SAYS McNEAL WAS UNWELCOME GUEST

Statement by Father of Murder Girl is Feature of Murder Trial in Welland.

Welland, Ont., Oct. 21.—(By Canadian Press).—Emphatic denials by Reuben Boucock that he had any previous knowledge of where the body of his daughter Margaret was hid and his statement that David McNeal, who stands charged with the murder of Boucock's four-year-old daughter, who disappeared on July 13, and was found three weeks later hidden in brushwood near the new Welland ship canal excavation at Thorold, was an unwelcome guest at his home here, were features of the great Thorold murder trial which opened today.

Welland, Ont., Oct. 21.—The prosecu- tor declared that he strongly objected to McNeal because he did not like the slandering and was not to be talked about women. Witness alleged that prisoner was always talking about that he did to women while in France, and added Boucock, McNeal never was in France.

Tells of Search for Daughter.

Testifying, Boucock told his movements on the day and night his little daughter disappeared. He worked nights, driving a truck nightly to Thorold and bringing back ice cream for distribution here and at St. Catharines. It was midnight on the 13th July when in Willard's ice cream factory that he learned of the disappearance of his daughter. He had no trouble with his wife that day. Returning home, he told of his search for the girl, going over the ground within a hundred yards of where the body of the girl was eventually found on August 4.

Find McNeal.

Continuing, witness told of his search for McNeal and his finding him at Port Dalhousie on the night of August 13 on the previous day and was informed by McNeal that he had journeyed along Albert street and when near the library noticed little Margaret. She ran across the street to him, took hold of his hand, saying, "I like ice cream." He offered some coppers and she ran across the street to him. Accompanied by the girl, he proceeded along Albert street and continued his interview with McNeal. Boucock stated that prisoner told him Margaret followed him but he told her to go home.

Testifying on his relationship with McNeal, Boucock in answer to G. F. Peterson's question if he had entertained McNeal at his home, said: "My wife has a house on Bay Street, where I and Gordon Porter, two lads about ten years, used to go. I used to go there walking, hand-in-hand with a man on the afternoon of her disappearance towards the canal. Noble did not know the man, but Porter stated the man was McNeal. In cross-examination, Porter admitted that he had stated at the coroner's inquest and preliminary hearing that he did not know the man.

Court Room Packed.

Long before the hour was due to open, the court room was packed to capacity, many falling to gain admission, people showing great anxiety to see the man who was nearly lynched at Thorold on August 13, after he had been committed for trial.

There was no outward demonstration as the prisoner entered the dock from the cells below. Silence reigned, not a murmur being heard. McNeal appeared to be in the best of health and spirits, and fully recovered from the injuries received at the hands of the mob. Prisoner was neatly attired in a new grey suit, and during the swearing in of the jury, watched the proceedings keenly.

MOORE-WATTERS DUEL CALLED OFF

(Continued From Page 1).

the trades union movement at some future convenient date should such an invitation be extended to me, but respectfully decline your invitation to occupy either my time or yours in coming to Toronto to discuss with Brother Waters this past issue.

"I believe that President Moore is evading the question and lacks the courage to put his case before a Toronto audience," declared Delegate Richard Russell following the reading of the communication.

CONVICTS FROM SING SING ARE SURROUNDED IN BUSH

Warner, N. H., Oct. 21.—Shots were fired by members of a posse tonight at two men in the woods two miles from this village, who the authorities are convinced are George Stiver and Marcus Bassett, the convicts for whom active search has been made since their escape from Sing Sing prison last Thursday night. The men dodged out of sight, apparently unwounded. Some time afterwards they asked for food at two farmhouses on the edge of the woods, and on being refused disappeared into the forest again. As late as now they have not been seen again, but it was believed they were hiding nearby.

MANITOBA FARMERS TO SUPPORT NORRIS

Will Not Enter House as an Opposition Party, Says Secretary Boivin.

Winnipeg, Man., Oct. 21.—The Winnipeg Free Press evening bulletin today says: "The farmer group elected to the provincial legislature last summer will support the Norris administration and will not enter the house as an opposition party, A. R. Boivin, member of Iberville and secretary of the Farmer party, informed The Free Press today.

"The moderate element of the labor party is making overtures to join the farmer group, Mr. Boivin said. "Should these four join the farmer group, their number will exceed the number of direct supporters of the Norris government.

"The object of the Farmer party is not to secure power or to overthrow the government in a vote of the house. We will support all measures which we consider in the best interests of the province," Mr. Boivin declared.

MUCH RUM-RUNNING IN NEW BRUNSWICK

St. John, N.B., Oct. 21.—Rum-running has had some sensational developments here lately. Today it was reported that a motorboat with six barrels of Scotch whiskey on board, loaded here and moved later to a point on the Bay of Fundy, where it was unloaded.

REPORTED FIND OF OIL IN HASTINGS

(Continued From Page 1).

came to Belleville and told John Elliot, manager of the Standard Bank, of his discovery. Mr. Elliot communicated with his son-in-law, W. H. Reeves, travelling representative for the General Oil Fields, Limited, of London, England, who is spending a vacation in Belleville, having recently returned from Mexico. What Mr. Reeves saw convinced him that the prospects for an oil field here were excellent.

Options Secured. Mr. Reeves thinks so well of the property that he at once secured options on over one thousand acres of land, including the Reach farm, if oil is discovered in quantity, the farmers will be paid a good rental, besides royalties, which will mean sudden fortune for a number of families in the vicinity of Marysville and Lonsdale.

T. W. Gibson's Deputy. T. W. Gibson, Ontario deputy minister of mines, when spoken to by The World last night about the reported oil find, said that he was not hopeful about the district becoming an oil producer, some years ago oil indications were believed to exist near Montrose, in Hastings county, and a well was sunk to a depth of about 1,600 feet, when granite was struck, which disposed of hopes, as oil deposits depended upon sedimentary rock formation. The geological aspect of rocks in Hastings county in general was not favorable where oil was concerned, he said.

U. S. FIRMS READY TO DROP EXCHANGE

Concerns in Eastern States Willing Now to Accept "At Par"—Aids Business.

Montreal, Oct. 21.—Information received today by Canadian importers shows that the adverse exchange rate set by the United States against Canadian purchases of American goods is starting to fall down. This situation is attributed to the poor business conditions in the eastern states, manufacturers and merchants becoming anxious about the export trade declines. For this reason, they have decided to accept Canadian currency and pay no attention to the rate of exchange.

LIQUOR LIKELY SOLD ON PERMIT SYSTEM

(Continued From Page 1).

ranks was that the women did not generally support the "dry" law. With more women voters, the prohibitionists here, it did not follow that they would support the "dry" program, and from sixty to sixty-five per cent, of the fair sex must have gone with the moderation side. Premier Oliver and Attorney-General Farris are in the city and are discussing the result of the referendum, the full official figures of which probably will not be known for 48 hours.

LIQUOR WILL FLOW INTO WASHINGTON

Seattle, Wash., Oct. 21.—Reputation of the British Columbia provincial prohibition law in yesterday's referendum opens "great and limitless reservoir" and liquor will flow into the state of Washington in an endless stream, unless preventive action is taken, Donald A. McDonald, federal prohibition director for Washington and Alaska, declared today. Fifty automobile roads lead into Washington from the Canadian province and little more than a "corporal's guard" of federal agents is available to guard it," Mr. McDonald said.

Must Await Sale of Liquor

Altho government sale of liquor has been decided, it is stated the present prohibition act must remain the law until the legislature meets and enacts a new law, and this may be several months yet.

Permit System. The permit system appears to be strongly favored in some governmental quarters. Under this plan any adult citizen may procure a permit on the same principle as a ration card, which will entitle him or her to purchase liquor in reasonable quantities for personal and domestic use when presented at a government liquor store. These various suggestions are all very much in the air at the moment, as no responsible government leader has said what form the new act is likely to take.

Oliver is Surprised. In a statement issued today, Premier Oliver said: "I am very much surprised at the result of the vote yesterday. I had anticipated a majority for prohibition. The government will prepare for the consideration of the legislature a bill to give effect to the will of the people as expressed at the polls. Had the same government been prepared to accept the decision of the electors, they would not have submitted the question.

William Savage, president of the People's Prohibition Association, said: "We accept the verdict. We shall continue our organization, because we are confident that the experiment of government sale will be as ghastly a failure here as it proved to be in Saskatchewan, and this organization will be needed soon."

OTTAWA POLICE FIND ALLEGED BANK BANDITS

Ottawa, Oct. 21.—The local police believe they have two of the men who robbed the Chapel Street Branch of the Bank of Nova Scotia here in broad daylight on April 1, and the Bourget Branch of the Banque Nationale on the night of June 9. They took \$1,050 from the Bank of Nova Scotia and nearly \$9,000 from the Banque Nationale. The men were arrested in a local pool room this afternoon, and were said to be Napoleon Franche and Joseph St. Louis, both of this city.

CONDITIONS BETTER AT KINGSTON JAIL

Many of Prison Workshops Resume Operations.

Kingston, Ont., Oct. 21.—(Special).—The conditions that prevailed at the penitentiary since Saturday last has gradually given way to a more orderly state of affairs. This afternoon many of the workshops at the big prison had resumed every appearance of normal. Some offenders are confined in "holes," as the dungeon in the basement of the old asylum building is called. The Eastern firms have also expressed their willingness to take Canadian funds.

BRITISH COLUMBIA REPUTATION OF PROHIBITION OPENS 50 DOORS INTO STATE.

Seattle, Wash., Oct. 21.—Reputation of the British Columbia provincial prohibition law in yesterday's referendum opens "great and limitless reservoir" and liquor will flow into the state of Washington in an endless stream, unless preventive action is taken, Donald A. McDonald, federal prohibition director for Washington and Alaska, declared today. Fifty automobile roads lead into Washington from the Canadian province and little more than a "corporal's guard" of federal agents is available to guard it," Mr. McDonald said.

TRY BLUE BEARD ON MINOR CHARGE

Alleged Slayer of Eleven Women Arraigned on Allegations of Swindling.

Paris, Oct. 21.—Henri Landru, who has been under arrest for more than two years charged with knowledge of the disappearance of eleven women, to whom he is said to have promised marriage, was arraigned before a police court here this afternoon on several allegations of swindling growing out of his ventures in the automobile garage business in 1913. Since his incarceration the police have referred to Landru as a "modern blue beard."

The prosecuting attorney at today's arraignment did not mention the charges of murder against Landru, but demanded that the most severe penalty of French law for swindling—five years' servitude and then deportation to Noumea on Devil's Island—be meted out to the accused if convicted. During the arraignment Landru several times anxiously asked the judge why he was not being tried for murder, and M. Mor-Glaferi, who was defending the accused, asked the court that Landru be tried on the charge of which he had been arrested, namely, murder.

