

ODDFELLOWS HAVE GONE,

But Are Coming Back to Hamilton Next Year.

Wm. Irwin, of St. Thomas, Elected Grand Master.

Special Committee on Equalization of Rates.

After the busiest day of its three-day session the Grand Lodge of the Canadian Order of Oddfellows concluded its annual meeting at 6 o'clock yesterday afternoon. It was a good meeting all through—one of the best in years—well attended to the very last, harmonious and useful. All the delegates had a good word to say for the local Oddfellows, the local reception committee and the city, and they showed their appreciation by deciding to come back next year—a very unusual thing for Grand Lodge has hardly ever met two years in succession in any place.

A rather radical change was made by the adoption of the report of the committee on the state of the order in reference to organization work. Heretofore there has been a superintendent of organization. R. T. McNicol resigned from the position, and the committee decided that the Grand Secretary, Robt. Fleming, Toronto, should have full charge and be solely responsible. Mr. Fleming accepted the extra task, and the Grand Lodge adopted the recommendation.

The committee's recommendation in regard to rates was also adopted. It was that a special committee, to consist of two supporters of the Hunter scale and two supporters of the present system, with the Grand Master as chairman, be appointed to consider the whole matter and bring in a report at next Grand Lodge meeting. The order has a scale for old members, never having raised them to the Hunter scale, which practically is paid by all who have joined in the past four years. The committee consists of C. H. Richardson, of Toronto, and C. H. Denton, of Tillsonburg, advocates of the Hunter scale for all, and the Grand Master.

AGAINST BIENNIAL SESSIONS. Wilot Hall, of Dundas, D. D. G. M. of Hamilton district, and W. A. Ross, of this city, introduced a motion in favor of biennial Grand Lodge sessions. It was resolved that when this meeting adjourn it stand adjourned until the third Tuesday in June, 1911.

By resolution carried by a unanimous standing vote the Grand Lodge expressed its approval of the entertainment provided by the local committee; expressed its thanks to the Mayor and corporation of the city; the Greater Hamilton Association, the Stanley Mills Co., and especially the press of Hamilton for various courtesies extended during the year.

OFFICERS ELECTED. The contest of the day was for the office of Grand Master. Mr. James Dixon, a Past Deputy Grand Master, was the unanimous choice of the Hamilton district as candidate, but he found it impossible to accept, and only two names were left, those of W. T. Junkin, who has held the office for the past two years, and Wm. Irwin, who has been D. G. M. Past Grand Master W. H. Shaw, of Toronto, who is now Grand Treasurer, was nominated, but withdrew in favor of Mr. Irwin. The results were:

Wm. Irwin, St. Thomas, Grand Master. Dr. Alexander Thompson, Galt, Deputy Grand Master. Robert Fleming, Toronto, Grand Secretary.

H. H. Shaw, Toronto, Grand Treasurer. Rev. J. Lindsay, Kintore, Grand Chaplain.

Dr. H. S. Bingham, Toronto, Grand Medical Referee. Lyman Lee, Hamilton, Grand Solicitor.

Dr. White, Lindsay, and Frank Goodwin, Montreal, but who comes to Hamilton and becomes a member of Advance Lodge in July, Grand Representatives. C. J. Mussen, Toronto, and W. L. Young, Markdale, Grand Auditors.

John Canning, Belleville, C. H. Baupfyde, Hamilton, and Robert Wray, Galt, Committee on Laws.

C. W. Bradford, Hamilton, Wm. McWatters, Lindsay, and C. H. Denton, Tillsonburg, Finance Committee.

The District Deputy Grand Masters are as follows: Toronto district, W. D. Jones, Toronto. Brighton district, John Green, Markdale.

Hamilton district, Wilot Hall, Dundas. Lindsay district, C. W. Hughan, Lindsay. Montreal district, T. S. Hudson, Montreal.

Belleville district, W. Boyd, Belleville. Chatham district, S. Manning, Highgate. Galt district, R. M. Robb, Troy. St. Thomas district, A. M. Bellamy, Ingersoll.

Windsor district, Geo. Hicks, Windsor. F. S. DeLong, Hamilton, was elected Deputy Master of this district. Grand Master Irwin was installed by Past Grand Master Mark B. Thomas, assisted by other P. G. M.'s, and made a short but effective speech, as did other newly elected officers. The Grand Secretary, who has held the office eighteen or nineteen years, very heartily thanked the delegates for his re-election by acclamation, and urged them all to greater efforts than ever.

POWER COMMITTEE TO MEET TO-NIGHT.

It Has No Power to Change Terms of the Hydro-Electric Contract.

The form of contract which the Hydro-Electric Commission was asked to forward to the city arrived by special messenger yesterday afternoon, and Mayor McLaren immediately called a meeting of the Power Committee for to-night. It promises to be a warm session. His Worship said to-day that very likely the discussion would be confined to the Hydro-Electric question, but he will rise to a question of privilege and ask the aldermen if they intend submitting to the insinuation in Alf. J. Wright's circular. The meeting will be opened, and, if necessary, will be held in the council chamber. "I am particularly anxious," said his Worship, "to have workmen who think they are paying enough taxes now to come to the meeting and get the truth about this matter."

There is sure to be an interesting discussion when the Mayor wades into the Wright circular, and it is expected some harsh things will be said. Some of the Hydro advocates who seem a little shy of having the truth of that scheme presented are complaining now that the meetings at which the Cataract contract was being drawn were not open, and that it is not right to discuss the Hydro contract in public. This is merely an effort to draw a herring across the trail. The preliminary work on the Cataract contract was looked after by a committee of the council, which included a number of staunch Hydro supporters, and before it was finally sent on to the people it was openly discussed in council, and the aldermen were specially invited by the Mayor to suggest any amendment thought advisable. Not one alderman suggested a change after going over the contract clause by clause. The Hydro contract is an arbitrary contract, which the council cannot amend or change.

The Mayor this morning made the rather interesting statement that he had not met a man yet who voted for the Hydro plebiscite but declared that he was of the opinion that the city could take enough power from the commission to run the electric pumps and stop there. None of them seemed to grasp the point that if the city takes any power from the commission it must for thirty years take all from the commission and none from any other source.

Both Chairman Allan, of the Board of Works, and the Mayor declared to-day that if the city had the privilege of taking a thousand horse power from the commission, without plunging the city (Continued on Page 11.)

TRAMP BURNED.

Celluloid Collar Took Fire With Disastrous Result.

(Special Despatch to the Times.) London, Ont., June 18.—One of the most pathetic cases ever known in London Hospital came to light when James Carroll, a blind tramp, claiming Winnipeg as his home, was brought in suffering from fearful burns about neck and head. Carroll states he makes a living by going about selling collar buttons and boot laces, and yesterday was lighting his pipe when the match ignited the celluloid collar he was wearing. He claims to have roamed about all night, and when found was brought to the hospital. His wounds were in a terrible state. It is feared that blood poisoning will result.

A TRAMP.

Relative of Kruger Hasn't Cut His Hair Since Boer War.

Buffalo, June 18.—William Kruger, 52 years old, who thinks he is a distant relative of the late Oom Paul Kruger, who was President of the Transvaal Republic, was arrested by the police of the Louisiana street station this morning, and charged with being a tramp. Kruger came in for the attention of the police on account of his foot-long beard and hair that fell upon his shoulders. He told the police that when the cause was lost in South Africa he vowed that he would never again cut his beard or hair. While Kruger asserts that he washed his face last week the police say that the use of water was included in the things he denied himself at that time. His home was formerly in Pennsylvania, but for the last few years he has been on the road.

SENT TO PRISON.

Buffalo Back Tax Clerk Sentenced For Theft.

Buffalo, June 18.—Samuel W. Hofheins, a back tax clerk in the office of the county treasurer, was to-day sentenced to not less than two years and six months, nor more than five years in Auburn prison, on an indictment charging him with the theft of \$30 on April 20 last. He had pleaded guilty. Hofheins, with Jarret W. Weed, cashier in the county treasurer's office, was arrested recently with an alleged shortage in the accounts of the county treasurer's office amounting to \$36,000. Weed was to have been placed on trial to-day, but owing to illness his case was not moved.

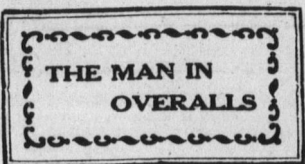

CHINESE LOAN.

Britain Asks the United States to Keep Off the Deal.

London, June 18.—Great Britain has asked America not to press her claim for participation in the Hankow-Szechuen Railroad loan of \$27,500,000, which British, German and French bankers stand ready to take up. This request has been sent to James Bryce, the British Ambassador at Washington. Great Britain points out that the arrangements for this loan were concluded after the greatest difficulty, entailing long negotiations between the British, German and the French bankers concerned and the Chinese Government. As America did not ask to join in the loan, it was presumed that she did not desire to take the share to which she was entitled under the convention with China.

HAMILTON-ANDERSON.

A very quiet wedding took place last evening at the home of Miss Zimmerman, Victoria avenue south, when Mr. Aylmer James Hamilton and Miss Pearl Harriet Anderson, both of East Hamilton, were married by Rev. John Young. They were unattended. Mr. and Mrs. Hamilton will reside here.

THE MAN IN OVERALLS

Join the oratorical school and become a jawsmith.

The Hydro-Electric Commission is still up in the air, I notice. But T. J. Stewart should be able to fix up a contract. He told us what the whole thing was to cost two years ago.

The poor canines are being treated worse than dogs.

A small free notice might go with a large ad, but it's hardly the thing to expect a large free notice with a small ad. Printers must live, you know.

So far good for the Brass property. Now let us go after Lansdowne Park. It will be cheaper in the end.

Has your choir had an outing yet? I mean at the church's expense.

When the Countess of Aberdeen comes here on Saturday let the flags fly. Turn out and give her a royal welcome. She deserves our best.

There is still a big slice of the mountain side of which the city should become the owner.

High life in Mrs. Gould's case seems to have been a high tide, if we are to believe the evidence.

Why don't the Dog Protective Association and the dog owners come out and show their strength? Let us have a mass meeting in the Gore and procession with coal oil torches. Is the dog not worth fighting for?

Mr. Stewart is again in the hands of his friends and may be prevailed upon to offer himself as a majority candidate. Heavens! What next?

Now will the Spec. be good? The Mayor must do his prettiest when Lady Aberdeen comes. She deserves it all the honors there.

You will perhaps have noticed that the Times has had several rather important scoops this week. We lead, the other two follow.

I trust that Rev. Mr. Sycamore, one of my allies in the fight with the beasts at Ephesus, will be able to withstand the lure of the West.

A twenty-dollar fine might cool the enthusiasm of the grocery wagon boy as he "shoos" us all off the street when he has a hurry up order to deliver.

I hope Mrs. Hoodless will take her pen in hand and give the Herald man a piece of her mind.

What kind of milk are you feeding the baby? Mind, it's sometimes a question of life and death.

I fear my foe for Monday morning's reports of drownings. It's the unexpected that happens.

The matrimonial market has been quite brisk this week. The supply of young brides has been above the average, and yet the demand has been equal to the supply. The market is still strong with an upward tendency for the best grades.

Are you working? What is to be done with the drunk? I met a man every other day on the street, and he is always pickled. Who he is or what he does, I do not know, nor if he have any family or dependents. But the man should be locked up. I do not mean sent to jail. He should be in some kind of a sanitarium. Is there no legal machinery by which he can be sent to such a place so that he may have a chance to save himself from himself? The police must know the man.

Are there ten men in Hamilton willing and able to give the Y. M. C. A. \$5,000 apiece? Are there fifty willing and able to give \$1,000 apiece? There should be.

WHY \$50,000? W. J. Waugh Gives a Concise Answer to the Question.

To the Editor of the Times: Everything is getting into shape for the six days' campaign to raise the \$50,000 required by the Young Men's Christian Association for the following:

A new building for boys. Improvement of the present building. Paying off the debt on the Barton street branch.

The present building, though built in 1890, is still up-to-date, but with 1,100 or more members, is over crowded, and with the proposed improvements it is expected that the membership will double.

Greater Hamilton is all right; cannot we add to that a better Hamilton? The latter can be accomplished if the citizens will be generous in this matter, for where can the young men and boys of our city get a better training for the future than the Young Men's Christian Association?

The directors of the association, most of whom have been on the board since the erection of the present building, are, as usual, prepared to do their share, and with one hundred young men, give their time to securing the \$50,000, from the 24th to the 31st of this month.

Barton street branch is doing good work, but is greatly hampered with debt. A larger building is required there, and an additional \$25,000 would encourage those interested.

W. J. WAUGH. Hamilton, June 18, 1909.

Pre-convention service will be held in St. Paul's Church this evening at 8 o'clock. Rev. John Young will preach.

TALES TOLD BY THE FOOTMAN.

Mrs. Gould at Party Where Hostess Was Bitten.

Guest Got Black Eye and Mrs. Gould Was Crying.

Mr. Gould Promised a Severe Cross Examination.

New York, June 18.—The procession of servants and employees of Mr. and Mrs. Howard Gould to the witness stand continued to-day. Since the first day, early in the week, when the plaintiff lost control of her feelings and wept during a merciless recital of unpleasant incidents, Mrs. Gould has kept herself well in hand, merely expressing her disapproval of the testimony by a determined shake of her head or an incredulous smile. After a dull day yesterday for the excitement loving spectators who crowd the court room, when most of the time was occupied by the singing reading of depositions of absent witnesses by the lawyers, the sensation came just before the close of the day's proceedings by the appearance of Herbert Schmidt, the Goulds' footman from October, 1904, to May, 1905. Schmidt told the story on the witness stand of a gathering of several well known New York women, at which Mrs. Gould was present, in the apartment of Mrs. George Underwood Kirkpatrick, when, according to Schmidt, the hostess' arm was bitten, another woman received a black eye, and he found Mrs. Gould in the cellar of the house weeping.

Mr. Nicoll, the defendant's counsel, said to-day that there was a possibility that he would reach his client during the day, and call Mr. Gould to testify in his own behalf. Mr. Shearn, the plaintiff's counsel, promised a severe cross-examination of Mr. Gould if this should happen.

TO-DAY'S EVIDENCE. Harry J. Veitch, of Des Moines, Ia., was called to the stand by the defence when court opened to-day. He was employed as a valet to Mrs. Gould from December, 1905, to September, 1906, the witness said, and during that time travelled with her to the West Indies and Europe, and attended her at the St. Regis Hotel in this city and at Castle Gould.

"Did you ever assist her in preparing her toilet?" asked Mr. Nicoll.

"Yes, on one occasion," answered the witness.

Veitch testified that he had seen Mrs. Gould under the influence of liquor several times. He said she drank a great deal on the trip to the West Indies on the Gould yacht Niagara, mostly champagne and Manhattan cocktails. The witness described an incident at Castle Gould in July or August, 1906, when he said Mrs. Gould drank champagne cocktails all day, and became loud and boisterous and threatened to "fire everybody in the place."

"She asked me to tie her slippers, and when I started to do it she hit me on the air," said the former valet. "She was staggering about then, but ordered me to get her two more cocktails," continued Veitch, "and later in the evening I passed her room and the door was open. She was lying on the bed fully dressed and sound asleep, and snoring loudly."

Veitch said he was at the Galt Farm in Virginia with Mrs. Gould in September, 1906, and saw her intoxicated there.

"Mrs. Gould discharged you because you had stolen some jewelry and silverware, didn't she?" asked Mr. Shearn.

Veitch denied that she discharged him for that reason.

The witness repeated a statement that Mrs. Gould had ordered him to throw a table, set with dishes, into the hall from her apartment at the St. Regis. Mrs. Gould eyed the witness sharply all the time he was testifying. She was angered by his testimony.

Henry H. Knowles, an insurance agent, testified that he had known the Goulds since 1904, and visited at Castle Gould and Blue Gap farm and been a guest on the Gould yacht Niagara. He testified that the first occasion he had observed Mrs. Gould's conduct when she had been drinking, was at dinner at the St. Regis in 1905.

"Mrs. Gould drank a good deal of wine and became very disagreeable," said Mr. Knowles.

"She would change from a most charming and agreeable woman to a disagreeable woman, nagging and sarcastic," he said Mr. Gould left the table at one dinner on account of his wife's talk and conduct.

WAS BURNED

And Accident Resulted in Death of Mrs. Peacock.

The death occurred at Toronto yesterday of Mrs. Peacock, wife of Thomas Peacock, manager of the Traders Bank at North Bay. Deceased was badly burned in an accident at North Bay some time ago, and went to St. John's Hospital, Toronto, for treatment, but she steadily sank gradually. She was born in Vancouver, and was 23 years of age. The funeral will take place on Saturday afternoon from the residence of Mr. Peacock's mother, 9 Wentworth street north.

He will be succeeded by Mr. H. Wilgitz, formerly train dispatcher at St. Catharines, for the Niagara, St. Catharines & Toronto Railway.

June Snow Storm

Melone, N. Y., June 18.—A snow flurry in mid-June was the novel experience of the residents of Franklin County early to-day. The air was sharp and cool as some of the days in early April. The snow continued to fall for only a short time and it disappeared as fast as it fell.

AFTER YEARS.

Times Found Poem For a Lady in Michigan.

One day last week the Times received a request from Mrs. Adam Herber, Elm-dale, Michigan, for the words of a poem entitled "The Broken Hearted," which appeared in the Times many years ago. In reply to a notice published in the paper conveying Mrs. Herber's desire to Times readers, the poem was forwarded to her by Miss Ida Hoppood, 87 Barton street west, who had it in a scrap book of her mother's. Mrs. Herber writes to thank Mrs. and Miss Hoppood for their kindness, and the Times for its efficacy in finding the long lost, but much prized poem.

FOUR CASES.

Magistrate Jelfs Had a Small Court This Morning.

Only four cases were brought up at the police court this morning, consisting of one assault, two truancy and one drunk.

Lou. Thomas was charged with assault by J. Anderson, and pleaded guilty.

