### Bank Panic In Quebec.

#### Two Other French Institutions Besieged by the Anxious Depositors.

#### Archbishop Appeals to People Not to Invite Disaster by Senseless Fear.

#### Fortunes Meanwhile Lost Daily by Sacrifice of Stocks on 'Change.

Special to the Colonist.

Montreal, Aug. 1.—There was a run on the Hochelaga and Nationale banks today. The management of each institution says such an event was expected, and it is prepared with sufficient cash to meet all demands. Depositors, especially of the smaller class, appear to be panic-stricken as the result of the Ville Marie and Jacques Cartier banks suspending.

Although a big crowd was around the head office of the Hochelaga bank all morning, it was an orderly one, and there was no excitement. The management says it will keep the bank open as long as necessary to satisfy people that the institution is solvent.

There are but few depositors in the Banque Nationale, and unless the panic spreads to Quebec, where the head office is situated, it may pull through all right. The Hochelaga bank has a reserve fund of \$2,000,000, and there are no fears for its safety.

The bank crisis has precipitated what practically amounts to a panic on the stock exchange, stocks being thrown on the market in large lots, and prices have fallen considerably. Bankers are selling securities held on margins to protect themselves, and are taking almost anything they can get for them. Montreal Street Railway stock is selling at 11 points, General Electric 9 points, Toronto Railway 4 points, Gas 4 points, and so on through the list.

Archbishop Brodeur has issued an appeal to those who have money in the banks not to allow themselves to be panic-stricken by the disasters of the last few days. He asks the people to go by, and the banks, he has not the least doubt, will honor all their obligations.

W. V. Taylor, assistant manager of the Bank of Montreal, and W. H. Power, inspector of the Merchants' Bank of Canada, have been named to investigate the bank note circulation of the Ville Marie bank. So far, there is no trace of Herbert, the missing Banque Ville Marie teller.

### SAMOANS YEARN FOR ADOPTION

#### Confess Inability to Govern Themselves, and Invite Annexation by Most Anbroad.

Samoa, July 26, via Auckland, N. Z.

At a meeting of Samoans just held both parties signed an agreement abolishing the kingship and presidency, and agreeing to an administrator with a legislative council of three tripartite nominees. The commissioners left here on board the United States transport Badger July 10. Mr. Elliott, British representative, has gone to New Zealand. Hence he will go to San Francisco. At a meeting of the Malietoa party the speakers expressed a desire for annexation, as the best solution of the question in the dispute, but they did not set forth by what country they desired to be annexed.

United States Consul Osborne will act as chief justice. Dr. Solta, the German, claimed the right to act as chief justice, under the treaty, but the commissioners withholding their consent. Dr. Solta resigned the office of president, as he claimed the commission's act was an insult to his honor and nationality. The German commissioner, Baron Speck von Sturnberg, called upon Dr. Solta to withdraw his claim in favor of Mr. Osborne.

### BOUNDARY STORY DENIED.

#### Colonial Office Did Not Authorize State- ment Recently Attributed to O'Connell.

London, Aug. 1.—A few days ago a news agency issued a statement on the alleged authority of the colonial office here that the Alaskan question hinged on the interpretation of the Anglo-Russian treaty of 1825 defining the boundary and explaining Great Britain's position with considerable detail, saying:

"The colonial office is not aware that the United States has offered Canada a portion of Lynn canal," and adding that it was "no correct to state that Lord Salisbury was hampered by Sir Wilfrid Laurier."

Mr. John Anderson, principal clerk of the Colonial Office, secretary of state for the colonies, says that no such statement was issued by the colonial office to a representative of the news agency, and the delegates are returning to their respective divisions. The trainmen are likely to settle matters to-morrow. One of the principal points they argued—that express messengers should not be required to handle baggage in place of regular baggagemen—was agreed to by the company.

### MANITOBA AND NORTHWEST.

#### Speedy Cyclist Moving West—C. P. R. Trainmen's Grievances Adjusted— Fell From a Bridge.

Winnipeg, Aug. 1.—(Special)—A. D. Bell, a fast bicyclist of Portage in Prairie, leaves next week for Vancouver to take up his residence there. He will continue racing on the Coast.

The C. P. R. engineers and firemen have, it is stated, come to an amicable arrangement as to the changes desired on their schedule with the general superintendent, and the delegates are returning to their respective divisions. The trainmen are likely to settle matters to-morrow. One of the principal points they argued—that express messengers should not be required to handle baggage in place of regular baggagemen—was agreed to by the company.

#### Montreal Sham Exposed by Arrests for Fraudeering Its Proprietors.

By Associated Press.

Montreal, Aug. 1.—There is a great sensation in local policy-playing circles of Montreal this evening. Montreal has half a dozen so-called benevolent institutions which under the guise of charity run policy shops. One of these is the Society d'Ecules Grattées des Enfants.

#### Sleep-walking Cripples a Boy—Bicycle Racks Permitted—Serious Con- ditions at Canneries.

By Associated Press.

Vanouver, Aug. 1.—Welland McArthur, camping with two other boys near Alliceville, B. C., climbed up a pole to the top story of a building vacant since railway construction days, and went to sleep. Some time in the night he got up, still asleep, went to the hole at which the pole rested, and fell, falling to the floor beneath. Both legs are paralyzed, besides which he has suffered internal injuries. He is thought, however, that the lad, who is but 16, will pull through.

