Washington Expects an Ans- But Wilson Cabinet is Hopewer About Middle of Next

BERLIN, April 20, via London, April 21.—As far as the Associated Press has been made acquainted with the sentiment in higher quarters, it would be wrong to regard the situation as anything but extremely grave. The note probably will be answered some time next week, after serious consideration has been given the American contention, but there is little hope that any answer can go to the length demanded by the Washington Government, despite the fact that the government desires to maintain good relations with the United States.

The sentiment is against any further weakening of Germany's submarine campaign, to say nothing of an abandonment of it.

WASHINGTON, April 21.-Ambassador Gerard at Berlin cabled the state department today that he had delivered the American note on submarine warfare to the German foreign office at 4.30 o'clock yesterday after-Successful Air Raid Against noon. Secretary of State Lansing said later he had not been advised just when a reply might be forthcoming. Other officials, however, indicated they expected it by the middle

MARSEILLES, April 21 .- The Ruslan troops which reached Marseilles yesterday continue to be the centre of enthusiastic demonstrations from crowds in the approaches to Camp Mirabeau, where the newly-arrived forces are quartered. The Russians show no ill effects of their long journey and already are engaged in exercises and drills, displaying the fine equipment and the soldierly bearing of the picked men making up the contingent. The officers of the Russian force are the recipients of rounds of receptions and of congratulatory telegrams from any allied quarters.

The authorities decline to permit arrived or of the route the transports

The coming of Russian troops to the vestern front has been talked of by nilitary people for two or three nonths. The reason, as now explaind, is that it is easier for Russia to true and supply fighting material to Russian troops on the western front than on the eastern.

Russia still has many hundred the sand more men under training t OBJECTIONS RENEWED

cause the Russian problem continues to be not how to get men, but munitions. The allies can obviously provide complete equipment for Russians more easily in France than by shipping it to Russia, Possibly a quarter of a million men will be sent into France this spring.

Delayed by Storm.

The arrival of the transports which brought the Russian troops sent to join the entente forces on the western front, had been expected since Tuesday, but a heavy storm in the Mediterranean delayed their reaching here until yesterday.

Every precaution for their protection

Every precaution for their protection had been taken owing to reports that hostile submarines were operating in the Mediterranean, but the voyage was concluded without the development of any untoward incident.

# WASHINGTON, April 21.—Japan has renewed her objections to provisions in the pending immigration bill which are construed as virtually enacting into law the celebrated Root-Takahira agreement for the restriction of immigration to the United States, and as including Japanese with Hindus in an excluded class. The administration, it is said today, fears no difficulty in arranging the terms of the bill so as to avoid wounding Japanese feeling, and to that end President Wilson soon will confer with house and senate leaders. Viscount Chinda, the Japanese ambassador, who already has left two memorands with the state department on the subject, conferred today with President Wilson by appointment, which was made 10 days ago. The administration, while realizing the extent of Asiatic exclusion in the Pacific Coast states, is described as being sensible of the disadvantages of agitation and delays, and is confident that the matter can be smoothed out satisfactorily to all interests. ARTILLERY POUNDS AT IKSKULL BRIDGEHEAD

Russians Silence Batteries of Germans-Pursuit of Turks Continued.

Special Cable to The Torento Werld.

LONDON, April 21.—In Russia the fighting reported today consisted of an artillery bombardment of the Ikskull bridgehead by both small and great bridgehead by both small and great guns of the enemy, which were in part silenced by the Russian counter-fire. An artiflery duel also raged in the Jacobstadt region. Attacks of the Germans west of Olyka were repulsed before the storming columns got up to the Russian trenches, and strenuous attacks of the Austrians against the important height of Popoff's Tomb gave them no advantage. In the Caucasus the Russians are pursuing their offensive against the Turks in the coast district west of Erzerum.

# agitation and delays, and is confident that the matter can be smoothed out satisfactorily to all interests. Would Avoid Friction. Japan's revival of the question at this time attracted much interest in the capital, but it was pointed out that her representations could scarcely be delayed, if it were desired to do so, because the bill already has passed the house and has been reported to the senate for passage. For many obvious reasons the at-titude of the administration is said to be one of disinclination to irritate the situation between Japan and the United States, which has been smoul-dering since the California anti-alien Mining Activity, Trench Mortar Work and Artillery Duels Continue.

Special Cable to The Toronto World.

LONDON, April 21.—The only infantry fighting reported from the British front tonight was the dispersing of a party of Germans who had left their trenches near St. Eloi. part in the charge, it is not improbable that 9,000 were put out of action.

Many German officers led the Turkish charge and fell before the British

their supports by the floods, but in reality these supports were moving up to the front at the time. The Turks charged the British line in dense

formations as their German schoolmasters had taught them, and they went

down before the scientifically trained Britons like ninepins. The British

Wilson that submarine warfare against merchantmen cease, and the outcome is obscure. The only guidance for a prediction is found in what re-

cently happened. It will be remembered that the new piracy campaign had been slated to begin on the first of March. The United States Congress, before that date, backed the president in his anti-piracy policy, and

Germany, which had first intended to disregard the United States, made

volte face, kept her boats in harbor and then dismissed Von Tirpitz, partly

because he lost a great many submarines a nd partly because his dismissal

was intended to signify to President Wilson that the sinking of merchant ships would be abandoned. This change in policy was manifestly brought about by the failure of the Germans to take Verdun. Then came in the unforeseen factor. The dismissal of Von Tirpitz was taken by the Ger-

man people as a backdown to the United States, and Maximilian Harden

led a popular agitation for a continuance of piracy. The German Government was cowed by the clamor of the hungry Germans and it was

forced to disregard the American stand and to carry its program of sinking at sight. The German general staff does not desire a break with the

United States and it may consent to back down. But against this reces-

sion is always the prospect of a demand from a misled public, drunk with

west, and, if needed, from the west to the east, negatives the former advantage that the Germans and Austrians had from their central position.

The Germans have been able to move from one theatre to another, men, at

the rate of an army corps every ten days or so. By reason of the sea

transport and the carrying capacity of shipping, it is probable that the

allies, by the use of Kola and Ekaterinograd, will be able to transfer men

backwards and forwards as rapidly as the enemy. If Russians are sent to France, Russians can be sent to Saloniki and in this way the continued

neutrality of Roumania will not be an obstacle to the allies in their cam-

they did not advance to the attack yesterday. The bulk of the operations on the British front yesterday consisted of mining activity near Fricourt,

Powder Branch of Grenade Factory Blew Up, Causing Havoc.

BORDEAUX, April 22, 12.05 a.m.-Thirty persons are believed to have been killed in the explosion of the powder branch of a grenade factory here today. Already 28 bodies have been taken out of the debris.

The cause of the explosion has not yet been established, but the theory is that a spark from the electrical machinery set off powder while it was in process of being mixed. A number of other persons were injured.

"In the house of commons a coniract was read for a large fuse order given to the American Ammunition Company and supplemented with a document indicating that in anticipation of that contract, Yoakum, Cadwell and Bassick, who formed the company, divided a million dollars' profits. What do you know about that?" was asked.

Mr. Henderson interrupted, but Col. Allison said he had never seen the contract or the agreement and that he knew nothing of them. "There was another memorandum of agreement indicating that you, Lignanti and Cadwell might be dividing the \$475,000 which was the share of

"What have you to say of Lignanti, the musician, and your relations with him?"

the musician, and your relations with him?"