"I kind of forgive this gentleman, as his father is very respectable," said Anderson, "and would like to let the case drop."

"You mean you do not want it to go on?" asked the magistrate, and Anderson replied in the affirmative.

The magistrate gave the young man some good advice, and told him not to let his temper get the better of him, for if he was ever up again he would be treated as anybody else would.

Inspector William Hunter is being kept busy. This morning he again had two truancy cases. The parents had lengthy excuses to offer as to why the children were not at school. Nicholas Wilvert was charged with neglecting to send his daughter, Katie, as he was working. Mrs. Wilvert appeared. Mr. Hunter said that Mrs. Wilvert had been warned repeatedly, and had given her promise that the child should attend regularly. He thought it another case where the child was kept home to work.

Mrs. Wilvert said the girl had to stay home because of a sore foot, which was liable to turn to blood-poison.

"Have you any other children?" asked the court, and she replied that she had eight.

"All small?" queried the magistrate.

"No; two are supposed to work, but they don't," answered Mrs. Wilvert.

"Well, if they don't, tell them you'll have them brought up before me," said the magistrate.

She was left off with a warning to neglecting to send his daughter, Emma, to school.

"My boy, Roy Newton, was sent down by Mr. Hunter that he didn't do anything. The children call the little girl a thief, and she won't go to school," said Mr. Newton.

"That's a poor excuse. All you would have required to do was to see the teacher and had it stopped," commented his worship. "That excuse won't go at all, and you must see that your daughter is sent to school."

He was let off with a warning.

William Ebertson, over-indulged, and had to part with a two-spot to secure his liberty.

The case of Mrs. Doolittle, which was adjourned on Tuesday, was further adjourned until Monday.

A FIGURE IN CITY HISTORY.

Portrait of Late Capt. Armstrong Presented to City.

He Was the First Stipendiary Magistrate in Hamilton.

Applied Match to the "Carolina" In Niagara River.

An oil painting of Capt. George Hawkesworth Armstrong, R.N., the first stipendiary magistrate of Hamilton, was to-day presented to Mayor McLaren by Mrs. Bell, wife of Thos. S. Bell, C.E., 44 Pearl street south. Mrs. Bell is a daughter of Capt. Armstrong, and she considered that the likeness of her father would be of interest to the city.

The original of the painting was born in the Isle of Wight and when quite young entered the royal navy as a midshipman, on "The Man-of-War," a tutor being on board to educate him. He received his naval training at first hand and came to Canada in 1812. He led the forlorn hope of 500 men at the battle of Chrysler's Farm, and himself applied the match to the powder which blew up the Carolina in the Niagara river to prevent the Americans wearing his celebrated vessel. Capt. Armstrong served in the Battle of Trafalgar and saw naval service in many climes, passing through all sorts of hair-raising adventures. He saved Admiral Lord De Courcy's son from drowning, and for that heroic feat was honored the privilege of wearing his hat while at court. Queen Victoria presented a medal and clasp to him for his distinguished service in the royal navy. Capt. Armstrong was ennobled of Canada, and after closing his naval career settled in Hamilton.

He was appointed the first stipendiary magistrate of Hamilton by Sir John Harvey, in 1845, and held that position until his death in 1863. He was well-known in the city in those days, and the presentation of his likeness to the city will serve to recall his memory. The surviving members of his family are: Mrs. Bell, Alfred H. Armstrong, Fort Willet, and J. H. Armstrong, Toronto. George Hawkesworth Armstrong, who was connected with the post office staff, and who died recently, was a son.

Final Arrangements For Corner Stone Laying To-morrow.

The committee in charge of the laying of the corner-stone of the new Y. W. C. A. building met yesterday afternoon and decided upon the following:

The brethren will assemble at 3 p. m. sharp (aprons and white gloves) at the Masonic Hall.

The procession, in order to interfere with the public as little as possible, will march, headed by the Union Jack and 91st Band, down Gore street to John, to North side of King street, to the west side of James, to Jackson, entering from the rear through the vacant lot. The best arrangements possible will be made at the building.

The band will lead the hymn singing, and after the Masonic ceremony the brethren will march back to the hall, via Jackson street to Charles, to King to MacNab, to York, to east side of James, to Masonic Hall.

It is earnestly impressed upon all that the time of leaving the hall and the performance of the ceremony shall be as closely adhered to as possible.

The Knights Templars of Brantford are coming down to join Godfrey de Bouillon. R. W. Bro. John Hoodless received word from Buffalo that Washington Lodge would bring a delegation of twenty-five or thirty to visit their silver trowel brethren and take part in the ceremony.

The brethren will wear the regalia of their rank, with white gloves, as prescribed by the constitution. The Union flags, one belonging to the Barton and the other to St. John's Lodge.

The Templars will make a fine turnout. The Brantford brethren wear black plumes; the city preceptory white plumes. They will be under the command of Em. Preceptor John Burns.

The police will keep all from the grounds and platform until the craft have entered and been placed. The chief of police examined the grounds yesterday with a committee, and will detail Sergt. Finch and a large squad to carry out the arrangements.

DAMS CAUSED LOSS. Property on Lake Nipissing and French River Flooded. North Bay, Ont., June 17.—The effect of the dams built over a year ago at French River to keep the waters of Lake Nipissing at normal level the year round has been most disastrous, especially this year, with abnormally high water. Much property along the shore line has been flooded, and in the eastern section of North Bay and among the summer cottages considerable damage has been done, while a number of buildings have been submerged. Representations made to the Government by the Town Council of North Bay resulted in an examination, followed by the blowing up with dynamite of one of the dams yesterday to allow the water to get away. New dams will be constructed on different places as the mill were utterly useless in coping with spring freshets, and should never have been put there.

The Benefit of Ocean Travelling. It is said that a trip abroad will do more towards making new men and new women than all the theories ever advanced by medical men. It is nature's workshop on the most improved scale, and also gives a wider vision and a different view of men and things. In regard to the benefits and advantages of ocean travelling there is no doubt; but the perplexing question heretofore has been the expense and to overcome it, The Anchor Line offers a solution of the problem in its low rates and unsurpassed steamships and service. Once on board one of its new commodious twin-screw steamships the passenger seems to experience a lighter and better life, and forgets that trouble ever existed. The voyage is one of pleasurable companionship and activity, or of absolute rest and seclusion, according to the desire of the individual—a trip for those who wish to retain their health as much as for those who have lost their health. The accommodations and comforts provided on all steamships of the Anchor Line are unsurpassed, and the old established reputation of the line for safety has won for it the name of "Old Reliable." Any person interested in foreign travel will find valuable information in the new Anchor Line book of tours, which may be had free upon request to the agents, Henderson Brothers, 17 and 19 Broadway, New York.

TO HIGH COURT. One of the most largely attended meetings ever held by Court Pride of Ontario, Ancient Order of Foresters, took place last evening at the lodge rooms. The most important item of business was the election of a delegate to the High Court meeting, to be held in Sarnia next August. There was a good deal of interest manifested in the election, which resulted in the selection of John J. Haygarth, of His Majesty's Customs, as representative. Mr. Haygarth is a wise choice, as he is well versed with the affairs of the Order.

BIRTHDAY PARTY. The residence of Mrs. Atwell, 432 Catharine street north, was the scene of a very delightful gathering last night, when a number of young friends held an enjoyable surprise party in honor of her daughter, Muriel. Pleasing games were indulged in, followed by choice music and at the close of the evening's merriment a luncheon was served by Mrs. Atwell. At a late hour all returned home, after their merry time, wishing Miss Muriel many happy returns.

MAN'S DECEIT AT THE PHONE. TELEPHONE GIRL SHOCKED BY EXCUSES SHE HEARS.

She is on Duty When the Husbands Explain to Their Wives Why They Can't Come Home for Dinner. (N. Y. Sun.)

The telephone girl on evening duty at a suburban public station pretty close to that pulsating corner, Broadway and Forty-second street, thinks that she has classified the men folks all right. She says herself that she's "got the men's number," which means the same thing as classifying 'em. Being in charge of a Federal and Tenderloin phone station and on the evening, watch this telephone girl catches, you see, most of the "excuse" phoning trade; the business, that is to say, of the more or less involuntarily downtown detained men who use the phone to explain to their wives why they can't be home to dinner. "O-o-h, such liars!" said the telephone girl during a lull, picking her gum from the top of one of the unused switch pegs. "Such awful, frightful, terrible, hideous, dazling, unholly liars as men are!" The indictment was so overwhelming that she was asked to elucidate. "Oh, the outrageous lies they phone to their wives to excuse their not being home as they ought to be!" said the telephone girl, looking, however, not quite so horrified as might have been expected; "and their deliberate, calloused, cold-blooded, foxy way of lying—o-o-h!" Detailed counts of this indictment were called for. "Well," said the telephone girl, "you ought to hear 'em' that's all. Two of 'em' that came in here about 7 o'clock this evening were samples—samples of the limit. "They were men around 30 and both were what you call happy souls. They strolled in here arm in arm, sort of leaning on each other. They weren't so happy souled that they had lost any of their foxiness, though—they never become so far gone as to lose their foxiness, in my opinion. "Well, watchoo going to hand 'em, matey?" the lean man asked the fat. "Search me," said the fat man, pushing back his hair and scratching his head. "Gotta pull myself together. Not so jerry to all the old comedies. "Important customer from Omaha just breezed into town and you've gotta take him around," suggested the lean man, grinning. "Now, nothing like that," chipped the fat man indignantly. "That's a real-aman, A. D., 1856 number. Not 'gotta spring something new and neat. "Old schoolmate that you hadn't seen for twenty-two years came along and dragged you out to dinner with him," suggested the lean man. "Ain't you those lumsy men," wheezed the fat man. "I've tried to slip 'em, but fifty times and never was able to put it over yet. "Gotta run over to 'em' to close a deal. "Nethin' like it. "A friend of mine took you down to Long Island to look at a furnished summer bungalow? "Tried that last summer and fell down. "Man interested in settlement work took you over to the East Side to look the thing over? "Say, how old d'ye think my wife is—about six? "Your boss took you out in his new motor car and the machine broke down at Yonkers and you'll be home as soon as repairs are made? "That's what I told 'em, but they didn't want to be hospitalized to see an old sidekick that's dying of—tubercular plague or somethin'? "Not a chance. "Fellow bet you you wouldn't walk with him from the Battery to his flat in The Bronx and you took him up? "Million to one they'd be in it. "Man in your office took sick from eating soft-shell crabs at lunch, and you had to take him to his home over in Bordentown, N. J.? "That also is a filmz. "The lean man grinned in a puzzled sort of way and looked around sort of helplessly. "Gosh," he said to the fat man, "you've handed her most of the repertoire, haven't you, pal? "Fraid I have," said the fat man, gloomily; "but say, if we're going to let 'em fly for time to eat, and I've gotta pass her some old thing, 'em see, and he pushed his hat up on his forehead and scratched above his ear. "Gee, I've got it! I'll blame it all on you, see? I'll tell her that your wife's out of town and that when I met you on my way home for dinner you were pickled up to the neckband and that— "Grab that, ice that," said the lean man, "leaving his fat friend by the coat lapel. "Put this in cold storage before you pull it out and get me in Dutch that I am. "Say, you lummoz, doesn't your wife hate me already enough without your piling up these new things? How d'ye know but what my wife has spent the lull afternoon with your wife? "Don't you know that the minute you tell her that we're together, why, your wife'll call up my wife, and they'll get to comparing notes and they'll both swear it's a put up job and all that? Say, cut out those Bwana Tumbo, get everybody in Dutch lumps of yours, won't you? "Oh, I meant for you to blame it on me to when you phoned to your wife," explained the fat man. "But I guess that's a shrimpy number," anyhow. How'd it do to just tell 'em we're soured and that we'll be home next Tuesday week if the day isn't cloudy, and let it go at that? "Now I know you're crazy," said the lean man. "Let's go have a little gig and think it over," and they fled arm in arm again, and they didn't come back, and so I suppose they ended by not sending any kind of word to their wives. "The way those two did fan over what they called the old stuff, the excuses they'd used over and over before! Do you wonder that telephone girls have got to be shown before they'll consent to listen to the tinkle of their own wedding bells? "The men that come here to send phone excuses to their wives don't mind the phone girl at all. They take it for granted that she is used to all that stuff—which of course she really is—and so they aren't a particle shy about discussing just what lies they're going to try to fix up for their wives. "Why, some of them even ask me to suggest a new excuse. "A case like that only a couple of

West Mount Survey Choice Home-Sites

OF TO OUR MANY INQUIRERS:—We now offer this most picturesque and attractive subdivision of future building lots, unequalled by any yet placed or to be placed on the market.

Its splendid situation, grand view of the mountain side, and new city park, high and dry elevation, properly graded avenues, shade trees all planted, cement sidewalks in course of construction on the south side of Hillcrest avenue, the west side of Chedoke avenue, and the south side of Aberdeen avenue, and to be paid for by us; every lot restricted, township taxes—all tends to make this beautiful property the "Westmount" of Hamilton.

As a Safe and Profitable Investment

It will compare with any suburban lots in Hamilton during the past fifty years. Building lots two blocks east of Westmount are selling at four times the price that we now offer lots for on this survey. ONE PRICE TO ALL, whether you buy one or ten lots, and \$25 SECURES A LOT. Balance can be paid in easy payments, spread over a term of years, if desired. stand why you didn't get home for dinner, Cake of the World. Because— "Because," he broke in there, "the boss had a mild stroke of apoplexy this afternoon, and— "Oh, was that it?" she cut in, sweetly. "I thought it was because my Aunt Ellen in Schenectady was being treated for chilblains last winter, or something. "Now, look a-here, dawlink," he put in at this point, "you know perfectly well that I wouldn't think of trying to tell you anything that wasn't true. "Oh, I know, I know, Brighteyes," she jollied him along, "and that's the reason I'm going out myself now for a little amusement. I don't exactly know where I'm going, but the flat looks pretty flat to me after all this foolish sitting around and waiting, and I'm going to get on my bonnet and shawl and— "Wait a minute—wait a minute! He eloped right in there, in a minute! 'I'll be right up—just as soon as a subway express can take me. Don't you think of going out—I'll be right up!' and he hung up the receiver and hustled out of the booth and paid me for the phone and dashed to the subway station like somebody going to a fire. "That, by the way, is the thing that gets all of these excuses—the little information on the part of the wife that she's going out herself. That's the one number they can't stand. "It most always stampsides them when wife at the other end of the line says in a sort of careless tone that she doesn't mind how long they stay out, because she's going out with a little party herself. It gets 'em every time, and they never fail to become sober and somber and gloomy, yawning right away and to best up to their homes as fast as they can."—New York Sun.

THE BAKERS.

Ontario Government Thanked For Wheat Tests—Papers Read.

Niagara Falls, June 17.—To-day the closing session of the eighth annual convention of the Canadian Association of Bakers was held at the City Hall. A resolution was passed thanking the Ontario Government for the institution of a department for the testing of wheat. Mungo Naumith, of Toronto, delivered an address full of interest to the delegates on baking technology, and papers were also read by C. J. Gibson, of Orillia, and Z. Hilton, of Guelph. These officers were elected: President, George Weston, Toronto; Treasurer, A. F. Carrick, Toronto; Secretary, H. E. Trent, Toronto.

HOMER-LEPATOUREL.

A very pretty wedding was solemnized in St. Luke's Church, Burlington, on Tuesday evening at 6 o'clock, when Miss Mary Elizabeth, eldest daughter of Mr. and Mrs. T. A. LePatourel, sister of the bride, was united in marriage to Mr. Alfred Homer, of the church, which was decorated with snow-balls and lilacs for the occasion, was filled to overflowing with friends of the contracting parties. The ceremony was performed by Rev. W. W. Hovey, rector of St. Luke's Church. These officers were elected: President, George Weston, Toronto; Treasurer, A. F. Carrick, Toronto; Secretary, H. E. Trent, Toronto.

In order to get the plant on the ground for the great irrigation development along the Bow River, Alta., the contractor has to build forty miles of temporary railroad.

ECONOMIST AT SEA.

If land is nationalized, the unearned increment would go to the State. Then how, as a consequence, are the very poor to have their wages raised? If made the basis for remission of taxes, the very poor who pay no taxes to speak of are not much benefited.

This remarkable extract is from a paper in the June Scribner's on "The Abolition of Poverty," by J. Laurence Laughlin, and is his smashing way of disposing of Mr. Henry George's Single Tax theory. We do not know who Mr. J. Laurence Laughlin is—no more than he seems to comprehend Mr. George's theory and its consequences—but we are astonished to find such matter given a place in a serious economic discussion in such a publication. It is hardly to be supposed that had the writer grasped the import of the argument for the concentration of taxation on land values—had he even touched the fringe of the subject—he could have been guilty of writing such things about it.

Had he ever read Mr. George's works he would not have thought to ask, "who will decide what should be given a street-sweeper, what to a locomotive driver?" Or, if the State were to control the magnificent fund, will politics be purer than they are now, and will the grafters or the laborers get the most?

AN ODD SITUATION.

A peculiar state of affairs has prevailed in New York for nearly four months. A Board of Statutory Consolidation has had in hand the revision of the State laws, and its report was adopted on Feb. 17, but the five volumes containing the consolidated laws of about 130 years have not been printed. Theoretically, New York is governed by a complete code, but what that code is the public must guess.

EDITORIAL NOTES.

Perhaps the Montrealer who refused knighthood doubted its usefulness as collateral at his banker's or baker's.

But we think the people have sized up Ald. Wright, and when it comes to reflections made by him upon the Mayor and aldermen will not give them much attention.

When the Hydro fellows get through disciplining the London Free Press and the senior Tory organ of this city we'll be here to report their submission to Beck and his whiskey friends.

Canada's trade returns for the month of May show an increase of about \$7,000,000. The business of the country is looking up. With a good crop in the west this year, things will hum.

