McLACHLAN TO HANG JULY 13 Jury 85 Minutes in Arriving at the Verdict STUNNED BY DEATH SENTENCE

Crown Prosecutor Declares Accused Was Monomaniac As Regards Miss Nix, and "Moral Idiot" Who Couldn't Resist Fatal Temptation

JUDGE TEETZEL'S CHARGE WAS FOR A CONVICTION

WHITBY, May 13.—(Special.)—Sentenced on Friday, the thirteenth of May, to hang on July 13, for a crime committed on Friday Oct. 23.

While it took the grand jury 6 hours to return true bills of murder against Archie McLachlan, charged with the triple crime of killing his wife and two infant sons, it only required one hour and twenty-five minutes for the trial jury to return a verdict of guilty at 3:30 this afternoon.

McLachlan, who had borne himself rather bravely thru the ordeal of awaiting the verdict, winced noticeably. His counsel, Mr. Henderson, spoke huskily, "I would ask your lordship that the jury be polled."

One by one the 12 men were asked by name: "Do you find the prisoner guilty or not guilty?"

"Guilty," came back in whispers. "Then followed a breathless pause. 'Gentlemen of the jury,' began Justice Teetzle, 'you have arrived at a verdict which I must say is fully justified from the evidence. I trust that you may never have such a responsibility again as you have had today.'

Passing of Sentence Mr. Blackstock moved for sentence and the prisoner was told to stand up. McLachlan swayed to his feet, and leaning one elbow on the rail of the dock, rested his cheek in his hand. And thus he asked, starting glassily and evasively past his lordship.

"Have you anything to say as to why the sentence of this court should be passed upon you?" No answer. Mr. Henderson stepped over beside the box, but the prisoner heeded not his counsel's touch on the shoulder.

"Your lordship," faltered Mr. Henderson, "we have placed ourselves before the country; have been found guilty and I suppose must abide by the result. I must ask your lordship to be as lenient as possible. It is one of those distressing cases where your lordship must exercise for his mercy."

One of Worst on Record Addressing the prisoner Judge Teetzle began: "Archie McLachlan, after a trial that has been eminently fair in all respects, and after your most able counsel has done all that could be done in your behalf, it has been found that you are guilty of one of the worst crimes in the annals of Canadian law. It is not for me to say that you are a murderer, but the circumstances make it the most shocking murder that I have ever tried. There is not a single mitigating circumstance."

"You seem to have lost all the better instincts of a man, violating your solemn vow to your wife, to be faithful to her, and to be true to all circumstances a faithful, true wife to you. She was the mother of your children, and the most precious part of your life, not only your wife, but also the mother of your offspring. I doubt if there is a more horrible murder in the annals of crime."

"I shall give you an opportunity of making your peace with your Maker." Then followed the formal words of the death sentence.

This trial pertained only to the charge of murdering his wife. Mr. Blackstock requested that the other charges of murdering his two children be formally traversed to the next assizes and the judge so willed.

"That Art the Man?" All thru the trial proceedings McLachlan had maintained a confident and rather sneering air, asking to be taken outside occasionally and walking in and out composedly—almost defiantly—until George Tate Blackstock, in the height of his description of the dying agonies of the wife, turned toward the prisoner and said, "Why do you straighten those bed-clothes, or, if she had contentions in bed, who held her down? There sits the man!"

McLachlan flushed, then turned pale, and seemed to shiver up in the corner of the little dock. He remained with eyes downcast until the jury retired.

When sentence was pronounced, he looked like a man ready to swoon, and had to be supported to his cell by County Constable Calverley. In the cell he revived sufficiently to remark, "Pretty hard feed for an innocent man."

Girls Not Affected. Among the most interested spectators in the ladies' gallery to-day were Miss Alma Nix and Miss Charter of Sunderland, who both figured prominently in the last two days' evidence. Both girls were observed laughing and talking lightly with friends while waiting for the verdict.

Little Monty McLachlan, who will soon be the sole survivor of the Excelsior tragedy, has been in company with his aunt, Mrs. Watson, who gave evidence against the child's father. She is a very pretty and cheerful child and has not been apprised of the doom that is hanging over her father, of whom she is very fond.

There were 130,000 words of evidence taken. The defence only had one witness proper. Three of those who were called by Mr. Henderson were crown witnesses, but were not to have been called.

Before adjourning, Justice Teetzle pressed a very high appreciation of the action of the authorities for the prompt, intelligent and skillful way in which the case had been investigated and brought to an issue. He regretted that from his observations in other localities crime had gone unpunished.

How the Jury Were Advised

W. A. HENDERSON, for defence: "There is the prisoner in the dock. Does he look like a murderer? You have no evidence that he was not on friendly terms with his wife, and you have the evidence of his affection for his children."

"The evidence is purely circumstantial, and all the crown is asking you to rely upon what he did and said."

G. T. BLACKSTOCK, for the crown: "And what was he? A mean, miserable, dishonest, despicable man, a worthless, abandoned man, whose conduct, I'm sure, you will rightfully condemn."

"While the blood was still red on his hands, he sneaked away to see if he couldn't again see this girl. He was a monomaniac on the subject."

"He had the poison, and when the temptation came to him, he did not have the strength to resist. A moral idiot, he was."

JUSTICE TEETZEL: "All the facts will lead fair men to the irresistible conclusion that this man is guilty of the crime with which he is charged."

GOUIN PREMIER AFTER LAURIER

Latest Political Rumor From Ottawa as to Sir Wilfrid's Mission to Quebec the Coming Week.

OTTAWA, May 13.—(Special.)—The chief object of Sir Wilfrid Laurier's visit to Quebec next week is to see Sir Lomer Gouin, premier of the province, regarding his coming into federal politics, with a view to his being adopted as Sir Wilfrid's successor in the leadership of the Liberal party.

Hon. W. S. Fielding is regarded as an impossibility owing to the antipathy of Quebec towards him, and it seems to be felt that the only man who can hold the party together is another French-Canadian. Of these Sir Lomer Gouin is the strongest.

It is fully anticipated that Sir Wilfrid Laurier will go to the polls at the next general election, but that he will drop out immediately afterwards. Meanwhile, he can secure a successor upon whom he can depend to keep the party together.

Gouin will be offered Hon. L. P. Brodeur's portfolio.

EVANGELISTS FOR FRISCO Will Open a Campaign to Offset the Prize Fight.

