INTERIOR'S FERMENT BAROMETER AGAIN FALLS

Renewal of Apprehension That Crisis May End in Coup Against Parliament.

St. Petersburg, July 18.—The political barometer is again falling. The confusion which seems to have taken possession of the upper spheres since the efforts to form a coalition ministry failed, coupled with the alarming reports from the interior and the attitude of parliament, make almost anything possible.

There has been a marked renewal of apprehension that the crisis may end in a coup d'etat against parliament. The assassinations of Vice-Admiral Choukhin and General Kozlov, the discovery that behind the murder of the general was a big plot to kill not only General Trepov, but Prince Fyodor and other courtiers, and the general epidemic of assassination, which has terrorized not only the local authorities, but even the police, together with the wild destruction of property by the peasantry in half a dozen provinces during the last few days, have again strengthened the small part of the court which believes in resorting to "extreme measures."

Stories of Burning.

Despatches from the interior continue to tell without interruption of the burning of major houses, robberies, murders, collisions between peasants and rural guards, and the hurried despatch of troops to various parts of the country.

The centre of the peasant uprising is Voronezh Province, where the peasants, in their mania for the destruction of property, do not discriminate between friends and enemies, as evidenced by the complete devastation of the estate of M. Koshkine, one of the most prominent Constitutional Democrats in the lower Don. To-day's reports "hopeless" from the standpoint of the landlords, the situation is almost as bad in Pskov and Smolensk Provinces. In Tambor Province 80 peasants are reported to have been killed or wounded by troops.

Nothing Everywhere.

The whole of the Province of Voronezh is affected by excesses, arising from the agrarian movement. In the district of the Bogovsk district more than 20 estates have been burned and 900 head of cattle killed or carried off. In the Garamak district 2000 peasants have started to pillage and burn northwards. In this vicinity 15 estates have been destroyed. Troops have been sent to the disturbed districts.

CANADA'S PROPRIETARY RIGHT

To Be Paid 25 Per Cent of Gross Receipts of Prizyoloff Seal.

Victoria, B. C., July 18.—It is stated by local seelers that one of the conditions of the proposed sealing treaty, reported almost concluded at Washington, for a cessation of pelagic sealing, will be that Canada is to have a proprietary right in the Prizyoloff seal herds to the extent that Canada will be paid 25 per cent of the gross receipts of the rookeries.

WHERE PASCARD IS STRONG.

Windsor, July 18.—Conservative politicians say that License Inspector Gaspard Pascard has entered the race to succeed ex-Deputy Fisheries Inspector Bastedo, with a display of strength that has caused the rest of the candidates to sit up and take notice.

Pascard's influence in his influence which the French Conservatives in the country districts, and it is said that Hon. C. O. Beaumont has been flooded with letters urging his candidacy.

WINDMILLS BIG POWER INTERESTS MISREPRESENT GALT

Frantic Efforts to Prevent Success of Next Week's Conference, Which Means the Ultimate Unity of Western Ontario Municipalities for the Handling of Niagara Power.

Galt, July 17.—(Staff Special.)—Galt is a keystone in the Niagara power transmission structure.

That is why the Niagara power companies are trying to head off the certain result of the power convention here next week.

That is why they are having letters inserted in the press at so much per copy, over the signature of "Engineer," "Veritas" and other anonymous experts (or expert anonymists), to prove by force of mere assertion that electric power cannot be delivered as cheaply in Canada over 75 miles as it can in the States over double the distance.

That is why the power companies are circulating reports to the effect that the manufacturers and business men of Galt are opposed to the introduction of Niagara power.

That is why the companies' agents are trying to make a political issue of a question which has, admittedly, no party bearing.

And that is why one of the Hamilton power companies is in the field with a proposition of its own, to supply power at figures to meet those quoted by the hydro-electric power commission.

All Favor It.

There are two or three firms in Galt whose interests were supposed by some to be hostile to the advent of Niagara kilowatts. That was a gratuitous deduction from the old-fashioned notion that a business man must oppose what is not in his own line of activity. Nobody took the trouble, apparently, to find out what the facts are.

The World man called on these gentlemen in their own homes, and big-hearted beyond their reputation. They were Canadians and Galt men.

HALIFAX PETITION FAILS COURT HAS NO POWER

Evidence Produced to Show How Liberal Candidates "Got Right" With Military.

Halifax, July 18.—(Special.)—The trial of the election petition against Messrs. Roche and Carney came to an abrupt ending this afternoon, when the judges announced that they had no jurisdiction to try the case.

