BRITISH RECOVER SECTION OF TRENCHES TAKEN BY GERMANS RUSSIANS MOVE TO CUT OFF TURK ARMY AT KUT-EL-AMARA Allison Distributed \$195,000 of Rake-off From Yoakum

RUSSIANS PLAN TO TAKE TURK ARMY IN REAR

Advance on Khanikin and Bagdad May Cut Off Large Force.

BULK FACES BRITISH

Petrograd Believes This Command in Danger of Capture.

PETROGRAD, May 12, via London. The Russian army in Persia, which during the past ten days has completed the arduous task of traversing the mountain district separating it from the Turco-Persian frontier, driving the Turks upon their strongly fortified base of Khanikin, now stands at the very threshold of Mesopotamia, and future developments in connection with the Russian expedition toward Bagdad are being awaited with the greatest interest.

The hasty retreat of the Turks in this quarter seems to imply that the forces defending Khanikin have been greatly overestimated, and it is apparent that they have as yet been unable to transfer the force released by the surrender of Kut-el-Amara to another front.

According to the opinion of Russian critics, the Turks are now endeavoring to meet this contingency by an entire change of front from south to north and northeast, so rearranging their forces as to meet the Russian pursuit in these directions at the expense of their campaign south of Bagdad, which has become less important than that in the Khanikin region in view of the growing danger of a Russian attack upon their rear.

As the Turkish Mesopotamian campaign heretofore has been chiefly directed southward against the British expeditionary force, the wholesale turning of forces now necessary is expected to entail difficulties which will leave the Turks at a decided disadvantage if the Russians succeeded in following up their successes with the rapidity thus far shown.

After a long interval of inactivity the Russian forces in the coast region have resumed their progress beyond Trebizond, and the offensive is at present in the hands of the Russians at every important point in the Armenian war theatre.

AFTER a heavy preliminary bombardment, the Germans captured 500 yards of British trenches near Vermelles, and lost part of them again to a counter-attack, Sir Douglas Haig reported in his despatch last night. The Germans said that in the fighting here they took 127 un wounded prisoners. This mishap happened on Thursday night. No further infantry actions were fought in this vicinity today, but considerable artillery firing went on. Opposite Quinchy, north of Vermelles, the British bombed German positions. On the rest of the front only minor duels were fought by the opposing batteries. The loss of 500 yards of trenches does not, of course, necessarily herald any big undertaking by the Germans, and the frontage carried by them is too narrow for use as a foothold for any further advance. Note the magniloquent way in which the Germans announced this small success: "German battalions from the Palatine stormed several lines of a British position."

Two offensives were launched by the Germans against the Russian northwestern lines, one attempt being made north of Selburg Station and the other being made southeast of Lake Medmsi, south of Dvinsk, on Wednesday, but in neither quarter did they succeed in their designs, the Russian war office reported yesterday. After their first repulse near Selburg the Germans decided to renew the action on further bombardment of the Russian positions, and the fighting is being continued near the ruins of Jepukor Village. No success whatever was gained by the enemy in his offensive near Lake Medmsi. The German artillery has been actively employed against many sectors of the Russian front between Jacobstadt and Dvinsk.

It is not improbable that the Germans are now aiming at something more than a local offensive against Russia. Reports are current again that they plan the making of another attack by water on the Gulf and Port of Riga. The occupation of this harbor would seem to be an indispensable preliminary to any real attempt to advance into the interior of Russia. But in view of the great failure of the German naval staff to carry this enterprise thru to a successful

GERMANS CAPTURE BRITISH TRENCHES

Five Hundred Yards Taken and Partly Lost by Enemy.

BOMB FOE POSITIONS

Lively Attack Made on Trenches Opposite Quinchy.

LONDON, May 12, 11.30 p.m.—About 500 yards of British trenches in the region of Vermelles were captured by the Germans Thursday night, but later the British in a counter-attack took back a portion of their lost ground, according to the British official communication issued this evening. The communication says: "Yesterday evening, after a heavy preliminary bombardment, the enemy succeeded in capturing about 500 yards of our front trenches northeast of Vermelles. We regained a portion of the ground lost by a counter-attack made during the night."

"Today there has been no further infantry action, but considerable artillery activity has been shown in this neighborhood. "Further north, opposite Quinchy, we bombed the enemy's positions. Otherwise there has been nothing but minor artillery duels at various points on the front, principally in the region of Thionville, Neuville St. Vaast, Masines, Voormezeele, St. Eloi and east of Ypres."

YOAKUM SPLIT SHARE EQUALLY WITH ALLISON

"Gentlemen's Agreement" Made Long Before Fuses Were Discussed.

ALLISON KEPT LITTLE

Relative and Friends Were Treated With Princely Generosity.

By a Staff Reporter. OTTAWA, Ont., May 12.—Evidence given at today's sitting of the royal commission was of a somewhat sensational character. E. F. Yoakum, stockholder in the American Ammunition Company, who with Caldwell and Basicik negotiated the 2,500,000 fuse order from the shell committee, admitted that in addition to the agreement between himself, Basicik and Caldwell for the distribution of the million dollar commission, there was a "gentlemen's agreement" between himself and Col. Allison for equal shares in Yoakum's portion of the million dollar commission. As Yoakum was to get \$475,000 of the amount, Col. Allison's share was nearly a quarter of a million, or exactly \$117,500, less expenses. Some of the amount already has been paid. It appeared that allowing for deductions Allison's share was reduced to \$107,900.

An Early Alliance. Mr. Yoakum explained how this agreement originated. Long before the business was over, he said, he and Allison had agreed to split the commission equally. He said, Allison and himself "incorporated two companies with the object of negotiating the fuse order. Yoakum said, "I gave him \$25,000 to get into association with him on a share and share alike business. He had experience in handling big munition business, so the witness, whose railroad activities had fallen in with the government, he said, went to him and talked business. "He had the connections," Mr. Yoakum said, "and no doubt had spent a good deal of money already. I gave him \$25,000 to get into association with him on a share and share alike business. He had experience in handling big munition business, so the witness, whose railroad activities had fallen in with the government, he said, went to him and talked business."

BRITAIN TO IGNORE PEACE OVERTURES

Latest Feelers Offer No Basis for Negotiations.

Lord Robert Cecil Comments on Suggestions in German Note.

LONDON, May 12.—"The latest peace overture, said to be of German origin, while not as insistent and impossible as previous statements on the same subject, certainly do not yet offer a basis for negotiations," said Lord Robert Cecil, minister of war trade, in discussing with the Associated Press the latest reputed German peace terms. Lord Robert Cecil continued:

"We have never received, either officially or unofficially, any direct peace suggestions from Germany, and the only indirect overtures we are aware of appear in the speeches of Chancellor Von Bethmann-Hollweg and the recent German note to America. We would not think of discussing or even considering any overtures without consulting our allies. No formal or informal conference for this purpose has ever taken place. "In diplomatic procedure a neutral is hardly likely to make any suggestion of peace terms unless certain they are acceptable to the recipient. "If Germany should decide to approach us thru the medium of the United States, the latter would have to use its own judgment as to whether or not to deliver the message. "While disclaiming any knowledge of the internal condition of Germany, Lord Robert declared that the increasing reports of peace overtures indicate there is some truth to the stories that the central powers are in desperate straits."

BUYING OUT OF ALL RAILWAYS ONLY SOLUTION

Canada's Transportation Situation Desperate, Says W. F. Maclean, M.P.

LOAN TO G.T.P. PASSED

Pugeley Would Make Provision for Taking Over of C. N. R.

