W. R., 829, dismissing the action, which was brought for the price of goods sold. The appeal is against defendant William S. Milmine only. That ground of his infancy at the time the goods were purchased. Plaintiffs alleged ratification since majority and contended also that they were entitled to judgment for the value of the goods in the possession of defendant, W. S. Milmine, at majority. J. G. Farmer (Hamilton), for defendant, William S. Milmine, contra. The court agreed with the trial judge that the letter relied upon as ratification was not sufficient to satisfy the statute, but held that plaintiffs were entitled to leave to amend now to set up the alternative claim for the value of the goods, and were entitled to succeed upon that claim to the extent of \$75. Leave to amend and judgment for plaintiffs for \$75 without costs of action or appeal.

SCOTTISH RITERS.

Boston, Sept. 18.—The Scottish Rite Masons of the northern jurisdiction continued their sessions here to-day. Among those present was Senator John Ellis, of St. John, N. B., commander of the Scottish Rite in Canada.

THE USURPER

She turned on him so suddenly that the amiable Sir Jordan started back from her blazing eyes and upthrust hand.

It was a strange life for a young girl. Besides her "brother" Jack and Meth, she saw no one excepting at a distance, for the miners, taking the hint which Neville had given Lockie, carefully avoided the neighborhood of the young un's claim and left him alone more severely than ever.

But Sylvia did not appear to find it dull, and seemed perfectly content. Neville had found her on the floor at the bottom of his trunk. A volume of Tennyson, Macaulay's England, "Wild Sports in the West," and "The Farrier's Vade Mecum," and Sylvia devoured these of an evening, when she felt disinclined for needlework, and sometimes brought one down to the edge of the claim and read there; very often, however, letting the book lie disregarded in her lap, while her eyes dwelt on the handsome face and stalwart form of "her brother," as he picked and dug and toiled in the dusty hole.

Stocks and Bonds
NOON STOCK LETTER.
(Received by A. E. Carpenter from Ennis & Stoppani.)
New York, Sept. 18.-The market during the morning ruled firm, with trading of a mixed character. The buying in Union and Northern Pacific, Reading and elsewhere appeared to emanate from foreign quarters. There was influential selling at various points. The declaration of the regular N. Y. C. dividend is well received, Union Pacific being a holder of this stock, and a further point regarding Union Pacific is that credited to Attorney-General Bonaparte, to the effect that the Alton immunity is no secret. If Alton is granted immunity in the rebate case it will do much to restore confidence.
The President of Twin City says he has the best traction system in the United States, with impragable franchises, a charter as broad as that of any in North America, can charge straight 5-cent fare, and property in splendid condition. He feels that the stock should be worth two hundred, and apparently instead that Soo will issue \$4,200,000 of new stock previously authorized, with rights to stockholders. The Northern Pacific dividend meeting is due Oct. 4, Guesses as to the extra dividend range from six dollars cash to extreme of \$20, the latter being based on sale of Burlington. Interest expected in due course. It is claimed that the Burlington is steadily absorbing M. K. & T. stock. After the meeting of the finance committee of Steel yesterday it was stated that orders on books show about 7,000,000 tons, against 7,603,000 tons July 1.-Ennis & Stoppani.

ENGLISHMEN SAY THAT NATIONALITY PREJUDICES THEM IN CAPTAIN'S EYES.
St. Catharines, Sept. 17.-The steamer Advance was held up in Welland Canal at Thorold to-day by High Constable Boyle, who compelled Purser MacFarland to return to the city to show cause why four English sailors, discharged without seven days' pay, should not be settled with. The case was heard by Police-Magistrate Comfort, and the men told a story of seven days' wretchedness inflicted upon them by Capt. Doust, who finally discharged them because they were English. When evidence was taken MacFarland settled with the men, paid the costs and the boat proceeded.
Ada Shaw, fifteen years old, was badly hurt in the canning factory at Chatham yesterday morning. The machinery caught her hair, practically seeping her. She bore the suffering pluckily. It is feared the loss of the scalp is permanent.
All transactions in 5 per cent. rentes were suspended on the Madrid Bourse yesterday. It is rumored that a theft of \$2,000,000 in unnumbered bonds has been discovered.

The Parkins brothers have purchased the old Book farm; price, \$5,000.
About two miles of the new green stone road leading to the Scotch block is now in a deplorable condition and so far as can be learned is to be left in that condition for another year. The authorities say the money is all gone and they can do no more. The ratepayers think if the superintendent had built and finished one mile this year instead of trying to build two the results would be more satisfactory.

New Publications.
The novelette which opens the October number of The Smart Set is by a new English writer, H. Cheriton Hilgate, and is entitled "Spinners of Fate." It is a delightful love story, most of the scenes of which are laid in a small German town where the hero, an English clergyman, has gone for a time to take charge of a parish. This issue is particularly rich in short fiction, Catherine Carr, a promising new Southern writer, is represented by a strong story called "The Payers." Other writers of brilliant fiction are E. J. Rath, Marion Hill, Elizabeth Daly, Cameron N. Wilson, Mary Glascock and Wilnot Price.
Mr. Miles Vokes, hardware merchant, has announced himself as a Toronto Mayoralty candidate.
Arthur Dunn, a young Scotchman, was crushed to death at the Canadian Pacific coal elevator, at Toronto.

Our Exchanges
With Any Government.
(Goldwin Smith.)
With a Government such as ours, and subject to such influences, it is much to be desired that the State should let private interests and relations alone.
A Matter of Accent.
(Guelph Mercury.)
The Hamilton police have received the thirty-third degree in chess connected with the Barton murder mystery. Do you notice what the accept is still on the last word of the preceding sentence?
When Did He Tell the Truth?
(Ottawa Free Press.)
Premier McBride denies that he advised Lieutenant-Governor Dunsinuir not to assent to the Natal Act bill. Why then did he tell Hon. R. W. Scott that he had done so? Why should Hon. Mr. Dunsinuir have stated to the Secretary of State that he was acting upon the advice of his Ministers if he was not? In other words, who is telling a falsehood?
No Outbreak Here.
(London Free Press.)
Hamilton uses lake water, and is reported to have an outbreak of typhoid. Toronto also draws supplies from the lake, and is now and again under orders to "boil before using."
Was Not There.
(Toronto News.)
The News has received this despatch from Dr. Coughlin, superintendent of the Deaf and Dumb Institute at Belleville: "I was not on the platform at Mr. Borden's Peterboro meeting. I was not at the meeting. I was not in Peterboro on that day. Why write an editorial without inquiry as to the truth of the statement? Was it proper? Was it decent? Will you now expose your Peterboro purveyor of falsehood?"
The Deferring to Mobs.
(Montreal Gazette.)
The decision of Mr. Justice Russell in the present instance comes at an opportune time. There are lots of men and newspapers in Canada just now preaching the doctrine that a law-breaking mob is a power that the nation should defer to, and that the objects of its wrath should be subjected to legislative indignity. The judgment teaches that in Canada all men are on an equality before the law, and that on the courts being appealed to the law will be upheld.
Asiatic Immigration.
(Victoria Colonist.)
Restriction has already been put upon the Chinese, and we feel very confident that an arrangement will easily be come to with the Government of Japan for the regulation of immigration from that country. We do not think there is at present need for alarm because of immigration from those sources. The Hindu question is one of tremendous difficulty, and we are not sure that the fact of its being not make it harder to solve.
To Tar the Roads.
The local authorities of Washington, D. C., intend to overcome the mud and dust nuisance by coating all the macadam and dirt roads in and adjacent to the city with a tar preparation. The Engineer Commissioner, has recently made a visit to Montclair, N. J., where the roads have been treated with tar. He is convinced that this preparation could be used to excellent advantage on the roads in the vicinity of Washington. The work will be commenced at once and will be continued until all the roads have been treated. It is estimated that the cost of treating the roads with tar will be about 12 cents per square yard.

THE HAMILTON TIMES

WEDNESDAY, SEPT. 18, 1907.

THE CITY MUST OBEY.

If any alderman of the Board of Works entertains the notion that the Railway Board has not power to compel the city to obey its order in the Herkimer street matter, let him get rid of it. The power given it to compel the street railway to obey applies equally to the city. The City Solicitor is undoubtedly right in advising the aldermen that it must obey. The street railway, at the request of the city, has been ordered to restore the four-foot devil strip, and the city to comply with the terms of the by-law and furnish the material for paving the street, the grade of which has been altered by the Board of Works. The avowed object of the aldermen of the Board was not to secure the narrower devil strip—they freely admit that the wider one is desirable—but to compel the street railway to do certain work, not falling to it under the by-law, as the price of aldermanic consent to the change. The Railway Board has, very properly, we think, taken the stand that no right to the streets is abandoned by the city, except by special grant clearly set forth. This is taken by some aldermen to mean that they can put a price on their consent to allow even improvements for the public safety and convenience to be made. Perhaps this view is correct, but it may not be a boon to the public. It has not been easy heretofore to get the street railway to make improvements that were generally desired, and its public-spiritedness is not likely to be stimulated by having to purchase aldermanic consent. The Board of Works last night seemed to feel that it occupied an anomalous position, as it did not move to propose the "compromise" it has been seeking. "Let them come to us," was the sentiment. And if the street railway people do not "come," but go ahead and narrow the devil strip, the result will not be good for the people, and the city will have to bear the expense of supplying the paving material. An ounce of reason used in such cases is worth a ton of "war," with all the empty glory of victory thrown in.

THE TRENTON SCANDAL.

The great voters' list scandal which the unhappy old Globe unearthed at Trenton with a gush of public horror some weeks ago has come to an untimely end. It has fallen very flat. The Globe and the minor Grit organs should now apologize for their false accusations against the Conservatives. But they won't.—Brookville Times. No, they won't. And, moreover, the offender in the case, instead of looking for apologies, is probably glad that he has not been penalized for his part in the scandal. The lesson he has had will perhaps make him more careful in the future. To engage a man to copy hundreds of names from a former voters' list into the assessment roll after it has been revised, with the object of getting these names into the new voters' list without the ordinary process as prescribed by law, and without consulting the assessor, and then making the ordinary statutory declaration that the roll is as it left the judge, is hardly a regular proceeding. We are not astonished to learn that the judge condemned it, and removed the names. The assessment roll is for the assessor, and Trenton's Town Clerk has, it is to be hoped, learned a lesson that will prevent a repetition of the scandal and promote regard for observance of the law in such cases.

TIMELY WORDS.

There are not lacking evidences that neither the Toronto Globe nor Mr. R. L. Borden can be crooked by the finger-summon the Grits and Tories of the country to bow in worship at the socialistic shrine which Mr. W. F. Maclean has dedicated to what he calls "the principle" of the public ownership and operation of all public utilities. There are a lot of hard-headed people in Canada who have not yet taken leave of their reason and to whom the teachings of experience convey lessons they will not readily disregard. Mr. Maclean has been making a great deal of noise, but however easily impressed some people may be by it, the volume of sound made by its advocate is a very poor criterion of the scientific correctness and practicability of any economic theory. The question of the right of the people to control in the public interest all public franchises is not in dispute to-day. The wisdom of public operation of all public utilities is very much disputed. The Times thinks that the number of cases in which public operation will improve on controlled private operation is very small, even if the more distant evil results of public operation be excluded from the consideration. Each case must be judged alone. At London Mr. Borden alleged that "every elector in Ontario favors public ownership of the public utilities." The statement is, of course, absurd. The Montreal Herald deals with it in this way, and its remarks are worthy of careful study: "But if it were true that every voter in Ontario favors this policy, and if it were true that the Globe was able to commit the Liberal party of Ontario to it, the fact would not make them right. For they are not right, and there is nothing in the present situation of the Dominion which makes government operation of telegraphs or telephones, or railways, or street railways, or power plants, or any other such concerns, at all desirable, or any propaganda in favor of it properly excusable. Which is the preferable working principle about a government? That it should introduce its authority into as many of the affairs of the people as it can, or as few as it must? And, having answered that, what is the fact about governments; do they afford the public a better service, when they

undertake a service, or one less good than private enterprise provides? As to the fundamental principle, the consistent effort of progressive Liberal thought has been directed to forcing the executive, whether King, President or Cabinet, to keep as far away as practicable from the people's every day concerns. The original sin with which all political executives are tainted is to take undue advantage of their opportunity, and to fall back upon their power for protection. When the safety of a people depended upon its capacity for obedience and its willingness to conform to usage, it was right and proper to put everything in the hands of the government. In Germany and in France they have not yet escaped altogether from that state of helplessness, and the government has to send them men to run their towns and cities for them. At the base of the British tradition, however, is the principle that not usage, nor obedience, governs, but choice, and once that principle is allowed to operate the further the government keeps itself removed from direct contact with the people the better for the government. And, for the people, the farther they can go without calling in the supervision of the executive, the more certain they are of being able to secure satisfaction for all service without being obliged to overturn a government in the process, the better for them, too. So when it is assumed that it is the natural and desirable thing that the government of the country should operate the telephones and telegraphs, and railways, and so forth, the answer is that it is no more nature than that the government should grow wheat or peddle bread, or should slaughter houses, or rent dwellings, or sell coal. People do not want the government as the other party to a commonwealth arrangement, but as the power to which appeal can be made, the reservoir of justice, in case of a falling out. Secondly, governments do not manage these things better, when they do attempt them. Nobody wants to see the telephone system in this country, to go no further afield, as inefficiently conducted as the telephone systems of Europe are. And nobody wants to pile into the field of politics another bone, every pick which by rival political schemers and their accomplished friends in both camps, would translate lowered political standards into terms of poorer service to the people. Political wisdom cannot safely abandon these lights which arise from experience, have placed for its guidance, even if every voter in Ontario was ignorant enough to close his eyes to them. The function of Parliament is not invaded when appeal is made to it to correct abuses which may arise in connection with the private operation of such services, and that appeal, when it has been made, has not been denied. To correct abuses, establish and maintain a correct relation between the corporations and the public, the Railway Commission was set up, and its sphere has been enlarged to include other than railway companies. That recourse has been sufficient for all needs up to the present, and, as it is based upon the proper principle, should suffice, with further enlargements for the future. It will take more than the fiat of the whole government ownership and operation of public utilities, just as it will take a great deal more than a speech by Mr. Borden to commit the other half.