NEW YORK, May 13.—The proposed evangelistic crusade, to offset what members of the clergy style the brutalizing influence of the Jeffries-Johnson fight, is taking form.

Two New York preachers have accepted invitations to go to San Francisco and hold revival meetings as counter attractions to the big fight. They are Rev. John Wesley Hill, one of the originators of the crusade, and the Rev. John Callahan, a mission worker. The Rev. Wm. A. Sunday of Chicago, best known as the Sunday, the baseball evangelist, will also go to San Francisco to aid in the work, it was said here.

Evangelists will begin their work several days before the fight.

New York business men who are opposed to the contest have subscribed funds to pay the necessary expenses.

KILLED ON HIS LAST TRIP Young French Aviator Said He Was Going to Abandon Game.

LYONS, France, May 13.—Chauvette Michelin met a tragic death here today while competing in the races of an aviation meeting. Michelin seemed to lose control of his aeroplane, which bumped into a telephone booth and then knocked over a derisk, which struck the aviator, fracturing his skull. Michelin was only 23 years old.

To an assistant who wished him good luck as his machine arose to-day, the young aviator said: "No more aviation for me after this meeting; I have had enough."

AVERSE TO DRAPING British Public Buildings Not in Mourning—Purple Official Color.

OTTAWA, May 13.—Information has been received from Lord Strathcona that the office of works of Great Britain is not giving any orders for the draping of public buildings; indeed, it is strongly advocated that there shall be no such display.

But in cases where such decoration is decided upon, it is the wish of the government that purple only shall be used.

COBALT'S HEALTH GOOD NO TYPHOID DANGER

Mayor Lang's Official Statement of Cases in Hospital—Smallpox "Scare" is Dissipated.

Mayor H. H. Lang of Cobalt writes The World concerning the smallpox situation there:

"We have 10 patients in the hospital, two quarantined at the Trenchway Mine, two quarantined in a private house in the south end of the town and one quarantined in the north end of the town, making a total of 17 for the town and township at the present time."

"Since the 1st of January, including what is in the hospital at the present time, we have had altogether 38 patients, and 13 patients have been taken care of in different parts of the district, making a total of 43 since the 1st of January, and covering all the cases of smallpox that we have had."

"The total number of people vaccinated up till to-day has been about seventeen hundred; this covers most of the people who have not been vaccinated previously and within the limits of the time, and those who have had smallpox. So our community will soon be in a pretty safe state, so far as smallpox is concerned."

"In regard to the other cases at the hospital, we have nine cases in all at the town hospital, including patients with pneumonitis and accidents of different kinds, and two typhoid patients. At the Mines Hospital they have 17 patients—the lowest number that has been there for about three years, and only two typhoid patients included in this number, making a total for the district here of four typhoid patients."

"It is certainly very gratifying to us to see so few, after the terrible epidemic we had last fall and well on into the winter. We are hopeful of being able to cope with any threatened outbreak of typhoid fever this year."

MEMORIAL TO SOLDIER WHO WON AFRICAN FAME

Palmerston Citizens Honor the Memory of Lieut. Arthur Ross, a Former Resident of the Town.

PALMERSTON, May 13.—The public library building was this afternoon the gathering place of a large throng to witness the unveiling of a brass memorial tablet from personal friends in the government service of Northern Nigeria, including Sir Percy Girouard, in the memory of the late Lieutenant Arthur Leith Ross, for many years a resident of Palmerston.

Lieut. Ross was at the Royal Military College when the first contingent was organized for South Africa. He enlisted as a private. After fighting with the contingent thru to Pretoria, he was appointed a lieutenant in the Lancashire Fusiliers by Lord Roberts for meritorious service, and shortly after was sent to Northern Nigeria, where he distinguished himself while in charge of special expeditions, being mentioned three times in despatches. He was entrusted with the organization of a transport service, of which he was chief officer at the time of his death in August, 1908.

Among the speakers were Col. Sam Hughes, M.P.; Col. Craig, M.L.A.; of Fergus; Col. Mitre and White of Quebec; Rev. Dr. Ross of Port Dalhousie; Alex. Martin, M.P.; Mount Forest; James McEwing, M.L.A.; Jas. Tucker, ex-M.L.A.; of Drayton; W. A. Clark, and Mayor McBurns of Palmerston.

Several hundred school children gave patriotic songs.

A companion tablet to this was recently unveiled at Singleton, Sussex, England, in the church where Lieut. Ross was married to Sylvia, daughter of Admiral Ruxton of the British navy. At that unveiling, Lord Marcus Bessford took the chief part.

Duncan J. Ferguson, a prominent commercial traveler and one of the foremost workers in the temperance cause, is dead, at his home, 107 Delaware-avenue, aged 69.

SHOOTS WIFE AND SELF TRAGEDY AT LEAMINGTON

Man Kills Wife, But Sparing Babe—Bodies Found by Neighbors Aroused by Victim's Mother.

LEAMINGTON, May 13.—(Special.)—The quiet town of Leamington was shocked today when the news of the murder of a woman and her husband, and the suicide of her husband, both well and seemingly known, was first sent thru the town about 8 a.m. The parents of Dresser are well-to-do farmers, living on the outskirts of the town.

The Dressers were married here about two years ago. He was 30 years of age, and his wife, a year younger, was, as the neighbors say, always happy and cheerful. A baby girl was born about six months ago, and was evidently the delight of the parents. The father particularly enjoyed the infant, and looked after it lovingly.

Young Dresser, however, has often been away from home in the evenings, and it is said by neighbors that the local pool rooms kept his attention until late at night. His wife, it is said, often chided him on his lack of attention to her, but as he worked at an odd job he could find, and therefore was frequently late to meals, she overlooked his shortcomings.

Young Dresser was playing pool up to about 10 o'clock last night, and gave no intimation to his associates that any such horrible thoughts were in his mind as he certainly must have had before turning towards home.

From all evidence at hand, he deliberately shot and killed her, and then turned the revolver on himself, blowing his brains out, and falling across the bed in a pool of blood.

The neighbors were alarmed by Mrs. Oliver, mother of the young wife, who upon calling about 8 a.m. at her daughter's home, to give her some promised seed potatoes, found the blinds down and the doors locked, and after repeated poundings at the door, heard only the cry of the infant. The kitchen door was broken in and the tragedy disclosed. Mrs. Oliver swooned, and was carried out by friends.