KING AT MEDICINE HAT; W. DUFF, M.P., HAS COLD

Medicine Hat, Oct. 21.—The reception of the Hon. W. L. Mackenzie King and his party at this city today was in line with that accorded throughout their trip thru the west.

RECORD HOG PRICE.

Kingston, Ont., Oct. 21.—(Special).—A record price for live hogs in this district was paid at Yarker yesterday when a big lot was disposed of at thirty cents a pound live weight.

EATON'S DAILY STORE NEWS

Warm Topcoats for Men and Young Men A Collection of Fine Tweed Fall Coats That Offer Better Than Ordinary Value at \$35.00

BECAUSE they're coats which were not long ago reduced from considerably higher figures. So young men, and men of middle age, who take advantage of this circumstance, will benefit to the extent of several dollars.

There's a variety of models that include the very conservative fly-front Chesterfield, semi and fitted styles, and the favorite slip-on coats with loosely draping back and raglan or plain shoulders. These are well tailored coats with peaked or notched lapels, plain flap or flap patch pockets, and full, half or quarter linings of Italian twill silk or mixture of cotton and silk.

Some are of all-wool fabrics, others of wool and cotton mixtures, in smooth and rough Scotch tweeds and cheviot effects, in plain and mixed medium and dark greys, blue grey and olive green mixtures. Sizes in the lot, 35 to 42. Specially good value at \$35.00.

Three Winter Weight Overcoat Values at \$24.75, \$28.75 and \$34.75 Are Worthy of Special Note

At \$24.75 are Overcoats made from all-wool and union wool and cotton fabrics, in cheviot and tweed finishes, in plain dark greys, and browns, mixed overplaid patterns, and stripe effects, in combinations of olive and medium and dark browns. They are in all-around belted and semi-fitted models, full-fitting, half-belted ulster, the knee-length ulsterette and the fitted waist-seam designs. Some have medium, others large, convertible collars, slash or outside patch pockets, and yoke and sleeves lining or full linings of Italian twill or mercerized cotton. Sizes 35 to 42. Price, \$24.75.

At \$28.75—Overcoats are made of all-wool and wool and cotton melton, cheviot and tweed-finished materials, in plain, medium and dark greys and browns, or tan, brown and olive in heathery mixtures, overplaid or stripe patterns. The variety of models in this group includes the fly-front, single-breasted Chesterfield, the cozy storm ulster, the all-around or

half-belted ulsterette of about knee length, the plain panel back and waist-seam types. Some have small velvetene or self collars, with notched lapels; others are medium or large convertible type. Pockets are regular flap, slash or outside patch styles, and some coats are fully lined with twill lining; others quarter or half lined with mercerized cotton. Sizes 35 to 42. Price, \$28.75.

At \$34.75—The Overcoats are of all-wool or wool and cotton rough Scotch tweeds, melton or cheviot-finished fabrics, in medium and dark greys, fawns, browns and medium and dark olive greens, woven in plain heathery mixed effects, stripes or overchecks. There are half-belted ulsterettes, belters, semi-fitted types, of about knee length, half-belted storm ulsters, and waist-seam styles. Made with convertible collars, slash or outside patch pockets, and fully lined with Italian twill, or quarter or half lined with mercerized cotton, in plain or stripe designs. Sizes 35 to 42. Price, \$34.75.

The Noted Wolsey Underwear for Men

Forms a Most Interesting Display Just Now in the Men's Wear Annex

WE NEED scarcely dwell upon its almost incomparable merit. Whether you have worn Wolsey or not, you know that it is made of the finest of all-wool yarns; that it is warm, yet not heavy or cumbersome; that it is non-irritating; that it is extremely serviceable, and, therefore, most economical. Select your favorite from the following list, and buy it now, for it is not yet plentiful, and size ranges may become depleted soon.

Shirts and drawers, "Wolsey De Luxe" quality of fall weight, in light natural shades. Shirts 34 to 44, garment, \$7.00. Drawers 32 to 42, garment, \$7.00.

At \$13.75 are combinations of light natural shade and medium weight. Regular sizes 34 to 50; short, stout sizes 36 to 44; slender men's sizes 34 to 40. Suit, \$13.75.

At \$9.25 are heavy combinations in Scotch knit, of dark cream shade. Sizes 34 to 44. Suit, \$9.25.

At \$10.00 are medium and heavy weight combinations of flat knit, natural shade, with French neck, closed crotch and ribbed cuffs and ankles. Sizes in medium weight, 34 to 50; sizes in heavy weight, 34 to 50—\$10.00.

At \$6.50 are shirts and drawers in light natural shade, with spliced knees and elbows. Sizes in shirts, 34 to 44; in drawers, 32 to 42. Garment, \$6.50.

TO TAKE INTEREST IN CITY CHILDREN

Congress of All Concerned
Will Be Held in College
Street Library.

Something in the nature of an innovation will be inaugurated when a Congress of those interested in working with boys and girls will be launched at the Public Reference Library, College street, sessions to be held afternoon and evening on Monday and Tuesday, Oct. 25 and 26. The opening address will be given by George H. Locke, a number of speakers interested in public movements are on the program. The congress has been planned with a view to bringing together the people who are interested in boys and girls, knowing that the city is full of workers who, strong in the belief that the hope of the future is in the children, are doing devoted work in their behalf. We hope, thru coming together to establish such relations with other organizations and individuals that work with boys and girls will stand out as a vital force in the community. Schools, libraries and all other agencies of social service should present an undivided line of influence in favor of the education of boys and girls for capable and intelligent citizenship. To this end the effecting of cordial relations with all agencies working with boys and girls is of the utmost importance. A broader idea of boys' and girls' work and a greater knowledge of other agencies which work with them results in a spirit of willing co-operation on the part of every agency toward all.

LEVEL BALANCE IN EMPLOYMENT MARKET

A fairly level balance between the demand and the available supply of labor in the Toronto field is maintained at present, according to officers of the Employers' Association of Toronto, while in the expert opinion of officers of that organization, close study of the industrial situation discloses no indications of prospective dislocation of conditions calculated to produce an augmented volume of unemployment during the approaching winter months.

DIES AFTER CYCLE CRASH.
Ottawa, Oct. 21.—Lockjaw, which set in following serious injuries sustained in a motorcycle accident on October 7, resulted in the death of Dominique Villeneuve, of this city, yesterday. In the accident deceased suffered a fractured jaw, broken arm, and a badly cut left leg. He was 27 years old.

PROVINCIAL CONSTABLES ARREST FOUR SUSPECTS

The provincial police have arrested four men in a lumber camp 70 miles north of Sudbury, in connection with an alleged hold-up at Smoky Falls.

According to information furnished the police, a boat-builder was covered with guns by one or two of a party, his house was ransacked and \$200 in bills, which had been placed between pictures, and which were discovered on the pictures being upset, fell into possession of the raiders. Some rifles and ammunition, it is stated, were also taken away.

VICTIM OF ACCIDENT LEAVES LARGE ESTATE

A half interest in the partnership of Green Bros., cabinet-makers, 26 Britain street, Toronto, valued at \$13,500; \$5000 accident insurance, payable to his widow because he was struck by a motor car and died on Sept. 20, and \$5000 life insurance, make up the \$24,158 estate of Arnold Green. He is survived by his widow and three infant children at 20 Lark street.

PASTOR RECEIVES CALL
Rev. Albert Hughes, pastor of High Park Baptist Church, has received an invitation to become pastor of Nassau Church, Winnipeg. He has not yet decided to accept. Mr. Hughes has been pastor of High Park Church for two years, and before that of College Street Baptist Church. He is a graduate of McMaster University.

MAYOR WANTS WRIT AGAINST RAILWAY

Will Ask Board of Control to
Take Action on Percent-
ages Overdue.

When the board of control meets today at 10 o'clock there will be several deputations on hand, including representatives of the school board, who will renew their application for a special appropriation of \$450,000 for an addition to the High School of Commerce and for an east end technical school. There may be a deputation from Eastern avenue to protest against erecting stables on that street, but it is understood the board will take no action as this matter is now before the city council. Aid. Winnett's bylaw to remove the residential restrictions will be up next Monday for a second reading. Mayor Church announced yesterday that he would move at the meeting of the board of control today that instructions be given the city solicitor to have a writ issued against the Toronto Street Railway in order to collect the percentages of earnings which are now due for four months. His worship said he proposed to take no notice of the proceedings launched by the company at Osgoode Hall.

MOTOR CYCLIST INJURED.

Merrol Doyle, 118 Millicent street, who lost control of his motor-bicycle while rounding a curve at the corner of St. Clair avenue and Dufferin street and ran smash into a post, is badly injured in the head. He is at the Western Hospital.

EX-MACHINE GUNNERS WILL HOLD REUNION

At the request of numerous ex-machine gunners of the 1st, 2nd, 3rd, and 4th Battalions and the 1st and 2nd Motor Brigades, it has been decided to hold a reunion in the form of a combined smoker and concert for all those who served overseas. A committee has been formed from representatives of these units, and they have arranged for the function to be held on Friday evening, October 23rd, in Victoria Hall.

Such well-known entertainers as Sergeant Redmond, the famous comedian of the 2nd Machine Gun Battalion, have been secured, and an interesting feature will be moving pictures of war scenes and comedy. Light refreshments and smokes will be provided free.

DUST ON GIN BOTTLE WAS GOOD EVIDENCE

Three years' accumulated dust on a bottle of sloe gin saved a College street woman from conviction in the police court yesterday on a charge of B.O.T.A. She said she had given the bottle as a Christmas present three years ago, and had in turn given it to her maid, who put it in the cupboard and forgot all about it till the provincial inspectors found it last Saturday. "The bottle was pretty dusty," said Mr. Cohen. "We must give her the benefit of the doubt."

COUNCIL MUST CONTROL.

Mayor Church does not think much of the idea advanced by the committee on parks and exhibition that the parks department should be given a number of mills of the tax rate to cover its yearly expenditure instead of submitting estimates to council. Council, says the mayor, must control the expenditure.

BUSINESS ACCOUNTS

The complete banking facilities provided at all our branches enable this Bank to give Business Accounts the care and attention they need and deserve.

The Merchant and the Manufacturer will find the services rendered by this Bank of the greatest assistance in conducting their business.

IMPERIAL BANK OF CANADA

Head Office: TORONTO.

WHISKEY WAS GIVEN AS WEDDING PRESENT

Before Hilda Davis, a Gerrard street Jewess, was married, her name was Hilda Martin. In that name, after her marriage, her brother in New York sent her a wedding present of several cases of liquor from Montreal.

Provincial Inspector Montgomery charged the woman with keeping for sale, and quoted the alleged "fictitious" shipping name as evidence of illegal intent in Magistrate Cohen's court yesterday.

The woman's counsel, R. H. Greer, explained the circumstances of the case and produced the original shipping bills in evidence. The case was dismissed and the liquor given back to the owner.