By a Staff Reporter. OTTAWA, May 12.—The house of commons today in committee of supply passed the estimate appropriating eight million dollars for aid by way of loan to the Grand Trunk Pacific Railway Company. The Canadian Northern loan stood over, and there may be some further discussion of the general railway situation. Only a handful of members were in the house when the Grand Trunk Pacific item passed, and a considerable part of the day's debate was devoted to a more or less partisan dispute over the National Transcontinental Railway scheme. Just before the committee rose, Hon. Wm. Pugeley gave notice that he would propose an amendment by way of condition attached to the Canadian Northern loan to the effect that the system could be taken over any time within five years at a price to be fixed by the governor-general in council. Urges Nationalization. W. F. Maclean (South York) discussed the general railway situation. He believed the government should act quickly and nationalize either the Canadian Northern or the Grand Trunk Pacific Railway of Canada. He was opposed to riding the Grand Trunk of its Grand Trunk Pacific enterprise. He thought that the railway should be nationalized, including the Canadian Pacific, and did not believe in buying up lame ducks and dead horses while the privately-owned roads kept all the profitable lines. Mr. Maclean in opening said that he could not give his assent to the proposition that the railway should be nationalized, and that as soon as the war was over and the sun shone again the Canadian Northern

COUNCIL FLOPS ON QUESTION OF PROVINCIAL TAX

Some Aldermen Change Mind on Mayor's Motion, Which is Struck Out.

FAVOR LEGAL OPINION

Board of Education Allowed Fifty Thousand for Medical Inspection.

Until next Thursday the city council will be literally "up in the air" regarding the war tax of \$82,051 levied by the provincial government. Yesterday afternoon the mayor's motion that the city treasurer collect the amount and hold it until the courts decide whether the government have power to make the levy was struck out, and an amendment by Controller Cameron to the effect that legal opinions be obtained before any council action was carried with only Controller Foster and Ald. Piewman dissenting. The debate on this question was then adjourned until Thursday, when the opinions of prominent legal authorities will be submitted and a decision arrived at.

"Flopping," as one alderman called it, began directly after Ald. McBride reopened the discussion, shortly before the adjournment for luncheon, and it was not long before a large number of members switched from supporting the mayor and took up the campaign with the dissenters. Finally all of them said they had reconsidered the matter and had decided that legal opinions were necessary before they resumed the discussion. As the matter now stands the amount is still included in the estimate, and until some decision is arrived at the tax rate will not be struck. Compromise Effected. A compromise has been effected regarding the amount of \$15,000 requested by the board of education to carry on medical inspection work in the schools. Yesterday afternoon a conference was held between members of the board and Mayor Church and Controllers O'Neill and Cameron. As a result Controller Cameron moved that an appropriation of \$15,000 be inserted in the estimates for medical inspection and that a conference be held between officials of the council and the board of education, to be presided over by Dr. J. W. S. McCullough, at which course of action for the future will be decided upon. This was carried by 15 to 6.

Ald. Ramsden wanted the amount cut down to \$4,000, but his amendment was decisively beaten. Just as soon as the estimates were finished with the rider inserted to withhold from the government the \$82,051 until the validity of the war tax had been determined by the courts, he struck out. Mayor Church replied to the long argument put up by the aldermen, and he was followed by Ald. Archibald, who maintained that, although his vote might be unpopular yet he was going to vote for some legal opinions to be obtained. "Flopping" Commences. Ald. Piewman was the first one to "flop," and he frankly admitted that the mayor had quite deceived him on Wednesday night. Ald. MacGregor declared in favor of the mayor, maintaining that politics played no part in his vote. Ald. Ball thought the only way out of the difficulty was by a 1-1-1 mill tax rate, while Ald. Ramsden, Maguire and Beamish remained as on Wednesday, in favor of the mayor's proposal. Ald. Gibbons wanted legal advice, and Ald. Graham declared that the tax was nothing compared with the burdens laid upon the people in Europe as a result of the war. Ald. Nesbitt, Robbins and Rydell all changed their opinions during the interim, and Controller Foster remained loyal to the mayor. Aldermen Hills and McBrien wanted legal advice. The debate lasted for more than three hours, during which every alderman, with the exception of Ald. Wagstaffe, spoke on the question. At no time did the discussion become very warm, but some tried to account for the remarkable switching of votes. The Beamish spoke about public notoriety, and his remarks were regarded humorously by some and presented by others. Controller Foster, Ald. Maguire and MacGregor wished it understood that with them there was no political axe to grind, while Ald. Archibald sacrificed popularity to vote as his conscience directed. At all events the rapidity of the "flopping" resulted in much whispering in the corridors about politics and party whips. Men's Hat Day at Dineen's. Saturday is men's hat day at Dineen's. MURRAY-KAY CO. TO MOVE UPTOWN

Official Announcement Made of Decision to Leave Present Premises.

Capital of \$7,500,000

Ogilvie of Montreal Has Been Purchased as a Subsidiary Company.

Murray-Kay, Limited, are going to build new premises on a new site, and move. Where that site is has not been announced. To make the change they stock of the company to \$7,500,000. This money will provide also for the acquisition of the business of Ogilvie & Sons, Montreal. A special general meeting of the shareholders has been called for Wednesday next to gain the consent of the shareholders to these two business changes. A new general manager has been secured. The two businesses of the company, which conducted separate stores on King street, will in future come under one roof, according to the plans of the directors. The second preference stock of Toronto has been steadily moving up Yonge street, it is popularly expected that the new site for the Murray-Kay store will be in that direction. A statement sent out to the shareholders explains that "it is not possible to continue in our present stores, as a financial centre." The circular says that the condition of the company has caused the directors the most anxious thought for the last two years, but that it is only now that a concrete plan has been agreed upon among them. "The new manager, who is stated to have had long experience in department store business," will take charge immediately on completion of the new arrangements. The financial arrangements are that the \$3,500,000 first preference shares will be sold for cash. It will be arranged that any shareholders who wish to can take a share in the underwriting of the new preference under the same conditions as the underwritten will be for \$2,000,000, of this \$1,500,000 will be issued to the present preference shareholders. Not more than \$100,000 of the balance will be used in connection with the James A. Ogilvie and Sons, Limited, business in Montreal. The balance will be kept in the treasury. The reasons given in the circular for the proposed purchase of the Ogilvie business are to increase the purchasing power of the company so as to purchase in the best markets at the least expense, and to increase the turnover of the company. The Ogilvie business was established over 40 years ago, and is stated to have an excellent reputation. The directors think that they have made a very satisfactory bargain.

CHURCH'S STAND IS NONSENSICAL

How Hon. T. W. McGarry Describes Mayor's Attitude on War Tax.

Scores City Council Deliberate and Prepared Attempt to Stir Up Strife in Ontario.

"Members of the provincial government will continue to exert all efforts that the name of Ontario will continue to stand as it stands today, at the top of the British Empire. Such events as have happened this week will not deter us. We have too much faith in the loyalty of the people. Let us fight this war to a successful conclusion, whether the law is legal or not. Such was the statement of Hon. T. W. McGarry, provincial treasurer, in a routing address at the Ward's Liberal-Conservative open meeting held in Parkdale Assembly Hall last night, in which he bitterly scored certain members of the city council who were opposed to the property tax imposed by the provincial government. "The government of this province," he continued, "last year decided that the ordinary revenue would not allow us to do more in patriotic work than forming a militia. The mayor took the stand to enable us to do our duty. An imposition of a tax of one mill on the dollar on every person holding property in Ontario was passed. The reason was that for months before, men women and children had been giving voluntarily. There was no equality in the giving. The government decided that the fairest way was to make the giving general through the province. It was not a tax against the city of Toronto. We imposed the tax as we saw many things that we should do. One hundred and ten men of the government passed their opinion on it and there was not one dissenting voice. In the 883 municipalities of Ontario not one man spoke against the war measure. "Don't Praise Themselves. "There were no objections until lately. During the past few days the city papers have been filled with objections. The mayor took the stand that the government had no power to levy the tax, and was therefore opposed to it. PLAY BALL!—The Season Opens Monday

Dress Up for the Occasion, for It's the Official Opening of the Summer Season And We're Ready With Seasonable Wearing Apparel for the Fans

MONDAY IS THE BIG DAY among the thousands of fans and admirers of baseball. It's generally a gala day—bands playing—flags waving—a cheery crowd—when teams make their initial performance of the season!

It is a day that men regard as the official time to leave off heavier clothing and don lighter weight underwear—possibly a new suit—a new hat or new boots.

