CANADIANS ARE EQUAL OF ANY

Dominion Soldiers Win Praise of English Paper WARM WELCOME FOR QUEEN'S OWN

General Mackenzie a Visitor to Camp at Aldershot-Maritime Girl Weds Drury Lane Official—New Zealand Steamer Line Service May Include Canada

Times' Special Cable London, Aug. 29.—The Queen's Own Rifles are now in camp at Aldershot. The Express says the visit of Canada's crack regiment is an event of real imperial significance. It assures the Queen's Own the warmest welcome.

The Standard regards the event as a further step towards that federation for purpose of defence whereon the future security of the empire must depend. It says that the Canadians are born soldiers, that Paardeberg proved they required only some additional training to become the equal of any soldiers in the world.

A drummed service was held on Sunday morning in the camp. Several hundred visitors were present. General Colin Mackenzie later talked with Col. Pellatt regarding the training of the regiment for the coming week. Beyond a few route marches and battalion drill nothing is yet settled on.

The men are delighted with the cordiality of their reception and quite pleased with the arrangement of the camp. The only hitch occurred in Liverpool where the customs officers examined all the baggage, causing a delay. Considerable duty was demanded on some stores.

At St. John's, the arrival of the Dominion Train was met by a large number of people. The train was met by a large number of people.

Marriage Montreal Girl James Glover, musical director of Drury Lane theatre was married in Westminster cathedral on Saturday to Kathleen Collins, of Montreal.

Surrey best cricket on Saturday by an innings and 118 runs. Middlesex beat Hants on innings and 44. The Lancashire and North Hants match was drawn. Nottingham beat Gloucester by three wickets.

John Rogers and Co's Liverpool cable Saturday states that recent prices by wire were well maintained in Birkenhead and in fact a slight improvement was shown. There was a good undertone in the business and everything changed hands at the following prices—Canadian cattle from 13-14 to 14 cents; ranch cattle from 11-12 to 12-14 cents a pound.

The board of agriculture's order in connection with the outbreak of cattle disease in Yorkshire has been revoked. The Church of England bicentenary in Halifax is the subject of two articles by Rev. C. W. Vernon in the "Guardian," and the "Treasury."

In the course of another interview, Sir James Whitney says: "I hope I am wrong in expressing a fear that there are people in Britain whose first object is to maintain free trade and not the empire."

New Steamer Service Wellington, N. Z., Aug. 29.—Arrangements have been concluded with the Union Steamship Company for a subsidised mail service to San Francisco via Paapeste. The government desire to obtain a Vancouver service and Canada has been asked to send tenders. If a Vancouver service is established the San Francisco contract, if satisfactory, will probably be extended with Wellington as the terminal port here.

Glasgow, Aug. 29.—Edward Watson & Ritchie report 720 cattle on offer. Prices are as follows: Prime steers, 14 cents; current, 13 to 13 1/2; secondary and ranchers, 12 1/2 to 13 cents; bulls 13 to 13 1/2 cents a pound.

Ten Eyck, Jr., who has been coaching the rowing club this summer, won a mile professional swimming race here on Saturday at the Britannia club meet from William Donovan of Boston, professional champion of New England.

Ten Eyck took the lead at the start and held it throughout, winning by thirty feet with plenty of reserve. The time was fast, being 27 minutes and fifty seconds.

THE WEATHER Light to moderate winds, fine to day and on Tuesday, not much change in temperature.

FIRST PICTURE OF THE RUINS OF BRUSSELS WORLD'S EXHIBITION AFTER THE CONFLAGERATION

BACK FROM THE DEAD

Chicago, Aug. 29.—There is joy in the home of George Jagemann, where gloom reigned a few hours ago, for Miss Lena Jagemann, the daughter who had been mourned as one of the victims of the Grand Trunk wreck, near Detroit, Mich., is on her way to Chicago to assure her parents that she is alive.

So impossible did it seem that the young woman was still alive after her father had gone to Detroit and identified the body of one of the dead as that of his daughter, that the first telegram from Toronto, in which Miss Jagemann said she had escaped injury did not reassure the parents, and yesterday two more messages came from her in reply to the anxious inquiries and the last one announced that she would follow immediately thereafter.

After three long months spent in the wilderness of the northern woods of this province and of a seasonally settled portion of Quebec, Harry Lynch, an engineering student at the U. N. B., returned on Saturday to his home in Paradise Row. Mr. Lynch has been a member of a survey party sent out by the St. John River Commission, and during the three months which he passed away from the bounds of civilization, he had experienced a wild and unsteady life.