Those are good sentiments, and they are well expressed. Mr. Borden cannot force Macleanism on his own party, and the Liberals are not to be made a tail for the Socialistic kite. Liberalism should stand for the minimum of Government interference with the individual commensurate with the free exercise of the rights of all and the welfare of the State, not for the further invasion by Government of every sphere of life and action. It should own and control in the public interest all public franchises, that is government. But the less we mix politics with the industrial affairs of the country, the greater the efficiency attained and the higher the moral plane of the nation.

ECZEMA 15 YEARS WITHOUT RELIEF

Friend Recommended Cuticura— Uses Five Cakes Cuticura Soap and Two Boxes of Cuticura Ointment and is Entirely Cured—Feels Like New Man.

GLADLY RECOMMENDS CUTICURA TO ALL

"I have had eczema for over fifteen years, and have tried all sorts of remedies to relieve me, but without avail. I stated my case to one of my friends and he recommended the Cuticura Remedies. I bought them with the thought that they would be unsuccessful, as with the others. But after using them for a few weeks I noticed to my surprise that the irritation and peeling of the skin gradually decreased, and finally, after using five cakes of Cuticura Soap and two boxes of Cuticura Ointment it disappeared entirely. I feel now like a new man, and I would gladly recommend these remedies to all who are afflicted with skin diseases. David Blum, Box A, Bedford Station, N. Y., Nov. 6, 1905."

Little Son Had Eczema

"My son when four years of age had eczema on his body and limbs and suffered badly. Cuticura Remedies were recommended to me and I gave the complete treatment a trial and at the end of the third month my son was cured. I cannot say too much praise Cuticura Remedies and am always ready to recommend them to others. Mrs. G. H. Conant, Box 811, Rockland, Mass., Dec. 14, 1905."

Helpless Infants cured of Torturing, Disfiguring Humors, Eczemas, Tetterings, Rashings, Itchings and Irritations, owe more to Cuticura Soap and Cuticura Ointment than to all other remedies combined. No others so pure, so sweet, so speedily effective. May be used from birth.

Complete External and Internal Treatment for Every Form of Infantile, Childhood and Adult Eczema, Scalds, Burns, Itchings, Eruptions, Humors, etc. Cuticura Soap to Cleanse the Skin, Cuticura Ointment to Heal the Sores, Cuticura Resolvent (or in the form of Chocolate Coated Pills, in vials of 100) to Purify the Blood. Sold throughout the world. Patent Drug & Chem. Corp., Sole Proprietors, 150 N. 2nd St., Philadelphia, Pa.

EDITORIAL NOTES.

It may be very enterprising to take a new lot of municipal and political rumors every day, but it is not news.

Superintendent Coughlin denies that he was on the platform at Borden's Peterboro meeting. Who is "the fellow that looks like me"?

If a score of lawyers and law officials sit continuously on those York Loan cases till Christmas they should be able to hatch out something.

Yankee tourists are said to have spent \$20,000,000 in Europe this season. What a lot of wealthy waiters and chambermaids there must be over there!

The coroner's jury that investigated the Caledon railway wreck censured the engineer, conductor and the C. P. R. Warrants are out for Hodge, the conductor, and Grimes, the engineer.

The verbal slinger of the Toronto Telegram is after A. G. Mackay. That is a compliment, and should lead Liberals to think the more highly of his qualifications for party leadership.

Less than one in twenty-five of Toronto's ratepayers qualified to vote on the \$781,171 waterworks by-law turned out to mark ballots. That sort of thing is not hopeful for municipal ownership and operation.

Foreman Nelligan's explanation of the O'Neil matter seems to be frank and clear and acquits him of intentional wrong. But the system in vogue of paying the city employees is not a good one, and the change proposed is in the interest of accuracy.

Mr. J. J. Wright, manager of the Toronto Electric Light Company, explains that his company pays a "flat rate" of \$8.75 for its electrical energy, which works out at about \$35 meter rate. The "flat rate" estimate of the Hydro-Electric Commission at the Falls is \$10.40, or \$1.65 higher than that which the Toronto company pays.

The legal proceedings connected with the York Loan winding up may drag along into next summer. Even if continuous sittings are held, it is said that they will last till Christmas. With a lot of lawyers in continuous session for months the prospect for the shareholders getting big dividends out of the remains of the wreck is not encouraging.

The determination of the Dominion Government to exercise its powers to regulate and control the export of electrical energy is a good one. It removes all apprehension that Canada will get the worst of it in prices. The companies must sell their product, and they will exert themselves to cater to the home market at fair prices.

The Brookville Recorder draws attention to the fact criticised by Tories of Sir Wilfrid Laurier going outside of Parliament for a Minister as having a counterpart in Whitney going outside the Legislature for a Minister when he chose Mr. Cochrane as Minister of Lands and Mines, a man who had had no Parliamentary experience, and passing over such a man as Mr. Gamey.

The Toronto World says Borden was presented at Winnipeg with a petition from the Conservatives, asking for a convention to draw up a policy. Can it be that those Western Tories are dissatisfied with Mr. Borden's policy? The World says the petition was accompanied with a threat that if it were not granted the Western Conservatives would not

support him. Treason! Rebellion! Call out Guards Fowler, Foster, Bennett, and the rest!

The New York Engineering and Building Record thinks the American Society of Civil Engineers ought to make an investigation of the Quebec bridge-collapse "solely in the interests of engineering," as it is confident that "until such a strictly professional investigation is made the cause of the disaster will not be definitely known, and it may not be then." It suggests that the influence of secondary stresses may have to be considered in connection with the causes of the disaster.

"There is no reason for a government monopoly, in transmitting messages by letter, unless it is extended to include the transmission of messages by wire, by telegraph and telephone."—Mr. R. L. Borden.

It is to be observed that this appeal, a mere begging of the case—a sort of argumentum ad ignorantiam—wins little enthusiasm. Mr. Borden seems to be constantly excusing himself and speaking in semi-apologetic tones. And why did he not include among his extensions delivery of messages by wireless, by telepathy and by private messenger?

"There is nothing to drive the English-speaking farmer out of this Province if he will adopt the same industrious methods which made the position of his father so secure and so prosperous. There are no conditions, social or otherwise, that should militate against the permanent stay of the English-speaking farmer in this Province. If they are obliged to give way to others, it is because their methods have changed." This is an opinion expressed by Mr. Robert Ness, the well-known agriculturist and stock-breeder, of Horwick, Que., on his return from the Toronto and Sherbrooke exhibitions, and is in striking contrast to the statements of Mr. Robert Sellar in his book, "The Tragedy of Quebec," which we referred to in last evening's Times.

SUICIDES FOR JAP GIRL.

American Unable to Wed Because of Her High Rank.

New York, Sept. 17.—For love of a Japanese girl of rank whom he never could hope to marry, H. Isaac Scull, a young buyer of Oriental goods, drank cyanide of potassium to-day as he stood before a picture of the girl in his room in the Park Avenue Hotel. So quickly did the drug do its work that he dropped backward, killed instantly. Papers in Scull's desk showed that his home was in Bala, Pa. He was an expert judge of Oriental goods and made frequent trips to the east, where a few months ago he met the Japanese girl on whose account he is supposed to have killed himself.

It was said that the young woman belonged to a noble family of Old Nippon. Religious and racial differences stood as a bar between the couple. Scull was despondent and moody lately, according to his friends.

FOUND GUILTY.

Former Polish Clergyman Convicted of Murder in Second Degree.

Pittsburg, Sept. 18.—The jury in the trial of Ludwig Szaryski, the former Roman Catholic priest from Chicago, charged with the murder of Andrew and Stephen Starzynski, brothers, returned a verdict of murder in the second degree to-night.

The priest testified to-day that he supposed it was correct that he had killed the brothers, but that it was done in self-defence and that he was drunk at the time. He admitted that Francesco Sprow, his housekeeper, who was in the house when the double murder was committed, had accompanied him to this city from Chicago. It developed that the housekeeper occupied the same room with one of the Starzynski brothers.

MRS. THOMAS NOW ON TRIAL. THE WIARTON RIOT CASE IN COURT AT WALKERTON. She Maintains That the Shooting Was Accidental—Did Not Know Anybody Was Hit Until Told About It—Young Men Plead Guilty and Will Be Sentenced To-day.

Walkerton, Sept. 17.—The evidence in the Wiarton rioting case to a close this afternoon. Robert Lancaster was discharged and John, William and Walter Lancaster, the other three brothers, withdrew their plea of not guilty and pleaded guilty. They were remanded for sentence till to-morrow. In charging the jury earlier in the day the Chief Justice referred to the circumstances attending the case. These were when the Chief of Police came along and told me. So far as I knew I did not shoot anyone. I did not aim at anyone and had no intention of shooting anybody. I only wanted to frighten them away."

Having a Pleasant Time. On cross-examination by Mr. Meredith, the prisoner said: "I lived in this tent at Kincardine, Southampton and Wiarton, and Mrs. Lamont was visiting me. I did not carry on any business in the tent, but was just having a pleasant time." She was quite cool and gave her evidence clearly. Milton McGibbon testified that Mrs. Thomas fired four shots and that it was the first shot that killed Gilbert. She fired directly at him, he said, and the fourth shot went into the ground beside witness. He was one of the raiders who went there on the instance of Gilbert to destroy the tent. James Miller, another of the raiders, said that it was the last shot that killed Gilbert. Mrs. Thomas fired within ten feet of him, and her arm was pointing in his direction. After the last

came Mrs. Lamont went out to the road and I took the revolver from under the pillow. I bought the revolver at 5 o'clock that evening and fired two shots to test it. When the crowd came it had three loaded shells and two empty. I put it in my stocking and went out towards the crowd. There were about twenty-five or thirty of them. I counted about five with blackened faces. Others had their caps down. When I went out to the road I saw Gilbert at the head of the crowd, and said: "What's the matter, boys? What have I done to you?" Nobody answered, but some one said: "Come on, boys; now is our chance." Ten or twelve rushed past me, and also past Mrs. Lamont. From that time on I never saw Mr. Gilbert. It was fairly dark where the tent was. When I got back there the tent was down and they were tearing it to pieces. I said, "Stop"; they did not stop, and I took the revolver out of my stocking and fired three shots in the air. I did not shoot at anyone and had no intention of shooting anyone. After firing two shots some one struck my wrist and it dropped. As it dropped I fired the third shot. I did not think the blow affected the direction of the shot. I heard them say that somebody was hurt, but the first I knew about Gilbert being shot and told me. So far as I knew I did not shoot anyone. I did not aim at anyone and had no intention of shooting anybody. I only wanted to frighten them away."

shot he partly straightened up and fell backwards. Counsel are addressing the jury to-night, and the Judge's address will be delivered in the morning. "TICK-TACK" CAUSES MADNESS. Why a Girl Telegraphist Committed Suicide. London, Sept. 18.—The remarkable statement that girl telegraphists are sometimes driven to suicide by their work was made at an inquest held at Woolwich. The inquest was on Marian Gibbons, aged 23, a telegraphist employed at the General Post Office, who committed suicide by taking oxalic acid. Miss Harriet Gibbons, a sister of the dead girl, asserted that a number of the girls employed at the General Post Office suffered from nervous debility. "The continual 'tick-tack' of the instrument affects their nerves," she stated. "There have been cases of suicide through it." A verdict of suicide during temporary derangement was returned.

SCOTCH WHISKEY. Distillers Say Cost of Production Leaves No Profit at Present Price. London, Sept. 17.—Drinkers of Scotch whiskey must be prepared shortly to pay higher prices for their favorite beverage. The distillers say that owing to the great rise in the price of coal and the increase in the price of barley, due to a sunnier summer, the cost of production has been raised to a point which leaves little or no profit. They, accordingly, are convening a meeting to discuss the raising of prices. There are, however, considerable difficulties in such a step, inasmuch as there are too many producers, and the stocks already bonded are overwhelmingly large. JASTORIA. COST WOULD BE \$17,000

And It Might be More to Fill the Inlet.

City Engineer Will Report on Progress on B. & H.

Trades and Labor People Displeased With Board of Works.

