The upper picture shows a six inch howitzer in action on the Salonica front. Shrapnel and smoke are used to screen the big gun from the enemy's view. The lower view is a scene in "No Man's Land" showing the position of a lookout in a trench behind wire entanglements.

-N. Y. H. Special

Mr. George Foster Pearce, Assistant Minister of Defence, has issued a return showing that enlistments in Australia from the beginning of the war to April 30th, 1917, numbered 32,000, being fourteen per cent of the male population of the Commonwealth. The same proportion for Canada would mean 560,000, and for the 425,000 who have enlisted in this country.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:-
 "Frankfort, Ky.—'I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again.'"
 "I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

DERBY QUARTERLY BOARD
 The fourth quarterly official Board meeting of the Derby Methodist church, was held here Friday afternoon, Rev. Wm. Rowlands presiding, and delegates present from Millerton and English Settlement. The finances were reported on a good basis.

Stephen Jeffrey of Bayfield, Westmorland county, is confessed bigamist, was sentenced on Tuesday to three years in penitentiary, but allowed his freedom on condition he ceases.

Resolution of Condolence

Whereas our late brother, Private Robert Arthur McMurray, who at the call of his country voluntarily enlisted in the 145th Battalion for overseas service and in due time reached France and lined up fearlessly with his comrades against the enemy, fell gloriously in the battle of Vimy Ridge on the ninth of April last, and

Whereas our late brother was not only a brave and efficient soldier but an exemplary citizen and a true and faithful member of our Order.

Therefore resolved, That we place on record our deep regret at his early death; our hearty appreciation of his courage, devotion and unselfishness, and our sincere sympathy with his bereaved mother, brother and sisters.

Further resolved, That a copy of this Resolution be sent to the family of the deceased and to the press.

Thin-Blooded Men and Women

Need the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Thin-blooded people do not remain so from choice but from indifference in some cases from despair. People who are pale, languid, with palpitation of the heart, some difficulty in breathing and a tendency to be easily tired are suffering from thin blood.

They need only the resolution to take the right treatment and stick to it until cured. The remedy that can be relied upon is Dr. Williams' Pink Pills for Pale People. With every dose they make new blood, and new blood means health and strength. The red cheeks, good appetite, increased weight and strength that follow the use of these pills prove their great value to thin-blooded people. Here is an example: Mrs. J. McDonald, Jr., Hay, Ont., says: "I honestly believe Dr. Williams' Pink Pills saved my life. Some years ago I had anaemia, and as I did not realize the seriousness of the trouble, I soon became a complete wreck. I got so weak I could hardly walk. I neither ate nor slept well, and could not go upstairs without stopping to rest. At times I had an almost unbearable pain in my back and would have to remain in bed. I suffered almost constantly from a dull headache, and when sweeping if I would stoop to pick up anything I would get so dizzy that I would have to catch hold of something to keep from falling. At times my heart would beat so fast that I would have a smothering sensation. My eyes were sunken and my hands and limbs would be swollen in the mornings. I tried several kinds of medicine without benefit and my friends thought I would not recover. Then I began taking Dr. Williams' Pink Pills, and before long could see and feel that they were helping me. I gladly continued the use of the pills until I was completely cured and I cannot say enough in their praise, and I strongly recommend them to all run down girls and women."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont. (adv)

Studebaker

Built to Give Lasting Service

The Series 18 Studebakers are the best cars the great Canadian Studebaker factory at Walkerville, Ontario, has ever produced. They have been perfected by four years' experience with the same basic design.

They embody ninety distinct improvements in mechanical construction, convenience and comfort, over the Series 17, which made such a great record throughout the Dominion for Studebaker in 1916.

They are made of carefully selected materials, tested and developed in the great Studebaker laboratories. Their workmanship is experienced, painstaking and carefully supervised. The inspections are rigid and exacting in the extreme.

Studebakers are probably the most powerful cars on the market in ratio to their weight. In ratio to power they are most economical in the consumption of gasoline.

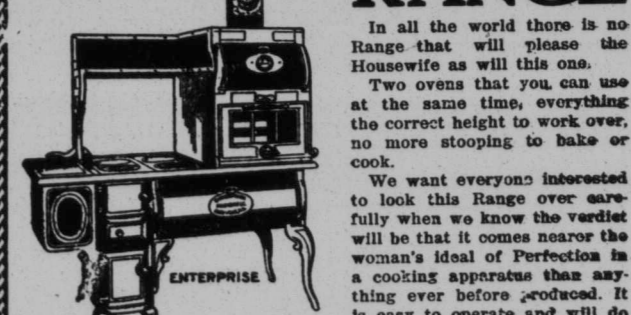

For these reasons Studebakers stand up on the hardest, hilliest drives in all Canada and under the most racking tests of the road at a minimum cost for up-keep. Let us prove the quality and economy of Studebakers—let us give you a thorough demonstration.