The spectacular election charges against Sir Wilfrid Laurier are, it is announced, to be dropped. It may be that none of the 60 protests entered will come to trial. What a nonsensical business this protest bluffing is!

Rev. Mr. Allen's criticism of Bishop Williams' attempted parallelism of British compensation of slave owners with the proposed compensation of yearly liquor license-holders leaves little to be desired. The Bishop should study it.

A RARITY.

Hamilton has now no member of Parliament to look carefully after her interests at the capital. Her people miss Adam Zimmerman now. They might as well have a wooden image labelled "Tory" as the present West Hamilton member.

The Russian naval officers who, alarmed at the near approach of a British vessel to the Czar's rendezvous, fired on it, were doubtless unduly nervous and hasty. But it is true that five of seven shots fired struck the vessel, they are fairly good marksmen.

Mayor Stewart is reported as saying that he has been waited upon by deputations urging him to run for the Mayorship next year. Who were the men making up these deputations? It would be interesting to have their names. People have not forgotten this man Stewart's performance as his political party candidate. Is he repeating it?

The Provincial Retail Merchants' Convention at Brockville yesterday passed a resolution condemning the appointment of the Ontario Milk Commission. The mover, in introducing it, declared it to be "deliberately insulting to the retail dairy trade of the Province." Is such a view of the matter reasonable? Is there not reason to believe that, if well directed, the efforts of the commission may result in much good?

In a moderate and careful review of fleet conditions in an article on "The Balance of Naval Power" in the Nineteenth Century, Archibald S. Hurd says: "The British fleet has never been worked more persistently or consistently or to better purpose than to-day."

As a fighting machine the fleet is to-day three times the fighting value that it was ten years ago! He evidently has not been infected with the German scare.

To-morrow Lady Aberdeen will pay a visit to this city, of which she has such kindly remembrances, and will be the guest of Mrs. Sanford. Mayor McLaren will present a welcome, and our citizens will not fail to show her the respect and esteem to which her many personal qualities and public services entitle her. She is one of the women who utilize their privileges and opportunities to benefit society in general and womankind in particular. May her shadow never grow less, and may she abundantly enjoy that happiness which comes from efforts to uplift and enable others to be happy!

A burglar-proof plate glass is now reported from Rheims. It is thus described by the United States Consul there: "While an ordinary plate glass, such as is usually put into jewelers' show windows, was smashed to atoms by one single stroke with a metal-trimmed mallet, the same attempt to break the 'dalle polie' proved entirely fruitless. They then proceeded to throw a large piece of cast iron with extreme violence at the show window, and all they succeeded in doing was to make a small hole into it measuring only a few centimeters. Thereupon several shots of a revolver loaded with steel cast balls were fired at the show window with no further damage to the window than the entering of the balls into it to the depth of a few millimeters. The plate glass which will stand all such usage is ordinarily made of a thickness of from 20 to 25 millimeters (.787 to .984 inch); but, if desired, a heavier plate can be made without in the least diminishing the transparency of the glass."

The question of Blythe's fate has become one of legal technicality, but is to be decided by the court being whether the brutal killing of the unfortunate wife by her husband while he was in a drunken rage should be held to be murder or manslaughter. To the average man it must appear to be one easily settled. If a brute like Blythe may escape the gallows on this plea, as well as other capital punishment for murder. No woman will be safe from the husband who seeks her life. All he has to do is to fill up with whiskey, when he may murder her with whiskey to his own neck. And if the plea of being drunk is to excuse wife-murder, why not any other murder? The only safety to society is to be found in requiring every man to insure himself against committing murder when drunk. Sympathy is wasted on brutal wife-beaters, and when they kill their victims hanging is not too severe a punishment.

Fourteen hundred boys took part in the annual review of school cadets at Winnipeg, and thirty thousand people witnessed the spectacle.

OUR EXCHANGES.

MUST BE STRONG. (Kingston Standard.) Hamilton wants a Board of Control. It will be a strong Board of Control if it can keep the editors of that city in leash.

GAMBLING. (Kingston Whig.) Gambling in its most obnoxious form cannot be openly and defiantly conducted on any race track if public opinion demands its abolition.

THE FIRST STRAWBERRIES. (Dundas Banner.) On Tuesday Toronto received their first grown-in-Canada strawberries from William Lemon, of Aldershot, The County of Wentworth is the early "Garden of Canada."

DOES THINGS. (Toronto Globe.) The militia camp post office is one of many evidences of up-to-date departmental activity. We seldom appreciate all the advantages of a Government that does things.

THE DOG. (London Free Press.) Toronto and Hamilton have passed severe laws against roaming canines. The principle adopted is that owners who value their dogs will not permit them to be a public menace or annoyance.

A RARITY. (Stratford Beacon.) The Hamilton pastor who resigned as a protest against his congregation erecting a church which in his opinion was too costly, might almost be said to be a rarity amongst men of that ilk.

LABOR EXCHANGE. (Toronto News.) Mr. Winston Churchill's scheme for an inter-imperial system of labor exchanges should work out to the advantage of every part of the Empire, and especially of the laboring men who constitute so large a proportion of the imperial population.

BLYTHE'S CASE. (Toronto Telegram.) Blythe has been saved from the gallows. His case can now be discussed with a freedom which a newspaper could not fairly exercise when a human life was at stake. British justice was made sufficient of a by-word and a reproach with one set of journals clamoring for mercy. The situation would not have been improved by the tendency of another set of journals to clamor for justice.

THE DROWNING SEASON. (Ottawa Citizen.) Between June and September the newspapers each day contain a list of drowning accidents. So continuous are the fatalities from this cause that some of the newspapers group the drowning accidents each day under a general heading. The aggregate loss of life each year from drowning must represent a comparatively large percentage of the death rate of the country, and as a rule the deaths are confined to men in the prime of life, youths and boys, every one of whom is a potential factor in the economic advancement of the country.

IT ALL DEPENDS. (Vancouver Saturday Sun.) Long after midnight the suburban man sat on his front step listening to the dismal howls of a relentless canine. "Awful racket!" commented a big policeman, sauntering up the street. "Terrible!" agreed the man on the steps.

"Wonder you don't make a complaint." "Well, I'm just waiting." "May I ask what you are waiting for?" "Certainly, I am waiting to find out if that is my dog or my neighbor's dog. If it is my dog—well, you know, we all have to put up with unseasonable noises sometimes; but if it's my neighbor's dog—confound me if I don't shoot him!"

NOT A PARTICLE OF SKIN ON BODY.

Worst Case of Eczema Doctor Had Seen in 40 Years—For Six Months Father Expected His Baby to Die—Blood Oozed Out All Over Her Body—Had to Be Wrapped in Silk and Carried on a Pillow—Now She is Perfectly Cured.

DOCTOR RECOMMENDED CUTICURA REMEDIES

"My little girl was born two weeks before her time and my wife died four hours after the birth of our child and I had to raise the baby on artificial foods. Six months after birth she broke out and I had two doctors in attendance. There was not a particle of skin left on her body, the blood oozed out just anywhere, and we had to wrap her in silk and carry her on a pillow for ten weeks. She was the most terrible sight I ever saw, and for six months I looked for her to go to her mama, but thank God and his agents, she is alive and well to-day and she will be three years old the seventh of December and has never had a sign of the dread trouble since. I used every known remedy to alleviate her suffering, for it was terrible to witness. Dr. C. gave her up and then I went to Dr. B. and got Dr. B. and he and Cuticura Soap and Cuticura Ointment saved her. He recommended the Cuticura Remedies, or said we were right in making use of them. As nearly as I can remember, we used eight cakes of Cuticura Soap and three boxes of Cuticura Ointment; but you must take into consideration that hers was an exceptional case, for an old and good doctor said that it was the worst case that had come to him in forty years. I have always hinged on Cuticura Soap to keep her skin soft and to give her a pure complexion. James J. Smith, Wood and Metal Pattern Maker, Box 234, Buena Vista, Va., Oct. 14 and 22, 1906."

Complete External and Internal Treatment for Every Form of Eczema and Skin Disease consists of Cuticura Soap to Cleanse the Skin, Cuticura Ointment to Soothe and Heal, and Pure Resolvent for the Form of Chocolate Coated Pills to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Co.'s Six-Weeks-Remedy for Eczema. \$2.50. Free, Cuticura Book on Skin Diseases.

ONTARIO'S BAD FAITH (Prof. Goldwin Smith.) Alarm has been created in England, as it was sure to be, by the legislative action of our Government, with respect to the faith of financial contracts and access to public justice. Before long the effect on Canadian securities will be felt, our own people, it is to be feared, have been largely induced to connive at this violation of British rights, and their complicity in the Great Charter by the policy sum, about half a dollar a piece, which in the Cobalt case they gained by the action of the Government. It must also unhappily be said that the silence of the Toronto Board of Trade and of the Toronto Press, with the exception of the Toronto Financial Post, has been very disappointing. To what quarter are we to look for protection of chartered rights against Government violation of the law? MISS BLACK. (Rochester Herald.) Perhaps we ought to have a feeling of sympathy for this poor black girl, who wanted to be a Miss. Indeed, we have a feeling of sympathy for her. Nevertheless, the trouble which she brought upon herself and her family had its root in nothing better than vanity. The white people in Greenville did not apply coarse or abusive epithets to her. They merely called her by the name given to her in infancy, the name chosen by her own father and mother. She wanted to be a Miss because she noticed that every white girl was a Miss. Her mistake did not come from the desire to be spoken to as white girls are, but from her lack of knowledge in regard to how appellations come to be applied. NAMES. (From the Philadelphia Record.) Hubbub—I believe in calling a spade a spade. Hubbub—If you lived in my way and had been trying to make a garden, you would be excused for calling a spade an old tating you could lay your tongue to. Look at the blisters. W. E. Gross, a colored man, dropped dead at Chatham. Mr. John Kyles, barrister, died at Eglington on Thursday.

A WET DAY AT NIAGARA.

Army Service Corps Comes in For Compliments.

Col. Rennie's Men on the Trek This Evening.

Painful Accident to Brigadier General Cotton's Orderly.

Niagara-on-the-Lake, June 18.—Wet weather interfered with work at the camp yesterday, and there was little for Tommy to do but amuse himself.

The entertainers and the fun producers connected with each squad were called upon to do active duty in their respective lines of amusement.

While the men were enjoying themselves, the staff officers lounged around their enclosure and attended a lecture delivered by Lieut.-Colonel Septimus Denison on "Tactics."

The new rifle ranges, which were closed for a short time Wednesday afternoon, are again in operation.

The following detachments were inspected to-day: Missisquoi Horse and 2nd Dragoons, by Lieut.-Colonel V. A. S. Williams; 2nd Brigade, C. F. A., by Lieut.-Colonel H. E. Bursall; signallers, by Major Bruce Carruthers.

The following N. C. O. and men have been added to the camp subordinate staff: Sergt. Lamb and Privates Scorse and H. Walker.

Major B. C. Caldwell, Assistant Director of Intelligence, joined the headquarters staff yesterday.

Fifteen additional volunteers entered camp bringing the total up to 3,242.

Mrs. (Brigadier-General) Cotton will receive on Saturday afternoon in the headquarters enclosure.

The annual dinner given under the auspices of the headquarters staff will be held at the Queen's Royal on Tuesday evening next.

Trooper Green, orderly officer to Brigadier-General Cotton, met with a painful accident yesterday. He fell off a horse, and was badly cut about the chin and back.

TRINITY.

English Lutheran Church Ladies Are Progressive.

The monthly business meeting of the Ladies' Aid and Missionary Society of Trinity Lutheran Church was held yesterday afternoon at the home of Mrs. May, 185 Stinson street, and many attended.

The Canadian body will assist in building the Maternity Hospital in India, and the local society decided to endeavor to interest all the ladies of the congregation to join the local society.

Much satisfaction was expressed at the success of the first social of the society, held on Wednesday evening at the home of the secretary, Mrs. Carlson, 909 Wentworth street north.

The next meeting will be held on July 15 at the summer cottage of Mrs. Nemmet, Burlington Beach. The society is interested in the building fund for the contemplated new church property.

The pastor of the church, Rev. M. J. Bieber, will, Wednesday, June 23, address the next Social at the League at Zanesville, and on Saturday, the 26th, assist in the cornerstone laying of St. Paul's Lutheran Church, Toronto, which congregation Rev. Mr. Bieber developed as field missionary.

Woodman Picnic. Camp Walnut No. 279, Woodmen of the World, will give its first annual picnic and dance to-morrow at Maple Leaf Park, to start at 2 p.m., and continuing until 11 p.m.

The opening of the new dancing pavilion at the park, on the American plan, and a fine orchestra will play special music. A programme of games will be run off in front of the grand stand, and these will be open to all holding coupon tickets.

The tickets are on sale with the street car conductors and are 15 cents for the picnic and 10 cents for the dancing, including car fare both ways and admittance to the park.

MAPLE LEAF PARK.

The management of Maple Leaf Park has arranged for another big free show next week, and promises that it will be better than any that has yet appeared here. The show this week is a strong one, and has been favorably commented on by all who have seen it. The juggling and comedy work of the Marriott twins is sensational, and the trapeze work of the four Onette sisters is away above the average. To-morrow the Woodmen of the World will hold a monster picnic at the park, and special attractions are being arranged for them. Some of the Toronto lodges will join in the fun. The big dancing pavilion at the park may be open to-morrow night, but the formal opening will take place on Monday night, when a ball will be held. Etiquette no longer requires a young man to propose to a girl on his knees. He is generally on his uppers.

BERSIN CASE.

Detectives Have Man Whom They Accuse of Murder.

Neighbors of Suspected Man Believe Him Guiltless.

New York, June 17.—Samuel Goldberg, of 183 Allen street, a painter, was arrested this afternoon, charged with complicity in the murder of Samuel Bersin, whose dismembered body was abandoned at Henry and Oliver streets a week ago to-night, and whose head was found the next morning under an archway of the Brooklyn bridge. The little Tataro boy, who was asked by the man carrying Bersin's body to watch the bundles, has positively identified Goldberg as the man who spoke to him.

Goldberg was taken to headquarters at 4 o'clock this afternoon and hustled to a private room upstairs, where Captain Carey of the homicide bureau took charge of him. Inspector McCafferty was summoned from his office and in a few minutes the whole building was in a turmoil. The detectives were jubilant, claiming that they had solved the mystery. A policeman was sent for the Tataro boy. He arrived at headquarters in about half an hour. Goldberg was then being put through the third degree and the boy had to wait. He was very nervous, but said he was positive he could identify the man who carried the bundles if he saw him.

CAN'T STAND HIM.

Divorcee Won't Have Former Husband Around Any More.

"Divorced from a man and still have to live in the same house with him and cook his meals? Never—not in a thousand years," says Mrs. Mary Aarup, who is one of the interested parties in a nice little tentative scheme suggested by Justice Lockwood in a settlement of the domestic troubles of Hans C. Aarup and his wife, says a Chicago despatch. "That would be a fine way to get a divorce, wouldn't it?" continued Mrs. Aarup, her anger rising the while. "Why, I wouldn't live with that man if our home was in paradise and fronting on a street paved with gold. I would rather live alone in a dungeon and never again see the light of day. 'He's got to go; that's all there is to it, Judge Honore or no Judge Honore. I won't have him around here for a minute after I get my divorce papers. He would like to stay, I know, but I shall never allow it.' Here is the way it all came about: Mrs. Aarup in her divorce suit insisted on a separate residence for herself and children. Aarup claimed that he had an equity in the property in Elizabeth street. Judge Honore heard the testimony, made up his mind that Mrs. Aarup was entitled to a decree, and then evolved a novel scheme for maintaining the rights

HENSLEY--HALE.

Fashionable Wedding in St. Paul's Cathedral, London.

(Special Despatch to the Times.) London, June 19.—One of the most charming weddings of the month was solemnized in St. Paul's Cathedral this afternoon at half-past four, when Miss Jessie Hale, only daughter of Mr. Jeffrey Hale, manager of the Bank of Commerce, was married to Mr. George Hensley, accountant of the Bank of Montreal, of Hamilton. The ceremony was performed in the presence of a very large number of friends and relatives by Archbishop McKenna, of Brantford, assisted by Canon Dunn, of St. Paul's Cathedral. The church was magnificently decorated with roses, palms and ferns, and the bridal party entered with the choir boys in advance of them, singing "Perfect Love." The bride was given away by her father and looked very handsome in a gown of white satin, trimmed with Honiton lace and embroidered with a bridal veil of old lace, surrounded by orange, blossom and carried a large bouquet of roses and lilies of the valley. Her maid of honor was Miss Mary Campbell, of Toronto, who wore a beautiful gown of pale blue. The four bridesmaids, Miss Ruby Ramsay, of Montreal; Miss Katie Reford, of Montreal; Miss Violet Cregar, of Hamilton, and Miss Edna Leonard, of London, all wore dresses of white mulle and carried blue satin parasols, tied with pink roses. Mr. Gerald Farrell, of Montreal, was groomsmen, and Fritz Martin and Harlow Lewis, of Hamilton; Campbell Beecher, of London, and George Hale were ushers. During the ceremony the choir sang a psalm and while the register was being signed Miss Lena Labatt was being signed in the vestry. The wedding party then went to the bride's home, where a reception, attended by about a hundred guests from Hamilton, Toronto, Montreal, Brantford and London, was held. Mr. and Mrs. Hensley left in the evening on a motor trip and on their return will take up their residence in Hamilton.

THE PESSIMIST.

Extracts From This Grouchy Person's Journal.