A necessity for the first game-day is the top-coat, and particularly smart and suitable to wear throughout the season are spring top-coats in weaves of homespun, in grey and fawn in fancy mixture, and a fawn covert cloth. Some have slash and others patch pockets; sizes 33 to 44. Price 12.50

Another line of Spring Top-coats are hand-tailored from all-wool materials, in spring shades of light and medium greys, with overcheck. Also greenish greys with large overplaids and brown mixtures, with stripes. They fit closely at the collar and are the most dressy slip-ons of the season. Price 25.00

ISSUE REPORT ON TRANSIT PROBLEM

It is Adopted by Ratepayers of the North End at a Big Meeting.

DIVERTS METROPOLITAN

Eliminates "Gap," Gives Service to N. Toronto and Widens Mt. Pleasant.

Mark Bredin was the chairman of a big meeting of the business men of the North End and North Toronto, held in the Deer Park school last night...

The proposition, briefly summarized, provides for the widening of Mount Pleasant Road to 80 feet, together with its extension from the present terminus at Blythwood road to the York Mills hill. Down this road it is proposed to divert the Metropolitan Railway over a double track line...

The city, under the proposed arrangement, would reserve to itself the right to operate civic cars on Mount Pleasant road, running from the present terminus of the Church street line, up thru Rosedale, connecting with the other civic car line at the proposed C.P.R.-C.N.R. double deck bridge at Summerhill avenue.

For the surrender of its franchise on Yonge street, the Metropolitan would be given running rights into its terminals at the C.P.R. and C.N.R. stations.

ASSESSORS MUST BE INSANE, SAYS COUNSEL

The expropriation of Grosvenor Street Presbyterian Church by the city for the extension of Terminus street was productive of another wrothful battle between counsel when an attempt at settlement was discussed yesterday before Official Arbitrator F. H. Drayton.

NO MORE GRAY HAIR

A Simple and Effective Mixture Can Be Prepared at Home That Soon Darkens the Silver Locks.

Gray, streaked and faded hair is as unsightly as it is unnecessary. Youth is our greatest asset, and we should preserve it and prolong it by every proper means available.

Apply to the Employment Department, 152 Front St. East.

Gray, streaked and faded hair is as unsightly as it is unnecessary. Youth is our greatest asset, and we should preserve it and prolong it by every proper means available.

To a half pint of water add: Glycerine 1-4 oz. Bay Rum 1 oz. Orizol Compound 1 small box

You can get these ingredients at any drug store, and the preparation will be just as efficacious for removing dandruff, stopping falling hair and other scalp ailments as for darkening gray hair. Apply it once a day until the hair reaches the desired shade, and then one application every other week will be all that is needed. Be sure to try this. It's fine.

put in figures showing that neighboring property had been assessed at \$50,000, when the actual value of the property and building was \$2000.

J. T. Simpson for the city stated that the assessor used his own discretion in making the assessment, and that he was not necessarily a real estate man.

Thereupon the counsel of the church remarked that assessors must be insane.

Mr. Simpson also put in figures to show that property in the neighborhood had increased in value according to the assessment.

The Toronto Railway Company STILL NEEDS MEN TO SERVE AS MOTORMEN and CONDUCTORS

Men who ought to be training as soldiers; but others are urgently required.

The preference will be given to men who have "done their bit" at the front, and who are still capable of discharging their duties on the cars; and to those who are unable to pass the military test.

NEW UNITS TRAIN AT CAMP BORDEN

Older Battalions Preparing to Take Up Quarters at Niagara.

RECRUITING YESTERDAY

Seventy Men Attended at Depots—Ask Permanent Military Board.

Recruiting in Toronto for the various overseas units reached a higher mark yesterday than in the past few days.

Under command of Col. Darling the 8th Highlanders Regiment held their weekly drill in the armories last night.

Following the physical drill the regiment held a route march, headed by the brass and pipe bands thru the downtown section.

Prepare for Niagara. The greatest part of yesterday at the recruitment camp was taken up by the headquarters staff in packing up, preparatory to leaving for the summer camp at Niagara-on-the-Lake Monday.

General Legie will leave to take up his quarters at the Niagara camp Monday morning. The G.O.C. has no further news had received from Ottawa as to whether any more military units other than the eight already ordered will be sent to Niagara.

Accommodation has been made for eleven battalions, and it is rumored that only the newer units will go to train at the new Camp Borden.

During the past month things have been quickly rounded into shape by the engineers at Niagara. Roadways have been widened, water pipes laid, 40 targets have been placed alongside the 30 and 100-yard ranges on the lake shore, a new telephone system has been installed, and a new building, 150 by 20, erected.

Until the high-pressure filtration plant being installed at Niagara-on-the-Lake is ready for use, the soldiers will drink water treated by the ultra-violet ray.

The filtration plant work is expected to be completed within one month, and the plant is calculated to filter the water 97 per cent pure. This means that there will be little chlorine in the water.

West Point. A request for the formation of a permanent board of officers to conduct court-martials in the military district has been sent to Ottawa by General Legie. The present system entails active officers being called from important training and administrative work to conduct court-martials and the formation of a special board of the O.C. is of the opinion that it would be a great thing, especially for the summer months, when military activities are at their height.

Commenting on the action taken in the police court against deserters from the army, General Legie says that those who desert from the colors at such a critical time deserve all they get.

Major-General Hodgins will arrive in Toronto Sunday morning to confer, it is anticipated, with Major-General Smith, who, with two other commissioners, is investigating the affairs of the 8th Overseas Battalion.

Major H. J. McCormick, who is to command the fourth American battalion, known as the 21st of Toronto, has completed his recruiting plans and will start to form that unit at once.

CANADIAN LIEUTENANTS GAZETTED CAPTAINS

Major Goary of Artillery is Married—Six New Lieutenants.

Canadian Associated Press Cable. LONDON, May 12.—The following lieutenants are gazetted as captains: H. M. Savage, H. B. Burverine and C. E. Churchill, artillery; A. L. Saunders, S. W. Watson, P. L. Hall, F. McNaughton, N. Macleod and W. Walker, dragons; A. Cameron, Strathcona's; W. C. Smith, cyclist. The following are appointed adjutants: Captains Rawlinson and Blue, artillery; Henney, army service. The following are gazetted lieutenants: Sergt. Crean, engineer; Corp. Coit, army service; No. 1474, G. A. Gilmour, Sergt. Major H. Goary, artillery, was married to Edith Margaret, daughter of Col. Mackenzie, Indian army and Cromarty.

CHILDHOOD AILMENTS

The ailments of childhood are many, but most of them are caused by some derangement of the stomach and bowels. Therefore, to banish these troubles, the stomach must be kept sweet and the bowels regular. To do this nothing can equal Baby's Own Tablets. Thousands of mothers have proved this. Among them is Mrs. Thomas Holmes, Blenheim, N.B., who writes: "Every mother in this locality writes Baby's Own Tablets as we all consider them the very best medicine for childhood ailments." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts if Your Back Hurts or Bladder Troubles You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

CONTROLLER AND MAYOR OFFERED TO COMPROMISE

Ready to Reconsider Education Estimates and Have It Inserted at Fifty Thousand.

Assured of the support of 11 members of the board of education by a motion that was carried at the informal meeting of the members yesterday afternoon, the finance committee of the board met and passed a resolution instructing the board's solicitor to take the necessary steps to compel the council to provide the sum of \$71,500, which it had stricken from the board's estimates. The solicitor in the same resolution was authorized to employ such counsel as he deemed necessary.

Upon this being passed the chairman and one or two of the finance committee saw the mayor and Controller Cameron in the mayor's office, and upon being informed of the contemplated action, the controller supported by the mayor, offered to have the matter reconsidered, and try to have \$50,000 inserted in the estimates at the afternoon session of the council.

This the committee accepted and returned to the other members of the board who were holding a property committee meeting. When the tale of success was told, one of the board said, "and the cat came back."

FELL FROM SCAFFOLD HAD RIBS FRACTURED

While doing some repairs at the old Central Prison, Strachan avenue, yesterday afternoon, Robert Hall of 2A Windsor street fell a distance of nine-and-a-half feet from a scaffold, erected on the outside of the building. He sustained a fractured right arm and several broken ribs. Dr. McClelland of Exhibition camp was called and ordered Hall's removal to the Western Hospital, where he was taken in the police ambulance.

SHOP-BREAKING CHARGE.

