Rev. Peter Bryce of the Central Meth-odist Church, Eariscourt, in a statement to The World, says he is very hopeful of the legislature taking up the scheme for pensions to mothers and widows. Mr, Bryce has been working on the plans for a long time, and a great deal of publicity has been given to it, not only in Earls-court, but thruout Ontario. "There are scores of widows and mothers in this section who are totally unprovided for, and it is these that the proposed bill will most assuredly benefit," he added.

In connection with the Boon Avenue Baptist adult Bible class, the a nual so-cial meeting took place last night in the church. S J. Moore of Parkdale gave a special address. Joseph Wood, teach-er, presided. A musical program was rendered and refreshments were served.

For one glorious, happy week we manding an apology from this paper. For one glorious, happy week we were at Atlantic City. I never had even seen the ocean before, and at first I was like a child with a new toy. I recall the first time we walked on the sand, I ran and dipped my hands in the water, wetting my feet and the bottom of my skirt in my en-thusiasm. The board walk, with its crowds of beautifully-gowned women and hand-some well-groomed men, fascinated me. The quaint shops with their gay

some well-groomed men, fascinated me. The quaint shops with their gay windows beguiled me often to spend so long a time gazing, that Neil would pull me away laughingly, and say: "You can look in shop windows all you want in New York while I am at the office. Come and talk to me now." Occasionally we took a chair and spent an hour being rolled up and down by a grinning darky. "Playing we were millionaires," Neil called it, But mostly we walked arm in arm,

we were millionaires," Neil called it. But mostly we walked arm in arm, talking of the future, our home to-gether, and of our love for each other which nothing ever could possibly the matter. We were staying at one of the large hotels, and living on the American plan. I had asked no questions as to the price. I really did not think of it. So, blissfully happy, without a care in the world, the week of my honeymoon sped all too swiftly by. Yet I was in a fever of impatience to see the "blg town," as Neil always spoke of. New York. It was to be my home. I never had been there, but had read and heard so much of it that I was keen to get there.

Neil laughed at me. Yet he looked a

The Story of the World's **Greatest Gold Mine** 

During the past 80 years the lode and placer mines of the United States have yielded \$3,500,000,000 in gold. Last year the production was only \$68,493,000. This represents a shrinkage of about \$25,000,000 from the average of the preceding five years. And though the world's production reached its highest point within the last decade, it seems that a decline is in prospect outside of Canada.

There are no promising gold fields opening up in the United States, or for that matter in any part of the world, except Northern Ontario. There are now many factors making for the thorough exploitation of the new north. The war was financed largely with promises to pay. Most of the money came off the printing presses. That kind of currency must be implemented by something more substantial. The nations must now produce things of real value.

Canada is fortunate in respect of her great gold fields and other natural resources. We have the openings for capital and the work for men; and the means to meet our obligations.

The report of Managing Director Cartwright, reviewing operations, said: "At a point sixty feet south from the west cast, and at this point cut a three-inch vein with some showings of ruby and native silver. A raise was driven up here twenty feet and in the roof we have a three-inch vein of exceptionally good high-grade ore. Work will be confinued here with a view to the further development of this vein.
"Since the first of the year, at a point four hundred feet south of the above mentioned raise, we have opened up a high-grade shoot of ore for a distance of approximately seventy-five feet, and having a width of some four to ten inches wide. Stoping operations have been started here and the first eight feet of the Timiskaming mill for test murposes. From this there was recovered 1,558 pounds of high-grade, which is now in process of being sampled. The mill feed remaining assayed twenty ounces to the ton. This was an experimental shipment made for the uproces of determining people would treat our rock and the made. Determination of these questions will shortly be arrived at." Not Timiskaming Vein. In answer to queries by shareholders, it was stated by President Cartwright that the shipment of 60 tons would prob-ably average about 48 ounces of silver to the ton, about what the Timiskaming Mine averaged. The 1858 pounds of high-grade would run about 1500 ounces, and the rest of the shipment about 20 ounces. The vein was not a continuation of the Timiskaming vein, as there was a ridge of diabase between the two properties. The financial report showed that dur-ing the year the outlay had amounted to about \$31,000. On Jan. 1, 1918, there was only \$3262 in the treasury, but on Jan. 8 last the balance was about \$15,-000, a sale of treasury stock having been made during the year. The following officers were elected : President, R. A. Cartwright, Ridgeway, Penn.; vice-president, E. M. Campbell, Ridgeway, Penn.; C. L. Sherrill, Buffalo: Alex, Fasken, Toronto; managing direc-tor, M. R. Cartwright, Halleybury.