The girl you think most of is the girl whom you should have sent a present, but forgot. Eternal vigilance used to be the price of liberty, but nowadays everything is going up. The woman who is a man-hater is generally a woman who knows few men well enough to hate them. When you say she has an uncertain temper, you mean she has a certain temper. A great many women believe everything a man says and suspect everything he does. Many a woman with a voice like a bell soon makes you wish the clapper had been omitted. Why is it that the woman who is always giving somebody a piece of her mind never exhausts the roses? Some men are proud because they have made a name, and some because they have married one. The woman who removes her hat at the theatre is not the woman with a scant supply of hair. There is only one way to win an argument with a girl; usurp at once the role of the injured party. It was wounded vanity that made this girl refuse you, but the girl you married has proper pride. Did Rip Van Winkle really meet the gnomes—or has his wife told him she would be down in a minute? The secret that a woman wants most to know is the one that when known she is sure will break her heart. She who takes pleasure tramping a man in the dust is always disappointed if the man doesn't come back to be brushed off. One of the puzzles of education is why some girls study a foreign language when they already talk too much in their own. Make a girl believe that you are a dragon; then make her believe she has charmed the dragon into harmlessness, and in one day more she will marry you. Reginald Wright Kaufman, in July Smart Set.

GOLD MEDALS.

Wright Brothers Honored by Congress and State of Ohio.

Parade of Floats Showing Progress of Locomotion.

Dayton, Ohio, June 18.—The nation, the state and the city in which they live to-day paid tribute to Wilbur and Orville Wright, the aviators. Standing on a platform not far from their unpretentious little aeroplane factory and almost within sight of a field where they first struggled with the problem of aerial navigation, Gen. James Allen, chief signal officer of the army, assigned by Secretary of War Dickinson for the purpose, presented to the Wrights the gold medals authorized by Act of Congress. At the same time were given them a diamond studded medal bearing the official seal of the State of Ohio, and another from Dayton, their home city. The State medal was presented by Governor Harmon, of Ohio; the local medal by Mayor Burkhardt, of Dayton. After the presentation ceremony the crowds witnessed a parade of floats, depicting the development of locomotion in America. This was headed by an Indian runner, and, after the various stages from the ox cart to the automobile had been shown, was concluded by an aeroplane, with the designation that the next route for speeding would be among the clouds.

WOODMAN PICNIC.

GRADUATION OF NURSES.

Interesting Ceremony at the City Hospital Yesterday.

Nineteen Young Ladies Receive Their Medals and Diplomas.

Addresses by Governors and Some of City Clergy.

Comprising the 1909 nurses graduating class of the City Hospital Training School, the largest in the history of the institution, nineteen bright young ladies yesterday afternoon were the recipients of gold medals, diplomas, advice, congratulations and bouquets of eloquence at the annual commencement exercises. The function was held in the Nurses' Home, which stands as a monument to the munificence of Mrs. Hendrie, a gift which, it was suggested during the addresses yesterday, should act as an inspiration for some of Hamilton's wealthy people. The building was tastefully decorated with palms and flowers in honor of the event. Relatives and admiring friends of the graduates, physicians, clergymen and others who take an active interest in the hospital, filled the drawing rooms, the lady superintendent, Mrs. House, assisted by Miss Aikin, receiving the guests. An enjoyable musical programme was given and a pleasing feature was the tribute of appreciation paid by the speakers to the capable management of the institution under the direction of the medical superintendent, Dr. Langrill, and the nursing superintendent, Chairman John Billings, of the Board of Hospital Governors, presided, and the gold medals and diplomas were presented by Lieut.-Col. A. H. Moore, one of the governors, and Ven. Archdeacon Forrester, rector of All Saints' Church.

In an inspiring and impressive invocation Rev. Dr. Fletcher prayed that God's blessing might rest on the work of the young ladies in their chosen profession. The white capped graduates, in their neat and spotless uniforms, then entered the drawing room in a body to receive their awards. Emphasizing his appreciation of the kind treatment he had himself received while a patient in the institution recently, Archdeacon Forrester, awarding the diplomas, paid an earnest tribute to the work of the nursing staff, and urged upon the graduates to hold before them as their ideal the example of the Savior himself, who came not to be ministered unto, but to minister.

"I want to congratulate the graduating class," he said, "on the years of hard study brought to a successful conclusion, years not only of hard study, but of hard work, for I have seen some of it, and want to bear testimony to the splendid work done in this hospital." As a clergyman, at times he came in contact with those who were wont to indulge in criticism, but the experience from walking through the wards impressed him with the kind treatment and close attention the patients received from the nurses.

"Your preparation for your life work is ended," he said, "but your preparation is only a small part of the work of your lives. Let your ideal be one of service rather than of gain. The laborer is worthy of his hire, but let us attain to a higher ideal in the professional line of life. Think of what you can give rather than what you can get and by keeping before you this higher ideal you will bring much more happiness to yourselves. May God's blessing rest on your work."

Presenting the gold medals, Lieut.-Col. Moore recalled that he had the closest connection with the Hospital of anyone in Hamilton, being placed on the board soon after the institution was erected, and taking an active interest in the work ever since. With such experience he spoke with authority. "In the Medical Superintendent," he said, "we have a man who is thoroughly capable of handling that part of the work, and in Mrs. House, the lady superintendent, we have a treasure."

Addressing the graduates, he said, "Remember that your profession is one in which you can do much good for humanity. There are certain walks in life that offer exceptional opportunity for this, and you are one of them and in the years to come I am satisfied you will bring credit not only to yourselves, but to your Alma Mater, the Hamilton Hospital."

Col. Moore regretted that the nurses' quarters were so badly cramped, and that the Government would not give money to enlarge them, but unfortunately they had not seen fit to do so. Referring to Mrs. Hendrie's generous gift, he said, probably they would have to wait until some other wealthy citizen emulated her example before the building would be enlarged. "If the people knew the difficulties under which we labor to provide quarters and the unpleasantness of the many things that have to be borne with, I think they would cheerfully provide what is required. I wish we had men like Mr. McDonald, of Montreal, who thinks nothing of giving \$100,000 or \$200,000 to public charity. Some of the rich men of Hamilton should help us in the work done here." Col. Moore regretted that he had been misrepresented in the press in a report that accused him of complaining about the cost of the medals for the nurses. "The medals," he said, "are a very small return for the work done and service you have given. No man is more loyal to the hospital and staff than I am."

Dr. Frank Coleman delivered an interesting address to the graduates, dealing in detail with their training and the profession in which they were engaged. He particularly urged them to keep before them throughout their career the lofty ideal that should inspire those in such a noble work.

"The city owes the Board of Hospital Governors a debt of gratitude that will never be able to repay," declared Rev. Father Brady, paying a tribute to the work of the board. He spoke appreciatively of Chairman Billings' services. One would expect after laboring so long and well throughout the past gentlemen should rest, but his philanthropic zeal for Hamilton would not permit him to, and he had improved on improvements and made the Hamilton Hospital second to none in the country. The two hospitals in Hamilton, the General Hospital and St. Joseph's, were doing good work, and Father Brady thought there was room for both. He referred with satisfaction to the harmony that prevailed.

The Medical Superintendent, Dr. Langrill, declared that much of the credit for the success of the Hospital was due to the efficient services of the nurses. "I wish," he said, "to pay them the greatest tribute possible." Dr. Langrill also spoke appreciatively of the splendid work of the board and referred briefly to the crowded conditions of the isola-

tion and diphtheria buildings. Mayor McLaren spoke briefly. The graduating class was as follows: Jean L. Edgar, Hamilton. Margaret Malross, Galt. Lillian G. Tobias, Brantford. Vivian E. Fenly, Cairo, Ont. Irene Elliott, Bolton. Annie E. McDermott, Beeton. Hannah B. McGregor, Grenfell, Sask. Carrie Dow, Hamilton. Olive M. Holliday, Brooklyn, Ont. Blanche A. Emerson, Burlington. Elma L. Gunter, Trenton, Ont. Madeline Hunt, Woodstock, Ont. Katherine Hudson, Hamilton. Annie D. Beck, Sault Ste. Marie, Ont. Mary Brennan, Chesley, Ont. Eloise Touchburn, Ida, Ont. Lillian G. Armstrong, Woodstock, Ont. Margaret E. Hagyard, Scotch Block, Ont. Christina Kerr, Hamilton. The following musical programme was given: Local solo..... Mrs. McNichol. Piano solo..... Miss McGregor. Vocal solo..... Mrs. Mullin. Vocal solo..... Mrs. McNichol. Violin solo..... Dr. MacLoughlin. In the evening the annual "at-home" was held and a very pleasant time was spent.

KNOCKED OFF A CAR

An Orangeville Man Caught in a Telephone Wire.

Orangeville, June 17.—A terrible accident happened last evening in the yards of the Superior Portland Cement Company, opposite the C. P. R. depot here, whereby Edward French, an employee of the company, received fearful injuries. French was on top of a box car which was being shunted. The car was run over John street crossing, where a private telephone wire crossed the track. The wire caught French under the chin and lifted him clear off his feet. For a moment he dangled in the air and then tumbled off the car fifteen feet, headfirst, striking the timber of a culvert. Several ribs were broken and the head, side and arms bruised.

Dr. Norman Wright, of Detroit, witnessed the accident and gave immediate treatment. The man has only been conscious since at intervals. Notwithstanding the severity of the injuries, French has a good chance of recovery.

SLAVERY AND LIQUOR.

To the Editor of the Times:

Dear Sir,—In your issue of 15th inst., there is a report of the charge delivered by Bishop Williams to the Synod of Huron, defending the compensation of liquor license-holders for the loss of their licenses. Bishop Williams says: "The British way is for the State to make compensation to private individuals when it suppresses by law a legitimate trade. The abolition of slavery is a case in point. Slavery was a legitimate system, tolerated and protected by law, and when the State abolished the system it made compensation to the slave-owners to the extent of \$100,000,000."

So the Government did, Mr. Editor, and rightly so. But did it proceed to compensate the slave-traders whose business was destroyed, and whose property in ships and "factories" became practically valueless? Did not the British Statesmen recognize a great difference in principle between compensating the slave-owners for the loss of what the law had long recognized as their property, and compensating the slave-traders for the prohibition of their evil business? In the one case the State took property away from a man, and practically appropriated it to its own use by making citizens out of what up to that time had only recognized as another man's chattels. In the other case the State left the men in full possession of all their property, but merely forbade their using it for a certain purpose.

Now, Mr. Editor, I claim that the liquor trader is, in relation to his business, in precisely the same position as the slave-trader, and should be treated in that relationship in precisely the same way. Note the parallel! The slave-trader invested money in good faith in a business which was protected by law—so has the liquor-trader. The slave-trader lost his business "by a law which made the investment all but a total loss,"—so does the liquor-trader under a reduction or prohibition law.

The slave-trader had been compelled to improve his ships and "factories" at considerable expense, (that was in 1788),—so has the liquor-trader been compelled to improve his premises.

Yet who the British Government prohibited the slave-trade it did not give one penny of compensation to the slave-traders! Neither should any Government (if they follow British precedent in dealing with the slave trade), to the liquor-traders.

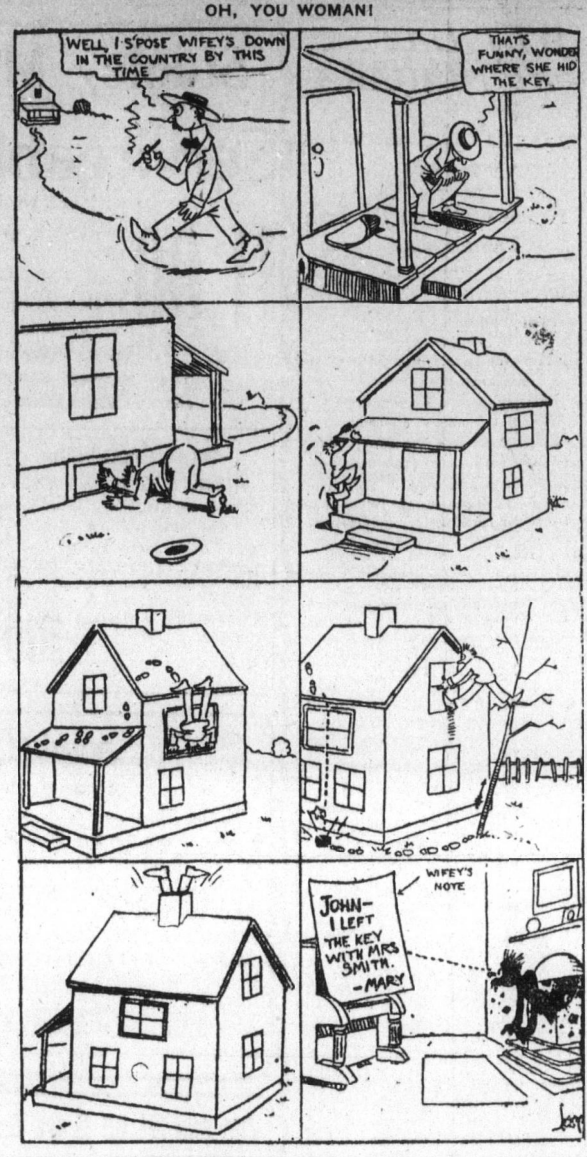

It was not till 1833 that the slaves were freed, twenty-six years after the trade had been prohibited. Then, as I have pointed out, for what the State took, the State paid. If ever there should be a Government so foolish as to pass a law to prevent a man from having liquor in his possession in his own home, and should proceed to take away the liquor he already possesses, then, say I, follow British precedent and let it pay for what it takes. A prohibition law is not intended to take away a man's property, but it is intended to prohibit a trade that has proved itself to be the greatest curse of the country.

Thanking you for the space accorded me in your valuable paper, yours truly, June 17, 1909. H. Edgar Allen.

AMONG THE JEWS

Abdul Hamid's present asylum is under the roof of a house owned by a wealthy Italian Jew—Signor Alliani. It is a modern mansion, consisting of sixty rooms, standing in a spacious and beautiful garden, from which a splendid view is to be had of the Bay of Salonika.

Little enthusiasm has been aroused among Jewish communities in the towns for a proposed conference to reorganize Palestine. The Jewish colonies are more sympathetic; in fact, they have already combined and have formed an executive which will shortly take charge of their common economic interests.

South Africa has provided more than the usual number of surprises during the past two or three years, but the latest combination might well be regarded as a climax. This was a Jewish-Catholic bazaar in aid of the funds of the South African Jewish Orphanage and the Nazareth Home. It proved a highly attractive and successful function. As a result, £270 will be devoted to the funds of the two institutions.

Judge Shumway, of the Superior Court at New Haven, Conn., has handed down a decision refusing to make valid a divorce granted by a rabbi. It is advised that no rabbi should grant a religious divorce unless one had previously been secured in the civil courts.

The prolonged efforts to effect a union of the Jews in Austria have been crowned with a considerable measure of success.

The American Hebrew National Organization has been formed with Henry Green as President, and with headquarters at Clinton Hall, New York. Its purpose is to maintain "strictly American principles," and to "solidify and combine in as large a degree as possible all representatives of the Jewish people as the mainstay and reliance of all that makes for the credit and honor of the republic."

What looks very much, indeed, like a Jewish police force is just in progress of organization in Bayonne, N. J., where there is a considerable Jewish settlement. Mrs. Julia Goldzied, some time ago conceived the idea of a volunteer police force, composed of women, to patrol the city parks frequented by women and children to see that order was maintained, sanitary regulations carried out, proper courtesy shown the women and children, etc.

The Hillsverein der Deutschen Juden will undertake the education of the Falashas brought from Abyssinia by M. Falitovitch. They will be educated in Palestine.

A new synagogue is soon to be built in Lachine, which has a Jewish population of eighty families. Many business men of Montreal have made contributions.

Mr. Isidore Newman, the New Orleans philanthropist, has presented a number of contributions to local charities, in honor of the marriage of his youngest daughter, Marie, to Mr. Emil Weil. Mr. Newman's gifts amounted to \$20,000.

Owing to another disastrous fire in the Haskenu district of Constantinople, over 500 poor Jewish families are homeless.

The Jews in Salonika celebrated the triumph of the Constitutional Army by a monster street procession organized by the Jewish club, "Cercle les Intimes." Jewish hands played Turkish hymns, and patriotic speeches were delivered, which several Turkish officers acknowledged. The club has issued an appeal to the citizens for funds wherewith to erect a memorial to the martyrs for freedom who fell in Constantinople.

The annual report of the Alliance Israeelite Universelle records a splendid gift by Mr. E. S. Kadourie, a merchant of high standing at Hong Kong, where he is President of the Branch of the Anglo-Jewish Association. His latest act has been the provision of a building for the Girls' School, which has proved so successful since its establishment.

ON HAZING.

Laws to Prevent It and Action by Students to Stop the Practice.

To the Editor of the Halifax Herald: Sir,—I notice that in some States steps are being taken to have laws passed which will prohibit hazing and other rowdy actions, which became so prominent amongst college students of late. To have to resort to such stringent means to prohibit such conduct amongst the class of young men who should be setting better examples is rather unpleasant, but, as has often been pointed out before, the innocent have to suffer for the guilty, and it is the bad example that is set by those who are inclined to indulge in such actions which causes it to spread amongst others. I enclose you a couple of paragraphs which show both sides of the question. I think if the better thinking students will follow the example of those of Lebanon, Ill., it would soon be the means of discouraging the further continuance of this rowdy spirit amongst students in Canada and the United States.

HAZING AND THE LAW. (From Boston Transcript.) The judiciary committee of the Rhode Island Legislature has reported a bill having for its object the prohibition of hazing in the educational institutions of the State. Of course, the thing prohibited needs to be more precisely defined. The dictionary says it means "to play mischievous or abusive tricks; to try the temper or pluck of a person." The terms of the act are a little more comprehensive. They provide that "every person being a student or being a person in attendance at any public, private, parochial or military school, college or other educational institution, who shall knowingly or willfully commit any act that injures, degrades or disgraces, or tends to injure, frighten, degrade or disgrace any fellow student or persons attending such institution, shall be held guilty of a misdemeanor, and upon conviction shall be fined not less than ten dollars nor more than one year, or both." If tattooing or other disfigurement is resorted to, an extreme penalty of ten years' imprisonment may be imposed. If the opinion of our representative upon that bill could be obtained he would probably call it a measure to develop "molly-coddles." It might be easy to prove that a student had been injured or even disgraced, but to undertake to protect him against fright would seem to be rather straining the law. For instance, in a woman's college the release of a mouse might stampede a whole class, and this would cost the unfortunate joker under the strict terms of the law, ten dollars for each panic-stricken student.