Albert Navlor, 36 Gordon street, and George McDonald, 15 Mechanics avenue, were arrested last night by Detectives Mulholland, Wickett and LeVitt, on a charge of housebreaking. A feeling, 1139 Dundas street, is one complainant. "Do you think Miss Oldgirl will ever change her mind and marry?" "No; if she marries it will be because some man of her acquaintance changes his mind."

The Gillies timber limit on the Montreal River again figures in the Ontario Gazette. The memory of ancient history has been revived years ago it was planned to operate a provincial mine there. The mine expired for lack of ore. Now it would appear that fresh prospects have been located, for some 8000 acres of the limit have been thrown open again for prospecting and staking. The order appears in this week's Ontario Gazette, and will become effective on June 1.

The OPPORTUNITY for the man with small or moderate income to start on the Road to Prosperity—OWN ONE OF THESE LITTLE FARMS ON 10 MONTHLY \$100.00 5 YEARS TO PAY WILLOWDALE ACRES A STONE'S THROW FROM YONGE ST. THE CITY MAN'S FARM 5 YEARS TO PAY One Acre, or Nearly 45,000 Square Feet 300 feet by 150 feet. Equal to Fourteen City Lots. On One of the Highest Points Overlooking Lake Ontario. On a Main Thoroughfare, 5 Minutes From Yonge St. Only Forty-five Minutes From Down Town. Water Supply Now Being Installed. FOR THE HOME SEEKER—The office man, the workman, and the clerk, who are sick and tired of paying rent and want to own their own homes. The pressure of high rents in the city is driving them to seek relief in the Suburban Districts. Those who cannot find vacant land within the city limits, at a reasonable price, should take advantage of this opportunity in "WILLOWDALE ACRES" with its splendid situation, its proximity to the city, the good car service, its extremely low price and easy terms. Each of the one-acre farms can be made not only to produce enough fruit and vegetables for the use of the family, but a sufficient quantity that can be marketed and made to pay for the land. Not only that, but this property will one day form part of the city, and will increase in importance and value every hour. Remember—while your family are enjoying the freedom, fresh air and healthy environments of the country, they possess all the advantages of the city residents, and some day, not far distant, your one acre can be cut up into fourteen city lots, and bring you the rents for fourteen city houses. HARD WORKING WOMEN

Will Find New Strength Through the Use of Dr. Williams' Pink Pills. It is useless to tell a hard-working woman to take life easily and not to worry. Every woman at the head of a home; every girl in offices, shops and factories is subjected to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible, and to build up her system to meet unusual demands. Her future health depends upon it. To guard against a breakdown in health the blood must be kept rich, red and pure. To keep the blood in this condition nothing can equal Dr. Williams' Pink Pills. They strengthen the nerves, restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep up their strength and keep away disease by the occasional use of Dr. Williams' Pink Pills. Mrs. A. Rhodes, Hamilton, Ont., says: "A few years ago on coming to Canada, working long hours, and close confinement began to tell upon my health. I was completely run down, and finally could do no work. I was pale, suffered from headaches, did not rest well, and felt altogether very miserable. The doctor said the trouble was anaemia, and after doctoring for some weeks without getting any relief, I decided to drop the doctor and take Dr. Williams' Pink Pills. Very soon I began to notice a change for the better, and by the time I had used a half dozen boxes of the Pills I was again enjoying the best of health. I have never had any return of the sickness and never felt better in my life than I do now. I give my experience, therefore, that it may be used for the benefit of others." You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Breeze Along in a Comfy Six MOST folks think all the comforts of a motor car are in the seats—until they get a car. Here are a few of the up-to-the-minute things that are so eloquent of comfort in the \$1,115 Delivered in Toronto. GRANT SIX \$1,115 Delivered in Toronto. You don't have to make a back-wrenching grab for ordinary levers away down below your knee. Sit up straight and see how easy it is to twirl the Grant's centre control. And on the getaway, just push with your toe. How much gasoline in the tank? Why, the indicator is right under your eye and the mouth of the intake is on the cowl dash. So is the oil sight gauge—the speedometer—the switches for headlights, tail-lights, dimmer and the Atwater-Kent ignition system—the whole story right in front of you! Never a worry about power, and the Grant is a real economiser on both gasoline and tires. Think a minute—and you know why you can drive a Grant all day without fatigue. That's COMFORT. Come for a demonstration spin in this big roomy, comfortable, aristocratic-looking SIX—a six, mind you, for so little as \$1,115.

Board of Education Adopts Recommendation of Industrial Committee. An informal special meeting was held by the board of education yesterday afternoon to consider the loan of the rivet lathe of the Technical High School to the Turnbull Company for the manufacture of fine gauges for munition work.

FENNEL SAUCE.

Ingredients: A very large handful of fresh fennel, half a teaspoon of salt, a bit of soda not bigger than a pea, a tablespoon of butter and half a pint of good melted butter sauce. Thoroughly wash the fennel in cold well salted water, then pick the tiny sprigs from the stalks, put them in a stew pan with the salt, the soda and sufficient cold water to cover them, and bring them to a boil. Then strain off every drop of the water, press the fennel in order to make it as dry as possible, turn it into a basin with the butter and chop it very fine; then mix it with the melted butter sauce, reboil and serve.

SMOKING IS ALLOWED BY LIGHT INFANTRY

There seems to be some error abroad about the Toronto Light Infantry.

Col. Hagarty is looking for the best type of Canadian manhood to fill up his ranks, and the men who will wait till the province goes dry in September will find that the ranks have been filled and they will be too late.

Men in all branches of the infantry service will be given an opportunity to show what they are best fitted for, and if they make good will have every opportunity to gain promotion.

BUYING OF LINES IS ONLY SOLUTION

and the Grand Trunk Pacific would go ahead and make money and all would be well.

There was in Mr. Maclean's opinion only one cure for the railway situation and that cure was nationalization.

"We are called upon," said Mr. Maclean, "to salvage a situation. The government intimated that it is inclined to purchase the lines, but it wants advice from a commission. I do not need any commission to make up my mind to believe the people of Canada are willing to assume responsibility."

Mr. Maclean insisted that at least some connections in the east should be nationalized immediately.

Cost of Acquiring C.N.R.

The first road to deal with was the Canadian Northern, which at the time was 40 per cent of the stock, so we would have nothing to pay except the value of the interest was represented by the other 60 per cent of the stock.

Mr. Stevens (Vancouver) wanted to know how government ownership was to be financed.

Mr. Maclean said he was willing to associate himself with others in working out the best scheme, but he did not believe much actual cash would be required.

NO EXTRA CHARGES—PARCELS DELIVERED

About two years ago we told you we proposed to cut big ground floor rent out of your clothing cost, and we have kept our word absolutely—and have enabled every man who came up here to actually save \$10. At first the men came up here to test us—so see if we backed up our advertisement. They know now that we have sold the exact truth, and that's why thousands of men are now taking the elevator to this shop. They know that we have no ground floor rent, no office force—and no extra \$10. They know that we don't have to tack on that store cost them in this 2nd floor shop—just \$15—because the ground floor rent is not in the cost.

We have Suits at \$18 and \$20 for the man who is accustomed to paying \$30 for his clothes in ground-floor stores. Our system of selling upstairs also saves you \$10 on these suits.

BASEBALL GAME AT THE MILITARY SPORTS.

One of the big features of the military meet at the Island Stadium this afternoon will be the baseball game between the sportsmen and the Beaver Battalion. Sports start at 1 o'clock, and with three rings running at once like a circus, the afternoon will have every minute filled with interest. Already there are more than 2000 entries from the various battalions in the division, and practically every battalion or unit has sent in a list of contestants. Hamilton is doing its share, as Capt. Bobby Kerr of the 26th Battalion has been picking out a list of contestants. The five units stationed there, the 129th, the 5th, the 120th, the Canadian Mounted Rifles, and the Army Medical Corps, have all sent in entries, and Capt. Kerr declares that he is bringing over a fine line of sprinters to compete in the event which begins at 8 o'clock, and the ten-mile marathon commences at 10 o'clock. The most of the race will be run outside the stadium grounds, only the first and last miles to be run inside. The platform drill competition promises to be interesting, as time counts as well as appearance. The platforms start at the hospital on the lake shore and finish with one lap inside the stadium.