The country in which the party to which he was attached, passed through a very few days ago. Their trip was over little used trails in the forest, and along streams, where the only living creatures to be seen were birds or wild animals. They met but few people while travelling through the woods, but Mr. Lynch relates the joy of one unique human being who received them with overwhelming gladness in his little rustic abode miles from human habitation. He was evidently a forest ranger, who had been in the woods for some time, and he apparently had inclinations towards a sporting life, for his first greeting was: "Say, fellows, how did that fight come off?" After a little questioning, the survey party came to understand that the "fight" was the Johnson-Jeffries encounter, and the forest ranger was greatly chagrined to learn the result.

The survey party met a party of five men, who, on seeing their approach, became filled with joy at the sight of human beings, and they also inquired eagerly how they would leave the party at Winnipeg on the return journey, and proceed to Passaic. Here he will review the plans for the construction of the bridge over the Saskatchewan river, the contract for which was awarded to Mackenzie & Mann, and proceed on a trip of inspection over a portion of the proposed road for the project Hudson Bay railway. The minister further purpose visiting Hudson Bay next year, with the purpose of deciding further on harbor arrangements either at Nelson or Churchill.

The government proposes to push the construction of the railway, having received indications that in addition to the possibilities for the fishing industry there are evidences of a deposit of coal and copper which would justify exploitation. The reports will be fully investigated.

Sir Wilfrid Laurier will meet on Sunday and Monday morning will meet an international delegation from Portland and Spokane, the chambers of commerce and boards of trade of East and West Kootenay, urging the opening up of the Columbia river to navigation between West Robson and the international boundary. The premier will also address a gathering of school children on the water front barge at Nelson, and speak at a night mass meeting Sunday.

Inspector Dew, being called, gave an account of the arrest on the S.S. Montrose. On Crippen was found a card on which he had written: "I cannot stand the horror I go through every night any longer, and as I see nothing to-night ahead and money has come to an end I have made up my mind to jump overboard to-night. I know I have spoiled your life, but I (there were two I's) hope some day you can learn to forgive me."

Both were abashed by the willful murder of Belle Elmore, and LeNeve was further charged with well-knowing that Crippen had committed the murder, and did not intend to maintain Crippen's name as an accessory after the fact. At the present time it pointed as far as LeNeve was concerned, to the charges. Without saying as to the present time that there was some evidence against Le Neve of being concerned in the willful murder of Crippen's wife, the evidence rather pointed to her having been an accessory after the fact.

All that Mr. Humphreys proposed to hear today was formal evidence of the arrest. Then he would ask for a remand of eight days.

Harry Lynch, Home After Survey Trip in Woods, Met Ranger Who Had Not Heard Result of the Battle—Far From Hum of Life in City

CRIPPEN'S PLAN TO END HIS LIFE

WELCOME TO LAURIER AT NELSON Decorations and Illuminations in British Columbia Town in His Honor MIDNIGHT SPEECH

Sir Wilfrid Addresses a Cheering Crowd From His Carriage—Intentional Delegation to Interview Him Today—Will Speak at Two Assemblages

Nelson, B. C., Aug. 27.—Nelson received Sir Wilfrid Laurier tonight with enthusiastic acclaim. The church bells rang, bands played, whistles shrieked, torches flared, rockets shot heavenward, and the streets were canopied with electric illuminations, while the business houses and residences were hung with colored Chinese lanterns.

A procession formed through the town and, addressing the cheering crowd from his carriage at midnight, the premier expressed his appreciation of the magnificent reception accorded.

The premier and party spent the day on the Canadian Pacific steamer on the voyage from Arrowhead to West Robson, through the Kootenay Lake district. Sir Wilfrid, speaking from the bridge briefly to gatherings at Hakeon Springs, Arrowhead and Arrow Park landings, the atmosphere was impregnated with dense smoke from the big bush fires in Washington state. It was impossible a portion of the time to see the distance of the deck through Lower Arrow Lake the vessel was guided by two searchlights installed as her guide.

"I am willing to receive the goods of our good American friends under equitable conditions," said the premier, speaking from the boat at Nakusp, "but I object to their supplying our mountains and lakes with this suffocating smoke."

Hon. A. W. Graham, minister of railways, will leave the party at Winnipeg on the return journey, and proceed to Passaic. Here he will review the plans for the construction of the bridge over the Saskatchewan river, the contract for which was awarded to Mackenzie & Mann, and proceed on a trip of inspection over a portion of the proposed road for the project Hudson Bay railway.