At the request of the Finance Committee City Engineer Barrow has prepared an estimate of the cost of filling in the southerly part of the Coal Oil Inlet. The figure will probably shock the aldermen. Mr. Barrow thinks it would take over \$17,000, but admits that this is only a rough estimate and the cost might be more.

City Engineer Barrow says the plate the Street Railway Company is using to fix up the joints of its tracks does not fill the bill nearly as well as the plate originally ordered by the Railway Board, on the advice of their engineers, but later changed at the company's request.

Acting on instructions from the Finance Committee City Engineer Barrow will make an inspection of the Brantford & Hamilton Railway, within the next few days, to see how near the road is to completion. The committee decided to wait for the report from the engineer before dealing with its \$10,000 bond. Mr. Barrow is quite pleased with the work on Hess and Main streets. He will suggest however that the company erect straighter poles on some parts of Hess street. These wooden poles are to be replaced with iron poles within two years. Mr. Barrow arranged for a conference with the company's solicitor today.

The chairman of the Municipal Committee of the Trades and Labor Council, stated this morning that the committee was displeased at the Board of Works in disposing of the Nelligan case last night without hearing his committee. The committee, he said, will ask to have the case re-opened at the next meeting.

At a special meeting of the North End Improvement Society in St. Lawrence Hall, to-morrow night, at which the general public will be welcomed, the ward systems will be discussed. Mr. George Kerr, Ald. Farrar and representatives of labor will speak.

Mr. Barrow is preparing a description of the new roads near the filtering beach, which will be decided over to the Beach Commissioners.

V. Lighthouse took out a permit today for a brick store on Jones street, between Burlington and Guise streets for J. Walton, to cost \$600.

Alderman "Tom" Allen, the veteran of the City Council, who enjoys the distinction of having served the city longer in that capacity than any alderman in harness, is busy to-day receiving the congratulations of his friends. Fifty years ago to-day "Tom" landed in Hamilton with \$3 in his pocket, a stout heart and a chisel full of ambition. Few men deserve more credit for building Hamilton up than Ald. Allen. He has probably erected more houses than any contractor in Hamilton. That Hamilton appreciates his worth and long, faithful service in municipal affairs was perhaps best demonstrated by the expression of confidence at the late municipal election, when he headed the polls with a record vote.

Mr. T. S. Beasley, secretary of the Veteran Firemen's Association, has written to the Chairman and members of the Fire and Water Committee, asking that Fire Chief Tenney be given permission to make an exhibition run next Saturday for the Chicago Biograph Co. The company desires to get motion pictures of the department to show in connection with the performance. "Fighting the Flames," which is to be given shortly under the auspices of the veterans. The request will no doubt be granted.

Judges for New Provinces. Ottawa, Sept. 17.—Two important judicial appointments were made by the Cabinet to-day. Attorney-General Lamont, of Saskatchewan, becomes a Judge of the Supreme Court of that Province, while Mr. N. D. Beck, K. C., of Edmonton, becomes a Judge of the Supreme Court of Alberta.

Engineer on Trial. Guelph, Ont., Sept. 17.—Mark B. Reid, the engineer on the G. T. R. special fruit train which was in the head-on collision at Gosport a year ago this month, was placed on trial at the Fall Assizes here to-day before Judge Anglin, and there promises to be a determined fight.

FOUND OUT. A Trained Nurse Made Discovery.

No one is in better position to know the value of food and drink than a trained nurse. Speaking of coffee, a nurse of Wilkes Barre, Pa., writes: "I used to drink strong coffee myself, and suffered greatly from headaches and indigestion. While on a visit to my brothers I had a good chance to try Postum Food Coffee, for they drank it altogether in place of ordinary coffee. In two weeks after using Postum I found my headaches disappeared and finally my indigestion also.

"Naturally I have since used Postum among my patients, and have noticed a marked benefit where coffee has been left off and Postum used. "I observed that I used to drink Postum when used among mothers. It greatly helps the flow of milk in cases where coffee is inclined to dry it up, and where tea causes nervousness. "I find trouble in getting servants to make Postum properly. They must always serve it before it has been boiled long enough. It should be boiled 15 to 20 minutes after boiling begins and served with cream, when it is certainly a delicious beverage." Read "The Road to Wellville" in plain, "There's a Reason."

SHOT AT HER SHADOW.

Silhouette of Bridal Couple on Window Shade Aroused Wrath of Suitor.

Philadelphia, Pa., Sept. 18.—Samuel Pesa, of 108 Bainbridge street, and Michael Kolowitch, of 109 Monroe street, were suitors for the hand of the young woman who is now Kolowitch's bride. To-day Pesa was held on a charge of trying to kill Mr. and Mrs. Kolowitch. Pesa was offered to the effect that Pesa, sullen over the rejection of his suit, saw the silhouette of Mr. and Mrs. Kolowitch on a window shade at their home and emptied his revolver at the shadows. "Several times he has come to me and tried to persuade me to poison my husband," testified Mrs. Kolowitch. "Four months ago he did his best to induce me to elope with him. Each time I refused to listen to him."

After Mrs. Kolowitch had finished testifying Pesa calmly announced in court that he would not testify against his bride and her husband. He said that last night's attempt was by no means his last.

SIRDAR'S MOTOR CAR.

Practice for the Desert on Scottish Sands. London, Sept. 18.—Sir Reginald Wingate the Sirdar, watched with keen interest on the sands near Dunbar, on Tuesday afternoon, Sept. 17th, when the testing of the motor car which has been specially built to carry him over the sands of the Sudan. The car is built mainly of steel, with the engines and the wheels, which are broad, with solid tires, boxed in to prevent the entrance of sand. The car is of 25-45 h.p., with four-cylinder engine. Ground which no ordinary car could attempt was easily traversed in the trials. Over wet sand, in which the wheels sank nine to twelve inches, the car travelled at about six miles an hour.

WEDDINGS OF A SEPTEMBER DAY. Marriage of Miss Lucie Turner and Mr. Henry Arnold Barbridge—Pretty Event at Burlington—Watson-Miller at Toronto.

MacNab Street Presbyterian Church was the scene, this afternoon, of one of the prettiest weddings of the season, when Miss Lucie Hope Turner, youngest daughter of Mr. Alexander Turner, of the firm of James Turner & Company, wholesale grocers, became the bride of Mr. Henry Arnold Barbridge, of Winnipeg, eldest son of Mr. Justice Barbridge, of Ottawa. The ceremony was performed at 4.30 in the presence of a large number of friends and relatives. Rev. Dr. Fletcher, assisted by Rev. Beverly Ketchen, pastor of the church, officiating.

The bridesmaids were Miss Southam and Miss Stinson, of this city. Miss Barbridge, of Ottawa and Miss Strang, of Winnipeg. The groomsmen was Mr. F. M. Barbridge, of Ottawa, and the ushers were Mr. J. A. Turner, Mr. Horace Wilcox, and Mr. F. R. Martin, of Hamilton; Mr. Featherstone Aylesworth, of Toronto, and Mr. O. B. Augspurger, of Buffalo. The charming bride was beautifully costumed in carmine and lace over white satin, with satin train. She wore a veil and orange blossoms and carried a bouquet of white roses. The bridesmaid looked pretty in canary taffeta over tan net and wore tan taffeta hats with garru aigrettes and carried white asters. The bride's mother wore heliotrope manganette with lace bonnet and pink dahlias. The groom's mother wore grey brocade with Cluny lace and black hat. Miss Lucy Southam, of London, sang during the signing of the register, and Miss Stuart played the wedding march.

WATSON-MILLER. An interesting event took place at St. Basil's Church, Toronto, at 9 o'clock yesterday morning, when Mr. John Bertram Watson, manager of the North Toronto branch of the United Empire Bank, son of Mr. and Mrs. Watson, of Hamilton, and grandson of the late Hon. John Crawford, Lieutenant-Governor of Ontario, was married to Marguerite Marie, daughter of Mr. and Mrs. Daniel Miller, of 15 Admiral Road. The Rev. Michael Kelly performed the ceremony. The bride was given away by her father and attended by her sister, Miss Katie Miller. She was simply dressed in an Etan coat and skirt of cream serge, over a lace blouse, and wore a white hat. The bridesmaid's frock was of pink mull and lace and her hat matched. They carried nosegays of white and pink roses respectively. Mr. Cyril Watson was his brother's best man. Afterwards Mrs. Miller, who was wearing a black voile gown, black bonnet, plumed with pink, and black feather stole, received at 15 Admiral Road, where breakfast was served. Over a hundred relatives and friends were present.

Autumn Millinery Opening Thursday, Friday and Saturday. Our Annual Autumn Millinery Opening will be held Thursday (to-morrow), Friday and Saturday, when we will make an immense showing of Ladies' Beautifully Trimmed Headwear, personally selected in Paris, London and New York, and an unusually large showing of most stylish Ready-to-wear Hats, mostly all New York creations. Every reader of this page is invited to attend during these days and make themselves familiar with our styles and exceptionally good values. We will also make a grand showing of Ladies' Mantles from Berlin, all direct imported, and the very best styles in "Made in Canada" Garments. Elegantly styled New York Costumes and Skirts will also be shown for the first time. New Blouses, New Underskirts, New Gloves and Neckwear, and a splendid showing of the very best shades and values in imported Dress Goods will be on exhibition. As we said before, everybody is invited to come and examine, inspect and ask prices to your heart's content, and not necessary to buy unless you want to. Thursday, Friday, and Saturday

STANLEY MILLS & CO., Limited. WEDNESDAY, SEPTEMBER 18th, 1907. Our Fall Opening Commencing Thursday, September 19th, and Continuing the Remaining Days of the Week. Our Fall Opening is an occasion planned solely for the interest of every woman in Hamilton and vicinity. It is the grand fashion event of the season, in which will be portrayed a thoroughly comprehensive array of styles in Women's and Children's Millinery Tailored Garments, Waists Dress Goods, Trimmings Gloves, Neckwear Fine Underwear, Etc. A sense of completeness marks our whole showing. Our aim has been to make a practical as well as an authoritative showing of styles, and we believe that we have succeeded in every sense of the word. Our Trimmed Hats This year are masterpieces of beauty and artistic designing. Shapes are more extreme than they have been for some time past, but it is remarkable how truly fetching and becoming they are when placed on the head at just the right tilt. We are showing many elegant imported models, but in no degree do these eclipse the charming productions from our own work room—all of them clever adaptations from Paris models and world-famous designs—but come and see. We want the seal of your approval on our efforts, and We Welcome Everybody to our Brilliant Opening Exhibit To-morrow. Our invitation is for all to come and spend the entire day with us. GOVERNMENT IS INVOLVED. Cobalt Lake Company Will Not Be Protected. Toronto, Sept. 18.—Yesterday at the Non-Jury Assizes Mr. Justice Riddell granted the postponement of the trial of the action of the Florence Mining Company against the Cobalt Lake Mining Company until the Ontario act had been tested and the title of the latter in the mining rights of the lake had been settled. In support of the application for the postponement the affidavit of Mr. Simon Sinclair, Vice-President of the Florence Mining Company, was handed in, stating that recently an order in Council had been passed directing the Ontario Government to show cause why the Ontario act should not be disallowed according to the petition of the Florence Mining Company. Mr. Osler, on behalf of the Cobalt Lake Company, asked for an order to protect any mining operations carried on while the case was pending, but the application was refused, so that any future work done until the case is settled will be at the company's own risk. The Ontario Government are really the defendants in the action, as the case turns on the question whether the Government had the right to sell the mining rights in the lake to the Cobalt Lake Company, for which \$1,085,000 was paid. Should the Florence Mining Company win their action the Government would probably have to pay back the purchase money, but the company would still be out the amount they spent in development.

UNION OF MINISTERS. Cleveland Preachers Complain of Meagre Salaries. New York, Sept. 17.—The Tribune has received the following despatch from Cleveland: Cleveland preachers have raised their voices for a rise in pay, and one has gone so far as to suggest a union, by which to enforce a demand for a higher scale of remuneration. Increased cost of living is blamed and the change is made that salaries have not advanced in ten years, while necessities of life cost so much preachers must squeeze each penny. "The average pastor's work is easily hampered by the meagreness of his salary," said Dr. E. D. Bagby of the Franklin Avenue Church of Christ, today. "He has to plan and skimp and figure every penny to make both ends meet." "Why not a union? The carpenters have one; why not a union of the disciples of the Carpenter's Son?" asked another pastor. BUSTER BROWN. Ottawa Citizen Asks for Injunction Against New York Herald. Ottawa, Sept. 18.—Justice Burbridge sat this morning in the Exchequer Court to hear a motion for an interim injunction in the case of The New York Herald Company vs. Ottawa Citizen Company, Limited, to restrain the defendants from infringing the plaintiff's trade marks, "Buster Brown" and "Buster Brown and Tige," until the trial of the action, and from causing to be made and sold any newspapers having comic series marked with the title "Buster Brown" or "Buster Brown and Tige." This is the beginning of a big fight between The New York Herald Company, claiming to be owners of the Outcalt Buster Brown series and the Canadian Newspaper Syndicate of Montreal. Application for an interim injunction was not granted, but the defendant was ordered to keep an account of the issues printed and sold in which these comic sections occur. HURON JUBILEE. Sermon Preached by Bishop Ingram of London. London, Ont., Sept. 17.—Right Rev. A. F. W. Ingram, Lord Bishop of London, England, was guest of honor and preacher at the very impressive jubilee services held in St. Paul's Cathedral to-day. The large edifice was crowded to its utmost limit, and many hundreds who were anxious to hear his Lordship had to be turned away. His Lordship had to be turned away. The combined choirs of all the local Anglican churches took part in the musical services. Seats were reserved for the clergy of the city of all denominations, who were present in large numbers. Mayor Judd and the Council attended in a body. The full choral service of morning prayer was sung. Very Rev. Dean Davis read the prayers. The Bishop of Algoma read the first lesson, and the Bishop of Niagara read the second. Bishop Williams read the service of Holy Communion. After the sermon by Bishop Ingram, Holy Communion was administered, assisted by the visiting Bishops. Bishop Ingram took for his text, Matthew xix. 20: "With men it is impossible, but with God all things are possible." In order to obtain a superabundant staying execution to satisfy the recent great fine, the Standard Oil Company must furnish a bond of \$6,000,000.