An Open Letter On the Navy League Campaign To the Citizens of Toronto

From Hon. H. J. Cody, Chairman Toronto Campaign Committee

As Chairman of the Toronto Campaign Committee I venture to address my fellow-citizens on the claims of the Navy League to their support.

Every great cause has been launched by enthusiastic individuals, and has to be maintained by private support until Governments find they can assume responsibility therefor.

Its aims are philanthropic and educational and of vital importance to the national welfare and development.

Many organizations, including the British and Foreign Sailors' Society, which seek the well-being of the sailors are united in the appeal and will participate in the funds now being raised by the Navy League.

The League is asking from Toronto the sum of \$200,000 to provide Toronto's share of the National Navy League budget.

The money will be expended on these objects:

- 1. The provision of a capital fund for the relief of the dependents of Canadian sailors in the Merchant Service who lost their lives on duty during the war. No Governmental pension is provided for them. When this endowment fund is raised the future of these dependents will be secured and no further appeals on this score will be necessary.
2. The maintenance of Sailors' Institutes, Homes and Welfare Societies in Canadian seaboard and inland ports.
3. The continuance of the training of 2,000 Canadian lads in Naval Brigades. Only through this means can trained Canadian seamen be provided for Canada's growing Merchant Marine. In the Empire to-day the training of boys for the Merchant Marine is carried on entirely by voluntary effort. Seventy-three of these lads have completed their training and have passed into the Canadian Merchant Service, and fifty more have gone to join the crews of the ships presented by the Imperial authorities to the Dominion as part of the Royal Canadian Navy.
4. The conducting of an educational campaign throughout Canada by means of lectures and literature for the purpose of developing the sea-consciousness of our people and of fostering the growth of a Canadian Mercantile Marine by which Canadian products may be carried from Canadian ports, economically, along direct trade routes, in Canadian ships, officered and manned by Canadian Sailors.

The Navy League is the only organization in Canada wholly devoted to the furtherance of these important objects. It seeks to represent Canadian public opinion on matters pertaining to the Sailor and the Sea. Its work can be carried on only by generous public support. Will not the citizens of Toronto, as in the past, by liberal contributions pay their nominal interest on the personal debt we all owe to the men of the sea?

H. J. Cody

SEMINARY EN FETE FOR ARCHBISHOP

Children of Diocese Share in the Celebration of Silver Jubilee.

St. Augustine's Seminary was en fete yesterday when in honor of its silver jubilee, Archbishop McNeil was the guest of honor at a banquet tendered to him and the visiting clergy from all over Canada by the faculty and students of the institution. The party included seven archbishops and bishops, a number of monsignori and about one hundred priests. A feature of the occasion was the conferring of the degree of LL.D. upon Archbishop McNeil by St. Francis Xavier University, Antigonish, the ambassadors of the university being Bishop Morrison and Dr. McPherson.

As head of the seminary and host of the occasion Right Rev. Mgr. Kidd congratulated his grace on the attainment of his jubilee and thanked him for the interest he had always shown in the seminary, an interest which had done much to lighten the burdens and responsibilities of others. One by one the students an address was read by Patrick Kennedy and a souvenir of the occasion presented. Benediction was given in the chapel at the close of the occasion. St. Joseph's on-the-Lake was also visited. Here decorations were also in order, the interior presenting a very festive appearance. The institution is in charge of the Sisters of St. Joseph, Children Have Share.

The children of the diocese had their share in honoring the archbishop when they attended mass in the cathedral yesterday morning. Altogether the third and fourth forms were represented, the church was filled to overflowing. His grace celebrated mass and was assisted by Rev. Dr. Morris, vice-president of St. Augustine's Seminary, and Rev. Father Kehoe of the cathedral staff.

The "Ecce Sacerdos" was sung by the boys of St. Mary's choir, and a number of hymns by the congregation of children under the direction of Prof. Donville, who has charge of singing in the schools.

Bro. Rogation read an address on behalf of the pupils, and two little girls, Gladys Newton of St. Cecilia's, and Rita McCartney, presented one a bouquet of flowers and the other a spiritual bouquet. In thanking the children his grace said: "Now I am at home." He thanked the little ones for their prayers which he asked them to continue not only for him, but for others, together with other services. In closing his grace smilingly said: "I will grant you a holiday and flight out with the trustees afterwards."

Representing the Separate School Board were Very Rev. Dean Histed, Trustees D. A. Carey, J. P. McConev, M. Danahah, D. A. Balfour, W. Fitzgerald, Sec. J. G. Hall, Business Administrator, E. F. Henderson and Inspector J. Power.

At seven o'clock yesterday morning his excellency the apostolic delegate celebrated holy mass in the St. Joseph's convent chapel for the students and pupils of the academy. After the mass his excellency spoke a few kindly words and gave to the papal blessing. Before leaving for the train his excellency bade the young ladies "au revoir" in the reception room, where they had assembled to greet him.

OUR NATIONAL MARINE SERVICE Not in Politics—The Handling of Cuban Sugar and Hon. Mr. Ballantyne.

R. C. Vaughan, assistant to the president, was seen by World reporter yesterday at the head offices of the Canadian National Railway system. Mr. Vaughan is directly charged with the administration of the Canadian National Marine, whose vessels are operated by the National Railways. He was asked about the recent speech of William Duff M.P. at Leithbridge, in which Mr. Duff complained that a number of vessels had recently carried cargoes of sugar from Cuba to Montreal to the exclusion of Halifax and St. John, N.B. This was done, Mr. Duff argued, by the direction of Hon. C. C. Ballantyne, minister of marine and fisheries, who had an interest in one of the Montreal refineries and wanted to favor that institution instead of the refineries of the maritime provinces.

"I do not think any of our vessels," said Mr. Vaughan in reply, "have carried any cargoes of sugar this year from Cuba to Montreal, but they have carried them to Halifax at St. John, N.B. A good deal of sugar was consigned by our line from Cuba to Montreal in the summer of 1919, but Mr. Ballantyne had nothing to do with it. As a matter of fact, he has never interfered in the slightest with the merchant marine, which is operated by the National Railways. I never know of his having any stock in a sugar refinery, he never intimates anything of the kind, and he certainly never in any shape or form attempted to use our vessels to build up the Montreal refineries at the expense of those of the maritime provinces."

Asked about the success of the marine, Mr. Vaughan said: "We have all the business we can do, and our vessels are carrying Canadian products to all the principal ports of the world. There are eight vessels this morning at Montreal loading and discharging cargo."

"OPEN YOUR EYES" AT STRAND The government of Ontario has permitted the public exhibition of "Open Your Eyes," although it was withheld from presentation for a short time because of the unusual character of the picture. The picture, which is to be shown at the Strand Theatre next week, has attracted wide attention, and created great enthusiasm among the educators and public officials of every city in which it was shown. It is a vivid page from the book of life, telling by precept and story that "selfishness is not golden—it is criminal."

"The Law of the Yukon," a thrilling romance of the northland, based upon Robt. W. Service's famous poem of the same name, is being shown at the Strand Theatre today and tomorrow.

ELEVEN SINK WITH BOAT. Santander, Spain, Oct. 21.—Eleven persons have been drowned by the sinking of the fishing boat Maruca.

WANT HYDRO RADIAL ROAD FROM PORT DOVER Sir Adam Beck has received the following letter from R. W. Frazer and R. A. Lambe of St. Williams: "We, the undersigned delegates, have approached the following townships, namely, Charlotteville, South Wainingham, Houghton, Bayham, Malahide, Yarmouth, Aylmer, also the villages of Port Rowan and Port Burwell, regarding the Hydro-Electric radial running from Port Dover to Port Rowan, with extension to Port Burwell, thence thru to connect with London and Port Stanley road.

"All the above townships and villages thru the route have appointed delegates, except Yarmouth, to wait upon the Hydro-Electric Commission on any day, to be set by the commission."

OLD-TIME PRINTER ON WALKING TOUR

Life in the Open Air Works Wonders—Once Worked in Toronto.

The World yesterday received a visit from a healthy-looking man, who said his age was 66 years, but he did not look 50. The visitor was Jack Taylor, who is on a walking tour from Kansas, in the middle west, to Walden Pond, near Concord, Mass. He, however, digressed on reaching Buffalo to walk thru Ontario to visit friends of 40 years ago, who are scattered all over the province.

Mr. Taylor's visit to The World brought back recollections of many years ago, as he set the first name line for the paper, and the style he adopted is in force today. Mr. Taylor was born in Hamilton, and served as "printer's devil" on The Hamilton Times, subsequently becoming a compositor on the paper. After spending many years on The Times, in Hamilton, Mr. Taylor came to Toronto and entered business with one Bingham as a job printing firm. The business was subsequently taken over by the Southam Press. On leaving the Queen City, Mr. Taylor proceeded to Chicago, and entered the firm of Rand & McNally. For the last 30 years he has traveled the continent as a commercial man from Maine to California and from Florida to the far north. A few years ago, however, Mr. Taylor was struck down by illness, and the doctors gave him a year to live, pronouncing his case a complication of nerves, stomach trouble and incipient tuberculosis.

While struggling with illness in Texas, a fellow-traveler advised him to try life in the open among the sheep herders for awhile and see what the result would be. Gathering a few pack necessities and a tent, Mr. Taylor made for the open spaces of Texas. He noticed improvement in his physical health in a few weeks, and persisted with the open air treatment. At the present time Mr. Taylor is the picture of good health, and, despite his 66 years, feels all the joyous buoyancy of the 29-year-old.

During the years since his illness, Mr. Taylor has quietly but effectively fought his way back to good health. He lives entirely out of doors, sleeping under the stars for most months in the year. He walks for health, he takes a bicycle with him as a pack horse. On the bike is packed his camp cot, a kitchen, a barber shop and a library.

In a few days' time, Mr. Taylor hopes to resume his journey to Walden. It is needless to say that his many old friends—both as boys and men—in the printing trade at Hamilton and Toronto were pleased to see him looking so well and fit.

WANT HYDRO RADIAL ROAD FROM PORT DOVER

Sir Adam Beck has received the following letter from R. W. Frazer and R. A. Lambe of St. Williams: "We, the undersigned delegates, have approached the following townships, namely, Charlotteville, South Wainingham, Houghton, Bayham, Malahide, Yarmouth, Aylmer, also the villages of Port Rowan and Port Burwell, regarding the Hydro-Electric radial running from Port Dover to Port Rowan, with extension to Port Burwell, thence thru to connect with London and Port Stanley road.

"All the above townships and villages thru the route have appointed delegates, except Yarmouth, to wait upon the Hydro-Electric Commission on any day, to be set by the commission."

FIGHT WILL GO ON, BEN SPENCE SAYS

Regrets British Columbia Result Over Prohibition, But Not Discouraged.

