## LIBERALS IN WEST CRITICIZING THE C.P.R. ISSUE

Agree That Company Should Not be Encouraged in Holding Lands From Settlement Free From Taxation.

### C.P.R. HAS THIS WEEK REPAIRED AN OMISSION

OTTAWA, Feb. 19.—(Special).—Three important things developed in the house this afternoon. They were:

(1) That the reference to the courts promised by Mr. Sifton in 1902 to ascertain the amount actually expended in the construction of the C. P. R., on which amount depends the application of the 10 per cent. limitation of profits today on the same code list, read for trial, but has gone no further, the company having agreed to have its rates controlled by the railway commission.

(2) That the C. P. R. had on Feb. 15, four days ago, written the minister of justice agreeing that the stock issue of 1904 should not be included in the cost of construction. This provision was the minister said, "inadvertently" omitted from the order-in-council authorizing the issue.

(3) That the western Liberals are in revolt against the government for failing to gain some corresponding advantage for the people in permitting the issue of stock to the shareholders of the company at par. J. G. Turriff and Dr. McIntyre voiced the complaint, the former urging that the exemption on C. P. R. lands be terminated.

The discussion was precipitated by W. F. Maclean (South York) on the motion to go into supply. Mr. Maclean referred to the order-in-council authorizing the C. P. R. capital stock increases. After pointing out that the order-in-council of 1904 did not provide as did others preceding, that the new stock should be removed from the application of the 10 per cent. clause, he observed that within the last six years the capital stock of the company had been increased by \$150,000,000, after the road had been practically built and its transcontinental character assured on a capital of \$65,000,000. This stock was issued at par and this parliament had allowed the shareholders to distribute a bonus equal to \$20,000,000 a year for six years, besides the dividends.

How The Melon is Cut.  
What did this amount to? That if a shareholder happened to own 300 shares of old stock he had the right to acquire 100 additional shares at par, which right he very often sold on the market at a premium, receiving therefor \$5000 or \$7500. The shareholder puts that money in his pocket and the man who buys the right goes to the treasurer of the C. P. R. and pays \$10,000 for the shares. That, said Mr. Maclean, was what was called "melon-cutting," the new kind of financing we were to have in Canada in connection with the C. P. R. every year or two at the most.

"To whom was the distribution to be made?" he asked. "Most of it to men outside of the country, and Canada," he proceeded, "presents the spectacle of every year making a free bonus gift of nine millions to shareholders in one of our corporations, while those who live out of our country. We have only \$100,000 to give to the sufferers in Italy, but every year we have \$9,000,000 of free cash to give to the shareholders of the C.P.R. If there is nothing wrong about it we ought to continue it. No wonder the reputation of the C.P.R. in the monetary centres of the world is very high. Anyone's financial reputation can easily be maintained if this kind of financing is allowed."

Treat to be Observed.  
When parliament chartered a railway company it granted that company powers for the purposes of the undertaking, either expressly or by implication. Among the powers was the right to issue securities. This was a trust that must be honestly and faithfully administered for the purposes of the undertaking and for all parties interested, including the public who were to be served by the line. The principle which should govern the incorporation of these companies, and he thought parliament would hold the view when it was brought clearly before them.

Parliament undertook to regulate the amount and issue of C. P. stock in the original charter of 1851. ### TAVISTOCK IN OXFORD CO. WAS WISH OF COUNCIL

Premier Whitney Upsets the Contentment of Mr. MacKay That There Was Gerrymandering.

Hon. A. G. MacKay attacked the government in the legislature yesterday for another piece of gerrymandering in attaching the new Village of Tavistock to Oxford County instead of South Perth, to which, he said, it naturally belongs. The population belonging to Perth and Oxford; the assessment, \$302,000 to Perth, and \$164,000 to Oxford. A petition of 155 ratepayers asked to be united to Perth. One ratepayer petitioned for union with Oxford. The reason for attaching it to Oxford was to weaken the vote of Valentine Stook, who defeated Hon. Nelson Monteith in South Perth, said Mr. MacKay.

Premier Whitney hoped he would not have to prick many more bubbles of this description. Mr. Stook had desired to have his residence in Tavistock, which created Tavistock, voted 8 to 3 on the motion to join it to the county, Oxford declaring that he would discuss emigration in the budget debate when the visit of the premier and the minister of agriculture in London would come up for attention, he proceeded to deal with technical education; one of the subjects which was not, but ought to be, been in the address. He called attention to the splendid technical school now being built at Halifax and taught by the Government. He was disappointed in not finding a technical school at Hamilton provided for after the speeches made by the premier and other ministers. (Opposition applause.)

Speaking of the railways, he said it was clear that they were prepared to go into the new country in the north.

### POLITICS IN FUNERAL

### Austria and Bulgaria to be Represented at Grand Duke's Obsequies.

ST. PETERSBURG, Feb. 19.—It has been decided that the funeral services in this city next Sunday of the late Grand Duke Vladimir will be a question of etiquette and precedence having been satisfactorily arranged. Emperor Ferdinand is at present in Vienna, and his coming to St. Petersburg will give him an opportunity to confer directly with Foreign Minister Iswolsky.

Francis Joseph, the emperor-king of Austria-Hungary, who was not especially represented at the funeral of Grand Duke Alexis, has intimated a desire to send one of the Austrian archdukes to the funeral of Vladimir, and Emperor Nicholas has assented to the proposal.

Considerable political importance is attributed to this step on account of the strained situation between Austria-Hungary and Serbia.

This situation still is critical, and it is freely declared in St. Petersburg that Austria will invade Serbia unless Serbia puts an end to her preparations. The trouble between Austria and Serbia arises from the annexation by the former country last fall of the Provinces of Bosnia and Herzegovina, which are inhabited mostly by Servians.

### SYNDICATE AGREES ON ARCHDEACON SWEENEY

Rector of St. Philip's Church Becomes Bishop of Toronto to Satisfaction of the Deadlocked Factions.

The Ven. Archdeacon J. Fielding Sweeney, rector of St. Philip's Church, is the bishop-elect of Toronto.

He was selected by the committees of sixteen, representing the deadlocked Thorneley-Cody factions, and appointed at the morning session as one who should prove acceptable to both. The committee consisted of Dr. N. W. Hoyle, S. H. Blake, K.C., Judge Harding, the Rev. C. J. James, W. H. How, M.L.A., Rev. H. Marsh, Judge Benson and the Rev. W. H. Vance for the Cody party, and the Rev. Provost Macklem, Rev. Canon Ingles, Rev. Canon Sprague, Rev. P. W. Powell, Dr. A. Worrell, K.C., A. R. Boswell, K.C., Dye W. Saunders, and Lawrence W. Baldwin representing the supporters of Bishop Thorneley.

Reporting to their respective meetings in the afternoon, Provost Macklem and Hon. S. H. Blake and Dr. N. W. Hoyle urged their adherents to ratify the choice. At 3.30, after two adjournments, the synod reassembled in St. James' Cathedral, and at 5.55 the scrutineers announced that the result of the seventh and ratifying ballot was as follows:

Archdeacon Sweeney with emotion in his voice asked leave of the synod to have Canon Cody read the result. When the last words of the chancellor had died away, the great assembly rose and sang the doxology, "Praise God All Blessings Flow." Dr. Ham accompanying on the great organ.

All the eyes were being sung, with the bishop-elect remained seated, with his face buried in his hands in silent prayer.

Then he rose and in low tones, almost choked with the feelings which were evidently surging up in his heart, announced that he would give his decision at 8.30 o'clock.

Rev. Bishop Reeve then pronounced benediction, and with the chimes pealing joyously the delegates dispersed to reassemble in the evening for choral service, when the bishop-elect is known.

A feature of the service was an impromptu address by Canon Cody, the officiating clergy were Rev. Canon Welch, Rev. Canon Ingles and Bishop Reeve. Most of the prominent clergy of the diocese were present, and many delegates, tho a considerable number of the visiting clergy had left for their homes after the election of the bishop.

The service opened with the hymn, "The Church's one foundation," rendered as a processional.

Then Archdeacon Sweeney addressed the congregation in the United States. Dearly beloved in the Lord. We met in this house of God on Wednesday of this week in order that we might supply the divine mystery in the beautiful litany of our church. As members of the bereaved diocese of Toronto we listened to a strong and striking sermon from Rev. Bishop Reeve, setting forth the great loss sustained in the taking away of our late beloved archbishop, and declaring the gifts which should be in him, who should be chosen to succeed to the duties and responsibilities of the high office of a bishop in the church of God.

And we heard the selection of the preacher's text, the suggestion of what was required "A good man."

My brethren, none of us who listened to the qualifications set forth, but realized how difficult of attainment they were. All who thought of the duties and responsibilities of a bishop of the church of God must have asked themselves "Who is sufficient for these things?" Then after this, strengthened by the passion of a urbed Lord, we proceeded to take a ballot.

"Brethren, I want to say now what I was unable to say in the deep emotions of this afternoon, that the presence of God's holy spirit was manifested in the humble and reverent demeanor of both clergy and laity in the spirit of brotherliness which prevailed. Not a single manifestation of feeling was evident to anyone attending.

"We thank our God that when we knelt at the gate, He opened. He brought us thru this session with the consciousness that God is in our midst. I will not leave you or forsake you. I am with you always, even unto the end of the age."

"Then we came to the end of our meeting, of our balloting. What a great, what a deep surprise to me, that I should have been chosen to be the first of the clergy. I appreciate this. I realize that I can do nothing apart from the guidance, help and strength of the holy spirit.

"I accept this as a call to the highest position, the loftiest office of the church of God have in their power to confer on the power and the grace and the strength to be given from on high, and relying on your loyal co-operation and support, and

SIR WILFRID ASSURES AN URGENT NECESSITY COMMISSION URGES

No Occasion for Alarm, He Says, In Replying to a Warning from Mr. Boyce of the Soo.