Doings of The Local Legislative

Amendment to Prohibition Act to Prevent Shipments of Liquor for Other Provinces

The N. B. House of Assembly adjourned on the 18th ult., reassembled on the 28th.

Amendment to Prohibition Act
Hon. Mr. Byrne introduced a bill to amend the Act for the suppression of the traffic in intoxicating liquor. Under the Act of last year the quantity of alcohol which may be supplied to persons using it for mechanical or manufacturing purposes is limited to ten gallons. The bill now introduced proposed to withdraw the limit and allow any quantity necessary to be purchased upon the certificate of the chief inspector. Another amendment was to clear up doubts which had arisen as to whether a nurse who administered liquor to a patient was liable to a penalty. Under the amended act, nurses were authorized to do so. Another related to advertising. As the law at present stands the advertising of liquor for sale was prohibited upon any vehicle or in any public place on any sign or billboard and it was proposed to extend this prohibition to include newspapers published in the province, posters and circulars. Provision is also made for the issuing of licenses by the Chief Inspector for the sale of drinkable liquids containing less than two percent of alcohol. Also, in order to bring what is known as The Doherty Act of the Dominion Parliament into force, Section 194 of the original Prohibition Act is repealed. This will prevent transactions in liquor taking place between parties outside the province and parties inside.

Re Highway
Hon. Mr. Veniot introduced a bill to make further provision for permanent bridges and other works of a permanent character. This, he explained, was to provide for raising \$370,000 to finish permanent structures which were now under construction; \$150,000 had been provided under the consolidated revenue account and to this had been added \$200,000 more for other permanent structures, making \$700,000 in all with what had been provided previously.

A Deputy Attorney General
The bill providing for a Deputy Attorney-General was agreed to.

Are They Members?
The right of Hon. Robert Murray of Northumberland and Mr. Dymart of Kent, to sit in the House was challenged by Hon. Mr. Baxter, on the ground that the former is a Master of the Supreme Court and the latter a Parish Court Commissioner, both offices, according to Mr. Baxter, coming under the head of "offices of emolument" the possession of which disqualifies a member of the Legislature. Hon. Mr. Baxter suggested reference of the matter to the Supreme Court. The Government debarred one from being a member of the House on the ground of the possession of the office of a Justice of the Peace.

Children's Protective Act
The Children's Protective Act was strengthened.

May 29th: Workmen's Compensation
Hon. Mr. Byrne introduced a bill to amend the Workmen's Compensation Act.

Women's Suffrage
Hon. Dr. Roberts, as a private member, introduced a bill to extend the franchise to women over 21 years of age.

Marriage Law
During the consideration of the Marriage bill, Hon. Mr. Baxter advised the adoption of the law now recognized in continental Europe and in some of the western provinces of Canada which provides that the subsequent marriage of the parents serves to legitimize the issue born prior to the marriage ceremony. He said that this law did justice to the child, who was not to blame for the regrettable circumstances of its birth. Hon. Mr. Robinson expressed his approval of the suggestion. The House decided to require that banns be published in the parishes where both the contracting parties to the ceremony are resident, thus conforming the law to Roman Catholic practice.

June 1
The House met at 3 o'clock, amendments to the Prohibition Act were discussed.

June 4
The House agreed to the bills to amend the act relating to the Richibucto and Rexton electric light district, and also the bill to enable the town of St. Andrews to provide a water system for the said town—the latter with certain amendments.

St. John School Board were authorized to increase their appropriation from \$150,000 a year to \$200,000.

The bill respecting compensation by employers for injuries to workmen was next taken up.

Hon. Mr. Byrne said that under the old act compensation to be paid a workman in the case of accidental death was fixed at \$2,000. The new act fixed the amount at \$2,500. It was proposed also by the amended act to increase the maximum weekly indemnity to \$45 and provide that in no case it be less than six dollars. These amendments were in line with suggestions made in the report of the commission on the Workmen's Compensation act. Another change it was proposed to make was that in case the indemnity was not paid weekly, application could be made to a judge for an execution.