A by-law to allow bicycle racks on the sidewalks was read at a meeting of the council meeting last night. Aid. McQueen's by-law to set a fashion in bathing apparel got little support, and was withdrawn.

### SANTIAGO'S SURRENDER.

#### Spanish Commanders Tell How Hope- less Their Situation Had Become.

Madrid, Aug. 1.—At the second session of the court-martial of Generals Toral and Pareja, who are charged with surrendering Santiago de Cuba to the Americans without having exhausted all means of defence, Pareja said the garrison of the city of Santiago lacked food, many of the soldiers having died of hunger. Previously, however, he added, the troops fought bravely, and many of the officers and men were killed. In addition, the hospitals lacked medicines. The general read several telegrams exchanged between the authorities at Washington and Major-General Shafter, the latter showing himself confident of forcing the surrender of Santiago.

### A CABINET RESIGNS.

Brussels, Aug. 1.—At the opening of the session of the chamber of deputies, M. Vander Peereboom announced the resignation of the ministry, and added if the chamber did not object the government would remain at its disposal for the conduct of current business. M. Van de Wilde, Socialist, protested against this proposal, and demanded that all debates be adjourned, as the chamber could not discuss questions in the absence of a responsible government. The chamber finally decided to deal with non-contentious measures only.

### Bain Is Speaker.

#### Commons Confers High Honor on the Farmer Member for Wentworth.

#### Claims of Victorians for Prop- erty Loss by Macaulay Point Reserve.

#### Expert Evidence Proves the Or- ganized Rascalities in West Huron.

From Our Own Correspondent.

Ottawa, Aug. 1.—Thomas Bain, member for South Wentworth, is the new Speaker of the Commons. He was chosen by the cabinet this morning over Flint and Ellis, on account of his lengthier experience. The promotion of Deputy Speaker Brodeur was out of the question, owing to the Speaker of the Senate being French. When the house met at 3 o'clock, Sir Wilfrid Laurier, addressing the clerk, described to him the qualifications essential in the presiding officer of the house, said these qualifications were possessed in an eminent degree by Mr. Bain, and moved his election.

Sir Charles Tupper warmly approved the government's choice, speaking of the fairness which Mr. Bain invariably manifested when in the chair. Mr. Bain was conducted to the chair by Sir Wilfrid Laurier and Mr. Fielding, and took his seat amid applause. He then expressed his appreciation of the honor done him, especially thanking Sir Charles for his kind words. Later on the Commons went over to the Senate, where the Governor-General was informed by Mr. Bain of his election.

### A Favored Contractor.

The house spent the evening in supply. An animated discussion took place on the sweating system, the opposition showing that the provision against sweating had been violated in the contract for militia clothing.

Col. Prior to-night brought up the Mackinac Point claims, in which Messrs. Kent, Flint, and Bell, Pitts and others are interested. He gave a full and plain statement of the case, and advised the government to pay up.

### Plain Ballot Stuffing.

In the West Huron constituency Mr. Hartly, paper expert at Edgley's mills, tested by microscope the Pitts and Doyle boxes found in the Colborne ballot box, and demonstrated that they were on an embossed paper from any of the 93 stabs in the pad of ballots used at that mill, conclusive evidence of crooked work by Liberals in the election. The Critch members of the caucus were greatly disheartened at this evidence.

Manila, Aug. 1.—Sunday's fight at Calamba was a warm one. The insurgents were unwilling to abandon the place, which is the key to the lake road. Gen. Hall, hearing that Gen. Malbar was preparing to make an attack, sent Maj. Eisenberger with three companies of the Twenty-first infantry, three troops of cavalry, and one of Hamilton's guns, to attack the insurgents.

This detachment found a force of one thousand rebels behind hastily-made entrenchments. The rebels held their fire until the contingent of the Twenty-first regiment was within 300 yards, when they fired a volley. The Americans dropped in the high grass out of sight, and returned the fire. Lieut. Love, who was walking erect along the front of the men, was shot in the arm. An insurgent officer, equally brave, stood at the top of the trenches directing the fire of the insurgents. He was killed, when the Filipinos fled.

During the fighting on the north side of the town, a small body of insurgents was walking erect along the south side, but a troop of cavalry repulsed them.

Topeka's Exciting Experiences - The Queen Sails North This Morning.

News was brought from the North by the Tees last evening of an exciting experience which the steamer City of Topeka had at Glacier Bay a few days ago.

The passengers were enjoying the sight and listening to the echo when the attention of all was called to a place on the face of the glacier where the ice was breaking off, and the crumbling ice was at that particular place until it culminated in the fall of an iceberg as large as a mountain.

There will consequently be no prosecution against the Tees as the police interference with Miss Campbell's announced plan of returning to her old home in West Virginia.

San Francisco Police Find That the Lady Sent the Fruit to Herbert.

San Francisco, July 28.—The mystery of the poisoning of a basket of poisoned fruit to Miss Campbell, of 610 Ellis street, has been solved by Chief of Police Lees, and the result shows that there was no attempt made to take life and that no one was even made ill by the poisoned fruit.

According to the confession which has been made by Miss Campbell, the basket of fruit was sent on June 26 to 610 Ellis street, where Miss Campbell had been living with John R. Rathom.

Confronted with these discoveries, Miss Campbell confessed her plot.