OTTAWA, Feb. 19.—(Special).—A. C. Boyce (W. Algoma) sounded in the ears of the government to-day the warning that Canada's interests were being jeopardized thru the action of the United States Senate in delaying ratification of the waterways treaty. Certain interests on the American side of the Soo were endeavoring to secure amendments which would accrue to the benefit of the Soo. The time was now endeavoring to be consumed in the execution of this work, with modern appliances, would not exceed five years.

"While making these remarks," says Mr. Butler, "I am not unmindful of claims to consideration due to the Montreal, Ottawa and Georgian Bay canal project. The economic and commercial aspect of which should be carefully looked into before it is undertaken. Many years would be required to complete it and meanwhile the demands for better water accommodation between the east and west must remain unmet. Both projects were desirable of execution and would probably some day be realized.

Deputy Minister Butler in his report strongly recommended an urgent the early enlargement of the Welland Canal. The time to be consumed in the execution of this work, with modern appliances, would not exceed five years.

The paragraph recommended for insertion in the tariff bill, placing a duty of one-tenth of a cent per pound on mechanically ground pulp, provides that this article shall be admitted free of duty from any country, dependency or other subdivision of a government which does not forbid or restrict the exportation or does not impose an export duty on mechanically ground wood or pulp for use in the manufacture of wood pulp. The duties recommended for print paper are: One print paper valued at not over two and one-quarter cents per pound, one-tenth of a cent a pound; and on paper valued at over two and one-quarter cents a pound and not over two and one-half cents a pound, two-tenths of a cent per pound.

It also recommends that the forest service investigate the question of the production of ground wood and wood pulp from other kinds of wood than those now used.

WINNIPEG, Man., Feb. 19.—(Special).—A monster delegation, estimated at from fifteen hundred to two thousand persons, representing various temperance interests of the province, waited on the government and legislature of Manitoba this morning to urge the abolition of the W.C.T.U.

## ACTION TO QUASH REDUCTION BYLAW

East Toronto Hotelman Pleads Two Bylaws Conflict and That Council Exceeds Power in Affecting 2 License Years.

The first gun has been fired in what promises to be a warm legal battle over the license reduction bylaw passed by the city council on Feb. 15. The city's legal department received yesterday afternoon notice of a motion to quash the bylaw to be brought before Master-in-Chancery Casgrain at Osgoode Hall, Wednesday, March 3, by the legal firm of Lewis and Arrall of Hamilton, on behalf of the applicant, John Brewer. Mr. Brewer is proprietor of the Eastbourne Hotel, 1600 Danforth-avenue, in the recently annexed district of East Toronto. Geo. Frederick Bell will also make an affidavit in support.

Eight arguments why the bylaw should be invalidated are advanced. "The one upon which most emphasis is laid is that there is still in force a bylaw passed by the East Toronto Council limiting the number of licenses in that municipality to five. This is held to clash with the reduction bylaw passed last Monday. Notice of the motion was filed at Osgoode Hall yesterday. It is dated Hamilton, Feb. 18, 1909. Corporation Counsel Fullerton declined to discuss the matter beyond saying that he wasn't alarmed as to the outcome. He referred, however, to section 56 of the Revised Statutes of Ontario, 1888, as being the section which bears most vitally on the case.

The section reads as follows: "In case an addition is made to the limits of any municipality, the bylaws of the municipality shall extend to the additional limits and the bylaws of the municipality from which the same have been detached shall apply to the addition except only by-laws relating to roads and streets, and these shall remain in force until repealed by bylaws of the municipality in which the addition has been made."

Speaking of A. M. Lewis of the legal firm who are taking the action, Fullerton remarked that he was a "clever young lawyer." He said further that Mr. Lewis had secured licenses of the city, with which A. M. Orpen is connected.

Mr. Lewis was in the Hamilton city council for several years.

A summary of the arguments advanced is as follows: 1. A bylaw passed by the municipal council of East Toronto, Feb. 9, 1909, limiting the number of liquor licenses to five in force, altho by an order of the Ontario Municipal and Railway Board on Sept. 29, 1908, East Toronto became part of the city of Toronto, 15, 1908. On Feb. 15, 1909, the city council passed a bylaw to reduce the number of hotel licenses to 10, the bylaw being signed by Mayor Oliver on Feb. 18.

Thus a double limitation as to the number of licenses was created. In consequence of this double restriction applicants for tavern licenses in the annexed district (East Toronto) have not the chance to secure licenses of a renewal thereof which other applicants for licenses have when the license commission redistributes licenses of May 1, 1909. The double limitation also interferes with the duties and discretion of the license commissioners as to East Toronto and illegally discriminates against the interests of taxpayers whose business interests would be benefited if the number of licenses granted East Toronto were increased at the start of the license year. The double limitation might result in licenses being granted to applicants in other portions of the city rather than in East Toronto. It might also result in the refusal of renewal of licenses to applicants, if there were six or more applications.

2. The city council exceeded its powers under section 20 of the Liquor License Act in seeking to make the reduction apply to motels, taverns, etc. Section 20 only authorizes the city council to pass a bylaw limiting licenses for one license year, whereas the council undertook to make the

HAMILTON, Feb. 19.—(Special.)—John McKee and John Toner, on the Indian list, were arrested to-night on the charge of being drunk. The police have discovered that there are 25 names on the list supplied to the Condon, while lists supplied to some other hotel keepers have only 50 names. This morning for the third time, Justice John McBride, who is on the Indian list, was fined \$20 in police court. The magistrate had the lists of prohibited persons gathered up from four to five hotels, and discovered that the number of names on them varied from 48 to 78. "You might as well tell the license commissioners that I am going to inform the government that the list is not being carried out here just because a proper system is not adopted," the magistrate remarked to the officers present.

The officers of the local garrison opened their quarters in the new drill hall to-night with a ball, which was one of the social events of the season.

The civic fuel committee met this afternoon and decided to continue its supply of coal direct from the mines. The order will be placed as soon as possible. There was no opposition to that course. Ald. W. H. Cooper was elected chairman of the committee.

Chief Ten Eyck and William Stewart had a narrow escape from serious injury while examining Mr. Stewart's grocery store at the corner of King and Pearl-streets after a fire. They lit a match, and there was a big explosion of gas that had leaked from a main.

**KNOWLTON POST BANQUET**

Thrilling Description of Battle of Gettysburg by a "Johnny Reb."

There was a large attendance of U. S. Civil War Veterans, at the annual banquet of Knowlton Post Grand Army of the Republic. Col. Hughes was toastmaster, and a quartet sang "The Star-Spangled Banner." The "Johnny Reb" was responded to by Capt. Jones, and that of the "President of the United States" by United States Consul Chilton; the "British Army and Navy Veterans" by George Peattie, "Crimean War Veteran" by the "Grand Army of the Republic" by J. S. Knowlton; the "Canadian Volunteers" by Sgt. Major Grainger of Batoche Column; "Our Dead Comrades" by musical response, "In the Sweet Bye and Bye" by "Our Friends, the Enemy" by Donatde Hoskins, an ex-Confederate, who was present at Gettysburg.

He said that previous to the battle there was ominous silence everywhere, even the winds had gone away and the banners hung limp on their staffs. The birds had left the trees and the cattle the fields, and the small squadrons of cavalry that were in the rear, between the two armies retired and took position on either flank. Yonder in front, stretching along the slope, lay the blue lines of the enemy, with their front were the hill tops, all frowning with wide-mouthed cannon, loaded to the lips. Soon there followed a steady fixed bayonets, in long lines of gray, came stealing out of the woods, and moved over the fields. These were Pickett's men, with picket rifles at their head. Suddenly there was a sound that shook the hills and made every heart quake. The signal was given. The whole slope was wreathed in smoke and flame, accompanied by a noise like the roar of a thousand cataracts. The smoke was higher and higher, spread wider and wider, hiding the sun; then, gently dropping back, hid from human eyes the dreadful tragedy. But the battle went on, and the road continued. After awhile, when the sun was sinking to rest, the noise died away. The soldiers came crawling back from the west, and lifting the coverlet of smoke, revealed fields carpeted with dead, men and horses, all matted and woven together with skeins of scarlet thread. The moon and stars came out, and the surgeons with their attendants appeared. As when the morning came there were stacks of legs and arms in the fields like shocks of corn.

The toast to "The Press" was responded to by Dr. Abbott, and at midnight Post Bugler Bolton sounded "lights out."

**THE ART EXHIBITION IS BETTER THAN EVER**

37th Annual of the O. S. A. is Formally Opened With Large and Brilliant Gathering Present.

It with less ceremony certainly will be more good feeling and hearty congratulation than usual the 37th annual exhibition of the Ontario Society of Artists was opened at the art gallery last night.

A notable gathering of the distinguished art lovers and literary people of Toronto crowded the rooms. The general verdict was that the average of the pictures hung was decidedly high and a marked advance on previous years. There has rarely been an exhibition before where much weeding out of inferior work would not have improved the whole. There is scarcely a picture this year which may not be justified by the hanging committee. That long-suffering president, who has had this exhibition in the past, it is only fair to speak well of it when the opportunity has arrived. It is a distinct compliment this year to any artist who has been admitted. The unfortunately true story that one art worker did not consider it so the more to be regretted.

About nine o'clock the president, Wily Grier, addressed those assembled on the attitude of the society, which had made itself a parental body, having other neighborhoods under its eye and still maintaining a kindly and affectionate interest in any art springing up in the province. Several little schools had developed from their work like the Conestoga school whose special power was in the human figure and landscape. Hamilton had developed an impressionist cult, and a little modest school at Meadowvale was notable chiefly for landscape and cleverness in animals. The pictures exhibited showed a wide range and ran through the whole gamut of expression. He hoped they would try to see them from the point of view of the artist, and at Ottawa, where they will be entered by the federal government, the C.P.R. will carry them all through the wheat fields of the west during the month of August.

Domes Proof of Another Wonderful Cure by Dodd's Kidney Pills.

Mark Southern Tells How They Rained Him From a Bed of Sickness. Cured His Kidney Disease and Made Him a Well Man.

SKIPTON, Duck Lake, Sask., Feb. 19.—(Special.)—After thirteen years' suffering from Kidney Disease brought on by an accident, Mark Southern, of Heelaker Farm, near here, is a well man, and it is not slow to state that he owes his cure to Dodd's Kidney Pills.