"The fight will still go on," said Rev. Ben Spence, secretary of the Dominion Alliance, yesterday, speaking with reference to the defeat of prohibition in British Columbia, adding: "No single division of an army is capable of winning a big battle. We have lost this engagement, but we are going to win the war; take my word for that."

"Naturally, the verdict is to be regretted," Mr. Spence continued, "although it was not entirely unexpected, and it shows unmistakably the need of continued, continuous and united efforts of temperance workers. We must not remittingly apply ourselves to the creating of such a firm conviction as from being struck down in ill-considered action, or the adoption of specious and fair-seeming positions, as British Columbia has done."

"One former provincial official is now in penitentiary for using his position in conjunction with the big interests for bootleggers and others," remarked Mr. Spence. "The law, never recovered from the damage done, nor shaken off the odium. Some people have to be burned before they will be cured. Evidently quite a number of such people live in British Columbia. South Carolina tried the dispensary; it was a failure. Saskatchewan tried an almost perfect system of government control; it was a failure. Both replaced their laws with prohibition."

INSIST RIVER NOT WELL ADMINISTERED (Continued From Page 1).

was afterwards afforded an opportunity to discuss with Mr. Holgate the engineering features involved, or to elaborate verbally the written arguments presented to Mr. Holgate on October 14. Apparently the information supplied by the department of railways and canals was accepted without reference to data supplied by the commission.

"Mr. Holgate states that storage has been drawn on already in favor of power development. The fact is that the storage waters were never drawn upon in the spring and summer for the use of lumbermen in logging at a time when the water so used was wasted as far as power development was concerned."

Went Immediate Service. The report makes the assertion that the power users, when asked whether they preferred the water now distributed thruout the winter, replied that they preferred the latter. This does not coincide with the situation found by the commission, which was that practically all

FRIDAY MORNING, OCTOBER 22.

The Price of Sugar and the U.F.O.

In reversing the recent order of the board of commerce, which placed a virtual embargo upon the importation of sugar, the government contented itself with saying that the order was one the board had no legal power to make. Even the sugar refiners agreed that the board had gone beyond its powers. The important question, however, remains: Are the people to get cheaper sugar? By the action of the government they are free to buy where they please, but the ordinary householder has no facilities for importing sugar from a foreign country; his frontier is the corner grocery.

The late Sir Wilfrid Laurier was fond of saying that the corner grocer was the poor man's best friend, but the small retail merchant is in little better position to import than the small consumer. Usually his selling price is fixed for him by the wholesaler, and the wholesaler is often involved in a business network of wire entanglements.

A big co-operative concern, like the U.F.O., can cut its way through the brush and make a direct road from the producer to the consumer. The U.F.O. should be able to bring in sugar by the train and if the domestic refiners are unable to meet American competition. The break is bound to come and the sugar refiners may as well face the situation. They have an undoubted advantage in the tariff and lower freight rates, but the World is assured on high authority that sugar can be brought into Canada over the tariff wall and even the anti-dumping clause and be profitably retailed at 16 cents a pound. This is still a high price, but it is five cents under the maximum price fixed by the board of commerce.

Giving the public an "open market" does not always greatly lower the level of prices. The market may be "open" from a legal standpoint, but it may be clogged and virtually closed by combinations among the producers and allied interests. The law of supply and demand is often defeated, not by legal enactment, but by devices for creating an artificial scarcity.

The sugar embargo raised a storm of protest because it was an open effort to raise prices at the very moment when everyone was looking forward to a sharp decline in prices. It was made the more unbearable because prices were being hoisted by a body specially created to bring them down. The embargo has been lifted and we are where we were before it was imposed. Then, as now, there was a general feeling that the price of sugar was too high. Then, as now, there was a general demand for cheaper sugar. The interference of the board of commerce raised a storm of protest, which apparently reached the government and led to its speedy reversal. That incident is closed, and we are back just where we were before it opened. The people are still demanding cheaper sugar; they are entitled to have it, and the dealers may as well face that situation. The U.F.O. have now a great opportunity to bring down the price of sugar. What will they do about it?

The Irrepressible Mr. Harding.

Senator Harding, the Republican candidate for president, is doing his best to defeat himself by loose and contradictory statements respecting the League of Nations. His rear platform speech at Greenacres, Indiana, the other day called forth a scathing rebuke from President Wilson, and the senator's reply has not greatly raised him in public estimation. He certainly gave the impression that a message of some kind had been sent him by the French government to the effect that France would gladly join the United States in the "world fraternity" with which the senator, in a nebulous way, intends to replace the League of Nations. The president demanded to know how and why the French government had gone over his head to negotiate with "a private citizen." To this Mr. Harding in substance replied that he had received no communication from the French government, but had received assurances from French citizens designated by him as the "spokesmen" of France. Meanwhile the French embassy at Washington emphatically denies that it has been carrying on any negotiations except with the president and thru the recognized channels of diplomacy.

The incident has probably caused more amusement than consternation. The public have come to accept verbal inaccuracies from Mr. Harding as something beyond his control. He makes the old-fashioned stump speech which attracted no particular atten-

tion when he was one of many thousand spellbinders, but which suffers under the searchlight that beats upon a presidential candidate. The shorthand reporter is also a curb which did not bother Senator Harding in former days.

What helps out Mr. Harding is that his indecision and contradictoriness on the subject of the league reflects the average mind among his fellow countrymen. The citizen who, after a good dinner on Sunday, talks to the village pastor in the most commonplace way about universal peace and world fraternity, files off the handle after an ill digested lunch on Monday, and declares that American boys must not be used as cannon fodder for Europe at the beck and call of a league in which European nations will predominate. His Sunday and Monday remarks, if taken down in shorthand and printed in parallel columns, would betray a striking resemblance to some of the diverse deliverances of Senator Harding which Democratic papers are now gleefully printing side by side.

However that may be, we doubt if the election will have much to do with the League of Nations. It is scarcely more than ten days away, and indications point now, as they have consistently pointed for many months, to the return of the Republican party to power. Republicans may laugh at their candidate, but they seem bound to elect him. Their column is practically unbroken, while the Democrats are frankly suffering from disaffection among their Irish, German and Italian supporters. Even more serious is the likelihood that a great many of the Democratic women voters may stay at home or vote Republican, on account of prohibition, which is not ostensibly an issue, but is cutting none the less a wide swath in the election. The vote in Maine last September was an eye-opener on this point. The election returns clearly indicated that the newly enfranchised Republican women came out to vote while the newly enfranchised Democratic women remained at home.

CLAIMS U. S. IS READY TO LOAN TO AUSTRALIA

Sydney, N.S.W., Oct. 21.—Premier Storey, head of the Labor government of New South Wales, in a speech in the legislative assembly today, referred to the reported readiness of the United States to lend money to Australia. He said that the government preferred for the present to raise loans locally, but in the event of necessity, would consider the question of raising money in the United States.

Replying to a question on the same subject, Sir Joseph Cook, the commonwealth minister of the treasury, is reported to have said: "I should like to hear something about the terms of these American loans."

GUIDES PREDICTING GREEN CHRISTMAS

Cobalt, Ont., Oct. 21.—The hunting season for moose and deer commences on Monday next, but indications are said to be that the sport will not be up to average this year, on account of the exceptionally fine weather which has prevailed this autumn. One Indian guide, an old-timer, familiar with the bush and its ways, says there will be no snow before Christmas, which will militate against success in the chase. Indications, according to this man, are for the "green yule" which the old Scottish proverb makes for "a fat kirkyard."

Royal Packet Loses Money On Canada-Indies Service

Halifax, N.S., Oct. 21.—That the Royal Mail Steam Packet Line is losing \$15,000 to \$20,000 per trip on its Canada-West Indies services, and if not granted an increase of freight rates to make up the deficit, have to cease the operation of this service, was the statement made today by John Allison, Canadian general manager of the R.M.S.P.L.

Ottawa, Oct. 21.—Confirmation of the report from St. John, N.B., that the Royal Mail Steam Packet Line, which gives a service between Canadian ports and the West Indies, is applying to the government for increased freight rates because it is losing money, was secured from Sir George Foster, minister of trade and commerce today by the Canadian Press. Limited.

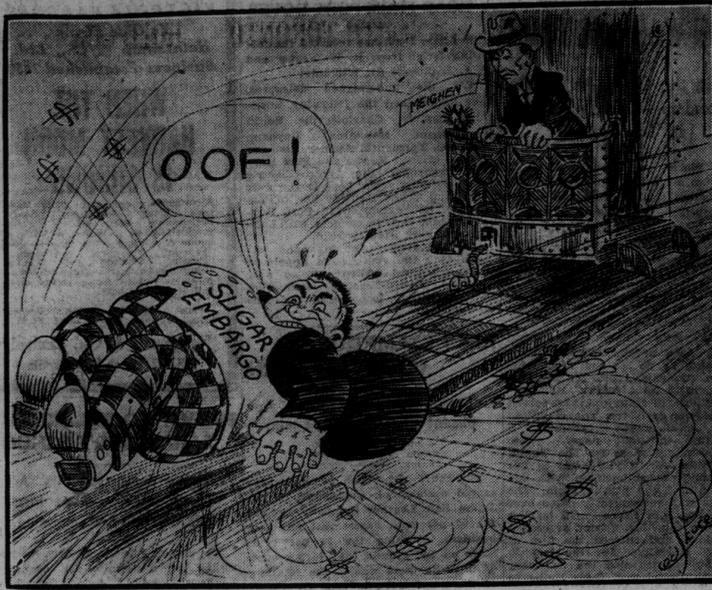

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Lumbago, Stiffness, Rheumatism, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetioic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

ON HIS WAY TO THE WEST

WIN FOR HIGGINS WOULD AID DRURY

Ed. Stephenson Analyzes Mixed Political Situation in Northeast Toronto.

Ed. Stephenson, prominent in war veteran and labor circles, writes The World as follows: "The workingmen and war veterans of Toronto are greatly interested in the candidature of Mr. James Higgins in Northeast Toronto; and behind that interest, in the minds of many of them, is a wonderment that the Labor Party in Toronto has to date not been able to elect any candidate to public office, while in other parts of the province labor has made many notable gains. A critical analysis of some of the reasons may serve to disillusion them as to what will happen on Nov. 8, and I think The World could do much to dissipate what might be called the nebulous unrest in the minds of a host of workers if it opened its columns to a discussion on the question 'Why is it that in this Queen City of the banner province of Canada, no gains have been made in the legitimate political aspirations of workingmen, whilst practically everywhere else through the civilized world political labor has forged ahead?'"

Major MacBride of Brantford is not far astray in his criticisms of the Ontario Labor Party. Like any other party, it must be judged by the company it keeps, also by its deeds rather than its words. In the present instance, Mr. Higgins' candidature represents the coalition in the urban, riding of Northeast Toronto of Messrs. Simpson, Flynn and Drury—in the order named.