MAN WRESTLES BEAR.

The Buifs pulled off another stunt at their noonday meeting at the corner of Shuter and Yonge streets with Pte. Currie took on a wrestling match with the battalion mascot, the black bear. We are inclined to think that the bear had the best of the argument, as his keeper was observed to be taking a much-needed rest in the afternoon. Continuing their good work, the Buifs secured several first-class recruits as a result of the meeting. At night the bugle band took a march out thru the east end of the city and several more were induced to go down and try their luck with the doctor.

KENTUCKY DERBY TODAY LOOKS LIKE OPEN RACE

Star Hawk, Geo. Smith and Whitney Pair, the Contenders—Turf Eyes on Louisville.

LOUISVILLE, May 12.—"The most open race in the history of the stakes," expert horsemen declared tonight in reference to the forty-second annual renewal of the Kentucky Derby, to be run by three-year-olds at a mile and a quarter tomorrow afternoon at Churchill Downs. Ten apparently certain starters, possibly more, including the best lots of wealthy eastern sportsmen, the equally well-

blooded thoroughbreds of the Kentucky "hard boots," and two English performers of A. Macomber are entered for the event. With \$10,000 added to the purse by the Jockey Club, the race is worth approximately \$15,000.

Forty-six nominations, including virtually every American two-year-old which attained distinction last year, were made for the Derby. Seven geldings and three fillies were named as possible starters, but the field now has narrowed to the best colts named. A Derby precedent probably will be set when from appearances tonight, a foreign-bred animal will go to the post for the first time in the history of the race, because of the former's recent impressive trials. He probably will be held at odds of 2 to 1. Senator George Smith has raced well this spring, and may be second choice, at odds of about 15 to 1, with the Harry Payne Whitney entry, Dominant and Thunderer, third in public esteem, at odds of about 18 to 1. Franklin J. & Ward's Jim Gaffney colt, recently won the Derby Trial Stakes in good time, and also will be held at short odds. All the starters, however, will come in for a fair share of wagering, as none is regarded as being a distinct outsider. Special trains have poured a throng of people into Louisville for the Derby, and visitors are here from Chicago, New York, Cincinnati, San Francisco and other cities. Governor A. O. Stanley of Kentucky will witness the race from the judges' stand, and then decorate the winning jockey and his mount with wreaths of roses. The Derby record is 2:03 3-5, established by a gelding, Old Rosebud, when he won the classic in 1876. With a fast track tomorrow, horsemen predict a new record will be set up.

Selling Thorncliffe Horses in Race Week

The offering of twenty head of the Thorncliffe horses at the opening of the racing season is a new departure in thoroughbred auctions, and only occurs because of the recent death of their owner, and the decision of the executors not to continue the racing activities of the estate. The sale will take place at Woodbine Park on the morning of Monday, May 22, the second day of the Ontario

ALLISON SHARED IN COMMISSIONS

Colonel and B. F. Yoakum Had Agreement to Divide Equally.

ALLISON "CUT MELON" For Reasons Not Disclosed, He Distributed Nearly All His Portion.

(Continued From Page 1.)

the court the names of these assignees and the amounts. Among them was E. A. Lignanti for \$10,000. Witness said he had known Lignanti for some time through his association with Allison and knew him to be a "nice, dependable fellow." The other persons sharing in Allison's commissions were G. W. Stevens for \$10,000, Col. William McEgan, \$10,000 and Miss G. E. Edwards, a relative of Allison's, \$10,000. The mystery of the apportionment to Yoakum was cleared up by Mr. Craven's explanation that Allison wanted him to get something for having tipped them off to the business. He got \$10,000. Yoakum frankly admitted that Craven would never have got the money from him if he did not expect future business through his interests.

No Other Commissions. Mr. Yoakum absolutely denied any knowledge of commissions or inducements paid to any member of the shell committee, militia department or anybody else in Canada for assistance in getting the order. Not a dollar was ever paid in this connection and he never heard any suggestion of that nature.

Throughout the witness displayed an earnest desire to give the court all the facts in his possession. So evident was this that on several occasions when he proceeded to digress from the subject in his anxiety to tell other details, Mr. Hellmuth had to check him. He is a big man physically and mentally, and from his outline of future transactions, a big man financially. Abruptness and bluntness marked his testimony and his dry humor frequently convulsed the court. He evinced great impatience at the slowness of the examination. During an interruption he remarked to the newspaper men, that if they would let him go ahead he could tell the whole story in ten minutes.

Big Railway Builder. Mr. Yoakum was called when the commission sat again at 2.15 in the afternoon. Mr. Hellmuth said that his examination would last well into next Monday's sitting.

To Mr. Hellmuth's question witness said that previous to the war he had been in the railroad construction business, practically all his life. He estimated he had built 6000 miles of railroads. Because of financial stringencies his activities in the three or four years previous to 1914 were not so large.

"I have always been considered an active business man," he said, "in developing timber lands and similar enterprises."

He said he was not a fussy expert or mechanic. The first occasion he ventured into the war business was in the line of horses and grain. The United States tariff, he said, was causing a very noticeable depression in business. Almost every manufacturer had to seek new fields of interest. He made an offer to allied governments to purchase 100,000 horses at \$350 each, a venture of twenty-six millions, but it did not materialize.

Fifty-Five Arrangement. Mr. Yoakum said that in his war business he had run across Col. Allison in February, 1915. After one of Col. Allison's trips in Europe, witness said, he took this matter up with him. Mr. Hellmuth: "What was the point Allison would play in the contemplated arrangement between you and him?"

Mr. Yoakum: Allison had experience in handling big war orders for the allied governments and several big orders were pending, among them a huge rifle order for the Russian Government. I thought a corporation arrangement would be preferable. Witness said he was to furnish the money.

Mr. Hellmuth: Did the dropping of these companies and the partnership between you and Allison?

Mr. Yoakum: The interest of these companies would have been fifty per cent. division. The understanding with Allison was upon practically the same basis.

"Gentleman's Agreement." Mr. Hellmuth: Was that arrangement reduced to writing?

Mr. Yoakum: It was more of an understanding for business than a man wanted to be extremely careful about what business might be undertaken.

Mr. Hellmuth: Did you pay Allison anything for his assistance?

Mr. Yoakum: Col. Allison had spent a great deal of time and no doubt a great deal of money in making connections in Europe and I gave him, I think, \$10,000. He had had this contract would Allison have received a share of the profits?

It would have come in under our agreement.

Mr. Hellmuth: Did you inform Gen. Hughes of that arrangement with Col. Allison?

No, sir, that was our business. Various Associates. Mr. Hellmuth then led up to the fuse business taken up by Yoakum, which he is now investigating.

one else had any financial interest in his agreement with Allison.

Mr. Hellmuth: Did you consult with Col. Allison with regard to what price you would put on it?

No, only to the extent that Col. Allison was always anxious to have the price kept down as low as possible.

Mr. Yoakum said he had not told the shell committee of the agreement. He realized when he signed it that Allison was entitled to a commission as it was stated in the contract until several days after it was signed. When he saw him in New York he told him there was 10 cents commission coming to himself.

At this point Mr. Yoakum expressed his wish to make an explanation to the general public.

Delivery Before Division. "The inference given the people of Canada," he said, "was that myself, Cadwell and Bassick collected for our commission \$1,000,000, which was paid to us when the contract was entered into. As a matter of fact we never received, no never expected to receive, a single dollar on that contract until the contract was put into execution by the delivery of the fuses, which is just recently commencing to materialize. I am anxious to give not only the public of Canada, but the public of the United States the facts of this matter, as relation to the distribution of this commission. It was stated in such a way as to give the wrong impression, because it was headed all over the country that the division took place before the work was done. We earned this money."

Under the agreement, Mr. Yoakum agreed, Allison was entitled to half of \$475,000. He knew that Allison had made a redistribution.

Mr. Hellmuth asked for names. Craven Got \$30,000. Mr. Yoakum: First, Mr. Craven was entitled to \$30,000. Col. Allison informed me after June 19 that he was engaged in negotiations with Mr. Craven's firm of McVeitty and Sons on June 1. He said he would be very glad to have this matter adjusted to the satisfaction of Mr. Craven. Eventually Mr. Craven came to see me, which resulted in a settlement of \$30,000 on him of that interest.