ANNOUNCEMENT

Grand Fall Exhibit of PARIS AND NEW YORK MODELS AND AMERICAN NOVELTIES THURSDAY, SEPTEMBER 19TH AND FOLLOWING DAYS MISS KENNEDY, 33 KING ST. WEST

THE CONDUCTOR AND ENGINEER

OF CALEDON TRAIN TO BE ARRESTED FOR CRIMINAL NEGLIGENCE.

The Horseshoe Curve Wreck—Hodge and Grimes Were Guilty of Criminal Negligence, and C. P. R. Were to Blame for Employing Incompetent Men.

Toronto, Sept. 18.—Following upon the verdict of the coroner's jury at the inquest concerning the death of Richard Bell, one of the victims of the Caledon railway disaster, warrants were issued last night for the arrest of George Hodge and conductor respectively of the Canadian Pacific train which was wrecked.

The jury's verdict, which was returned after nearly two hours' deliberation, was as follows: "That Richard Bell came by his death from injuries received in the railway wreck which occurred on the 31st day of September, 1907, on the Canadian Pacific Railway, at a point known as the Horseshoe Curve, situated in the township of Caledon and the county of Peel, in the Province of Ontario, the said railway wreck being caused by the excessive and dangerous rate of speed at which the train on which the said Richard Bell was a passenger was being run by the engineer, George Hodge, and the conductor, Matthew Grimes, who were in charge of the said train; and we find that the said railway wreck was caused by the criminal negligence of the said George Hodge and Matthew Grimes; and, further, it is our opinion that the C. P. R. are to blame for putting incompetent and inexperienced men in charge of a passenger train running on such a difficult piece of road."

A New Theory.

When the inquest was resumed before Coroner Johnson last night Mr. Robinette, counsel for Hodge, the engineer, raised a new point by suggesting that the wreck might have been caused by a brake shoe falling on the track and derailing the engine. Crown Attorney McFadden conducted the examination of witnesses, and Mr. McMurely looked after the interests of the C. P. R. Mr. A. P. Walker, civil engineer, in the employ of the C. P. R. said he examined the track after the accident and found it in a very good condition, and the elevation of the upper rail sufficient. If the train took fifteen seconds to travel 1,230 feet, then he calculated that it must have been travelling at the rate of 50 miles an hour, but he had not figured out the speed on the evidence already given. Cross-examined by Mr. Robinette, witness admitted that a large stone or piece of wood at the farmers' crossing would cause the engine to leave the tracks. Replying to Mr. McMurely, he said he saw no signs of any obstruction. If that had been the cause of the accident he should be expected to find the ties out, the track torn up and the rails badly bent. Replying to the coroner, witness thought that the curve was safe for a train travelling 45 miles an hour.

Robert Preston, master mechanic with the C. P. R., said that Hodge, the engineer, had passed an examination on the locomotive and on the train route. Witness regarded him as thoroughly qualified. He had frequently driven freights over the same section and had handled one passenger train on the Havlock section. On the night he was in charge of the train he was the senior engineer available at Toronto Junction.

Was a Brake Shoe Missing?

W. Brown, a C. P. R. fitter, spoke of having taken two brake shoes after the wreck. Another fitter took off two, and two were left on the engine. He found nothing wrong with the running gear.

Robert McDowell, the other fitter, who was with the previous witness, said he took off one brake shoe and possibly two. He saw nothing that could have dropped.

Conductor at a Loss.

Arthur Smith, C. P. R. superintendent of the section on which the wreck occurred, said he asked the conductor of the train whether he could account for the accident, and he replied that he could not, explaining that at the time it occurred he was busy examining tickets. Witness made an examination when he arrived at the station, and found the rolling stock and bed in good shape. Question—If the bed and rolling stock were in such perfect condition, can you account for the wreck? Witness—In this case I should say it was excessive speed.

Major Sall, car foreman at Toronto Junction, deposed that the train when it left the Junction on the night of Sept. 2nd was in perfectly good condition. He could not speak for the cars taken on at Orangeville.

J. W. Kennedy, divisional car foreman, also spoke of the good condition of the rolling stock.

Anton Hertzberg, engineer of maintenance of way, formerly divisional engineer for the section on which the wreck took place, stated that a change was made in the elevation of the rails at the Horseshoe in this morning. The elevation was raised from 6 1/2 to 4 3/4 inches. The objects of the reduction were to make it more comfortable for the travelling public and to decrease the cost of maintenance. The change was made on the advice of Chief Engineer McHenry.

Another Speed Estimate. If the train was running at thirty miles an hour when it started down the curve, according to calculation it would

GRIMSBY WEDDING.

Roland J. Halle and Miss Julia Read Married.

A very pretty church wedding took place in St. Andrew's Church, Grimsby, this afternoon, when Miss Julia Margaret Read, eldest daughter of Mr. and Mrs. Edmund Read, of Grimsby, was united in marriage to Roland John Halle, only son of Mr. and Mrs. Wallace Halle, of Beamsville, and grandson of the late Capt. Joseph Halle, 82nd Infantry of England. The bride, who looked charming in a beautiful costume of Duchesse satin, Princess gown, trimmed with white brodered chiffon, and a long veil, with bouquets of bridal roses, was given away by her father. She was attended by Miss Ruth Read, as maid of honor, and Miss Amy Read and Miss Beatrice Halle as bridesmaids. The groom was attended by Mr. Spencer Read, of Hamilton. The altar of the church was tastefully decorated with palms, ferns and asters.

Promptly at three o'clock, to the strains of the Mendelssohn Wedding March, the bridal party entered the church, which was filled with guests and friends of the bride and groom. Rev. J. Allan Ballard, tied the nuptial knot, binding the two.

Miss Ruth Read, as maid of honor, looked pretty in a costume of pink silk mulle, Princess gown, trimmed with Valenciennes insertion. She carried pink roses, and wore a felt picture hat. The bridesmaids, Miss Amy Read and Miss Beatrice Halle, were both attired in pale blue silk mulle costume, with blue felt picture hats, with streamers caught on the shoulder. Mrs. Read, mother of the bride, was in grey silk muslin, over lavender silk, trimmed with allover lace. She wore hat to match.

Mrs. Halle, mother of the groom was attired in pale blue broad silk, trimmed with embroidered chiffon and cut steel, with hat to match.

The gift of the groom to the bride was a magnificent diamond and sapphire ring. To the maid of honor he gave a hoop of pearls ring. The bridesmaids received pearl crescent pins. The best man, an amethyst and pearl pin, and to the ushers pearl stick pins.

The ushers at the church were Mr. Fergus Armstrong, of Hamilton. Mr. Molton Read, of Toronto, Mr. Walter Nelles and Mr. Lockyer Nelles, of Grimsby.

After the ceremony, the bridal party repaired to the home of the bride's parents, Edgewood Farm, where the wedding breakfast was served. The usual toast to the bride and groom were enthusiastically honored.

The bride's going away gown was a travelling suit of chiffon Venetian navy blue, tailor made, with hat to match. The happy couple left for a trip to Muskoka, amid much rice and good wishes.

On their return, they will make their residence in Oakville. The bride was the recipient of many beautiful and costly gifts, which showed the esteem in which she is held by her friends.

CONAN DOYLE

And Miss Jean Leckie Married in London To-day.

London, Sept. 18.—Sir Arthur Conan Doyle and Miss Jean Leckie were married in St. Margaret's Church, Westminster, to-day. The ceremony was quiet and the name of the church at which it was performed was kept secret in order to avoid the presence of a crowd of persons who otherwise would have flocked to see the wedding of the author of "Sherlock Holmes."

Sir Arthur is thirty-eight years old and was regarded as a confirmed bachelor. Miss Leckie lived with her parents at Blackheath.

PICKED REGIMENT.

Trustworthy Men Selected for Czar's New Bodyguard.

St. Petersburg, Sept. 18.—For the further protection of his own person, Emperor Nicholas has ordered the creation of a new regiment of life guards, composed of specially selected officers, non-commissioned officers and soldiers, drawn from regiments throughout the entire Russian army, on the personal recommendation of the commanders of the various corps, who are to be held strictly responsible for the good behavior of their appointees. The members of this new regiment will be chosen individually, will be required to have manifested exceptional trustworthiness and devotion to the throne, and will be placed under the orders of the commander of the Imperial Palace.

SNAKE AS STOWAWAY.

How the "Zoo" Secured a New Python.

London, Sept. 18.—Among the recent arrivals at the Zoological Gardens is a python which shipped itself on board the steamship Hyson, of the Ocean Steamship Company and was only discovered among the cargo of white logs when the vessel was being unloaded at the Albert Dock. The stowaway was promptly secured by means of a sack, which was thrown over it, and the authorities at the "Zoo" were communicated with.

When Mr. Tyrrell, who looks after the snakes at Regent's Park, arrived at the docks, he found that the python was a young reticulated python some three feet long, and although suffering from the effects of its captivity in the sack, it was otherwise uninjured.

IN THE WORLD OF AMUSEMENT

The coming engagement of Carl Eckstrom in "The Shepherd King" will no doubt excite unusual interest among the ministers, its Scriptural subject and beautiful treatment of the story of David and Saul making them lend the remarkable tribute of personal interest. Although the basis of "The Shepherd King" is religious, it being the Bible story of David, it must not be supposed that that circumstance in any manner detracts from its dramatic power. The play has been so arranged and written that the action, while always dignified and quick and the numerous incidents keep attention continually absorbed. "The Shepherd King" will be presented at the

animals at close range and shake hands with "Jumbo." One of the choicest bits of entertainment furnished is that by May Belfort, the dainty English singing comedienne. She has a Vesta Victoria style and is one of the week's biggest favorites. Her catchy songs are making a big hit. Jupiter Brothers, the Oklahoma Cowboys, with a pretty mystifying illusion, are another bright number from all others. The rest of the bill will please.

At the Bennett.

The natural query put by everyone when Miss Carlotta steps on to the stage at Bennett's is, "Is that young woman that risk her life in a bicycle road 'chase loop'?" After Miss Carlotta has indulged in her work of trick cycling

THE CHADWICKS,

Who are appearing at Bennett's this week.

Grand on Monday, Tuesday and Wednesday next, and it promises to rival the "Ben Hur" performances of last winter.

At the Savoy.

There are at least three acts on the Savoy's bill this week that surpass any other in their class here yet. Chief of these is the Four Bears, heralded as the world's greatest acrobats, and certainly those who have seen the act will not dispute the claim. They lose no time getting down to work, and every trick they do brings a storm of applause. From start to finish the work is remarkable and sensational to a degree, but, best of all, it is thoroughly original. Few headline attractions that Manager Appleton has booked for his house have caused so much talk or attracted more applause than the Four Bears. Woodward's Seals is another of the trio of headliners, and an act well worth seeing. "There is only one seal act, and that is Woodward's," said a critic after watching the performance of the animals at the New York Hippodrome, and one might well believe that after seeing the seals at work in the hands of Woodward, to which they have been trained has attracted attention every place the act has appeared. After the performance of the Saturday matinee children will be allowed to go on the stage to inspect

and commenced to strap up her wristlets preparatory to doing the final act of her performance it is noticed that, despite her comeliness and outward appearance of everything that is weakly, she is a woman of tremendous physical strength, besides being possessed of a nerve that would put to shame most men's. She superintends the setting up of the loop, round which she will presently dash, with delightful calmness, curiously opposite to that of the members of the audience, who are in a tremble of excitement and anxiety. While men and women hold their breath Miss Carlotta ascends up the giddy incline and takes her seat on her bicycle. Just one second she takes to shake her long, girlish tresses out of her face, and then with a "Go!" she launches herself on her perilous journey. Down she flashes and round and down again into the arms of the attendants that stand ready to grab her. Then she walks back on to the stage, trembling, but laughing at the people's fearful looks.

Rose Coghlan, in her dainty little play of exciting moments called "The Higher Law," is the same profoundly interesting personality that she has always been, and in the short, all too short, while she is on the stage convinces everyone that she is a comedy queen.

The rest of the bill is in keeping with

CARL ECKSTROM,

As David in "The Shepherd King," which will be presented at the Grand next week.

HUCKLE REPLIES

To Spectator and Police Critics on Him.