At the beginning of the court yesterday counsel for respondents raised the point that the court was without jurisdiction because, while the life of the petition had been extended by a judge's order from Jan. 12 to July 17, the full court set down the case for trial for July 17, that is, a time later than the day to which the petition was extended. This the respondents' counsel held the full court could not do and that the subsequent order of a judge extending the petition from July 12 to Aug. 12 could not cure the defect.

Evidence of a sensational character was produced to-day. Here is a sample:

Thomas Booth told how he was in the Wellington Barracks Sunday night before the election. He was in the canteen and surrounded by many non-commissioned officers. There were refreshments in the dining-room, to which place all retired. William Roche was there. So were Ald. Hawkins, Mr. Dickson and others. Drinks and cigars were ordered by the chairman for all hands.

After the drinks there was a call for a speech. Mr. Roche spoke. He said he had always been a friend of the army and navy. (Laughter.) He went on to praise our climate and everything here.

Then Ald. Hawkins spoke and said that if any of the soldiers decided to remain in Halifax after their discharge, they should come to him and he would get the best job that was to be had.

Mr. Drysdale took up the cross-examination of Mr. Redden, but it was limited to only one question, in reply to which Mr. Redden explained that \$1,000 paid by him for Hectors to Mr. Glassey was on account of orders issued by the various parties on behalf of Liberal organization.

ORANGISM WORLD-WIDE NOT FOR THE RISH ALONE

Delegate From U.S. Asks for Broadening of Opinion on the Scope of Order.

Unwillingly to go home, the delegates to the Imperial Grand Orange Convention concluded their gathering in Victoria last night with a complimentary banquet tendered by the most wonderful grand lodge of British America. In the afternoon it was decided on a very close vote that Liverpool, Eng., should be the place of the next meeting, which will be in 1908. London was defeated two votes.

The following officers were elected: President, Dr. E. S. Sprout, M.P.; Markdale grand master of British North America; first vice-president, William John Keating, Brooklyn, N.Y.; second vice-president, Col. H. H. Wallace, Belfast, Ireland; grand chaplain, Rev. W. M. Black, Newry, Ireland; deputy grand chaplain, Rev. W. Walsh, Brampton; secretary, W. Lew, Toronto; treasurer, Fred Duce, Toronto.

The international atmosphere was ever present at the banquet. After Fred Duce had proposed the toast "The King and President," the large gathering sang a verse of the national anthems of the British Empire and the United States, and then announced in response to "the charter toast" Donald MacGregor sang "Hearts of Oak."

The Order in Ireland.

Some nice words by Lieut.-Col. Scott concerning the pleasantness of the acquaintance of the visitors accompanied the toast to the guests. Rev. Molyneux Black of Newry, Ireland, was the first to respond. He had been beset with the question, "What do you think of Canada?" and his thoughts as expressed were brilliant, and as to our American neighbors, he was associated naturally. The two greatest rivers on earth are King Edward VII. and Queen Victoria. The two greatest national boundaries and having differences which may take years to settle, and there are great difficulties to overcome, yet he predicted they will come to a glorious fraternal end.

From the Other Side.

Rev. Mr. Lemon, Troy, N.Y., spoke freely. He said that he had been asked to speak for the church but that he was not a member of the church and that he was not a member of the church and that he was not a member of the church.

Patriotic Spirit.

Never in the history of any country has there been such a patriotic spirit shown as in Salvador at the present time. Rich and poor are serving alike, as was shown in the engagement yesterday. In one of the engagements of the Adolfo Guirao, son of the millionaire, Angel Guirao, lost his life. He was a graduate of West Point, and when he was killed he was only 19 years of age. He was the only one of his family who was killed. There are members of almost every rich family in Salvador now at the front.

Peace Commissioners.

The peace commissioners of Salvador are Dr. J. R. Paces and Senor Francisco, who will go on board the U.S. cruiser Marblehead at Acapulco tomorrow, with the commissioners of Honduras, and proceed to San Jose, Costa Rica, where the other commissioners will be taken on board, and the party will put to sea and draw up and sign the treaty of peace.

Where Michigan Triumphs.

Grand Master Dolan of Michigan, who is a Canadian, paid a high tribute to the late Queen Victoria. Sometimes he felt it was a pity that the world was not a united people on this continent, but it may be a blessing in disguise. When but a teacher in Korpeth, he was one of the few Canadians in the States then in Canada. He went to Windsor and saw the Senator Landry, Hon. Mr. Chapais, and that he decided him. He crossed to better his condition financially and had done so.