Would Help Drury. Intimation has been given in the city press that the Raney government is not concerning itself with this Northeast Toronto by-election, and will not try to put up a candidate. This is typically disingenuous. A Raney, et al. the labor party represents the coalition in the urban, riding of Ontario, and when it names a candidate in any such riding, its nominee must be considered to represent the coalition. If there were any doubt on this point, it is dispelled editorially in the last issue of the Industrial Banner, (edited by James Simpson, just elected president of the Toronto Labor Party, of which body it is the official organ). The Jimmy Banner says: "Mr. Drury's masterly handling of the many difficult problems that have arisen has won for his government the admiration of all fair-minded people. It is now squarely up to the labor-soldier forces to take off their coats and get into the fight in deadly earnest to send James Higgins to strengthen Premier Drury's hands."

Locally and parochially, the extremists among war veterans are pretty well concentrated into one organization—which is we call the Labor party is dominated by pacifists, extremists and "tangential" philosophers, with straight-going trade unionists out-cast. The pet idea in these inco-

gruous groups is that by combination they may attain a measure of power and build up a caucus dictatorship which would put the palmist days in Australia in the shade. As an instance, the manner in which McEneaney of Riverdale was "driven out of public life" (sic) just after his election may be remembered.

Evils of Caucus Government. Caucus government in any form is vicious, and Mayor MacBride is right in dissociating himself from it entirely. What has it gained for the workers of Ontario in the last year? The Labor group of eleven members, if there had been a Tory or Grit government returned, would have promptly presented a comprehensive eight-hour day bill and fought for its passage in the open, to take one example; yet just a year ago they engaged in back-street intrigues and for the sake of playing second fiddle in public office at Queen's Park, they agreed to compromise a number of emphatic Labor principles which they had endorsed for years—and which brought them votes a week before! Within the last year, on innumerable occasions, their hands have been tied and their tongues stilled by the necessity of catering to Mr. Raney's political program.

Peddled Nomination. And now what is the genesis of Mr. Higgins' candidature? When Hon. Dr. Cody announced his retirement from the seat, almost overnight the United Veterans' League rushed toward it. It was stated that a conference was held, attended by twenty-two persons of whom six sought the "nomination." A Major Stoddard was chosen. Meanwhile, in more leisurely fashion the Labor party canvassed the situation, and finding the ice thin, peddled its nomination around among persons who might be able to add to a light Labor vote. Mr. Higgins has secured the nomination, and will, exit Major Stoddard.

Before the war, the local reds used to sing "The cowards laugh and traitors sneer, we'll keep the red flag flying here." When Russia defaulted from the allied fighting line, "workmen and soldiers' councils" sprung up over the country like mushrooms, with what results we know. For some time the local radicals who had to sing small while the war was on, have suggested the delusion that they might achieve somewhat the same results in Toronto, if they could only fan the discontent of a certain element of war veterans and make impossible promises to them.

REPEAT ARGUMENTS AGAINST WATERWAY

St. Lawrence Once More Denounced by New York Commercial Organizations.

New York, Oct. 21.—Opponents of the St. Lawrence waterway project appeared before the international joint commission through the day. These repeated commercial organizations from every borough in Greater New York and also from Philadelphia.

Largely their arguments repeated those made Tuesday, their principal points being that the project was un-sound economically. The traffic would be mostly one-way, and the navigation season short; they said, adding that lake vessels were unqualified for sea voyages and that the marine insurance would be costly because of the hazards of the St. Lawrence River.

The commission closed its hearings late today and departed for Detroit. These arguments were the remainder of the week. They will go to Minneapolis, Chicago, Indianapolis and Cleveland in succession.

Intimations that Canada is anxious to have the United States bear a large share of the expense of constructing the proposed St. Lawrence waterway is resented by the people of the Dominion, today declared Charles M. McGrath, chairman of the Canadian section of the commission.

Mr. McGrath made this statement at a hearing before the commission here, when Emil P. Albrecht, president of the Philadelphia Bourse, speaking in opposition to the plan, declared that "if Canada wants this canal, let her pay for it."

Mr. Albrecht, warning of peril to United States investment in the enterprise in case of war with Great Britain, had added that "instead of having a new Mediterranean, the

THE HOUSE 'ROUND THE CORNER

By GORDON HOLMES

CHAPTER XI. (Continued.)

He had passed in at the gate in full view of a couple of girls of his acquaintance, and knew that they were glancing over a yew hedge when the front door opened and he was admitted. He was shown into a library, where Mr. Dobb awaited him. The lawyer motioned him to a chair.

"Now, Mr. Walker," he said curtly, "would you mind telling me exactly what happened at Elmdale this afternoon?"

Mr. Dobb was clerk to the magistrates in the Nuttonby Petty Sessions; his pet abhorrence was a fidgety witness, and Walker was obviously ill at ease.

"The fact is, sir, I'm a bit saddle-galled. If you don't mind—"

"Certainly. Take that easy chair. What occurred a little earlier which you think I ought to know?"

Walker had been disagreeably reminded of Armathwaite, but he kept a venomous tongue well under control. He told the lawyer the circumstances under which Armathwaite, confessedly a complete stranger, had entered into the tenancy of the Grange, and described the journey to Elmdale, together with the curious behavior of the Jackson family. He was scrupulously accurate in his account of the cause and extent of his visit that day, even going so far as to admit that there was "a sort of scuffle" between Armathwaite and himself.

Mr. Dobb listened in silence. At the end, he fixed a singularly penetrating glance on the narrator.

"In plain English, I suppose," he said, "this man, Armathwaite, bundled you out neck and crop?"

"No, sir. Not exactly that. But I couldn't fight him in Miss Meg's presence."

"Yet, from what you have told me, I gather that Mr. Armathwaite is a

gentleman?"

"He has all the airs of one," said Walker.

"And he must have thought you had behaved discourteously to his cousin before he would use actual violence towards you!"

"Nothing of the sort, sir. Miss Meg jumped down my throat for no reason whatever. Of course, Mr. Armathwaite hadn't heard the beginning of it, and may have imagined I was to blame, but I wasn't."

"Perhaps there is an explanation that may be news to you. You are not aware, I take it, that Mrs. Garth is now Mrs. Ogilvey?"

"By jing!" cried Walker, rather forgetting himself. "That's the name! I have reason to believe that Mrs. Garth and her daughter disagreed with Mr. Garth before his death. At any rate, she seems to have married again within a very short time, and Miss Meg may have fancied that you were trying purposely to insult and annoy her by referring to a bygone tragedy. The mere presence of this Mr. Armathwaite, who is wholly unknown here, lends color to that assumption. He may be a 'cousin' by the second marriage. It is even conceivable that Mrs. Ogilvey, as Mrs. Garth now is, did not wish her second husband's relatives to know of the way in which her first husband met his death. The fact that Mr. Armathwaite rented the Grange can be regarded as nothing more than an ordinary coincidence. Isn't it possible, Mr. Walker, that you blundered very seriously in thrusting yourself into Miss Meg's presence, and forcing an unpalatable revelation on her?"

Walker's red face positively blanched. For one instant his nerve failed him.

"I never thought of that," he muttered in dire confusion.

"It strikes me as a perfectly tenable theory," said Dobb, rising, and thereby showing that the interview was at an end. "You took me rather by surprise when you called me out of my office this afternoon, but I have given the matter some calm reflection in the interim, and have come to the conclusion that you found in Elmdale what is vulgarly known as a mare's nest."

Continued Tomorrow Morning.

To the Rescue!

"Grace Darlings of the Sea"

Sailors instinctively respect women. Their ancient and honorable code is: "Women and children first."

But the sailor's life is a lonely one and perilous. He is out of contact with women the greater part of his time.

On the other hand, the romance of the sea and its perils awakens a certain mother-instinct in women.

And, tomorrow, many women will, in sweet charity and helpfulness, devote themselves to raising funds for the work of the Navy League, by selling tags.

If ever a Tag as a symbol was worth its price, it will be worth it tomorrow.

Get tagged early. Give liberally for it.

The Navy League of Canada

Campaign Headquarters—35 King Street West, Toronto. Adel. 6151.

MACSWINEY TOOK SOME MEAT JUICE

Fact of His Being Fed Confirmed by Irish League and Home Office.

London, Oct. 21.—Official confirmation came from two sources this morning of the reports that Lord Mayor MacSwiney of Cork had been fed during a period of unconsciousness.

The bulletin of the Irish Self-Determination League, dealing with the condition of the lord mayor on the seventh day of his hunger strike in Brixton prison, announced that the prison doctors had forced meat juice into MacSwiney's mouth during a fit of delirium which the prisoner suffered last night.

From the government side, it was stated at the home office that the lord mayor had been fed last night.

In the house of commons today, Edward Shortt, the home secretary, said, in answer to a question that the condition of Lord Mayor MacSwiney was very serious. Until yesterday, added the home secretary, the doctors had given the lord mayor only medicine, but yesterday, during semi-consciousness, they gave him a little liquid food.

Mr. Shortt was asked whether this meant that the doctors were forcibly feeding the lord mayor. He replied that in this case forcible feeding consisted in holding the cup to his lips. The swallowing, he said, was voluntary.

Answering another query, Mr. Shortt said it was not true that evidence had recently come to light, showing that nourishment had been administered on other occasions.

Lord Mayor MacSwiney, added the home secretary, was detained in the prison hospital.

As to whether the lord mayor had been fed before yesterday, Mr. Shortt said he could not speak for MacSwiney's friends. He declared that, in any event, forcible feeding was not illegal, but many times was a duty.

OUTBREAK OF SMALLPOX IS REPORTED IN OTTAWA

Ottawa, Oct. 21.—An outbreak of smallpox, reported to be of a mild type but of extensive proportions, has again occurred in the city. No fewer than twenty-one persons found affected were admitted to Hopewell Hospital on Porter's Island yesterday, bringing the total number of patients there up to 46. The majority of the cases admitted yesterday—14, to be exact—were from Ottawa College. The patients were youths from 16 to 18 years of age. Their cases were all reported to be mild in character.

THOS. BIRKETT, EX-MAYOR, DIES IN CITY OF OTTAWA

Ottawa, Oct. 21.—Thomas Birkett, ex-mayor of Ottawa, and former member of the federal house for the capital city, died today. He was 78 years of age. He sat in the house of commons in the parliament of 1900.

MANITOBA RENEWS FREIGHT RATE FIGHT

Winnipeg, Oct. 21.—Instructions to apply to the Federal Government direct for suspension of the increase in freight rates, were given H. J. Symington, K.C., legal representative of the Manitoba government, by Premier Norris and Hon. T. H. Johnson, attorney-general, today.

QUEBEC LEGISLATURE MEETS IN JANUARY

House Will Make Temperance Act Amendments, Looking to Law Enforcement.

Quebec, Oct. 21.—The no official announcement has been given out by the provincial government in regard to the date of the opening of the sessions of the legislature, it is stated in semi-official circles that the opening will take place on January 4.