Hon. Mr. Robinson said he felt that there was a desire on the part of the house to co-operate with the workman and see to it that he had adequate protection. While the proposed amendments to the act were with the views of the Trades and Labor Council for the present, some thing better would be looked for in the future. The branch of the organization in Moncton, felt that legislation along the lines of the Nova Scotia Workmen's Compensation Act would be much more suitable for this province. He regretted that there had not been sufficient time to bring down a more complete act this session. It was made from time to time, and the act made to conform with the most advanced labor legislation. A splendid compensation act had been passed by the Nova Scotia legislature a year ago, but this session some amendments had been made to it. The principle was worked out largely in the nature of insurance. Employers contributed to the fund, and employees contributed by employees it was administered for the benefit of their benefit. He hoped that at the end of another year to see a more complete act introduced.

Mr. Baxter said he was surprised by the remarks made by the Hon. member from Moncton. He felt that matters of this kind should be dealt with altogether apart from politics. Some good legislation in the interests of the working men had been placed on the statute books during recent years. The workmen were entitled to compensation even through no fault of his own or of the machinery he was using. An amendment am-

Why Do We Do It?

When Dr. Henry Hough passed away at a good old age, four or five weeks ago, he was spoken of as a man who had had the rare experience of making some money in the business of publishing a town newspaper in the Province of Ontario. More than one of our friends have expressed surprise at this statement. Perhaps some even took it with a grain of salt. The fact is that Henry Hough's case offers the only newspaper known to the writer after a news paper experience of just half a century.

Labor Without Reward
Naturally the question will be asked why labor without reward, from the monetary point of view, should be practically the universal experience of the "country publisher." Is it lack of business ability? Not necessarily. There are not a few publishers who possess average business ability, or more. The almost truth is that the problem of getting money out of a local newspaper will not be solved until somebody has discovered how to take the breaks of a Helianthus or to extract sublimans from cucumbers.

The money is not got out because it is not there to take out. The publisher of a local weekly has so many columns of space to sell. There is a limit to the price he can get, because there is a limit to what the business man can afford to pay, and get a margin of profit on goods he advertises. And there you are. Very far beyond those limits the best business ability cannot carry the shrewdest or most active of men.

Profit from Publishing
It is true that the Liptons and Wantmakers of commerce publicly and unreservedly ascribe their wonderful success to advertising. It is even true that in a wide-awake town like Orillia practically all the shrewd business men use the columns of the newspapers, and would as soon think of lighting their stores with coal oil lamps as cancelling their advertisements. But after all, the local newspaper's position is little, if at all, improved.

The Fatal Fascination of Publishing
All this being true, the natural question is: Why do men stay at the business? There are various reasons. The chief is that the editing and publishing of a newspaper has a unique fascination. Given any reasonable aptitude for the work, a man once engaged in it seldom can bring himself to leave it. There is a camaraderie among newspaper men peculiar to the guild, and once in the fold, there is an almost insurmountable disinclination to get out. The work itself fosters, even begets, public spirit, and with this growing disposition comes also the ability to view money-getting in its proper perspective, with a willingness to take life as it is, and rest content with what comes, realizing that "we brought nothing into this world, and it is certain that we can carry nothing out."

Does newspaper work bring also, in addition to a contempt for mere money-getting, a wider charity and a more benign patience? Let us hope so. Both are often sorely needed. In the light of an intimate knowledge of the burden of his work for the community which he unselfishly serves, and the paltry material return which it brings, one needs both charity and patience to suffer the ignorant who wantonly declares that "the newspapers of this town are robbing the business men," and to refrain from telling what is in your heart, that you excuse him because of his incurable ignorance and his native ill-breeding, for which it would not be fair to hold him altogether accountable.—The Orillia Packet.

LET THEM VOTE

The question of Woman Suffrage, which is now before the New Brunswick Legislature, is a most important one and one which is to the front in almost all countries at the present time.

THE REAL ISSUE

The real issue before the Canadian people is respecting compulsory military service in whether or not we have a moral liability in this war.

UNIVERSAL SERVICE

Most Canadians, irrespective of party, will view with grave concern the type of argument that is being used to secure quarters against compulsory military service.

The power to do this—to call on every man to bear his part in the defence of his country—is inherent in every Government.

AN ASSISTANT FOR ARCHDEACON FORSYTHE
His Lordship Bishop Richardson has licensed G. Edgar Trueman, B. A., King's College, N. S., as a lay-reader to assist the venerable archdeacon Forsythe this summer in the parish of Chatham. He officiated at the services at Bay du Vin on Sunday and Rev. L. A. Foyster of Bay du Vin conducted the services in St. Mary's and St. Paul's, Chatham.