"I did not know Lignanti as a musician but as a business man. Before the war I had relations with him concerning a fuel saving device, for which he controlled the patent. After the war began I received from him offers to supply steel munitions and war materials of various kinds. I think that I got most of these offers by cable when I was in England. I submitted them to the authorities for their acceptance or rejection."

"Were any of them accepted? Did any business result for Lignanti?"

"I do not think so. I never heard

that there was any business closed with Lignanti."

Lignanti a Business Man.

"How did he come to be in this pusiness? He is a musician."

"He is also a business man of some stantial connections with Pittsburg and other places. He was looking for commissions I presume, like hundreds of others at that time in New York."

"Was there a profit-sharing agree-

nent between yourself and Lignanti?"No." "There is a document indicating that you bought him out of partnership with yourself and Yoakum, for fifty thousand dollars."

"There was no such transaction ar "There is also a report that you had something to do with the sale and secured profits from the disposal of condemned ammunitions which were taken from the Quebec arsenal and sold to the British Government."

"It did the work because General Hughes asked me to do it, I would do anything for him."

"It has been said privately that you and General Hughes arranged for great profits and had an arrangement for their division."

"There is not a word of truth in any such report. What I did I did

been able to whip Jack Johnson so completely and easily as I did, and while training for my bout with Frank Moran, I regularly took nuxated iron, and I am certain that it was a most important factor in my winning so easily." Continuing, Dr. Sauer said: "Mr. Willard's case is only one of fundreds which I could cite from my own personal experience which proves conclusively the astonishing power of nuxated fron to restore strength and vitality even in most complicated chronic conditions."

Not long ago a man came to me who was nearly half a century old, and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron-nuxated iron had filled him with renewed life. At 30 he was in bad health; at 46 careworn and nearly all in. Now at 50 a miracle of vitality and his face beaming with the buoyansy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much of what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sokyl looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself how much you was trength again and see for yourself how much you dan work or how far, you can w

ternoon the downtown streets were very quiet and the city as a whole wore a Sabbath aspect.

The uncertain weather and early showers made many who had planned outdoor recreations, motor trips and so forth, abandon them and remain by the fireside recounting the happenings of previous Good Fridays.

Many availed themselves of the opportunity of visiting their summer homes. Quite a number visited the Island to look over the cottages and suites that will soon be filled with the summer crowds. On account of the number of men who are engaged in work relating to the war in Toronto and their consequent inability to get away from town, it looks as the tellisand and the Beaches were going to be more popular than ever this year.

Beaten Troops Withdrawn Claim Victory Over British on Tigris.

CONSTANTINOPLE, April 21, via Amsterdam and London, 9.45 p.m,-The following official statement was issued today by the war office:

Caucasus front: | Our detacht entrusted with the supervision of the coast in the Lazistan sector since April 11 offered extraordinary resistance to repeated attacks of numerically superior hostile military and navat forces and defended step by step every inch of the ground it was possible to defend. Our armies worthily attained their proposed aim. Finally on the 18th, after having forced the enemy to fight a battle which had bloody results for him, near Kowata, seven kilometres east of Trebisond, they withdrew in accordance with instructions to a sector where they will ance to repeated attacks of numeristructions to a sector where they will have a new task to fulfil. Since in accordance with conclusions drawn from the situation of the war the refrom the situation of the war the result of this operation on the coast sector could be foreseen, the Town of Trebizond had already been evacuated by us. AMSTERDAM, via London, April 21. -The Berlin Post, commenting on the crisis between Germany and America.

"We have heard enough of silly reproached leveled at us by America's sea-going citizens. If Washington gentlemen believe we have nothing more important to do than to investigate whether any cattle driver had a lock of his precious hair ruffled while crossing to Europe, then the people in the White House are terribly mistaken.

Gain Would Only Be Temporary and of No Ad-

NEW YORK. April 21.-Coming from Verdun to raise funds to equip mbulances with demountable rims, whereby, they said, the lives of many of the wounded could be saved, Lieut. George H. Roeder and Sergt. Henry Sheahan of the American Ambulance in France, arrived here yesterday aboard the steamship Chicago of the French Line. Sergt. Sheahan, who is an instructor of English at Harvard,

an instructor of English at Harvard, said his efforts would be confined to appeals to college men to contribute toward the fund.

"The Germans," he said, "are nibling at Verdun, but it is too big a cake for them to get away with."

"And even if they do capture it, what then?" interjected Lieut. Roeder. "Verdun will not end the war by any means. The French are organized so thoroughly that any gain Germany may make can at best be only temporary and of comparatively slight advantage.

vantage.

French Prepared.

"The assertion that the French were unprepared for the German attack at Verdun is absurd. We had been notified to hold ourselves in readiness for just that emergency two weeks before the attack was begun. And the French balloon observers had reported concentrations by the Germans as early as December. Sixteen villages arround Verdun were evacuated by the civilians in two days. Without the right sort of organization such a feat would have been impossible.

"There is but one road left open between Verdun and the French base of supplies, and this road is traversed continuously by six thousand motor trucks. Despite this enormous amount of traffic, the order which prevails is equal to that in the streets of New York."

The two men had been in the battles of Douaumont, Vaux, the Bois des Corveaux and also at Ravigny when the zeppelin was brought down.

not deaden the trembling, irritated nerves, but through the medium of the blood nourishes them back to health as nothing else can.

No ailment is more discouraging than Nervous Prostration. You may feel better for a day or two, only to find the next day that you have lost ground and are worse than ever. The headaches are worse, languid feelings are terribly depressing. As you lose strength you lose hope and courage and look to the future with fear and trembling.

Dr. Chase's Nerve Food is the greatest blessing that has ever come to the sufferer from nervous exhaustion. It is not narcotic in its influence, It does not deaden the trembling, irritated nerves, but through the medium of the blood nourishes them back to health as nothing else can.

"A friend handed me Dr. Chase's Almanac, so that I might read about the Nerve Food. A single box of this treatment convinced me of its value, for I was better. I cannot tell how many boxes I used, but the results were so highly satisfactory that I cannot praise it too much. My health and strength have been restored so that I can do all my own work, and I recommend the Nerve Food to all who suffer from nervous prostration."

ANNUAL CONVOCATION OF KNIGHTS OF MALTA

Chapter General of Canada in Session Yesterday and Election of Officers Held.

The chapter-general of Canada of the ancient, illustrious and military order of Knights of Maita held its sixth annual convocation in the chapter room of Beaver Commandery, Occident Building, yesterday morning at 10 o'clock. Grand Master Herbert Morom, accompanied by Past Grand Master J. A. Cowan, A. G. Horwood and A. Rowley, were received between the lines and under an arch of steel, then declared the chapter-general

opened.

The credential committee thru its chairman, W. R. Glockling, reported twenty commanderies represented by the regular officers and five by proxies, with a total of 130 delegates in attendance.

Grand Master Morom read his allocution, which was patriotic, and referred to the 114 members of the order with the overseas forces, and especial-

chens were put up and dinner served. The officers' wives prepared the officers' meal in the pavilion.

At 1.15 Major H. H. Horsfall, who was in charge of the field tactics, took command of the men and put them thru their work, which consisted of infantry attack and defence. The cadets of the regiment composed the defending force, and during the afternoon were attacked by the enemy on three occasions.