STUDENTS TO STOP PRANKS. (From Arkansas Democrat.) The students of a college at Lebanon, Ill., have set a good example for the students of other educational institutions to follow.

A students' co-operative protective association has been organized, in which the whole student body has joined enthusiastically, pledging themselves to rid the college of all degrading practices.

The hazing, the cane rushing, the night shirt parading, and the numerous "stunts" of which they should be ashamed are tabooed as beneath the dignity of young men who will be the leaders of to-morrow in the State and in business.

This is a more effective means of reaching the evil than is all the legislation that may be devised against the fraternities and secret societies with their mock rituals and oftentimes tragic accompaniments.

An appeal is being made to the manhood, to the dignity, to the decency of the students, and it is an appeal that will win.

SOME ADVANTAGES. (From the Philadelphia Ledger.) "Read about the new anesthetic? It's a good thing." "What's it like?" "Deprives you of feeling, but not of your senses. If you see the surgeon trying to sew sponges or forceps up in you, you get a chance to call him down."

BLACKMAIL, SAYS NICOLL.

Howard Gould's Counsel Makes a Nasty Insinuation. More Testimony Given of Mrs. Gould's Alleged Habits. Broker, Guest on a Yacht Cruise, is Among Husband's Witnesses.

New York, June 17.—The spotlight of the cross-examiner continued to oscillate to-day in the trial of Mrs. Howard Gould's suit for separation, from the estate of Castle Gould to the Saint Regis Hotel, the farm at Blue Gap, Vt., the Gould's yacht, Niagara, and back to New York again; but except for those moments when it lingered on Dustin Farnum, it never got very far from the butler's keys to the wine cellar.

There was visible an attitude on the part of the defense, which in this trial has been curiously shifted over to what is virtually the prosecution, to prove that Mrs. Gould was not only so frequently under the influence of intoxicants as to fall within the rulings of Justice Dowling that she must be provided a habitual drunkard before her husband can be justified in leaving her, but to prove that, when she had been drinking, her character underwent a transformation for the worse.

De Laney Nicoll, counsel for the husband, was willing enough to adduce testimony that the wife was affable when herself if only he could bring her good nature into contrast by testimony that tended to show her violent, abusive, uncertain in her motives and confused in her actions at those moments when she was alleged to have been drinking. There was no abatement of her ordeal to-day, and as the burden of iteration grew, she shrank visibly, smiled broadly or shook her head in amused denial.

Only once was there a break in the procession of footmen, butlers, chauffeurs, maids, waiters and bellboys on whose testimony it is sought to prove Mrs. Gould an inebriate; that was when Mr. Nicoll called Melville E. Chapman, a broker, who was a guest of the Goulds on their yacht on several cruises of the year 1905. Several times, he testified, he had seen Mrs. Gould drunk, and he described also several alleged outbreaks, with emphasis on the overbearing manner of the wife and the efforts of the husband to soothe and conciliate her.

"BLACKMAIL," SAYS NICOLL.

In the effort to discredit this witness, Mr. Shearn drew the word "blackmail" from Mr. Nicoll, and became so much agitated at this application to his own conduct of the case that for some moments he was unable to continue his cross-examination. The court ruled the use of the word offensive, and Mr. Nicoll apologized for introducing it, but did not retract it. On the contrary, he reiterated that he could prove it. Justice Dowling wished the incident closed, and it was considered so before Nicoll had an opportunity to make good his assertion.

It is probable that the case will continue for another week or ten days.

Andrew Frederickson, who was employed as night watchman at Castle Gould from September to December, 1906, was the first witness called to-day. He testified that he saw Mrs. Gould under the influence of liquor on November 7th, 1906.

"It was in the evening, and I was making the rounds of the house," said the witness, "I noticed a fire in the kitchen garden, and I went in that direction. I went up to her and found it was Mrs. Gould. She said something, but I did not understand it. I went in to the kitchen garden and found the straw fire in three places.

"While I was putting out the fire I heard low cries in the kitchen and went in and found Mrs. Gould there. Her face was flushed and she talked rapidly and appeared to be under the influence of some intoxicants."

The witness said he saw Mrs. Gould again the same night and that she was intoxicated then, in his opinion.

DRUNK ON THE YACHT.

Edward Bechtold, who was in charge of the wines and liquors aboard Mr. Gould's yacht Niagara in December, 1905, when the Goulds were cruising with a party of friends, testified that he saw Mrs. Gould intoxicated several times during the cruise.

After a dinner at Kingston, at which Mrs. Gould drank wine, the witness noted her as she was going to her stateroom to retire, he said.

"She stopped in the music-room and took hold of a chair to steady herself," the witness said, "and she had to take a long breath before she could go on."

"Now, you never heard Mrs. Gould curse or swear on that trip, did you?" asked Lawyer Shearn, on cross-examination.

"Oh, yes, I did," said the witness. One night at quarantine, he said, he heard her swearing. On another night when he was in the kitchen, Mrs. Gould started to open the kitchen door, mistaking it, the witness thought, for her stateroom door, which was a short distance beyond.

"She blushed and turned about and walked unsteadily toward her stateroom, and I followed her, thinking she wanted something," said the witness.

Mr. Nicoll called Charles T. Dodge, a carpenter, who said he worked at the Gould estate for eight months in 1902. He testified that he saw Mrs. Gould on one occasion when he thought she was intoxicated.

BROKER ON THE STAND.

Melville E. Chapman, a broker, who had been a guest of Mr. and Mrs. Gould on the yacht Niagara on several trips in 1905, testified that Mrs. Gould was frequently under the influence of intoxicants and was very loud and abusive in her language to the servants at those times. The witness said that during a cruise to the West Indies, he remembered several occasions when Mrs. Gould had been drinking and became dissatisfied with everybody and everything, and would become greatly excited and say that she intended to run the boat, and that no one should take orders from anyone but herself. The witness described two such outbreaks, one in Santiago harbor and the other in Havana harbor.

"What did Mr. Gould do and say on those occasions?" asked Mr. Nicoll. "He invariably tried to soothe and calm her and pass the incident off pleasantly," replied the witness.

reced the depositions of a bellboy, James Clark, of the Hotel Carroll, in Lynchburg, Va., where Dustin Farnum, the actor, was staying in November, 1906, at which time, it is alleged, Mrs. Gould stayed two or three days at the hotel on her way to Blue Gap farm. The deposition said Clark saw Mrs. Gould in the reception room waiting for Mr. Farnum on Nov. 19, and after Mr. Farnum came they went up to Mrs. Gould's rooms.

On two occasions that day he was called to Mrs. Gould's rooms, the bellboy said, and each time saw Mrs. Gould and Mr. Farnum alone in her room. They were in the outside room, which was really a bedroom, with a bed in it, but which Mrs. Gould used as a reception room. Mrs. Gould talked with him each time with the door partly closed, he said. He did not see them together in the public dining room or about the hotel. Mr. Farnum changed his room and obtained one on the floor above, directly over Mrs. Gould's rooms, according to the witness.

Mrs. Gould's counsel read into the record the cross-examination of Clark, in which he told of coming to New York and seeing Mr. Watson, of counsel for the defendant, and talking over the testimony which he was to give. The boy said he went to various places of amusement and had a good time while in New York, on the expense money allowed him by Mr. Watson. He said he had not received or been promised any money for testifying, except his expense and pay for his loss of time in his position.

Mr. Watson, of counsel for defence, read the deposition of a waiter at the Carroll Hotel, who testified that he served supper for Mrs. Gould and Farnum in her rooms at the hotel on Nov. 18, 1906. The boy said he left Farnum and Mrs. Gould in the room after he had cleared away the dishes.

The following morning he witness was called to Mrs. Gould's rooms and she ordered breakfast for two. She stood in the doorway and read the bill of fare, and he saw her but a small part of the room. He noticed that a door leading into another room of the suite was closed. He served supper for Farnum and Mrs. Gould in her rooms that night again. She left some time that night.

WHAT WOULD THE COLONIES DO? (New York Mail.)

"What would the United States do, if England were attacked by superior force?" is a question that has been asked on the other side. There is a question nearer home which should be asked, and answered first. What would the self-governing British colonies do?

They are tendering Dreadnoughts to the imperial fleet, and when the Boer war came on they voted money and sent troops to South Africa against a foe out of the water and with no means of retaliating upon them. This, however, established no precedent for such a collision as that about which conjecture now ranges.

SCHOOL BOOKS AND WHISKEY. (Moncton Transcript.)

A Tory contemporary, referring to that school book vendor in York county who had been guilty of illegally selling liquor, contends that the Hazen Government cancelled his appointment as soon as the facts became known. The facts were known long before the vendition was cancelled. In fact, it was only after the matter had been taken up in the Legislature by the Liberal Opposition that the Government decided to take any action.

WELLAND CANAL.

MUNICIPALITIES AND BOARDS OF TRADE WANT IT DEEPENED

Permanent Organization Will Be Formed to Press the Matter on Dominion Government—Initial Meeting Held in Toronto.

Toronto, June 18.—That a permanent organization of the municipalities, Board of Trade and other public bodies be formed to urge on the Dominion Government the deepening of the Welland Canal at once, and that a joint deputation from the permanent organization wait on the Government at a suitable time to be arranged; that Mr. Joseph E. Thompson, Commissioner of Industries, Toronto, be appointed Secretary of the organization, and that the organization be known as the Great Lakes and St. Lawrence Navigation Improvement Association. This is the text of a resolution passed at a meeting held in the City Hall yesterday, with Ald. T. L. Church of this city in the chair, and representatives of Boards of Trade of Toronto, Hamilton, Kingston and St. Catharines, and of the Dominion Marine Association, Toronto Harbor Commissioners, and Canadian Manufacturers' Association, as well as members of the Toronto City Council, present.

It was agreed that the various bodies in question should select one representative each, and these representatives should meet and organize and formulate a plan of procedure.

The consensus of opinion as expressed at the meeting was strongly in favor of deepening the Welland Canal, and opposed to the projected Georgian Bay Canal. It was claimed that the improvement of the Welland Canal would mean much greater facilities for transporting grain from the west to the east, and instead of the cost of carrying grain from Du-

luth to Montreal being six cents per bushel, as at present, it could be carried for three and a half cents by means of large vessels and barges. It was prophesied that in ten years the products of the west would be double what they are now.

It was stated that the marine interests had not been looked after by the Government as well as the railway interests had been, and that if the St. Lawrence system were enlarged, the deepening of the Welland Canal being involved in this, of course, Canada would then be in a good position to compete with the United States in the carrying trade. One of the Hamilton representatives stated that if the Georgian Bay Canal were built Hamilton might as well be 150 miles inland, and Toronto would be similarly affected.

Resolutions from the Toronto Board of Trade and the grain section of the Dominion Marine Association in favor of the deepening of the Welland Canal were read. These urged that the matter be laid before the Dominion Government.

Following were the representatives present: Mayor Campbell, Ald. W. H. Merritt, St. Catharines; Mrs. Thomas Conlon and Mr. S. W. Secord, St. Catharines Board of Trade; Mr. H. W. CAN DO IT. Railway Commission Controls Through Freight Rates.
Effects Railway Companies Carrying on International Traffic.
(Ottawa, Ont., June 18.—The Railway Commission has given judgment on the question of its jurisdiction in the matter of compelling railway companies carrying on international traffic to file with the commission through freight tariffs to or from Canadian points. The board holds that under the amendments to the Railway Act passed last session it has the right to control rates charged on such traffic. The ruling will affect the international railroads running through Ontario. The question arose in connection with the application of the Dawson Board of Trade for an order of the board compelling a reduction of rates on the White Pass & Yukon Railway, over which practically all the Yukon traffic must pass. The company held that the board had no jurisdiction over freight tariff outside actual Canadian territory. By the judgment handed out this morning the board orders subsidiary companies in co-operation with the White Pass & Yukon Railway, carrying through traffic to file rates with the commission and become a party to co-operation of the Board of Trade for a reduction of rates. The board will deal later with the question of reducing rates, but it is probable that a considerable reduction will be ordered.

SPORTING NEWS

IN MEMORY OF GEORGE SILER.
A few days ago George Siler, the famous referee and sporting writer, was dead one year, and Hugh Fullerton, one of the best known sporting writers in America, and an old pal of the dead referee, sent himself down on the anniversary of Siler's death and wrote the following bit of verse: "George Siler died a year ago to-day, full of years and all the honors that come to a fair man and fill the life of a sportsman. To call a man a sportsman a year after he is dead amounts to canonization. The world has been given a year's chance to fill his place and the world has not made good. The further we go away from it, the bigger the void will seem. "A man whom I knew, and a clergyman, too, who guarded his flock without thanks. Once took up his pencil a tribute to pay to a pal that he knew in the ranks, and here's what he said, if my memory serves (and I'm not banking much on the same). The words may take wings, but the thought that remains, is ninety per cent of the game. "I have listened to all of the speeches they speak and all of the sermons they preach: They are building up monuments as high as the sky to lift a few souls out of reach. But I, I will pass from this age of renown, this anthill commotion and strife. From the place where the bronzes and marbles look down with their fast-frozen gestures of life. Out, out to the place where he lives beneath the shade of the pitying cypress and pine. Your man is the man of the sword and the plume, but the man with the musket is mine. "It may be a queer little trick of the mind that calls back the schoolboy refrain to turn out for 91st; but I knew it apply to a pal that I knew that lived and went out with- out stain. This man was all man, and he acted his part, and he lived for all time, not a day. He would not have us say what he meant to us all, but we're lonesome since he went away."

The Highfield team was composed of: Nordheimer, Gibson, Marshall, Mallock, Hope, Higgins, Washington, Turner, Ferrer, Scott and Mills. There was a good attendance of ladies at the game.

CITY LEAGUE GAMES TO-MORROW.
In the inter-city baseball series the two city teams, those old-time rivals, Pleasure Club and Patrick, meet to-morrow at Britannia Park. Both teams are bent on winning, the St. Pats, to hold their lead in the league and also to continue their magnificent record for straight victories. The West End, however, as McAvain has been doing well since the season opened and has been seemingly hard to hit, St. Pats feel almost certain that they will get away with the game, which will be called at 3 o'clock sharp. The teams will be: St. Patricks—White 2b, Beattie 3b, Smith If, MacDonald Jr, Brennan c, D. MacLeod cf, A. MacLeod 1b, Padden ss, McLevin p. In case of necessity Smith will be put in the box and Moran will go to left field. W. E. P. C.—Howard 3b, Hackbusch 2b, Carey cf, Southon p, Pasel 1b, Memory c, Gage rf, Buscombe ss, Hennessy If.

IN MEMORY OF GEORGE SILER.
A few days ago George Siler, the famous referee and sporting writer, was dead one year, and Hugh Fullerton, one of the best known sporting writers in America, and an old pal of the dead referee, sent himself down on the anniversary of Siler's death and wrote the following bit of verse: "George Siler died a year ago to-day, full of years and all the honors that come to a fair man and fill the life of a sportsman. To call a man a sportsman a year after he is dead amounts to canonization. The world has been given a year's chance to fill his place and the world has not made good. The further we go away from it, the bigger the void will seem. "A man whom I knew, and a clergyman, too, who guarded his flock without thanks. Once took up his pencil a tribute to pay to a pal that he knew in the ranks, and here's what he said, if my memory serves (and I'm not banking much on the same). The words may take wings, but the thought that remains, is ninety per cent of the game. "I have listened to all of the speeches they speak and all of the sermons they preach: They are building up monuments as high as the sky to lift a few souls out of reach. But I, I will pass from this age of renown, this anthill commotion and strife. From the place where the bronzes and marbles look down with their fast-frozen gestures of life. Out, out to the place where he lives beneath the shade of the pitying cypress and pine. Your man is the man of the sword and the plume, but the man with the musket is mine. "It may be a queer little trick of the mind that calls back the schoolboy refrain to turn out for 91st; but I knew it apply to a pal that I knew that lived and went out with- out stain. This man was all man, and he acted his part, and he lived for all time, not a day. He would not have us say what he meant to us all, but we're lonesome since he went away."

SCRAPS OF SPORT
Toronto, June 18.—Exhibitors are reminded that entries for the Toronto Kennel Club show, to be held July 1, close on Friday, June 18, with the secretary, 184 John street.

Manager Querrie, of the Tecumseh, was notified yesterday from Ottawa that Tom O'Connell, of Montreal, and Lionel Yorke, of Vancouver, had been appointed officials for the Minto Cup games. Mox Schmidt, the "flying Dutchman," is entered in the heavyweight wrestling class at the amateur tourney at Scarborough to-morrow. In view of that he decided to say nothing for publication regarding Conkle's challenge.

The 91st soccer team will meet the St. Luke's at Norton Park to-morrow. Kick off at 4:30. The following players are requested to turn out for 91st: Burt J. Lockhart, A. Lockhart, Armstrong, Lloyd, Ralston, Hunter, Weir, Richards, Right, Adamson, Enrig, Newlands, Griffin, Laurence, Vasey, Hamilton, Johnston.

WESTERN VANDERBILT AUTO RACE TO-DAY.