To the Editor of the Times:

Dear Sir,—Will you kindly permit me to reply to statements made in yesterday's Spectator in regard to an alleged interview with Chief Smith. The interviewer says Chief Smith smiles when he thinks of my Sunday address. Well, that is one of his privileges. What do the citizens say him for if it is not to smile? And, sir, if I have caused a smile to ripple across a face generally wearing a "Dead-March-in-Saul" expression, you will surely admit I have not lived in vain. The Chief is further reported to have said that the good Huckle has landed in the wrong party. I have the slightest doubt that is the candid opinion of the police department. The Chief is further reported to have said that "if any blackmailing is done, it is the bartender who do it." Now, if Chief Smith will wear the name of any bartender who is guilty of blackmail, I will endeavor to see the bartender gets the same dose of medicine I would prescribe for bartender, policeman or any other person guilty of blackmail.

But, sir, what is all this outcry about? Up to the present time I have not said one word about the Hamilton police. On Sunday I threw a cap in the air, and if some one has chosen to wear it, I certainly am not to blame. The blame must rest upon the person whose head it happens to fit. I certainly have no objection to any one wearing it if he chooses to do so. He also had to admit under oath that in my address on Sunday I stated most emphatically that I did not refer to Hamilton police, which the reports in the papers bear out, and no excuse whatever can be offered for any one who states otherwise.

Why is it? Well the real reason—that an inquest was held upon the body of a babe found in a shed, and I as a jurymen actually had the impudence to ask questions of a policeman who was on the stand, and what was worse, I had the temerity to ask the credibility of the policeman. I compelled him to admit that a most important piece of evidence was missing, in fact it had been destroyed. He also had to admit under oath at the second session he gave evidence which he had not given during the first session. I tremble when I think of my impertinence in daring to question a policeman. Great Scott! What is the world coming to, when a jurymen dares to question a policeman under oath? Truly we live in degenerate times. And I am afraid I shall have a few more impertinent questions to ask at the adjourned inquest on Monday evening next, as I am under the impression a jurymen is sworn to "diligently inquire and true presentment make."

No spare any through fear or affection, but a true verdict given according to the evidence and the best of his skill and knowledge." I may be thought an intolerable nuisance, but I shall abide by my oath.

In conclusion I have been told I ought not to question the methods of the police. I deny ever having done so. As a matter of fact I was not aware the police had any methods. Yours, Wm. Huckle.

ROLLER SKATING.

Popular Alexandra Ready for Its Fall Opening.

The present revival of the roller skating fever prevalent throughout this entire country is indicative of the growing inclination of the public for clean, healthful exercise, which furnishes at the same time amusement and recreation of the highest order. There is no more popular form of amusement to-day than roller skating, and a visit to the Alexandra rink which, during the summer, has been thoroughly repaired and decorated in the most up-to-date manner, would be worth while for spectators as well as skaters.

The company has spent hundreds of dollars this season to make this most popular rink the handsomest pavilion of the kind in Canada, and every detail shows the most perfect indulgence by old and young, and enjoyed by the better sex as well as their sturdier brothers and friends in all walks of life, each deriving a world of benefit as well as finding a pleasant relaxation from the cares and worries of business or other duties.

The popularity of the Alexandra has been gained to a great extent by being properly conducted and managed. Order has been in every dimension of the floor and in the balcony, and at no time has there been any diminishment of the enthusiasm inspired by the rink. People will go where the greatest courtesy is shown them, and where a hearty greeting and a warm welcome is accorded at all times. Gentlemanly treatment is vouchsafed to all, and an especial effort is made at all times to take care of beginners.

It is such an essential feature of any rink, being looked after again by Mr. H. A. Stares, who promises this season something even better than last, when it was generally conceded by visitors to the Alexandra that they had without a doubt the best skating and best tempo of any band in the business.

The decorations and lighting have been improved wonderfully, having added two hundred incandescent lamps to the already great illumination, giving one thousand candle power more, making the rink total now over fourteen thousand candle power, which with the use of Japanese lanterns and umbrellas in great profusion, give the rink a fairland appearance not attempted by any other enterprise of this kind in the country.

The floor has been resurfaced, and is now in excellent shape, and there will not be any such as what was the case this year, so that dust will be an unknown quantity, as with the new system of cleaning the floor will be kept polished, hot and slippery.

The skates have been all overhauled, and will be found in the best possible condition. A new rule this year eliminates tipping in any way. The skate boys and other employees are not allowed to accept tips or fees for any attention shown to patrons, as they are employed for the express purpose of assisting to their fullest ability the comfort and pleasure of all, and the management will consider it a favor if patrons will report any demand or hint for remuneration given them, or any inequity or inattention shown them.

John Wilson, burglar, was sentenced to fifteen years' imprisonment and to thirty-six lashes by Judge Bolo at New Westminster.

Isabel Irving Tonight.

Miss Isabel Irving will appear at the Grand to-night in a Clyde Fitch play, "The Girl Who Has Everything." It is a play that brings out all the resources of Miss Irving's art in light comedy, and to depict deep human and even the tragic note in life. The comedy in four acts, and is written in the best Fitch spirit. Three acts of the play take place in the fashionable quarter of New York, and one act in a Harlem apartment house. It will be one of the most delightful plays to be seen here this season.

Two Thrillers.

Seats are on sale for "Jessie Left the Village," the attraction which will be seen at the Grand on Thursday and Friday nights and Friday matinee. Those to whom the melodrama appeals will be pleased with this play, which had a successful run in New York. It is brimming with exciting incidents, and for a popular priced attraction the production is complete in every way.

Every one knows the story of the notorious Middlebrothers and their escape from prison and in this story, which forms the theme of the successful melodrama, "A Desperate Chance," which will be seen at the Grand on Saturday afternoon and evening. This play has always done capacity business at the Grand here, and two large audiences will doubtless see it again. Seats will be on sale to-morrow.

Roselle Knott Wedded.

According to advice received here Roselle Knott, the well-known actress, has deserted the stage for all time. She was to have started out early next month in "Alice-Sit-by-the-Fire," but all arrangements have been cancelled. The reason given was that Miss Knott was in poor health, but the real reason is said to be that she was married some time ago to Ernest Shipman, her manager, although the fact did not become public till quite recently. Mr. and Mrs. Shipman are now in New York. Both are former Hamiltonians, and both have been married here. Mrs. Shipman has a son and daughter residing here and usually spent her summers at the Beach, where she owns a cottage.

Noted Evangelist's Expertise.

Irene, Ill., Sept. 18.—"I always praise the bridge that carries me over safe," are the words of J. Dimick Taylor, the great American evangelist, whose home is in Irene. While in New Scotland last winter I needed medicine and used Dr. Hamilton's Pills. They helped me wonderfully, and I recommend them to others. I send this testimonial because your remedy will work directly on the kidneys, and cures the urinary disorders that often give pain to the man and woman afflicted with kidney trouble. I have not found anything to equal Dr. Hamilton's Mandrake and Butternut Pills. I give them to a man on Tan Cook Island that was suffering in the most horrible way and in a few hours he was relieved. When a minister like Mr. Taylor comes forth in praise of Dr. Hamilton's Pills, it is evident their power is beyond the ordinary. For diseases of the kidneys, bladder, liver and stomach they have no equal. Easy to take, very mild, sure to cure, 25 cents per box at all dealers.

C. R. Jamieson's Body Found.

Parry Sound, Sept. 17.—A tug arrived here this morning from French River, bringing the news of the finding of the body of Cyril Reginald Jamieson, the brilliant young Presbyterian missionary, who was drowned in the Mad River on Saturday, the 7th instant.

Rev. Mr. Jamieson, father of the deceased, passed through here to-day on his way to French River to bring the body of his son home.

A great value-giving event that will interest every thrifty person in this vicinity

A WEEK AGO we held our opening—a gigantic success, the best ever attempted by The Right House. To-night we tell of a remarkable three days' sale of reliable, stylish new autumn goods. The sale begins to-morrow morning at 9 a.m. and involves every department in the store.

Why and how such a sale is possible at start of season

Extraordinary as it is, right at the beginning of a new season—a season that promises to be, for this store, a tremendously large one—we offer these astounding values in a three days' sale. Recently The Right House business has enlarged tremendously. Increased foreign purchasing has enabled our three foreign buyers to secure, from leading manufacturers, over-productions, sample lines and extraordinary values generally. Many

of these special lots are now here, and together with special underpricings on our own regular stocks, go to make the greatest sale event of the season.

Thousands will profit by this great introductory sale

Will you? This special opening of the season sale means much money saving for you. Come to the store to-morrow and view the displays; read the price tickets; note the qualities, and then you'll see the wisdom of buying the whole season's supplies now.

The Right House, with its tremendously large stocks of worthy goods, has for the past week been the admiration of everyone. It is still in gala attire. No one will wisely miss the displays, and the sale's great economies.

ARE ON THEIR HIGH HORSE.

Aldermen Quite Chesty Over Ontario Railway Board's Order.

Direct Company to Obey It, and Take a Haughty Stand.

Committee Decides on New System for Checking Time Sheets.

The Board of Works aldermen are quite chesty since the Ontario Railway Board gave that order for the street railway to narrow the devil strip to four feet on Herkimer street. They held a special meeting last night to consider the matter, and instructed the City Solicitor to take out the order, and City Clerk Kent to notify the company to comply with it at once.

"Can the board force us to fix up the streets of Hamilton?" asked Chairman Sweeney, doubtfully.

"No," said Ald. Lewis, with hesitation. It was explained, however, that City Solicitor Waddell's opinion was that the city would have to find money to do its share of the work it had asked the board to decide on at once.

There was no suggestion of overtures to the company, although some of the members expressed themselves cocksure that the street railway would grovel when it saw the city determined. "We have them now; let them come to us," was the haughty stand the aldermen took.

They also passed a resolution that Herkimer street, from Queen to Locke street, be macadamized. Secretary Brennan said he had been unofficially informed that the Brantford & Hamilton Railway was ready to proceed with the work on Main street, east of James street, on the terms laid down by the city, to pave all the street from James to Lighthouse street.

The company has a diamond with a five-foot devil strip for the street, and Secretary Brennan suggested it might not be a bad idea if the devil strip was made five feet so the permanent road that would be laid would not have to be torn up again.

The fighting aldermen frowned on the proposal. "Let them come to us," they said, with hauteur.

Mr. Brennan pointed out that if a four-foot devil strip was made when the job between King and Main streets on James was done, it would probably mean turning up a good pavement again in a few years. Another member, who commented that these matters would be considered "when the street railway comes to us," and this suggestion was disposed of in the same manner as the others.

The committee agreed on a new system of checking out the time of city laborers as a result of the talk that has filled the air about lower methods. First the aldermen talked over the case of a man named O'Neill, who was on the pay roll although he was not working. They accepted Ward Foreman Nelligan's explanation and said they could see no objection to his being in Detroit four days, and that O'Neill would be sent to work.

The man in charge of the job had reported all the men except one, O'Neill, returned, and on the strength of this O'Neill's time was sent in. O'Neill in the meantime applied to Mr. Brennan for work, and the mistake was discovered. Mr. Nelligan said he was about to inform the secretary of the error when Mr. Brennan called up. O'Neill corroborated the story, and Chairman Sweeney said that he was confined from the beginning it was purely a mistake.

Ald. McLaren said there should be some system of keeping daily tab on the time, and instead of a weekly time report from the foreman there should be one every day. Mr. Brennan said that a report of this kind could be useless unless thoroughly checked every day, which meant employing another clerk in the department.

Ald. Juttan said even if it was so, it would be good business, and he seconded the idea that the time sheets be made out each day and mailed to the City Hall.

Mayor Stewart's action in ordering street repairs stopped roused the ire of Ald. Baird.

"Supposing the former Mayor did such a thing when he was chairman of the Board of Works, what would have happened?" he asked. "There is not a bigger growler or kicker on the face of the earth."

It was agreed to go ahead with the repair work that has already been sanctioned by the Council, and to finish filling in the holes on the block on King street which was begun yesterday.

Chairman Sweeney said that although there was going to be an overdraft, he would not take the responsibility of laying off all the city laborers and shutting down all the works.

The Cataract Power Company wrote regarding some three-glover Nestlé lamps it is installing in place of arc lamps. There are a large number of places where it cannot put up these lamps though the latter explains, because it would cost from \$75 to \$300 each to install them, far more than the company could ever hope to get out of them in revenue during the contract term. The City Solicitor will be asked to see if the city can compel the company to do it.

STRIKES MADE ILLEGAL.

New Zealand's Drastring Labor Law.

London, Sept. 18.—An important decision vindicating the Arbitration Act was announced in the Court of Appeal at Wellington, New Zealand, when a full court, including the Chief Justice, reversed the decision of Judge Williams, and affirmed that of Judge Cooper, namely, that a strike refusing to pay a fine imposed on them for taking part in a strike are liable to imprisonment.

The Court of Appeal have thus finally declared that New Zealand workers who take part in a strike are violating the law, and may be fined, and in case of non-payment, imprisoned for a term not exceeding one year.

All those who took part in the recent slaughtermen's strike will now have to pay a fine of £5 or go to prison.

LISTEN TO ADVICE.

THOUSANDS WILL BENEFIT IF STATEMENT MADE IS TRUE.