TO REPEAL SCOTT ACT
The petition for the repeal of the Scott Act in Carleton Co., will, according to law, be filed on June 15th with the Registrar of Deeds for Carleton County. Twenty-five per cent. of the voters have signed the petition. The petition remains with the Registrar for ten days, so that all who care to do so can examine the names, after which it will go to the Secretary of State, who will fix the date for election.

SHOCKING ACCIDENT AT MILLBANK
When William Lloyd of Millbank was riding into the fire house of the Pulp Mill on the front of the coal car, Saturday afternoon, he forgot the steel girder just inside the fire house door, and his head was caught between the top of the car and the steel girder and crushed. Dr. B. A. Marven was immediately summoned and pronounced death to have been instantaneous. Coroner M. S. Benson was notified and he proceeded to the scene of the accident and held an inquest into the cause of the unfortunate man's death. The jury returned a verdict of accidental death and found that no blame could be placed on any person. The young man was about thirty-two years of age and leaves his wife and one child to mourn, who have the deep and sincere sympathy of the community in their sad loss.

DERBY TEACHERS MEET
The members of the Derby Parish Teachers Association held their last monthly meeting of the year on the evening of June 1st. Quite a number of visitors were present, including Inspector P. G. McFarlane. After the business part of the meeting, an interesting paper on Education was read by the President, Mr. Perley Quail. Mr. McFarlane gave an address in which he advocated increased production and elimination of waste, and the co-operation of the school children to aid in bringing this about. After speeches from Rev. Mr. Rettle, Rev. Mr. Rowlands and Mr. Campbell, a trustee, a short program of songs, instrumental music and recitations was carried out at the close of the meeting refreshments were served. The next meeting will be held on the first Friday of September.

Capt. Best to Speak In St. James' Hall

He Will Tell of Y. M. C. A. Work Among our Brave Boys at the Front

Capt. T. F. Best, who has been at the front since the beginning of the war, will address a public meeting in St. James Hall this (Thursday) evening at 8.00. Capt. Best will tell of the wonderful work being done by the Military Y. M. C. A. His message is a thrilling one and has already

CAPT. T. F. BEST

drawn audiences wherever he has spoken. The Y. M. C. A. builds huts for the soldiers, provides writing materials, gives concerts, serves hot stuff to eat and drink when the boys come out of the firing line, gives the privilege of baths—is the man and pa and sweetheart of our soldier men. After the brave Canadians had stormed Vimy Ridge and before Hill No. 145 was consolidated the Y. M. C. A. man was right in the midst serving biscuits and hot chocolate to the battle worn heroes, so reports Brig. Gen. Victor Odium of the 11th Inf. Brigade. Chaplains, both Protestant and Roman Catholic, use the Y. M. C. A. huts for their services and their work would be largely impossible but for the equipment the Y. M. C. A. has on the job all the time. Newcastle will, no doubt turn out en masse to hear Capt. Best. Every body welcome. No admission fee, no collection.

This afternoon Capt. Best is addressing the mothers, wives, sisters, sweethearts and other friends of the boys in khaki in St. James' Hall at 3.30.

BOOKING NEW FEATURES FOR THE HAPPY HOUR
Manager Richards of The Happy Hour spent part of last week in St. John looking over some of the feature films with a view to having them shown at the Happy Hour, and as a result of the trip he has made arrangements for the showing of the four greatest comedies yet produced, featuring Charles Chaplin, Billie Ritchie, Fatty Arbuckle and Lonsonome Luke. These pictures will be shown on Fridays and Saturdays of each week. So far Newcastle is the only place outside of the large cities that has secured these features, owing to the tremendous cost of the productions in which these comedians are starred, but Manager Richards has decided to put this town in line with the larger centres, as far as moving pictures are concerned.
Other masterpieces secured by Mr. Richards are "War as it Really Is" which will be shown here on Monday the 18th, and "Robinson Crusoe" for June 25th. The former picture is the only authentic story of the war yet made, and was taken under fire of the German guns. Wherever it has been shown it has played return dates at prices from \$6 to \$2. The feature "Robinson Crusoe" is an extraordinary picture and should be well received.
In addition to the above features, Mr. Richards has also booked the greatest serial yet produced "Patric" featuring Mrs. Vernon Castle, the opening chapter will be shown on July 2nd.
Fearing that there was to be a food famine, a Berkshire man who is nearly 90, bought three barrels of flour for himself and housekeeper.