Mr. Hellmuth: But I do not think that Mr. Yoakum is a gentleman who would give that \$30,000 out of the \$475,000 unless there was some legitimate demand?

Mr. Yoakum: You have got that sized up right, too. There was at that time very large prospect for business. Col. Allison had certain negotiations on with Craven's interests and he desired to have a settlement made with Craven, based on prospects for future business.

Enter Austin B. Fletcher. Witness in reply to further questions as to deliveries made said that up till recently the total amount received from the delivery of fuses was \$81,757.20, which was distributed pro rata between Allison and Yoakum. Craven's commission of \$30,000, he said, was eventually assigned to an Austin B. Fletcher. He did not know why this assignment had been made by Craven, but he was thus notified and paid the share.

Mr. Hellmuth then asked witness for the names of others among whom commissions were divided, so far as he could remember, and Mr. Yoakum produced a sheet of paper from which he prepared to read.

"These are parties," he said, "to whom Col. Allison gave orders on me for money due him according to the contract."

Mr. Hellmuth wanted to know who was the first of those persons to present such an order, but witness said he could not remember, but he would give the persons and the amounts, which, according to Col. Allison's orders, were coming to them.

Allison Cut Melon. They were: G. W. Stevens for \$10,000 of which \$1,299.89 was paid in the redistribution of the \$1,757. William McEgan, \$10,000, of which \$889 had been paid on the redistribution.

E. A. Lignanti, \$50,000, of which \$6,500 had been paid in the redistribution. Miss M. G. Edwards, \$105,000, of which \$16,809 had been paid in the redistribution.

This represented a total of \$195,000, was reduced to \$187,000 by various deductions made of his 50 per cent. share under the Yoakum agreement.

Known Participants. Mr. Hellmuth: Do you yourself know all these parties whose names have been given as participating in Col. Allison's commission?

I know all these parties personally. Did you see Stevens personally about his order?

I saw him when he presented it. He did not go into details with me concerning it. He just said he had that much interest in Col. Allison's fund. What did Col. McEgan tell you about his share?

Mr. McEgan explained to me that there were some commissions existing between himself and Col. Allison and that this order was a settlement of those commissions.

Allison's Reason's Undisclosed. Mr. Yoakum explained to me that there were matters between himself and Allison not adjusted and that they were making efforts to adjust them. This was in keeping with other arrangements made with the differences.

Had you known Mr. Lignanti before?

Wednesday for examination. Mr. Hellmuth, who had had the witness all afternoon, said he was not nearly through with him.

EASY TO STOP LEAK. A leak in a gas or water pipe frequently causes no end of damage before the plumber can be called. Bill it can be stopped temporarily with a filling mixture made of yellow kitchen soap and whiting, mixed in a thick paste.

Pater: My son, you have a reputation for driving your car recklessly. Fillus: Don't believe it, pop. I've had three wrecks this year.

"Mummy, God doesn't love me." "What nonsense, Harry, boy, how can you say such things?" "It's true, mummy, I tried Him with a daisy!"

Pater: Has she a thinking part in the new play? Patric: Oh, my, no; she doesn't have to think at all. She has a speaking part.

NEW YORK, May 12.—With few noteworthy exceptions, stocks of almost every description moved to higher levels in today's broad market. Dealings embraced far more than the usual number of issues, and gains extended from one to over six points in standard shares, being troubled or quadrupled in some of the highly speculative specialties.

The movement derived much of its impulse from an early rise in rails, Canadian Pacific leading that division with an extreme gain of 7 1/2 points on very large trading. New Haven was next, gaining four, while other eastern lines, as well as coals and southern issues, improved one to three points. Further activity in Cleveland, Cincinnati, Chicago and St. Louis (Big Four), common and preferred, which advanced five and three points, pointed to increased dividends in issues controlled by the larger railway system.

Motor stocks were foremost among equipments and industrials. General Motors making a maximum gain of 3 1/2, at 48 1/2, with 1 1/2 for Willys-Overland, at 28 1/2, while munitions were relatively backward until the final hour, when a spirited demand for Crucible Steel and Baldwin Locomotive elevated that group to best prices of the day.

Shipping issues were the prominent feature of the forenoon, with gains of 1 1/2 to almost 3 points for Mercantile Marine preferred and common and United Fruit. Half a score of miscellaneous and obscure stocks advanced substantially.

Mexicans were under the restraints imposed by latest developments affecting that country's relations with Washington, although American Smelting and Texas Company were disposed to shake off that handicap. U. S. Steel was virtually the

only issue of importance to hold back, but was in better demand towards the close, gaining almost a point. Total sales of stocks amounted to \$48,000 shares.

Engulry for bonds expanded with the broader stock market. Canadian issues and Anglo-French issues being among the conspicuous features. Total sales (par value), \$4,100,000.

"I see the woman suffrage vote in Chicago this year is only about one-half of what it was last year."

"That isn't so bad. If half of the woman stick to a thing the year afterward, there must be something in it."

GREEN-PEA PIE. Beat slightly three eggs, add half a cupful of milk, half a table-spoonful of melted butter, one scant cupful of sugar, one teaspoonful of vanilla and one cupful of cooked peas. Bake in a crust without a top. If there are any little folks who have not come to the pie-eating time some of this may be baked for them in a custard cup.

HEAVY SALES SEND WHEAT DOWNWARD. Improved Outlook for Crops Makes Holders Sell Out.

CHICAGO, May 13.—Rains in the southwest finally carried down wheat values today notwithstanding that for a while the market showed a material advance. The close was heavy, 1/4 to 3/8 net lower, with July at \$1.14 and September at \$1.14. Corn wound up unchanged to a shade higher, oats 1/4 to 3/8 and provisions ranging from 3/8 to 1/2 decline to a rise of 5/8.

At first the amount of moisture received by the drought sections appeared to be far from sufficient to be of much importance. The effect on wheat traders was brief and initial price declines soon gave way to steadily increasing returns. Higher quotations from Liverpool with a prospect of shipments from Argentina and Australia, tended to make the bears cautious, and, too, did serious crop damage reports from the north-west and from Missouri, Illinois and Indiana.

It was not until the last half hour of the session that wheat traders turned decisively to the bear side. Renewal of rain in Kansas and Nebraska together with a prospect of welcome showers elsewhere caused many early buyers to unload and led to a little speculative selling. Oats eased off on account of improved crop reports. In the main, however, trade was only of a local character.

Fresh press on hog lifted provisions, but on the advance packers were active sellers.

"Yeah, I know. He gave me a low mark, too."

NERVES WERE SO UPSET Could Not Endure Noise. Neuralgic Headaches and Extreme Nervousness Caused Keenest Suffering—Lasting Cure by Use of Dr. Chase's Nerve Food.

Once the nervous system gets run down everything seems to tend to make it worse. You worry over your condition, are unable to get the required rest and sleep, noises excite and irritate you and the future is most discouraging.

The nervous system does not get the proper nourishment from the food you eat, you must have something also to lift you out of the run-down condition. You may find that your experience coincides with the writer of this letter and be encouraged to put Dr. Chase's Nerve Food to the test. You will make no mistake in employing this food, for, acting as it does hand in hand with Nature, it is bound to do you good.

Mrs. J. A. Jensen, Gwynna, Alta., writes: "About ten years ago I was troubled with severe attacks of neuralgia and nervousness, and was for several months so bad that I could not get a night's rest. I used several medicines recommended by the druggist. My doctor also prescribed, but nothing he gave me brought any relief. Instead I got worse and worse until I could scarcely do anything or bear the least bit of noise. My nerves were all upset."

"My husband read about Dr. Chase's Nerve Food and got me some. Although I had no faith in it, I began its use, and after a few doses began to sleep well and the neuralgia left me entirely. I used six more boxes and have never had any troubles from neuralgia or the nerves since."

"This is to certify that I know Mrs. Jensen and believe this statement to be true and correct. Fred Freeman, J.P."

Hydro's Business Methods

Hydro Power Costs Toronto Hydro at least \$51.14 per horse-power year delivered at consumers' premises.

If proper figures were available they would probably prove Hydro cost at least \$60.00 per horse-power year.