Shortly after 4-o'clock the exercises were concluded and the men lined up and started for their trek back to the regimental headquarters. When the unit was halted in front of the Pearstree quarters, Major Horsfall expressed himself, along with the other commanding officers, as being well pleased with the showing made. Not one casualty occurred during the day, and all were feeling fine when they were given the order to dismiss at 6 o'clock.

Of the United States, and presided at the election of officers, which resulted the election of officers, as follows:

New York Police Had Difficulty in Framing Charge to Please Magistrate

IMPLICATE DETECTIVE

Harry L. Newton and Henry Stempf Will Be Arraigned Today.

NEW YORK, April 21.-Difficulty was experienced by the police today in framing a charge on which a magistrate would consent to hold Harry L. Newton, the former munitions worker, arrested yesterday, who is alleged to have agreed with detectives to blow up munitions plants in Dunkirk, N. Y., and Canada. After three complaints had been discarded by the magistrate, Newton finally was held on hagistrate, Newton harry was net on a charge of having conspired with Henry Stempf, a detective, to blow up the federal building in this city. The magistrate held Newton in \$5000 bail and gave the police until tomor-row to produce Stempf to substantiate

the charge. Newton was first exonerated on a charge of bringing explosives from Canada to this city. His attorney said the only thing resembling an explosive that Newton had was an empty defective shell he had bought in Can-ada and brought to Buffalo to present to his sweetheart.

Detective Barnitz, who made the ar-rest, then offered an affidavit charging Newton with having a bomb in his possession in Buffalo. The magistrate refused to entertain the complaint and told Barnitz he would have to do bet-ter if he wished to have Newton held. A charge of conspiracy was likewise thrown out when Barnitz, replying to a question from the court, said that Newton "conspired with himself." Af-er a delay of several hours an affidavi that Newton had conspired with Stempf was presented and accepted until tomorrow.

RATURDAY MORNING, APRIL 22.

In celebrating the tercentenary of Shakspere, it is the works rather than the personal life of the man that stream, has proved the most obdurate and are taken into account. Comparatively few people are concerned with the obscure problems of the career of the man over whose name are carried on way to prove that they were better Geracademic controversies. Sir Sydney Lee and his school refuse to spell his and land owners rule of Germany and name as William Shakspere him- the ethics of feudal caste which they self spelled it in the only signatures left in his own handwriting. Other great scholars like Delius. Dowden ca. The frightfulness of German warand Furnivall at least pay him the poor compliment of following his example in this respect. As over the name of Shakspere so also over his birth, his education, his friends, his character, his religion, his knowledge, rage fierce controversies, which in the last century have extended even to his identity. Perhaps this is well. The mathematician is less concerned with The hyphenated German-American be-Euclid than with his problems; the Came the supreme danger of America.

That this should are held up in the pages of the world's greatest dramatist. We are often told that the theatre is an evil influence. Life itself is an evil influence according to the teachings of all the religious leaders, but it depends upon the use we make of life or of the theatre whether it taints us or whether it purifies. Those who may never travel who may not visit courts and kings, who may not take part in battle, who can have nothing to do with affairs of state, who are immune from contact with grosser sides of life and who fail in charity thru want of that knowledge, are all able to repair their deficiencies by the mirror which the stage at its best holds up to nature. Even without the stage, the pages of Shakspere give us an extraordinarily extended view of life with a thousandfold variety of character and disposition, of rank and station, which the usual experiences of life never furnich. To live by proxy as the Shakspere plays enable us to do. is a mighty privilege, and to see life at its heights and at its depths is an advantage both to saint and sinner.

While we theorize about Shakspere the more practical question remains-Do we read him? Undoubtedly there is a widespread study of our greatest English classic. But do the people read him as they do other books? The reading of Shakspere as entertainment is always handicapped by the unfortunate efforts of the schoolmaster to convert him from a pleasure into a task. The Bible has been unpopularized in the same way, and there should be some means taken to prevent wholesome bread being converted into medicine. When a man contracted a distaste for good reading by the enforcement of lessons at school it is difficult in after life to overcome the re-

The United States is a great nation and its people are in many respects equal to or ahead of any other. Perhaps they lack in quick appreciation of moral values: or to put it another way they delay in cutting great evils out by the root until the evil is with them and threatens the present and the future of the state. Sisvery was allowed to grow into a fester; then it was burnt by the caustic of civil war, years of bloodshed, disruption, disunion, all at a cost of billions of money, destruction of thoubillions of money, destruction of thou-sands and thousands of homes, and the creation of a race problem the gravest that ever came to any nation. Tammany grew in New York from seed that was gladly welcomed by the politicians of democra-cy. The Black Hand and the vendetta grew more luxuriantly in the States than even in Sicily, its home. Many other European races that the tyranny of that continent had degraded failed to forget the ways and practices that had debased them in the homes of their fathers. The tendency of the teaching of the plays has been to ennoble those who studied them, and the nation or the people that adopts them voluntarily as text-books of life, showing what to follow and what to avoid, the path to choose and the path to leave, must in due time show the influence of such a master. That the English-speaking peoples betray the effect of this influence in a growing appreciation of freedom, and the nobility of character which should distinguish free men, is the best testimony to the fact that they do not neglect his study, and the finest tribute which can be paid to Shak-

U.S. IMPORTERS ASKING

RELEASE OF SHIPMENTS

Washington Requested to Get Into Touch With British Government.

WASHINGTON, April 21.—A delegation representing the Bilitmore Importers' Association of New York today asked the state department to aid in securing permits from the British Government for the release of shipments of German articles held up in neutral ports, principally Rotterdam, by orders-in-council.

REPLEASE OF GRAND RECEASE OF Shipments of the country and to our army. What will the committee of the legislature do? We feel sure that they are doing their best duty, and let those who can be spared be told in plain English that their place is in the army. Of course, it would have to be left with them whether or not they enlist, but after going before such a committee there would be no other road open and the men would respond readily when their duty was fully understood. Such a system would be a start toward efficiency, would fill the ranks, and would be the best safeguard to industry, the their duty was fully understood. Such a system would be a start toward efficiency, we hope, even better. The safety of Canada lies in her national efficiency and her national efficiency is based first on what she can produce from farm and factory. Farms cannot be farmed without mental ports, principally Rotterdam, by orders-in-council.

SHERMAN ACT NOT -VIOLATED Quaker Oats Company is Operating Within Law.

CHICAGO, April 21,-The Quaker Oats Company is not operating in violation of the Sherman Act according to a decision by judges of the United States Circuit Court of Appeals here today. The finding came after two days of argument based upon testimony taken in various cities of the country since the suit was filed in June, 1913.

Judges Julian W. Mack and Francis E. Baker found that the government

Ramifications of Von der Goltz's Conspiracy Are Extensive.

PUBLIC STILL IN DARK

Federal Agents Have a Mass of Hitherto Undisclosed Information.

NEW YORK, April 21.-The revelations in the confession of Horst Von Der Goltz, as published today in despatches from London, do not contain all the evidence in regard to the German activities that is now in the possession of federal authorities, it became known today. All that Von Der Goltz wrote in his confession was presented to the jury by him as a witness some time ago, and a great deal more, it is understood, which has fitted in

some time ago, and a great deal more, it is understood, which has fitted in with evidence obtained by federal agents from other sources.