According to the medical examination, Mrs. Dresser was shot twice in the left temple, and the revolver must have been held within a few inches of her head, as her eyebrows and hair were burned. The man was shot in the forehead. He had two revolvers and two shotguns in the room. One of the revolvers was in his hand when found. On the sill of the window of the room was a small glass stopper bottle without a label containing chloroform.

Alberta Glad of Rain But Manitoba and Saskatchewan Do Not Require It.

CALGARY, Alta., May 13.—(Special.)—The rain and snowfalls of the past few days have been very beneficial to the fall wheat crops, as the young plants were beginning to suffer from lack of moisture.

There are complaints of lack of rain from Saskatchewan and Manitoba, but these need not cause any anxiety as rain is not needed in these provinces for growing crops until the beginning of June. Crops will do better then with rain than having it now.

SOLVE RING THEFT ARREST 'G' MEN "H" GOODS

Mrs. McCoy Recovers \$3000 in Jewelry—Left in Auto, and Taken by Chauffeur—Ex-Policeman and Shipper Tried to Dispose of It.

Following so slight a clue as the initials "G. S." upon a watch charm worn by one of the culprits, the detectives yesterday, after three days of strenuous labor, locked up three men charged with theft and receiving stolen property, and recovered nearly all of the \$3000 worth of jewelry supposed to have been lost at the Horse Show on the night of April 23 by Mrs. McCoy, wife of Dr. S. H. McCoy of St. Catharines.

It now transpires that the jewels were not lost, as Mrs. McCoy believed, in her box at the Horse Show; but were stolen by the chauffeur of the automobile in which she was driven from the armories to the Queen's Hotel. They were given by him to an ex-policeman, and the shipper, a Front-street liquor store, to be disposed of when the proceeds were to be divided. Each has confessed his part in the crime.

Since Wednesday evening, when they got the first clue, the entire detective department have been hard at work on the case, and Inspector Duncan, Sergeant Mackie, Detectives Gutrie, Armstrong, Archibald and Wallace have practically gone without sleep and food, so vigilant have been the watch which they maintained upon trains, hotels and lodging houses in their efforts to locate the criminals and the jewels.

The Man Arrested. Those arrested are, Gibson Shannon, ex-policeman, now unemployed, single, 35 years, located at 418 Church-street, charged with receiving stolen property; Andrew Hepburn, chauffeur, single, 28 years, 405 Jarvis-street, charged with theft; and

Henry Crombie, shipper, single, 24 years, 54 Winchester-street, charged with receiving stolen property.

Wednesday night the detective department got the tip that a man wearing a watch charm bearing the initials "G. S." who had been seen in the uniform of a policeman in the east end four years ago, had tried to dispose of valuable jewelry in the "waterfront" or "mission" McCoy rings.

There was nothing to show if the man was still on the force, and so both on the force and retired or dismissed whose initials might be given as G. S. are many. But any clue proved better than had been hoped, although more than 800 circular letters had been sent out to jewelers and pawnbrokers the world over, describing the missing wretches and offering \$500 reward for their recovery.

At 10 o'clock the search focused the suspicion down to three or four men, and then the point was to get their man without them. There would be little hope of his conviction, or, most important, the recovery of the stones.

How They Were Caught. At 10 o'clock yesterday morning Shannon was arrested as he was entering the bar of an east end hotel. He was at once taken to headquarters in the city hall, where he was searched and three rings, worth perhaps \$1500, were found upon him.

Shannon explained his possession of the rings by saying that Hepburn had given them to him to sell for \$1000 for which service he was to be given 10 per cent. This was what the detectives were after, and from Shannon they obtained a description of Hepburn and instructions as to how they would be likely to come upon him. This was when they learned that the rings had been stolen from the automobile of a Crombie in the afternoon. Hepburn was arrested in a Yonge-street hotel.

He, too, was taken to headquarters and searched, when a number of stones from other rings, and a great pearl, for which \$800 had been paid in London, were found.

At this time the part played by Crombie was unknown to the police, and he even witnessed the arrest of Hepburn without their knowing that the third man was being sought in disguise, but a little talk with Hepburn resulted in Crombie being arrested in Front-street at about 2:30 p.m. Upon him, nothing was found incriminating, but at headquarters he confessed.

The story of the loss of the jewels is told by Mrs. S. H. McCoy, who last night was staying with her mother, Mrs. J. L. Cook, 75 Evelyn-street.

A Roman Catholic View of Y.M.C.A. Fund.

The Catholic Register says: "We would like to have some good reason given us why Catholic business men should be asked to contribute to this Y.M.C.A. fund. Their religion is beyond as far as the officiality of the organization is concerned. Good taste and a sense of the eternal fitness would seem to dictate that their names be left off the collectors' list."

"We have a very poor opinion of those Catholic young men who are so destitute of self-respect that they will affiliate with an organization which blacklists their church on the assumption that it is lacking in that which pertains to real Christianity. A Catholic young man who joins the Y. M. C. A. deserves to be snubbed and insulted. He belongs to that jelly-fish, spineless class which is frequently found engaged in an attempt to effect some kind of a religious compromise where compromise is impossible. There is a lesson for us, however, in the events of the past week. The lesson is for Catholic men of means to come forward and contribute generously towards the strengthening of young

QUEBEC WING SECEDE

Will Run Their Own Show Independent of Ottawa.

MONTREAL, May 12.—(Special)—To all intents and purposes Quebec Conservatives have seceded from the Dominion body. It seems that the articles appearing in L'Evenement during the past few days were inspired by both the Montreal and Quebec wing of the party.

Hon. Senator Landry has been in prolonged consultation with Sir Alexander Lacoste, Thomas Chase Casgrain and other leaders, and their decision is to cast off the Quebec wing till the party under R. L. Borden's lead at Ottawa comes back to what the Quebec wing call the old policy of toleration and mutual confidence practised by Cartier and Macdonald.

"We are the true Conservative party," said T. C. Casgrain, ex-M.P. and ex-attorney-general, to-day, "and if we do not make a move our places will be taken by the hot-heads of the party."

"We have no quarrel with Mr. Borden, but his encouragement makes it absolutely impossible for any man from Quebec to have the ear of the leader, hence our present movement."

F. B. Monk will take no part in the movement, which is now on. He is a very sick man, and, another thing, he has at all times refused to work with the men who are at the head of the new campaign.