It may be that some person will be inclined to doubt the statement made by an eminent authority, at a recent meeting, that with a mixture of dandelion, kargon and sarsaparilla, he would give prompt relief to any sufferer of rheumatism or the usual forms of backache, caused by inactive, clogged kidneys, yet many cases of long standing, that had been entirely relieved, are cited to prove the truth of his assertion. The same authority further stated that many cases which failed to yield to the healing waters of the famous health resorts, or the usual remedies as prescribed, salicylate of soda, potash, colchicum, etc.—were readily relieved by the use of this simple mixture—Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful dose after meals and at bedtime.

A well-known druggist, when approached upon the subject, stated that while this prescription, as written, is new, the ingredients are continually prescribed by the best physicians, and any good prescription pharmacy has them; they are inexpensive and harmless to use, and are mixed by shaking well in a bottle. If the claims, made for this mixture, are only partly correct, it would seem that no sufferer here could afford to leave the prescription untried.

GOT RECEPTION AND ADDRESS.

COURT ORONHYATEKHA HONORS BRO. FOSTER, THE NEW H. V. C. R.

Supper Served and Speeches Given by the High Chief Ranger Bro. Darche, Hon. Dr. Montague and Others—Bro. Foster Replies—The Toast List.

Last evening Court Oronhyatekha, I. O. F., tendered a reception to Bro. Robert H. Foster, recently appointed High Vice Chief Ranger of the High Court of Ontario. It was held in the Court rooms over the Traders Bank. There was a goodly number of the order out to do honor to Bro. Foster, and enthusiasm was unbounded. At 8:30, a supper was given, after which a toast list was presented as follows:

"The King," "God Save the King," "Canada," responded to by Bro. W. H. Waddell, I. O. F.

"The High Court of Ontario," responded to by Bro. F. Darche, London.

"High Chief Ranger for Ontario," Bro. Foster, H. V. C. R., and Wm. McAndrew, I. O. F., and Clark, H. J. B.

"The High Court of Ontario," responded to by Bro. Dr. Montague.

"Past Chief Rangers of Court Oronhyatekha," responded to by Bro. Robinson, Smith and H. Ferguson.

"Present Chief Ranger," responded to by Bro. J. Jardine.

Bro. James Lawrie was a very capable organizer and handled the programme in a very satisfactory manner.

Mr. W. H. Waddell, although unexpected, gave a rousing patriotic address on "Canada, and its Great Resources."

"Present Chief Ranger," responded to by Bro. J. Jardine.

ed yourself not only to the members of your own court, but to the members of the various courts of the Independent Order of Foresters in the city of Hamilton and this district.

Your brethren would at the same time like to take advantage of the present occasion to congratulate you on your appointment as secretary-treasurer of the Board of Education for the city of Hamilton. You have not only been an agreeable companion, but you have been a strong force in the Foresters and a most useful citizen. The members of your court therefore present you with this address as a recognition of your qualities as a man and brother. They also wish to convey their respects and best wishes to yourself and Mrs. Foster, and trust that you may both have a long and happy life.

James Lawrie, chairman of committee.

H. T. Drope, secretary.

Bro. Foster, although surprised in a way when called on, expressed his grateful thanks in no uncertain manner. He heartily thanked those who had been so kind as to speak well of him, and hoped that it would be his pleasure to live up to the high standard that had been placed before him. He believed that the order was advancing beyond expectation and hoped that he might be spared to help the good work along in so far as he was able.

Mr. Shoebottom of Court Dufferin, London, also said a few words of praise for Bro. Foster.

During the evening songs were rendered by Bros. McLean, Robb, Pringle and Jardine. Mr. E. Stone presided at the piano.

DOCTOR KILLED BY A PATIENT.

SHOT DEAD BY MAN, WHO THEN COMMITTED SUICIDE.

Revolver Tragedy—A Young Wife's Terrible Discovery—A Strange Letter—The Slap on the Knee.

London, Sept. 18.—Dr. Walter Clapham Hirst, a young medical man, who recently commenced practice in Westfield-terrace, in the Chappetown district of Leeds, and who was married only two months ago, was shot dead at his surgery door early on Saturday morning by one of his patients, a retired soldier named John Harrison, living in Valley terrace, Sherwell lane, who immediately afterwards committed suicide by blowing out his brains.

For a week Dr. Hirst had been in attendance on Harrison, who suffered from various delusions, among which latterly was the fixed belief that the doctor had seriously injured him by striking him on the knee.

At 6.10 on Saturday morning Harrison went to Dr. Hirst's surgery door, and after ringing the bell told the doctor through the speaking tube that he was suffering terribly from pains in the legs and wanted to see him at once.

Dr. Hirst answered the call in person, and as soon as he opened the door Harrison fired two revolver shots point blank at his heart, killing him on the spot, and then, inserting the revolver in his mouth, the murderer ended his own life with a single shot.

Dr. Hirst, upstairs in his bedroom, heard Dr. Hirst open the door, and Harrison say: "You are Dr. Hirst?" Then came the sound of three revolver shots, and, running downstairs Mrs. Hirst found her husband bleeding from wounds in the chest, while the body of his murderer lay huddled on the doorstep of the surgery. By telephone she summoned the police, but both men were dead.

How deep-rooted Harrison's imaginary grievance against the doctor was may be seen from the following letter which a friend received from Harrison on Thursday:

Mr. Evatt.—Dear Friend, I am suffering terrific and all through — calling in that doctor who struck me on both my knees, which, if you will believe, brings on terrific epileptic fits. It was murder to me. He has killed me. I was all right before, but now I am lost. The pains and fits are terrific.

I shall not be able to prosecute, but please make this public property regarding Dr. Hirst, of Chappetown. He has killed me wilfully, and deserves punishment. He deliberately struck me on both my knee caps last Monday, and I confronted him with it before my sister, Mrs. Bunting, and he did not deny it. Farewell.—J. W. Harrison.

This delusion evidently took possession of Harrison's mind, for he spoke of it to his sister and to a number of other people with whom he was familiar, always declaring that the doctor had "killed him."

Interviewed on Saturday, Harrison's sister stated that arrangements had been made to remove Harrison to an asylum that day, and she thought he must have got to know this, and that Dr. Hirst had ordered his removal.

Dr. Hirst, who was the son of Mr. Dixon Hirst, of Ross Arden, Roundhay, Leeds, was only 28 years of age. About his case a matter of some interest was reported by a Leeds manufacturer, and they had returned from their honeymoon little more than a fortnight ago.

THE GREY NUNS AND ZAM-BUK

Leading Institutions Now Use This Balm.

Many of the leading institutions throughout Canada have now adopted Zam-Buk as a standard preparation without equal for skin diseases and injuries, burns, blood poison, etc.

From the St. Patrick's Asylum, Ottawa, comes the following appreciation of its merits: "Gentlemen.—In the orphanage department of the Asylum, we have found Zam-Buk very good for healing cuts, cold sores, and skin injuries generally, and shall continue to use it for such. Yours sincerely, (Signed) GREY NUNS."

When a mother rubs on to the delicate skin of children a balm or salve to heal some cut, bruise, burn, eruption or skin disease, she needs to be as careful as if she were giving a child an internal remedy. Zam-Buk is pure—free from all animal fat and all mineral matter, and may be applied with wonderful benefit even to the skin of young babies.

Zam-Buk heals sores, cures eczema, skin eruptions, ulcers, ringworms, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses, cuts, burns, scalds, and all skin diseases. Of all stores and druggists at 50 cents, or from Zam-Buk Co., Toronto, for price, 3 boxes for \$1.25.

Motor-Omnibuses DO NOT PAY.

CRISIS NOW REACHED IN THE LONDON TRAFFIC FIGHT.

Directors Explain—Horse Omnibuses Will Never Be Eliminated—Costs Too Much to Run the Motors—Too Many Electric Trams.

London, Sept. 18.—The motor-omnibus does not pay, and is not likely to do so for some time to come, said Mr. Henry Hicks, deputy chairman of the London General Omnibus Company, at Thursday's meeting. The question was one of several raised by shareholders after the explanation of the loss on the half-year's working given by Sir John Pountney, the chairman.

His statement included as causes of the loss: High price of provender. Higher price of petrol. Police stringency as regards motor-omnibuses.

New tubes. Over development of the London County Council tramways. Competition of motor-omnibuses and cut in fares.

Sir John stated, however, that the directors were in conference with the railway and omnibus companies to readjust facilities and enable them to work at a profit. Omnibus miles had been reduced from 16,000,000 to 15,000,000. Reduction in fares meant a drop of £16,000, or, in two years, £37,000. A loss of £30,700 was due to the smallest number of passengers per omnibus mile.

What were the prospects, he asked, of the density of traffic improving? Public service vehicles were more numerous than could now be profitably employed. The most glaring instance was probably that of the L. C. C. electric trams.

Certain points a procession of these huge "traffic congesters" almost touched one another, carrying only a fair load for a quarter of the number. It seemed to him a matter of calculation with regard to certain motor-omnibus companies now running at a loss how long their financial arrangements would permit their continuing as congesters.

Some horse-omnibus companies and proprietors had already withdrawn their motors. The total net liability of the company, £1,381,000, was more than covered by the assets, consisting of properties, stock-in-trade, and plant, and in addition they had cash and investments (taken at 100) of over £200,000.

Mr. H. C. Webb complained that the accounts of the horse and of the motor-omnibuses were amalgamated. Were they going to stand by horses or motors, or to amalgamate the two?

Mr. Hicks said there was as yet no chance of obtaining an improved type of motor. He did not believe that motor-omnibuses had been run in London at a profit at all. Although he did not think horse-omnibuses would ever be eliminated from the streets of London, yet he thought that it might be possible to make motor-omnibus pay.

APRER 29 YEARS IN BED. Renowned Sleeper Adapts the Strenuous Life.

London, Sept. 18.—Excitement was caused in Lurgan, County Armagh, when it was learned in the afternoon of Monday that the town was being visited by George Thompson, the Glasgow man who recently gained much notoriety by the disclosure of the fact, vouched for by his neighbors, that he had such an affection for his bed that he remained in it for twenty-nine years, only having been known in that period to put on a suit of clothes on three occasions.

Recently, however, a change has come over Thompson's manner of life. On Monday he was in charge of a horse and cart conveying coal for his landlord, and it was very apparent that he now intends to adopt the strenuous life, and hopes to make up for lost time.

MADE DEAF, DUMB AND BLIND. Awful Result to Italian Who Was Struck With Brick.

Montreal, Sept. 17.—On August 28, Guitano Balducci, an Italian laborer, was working on the ground floor of the Princess Theatre, when a loose brick struck him on the head. The result of the blow was that he became deaf, dumb and blind, and now lies in a helpless state. He has taken out an action for \$12,000 damages against Mr. C. E. Deakin, the contractor.

INDIAN LOYALTY. Remarkable Manifesto by Native Nobleman.

London, Sept. 18.—The following appeal, widely signed by the most influential noblemen and gentlemen of Bengal, has been issued to their fellow-countrymen:

It has been a matter of deep concern to us to observe the growing discontent of the people of this country, which has lately manifested itself in certain quarters in violent speeches and newspaper articles. We desire at once to dissociate ourselves from these demonstrations, which only tend to alienate the government and the people from each other.

We venture to assert that the bulk of the people of the country are loyal and law-abiding. We now appeal to our countrymen, Hindus and Mohammedans, for a display of the practical good sense which some of our critics deny to us. We appeal to them to discontinue any wild and mischievous propaganda which tends to encourage disaffection to British rule, or to create feelings of animosity between different classes and communities in India; for it is this tendency which furnishes the occasion and the excuse for the repressive measures which have recently been resorted to. Nor do we forget that, whatever may be its shortcomings, it is to British rule that we owe our present security of life and property, the spread of education and the progress which India is now making according to modern civilized ideas.

This is emphatically the worst possible time to encourage unworthy sentiments of rancour and ill-feeling. No true patriot will hesitate to range himself, with us, on the side of law and order at the present juncture, so as, on the one hand to restore the good will and harmony which formerly prevailed among all classes and communities in India, and, on the other hand, to leave the authorities no ground for bringing coercion to bear upon any group of British subjects.

CASTORIA For

Dentist's Strange Petition to the King.

London, Sept. 18.—One of the most extraordinary petitions that a sovereign has ever received is now on its way across the world to King Edward, from Dr. Tuncock, a dental surgeon, of Footscray, near Melbourne.

Dr. Tuncock, it appears, has invented an anesthetic which not only allows of teeth being extracted painlessly, but is so simple in its operation that the public are enabled to become their own dentists.

In the petition Dr. Tuncock seeks royal support for his discovery, which he claims so softens the bony walls round the teeth that they may be painlessly extracted.

STRUCK BY FLY-WHEEL.

J. C. Rows, Meaford Engineer, Met With Shocking Death.

Meaford, Sept. 17.—A young man named J. C. Rows was killed in the morning at the Meaford factory here early this morning. No one witnessed the accident, but it is supposed that in oiling the engine he went too near the fly-wheel, which struck him on the side of the head. One of his arms was broken. Rows was a son of Reeve Rows, of St. Vincent township.

Mr. Daniel M. Defoe was elected chairman of the Court of Revision at Toronto.