The Loyalty of the Canadian people was appreciated and respected on the other side.

Sec. The backbone of the Orange Order in Michigan was the influx from Ontario. One thing they had in the United States was not the only cause of their success. "That is where we are ahead of Canada," he said.

Separate schools were your mistake.

The toast to the fraternal council was responded to by Robert Burns, Toronto. The backbone of the Orange Order in Michigan was the influx from Ontario. One thing they had in the United States was not the only cause of their success. "That is where we are ahead of Canada," he said.

Triumph for Salvador Hurts Back Guatemala

Desperate Fight on Frontier Shortly Before Armistice Was Agreed To—The Beliegers Name Peace Commissioners.

San Salvador, July 17.—(Delayed in transmission.)—Shortly before the armistice was agreed to, over 10,000 Guatemalan soldiers made a desperate attack on the Salvadoran positions, by way of Metapan. The Guatemalan artillery, stationed on high plains fronting the Salvadoran positions, cannonaded the latter unceasingly, the bad quality of the shells and the poor aim of the artillerymen resulted in the Salvadoran forces escaping without many casualties.

At about 3 p.m., in the midst of a torrential rain the Guatemalan forces increased all along the line, and the Guatemalan infantry attacked the Salvadoran forces in close columns, endeavoring to dislodge them from the positions held by General Terceiro and Colonel Hernandez Artega. The battle lasted ten hours, and eventually resulted in a triumph for the Salvadoran army.

Three Armistices.

The forces of Salzedor are now divided into three bodies, and are stationed along the frontier. The centre, consisting of 2000 men, is under the command of General Horacio Villa, and the other two are under the command of General Proratas. He has 2000 men, who occupy positions at Patana, Las Escobas and Hacienda Margarita, in Guatemalan territory.

The Right Army.

The right army, composed of 11,000 men, under the command of General Proratas and Duarte, is on the defensive at Metapan. These two wings have been constantly, energetically, but unsuccessfully attacked by Guatemalan forces.

Patriotic Spirit.

Never in the history of any country has there been such a patriotic spirit shown as in Salvador at the present time. Rich and poor are serving alike, as was shown in the engagement yesterday. In one of the engagements of the Adolfo Guirao, son of the millionaire, Angel Guirao, lost his life. He was a graduate of West Point, and when he was killed he was only 19 years of age. RESULTS OF I.A.A. RACES HELD AT CENTRE ISLAND

Weekly Sports Run Off Last Night on Long Pond Before a Large Crowd.

There was a larger crowd than ever present at the I. A. A. races, held on Long Pond, at Centre Island, last night. All the races were keenly contested, especially the club four, when the youngsters sprung a surprise on the older crew, winning by a narrow margin. This four, if kept together, will help to decorate the I. A. A. canoe house with trophies.

The double scull race was the best of the lot from the spectators' point of view, quite a few of the canoes slipping. After the races were run on a dance in the club house followed the night's sport. A forest fire set on fire by the last New Jersey Legislature went into effect yesterday. It provides for the appointment of a state fire warden, township fire wardens, district fire wardens, and fire patrol. It appears that forest fire in that state do millions of dollars' worth of damage to its timber lands. Authority is given to fire wardens to summon at their discretion residents of their districts to assist in putting out fires. These wardens are also to keep close watch upon their territory to prevent fires through carelessness or wilfulness, and to prosecute all offenders against the state's regulations.

ABSOLUTE SECURITY. Wingham Intermediates.

Wingham, July 18. - Wingham's Intermediates blanked Seaforth in one of the most C.L.A. games ever played on the Wingham grounds. The home team won from the Beavers by 4 to 0. The game started very strong and in four minutes McLean had the crowd in the air by a pretty shot, which beat Case. Seaforth got the ball in to Wingham's defence, but they were soon lost and the ball went into Seaforth's net. Both shooting from close in, the quarter ended 2 to 0. The second quarter found Wingham's defence a stone wall. Hemmings stopping many of Seaforth's shots, while Kenyon hit McKay to the woods by close checking. Wingham failed to score, although the quarter was mostly theirs. In the third quarter Wingham added another, Fleming found the trick, and in the final period McLean added another. The final score: Seaforth (0): Goal, Case; point, Bell; defence, McKendrick; McKendrick, Hatcher, Westcott; centre, Johnston; forwards, Munroe, McKay, Holland; outside home, Jackson; inside home, Stoddard. Wingham (4): Goal, Hemmings; point, McKendrick; cover-point, George Wingham; defence, Kenyon, Moore, Coe, centre, Cody; home, Elliot, Wendor, Fleming; outside home, McLean; inside home, Reid.