Sackville, N. B., Aug. 28.—H. H. Hamilton, son of Rev. C. W. Hamilton, of Hamilton, has been appointed secretary of the Y. M. C. A. in St. Catharines, Ont., and will take up his new duties early in September. For some time Mr. Hamilton has been spending a few days in town.

J. Hale Strong, formerly of the Bank of Nova Scotia here, but now of Toronto, has been spending a few days in town.

William H. Coleman, M. A., who was a few years ago secretary of the staff of Mount Allison University, recently won some more athletic honors in Buffalo, where he competed in the Y. M. C. A. meet. He got away with first place in the running broad jump, going a distance of 22 feet 8 1/2 inches. He had to compete against several men to whom generous handicap allowances had been given, one having no less than twenty-four inches, but Mr. Doe succeeded in defeating them all. Mr. Doe, who is employed by the Thomas Motor Company, is certainly having plenty of athletic exercise these days. He is playing football with the Argyle, running under the colors of the Nomads, and playing cricket with the Buffalo Cricket Club.

Writing to a Sackville man on Victoria, B. C., where the Methodist general conference is in session, James M. Palmer, principal of Mount Allison Academy, says: "There is a very large number of delegates in attendance. The weather has been very fine, but I have seen nothing to make me despondent with the east. Certainly no Sackville farmers should make any change of domicile."

Gilman, of Oakland, professor of surgery in the Philippine Medical School and surgeon in chief of the Philippine General Hospital at Manila, believes he has discovered a vaccine which will stop the ravages of the dread disease.

In perfecting this vaccine Dr. Gilman was assisted by Dr. A. F. Coca, pathologist in the Bureau of Science at Manila. Vaccine has never been resorted to before, surgery and electricity being the only known methods of curing the disease.

Dr. Gilman was born in Oakland and was graduated from the Oakland public schools. He received a degree from Lehigh Stanford University in 1901 and finished a three years' course at Johns Hopkins in 1905. GOOD SCHOOL SHOES
Beware of trash!
Many stores are crying school shoes at prices wonderfully small. What of it, if the shoes are poor—course leather, spongy soles, carelessly made? Economy doesn't lie along that route.
Pay as much as you can for school shoes; get Goodyear welt, if possible. It is stronger, easier, holds its shape better and is cheaper, though it costs more.
STRONGER, because only the best leather can stand the terrific pounding of the machine.
EASIER, because the welt gives flexibility, and because the stitches are side-ways, not up and down; no hard ridge inside and no tacks in the shoe.
CHEAPER, because it wears longer and can be repaired better—the new sole can be sewed on—in others it must be pegged or nailed on.
Goodyear Welt Shoes for Boys and Girls, \$1.50, \$2.00 and \$2.50, all sizes.
Other good School Shoes at \$1.50 and \$1.75.

From all up the Lakes word comes of the inconvenience which has already been felt by steamers and even far down the St. Lawrence, and out on the Gulf the haze has made itself apparent.

The sky over the New England states has been obscured by smoke, dirt particles and moisture, the combination being so dark that it had the appearance of storm clouds, and the sun appearing like a copper ball.

THE NEW "HOBBLE" SKIRT IN ONE OF ITS VARIATIONS

Notwithstanding the protests of most of womankind, the hobbled skirt has really been established in fashion and these skirts more or less conservatively modified, will be much worn this autumn. The costume pictured shows a bridge frock to match.

When men, men and will say to the contrary, which there is a hip length coat built of the light wool fabric which forms the deep hem of the skirt. The upper part of the frock is made of soft foulard in the color of the well material stitched bands, and will lay without number, and from all parts of the world.

The Evening Chit-Chat BY RUTH CAMERON

I NEVER knew but one girl I liked to take on a real long walk, loftily announced the boy who takes all-day rambles. "The rest of them expect you to be paying them compliments and jolting them all the time. If you don't talk, they think you're cross, and act hurt. Now when I go with this girl sometimes we walk two or three miles without saying a single word."

About 2,500 people saw one of the best baseball games in years, at the Every Day Club grounds on Saturday, when the Clippers won from the St. John's 2 to 1 in the teams' series for the league championship series. Both sides had an imported battery and plenty of imported players which added interest to the struggle which has become so keen. Ferguson and McCarthy of the Boston Nationals, while Peaseley of the Woodstock team, and Wilson, were doing the honors for the St. John's. Two Montreal players, Gallagher and Trites also played for the St. John's.

It is announced that boys will not be admitted free at future base ball games on the Every Day Club grounds. To avoid such trouble only those who pay will be admitted. This will make the games all the more interesting for the grown-up people who have been annoyed by their conduct.