END THE TREATY.

RESOLUTION OF THE DOMINION TRADES CONGRESS.

The Government Urged to Use Their Influence With the Imperial Authorities to Abrogate Treaty With Japan, so Far as Canada is Concerned.

Winnipeg, Sept. 17.—To-day the Labor Congress had a busy session. The report of the Committee on Oriental Immigration was read by J. G. O'Donoghue, solicitor of the congress. The report strongly condemned the influx of Japanese labor, and concluded in the following terms: "And whereas the continuation of the Japanese treaty of April 1906 means the depopulation of British Columbia of white people, and possibly the loss of that Province altogether to the Dominion of Canada; therefore be it resolved: (1) That we respectfully but firmly ask the abrogation of the treaty, so far as Canada is concerned; (2) that as a necessary preliminary to that end the Dominion Government be urged to immediately call upon the Imperial authorities to give the six months' notice required to terminate the treaty with Japan; (3) that pending the termination of the treaty, the Japanese authorities be called upon to restrict the immigration of Japanese, in accordance with the alleged convention, that not more than 400 or 500 be allowed to come to Canada during one year."

After discussion the motion as put yesterday was carried unanimously. Representatives of the Lord's Day Alliance were received by the congress and a number of delegates expressed sympathy with the objects of the Alliance. Delegate W. T. Thompson, Toronto, moved several resolutions, one advocating the necessity of street and electric railways being properly equipped with air brakes and other improvements.

CRISIS IN CAPE COLONY.

Council Forces Dissolution of Parliament.

Cape Town, Sept. 17.—Parliament will be dissolved to-morrow on account of the action of the Legislative Council, which has created a constitutional crisis by persisting in blocking supplies. It is probable that the votes restored to the rebels who were disfranchised after the war will be sufficient to defeat Dr. Jameson's party, and South Africa will then be politically Dutch from Rhodesia to Table Bay. The elections for the Legislative Council take place in November; those for the House of Assembly in February.

CATTLE SEASON LATE.

A Lean Year, Says a Western Stockman.

Montreal, Sept. 17.—Mr. H. C. McDonald, a western cattleman from Calgary, who arrived here to-day, after having made a general survey of western conditions, stated that the cattle season is nearly six weeks late this season, and that the cattle shipments will be far below the average. "There will," said he, "be from 65,000 to 70,000 head of cattle shipped from western Canada this year, as compared with 114,000 last year. Less than 40,000 of this year's shipments will be for export as against 74,000 last year, which was a banner year."

VERY BIG SCORE

Made by the Marylebone Cricket Club at New York.

New York, Sept. 18.—A large number of cricket enthusiasts were treated to a great exhibition of batting, resulting in 338 runs for four wickets, at the international match which began at Livingston, Staten island, yesterday, between an eleven sent out by the Marylebone Club, of England, and a team representing the best players in all New York. The match is limited to two days.

The English captain took advantage of the new rule governing a two-days' match, and declared the innings closed for 338 runs. The 338 runs is the largest score ever made for the number of wickets in an international match in this country.

There was about an hour left for the local team, and they had lost two wickets at the cricket grounds at 4 o'clock. J. L. Poyer, of Brooklyn, was the only bowler of the New York team to get a wicket.

Y. M. C. A. WILL

Have a Strong Team in O. R. F. U. This Year.

The Y. M. C. A. team turned out in force last night at the cricket grounds. By all appearances the Y. M. C. A. team will be as strong this year as last. There will be a practice Thursday night of the half back at the cricket grounds at 6 o'clock. The other players will practice at the Y. M. C. A. Thursday night at 7 o'clock. The 7 o'clock practice will be principally for signal practice. The Tammany Tigers, of Toronto, who defeated the Y. M. C. A. for the championship, will play here this Saturday, and it is up to the boys to be faithful and redeem themselves.

HORSES HURT.

Trotter String Will Not Be Able to Race Here.

A train load of horses bound for Hamilton came to grief in the yards of the G. T. R. at Fort Erie yesterday morning. The horses had been loaded and the train was just ready to pull out for Hamilton when a light engine collided with it, throwing the horses about and injuring several of them. On the train were the strings of Ed. Trotter and Jas. McLaughlin, jun., and they fared worse than did the other stables. Some of Mr. McLaughlin's horses were so badly injured that the whole string had to be unloaded, again, and left at Fort Erie. Two of Mr. Trotter's horses were severely injured and will not be able to race again for some time, while others received minor injuries. The two that fared the worst were Lee Crest and King Ellsworth. It is not likely that they will be able to carry the stable's colors at the Hamilton Jockey Club's fall meeting, which will open a week from to-day.

BARTL'S FOREIT WILL BE COVERED.

Charlie Conkle announced to-day that Bartl's forfeit for a match with "Conkle's Unknown Dutchman" for the 155-pound wrestling championship of the world will be covered as soon as a copy of the articles arrived from Akron, Ohio. His man is not quite on edge, and he insists that the match not take place till Oct. 1 or 3. A message to that effect has been sent to Bartl's manager. It is a certainty that these two will hook up with the Globe Athletic Club. The club reserves the right to appoint a referee if the men fail to agree on one, so there will be no hitch on that score.

LIPTON'S NEW BOAT.

Dublin, Sept. 18.—It is believed that the condition of Sir Thomas Lipton's challenge for the America's cup, sent to the N. Y. yacht club, on the steamer Umbria, involve racing under the new America rating and rules.

If the conditions are accepted Sir Thomas will build two boats. One is to be played yesterday, but they were enough for Baltimore to win, Buffalo never getting a tally. Pitcher Burchell had the Bisons thoroughly fished that there was nothing to it. The real excitement of the afternoon was in the seventh, when, with three on bases and but one out, McAllister sent a hot one at Burrell. The latter knocked the ball down and touched his base, putting out McConnell, and then seated over to first in time to shut out McAllister. It was a tight squeeze, and the play undoubtedly saved the day. Darkness cut the game short.

Score: R. H. E. Baltimore 3 5 1 Buffalo 0 4 1 Batteries—Burchell and Byers and Heaton; Toner and McAllister.

At Jersey City—Montreal and Jersey City broke even in yesterday's double-header. The Royals annexed the first game by timely hitting. The second contest, a pitchers' battle between Lake and Stanley, went but five innings. The local pitcher had the better of the argument. Score: R. H. E. Jersey City 3 6 2 Montreal 7 11 2 Batteries—Flammler and Fitzgerald; Brockert, Clark and Waters.

R. H. E. Jersey City 2 2 0 Montreal 1 1 2 Batteries—Lake and Butler; Stanley and Clark.

WAS BAD DAY FOR FAVORITES.

Restoration and Kumshaw Only First Choices to Win.

Yesterday's Trots at Lexington—Conkle's Unknown Will Meet Bartl Next Month—Marylebone Cricketers Made Big Score at New York.

Toronto, Sept. 18.—At the O. J. C. meeting yesterday the pressure of entries necessitated seven races again yesterday, and a fine afternoon's sport was provided. Hon. Adam Beck's Photographer, the good thing for the King's Plate in the spring, won the opening race handsily. Photographer was bred by his owner from a mare that he imported from England some years ago and raced with considerable success. The race was full of "good things," as is generally the case in a maiden event. Mad Nicol's Griffon three-year-old Griffon being the shortest priced of the lot, but the London-bred horse was decidedly the best of the thirteen starters when it came to the early stages, but the Canadian-bred was always right on his heels, and coming into the stretch the front and Photo and Snapshot went to the front, and was never in trouble to the end.

The victory of this cleverly-named colt was immensely popular, even though he was not the best choice. The purple and gold colors of Hon. Mr. Beck always have a strong following, and it must have been very satisfactory to the breeder of this smart colt to see him perform in such a masterly manner. Hon. Mr. Beck is an accomplished horseman himself, and the showing of Photographer is but another point to his credit as a breeder. "Uncle George" Hendrie was on hand from Detroit to see Royal Artillery in the same race, but his best, under the riding of the noted colored jockey, J. Lee, was second, beating the favorite Griffon, by a head.

The Epsom Handicap of \$1,000 added brought out a fine field of sprinters. Rollicking Girl and George S. Davis were added to the lot on the card, but neither cut any figure in the final result. Starter Dade got the eleven runners away to a fine start, and the race was decided in the early pace, but the sterling performer, Charlie Eastman, carrying top weight of the starters, was always close to the leaders. He headed Minota into the stretch, and at the end had to beat Charlie Gilbert and Earl Rogers. Purslane, making his debut since he ran here last spring, was always outrun. V. Powers handled Eastman in nice style, getting away well and riding him in finished style throughout.

Mr. A. Henry Higginson, the Boston sportsman, who races in the name of "Mr. Higginson," was the flat handicapper with Kumshaw, nicely handled by Mr. J. Burton Holland. He was never in trouble, and though carrying 172 pounds, always had the race in hand. Mr. Holland rides with his old skill and held the opposition safe throughout. First race, 4 furlongs. Photographer, 169 pounds and Mr. Kelly could not keep him up at any stage.

An interesting event of the afternoon was the appearance of President Seagram's recent importation, the crack crack-horse of the old country, Ypsanti, who for the first time in his career was back in the betting until a good price was offered, but he was not as good as second in the three-race series. Ypsanti has been but a few weeks on this side of the Atlantic, and it is probable that he will not remain here, as a leading figure in the new negotiating for him to return to England at a price double what Mr. Seagram gave for him. Cooney K. set the pace, with Ypsanti second, but good old Solon Shingle went by both of them in the stretch and won handsily. The imported horse was last.

Following is the summary: First race, 4 furlongs—Photographer, 109, C. Koerner, 3, 6 to 5 and 3 to 5, won by 1 1/2 lengths; Royal Artillery, 107, J. Lee, 4, 2 and even, second by a head; Griffon, 107, Moreland, 8 to 5, 3 to 5 and 1 to 3, third, by five lengths. Time, 1:14 2/5. Mary Daryl, Toner, Harry Hichson, Aubrey, Charley May, Officer, Aqua Tint, Wicklow Girl, Hattie Watkins and John J. McGraw also ran. Griffon, favorite, set pace to stretch, where Photographer moved up and won easily; Royal Artillery closed stoutly and nipped places from Griffon.

Second race, 4 furlongs—Dredger, 107, Foley, 3, 6 to 5 and 3 to 5, won by a length; Eydent, 104, L. Smith, 60, 20 and 10, second by a head; Our Boy, 102, J. Murphy, 5 to 2 and 1 to 2, third. Time, 1:02 2/5. Manaronsek, Dominant, Weadon Green, McQuiddy, Borderland, Margenta, Quick Dancer and Lucy M. also ran. Won driving; place same. Our Boy, favorite, used up, forcing pace; had nothing left when winner challenged.

Third race, 1-1/8 miles—Restoration, 98, Mulcahey, 13 to 10, 7 to 10, and 3 to 10, won by a neck; Chippewa, 107, McCarty, 7 to 2, 1 and 1 to 2, second by four lengths; Dale Strone, 99, Delany, 15, 6 and 3, third by a head. Time, 1:55 2/5. Rebounder, Prince of Orange, Dick Redd, Eva Claire, Gold Note, Crafty and Reville also ran. Favorite won driving; place same. Crafty pulled up at start.

Fourth race, 4 furlongs—Dredger, 107, Powers, 6, 3 and 7 to 5, won by a length; Charlie Gilbert, 109, Kunz, 6 to 5 and 2 to 6 to 5, second by a neck; Earl Rogers, 96, J. Murphy, 10, 4 and 2, third. Time, 1:13 4/5. Sir Edward Purslane, Minota, Tommeaire, "Rolling Girl," George S. Davis, Grace Kimball, Trackless also ran. *Coupled in betting. Won driving; place same. Charlie Gilbert crowded back, closed stoutly and was gaining on winner at end. Purslane, favorite, off badly; could never get on.

Fifth race, 1-1/16 miles—Solon Shingle, 106, Moreland, 6 to 5, and out, won by a length; Cooney K., 97, J. Murphy, 8 to 5 and out, second by four lengths; Ypsanti, 109, McDaniel, 3 and 4 to 5, third. Time, 1:48 1/5. Three starters. Won driving; place easily.

Sixth race, 1 1/4 miles—Kumshaw, 172, Mr. Holland, 6 to 5, 2 to 5, and out, won by a length; Plum Tart, 148, Capt. Stranahan, 4, even and out, second by eight lengths; Heather Belle, 140, Mr. Davis, 15, 3 and even, third. Time, 2:51 1/8. John O'Grady also ran. Won easily; place same.

Seventh race, 5 furlongs—Black Hawk, 108, Diggins, 20, 8 and 4, won by a length; Suderman, 104, J. Murphy, 7, 5 to 2 and 6 to 5, second by two lengths; Bantry Bey, 107, C. Koerner, 5 to 2, even, and 1 to 2, third. Time, 1:02 4/5. Penline, Ruleon, Denial, Lombard, Talent, Matches, Mary, Yankee Rose and Sea also ran. Won driving; place same.

Winner swerved across field and claim of foul was made, but not allowed. Drew away at end under punishment.

ANOMALY GIRL BEAT HIGHBALL.