The grand jury will resume its investigation on Monday, and Assistant District Attorney Wood said he expected new indictments would soon thereafter be returned.

As far as could be learned, no request has been received by the New York federal authorities for the originals of the papers seized from the offices of Wolfe Von Igel, and they are still locked up in the safe of District Attorney Marshall.

Evidence Forwarded.

Mr. Marshall forwarded to Washington today the evidence collected by federal agents in regard to the lease of the premises at 60 Wall street, occupied by Von Igel, which is understood to show that the lease was taken in Von Igel's name. This evidence was desired in connection with the settlement of the question as to whether the offices were rented by the German embassy and therefore to be considered German territory.

It was understood today that the number of men involved in Von Der Goltz's activities in the United States is much larger than had been thought heretofore. The pending New York indictments against five of Von Der Goltz's associates were said to embrace the alleged leaders in the conspiracy probably will be sought soon. It was understood indictments will be asked also in connection with Von Der Goltz's other activities.

BUYS FAMOUS TAPESTRY.

Jos. Widener of Philadelphia Secures Morgan Tressures.

NEW YORK, April 21.—Joseph E. Widener of Philadelphia, it was learned today, has purchased for about \$600,000 the famous Mazarin tapestry, one of forty such works of textile art collected by the late J. Pierpont Morgan, which his son, J. P. Morgan, recently sold to an art dealer in this city. The tapestry has for its subject "The triumph of Christ and of the new dispensation." It is one of the finest in the world. It once was owned by Cardinal Mazarin, who guided the government of France during the minority of Louis XIV.

The derman embassy has issued an announcement to the effect that the Vigo was carrying contraband, and that time was given for the crew to leave the vessel.

Arrest of Quigley at Baltimore Proved Decidedly Lucky Stroke.

TAKEN FROM MAILS

Value of Loot Was Close to Half a Million Dollars.

BALTIMORE, April 21 .-- A man giving the name of Edward J. Quigley, having in his possession all the secu rities stolen from a mail van on ferryboat at New York on Feb. 26, was arrested here this evening.

The arrest was a piece of good luck by the postal authorities. Quigley was seized on suspicion of being wanted in St. Louis for raising money orders. Quigley fought against arrest and tried to get a loaded pistol from his pocket, but was overpowered by the inspect-

When told to open his grip Quigley protested and said he could not be made to give it up. It contained a large bundle, with old newspapers for a wrapping. Inside were found certificates of stock of the Baltimore and co. of New York, by Smith, Lockhart & Co. of Baltimore, was also found in the satchel, attached to certificates for 100 shares of Union Pacific and 100 shares of Union Pacific and 100 shares of Northern Pacific stock.

Quigley said that the satchel had been left on the train by a man and women who got off at Philadelphia and that he took it.

## TRIED TO FREE SCHWARTZ.

WASHINGTON, April 21.—Denial was officially made at the state department today that as charged yesterday in the house by Rep. Bennet of New York it had been negligent in seeking to secure release of Samuel Schwartz of New York from imprisonment in England. It was declared that everything possible has been done, but that there was still doubt regarding his American citizenship and his personal record.

And Ye World Has Been Mistaken, for Author of Great Works Was Bacon.

IS NO MORE A MYSTERY

For Chicago Judge Gives Out Decree That William Wrote No Poetry.

CHICAGO, April 21.—Francis Bacon was declared to be the author of the works of William Shakspere is a decision rendered in an injunction suit today by Judge Richard S. Tuthill in the circuit court. The decision dissolved an injunction issued on the petition of William N. Selig. motion picture manufacturer, to restrain George Fabyan, publisher, and others from completing publication of books supporting the Baconian theory.

The court held that the name Shakspere had been used simply as a dissuiss.

pere had been used simply as a disguise.

"The claim of friends of Francis
Bacon," the court said, "that he is the
author of the works of Shakspere, and
the facts and circumstances in the vast
bibliography of controversy over the
question and proofs submitted herein
convinces the court that Francis
Bacon is the outhor."

Judge Tuthill in his decision said:

"That William Shakspere was born

about 1586 or 1587; that for a time

April 23, 1564; that he went to London about 1586 or 1587; that for a time thereafter he made his living working for Burbage; that he later became an actor in Burbage's Theatre and in traveling theatrical companies; that he retired about 1610 or 1611 to live in Stratford-on-Avon, where he engaged in business to the time of his death on April 23, 1616, and that Shakspere was not an educated man are allegations which the court finds true.

Controversy for Years.

"The court further Inds that Francis Baccon was born Jan. 26, 1560; ihat he was educated not only in English but in French, Latin, Italian, German and had a general education equal to or superior to anyone of his age; that he was the compiler of a book of 1560 axioms and phrases sclected from the greatest authors and books of all time; that in his youth literary people were frowned upon in England, but in Paris literary people

literary people were frowned upon in England, but in Paris literary people were in favor of the reigning powers and literature was having a renaissance. Bacon went to Paris in his early youth and spent several years in this atmosphere.

tioned works, and that a vast bibliography, estimated by those who are in a position to know, at 20,000 volumes, has been written in discussion of the vexed question.

"The court further finds that by the published and acknowledged works of Francis Bacon there is given a cipher which Bacon devised in his carly youth when in Paris, called the carly youth when in Paris, called the bilateral cipher; that the witness, Elizabeth Wells Gallup, has applied that cipher according to the directions left by Francis Bacon, and has found that the name and character of Shakspere were used as a mask by Francis Bacon to publish philosophical facts stories and statements. cal facts, stories and statements con-tributing to the literary renaissance in England, which has been the glory of the world.

"The court further finds that the claim of the friends of Francis Bacon that he is the author of said works of Shakspere, and the facts and circumstances in the real bibliography of the controversy over the question of authority and the proofs submitted herein convinced the court that Francis Bacon is the author."

Mr. Selig alleged that the publica-tion of the book tending to prove that Bacon wrote the Shakspere plays would injure him in his project of making moving pictures of plays commonly attributed to Shakspere.

### To Absorb Freckles And Other Blemishes

Every spring numerous inquiries, are made by girls seeking some reliable recipe for removing freckles. Last year very favorable reports were received from many who had used mercolized wax during the freckling season. The wax seems to possess unusual properties, with no harmful effect. The complexion improves wonderfully, becoming as soft as a rose petal and as delicately tinted. Get an ounce of mercolized wax at any druggist's, spread a thin layer of it over the entire face every night for a while, washing this off in the morning. For rough, spotty skin, sallowness, blackheads, pimples and all cutaneous blemishes, this treatment is superior to any other.

# Thin Men and Women Here's a Safe and Easy Way by Which You May Gain 10 Pounds or More of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fatmaking elements of your food, instead of passing them out through the body as wester.

passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh-building elements, and to stop the leakage of fats, is to try Sargol, the famous flesh-building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point.

All good druggists have Sargol or can

covering each bony angle and projecting point.

All good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces, as stated on the guarantee in each large package. It is inexpensive, easy to take and highly efficient.

If you find a druggist who is unable to supply you, send \$1.00, money order or registered letter, to the National Laboratories, 74 St. Antoine street, Montreal, and a complete ten days' treatment will be sent you, postpaid, in plain wrapper.

NEW LONDON, Conn., April 21,—Five consecutive victories and no defeats is the record of the Toronto team on its tour of the New England League. This is a better performence than that of any other International League team which has appeared on this circuit this sprins. Today the Leafs defeated Eugene McCann's New London team, 5 to 1.