"It began with pains in my back," Mr. Southern says, "and across my loins, and of late years I became very weak and for days I had to keep to my bed. I had all kinds of advice and tried a great many medicines, but all to no purpose.

"Reading an advertisement induced me to give Dodd's Kidney Pills a trial, and I wrote for six boxes. After taking the first box I began to feel relief, and after using five boxes I felt quite well again. I am now able to get about my work and feel no effects whatever from the old complaint."

"Dodd's Kidney Pills clean all Kidney Diseases that start with a pain from disordered Kidneys right out of the system. That's how they cure Bright's Disease, Diabetes, Dropsy, Rheumatism and Backache. They do it by putting the Kidneys in good working order and they always do it."

**Music Lessons Free**

IN YOUR OWN HOME

A wonderful offer to every lover of music, whether a beginner or an advanced player.

Ninety-six lessons (or a less number, if you desire) for either Piano, Organ, Violin, Guitar, Banjo, Cornet, Sight Singing or Mandolin will be given free of postage and the student will be made to make our home study courses for these instruments known in your locality. You will get one lesson weekly, and your only expense during the time you take the lessons will be for the book, which is small. Write at once. It will mean much to you to get your free booklet. It will place you under no obligation whatever to us if you never write again. You are invited to know of our pupils write: "I had known of your school before, but I had started more in one term in my home with your weekly lessons than in three years with private teachers, and at a great deal less expense." "Everything is so thorough and complete." "The lessons are marvelous of simplicity, and my 11-year-old boy has not had the least trouble to learn." One administrator writes: "As each succeeding lesson comes I am more and more fully persuaded I made no mistake in becoming your pupil."

Established in 1898—have thousands of pupils from seven years of age to seventy.

Don't say you cannot learn music until you send for our free booklet and tuition offer. It will be sent by return mail. Write for it to: ELLIOTT MUSIC CO., Box 316, 242 Fifth Ave., New York City.

**THE ART EXHIBITION IS BETTER THAN EVER**

37th Annual of the O. S. A. is Formally Opened With Large and Brilliant Gathering Present.

It with less ceremony certainly will be more good feeling and hearty congratulation than usual the 37th annual exhibition of the Ontario Society of Artists was opened at the art gallery last night.

A notable gathering of the distinguished art lovers and literary people of Toronto crowded the rooms. The general verdict was that the average of the pictures hung was decidedly high and a marked advance on previous years. There has rarely been an exhibition before where much weeding out of inferior work would not have improved the whole. There is scarcely a picture this year which may not be justified by the hanging committee. That long-suffering president, who has had this exhibition in the past, it is only fair to speak well of it when the opportunity has arrived. It is a distinct compliment this year to any artist who has been admitted. The unfortunately true story that one art worker did not consider it so the more to be regretted.

About nine o'clock the president, Wily Grier, addressed those assembled on the attitude of the society, which had made itself a parental body, having other neighborhoods under its eye and still maintaining a kindly and affectionate interest in any art springing up in the province. Several little schools had developed from their work like the Conestoga school whose special power was in the human figure and landscape. Hamilton had developed an impressionist cult, and a little modest school at Meadowvale was notable chiefly for landscape and cleverness in animals. Ice Racing World's Record At Delorimier Park • Boxing Driscoll Wins • Hockey Lindsay 5 T.R.C. 1

Note and Comment

The class of racers on the Canadian tracks this winter was best exemplified at Montreal yesterday, when Doris B., the victor, plying mare, made a world record for the fastest four heats on ice, and then she had to do her best to defeat Merry Widow, the New York mare taking the first heat.

The State of Montana has legislated against betting on horse racing, except in so far as it applies to county fairs and there is, accordingly, a corresponding boom in county fairs in that state.

Jem Driscoll, the new featherweight champion, who secured the title by his victory over Abe Attell last night in New York, was born in Wales in 1881, and has a wonderful record. He stands five feet five inches tall, never has been defeated, and has many knockouts to his credit.

In 1895 Driscoll stopped Jack Roberts in seven rounds in London, defeated Johnny Summers in two rounds in Wales, knocked out Charley Lambey, then Bowyer, in fifteen rounds at the National Sporting Club, and then put Fred Cullen and Harry Mansfield to sleep in three and fourteen rounds, respectively.

Driscoll boxed a six-round draw with Freddie Welsh in Wales, and then knocked out Arthur Ellis and Jack Roberts, in two rounds, in London. He then won the championship of England by knocking out Bowyer out in seventeen rounds at the National Sporting Club, and then he visited the United States, and his first appearance was in New York last November, when he made Murty Baldwin look like an amateur in a six-round bout.

While the hoisted baseball managers are warring amongst themselves, they regard the veteran players, who are being used liberally, with envy, even though they are themselves in touching mood.

CITY BOXING TOURNEY

Fifteenth Semi-Annual Tournament Begins Next Friday Night.

The tournament, which opens next Friday night at the fifteenth semi-annual city amateur boxing tournament, usually held in Mutual-street, and has been given earlier in the season, is transferred to the well-heated arena at Riverdale. With Bob Day and Hilliard as referee, the event will be filled this time. Sam Bailey is also an absentee, but he is in town this morning in a class of 105-pounds. Entries close next Tuesday at Wilson's, 257 Yonge-street. The ticket seat arrangements are just the same as in Mutual-street. The ticket seats are \$2 for the three nights, and the same opening at noon to-day at Wilson's.

LONGBOAT STAYS AWAY

Tom Longboat is still secluded in the east. He did not come to Toronto, as per schedule, and only a few went to the depot expecting to greet him. The Tom Flanagan and one or two Irish-Canadians were on hand. Harry Pollock, partner of Pat Powers, will be in town this morning with the expectation of inducing the Indian to keep his engagement with Shrubb in Buffalo, to the general feeling in Toronto is that the race will be postponed. Tom Flanagan feels very much aggrieved at the manner Longboat is treating Powers and Shrubb in the matter.

Class C, City League

In the Class C City League, last night Royal Glants won two from Frontenas and Royal Colts two from Troquois.

F. A. Hoover's New Barber Shop

F. A. Hoover has a fine new barber shop in the new wing of the Conventer Life Building at the corner of Queen and Victoria-streets. Entrance to the shop can be made on both Queen and Victoria-streets. The furniture of the shop is all new and of the most modern kind. A staff of capable men are employed. Popular prices prevail. Hair shaves are shined at five cents a shine. Mr. Hoover was manager at Baxter's for three years, which in itself is a record.

Doris B. Defeats Merry Widow Drops One Heat in Free-For-All

Winner Sold With Field in Pools at 10 to 8 King Allen Beats King Bryson—A Match Race.

MONTREAL, Feb. 19.—(Special).—There was a large attendance at Delorimier Park this afternoon to witness the day of the carnival races under the auspices of the Montreal Driving Club, and those who journeyed over from New York to see the track were well repaid for their trip, as they witnessed two of the best races ever seen on ice. The club saw fit to change the program and put on the 216 trot and the free-for-all to-day, and to say that there was a good contest in each race is drawing it mild, for Doris B. had the time of her life winning the decision. Driscoll won four battles on ice in 1902, scored four knockouts and time boxing George Dixon to a draw in six rounds. He took part in six fights in 1904, three of them ending in knockouts.

In this race Merry Widow (2:19), the gallant little mare, that had won five straight races here, was favorite, at \$10 to \$8 over the field, which consisted of Doris B. (2:30) and Black Bill (2:44). The fact that Doris B. is a high-class free-for-all was entirely overlooked by the talent who fell over another to-day. Doris B. was in as good a race as any that has ever been run on ice, and she was a grand one, inasmuch as there never was a time through the four heats that Doris B. was not seen between the first two—Merry Widow and Doris B. The Widow drew the pole and led three times, but was overtaken by Doris B. in the second heat, which was negotiated in 2:17, and at this stage it looked like she was a sure winner; but, as the saying goes, there is many a slip between the cup and the lip. Doris B. beat her next heat, and also in the race. The second heat was a brilliant contest. Merry Widow led to within fifty feet of the finishing line, when Herrington, by a Herculean effort, got Doris B. up in time to win by a neck in 2:16, which lowered the track time held by Davy K. Then the Pictou mare led from wire to wire in the next in 2:14, and came right back to win the fourth and final heat to-day in a long way out of her class, as a manner of credit must be given to Ed. Herrington for the excellent condition Doris B. was in, as the race was one of the best paces that ever set foot on an ice track, and at the same time it was a grand one, inasmuch as it was the reputation of Merry Widow as this mare, who is eligible to the 216 class, and she is one of the best of her class.

The other race of the day, the 216 trot, was also most interesting, and proved a great betting race. King Allen sold for \$10 to \$8, and he made good, after losing the opening heat to the Toronto gelding, King Bryson. The latter, in the absence of Owner Sam McBride, was in the hands of Jack Romberg, who showed improved form over his race Wednesday. He won the opening heat in 2:25, after a furious drive, and he was in the lead in the second heat, but his condition was not the best, and he could not live the race, especially as King Allen came back in 2:24, and he won in 2:23.

During the afternoon Malcolm McEln, the well-known sportsman from Brantford, made a match with Oscar Clement of Quebec to race the Toronto gelding, Bay Billy, against the Queen's horse, N.H. (Martin), on Saturday, Feb. 27, at five miles, for \$100. Each side posted \$300 with David Parker, proprietor of the track, to act as referee. The balance to be put up on the day of the race. This match has created an immense amount of interest among the horsemen, as each horse has a host of admirers. The following is the summary of to-day's races: 216 Trot, King Bryson, b.g., by Bryson; Sam, McEln, Toronto (Romberg) 1 2 3 4; Baby Girl, blk.m. (Hodson) 5 3 2 1; Lady Ione, b.m. (Brewster) 4 5 4 6; Joe Scott, blk.g. (Lavery) 2 4 3 1. Free-for-all race, purse \$400—Doris B., br.m., by Gratiair, R. 2 1 1 1; Merry Widow, br.m., by Red Pac; Heppburn, Pictou (Herrington) 1 2 2 2; Black Bill, blk.g., by Thornton; R. W. Stewart, Ontario 1 2 2 2; King Bryson, b.g., by Bryson; Sam, McEln, Toronto (Romberg) 3 3 3 3. Time—2:17, 2:16, 2:14, 2:16. World's record for race on ice.