A number of important measures are to come before the house, as well as amendments to the Quebec Temperance act, which, however, will make no radical changes in the existing beer and wine system, but will apply rather to effective enforcement of the clauses of the existing law.

TRAIN HELD UP IN BUFFALO YARDS

Brakeman Shot in Leg, But Bandits Got Only Hundred Dollars.

Buffalo, N.Y., Oct. 21.—A hold-up of a New York Central Railroad train, that was being made up in the yards here early today, resulted in the wounding of a trainman and netted the bandits less than \$100. A shot fired by one of the robbers grazed the head of Mary Jane Smith, 13 years old, of Cleveland, who, prompted by curiosity, disobeyed the command of the bandits, that all the passengers remain in their seats or berths.

The hold-up occurred in the switching yards at Clinton and Lord streets, an isolated section. Five men comprised the gang. Two covered the engine crew with revolvers, while the other three entered a Pullman coach that was being attached to the train, firing a volley of shots as they came in the door.

Duncan Marshall Scores British Cattle Embargo

Calgary, Alta., Oct. 21.—The most serious single phase facing agricultural production in Canada today is the embargo placed on Canadian cattle and maintained for more than thirty years by the British board of agriculture. This was the statement made by Hon. Duncan Marshall, provincial minister of agriculture, in an address made here today.

"It is time," said Mr. Marshall, "that we in this country demand of the British government that we shall have a fair and honest deal in connection with the marketing of our cattle."

MANITOBA FARMERS DRY

Winnipeg, Oct. 21.—The United Farmers of Manitoba today issued a statement favoring the prohibition of liquor importation and advocating a "dry" vote in Monday's referendum.

MUST SELL WHEAT IN OPEN MARKET

Wheat Control Not Now Policy of Government, Says Sir G. Foster.

Ottawa, Oct. 21.—(Canadian Press Despatch).—"The Government is carefully watching the various purchasing systems employed and marketing conditions generally in this and other countries and is ready to take steps to ensure the fair marketing of Canadian wheat should a situation such as last year's develop again."

In these words, Sir George Foster, minister of trade and commerce, in a statement issued this afternoon, sums up the attitude of the government towards pleas for resumption of government control on the marketing of wheat. This means that Canadian wheat growers will have to sell in the open market.

Sir George Explains. In his statement, Sir George says: "The demand is made because of the drop in current wheat prices as compared with last year, and with the thought that in some way or other not clearly shown, a wheat board could assure a higher price."

"Mr. Wood, president of the Dominion Council of Agriculture, in answer to the question, 'What reason is there for wheat this year selling at a lower figure than in 1919?' is reported to have said: 'From the standpoint of the law of supply and demand there is absolutely none; the only reason in the world is the inefficiency in the selling of wheat this year. Great Britain and other nations are working together and acting in an intelligent manner to get this wheat at the lowest possible price, whereas Canada and the United States, as selling nations, are taking no intelligent action whatever to get the best possible price.'"

Real Situation. This states the case clearly from the standpoint of those who demand a re-establishment of control. But an examination of the real situation does not bear out the statement above quoted. "The law of supply and demand has in reality everything to do with the basic determination of the world price for wheat. Circumstances of transport by sea or land, financial and exchange conditions, and methods of buying may temporarily affect and vary the price, but the determining factor is the relation of the supply to the demand. The price will vary from time to time by greater or less pressure to buy arising from the supply temporarily on hand or readily available."

Contrast With Last Year. Sir George outlines the conditions last year that led to the control order, and adds: "This sharply differentiates the present from the past year. This year exchanges are working and there is free and independent buying by the nations concerned, in contrast to last year's concerted government buying, closed exchanges and virtual prohibition of individual buying."

Mr. Wood's contention, therefore, that the fact that prices this year are less than those of last year is due only to different methods of selling, will not bear analysis. If the board were to be re-established as last year, the United States market, open and the Canadian market under control, the tendency would be to free purchasing in the American market by other countries and the consequent stopping back of the Canadian wheat movement."

THREE-YEAR TERM FOR P. GIOVINAZZO

Stabbed Kitchener Man—Judge Showed Clemency Because of His Family.

Kitchener, Oct. 21.—(Special).—Pasquale Giovino, the Italian, who stabbed Dominic Tambourine in an altercation here on Sept. 29, was today sentenced to a term of three months and an indeterminate period thereafter of two years less one day after being found guilty in police court by Magistrate Weir. In imposing sentence, Magistrate Weir told the Italian he might be thankful that he was not receiving the death sentence for murder, as the wounds he inflicted on Tambourine had very nearly caused the man's death. He stated that he imposed a light sentence, exercising clemency in behalf of the prisoner's wife and four small children.

WROTE "CANCELLED" ACROSS BIG WILL

Ottawa, Oct. 21.—Application was made before Mr. Justice Latchford today for an order declaring valid the will left by the late Ernest Matthewson. Across the face of the will is written "Cancelled July 22nd, 1910, E. H. Matthewson." The granting of the order was opposed by several members of the family, who urged that the cancellation invalidated the will, and they asked that the court declare that their father died intestate. The cancellation was in the handwriting of the deceased. The estate totals over \$350,000. The judge sought to persuade the parties to agree to a settlement, and in the meantime judgment was reserved.

COUNCIL OF AGRICULTURE WANT QUICK RATE CUT

Winnipeg, Oct. 21.—(By Canadian Press).—Strong objection to the increased freight rates was expressed by members of the Canadian Council of Agriculture this morning at the opening session of its two-day meeting. The council was of the opinion that the railway board should not delay reconsideration of the freight rates case, as ordered by the federal government, any longer than the end of the present month.

SEES DIRE RESULTS IF COAL STRIKE LASTS

Quebec, Que., Oct. 21.—All the theatres in Great Britain will be closed if the coal strike lasts eight weeks. H. V. Esmond, noted British dramatist, stated on landing here from the liner Victoria last night. Mr. Esmond said that the shutting up of the theatres would probably bring about a revolution.

MILLION DOLLAR CO. TO MARKET ASPROLAX THROUGHOUT CANADA

Canadian Druggists Receive Positive Instructions to Refund Money in Every Instance if It Fails to Give Prompt Relief.

EXHAUSTIVE TESTS PROVE EFFICIENCY

Remarkable New Remedy is Combination Treatment, and Acts As An Antipyretic, Expecto- rant, Laxative and Antiseptic.

People who have taken Asprolox, the new treatment for colds, which has been accomplishing such remarkable results, and it difficult to describe the wonderful feeling of relief they experience. According to reports of thousands who have tried it, the new remedy is almost magical in its effect. The very first dose invariably stops the tendency to sneezing and coughing, and the second or third dose usually breaks up the severest cold altogether. The head is unstopped, sneezing and sniffing

ceased at once, difficult respiration is relieved, and a gratifying feeling of relief takes the place of distress and discomfort.

Asprolox is a combination treatment and acts as an antipyretic, which reduces the fever; an expecto- rant, which loosens the phlegm, relieves congestion and stops the cough; a laxative which opens the bowels, and an antiseptic which retards germ- growth and prevents the spread of infection. Asprolox is delightful to take and produces no unpleasant after-effects whatsoever. Even young children take it readily, and it acts on all, both young and old, with the same gratifying results. Mothers will find it the best remedy for their children in all cases of bad colds, coughs, croup, bronchitis and kindred affections.

A million dollar corporation composed of highly-successful, level-headed business men, stands squarely back of every bottle sold.

If you are suffering from a cold, go to your nearest druggist and get a bottle of Asprolox. Open it on the spot—take one teaspoonful, repeat the dose in one hour, and again in two hours. If by the time you have taken the third dose you are not surprised and delighted with the result, take the bottle back to your druggist and your money will be refunded without question.

BREAD AND SUGAR DROP IN BRANTFORD

Double Cut in Cost of Living—Sunday Car Agitation Subsides.

Brantford, Ont., Oct. 21.—(Special).—The lowered cost of living was brought home to Brantfordites today, when the bread delivery men reported a drop of one cent a loaf on bread, which now retails at 12c, and a drop in sugar, five instead of four and a half pounds being given in exchange for a dollar. There is little demand for sugar, every customer getting in only enough to keep going from hand to mouth.

Delegates from one hundred public libraries of this district were present at a library institute in the local library today. This afternoon, with Mayor MacBride presiding, addresses were given by Dr. Barnett, curator of the Barnett collection, Western University, on "The Evolution of the Book," and Miss Hazel G. Tanner, London, on "Books for the Child."

The Women's Missionary Society of the Brantford District Methodist Church held its annual meeting here today.

NO SOAP BETTER FOR YOUR SKIN THAN CUTICURA

There is a possibility of county cases being cut off from the local police court unless the county assumes some share of the costs, Mayor MacBride has re-

RADIAL REVENUES UNDER REVIEW

Engineer Gaby Tells Mr. Hellmuth All About Estimates, Revenue and Bonds.

At the resumption of the hearing before the investigating committee appointed by the Ontario government yesterday Mr. Gaby again entered the witness stand. He was questioned closely by Mr. Hellmuth, government counsel, in regard to the revenue of the Toronto Suburban line. He stated that for the year 1918 the revenue for that road was \$277,418, and that the operating charges were \$224,218, the net return being \$53,200. He stated that the figures did not include interest on the present indebtedness of \$2,625,000 which at 4 1/2 per cent, called for \$118,125. Actually there was a deficit for that year of \$65,000, and for the year 1919 there was a deficit actually of \$40,000.

Mr. Gaby further explained that the estimated earnings for 1921 would approximate \$51,751, made up of \$484,751 from passenger traffic, \$46,000 from freight and the balance would come from the head of "miscellaneous," which comprised sale of power to private individuals. Witness pointed out, as he had said on previous days, that operating expenses depended upon higher wages or otherwise to employes, and to the cost of material.

Advertising to the estimates for 1925, Mr. Hellmuth reminded witness that the earnings from freight were placed at \$76,400, and that this sum exceeded the 1921 estimate by five hundred per cent. Mr. Gaby thought that the estimate was conservative looking to the increase in the company's traffic since 1913. Witness admitted that the estimate was based on the building of the Toronto-St. Catharines line, and further said that the estimates were submitted to the commission as to the whole 325 miles of the hydro lines would produce.

Witness gave it as his opinion that when the bonds matured in 1921 they could be renewed at six per cent, and nothing higher than this figure had been taken into account in preparing the estimates.

In regard to the Niagara Central line, which is at present operated by the Canadian National, witness said that the total cost of the road in 1921 would be \$4,363,820, which comprised \$1,095,000 outstanding bonds, \$2,446,374 new bonds to be issued at 4 1/2 per cent, maturing in fifty years, and \$819,456 cost of alterations and improvements. He estimated the total revenue for 1921 at \$1,026,820, exclusive of earnings of boats which are operated in connection with the road. Witness gave figures in regard to

TWO MORE WOMEN ADMITTED TO BAR

Total of One Hundred and Five Added to Legal Roll of Ontario.