Any surplus earnings of Toronto Hydro go to the city in lieu of lost taxes and high charges for street lighting and civic use of Hydro current.

What chance have the ratepayers of receiving surplus earnings

WHEN the average rate for power, authorized is less than \$20.00 per horse-power year and

WHEN Hydro discriminate between customers, giving their willing supporters one rate and competitive business a lower rate, according to the salesman's opinion of concession required?

Hydro is paid for from 35% to 63% of the actual power delivered in the following cases:

A well-known publication business in Toronto is charged by Hydro for 25 h.p., whereas actual current used on an average of 3 years is 70 h.p. Hydro is Paid for 35 Per Cent. of Power Delivered

A certain manufacturer we know of is charged by Hydro for the use of 105 h.p., whereas his actual use of power is 176 h.p., and in addition Hydro supplies free of charge the transformer whereby the consumer gets his light for the same rate as power. Hydro uses taxpayers' money to the extent of \$150.00 to allow this manufacturer to deceive them into thinking light is power. Hydro is Paid for 60 Per Cent. of Power Delivered

A certain metal dealer is being billed by Hydro for six months at an estimated use of 39 h.p., whereas he is actually using 62 h.p. Hydro is Paid for 63 Per Cent. of Power Delivered

BILINGUAL RESOLUTION MET DECISIVE DEFEAT

Majority of Forty-Seven Against in House of Commons.

NINETEEN BROKE AWAY

Eleven Liberals and Eight Conservatives Disregarded Party Ties.

OTTAWA, May 12.—The commonsense divided early this morning on the bilingua resolution calling for mediation by the Dominion in the Ontario bilingua dispute. Party lines were broken to some extent, and the resolution was voted down 107 to 60.

The principal defection was in the ranks of the western Liberals under Hon. Frank Oliver. They opposed the resolution, against the stand of Sir Wilfrid Laurier. All the Quebec members of the cabinet voted with the government against the resolution.

All told 11 Liberals and 8 Conservatives broke with their parties on the division. The Liberals who opposed the resolution were: Hon. Frank Oliver and Messrs. Buchanan, Clark (Red Deer), Cruise, Douglas, Knowles, McNitt, Thompson, G. Appelle, Turville, Wernock and Truxal. All these except Reuben Truxal are western members. Truxal is sitting for the Ontario constituency of South Bruce.

The eight Conservatives, all Quebec French-speaking members, who supported the resolution, are: Messrs. Achn, Barrette, Bellemare, Boulay, Lemarche, Mondou, Paquet and Rainville.

As Ontario Liberals voted for the resolution there were cries of "Good-by, Fardeas," "Good-by, Rome," etc. On the other hand, Quebec Conservatives who opposed the resolution were greeted with ironical cries, "Good-by, Rome," "Good-by, Rome," "Good-by, Rome," etc.

C. N. R.-HYDRO DISPUTE REMAINS UNSETTLED

Senate Railway Committee Refers Back Railway Act Amendment.

OTTAWA, Ont., May 12.—The senate railway committee this morning sent back to the senate law clerk for redrafting the amendment to the railway act approved by the house of commons, by which work on construction of new roads could not proceed without the consent of the railway commission. On this understanding the hydro upholders gave up their fight on the C.N.R. radial bills and they were allowed to pass the commonsense.

The action of the senate is taken to mean that the dispute for the session of the measure designed to settle the C.N.R. hydro fight over the extension of the charter of the Niagara, St. Catharines and Toronto Railway and the Niagara and Western Railway Co. remains for the next session.

Timiskaming Ships the Record Car From Cobalt Camp

Evidently attempts to keep down the price of silver are being made, as witness the recent break in the quotation from 77 1/2c an ounce to 77 1/4c. Yesterday the price rose to a new high level of 77 3/4c an ounce. It is now admitted that Russia is in the market for a large amount of silver for coinage purposes. Paper money is not at all popular in Russia and it is the same with all peoples who have not yet reached the stage of financial confidence as shown in Canada and the United States. Japan and China have been supplying the Russian needs, but their resources have been used up and the open market has now to be appealed to for supplies. In proof that the price of silver is not a temporary matter one shipping firm has offered 75c an ounce for the output of one large Cobalt company for the next three months. The new interest in Cobalt is also shown by the visit of a party of New York financiers to the camp for the express purpose of buying developed or undeveloped properties. It is interesting to note that the Timiskaming mine has just shipped the highest priced car of ore that ever left the camp. At 70c an ounce the car will return \$10,000 or 6 per cent. on the company's capital. But as the ore is not sold it is possible that after reduction the white metal will be worth 80c an ounce. The earnings of Timiskaming this year will be over 30 per cent. and a dollar a share for the stock is expected to look cheap later in the year when the public has a better appreciation of the earning power of the Cobalt companies. McIntyre held the lead in the Porcupine yesterday with sales up to \$1.84. Hollinger was \$2.00 a share ex-dividend and Big Dome was strong at \$2.8 a share. The Porcupines are steadily following.

ADANAC HAS CUT HIGH-GRADE VEIN

Ore as Rich as Was Found in the Original Strike.

COBALT, May 12.—The Adanac has cut the high-grade vein on the 270-foot level from the east winze, the silver contents equal to what was found in the winze before the vein dipped out. Several rounds have been put into high-grade in the west winze. Chambers-Forland is shipping a car of high-grade today. It contains 22 tons that will run over 2000 ounces. Three-quarters of the shipment was removed from the new vein on the 455-foot level. This vein has been opened up for 50 feet and the drift is still in high-grade. Two veins are being explored on the 460. These veins are in the contact, and the narrow running from one-half to two inches are very high grade. The Silver Queen reopened today under the old management. Sufficient funds remain in the treasury to prosecute a good development and exploration program. A. Grieron is in charge of preliminary work. Messrs. Edwards and Kingwill, who now control the Green-Meehan, have 14 men at work. Some native silver was taken out of a vein that has been explored for some time. It is understood that all stock in the company was liquidated to cover debts. The Hudson Bay mines will reopen. C. L. Sherrill has been visiting the camp. The Columbus property, which adjoins the Adanac, is preparing to resume mining operations.

INCREASING BUSINESS LARGER QUARTERS

Plummer & Company of 108 Bay Street are feeling the effect of mining activity as a result of the sound financial and conservative policy adopted by them when the company was instituted. The service given their patrons is perhaps unequalled in Canada, and an enviable reputation is being built for the interests of their clients which is beginning to assume preeminent proportions. The activity is not alone confined to the Toronto office, but is being felt in their agencies in Detroit, Ottawa, Montreal and Boston. The Toronto office is now being enlarged and a new quotation board installed for the accommodation of clients and additional wire service provided. The statistical and information department is given particular attention by Plummer & Company. The World correspondent from time to time has seen some very interesting advance reports on the merits or demerits of the various Cobalt and Porcupine prospects and mines. Their weekly letter is most reliable and conservative, and the letters received have been of unusual interest. The manager of the Plummer Company's mining department spent five years in the various northern camps and is a practical mining man.

DAILY MOTION PICTURE SECTION

PURCHASE YOUR TAX TICKETS IN STRIPS, IT WILL SAVE TIME

Today is the Last Free Day, So Make the Best of It—All Tickets Are Transferable and Redeemable.

Today is the movie fan and amusement lover's last day of grace. Starting on Monday every time anyone enters a place of amusement—and picture theatres are happily placed in that category—one of the ten million war tax tickets that the government has just received from the printer must be placed in the choppers, which costs the theatre manager twenty-two-fifty.

Of course as soon as you have been to a few shows and baseball games you will begin to cajole your brains for ways and means to either get out of the war tax or lessen the burden of having to purchase a separate ticket every time you go to a movie. Perhaps you will not want to be weighed down with the three oopfers whenever you will get from the box office every time you pay a two-cent tax. Then there is a way out of it, and we have thought of this way all by ourselves, with a little assistance from the Soliman of Loew's Theatre.

And here is the advice—buy them by the strip, or by the roll if you like, for each and every ticket is redeemable at par at the parliament buildings, which protects you from loss in case financial burdens prevent you from making use of the residue.