PRETTY LITTLE SIR WILFRID IN TOWN

The childless premier has scores of little boys and little girls in Canada. Those that pity Sir Wilfrid Laurier because only two girls comprise his family should travel across the continent with him before they pronounce their condolence, for one would almost think him a very Croesus in children the way they flock to him at every stopping place. So writes B. B. Cook, who is touring with the premier representing the Toronto Star.

He is a man of reserve, and an easy dignity is the first characteristic of his carriage. In parliament when he stands to address it the whole house listens intently to his quiet voice, or when he walks through the corridors men instinctively draw to him respect as he passes. When men visit him in the office of the president of the privy council they rehearse their words so as to save time and obtain his favorable hearing. On the political platform he stands at once as a servant, yet as a commander of the people, smiling, quiet, voice, commander and adviser, of their motions and sympathies. Men and women who do not know him are shy before him. They are apt to blush from sheer awe for the power of the hand that draws theirs after the political meeting in the town hall, perhaps, with so much real warmth. To all the world he is a real man, a premier and a diplomat, but to the children in the cities or the villages, clean or soiled with the industry in mud pies, he is the democrat of democrats. They recognize him by instinct.

They say that in his home there is a part of the house set aside for the romping of little people who come in to visit him and Lady Laurier, their books, their blocks, or their games. They may romp, or pore over their books. Sometimes a baby may come to his knee with a puzzle to ask his advice, the advice of

AMUSEMENTS FOR OURSELVES AND OTHERS

THE LYRIC.

The management consider this week's vaudeville programmes at the Lyric to be a close on Saturday was the best yet held in Canada. The plan of the meet, the governor general's gold medal, and the 82nd group with it, was won by Corp. Roberts of Toronto. Captain Forbes of Chatham will be the only marriage province man on the Biscay team next year. A feature of the meet was the gold shooting of the cadets.

The first twenty who constitute the team are:

Col. Sergt. Freshour, 13th, 337; Sgt. Armstrong, 13th, 377; Pte. W. G. Clifford, 10th R. G., 386; Lieut. F. H. Morrison, 10th R. G., 335; Maj. W. L. Ross, 11th Dragoons; Lieut. A. J. Meiklejohn, 43rd, 334 Pte. A. C. Carmichael, 10th, 335; Sgt. Inst. Bally, 11th B. D., 331; Pte. F. Bibbie, 7th, 331; Sgt. H. W. Patterson, 43rd, 332; Lieut. Smith, No. 5 C. A., 6, 332; Sgt. McNeill, G. O. F. G., 332; Maj. McLaren, 1st, 332; I. Corp. Trainer, R. C. R., 331; Sgt. A. Martin, 10th, 331; Lieut. W. Morrison, 18th M. R., 331; Lieut. C. Milne, 6th C. O. R., 330; Sgt. O. R. Moscrop, 6th C. O. R., 330.

The two highest waiting men are Sgt. F. Guthrie, 43rd, 350; Capt. W. E. Forbes, 72d, 340. Captain Killam, 72d, was 34th, with 340.

In the extra series aggregate, Lieutenants Smith and Wadsworth, was one of the winners. In the revolver match Captain Forbes, Chatham, was sixth, winning 85.

Most of the New Brunswick men are home after the D. R. A. meet in Ottawa. In all they captured \$800 in prize money. Sergt. Sullivan says that one has to be a crack shot before he can get a good score.

Prince Edward Island this year carried off the honors in heavy artillery. The Eighth battery of the Fourth Charlottetown Artillery took first in the grand aggregate with 624 and the Ninth Battery of the same place came second. The Fourth Battery of the 3rd New Brunswick Brigade was fifth, with 533 points.

BISLEY TEAM FOR NEXT YEAR NOTES OF THE D. R. A. SHOOT

THE ENIGMA.

Each succeeding programme at the Lyric these days seems to be better than the last, and the one for today, it is promised, will be no exception to this. Among the numbers billed is "The Heart of a Lioness," a Lobin Indian tale containing many dramatic incidents which will add zest to the film, but skirt little influence the main theme, the Love of the Indian girl for her teacher. Told amid natural bits of charming scenery, this film will be found to be an excellent one. A visit to the London Zoo is an especially interesting subject, showing many features to be found there. Three real live comedians, "Betty's Peas," "A Good Time," and "The Kidding House" will offer many opportunities for laughter, some of the complications being uproariously funny. In all they captured \$800 in prize money. Sergt. Sullivan says that one has to be a crack shot before he can get a good score.