NEW FEATHERWEIGHT WORLD'S CHAMPION

Jem Driscoll Outpoints Abe Attell Ten Rounds at New York.

NEW YORK, Feb. 19.—The round bout tonight between Abe Attell and Jem Driscoll, the champion featherweight of England, resulted in a victory for Driscoll by the decision at the close. Long before the little boxers clambered thru the ropes every round Driscoll's back aisles were jammed. Driscoll remained a favorite in the betting at 10 to 8. The fighters weighed in at 5 o'clock and both tipped the beam at 124 pounds. After a long wrangle Charley White was selected as referee. The referee and Driscoll looked after the Englishman. Attell was the first to enter the ring and was cordially greeted. He wore light bandages on his hands. Driscoll followed shortly after by Driscoll, whose hands were also bandaged. Referee Charley White called the men to the center of the ring and gave them their instructions. The gong then rang for the bout.

Driscoll Leads at Outset. FIRST ROUND—Driscoll went right with his left and Attell right with his left. Driscoll's left went to the face three times and Attell sent left to the wind and Attell right to the nose. Driscoll missed two swings as Driscoll sidestepped and the American falls against the ropes. Driscoll's left went to the stomach and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

SECOND ROUND—Attell's left went to the stomach and Driscoll's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

THIRD ROUND—Attell's right reached the stomach and Driscoll's left to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

FOURTH ROUND—Jem staggered Attell with a solid right in the jaw. Attell reeled, but the Englishman's right arm was steady. Driscoll put two lefts to Attell's face and shook him up with a solid right in the ear. Attell reeled to the stomach with both hands. Jem cut Attell's eye with a left and then put the left to the wind. After a break the changed lefts on the mouth. Driscoll's left went to the nose and to the mouth. Driscoll's right went to the nose and to the mouth.

FIFTH ROUND—Attell jabbed left to the nose and Driscoll's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

SIXTH ROUND—Driscoll blocked a left and hooked a left to Attell's bad eye. Attell jabbed nose with left and Driscoll's right to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

SEVENTH ROUND—Attell's left was blocked, but his right went solid on Jem's ear. Driscoll came back with a left on nose. Attell put a left on nose and to the jaw, staggering Driscoll. Attell battered the stomach and Jem jabbed left to the mouth. Driscoll's left went to the heart. Driscoll's left went to the heart. Driscoll's left went to the heart.

EIGHTH ROUND—Attell's left was blocked, and Jem jabbed left to the mouth. Attell landed right on the head; then a swap of lefts on face, followed by Jem with a left to Attell's chin and right on ear. Driscoll put a left on nose and a good right on ear. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

NINTH ROUND—Attell's left was blocked, and Jem jabbed left to the mouth. Attell landed right on the head; then a swap of lefts on face, followed by Jem with a left to Attell's chin and right on ear. Driscoll put a left on nose and a good right on ear. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

TENTH ROUND—Both men were strong. Jem put a left to Attell's mouth, and after a clinch Driscoll sent a left on Attell's bad eye. There was another clinch, and Driscoll put a left on Attell's chin and ear. The Englishman landed left on breast and Driscoll hooked a left to the nose. Driscoll's left went to the nose and Attell's right to the nose. Driscoll's left went to the nose and Attell's right to the nose.

No decision was given by the referee, but it was the opinion of a majority of the members of the Christian Missionary Alliance, to be held next week. Preceding this convention, he has been a series of Bible expositions in the West Queen-street Mission, corner of Northcote and Queen-streets, and will speak every night this week at 8 o'clock.

Lindsay a Great Team OUTCLASS T.R.C. 5 TO 1

Stratford Wins at Warton—Midland Has a Lead, While Ingersoll are Tie at Milton—Queen's Here To-night.

On slushy ice, Lindsay Midgits defeated T.R.C. at Mutual-street last night in the semi-final of the O.H.A. semi-final by the score of 5 to 1, the visitors leading at the interval, 4 to 0. Lindsay, therefore, are victors of the round by 11 to 2.

The Midgits were all to the mustered, being represented by the fastest and most advanced team seen here in years, and last night, according to the play, they did not have any faraway away from them. Randall, the midgite right wing for the visitors, was, perhaps, the star, especially after he had allowed Reg. Blomfield, formerly of the Argos, to run Randall second for first honors. Cote is also good at left wing, while the defence play a steady and consistent game. T.R.C. only getting inside them about three times during the whole night. Stoddard acted like one unmythical, but his goal was not scored. Bricker was best for T.R.C.

The largest intermediate, even senior, O.H.A. game, was played at night, Lindsay running a special train, but the game was marred by the accompaniment of Reserve Sargent of Orilla, who by his raw runnings got himself into bad odor with the crowd, especially after he had allowed Lindsay to count a goal when he had rung his bell three seconds before the puck scored, and was happened just after T.R.C. had scored a goal after the referee had rung his bell.

No doubt Sargent tried to be fair, but the task was altogether too big for him, he being clearly to see when to put a player off and when not and if it had not been for the prompt handling of Bricker and Manager Short of T.R.C., the game would have been a different matter. Sargent might have been severely handled by some of the enraged cranks, all of how a certain referee felt in Collingwood four years ago when the referee Barrie team the game, when the score was a tie and Sargent then captain of the team, but he was not so lucky, but he denied it when appealed to by the referee. However, any referee who will only see one in a life time will give such a raw exhibition as last night.

The team of T.R.C. was: Goal, Bricker; point, Ross; cover, Heil; rover, Kent; centre, McLaughlin; left wing, McMillan; right wing, Sargent; Orilla.

Lindsay (5): Goal, Newton; point, Kovalev; cover, Sullivan; rover, Blomfield; centre, Heil; left wing, Cote; right wing, Randall.

T.R.C. (4): Goal, Bricker; point, Ross; cover, Heil; rover, Kent; centre, McLaughlin; left wing, McMillan; right wing, Sargent; Orilla.

THE ANGLICAN SYNOD.

While the Canadian Anglicans have to be accorded congratulations on their final success, after not too protracted a struggle, in agreeing on a successor to the late archbishop, it cannot be said to have made for public edification.

In days when the press was not so ubiquitous and so eager to cater to the popular demand for information, the internecine strife of one church party against another did not come to light till the first bitterness had died away. But in this twentieth century dimension is inflamed and backs stiffened because the eyes of the whole community are turned on the anything but stirring spectacle of the election of a shepherd of souls being conducted in the manner and after the style of a political contest.

Probably a democratic country has an atmosphere uncongenial to a church essentially of differing origin and aspirations. Nor is it easy to see how any other method can be devised which will avoid the characteristics that have bled the proceedings of the synod open to reproach.

The best that can be said is that perhaps the mischief is not so bad or fear-reaching as it appears to the outside public. Once the election is effected, loyalty to the church exercises a remedial influence, and the new bishop is himself the best alleviator of ruffled feelings and injured tempers.

The World does not doubt that Bishop Sweeney will prove a worthy successor in the bishopric of Toronto and, if it is possible, lead the contestants of the future to better considered methods of reaching an agreement.

INFLUENCING THE COMMISSIONERS

It is rather amusing to read of the indignation with which police officials discuss the temerity of half a dozen of the men who sought to bring the outside influence upon the police commissioners for an occasional Sunday off.

Influencing the commissioners? Isn't it terrible? One would think that promotion on the force always went on and that such a thing as "pulling wires" was an unheard-of thing.

Toronto is supposed to be as quiet and orderly a city as any on the continent. The Sunday laws are especially well observed, yet it is a fact that there are more policemen on patrol duty on Sunday than on any other day of the week. To rearrange the schedules so as to permit a few men off each Sunday would not affect the adequate protection the citizens are entitled to, nor would it be an added expense. Chief Grasset has been heard before now to lament that it was becoming harder to get good recruits for police duty. Can anyone doubt it, when a modest endeavor to secure a little easement is met with such publicly given abuse from those in authority?

SWISS REGULATION OF WATER POWER.

Switzerland, like other nations, has been seriously concerning itself over the development and control of water powers, of which its mountainous character gives it no lack. This, more especially as regards the production of electricity, and a recent number of the United States consular and trade reports, contains a communication from Vice-Consul Leo J. Frankenthal, stationed at Berne, regarding the use of water-power as controlled by cantonal laws and regulations. The law of the canton of Berne provides that the canton controls the water-power and grants concessions, and if the public interest demands it, water-power will be utilized direct by the government. No grant may be injurious to the public nor may natural beauties be destroyed. This last requirement is of course due to the bene-

fit derived by Switzerland from its being largely the playground of Europe.

Concessions granted to communes, that is, cities or to companies or associations whose entire stock is owned by communes, are not limited in time, but all other concessions are for fixed periods, after which the concession reverts to the canton which then determines whether it will continue the works or grant a renewal of the concession for a further term. It is noteworthy that care is taken to prevent combinations of corporations using water-power directly or for the generation of electricity for concessions are declared null and void if the works are turned over to third parties contrary to law. The same result follows if the holders do not commence actual work within three years or fail to place their buildings in running order within the time specified in the concession, or if the works remain idle for two consecutive years, or if the stipulations of the concessions are not followed after warning has been given.

It is the policy of the Swiss Government not to permit the exploitation of its natural resources for the purpose of building up large private fortunes. What is aimed at is to encourage their utilization for the public benefit and to ensure the supply of cheap and efficient power for the development of manufacturing enterprise, and for the operation of the railroads which in Switzerland, as generally on the continent of Europe, are owned by the government. Just now a commission is engaged in investigating the matter of the railroad operation by hydro-electric power.

