Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Rlié avec d'autres documents
- Tight binding may cause shadows or distortion  
along interior margin/  
La reliure serrée peut causer de l'ombre ou de la  
distorsion le long de la marge intérieure
- Blank leaves added during restoration may  
appear within the text. Whenever possible, these  
have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées  
lors d'une restauration apparaissent dans le texte,  
mais, lorsque cela était possible, ces pages n'ont  
pas été filmées.
- Additional comments:/  
Commentaires supplémentaires:

- Coloured pages/  
Pages de couleur
- Pages damaged/  
Pages endommagées
- Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- Pages detached/  
Pages détachées
- Showthrough/  
Transparence
- Quality of print varies/  
Qualité inégale de l'impression
- Includes supplementary material/  
Comprend du matériel supplémentaire
- Only edition available/  
Seule édition disponible
- Pages wholly or partially obscured by errata  
slips, tissues, etc., have been refilmed to  
ensure the best possible image/  
Les pages totalement ou partiellement  
obscurcies par un feuillet d'errata, une pelure,  
etc., ont été filmées à nouveau de façon à  
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Medical Library  
McGill University  
Montreal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Medical Library  
McGill University  
Montreal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TO THE MEMBERS OF  
The Bathurst and Rideau Medical Association.

GENTLEMEN,—

The exhibition Dr. Cranston has made of himself in his last circular is truly edifying, and he seems to think by personal abuse and calumnious statements he will secure your respect and your votes. I am endeavoring to win this election on the merits of my case, and I shall not stoop in that attempt to the miserable practice of heaping calumny on the head of my opponent. I shall leave that pastime to my consistent friend Dr. Cranston. If perversion of facts, distortion of an opponent's statements, and slangy expressions, are evidences of literary ability, then verily the Doctor's circulars are brilliant productions. We are writing to professional, educated gentlemen, not to the common rabble, and Dr. Cranston must believe the Physicians in this Division are exceedingly obtuse if he thinks they cannot comprehend his tactics.

Every statement made by me as to the methods used by the Doctor to prevent a free choice on the part of the electors, is true and well known, and his own judgment, if nothing else, should have told him it was unfair to monopolize the honour a third term, or fourteen years, and had he any generosity whatever, he would admit it was now the City's turn to choose the representative.

He claims his statements made in 1880 were only opinions not promises, but it is universally accepted that opinions openly expressed by a candidate to influence an election are pledges given, and thus when he pronounced the idea that Dr. Mostyn was showing "a selfish and avaricious disposition" to seek the honour a second time, he therein pledged himself that if elected then, or in the future, he would not strive for the position again. His conduct now indicates that he considers he has a *life interest* in the distinction.

Once more he tries to coerce those who signed his nomination into voting for him, and he seems to be blind to the fact that this very attempt is driving many supporters from him.

He has 70 not 72 names on his nomination, six of these do not reside in this Division and cannot vote here, 22 have officially withdrawn their support, 9 others have withdrawn by letters written, leaving him just 33 possible supporters! I have 81 votes intelligently pledged, or certainly the "vast majority" out of 117.

Every city member who signed my nomination had the free choice between Dr. Cranston, Dr. Powell and me, and it is very much to be regretted that Dr. Cranston should degrade himself by expressing a common falsehood in this connection. I was requested two years ago by some of the physicians here to seek this election, and it was on their request that I did so. It is true I was elected President of the Ottawa Medico-Chirurgical Society for 1889-90, and in that capacity I successfully accomplished the incorporation of the society and the adoption of a new set of by-laws. It is also true that two years ago I compiled a comprehensive and complete Tariff of Fees for this city, and every one who has seen this work unhesitatingly pronounces it the most complete scale of medical charges in Canada to-day, and it is further the only legal medical tariff in Ontario at the present time. I am happy to say this tariff has likewise been adopted for the rural portion of this Division.

Again a year ago when a registered quack flaunted his nauseating advertisements in the face of the profession here I was asked by the physicians to take action in the matter. I did so, and drew out a petition to the Council to erase his name from the register, which resulted in his being tried by the Committee on Discipline, and they recommended the Council to erase his name, which no doubt will be executed at the next meeting in June. All this labour done in the interests of the profession and indicating a willingness on my part to work for every purpose which may assist the medical practitioners, clearly demonstrates why my *confreres* here have so unanimously and loyally supported me in this election. In regard to Dr. Powell, who is an able physician and one of my personal friends, he retired from the contest because he did not wish to split the city vote, and he is now supporting me, and he was quite as much incensed at the means used by Dr. Cranston to carry this election as I was.

Again it was Dr. Edwards, of London, and not Dr. Cranston, who secured the services of Mr. Webb for the Council, and I will quote what Dr. Bergin says about the present representative to show the way he works in our interests. "As a matter of fact Dr. Cranston has always sided with the school men and has helped to block nearly every move in the Council which aimed at increasing the standard of medical education in this Province." This is Dr. Bergin's opinion, not mine, and it is worthy of serious consideration by the members in the Division at the present time.

Likewise, I respect the degrees from all the medical schools in Canada, and I know the value of British qualifications, because I hold some of them myself, but everyone, no matter where he graduates, should be required to pass all the examinations of the Council before registration. The test of medical knowledge adopted by the College of Physicians and Surgeons of Ontario is sufficiently severe, but does that affect the question of the overcrowding of the profession here? Certainly not. The only means available to arrest that is to raise the standard of pre-medical education to an arts degree, or an examination approaching that requirement. By this means the supply will be curtailed and the profession made better and more valuable. If elected, I have pledged myself to work to this end, and to always labour in the interests of the medical practitioners of this Province.

In conclusion, gentlemen, I desire to return my sincere thanks to my professional brethren in this city, and throughout the whole Division, for the hearty support given me in this election, and for the many kind words and acts vouchsafed me during this contest. If elected, I shall carry out my pledges, and do my best to merit your approval. May I ask you to fill out your voting papers as soon as received.

I remain, yours faithfully,

A. F. ROGERS, M. D.

OTTAWA, March 5th, 1890.