One hundred and three men and two women faced Justice Orde in the Common Pleas Court room at Osgoode Hall yesterday and were enrolled as barristers and solicitors. The one hundred and five roses and bowed as W. D. McPherson, K.C., introduced them one by one to the court. Then the rolls were signed and the new lawyers were ready to practice.

Miss H. A. Kinnear and Miss Laura Denton were the two women called. Miss Denton is the first woman graduate of Victoria College to be called to the bar.

BRITAIN ASKS GEORGIANS FOR A LEASE OF BATUM London, Oct. 21.—A wireless despatch received from Moscow reports that Great Britain has requested the Georgian government to grant a lease of Batum to Great Britain for a long term of years. The despatch adds that the British fleet has left the Baltic Sea, as peace between Poland and Russia removes the need of a naval blockade.

GOVERNMENT VICTORY IN VICTORIA, AUSTRALIA London, Oct. 21.—Messages from Melbourne, Australia, state that the Victoria state elections give Labor slight gains, but resulted in a government victory.

Early city returns from Victoria on the local option poll indicate that the vote will go for a continuance of local option.

The Women's Canadian Historical Society met in their regular monthly meeting at the Sherbourne House Club yesterday afternoon. Miss Mickle, president of the afternoon on summer outings and an account of Niagara in 1873 by Miss Mickle made up the program in the course of her address. Miss Mickle told how, at the period in question, Canadians at Niagara bought and sold slaves and sugar slaves for a pound. Nominations of officers for the coming year were also in order.

A pretty wedding was celebrated in Earlscourt Children's Home, St. Clair Gardens, when Ethel, daughter of a member of the staff, became the wife of Richard Collins. Rev. Peter Bryce officiated. The bride was given away by her sister, May Hill, who acted as bridesmaid, while Miss Betty Hill acted as flower girl. The best man was Harold Stuart Cotton, brother of the groom. Following the ceremony a reception was held at the home of the bride on Erskine avenue.

Receptions. Mrs. J. B. Christie and Mrs. Katharine Christie, 29 Moore Park, will receive from four to six o'clock on Friday next. Mrs. W. L. Christie will receive with them, this being her first reception since her marriage.

Miss M. Helen Brown has returned to her home, 456 Willocke street, after spending two years doing ward occupational work in hospitals among the returned soldiers.

At the opening meeting of the season members of the Rosary Hall Association met yesterday afternoon. The president, Mrs. Marie Macdonnell, was in the chair. Reports were read from the different civic departments were presented to the superintendent of the house. Both the general and lady Willocke served in France, the latter in the hospital.

At the first regular meeting of the Wellesboro Club in the Canadian Academy of Music, Miss Muriel Robertson was presented with a handsome pair of silver candlesticks. The gift was from the club. Mr. Wellesman, president of the club in losing so valued a member.

Parents old boys and friends of the university schools are invited to attend a service in Convocation Hall at 3 o'clock this afternoon in honor of the memory of the U.S. old boys who fell in the war. Two brass bands will be present.

A quiet but pretty wedding took place last night in the Peoples' Gospel Mission, 241 Spadina avenue, when Mrs. Florence Emily Hill, daughter of James Hill, 18 Erskine street, was married to Mr. W. D. McPherson, K.C., who was dressed in white and carried a beautiful bouquet of roses, was given away by her father, and her sister, May Hill, acted as bridesmaid, while Miss Betty Hill acted as flower girl. The best man was Harold Stuart Cotton, brother of the groom. Following the ceremony a reception was held at the home of the bride on Erskine avenue.

CUBES CONCENTRATED BEER A cup of OXO before going into the cold or damp is a splendid safeguard in a cold catching weather.

SOCIAL EVENTS

Items intended for this column should be sent to The World City Editor.

Two prominent visitors to the city hall yesterday were General Sir James Willocke, G.C.M.G., K.C.B., K.C.S.I., D.S.O., LL.D., Grand Legion of Honor, governor of Bermuda, and Lady Willocke. They were welcomed by Mayor Church, and heads of the different civic departments were present from the superintendent of the house. Both the general and lady Willocke served in France, the latter in the hospital.

OIL INN. ALBERTA GREAT DISCOVERY

General C. H. Mitchell Says Province Has Enough Oil to Last for 500 Years.

"Transportation is the life of our country," declared Brig.-General C. H. Mitchell, C.B., speaking at the twenty-second opening meeting of the Insurance Institute of Toronto, held in the board of trade dining-rooms last evening. Altho at present there was no railway construction in Canada, we were on the verge of some great railway developments, declared the general, indicating the electrification of the railways and Hydro radials. The highways of the Dominion, he said, were being put in order for traffic, and this was absolutely necessary owing to the development of motor transport.

In dealing with questions of water transport, the general declared that the problem of Toronto becoming an ocean port was one of the greatest the city had ever had to face, and he thought the building of docks in the Maritime Provinces would bind Canada more closely to the mother country.

Scientific Methods. In dealing with science as applicable to business, General Mitchell said science to life today was an absolute necessity. The part science played in every part of the late war had given it such an advancement that it had become part of the life of today. The reconstruction period of Canada was wrapped up in science, he declared, and if we kept Canada on an even keel, we would win out in the near future by the help of applied science. We must harvest our material and human resources, for the future of Canada was dependent upon them, and in the general's opinion the human element was the most important, as the other resources would be developed by science.

Oil in Alberta. Thanks to science, he said, oil in great quantities had just been discovered in northern Alberta. He was told there was sufficient in sight to supply the world's present consumption, for the next 500 years.

The mining industry in Canada is on the verge of great prosperity, said the general, and the stories told about the quantity of iron in Quebec were almost unbelievable, altho true. The iron and copper in Northern Ontario only required developing to be of tremendous value. Such development, he said, for Canada great prosperity within a very few years.

After referring to the development in the chemical, artificial coal, paper and pulp and four trades since the war, the general said if we can only get a combination of the human and material resources and help them by science, we were assured of a rapid reconstruction, and should be free from the unrest now present in Europe.

In conclusion, the general said now that we could get life insurance without medical examination, he supposed we should soon obtain life insurance without premiums. (Laughter.)

Education Policy. J. B. McKechnie, the president in his inaugural address, said the educational policy of the institute in the past had been a failure, and advocated certain reforms, as the future of the insurance business depended on its educational policy. The business required knowledge and tried men to administer it properly. Looking over many of the office forces in insurance, he was surprised at the ignorance of the workers.

In dealing with the fire liabilities of the insurance offices, the president said that in Canada in 1899 they were \$25 millions of dollars and the premiums received eight millions. In 1919 they were four billions, \$23 millions, and the premiums had risen to 40 millions. Life insurance in 1899 was 50 millions of dollars, in 1919 it was 443 millions. The total funds of insurance companies in Canada in 1899 was 53 millions; in 1919 it had risen to 275 millions.

In conclusion, the president advised the companies to offer facilities to the younger clerks, if they undertook to study and take the institute examinations.

To Protect Diplomats' Baggage From Customs Officers' Search Washington, Oct. 21.—Secretary Colby said today the state department was determined to protect the baggage of diplomatic representatives of foreign nations from search by customs officials. He declared that if necessary the department would invoke the principle of international law, which, he said, was older than the constitution of the United States.

MARITIME PROVINCE MAY SELL LIQUOR New Brunswick Government Considers Establishing Commission Control. Fredericton, N.B., Oct. 21.—A cabinet meeting this morning, the New Brunswick government considered the appointment of a commission to handle liquor supplies in this province. It is understood that, if appointed, the commission will control the wholesale distribution of liquor within the province, replacing the present licensed wholesalers. It is believed that retail distribution for medicinal and sacramental purposes only will be carried on thru licensed retail vendors, as at present, but the retailers will be required to secure all their supplies thru the commission.

BEWARE OF DECEPTION Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test. MAGIC BAKING POWDER contains no alum or egg albumen and is guaranteed to be composed of the ingredients printed on the label—and none other. Made in Canada By Canadians For Canadians

Under and by virtue of the powers contained in a certain mortgage, which will be produced at the time of sale, the following property is offered for sale by public auction at the Auction Rooms of Chas. M. Henderson and Company, 128 King Street East, Toronto, on Saturday, the 30th day of October, 1920, at the hour of 12 o'clock in the forenoon the following property: Premises known as No. 83 Ashdale Avenue, on which is said to be erected a storey and a half frame and stucco house in good condition, comprising four rooms and bath.

IN THE MATTER OF THE ESTATE OF ISA CRAUSTON PIRRETT, Late of the City of Pasadena in the County of Los Angeles, and State of California, Spinster, Deceased.

NOTICE is hereby given, pursuant to Section 56 of the Trustee Act, R.S.O., 1914, Chap. 131, that all creditors and others having claims or demands against the estate of the said Isa Crauston Pirrett, who died on or about the 31st day of March, 1920, in the City of Pasadena in the County of Los Angeles, and State of California, are required, on or before the 30th day of November, 1920, to send by post, prepaid, or deliver to Donald, Massey, White & Foulkes, the solicitors for the administrators, the names and addresses of the persons to whom the will and a copy of the said deceased's claims, a statement of the nature of the security, if any, held by them.

Legal Notices. DISSOLUTION OF PARTNERSHIP. I, Walter Adam McConnell, of the City of Toronto, in the County of York, Broker, hereby give notice that the partnership formerly existing between Frank T. Young and myself under the name of the United Investment Company, was dissolved on the 23rd day of September, 1920, and that I now own all the assets and will receive all moneys due to the firm.

JUGO-SLAVIA TO QUIT KLAGENFURT DISTRICT. Rome, Oct. 21.—Jugo-Slavia has promised to evacuate the plebeian district of Klagenfurt in Carinthia, and, as a result, Premier Giolitti will participate in negotiations for the settlement of the Adriatic question, says the Giornale d'Italia. These negotiations are expected to begin immediately, and Premier Venetich will head the Jugo-Slavian delegation.

REGENT'S PARK. The plan showing exactly where the new electric line will be laid is registered at the Registry Office for the County of York.

It crosses Regent's Park just south of St. Clair Avenue; buyers of lots on this property will be able to get down town quicker than from any lots selling at this price in Toronto.

CATTLE MARKET WAS SLOW ON THE CLOSE

Good Stuff is All Right, But Common Slow. Comparatively light receipts and a steady but slow market were the features of the closing day of the week at the Union Stock and Cattle yards. The whole week has been characterized by pretty slow trading, and some easing off in prices, due rather to the common to medium class of cattle than any drive against the prices.