Crown Point, Ind., June 18.—The first of the "Western Vanderbilt" automobile road races was run to-day in perfect June weather and over a track as smooth as time, money and men could make it. Withdrawal of the Fords yesterday was followed to-day by that of "Arty" Grenier's Renault, owing to a broken transmission. To-day's race was over ten laps, approximately 23.6 miles, or a total distance of 232.74 miles for the Indiana trophy. The specifications limited entrants to light cars. Practically all the best drivers of the country appeared in to-day's race, the entrants being as follows: 1.—Corbin, A. J. Masonville. 2.—Buick, Robert Burman. 3.—Marion, Chas. Stutz. 4.—(Withdrawn). 5.—Chalmers, Detroit, Wm. Knipper. 6.—Marion, A. Mosen. 7.—Locomobile, J. W. Florida. 8.—Buick, Geo. Chevrolet. 9.—Falcar, W. H. Pearce. 10.—Locomobile, Geo. Robertson. 11.—Moon, Philip Wells. 12.—Buick, Lewis Strang. 13.—Falcar, John Ruohi. 14.—Stoddard-Dayton, Wm. Smith. 15.—Chalmers-Detroit, Al. Poole. 16.—Stoddard-Dayton, Wright. 17.—Chalmers-Detroit, J. Malson. Leaving the grand stand, the marshes flashed away over a straight-away stretch of 1.4 miles, where a sharp turn brought them into one of the principal residential streets of Crown Point, for a

spurt of 7 miles. At the end of this they turned the northwest for an irregular four-mile run to Cedar Lake. On this leg there are three sharp corners and three easy ones, including the picturesque "S." At Cedar Lake there begins a straightaway of 3.7 miles. The road is rolling, but the grade is gradually descending all the way to Lowell. At Lowell, after passing under a viaduct, the road takes a sharp turn to the east. Half a mile out it turns sharp around a cemetery and then is straightaway for three miles. Turning north again, there is a straightaway of 7.1 miles, which brings the cars past the grand stand.

The immense grand stand began to fill early and at 6 o'clock dashes of color could be seen where women had already taken their places. At the hour of the start the stand was filled to its capacity and throughout the countryside there were hastily erected seats at prominent locations taken up by hundreds of spectators.

Corbin No. 1 got away at 9 o'clock. Burgan started one minute later, and was followed by Stult. Owing to the withdrawal of the Ford entry, a two-minute interval elapsed before Nipper was sent away in the Chalmers-Detroit. Mosen, Florida, Chevrolet, Pearce, Robertson, Wells followed a minute or so of each other. The Renault being withdrawn, there was another two-minute interval, and then Strang, Rueli, Wiseman, Poole, Wright and Matson were on their way.

Gossip and Comment

The question arises why did not Jeffries realize his possibilities until the negro man became titular champion? Johnson has been the indirect cause for Jeffries' swarming upon some \$60,000 which the Los Angeles aids dealer otherwise never would have acquired.

Our old bicycle friend, Hal Donly, of Simcoe, is evidently getting up in the world. Yesterday he played at the golf links on the mountain side in the Simcoe-Hamilton match.

The possibilities of fatalities in the "western Vanderbilt" automobile race, we are informed, have been minimized almost to the point of extinction. Rather disconcerting, is it not?

There seems to be a good lot of harness horses on the Canadian circuit this year.

Joe Walcott has sued a railroad company for \$100,000, alleging in his bill that a flat-chested, anaemic brakeman on a passenger train had slapped and otherwise mistreated him.

And this is the same "Barbados Terror" who fought some of the most grueling battles in the history of prize fighting. Slapped by a brakeman on a passenger train and seeking redress through the courts! Shades of Peter Jackson, George Dixon and other deceased Sene-gambian scrappers, but what is the colored brother coming to? Time was when there were few white men who would have slapped Walcott any more than they would have attempted to put a thirsty water moccasin. The one might appear to be doing a dive in the dust in these degenerate days.

If Jeffries and Johnson said all those cutting things about ordinary citizens they'd have been killed long ago.

Jim Jeffries says in six weeks he'll be ready to talk fight. Be ready to talk—well, wouldn't that paralyze you?

"There is very little heavy betting on the English racetracks," says Allan Pinkerton, who has just returned to New York from a tour round the world.

"A man with a £10 note can make nearly every bookmaker rub or refuse the wager. There is no betting ring, and the chasers are allowed to conduct business in the open air. They stand on little wooden blocks, so that their customers can see them, and wear all sorts of fantastic costumes. I saw the Derby run at Epsom, at least I saw the finish of the race, because it was impossible to get a view of it during the early stages, with the rain falling steadily in a foggy atmosphere.

"Sir Martin should never have been the favorite. He had not been in England six months, was trained under new methods and ran over the most difficult course for the first time in his career. But the Americans in England were carried away by sentiment, and backed him heavily, regardless of these conditions. Everybody was glad that the King's horse won the Derby.

"The King was a happy man. I can assure you, and it was an odd sight when, Englishmen of all classes crowded around him after the race, shaking him by the hand and patting him on the back. Racing is a great institution in both England and France, as well as in other European countries. It is purely a sport, and people over there cannot understand why the turf is not allowed to thrive in America."

London Reference—What followed was really almost best of all, the sight of the King marching off through the enclosure on the course to lead the colts in, trusting to the good feelings of the myriads who thronged the track not to take advantage of the situation. There is no other country in the world, I suppose, where anything resembling this could have happened.

Buffalo Express—Bowling on the green is one of the most fascinating and enjoyable of outdoor sports. The Meadow Club has the distinction of being the first in Buffalo to introduce to public notice this game, which has so many admirers in other countries and sections of the United States. In Great Britain and Canada, during the summer months, bowling on the green takes the place of curling, which, as everyone knows, is a grand winter sport.

Why it has so long remained unknown in Buffalo is hard to determine, but it is safe to predict that bowling on the green will become quite as popular as golf or tennis now that it has been introduced.

BIG RELAY RACE TO-MORROW.

There is unusual interest in the bay relay race this year, as both the Central Harriers and E. E. Harriers are entering a team, and as the E. E. has Jack Smith, Small and several other good ones it should prove a very interesting event. The Central Harriers have selected the best men belonging to the club by holding a trial race. The round-the-bay course has been divided into ten distances, and the following Central boys will run from these places:

Herald to E. E. Y. M. C. A.—F. Crocker.
E. E. Y. M. C. A. to Jockey Club—E. Smith.
Jockey Club to five-mile post—W. Kennedy.
Five-mile post to Dynes' Hotel—A. Oliver.
Dynes' Hotel to canal—H. McLaughlin.
Canal to Grant House—C. Burns.
Grant House to stone road junction—E. Barzelay.
Stone road junction to fifteen-mile post—W. Smith.
Fifteen-mile post to top of Valley Inn hill—J. Maas.
Top of Valley Inn hill to Herald office—A. Wilson.

The race will start promptly at 3 o'clock to-morrow afternoon at the corner of King and James streets.

FOR HAMILTON DERBY

A Dozen of the Good Ones Are Expected.

Stables at H.J.C. Track Are Full.

Walker's Centre Shot Claimed Yesterday

It is expected that fully a dozen thoroughbreds will start in the Hamilton Derby, which will be run next Tuesday, the opening day of the Hamilton Jockey Club's spring meeting, and the race will certainly be a worthy feature in the fine card. The most probable starters are:

Jack Parker, Piute, Donald Macdonald, Fitzherbert, Michael Angelo, Guy Fisher, Direct, Aronack, Woolwinder, Great Heavens, Detective, Lee Rose, Steele, Warfield, Plate Glass and Ceremonious.

The Jockey Club has made quite a number of improvements at the track this season, which will undoubtedly be much appreciated by the public. A new feature introduced is the setting aside of a portion of the grand stand for reserved seats between the members and the general public. These seats can be secured in advance either at Mack's drug store or the Jockey Club office, Court House building, up to 1 o'clock each day.

Yesterday Myron McHenry, the old trotting horseman and noted reusman, arrived at the track with ten head, including Melange, Bitter Hand, Lanigan, Almena, Elder, Peter Carney, Annie Bryson and Salado. McHenry was near the top in the list of winners at the recent meeting in Houston, Texas, and his jockey, Stewart Flynn, was second in the jockeys' honor roll. Flynn came along with Mr. McHenry and some relatives. The party are registered at the Stock Yards Hotel.

Arrangements have been made for a barber shop at the track during the race. It will be in charge of Henry Woods, the King street tonsorial artist. There will be more gallopers than ever before, and already thoroughbreds are quartered in every available stable within a radius of a mile of the grounds.

AT BLUE BONNETS YESTERDAY.
Montreal, June 18.—A good-sized crowd witnessed the races yesterday, in spite of the inclement weather. Just before the first race rain began to fall, and continued during the afternoon. The track was good for the first two races, but muddy for the balance of the card.

The opening race, for Canadian-owned horses, was won by Hon. Adam Beck's good colt, Jack Parker. The winner was much the best, and won handily from Glimmer. Purslane was always outrun, and in poor form.

The Jacques Cartier Stakes resulted in an easy victory for William Walker's Sain mare Centre Shot, and incidentally the result led to a change in ownership of the mare. The race had selling conditions and Centre Shot was entered for \$1,600. After her victory James Gormley, former owner of Jeannette M., boosted her to \$2,000, and when he stopped, L. C. Shobe, owner of Cloisteress, took up the bidding, and carried the mare up to \$2,500, at which figure she was knocked down to him. Centre Shot started four times at the meeting and has been returned a winner on each occasion. She is the holder of the world's record for a mile over a circular track and can run in any sort of going. Walker paid several thousand dollars for her two years ago at Latham. She developed into a bleeder, and it was for this reason alone that Walker let her go. Bleeders at some tracks are barred, and her former owner was afraid that she would develop this ailment again.

The result of the steeplechase proved something of a surprise, the winner turning up in Pagan Bay, who made his field look like a lot of hacks. Pagan Bay led from start to finish and won in a canter. In his previous effort a few days back this horse was unable to raise a gallop, and his improvement to-day was as startling as it was sudden.

Autumn Girl, recently purchased by Messrs. Carruthers & Shields, won at the first time of asking for her new owners. She outclassed her field, and taking an easy lead when ready, won under wraps at the finish.

The first four races were won by the favorites, all of which were at odds-on in the betting. Jockey Reid had two

winning mounts, Joe Gaitens and Autumn Girl.

Goes Fast will be a starter in the Blue Bonnets Handicap on Saturday. Jockey McIntyre will have the mount on Direct in the Hamilton Derby. D. McCarthy has been engaged to ride Desperado in the same event.

Jockey Musgrave will ride Woolwinder in this race.

The five-year-old Toddington stallion, Elliott, has been presented to the Canadian Bureau of Breeding by J. H. Madigan. The horse will be turned over to the bureau some time during the summer and will be sent to Norfolk County, Ontario, Madigan's old home.

Following is the summary:
First race—\$400 added; for three-year-olds and up; one mile—Jack Parker, 110 (Walsh), 3 to 10, won by a length; Glimmer, 118 (McCarthy), 6 to 1; Purslane, 123 (Musgrave), 8 to 1; 3. Time, 1:42 2-5. Only three starters.

TORONTO ATHLETES MUST BEWARE.
Toronto, June 18.—Athletes participating in games in the city of Toronto will run foul of the police if they try to do any of the things they are forbidden to do. The Police Commissioners had a few words to say yesterday about it.

"If a player strikes another deliberately on the field he should be arrested," said Mayor Oliver yesterday. Judge Winchester agreed to this.

"The police should act the same on a field of sports as they do on the streets," he said.

Mayor Oliver was at Scarborough Beach on Saturday, and saw Hyland, of Shamrocks, hit Braden, of Toronto, a terrible blow with his stick on the back of the head, putting the blue-shirted boy out of the game. It was so in the Philadelphia case, when the Montreal man disfigured Charlie Querrie's face with a cruel blow when the ball wasn't anywhere near them.

SWIMMING CLUB QUARTERS.

The Hamilton Swimming Club has been successful in securing suitable summer quarters at Rock Bay, where diving boards, chutes and dressing rooms will be erected. Special attention will be given to business men's classes and beginners, the shore, having a gradual slope, being admirably adapted for this purpose.

Through the interest and kindness of Woodman Bros., proprietors of the Hamilton Ferry Company, the club has been presented with five hundred privilege tickets, which will materially assist the cause and further stimulate swimming in this city.

Great activity is being shown by the members in view of the forthcoming swimming carnival in August. His Honor Lieut. Governor Gibson has kindly accepted the nomination of Patron to the club, the Hon. Col. J. S. Hendrie, C. V. O., being President. This means that swimming is rapidly gaining ground.

SIMCOE GOLFERS LOST YESTERDAY.

The Simcoe golf team played a match with the Hamilton golf team on the local links yesterday, and the Hamilton team won by 3 points. The following is the score:

FOR THE AMATEURS.

Following is the schedule in the various amateur leagues for to-morrow:

At Maple Leaf Park, City League—At 2, Broadviews vs. Alerts. At 4, Keystones vs. Baysides.

Junior East End League—Soundrels vs. Blue Labels. Rivals vs. Alerts II. Church League—Ascensions vs. St. Andrew's. Westminster vs. Kensington.

The most important amateur baseball games played to-morrow will be at Maple Leaf Park. The big game of the day will be between the Broadviews and Alerts, to decide which is entitled to the leading honors. Both teams having been playing fast ball, and are bound to put up an exhibition that should prove to be something out of the ordinary. Another feature will be the meeting of the two great twirlers for the first time—Lucas and Bolton. The teams having a large number of followers, some warm arguments will take place before the game is over. Jack Lavis, the league umpire, will handle the indicator, and can be depended upon to make the contestants play clean ball. The diamonds are now in fine condition, and, with the grand stands completely packed, should be comfortable. The second game, between the Baysides and Keystones, will be interesting. Although the Baysides occupy bottom position, the article of ball they have been dishing up is equal to any in the league.

The Church League games to-morrow should prove worth while. The St. Andrew's will meet the Ascensions in the first game. Manager "Tony" Bleakly has been out scouting all over town looking for promising ball players, and with reinforcements for the Saints, the Ascensions will be minus one or two of their best players, including Reg. Blatherwick, who will play for the First Church. Westminster and First Methodist are scheduled for the second game.

The Granites of the East End League, who dropped out, will be replaced by the Soundrels, an aggregation representing Crown Point. For their first game they will try conclusions with Blue Labels II.

The CigarMakers' Union has supplied the Blue Labels with a new outfit.

Bulls, Fell will likely be in second garden for St. Andrew's to-morrow.

The Central Indoor League has been reorganized.

"Duck" Robins will catch for the Night Owls.

Fourteen Innings Played at Providence Yesterday.

At Providence—Providence forfeited yesterday's game to Rochester, 9 to 0, because the Grays' manager lost his head in the fourteenth. Rochester tied the score in the eighth. Neither side scored until the fourteenth, when Rochester got two runs over the plate. In the Providence half, with one out, Duffy, though not in the game, took the coaching line. He was ordered away by Umpire Stafford, and after an exchange of words, Duffy was ordered from the field under penalty of forfeiture. At the expiration of two minutes Stafford declared the game forfeited.

After Anderson had gone out, Holly to Gammel, in the second half of the fourteenth, Duffy disputed Stafford's decision, claiming that Anderson was safe. He walked up to the official and called him names. The umpire told him that

The Perfect Type of Man

No two men were ever all alike. When they match at the chest they differ in waist or in length of limb.

Different ways of walking have their effect upon one's carriage. Shoulders never really match. It is impossible to produce clothes which will absolutely fit unless the figure of the wearer is normal, and every man's figure must be specially studied. All properly fitting clothes must possess a corresponding likeness.

Several letters from Bobby Kerr came to the city this morning, the longest one being received by Dr. W. G. Thompson, of the Tigers' Athletic Club, whose colors Kerr will carry in his big races in England next month. The Times sporting editor received a letter from George Anderson, Kerr's faithful trainer. It was written in London on Wednesday, June 18th, and following are extracts from it:

THE WOMEN IN COUNCIL.

Egyptian and Turkish Women to Join in the Work.

Civic Reception to be Delegates at the City Hall.

Lady Aberdeen Talks About Ireland and Its People.

Toronto, June 18.—Fascinating to the extreme was the story that was unfolded by Mrs. Ogilvie Gordon, the honorary corresponding secretary of the International Council of Women, at the meeting yesterday of the Executive Committee of that body. The committee had a long and arduous session, clearing the way for the business of the Council, which will meet for the first time this morning at the university. A large number of tentative resolutions were submitted by the various National Councils to be considered, and a decision arrived at as to whether they should be sent on to the Council or not, but amid the pressure of this business, of a nature on which considerable difference of opinion might arise as to policy, the news received from the various centres formed a cheering intimation.

WOMEN AWAKENING.

From those countries in which there has been established a National Council for some years the reports spoke of nothing but progress; but of far more vital interest were the messages that told of the expansion of the movement in countries where for so long one-half of the population has for centuries been in a condition of absolute subjection. On the previous evening Lady Aberdeen, in her presidential address, mentioned something of the rousing of the women of Turkey, but yesterday the executive had the privilege of hearing the story more directly, through the report of one of their co-workers in that land, Mrs. Bowen, of Constantinople, who, by the way, is a sister of Ahmed Riza, the President of the new Turkish Parliament, that has loomed so large in the eyes of the world of late. Mrs. Bowen wrote, saying that she was hopeful of forming a National Council for the women of Turkey before very long, and the Executive elected Madame Sila Hunan an honorary vice-president, with power to carry Mrs. Bowen's desire into effect. In the course of her interesting letter Mrs. Bowen said: "The broad foundation of the Golden Rule attracts a number of our women, and even if they cannot adopt all the propaganda of the Council they want to commence on that basis."

STRICKEN FINLAND.

From Finland Baroness Gripenberg wrote, saying that the women were prepared to found a Council for that strife-riven country, while from the modernized successor of ancient Egypt the same news came. Mrs. Helen Hopkins, the Council's correspondent in that country, said in her report that the movement was gaining power among the native women. "These native ladies," she proceeded, "do not want yet our education. They want to learn how to order their households, and to be a factor in the family life which, of course, at present does not exist."

The Minister of the Interior for Rus-

sia has as last consented to the formation of a National Council of Women," reported the Countess de Philosoph.

THE PATRONS ELECTED.