BUSINESS IN ATHLETICS SHERRING DISQUALIFIED

Refused to Enter Chicago Marathon and Offended U.S. Amateur Union.

Assuredly the amateur athlete has a hard row to hoe. He is expected to literally keep every kind of business out of his games; yet the very organizations that should be his example, generally show that it's all a matter of business with themselves. The latest display comes from Uncle Sam's "Amateur Athletic Union" and has to do with Billy Sherring of Hamilton.

The A. A. U. of the United States succeeded in knocking Toronto's walker out of that event at Athens, or rather, its secretary (Sullivan) was instrumental in having the verdict go against D. Linden. So the Western Y. M. C. man declares, and when Sherring refused to contest in the Chicago Marathon, he must suffer the consequences if the verdict be a penalty. Here is the following from a New York paper:

"The recent hero worship of William Sherring in the Canadian cities who won the Marathon race at the Olympic games at Athens, has revealed to the authorities of the various amateur organizations of America the possibility of danger to amateurism, Canadians heaped unusual honors and rewards on the winner of the great Marathon, and while everything was done in a public manner, the excess of zeal on the part of the Canadians to show a national appreciation of his athletic services of Sherring will probably result in the latter being barred from competition in any athletic games under the sanction of the Amateur Athletic Union.

"According to reports Sherring received a house and lot and a large sum of money, the latter said to be \$5000, from his admiring friends. It is the latter item which has robbed Sherring of his standing as an amateur in the United States. The rule governing Sherring's case is fully covered in Article X of the constitution of the Amateur Athletic Union of the United States, which deals with the condition of competition. It says:

"No person shall be eligible to compete in any athletic meeting, game, or entertainment, given or sanctioned by this Union, who has received or competed for compensation or reward in any form for the display of his exercise or example of his skill in or knowledge of any athletic exercise, or for rendering personal advice of any kind to any athletic organization.

"Sherring, according to competent athletic authorities, violated this rule by accepting money as a reward for the display of his exercise and example of his skill, and by so doing has forfeited his amateur standing in the United States. There seems to be a general acknowledgment that neither the spirit nor the letter of the rule was violated by Sherring's acceptance of the house and lot, but as Sherring last week, in declining to take part in the Chicago Marathon race in September stated that he believed he has all the honors and appreciation of the athletic world, and that he had no intention of any contention, as there is no necessity of making a case out of such condition unless it comes in direct contact with the principle. If Sherring ever changes his mind and enters an athletic event held under Amateur Athletic Union rules, he will at once be proscribed.

"Of course, everyone knows Sherring is now a pro, but the funny thing about it is that he was good enough to appear for the Chicago Marathon, regardless of the show money he collected, but the moment he returned to Canada, A. U. decided that it had a business interest of its own to protect. Had Sherring accepted the offer to perform at the Chicago Marathon, he would still be an amateur in good standing, according to the A. A. U.'s manner of vision.

The vitality of W. G. Grace is a subject for an epic, writes T. P. O'Connor in his new weekly, "The Game." Last week he was leading the Gentlemen of England eleven for a return match against this year's strong Cambridge eleven in the first match at Canterbury. In the second match at Canterbury, he scored 54 and 44 out of, and fielded and bowled nearly the whole of the second day and a cloudless sky. He was able to have a good game of bowls, see the horses exercised on Newmarket Heath, and to drive some miles in the country before reaching Fenner's for the day's cricket match. On the Wednesday he was first on the ground, fielded 20 minutes, but while the necessary 11 runs were obtained, caught the first train back to town, and was bowling the same evening in the Crystal Palace grounds in the London County Bowling Club's annual tournament, for which there were 106 entries. And in less than five weeks time he will have seen his 58th birthday. But he has not reached middle age yet.

CHURCHILL HEARS NO WORD OF KILLING OF WOUNDED

Natal Government Greatly Surprised at Extraordinary Telegrams of Ill-Treatment.

London, July 18.—Under Colonial Secretary Churchill imparted to the house of commons this afternoon the official reply to the government's inquiry in the alleged atrocities perpetrated on the wounded Zulus in Natal during the operations against the rebel chief, Bambata.