PLACE OF JEWISH PEOPLE

Here for a Divine Purpose and Cannot Be Obliterated.

The second annual meeting of the Mission to the Jews in Canada, under the auspices of the Presbyterian Church, was held last evening in Westminster Church.

Rev. S. B. Rohod, superintendent, and missionary to his own people, made a strong plea for increased support.

"We do not ask the Jewish people to become Gentile," said he, "that could never be. We simply endeavor to reconcile them to the rejected Messiah."

Rev. William Patterson, D.D., of Philadelphia, spoke of the reflex influence which a work of this kind would have on the Presbyterian Church as a body.

"There are two things which human ingenuity has tried to do and have failed," said he, "they have tried to destroy the Bible and they have tried to obliterate from the face of the earth the Jewish people. You might as well try to take the sun out of the heavens as to try to get rid of the Jew. He's here for a purpose. More has been done by the Anglo-Saxon race for the Jewish people than by any other country, and who is there that has prospered more than these defenders of the chosen people of God? The question then, is, to what extent are we going to partake in this, the Lord's blessing?"

Dr. Patterson stated to a World reporter that, as yet, he has not decided on any plan for evangelization work in Canada, as was announced in connection with his resignation from his Philadelphia church, and that he was not altogether sure where he would specialize along this line or not.

Proclaiming our Mid-summer Millinery Opening

For this important and eventful opening we've prepared a magnificent collection of exclusive millinery, conveying a wealth of beauty, cleverness and good style, from hats of simple elegance to willow-plumed creations, all portraying the authoritative EATON standard of correct millinery mod'es.

Prominent among them are many handsome black hats laden with great sweeping willow plumes and quantities of ribbon.

A strictly new feature that marks this Summer's millinery is the Colored Hat vogue, in so ne complete draping of chiffon are used to produce this effect. A particularly smart hat of this type is a huge Milan shape with a broad brim, entirely covered with emerald green chiffon, relieved by a pair of immense white wings, standing almost straight up.

A Stunning Leghorn Model of huge proportions is also veiled in emerald green chiffon, ca' t up at the back and trimmed about the crown and off the front with magnificent willow plumes of same shade.

An Extremely Stylish Lingerie Hat; is small and very high, with a straw brim covered with embroidery to match puff crown, and trimmed with a solitary rose and huge black satin bow.

A New Trimming is the featuring of wings on the dressiest hats. Plumes are undoubtedly the favorite hat trimming, while tulle and chiffons and laces are also shown in immense quantities on the most exclusive millinery; coral pink and emerald green vie with each other regarding color popularity.

Two Games at Island To-day

The rain and cold weather upset the calculation of the baseball fans yesterday and the game scheduled at the island between Toronto and Providence was postponed until to-day, when a double-header will be played at 2 and 4 p.m. for the ownership of admission. The Providence Greys arrived in the city yesterday from Buffalo in charge of Manager Jimmy Collins. Collins plays third base himself this year and Roy Rock has been doing phenomenal work at shortstop for the Greys, besides battling most opportunely. Outfielder Ediston and Second Baseman Aiz are newcomers to this league. Doc Newton, Rudolph or Carroll will do the pitching for Toronto, and Credit, Steele or Silve will work for the visitors.

Euclid Avenue Church Organ

The fine new organ of Euclid Avenue Methodist Church will be opened to the congregation to-morrow. The services will be in the nature of a reunion of old and present members of the church. Appropriate sermons and special music at both services. After the evening service Arthur Blakeley will give a short organ recital.

O'Keefe's PILSENER LAGER

"The Beer With A Reputation" Is Better Than Any Imported Lager
 "Imported" does not mean "better". It simply means "higher prices" because of the excessive duty. It is a Government regulation that all Canadian lagers must be brewed only from barley malt, hops and water,—which cannot be said of any American lager. O'Keefe's "Pilsener" costs about half as much as imported brands—and is their superior in every respect—in purity, in flavor, in wholesomeness.
 Are you going to pay a higher price for a poorer lager—or are you going to insist on having O'Keefe's?
 Leading dealers, hotels and cafes have O'Keefe's.

Ghastly Scene at Hanging.
 WALLA WALLA, Wash., May 13.—Richard Quinn, executed to-day for wife-murder, dangled at the end of the rope for 2 1/2 minutes and was able to unbuckle the straps about his arms and drop them to the ground before he strangled to death. The muscles of his neck were abnormally large and he made them tense just as the trap fell upon him.

Public Amusements

"The Round Up" at the Princess. Extremely picturesque, containing not a few thrills and many novelties, so far nothing of its charming love story, "The Round Up," with Maclyn Arbuckle, will be the offering at the Princess Theatre next week. The production is one of the largest that Klav & Erlanger have ever made. The company is a large and able one, and in addition to the leading players there is an auxiliary interest in the form of genuine western cowboys, cowboys, Mexican vaqueros, Apache Indians and 20 cow ponies from the Arizona cattle ranges.

The locale of the scenes is South-eastern Arizona before the advent of wire fences and during the period when General Crook was chasing Conchise and his braves into the reservation at Fort Grant. The story, also written about a western theme and strongly dramatic, is not of that character that one almost instinctively associates with the term "western play." The personalities in the story are, of course, the rough and homely types of the ranges, but the story is one of such supreme heart interest and so true to human nature generally that it perhaps could be translated to any locale and interpreted by different types of character with fully as great effectiveness as in the setting in which it is now presented.

The scenes of the first two acts show the courtyard of the Allen House at Sweetwater and the living room of Payson's ranch. One of the most dramatic incidents seen on the stage in recent years is introduced when Jack Payson finds Dick Lane diving off a cliff in the desert. The men are attacked by Indians and are rescued by "Slim" Hoover and a troop of cavalrymen from Fort Grant. In the last act several delightfully entertaining episodes of western life are introduced in the round-up scene. The dramatic suspense is sustained until the final curtain falls, when the author brings his story to an unexpected end.

Lillian Russell Coming. Lillian Russell is the undoubted attraction at the Princess Theatre, Monday evening, May 23, in George V. Hober's comedy, "The First Night," adapted from the German of Rosen and retaining all the original scenes and situations. She will be supported by an exceptionally strong cast, including Digby Bell, Mary Fabre, Susanne Westford, Richard Thornton, Frederick W. Brown, Sydney Booth, Geo. E. Mack, Hayes

At the Grand.