Switzerland, too, is confronted with the question of the transmission of electricity to foreign countries. Its limited area and its wealth of water-power make this very important, and the federal council has now under consideration the proposition of exported power and the nature of the conditions under which it is to be allowed. What has been proposed is that where power is not required in Switzerland, permits may be granted for a period not exceeding twenty years, but subject to revocation if necessitated by the public good. If damage results to the person or corporation holding the grant thru the forfeiture, the amount is to be settled by the supreme court of the confederation. The accumulating proofs of the importance attached to water-powers thruout the civilized world should make Canadian authorities all the more alert in conserving them and providing that they shall be made subservient to the general good.

BOSTON'S PROPOSED CHARTER.

In the new charter proposed for the City of Boston there are some novel features. The mayor is to have a four year term and full power over all heads of departments. Instead of the present common council a board of aldermen, consisting of nine members, is proposed, with little legislative power, but authorized to pass upon, not originate, city appropriations.

The new charter provides for an advisory board of five public-spirited citizens, to aid the mayor by advice and suggestion. And tho' the majority term is four years, the electors are to say in the second year of his service whether there is to be an election at the next municipal poll. This, of course, is in effect giving them the right of recall. Any candidate can stand for the mayorship who files nomination papers signed by 5000 qualified voters.

RELEASED ON BAIL.

Jacob Wood, charged by the Grand Trunk Railway Company of conspiracy to defraud the company out of money by the sale of bogus tickets was released by Judge Winchester yesterday on his own nominal bail for \$200, and bail furnished by his father, Aaron Wood, for \$1000, his two sisters Katie and Ray Wood each for \$100 and his brother Alie Wood, who presented a marked cheque for \$700.

Lakehurst Sanitarium Not Sold.

An item appeared in The World of a recent date stating that the property of the Lakehurst Sanitarium at Oakville had changed hands. This does not mean that the business has been disposed of, as it will be continued in different quarters under the same efficient management. When this change of quarters is made announcement will be made in The World.

RURAL PHONE COMPANIES WOULD ENTER ST. THOMAS

New Association is Formed and Negotiations are Promptly Begun With City Council.

ST. THOMAS, Feb. 19.—(Special.)—Representatives of a number of rural telephone companies to-day organized the Southern Counties Independent Telephone Association with President Dr. Doan, Harriestville; first vice-president, Dr. McEwen, Melbourne; second vice-president, Owen Westover, Maitland; secretary, Dr. Crane, Wallace-town. The attendance was large. Provincial and municipal ownership was advocated by several speakers and a resolution was unanimously adopted with this preamble: "Having in view the ultimate government ownership of trunk lines and the municipal ownership of local lines."

The recommendations included one to refuse to link with the Bell Company but to promote independence, one favoring the establishment of trunk lines between rural communities and one to negotiate with the city for entrance to St. Thomas. A committee was appointed and waited upon the city council to ask that a renewal of the exclusive franchise to the Bell Company be not made, but that a committee be appointed to meet the rural phone association on a proposition to bring the rural phones into the city. St. Thomas could be so doing get connection with thousand rural phone users.

The mayor promised that a committee would be formed and negotiations opened.

HAWAII AFTER JAPS, TOO.

HONOLULU, Feb. 19.—A bill to be presented to the legislature prohibits aliens from fishing in Hawaiian waters. Another imposes a heavy tax on fishing sampans of over thirty inches beam. The Japanese practically are the only orientals engaged in the fishing business, and the only ones using sampans. The only alien fishermen in Hawaii are Japanese. The bills will be introduced by Senator Coelho, a Republican, who is a native Hawaiian. The general sentiment here is unfavorable to the measures.

WANT SUBWAY AT JORDAN.

WELLAND, Feb. 19.—Fruit growers of Jordan and vicinity have appealed to the railway commissioners to compel the Grand Trunk at Jordan to build a subway under their tracks.

At the Star.

Manager James H. Curtin has decided to give his patrons musical comedy this season with the "Broadway Gaiety Girls" instead of burlesque, and has secured the screaming two-act musical farce, "A Trip Thru Hell" as his vehicle.

Mike J. Kelly has been engaged for the principal comedy role. Manager Curtin has surrounded him with a company of 40 artists and a wealth of beautiful scenic and electric effects. The musical numbers contain all the latest hits of the summer in the big New York reviews. A chorus of 25 with wardrobe that are said to be marvels of beauty will make this one of the most pretentious productions traveling.

As an added feature six high-class vaudeville acts are introduced, and among such well-known artists and stars as Graham and Randall, in up-to-date travesties; Crawford and Montrose, whirlwind singers and dancers; Sherman and Loken, comedians and bangs; Miss Dorothy Collins, the lady monologist; The Broadway Dancing Girls, in characteristic Russian dances; Eugene Rogers, the phenomenal bass, and the Sisters Burnam, known as "The Female Reporters."

The engagement of this company is for one week only at the over-popular Star Theatre, with matinees daily.

Frank Gotch, the champion of the world in the wrestling line, will be seen at every performance, and he will deliver a monolog besides meeting all comers. To encourage comers Mr. Gotch will give \$50 to any one he falls to throw in fifteen minutes.

SAVED BABY'S LIFE.

Mrs. T. Osborn, Norton Mills, Vt., says: "I have no hesitation in saying that Baby's Own Tablets saved my baby's life and I cannot say enough in praise of this medicine. He was so weak and sickly that he took no notice of anything and cried so much that I was worn out caring for him. After giving him the Tablets there was a great change, and he is now a bright-eyed, laughing baby, the pride of our home." Baby's Own Tablets cure all stomach troubles, such as colic, worms, colds, destroy worms and keep little ones healthy and happy. Sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

AN HEIRESS AT 60

Brooklyn Merchant's Will Leaves Estate to Long Neglected Daughter.

NORTHAMPTON, Eng., Feb. 19.—Mrs. Elizabeth Bird, the principal beneficiary under the will of the late Samuel Roebuck of Brooklyn, who died in that city Feb. 9 last, keeps a small grocery store in a poor section of this city. She is about sixty years old. She said to-day that her father deserted her mother over fifty years ago, leaving her practically penniless. Of recent years Mr. Roebuck sent Mrs. Bird Christmas tokens, but aside from this she knew little about him. Mrs. Bird is the mother of fifteen children, ten of whom are alive.

Roebuck left a large estate. He was for many years the head of the Roebuck Weather Strin and Wire Screen Company of Brooklyn. He was married twice. He was 81 years old, and left a widow, who is 35 years old. Early in this year a commission was appointed to enquire into the mental condition of Roebuck, and it declared him to be sane.

EATON'S DAILY STORE NEWS

The Industrial Exposition in Full Swing

Thousands Enjoying it Every Day

DAY by day the crowds grow bigger, and the throngs that swarm the store show their appreciation and interest by exclamations of delight and wonder.

Have you paid the Exposition a visit yet? Have you seen the wonders of modern manufacture in full operation?—the looms, presses, mills, machinery, the different devices and displays of skill and cleverness? It's an opportunity of rare occurrence and one not to be missed by old or young.

And equally attractive are the displays of merchandise you'll see everywhere you go, with price tickets telling of such price lowness that to buy is to save.

COME MONDAY AND COME IN THE MORNING

A Huge Mill Purchase of Oilcloths and Linoleums Starting a 4-Days' Big Clearing

Of all big crowd-bringing attractions and busy places in this store the oilcloth section should be the busiest for the next four days, for we've ready for you carloads of oilcloth and linoleum of the most wanted kind.

We secured the complete overstock of one of the best makers of the country—his annual spring clearance of discontinued lines.

You remember the astonishing savings similar past occasions have offered you—this year's purchase offers a greater quantity of perfect goods, larger selection of all rich wanted designs, better qualities and therefore bigger savings.

MONDAY STARTS THE BIG EVENT; THESE FEW PRICE HINTS SUGGEST WHAT'S IN STORE FOR YOU:

Heavy Printed Linoleum, 2 yards wide only, representing a vast lot of manufacturers' over-makes, strong range of best designs—tile, block, floral and conventional effects, well printed, thick and durable, over 25,000 yards to clear. Square yard..... .29

Heavy Quality Floor Oilcloth, in all the standard widths, 36, 45, 54, 72 and 90 inches, floral, block and tile patterns, light and medium shades, about 20,000 yards in all. Price, per square yard... .19

Extra Heavy Floor Oilcloth, perfect goods, in all widths, splendid range of bright and tasty patterns, light and medium colors; sure to please. 15,000 yards in the lot. Price, per square yard... .23

Extra Heavy Printed Linoleum, 2 and 4 yards wide, fine quality, astounding values, handsome patterns; not a poor one in the lot. This is a linoleum chance of the season. 35,000 yards to clear. Square yard..... .33

—Third Floor.

Men! Have You Seen Our 10.90 Black Suits

"THE TIME SAVER"

Customers' Deposit Account Department

What does it mean? It means that you will save time and dispense with worry, when shopping, if you have an account.

Why? Because you will not have to pay for goods at the counter, wait for change, have goods sent C.O.D., or carry money with you when purchasing.

You simply make a deposit at customers' Deposit Account Department, Cash Office, Basement, where you will be given a cash book and a D.A. number.

Make your purchases the same as usual, after which give your name, address and D.A. number and pass along to where you next wish to buy. A Transfer Card may also be used and the total of your purchases charged, when your day's shopping is finished, to your account. You keep on purchasing at any time until the amount at credit is exhausted.

Telephone orders, mail orders and orders given drivers, can be charged to your account just as easily as when you buy personally in the store.

You can make withdrawal or deposit whenever you wish. We allow 5 per cent. on daily balance up to \$500.00, and furnish a statement every month.

funds to distribute among its shareholders as a division of profits, he did not suppose that the newspaper editors would protest. This distribution of stock was a matter in which the public was in no way concerned. The only question was whether the company was living up to its contract. If it was not it should be compelled to.

Another Way of Paying Dividends.
It must be remembered that the country put a large amount into the construction of the C.P.R. The company did not want to pay the profits of the railway on the form of dividends. If they did that, the people would understand the question, and a howl would go up over a reduction of rates; therefore the company took this way of issuing a bonus to its original shareholders who had been earning from 24 to 28 per cent a year on their investment.