Manager Birmingham made a change in his batting order to increase the team's effectiveness at bat, and on the bases. The result of today's contest showed the wisdom of the rearrangement. The right and left-hand hitters were more evenly distributed, and afforded the baserunners more protection. The batting of Backburne and Truesdale were features. The Leafs leave tonight for Bridgeport, Conn., to play Saturday, Sunday, Monday and Tuesday. Wednesday is an open date, and Toronto will open the season at Newark on Thursday. Score:

### Speaking of Stealing Bases, How About This Slide of Two Players?

Probably the longest slide in the world is made by the sleds of the Alaskan dog teams, some 412 miles, but it has always been supposed that the longest individual slide record of some 15 feet belongs in the hip pocket or thereabouts of Ty Cobb, who has covered something like that distance prostrate between first and

But the swell posterior glide record really goes to two Spokane ball players. Ty Lober and Rube Evans, who wintered in the vicinity of a town called Fossil. Oregon. The story goes that one day last January it snowed to beat the band. The next day these two worthies, along with most of the local population ascented the hill which crowns the town to watch the coasting.

Having no sled, the ball players took unto themselves a long, flat board, seated themselves thereon and started down the shill. Hardly had their descent begun when the board slipped from under them. Their impetus was too great to enable them to stop. There was nothing left for them to do but slide the rest of the way—on the seats of their trouser-loons. They did that very thing to the utter ruin of the said trousers and much to the hilarlous bellowings of the Fossil natives.

FIND NAMES QUICK WITH PHONE NUMBER

A new device for making the names and numbers of a "live" telephone list instantly available consists of a case, or rack, containing a number of cards set on edge. A proper number of the cards are supplied with alphabetical index guides on their upper edges. All the cards are so fastened that they can be sufficiently separated at the top to allow the user to see at a glance any desired card. A spring closes the file when not in use. Immediately in front of the cards is a convenient memorandum pad. The device can be fastened to a telephone instrument or allowed to stand on a desk.

McCarthy of Boston Gives Fine Display of the Trained Boxer -Summary and Draw.

The effluvia of the pro. boxing tourney was still sticking to the surroundings a the opening of the Canadian champion a small but well-satisfied crowd in attendance. The bouts were above the standard of preliminaries and semi-finals, standard of preliminaries and semi-linals, and the skilful contests warrant a great night's show at the finals tonight. The bouts were put on promptly, and the draws seemed to bring the boys together in well-matched contests. McCarthy of Boston is a clever two-handed fighter, and looks capable of giving Joe Burke a great argument.

Fourteen bouts were decided. Fred Galiagher of the Riversides and Hart of Buffalo put up the best bout of the night, and had to go an extra round, and

night, and had to go an extra round, and when the Riverside boy got the decision the crowd went wild.

The Russell-McGrath bout was almost as good. McGrath was the aggressor all the way, but Russell came strong in the third and got the decision, which was anything but popular.

Another good bout was that between Fred Bull, a young brother of the old Riverside boy, Frank, and E. King, and, altho this was only his second appearance, he made things decidedly interesting for the veteran Ernie King, formerly of Toronto, but now of St. Catharines.

The American visitors had three winners in Vatian of Boston, who got the decision over Newton of the Riversides: Linden of Buffalo, who stopped Doig of the 126th in the first round, and McCarthy of Boston, who got the decision over Jensen of the 180th.

Force and Swiftness With Which Birds Fly Illustrated by Recent Accident.

The astorishing swiftness and force with which birds fly was strikingly illustrated when a partridge crashed thru a large window in a country residence near Red Wing, Minn., recently. The window was glazed with plate glass, 1-4 inch thick. The bird, which weighed 20 ounces, was found dead in the living room 11 feet from the window, flying thru an opening when it met its death. ## PICKED TEAMS PLAY AT DUNLOP FIELD

Two selected teams picked from the T. & D. F.A. will do battle today at Dunlop's field. A good keen game should Dunlop's field. A good keen game should result, as the players will all be on their mettle trying for a place on the team to play Montreal on May 24. After the good display given yesterday on the heavy going at the Beach, an even faster game is anticipated on the dryer ground. The teams will line-up as follows:

Blue—McAlpine (H. & S. United), goal; McKay (Baracas), Dobson (Lancashire), backs; Neilly (Ulster), Shepherd (T.S. R.), Shaw (Baracas), halves; Robertson (Thistles), outside right; Lindsay (H. & S. Newark Authoritles Claim He is

The bicycle racing authorities at Newark, N.J., have raised the ire of the Canadian Wheelmen's Association. Art Spencer, the crack Canadian pedal pusher, opened up his racing season at Newark by finishing second from scratch in a half-mile handicap in 55 seconds. This is pretty fast time for the first time out. The Newark authorities have decided that Art is much too good for the amateur ranks, and will force him to enter the salaried game if he wishes to race on the other side any more. This is rather a high-handed affair, and the C.W.A. will investigate it thoroly and may make some trouble.

Elil Spencer made the trip to Newark with brother Art, and after a three-year lay-off captured the amateur two-mile open.

sured. The delegates at the annual convention of the Ontario Amateur Lacrosse Association in Victoria Hall yesterday was one of the best in the history of the game. This year promises to run it a close second.

Three offices went by acclamation, but there was one of the old-time campaigns for seats on the executive. Ten representative men of Canada's national game were finally elected. President Cante. Hocking, Toronto; First vice-President J. B. Brown, Fergus, and Treasurer W. McArthur, Toronto, were the men who went into office without a fight. Ernie Doyle of Newmarket is the new second vice-president and Jimmie Dundas, Toronto, is secretary. These men should be able to handle the largest amateur lacrosse body in the world.

The new lawmakers had little success and only a few amendments were passed. One that got the hearty endorsation of everybody was that the soldier player should be exempt from the residence rule. Eugene Dopp got his motion thru, it requires players to have permits in exhibition games for other teams than those with which they are registered and debarring players from other recognized leagues in the same season. This motion was passed without a ballot. Fred Waghorne's new rule was treated in the same manner. It calls for the reinstatement of suspended players who have enlisted or who are engaged in the manufacture of munitions.

The proposals to alter the playing time to four fifteen-minute periods and to there twenty-minute periods and to there twenty-minute periods were both defeated, and the old rule of four twenty-minute periods retained.

The old rule keeping players out of their opponents' goal crease was also decided on instead of the suggestion that that goalkeeper might be checked there if he had the ball. It was also proposed to allow an opposing player who had the ball to go into the crease, but this was likewise rejected.

The convention also defeated the proposed rule to have two officials in the final games.

Secretary Frank Doyle, who is retiring after serving the association for three

Auditors—Thomas E. Henry, Brampton; Ed Hinds, Orillia; Dan A. Rose, Torento.

On motion of Past Presidents; Francis Nelson and Dan A. Rose, the minutes of the convention will contain an appreciation of the spirit of hundreds of members of the Ontario Lacrosse Association who have joined and are still joining the ranks of the soldiers of the empire, and a tribute to those who lie buried in French or Belgian graves. The response by the followers of lacrosse has been a magnificent one, but only what might have been expected from those who were interested in the national game.

It was noted with regret that there was now a vacancy in the long list of past presidents of the association, the death of Mr. James Vance being the first since the organization in 1888, a remarkable record.