THE ATHLETIC WORLD

The August number of the "Athletic World" a new title for "Out Door Canada," has just been received. It contains numerous articles, treatises and illustrations of the various sports that are today occupying the Canadian mind.

The first article, "The C. W. A. Canadian Wheelman's Association," by Frank Hyde, gives a full and detailed account of the invention and use of the bicycle, with interesting and valuable information concerning the physical, social and extensive history of the C. W. A., as well as a number of illustrations of the various clubs organized throughout the Dominion. "British Columbia Track Athletes," by John P. Sweeney, is also very interesting and gives a brief account of the western runners, also the pictures and names of some who have won honors. Others such as "The Wane of Athletics," "Earl Grey's Path in Canada," "Is there too much sport," etc., etc., are good and interesting articles, that should be widely read.

One noticeable characteristic about this publication is that since it went into the hands of W. J. Taylor, Limited, Woodstock, Ontario, each issue has shown a marked improvement over its predecessor.

Besides the change of title, the size is increased and no doubt The Athletic World hereafter will hold a position second to none among the Canadian sporting publications. An regrettable fact to be noticed is that very little reference to the eastern provinces is made. It may be hoped that in future the east will receive the recognition as a promoter of Canadian athletics.

In today's issue of the Times are published the Canadian amateur records, as they are given in the Athletic World.

G. P. R. GETS OPTIONS ON OTTAWA PROPERTY

In connection with the reported C. P. R. property deal here, it is interesting to note that the company is securing options on about a score of private properties in the west end of Ottawa, adjacent to the round-house in Wellington street. It is said to be the intention of the company to enlarge that building, or to erect other buildings for railway purposes. The options are being secured by an Ottawa real estate agent, and practically all the properties desired have been secured. It is stated that about \$50,000 is the price paid for the fifteen or twenty properties.

JOHN FROBHAM'S SALMON BOAT

John Frobham's salmon boat, Mona, was third in the race on Saturday at Carter's Point, but there was a reason for it. Even as it was she made up part of the time thus lost and finished well.

THREE MEN UPSET INTO THE RIVER

JAMES SMITH, DAVID MAGEE AND MICHAEL READY OUT OF BOAT AT BELVEA'S POINT—READY'S PLUCKY ACT

Drowning accidents on the river this summer have been quite frequent, and another came nearly being added to the list on Saturday evening at Belvea's Point, where the best of the St. John Boat Club lay at anchor. Three members of the club, James Smith, David Magee and Michael Ready, were in a small tender, and had to battle for their lives in the chilling water. The work of getting into safety, was particularly difficult, as it was dark and the water was very rough. The three men were part of the crew of the steam launch "Mowhawk," and had just pushed off from that craft, when in some manner the tender in which they were rowing, was upset, and they were pitched into the river. Smith reached the yacht safely, but Ready noticed that Magee could not swim, and catching hold of the two were pulled aboard a rowing boat by Messrs James and Sydney Codner and George Andrews, after Ready had been with Magee for quite a distance. As both Ready and Magee are very big men, it was no easy task for the young men in the rowing boat, which was already filled with a party, mostly ladies, and the boat was in a very precarious position. The best of a huge bonfire, they dried their dripping clothes.

ASEPTO SOAP CO. TO ENLARGE PLANT

Have Made Much Progress Since Last May—Some of Their Plans

Since the Asepto Soap Company have taken over the business of the Welcome Soap Company, on May 1 of this year they have doubled the output of the factory. They have under consideration now the addition of another story on the building which will enable them to again double the capacity of the plant. The company started the manufacture of Asepto Soap Powder about eighteen months ago. The sale of this increased so rapidly that they purchased the Coll Soap factory and started the manufacture of Asepto soap as well. The sale of this soap steadily increased from the start, and they soon outgrew the capacity of the Coll plant. They then absorbed the Welcome Soap Company and applied expert knowledge to the perfecting of Asepto soap. They recently imported one of the ingredients from Spain, and there is no doubt that the soap is a very superior article and is in addition a valuable antiseptic.

FIRST SHOWING OF OUR New Fall Suitings

That Browns will be prominent if not predominate in Men's Fall Fashions is indicated.
Our first shipment of new fall suitings is now on exhibition in our Men's Custom Tailoring Shop. They are as handsome as we have ever seen for a season's opening.
Oak Hall custom-made clothing for men is of the kind that carries with it something more than mere clothing quality and fit.
Custom-made clothing falls of success unless it has built into it the individual expression of the wearer. It is the highest development of the art of clothing men.