According to a telegram from the governor of Natal 3000 natives were killed throughout the operations and 2000 were made prisoners, including the wounded. The Natal government had no information about wounded natives being killed by the native forces.

The telegram confirmed the official version of Bambata's head being cut off for identification, owing to the decomposition of the rest of the body and of its being subsequently buried with the latter.

In reply to further questions asking what steps the government proposed to take in connection with the practical admission of the charges in connection with the treatment of wounded Zulus, Premier Campbell-Bannerman said there was no disposition either to excuse or to admit such practices.

The Natal government had no knowledge of the killing of the wounded Zulus, and was greatly surprised at the extraordinary telegrams sent out from Johannesburg imputing a wholesale massacre or ill-treatment of the native wounded.

COPIING 1,800,000 NAMES.
 Their're Policyholders and Their Votes Are Wanted for Reform.

Albany, N. Y., July 18.—Upwards of two hundred men and women to-day began the giant task of copying the names of the 1,800,000 policyholders of the New York State Mutual Insurance Company, in the interest of the interlocking policyholders' committee, which proposes to place a ticket in the field, to vote for at the annual election of the company next fall.

The list contains names from practically every part of the world, and about 1,000,000 of the Mutual Life makes up the remainder. All of the copying will be done by hand, and these in charge estimate that the work will be completed in nine days.

The list contains names from practically every part of the world, and about 1,000,000 of the Mutual Life makes up the remainder. All of the copying will be done by hand, and these in charge estimate that the work will be completed in nine days.

Samuel Schlemmer, counsel for the interlocking policyholders' committee, today sent to Otto Kelsey, attorney-at-law, in charge of the project, a telegram, protesting against the filing of any certificate of the nomination of the committee.

Alfred M. Shook or Harlow M. Higginbotham, on the administration of the Mutual Life Insurance Company, Mr. Higginbotham declared that the obvious purpose of the nomination of those men is to deceive the policyholders into the belief that the ticket is nominated by the policyholders' committee.

EDUCATION IN AFGHANISTAN.
 Assn. Issues Manifesto Declaring for a Broader Policy.

Lahore, Punjab, British India, July 18.—The Assn. of Education in Afghanistan has issued a manifesto in which it declares its policy on the subject of education in that dominion. He says education is regressing, but the fault does not rest with the government officials, who discourage education, creating the leveling tendencies. The Assn. wants the high-born officials to have a better education, and that the connection, or be changed. Henceforth, he says, education will be the sole path to state service.

TOO LONG ON THE SHELF.
 Only Cause for Complaint in Matter of Canned Goods.

London, July 18.—Since the canned meat scare, a widespread analyzing of every variety of samples of canned goods of every description has been going on at the request of the local government board.

With a few exceptions, the analysts' reports indicate that about the only thing which can be alleged against the canned goods sent to England is that the retailers keep them on their shelves too long.

So far as the examination has gone, apparently nothing has been discovered to bear out the recent scare, so parties interested, to remove the other complaints of.

 At San Francisco, July 18.—Members of the Electrical Workers' Union, in the employ of the United Railroads, decided this morning to go on strike. While willing to grant an increase of wages from \$3.50 to \$3.75 for ten hours' work, the company would not grant the eight-hour day.

The United Railroads announced that they would fill the strikers' places with non-union men.

 Picton, July 18.—Rev. W. L. Armitage, rector of the St. Mary Magdalene Church, prior to his marriage, which was solemnized by a Methodist clergyman at Cobourg, counselled his people, during his absence, to apply to Rev. Mr. Rice, pastor of the St. Mary Magdalene Church, for pastoral ministrations, in case of sickness or urgency. His people point out that ordinary visiting might be done by Rev. Mr. Seaborn of Milford, or Rev. C. R. De-pencler of Wellington, both Anglican priests.

ANDERSON AND RADCLIFFE ELECTED TORONTO DEPUTIES

Masonic Grand Lodge in Session—Order Shows Flattering Progress.

A thousand or more members of the Grand Lodge of Canada A.F. and A.M. are in attendance at the fifty-first annual communication at Massey Hall.

The grand master reviewed the work of the past year. The craft was in a healthy condition, the membership was increasing and the income (\$24,377) was \$1300 greater than last year.

Concerning the accumulation of unpaid dues, he urged every master to make this one of the important matters of the year, not by forcing payment under suspension, but to satisfy themselves of a member's ability to pay.