The medals for the last two years were presented to the club representatives, Weston having a double lot to receive. Hon. President J. Ed Hinds also received the past president's medal. Restoration to good standing was agreed on in the cases of two suspended players, Jack Burns of Collingwood and Donald Bethune of Bracebridge.

President J. Ed Hinds conducted the business of the meeting in his usual capable style, with Secretary Frank Doyle and Treasurer W. McArthur at their regular posts, and the following representatives in attendance:

Past presidents—Dan A. Rose, Toronto; T. F. Doyle, Newmarket; J. K. Forsyth, Toronto; Blaney McGuire, Orangeville: Jas. Stevenson and Francis Nelson, Toronto.

### The Capitals Say They Want Penalties For Rough Lacrosse

OTTAWA, April 21 .- Matters pertaining to the organization of the Capitals of the N.L.U. were completed last hight, when the election of officers took place, and the club, after being put on a runand the club, after being put on a running basis, decided to support the proposed changes in the N.L.U. rules.

The principal feature of the changes in the rules that the Capitals are strongly in favor of is that which tends towards cleaner play by the installation of a stiff penalty system for lacrosse, which provides a five-minute penalty for a minor offence and a ten-minute rest for a major. Contrary to expectations. offence and a ten-minute rest for a major. Contrary to expectations, Johnny powers, the veteran lacrosse star, was not elected president, but instead Controller Joseph Kent, one of the most ardent lacrosse fans in the community.

The election of officers resulted as follows: President, Joseph Kent.; vice-president, George Booth; secretary, Ernie Butterworth; committee, G. W. Durcchar, L. N. Bate, Dr. J. Chabot, M.P.; Hal McGivern, ex-M.P.; Alf. Smith, W. Hastey, H. Gilden.

H. Gilden.

Detroit probably wishes it had stepped in early last season and picked up little Urban Shocker, the ex-Ottawa flinger. The Tigers' pitching staff is going so badly, Rube Marshall, who has been at the Montreal Royals' training camp at Hackettstown, N.J., has been recalled, leaving Dan Howley in somewhat bad straits for a reliable twirler. Marshall was shaping up splendidly with Montreal.

Patrick Haley, catcher of the Providence Internationals last season, left for Norfolk, Va., yesterday to join the Bufalo Internationals, to which club he has been released by the Boston Americans.

symnasium on the holiday morning at Central Y.M.C.A., when the School Boys met the Employed Boys in annual competition in basketball and baseball. The mployed Boys showed their class by

winning both games, both in the last few minutes of play.

The baseball game started off with a tally for the School Boys, who did not

let up till they had scored eight runs in the first two innings, but after that the Employed Boys settled down and soon closed in on their opponents, and with a grand rally in the last innings nosed ahead by two runs and succeeded in holding a one-run lead when the School Boys went to bat.

The basketball game was very even, the School Boys keeping ahead, having a lead at half-time of 8 to 5 and playing a better combination game. But in the second half the Employed Boys broke up most of the combination plays of the School Boys, and with a couple of minutes to go Sherlock tied up the game, and before the final whistle blew the Employed Boys scored two more goals, winning a good game 24-20. Moffitt (124th).

out of Enfield's reach, altho the latter threw himself full length in an effort to save. This success stimulated the Soldiers to still greater efforts, and they came within an ace of increasing their lead, but the defence held out and put their forwards in possession, and they in turn gave the Soldiers' defence a hot ten minutes, but they failed to score, and the final whistle blew, leaving the Soldiers winners of a very pleasant game by the only goal scored.

An Evansville, Ind., despatch says: When Theodore Turner pitched a no-hit game for the local Central League team, he thought there wasn't much left to conquer in this world. His feat was chronicled far and wide. Many read and marveled. Amongst the many who read was Deputy Sheriff Ben Freckman at Lexington, Ky. He promptly wired the authorities here to arrest Mr. Turner and hold him until he could get there. Theodore is wanted at Lexington for the alleged theft of much jewelry.

The teams for the Brantford and Paris Baseball League are getting into line, and the prospects are for a most successful season. The teams already in are MacBride's Alerts, Holmedale, Paris and 215th. The munition workers are likely to get a team in also. The games will be staged every Saturday afternoon, the proceeds, after paying expenses, to go to the Brant Soldiers' Tobacco Fund.

Have you ever ridiculed, in looking over the country rewspapers, the apparently trifling paragraphs which, nevertheless mean so much to the rural readers? Something like: "Ezra Scroggins has set a new fence post in his front lawn." or "Josiah Jasper's daughter Mae Sundayed with her cousins'

Captain T. C. Flanagan of the Military Athletic Association kicked off for the "Civies." The soldiers were the first to assume the aggressive, Moffitt causing Enfield to clear twice in quick succession. The defence of the Civies, however, gradually forced them back, and at the other end McKenzle had to put the ball outside to relieve the pressure. Moffitt got away again and grazed the post with a beauty. Shortly afterwards Russell spoiled a nice opportunity by lying offside. Play now veered round to the other end, and Hunt had to extend himself to keep his charge intact from the worrying efforts of Long and Hamilton. Accurate passing and shooting were out of the question at the west end of the field, the ball sticking in the mud and nullifying the efforts of the Civies' forwards. Art Barron made a brilliant attempt to open the scoring, but Hunt brought off an equality brilliant save. The interval arrived with the score sheet blank.

On restarting, the Civilians went off with a rush, but were stopped by Hutchinson, who was playing a brilliant game. McLeod went away, but his final effort was weak and went yards wide. Endto-end play was the order for a time, each goal being visited in turn. Hacciton, for the Civilians, wormed his we, thru, and after beating all but the goalishe slipped in the mud and a good chance was lost. Teddy Young made a desperate attempt to score, his shot just grazing the crossbar. The Soldiers went away in a body, but were stopped by Richardson and Campbell, who fairly teveled in the mud. J. # RUSSIA NOW BIDDING FOR SILVER

The demand for silver is becoming more insistent each day. Thursday New York reported that Russia was in the market for large quantities of the white metal for coinage purposes. The first New York quotation was 65 3-8c an ounce, but bids of 65 1-2c were made later and nothing was offering less than 66c. The advance is expected to be continuous for some time to come and 70c silver is promised in a very few days. The price is now 207, higher than at the beginning of the year and over 40 per cent, above the low price of last year. The increase in the earnings of the Cobalt companies will therefore be proportionately increased. The rise in the price of copper has made remarkable differences in the price of copper stocks, For instance, United Verde Extension shares were selling in the Boston market a few months ago at about 70 cents and are now bringing \$27 a share. The Cobalt stocks must appreciate with the advance in the metal, but thus far the discounting of the improved outlook has been but slight. The Dome Extension and Dome merger was completed Thursady and the Hollinger merger will come along later. Everything points to a much wider interest being taken in Cobalt and Porcupine securities and the demand for seats on the Standard Exchange from American sources is a reminder of the early days of the Cobalt boom. The Cobalt companies making the largest shipments from the camp are Nipissing, Coniagas, Temiskanying, Beaver, McKinley, Peterson Lake, Kerr Lake Mining Corporation of Canada, Buffalo Crown Reserve, and Chambers-Ferland.