Proceeding, Mr. Maclean said: "The company is entitled to a fair return on its stock issue, or on any money put into security of the road, and if \$25,000,000 is to be earned upon, when I say \$25,000,000, I say an injustice is done to the people who use the road. Before the government authorized the issue of any further capital, it was bound to do two things: First, to scrutinize the reasons advanced and the objects given for the request for additional capital; second, to examine the treasury of the company and its resources with a view of ascertaining whether it could not provide for the new undertaking out of any resources then in hand, or from any unexpended portions of the immense money and land grants given to the company by the state. If the bond issuing powers of the company, as provided, or as might be provided by law.

ELECTION LISTS ENQUIRY

Premier Roblin Grants One to Disprove Laurier Statement.

WINNIPEG, Feb. 19.—In the legislative Premier Roblin, in reply to the opposition request for a committee of enquiry into alleged grave irregularities in the preparation of the provincial voters' lists used in the late Dominion elections, said he would grant a committee of enquiry, not because of the opposition's demand, but because of Premier Laurier's allegation that the provincial lists were the cause of the Liberal defeat, and because of the Clifford Sifton's subsequent statement to the same effect.

The committee nominated consists of Premier Roblin, Hon. Messrs. Campbell, Caldwell and McKim and Messrs. Lyons, Bonnycastle, Laurence, Bernier, Morris and Walton.

The committee has been given power to take evidence under oath and send for all persons, papers, etc.

The premier stated to your correspondent that if possible he would summon Mr. Sifton himself.

APPLICATION TO PARLIAMENT

Take notice that an application will be made by the Corporation of the Township of York to the Legislative Assembly of the Province of Ontario to have it declared that the said Municipality shall be authorized and empowered to appropriate or otherwise acquire from the Toronto General Burying Grounds Trustees sufficient lands for the purpose of opening up a highway from north to south through the said Cemetery, such highway being required for the purpose of connecting streets running north and south through the Town of North Toronto and the portion of the Township of York lying north-east of the said Cemetery with streets running in the same direction through the portion of the township lying south of the Cemetery.

The following is a description of the lands proposed to be expropriated or otherwise acquired: All and between those certain parcels or tracts of land and premises situate lying and being in the Township of York, the north-east corner hereof, being composed of lot number 28 of registered plan number 895, part of a reserve to the north of said lot number 28, part of township lot number 19 in the third concession from the Bay, and the north-east corner hereof, being composed of lot number 5, containing by admeasurement 2.22 acres more or less, and is more particularly described by the centre line as follows: Commencing at the south-east corner of lot number 28 of said plan number 895; thence easterly along the southern limit of said lot number 28, 23.23 feet to the said centre line; thence north 11 degrees and 30 minutes, west along said centre line 136.8 feet to the southern limit of said lot number 147 of said plan number 5; thence north 14 degrees and 18 minutes, west along said centre line 172 feet to the southern limit of Mertonville, the north-east corner hereof, described being 33 feet on each side of said centre line. Excepting therefrom the right of way of the Belt Line Railway across said parcel herein described. All courses magnetic of Jan. 21, 1899. Solicitors for the Applicants, The Corporation of the Township of York.

Manly Strength.

How to Regain it Without Cost Until Cured.

Manly strength—strength of brain and body, is nature's highest perfected work. With it man is successful; without it failure. Nearly all men have been led by a constitution to build such a structure upon, but through foolish dissipations have wasted the material nature gave them. Men live too fast these days. The search for imaginary pleasure, trying to squeeze the happiness of a lifetime into a few years, exhausts the strength, and they are wrecked in man's grandest ambition—robust strength of brain and body.

OF INTEREST TO WOMEN

A New Style 'Merry Widow'

The knell of the Merry Widow hat has sounded, and young women who are anxious to be at all times correctly attired have put their Merry Widows away with a passing sigh.

MISS LAURETTE TAYLOR.

This new hat is built somewhat upon the mushroom lines, with a facing of heavy satin, and a wreath of effect of harmonizing tints.

Youth and Beauty.

Actresses are commonly accused of affection, of carrying their stage mannerisms, their striving for effects, into common everyday life, and so of losing one of woman's chief charms—her naturalness and sincerity.

On the other hand, the woman who does not think, who just spends her life in caring for herself, who is not worried about anything, but takes life easily and easily, who is caring not a fig for the rest of the world—she is the one who isn't visited with wrinkles.

Suffragettes Go to Jail.

LONDON, Feb. 19.—Sixteen of the suffragettes who were arrested yesterday morning in Downing-street came up for trial and ten of them were sentenced by the Magistrate to terms of imprisonment varying from one month to six weeks, after having refused to give security for their good behavior for six months.

Strait to Dispute.

OTTAWA, Feb. 19.—The question of the Canadian ownership of Hecla Strait and the Dixon entrance is one which has not yet been settled.

Centenarian a Widow for Fifty Years.

OTTAWA, Feb. 19.—Mrs. Robert Hughes of Innisville, Lennox County, born in Glasgow, Scotland, on Feb. 15, 1809, celebrated this week her hundredth birthday.

in Society.

Mrs. Bruce Riordan has returned from Montreal. Mrs. Le Grand Reed is the guest of her sister in Detroit.

Mrs. Robert Cassels of Listowel is the guest of Mrs. Kidd.

The Normal Graduate Club will hold a dance at the Waverley on March 3.

Mrs. Edward Porer, Elmwood-avenue, is giving a tea on Tuesday next.

Miss Dickson is with Mrs. Pringle at Preston and will leave later on for Boston.

The engagement is announced of Mr. Brian Jeffcott to Miss Margaret Galbraith.

Mrs. R. J. McDowell of Kingston is visiting friends in the Alexandra Apartments.

Mrs. Charles Moss, who has been visiting Mrs. Reginald Brock in Ottawa for a short time, has left for Montreal, where she will stay with her sister, Mrs. Gilbert.

A marriage has been arranged to take place between Louise Brown, eldest daughter of Mr. and Mrs. Stephenson Brown, of Montreal, and Mr. Rowland Barran, youngest son of the late Sir John Barran, Bart., early in spring.

Mrs. J. Miles Kinsman, 17 Marlborough-avenue, will receive on Friday next, and not again this season.

## The Ripest Product Of the Ripest Experience In Automobile Manufacturing

We're at the Motor Show  
in the St. Lawrence Arena  
---See Us and Arrange for  
a Demonstration.

IF YOU ARE ONE OF THOSE who have looked upon the E.M.F. "30" as a new and untried product; if you have listened to the arguments of envious competitors who would have you believe that this car is still to be proven---

LET US CORRECT YOU; let us show you wherein and why the E.M.F. "30" is actually the oldest car that is exhibited in this year's Shows---the latest model---the 1909 product of an organization of automobile designers and builders who have lived through and acquired all the experience there has been during the last eleven years---in other words, since the industry began.

IT IS NO EXAGGERATION TO SAY that this car is the ripest product of the ripest experience and the brightest brains ever collected together in one organization. This fact is freely conceded by big men in the trade---and the little minds admit it between the lines, however unwittingly.

"THE ALL-STAR CAST."---You've heard that expression frequently of late. Ask anyone to what firm it applies and he will unhesitatingly reply, "The Everitt-Metzger-Flanders Company."

NEVER WAS A TITLE MORE APT.---From the first rough sketch, through every operation to the finished car, the E.M.F. "30" passes through the hands of experts of national reputation---each a recognized specialist in his particular branch of automobile building.

ATTENTION TO MINOR DETAILS, as well as to the more important features of design and construction---it is in this that the E.M.F. "30" car excels; it is in this that it acknowledges no superior at any price---no equal in its own class.

DO YOU REMEMBER what they were saying a few months ago? No? Then let us repeat it---and let them swallow it as best they may. "The car cannot make good the tremendous claims made for it." "A car on paper is all right, but wait till the actual car appears and then see"---these are fair samples of the unanswerable arguments made by impotent competitors.

WELL, WHAT DO THEY SAY NOW? Silence, deep and eloquent. 500 of these cars are on the roads to-day. Does any other car at anything like the price dare to try conclusions with this car in any kind of demonstration---speed, hill-climbing, slow driving on high gear and magneto? Not one.

SURELY NEVER WAS GREATER TRIUMPH achieved by any car. It has set a pace for the industry---a pace in quality and a pace in price; for, after a demonstration in this wonderful performer: after the closest examination of the mechanics of it---the qualities of materials and workmanship, our rivals find it impossible to convince intelligent buyers that any other car is the equal of this at anywhere near the price.

"WHEN WE GET THROUGH THEY CAN HAVE WHAT'S LEFT," advertises one of our enthusiastic Eastern dealers, and that's about the situation everywhere. No argument of mere words has been sufficient to turn a buyer away from the E.M.F. "30."

BY THE WAY: DON'T LET THEM FOOL YOU.---We learn that agents for other cars, in desperate attempts to stem the tide of E.M.F. enthusiasm, are warning buyers they will be unable to get these cars in reasonable time. Don't let that worry you. See the local E.M.F. dealer. He will tell you just how many cars he has promised and just when he can make deliveries.

THE FACTORY OUTPUT IS SOLD---could have been oversold many times had we been willing to promise dealers more cars than we knew we could deliver this season.

BUT YOUR LOCAL DEALER CAN TELL YOU to a day when he can deliver an E.M.F. "30" car. The Canadian allotment is sold, but not all for immediate delivery. Specifications run from March to July. There are dates between that you can get. Our agents will tell you just what you can expect---and then you can depend on it absolutely.

DID IT EVER OCCUR TO YOU that we must---absolutely must---turn the cars out at the rate of 12,000 a year in order to sell them at the price we do? The margin on each is so small that, on an output such as our competitors produce, the "overhead" expense would run up to such figures that it would break us---though the mightiest millionaires in Michigan are back of us.

YOU NEED NOT WORRY lest we fail to produce them and make prompt deliveries. That is our worry---we must deliver the cars or we can't stay in business, and the Capitalists who have financed this big concern knew what they were doing---knew the ability of this organization---before they made the promise.