Al. H. Wilson and company in "When Old New York Was Dutch" will be next week's offering at the Grand Opera House. During the past week this popular comedian played to capacity business with "Mets in Ireland," and this play could be produced another week to the same kind of business were it not for the fact that Mr. Wilson is under contract to produce a different play. "When Old New York Was Dutch" was a big success last season. It is a notably humorous play and the scenes and characters are both quaint and interesting. A charming love story is woven into the study of life in New York City during early colonial days, and many of the incidents are historically correct.

His new songs are among the sweetest he has written. The scenic production complete will be seen in this popular play and the pretty songs for which Mr. Wilson is famous will be also rendered by the favorite star. During the week the regular Wednesday and Saturday matinees will be given.

"The Hastings Show."

A carnival of beauty and a continuous chain of movement put a glittering edge touch to the offering of the "Hastings Show," the latest and greatest of all extravaganzas, with their appearance at the Gaiety Theatre, commencing Monday matinee. The decorative part in "The Hastings Show," offering the skill of the most prominent equitarians with its unique and brilliant illuminations, emanates from the electrical department of one of New York's most famous mechanics, while the setting is, to the greatest portion, the creation of a noted Parisian Theatrical Costumer. The burlesques offer some of the most amusing and picturesque and gay in surroundings. A number of clever vaudeville features are interspersed in the medley of spirit and music.

Scarbore Beach.

The grand opening at Scarbore Beach commences Saturday next, May 21. Under the supervision of Architect Hyde, a corps of workmen are busily engaged in rebuilding, repairing and painting the buildings, while experienced landscape gardeners are laying out the flower beds and putting the lawns in order. Under strong and enterprising management the aim of the park will be to supply the maximum of amusement at the minimum of cost.

Every week there will be a change of bill, with at least three big free acts. All the old favorite features have been retained, while the latest novelties from Coney Island and other great pleasure resorts are now being installed. One of the innovations is the Midway, large building given over to the queezer, the trick horse

Do Not be Misled

How many smokers there are who miss the best in smoking material, by foolishly adhering to tradition.

All their lives they have been accustomed to seeing the names of certain brands—and they have unconsciously come to imagine that, because the names of such brands meet one at every street corner, and are blazoned forth by glittering signs against the night sky, these brands are the ones they must smoke.

How absurd to allow one's self to be thus misled.

Black Cat Cigarettes

Do not longer be led astray by high sounding claims—but put these brands to the test.

Take any brand of cigarettes that you have heretofore thought good, and compare it with the BLACK CAT. Here is the way to test it:—

Take any Virginia Cigarette, at any price, and light it. At the same time, light a BLACK CAT, smoke from each alternately, and pass the smoke through the nose. You will immediately detect the difference.

SEPARATE SCHOOLS DRAPED BUT NOT PUBLIC SCHOOLS

Orangemen Inclined to Blame Socialist Tendencies of Chairman Simpson for Omission.

"If, as I am told by leading citizens, socialism is running the board of education, it is certainly not running the city council," said Controller Church last night in criticizing the neglect of the public schools draped in honor of the dead King. The omission is made conspicuous by the fact that the separate schools have been bedecked in black and purple.

At several Orange Lodge meetings last night speeches were made hotly denouncing the school board for its tardiness in showing the marks of loyalty, and criticisms of James Simpson, the Socialist chairman, were uttered.

Controller Church will, at to-day's meeting of the board of control move that all public halls, fire stations, libraries and entrances to parks be decorated at an expense not to exceed \$10 in each instance as in other cities.

CONSPIRED TO ROB

Says Magistrate in Giving Elizabeth and Margaret Allen Six Months.

"I believe that these women conspired to rob this man and then tried to fasten the blame on the other prisoner," said Magistrate Kingsford, in yesterday's court after hearing the evidence against Elizabeth Allen, Margaret Allen, Susan Allen and Corneilus Wall, who were charged with robbing and assaulting William Henry Starr, a middle-aged Englishman, at 19 Ontario-street, on May 5.

An interesting situation is created by the council's approval of the property commissioner's plan of rearranging the police and detective offices in the city hall, despite the openly expressed determination of Magistrate Denison and Chief Grassett not to move.

RUST'S RAILWAY LINES APPROVED BY COUNCIL

Corporation Council's Opinion Silenced Objections—Fire Hall For College Heights.

Acting on the advice of Corporation Counsel Drayton, the city council yesterday voted unanimously in favor of making application to the Ontario Railway Board for an order to compel the street railway to build the lines recommended by the city engineer. The company has already filed its application.

The routes proposed by the city are: From the intersection of George and Duke-streets to the corner of Oger and Royce-avenues, in the northwest section; from the intersection of George and Duchesne-streets to the corner of Danforth-avenue and Green-wood-avenue, in the northeast; and from the intersection of Adelaide and Simcoe-streets to the crossing of the C.P.R. tracks at Huron and Dupont-streets in the north.

Another effort will be made to locate a fire station in the district known as College Heights, despite the determined effort of Aid. Dunn, chairman of the fire and light committee, to have it switched to Wychwood.

Controller Spence scored the officials, asserting that they had shown poor judgment in the selection of each of the four sites successively turned down because of the opposition of residents, and that in suggesting a location to Wychwood, they admitted incompetency.

Aid. Hamblly declared that "vicious politics" had been displayed in the matter. The board of control and the aldermen of the third ward had been dragged by residents into giving up the sites against their better judgment. Aid. Heyd and McBride denied the accusations that they were "ward politicians."

Ryan and Rellly get the contract for the Don siphon in connection with the trunk sewer at \$46,000.

By unanimous vote, it was agreed to acquire Army Square and Elizabeth properties for playground purposes.

Defender of Sabbath.

Aid. Hilton, who has more than once loomed up as a defender of Sabbath sanctity, reaffirmed his position when council was considering granting refreshment privileges in Riverside Park to N. S. Gardner.

"This carries a seven-day privilege," said he. "The obtaining of a privilege to carry on Sunday business is objectionable."

"This is the first intimation I have had that Aid. Hilton is an advocate of the Lord's Day Alliance," said Aid. McBride. "This would apply to the island and all the other parks. Sunday refreshments in the parks are for the benefit of the citizens."

Aid. Maguire said he was flatly opposed to the forbidding of the sale of ice cream on Sundays, and Aid. Hilton explained that he chiefly objected to the sale of candy to children. He considered it demoralizing.