Chicago Live Stock. Chicago, Oct. 21.—Cattle—Receipts, 11,000; beef steers unevenly higher; bulk 5c to 5c higher; top steers, \$18.10; top yearlings, \$15.50 to \$16.50; fat calves, \$13.50 to \$14.50; grassy cattle steady to stronger; bulk, \$5.25 to \$14.75; butchers opened stronger, closing heavily steady; sales range from \$5 to \$10.75; canners and low-grade stock weak to 25c lower; heifers, \$5 to \$10; calves, \$10 to \$15; sheep, \$10 to \$15; hogs, \$10 to \$15.

Ultimatum to Armenia Sent by Soviet Russia. Paris, Oct. 21.—The Russian soviet government has issued an ultimatum to Armenia, according to advices received today by the French foreign office from Armenia, demanding permission for the immediate transport of Bolshevik troops thru Armenia in order to effect a junction with the Turkish Nationalists in Asia Minor, and Armenia has rejected the ultimatum.

British Actress Claims That She Was Poisoned. London, Oct. 21.—Peggy O'Neil, the actress, who, about a month ago, was taken suddenly ill during the performance of a play at the Savoy Theatre, has just returned to her place in the cast, and declares her illness was due to an attempt to poison her.

Bombs and Explosives Discovered in Milan. Milan, Italy, Oct. 21.—A bag containing bombs, two tubes of explosive and several pounds of material for shrapnel was found today near a bench in a public garden near the Hotel Cavour, where bombs recently were exploded which killed several delegates to the congress of the League of Nations societies were stopping in the hotel.

Winnipeg Cattle Receipts. Winnipeg, Oct. 21.—For refusing to comply with the school laws of Manitoba more than 100 heads of Mennonite families will be prosecuted, according to the announcement of the department of education officials today. While considerable improvement is shown in many districts, it is alleged there are still scores of families violating the school attendance laws.

Women Now Eligible for Montreal Mayoralty. Montreal, Oct. 21.—At the meeting of the charter commission yesterday afternoon the proposed city charter was adopted, making it possible for a woman, possessed of qualifications similar to those required in the case of a male candidate, to be elected a city councillor or even mayor of Montreal.

CHARGE ARMOUR CO. WITH PROFITEERING

Indictment by Federal Grand Jury Contains 137 Counts. New York, Oct. 21.—The federal grand jury today, as a result of a secret investigation conducted by an assistant of the attorney-general's office, returned an indictment against Armour and Company, Chicago packers, and against the officers of the company, individually charging them with profiteering in violation of the Lever act.

The company officers indicted included: Ogden Armour, president; S. Elson White, vice-president; Herbert A. Phillips, manager of the dressed sheep department in Chicago; Arthur Van Eet, district superintendent in New York; indictments also were returned against Charles A. Neyer, an assistant in the office of vice-president White, and William A. Netchel, another employe in this city. The indictment contains 137 counts, each of which describes a sale of New Zealand lambs at an alleged unfair and unreasonable price during April, May and June, the meat it is charged, cost Armour and Company \$13.48 per hundred pounds; that the lowest it was sold for was \$12 and the highest \$35.

The investigation on which the indictment was based covered eight weeks during which particular attention was given to the sale of the highest \$35. The investigation on which the indictment was based covered eight weeks during which particular attention was given to the sale of the highest \$35. EFFECT OF STRIKE IS FAR-REACHING

Stability of Europe Depends Upon Outcome, Says Empire Club Speaker.

The extraordinary complexity of the political and economic situation in Europe and the importance of a stabilization of the same by Great Britain were clearly and forcibly described by Captain James A. Roy, at the Empire Club luncheon yesterday.

Capt. Roy, who is assistant professor of English at Queen's, was educated in Edinburgh and Giessen, Germany, and upon the outbreak of war he was transferred to the intelligence branch, where, with his knowledge of the German people and language, he proved invaluable.

The political unrest in Europe, said Capt. Roy, was due to the endless bickering over the frontier limitations of the smaller states, and there was a very active divergence of opinion of the policies of Great Britain and France with regard to the rehabilitation of Europe.

Racial hatred, communism and Bolshevism, said Capt. Roy, were rapidly placing Europe in a state where the questions of frontiers, etc., arising in a vicious circle, growing larger and larger until the problems were international and practically insoluble.

The program arranged for the musical treat tonight by Miss Lenora Sparkes, soprano of the Metropolitan Opera Co., and the famous London (Eng.) String Quartet is an exceptionally interesting one and will prove to be one of the finest that will be given in Toronto this season.

"Accidental death" was the verdict brought in last night by Dr. Buttis-Jurich in the case of Gavril Stavayonitch, who died in his room at 384 East Queen street on Oct. 8.

MEN YOU HEAR OF Seen as Their Friends Know Them

Mr. Acton Burrows, managing director of Acton Burrows Ltd., publishers.

TORONTO DESIRES SHARE OF AUTO LICENSE FEES

City Council Will Seek Legislation at Forthcoming Session—Money Returned to Be Expended on Highways—Ask House Again for Power to Establish Fair Rents Court—Legislative Program.

Acting on the suggestion of the British Imperial Association of Canada, the committee of the city council on legislation yesterday declared to ask the province to return to Toronto fifty per cent. of the fees collected in Toronto for auto licenses.

On motion of Mayor Church the committee resolved to again ask the legislature to pass the bill presented at last session giving the city power to establish a fair rents court.

Both Aldermen Birdsall and Blackburn expressed the view that the legislation against landlords and high rents was stopping the building and sale of houses.

Ald. Baker put up a stiff fight to have his motion adopted calling for the imposition of a heavy fee on the professional baseball clubs that play in the city.

At the afternoon session of the Canadian Advertisers' Association held at the Prince George yesterday, dresses of four minutes were given on "What is the most effective thing done in your advertising and selling this year?"

Mr. Elvins gave a report of the direct by mail committee, enlarging upon the value of that branch of distribution. Mr. Beecher, in his address on "Merchandizing of Gillettes in Canada," spoke of the manner in which their advertising had been strengthened by the present system.

"Psychology of Color," by Mr. Sampson, of Color Craft, Toronto, and "Arrangement and Design," by Mr. Robinson, art director of Rous and Mann, Toronto, were other lectures delivered under "The Dress of the Package."

LIBERAL CANDIDATE STARTS CAMPAIGN

Major Kippen to Speak on Tuesday in East End.

Major Kippen, the Liberal candidate in Northeast Toronto, will hold his first public meeting in the New hall, corner of Danforth and Carlaw, at 8 o'clock on Tuesday evening.

TORONTO DESIRES SHARE OF AUTO LICENSE FEES WITH THE VETERANS FIND SOLUTION FOR COAL PROBLEM

City Council Will Seek Legislation at Forthcoming Session—Money Returned to Be Expended on Highways—Ask House Again for Power to Establish Fair Rents Court—Legislative Program.

On Mayor Church's motion to apply for legislation transferring inquests from coroners to magistrates, His idea was that the position of chief coroner should be abolished and that the old system should be reverted to, which gave the first coroner notified power to take charge of the case.

The motion was allowed to stand until the next meeting, and in the meantime information on procedure in other cities in the States will be gathered.

Solicitor Johnston and Architect Price will report on a motion to seek legislation giving the city power to inspect the condition of steam and water heating systems.

While on the subject, his worship expressed the opinion that there were too many holidays in the schools.

An active winter's growth of the G. W. V. A. is prophesied by Provincial Secretary Turley. Mr. Turley stated that in the past year the association's 120 branches in the province had at least 15 applications from towns desiring charters.

EXAMINATIONS IN MUSIC UNCHANGED

Not Affected by Conservatory Amalgamating With Toronto University.

Although the Toronto Conservatory of Music has amalgamated with the University of Toronto, the examinations in music in both institutions will, for the current academic year, be conducted exactly as heretofore.

TENDS TO DEplete MILITARY FORCES

Occupation of Hospital by D. S. C. R. May Result in Reduction of Toronto Strength.

That the occupation of the former Dominion Orthopedic Hospital by the D.S.C.R. will seriously embarrass the militia authorities who had been practically promised this building at the expiration of its usefulness as a hospital, was the statement made yesterday by Colonel R. Brooke, D.S.C.R.

SOME UNCERTAINTIES ABOUT SUGAR'S FUTURE

Anti-Dumping Act May Possibly Be Enforced, and in Some Quarters a Rebound in Sugar Prices in U. S. Markets is Anticipated.

The possible enforcement of the anti-dumping act and a possible recovery of the American market were mentioned in The World yesterday as factors which, in spite of the government's action in rescinding the board of commerce order, fraught the local sugar situation with uncertainties.

Officials of the local customs department quoted the following sections of the customs act as specifying the value of a commodity which must be declared in order that it may evade the anti-dumping provisions:

The provisions of the anti-dumping act take no cognizance of a price difference unless it is in excess of five per cent. Any greater difference is collected as a dumping duty up to a maximum of 15 per cent. of the price declared by the government to be the fair market value.

Various local brokers are of the opinion that the sugar market in the United States is due for a rebound, and that the Canadian refiners may yet escape the drastic reductions which are anticipated.

STIRRING APPEAL FOR NAVY LEAGUE

Concentrating Interest on Canadian Mercantile Marine, Declares Col. Williams.

Lieut.-Col. Cecil G. Williams delivered a stirring address at the luncheon in the King Edward Hotel yesterday before the leaders in the campaign of the Navy League of Canada.

Col. Williams told some tales of heroism on the part of the dependents of merchant sailors who fell in the great war.

ADVERTISING MEN DISCUSS PROBLEMS

High Standard of Display Necessary in Canada—Officers for Year Elected.

At the afternoon session of the Canadian Advertisers' Association held at the Prince George yesterday, dresses of four minutes were given on "What is the most effective thing done in your advertising and selling this year?"

RETURN OPEN VERDICT ON UNKNOWN WOMAN

An open verdict was returned last night by Dr. Pickering's jury at the inquest held on the body of an unknown woman about 25 years of age, who was found dead on the Grand Trunk tracks, 100 yards west of Woodbine avenue, on the morning of Oct. 9.

There were no marks on the woman's clothing or her rings by which she could be identified, nor was there any evidence of criminal assault. It was thought that she might have been Mary Penicott, but, as stated in The World on Oct. 18, Miss Penicott is living in Hamilton. Detective Whitehead received word yesterday morning that she is at 274 Wentworth street.

FOOT CAUGHT IN BELTING.

Finnilly Quackebusch, 72 Denison avenue, 16 years of age, machinist at the Willard Co. chocolate works, Dupont street, was in the act of putting some finishing touches to machinery at the works just prior to closing yesterday evening, when he caught his right foot in the belting. The foot was painfully but not seriously injured, and the young man was taken to the Western Hospital. It will not be necessary to amputate.

IMPORTING CHARGES.

The provisions of the anti-dumping act take no cognizance of a price difference unless it is in excess of five per cent. Any greater difference is collected as a dumping duty up to a maximum of 15 per cent. of the price declared by the government to be the fair market value.