EVERY PART OF THE E.M.F. "30" CAR IS MADE IN OUR OWN FACTORIES. Every part, remember. This is not an assembled car in any sense of the term. Assembled cars cannot compete with this highly specialized, highly efficient product: We can sell the car for less than others can make it---when they have to have the parts made on contract, here and there and everywhere.

LET US GIVE YOU A LITTLE BOOKLET entitled "A Talk With Flanders" in which we tell you inside facts that appeal to your own reason and judgment and show you how and why it is possible to build a better car for \$1,250 than can be sold for \$2,500.

SAYS THE NEW YORK TIMES EDITORIALY:---"The statement sounds ridiculous at first; but a careful perusal of this little brochure not only convinces you of the truth of the statement but enlightens you on manufacturing problems and principles in a way that is most entertaining and valuable."

CALL AT THE BOOTH in the Arena and ask for one of these "Talks With Flanders." Then examine that clean-cut chassis---not a polished or a nickel-plated affair, but just a standard chassis, painted and finished exactly as you get it when you buy an E.M.F. "30." It is the cleanest job of designing, the most practical, businesslike example of chassis construction on the floor you'll say so after you've looked it over.

THEN ARRANGE FOR A DEMONSTRATION---right then if you live out of town, or after the show if you live in Toronto---can devote more time to you and give you a more convincing test of the car after the rush of show-week is over.

1,000 DEALERS HANDLE E.M.F. "30" CARS---it is represented in nearly every city and town and hamlet in the UNITED STATES. This fact alone testifies to the tremendous popularity of this car---to the confidence the trade imposes in the men who make it.

IF YOU DON'T KNOW the name of your nearest E.M.F. representative write us and we'll be glad to enlighten you.

# COBALT--New Company Shares Receive More Attention--GOWGANDA

## PRESSURE STILL PRESENT AND BUYING IS LIMITED

### Mining Shares Are Easier in Some Instances in Sympathy With Wall Street.

World Office, Friday Evening, Feb. 19.

The pressure which was present in the Cobalt market on Thursday was also in evidence again today. The appearance of any big amounts of stock of any of the big miners has not been met, but rather the absence of buying power, prospective purchasers have been temporarily scared off, either by the weakness of the New York market or the feeling that Cobalt might get a little lower before they had reached the bottom.

There was some irregularity in prices. Temiskaming held decidedly strong throughout the day, while Tretway was weak; nearly five points lower than yesterday.

There was not much doing in the smaller priced issues, but these held firm with an undercurrent of buying better than some of the higher priced securities. New York was influenced by the reaction in the big market, and the decline in price of silver. The conspicuous feature of the mining market was the strength of Otisew, Hargrave and the Crown Reserve. Otisew sold up above yesterday's level, Hargrave was exceptionally strong at around yesterday's prices, and Crown Reserve advanced two points, and very small amounts of the stock could be had even at this advance.

The market closed dull, and is expected to continue in this condition until after the end of the week.

At tomorrow's meeting of the Temiskaming Company an excellent statement has been forecasted and this was thought to be responsible for the demand for the stock today.

**Twelve Inch Vein Encountered in Main Drift.**

Heron & Co. received today telegraphic advice from the manager of "Mother Lode," that a 12-inch vein carrying high values has been encountered in the main drift.

### COBALTS EASIER

**Market of Higher Priced Stocks Transferring Into Newer Issues.**

J. Barr & Company in their weekly letter say:

"The market for Cobalts this week was not as active as usual, and some realizing on the part of outside holders has tended to depress the prices of certain securities in the market. The newer issues are receiving much more attention than the older of the Cobalt stocks, and in many cases the older securities are being sold and a transfer made to the newer securities. We are of the opinion that some of the higher priced shares will still undergo a further decline, but the market for mining shares is broadening every day, and it should not take very long to mop up the excess of stocks now on the market."

### Money is Paid.

The Temiskaming Northern Ontario Railway Company has just received a cheque for \$40,000 from the La Rose Mining Company and the Right-of-Way Mining Company has received \$120,000 from the same source. In payment of the older debt given in the combined suit of the N. O. Railway and the Right-of-Way Mining Company against the La Rose Mining Company.

## MADE A REPUTATION AMONG THE MINES

### Development Work and Concentrating Plant Places Coniagas High in Cobalt List.

COBALT, Feb. 18.—(From the MAN on the Spot.)—With a main shaft down 200 ft. and over 8000 ft. of underground development work and a first-class concentrating plant, capable of treating 100 tons of ore per day, the Coniagas has made a reputation as good as the best of Cobalt's mines.

The men in control of Coniagas also control the Thorold smelter, where the waste and other mines is being successfully treated.

There are two levels in the main shaft, at a respective depth of 1500 and 185 ft. On the first level 1500 ft. of drifting and crosscutting have been done. Vein No. 2 has been drilled on at this upper level. The vein is 185 ft. wide from 2 to 5 inches. Innumerable stringers give the well-rock good silver values. For instance drifting on this vein at this level of 125 ft., where the drift has a width of 35 ft. Good values are found in this entire width. The next 450 ft. the drift is 8 ft. wide.

Four veins are being worked on the lower level. A drift 30 ft. wide will be run in order to get all the values. Some 1500 ft. of work has been done at upper level and 4000 ft. at lower level.

The ore in vein is picked out and balance is concentrated.

Ten veins have been opened up on the property that carry high-grade ore. These veins will average 2 1/2 inches in width.

Only high-grade ore and concentrates are shipped. The monthly output averages 60 tons.

The concentrator originally had a capacity of 60 tons per day. Changes were made in the machinery used in fine grinding and the capacity increased to 100 tons per day and 30 tons of ore are being treated daily. The fine grinding was originally done by a ball mill. The work is now done by 30 stamps. The ore treated in mill yields an average of 45 oz. of silver per ton.

The ore from the legs carries 4000 oz. silver per ton, the same as the high-grade ore from the mine.

Concentrates from the table carry between 1000 and 1700 oz. of silver per ton.

Concentrating plant consists of 39 stamps; 2 sets of rolls, 12 silvers, and 120 tables. 1 True and 130 callow settlers and 3 cone classifiers. Uniformity of speed is ensured as all tables are run by a motor. The Reddington, the Coniagas superintendent, are manufactured on the ground. This drill has been thoroughly tested and gives best satisfaction than any other drill used in the mine.

Mr. Reddington has also charge of the development work now being done up in the celebrated Bruce Mines. He goes there for one day every week.

The Coniagas is one of the leading dividend payers of Cobalt camp, and has been on a regular dividend basis for two years.

One hundred and thirty-three men and seven drills are kept steadily at work.

Sixty-eight men are kept at work down in the mine.

### NEW YORK STILL BUYING

Otisew in Good Demand and at Higher Prices.

Crown Reserve, Hargrave and Otisew were the conspicuously strong issues in yesterday's Cobalt market. Crown Reserve was very firm at 25. It is reported in well-informed quarters that the recent discoveries in Crown Reserve are most important. The ore reserves in this great mine are understood to be much greater than before estimated and assure big dividends for a long time to come. Hargrave was active and strong. It opened at 35 1/2 and at the close 61 1/2 was bid for large quantities. Investment buying in it goes on steadily. Otisew was active and strong. It opened at 55 1/2 and on active trading advanced to 56. New York was buying again. Constant shipments to New York are clearing this market of stock and are paving the way to an upward movement. New York buying, it is understood, has been inspired by the Witsee report, which is a remarkable document. The full text of the report will be here in a few days and will be open for inspection.

**Gowganda Mining Claims.**

I have the best two claims in the heart of Gowganda's rich belt of silver, and the silver for sale for one year, and the rest within the year. Claims consist of 20 to 40 acres lots, when 22 discoveries have been made. The famous O'Kelley 7 ft. vein passes thru both properties.

This will be a quick sale and if wanted communicate with Dr. C. H. Riggs, Temple Building, Toronto.

### SILVERS LIMITED CALLED

Stock in This Gowganda Company scarce in All the Markets.

"Silvers Limited" was called on both the local exchanges yesterday and likewise at Montreal and New York. The price bid for the stock on all exchanges was 52c and very few of the shares were available at that price. A bid of 52 failed to bring out any stock at the Standard Exchange.

The people mainly interested in this Gowganda Company were those who had bought from the lower levels of "Silvers Limited" is now spoken of as the Crown Reserve of Gowganda.

The stock of the company is in the strongest kind of hands and a sharp rise in price will be necessary to bring much of the stock into the market.

# ELK LAKE--Much Money Going Into Montreal River District--SILVER LAKE

## RAPID DEVELOPMENT AT ELK LAKE DISCOVERY

Plant Installation Made at Phenomenal Rate—Work at the Mine.

ELK CITY, Feb. 17.—The work of development at the Elk Lake Discovery Mine, which consists of 40 acres, being the southeast quarter of the north half of lot number one, concession five in James Township, about three and a half miles from Elk Lake by the trail, is proceeding as rapidly as an up-to-date mining plant and competent management can make it. As I mentioned in my last letter the work of installing the plant on an almost phenomenal rate, and the work of development is being proceeded with none the less rapidly. Two air drills are in constant use in the shaft, which is now down about 15 feet on the main vein.

**Key to Map of Elk Lake Discovery Property.**  
S.E. 1/4, north 1-2 of Lot No. 1, Con. 5, James Township.  
Vein No. 1.—Main vein 1 1/2 inches wide, calcite carrying silver.  
Vein No. 2.—Probably a division of Vein No. 1, about 1-2 inches wide, calcite carrying silver.  
Vein No. 3.—Calcite vein, carrying silver, about 3-4 inch wide.  
Vein No. 4.—This vein is about 1 inch wide, and is almost solid metal.  
Other Markings.—Shaft and Buildings.  
Shaft 8 feet x 10 feet, now down about 12 feet; some silver has already been taken out of this shaft.  
Power House, 30 feet x 30 feet.  
Blacksmith shop, 14 feet x 26 feet.  
Cook house and mess hall, 18 feet x 24 feet.  
Storehouse, 11 feet x 25 feet.  
Stables, 11 feet x 25 feet.  
Steam house pumping water for boilers and cooling compressor.