Tenders for the Riverside Park privileges will be invited, as Mr. Gardner's five-year term expires in June.

Council supported Aid. Dunn's motion to refer back the appropriation of the property Nos. 662 to 670 Markham-street, on which it is proposed to erect a police station. The owner of the major portion is Mrs. J. Orr, a widow of 74 years, who lives in a cottage and wishes time to seek a new residence.

Turned Down Chief of Police.

An interesting situation is created by the council's approval of the property commissioner's plan of rearranging the police and detective offices in the city hall, despite the openly expressed determination of Magistrate Denison and Chief Grassett not to move.

OVERVALUED HIS FARM

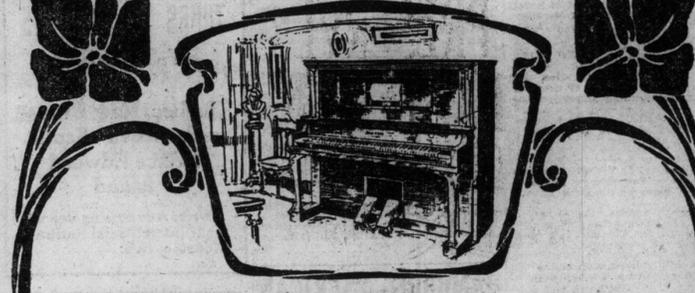

Robert Crompton Assigned to Pay Judgment—Kept Record for 5 Years.

Robert Crompton, 886 West Queen-street, exchanged a farm near St. Catharines some years ago for a boot and shoe business in Drayton. Now he is accused of failing to keep a proper set of books in connection with his business.

A lawsuit followed the exchange, as a man named Clemens, who was the other party to the transaction, declared that Crompton had overvalued his farm. Crompton filed a counter claim. He later gave up business in Drayton and came to Toronto. Chief Justice Falconbridge decided that the farm was worth \$3,000, and judgment was entered for \$3,000 in favor of Clemens.

"Whereas the farm was represented to be worth \$3,000, and judgment was entered for \$3,000 in favor of Clemens, this court dismissed the counter claim mandating: 'I find the fact to be that he made false and fraudulent representations as to the charges and value and conditions of his lands and crops, and chattels, and the quantities thereof.'"

Crompton, unable to pay the judgment assigned to the firm of E. R. Clarke, who claimed they could find no books that would indicate the value and conditions of his lands and crops after doing business for five years.

Not the novice only, but the musical expert—notably—bows before the marvellous warmth of tone and clarity of expression found in the MASON & RISCH PLAYER PIANO. The Aliquot System of tonal enrichments puts a final, humanizing touch to the instrument, lifting it from the ranks of merely mechanical players, and making it a master interpreter indeed.

Anyone can play it. Visitors are always welcome at our warerooms. Booklet on request—FREE.

Sinking Spells Every Few Days

"At the time I began taking Dr. Miles' Heart Remedy I was having sinking spells every few days. My hands and feet would get cold; I could scarcely breathe, and could feel myself gradually sinking away until I would be unconscious. Those about me could not tell there was life in me. After these spells I would be very weak and nervous, sleepless, and without appetite; had neuralgia in my head and heart. After taking the remedy a short time all this disappeared, and in a few weeks all the heart trouble was gone."

COBALT-Nipissing and La Rose Move Out of the Downward Rut--COBAL

La Rose and Nip the Favorites In a Rather Dull Market

Business Continues of Small Calibre, and Fluctuations Are Generally Held to Within Narrow Limits.

World Office, Friday Evening, May 13. The business in the metal mining stocks was not of a large calibre and there were no movements of any consequence in any of the securities except in two of the premier issues, namely, Nipissing and La Rose.

La Rose sold as high as \$4.45 during the day, and Nipissing crossed the \$10 mark. Most of the buying was of a speculative nature, and such as might be calculated to come back into the market within the next few days. The publication of the quarterly statement of the Timiskaming Mining Company had an effect upon the shares of this company, which strengthened to the extent of a couple of points.

In the active mining issues the market was narrow, but giving to free trading in two of the issues. Nothing transpired during the day which could be counted upon to influence the trend of quotations, and the in and out operations of those who are in close affinity with the market practically governed to-day's business.

The undertone to prices is fairly good, and although no immediate upward movements are expected, it is not conceded that prices can be depressed without considerable difficulty.

COMING INTO PROMINENCE

Visitor to Elk Lake Speaks Hopefully of the Silver Camp.

J. W. de Aguiro, the well-known mining man, was in the city yesterday on his way back to New York after a two weeks' visit to Elk Lake. In reference to recent developments in that mining district Mr. de Aguiro stated that everything was going along smoothly and that work was picking up rapidly from the effects of the recent fires. Several good strikes had been made on mining properties and everything pointed to an active summer at many of the mines.

Speaking of the Moosehorn in particular, Mr. de Aguiro said that work was now working at the 125 foot level, where some 600 feet of drifting had been done. A winze was being put in on the strike made some six weeks ago, and the first two shots brought calcite shot with silver, the samples picked up running as high as 3500 to 4000 ounces to the ton. There is a quantity of high grade ore sacked, and will ship very shortly by way of the river.

"Considerable prospecting work is being done in the Elk Lake district," said Mr. de Aguiro, "and many men are going into the Gowandaga section, where excellent finds have been made. There are two boats into Elk Lake every afternoon, and three go down to Latchford every day."

"Everything points to a very active summer in this district," he continued. "The town is naturally the head of navigation on the Montreal River, and the situation is an excellent one for any way you look at it. I fully expect to see large shipments made from the camp, and this is all that is required to make every appearance of this property a success. The town is naturally the head of navigation on the Montreal River, and the situation is an excellent one for any way you look at it. I fully expect to see large shipments made from the camp, and this is all that is required to make every appearance of this property a success."

STRIKE SETTLED

But Dominion Coal Shares Show No Response to the Good News.