The following ladies were elected life patrons of the Council: Mrs. Marie Ekman, Sweden; Froken Lavonius, a daughter of the late Governor of Finland, Stockholm, who, together with her husband, has founded a university at Gothenburg; Mrs. Henry Bovey, chairman of the Montreal Council; Fraulein Helene Lange, Germany, who has been a leader in educational work for girls in that country, and is editor of the magazine Die Frau. As quinquennial patrons the following were also elected: Countess Ruth, Stockholm; Miss Paludan Muller, President of the Danish Council; Miss Krijner, proxy for the President of Hungary; Mrs. Emmeline B. Wells, editor of the Women's Exponent, Salt Lake City; Mrs. Young Gates, founder of the Young Women's Journal, Salt Lake City, and the Hon. Mrs. E. L. Franklin, Mrs. Symes Thompson, Mrs. Veitch, Mrs. Blaikie, Mrs. H. Muff, and Dr. Mary Maddier, for Great Britain and Ireland.

INVITATIONS FOR NEXT MEETING.

Invitations for the holding of the executive meeting and the Quinquennial Council for 1914 were received from France, Norway, Australasia and Italy, and these will be considered in due course by the Council.

CONTEST FOR PRESIDENCY.

As matters stand at present there will be a contest for the office of President. The Countess of Aberdeen has again been nominated and Madame Jules Siegfried, France, is also a candidate. Mrs. Ogilvie Gordon, the present corresponding secretary, has decided to retire from that office, and her place will be taken by Dr. Alice Salomon, Germany. Mrs. Ogilvie Gordon has in the meantime been nominated as one of the three Vice-Presidents, and the other nominees for those positions are Miss Baelde, Netherlands; Lady Edgar Canada; Baroness Gripenberg, Finland; Frau Marianne Hainisch, Austria; Mlle. Monod, France; Mlle. Popelin, Belgium; Frau Charlotte Norrie, Denmark; Mme. Jules Siegfried, France; Countess Rasponi Spalletti, Italy; Mrs. Mary Wood Swift, U. S. A.; Mrs. Garrison Villard, U. S. A.

THE OTHER OFFICERS.

Mrs. Foster Avery, U. S. A., and Dr. Skoglund, Sweden, are the candidates for the office of Honorary Recording Secretary, while Mrs. W. E. Sanford, Hamilton, will again be elected Honorary Treasurer by acclamation. Mrs. May Wright Sewall will also be again re-elected Honorary President.

The candidates for election as Conveners of standing committees are: Finance, Mrs. Willoughby Cummings, Toronto; Press, Mrs. Johanna Naber, Netherlands; Peace, and Arbitration, Mrs. May Wright Sewall, U. S. A.; laws concerning the legal position of women, Mme. d'Abbadie D'Arast, France; Women's Suffrage, Rev. Anna Howard Shaw, U. S. A.; white slave traffic and equal moral standard, Mme. Avril de St. Croix, France. The Conveners for the Education and Public Health Committees have still to be nominated.

FINANCES ARE HEALTHY.

The receipts for the last quinquennial period, the Treasurer's report showed, amounted to \$5,130.59, including a balance brought forward of \$1,193.19. In annual fees there was received \$1,937.76 from the various countries; \$1,388.44 fees of life patrons; \$22.76 from quinquennial patrons; \$170.37 donations; \$82.87 contributions to quinquennial expenses and \$135.18 interest.

The expenditures were \$3,470.18, of which the maintenance of the President's office amounted to \$1,826.03, and the balance organization expenses, leaving a balance in hand of \$1,669.03, and the balance organization expenses, leaving a balance in hand of \$1,669.39.

The Honorary Corresponding Secretary's report, which has already been published, was also received.

PATRIOTISM FIRST.

A world's peace is a desirable thing, but patriotism comes first in the opinion of some of the delegates who are members of the Peace and Arbitration Committee of the International Council. Mrs. May Wright Sewall of Maine, and Honorary President of the National Council, is convenor of the committee, and was responsible for the exclusion of the reporters from yesterday's meeting. However, in the corridors some echoes of the morning's proceedings were heard, and it is certain that the proceedings were not altogether of the character which the idealists desired. The main question was the advisability of petitioning the Government's taking part in the Hague Conference in favor of the submission of all questions of international disputes to arbitration, and the avoidance of the sterner arbitrament of war.

Facts have to be recognized, and this was the attitude taken by some of the delegates from Germany, Austria and Italy. They know too well that Europe is an armed camp, for have not their husbands, sons and brothers all been called to serve their time as conscript soldiers, and when danger to the nation may come from any of her neighbors the delegates of Austria and Germany were doubtful whether their support of the proposals might not be regarded as disloyalty.

MIGHT CHILL YOUNG MEN.

An Italian delegate also questioned whether it might not undermine the patriotism of the young men of her land and make them less willing to spring to arms in defence of their country should the call be made. Generally speaking, however, the delegates were in favor of the petition, but before any decision was arrived at the committee adjourned until Friday.

ATTACKING DISEASE.

"I will speak till Lady Aberdeen comes," said Sir William Thompson yesterday afternoon at the opening of the Ontario Government's tuberculosis exhibit at the physics building. Lady Aberdeen had been announced to open the exhibit, but unfortunately the pressure of business at the executive prevented her attendance, and Sir William had to close his address on the campaign against the scourge of the race without carrying out his promise—so that.

His Honor the Lieutenant-Governor presided, and introduced the speaker, who is physician in ordinary to the Lord Lieutenant of Ireland.

Sir William expressed his pleasure with the exhibit, which contained several features absent from the one which had been in use in Ireland, although that possessed also some points that might be introduced with advantage into the Ontario exhibit. In any case the effort was a commendable one, inasmuch as it must lead to a stirring up of the people and educational development. In Ireland they had found the municipal authorities very lukewarm at first, but the formation of local associations who brought constant pressure to bear had stimulated them to such a degree that the interest taken in the work was now very great.

The most pressing want was to deal with advanced cases. There was often no proper place to send them, and most people preferred to die at home, but in

that case they became a danger to the community. The arrest of the disease was the important function of the sanitarium work, and they must remember that each patient sent home cured became an agent for the spread of valuable information.

The home treatment was largely carried on in connection with dispensaries, and he was glad to learn that there were two in Toronto. They would play a very important part in the campaign in giving help to those whose means were limited.

AHEAD OF EUROPE.

In company with the Countess Aberdeen he had visited a number of cities on this continent, and had been forced to the conclusion that more was being done on this side of the Atlantic than on the other. The death rate bore out that opinion. In Ireland the rate was one in six, while in Toronto it was only about half that.

The reason for this difference he ascribed to the crowding together of the people in tenements, placing the people at a great disadvantage from a hygienic point of view.

Dr. Hodggets, Provincial Medical Health Officer, briefly explained the manner in which the Ontario exhibit was utilized, and the proceedings terminated with a vote of thanks to Sir William Thompson.

The Medical Women's Alumnae gave a delightful luncheon party yesterday to the medical women delegates attending the quinquennial congress of women. Dr. Rowena Hume and Dr. Augusta Stowe-Gullen received the guests. The table was extremely pretty with a lattice-work of pale pink carnations, and tiny baskets of imitation rose leaves scattered between. Dr. Hume wore black with garniture of cream Irish lace, cream plumed hat; Dr. Gullen wore wedgewood blue rajah silk with corsage draped with lace of the same shade, large white hat. Dr. Anna Shaw sat on Dr. Hume's right, while Mrs. Gillies, her hostess, sat next Dr. Gullen. The toast of "His Majesty the King" was drunk first, with a verse of the national anthem, sung by all standing. "Rulers of Other Nations, then," "The Delegates," responded to by Dr. Anna Shaw, Dr. Tibertius (Germany), Dr. Laurel (Sweden), Dr. Murdoch (England). Others present were Dr. Henderson (Hamilton), Dr. Greig (Australia), Dr. Margaret Gordon, Dr. M. Johnston.

In connection with the election of president, it is interesting to note that the Countess of Aberdeen is the nominee of the councils in the United States, Canada, Germany, Sweden, Great Britain, Ireland, Denmark, Netherlands, Australasia, Italy, Argentina, Switzerland, France, Austria, Hungary, Belgium, Greece and Bulgaria.

Among the councils supporting Mme. Jules Siegfried some are also of Sweden, Netherlands, France, Switzerland, Austria, Norway, Belgium and Bulgaria.

CIVIC RECEPTION TO THE DELEGATES.

The City Hall was a magnificent sight last evening, on the occasion of the reception given by the Mayor of Toronto and Mrs. Oliver in honor of Her Excellency the Countess of Aberdeen and the delegates to the Quinquennial Congress of the International Council of Women, now in session in Toronto. The guests were guarded by the omnipotent guardian of the peace to the left, around the flower pyramid to the dais on which stood His Worship the Mayor and Mrs. Oliver, Her Excellency the Countess of Aberdeen, His Honor the Lieutenant-Governor, attended by Major J. Fraser Macdonald, and a few steps behind was Sir William Thompson, in attendance on Lady Aberdeen. Lady Aberdeen wore a beautiful dress of richest black satin with embroidery down

the front and round the train, with heavy embroidery in flower and bow-knot design of dull silver and gold; the corsage also had the front covered with the same embroidery, and light draping of Brussels lace; a low pointed tiara of diamonds was worn in her hair, some beautiful pearls, and diamond necklet, with long pear-shaped pearl earrings, also three orders were on the left side of the corsage and a splendid cluster of pale pink roses gave a charming finish to this beautiful dress. Mrs. Oliver wore a dress of a lovely shade of moonlight green, with rich embroidery in the same color on the square-cut bodice; pearl ornaments, and carried a big bouquet of roses. The Mayor and Mrs. Oliver and Lady Aberdeen shook hands with everyone as they passed, many of the delegates being greeted with special warmth by their President. The foreign ladies were distinguished by the grace of their courtseys, and almost all wore the empire style of dress. Mrs. Mortimer and Miss Clark, who wore white satin and turquoise ornaments; Lady-Whitney, in dull green velvet and pearls; Miss Nora Thompson, in pale gold satin, and Lady Thompson, in rich black, were a few of those who lingered in the reception room. Hon. Mrs. Franklin, England, wore smoke grey chiffon and satin; Mrs. Palmer, white satin and lace; Lady Taylor, black lace and satin; Mrs. Cummings was all in black.

THE INTERNATIONAL PRESIDENT TELLS HOW IRELAND IS GOING AHEAD.

From a campaign against tuberculosis in Ireland to a rally in Canada of women campaigners for right against wrong of all sorts, her Excellency Lady Aberdeen, President of the International Council of Women, has come, incidentally casting into the balance her personal influence, experience and executive ability. After an exceedingly busy day yesterday, including an all-day committee and visits to several institutions, her Excellency, arriving at Government House only toward 7 o'clock, nevertheless graciously found time to give a few minutes in talking to a representative.

TUBERCULOSIS IN IRELAND.

"The death rate in Ireland," said her Excellency, "is about 65,000, and of that about 13,500 deaths are from tuberculosis—far more than from any other disease. Of course, the trouble is worse where there is poor housing and poor food, but all classes are affected. Sixty years ago Ireland was really in a better condition in regard to tuberculosis than either England or Scotland, but during that time a great deal has been done in the two last named countries. No, Ireland cannot be said to be much worse than it was at that time, but the death rate from this cause has not gone down perceptibly. We think, though, that the tide is turning. During the same period there has been so much emigration that Ireland has been drained in a double way."

In regard to the means used in Ireland, her Excellency said these were very much the same as were being adopted here—the building of sanitariums and educating the people by literature and in other ways.

A TRAVELLING CARAVAN.

"We have a travelling exhibition, which is always accompanied by lecturers. This has been going about for the last eighteen months or two. There is no doubt people are everywhere in Ireland. Where it could not go we have had a travelling caravan containing a partial exhibit, accompanied by a medical lecturer, a lady giving cooking demonstrations, the dis-

tribution of literature, a gramophone, a magic lantern and so on."

Her Excellency was asked if the figures began to show any results for the work that had been done.

"This year we are very pleased that the death rate is a decimal point down—very little, of course, but it shows hope. It may be beginning to tell. There is no doubt people are everywhere grasping the situation, that it is not an incurable disease, not hereditary, and that it is preventable. All parties, creeds, and classes are just determined that they are going to get rid of it."

CO-OPERATION AMONGST FARMERS.

Turning to the Irish industries in which her Excellency, as the wife of the Lord-Lieutenant, has always taken such keen and practical interest, Lady Aberdeen said that the country was beginning to go ahead very nicely, more especially in agricultural industries, upon which Ireland must always depend.

"There is a great deal of co-operation amongst the farmers; that is due to a great degree to Sir Horace Plunkett and those working with him. The Department of Agriculture, too, is taking up the matter to quite an extent. There is a great movement towards technical education in all ways. Take the matter of poultry alone. The last three years the increase of Ireland's exports of eggs and poultry has been £250,000 sterling each of the years; that is £750,000 increase in the three years. That little fact tells us how that industry has gone ahead. Imports and exports are both increasing."

INCREASE IN LACE AND CROCHET.

As to the lace and crochet of the women, her Excellency said that these industries had done a great deal for the districts where the people could do nothing else, and where they were so far away from the centres and their work must be what could go by parcel post.

"The export of lace and crochet from Ireland has increased some eight times in the last twenty years. There is a very well organized wholesale lace depot in Dublin, as well as wholesale depots in Paris and London. In Paris there is a great market, because so many Americans go there."

The developing of the manufacture of carpets was also spoken of as one of the latter assets of Irish industry. There was a considerable amount of this carpet-making done in Donegal, where also they still kept up the white embroidery. Small carpet factories were started in certain places by the Congested District Board. The carpets made were quite distinctive in colors and designs and were so thick that they had the reputation of never wearing out.

TRADE EXPANDING.

The Figures For May Touch High Water Mark.

Ottawa, June 17.—Trade figures for the month of May show most gratifying increases in both imports and exports, and indicate that the trade of the Dominion has practically recovered from the depression which set in during the fall of 1907, and is now almost equal in volume to the high record set two years ago. Imports for the month totalled \$28,600,076, an increase of \$3,183,347 over May of last year. For the first two months of the fiscal year the imports totalled \$50,592,549, an increase of \$7,792,625 over the corresponding period of last year. The customs revenue for the month shows an increase of \$670,000. Exports of domestic produce for the month totalled \$15,810,207, an increase of nearly two millions. For April and May the exports totalled \$27,673,004, an increase of \$2,471,704. The total trade last month, including coin and bullion, amounted to \$44,911,726, an increase of \$7,029,450. For the first two months of the fiscal year the increase in the total trade has been \$11,457,926.

Any further operations carried on by the directors or others associated with the defunct club are at their personal risk and responsibility.

TWO MEN ARRESTED WHILE BOARDING TRAIN AT STRATFORD.

Stratford, Ont., June 17.—While attempting to board the early morning passenger train for the east, Charles Williams, of Toronto, and James Smith, of this city, were arrested by the local police at 4:30 a. m. to-day. The police believe they have the crackmen who attempted to blow up the safe in the G. T. R. ticket office here on Monday evening, June 13. They are also charged with many minor thefts that have taken place of late in the country districts of this vicinity. A search revealed two gold watches in the socks of Smith, who was recently released from prison. The pair were remanded to jail pending an investigation.

NEGRO AS A WIDOW.

Shooter of New Jersey Conductor Caught in New York.

Was Dressed in Female Garb When Arrested.

Big Feet Roused Patrolman's Suspicion—He Was Arrested.

New York, June 18.—Walter Owens, a negro, wanted for the shooting of Clarence Kline, a trolley car conductor, near Woodbury, N. J., last Friday night, was arrested in Broadway this morning, dressed in women's clothes, and later confessed his identity as the assailant of Kline.

The attention of a policeman was attracted to the supposed woman as she passed by the size of "her" feet. Inquiries brought replies that only strengthened the policeman's suspicions, and the supposed woman tried to run away. When overtaken Owens put up a desperate fight that left no doubt of his sex, but was landed in a cell less than an hour after his arrival in the city. It was not until several hours after his arrest that the police charged money from his pockets, and the supposed woman's clothing, but telegraphic inquiry in Philadelphia brought reply indicating his identity as the conductor's assailant, and when accused he broke down and confessed all. He said he would make no fight against extradition.

LITTLE WIDOW FIGHTS HARD.

In telling of the arrest Policeman O'Brien said:

"I was on my beat at 3.35 o'clock this morning when a little widow woman passed me. She had a satchel in one hand, and looked all right except for her feet. I was out to kill him no, I asked her to please lift her veil. She didn't pay any attention, so I took a little lift at it myself. Then what do you think? The little negro widow handed out an uppercut that would have done credit to a pugilist and I mixed in close and got a grip. There was a scuffle and a pair of pants got torn up. After it was over the negro slipped the pants off and put them in his grip, because he couldn't walk in the torn remnants, and the black skirt of his disguise is all that he had to cover him when he came to Court this morning.

Owens, when arraigned, told a straight story of his using the revolver and then "flying for his life" from pursuing natives.

"My girl and me had been out to a party," he said, "and we were going back at about 12 o'clock to Mantua, where I had my girl waiting for us. When the car got to Gloucester it stopped and started back. I asked the conductor if that car wasn't going any further and he said it was going back to the barn. I asked him to please stop and let us off, but he kept right on going.

NEVER MEANT TO SHOOT, HE SAYS.

"Now, mind you, I never thought of shooting him. I didn't want to kill no one. I was just waiting for my girl. When she got in the car, she said she was going to the party, and she said she was going back to the barn. I asked her to please stop and let us off, but he kept right on going.

WORE DISGUISE HERE.

Owens said he had been in Philadelphia and Camden some hours, wearing his disguise as a widow here. He took a train for New York. He said he went boldly into the Philadelphia Station and bought his ticket and neither then nor at any other time in Philadelphia had his garb excited any suspicion.

Owens told his tale without showing a sign of emotion until he was asked where he got his widow's weeds. "Oh, I found these," he said.