On the treatment of Cobalt ores that there is a possibility of some of the dumps being worked over again. It would be hard to judge yet how low-grade ore oil will profitably treat, but it will certainly turn some of the low-grade bodies that have been passed up, into profits. This means another lease of life to several properties in Cobalt, and many partially developed low-grade mines may become dividend payers thru low ore treating costs. It was said at the embassy that the suspension of traffic will be complete except in the case of vessels carrying government cargoes, and even in that case they can secure admission to the ports only by special permit from Petrograd.

It is assumed by the officials here that the closure is a purely military measure incident to the use of the ports for embarkation for the heavy Russian reinforcements going forward to France.

The necessity of guarding the troop transports has obliged the Russian Government to regard as enemy vessels all but government-own or chart-ered ships, and to reduce to a minimum the danger of destroying neutral ves-sels the ports have been closed.

erand new farce that H. H. Frazee will offer for the first time on any stage nday night at the Alexandra Theatre, organization seen here in a decade, including Joseph Santley (late star of 'When Dreams Come True''), Kathleen Clifford, Mark Smith, who will be remembered for his clever characterization of "T. Boggs John" in "A Pair of Sixes," Maude Eburne (the Bronte Girl, who came to Toronto a few weeks ago to play her original role of "Coddles" in "A Pair of Sixes"), Francis McGinn, the original officer in "Officer 566"; Hugh Cameron of "A Full House" fanc; Ola Humphrey, Charles Butler, Miriam Doyle, C. R. Goodrich and others.

"A Pair of Queens" was written by O. A. Hauerbach and Harry Lewis, a New York attorney. It was staged by Robert Milton, under the personal supervision of Mr. Frazee. A large delegation of New York first-nighters and managers will accompany Mr. Frazee and his company to Toronto. There will be no advance in prices, and on Wednesday a popular-price matinee will be given. One of the most fashionable audiences of the season will be present on Monday night to enjoy the premiere. The proceeds of this performance have been donated by Manager Frazee and Manager Solman to the American Legion.

Canadian playgoers who love Hall Caine's stories of Manxland will await with interest the coming of Derwent Hall Caine to the Grand Opera House Easter week in "Pete," which is in reality part of "The Manxman" and other Hall Caine stories dramatized by Hall Caine and L. N. Parker. The reading public knows that all of Hall Caine's novels and plays have been written in a quaint little cottage in the rear of Greeba Castle, his palatial country home on the Isle of Man. They know also, that this tiny English possession maintains a quaint atmosphere totally unlike that in any other part of the world where the English language is spoken. In many of his novels Hall Caine has managed to present vivid pen pictures of Manx life. Within the next few days, however, Toronto theatregoers will see the quaint etails of this tiny island life bodily transferred to a Canadian theatre. The mere announcement that Derwent Hall Caine, son of the eminent novelist, has brought the original London production of "Pete" to Canada does not convey a clear idea of the elaborateness with which these settings for the Manx story have been transferred across the ocean. The engagement opens with a special matinee on Monday.

For next week the Shea management offer as the headline attraction that international star, Elsie Janis, premier caricaturist. Miss Janis, who will be remembered here for her work in "The Fair Co-Ed," "The Hoyden" and a host of other successful musical comedies, is one of the bright stars of the vaudeville firmament today. For her vaudeville engagement here Miss Janis will offer impersonations of her favorite stars, embracing some of the best-known and most popular men and women of the stage before the public today. Jack W. Conly and Margaret Webb will be featured in their bright melange, "A Musical Mix-Up," which serves to introduce the clever pair in sparkling songs and graceful dances. The Big City Four is conceded to be one of the best balanced quartets in vaudeville, while Harry Lester Mason will provoke much laughter with his amusing sketch, "The Janitor." The El Rey Sisters are clever dancers on skates; Mr. and Mrs. Norman Phillips in "Sweets to the Sweet"; Joste O'Meers, a clever aerialist, and Adeline Francis, the "Gramophone Girl," with feature comedy films complete a bright, well-balanced bill.

Pepple will present his all-star girl revue, featuring twenty beautiful, talented girls in songs, dances and instrumental numbers. It is a novel act, inasmuch as it depends upon the merit of the comediennes alone for its success. No male comedian appears in the entire production. Handsome scenic effects, together with elaborate costuming and harmonious lighting arrangements, combine to make this sketch one of the most attractive ever offered for the approval of vaudeville patrons. The feature film of the bill will be the initial appearance here of that celebrated screen star, Marguerite Snow, in the latest of the Metro wonder-plays, "A Corner in Cottom." The story deals with the efforts of a young society girl to make the lot of the poormore endurable. It combines scenes from gay New York life with that of life in the poorer districts. A touch of the life of the people of the southland makes it more appealing. Clever vaudeville acts and feature film comedies complete the bill.

The "Toy Comedian." Master Gabriel, internationally famous, will appear for the first time in several years in Toronto, when he heads the bill all of the coming week at Loew's Theatre in a clover new sketch entitled "Little Kick." There are three people in the act—Lamar, who has been connected with Gabriel for many years, and Miss Vida Perrin, Toronto beauty, known thruout Canada for her grace and charm. Miss Perrin posed for two years in Paris as an artist's model, and several years ago won a big Canadian beauty contest.

"Mile. Amoros and Ben Mulvey will offer a rapid-fire singing and dancing skit, entitled "At the Cabaret," introducing Mile. Amoros' acrobatic dancing. Others will be Billy Forrester and Miss Ray Lloyd, in Mack and Walker's clever skit, "An Everyday Occurrence". Van and Carrie Avery, featuring Mr. Van Avery, the original "Rastus"; Kennedy and Nelson, and Mumford and Thompson.

CHAPLIN AT STRAND.

Ail next week the Charlie Chaplin burlesque of "Carmen," in four acts, with
Edna Parviance in the title role, playing
opposite the one and only Charlie, will
be presented at the Strand Theatre. This
is a regular "scream." The sword fight
and the battle of the cigaret girls are
there, the former a shining example of
the Chaplin art. The ending is a deathand-resurrection scene, with a stage dagger. The bill will also include "The Great
Ruby," a real "thriller," for which the
claim is made that it is the best and
most sensational melodrama ever filmed.

"SMILING BEAUTIES."

It is really hard to say how many star entertainers are gracing the cast of the "Smiling Beauties," who come to the Gayety Theatre next week for a week's stay. Suffice it to say each is a head-liner in his or her respective line of work. The comedicttas, "The Suffragettes' Convention of 2016," and "High Life in Jall," are musical pot-pouris of frolicsome absurdity, the chief aim of which is to furnish a plot on timely topics of the day for the dispensing of the quaint and unique style of humor with which Harry K. Morton, Zella Russell, Sam Collins June Mills, Ruth Wesley, Billy Innes Bijou Comedy Trio and the many other performers are gifted. The author has succeeded most masterfully, and was more than able to introduce original

"THE GARDEN GIRLS."

"The Garden Girls," one of the brightest burlesque productions on the road, open a week's engagement at the Star Theatre next week. This attraction is far above the average, and contains all the ingredients of a high-class performance. The songs are the latest and are rendered by a large chorus of winsome girls. The "Garden Girls" " chorus is noted for the ginger they put in the dancing numbers. Irma Windsor, the magnetic soubret, is very lively and keeps things moving at a lively pace while she is before the didience. Mae McRea and Anita Hawthorne are two leading women with powerful voices. The funny side of the show is well looked after by Gus Arnold and Joe Freed.