Playfair, Martens & Co. in their market letter say that Dominion Coal shares have made little or no response to the news of the collapse of the strike. While it was only a matter of time before the strikers had to give in, it had every appearance of being at least till the fall and thus continuing the high cost of operating and producing. Fortunately the strike has had a sudden termination, and within a short time the cost of production should be reduced as low as ever. This together with the increased price of coal should make the earnings of the company on the common stock an easy matter. During January and February of the present year the output was 414,000 tons as compared with 401,971 tons in 1909. The output of the company for April is 243,000 tons. Mr. Rodolphe Forget is credited with saying "that the Coal and Steel companies working together should earn 7 per cent. on the common stock of both companies for the coming year, and after paying a 4 per cent. dividend add \$3,000,000 to the reserve." Dominion Iron and Steel Company's output for April is officially announced as follows: Pig iron 21,194 tons; steel ingots 25,283. Shipments amounted to 21,900 tons. The majority of the shareholders have accepted the terms of the merger, and the scrip will be issued in a short time. It is understood that an effort will be made to list the stock of the new corporation on foreign exchanges, which will provide a broader market. It is probable that the abolition of the bounty on wire rods will be provided for by a change in the tariff, which has hitherto allowed them to come in free of duty.

Bargain Day in Cobalt Stocks.

Playfair, Martens & Co. say in their letter: It is a bargain day for Cobalt stocks, that day seems to be at hand. During the past fortnight many of the stocks have registered serious declines. Bar silver moved in a different direction, and has scored and sustained during the past few weeks an advance close to 4 cents an ounce, while the shares of the latter wire rods have been steadily sinking lower. Rumors to the effect that Cobalt is petering out are too nonsensical to

receive serious consideration. This year's production will equal, if not surpass last year's, which was the greatest in the history of the camp, and unless some forces, at present unknown, are working to lower prices, it is quite impossible to understand the situation, if one has any faith in the future of the Cobalt camp, now is the time to pick up some real bargains. With the continued advance in the metal market, Cobalt stocks are bound to do better, and while the buyer may have a little wait for his profits, these profits would seem to be almost inevitable from judicious contracts entered into on the long side at this time.

WHY RENEW THE FIGHT?

Another attempt is being made to disintegrate the investment sentiment in regard to the Peterson Lake property. The World several months ago took the ground that the personal differences in the directorate of any company should not involve the interests of the shareholders of that company. During the former contest in connection with the Peterson Lake property it was frequently suggested in these columns that any differences between the directors should be settled amicably and, if necessary, by arbitration. This was practically carried out after the suit in connection with the various matters in question had reached the court, and it was thought that after this had been definitely arranged by which the Peterson Lake Company became reimbursed for the losses which the company had sustained henceforth the highly valuable property which the company owns would be worked out for the interests of the many shareholders.

Unfortunately a director who feels aggrieved because of some personal differences in connection with the affairs of the company has stirred up another disturbance and such as cannot be otherwise than injurious to the shareholders of the property. The World has made enquiry into the most recent trouble in connection with the Peterson Lake Company and finds that the matters which have brought about another prospective fight is nothing more than the result of the desire of one individual to attempt to control the company's affairs against all the other directors.

Mr. S. G. Ford, who is out seeking proxies for the annual meeting, complains that the Peterson Lake Company has leased portions of its acreage and that some extravagance has occurred during the year's management of the company. The extravagance complained of consists of a payment to a solicitor for fighting a difficult suit, and after having won the suit, much to the advantage of the company, the total cost to the shareholders of the Peterson Lake amounts to the very large sum of \$500. When it is considered that the result of the action has benefited the Peterson Lake shareholders by over \$50,000 of actual money and the return of 150,000 shares of the company's stock, it can be seen that an extraordinary cost the present management has put the company to obtain this magnificent result!

As to the leases of the Peterson Lake property there appear to be no two opinions but that the method adopted by the Peterson Lake Company to develop its large area of over 800 acres is the correct one, and such as will demonstrate the property without cost to the Peterson Lake shareholders. Last year was a difficult one to prove the worth of the Peterson Lake Mining area, but exceedingly satisfactory results have occurred from the present management and it would be folly on the part of the shareholders of the company to think of changing those who have now the interests of the company and its control in their hands.

FIGHT TO ESCAPE CREMATION

Michigan Family's Perilous Flight From Bush Fires.

GRAND MARAIS, Mich., May 13.—John E. Elving and his wife with their young baby, together with their six other children, the eldest of whom is 15 years, have reached here in an almost famished condition after a thirty mile trip thru the forest between here and Upper Brule Lake. It took them five days to cover the distance, and they were alternately starved and frozen to death. Two of the smaller children were saved from drowning in the swift current of the Brule River by the family's Newfoundland dog. When Elving and his family were routed from their beds Sunday morning by advancing forest fires they beat a hasty retreat with a small stock of provisions. After tramping for three days in an effort to escape from the burning timber, they found themselves entirely surrounded by flames from trees on the bank of the Brule River, sought a favorable place in the stream and stationed himself and his family near, deep in the cold water beneath a wet screen of underbrush which they saturated from time to time until the fire burned out.

LITTLE NIPISSING WORKING IN GOOD SILVER VALUES

During Two Weeks Over 320 Tons of Ore Were Taken From One Working.

COBALT, May 13.—(Special.)—There seems to be no doubt that the Little Nipissing has run into large and valuable ore bodies, and in fact it is now only a question of time before dividends will be paid. The new vein struck by this company at the 210 foot level has been drilled upon for over one hundred feet and the vein still continues to maintain the same strength and values as when first discovered. During the last two weeks over 320 tons of ore have been taken from this vein, and about the end of the month a car of this ore, which will average five to over eleven thousand ounces per ton, will be shipped to the smelter.

From reliable information it is ascertained that a car of the same value of high grade ore can be shipped every month. The company have also uncovered other veins carrying values from two thousand to five thousand ounces to the ton, and are at the present time trenching on the surface for the purpose of locating the bonanza vein of the Big Nipissing Company, which apparently runs directly across their property.

It is believed that the outsiders are gradually accumulating this stock. The big vein continues to carry high values in the vein itself and is showing higher values in rubble silver than have been found in the camp during the last year, in addition to the fact that the wall rock is heavily shot with lead silver from 10 to twenty inches on each side of the vein.

GALLIES ON JUNE 30 FOR ITALIAN MURDERER

Justice Riddell Passes Death Sentence—Doomed Man Makes Appeal For Mercy.