In other words, from now on you will purchase your tax tickets just as you do your street car tickets, a quarter's worth, or a dollar's worth at a time, and the sooner you use them the better for the war. The tickets are transferable, are good at any

theatre, and will be taken to make up any amount, that is, five two-cent tickets will be honored as full payment in case you decide to be a real sport and indulge in an evening of summer stock or high-class vaudeville, which requires ten-cents worth of taxation.

A good many movie fans have objected to the word "tax" used in connection with this method of raising money, and we are inclined to sympathize with their point of view. How much more refreshing it would be to the tired business man or his faithful laboring spouse to be, under pain of imprisonment, to request a "donation" to the war fund, rather than have the word "tax" shoved in front of him with all the unhappy thoughts that go with such a word. Such a patriotic deed would have fanned the spark of bitterness in uncountable hearts and made many an A.R. or non-eligible feel that he had done part of his bit. But tax it is such an unromantic word, and we are humbly hoping that it will in no way detract from the enjoyment that goes with the regular price of admission. Picture theatre patrons will in no way regret the donations they make toward the province's half-million-dollar war fund.

CHOCOLATE MACAROONS.
One pound sugar, half pound almonds, quarter pound grated chocolate, four whites of eggs. Melt sugar, chocolate and almonds together; beat the eggs to a stiff froth, mix all together, dress it on paper and cook in very moderate oven.

PEARL WHITE.
was born in Missouri in 1889, of Irish-Italian parentage. She joined a wandering company playing "Uncle Tom's Cabin" when she was but six years old and made her debut as Little Eva. Later she left the stage and went to school. A few years later she joined a circus as a bareback rider and remained with it for several years until she decided to go back to the stage. She was soon noticed by one of the Pathé directors, and she has been with that company ever since. Her principal triumph has been as Pauline in "The Perils of Pauline." She is five feet five in height, has red hair and greenish yellow eyes, and says she is unmarried.

MUNICIPALITIES MUST GRANT THEATRE LICENSES

If Permits Have Already Been Given by the Government.

By the new Theatres and Cinematographs Act copies of which were sent yesterday to chiefs of police and the owners of places of amusement, municipalities must grant operating licenses for moving picture theatre buildings, for which provincial licenses have been granted. Such an enactment, had it been in force at the time, would have had a direct bearing on the Gem Theatre case, which caused much discussion recently.

By the new regulation the erection of such buildings shall be under the direction of the municipality. The provincial licenses will be granted on the certificate of the municipality that the structure complies with municipal requirements. Then the municipality cannot refuse to grant an operating license.

The installation of the electric wiring is put under the supervision of the hydro electric commission, and the fire-fighting apparatus under the chief of the fire department of the municipality.

TO INCREASE INTEREST TO AID CHILDREN'S HOME

At the annual meeting of the Wilmacott Club it was shown that the receipts for the year had been \$3,974.48, expenditures \$1,068.84, with a balance on hand of \$2,905.64. The club decided to increase its interest in aid of the Children's Home in Barrieport to help the Rev. Peter Bryson. For this purpose the club will hold a picnic early in June.

The following officers were elected for the coming year: pres., Mrs. Wallace Secombe; vice-pres., Mrs. Wallace Barrett; sec., Mrs. E. W. Hume; treas., Mrs. J. J. Fraser; and executive committee, Mrs. Lawrence Harris, Mrs. F. H. Gooderham and Mrs. J. W. Mitchell.

THE MYSTERY DEEPENS.
You have heard of the woman who was shot between the kitchen and the woodshed. But The Erie Dispatch recently went that story one better. It said: "The woman's body was found with two bullet wounds in the bathtub."

SIS HOPKINS TIES UP TRAFFIC IN "JAX"

Florida City Stops Work to Watch Fun-Maker in Scene for Kalem Comedy.

Traffic on the principal thoroughfare in Jacksonville, Florida, was suspended for over half an hour on a day last week while Rose Melville, the creator of the famous Sis Hopkins, strolled across the street and a Kalem camera clicked as it recorded the scene. In full regalia—gingham apron, pig-tails and all the familiar attributes of the famous fun-maker, Miss Melville was surely sight enough to make the local citizens stop in wonder.

To add to the confusion many persons in the crowd did not know that a motion picture was being made, since the director had carefully concealed the camera by taking the scene from the upstairs window of the Mason House. One passer-by, perceiving the lone country girl struggling along with her heavy carpet bag, offered to aid at the street crossing.

Grasping the humor of the situation, Miss Melville accepted the proffer and allowed the stranger to carry the bag to the opposite corner, after which she thanked him and said, "In a few weeks you will be able to see yourself in the movies."

Do Not Risk Your Favorite Linens at the Laundry, Mrs. Canada!

Have the work done at home under your personal supervision with an EDDY INDURATED WASHBOARD.

Made of one solid lasting piece of hardened pulp, it will neither splinter nor fall apart. The slightly rounded even crimp is easy on the clothes and fingers, yet loosens the dirt easily.

Little Stories Told in Homely Rhyme

LUCINDA IS A STRANGE GIRL
Copyright, 1916, by the Author, Edna Dudley.

LUCINDA is a weird young miss—the strangest girl I know. It's not because she scorns the men; she always has a beau. She likes to put on pretty clothes; she loves to drive a car, but it's strange, she doesn't want to be a movie star. Lucinda frequently is told she'd do well on the screen. The men who make the pictures have declared she'd be a queen. They've hinted that they'd like to have her try it for a while. But all she's done is shake her head bewitchingly and smile. In all my travels thru this land—and say, I've traveled some—I've never found a girl like her. Lucinda strikes me dumb. They've all possessed a hankering in motion films to act, except this one. It's very strange. I'm puzzled, for a fact. I didn't know there lived a girl with so much self-control; who'd never let this acting fad creep in her little soul. Lucinda, tho, is very firm about it—there you are. She swears she has no wish at all to be a movie star.

The Amateur Gardener

WHAT shall be done with tuberoses after blooming? Throw them away. You will not get a second crop of flowers from a plant that has once flowered.

Will dahlias bloom the first season from seed? Yes. It is a good plan to sow the seed in a hotbed, thus giving the plants as early a start as possible.

Would you advise having beds of flowers between the house and street? That depends. If there is a bit of lawn there I would hesitate considerably before scattering beds over it, as they will break it up and destroy the dignity which even a tiny lawn may have if not intertended with. If possible have your flower beds at one side of the lot.

On no account scatter shrubs over the lawn. They will spoil it by robbing the grass of the food it ought to have and by making it impossible to care for the place properly. If I were to choose between lawn and shrubs I would choose the former, as it gives to any place a charm that nothing else can.

What treatment does cosmos require to bring it into bloom before frost comes? No treatment can be given that will force the late flowering cosmos into early bloom. These are not adapted to culture at the north. Get the early flowering kind if you want a profusion of blossoms early in the season.

Would you advise growing salvia from seed for summer flowering? I would like a large bed of it, but am afraid seedling plants would come into bloom too late in the season to give much satisfaction. You are right. In order to obtain a strong show of color early in the season it is advisable to procure plants from the florist.

RECIPES FOR THE CARD INDEX COOK BOOK

Milanese Risotto

INGREDIENTS
½ lb. rice.
1 tablespoonful butter.
1 teaspoonful beef extract.
1 teaspoonful saffron.
¼ lb. grated Parmesan cheese.
Stock.
Seasoning.

METHOD
Melt the butter in a steaming pan, add the rice and stir around until the grains get a light brown, but be sure not to let them burn. Then pour off any superfluous fat and add stock, a little at a time as it is needed, until the rice is cooked. Next add the beef extract, saffron, and seasoning, mix together and lastly stir in about ¼ of the Parmesan cheese. The rice takes about 25 to 30 minutes to cook. Dish up on a hot plate and serve the rest of the grated cheese as a garnish.

WRIGLEY'S

protects and preserves your teeth. An eminent dentist recently said: "Chewing gum is one of the best things possible. It gives the gums the exercise they need. It rubs off particles of food that otherwise would ferment and cause decay, and it strengthens the salivary glands."

WRIGLEY'S is the largest seller in the world, because its long-lasting flavors and its real Mexican chicle body are of WRIGLEY quality—the best that men, money and machines can produce.