"You mean," put in a policeman, "that you got them from a little friend who was about to flee out of Camden, and you don't want to get her into trouble by giving her name?"

Owens blubbered at that: "It won't make no trouble for her, will it?"

After telling his story and stating that of his own free will he admitted that he was the man wanted, Owens was locked up in the Tombs Prison to await the arrival of the New Jersey Sheriff.

POWER COMMITTEE TO MEET TO-NIGHT.

(Continued from Page 1.)

In half a million dollars of an expenditure and had the privilege of taking power in the future from another source if it saw fit, they would favor closing a contract and not submitting the Cataract contract to the people again. As an instance of one of the many tangles in which the city may find itself if it looks up with the commission, the people at the end of five years might not see fit to vote the money for a lighting distribution plant. The city would then be in the position of having to take power from the commission for that purpose and having no plant to distribute it with.

As prophesied in the Times some days ago, it looks like Stewart and McLaren for the mayoralty contest next year. If the power question is not settled before then it is almost an assured fact that Mayor McLaren will be opposed by the ex-Mayor. "There is nothing to hinder him from running if he sees fit," said his worship to-day. "The people have the right to say once a year who the Mayor shall be." This was all the Mayor had to say when his attention was drawn to the report credited to Mr. Stewart yesterday that he was being pressed to be a candidate next year.

City Engineer MacCallum gave an emphatic denial this morning to a report that the New Jersey officers have raised three-quarters of an inch. The blocks are only three inches, and it would be rather difficult for them to raise six inches, said the engineer. "As a matter of fact, there is only one spot, near the Hamilton Club, where the blocks have raised three-quarters of an inch. They will likely settle down when the hot sun beats on them for a few days."

The city will start the asphalt work on Barton street the first thing next week. The blocks have been laid between the rails on both the new tracks from Sherman avenue to Sanford avenue.

RE-OPENING.

Impressive Ceremony in Caledonia Next Sunday.

The re-opening services of St. Patrick's Church, Caledonia, will be held next Sunday, 20th inst. High Mass will be celebrated at 10.30 a.m., and vespers will be chanted at 7.30 p. m. At the evening services Very Rev. Dean Mahoney, rector of St. Mary's Cathedral, will bless new stations of the cross and deliver a sermon appropriate to the occasion.

The Church of St. Patrick, Caledonia, has been in the hands of artists and decorators for the past few weeks, and the interior made most beautiful with soft pastel tones of harmonious coloring and gold. The ceiling of the nave, treated in delicate tones of ivory and green, enriched with emblems and monograms in gold, give a very rich and lofty effect. The upper wall or frieze is a deep, rounded arch, with emblems in relief, in a bold relief frame of gold effect. The lower walls are treated in presenting the crucifixion on our Lord. The expressions and whole effect of this life size group is perfectly impressive, and a suitable subject for such a subject. Flanking the chief picture on either side, are painted angels supporting a suitably inscribed scroll. The lower walls are treated in panels, with gold monograms and emblems, while the side altar staves heads are surrounded with floral circular glories terminating from branches over suitably inscribed scrolls, which adds to complete a well balanced color scheme.

The painting of the Crucifixion, of Oneida, in memory of his son Arnold, Mr. Bernard O'Rourke is paying for the decoration of the three altars in white and gold. The Stations of the Cross are donated by fourteen members of the congregation.

Rev. Geo. J. Cleary, a Hamilton young man, is priest of the parish.

44 Years of Success.

To-morrow will be a great day at Treble's two stores, when they celebrate their 44th business birthday with generous offerings in a great day sale. 44 years of successful trading is certainly a great record, and proves conclusively that they must have dealt fairly and squarely in all their dealings, by selling the best goods at lowest prices.

Facts like these discount a ton of arguments, for merit will tell. Don't fail to pay a visit to their two stores to-morrow, and share in the many bargains advertised in this issue.

Fear of Rabies Causes Death of Brooklyn Policeman.

He Dies Several Months After Being Bitten by Mad Dog.

New York, June 17.—Fear that he would die of rabies, while in fact no symptoms of the disease existed, caused the death of Policeman John H. O'Donnell, of Brooklyn, in a sanitarium in Connecticut. While he was on duty in lower Fulton street early on the morning of September 21st last, a watchman in a building in course of repair told O'Donnell his dog had gone mad. O'Donnell volunteered to attend the animal. It was dark inside and the dog leaped on the policeman, who was bitten on the right hand and left thumb. O'Donnell was in the party which finally killed the dog.

When the dog's body was dissected in the Willard Parker Hospital the animal was declared to have rabies. O'Donnell was much downcast and he got leave of absence to go to a sanitarium. On reading of the death from rabies of a man living in Flatbush last fall he became completely unnerved and had to get another leave of absence. He returned to his duty and then worked until May 15th, when it was necessary for him to be relieved again.

O'Donnell complained at times of pains in his hands. Specialists declared these pains imaginary. No other symptoms of the disease could be found, and it is the belief of physicians that he worried himself to death.

"I assure Your Majesty," said the Russian Emperor, "that I cherish the sincere and unchanging friendship which exists between our two nations, and I desire to maintain the traditional relations of hearty friendship and mutual trust that always have united our two houses, and the cultivation of which I strongly desire, not merely as a pledge of the good relations of our two countries, but of the general peace."

In reply Emperor William said: "I am rejoiced to see, in this hearty reception, a new and valuable confirmation of our sincere personal friendship. I see in it also fresh confirmation of the traditional relationship of cordial friendship and confidence, which, corresponding to the manifold interests and thoroughly peaceful sentiments of our two countries, exists between our Governments."

GOOD TEMPLARS

Two Hamilton Men Elected Grand Officers Yesterday.

Toronto Man Chief Templar—Work of Extension.

Pembroke, June 17.—The 56th annual session of the Grand Lodge of Ontario, Independent Order of Good Templars, which has been holding a two-day convention at Dougass, closed to-day.

The official reports showed the order to be making satisfactory progress. There were a number of delegates present from Ottawa, Toronto, Kingston, Hamilton and intermediate points, and from as far west as Fort William. Next year's meeting will be held in Kingston, on the third Wednesday in June. It was also decided to set aside one-sixth of the per capita tax to be used in extension work, and the rebate to district lodge was reduced from two cents to one cent per head per quarter.

The following were elected as executive officers: Past Grand Chief Templar, John Joseph, Ottawa; Grand Chief Templar, Joseph H. Day, Toronto; Grand Counsellor, James Armstrong, Kingston; Grand Superintendent of Juvenile Work, Tom R. McNaughton, Hamilton; Grand Secretary, G. L. McRea, Toronto; Grand Treasurer, A. H. Lyle, Hamilton; Grand Vice-Templar, Minnie G. Ross, Douglas.

The tax rate, being fixed at 12 cents per head per quarter, was the same as last year. The report of the committee on political action, whose final report was adopted by the grand lodge, expressed dissatisfaction and regret at the Ontario Government's decision to retain the three-fifths rule of the franchise, but hope that in districts where local opinion failed to carry by the three-fifths majority, but where a reasonable majority voted in favor of a local option measure the Government would allow the vote to be again submitted at the next election.

DROPS BAB YTHREE SIOREYS.

But Child Lands Safely in a Man's Arms.

Cincinnati, O., June 17.—In a fire in a five-story tenement house to-day 100 panic-stricken occupants were saved through more or less spectacular rescue by firemen. Many jumped from the third floor to the roof of a second story building, but no one was seriously hurt. Mrs. Nicholas Berri ran to a third story window overlooking a street, and holding her baby poised for an instant, hugged and kissed it and then dropped the child toward the hundreds of upraised hands. Richard Wheeler, a cattle drover, caught the babe. The mother, seeing her babe safe, smiled and then leaped to the sidewalk, sustaining only slight bruises.

Police Dogs of Great Service In and Outside of Britain

In spite of the efficiency of our police, crime becomes more easy to commit and the criminal finds increasing ease in escaping from justice. Modern conditions of transit and increasing numbers of inhabitants all confined in the comparatively small island in which we live, making identification exceedingly difficult, are two of the many causes for this state of matters. Every means, therefore, by which the policeman can be assisted in his arduous task should be adopted.

Ten years ago I began training dogs to track wounded soldiers on the battlefield. While our own army made no effort to adopt this additional means of saving life in war time, I was thankful that owing to the request of the Dowager Empress of Russia that I should send some of my dogs to the war in Manchuria, I was able to prove that a large amount of valuable life can be saved by making use of the instinct of scent possessed by the dog. More recently I have adapted this instinct to police service, and in so doing have no stone unturned to study the special organization of police dog establishments abroad. I lately visited Belgium, Germany and France, where for some years they have been using dogs to assist the policeman in his work.

Arriving in Brussels I visited, through the courtesy of the Burgomaster, the police dogs at their kennels in the Bois de Cambre. Each dog was in a separate kennel, and was of the Gronendael, or black sheep dog breed. They are all exceedingly savage, and when on duty with the police at night are muzzled. As occasion arises and they are required to pursue a criminal, the muzzles are slipped, when the results are disastrous to the pursued. In my own system of training it has always been my design merely to trace the culprit and leave his punishment to the law; and it was, therefore, surprising to me to find the view taken in Brussels—one which I do not think would be entertained in this country—that the evidence deserves all he gets from the dog! There is this, however, to be noted with regard to the foreign criminal, and more especially those Apaches with which Brussels is haunted—that these gentry all carry firearms, and do not hesitate for an instant to fire on the policeman. Brussels is the dumping ground of riflemen of this description from many countries, the language, mode of life, food, extradition laws, etc., all suiting their requirements. Therefore, in this town the policeman's dog must really act as a night watchman and an additional means of defence, and as such must be of a savage and determined character. The dog must be first and foremost a reputation. I saw them at their various exercises, seeing a man running away while firing a pistol, jumping over obstacles, etc., in all of which they excelled.

TRACKING QUALITIES STUDIED.

As, however, I have always made a special study of the tracking qualities in a dog, I was particularly anxious to see what they could do in this line; and I therefore proposed that we should go out to the suburbs, and that I should make a list. We first laid up our dog, that after three trials, the dogs were unable to find me; and in this branch of the work I found they were very far behind what I have been able to attain in my own kennels. Another day I visited the police dog kennels at Ghent, and here I found a splendid show of dogs, all of a savage disposition, and in- capable of seeing a man running away. The inspector here, however, made no secret of the fact that this was much more what they were useful for, and that for tracking purposes they were not much good. The kennel organization at Ghent is excellent. After this I went to Brussels, and had heard many wonderful tales of the tracking powers of the Brunswick police dogs, and I was anxious not only to see the dogs, but also to verify these stories. The police inspector kindly gave me every information, and showed me the dogs, which are of the short-haired prick-eared German sheep-dog variety, very like wolfes. They are also like the Belgian dogs of the night watchdog type—but at the same time in Germany I found that they do, with characteristic thoroughness, endeavor to cultivate the tracking qualities of the dogs as well. Unfortunately the best of the tracking dogs had lately been sold to the Russian Government, so I was unable to test them on this point.

A Story I had previously heard I was here told was true. It was the case of a girl murdered in a farmhouse. The dog was taken to the girl's room, where the crime took place. After it had scented about the blood-stained floor the farmhouse was searched, and the dog rushed at one of them, growling savagely. The man was arrested, and on being examined his clothes were found to be stained with a spot of blood. He then confessed.

Another case I found to be true was the innocence of a man being proved by a dog. A girl had been found drowned, and as certain circumstances appeared suspicious, a man was arrested. The dog, on being taken to the girl's room, took up her trail and showed where she had walked down to the river. Her footsteps were single all the way, and this was the conclusive fact that it was a case of suicide, not murder. No other incriminating evidence having arisen, the man was released, and afterward a letter was found written by the girl announcing her intention to commit suicide.

VISIT TO BERLIN.

My next visit was to Berlin, where I was most courteously received, and every assistance given in my investigations. I find that in Berlin the work of dogs as aids to police is held in very high estimation by the authorities. Exaggeration in descriptions of dogs' intelligence and prowess is very easy, and I was anxious for chapter and verse of several of the cases of seeing the official records, which never lie, and by these I was able to get at facts, and to see that much that I had heard was perfectly true. In Germany the evidence as given by the dogs' work is accepted in trials, and during my stay in Berlin a murder trial was proceeding in which it was shown that the police dog had run a trail from the scene of the crime to the railway station at which the prisoner had been noticed keeping a train.

In Berlin they do not cease to keep the dogs in an establishment together, but board them out separately with policemen, who receive 60 marks per annum for the keep of each dog. These dogs

ward or across. That is the secret of the whole thing. My grandfather lived to greatly advanced years and never showed a wrinkle, and he passed the secret to my father, who in turn gave it to me and now I pass it on. Away with wrinkles, let us have no more of them. The upper stroke does the business, but the rubbing must be done continually. From The Philadelphia Record.

The Song of the Laggard.

I'd like to have my share of fame, I'd like to be a leader here, I'd like all men to know my name And greet me with a rousing cheer. I'd like to climb to topmost prizes to me, Where mediocrity is barred. But that means working late at nights, And that's too hard.

I'd like to write a clever book, I've started once or twice to do it; When I should work my nose I took, And now I've never straggled through it. I have ideas in my head, And could succeed without a doubt; But I've done nothing as I've said, It is so hard to work them out.

I'm certain I could stand success, And I would get it, if men knew me; I wonder why they never give me, And could not hand their prizes to me. I want to hold an honored place, I'd like to do the business, but the Most any station I will grace. If I can get it without working, I'll do it, and that's my "Free Press."

A man never finishes his course in the school of experience.

LIKES SPOONING.

Chief of Police Says Kissing in the Parks Is All Right.

Youngstown, O., June 18.—Kissing in Youngstown parks will not be interfered with by Chief of Police McDonald, who to-day sent the following message from Buffalo, where he is attending the national chief's convention: "It is not illegal to kiss. The police have enough trouble without trying to regulate osculation. So long as lovers confine their go-go-ing to recognized proper methods, the police have no right to interfere. Kissing or law we have, so let them kiss. You can't stop them if you want to."

TRAGEDY.

"And do you truly love me, Gwendolyn?" asked our hero (for it was indeed he), anxiously. "With all my soul, Reginald," she murmured, moving away closer. I would do anything for you!" "Then," and his voice shook with emotion—"would you slip me a little loan of \$5 till payday?" She thrust him from her and spurned him with her tiny foot. "Wretch!" she cried, "would you strike a woman!"—Cleveland Leader.

WINNIPEG FIRE.

Great West Saddlery Co's. Establishment Burned. Loss Three Hundred and Seventy-five Thousand. Winnipeg, June 18.—As telegraphed yesterday, one of the most costly fires in the history of Winnipeg raged in the whole of the house and manufactory of the Great West Saddlery Co. in the early hours of Thursday morning, destroying property valued at about \$375,000, less than half of which was insured. The fire was of a very mysterious origin, and broke out in the top hat, where no fire of any kind had been used on the previous day. It was one of the most dangerous outbreaks with which the fire brigade have had to contend, and threatened for a time to wipe out an entire block. Only the magnificent water supply of the high-pressure plant prevented this disaster. The plant poured two hundred thousand gallons per hour into the doomed building at a pressure of two hundred pounds. One hundred and fifty men are thrown out of work by the fire.

THE WOMEN.

Lady Aberdeen Presented With Gavel by Dutch Ladies. Toronto, June 18.—The committee of the Council of Women this morning passed a number of recommendations in respect to the responsibility for the care of illegitimate children; the right of women to serve on juries in criminal cases, and other like matters which recommendations were passed on to the council itself at this morning's session. They will be discussed this afternoon. This morning saw the first meeting of the whole of the International Council of Women in session here. They met about 200 strong at 10 o'clock in the west hall of the university, with Lady Aberdeen in the chair. The hall was very beautifully decorated with palms and ferns, and girl graduates of the university acted as usher. At 1 o'clock the delegates were entertained at luncheon by Mr. Samuel Nordheimer. At 3 o'clock they will attend the closing exercises at Loew's Abbey, and at 8 o'clock this evening there will be a meeting in the interest of public health, with Lady Aberdeen in the chair. The chief point of interest to-day is naturally the election of officers, which takes place at 2 o'clock this afternoon. There is likely to be some opposition to the re-election of Lady Aberdeen as president.

Women, Attention! Women as a rule are better savers than men—they have a knack of making a dollar go just twice as far as a man can. Many men who cannot save anything themselves, very wisely make their wives the family treasurer, and upon them devolves the responsibility of putting by something for the inevitable rainy day. The Traders Bank welcomes the accounts of women, and its officials and clerks are always ready to give them any advice or assistance they may require. Every woman, whether married or single, should have a savings account. A few dollars will start an account. When you are down town call at our Bank and start an account. Open Saturday evenings. Utilized Birds as Scouts. During the night, July 23, before the battle of Sadowa, a division commanded by the archduke, retreating before a Prussian army, had bivouacked near a town in Bohemia facing north. At midnight, the archduke, when resting in a peasant's cottage, was awakened by the arrival of a gypsy, who insisted on seeing him personally, having come to report the advance of the enemy. The archduke, who spoke Romyany fluently, asked: "How do you know? Our outposts have not reported any movement." "That, your highness, is because the enemy is still some way off." "Then how do you know?" "The gypsy, pointing to the dark sky lighted by the moon, observed: "You see those birds flying over the woods from north to south?" "Yes; what of them?" "Those birds do not fly by night unless disturbed, and the direction of their flight indicates that the enemy is coming this way." The archduke put his division under arms and reinforced the outposts, which in two hours' time, were heavily attacked.—London Gazette.

DELICIOUS QUESTION. A prominent church wester in Baltimore was delivering one Sunday a talk to his congregation. The good man touched upon the quality of untruthfulness, and, at one point in his address, he asked: "How do you know I am not a hand went up; but a lad in the rear rose to ask a question?" "Well, sir, who I want to ask, is it a lie if nobody ever knows?"—Harper's Weekly.