To be hanged on Thursday, June 30, in Toronto jail, was the sentence passed yesterday by Justice Riddell on Pasquale Ventricelli, Italian, who in a drunken row, stabbed a companion to death on March 6. Ventricelli bore up bravely in court, but afterwards collapsed, and was in a dead faint for some time. Before his doom was pronounced, the prisoner, addressing the judge in his own behalf, said: "I am a poor man, and I can't understand why the jury should find me guilty of the charge. I can't say that I did kill the man, and if I can't, how can they?" "If the witnesses swear I killed the man, why don't they come forward and say they were going to kill me? If they say I was going to kill him, why didn't they try to stop me? I saw these men coming in front of me, they were frightened, I can't remember." Justice Riddell told him that he could hold out no hope that the judge's order for office hours on the 13th day of May up to and inclusive of the 30th day of May, until the annual meeting is over.

C. P. P. Distinguishes Itself on the Exchanges

C.P.R. Leads Another Up-Turn In the New York Stock Market

Premier Canadian Stock Has Another Sharp Rally, But Other Stocks, Both Canadian and American, Bull Hard.

World Office, Friday Evening, May 13.

Eliminating strength in C.P.R. and two of the listed mining securities the Toronto market to-day showed very little difference from that of yesterday.

The general run of business was small and changes nominal in most of the issues dealt in.

The rise in C.P.R. is as mentioned earlier in the week, due to the which are being given out that the stock is to be put on an increased dividend basis. The principal part of this movement developed in New York and was followed somewhat to-day on the Montreal Exchange, but here practically nothing was done in the shares.

La Rose and Nipissing were the strong features of the listed mining shares and no other reason than a speculative upward movement was assigned for the advance in these stocks.

The market as a whole continues fearfully narrow, with traders inclined to sell at any advance worth speaking of.

A feeling of general apathy seems to pervade the investment side of the market and this is accountable for the pressure which is being exerted against bank shares and other stocks which are fully paid for.

The market is governed practically by its own environment and free and easy movements on Wall-street have for the time being no influence in changing quotations on this market.

Wall Street Pointers.
F. Augustus Helme acquitted.

Numerous announcements of financing of American bonds in Paris expected in next few days.

Metropolitan sale indefinitely postponed.

Revival of rumors of increase in C. & O. dividend.

Final passage of the administration's railroad bill still regarded as doubtful at Washington.

Steel market quiet, but manufacturers optimistic on the future.

General market in London irregular and rather inclined to sell off.

Burlington officials talking of record grain crop in their territory.

Canadian Pacific expects to earn 16 per cent. surplus for the common this year, exclusive of land sales.

London market closed till Tuesday morning.

The known movements of money for the week ending with the close of business on Thursday indicate a gain in cash by the local banks of \$7,000,000.

Joseph says: Buy some New York Central. Do not disregard either B. R. T. or C. & O.; both are pointing upward. Take on St. Paul. Hold M. K. & T. Buy Union Mines on the curb around 22.

Notwithstanding the fact that this is Friday the 13th, we would not be surprised to see a continuation of bullish speciality operations and a hardening in the general stock market, accompanied by a little irregularity. Purchases should be made on little recessions. The dulness on declines is encouraging.—Financial Bureau.

The B.R.T. dividend increase, while discounted to an extent, suggests favorable attention to other stocks where similar developments are pending. C. & O., whose rate will probably be advanced next week, and Atlantic Coast, Virginia Chemical, Pennsylvania, Norfolk and Car. Ports, which are expected to pay more a little later on, should enjoy a sharp advance. These stimulating influences will be reinforced by such general developments as increased freight rates, equipment orders, expected turn in the iron market, Steel listing, adjournment of congress and the state legislature, as well as manipulation of powerful financial interests.—Town Topics.

Railroad Earnings.
Duluth-Superior, 1st week May, increase \$2235; Chesapeake & Ohio, 1st week May, increase \$17,815; L. & N., 1st week May, increase \$146,000.

Judge Gary is Optimistic.
BOSTON, May 13.—Judge Gary says of general conditions: "There are not nearly so many clouds in the business horizon as the chronic pessimists would have us believe. I am hopeful for the future months of 1910. The temporary recession in business, concerning which we are hearing so much, does not disturb me."

"Political situation is vastly more favorable than appears on the surface and I feel confident that legitimate business interests of the country have nothing to fear from the present congress or present administration."

IF LIQUIDATION INCREASES.

World Office
Friday Evening, May 13.

The Canadian markets were devoid of anything which might lead to a criticism of market movements in to-day's business. Trading was even less than that of yesterday, and such prices as occurred represented, if anything, the disgusted attitude of speculative long holders. There is an entire absence of bullish exuberance in the market, and for the time being there is absolutely nothing to encourage purchases. Quotations are being held up largely on account of the smallness of the present liquidation, but it is not impossible that the selling might easily increase, and if this occurs it will be essential to record lower prices in the market.

Do You Suffer From Headaches? There are few people who have never experienced a headache from one cause or another. It effects all ages and both sexes alike, but the female sex is naturally more affected through the higher nervous development and more delicate organization of the system. Those also of a nervous temperament and studious or sedentary occupation are subject to it.

Burdock Blood Bitters has, for years, been curing all kinds of headaches, and it will do for you what it has done for thousands of others. Mrs. John Connors, Burlington, N.S., writes: 'I was troubled with headaches and constipation for a long time. After trying different doctors, I was advised to take Burdock Blood Bitters. I find I am completely cured after having taken three bottles. I can safely recommend it to all.'

MARRIAGE WITH WHITES TO SOLVE NEGRO PROBLEM... Clarence Darrow, Socialist Lawyer, Openly Advocates It Before National Negro Conference.

NEW YORK, May 13—Clarence S. Darrow, the socialist lawyer of Chicago, in an address last night at the second annual conference of the national negro committee, in Cooper Union, wiped out the color line as the solution of the race problem. He criticized Booker T. Washington and told his hearers that what the negro needed was to be taught to work.

Booker T. Washington, the speaker described as "that modest, self-abasing optimist who builds industrial centers for the white man and to perform manual labor of the lowest kind."

No Housecleaning is Complete Until the Walls Have Been Freshly Papered

DOESN'T it seem to you that while the carpets are up and housecleaning going on, or ready to go on, that it would be a good time to have the walls freshly papered? Think of the fresh appearance it will give the rooms and how much cleaner they will be.

We offer wall papers always at prices based upon their cost in quantity, and just now many cases may be pointed out where regular Simpson prices have been reduced.

For example, on Monday we sell a quantity of American wall papers at less than half of the usual figures even in this low-priced Wall Paper Store.