The following warrants had been issued during the year: Tottenham, No. 467 at Tottenham; Peel, No. 468, at Caledon East; Algoma, No. 469, at the City, Victoria, No. 470, at Victoria Harbor and King Edward VII. No. 471, at Chippewa.

Regarding rulings, which have been many, the grand master has set his face against the grouping of candidates for initiation. That which he taken separately in the first up to the charge, separately in the second up to and inclusive of the obligation and explanation, and separately in the third up to the raising.

At the afternoon session, Aubrey White, chairman of the committee on the condition of Masonry, urged the necessity for the selection of God-fearing and forceful men for the position of district deputies.

The election of the district deputy grand master held at the Temple last night resulted as follows: Erie District, No. 1.—Dr. A. N. Fraser, Thomastonville.

St. Clair District, No. 2.—S. ??? Petrolia. Land on District, No. 3.—Frank O'Neill, Thamesford.

South Huron District, No. 4.—J. S. Halley, New Hamburg. North Huron District, No. 5.—S. J. Cameron, Woodstock.

Wallington District, No. 7.—John Jardine, Hespeler. Hamilton District, No. 8.—Lyman Lee, Hamilton.

STRIKE INVOLVING 50,000 MAY BE CALLED IN GOTHAM

New York, July 18.—An ultimatum embodying a threat to order a general strike among more than 50,000 members of the building trades was delivered yesterday by the associated building trades to employers in this city.

The situation developed from a strike among 1500 plumbers, which began about two weeks ago. The strikers' places were filled by members of a union affiliated with the United National Association of Journeymen Plumbers.

Hon. David Glass. London, July 18.—Hon. David Glass, formerly of this city, is dead at Spokane, Wash. He had a notable public career in London, having been mayor for several years and a member of parliament for East Middlesex for the short time preceding the fall of the Macdonald government in 1873.

Killed While Playing on Track. Lachine, Que., July 18.—This morning while playing on the track, R. Snow, the 7-year-old son of Ned Snow of Lachine, was struck and killed by the Ottawa Express. The body was thrown about 30 yards from the track.

HAMILTON BEACH PROBLEM MADE YET MORE ABSTURSE

Request of the City to Permit Annexation Adds to Present Confusion.

The Ontario railway and municipal board have received from S. H. Tenn, city clerk of Hamilton, a report of the harbor and beach committee of the city council, endorsed by the latter body, asking that the government approve of the proposition that the city be allowed to annex Burlington Beach.

This further complicates a situation, none too easy of solution at the present time, arising out of the leasing by the government to the city of the beach, it being a portion of the crown lands of the province, and the sub-leasing of a right of way by the municipality to the railways.

Numerous deputations from Hamilton have waited on Hon. Mr. Cochrane, who has been considering the appointment of a beach commissioner to assist in the adjustment of difficulties.

Mr. Tenn has forwarded a petition, claimed to be signed by a majority of beach residents, in favor of annexation of the beach to the city of Hamilton. There is no apparent mention made of any consideration, monetary or otherwise, under which the beach would pass from the government's possession into that of the city.

Hon. Mr. Cochrane does not think it would rest solely with the board to decide whether or not annexation should be allowed. He thought there might be a question involved allowing crown lands to pass out of the province's possession as there was no precedent of the kind so far as he was aware.

Rebs Warden and Escapes. Elmira, N. Y., July 18.—With only a couple more months to serve, Ernest Hoffman, sentenced to the reformatory from New York City, for burglary, walked out of the front door of the superintendent's residence, where he was employed in the kitchen.

A Mammoth Excursion. Niagara Falls, July 18.—Six thousand five hundred passengers from Hamilton and Brantford, on account of the Greater's picnic, were handled in Niagara Falls today by the Grand Trunk Railway, and 1000 more to Buffalo. It required 125 coaches and 11 special trains to handle the business.

12,000 IMMIGRANTS PLACED WITH FARMERS IN ONTARIO

And Still the Cry is for More—Too Many Mechanics Coming.

Provincial Director of Immigration, Thos. Southworth, in commenting on the increasing number of immigrants, remarks that the proportion of mechanics and skilled laborers has also increased, so that the needs of farmers who require hired help are not being met to the extent that they might be understood.

Mr. Southworth considers the higher wages to be earned at other work a great difficulty in the way of obtaining men for farm labor. The railroads in particular, hold out inducements.