Columbus, O., Sept. 18.—Heavy rains broke up yesterday's Grand Circuit races after four heats had been decided and a start made on a sensational programme. Sonoma Girl and Highball, both with manners nearly perfect, got together in the Hotel Columbus \$10,000 stake, and the California mare, when she won by half a length from the Geers 5 to 2 favorite, got a record of 2:05 1/4. This is the fastest trotting race mile of the year, a world's record for a green trotter, and takes three seconds off the record for the stakes. Sonoma Girl was fortunate in drawing second position, while Highball had to score for twelfth place. Each horse trotted every inch of the route and put up a rattling finish.

Lillian R. was almost a prohibitive favorite over the other 2,000 trotters, and won the one heat with ease. Laura Bolini was first choice in the 2:09 pace, but a break put her out of it. Elsie turned up as the winner. This heat was paced in a light rain, which turned into a deluge before another could be started. Summaries: 2:11 pace, second division, purse \$1,200, two heats Monday: R. F. D. blk. g. by Kingmaker (Robinson) 1 1 1 Tally Men, blk. m. (McMahon) 4 2 2 Miss Feblor, br. m. (Merrifield) 7 2 5 Miredwood, blk. g. (Ernest) 5 8 3 Davie K., blk. gen. Adeler, Ar. also started. Time—2:07 1/4, 2:07 3/4, 2:05 1/4.

Columbus, Purse, \$3,000, for 2:00 trot. J. J. P. blk. g. by J. T. (McDevitt) 1 John Caldwell, br. g. (Geers) 2 John Taylor, br. g. (Wilson) 3 Darrah, br. (Shaw) 4 Embor, br. (W. McDevitt) 5 Tamara, blk. m. King Esterline, (Wilson), blk. f. (C. G. Bell), Bon. Russell also started. No time given. Unfinished.

Hotel Columbus Stakes, \$10,000, for 9:16 trotters, 3 heats: Sonoma Girl, blk. m. by Linwood (McMahon) 1 Highball, blk. m. (Geers) 2 McDevitt, blk. m. (Davia) 3 Quack Latus, blk. m. (Fasell) 4 Keasons, blk. m. (Yonge) 5 Jack Leburn, Attyval, Thornfield, May Earl, Centee H., Oliver Moore also started. Time by quarters—3:14, 10:3, 2:34, 2:05 1/4.

2:00 pace, 2 in 5 purse \$1,000: Tals, blk. m. by Alvine (Sprague) 1 Elphmore, blk. h. (Hopkins) 2 Katherine Bars, br. m. (McPherson) 3 Tawolts, blk. m. (Rombough) 4 Woodhams, blk. m. (Hayes) 5 Schenckhorn, F. J. Parke Laura, Irvin, Hal P. Byron Kay, The Donna, Irvin, Y. also started.

SADDLE AND SULKY.

Newton Bennington, once a prominent racing owner, is in a New York institution for the insane. His connection with the sport in this part of the country closed some years ago.

In racing legislation the western turf has always been in the lead, and the regulation of the Kentucky State Racing Commission that a bookmaker may not do business on a race in which a horse owned by him is concerned is one that might be followed to advantage in the east.

ERRORLESS GAME.

It Was Won by Providence, Who Beat Toronto Again.

At Providence—Puzzling pitching on the part of Harris resulted in the defeat of Toronto yesterday. The leaders were helpless before the big fellow, while Heaville did not make much trouble for the Greys. Score: R. H. E. Providence 4 9 0 Toronto 0 4 0

At Newark—The score of the final game between Rochester and Newark was very close—2 to 1—the Colts winning. Pardee and Bamister were very effective yesterday, five hits being registered off the former and six off the latter. There was no scoring after the third inning. It was a fast fielding contest. Score: R. H. E. Rochester 1 1 2 Newark 2 6 1 Batteries—Rochester, Bamister and Higgins; Newark, Pardee and Kritchell.

At Baltimore—But seven innings were

Comment and Chat

Johnny Madigan, the Buffalo horseman, engineered a clever coup at the Woodbine yesterday with Hon. Adam Beck's Photographer. The favorite for the King's Plate has been in charge of Madigan's good trainer, Doc Graydon, and he had shown good form in his workouts, he was nicely placed yesterday in the first race. Photographer opened at 4 to 1 and closed at 3.

Madigan played a goodly sum at the track and it is said his agents played big sums in pool rooms across the line. Photographer beat George Hendrie's Royal Artillery, which was also played as a good thing by the club house contingent and the wise talent, by a length.

Hon. J. S. Hendrie was very pleased when the Valley Farm's crack three-year-old, Restoration, which was the public choice, won by half a length.

A young son of Charlie Raymond, the newspaper man, who writes under the name of Charlie Churner, is doing some remarkable distance running for a 14-year-old boy. He is favorite for the Trafalgar school boys' mile race at Oakville Fair next week.

Since Tom Longshot cleaned up John D. Marsh of Winnipeg at Hamilton, two weeks ago, the Western runners have lost their fear of Marsh, and everybody is after his scalp. Sam Martin, winner of the 10-mile Winnipeg Marathon, has challenged John R. to a 5-mile engagement.

Director Stagg, of the University of Chicago, originator of many novel ideas in football coaching, has evolved a new set. His maroons say he has "jumped with the cat from the old game to the new," and none in game tactics but in methods of bringing out the best in his men.

They declare his coaching "stunts" this season will be as different from those of past seasons as the new game is different from the old. They anticipate some mental and physical gymnastics of a weird nature and expect him to usher in the season next Monday with a few evolutionary moves.

Punting and drop kicking usually have had first call, but these features likely will fall under the shadow of quicker handling of the ball, especially long passing and catching of short, snappy throws and long line passes to the end and halves.

Stagg has repeatedly told his candidates they must be able to handle the pigskin this fall just as if it were a baseball.

WILL GUELPH HAVE "PRO" HOCKEY.

Guelph, Sept. 18.—The idea of organizing a professional hockey team is not a generally popular one. It is impossible to say yet, just how Guelph will stand in the matter. There are quite a number here who favor out-and-out professionalism, but nothing will be done before it is seen how the cat is going to jump.

Breakfast seems to be strongly in favor of a pro circuit, but the Stratford Beacon says that there is no chance whatever of Stratford having a salaried team.

A Woodstock paper says: Nothing has yet been heard of a professional team in this city, and there would have to be a grand awakening of those interested if a pro team is put on the ice here this winter. That it will come some day seems certain, but the chances this winter are slim.

NEBRICH WILL RUN PROFESSIONAL.

Toronto, Sept. 18.—Alfred Shrub, the unbeaten English distance runner, has made a match with Nebrich, of Buffalo, for four miles, and the pair will meet at the Island on Saturday afternoon. Nebrich will make the plunge from amateur to professional for the purpose of getting a whack at the little Briton. The Buffalonian has the idea that he can beat Shrub at four miles.

There will also be a football match at the Island on Saturday afternoon. Shrub says, which will precede the race. The names of the teams and how they are to evade the amateur rule, the Englishman does not mention.

TO FORM NEW RIFLE CLUB.

A meeting will be held at the James street rifle gallery on Friday evening for the purpose of organizing a 22-rifle club, similar to those across the border. The shooting will be at 25 yards, and the regulation .22 S. & W. target will be used exclusively. It is the intention of the club to hold regular shoots and also to meet all clubs in the west vicinity. All those wishing to become members are requested to attend the meeting.

The city's new steam fire engine is being tested at Mellraith's dock this afternoon, in the presence of members of the Fire and Water Committee and officials of the department.

Grand Master A. T. Freed and J. Sommerfield, of the city, attended in Toronto last evening the fiftieth anniversary of Wilson Masonic Lodge.

Hamilton Presbytery at a special session at St. Catharines, yesterday afternoon, sustained the call of the Merritt congregation to Rev. Thos. Paton, of Lacan.

Mr. A. Perkins Cameron, son of Mr. D. M. Cameron, of the Tuckett Tobacco Co., has been appointed assistant secretary-treasurer of the Winnipeg Stock Exchange.

Isaac Robinson, 25 East avenue north, has reported that a burglar entered his house at 1 o'clock this morning, but was frightened away by his wife before he got anything.

Miss H. Ethel Shepherd, of the Toronto Conservatory, has returned from abroad and resumed her lessons in singing at Kingshorpe School. Intending pupils are requested to call and arrange for hours.

The motor on the 7.10 Radial car this morning broke away from its fastenings when the car was on the trestle near the Beach road, and was delayed some time. The double track permitted the traffic to go through without interruption.

The police would like some information about two young men named Miller, who were left in this city sixteen or seventeen years ago in the care of two uncles, A. J. Miller and Fred. Miller, and an aunt, Mrs. Charles West.

Miss Clara De Ceux, superintendent of the Children's Hospital, Buffalo, who has been visiting her mother, 152 Victoria avenue south, left this evening for Chicago, to attend the Convention of Hospital Superintendents, which is being held there this week.

The appointment of the Rev. W. G. Hanna, of Mount Forest, to the office of Secretary of the Lord's Day Alliance, was allowed yesterday by the Saugeen Presbytery, and Mr. Hanna will take up his new duties in the near future. Mr. Hannan succeeds the Rev. T. Albert Moore.

The Foreign Missionary Society of the Presbyterian Church held its first meeting last night in Toronto. The members discussed the work of the association relating to Indian agriculture in Manitoba and Saskatchewan.

Rev. Mr. Drummond, of this city, is in attendance. The meetings will continue during the afternoon and to-day and to-morrow.

So many good criticisms have been sent to Manager Driscoll, of Bennett's, Theatre, of the Carroll Johnson act last week, that he has not been able to decide who is entitled to the prize of \$25. He will call in some newspaper men this afternoon to help him arrive at a verdict.

The name of the successful contributor will be announced at to-night's performance.

The Board of Hospital Governors this morning again talked over the Southern Home for advanced cases of consumption. They were unable to do anything, however, as the architect, who was to have prepared a rough sketch, was unable to attend. This afternoon the Governors will formally decide on the land east of the present wing on Victoria avenue as the site for the new building. It will face on Victoria avenue.

AFTER 48 YEARS. Pursue of Gold From Employers to Mr. Christian.

Mr. Isaac Christian, who for nearly half a century has been connected with the Times, has handed in his resignation as pressman, and will take a well-earned rest from his labors. Mr. Christian received to-day a worthy compliment, when he was called into the manager's office and presented with a gold watch.

There are few men to-day who have a record of 48 years' continuous service in the employ of one institution, and that honorable distinction belongs to Mr. Christian. He entered the service of the Times in 1859, when, under the management of Mr. Thomas Gray, he was published in Hughson street, where the present Right House is situated. Men came and went, but Mr. Christian stayed, and the present Times Printing Company is the fifth management that he has served. In 1861 he was placed in charge of the power press, a rotary cylinder machine, and there he has been working days since that time when he has not superintended the printing of the daily and weekly editions. For many years the Times has been issued from a rapid perfecting press, and the present machine represents the product of the best skill and invention obtainable by the great press builders, Hoe & Co., of New York. Mr. Christian has always been regarded as a Times institution, only two others of the present staff of employees dating back to the beginning of the present company's regime in 1873, and his determination to retire from the press room severs many old associations. He has always had the confidence of his employers and has proved worthy of the fullest trust. That he may enjoy health and happiness in his retirement is the wish of all connected with the Times.

Mr. Christian married in 1872 Miss Fannie Williamson, and has two sons and two daughters. The daughters are Celia (Mrs. Harry Dines), Fannie (Mrs. T. Fell), and the sons are Edmund, of Gore Bay, and Ches, of this city.

W. A. Fraser writes in The Red Book Magazine for October how "Jack Frost," the long-legged nondescript coat, "broke" not only the bookmakers, but almost his back as well. But his race built a church after all. It is a splendid story.

If oranges are left for five minutes in boiling water they will peel much easier, and the white inner skin will come away as well. This would greatly simplify the preparation of sliced orange and cranberry dishes for children's parties.

There were 48 Tigers out at last night's practice of the Hamilton Rugby Football Club at the Cricket Grounds.

Affidavits in regard to the Montreal team have been forwarded to Toronto, and they will be dealt with at the C. A. A. U. meeting to-night.

Toronto, Ont., Sept. 18.—(Special).—The meeting of the C. A. A. U. Registration Committee called for the purpose of considering the case of the eastern Rugby players who wish to be reinstated in order to play in the proposed new inter-Provincial series, will be held to-night, and the feeling is that the new union will not go through.

Contrary to expectations, only five affidavits have been received, and it is understood that this number covers all the men who wish to get back into C. A. A. U. ranks, the remaining players in the Montreal team and the Rough Rider teams will be recruited from the ranks of the Rugby teams who have not impaired their amateur standing.

It is felt that the C. A. A. U. will reinstate the men, whose names will come before them, though Mr. J. G. Merrick stated this morning there would be no precipitate action and that their standing would be carefully investigated before they are whitewashed and made Simon pure again.

George Ballard and President Seymour, of the Hamilton Tigers, will be in town this afternoon, with the affidavits in their possession, and the Ottawa and Montreal men on the committee will be asked by wire as to their stand on the matter.

It is expected that their vote will favor the reinstatement of the players in question, and by to-night the officers of the new union will probably be able to announce that the league has been formed.