## MASSES AND THE CLASSES IN A NEW MINING CAMP

Board Building Among Its Log Neighbors—Yorkshiremen From Coal Mines Like the Country.

Now what constitutes a mining camp? There are different standards in various places, and a mining camp has a standard of its own. Among the recent applications for a place on the staff of the Bartlett mines was a stocky Yorkshireman, who would scarcely rank as an aristocrat over some, but who now ranks high among his fellows because he can talk mining by the hour or by the yard. This Yorkshireman has a good name, for he is known as Bill Edwards. As he has been to work in the coal mines of England, and he has years of personal knowledge of how machinery works around the pit. "This is a good country," said Edwards. "I have been four years out here now and think there is no place in the world like it. 'What's the use in going west?' he ruminated. "I'd spend all the money I have saved in getting there and then would come back again. I've worked in a coal mine for years 3300 feet below the surface and day after day was dropped to the bottom in a cage in one and a half minutes. "Then I got the fever, but it did me good. I was fat, jumpy, a lad, and that thinned me down a bit. "Then I got rheumatism, but that is gone since I came to the silver mining country. The climate up here is a bit cold now and then, but the air is clear and glorious. "So night after night Edwards tells of the coal mines and of the wonderful appliances for bringing the black diamonds to the surface. Therefore, he has an admitted distinction, which is a form of aristocracy. Five miles northeast of the Bartlett mines a new city is springing into being, and there certain forms of one thing and another serve to mark sharp divisions between the masses and the classes. Mark Twain would doubtless see plenty of humor in the situation, so long as this prevailed everyone was happy. Then a board of realtors came to place with reckless abandon, calling attention to the fact that lumber was worth 140 cents a board after board and wondered.

This vein is a calcite vein about one and a half inches wide, carrying silver. This shaft also takes in vein number two, which runs parallel to vein number one, known as the calcite vein carrying silver about the same width. Vein number three, a calcite vein carrying silver is about three-quarter inches wide, and vein number four, which is about one inch wide, is almost solid silver. As I gave a complete description of the plant in my last letter it is unnecessary to repeat this, but the proposed method of development will be of interest. The manager at the mine, Mr. Harris, outlined the plan of development for your correspondent. It is the intention to sink the shaft to the one hundred-foot level and then drift in a southeasterly and northwesterly direction along the main vein and number two vein. A drift will also be made at this level due north along vein number three, which drift will catch vein number four. After this drifting has been done the shaft will be continued to the two hundred-foot level, and from this level drifting will be done in the same directions as at the one hundred-foot level. Judging from the speed with which the development at this mine is moving along it will not be long before the shaft is in a position to ship ore right along.

Has Its Regular Monthly Meeting of Directors.  
President, D. K. Martin & Thomas, Traders Bank Building, has returned from Chicago, where he attended the monthly meeting of the directors of Aganico Mines Development Co.  
The Aganico Company is fortunate in having as directors business men of high standing.  
"This has gone into Aganico with one idea in view, that is to make it one of the best mines in the entire Cobalt camp. Being business men they realize to get the best results for every director to put his shoulder to the wheel, and give the same careful attention to Aganico as they do to their other business."  
Mr. Martin reports everything as to the Aganico end of the line as being in first-class shape.

**Controlling Interest for Sale.**  
The controlling interest in the Cobalt Bullion Mines, Limited, is for sale. This property has recently been favorably reported on by three engineers and has been up to many of the best shippers of Cobalt. There are three strong veins carrying silver values opened up by shallow pits or shafts in a large diabase dyke runs down on the west half of the property. It is one of the most likely properties in the Cobalt centre ready for development. The titles are perfect and good shipping values should be reached in 100 feet of sinking if we can judge by adjacent shippers.

**Husband and Child Dead.**  
Deep sorrow is the lot of Mrs. Mark Myers, for yesterday her husband and her six months old child were taken, both in the same hearse, to Prospect Cemetery.  
Mrs. Myers is just recovering from a dangerous illness and three days after she came home from Grace Hospital, her husband was taken ill, and after nine days' illness he died Wednesday from pneumonia. Thursday the infant son died.  
Mark Myers was a carpenter and had built a home for his family.

### "MY CORNER"

A Chat on Mining Investments

Judge the importance of this by the following comparison:—\$7,000 would pay 10 per cent. on \$70,000, whereas it would require \$100,000 to pay 10 per cent. on \$1,000,000.

This means that in GOWGANDA APEX UNDERWRITERS its extremely low capitalization of \$70,000 will receive all the profits accruing from the gradually increasing value of the properties. These profits will be realized as development of the properties proceeds and same are turned over to another organization, viz. GOWGANDA APEX MINES, Limited, for 700,000 shares of its total authorized capital stock of 1,000,000 shares of the par value of \$1.00 each. The 700,000 shares will be distributed pro rata among the 700 memberships in GOWGANDA APEX UNDERWRITERS. The remaining 300,000 shares will be placed on the market at a fair price, as compared to the then existing value of the properties, for the purpose of providing money for further development and installation of machinery.

Third: See that your money goes to pay for development and legitimate expenses connected with the undertaking. To buy a prospect and hold it for a rise in values is one thing. That is speculation. To spend money developing a prospect into a mine is another thing. That is mining.

Development has already begun on the properties controlled by GOWGANDA APEX UNDERWRITERS.

Many of the great fortunes owe their beginnings to mining, and all the very rich men in the world, from the Rothschilds down, are heavy investors in and holders of mining properties.

Why not? Metal does not have to be made or cultivated. It is in the ground. The business of mining is to get it out.

A booklet describing GOWGANDA, the bonanza silver camp of Ontario, also the financial and development plan of GOWGANDA APEX UNDERWRITERS, will be sent FREE on application.

It shows a plain, reasonable and substantial method of financing and developing mining claims.

Get into Gowganda through GOWGANDA APEX UNDERWRITERS, and thus secure ALL the profits possible in mining investments, and a share in the riches which the district contains. May we suggest that you write for the booklet to-day?

SIMPSON'S INAUGURATE NEW BOOT AND SHOE DEPT. TO-DAY

There is something new and interesting to be seen in Toronto every day. And this time it is the opening of the magnificent and spacious new boot and shoe department of the Robert Simpson Co. Limited.

The problem with the company was how best to celebrate the event and how irresistibly to attract both spectators and the buying public to the largest, best-lighted, best appointed, roomiest and most comfortable boot and shoe department in any other city in Canada or in the United States.

The management said, "We must have the public security of new boot and shoe department. It is a spectacle in itself and besides it shows the quality of Canadian progress in mercantile endeavor. How shall it be done and be done in a practical way?"

There was only one practical way and that was to inaugurate the greatest boot and shoe store in the world in Canada—greater not only in extent but also in value.

And so to-day in the new boot and shoe department there are some 10,000 pairs of the very finest boots and shoes manufactured, not regular stock at all, but the most complete, running in price as high as \$8 a pair.

In the history of boot and shoe retail merchandising there has ever been such really extraordinary values. Here are the actual facts about these boots and shoes (on sale to-day, remember).

There are twenty different lines especially bought by the manager of the boot and shoe department in Montreal and Quebec. And all are the makers' samples, which means that they are the very finest leathers, neatest shapes and the modish colors appear in the stock.

But do not think merely of buying, run in and take a look at the best and shoe department that will make you feel proud of Toronto and Canada, for it far surpasses anything of the kind in the big department stores of New York, Philadelphia or Chicago.

The total floor space is 2000 square feet. The floor itself is covered with a cool dark grey Enamel carpet that springs under the feet as if one were treading the softest meadows.

The fixtures are all in mahogany and the contrast between their dark wine red and the cool green of the carpet is an aesthetic experience in itself worth five feet high, so as not to obscure the vision or shut out the light, and one moves around the sections with a feeling of freedom and a sense of being in the open air under the sunlight.

A final feature of the accommodations for the public. The wide free spaces give the utmost room for movement around easily, no crowding is possible. And there will be no waiting impatiently to be fitted. For the Robert Simpson Co., Limited, has provided an adequate and efficient body of salespeople, and this in itself guarantees that every customer will get the quickest and best service possible.

# FLUFFY RUFFLES *Drawings by Wallace Morgan*

When Fluffy Ruffles with her wealth  
(but never with parade)  
Had helped a lot of worthy ones she  
gave a masquerade,  
And Traddles was invited and a lot of  
other men.  
The guests came late; why some of them  
had not arrived at ten.

When Traddles as a prince came on he  
saw to his delight  
That Fluffy merely wore a mask. He  
knew the dear on sight.  
Now if you wish to be let in to one of  
Fluffy's jests  
I pray you note the damsel-tall among the  
many guests.

She wears a Cinderella garb and Traddles  
heads her not,  
And yet that maid is Fluffy—and not the  
one he's got.  
He danced attendance on her, murmured  
pretty nothings, soft—  
The masker said but little, although now  
and then she coughed.

"My, what a cold you have, my dear—I  
mean Miss Ruffy Fluff—  
(As usual he got tied up) "Your voice  
sounds very gruff.  
Now shall we dance?" "I cannot dance  
I hurt my foot to-day.  
Let's watch that Cinderella there. She  
is so brisk and gay."

The Cinderella that they watched was  
also watching them.  
"Poor Traddles thinks he's captured me  
while really it's—ahem!"  
She whispered gaily to the monk who led  
her through the dance,  
"Why Traddles ought to see," said he,  
"with merely half a glance."

"Miss Fluffy," said poor Traddles (rest  
assured he'll make a botch)  
Of all the girls on this broad earth there's  
only one I'd watch.  
I've waited long to say it but I'm going  
to say it now,  
In all the world I love but one and if you  
will allow"—

The clock struck twelve and Cinderella  
came to where they sat.  
"Come Prince, unmask" she briskly cried.  
That voice made him feel flat.  
"Poor Traddles!" said the pseudo maid,  
"Prorose to me you shan't."  
And there behind the silken mask was  
Fluffy's maiden aunt.