Short-Skirted Models With Very Long Watteau Trains May Still Be Graceful.

MANY NEW MATERIALS

Gros de Londs, Tulle and Brocade May Be Used, and Also the Harem Veil.

Satin is not the only choice for the wedding gown of the Easter bride. Among the newest materials endorsed by la mode are gros de Londres, tulle, soft brocade or cloth of silver. Very lovely are this season's models, made up in the newer materials and in newer modes, but still seeking for and finding grace and charm.

When the first frocks appeared in which short skirts and long trains were cleverly combined, the devotee looked on in wonder, but it did not take long to win over the faltering ones to the side of the "new innovation." And now short distended wedding frocks, exploiting long graceful watteau trains, are donned by the bride-elect with never a qualm. Her reflection in the truthful looking glass reports that Dame Fashion has achieved a remarkable success.

Western Women Don't Favor Scheme of Bringing Them to Canada.

BY SALVATION ARMY

Passage Money Would Be Raised in England and Given to the Dependents.

Women of the west are not a unit in desiring to bring soldiers' widows and children to Canada, along lines planned by the Salvation Army. At a special meeting the Winnipeg Mothers' Association passed a resolution which stated that the association, while willing to co-operate in any scheme of economic soundness for the relief of women in Great Britain who have suffered thru the war, did not believe that it would be in the best interest of the emothers affected by the proposed Salvation Army scheme in asking them to leave the mild climate with known environment, to face life under unknown conditions with their young families. Furthermore, the resolution stated, the association held that the widows of soldiers thruout the empire who had given their lives for the common cause, ought to be assisted by the state to adequately maintain themselves and families, and therefore the association wished to place itself on record as opposed to any subsidizing of this or other schemes in bringing dependent widows in large numbers to Canada.

Plan of Salvation Army.

The plan of the Salvation Army as explained by Mrs. Commissioner Sowton to the meeting, was to take 5000 widows and 10,000 children out of Great Britain and distribute them over all the Dominions, and only a small portion would come to Canada. The Army was prepared to accept responsibility for the success or failure of the scheme. The passage money would be raised in England and would be given, not loaned. Fifty dollars per head was all the province was to be asked for, this amount to be spent in outfitting a home for the widow and her family.

Announcements

Notices of any character relating to Juture events, the purpose of which is the raising of money, are inserted in the advertising columns at fifteen cents a line.

Announcements for churches, societies, clubs or other organizations of future events, where the purpose is not the raising of money, may be inserted in this column at two cents a word, with a minimum of fifty cents for each insertion.

Langford Ave. VAMPIRES AND MOTHERS.

152 Davenport road, Toronto.
Dear Editor: I enclose one vote for my favorite, "Mary Pickford," and one from a friend for "G. M. Anderson," better known as "Broncho Billy." I was rather amused at some of the remarks in "A Show Fiend's" letter, the writer saying to picture Mary as a mother of three or four children or playing a woman villain, also going on to say she isn't the type for a real man to fall in love with. Well, in defence of my little favorite, I would say I could picture her making a splendid mother, the type of mother we like to think about. As for a woman villain, I think we have too many now on the screen, so I hope Mary keeps from that role. Also, from what I see, strong, manly men usually DO marry a little, loving woman, as their very smallness appeals to men for love and protection. The same writer says he visits four shows a week, so knows what he is talking about. In finishing I would say that some people may visit shows every hour

The regiment, under the command of Major Horsfall, with its band, cyclists and cadets, looked like a very complete militia unit, altho its ranks showed the result of heavy enlistment recently for overseas service. The regiment had lunch on arriving at the park, followed by some interesting and instructive manoeuvres.

# Seven Selected Cake and Bun Recipes

Flat Rice Cakes. -

These are flat and are baked upon flat These are flat and are baked upon hat baking tins.

Six cunces of ground rice, six ounces of flour, 12 ounces of sugar, half a pound of butter or margarine, two eggs, a quarter of an ounce of volatile, a little milk. Dissolve the volatile in a table-spoonful of milk, beat up the sugar and margarine, add the eggs, then add the milk, and mix up to a soft paste with the flour and ground rice. Roll out to a quarter of an inch thick, cut out rounds with a cutter, put them in tins, place a thin piece of peel in the centre of each, and bake in a hot oven.

The eggs can be left out and extra milk added if deaired; in many districts eggs are never used in rice cakes.

This is an old recipe for a real rice cake, and is sure to give satisfaction.

Warm one pint of milk to about 95 degrees, put it into a bowl, dissolve one ounce of yeast and one ounce of augar in it, then stir half a pound of flour incover it uppland, let it stand for 45 minutes to rise and falla Meanwhile rub 12 ounces of butter into two pounds of flour. Then add to the liquor two ounces of sugar, three beaten-eggs, a little grated nutmer and a little drop of rum; stin, well, then add the flour and mix up to a fairly stiff dough, knead well, cover it up, and let it stand for one hour, knead again, and stand for half an hour. Now weigh into parts of one ounce and a half, put in small, greased, crinkled patty pans, let them prove for 15 minutes, then wet the tops with a soft brush dipped in milk, and bake them in a moderate oven.

There are made from the same dough as the above, but two ounces of ground almonds are added when making up. Weigh the dough into there-ounce pieces and roll out to four inches across, then brush melted butter ever them and sprinkle on the top the following mixture: Four ounces of butter, two ounces of flour, two ounces of finely-out almonds, two ounces of sugar. Rub all the ingredients together thru your hands till they are like crumbs, sprinkle thickly over the cakes, let them prove for a quarter of an hour, then bake in a moderate oven. When they are cooked, sprinkle finely-powdered sugar with a little cinnamon in it over them.

As almonds are usually high in price,

any kind of flaked or ground nuts can be used in place of them.

Next to a rough, knotty pine floor, Next to a rough, knotty pine floor, requiring vigorous, back-breaking scrubbing, and leaving its mark on a reddened, vein-distended hand, the poorest kind of a kitchen floor is an oiled floor. Why? Because the kitchen surfaces—floor, tables; walls—should always be impervious to spots of grease or moisture of any kind. No matter how careful the worker, there is hound to be ful the worker, there is bound to be some spilling and spattering in the kitchen. If the floor of the kitchen is to be laid and the house is your own, perhaps the most far-sighted economy is to have one of the new composition floorings laid. The cost varies according to the material selected and the size of the room, and it is a higher cost than many of the floor coverings. But it has two distinct advantages. These floors are laid so that the baseboard, running about six inches or so above the floor, and the floor itself are in one piece. There is no crack or crevice between wall and floor, which increases the sanitation, affording great protection against insect pests and mice. If the kitchen is not in a house that you own, or if it is not possible to go to the expense of a composition floor, the best covering is the old standby—good, inlaid linoleum. It does not pay to get the printed kind—better to wait until one has saved the cost of a good linoleum than to invest in the cheap kind, and have to buy three times over instead of once. There are several "parquet" patterns in the "battleship linoleum," which wears splendidly, and doesn't present the half-worn, shabby appearance that the cheap olicloths do. But by all means avoid the attempt at elegance in the kitchen by preparing to have an olled floor. Some of these are not nomadic ; they have walled towns lost in the sands that are seldom visted by caravans from the outside, and almost never by European travelers. Their only means of communication with other peoples is by their own caravans that cross the burning sands with dates and the simple manufactures of their homes to trade for the needed supplies they cannot produce.
